PRES. WILSON LAUNCHES NEW DEFENCE PLAN

Calls Men of All Political Creeds
to Support Programme.

DECLARES U. S. HAS NO AGGRESSIVE PURPOSE.

Training of 400,000 Citizen
Soldiers Within Three Years
Part of the New Defense
Policy.

New York, Nov. 4.—President Wilson opened the administration campaign for his national defence programme in a comprehensive and carefully prepared address delivered here tonight at the Manhattan Club banquet. He declared solemnly that the United States had no aggressive purposes but must be prepared to defend itself to assure full liberty and self-development. Significantly, he said, "with ourselves in this great matter we associate all the peoples of our own hemisphere," adding that "we wish not only for the United States, but for them, the fullest freedom of independent growth of action."

Must Have Definite Naval Policy, and Quickly.

The President called upon "men of all shades of political opinion," to rally to the support of the programme. He said it represented "the best professional and expert opinion of the country," and gave warning that "if men differ with me in this vital matter, I shall ask them to make it clear how and in what way they are interested in making the permanent interests of the country safe against disturbance."

Outlining the defence programme, the President said it included an increase in the standing army, the training within the next three years of 400,000 citizen soldiers to be raised in annual forces of 133,000 and the strengthening of the national guards. He laid particular emphasis on the need of ample equipment.

The President declared that the navy is already "a very great and efficient force," but that in order to bring it to a point of "extraordinary force and efficiency" a definite policy must be adopted and hastened, and an adequate supply of men and equipment provided.

REPORTED KING CONSTANTINE INTIMATED NATION IS
READY TO CHANGE POLICY IF ROUMANIA THROWS
IN LOT WITH ALLIES OR ANGLO-FRENCH CAMPAIGN
IN SERBIA STRONG ENOUGH AMELIORATE SITUATION—GREEK PRESS CONSIDERS DISSOLUTION OF
PARLAMENT NEXT STEP.

London, Nov. 4.—The defeat of the Greek government in the Chamber of Deputies, and the consequent resignation of the Zaimis cabinet, is the latest sensation afforded by the Balkans. While, of course, it was understood that Eleutherios Venizelos, the former premier, had it in his power to turn the government out whenever he so desired, the majority in the chamber at his back, the fall of Zaimis came unexpectedly, as it was believed that the leader of the majority had decided to accord the premier sufficient support to enable him to remain in office for the present at least. As so often happens, however, a vote of confidence was demanded by the government on a matter of minor importance—some difference of opinion between M. Venizelos and the minister of war, General Yanakitsas, on military proposals—and the government was defeated by a vote of 147 to 114.

By handing the resignation of his cabinet to King Constantine, M. Zaimis again places on the king the responsibility of deciding the future policy of his country. In London, the first impression was that the defeat of the government would mean the immediate recall of M. Venizelos and the fulfilment of the original agreement between him and the Allies, to go to the assistance of Serbia.

Next Move Problematical.

In this belief the news caused a distinct rally on the stock exchange. Later despatches from Athens, however, indicated a possible dissolution of parliament. Should this course be taken it would be at least two months before an election could be held, and the new chamber meet in Athens. In the meantime, either the Zaimis cabinet, the resignation of which has not yet been accepted, with perhaps a change in the ministry of war, or some other cabinet favoring the king's policy of continued neutrality, would have charge of affairs and consequently there would be no change in the military situation.

Even should M. Venizelos be called upon to form a new government, it is not certain that he would join the Allies at present, but the quadruple Entente would have the assurance that Greece would not turn against them.

On the other hand it is not to be forgotten that King Constantine was willing to follow the policy of M. Venizelos to a certain point, and that there are some diplomats who believe that, assured of a landing of very strong Anglo-French forces at Saloniki and Kavala, together with a Russian army on the other side of Thrace, and the possible assistance of Roumanian troops, the Greek king might be willing to embark on operations against Bulgaria. Greece never looked with favor on Bulgarian occupation of Macedonia, and there are some in the country who fear that a victorious Bulgaria might throw covetous eyes on Kavala, which King Ferdinand fought so hard to get at the conclusion of the Balkan war.

Roumania is in somewhat the same position as Greece. A majority of the people of that country favor the Allies, while the King and government wish to maintain neutrality, at least until it appears clear that the Allies can win the war. There have been continual demonstrations in Roumania in favor of intervention, which have been heightened by the presence of a big Russian force on the northeastern border waiting to attack Bulgaria.

In Berlin, according to reports, fear has been expressed that this force will be allowed to march through Roumanian territory, and that it might be joined by the Roumanian army. To discourage this, an Austro-German army is being assembled on the western borders of Roumania. Thus the anxiety of the Roumanian government can be understood.

Besides massing troops, the Allies are taking other steps to persuade Greece and Roumania that it is to their interest to join against the Central Powers. Dissolution Regarded as Certain Athens, Nov. 4, via London.—Following its defeat in parliament today, the cabinet resigned. The immediate cause of the defeat was a remark

MEAT PACKERS LODGE A NEW COMPLAINT

Claim New and More Rigid Restrictions Imposed on Their Trade with Neutrals.

Washington, Nov. 4.—Counsel for Chicago packers called at the State Department today with a complaint that Great Britain had imposed new and more rigid restrictions upon their trade with neutral European countries, they asked that special representations be made to the British Foreign Office, and the matter is now being considered by the department. The attorneys discussed with Counselor Polk and Consul General Skinner, recently returned from London, the status of the packers' cases pending in British prize courts, and the shipping situation generally.

After the conference Alfred R. Upton, Henry Vander and Luther M. Walter representing Armour & Company, Swift & Company, G. H. Hammond & Company and Morris & Company, gave out the following statement: "The immediate cause of our visit to Washington today is the instructions issued to the steamer Christiania, which departed on September 6 from New York for the Norwegian port of Christiania. Such instructions prohibited the steamer from the further loading of the Chicago packers' products, destined to resident buyers in Sweden, on through bills of lading, via Christiania, Norway, unless the packers would remove from the bills of lading the provision 'goods in transit to Sweden,' declares the ultimate destination to be Norway, and guarantee consumption in that country.

RUSSIANS ON OFFENSIVE AT THREE POINTS SCORE BIG VICTORY IN GALICIA

Capture of Strong Positions
Near Czernowitz Likely to
Influence Roumania.

SERB ARMY RETREATING BUT STILL INTACT.

London, Nov. 4.—Having checked the German offensive along the whole eastern front, except directly west of Riga, where the nature of the ground makes an advance difficult, the Russians have started a counter-offensive at three points—west of Dvinsk, on the Styr, in Volynia and on the Strips in Galicia. On the Strips river they claim to have won a big victory and to have captured 5,000 prisoners, although admitting that the battle is still in progress. They also claim successes at other points.

The Germans, on their side, assert that the attacks have been repulsed with heavy losses to the Russians in killed, wounded and prisoners. From an unofficial source it is also reported that the Russians are advancing in strong force, and have captured important positions near Czernowitz—a movement calculated more than anything else to influence Roumania.

The Serbians, who are making a stand in the south, where they are supported by the British and French, continue their retreat before the Austro-Germans, and Bulgarians in the north and northeast. The Bulgarians are now within ten miles of Nish, and are advancing northwestward from Uskup toward Pristina. Thus besides being in danger of losing their capital, the Serbians are threatened with being cut from the south, and will have only one line of retreat, to Montenegro. They are fighting severe rear-guard actions, nevertheless, and are leaving little or nothing behind for the invaders. The fighting continues in the Cham pagne district of France, with the fortunes of war fluctuating.

Allies Rushing Help Forward

London, Nov. 4.—An artillery duel was in progress virtually all day today at Valandovo, in the Strumitza region, between the French and the Bulgarians, a Reuter despatch from Saloniki states.

The Serbians are reported to be retreating in good order from Teovo before a numerous force of the Serbian army in Babuna Pass, which protects the road to Prip and Monastir. The Serbians are continuing to repel furious assaults by the Bulgarians. At present both Prip and Monastir are safe, although uncertainty persists throughout the Monastir region, in southern Serbia, whence some 300 refugees arrived from Saloniki today.

Generally speaking, the despatch states, the situation of the Serbians is extremely critical, but it is declared that if they are able to hold out a little longer the situation will take on an altered complexion.

