### A VIENNA PAPER.

Says That Britain Rules Asia as Well As Africa.

LONDON, June 4.—The Vienna correspondent of the Times says the extreme Clericals are exasperated over the triumphs for British arms and the increase in British prestige through the turn in South African events. The Vatterland says the causes of the inaction of Great Britain's enemies during the war were the desire for peace of the world and the hope that Great Britain would be permanently weakened, with neither the means nor the desire for fresh enterprises. The Vatterland is now dismayed to find that Great Britain has been gaining influence in Yemen, (Arabia), where, it says, the disturbances are the consequences of persistent British intrigue. The Vatterland quotes from a Munich paper a statement by a "distinguished authority on eastern affairs." He says that Great Britain has secured absolute predominance in Asia as well as Africa, and gives the credit to Lord Curzon, the viceroy of India, who, he says, is the coming man.

### C. P. R. IN MEAT TRADE.

The Canadian Pacific Railway has secured control of the stock of the Union Abattoir Company, Montreal, and intends establishing at Hochelaga an abattoir and connecting buildings modelled on the plan of the big establishment in Chicago, with more up-to-date methods, for the object of controlling the British and foreign market in dead and live meat.

### INTERNATIONAL POLO.

The American Who Used Spurs Is Excused.

LONDON, June 4.—The Waterbury-Shrewsbury incident, arising from the use of spurs by Lawrence Waterbury, while playing polo at Hurlingham, Saturday, against which Lord Shrewsbury protested, has been settled out of court by an exchange of letters from Foxhall Keene, in his capacity as captain of the American team, and Lord Shrewsbury. Mr. Keene expressed regret that there should have been any cause during the game for Lord Shrewsbury's expression of feeling. The latter accepted the explanation in the spirit it was written, attributing the incident to the excitement of the game. The dispute was settled largely through the friendly intervention of the Earl of Lonsdale.

### POLICE COURT.

Burns and Lauchner Again—A Great Thirst—Phil Bushan.

There was trouble on Duke street last night. Three innocent people in the vicinity of Blood Alley who have for years been exposed to the annoyance of the police, who are never really guilty of anything, and who seldom are punished, were having some more fun. Minnie Burns has just been released from jail on the charge of inserting a hatchet into Alex. Diggs' face, and last night she got into trouble with G. H. Lauchner. He broke some of her windows, and Minnie gave him a good beating. She appears to be some strong attraction at the Burns woman's house, for poor innocent Minnie is greatly troubled with these persons. Lauchner was arrested and upon pleading guilty this morning was fined twenty dollars or two months.

Lavinia Bantry has for years been playing her thirteenth against her capacity, and it is still a safe bet whichever way it is taken. Last night the effects of her conduct were disastrous, and Officer W. Sullivan took her in charge. This morning Lavinia desired the magistrate to note an objection. She said she had been arrested on her own place and not on the street. Her opinion did not agree with that of the officer and the case was adjourned until two o'clock.

Phil Bushan, also of Duke street, had been drunk on Wentworth street. This much he admitted, but his memory could not recall the violent resistance he offered to the police. Officer Sullivan is however possessed of a good memory and related the facts to the court. Phil was fined sixteen dollars or two months hard.

James Sullivan, for being drunk on Dock street, got four dollars or ten days.

### MR. LEAVITT'S INSPIRATION.

A. Gordon Leavitt has another curiosity. He firmly believes that the greatest thing in the world is to turn the energies of the enemy towards useful services for ourselves. The curiosity is a result of his efforts. In some manner he became the possessor of a pair of wings at one time belonging to a ruffled grouse, erroneously called a partridge, and which Mr. Leavitt complacently refers to as Bonassia Umbellus. It was absolutely necessary in order that the specimen should become an object of interest that its feathers and other appurtenances should be removed. The hand of man is an awkward tool to accomplish this work, and moreover it requires time and patience. Mr. Leavitt thought. Then he went out and obtained a number of insects commonly called, when at a distance, brown men. The names applied to the innocent creatures when they get in a wardrobe are not to be published. The wings of the Bonassia Umbellus and the brown moths were placed together and now the specimen is perfect. It was plucked as cleanly as a Christmas turkey.

### NOBODY WILL OBJECT.

Proposal to Bring Boer Rebels to the United States.

