Mr Loggie's Able Speech

**Opposes Higher Duties on Pork and Garden
Products Shows That Government Has
Reduced per capita Debt While De-
creasing Rate of Taxation, and
Spending a Million a Year More
on Agriculture.**

OTTAWA, April 26.—In the budget
debate today, W. S. Loggie, M. P. for
Northumberland, N. B., made an ad-
mirable speech, as follows:—

Mr. W. S. LOGGIE.—Mr. speaker,
you have not heard from the province
of New Brunswick during this debate
and therefore I wish to make a few
remarks. The hon. member for Centre
York (Mr. Wallace) who has just
taken his seat, has asked that the gov-
ernment should restrict immigration
and he refers to the Japanese as a
people who should not be allowed to
enter Canada to any great extent. The
hon. gentleman should know that this
is exactly what the government have
done, that restrictions are now being
enforced and that during the last year
a very limited number of Japanese
have come into this country. The hon.
gentleman ought to know as well that
the government are using every en-
deavour to have a proper class of im-
migrants come into this country, and
that every precaution is taken that
when undesirable immigrants are
landed in this country they are return-
ed to the place whence they came at
the expense of the transportation com-
pany bringing them to Canada. Another
plea made by the hon. gentleman
who has taken his seat is that the
government should increase the
protection to the agricultural interest,
and he cites the protection on hogs,
which he says ought to be increased.
Forsooth there is a duty now of two
cents per pound or four dollars per
barrel, and yet the hon. gentleman
wants to have the farming interests of
Canada protected to a greater extent
than four dollars a barrel on pork.
The hogs that come into this country
are very largely of a class which are
not raised in Canada. The imported
hog products are consumed in the
maritime provinces and in the lumber-
ing operations of Ontario and Quebec
and the Eastern provinces. My hon.
friend would ask that those who are
consumers should pay an increased
tax to the farming interest of this
country. In my judgment it would
be unfair to the consumer to increase
the taxation on that product when we
realize that the producers are already
protected to what I consider a suffi-
cient extent. If there is one item in
the tariff list which seems to me, is
on a protective tariff basis, it is the
item of hog products. That is one of
the items which the liberal party have
continued in force which was in force
under the Conservative party in 1896.
As to the request of the market gar-
deners that they be protected, I think
we will admit that the products that
are imported into this country are
imported at a time at which they can
not and are supplied by our Cana-
dian market gardeners. It is that
true is it reasonable that the consum-
ers should be unduly taxed? They are
reasonably taxed now? They pay
what is a fair tax for revenue purposes.
I think that the government have
acted wisely in not every year tinkering
with the tariff and making
changes. We have framed a new
tariff about each decade, and during
the interim changes of no great conse-
quence have been made. I do not
think that I need refer any more to
the remarks by the hon. gentleman.
But I want once again to congratulate
my hon. friend the Minister of Finance
on the showing that he has brought
down to this House. A year ago he
pointed out to the House that it was
a time for caution and that yet
we should take courage. It seems to
me, from the report laid on the table
by the Minister of Finance, that this is
exactly what the Finance Minister
has done.

The hon. member for Centre York
(Mr. Wallace) tells us that the expendi-
ture was \$85,000,000, that the revenue
was \$15,000,000. It is certainly
an encouraging fact that it is so,
because of the stress, if I may so term
it, it might have been fair to expect
that the Finance Minister would come
down to the House showing a deficit
on the year's transactions. I think,
therefore, that we might repeat what
was said a year ago that perhaps no
Finance Minister has ever done more
to sustain the high credit of the coun-
try than has the present Minister of
Finance. From his statement we find
that the estimated net debt of the
country on the 31st March, 1896, was
upwards of \$225,000,000, and that dur-
ing the twelve and three-quarter years
since 1896, we have added to the net
debt, in round numbers, \$15,000,000.
But, Mr. Speaker, I want you to mark
that the \$85,000,000 is accounted for by
\$22,500,000 expended on the Transcon-
tinental Railway. That leaves a bal-
ance of only \$12,000,000 expended on
the great public works of this country
which would represent about \$1,000,
000 each year for the 12 years. Will
you just recall to mind what hap-
pened during the last five years of the
Conservative regime? During that
five years they expended \$21,000,000
on capital account. During the very
same term they borrowed \$21,000,000;
that is to say they had not sufficient
money in the treasury to pay the
running expenses of the country. They
had to borrow \$5,000,000 for that pur-
pose. But the Liberal party have
expended almost \$100,000,000 annually
on ordinary consolidated account and
the other great public works that they
have undertaken during the past

twelve years have added to the public
debt only \$1,000,000 per annum over
and above the expenditure on the
National Transcontinental Railway.
It seems that the situation is one from
which we might well take courage and
which should warrant us in going on
and completing this great undertak-
ing. We find that in the year 1896,
when the Conservative party gave up
the reins of power the per capita debt
was \$20.82, while in 1900, after we had
expended \$22,500,000 on the Transcon-
tinental Railway, and after the expendi-
ture on other great public works,
we have reduced the per capita to
\$16.72, equal to a decrease in the debt
of the country after all these great
expenditures of about 10 per cent.
mean the per capita debt of course.
I have explained already that the net
debt has been increased, but we have
assets for it as I shall tell you later on.
Now, I want to say a word about how
we got this money. Perhaps I should
remind the House here that the mem-
ber for North Toronto (Mr. Foster) in
speaking of that the other day used
the following language:

—which surpluses were got abso-
lutely and solely because of extraor-
dinary taxing powers that the govern-
ment availed themselves of. If the
government had kept the volume and
burden of taxation down to what it
was, or to anything near to what it
was, in Liberal Conservative times,
they could not have amassed such
immense sums of money, and they
could not have had such large sur-
pluses. If a government will tax
sufficiently, it will have large surpluses
and may have large surpluses.