Further reinforcements of allied troops are being moved rapidly forward.

Advance Costly to Teutons.

London, Nov. 4.—The latest wireless messages received through Scuzz says that the cohesion of the Serbian army has been preserved. When necessary, the troops are making an orderly strategic retreat. Rear-guard actions are being carried on efficiently and the armies are being maintained unimpaired.

Overwhelming Superiority of Germans in Ammunition Reason for Progress Against Serbians—50,000 Shells Poured into Belgrade Alone—Enemy Has Enough Ammunition for Army of Million Men.

London, Nov. 5.—The Daily Chronicle's Serbian correspondent, who has just reached Saloniki from Belgrade and Kraguevatz, declares that the German progress in Serbia is a repetition of the old story of overwhelming artillery power. "It is established," he says, "that Von Mackensen's army does not include more than 150,000 men, but is provided with artillery ample for an army of a million. Into Belgrade alone more than 50,000 shells were poured."

The correspondent describes the fighting around Uskup as the bitterest of the war. "The Serbians were outnumbered five to one by the Bulgarians, but the battle raged eleven days before they quitted the city. For the

Petrograd, Nov. 4, via London, Nov. 5.—The official communication issued today:

"In the region of Shlok, near Raggatzen, we repulsed an offensive of the enemy who was beginning to entrench himself west of Raggatzen. To the south of Lake Babit, our detachments have made progress. Towards the southwest and south of Auchane, the enemy is making stubborn resistance.

"Near Glaudon, on the Dvina below Dvinsk, the Germans unsuccessfully tried to cross the Dvina. In the region of Dvinsk we have advanced southward as far as the outskirts of Ilonkist. "Near the village of Platonovka, south of Lake Venon, the Germans repeatedly launched counter-attacks without success. We captured five officers and 531 men and four machine guns. The German losses on this sector were enormous. We continue our advance.

"In the region of Podgacze, west of Czartryek, the enemy succeeded in penetrating deeply into the forest, where he commenced to entrench himself. The situation became very desperate, but by united efforts of all grades of our forces, we succeeded in saving the situation. The whole region of fighting was covered with enemy dead. We took as prisoners eight officers and about four hundred Austro-Germans and captured two machine guns.

"The Germans replied with a tremendous artillery fire and then launched a new attack. This attack also was repelled. "The artillery fire has been renewed to the north of Komarov. This attack was repulsed, with a great enemy losses.

"The enemy has dropped two bombs on the railroad station at Kievah, northwest of Revno. "The German attack southwest of Volytza, north of Novo Alexienki, has been repulsed. The fighting continues. "A counter-attack near the village of Sienkovec failed. We drove the storming parties back to their trenches. The fighting became less violent towards the evening of the third.

"On the Caucasus front there have been only advance guard encounters."

greater part of that struggle the contending armies were within two hundred yards of each other, and hand-to-hand encounters were continuous, with heavy losses on both sides. "Even when the Serbs were forced to fall back beyond the city, the Bulgarians were unable to enter for days, as the Serbian comitadjis (irregularly fought with the Bulgarian comitadjis) doggedly, street by street, from cellars to house-tops.

"Serbian officers declare that one additional regiment on their side would have turned the tide of battle in their favor. This, indeed, has been true at several points, where ferocious fighting has occurred in the past fortnight."

George Lumergan of West St. John was arrested yesterday afternoon by Detectives Barrett and Briggs on the charge of stealing rope to the value of about two hundred dollars, from the Norton Griffith Company. The theft is said to have taken place about two weeks ago and at the time was reported to the police. Monday morning the detectives noticed Abe Jacobson, a junk dealer, driving down Main street with a load of rope and suspecting that it was stolen property they learned from the junkman that he had purchased it from a man who brought it to the Straight Shore in a boat and gave the names of Hopkins and Johnston. He gave a good description of the man and when Lumergan was arrested he was identified by Jacobson as the person who sold him the rope. It is thought that after the rope was stolen it was sunk at a place along the harbor front until Monday morning when it was recovered by the person who stole it and then taken to the Straight Shore where the sale was made. The rope consisted of nearly new nine inch hawser, and a large quantity of it had been cut up into five foot lengths.

HOW TO LIVE ONE HUNDRED YEARS

Dr. Barker closes his series of lectures here—Exercises and diet.

Dr. Barker brought his programme to a close yesterday with two lectures, one to the High School students in the afternoon and the other to the Y.M.C.A. in the evening, to a very large appreciative audience. The evening lecture was considered to be the best of his campaign.

He spoke at length on the healthy exercises which would bring the standard of boys and girls up to the best. He advised outdoor life. The Y.M.C.A. gymnasium was crowded in the evening and all seemed satisfied that they could hear such a brilliant address on such a subject as "How to Live a Hundred Years."

He next gave some good advice on "How to Live a Hundred Years," and in this he mentioned that on a visit to Bulgaria some time ago he happened to find that out of five and a half millions of people there was a total of five thousand and seventy-three over the century mark and four hundred and twenty in the wonderful age of one hundred and thirty-five.

On inquiring as to this phenomenon he was told that the national custom was to drink an enormous quantity of water and this averaged from about fifteen to twenty glasses per day. This termilk and some milk were also choice drinks of the natives and it was thus explained that through these means life was prolonged.

GREEK GOVT RESIGNS; DISSOLUTION PROBABLE

(Continued from page 1) The incident provoked tumult, and the sitting was suspended. The ministers retired to confer in private on the situation.

On the resumption of the sitting M. Venizelos insisted that Gen. Yanakitsas owed the house an apology for his abrupt departure, and that unless he apologized the house would be unable to continue its sitting. M. Zaimis then declared that the government considered that no apology was due from the war minister, and demanded a vote of confidence on the question. A long debate followed, in which all the leaders spoke, M. Venizelos delivering two long speeches, defending his policy and condemning that of the government. The former premier said he deplored the fact that Serbia was being left to be crushed by Bulgaria, Greece's hereditary enemy, who would not scruple later to fall on Greece herself.

Challenged by another deputy, as to whether he thought the King wished the country's destruction, M. Venizelos said: "I should have preferred not to drag the King's name into the discussion, but since you ask I will say that in a constitutional government the crown has no place in the responsibility. It is absurd to suppose that the King desires to destroy the country but our state is a constitutional kingdom and is rather a democracy presided over by a King and the whole responsibility rests on the cabinet, if you want a monarch say so openly. But your efforts will be unavailing because the country does not desire change. It is not a question of patriotism but of constitutional liberties."

"I know the King is a distinguished general but he is not equally experienced in things political. . . . If I have tolerated the present cabinet, it is because of the constitutional deadlock created by the crown's action, and the impossibility of holding elections in the present state of mobilization. . . . You are mistaking this toleration for approval of your policy with which I disagree diametrically. Instead of new elections you had better suspend the constitution until the end of the war. Then we may know exactly where the responsibilities lie."

Several members of the cabinet attacked the policy of M. Venizelos. M. Gounaris, minister of the interior, maintained that the constitution conferred upon the King the right to disapprove of a government, and he sought to justify the cabinet's refusal to assist Serbia.

A discussion of proposed military laws, the correspondent says, raised a question between the minister of war, Gen. Yanakitsas and the majority party of former Premier Venizelos. On this issue Premier Zaimis decided to ask a vote of confidence.

The discussion then turned to the foreign policy of the government. M. Venizelos declared it was impossible for his party longer to sustain the government, whose policy he considered harmful to the interests of the country.

All the party leaders engaged in the discussion. The final vote was 147 against the government, to 114. A later despatch to the Havas News Agency from Athens says that at noon today Premier Zaimis went to the palace to present to the King the resignation of the cabinet.

Athens newspapers which are opposed to M. Venizelos consider the dissolution of parliament certain. King Intimates Greece Will Follow Roumania's Lead. Saloniki, Nov. 4, via Paris.—According to information secured in Greek sources believed to be reliable King Constantine has assured the French minister at Athens that should Roumania join the Entente Allies or should the situation of Serbia be appreciably ameliorated by an Anglo-French offensive movement, Greece will not be unprepared to change her policy.

DRAIN NO ELECTION IN ENGLAND UNTIL AFTER THE WAR

Government Firmly Opposed to It, Lord Lansdowne Says.

