We observe that an interesting ques-tion of precedence has come up in the Montreal Methodist conference which is now in session at Ottawa. Dr. Douglas of Montreal introduced a resolution com-demning the present table on the ground that it gives archbishops and bishops precedence after the lieutenant governors of Ontario, Quebec, Nova Scotia and New Brunswick and before members of the cabinet. The resolution of Dr. Douglas, which was carried after an exciting de-bate, declares rightfully enough that the constitution of Canada knows nothing of the union of hurch and state, recognizing all sections of the Church as standing on the ground of equality. It declares that in this table of precedence pre-eminence is given to an Archbishop who is the appointee of the Primate of Rome to the official degredation of the clergy of all Protestant churches, and it resolves that "we hereby utter our decide protest against the aforesait order, and declare our purpose to employ all legitimate "we hereby utter our decide protest against the aforesit order, and declare our purpose to employ all legitimate "we hereby utter our decide protest against the aforesit order, and declare our purpose to employ all legitimate "we hereby utter our decide protest against the aforesit order, and declare our purpose to employ all legitimate "Will not be found deficient."