Now, Mr. Speaker, during the last
five years of the Conservative regime,
they taxed at the rate of about 12 per
cent, more than the present adminis-
tration is taxing. Let me put it in
this way. In 1896 we collected 16.8
per cent, on \$251,500,000 worth of
imports. In 1896 there were imports
valued at \$105,301,000 and the rate
collected in that year was 19.12 per
cent. Our rate is \$2.71 on the \$100 less
on the value of the invoice, or equal
to a difference of about 12 per cent,
on the duty collected. Apply this and
it would demonstrate that if in 1896,
under the Conservative government,
the people of Canada had imported as
many goods as they did last year
under the Liberal regime, the Con-
servative government would have taken
out of the pockets of the people over
\$80,000,000 in extra taxation. If, on
the other hand, last year the Liberal
government had exacted the same
duty as did the Conservative govern-
ment before 1896, there would have
been \$9,000,000 more collected in
duties, and then our surplus would be
ten and a half million dollars instead
of one and a half millions. But the
hon. gentleman from North Toronto
(Mr. Foster) and the hon. gentleman
from Frontenac (Mr. Edwards) say
that the vital point is that the present
government collects \$10 per head,
whereas in 1896 the Conservative gov-
ernment collected only \$5.16 per head.
My contention is that the vital point
is the rate at which \$10 per head was
collected. If I pay taxes on \$10,000
this year at two per cent, and I am
fortunate enough next year to have
\$20,000 on which to pay taxes at 10
per cent, I pay a less rate but I pay
more money on the whole and I ought
to be glad I am able to pay it because
I have something to represent the
extra payment. And why is it that
at a less rate of duty than formerly,
there is more revenue produced? The
answer is perfectly simple. A mer-
chant will keep in his store just the
goods his customers require, and if
there is a demand for two suits of
clothes now where there was only a
demand for one suit before, the
merchant will have the two suits, and
the customer will buy them instead of
one.

Mr. BLAIN.—Why not manufacture
them here and pay no duty?

Mr. LOGGIE.—Oh, my dear man,
don't you know we do manufacture
them here? Let me tell my hon. friend
that there is a very small proportion
of clothing imported into this country.

Mr. BLAIN.—The house doing the
largest business in the province or
Ontario imports all their ready made
clothing under this tariff.

Mr. LOGGIE.—I will accept the hon.
gentleman's word but I can tell him
that I know of not one but of dozens
of mercantile establishments that do
not import one dollar's worth of ready
made clothing. The hon. member for
North Toronto (Mr. Foster) advanced
an argument the other day which it
would have been fairer for him to
have carried out to its logical conclu-
sions. He told us that in 1896 we
would find \$10,000,000 charged to
capital account but that was for seven
and a half million acres of land, which,
as an asset, converted into money was
worth \$22,500,000, and he asked us to
take that into consideration. Well, I
will admit that the hon. gentleman's argu-
ment, but had he been fair he would
have explained that the fifty-two and
a half million dollars spent on the
National Transcontinental Railway was
a national asset. Will the hon.
gentleman have the audacity to tell
me that in the National Transcon-
tinental Railway we have not an asset
representing that fifty-two and a half
millions? Does he not know very well

that in a time that money will
be bearing interest and that it is just
as if we took it out of the bank, and
drew our interest on it, as in the case
of the twenty and a half million
dollars, we took it out of the public
lands, is not that a fair comparison
to make? The hon. gentleman
(Mr. Foster) is about borrowing
during the interim, but that argument
was answered by the Minister of
Finance who told us that it was a
temporary loan which had been paid
off. If the manager of an ordinary
mercantile establishment borrows
during the year and pays off his debt
he has no explanation to make to his
directors. What he has to explain to
the directors is what he owes and
what he has to represent it. Then
the hon. gentleman (Mr. Foster) also
insinuated that if the Minister of
Finance had taken care of the sur-
pluses it would not have been neces-
sary for him to go to the London mar-
kets to borrow money. I would point
out to the hon. gentleman (Mr. Foster)
that no one can deny that the moneys
received by the government have been
wisely expended, for although there
may have been some small items here
and there that might not be expended
as we all would like, yet on the whole
there is not a man on the opposite
side of the house who would under-
take to charge that there has been
any improper expenditure of public
money. It is all very well to make
insinuations and innuendoes, but when it
comes to making a charge hon. gentle-
men opposite will not assume that
responsibility. Has this government
not promoted the prosperity of our
great country; has it not deepened
the St. Lawrence, protected our fish-
eries, aided agriculture, assisted in the
building of great railways? It is true
that if we had tied the surpluses up
in a napkin as it were, we could have
reduced the debt, but in growing
times such as these and in a growing
country like Canada it was wise that
we should have applied our expendi-
tures in the days of prosperity to
developing the resources of the coun-
try. But nevertheless we have
reduced the per capita debt, and yet
we have an increase in 13 years in the
net debt of only \$65,000,000, \$22,500,
000 of which I call liquid assets that
will bring us a return in good time.
Just one word and I have done. The
hon. gentleman from Frontenac (Mr.
Edwards) gave us a list of duties levied
by Canada as compared with the
duties levied by the United States.
I quote his words:

"I submit that it is manifestly un-
fair and unjust to Canadian farmers,
and when we take into account the
fact that the United States sent into
Canada last year 6,428 horses valued
at \$1,251,500 we must see that a por-
tion of that was deliberately taken
out of the pockets of the Canadian
farmers."

