F. O. PETERSSON, Merchant Tailor

"She Looketh Well"

Referring to the liberal delegates who have gone from the maritime provinces to Ottawa to attend the convention called by Mr. Laurier, the St. John Globe says:—

It is pleasant to be able to record that many of the delegates are young men. They have faith in the future of Canada and are fighting to stem the tide of corruption that has so long held sway at Ottawa.

It is well, perhaps, that the two great political parties in Canada should each have its turn at ruling the country, but it must occur to those who know them both that the principal reason assigned by the Globe for the calling of the convention is not the belief that ought to accuse the liberals.

The constantly reiterated cry that "the tide of corruption" is very tiresome, for everybody who has the welfare of the country at heart knows that while it is indulged in for political effect, it is calculated to do Canada no little injury.

It is about as disloyal a thing as can be done, for it is playing into the hands of those who are jealous of the progress of Canada, by enabling them to condemn our institutions out of the mouths of our own witnesses.

There is, doubtless, corruption in high places at Ottawa, but it is not the rule, for we believe the aim of every responsible minister is to make as clean a record in his department as possible, and the result is that the Government of the Dominion is as honestly managed as that of any other country and much more so than many. Besides, it will seem very inconsistent for a party which still acknowledges Count Mercier, the late premier of Quebec, as one of its leading men, to assail its opponents on the ground of corruption.

If the liberal party is to eust the liberal-conservatives it will not be by seeking to establish a public belief that its members are the more honest of the two, but by devising a fiscal policy which will meet the general demand existing for enlarged and more equitable trade relations with the United States and as near a return as possible to a tariff in which the protection afforded our industries will be measured only by our revenue necessities.

It is remembered that great stress was laid by the liberals, in the last Dominion election, upon the fact that the party was for unrestricted reciprocity with the United States, and in hearty accord with premier Mercier of Quebec, who was Mr. Laurier's acknowledged first lieutenant and principal political mentor. Intelligent and influential liberals were forced out of the party at that time on account of that policy and alliance. The present convention is, doubtless, to decide upon a new policy and, we hope, more reputable lieutenant in Quebec. Much depends upon what it shall do in these important respects. The people are not to be caught by platitudes and generalities. They look for the adoption by the liberals of a practical policy of reform under the leadership of men in whom they have confidence, and it is only by such a policy that they can hope to succeed at the next elections.

Tuesday was the anniversary of the great St. John fire and in every way, as to wind and weather, identical with the 20th June 1877.

Monopoly in Insurance. The recent advance made in fire insurance rates in Chatham by the combination of insurance companies aptly illustrates the fact that the people are getting into the clutches of monopolies far too rapidly. Chatham has been a bonanza for insurance people and the recent advance of rates is simply a turn of the screw for the purpose of squeezing more money out of those who were already paying liberally for the risks taken.

We hope the raid upon the town will be reserved if possible for dropping where it is possible to do so. We have always favored industry against fire, but people might as well lose their property in smoke as to be robbed by the insurance combination.

The Bathurst School Inquiry. Bathurst, June 13.—At the school enquiry yesterday afternoon the Solicitor General intimated that, in view of certain conversations related by witnesses, it would be necessary to recall Dr. Inch. It was agreed in case of the argument adjourning to Frederick that Dr. Inch could be heard there.

Mr. Laurier asked, on behalf of the parties interested, that the argument be held at Bathurst. This matter was left for discussion at a later date.

Salmon-net owners. I hereby give warning that compliance with the law respecting salmon-net owners, without further notice. All salmon nets are to be placed in the water on or before the 1st of July, and the time of law water season to be six weeks, and the nets to be taken up every Monday morning, after midnight on any other day, and to be published as the law directs.

M. S. N. COY. The M. S. N. Coy. will run excursions for points down the coast to the Atlantic and back, for each excursion. Children, 50c. per trip. Free over 10 and up to 1 year. Excursions will be held at Bay du Vin or at Chatham, New Brunswick, on Wednesdays and Fridays from Newcastle, N.B.