NEW INCOME TAX HITS AMERICAN AGENCIES

Commons favors suspension of payment of rents and other fixed obligations of soldiers until after War.

London, Nov. 4.—The Marquis of Lansdowne, Minister without portfolio announced in the House of Lords today that the government was firmly of the opinion that there should be no general election until after the war.

The suggestion was made in the House of Commons today by Sir Alfred Mond that legislation be enacted to suspend during the war, payment of rent, insurance premiums, interest on mortgages and similar fixed obligations of men who join the army. Sir Alfred whose suggestion was received with favor, said that these charges were like millstones around the necks of many men who, except for them, would be glad to enlist.

Premier Asquith said the government fully recognized the importance of the problem and promised to consider the suggestion carefully. American Agencies Hard Hit. Political circles are exercised over ministerial silence with regard to the parliament act, which ordains that parliament automatically expires within ten weeks. It was expected that special legislation would have extended the life of the present parliament before now, yet the ministers make no sign.

The Chancellor of the Exchequer, Reginald McKenna today promulgated an order under which agencies of American mercantile firms operating in Great Britain will be compelled to pay an income tax on the basis of their total earnings in Great Britain, including money returned to the United States.

Hitherto these agencies have only paid an income tax on the profits expended in this country. The new tax will hit some agencies very hard, and may have the effect of discouraging the importation of what in war time are considered luxuries that cause an unfavorable trade balance. Armour and Company, the Standard Oil Company and similar firms, duly incorporated here, and paying an income tax as such will not be affected by the new ruling.

The British for some time have been grappling with the agency problem, trying vainly to force taxes from agencies which consistently showed no profits, due to the fact that goods were billed to them at Paris prices making profits impossible. It is declared, though the profit to the American factory was handsome. Agents that were seen today regarding the matter stated that they have not been advised of this new status. As a general rule, they have referred the subject to consuls.

A delightful garden freshness is apparent in every sealed packet of "SALADA" Tea. Fragrant leaves and buds only are used in its preparation. COL. SHILLINGTON IN CHARGE OF NEW HOSPITAL AT BOULOGNE. London, Nov. 4.—(Gazette cable)—Col. Hodgette, Canadian Red Cross commissioner, interviewed today by the Montreal Gazette after his trip to France, stated that his organization now controls, besides the principal depot at Boulogne, advanced depots at each of the three general hospitals, also one at general headquarters. The latter supplies six field ambulances and one clearing casualty hospital. The Canadian organization also controls one stationary hospital and one convalescent depot at Paris, the latter supplying the French hospitals with medical necessities under the superintendency of Philippe Roy, Canadian commissioner at Paris at the front, and many of the depots, permanent buildings are replacing the tents, so that for the coming winter the prospects are for greater comfort than was experienced last winter.

"CHIMMIE FADDEN"

5 REELS OF WHOLESOME HILARITY

"CHIMMIE FADDEN" is one of the most famous characters ever created. He first appeared before the public in a series of newspaper stories by E. W. Townsend. These stories became the foundation of a book which sold in vast quantities and of a play which was popular for years. "Chimmie" is a Bowery boy. He saves a rich young woman of stunning tendencies from the insults of a "master" and thus becomes a footman in the household of millionaire Van Cortlandt, accepting the position because he has become fascinated by the young lady's French maid, whom he dubs "The Duchess." The complications of the story cause "Chimmie" to be accused of burglary, but he is finally proved innocent and his love story with the beautiful lady's maid has a happy conclusion.

DRAINING BELGIAN RESOURCES BY WAR LEVIES

Besides Devastation Already Wrought, Immense Levies Have Been Exacted From Stricken Inhabitants

Amsterdam, via London, Nov. 6.—The chamber of commerce of Antwerp has issued a report written by its president, E. Castelein, to the members of the permanent deputation which represents the chamber before the Belgian government, outlining the steps which the Belgian provinces had taken to pay the German war levy of 480,000,000 francs (\$96,000,000). The report states:

"The Belgian provinces have just paid the German administration the ninth-monthly installment of the war levy of 480,000,000 francs. They have, up to date actually paid out 360,000,000 francs, of which 45,000,000 are to be credited to 60,000,000 imposed specially with the guarantee given by the German authorities in December, 1914, that indemnity for requisitioned merchandise, or merchandise which would still be requisitioned en bloc, would be paid as soon as possible in currency, in commercial bills of exchange, or in credits on German banks. There remains to our provinces, in order to free our country completely from the heavy burden imposed upon her after fourteen months of invasion and devastation, to make monthly payments for September, October and November, 1915—that is another 120,000,000, of which 15,000,000 are on account of the 60,000,000 special imposition in

exchange for the guarantee of prompt payment for requisitioned goods. Another sample of German breach of faith.

M. Castelein, after pointing out how scrupulously Belgium has met her engagements relating to the war contributions, severely arraigns the German administration for the lax manner in which they have paid for requisitioned goods. In a report submitted on March 13 last, it was shown that the value of requisitioned goods reached a figure in excess of 85,000,000 francs. Since this report, declares M. Castelein, Germany has paid less than one-tenth of the amount.

M. Castelein then reviews a series of acts and formal engagements by which the Germans and Belgians regulated the matter of requisitions, stating that at first the Germans made many requisitions forcibly, in a summary manner. Then, in December, the war levy was fixed at 35,000,000 francs monthly for a series of twelve months. The Belgians accepted this figure, after long hesitation, and after it is declared, securing a formal promise of prompt settlement of the requisitions, the sum was raised to 40,000,000, with prompt settlement stipulated. On January 9, 1915, Governor General Von Bissing confirmed this agreement, the report states, and the

Work on Athens-Saloniki Railroad.

London, Nov. 4.—Work on the railway between Larissa and Saloniki is pushed night and day, according to a Saloniki despatch to the Standard.

Political circles are exercised over ministerial silence with regard to the parliament act, which ordains that parliament automatically expires within ten weeks.

The Chancellor of the Exchequer, Reginald McKenna today promulgated an order under which agencies of American mercantile firms operating in Great Britain will be compelled to pay an income tax on the basis of their total earnings in Great Britain, including money returned to the United States.

Hitherto these agencies have only paid an income tax on the profits expended in this country. The new tax will hit some agencies very hard, and may have the effect of discouraging the importation of what in war time are considered luxuries that cause an unfavorable trade balance.

The British for some time have been grappling with the agency problem, trying vainly to force taxes from agencies which consistently showed no profits, due to the fact that goods were billed to them at prices making local profits impossible, it is declared, though the profit to the American factory was handsome.

TURKS REPORT HEAVY FIGHTING IN DARDANELLES

Two Allied Cruisers shell enemy's positions near Sidon Bahr—Turks claim attempt to land Allied Troops was defeated.

Constantinople, Nov. 4, via London.—Violent artillery fighting has taken place recently on the Dardanelles front, but there is no pronounced activity on the part of the infantry. These conditions described in the following announcement:

"On the Dardanelles front local infantry firing continued, with sustained and violent artillery action on both sides. Near Seddul Bahr two batteries took part in the bombardment. In the region of Kaulistat Burnu our artillery destroyed two machine guns of the enemy, before our right wing. The Anatolian coast batteries drove off a transport ship of the enemy which attempted to approach the landing place at Seddul Bahr."

THE HOUR FOR GREECE

The assurance that Constantine, King of Greece, is said to have given the French minister at Athens does not sound well. He is reported to have indicated that if Roumania entered the war on behalf of the Allies, or if the British and French troops initiated a successful offensive movement in Serbia, Greece would not be unwilling to change her attitude of neutrality for one of participation. Even viewed in its most favorable light the statement of Constantine gives his people but little on which to plume themselves. Plainly he wants to play the winner. If by Roumanian aid, or the success of their own efforts, the Allies can drive the Bulgarian-German invaders out of Serbia, Constantine is prepared to send his troops out in time to shout with the victors. Such a statement does not reflect the temper of the Greek people. Some of the most glorious pages in the history of the world were contributed by the rulers of early Greece, but they were men of a different kidney from the present occupant of the throne.

