MAYOR HARRISON'S MURDER.

Chicago's Chief Magistrate Killed by a Lunatic.

SHOT TO DEATH IN HIS OWN HOUSE.

Dies in Twenty Minutes—His Assassin Gives Himself Up—Intense Excitement in the City—Angry Mobs Surround the Jail.

Chicago, Oct. 28.—Another crazy crank has done his deadly work, and Carter H. Harrison, one of the best-known men of the west, lies dead at his home, 231 South Ashland boulevard. Three bullets entered his body, two making wounds sufficient to cause his death.

Chicago, Oct. 28.—Another crazy crank has done his deadly work, and Carter H. Harrison, one of the best-known men of the west, lies dead at his home, 231 South Ashland boulevard. Three bullets entered his body, two making wounds sufficient to cause his death.

Shortly before 8 o'clock the door bell rang, and when Mary Hansen, a domestic, opened the door she was confronted by a man about 5 feet 5 inches high, smooth shaven, with clean cut features, lit up by a pair of dark eyes.

As soon as Prendergrast began to fire, Harrison turned and walked rapidly to the door, and passed through the door into the butler's pantry, where, weakened by the loss of blood, he fell to the floor.

Prendergrast did not follow up his victim, but replaced the revolver in his pocket with the same deliberation that he had marked his actions, and walked towards the door. Just as he was passing out William Preston Harrison came tearing downstairs and the coachman ran into the room and directed the son to where the father lay, but the coachman was after other game.

Across Ashland boulevard, directly opposite the Harrison residence, is the home of W. J. Chalmers, a wealthy maker of mining machinery. Chalmers was in the street station when the shots were fired. He dashed across the street and met Prendergrast at the gate. "What is it?" asked Chalmers. The man walked away rapidly without replying.

car did not go very fast," he said, "or I would have been here sooner."

The cell door had barely closed behind the murderer, when an excited crowd began gathering about the police station, what I shot him for."

Prendergrast was trembling so that he could scarcely stand, and the officer led him to a chair and asked a few more questions, to which Prendergrast would only make the reply he had first given as to the cause of the shooting.

The streets were soon filled for blocks and the officers, as they looked out of the station windows upon the surging sea of angry faces, became alarmed for the safety of their prisoner.

Meantime tidings of the murder swept like an electric shock through the city. Everybody seemed to gather about the central station. Bulletins were posted about them eager throughs surged and struggled.

Chief Shea told him he was a doctor, and asked him, "Why did you kill the mayor?"

"Well," the man responded feebly, "he told me he would make me coporation counsel, and did not do it, so I shot him. That is all; I shot him."

Prendergrast; Patrick Eugene or Eugene Patrick, makes no difference which."

Chalmers said late to-night regarding the shooting: "I expressed to Harrison the hope that he was not badly wounded, but he said, 'I'm a dead man.' He repeated this several times and sank so rapidly that we knew there was no hope for him."

Prendergrast is crazy," said Corporation Counsel Kraus, who was perhaps the closest friend Harrison had.

Symptoms: Moisture; Intense itching and stinging; most at night; worse by scratch. It is often followed by a tumor, which often bleeds and ulcerates, becoming a cancerous growth.

FIRST SNOWFALL IN THE MOUNTAINS

Some More-Interesting Mineral Strikes—Armstrong's First Big Fire—A Case of Bigamy—Hardships of a Pack Team.

(Kootenay Star.) The recent snowfall and subsequent warm rain have sent the river up a few feet, and navigation can go on unimpeded for some time.

Geo. Laforme arrived down from Big Bend with his pack train on Sunday afternoon. He brought several chamois leather bags full of nuggets from the Consolation placer mine on French creek, of which George is one of the partners.

On Tuesday three C. P. R. engineers and the local bridge inspector spent several hours examining the Columbia river bridges, which has been undergoing a thorough overhauling recently.

J. D. McDonald, who has located two fine ledges on the divide between the Duncan and Landless, has been in town for a week under surgical treatment, having received a nasty cut on the mouth from a fall.

F. J. Lynch, who and two children came up from Nelson on last Wednesday's boat. Officer Kirkup, who had received a telegram from Mr. Fitzstubs to hold the man until further instructions, was at the landing and was charged with bigamy at the instance of Mrs. Lynch No. 1; the children were hers, and it was to gain possession of them that she took proceedings.

Geo. Laforme and Pete Laveque left Wednesday morning with the pack train for Big Bend. The snow was lying a few inches deep when they left, but they found the snow deeper and progress very difficult as they went on.