If that hon. gentleman were here I
would ask him who pays the import
duties on goods that come into Cana-
da? Who is the hon. gentleman have
the audacity to tell me that the Cana-
dian farmer pays the duty on the
horses that we send into the United
States? And yet that is the logical conclu-
sion of his whole argument, and he turns
round and tells us that on the horses
we sent into the States that the Cana-
dian farmer pays the duty, and that
argument is manifestly unfair. I do
not understand the tariff if that is the
basis of the hon. gentleman's reason-
ing. Perhaps in the case of a few
articles there may be exception to the
rule. If you have no market but
the United States, and are forced to
sell your goods there on commission,
it may be possible in some cases that
the Canadian producer pays the duty;
but in ninety-nine cases out of a hun-
dred the Canadian farmer pays the
duty on the goods imported into this
country, just as the United States
farmer pays the duty which his gov-
ernment levies on goods imported into
that country, and it is unfair for the
hon. gentleman to argue that it is
unfair to the Canadian farmer to
allow horses to come into this country
at a lower rate of duty than they have
to pay on going into the United States.
Mr. GEO. TAYLOR, the Minister
of Customs tells us that the Canadian
farmer has to pay the duty on Cana-
dian barley going to Germany.

Mr. LOGGIE.—I have no doubt that
the Minister of Customs will answer
for himself. Now I want to say just
one word in regard to the hon. mem-
ber for Frontenac (Mr. Edwards).
Why is it, he asks, that there is a
reduction of \$35,000 in the estimates
of the Department of Agriculture for
1899-1900? And then he makes some
innuendoes or insinuations as to the
cause of this or that or the other
thing? If the hon. gentleman will
read the budget debate of a year ago
or if he studies the budget debate of
this year, he will probably get the
answer, but I want to tell him this:
In 1898 how much do you think the
Conservative government expended
on the agricultural interests of this
country? No less a sum than \$210,000.
And how much did this government
expend on agricultural interests in
1899? \$1,250,000, or more than \$1,
000,000 in excess of what was expen-
ded in 1898; and yet the hon. gentleman
has the audacity to ask why the esti-
mates for 1909-10 for the Department
of Agriculture are cut down to \$35,000.
Now, Mr. Speaker, the facts are
are up, and I thank the House for the
attention it has given me.

PURITY FLOUR

And Its Keeping Qualities

SOME people find it necessary to buy a considerable quantity of flour at one time—sufficient to last for a long period. Naturally they are anxious to procure a flour of the kind best adapted to lengthy storage.

There are two important reasons why PURITY FLOUR possesses these qualities. One is that it is made entirely from Manitoba Hard Wheat. The other lies in the fact that the careful milling necessary to produce "Purity" absolutely excludes all low-grade particles of the wheat berry. It's the high grade Manitoba Hard Wheat Flour that keeps—stands longest storage. That's "Purity."

"Purity" flour may cost a little more, but is more than worth the difference. Try it. Watch results both for quality and yield.

Origin of Sin.

(By a Presbyterian in an Exchange.)

The origin of sin has been a great puzzle since the fall of man; so great a one that the founders of nearly all religions unwillingly to attribute it to God, have either taught the existence of two great powers, a good and an evil one opposing each other, or as in Mrs. Tidd's case, absolutely deny the existence of evil or sin. The Christian faith acknowledges the existence of evil; let us see if a satisfactory answer can be given to the question so often asked: "Why did God permit evil to enter the world if He is infinitely wise, good and powerful?" What is evil? Really, there is no such thing as absolute, intrinsic evil. Good is positive, essential in its conditions, but evil is only the shadow cast by the sun of goodness. Examine the nature of the greatest evil we know, which is sin, and I think you will agree with me that every sin, of whatever nature, is but the exaggeration or abuse of some principle in itself good, even when positively a perfect man. For example, hatred is but an exaggerated sense of disapprobation of some real or fancied wrong; too often the disapproval is transferred from the deed to the doer of it, and then it is sin. Intemperance is but the excessive use of those good things which God has given us freely to enjoy. Selfishness is an exaggerated sense of one's own right or privileges; and soon through the whole catalogue of sins which lead to crime and misery. God gave to the first man only good principles, or inclinations, but we, though a man, had no more experience than a little child, nor was there anyone by whose experience he could profit. He misused his powers; made mistakes as man still does, and suffered in consequence. But you ask "why God permitted him to sin?" Because without sin man could never have known the character of God. Without a knowledge of sin, he never could have realized the exceeding beauty of holiness. St. Paul said in Romans, 5th chapter, 20th verse: "The law entered that sin might abound," and in Gal., 3rd chapter, 24th verse, "The law was a school master to bring us to Christ." God could have made man incapable of sin. He would then have been simply a machine, doing the will of his maker without choice or even knowledge of what he was doing. Can you imagine any in such a life, or can you conceive such a one as being pleasing to God? There could be no virtue in such a man, because he could have no will. But still you object, the horrors of sin, the suffering. It was this that caused Christ to come into the world to reveal God to man. Had he not come, man would never, during his life, have known of God's love or purity. Contrast would hardly be greater between the ideas of two individuals concerning the same being, than the conception of the Pharisees, and that of St. Paul concerning God. As to suffering it is necessary to develop man's highest character. Think of the virtues which are nourished by suffering, viz.:—firmness, constancy, patience, courage, sympathy. Can one of them be spared? God reveals himself to man when he is suffering, as He could not do to one unknown to sorrow. Do you remember the opening words of Longfellow's "Hyperion"? I have not the book and it is long since I have read it, but they are something like this:—"The setting of a great hope is like the setting of the sun." The twilight comes, sombre and grey; the darkness deepens, then the stars arise and the night is holy." So when we suffer, at first we see no good in it. It is all horrid; all evil. But we lift our eyes at last, and behold the Father's love. I know whereof I speak, I have suffered, and I have seen others suffer. I have seen the mother follow her child through almost unspeakable shame and degradation pleading with him, praying for him, bearing with him, working for him. Could she fail to learn from her own earthly love how infinitely tender and compassionate is God's love? But, please remember one must look upward to behold the stars. Then man, having sinned and felt the sting of sin, chooses good. Ah, you say, not all, not half; many die in their sin and are lost. No man can judge another; only God can judge for He only knows all. And no man can go beyond God's loving care, for St. John tells us He is love, and we know that love prompts unceasing care for its object. As St. Peter assures us in his 1st epistle, 3rd chapter, 18th and 19th verses, that Christ, after being crucified went and preached to the spirits that were in prison. I have no doubt that he has provided a way to teach those who leave the earth now, prisoners of their evil passions, to forsake sin and choose God.