DRS. C. J. & H. SPROLL SURGEON-DENTISTS. Teeth extracted without pain by the use of Nitrous Oxide Gas or Chloroform. Artificial Teeth set in Gold, Rubber & Celluloid. Special attention given to the preservation and repairing of the natural teeth. All work done in the most perfect manner. Office in Newcastle, opposite Square, over J. G. Barbour's Barber shop. Telephone No. 6.

Miramichi Advance.

CHATHAM, N. B., JUNE 22, 1893.

The Ottawa Convention. Referring to the liberal delegates who have gone from the maritime provinces to Ottawa to attend the convention called by Mr. Laurier, the St. John Globe says:—

It is pleasant to be able to record that many of the delegates are young men. They have faith in the future of Canada and are fighting to stem the tide of corruption that has so long held sway at Ottawa.

It is well, perhaps, that the two great political parties in Canada should each have its turn at ruling the country, but it must occur to those who know them both that the principal reason assigned by the Globe for the calling of the convention is not the belief that ought to accuse the liberals.

The constantly reiterated cry that "the tide of corruption" is very tiresome, for everybody who has the welfare of the country at heart knows that while it is indulged in for political effect, it is calculated to do Canada no little injury.

It is about as disloyal a thing as can be done, for it is playing into the hands of those who are jealous of the progress of Canada, by enabling them to condemn our institutions out of the mouths of our own witnesses.

There is, doubtless, corruption in high places at Ottawa, but it is not the rule, for we believe the aim of every responsible minister is to make as clean a record in his department as possible, and the result is that the Government of the Dominion is as honestly managed as that of any other country and much more so than many. Besides, it will seem very inconsistent for a party which still acknowledges Count Mercier, the late premier of Quebec, as one of its leading men, to assail its opponents on the ground of corruption.

If the liberal party is to eust the liberal-conservatives it will not be by seeking to establish a public belief that its members are the more honest of the two, but by devising a fiscal policy which will meet the general demand existing for enlarged and more equitable trade relations with the United States and as near a return as possible to a tariff in which the protection afforded our industries will be measured only by our revenue necessities.

It is remembered that great stress was laid by the liberals, in the last Dominion election, upon the fact that the party was for unrestricted reciprocity with the United States, and in hearty accord with premier Mercier of Quebec, who was Mr. Laurier's acknowledged first lieutenant and principal political mentor. Telephone No. 6.

action of the trustees was taken with regard to the feelings of the Protestant minority. The engaged Mr. Hall to satisfy the Protestant feeling. There are now 177 pupils enrolled, and according to the cubic air allowed for each sitting they could fill the public building and still have 24 pupils unprovided for. The trustees are compelled to send the children to the Catholic school during school hours, and therefore find grades are an absolute necessity. There are only 16 Protestant children in the whole district, and there are 224 Catholic school-going children.

Witnesses were asked the Sisters to teach in the Catholic school during school hours, and therefore find grades are an absolute necessity. There are only 16 Protestant children in the whole district, and there are 224 Catholic school-going children.

In evidence given by James Gammon, he said concerning so-called "Catholic" children at the rate that Charles Bos had told him P. J. Burns put him up to it, P. J. Burns brought Bos face to face with him and Bos then said, "If I told you (Gammon) that, I told a damn lie. P. J. Burns never put me up to do such a thing."

The first witness called this morning was Patrick Maloney, formerly trustee of Kinsale, district 8. He contradicted the statement made by Miss Alexander. He said he could not remember the meeting as he and his co-trustees, Hicks, intended to hire a male teacher to control the boys. They did not employ Miss Smith because it was January and the school was not fit for children. He never gave Miss Alexander a letter of introduction to a Catholic teacher. He never told her he wanted a teacher to teach religion. He never saw Miss Alexander never offered to lend money to repair the school. Witness heard one of two ratapays who they professed Catholic teachers and who were employed Miss Whelan seven months later in fine weather without repairing it. In hiring teachers it was never made a condition that Catholicism should be taught. He knew the people desired a Catholic teacher, but he never told Mr. Hicks so. He could not give the reason why he did not tell him.