The editor of the Kootenay Star, Revelstoke, replies in this fashion to the carping criticisms of certain soulless 'kickers,' a species of animal, according to the indignant editor, all too common in that town.

There are some people in this town who complain of the smallness of the Star and of the manner in which the local news is condensed.

Vienna, Oct. 26.—The adjournment of the reichsrath is believed; this evening to be imminent. Count Taaffe's plan now is to reconstruct the cabinet in such a manner as to conciliate the opposition, although it is much doubted that he will be able to heal the breach between himself and the United German left under Ernest von Pleener.

Count Taaffe wishes to throw overboard Dr. Seinhach, finance minister, as being the original advocate in the cabinet of the suffrage bill; Baron von Frankenturn, minister of public instruction, because he drafted the bill, and Baron Slesky, minister without portfolio, because he left his seat for a fortnight during the discussion of the position which his Polish compatriots would manifest against the measure.

The Weekly Times

Victoria, Friday, November 3, 1893.

THERE IS DISCRIMINATION.

It seems that Minister Foster at Vancouver denied the statement that the Dominion tariff discriminates in favor of American as against British goods.

THE PROOF IS GOOD.

The Colonist has again been unfortunate in conducting the defense of its master the premier.

Mr. Greer rose in the audience and asked whether the Canadian tariff discriminated against Great Britain in favor of the United States.

Mr. Greer said he had in his pocket a clipping from a reputable paper in this province giving a mass of figures purporting to show such discrimination.

The very emphatic nature of the minister's reply will be noted.

The minister's answer to Mr. Greer was that the tariff did not discriminate in favor of the United States against Great Britain in certain lines of goods.

There was no more candid when he dealt with the burden of taxation.

ve meaning that the general expenditure in and around Victoria was to be lessened by some \$20,000 or \$25,000 to meet the annual extra burden imposed by the buildings.

Now I would like to know, if \$25,000 is going to be expended for this purpose every year, how that sum, distributed over the whole province, is going to short-cut the funds available for building roads and making permanent improvements?

Not content with that, it added its own statement that at Revelstoke "in reference to the parliament buildings the premier pursued precisely the same line of argument as he had followed at New Westminster, showing that, distributed throughout the province, the expenditure would not be felt."

An UNFULFILLED PROMISE. In the World's report of Mr. Foster's Vancouver meeting the following passage appears:

Mr. S. Greer rose in the audience and asked whether the Canadian tariff discriminated against Great Britain in favor of the United States.

Mr. Greer said he had in his pocket a clipping from a reputable paper in this province giving a mass of figures purporting to show such discrimination.

The very emphatic nature of the minister's reply will be noted.

ple themselves know that the heavy duties levied on many articles enable the manufacturers to raise the prices on these. They know that manufacturers combine to take full advantage of this opportunity, and therefore they are well aware that the N. Contemplation of the bad state into which municipal affairs in New York have drifted leads the St. Paul Pioneer-Press to moralize as follows:

Not outside of Russia probably can there be found such a political situation as exists in New York to-day. It is not only a supreme and crowning illustration of the tendency of making politics a separate profession in this country, and that a good imitation of it can be found in almost any large city in the United States.

At one of the recent sessions of the French Academy of Medicine, Dr. Perier, surgeon of the Lariboisiere hospital, presented for the examination of his colleagues a mute who expressed all his ideas by speech, that is to say, by madulated sounds.

An Ottawa dispatch says: "There are eight members of parliament who are on the eve of resigning, the most of them to accept berths in the government service."

One of the most amusing passages in Mr. Foster's speech was that in which he impressively called his hearers to witness that Canada had not felt any bad effects from the depression prevailing in the United States.

Those who were at the meeting cannot have failed to notice how faithfully the finance minister avoided the subject of British Columbia's heavy taxation under the N. P.

Minister Foster insisted most strenuously on making a fair comparison between Manitoba's progress and the progress south of the line.

The minister of finance was no more candid when he dealt with the burden of taxation.

The minister of finance was no more candid when he dealt with the burden of taxation.

527, showing an increase of nearly 300 per cent. What does Mr. Foster mean by an "honest comparison" anyway?

THE WOOL-GATHERING MINISTERS. To the Editor: Is it not rather surprising that neither Messrs. Foster nor Angers felt called upon to discuss at last night's meeting the wool-gathering question?

What the attitude of the government would be to another railway through the province terminating at Victoria?

Why the subsidized line of the C.P.R. steamers do not dock at Victoria and land freight and passengers like foreign lines do.

Why the C.P.R. is permitted to charge higher freight rates from points within the province to the coast of British Columbia than from points within the Northwest Territories to the coast.