NEWCASTLE, MAY 5th, 1909.

AN ANNOUNCEMENT.

For some time past Messrs. W. J. McNeil, T. H. Whalen and a number of other gentlemen in Newcastle and vicinity have been negotiating with the present owners for the purchase of the plant and premises of the Union Advocate, and, the conditions of transfer having been agreed to, with this issue the Union Advocate appears under an entirely new management.

The purchasers will apply to the Governor-in-Council for incorporation by Letters Patent as the Advocate Publishing Co., Ltd. A new linotype typesetting machine will be installed and other extensive improvements will make the present plant the most complete and up-to-date printing establishment in the Northern Counties.

The Advocate is the oldest living newspaper on the North Shore, having been established by Messrs. W. C. & J. Anslow in 1867, the first issue appearing as a four-page seven-column weekly on the seventh of November of that year.

ANOTHER GAIN FOR TURKEY.

Sultan Abd-ul-Hamid II of Turkey was dethroned on the 27th ultimo and succeeded by his brother, Mehmed V, who promises to loyally observe the restored constitution of the land. The outlying provinces of the Empire are still unsettled, but the grip of the Committee of Union and Progress appears to be strong and peace speedily assured.

WOMAN'S SUFFRAGE.

Mr. W. F. Hatheway's bill to extend the franchise to widows and spinsters owning property or having annual incomes of \$400, was on the 27th ultimo killed in committee, being defeated by a vote of 24 to 14. Had the measure proposed, as it should have been, to give all women the right to vote and to hold any offices to which they might be elected, the result might have been more favorable to the weaker sex. The woman's suffrage question will come up again.

IN THE LEGISLATURE.

The House of Assembly was prorogued on the 29th ultimo. Of the 116 Bills introduced 102 became law. During the session great improvements were made in the Liquor License law; and an amended Highway act was passed which places the roads in each parish under Highway Boards consisting of the Councillors for the parish and a Secretary-treasurer appointed by the Government. The royalties to be paid by the Canada Iron Mines Corporation were fixed at only five cents a ton for eighty years. Steps, unanimously approved by the opposition, were taken to combat the spread of tuberculosis. And the right of certain parties to cast more than one vote each in provincial elections was wisely taken away. The salaries of the Chief Commissioner and Surveyor-General, although no hint of such action had been given before the election, were increased

from \$1700 to \$2100 a year—not an unreasonable figure.

The gerrymander of Westmorland County was a most iniquitous act. Another vicious measure was that which provides that factory inspectors must be dismissed at 70 years of age. This act will remove Inspector John McMullin on September first. Mr. McMullin's resignation was vainly sought, and as, apparently, no charge against him could be substantiated, this roundabout method was taken to get rid of him. As Major Howe, who is said to be seventy-three, has been appointed Sheriff of York County, no age limit being placed on any office but that of Factory Inspector, it would seem that Mr. McMullin's real offence in the eyes of the government is that he is a Liberal and some Conservative wants the job. The wholesale dismissal of Liberals from office has not improved the chances of the so-called coalition government for winning next election. No steps have been taken by the government to reduce the public debt.

What may have the result of upsetting the government is its permitting the House to separate without giving any guarantee concerning the building of the St. John Valley Railway, which is demanded by all parties in the counties of Carleton, York, Sunbury and Queens.

The government seemed very anxious to have the road built, but after several of its leading members had been interviewed by C.P.R. officials, their interest in the new road seemed to flag. Many of their supporters are furious at the turn affairs have taken, and are not sure but that the C.P.R. magnates exercise a greater influence upon the Conservative members of the Cabinet than do the needs of their constituents.

Rarely has any government become so tangled up before the end of its first two years in office. Its prospects for return at the next general election are growing less each day.

THE MONCTON GERRYMANDER.

A thorough redistribution of electoral districts—Dominion, provincial and municipal—has long been needed, not only in New Brunswick but in the other provinces as well. The successive rearrangements heretofore made have not resulted in anything like an equitable division.

In Counties, each parish has generally the same number of Councillors, utterly regardless of the disparity of population among those parishes. This should be remedied by allowing more representation to the more populous districts and less to the thinly-peopled sections.

For Dominion elections, the number of members allowed to each province is fairly apportioned after each decennial census; but there rarely is

"After taking three bottles of your wonderful medicine, our baby was entirely well and needed no more medicine. At sixteen months of age she weighed thirty pounds. She had cried eight months, night and day, and nothing did her good until we tried Scott's Emulsion."—MRS. E. C. SMITH, Villa Rica, Ga.

Scott's Emulsion

probably saved this child's life. Four doctors had been tried. Scott's Emulsion seemed to be just the thing needed, and it is just the thing needed by thousands of other children. It's so easily digested, so pure and harmless, yet most powerful in building up the most delicate child or adult. But be sure to get Scott's Emulsion, there are so many worthless and harmful imitations.

SCOTT & BOWNE,

any honest attempt made to have each province divided into constituencies of equal population. By the census of 1901, the unit of representation in the House of Commons was fixed at about 25,000 and New Brunswick's contingent was, quite properly, reduced to thirteen. But within the province, there is a very great difference between some of the constituencies. For example the 11,000 people of Restigouche, the 17,000 of Queens-Sunbury; the 34,000 of Kings-Albert; and the 42,000 of Westmorland, were each allotted one member of parliament. In all cases this inequality could have been rectified. In the case of Queens-Sunbury and Kings-Albert, which together had just the right population for two members, all that was required was to annex enough of Western Kings to Queens-Sunbury to make the two districts equal.