Mr. McManus next resumed the giving of evidence. The sum voted for this year was \$600; the sum assessed \$645.55. There is \$70,000 of assessable property in the district. Of which Catholics are assessed on \$31,500 and 32 Protestants on \$19,200 non-resident Catholics, Protestants and corporations are assessed on \$19,850. The Catholics pay an assessment of \$15,181; non-resident Protestants and Catholics pay \$182.35. Two Protestants have paid \$880 a year for the school. Mr. McManus said that the school was founded in 1864 to 1871. After they left it was occupied by Sisters of the Congregation of Notre Dame till 1890. After the enactment of the school law, when Protestants were admitted, the school was divided into two parts, the Catholic part of the school was supported by the voluntary contributions of Catholics. After the enactment of the school law, a strong feeling of discontent and dissatisfaction was manifested among the Catholics, and the school was divided into two parts, the Catholic part of the school was supported by the voluntary contributions of Catholics.

After the enactment of the school law, a strong feeling of discontent and dissatisfaction was manifested among the Catholics, and the school was divided into two parts, the Catholic part of the school was supported by the voluntary contributions of Catholics.

the grammar school would not be required after the end of the term. The resolution carried without dissent. Witness then said it was necessary something more should be done. The assessment had then been voted. A resolution was passed, later, that no portion of it should be used for the grammar school. The witness said the seven pupils attending the grammar school could be provided for in some other way, say at the superior school, which was being done from the point he put it. That evening, he thought, he had a visit from Rev. Mr. Sellers, who expressed dissatisfaction at the result and dissented from the (Barnes) views. Spoke of the hardship inflicted on parents of children going to the grammar school. Witnesses, who had since the meeting learned there was a proposal to close the superior school in the village, agreed with him that a hardship was being done from the point he put it. Mr. Sellers spoke strongly but as a gentleman. He said, in view of the action of the people, he felt called on to enter into the fight, from which he had hitherto refrained, and to make public statements in the country. Mr. Sellers said it seemed to be part of a general scheme to remove Protestant teachers from the schools. With this he was in agreement, and he had no objection to his record and associations as proof that he would not be party to such a thing. Shortly after he had (Barnes) had an interview with Dr. Inch, who visited his office at Bathurst, and referred to the statement he had made at the meeting of the board of education and said he was in December last. This matter and some new proposed school regulations were talked over. Witnesses assented to close the school, and referred to the meeting that attended a public school meeting and acted as chairman, Dec. 23rd, 1892. (Minutes of meeting read.) Quite a number of ratapays attended, and the meeting put it to a vote, by which, through the relations, other than Dr. Inch had shown him, were proposed, of a nature likely to lead to great dissatisfaction. He did not believe it was his duty to lead them on, as the same time as a matter of prudence, advising an adjournment. Witness then took occasion to repeat the remarks he had made at the annual meeting with regard to the school, and referred to the statement Mr. Sutherland had made, denying that the school looked to the closing of the grammar school, and was moved because of the high salary paid Mr. Coperthwaite and his colleagues. He said that the school would not be a lie, but economized the truth, as his resolution followed his (Barnes) remarks, in which no reference was made to Mr. Coperthwaite's salary. These being some different opinions about the school, Sutherland said, a resolution was passed against the reading of that part of the minutes. Secretary O'Brien proceeded to read the minutes, and the school was closed. As chairman, ordered him to only read that part covered by the resolution. This decision gave rise to some comments, but Rev. Mr. Sellers in a neat, off-hand way treated the matter, and the school was closed. It was the Church of England catechism; was not like the Roman Catholic catechism altogether. One taught there were two sacraments, the other seven sacraments. Witnesses, who had taken from the assessment roll of the town. He said there would be 55 Protestants, instead of 54, of whom 22 were satisfied with the existing school. He said that the school was closed. Mr. Skinner objected to this classification. Mr. Lawrence objected it was inadmissible as against Mr. Thomson's classification. The court ruled in Mr. Skinner's favor, and the school was closed. Mr. Lawrence in detail as to the assessment of all Protestant ratapays, no matter what petitions they signed. From his figures it would appear that of 174 ratapays in the town, 151 were satisfied with the existing condition of school affairs.