NEW YORK, June 3.—As a result of the penalty which the Cape Colony Boers who assisted the Boers of the South African Republic and the Orange Free State may be called upon to pay by the terms of the peace agreement, an effort may be made to find homes for some of them in the United States. W. D. Snyman, of Cape Colony, who fought with the Boers and who has been speaking in the United States for the Boer cause, during the past year, said regarding the terms of any peace: "The colonial Boers are to be punished. I am a colonial Boer, being a British subject, and am liable to imprisonment for from five to ten years if the terms as published are correct. I am acquainted with Pres. Roosevelt and shall see if there is not a way for some of our people to come to this country. I think there is a great opening for us here. There are a few here now, but in Portugal there are a great many colonists and they may not want to return to South Africa now. They are men well born. If the United States government would open the way they would be glad to settle in some state like New Mexico, Arizona, Texas, or Colorado. They would make good citizens; no one would be ashamed of them. I shall use every effort to open the way to bring them here."

Mr. Snyman's son, who fought with him in South Africa, has just passed his examinations for admission to Columbia university.

### TOO FINICAL.

"But," protested the reformer, "we know nothing of his character." The practical politician looked weary. "Well, what of it?" he demanded; and there was an all-knowing anything about it. "If you did know anything about it you wouldn't be satisfied with it."

### SOUTH AFRICA.

Kitchener Reported to Have Left For England.

Only Six Boer Delegates Voted Against Peace—Botha's Letter to His People.

DURBAN, Natal, June 4.—The Times of Natal states that Lord Kitchener has left for England, and that General Lyttleton is acting commander-in-chief of the British forces in South Africa. PRETORIA, Transvaal, June 4.—The ballot of the Boers at Vereeniging resulted in fifty-four votes in favor of surrender and six against it. Preparations are being made here for the surrender of the Boer commando, which will take place on the race course. All the Boers are allowed perfect freedom. There will be a thanksgiving meeting Sunday, June 8, on the church square, in which it is hoped the Boers will participate.

The women in the concentration camps are anxious to return to their homes immediately, but this will be impossible until a system of supply depots for the outlying districts is established.

Gen. Baden-Powell is arranging for the distribution of mounted constabulary in various districts. The police, railroads, and telegraphs will be handed over to the civil authorities as soon as possible, and the restrictions of martial law will be gradually relaxed.

The Boer delegates who, during the peace negotiations, were stiff, formal and unfriendly, are now extremely cordial. All the commandants are returning to their commands in order to explain the situation.

Gen. Louis Botha, the Boer commandant general, has written an open letter to the burghers, thanking them for their obedience in the past and exhorting them to be equally loyal in their obedience to the new government.

Lord Kitchener's address to the Boer delegates, at Vereeniging, in which he said that if he had been one of them he would have been proud to have done so well in the field as they had done, made the best possible impression and drew forth a hearty response from General Byers, the chairman of the Boer conference, who expressed the pleasure the Boers experienced at meeting Lord Kitchener as a friend, adding that they had fought so long against him that they had acquired full appreciation of his worth.

The departure of the Boer commandants from Vereeniging for their various districts was marked by remarkable scenes of fraternization. The trains conveying the Boers started late and the night being extremely cold, the sentries along the railroad track lighted huge bonfires, round which groups of Boers and Britons gathered, forming a high-spirited scene. The late opponents joined in such songs as "Old Times Come Again No More" and "Old folks at home." The British soldiers and the burghers outlying one another in their demonstrations of joy. In brief, the scenes at the departure of the Boers resembled nothing so much as the starting of huge picnic parties. The same signs of rejoicing were witnessed throughout the Rand. Flags were displayed everywhere and thanksgiving services were held in all the towns.

### KITCHENER GETS \$250,000.

LONDON, June 4.—In the house of commons today the government leader, A. J. Balfour, presented a message from King Edward, as follows: "His Majesty, taking into consideration the eminent services rendered by Lord Kitchener, and being desirous, in recognition of such services, to confer on him some signal mark of his favor, recommends that he, the King, should be enabled to grant Lord Kitchener 50,000 pounds, (\$250,000.)"

### TO BUILD 3 BIG STEAMSHIPS.

ST. PAUL, Minn., May 30.—It is reported that the Great Northern Steamship Company, of which James J. Hill is president, has decided to build three more ships for the Oriental trade between Seattle and China. The company now has two ships under construction and it is intended to launch them during June or July and have them commissioned before the winter season opens.