Greece has adopted a vacillating position for many months. Given his own way, Venizelos, by long odds the strongest mind in the kingdom, would long ago have had his countrymen ranged beside the Allies. But Constantine, or his queen, intervened and the lion-hearted Venizelos relinquished the reins of office rather than subscribe to a policy of indifference. Zaimis succeeded to the leadership of the government although the Venizelos party retains the popular support and the King chosen premier held office only through the courtesy and patriotism of his predecessor. Now the end has come. Zaimis, defeated in the Chamber of Deputies, has placed his resignation in the hands of the King Constantine and Greece faces the future in a decidedly unsettled state of mind.

Two courses are open. Either King Constantine can do the wise thing and recall Venizelos to office, or he can dissolve parliament and hold a new election. In either event it is likely that the party favoring participation in the war on the side of the Entente Allies will be victorious. If an election is decided upon, two months must elapse before it can be held and in that time much may happen.

Greece has not strengthened herself in the sympathies of the Allies or of the world by the weak indecision of her King. Had she acted even a few days ago she could have secured Cyprus as a reward for her services. Now that valuable possession is probably lost to her forever. It should be remembered that the Allies do not require Grecian aid half as much as Greece will need the strength and support of the allied powers after this war is over, but the possible loss of this support is not the only danger she faces. The tide of popular opinion runs strongly to Venizelos and if the monarch should continue to attempt to combat that tide he may find his throne in danger. There have been instances in history where conflicts between Democracy and an unpopular king have resulted disastrously for the wearer of the crown. The decision of Athens is of far more importance to Athens herself than to the rest of the world.

SOLDIERS AND CITIZENS

The 52nd Fort Arthur Battalion will spend the winter in St. John and there is no doubt everything possible will be done to make officers and men feel at home, and to show them that we, in the east, can appreciate the spirit and bravery of those who offer to do the Empire's work. Arrangements are in the making for the establishment of a soldiers' club where the men can enjoy home comforts with as much freedom as possible. This is a commendable idea.

There is, however, an opportunity for every citizen, whether actively interested in the Soldiers' Club or not, to do his part in welcoming the soldiers. Last winter the 26th Battalion was stationed here and became very popular. There were occasions, however, when some of the men gave vent to their spirits by methods rather more boisterous than St. John is accustomed to and that was sufficient

to bring more than a little unjust criticism on them. The number of men in the 26th whose behaviour rendered them open to adverse comment formed but a very small part of the whole, yet more than once the entire battalion was condemned without reason. Since going to the field of battle the 26th has made a name for itself which will reflect credit on the battalion and the province. Yet the men who, facing the enemy, showed their coolness and bravery to such an extent as to earn congratulation from the brigade commander, are the same men who, a few months ago, were walking the streets of this city. The soldier differs from the civilian only in the fact that he has made his sacrifice for Empire. At home he has friends, social position and a regular niche in the community. Under mobilization, he is one of a number, but he is still the same man who in his own home numbers friends by the hundred, who will watch his career with interest.

The men of the 52nd are away from their friends and their homes, consequently home influences are lacking. St. John takes them on faith as soldiers and gentlemen and if, during the winter months, some exuberant spirits violate our conventional ideas it is to be hoped that before condemning the whole battalion St. John people will remember last winter's experiences and modify their criticisms with human kindness and common sense.

THE GERMAN VIEW

German newspapers are not hesitating to criticize those who are misleading the people as to the prospects for victory. At least two of the most influential journals in Berlin openly predict for the Teutons a long war and much distress. Harden, one of the greatest of German editors, in his paper, the Zukunft, warns his compatriots not to indulge in cheers of victory because hard times are still ahead. He says:

"Bride your joy at tidings of victory. Rouse your conscience and the conscience of your neighbor, Austro-Hungary. The hardest times are coming. We have no desire that those who are unarmed and safe from danger read the air with loud mouths and demand that their brothers in the field conquer new worlds. All must go forward together if we are to win. Let those who are so desirous of battle loose their murderous fire at the front, where it will do some good."

"We want no more admonitions from those whose enthusiasm for the heroic age is probably connected with a desire to prolong the war on account of the business by which they are flourishing. We do not want usurers, who take advantage of the needs of the masses, who are seeking modest and indispensable food. He who at this time is a user of food is committing a deadly sin. He who corners meat, corn or vegetables is a downright rascal. He who stores butter, hoping that the price will rise higher, belongs on the gallows."

Gadke, in the Vorwarts, is equally outspoken. He says: "The war has not reached its culmination, yet the enemies of the fatherland are far from their last gasp. Let us beware of over-estimating the initial successes in Serbia. It was well known from the first that the Serbians would be unable to withstand the Teutons crossing the river. This was a matter of superior artillery and higher technical skill. But we must remember that once before Belgrade was in Austrian hands, and the Austrian army came to grief."

"The nature of the interior of Serbia makes advances there slow. The further the Teutons penetrate, the more they suffer from the wild nature of the country. As to the western front, it is wrong to say that the recent attacks of the Allies were unsuccessful. The German official reports clearly indicate that they made progress. The Allies are certain to make repeated attempts to cut through the German lines. In the east, the Russian has gained ground over certain areas. The strange lull there at present is difficult to understand. Germans must prepare for a long duration of the war."

A year ago the same papers were preaching a gospel of certain victory and glorious aggrandizement. Now they are prepared to admit the possi-

bility of defeat. The lesson of the past twelve months is having its effect.

Those who are inclined to complain that because Italy has not made territorial gains she is not playing her part should not forget that Italy has already caused Austria to lose thousands of men and hundreds of thousands of dollars worth of materials. And it is the loss of men and munitions that will count most in deciding this war.

The Times continues to support the Board of Trade's policy of interference in the question of having soldiers stationed here this winter. The Times' attitude does not alter the case. Hon. Mr. Hazen has the matter in hand and can be depended upon to exert every effort in the interests of St. John. When it becomes necessary for the Board of Trade to act they will probably be advised to that effect.

At the outset of the war Germany referred to the British forces as French's "contemptible little army." It is notable now that that army contains more than one million men.

WINTER PROTECTION OF YOUNG APPLE TREES

Some practical hints for Fruit Growers to prevent injury to trees by vermin

Precautions must be taken to prevent injury from mice, rabbits, etc. Many failures in apple growing here and elsewhere are caused by these pests and a large annual toll in the form of dead trees is annually exacted by them. As far as possible crops harboring and attracting such pests should be avoided and the accumulation of litter, trash, weeds, long grass, etc., which furnish suitable winter quarters for these animals, prevented. Mice work under the snow and damage from them may be prevented by tramping the snow solid round the tree after the first few snowfalls. This method of protecting is, however, somewhat dependent on the weather. The cheapest and safest protection is secured by wrapping the trunks cylinder fashion with paper, wood veneer or some such material. Good strong building paper, as light as possible in color gives good satisfaction. This may be placed round the trees in the fall, not tightly, but leaving an inch or so of space between the inside of the paper and the bark of the tree. The soil should then be mounded up around the bottom of the paper to a height of six inches or so. Veneer tree protectors, made of thin material, one-eighth inch thick, 12 inches high, 12 inches wide, and costing about one cent each will last two and three years, and afford good protection. The paper or veneer as the case may be should be removed in the spring, about the middle of April.

From Sunscald. This form of damage is very common in some localities, so common, in fact, that a tree which escapes it is a rarity. The greater part of the damage occurs in late winter, or during the warm spring days when the snow is going off. During the warm afternoon sun, reflected from the snow against the southwest side of the tree trunks, becomes very warm. The trunks are thoroughly warmed on that side. They are thawed out, and the bark becomes soft, sappy and pliable. Then, when the sun goes down and the temperature falls again to zero, the bark is again frozen tight. The next day the same thing happens, and so day after day the young bark freezes and thaws, and by this means is torn to shreds. When spring arrives the bark is killed and broken open. Then various kinds of fungi get in and the damage which begins by freezing and thawing ends with spread of canker and other troubles about the trunk of the tree. The best preventives of sunscald are low heads and veneer and paper cylinder protectors. High-headed trees, which are of doubtful value anywhere, are undesirable in places where sunscald is bad. The protectors of paper or wood veneer recommended above for mice, and rabbits will also give practical immunity from sunscald. This trouble is a very serious one. It is not uncommon to find young orchards ruined by it. In sections where this trouble is prevalent great pains should be taken to protect young orchards from it. For the benefit of the fruit growers, the Fruit Growers' Association has secured a number of veneers and will fill orders for them at cost price. Apply to A. G. Turvey, Secretary-Treasurer, N. B. Fruit Growers' Association, Fredericton.

ly exported to England and hold a good market. Canned salmon and lobsters have been on the British markets for many years, but it is the other varieties of our food fish—haddock, cod, pollock, skate, whitefish, herring, etc., smoked, filleted, cured and in a frozen state, that we wish to introduce, and it is these lines which compose the bulk of the samples shipped.