Witnesses were asked the Sisters to teach in the Catholic school during school hours, and therefore find grades are an absolute necessity. There are only 16 Protestant children in the whole district, and there are 224 Catholic school-going children.

In evidence given by James Gammon, he said concerning so-called "Catholic" children at the rate that Charles Bos had told him P. J. Burns put him up to it, P. J. Burns brought Bos face to face with him and Bos then said, "If I told you (Gammon) that, I told a damn lie. P. J. Burns never put me up to do such a thing."

The first witness called this morning was Patrick Maloney, formerly trustee of Kinsale, district 8. He contradicted the statement made by Miss Alexander. He said he could not remember the meeting as he and his co-trustees, Hicks, intended to hire a male teacher to control the boys. They did not employ Miss Smith because it was January and the school was not fit for children. He never gave Miss Alexander a letter of introduction to a Catholic teacher. He never told her he wanted a teacher to teach religion. He never saw Miss Alexander never offered to lend money to repair the school. Witness heard one of two ratapays who they professed Catholic teachers and who were employed Miss Whelan seven months later in fine weather without repairing it. In hiring teachers it was never made a condition that Catholicism should be taught. He knew the people desired a Catholic teacher, but he never told Mr. Hicks so. He could not give the reason why he did not tell him.

Mr. McManus next resumed the giving of evidence. The sum voted for this year was \$600; the sum assessed \$645.55. There is \$70,000 of assessable property in the district. Of which Catholics are assessed on \$31,500 and 32 Protestants on \$19,200 non-resident Catholics, Protestants and corporations are assessed on \$19,850. The Catholics pay an assessment of \$15,181; non-resident Protestants and Catholics pay \$182.35. Two Protestants have paid \$880 a year for the school. Mr. McManus said that the school was founded in 1864 to 1871. After they left it was occupied by Sisters of the Congregation of Notre Dame till 1890. After the enactment of the school law, when Protestants were admitted, the school was divided into two parts, the Catholic part of the school was supported by the voluntary contributions of Catholics. After the enactment of the school law, a strong feeling of discontent and dissatisfaction was manifested among the Catholics, and the school was divided into two parts, the Catholic part of the school was supported by the voluntary contributions of Catholics.

After the enactment of the school law, a strong feeling of discontent and dissatisfaction was manifested among the Catholics, and the school was divided into two parts, the Catholic part of the school was supported by the voluntary contributions of Catholics.

pass under the rod. These charges were to be drawn upon and deducted from the amount of the grant. A board of education was not necessary to get through this world in a practical way. Mr. Skinner—Who said it was Burns they were after.

Witnesses—I heard that Mr. Fowler said so. Mr. Fowler—I fully deny it. Who was your informant? Witnesses—Wm. Walsh, station agent at Gloucester Junction, told me that Jerome Boudreau informed him you said so on the train from Campbellton.

Mr. Fowler—I utterly deny any such thing. I am a witness as usual, and am not a party to the case. Mr. Boudreau was here in court a little while ago and can be called.

JOHN SWEENEY, M. P., testified that he was at a special meeting called in December, '92, to reopen the grammar school, which had been practically closed. He opposed the closing. Witnesses corroborated Mr. Burns' statement of what took place there in general, but differed from him as to how the minutes of the annual meeting came to be called for. He knew personally that the leading Catholics who attended the meeting, Mr. Barry and Mr. Burns, favored a Protestant for principal of the grammar school. Action was taken by Mr. Sellers to prevent O'Brien's appointment. Would swear that Rev. Mr. Sellers was not a member of the board of education and he said he Thomson would not write to the press till the board had time to act and if he did not, then look out for a thunderbolt. He said he had not mentioned to any one, either directly or indirectly.