These two ships have a displacement of 40,000 tons each, and the following dimensions: Length, 630 feet; beam, 73-1-2 feet; and depth of hold, 55 feet.

The three additional vessels are to be built along the same general lines of the two now on the ways. It is expected to have them ready for service early next spring.

### RAILWAY WRECK.

Two Persons Crushed to Death and Many Injured.

REDDING, Cal., June 4.—The south bound Oregon express on the Southern Pacific road, which left Redding at 10.45 o'clock last night, was wrecked about fifteen minutes later near Clear Creek, four miles from this city. The accident was caused by a half open switch, which had evidently been left in that condition by some unknown person. The train was a "double-header" and was running down grade at great speed. Both engines were thrown into the ditch and completely wrecked.

Engineer J. M. White and Fireman Fred Taffel, of the forward engine, were thrown under the wreckage and crushed to death. The mail car was thrown across the track and all of the passenger coaches were dented. A number of passengers were more or less injured, but so far as can be learned, none were killed. The names of the injured passengers have not yet been ascertained.

### THE RUSH FOR GOLD.

Fabulous Wealth of the New Thunder Mountain District.

SALT LAKE CITY, Utah, June 3.—An army of 6,500 prospectors from almost every state in the union, has begun the rush to Thunder Mountain, the new El Dorado of fabulous richness. Not since the memorable stampede to the California gold fields in 1849 has the frenzied search for the yellow metal reached the present stage, nor have such alluring prospects been held out since those exciting days.

Camped along the trail for miles, living in tents, with bunks burrowed deep into the snow, the army of prospectors has braved the intense cold, only waiting word from the mountain that the snow had melted and the trails were clear, before beginning the terrible trip up the mountain, 70 miles through unexplored country to the gold fields, that promise to be the richest in the world. One hundred square miles of ground full of gold and silver is there undeveloped. It is a race to capture the most valuable claims.

Mining experts sent into the fields by operators and by the state and federal governments have made stirring reports of the immense wealth of the ore. The assay of samples by local assayers yielded returns of from \$200 to \$58,800 to the ton of ore. The gold in some cases was so pure that it could almost be cut with a knife. In the pan the precious metal is easily discernible with the naked eye.

Nuggets of almost pure gold by the sackful have been brought out of the mountain and amazing stories are told of remarkable finds. Prof. John T. Day, chief of the division of mineral resources of the geological survey at Washington, and a force sent out by the government to examine the Thunder fields are expected here next week.

Provisions are scarce in Thunder. The prices quoted are \$30 a sack for flour, \$75 a sack for sugar, \$1 a pound for coffee, 60 cents for half a pound of soda, 75 cents a pound for bacon, \$1.50 for a ounce can of baking powder. There is no salt to be had in there at any price. This lot of supplies was taken in on three pack horses, which had to travel on snow shoes.

### THE MYSTERY SOLVED.

RANGOON, British Burmah, June 4.—The British steamer Camorta, from Madras for this port, with 650 passengers, which was believed to have foundered May 6 in a cyclone, owing to the discovery of wreckage, has been discovered sunk at Baragus Flats in the Irrawaddy Delta, directly in the track of shipping. Her topmasts are protruding above the surface of the water.

### ANOTHER VOLCANO.

BAKU, Russia, June 4.—The Gushy-gran, a mud volcano, near the village of Kobi, Caucasus, has erupted, accompanied by cannon-like reports. The country around the volcano for some distance was enveloped in flames, but no fatalities have been reported. A few shepherds were burned and some flocks of sheep destroyed.

### BRIEFS BY WIRE.

LONDON, June 4.—William Clark, head of the Clark thread industries, who has been suffering from gout and influenza, at Bath, England, is now improving in health.

LONDON, June 4.—Eight miners were burned to death today, as the result of an explosion of gas at a colliery at Dowlais, Glamorganshire, Wales.

### BISHOP GRANDIN DEAD.

(Special to the Star.) WINNIPEG, Man., June 4.—Bishop Grandin, first Roman Catholic bishop of St. Albert, died yesterday at St. Albert, after a long illness. Bishop Grandin, whose see included the entire territory of St. Albert, was the senior bishop of Canada, having been consecrated in 1859. He came to the north-west about 1891.