For provincial elections, the unit of representation is about 7,250. The 21,000 people of Victoria and Madawaska however, have four members between them instead of three; the 5,750 of Sunbury have two members instead of one; while the 42,000 of Westmorland have four representatives instead of five; and the 41,000 of St. John City have four legislators instead of five. Any redistribution of provincial seats made before the census of 1911 should take two members off Victoria-Madawaska and Sunbury and add them to St. John City and Westmorland.

Now, Mr. Hazen's Redistribution bill which was passed last week did not propose a fair and impartial division of the whole province, but merely proposed to separate Moncton City from the rest of Westmorland and give it one member allowing the County the other three. The setting apart of Moncton, as was done by the late Premier Blair to St. John City, is a proper move; but so also would be the separation of Fredericton from York; and of Chatham and its environs from Northumberland; neither of which is to be done however. But Moncton, which is growing much more rapidly in population than the rest of Westmorland County, having now about 12,000 is entitled to two members and the rest of the County to three; the increase of one member for these two districts to be equalized by the dropping off of one member from the Premier's own constituency of Sunbury. But no such equalization and justice is contemplated. Mr. Hazen is not all concerned with the unfairness of the present method of electoral division. He knows that, while Westmorland County may be dependent upon to elect a full Liberal ticket, the Liberal majority usually comes entirely from the city of Moncton, the parishes outside the city being so equally divided in sentiment that sometimes one party wins and sometimes the other, the majority in either case being very small. By his new scheme Mr. Hazen hopes to fix Westmorland so that the Conservatives can elect the three members allotted to the rural section, confining the Liberals to the one city seat.

But in York where four Conservatives hold the Provincial seats, and the city of Fredericton is as apt to elect a Liberal as it is to choose a Conservative, nothing is said about dividing the city from the County. This proves Mr. Hazen's hypocrisy, and it shows the Moncton bill to be a gerrymander pure and simple.

As there is no likelihood of a provincial election being held before 1912, the fair and honorable way would have been to let the whole matter of representation lie over until after the census of 1911 shows the new figures of population, and then to make a thorough impartial division, setting aside in new constituencies both Moncton and Fredericton and any other town that shall then have enough people to entitle it to a representative.

OBITUARY.

MRS. JOHN GILLARD, JR.

The death of Mrs. John Gillard Jr., occurred at the Moncton Hospital Friday morning. Death was due to gastritis. She was in the hospital two weeks for treatment. She leaves a husband, three sons, whose ages are 4, 6 and 8, two sisters, Mrs. Geo. F. McWilliam here and Mrs. Arthur Lawlor, Duquet, Minn., and two brothers, Edward Malay in Wisconsin, and Frank Malay in the U. S. navy. Deceased was 36 years of age and was the second daughter of the late Edward Malay of Newcastle. She was a niece of Mrs. Quinn, Hon. John Morrissey and Patrick J. Morrissey of Newcastle. The remains were taken from the Moncton hospital to her home in Shediac Friday afternoon.

The funeral was held in Shediac on Sunday, from her late home to St. Joseph's R. C. church, Rev. Father LeBlanc officiating. The members of the League of the Sacred Heart took an impressive part in the ceremony.

The floral tributes were beautiful and consisted of a wreath with wife inscribed in purple letters from the husband; wreath from the I. A. of M.; pillow from the family of Mr. Gillard; cross, Mr. and Mrs. Geo. F. McWilliam, and basket of flowers Mr. and Mrs. Chas. Smith, Point du Chene. Upwards of seventy spiritual bouquets were also sent by friends in Shediac and Newcastle.

The pall-bearers were Mayor McDonald, Harry McDonald, John Connors, T. J. Gallagher, Laurent Doiron and Michael Casey.

MISS JENNIE LIVINGSTON.

Miss Jennie Livingston, while cleaning a spot on one of her long kid gloves, was almost burned to death with gasoline at the home of Dr. L. M. Baker, 66 Vine St., Lynn, Mass., where she had been a companion for Mrs. Baker for over five years. The accident occurred in the room where her sister Christie was. Christie heard Jennie say, Oh, and when she turned, Jennie started for the dining room where Mrs. Baker was. Jennie and Annie were in a room upstairs and heard the cries of Mrs. Baker, but did not know at the time that it was their sister, till Christie came and told them that Jennie was burned. They rushed down stairs, but were unable to see their sister for the crowds of people that kept them back. At last they got into the office and there saw Jennie was badly burned, but conscious all the time. She was immediately taken to the Lynn Hospital, where she died in about three hours. Her sister Christie's hand and hair were badly burned. Annie and Christie were taken to the Hospital with her, where Annie remained with her till she died. There were a number of Doctors summoned, but they could not help her any. Her body was brought to 66 Vine St., where Mr. Copley took charge. There was a large funeral held Tuesday at 3.30 p.m. There was a number of floral tributes—A large pillow from Dr. L. M. Baker; one from Mrs. Wilson Clifford of Haverhill, Mass.; a large wreath from Dr. W. H. Baker; a pillow from Mr. and Mrs. Fred Huntress, one from Mr. Robert Preece, and one from Miss Sarah Preece; a large set piece from Campworks of the General Electric Company; one from River Works of the General Electric Co.; a large basket bouquet from the Friendly Bible Class of the church of which Annie and Jessie are members, other large basket bouquets from Miss Olive Branner, Mr. and Mrs. J. Lanner, Miss Mabel Follansbee, Miss Clara Donovan, Mr. and Mrs. Bert Phinley, Miss Lizzie Pierce, Mr. and Mrs. John B. Steck, Mr. Lume Kollick. The pallbearers in Lynn were—Dr. L. M. Baker, Charlie Cail from Roxbury, cousin of the deceased, Roland Thorpe, J. J. Lanner, Fred Huntress, Myers Rhodes.