The importance of this venture cannot be underestimated and it is sincerely hoped that a permanent trade apart from a temporary war-time demand—will be built up and a new export business be inaugurated for the products of our Canadian fisheries.

Canada, with her inexhaustible fisheries, is in a splendid position to export certain lines of fish food to augment the supply in British markets, and the samples now being forwarded will show what we can do. For some years now, British Columbia frozen salmon and halibut have been regular

Tinted Lenses For Winter Wear

You'll find tinted lenses will add a great deal to your eye comfort this winter. Snow is likely to fall almost all winter and when it comes more light than the eye can accommodate itself to with comfort will be reflected. This extra work for the eyes is more than disagreeable—it causes actual strain.

You can secure at Sharpe's tinted lenses which will prevent eye strain from reflected snow, bright sunshine and other intense light, without dimming vision.

These lenses can be made plain or to correct any defect in refraction. In the lighter shades they are no more noticeable than ordinary lenses.

Come in and let us demonstrate tinted eyes. They are fine for tired eyes.

AN ENJOYABLE AFTERNOON OF MUSIC AND SONG

Ladies of Natural History Society have splendid entertainment. A large and appreciative audience filled the auditorium of the Natural History Museum yesterday afternoon.

"The English," the writer, Prof. L. M. Harris, said, "are considered one of the most unmusical of nations, and it is true that they have produced but few great composers."

"A love of music and among the upper classes a marked degree of musical accomplishment and critical taste was general among the people of England in the sixteenth century, and it therefore is to be expected that in the culture of the Latin countries was articulated with intense enthusiasm."

Mrs. Ellis then read several passages from Shakespeare's plays to illustrate the various points brought out in the lecture.

Mrs. DeSoyres—"Where suck the bee there suck I." Mrs. B. L. Gerow—"Drink to me only with thine eyes."

PRESENTATION TO REV. FATHER LOCHARY AT HILLSBOROUGH

Albert Co. Priest who is going with Overseas forces- recipient of Wrist watch and address from congregation.

Hillsborough, N. B., Nov. 4.—At the service on Sunday morning last in St. Aloysius church, Rev. Father Lochary, who has been officiating priest for eight years, gave his farewell address to a large congregation, and at the close of the service was made the recipient of a gift, a very beautiful wrist watch, which was presented by Mr. J. H. Ward on behalf of the church and congregation, accompanied by the following address:

Reverend and Dear Father—Little did we think when you celebrated mass on the third Sunday of September, that when you next came you would give us your instructions and advice for the last time. Least of all did we think you would be taken from us to be chaplain of the Overseas Expeditionary force.

Although you have not been associated with us as intimately as some of our missions, it does not lessen the grief we feel, the loss we deplore over our beloved pastor, whose saintliness of life, whose eloquence, whose executive ability has endeared you to all, irrespective of class or creed, during your pastorate of eight years among us.

The condition in which the parish was when you resumed charge, the struggles and hardships you endured, particularly the first few years of your work, would fill a volume, and would show the reader how immense were the difficulties, how great were the obstacles, and how by the grace of God you overcame them. Thus the first chapter of your life is closed.

You now go forth to what? To inspire the soldier to fight, to fight for a good cause, and it is necessary to do well, and we will ever pray that the God who has preserved you and helped you over all the thorny paths you have trod, will still keep and bring you back safe and well to your native land, where we trust you will be spared many years to be a consolation to your bishop and an example to your brother priests, and a devoted pastor to the people who may be entrusted by God to your care and keeping.

In closing we would ask you to accept the accompanying gift as a very small token of our deep love, and we trust this little timepiece may be a pleasant companion on your noble journey, and a slight evidence of the very great esteem in which you are held by the members of St. Aloysius church, Hillsborough, N. B.

Although taken by surprise, Father Lochary replied in a very appreciative manner.

A SUIT PENDING. PUBLIC SALE.

The Globe last evening published the following: Hon. L. Gerow, solicitor for David Russell, has entered action against Hon. Wm. Pugsley. The suit, in which the writ has already been served, is understood to be for \$375,000. This amount, it is said, Mr. Russell claims is due him by Mr. Pugsley in connection with Northwest land transactions in which they and other parties were interested. Messrs. McEae and Sinclair are solicitors for Hon. Mr. Pugsley. News that papers in this suit have actually been served, has created much interest because of reports that trial of the cause may throw side-light on some political as well as business deals, as well as on the alleged conspiracy to have Mr. Russell incarcerated in an insane institution. Rumor says the Hon. Mr. Pugsley has on different occasions refused to listen to suggestions for a settlement of Mr. Russell's claim, declaring there was no liability on his part.

Expression from Sir James Grant. Opinion of Sir James Grant, M. D., K. C., M. G., expressed at the meeting of the Medical Council held in Toronto on July 5th, 1912. In connection with the campaign against liquor, Sir James made a plea for the working classes. While it was, he said, an established fact that the use of strong intoxicating, alcoholic beverages, such as whiskey and brandy, had done much to promote tuberculosis by lowering the vitality of the persons who took them, Lager and mild ale were forms of liquid beefsteak, which undoubtedly imparted power and strength to the system. He could not see why the laboring man should be deprived of this beneficial stimulant, and argued that care ought to be shown in legislating against liquor, thus to protect the working classes.

READY'S PALE ALE, READY'S EXTRA STOUT, READY'S LAGER BEER are all favorites of the working classes. They are pure, wholesome and health-giving. Sold in barrels and cases. At all dealers, or direct from the Breweries.

CLIFTON

Clifton, Nov. 4.—Mr. and Mrs. George Wetmore, St. John, spent Sunday the guests of Mr. and Mrs. A. P. Wetmore. Mr. and Mrs. Guy H. Flewelling, Perry's Point, spent Sunday with Mr. and Mrs. A. P. Wetmore. Rev. Mr. Waterton took charge of the service on Sunday last in All Saints church. Mrs. Guilford Flewelling, Perry's Point, is the guest of Mr. and Mrs. W. B. Flewelling. Mrs. Edie H. Flewelling is spending a few days the guest of her sister, Mrs. J. F. H. Teed, St. John. Mrs. Charles Bustin, Miss Hattie Bustin, Silver Falls, were the guests of Mr. G. H. Flewelling last week. Mrs. Alfred Brian, delegate to the Provincial Convention, read a very interesting report, after which dainty refreshments were served. The Women's Auxiliary held a Dorcas meeting at Mrs. D. P. Wetmore's on Thursday last.

Marysville, Nov. 3.—Mrs. Thomas Flanagan gave a very enjoyable winter party at her home on George street, last evening, in honor of Miss Beatie Gailey, who is soon to leave for New Hampshire to resume her duties as a nurse. Miss Gertrude Hovey won the ladies prize and Mr. James Dunn the gentlemen's prize. Miss Lena Downing was awarded the booby prize. During the evening there was a choice programme of vocal and instrumental music, consisting of solos, duets, choruses, piano solos and readings. Refreshments were served during the evening and the party dispersed at midnight after a thoroughly enjoyable time.

The town council met last evening in regular session. Only routine business was transacted. A little daughter has arrived at the home of Mr. and Mrs. Wm. Moore, Jr. Mr. and Mrs. Albert Clark are rejoicing over the arrival of a baby girl at their home. Invitations are out for a reception to Mr. and Mrs. Ed. Peterson at Moore's Hotel, on Wednesday, Nov. 10th. Mrs. Arlington Clarke of Fredericton, who has just returned from France, spent a few days here the guest of Mrs. Lem McLean. Mr. Harrison Eno and Mr. W. N. Brown have returned from a successful hunting trip to the Miramichi, having secured a fine buck deer. A meeting in the interests of the Patriotic Club will be held on Saturday evening at the home of Lt. Col. W. H. Grey to formulate plans for augmenting the funds and providing comforts for the soldier boys. A masquerade ball will be held at the Orange Hall Friday evening.