The 12 1-2 per. cent. DISCOUNT SALE which will last for one week ought to be a strong inducement for every person wanting dry goods to come to Dykeman's.

### WHEN THE EDITOR TURNED.

The youthful author pocketed his rejected verses, but he could not swallow the editor's criticism. "Sir," said he, not without dignity, "a poet is born, not made." "Young man," returned the editor blandly, "it won't help your case to try and shift the blame to your parents."

## BIG TRANSACTION IN CATTLE.

W. G. Conrad Makes Deal Involving More Than Two Hundred Thousand.

Live stock deals for a consideration exceeding \$200,000 were closed at Great Falls, N. D., last week, by W. G. Conrad. He sold to Pat Burns of Calgary, the largest beef shipper of the Northwest Territory, the beef crop in Canada for the season of the Conrad Cattle Company and the Conrad-Harris Cattle Company, for \$188,750. The first delivery of stock is to be made at Calgary by July 15, the second delivery in August, and the rest on or before Oct. 30. The cattle will be killed by Burns and stored in his great refrigerators at Calgary for shipment all over the Canadian Northwest, while a large number of the fine beef will be shipped alive to Liverpool for the English market. Mr. Conrad also sold to a Montreal firm 700 head of beef cattle across the Canadian line, owned by the Conrad-Price Company, at \$38 a head on the range. Delivery is to be made partly in June and partly in the fall.

## RACE PREJUDICE ON GALLOWES.

NEW ORLEANS, May 30.—The Mississippi supreme court has decided that Will Mathis and Orlando Leser, the counterfeitters, shall be hanged at Oxford, on June 24. Orlando is a negro, who was Mathis' tool. They killed two revenue officers. Mathis protested violently against being hanged side by side with a negro. He thought it a reflection on the race of whites. The Mississippi supreme court failed to sympathize with this plea and the two men will be hanged together.

## ST. JOHN STAR.

ST. JOHN, N. B., JUNE 4, 1902.

## ASPHALT PAVEMENT.

The city of Worcester, Mass., is considering the question of laying down asphalt pavement on some of its streets. Replying to some criticisms Street Commissioner Prior makes these remarks, which will no doubt be of interest in St. John, where the question of street paving is one much talked about from time to time:—

There is no question but that asphalt is the more costly pavement to maintain, when the item of repairs alone is considered, but when you come to consider the economical side of the question fully, there are other things to be looked at. Asphalt causes less wear and tear on the vehicles and is less expensive to keep clean, so that the small extra cost of maintaining the asphalt will be more than made up to the taxpayers in these other considerations.

"It has been stated that in my estimate of \$2.50 per square yard for laying asphalt, I am recommending a cheap pavement. I am not advocating a cheap pavement. I think bids will be submitted that will be reasonably near my estimate. The replies received by the committee on municipal affairs of the board of trade show that asphalt has been laid for from \$1.50 to \$2.25 per square yard. The average cost for laying asphalt in 36 cities in Worcester's class in 1900 was \$2.28 per square yard, with guarantees of 5 and 10 years. Nineteen of the cities had 10-year guarantees.

"Even if we had to pay \$2.75 per yard, we would be getting more value for our money than we do when we pay \$1.65 a yard for granite blocks. A few years ago we were getting these granite blocks for \$1.10, and then the price was raised to \$1.17 and now it has been jumped to \$1.65. We got exactly the same grade of blocks for \$1.10 that we now get for \$1.65, so that the price for an article does not necessarily determine the quality.

## MR. TARTE SPEAKS.

Hon. Mr. Tarte has been talking transportation again. Mr. Tarte's organ of speech is not likely to suffer from atrophy. If the subject is not transportation it is something else, and the minister can express himself with a fine air of sincerity and conviction. Thus it was he talked in St. John some years ago, about dredging; but the dredging has not been done. On this last occasion, as on several others within the last few months, Mr. Tarte has talked about St. John as a winter port. Surely those liberals in St. John who rallied at the wicked Tories, must have experienced a severe shock when they learned that Mr. Tarte would make Halifax the terminus of the fast mail line and give St. John a fast freight service. It was for such a proposition as this that grit voices called for wrath and fury on the liberal conservative government. Will they now denounce Mr. Tarte?

But since Mr. Tarte has an interest in St. John, why does he not undertake to do a little dredging at Sand Point this summer, to aid in providing another steamer berth before next winter? We will accept his faith—send along the works, as per resolution of the city council yesterday.