Locomotor Ataxia Cured by Dr. Williams' Pink Pills

Read the Strong Testimony of a Man Who
Was Helpless For Years and Whom Hos-
pital Doctors Said was Incurable.

Locomotor ataxia is a disease of the spinal cord, characterized by peculiar disturbances of the gait, and difficulty in governing the motion of the legs. As the disease progresses there is a total inability to walk. One of the earliest signs is a tired feeling, particularly noted in the knees and ankles. Often a numb feeling is associated with it. As the disease is of slow growth, some cases covering a period of years, the intensity of the symptoms is not noticed, but its progress is constant and gradually approaches a total lack of feeling in the legs, causing a wobbling gait and entire inability to govern the steps. As it grows the patient loses control over the bowels and water. A further symptom is the sensation of a pressure at the waist, as the upper parts of the spinal cord becomes affected.

Locomotor ataxia is stubborn in yielding to treatment, and before the discovery of Dr. Williams' Pink Pills was considered incurable. It has been fully demonstrated, however, that this disease can be cured by Dr. Williams' Pink Pills for Pale People.

The length of treatment required depends upon the stage at which it is commenced. It is dangerous to delay taking the pills after the presence of the disease is recognized, although this medicine has wrought cures in many cases of long standing.

We give the following statement of Mr. Henry Furzer, a well known resident of Delta, Ont., in proof of the claims that Dr. Williams' Pink Pills will cure this most dreaded of diseases. Mr. Furzer says: "I am deeply grateful that I am able to write you and let you know the great benefit I have derived from the use of Dr. Williams' Pink Pills. Some years ago, while working on the Grand Trunk Railway I injured my back while lifting a heavy weight. Gradually the trouble grew worse and I was taken to the

hospital at Brockville. The treatment there seemed to help me and after some weeks I returned to work. I was only at work a few days when the trouble returned worse than before. Again I went to the hospital, blisters were applied to my spine, but without avail. The doctors told me I had locomotor ataxia, and that there was no help for me, as I would never be able to use my legs again. I returned home in the belief that I would always be a helpless cripple, and that death only could bring relief. I gradually got worse and worse. There was absolutely no feeling in my legs. I lost control of both bowels and bladder, and suffered great torture from a girding pain about the waist. I was in fact a complete wreck and could scarcely sleep at night. Finally, a friend asked me if I had ever tried Dr. Williams' Pink Pills, and on my saying no, he got me a supply and I began to use them. It was quite a while before I found any benefit, but finally relief began to come. The pains about the waist ceased. I slept better and my appetite was better. Then the feeling began gradually to return to my legs, and then I was again able to stand alone. As time went on the improvement continued, and I was at last able to go about with the use of a cane, and I could get in and out of a buggy without assistance. I scarcely hope to be the vigorous man I once was, but only those who have suffered as I did can imagine the great gratitude I feel for what Dr. Williams' Pink Pills have done for me. I strongly and sincerely advise similar sufferers to give this medicine a fair trial."

You can procure Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

SMASHING THE ECONOMY PLANK

(Moncton Transcript.)

The "salary grab" at the provincial capital affords further evidence of the persistent disregard of pre-election pledges shown by the Hazen party during their brief term of office.

It will be remembered how they went about the country prior to the last provincial election shouting about "economy." They were going to abolish "extravagance." They were going to cut down expenses of administration and introduce wonderful reforms.

It is interesting to recall some of the promises held out by the Hazenites when in Opposition respecting the administration of the province. It is timely to note how definitely they were pledged to "economy" in the running of the governmental machinery.

Among the reforms desirable in the public interests advocated by Hon. Mr. Hazen, when he was leader of the Opposition, was the reduction in the number of government members and the lowering of the expenses of administration. The following paragraphs appear in a series of resolutions moved by him, in the legislature when leader of the Opposition.

"The immediate abolition of the office of solicitor general, having in view the reduction of salaries of members of the executive and the amalgamation of offices at present existing."

"The reduction of the number of members in the House of Assembly to thirty-eight and the division of the province in thirty-eight electoral divisions, each returning one member; the different divisions to be as nearly as possible equal in population, having regard to other interests; lines to be preserved as far as may be and the divisions in existing."

Miss Virgie Neville Soubrette with the H. Wilmot Young Co.

The sale of seats for Lena Rivers, the opening play of the Young Stock Co., is now going on. Don't get left.

to ridings to be made by an independent commission consisting of three judges of the Supreme Court.

The reduction by at least one-half of the amount allowed by the Attorney General for settling succession duties, a substantial reduction in the cost of public printing, a reduction in the travelling expenses of members of the executive, a reduction in the controllable expenditure of the province and such changes in the legislative and departmental machinery of the province as will lead to a substantial reduction in the cost thereof."

Now there is a clear-cut, definite pledge to the electorate to reduce the number of ministers at the provincial capital, and bring about a reduction of the cost of administration.

But what have the government done? Have they reduced the number of members of the executive, as they proposed to do when in Opposition? There are as many ministers in the government as there were when they came into power. Has there been any reduction in salaries? The salaries have remained just where they were at the time they took office; and now they come down with a proposal to make a change, not to effect a saving, but to increase the cost of administration. After all their talk about "economy" after all their fine promises to reduce expenses, they make a raid on the treasury and increase salaries. Two members of the government, the Surveyor General and the Commissioner of Public Works, now receive \$1,700 a year and the government proposes to increase their salaries to \$2,100 per annum.

That is the way the Hazenites are carrying out their promises to "economize." While they were in Opposition and did not have the handling of public monies they made all sorts of promises to cut down expenses, but now that they are in power and have control of the revenues, what are they about pre-election vows? Fine professions about introducing "economy" are thrown to the winds. They dip into the provincial treasury and increase salaries, recklessly breaking faith with the people of this province.