The N. J. Lallood's stock of dry goods, shoes, etc., at 282 Brussels street is being disposed of at a big sacrifice. The store has been arranged in true western style. Each line of merchandise displayed on bargain tables, bearing the sale price of each particular line, and marked for quick selling. An extra force of salespeople are engaged to assure prompt attention to all.

The sale continues for ten days. Each day new lines were unable to properly display at the outset of this big cut price event. Judging from the number of bargain hunters, and number of parcels leaving this store, the sale is proving itself a genuine outburst.

Change in Time. Canadian Pacific Montreal Express now leaves St. John at 5.40 p. m., Atlantic instead of 5.45 p. m., as formerly.

The funeral of Mrs. Margaret Loom took place yesterday afternoon at half-past two o'clock from her late residence, Murray's Mill, to St. Peter's church, where the burial service was read by Rev. Peter O'Hare, C. S. S. R. The service was largely attended. Relatives bore the pall. The interment was in the old Catholic cemetery.

The remains of William Woodridge Hubbard arrived in the city yesterday morning from Markhamville, Kings county, and were taken to the Missionary Society, where services were conducted in the afternoon at half-past two o'clock by Rev. J. H. Done, priest in charge. The remains were interred in Fernhill cemetery.

Mid-day Recruiting. A considerable crowd assembled at Market Square yesterday morning at the recruiting meeting conducted by Bishop Richardson and Sergeant Knight. His Lordship stated that New Brunswick could send many more men to the front, and the utmost sacrifice would be necessary before victory was won. He regretted that his own responsibility prevented him from going, but he was doing everything in his power to aid the cause. He paid a glowing tribute to Sergeant Knight and his work in recruiting. Sergeant Knight made his usual eloquent plea for men and gave directions to all who wished to enlist. The honor roll, he said, had amounted to twenty men a day this week and he urged the men of St. John to keep up the average.

During the meeting three cheers were given by the crowd to Lieut. Frank Tingley, who was wounded at the front, and is now recuperating preparatory to going back. The 104th band was present and provided music during the meeting.

SILLIKERS

Sillikers, N. B., Nov. 2.—Miss Mary Stewart of Halcombe was the guest of Mrs. John Payne on Sunday. Much sympathy is felt for Mr. and Mrs. Charles Mutch in the loss of their youngest daughter Eliza of typhoid fever. This funeral was held on Sunday, Nov. Mr. Alaby conducting the services. Mrs. William Bell of Derby spent the week-end with her sister, Mrs. Ernest Tozer. Mr. David Dunn and Mr. Edward Travis have begun their lumbering operations and moved to their camps at Libby Brook for the winter. Mr. Mark Sutherland and sister Annie of Red Bank were the guests of Mr. William Travis Monday evening. A popular wedding was solemnized by Rev. S. J. Doucet of Grand Anse on Wednesday when he united the bride and groom. Miss Ethel M. Hurley of Pokeshow and Mr. Finley D. Sutherland of Red Bank, James Hurley supported the groom, while the bride was attended by her sister Loraine. The bride was very becomingly attired in white silk crepe de chene with overdress of white silk net and pearl trimmings. She wore a large black hat trimmed with a white plume held by a string of pearls and carried a bridal bouquet of white roses and lilies of the valley. The bridesmaid wore a pearl gray silk crepe de chene dress with large black hat. A tempting repast at the home of the bride followed the ceremony, after which the happy couple left by auto for Newcastle andence by train on a short honeymoon trip. Mr. Eliza Sumner's saw mill has shut down for the winter.

LOCK AT CHILD'S TONGUE IF SICK, CROSS, FEVERISH. When constipated or bilious give "California Syrup of Figs."

Look at the tongue, mother! It coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once. When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without gripping, and you have a well, playful child again.

You needn't coast sick children to take this harmless "fruit laxative," they love its delicious taste, and it always makes them feel splendid. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeiters sold here. To be sure you get the genuine ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

FUNERALS. The funeral of Mrs. Margaret Loom took place yesterday afternoon at half-past two o'clock from her late residence, Murray's Mill, to St. Peter's church, where the burial service was read by Rev. Peter O'Hare, C. S. S. R. The service was largely attended. Relatives bore the pall. The interment was in the old Catholic cemetery.

KELLY'S SON REMOVED THE EVIDENCE

All papers relating to Law Courts Tender taken from office so police, could secure no evidence. Winnipeg, Nov. 4.—That most of the papers in the office of Thomas Kelly & Sons relating to the law courts contract were removed by Maurice Kelly, a son of Thomas Kelly, was the evidence in the law courts enquiry this morning of Roy L. Worthington, estimator for the Kelly firm. The papers were removed about the first of October during Worthington's absence, and Maurice Kelly told Worthington he had burned some and taken others to Detroit. Documents relating to Kelly's sub-contract for construction with the Kelly firm's tender for the law courts were missing, said the witness. Maurice Kelly told Worthington that he had taken the papers so that in the event of another search by the police such as for the parliamentary building contract no evidence would be found. Correspondence relating to the law courts had been taken from the letter files. Isaac Pithod, crown counsel, intimated that the Kelly firm had entered two tenders for the law courts. Worthington said he knew nothing of two. He prepared the tender at \$887,000, but declined to sign the contract at that figure when it was offered them. Worthington said that recently he had talked with Lawrence Kelly, son of Thomas Kelly and member of the company, and told him the original estimates were likely to be asked for at the enquiry. Lawrence replied that the crowd had no right to ask for them: That at any rate they would not be produced. "So far as Thomas Kelly & Sons are concerned it looks as though there were some reasons for the removal of these documents," said Mr. Pithod. "Some cogent reason," agreed the commissioner. Did it of His Own Accord. Maurice Kelly, aged 20, son of Thomas Kelly, and partner of a month's standing in the firm of Kelly & Sons, told the law courts commission this afternoon that early in September he took a large quantity of documents from the office of the Kelly company to his home, that he sent them to the family garage at Detroit, Minn., and that he turned the balance in the furnace. He said that he did not know what papers he burned, and he used no plan in separating those to be saved from those to be destroyed. Kelly's explanation of his act was that he was nervous, alone, and he wanted to make sure that if the authorities made another search of the company's office they would find nothing. The search of the Kelly office for papers relating to the parliament buildings' contracts had occurred shortly before, and Maurice Kelly said he was indignant over that occurrence. "I decided," he said, "that the office was no safe place for anything, the way the attorney-general's department was acting." The witness declared that he had no instructions from anyone to destroy the papers. "I did it of my own accord," he said, "and I got the deuce for it from my father and my two brothers."

SACKVILLE LIGHTING. The hearing in the matter of the Eastern Electric and Development Company was continued yesterday before the Public Utilities Commission. Evidence was given by Kenneth Pickard regarding the affairs of the company, several matters of a technical nature being dealt with in connection with the protest of the people of Sackville against certain proposed limitations in the use of electric power during the day time. Robert Carter, of Halifax was also examined respecting matters on the record of the hearings at previous sessions.

The Recruiting Office. Private William McClair, of the 64th Battalion, who has been stationed here for the past two months, engaged in recruiting work, left yesterday morning for Sussex, to join his regiment before leaving for Halifax for the winter. With him went a little black and white kitten which has been for the last two or three weeks a member of the recruiting office staff. Mr. Cat made the trip to the station in "Billy's" pocket, and when last seen was sitting on the window sill of the car, looking at the scenery. Mr. McClair's departure leaves Ptes. W. and Fred Shaw in charge of the work here. Two men from the 104th came here this week, but they have not had the experience in the work that the two Shaws have had, though they are fast learning the "ropes." Walter Shaw seems to be a born recruiting officer. He gets almost every man he tackles, and he seems to have a pretty good idea who to tackle. He has had the best results of any of the men who have been stationed here in the work, and his usual canvasser for recruits is not to be found in the city.

KELLY'S SON REMOVED THE EVIDENCE

All papers relating to Law Courts Tender taken from office so police, could secure no evidence.

Winnipeg, Nov. 4.—That most of the papers in the office of Thomas Kelly & Sons relating to the law courts contract were removed by Maurice Kelly, a son of Thomas Kelly, was the evidence in the law courts enquiry this morning of Roy L. Worthington, estimator for the Kelly firm.