## COND. SKILLEN'S STATEMENT.

The Telegraph, in its zeal to show that the provincial government could not be in any way responsible for any bridge accidents because of failure to have proper inspection of such structures, published a few days ago with very large headlines an interview with Conductor Skillen, of the Central Railway, in which he expressed the personal opinion that the bridge at Washade-moak had been tampered with.

The following report of the evidence given by Cond. Skillen at the inquest is of interest in this connection:—

"I did make a statement that the bridge had been tampered with. I said I knew of no reason for it going down unless it was tampered with. I did not know it was wrong of me to make any such statement while this matter was before the court. I had no positive grounds for saying so. I did not make the statement for publication. I made it to Mr. C. J. Milligan, manager of the Telegraph. It was merely my opinion."

There is no money in the civic treasury to pay for the services of a policeman in Rockwood Park. We may therefore presume that unless a subscription is taken up the women and children who go to the park in summer will have no protection from insult by drunken toughs, who may select the park as an outing resort. Nice prospect—very.

It appears by no means certain that the Ross government in Ontario has a working majority. The Mail and Empire says it is the opinion of good lawyers that two seats claimed by the liberals should go to the conservatives, while recounts in several constituencies where the majority was very small may give the seats to the opposition. The supremacy of gritism in Ontario, is therefore very seriously jeopardized, if it is not entirely overcome.

A Winnipeg dispatch states that the Canadian Pacific land department sales

for May 1902, were 207,153.05 acres, for \$736,021.45, against 40,459.30 for \$123,614.59, for the same period in 1901. Canadian North-West Land Company sales for the month just closed were 22,001.04 for \$167,829.41, as compared with 9,599.41 acres for \$53,030.13 in May, 1901.

The world has heard the last of Kruger and Steyn. These men loomed large in the public eye three years ago, and doubtless dreamed of fame and conquest. They were unworthy of the high position to which their dupes had elevated them, and now there are none to do them reverence. Their humiliation is so complete, and their course was so unwise, that any attempt to hold them up as martyrs can only excite a half contemptuous pity.

## ACADIA CLOSING.

Class Day Exercises—The Seminary Prizes—Alumnæ Reunion.

Yesterday morning the class day exercises of Acadia University took place and were, as usual, highly interesting.

In the evening the graduating exercises of the seminary were held in College Hall, which was prettily decorated with the class colors and crowded to the doors. The seminary closing is generally held to be one of the most interesting features of the commencement season, and this year was no exception to the rule. Following is the programme:—

Processional march—Miss Mary Davidson and W. L. Wright.

Essay—"American Rural Painting," Miss Catherine M. Etheridge, Melrose (Mass.).

Essay—"Transmuted Into Gold," Miss Ruby I. Darrach, Kensington (P. E. I.).

Essay—"Robert Louis Stevenson," Miss Ethel M. Brown, St. John (N. B.).

Essay—"The Renaissance in French Literature," Miss Edna Grace Cook, Parrboro (N. S.).

## GOD AND NATURE.

Rome Philosophical Observations by a London Journal.

(London Spectator.)

If the superbest manifestations of human nature are involved in the attainment of empire over the forces that are exhibited in the working of natural laws, then it would appear to be the mere negation of reason to say that because terrible pain and loss and vicarious suffering are involved in the conflict there can be no God, or that if there be one He is either not all-powerful or not wholly moral.

Man is appalled and horrified that the flowing fire of Mont Pelee should have fallen upon the just and upon the unjust; that innocent babes and saintly men and women should have been overwhelmed in the company of the sinners of the fated city. But with reflection the judgment modifies. We do not know, though knowing human nature we may surmise, what acts of sublime heroism, what deeds of noble repentance, may have taken place in those dreadful minutes of destruction; but we do know that a disaster of this kind will set science to work to devise warnings and safeguards that will render life among volcanic ranges safer; and we do know that already the thrill of sympathy through the world is awakening self-sacrifice, and is drawing together in joint effort for the sufferers alien races long embittered by clashing ambitions and sound of war.

Thus, even applying the slight test of near results we see in this extreme case that the passion for humanity need not hopelessly descend to the denial of God.