Mr. Lawrence—Did see the letter P. Varrily wrote to Dr. Duncan, but it was in confidence, and he had not mentioned to any one, either directly or indirectly.

Hon. Mr. White explained on behalf of Mr. Sellers that the telegram to Mr. Pitts did not have a title at each end in the original.

LIZZIE GARBET, a teacher, taught for a term in 1889 or '90 at Miramichi school in this county. It was called Bass river district. Only ten families had been in the school at that time. Witnesses testified that Roman Catholic and Protestant catechism, the latter at the request of one of the Protestant trustees. No one asked to leave the Catholic catechism. She had a normal school house.

Mr. Skinner—Was a Roman Catholic, but not the Sister of Charity. Taught the two catechisms all the term; could not explain the difference between the two. It was the Church of England catechism; was not like the Roman Catholic catechism altogether. One taught there were two sacraments, the other seven sacraments. Witnesses, who had taken from the assessment roll of the town. He said there would be 55 Protestants, instead of 54, of whom 22 were satisfied with the existing school. He said that the school was closed. Mr. Skinner objected to this classification. Mr. Lawrence objected it was inadmissible as against Mr. Thomson's classification. Miramichi and the North Shore etc.

"OR A SLEW"—The Chatham Dominion public building.

TYRONE POWEN'S COMPANY which performed in Chatham on Thursday and Friday evenings last week was the best in every respect that ever visited the town.

UNPARALLELED! (with the street)—The new Dominion public building.

LET JULY EXCURSIONS—There will be Dominion Day excursion rates on the Canada Eastern Railway—one fare both ways between all stations.

OUT OF LINE WITH THE FASHION—See the new public building that is being put up on Water street.

STORE TO RENT—See Mr. Creighton's advt. The stand is a most desirable one being next door to the new Dominion public building which stands obliquely on Water street.

THE ARCHITECT who placed the new Dominion public building on Water street must be a "crooked" disciple.

THE JOHN BOY—Our old friend, the John Boy, is here again, bringing everybody in the eye with his old time, friendly—Bradford Bay.

STRENGTH is expected to find work still going on upon the new Dominion public building that faces "left oblique" on Water street.

FOR OTTAWA—W. S. Logan, Esq., is the only delegate who went from Northumberland to the Liberal convention at Ottawa. He makes up in ability what the delegation may lack numerically.

FRONT made some of the country districts a visit last Thursday night. That squared off the score of temperature, which was a little more than 90 in the shade on Wednesday.

"LEFT HALF WREN"—and you have the alignment with Water street of the front of the new Dominion public building.

NO SHIPS—At no period in the history of Miramichi has there been so long a time as has been without even a single square-rigged vessel in the harbor, as has been the case since Friday last, when the barque Ragnar left port.

BLACK RIVER ABANDONED—At a meeting of the congregation of Black River, held in the church on June 14th, it was unanimously resolved that the Rev. J. E. Dinkensman give six weeks' holidays, or until last August.

GOOD FISHING—They are having a good time at Camp Adams. Mr. Chas. Hamilton of St. John arrived there on Sunday last and on Monday morning killed his first fish. Between Friday morning and Monday afternoon the party killed 17. The water is quite low.

UNION CLUBS—The annual meeting of the Union club, St. John, was held on Monday evening, when the following officers were elected: John McMillan, president; W. H. Thorne, vice-president; E. Dinkensman, secretary. Committee—Geo. E. Dinkensman, Miles B. Dixon, A. W. Lovett, Geo. W. Jones, Howard D. Troop, George McLeod.

A SAD DEATH—A despatch of 14th. states that Nathaniel Wilson, a well-known lumberman and farmer of McNab's, Parish of Ladlow, was found dead the day before last about noon, at his log landing, near his home. The deceased was about putting in a landing of logs when he was struck on the head with a mill and instantly killed. His death body was found by two young men. He was about 48 years of age and leaves a widow and three children.