The smashing of the "economy" pledge by the Hazen administration is only one of many instances in which the government have flagrantly violated their promises made when in Opposition. Some day the people will have an opportunity of showing this band of pledge-breakers what they think of such conduct.

HARCOURT.

The event of the season, and one that is looked forward to with most absorbing interest is the May Party, or, I should say parties; as it has long been a custom in the village, on the morning of May Day to crown three Queens—something unusual, I imagine. One is selected from among the ranks of the wee-tots, one from among the school girls, and another from the buds, who have made their first bow to the world of pleasure.

From the latter, this year, Miss Maude McPherson was chosen Queen, and a most charming one she made. Her Maids of Honor were Miss Ethel Wathen, and Miss Cameron. The Queen in this set is supposed to hold her reception in the evening, and a right royal welcome was extended the young people at the home of Mrs. John Beattie, where game and music were indulged in till a late hour.

From among the school girls Miss Dorothy Dunn was selected as Queen, and she and her charming maids, Misses Georgina Cormier and Maggie Wathen, made a fair and dainty group. She held her court from six to ten in the evening. The most interesting of all, probably, in this rather interesting function is the gathering of the little ones. This year Frances Barrieau, a fair-haired tot of five, was crowned, the Maids of Honor being Jessie Bucklefield and Jean Wathen. Little Frances, being the niece of Miss Buckley, the little ones to the number of thirty-five gathered at her home to do homage to the tiny Queen of May.

A most delightful afternoon was spent with games, music, &c. The usual procession through the street was in part abandoned, owing to the weather. Only the little ones braved the threatening clouds, and ventured out, and the flower crowned Queen and maids, the pages, the may pole, and attendant band of white clad children presented a pretty sight. A feature that calls forth some rivalry is the decoration of the tables spread for the festival. At one the decorations were in yellow and white, at another a miniature may pole was used as a centre piece with garlands of flowers and ribbon streamers extending to the corners of the table. The table spread for the little ones was in pink and white. The three entertainments were decided successes.

Mrs. H. M. Buckley and little daughter May, who have been spending the past week with friends here and in Moncton, returned to Bathurst Saturday night.

H. H. Stuart, of Newcastle, with his little daughter Eulah and son Edwin, spent Saturday afternoon with friends in the village.

Rev. F. H. Thomas, Miss Ethel Wathen, Mrs. Robt. Saulnier, and Ernest E. Bucklefield were visitors to Moncton during the week.

Rev. R. H. Stavert has returned from having attended the Post Graduate School held for some four days in Pine Hill College, Halifax. While in Halifax, Mr. Stavert also attended the closing exercises of Dalhousie College.

Miss Katie Stevenson who has been confined to her bed because of a broken limb is now able to set up.

WEAK KIDNEYS

MAKE WEAK BODIES

Kidney Diseases Cause Half The
Common Aches and Pains of
Newcastle People.

As one weak link weakens a chain, so weak kidneys weaken the whole body and hasten the final breaking down.

Overwork, strains, colds and other causes injure the kidneys, and when their activity is lessened the whole body suffers from the excess of uric poison circulated in the blood.

Aches and pains and languor and urinary ills come, and there is an ever-increasing tendency towards diabetes and fatal Bright's disease. There is no real help for the sufferer except kidney help.

Booth's Kidney Pills act directly on the kidneys and cure every kidney ill. Newcastle cures are the proof.

Mrs. John Gallah of Regent St., Newcastle, N. B., says: "My daughter Gertrude, of 11 years, had since infancy suffered with weak kidneys. She was sick most of the time and we had on many occasions thought she would die from Bright's disease as the doctors had failed to help her in the least. She began to suffer with a weakness of the bladder and had no control over the secretions and the result was she would wet the bed regularly. This caused a great deal of extra work and worry and the child became more weak and sallow as she grew up. She was in a very poor condition when we began treating her with Booth's Kidney Pills procured at Mr. Durick's Pharmacy, and we had little hope of anything doing her good. Booth's Kidney Pills soon proved their worth however, and in less than a month's time she had been entirely cured. She has gained several pounds and she is stronger and better than ever before. Every mother should know of Booth's Kidney Pills and you can use my name whenever you like."

CYCLONES SWEEP THE U. S. A.

Hundreds of People Killed and
Millions of Property Destroyed.

CAME FROM THE NORTH.

All the Central States Devastated,
Especially Those in the South.

Atlanta, Ga., April 30.—An epidemic of cyclones and tornadoes, the like of which have not been known for years, swept through the south last night and to-day, leaving in their wakes hundreds of dead and mangled bodies and the dismantled wrecks of property worth many millions. All along the path of the storm come tales of fearful loss of life and descriptions of whole towns and villages completely wiped out.

The storm wave had its origin in the north and swept from the lake region south in irregular fashion, now moderating its force as it spent, now growing more turbulent.

The States devastated are: Tennessee, Missouri, Arkansas, Georgia, Alabama, and neighboring districts; and the States along the lakes were badly swept. Whole towns and villages were wiped out in the south, and much damage was done in the Northern States. Hundreds of people were killed.

A BOY'S HOLIDAYS.

The ardent controversy which has been waging in England and America concerning the best way to dispose of school boys in the long summer vacation has prompted the Grand Trunk Railway system to issue a special publication giving suggestions and practical hints to parents, as to what to do with the public and preparatory school boy during the months of July and August. The vacation camp is one of the solutions and the publication entitled, "What shall a boy do with his vacation?" thoroughly covers the ground and solves the problem of the best way for a schoolboy to enjoy his holidays.

MARILE ADAMS as SALLY

(Campbellton Graphic.)

The H. Wilmot Young—Marile Adams Co. appeared last evening in the initial performance of this popular company's second engagement in our town and was greeted with a crowded house, chairs being necessary to provide seats for late arrivals.

The Company has suffered nothing by returning for a second engagement, and last night's entertainment clearly proved that the citizens are glad to again welcome Mr. Young and his talented company.