The papers were removed about the first of October during Worthington's absence, and Maurice Kelly told Worthington he had burned some and taken others to Detroit. Documents relating to Kelly's sub-contract for the law courts were missing, said the witness.

Maurice Kelly told Worthington that he had taken the papers so that in the event of another search by the office such as for the parliamentary building contract, no evidence would be found. Correspondence relating to the law courts had been taken from the letter files. Isaac Pihlback, crown counsel, intimated that the Kelly firm had entered two tenders for the law courts. Worthington said he knew nothing of two. He prepared the estimate and the firm entered the tender at \$57,000, but declined to sign the contract as that figure when it was offered them. Worthington said that recently he had talked with Lawrence Kelly, son of Thomas Kelly and member of the company, and told him the original estimates were likely to be asked for at the enquiry.

Lawrence replied that the crowd had no right to ask for them: That at any rate they would not be produced.

"So far as Thomas Kelly & Sons are concerned it looks as though there were some reasons for the removal of these documents," said Mr. Pihlback. "Some cogent reason," agreed the commissioner.

Did it of His Own Accord.

Maurice Kelly, aged 20, son of Thomas Kelly, and partner of a month's standing, in the firm of Thomas Kelly & Sons, told the law courts commission this afternoon that early in September he took a large quantity of documents from the office of the Kelly company to his house, that he sent part of them to the family cottage at Detroit, Minn., and that he burned the balance in the furnace. He said that he did not know what papers he burned, and he used no plan in separating those to be saved from those to be destroyed.

Kelly's explanation of his act was that he was nervous, alone, and he wanted to make sure that if the authorities made another search of the company's office they would find nothing. The search of the Kelly office for papers relating to the parliament buildings' contracts had occurred shortly before, and Maurice Kelly said he was indignant over that occurrence. "I decided," he said, "that the office was no safe place for anything, the way the attorney-general's department was acting."

The witness declared that he had no instructions from anyone to secure the papers. "I did it of my own accord," he said, "and I got the deuce for it from my father and my two brothers."

PLOT AGAINST ALLIES WAS WIDESPREAD

Besides attempts to blow up supply ships, large amount of war material stolen on eve of being shipped.

New York, Nov. 4.—Examinations of Robert Fay and three other prisoners, under arrest here before a United States commissioner on charges of conspiracy, set down for today, was postponed to November 11.

The government's counsel expects the grand jury will have disposed of the case before the date set today for the prisoners' examination.

After all waiting witnesses had been called, Assistant District Attorney Knox today took into the grand jury room the mechanical apparatus with which, it is charged, Fay and his associates intended to destroy munition laden ships. The apparatus was brought to the building by Secret Service men who have been guarding it since Fay's arrest.

Mr. Knox said he was inclined to believe there was no connection between the alleged acts of Fay and the other prisoners with recent fires aboard sugar carrying vessels. The latest of these fires, aboard the steamer Euterpe here last night, caused damage estimated at \$26,000.

The case gained importance today owing to the announcement from Washington that the department of justice will undertake the prosecution of the alleged conspirators and the statement that the federal investigation shows that the alleged plot had wide ramifications throughout the country. Ten or more men were under arrest today in West New York, New Jersey, across the Hudson river from New York city, charged with the thefts of magsnetos and automobile tires from automobile tracks in the yards of the West Shore railroad at Weehawken and in freight yards at West New York. These trucks were shipped to the European Allies from Cleveland and other middle western cities. It was alleged that eight carloads of tires, valued at \$75,000, and many hundred bags of sugar have been stolen, either from the freight yards or from ships loading at the waterfront in Hoboken or in Weehawken, N. J.

After the thefts of sugar it was alleged some of the vessels in which it was to have been loaded were set on fire by fire bombs.

Jelly Cream

To the stiffly beaten whites of three eggs and three teaspoonfuls of powdered sugar add one glass of any clear fruit jelly. Beat until thoroughly mixed, put into small cups or glasses and place in the refrigerator until cold. Serve with sweetened whipped cream garnished with finely chopped nuts.

SERBIAN WOMEN GO WITH MEN TO BATTLEFIELD

Over 2,000 Women Fighting in the Army — Fight side by side with men and bear rigors of march without murmur.

London, Nov. 4.—"There were nearly 2,000 women in Serbia's army when I left and more women soldiers were being organized," said Dr. Grutch, a Serbian army doctor now in London, today.

"The women are not in special battalions. Some of them wear the complete uniform of a soldier for the sake of comfort, while others wear skirts with a blue tunic. The younger women go with their brothers or their husbands. The women are of every class of the population and we cannot prevent them from serving. They inspire the men, with whom they march side by side and with whom they eat and serve shoulder to shoulder in the trenches.

"These women are not afraid. Nobody in Serbia is afraid, and the women in the ranks do not lose their nerve under fire.

"We realize the great power of our friends in the war. Every soldier feels that we are only part of a world army, and if it is necessary that our army shall be lost—well, it is only a part. There is time yet to save Serbia, but assistance for her cannot come too quickly."

EVERYTHING GOES UNDER THE HAMMER!

OUT THEY GO! THIS IS FINAL! NOT A PIANO OR PLAYER PIANO CAN REMAIN!

The Great Closing Out Sale Has Reached Unheard of Proportions. Saturday Tells the Story. Pianos Are Selling Right and Left. New Pianos Reduced \$100 to \$125. Terms Are Down.

CASH PIANO BUYERS HERE IS YOUR CHOICE!

Cash is the angel of the Piano Business. We are very frank when we say that we want just as much cash as we can lay our hands on, and we mean every word of this. If you have any amount of cash saved up to put into a Piano, put this money in your pocket and come here to this sale with it. Come here with the Money and come prepared to be astounded with the values that we have to offer. To get cash we have to cut deep into the hearts of the Prices. We realize this, and therefore when you produce the real coin we will talk Prices that will really stagger you. Come here to this sale today, tonight, tomorrow. But the Point is Be here without fail or falter.

PIANO BUYERS OF THE MARITIME PROVINCES.

A cheap Piano would be dear at any price, but when you see such pianos as "Amherst," "Gerhard Heintzman," "Sherlock Manning," "Kaufman," "McDonald," "Augustus Baus," and scores of others at prices like we offer, the very names on the Pianos themselves mean a life time of service. The AMHERST Pianos and Players are acknowledged as the very best that money can produce. The mere fact that we cut these prices does not affect the prices one iota. For instance, here we have a real genuine \$350 "Gerhard Heintzman" Piano that we have cut down to \$230. Can this price reduction hurt the Piano? Does it for an instant detract from the quality of the instrument? Certainly not. Come here at once. These piano bargains cannot and will not last forever. Any piano in the store will be sold on easy terms.

She Coughed Day and Night.

Mrs. Fred. Feair, Cedarville, Ont., writes: "I am sending you this letter telling what Dr. Wood's Norway Pine Syrup did for me. Ten years ago I had a terrible cold. For days I could not speak above a whisper. I coughed day and night. One evening I was so bad I went down to our storekeeper, and when I went in he said, 'You better get something done for that cold yours.' I told him, as well as I could, that I had just come to get a bottle of the best cough medicine he had. He told me Dr. Wood's Norway Pine Syrup was the best he had, and said for me to take a little of it before I left the store. I took some, and in fifteen minutes I could speak as well as ever. I think 'Dr. Wood's' is the very best on the market."

That persistent cough must be gotten rid of immediately, for if it hangs on to you it may develop into some serious lung trouble, such as bronchitis, pneumonia and perhaps consumption.

Get rid of it by using Dr. Wood's Norway Pine Syrup. A remedy that has been on the market for twenty-five years. A remedy that cures when all others fail.

When you ask for "Dr. Wood's" see that you get what you ask for as there are many imitations on the market. "Dr. Wood's" is put up in a yellow wrapper; three pine trees the trade mark; price, 25c and 50c. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Acids Stomachs Are Dangerous

A famous physician said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. Remarkable results have been obtained by the use of ordinary bisulphated magnesia, which, by neutralizing the acidity of the food, removes the source of the trouble. It is foolish to treat the stomach itself, neutralize the acid and the stomach troubles will disappear. Irritating medicines and medical treatments are useless so long as the contents of the stomach remain acid; remove the acidity, and there will be no need for medicines—the inflamed lining of the stomach will then heal itself. Bufferers from acidity, sour stomach or heartburn should get a small bottle of bisulphated magnesia from their druggist, and take a teaspoonful in a quarter of a glass of water after meals, repeating in fifteen minutes, if necessary. Bisulphated Magnesia, No. 25 E. 26th St., N. Y. C.