If this is so, we may surely affirm the moral aspect of every act of God. In a word, we have no more cause to deny the existence of God because of a great and violent catastrophe than we have when a swollen stream drowns a home-going laborer on a dark night. The difference is not in kind but only in degree. Nor, again, if we can trust God's purpose in the smaller mutations of life, is there any sufficient reason to doubt it in the shock of earthquake? If we are to turn materialists, we must find a better reason than that conveyed when death is simultaneous, sudden, painful, terrific and multitudinous.

By means of such acts, through dread of such acts, the human race is compelled to develop to the utmost its highest intellectual and its deepest moral functions. We can imagine without irreverence the Creator saying to the created: "I have given you inherent power to control and use all the forces of nature; if you do not choose to develop that power these forces will develop that power for you."

It will scarcely be denied that it is in the contest with nature that the highest intellectual faculties of man have been developed.

## KILLED THEMSELVES TOGETHER.

Two Men Found Dead on a Park Bench in New York—Drank Carbolic Acid and Whiskey.

NEW YORK, May 30.—Two men whose lives apparently had been a failure, ended their lives together last night in Central Park by drinking whiskey into which carbolic acid had been mixed until they died. Their bodies were found still sitting upright on a seat about three hundred feet from the Fifth Avenue entrance at Seventy-ninth street by Policemen Divine of the Arsenal station.

Divine thought that they were asleep and, judging by their appearance that they were tramps, he proceeded to wake them up in the usual not very mild manner. He soon found that the men were dead.

To make sure he called an ambulance from the Presbyterian Hospital, Dr. Van Ingen agreed that the men were dead.

The bodies were brought to the Arsenal. When the clothes were searched, on one of the bodies, apparently that of a man about 45 years old, was found a working card issued by the Adams Cylinder and Web Press Printers' Association, No. 51, of New York and Chicago, to Frank Schwartz, of 135 West Twenty-sixth street. The rest of the story was told by twelve pawn-tickets for articles ranging from a watch to a pair of shoes. Not a penny was found in the pockets.

The other man must have been about 55 years old. His pockets contained two papers with writing in pencil. One of these said: "I fought in the Civil War under the name of Barney Dolan, but that is not my real name, which is William Downey."

The other paper contained information that Downey's sister was Mrs. L. D. Gibbons, of 528 Quincy street, Brooklyn. No attempt was made by the police last night to find the relatives of the two men. A Sun reporter called at 135 West Twenty-sixth street, but was unable to find any trace of a man named Schwartz.

### WINTER PORT FACILITIES.

Ald. Robinson Offered a Resolution at the Council Yesterday Covering the Matter.

At yesterday's Meeting of the common council the purchase of the Chipman hill site for the library was completed, and a committee consisting of Ald. Maxwell, Millidge and McGowan, with the mayor, was appointed to obtain plans for the building. Ald. Millidge and Dr. Christie were appointed library commissioners in place of W. F. Halliway and Dr. Christie, whose time of service was up.

Ald. Robinson, from the committee appointed at the first meeting of the council to consider the question of increased facilities at this port, moved the following resolutions:

Whereas, the city of St. John has lately expended the sum of \$100,000 in providing facilities in its port for the carrying on of the trade of Canada, for which no charge has up to the present been made; and

Whereas, the carrying on of such trade is a matter of national rather than of local concern, and the proportion of the total debt incurred by the city for such development is as great as can be devoted to such purposes having regard to other civic requirements; and

Whereas, the trade of this port shows signs of an increased measure only by the facilities which shall be constructed for carrying on the same.

Therefore resolved, that in the opinion of this common council it is inexpedient for the city, without assistance, to make any further expenditure on capital account for the extension of the facilities for winter business at this port; and

Further resolved, that this common council respectfully request the government of Canada to provide such wharves, warehouses and dredging as may be required for the complete equipment of this port as one of the great seaports of Canada; and

Further resolved, that this committee be continued and be authorized to arrange for the sending of a delegation to interview the government of Canada in order to obtain their assistance in the premises.

The resolution passed.

It was decided to refer the matter of the lack of water at the start of the Bourke fire to the water and sewerage board, with power to investigate.

The matter of sweeping the streets weekly, brought up by Ald. Bullock, was referred to the board of works.