DON'T NEGLECT IT! The Str. Miramichi broke her propeller at Negus on Friday. The accident happened at about the spot where she was wrecked last year. Two additional blocks are needed before the big outer block is placed in order to have water sufficiently deep for the boat. It is to be hoped the department at Negus will be induced to look promptly into this matter.

ST. JOHN FASHIONS—Dress fashions here generally vie up and everybody is glad. Several vessels were fixed yesterday, all at advanced rates as compared with what have been given lately. The Windsor shipy Achlow, 1,474 tons, cost 40c on delivery to Bristol Channel; the barko Forre, 720 tons, and G. S. Perry, 737 tons, 40c, to Belfast; barko Sidarra, 463 tons, 45c, to Galway; and brig, Loyalty, 346 tons, 45c, to Dundalk.—Sun, June 20.

PERSONAL—Mr. William Richards, the well-known Miramichi lumberman, has been very ill at the Barker House for the past few days.—Monday's Globe.

We are glad to hear that Mr. R. is rapidly recovering.

Mr. C. E. L. Jarvis met with a very painful accident a few days ago. While stopping over he ran a jaw into his eye, which caused a severe laceration not serious wound. It is attended by Dr. Morrison, and it is expected will be out again in a few days.—Telegraph.

Mr. Jarvis cannot have a very sensitive organism, or he would have ceased to "stop" "over" on the head of the steam engine when his eye's approach to the flame or jet referred to. We do not understand how he could have run the jet into his eye. Conditions can be imagined under which a burner, either cold or emitting a gas flame might run into a man's eye, but if he would hardly be out again in a few days, and would, certainly, lose the eye. We don't believe the "Telegraph" story, anyhow, but as Mr. Jarvis is very well known on the Miramichi his friends would like to know the truth concerning the mishap with which he met.

Donkton Notes. Weather very dry and crops are in much need of rain. Some forest fires are starting. The main river drive is a little below Bowen's. It drags slowly on account of low water.

This spring Mr. James Taylor went to work with Robert Swin and was taken with cramps while plowing. He went home and died in two days, leaving a wife and one child.

Mr. Richard Attridge was having some hay pressed and drove down to see how the work was progressing. He stopped on the platform of the machine when it gave way, throwing him headlong to the floor. He struck the hardwood of the machine with such force as to break several ribs and sustain other injuries. Owing to a remarkably good constitution he is recovering rapidly. It was thought by his friends that he was done for, but it will not be long until Richard will be himself again.

A few weeks Nathaniel Wilson went to roll a log into the river. His wife sent a boy to tell him to come to dinner. The lad found him lying dead, having been

struck on the forehead by a skid. He was the sole support of his aged parents.

Last week Mr. Samuel Freen had the thumb of his right hand taken off by his planting machine.

The wife of William Bartlett, who lives on Mr. Attridge's lower farm is expected to die at any moment. Dr. Wier has been busy day and night.

Robert Swin has sold out his interest in his horse and carriage to F. D. Swin and Mr. Kelly of Fredericton.

HAWKERS' NEURALS STOMACH TONIC is a perfect blood and health, and nerve and brain invigorator, as well as a valuable aid to digestion. Price 50 Cents a bottle, 6 bottles \$2.50. For sale at all druggists and dealers. If you are weak and run down try this great health restorer.

REAL ESTATE SALE—Auctioneer Wyse sold several properties by auction yesterday in front of the post office. They belonged to the Mainland estate and were disposed of in the interest of the Merchants' Bank of Halifax, which secured them by warranty in all matters, save down, to purchasers.

The 16 acre field on the station road and Canada street brought \$21,150, the 7 acre Danes farm 8500, the Lane house, Foundry lane 8000, the old mill wharf near the Miramichi foundry \$375 and the lots opposite the Richards mill \$225.