HEAD STUFFED FROM CATARRH OR A COLD

Eye Cream Applied in Nostrils Opens Air Passages Right Up. Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more yawning, sneezing, blowing, headaches, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

HE PASSED UP THREE GREAT ONES

Back in 1910 Barney Dreyfuss heard about Grover Cleveland Alexander, who then was with the Syracuse club in the New York State league. Barney looked over Alexander—or had one of his scouts do it—and decided that Alexander was entirely too good.

Almost from his first day with the Phillies Alexander was a star. When midseason came in 1911 his name was on every tongue of fandom. And then it was that Barney Dreyfuss won the undying enmity of the great twirler.

Barney Dreyfuss also had a chance to sign up Tris Speaker, but Barney blundered and the Red Sox later secured the man who ranks among the greatest outfielders of the age.

"I wish," says Mr. Parkhurst, "to express my appreciation for the exemplary service which it was my good fortune to enjoy on a recent trip of over 3,000 miles by sea and rail over the system of the Grand Trunk Pacific railroad."

"The ultimate ideals in travel, are scenic and service, and in a broad general way, both are attained in the ride along the Pacific Coast in your steamships from Seattle to Prince Rupert."

"I'd like to ask a favor," he said. "What is it?" asked Fogel. "Wanted to Get Even. "That you give me permission to pitch two out of every four games we play against the Pirates," answered Alexander.

THE WEATHER

Forecasts. Maritime - Easterly winds with rain or sleet. Washington, Nov. 4 - Northern New England - snow in interior, rain on the coast Friday; Saturday fair, colder; strong southwest winds. Toronto, Nov. 4 - The shallow area which was west of the Great Lakes last night is now centered over Lake Ontario, and is moving quickly towards the Atlantic coast. The weather has been showery today in western Ontario, and snow is falling this evening in the Ottawa Valley. Elsewhere in Canada the weather is fine.

Around the City

Went to Sussex. Four men went to Sussex yesterday at noon. They are Laurie Comeau, George W. McDonald, Stanford McKinnon, and John W. McNeill. One man went last night. He was John N. Perkins.

Fish Market. There was a fair supply of fish in the local markets yesterday. Fresh cod has been rather scarce during the week, but both cod and haddock were sold at 5c. per pound; halibut, 18c. to 20c.; mackerel, 20c. to 25c. each. Dried fish remain at prices usual for the time of year. Retailers say that trade has been quiet during the week.

Remembered the Band. The members of the Carleton Cornet Band wish to express their gratitude to Hedley S. Hissett, of the office staff of A. C. Smith & Co., who has had a telephone installed in the band room for three months at his expense. The band would be very grateful if somebody would be kind enough to hire or lend them a piano for use in the band room for two or three months.

New Church. A special meeting of the Miramichi Presbytery was held at Newcastle on Tuesday. There were present: Revs. S. J. MacArthur, Newcastle; A. Rettie, Millerton; A. Firth, Douglastown; J. F. McCurdy, Redbank, and W. W. Matthews of Bathurst. The Bathurst congregation were authorized to dispose of their property in Bathurst village in order to build a new church in Bathurst.

Lost His Way. A small boy giving his name as David Murray was taken to police headquarters yesterday afternoon for protection. The young fellow said that he arrived in the city yesterday morning with his mother from St. John's, N. S., and was en route to Boston on the steamer leaving this morning. They put up at a boarding house and he went to a moving picture show. After the show he did not know the location of the boarding house. His mother called at the police station for him after he had spent a couple of hours there.

Damaged the Cell. A young woman was arrested on Rockland road last evening for being drunk. She was taken to police headquarters in the patrol wagon and resisted considerably when being placed in a cell. Sometime after when the night desk man, Gibbs, visited the cell he found that the woman had torn the disinfecting apparatus from the walls, and now in addition to the charge of drunkenness she will have to face the charge of destroying city property.

Cops Get Photographed. Yesterday afternoon about three o'clock the city police force assembled in front of police headquarters for the purpose of having a large photograph taken. In addition to the sergeants and patrolmen Chief Simpson, Inspector Wickham, Commissioner McLellan, Judge Ritchie, Police Clerk George Henderson and other officials about the court and police headquarters were in the group. The men all looked exceedingly well as they stood in line and were highly complimented on their appearance by quite a few citizens who happened along at the time.

Away to Halifax. Fourteen men, who have been stationed on the island with the garrison, left last night for Halifax, where they will be attached to the garrison there. St. Mary's band went over to the island early in the evening and carried out a fine musical programme, after which refreshments were served. Then the men, who were to go away were brought up to the city on the boat and headed by St. Mary's band, and accompanied by many of the members of the garrison and the siege battery, as well as a great number of their friends, marched through the streets to the station, leaving the city about 11.30. The men were under the charge of Bombardier Meurling. The names of the other men who went away are: Gunners Bédarrache, Des, Enselow, Hanson, McConnell, McEwen, Muller, Temple, Todd, Wallbank, Phipps, E. Burnett and Tait.

THE PEOPLE OF INDIA PROUD TO BE OF THE BRITISH EMPIRE

An excellent lecture before Canadian Club, by Rustom Bustomjee—His treatment of the subject was most inspiring.

Rustom Bustomjee, of Bombay, India, was heard in a splendid lecture on India and the war in the High School Assembly Hall last evening under the auspices of the Canadian Club. The attendance was large, and the lecturer is a Parsee Indian. His English pronunciation is perfect, and possessing a sympathetic, well-modulated voice, his listeners were charmed as well as enlightened. His treatment of the subject showed his full appreciation of the good that has been done his country by Great Britain, and that he longed to make the world know the whole Indian Empire was proud to be under British rule. J. Hunter White introduced the lecturer, who, garbed in the costume of his race, made a striking appearance. Addressing the audience as "Fellow citizens of the British Empire," Mr. Bustomjee commenced his lecture, and for fully an hour wove a spell about them that was only interrupted by their appreciative applause.

Illustrations. Half the evening was devoted to an illustrated lecture, when magic lantern slides were introduced. The first picture to appear on the screen was that of His Majesty King George V. of England and Emperor of India. The lecturer said it was not necessary to comment on the picture, but he would say that he was a ruler who never called upon his subjects to murder women and babies as some rulers had done. He showed views of the coronation ceremonies when King George took the oath as Emperor of India. He told of the love and respect of the natives, and showed pictures of princes and nobles who came from all sections of the Empire to pay homage to their beloved ruler.

Other illustrations were of great men who have made history in India, and of types of soldiers who are now assisting the Empire on the blood-stained fields of Europe and Gallipoli.

Rules of India. Mr. Bustomjee spoke interestingly of the form of government in India and told how the inhabitants are ruled by seven hundred princes.

This whole vast nation, divided as it is, has never severed from the yoke of allegiance to Great Britain, made in the treaty of 1857. "The Indian Empire," said the speaker, "has shown her loyalty and enthusiasm to a large extent. She is prepared to support Great Britain to the last man and the last dollar."

Future of India. The lecturer has many times been asked to prophesy the future of his native country, and his simple straightforward answer has always been the same. "I think there is a Divinity that shapes our ends, rough hew them as we will." He has expressed himself, however, as of the opinion that in the fullness of time the day would come when the Indian Empire would show her ability to be self-governed and in the parliament that will sit at London, Canadians and Indians will sit side by side with representatives from Australia, New Zealand, and the other broad dominions of the British Empire. "When that day comes there will be co-operation without coercion, and bonds without bondage."

"If the British Empire should end tomorrow it would have no reason to be ashamed. It has done its duty towards God and humanity, and has done it well."

"But I do not believe that Great Britain's work is done, or that the Empire is drawing to a close. The men who formed the mighty British Empire are able to hold it. Their work is righteous and will endure."

Another picture of much interest was one of the late Lord Roberts, showing him greeting the Indian Princes on the battlefield only a short time before his death.

Mr. Bustomjee concluded his remarkable lecture with the simple words, "Ladies and gentlemen, I have done. The forces of right and liberty have been marshalled, and carried in the strong hand of justice, will be led on to victory."