**Your Skirt Edge is Seen Every Day.**

Why not have one that is stylish, elegant and yet durable, rather than one that is ragged and untidy? You can make your skirt edge an object of admiration if your skirt is bound with S. H. & M. Redfern—a bias corded velvet, cut on a perfect bias that fits the skirt without pucker or wrinkle.

If you do not find the letters S. H. & M. on the back of Bias Velvet or Brush Edge Skirt Bindings they are not the best.

"In addition to the above named free grant of three million pounds sterling, His Majesty's government will be prepared to make advances on loan for the same purpose, free of interest for two years, and afterwards repayable at over a period of years, with three per cent. interest, or 27 1/2 per cent. or rebel will be entitled to benefit under this clause."

60 DAYS FOR FLIRTING.

NEW YORK, June 2.—Police Justice Marshall of Mr. Vernon has sentenced Alice Myers, a young woman of that place, to 60 days in the city jail for flirting with a builder of Port Chester by telephone.

Several months ago, the builder met Miss Myers. She looked up his telephone number and was, his wife alleges, continually ringing up his house and asking him to meet her. Usually the telephone was answered by his wife, who exhausted every effort to find out her husband's address.

27 SMALL POX CASES IN MAINE.

Dr. A. G. Young, secretary of the Maine State board of health, issued on Saturday the following statement regarding the small pox situation in the state:

"There are at present 27 cases of small pox in the state—17 at Granite Hill, a few miles from Hallowell; eight at Portland and two at Bridgton. The majority of them are critical cases. Much talk has been recently made by the people who aver that cases reported are not of the small pox nature. A thorough investigation has demonstrated that in nearly all the cases they were small pox, although in a mild form. It is the purpose of the state board to take precautionary measures so that there can be no possibility of a spread of the disease. I should think that the burghers would be thoroughly stampeded out."

The Fredericton city council has appropriated \$300 towards a Coronation Day celebration.

### J. J. McCaffrey.

Assumes the Management of the Queen, Fredericton, as Well as the Dufferin.

Today the management of the Queen Hotel, Fredericton, passes under the management of J. J. McCaffrey of the Dufferin. It follows that the Queen will be, if possible, more popular than ever; for Mr. McCaffrey is one of the most popular hotel men in the provinces, and his seven years' experience in the Dufferin, first as clerk and then as manager, has made him fully acquainted with the business and how to conduct it with success. His ability as a caterer was amply shown when the royal party visited St. John last year, for the Duke of Cornwall and York personally expressed the satisfaction and pleasure of himself and party.

Mr. McCaffrey will conduct the Queen on the same lines as the Dufferin, and patrons are therefore assured that everything will be done for their comfort. The Queen has 67 rooms, and a nominal capacity of 150 guests. The dining hall, office, waiting rooms, wine room and lavatories are on the ground floor. The dining hall is capable of seating 125 people. The house will be newly furnished throughout, repainted and repaired. Gas has been introduced and is used in every room.

The assumption of the management of the Queen does not mean that Mr. McCaffrey is to give up the supervision of the Dufferin. During his absence from Fredericton Arthur G. Abbinett, who served as clerk of the Dufferin for three years, will have charge of the Queen. J. A. Edwards takes charge of the stables in connection with the hotel.

### ST. JOHN TEA HOUSE.

Extending Business With Great Success in the West.

About a year ago T. H. Estabrooks, the North Wharf tea importer and blender, introduced his Red Rose tea, so popular in these provinces, into the province of Ontario. In September last he pushed his trade farther westward to Winnipeg and Calgary. Of his twelve travellers, six are in Ontario and the west.

Mr. Estabrooks has proved that tea imported into St. John direct from the countries of growth, and blended and packed here, can be sold successfully in the west. He is now following the introduction of Red Rose in Ontario by that of bulk teas, and to look after this branch of the business in Toronto, where he has opened new and larger offices at 25 Front street east, he has secured the services of David Clark, who was brought up in the tea trade of London, Eng., and who was for twelve years buyer for one of the most prominent of London tea firms.

In Toronto Mr. Estabrooks will carry hereafter a full stock of both package and bulk teas. He has also a warehouse in Winnipeg, from which all orders for the far west are filled. That branch of the trade is looked after by Stephen Hustwit, who was one of the best known men connected with the Toronto tea trade.

The growth of his trade in the west has been far greater than Mr. Estabrooks anticipated at the outset, and with the very large volume of his business in these provinces taxes the energy of himself and his staff to the utmost.