The bill was "Lena Rivers" a melodrama which has evoked favorable criticism wherever produced, and last night's performance was one of the best which has yet appeared in the Opera House.

The specialties were of an unusually high character. The Scottish trio in Scotch and Irish dances is worth the price of admission alone, while Bates and Neville in comic sketches, and trick bicycle riding are wonders.

The performance throughout is clean and bright and we bespeak for this talented company crowded houses all this week.

The piece for tonight is "In Old Kentucky," and Wednesday night, "Monte Cristo."

Parisian Sage, that most efficient of all hair restorers, is a very delightful and refreshing hair dressing. Besides possessing these qualities it will positively make any woman's hair soft, luxuriant and attractive. T. J. Durick sells it and will return your money if you are dissatisfied. Just read this: "After using one bottle of Parisian Sage, I now have a better growth of hair and I found your Hair Restorer pleasant to use. After the first application, the dandruff disappeared and my hair stopped falling out, and it has been restored to its natural color. A MASTERPIECE.

(Robert Ingersoll, the author of the following is best known by his unorthodox utterance but he has given to the world many splendid passages which will beautify our literature long after his criticism of revealed religion is forgotten.)

LIFE

Born of love and hope, of ecstasy and pain, of agony and fear, of tears and joy—dowered with the wealth of two united hearts—held in happy arms, with lips upon life's drifted font, a veined and fair, where perfect peace finds perfect form—rocked by willing feet and wooed to shadowy shores of sleep by siren mother singing soft and low—looking with wonder's wide and startled eyes at common things of life and day—taught by want and wish and contact with the things that touch the dimpled flesh of babes—lured by light and flame and charmed by color's wondrous robes—learning the use of hands and feet, and by the love of mimicry begun to utter speech—releasing prisoned thoughts from crabbled and curious marks on soiled and tattered leaves—puzzling the brain with crooked numbers and their changing, tangled worth—and so through years of alternating day and night, until the captive grows familiar with the chains and walls and limitations of a life.

And time runs on in sun and shade, until the one of all the world is wooed and won, and all the lore of love is taught and earned again. Again a home is built with the fair chamber where, in faint dreams, like cool and shadowy vales, divide the billowed hours of love. Again the miracle of a birth—the pain and joy, the kiss of welcome and the cradle song drowning the drowsy prattle of a babe.

And then the sense of obligation and of wrong—pity for those who toil and weep—tears for the imprisoned and despised—love for the generous dead, and in the heart the rapture of a high resolve. And then ambition with its lust of self and place and power, longing to put upon its breast distinctions worthless badge. Then kenner thoughts of men, and eyes that see behind the smiling mask of craft—flattered no more by the

obsequious cringe of gain and greed—knowing the uselessness of hoarded gold—of honor brought from those who charge the usury of self respect—of power that only bends a coward's knee and forces from the lips of fear the lies of praise. Knowing at last the unstudied gesture of esteem, the reverent eyes made rich, with honest thought, and holding high above all other things—high as hope's great throbbing star above the darkness of the dead—the love of wife and child and friend.

Then locks of grey, and growing love of other days and half-remembered things—then holding withered hands of those who first held his while over dim and loving eyes death softly presses down the lids of rest.

And so locking in marriage vows his children's hands and crossing others on the breasts of peace, with daughters' babes upon his knees, the white hair mingling with the gold, he journeys on from day to day to that horizon where the dusk is waiting for the night. At last sitting by the holy hearth of home as evenings' embers change from red to grey, he falls asleep within the arms of her he worshiped and adored, feeling upon his palid lips love's last and holiest kiss.

INDIGESTION ENDS

Misery From Your Disordered Stomach Goes in Five Minutes.

You can eat anything your stomach craves without fear of a case of Indigestion or Dyspepsia, or that your food will ferment or sour on your stomach if you will occasionally take a little Diapiesin after eating. Your meals will taste good, and anything you eat will be digested; nothing will ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in the stomach), Bilioussness, Heartburn, Water brash, Pain in stomach and other symptoms. Headaches from the stomach are absolutely unknown when this efficient remedy is used. Diapiesin really does all the work of a healthy stomach. It digests your meals when your stomach can't. Each triangle will digest all the food you can eat and leave nothing to ferment or sour. Get a large 50 cent case of Pape's Diapiesin from your druggist and start taking today and by tomorrow you will actually brag about your healthy, strong stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

GAME VIOLATORS FINED

Before Justice O'Brien of Bathurst on Tuesday five convictions for infringement of the game law were given. G. O. Theriault, David Downing and Louis Capelin were each fined \$50 and costs for killing moose, and Joseph Boudreau and Wan Piant, \$100 each and costs for hunting moose accompanied by dogs. The complaints were laid by W. H. O'Brien, local game warden, and the government was represented by J. J. Harrington, clerk of the peace.

PEACE IN

CONSTANTINOPLE.

Ex-Sultan Abd-ul-Hamid Sent a Prisoner to Saloniki.

CONSTANTINOPLE, April 28.—The former ruler of the empire, Abdul Hamid II, is to be kept a prisoner in a height overlooking Saloniki, which has lately been occupied by the Italian commander of the international gendarmes. He is not to be put on trial, as has been widely reported in Constantinople for he is considered to be above the law. It was thought wise to keep the deposed sultan in European Turkey, remote from the capital. His household will be administered for him upon a generous scale and his life will be safeguarded as he earnestly besought when notified of his dethronement.

Abdul Hamid II with four wives, five daughters and two of his younger sons two eunuchs and a comparatively large number of female servants, was taken from the Yildiz Palace last night and started under an escort to Saloniki. The party proceeded by steam launches to the landing near the railway and a special train on which they were placed left at 3 o'clock in the morning.

The Constitutionalists would like to get back part of the great sums of money that the former sultan is supposed to have abroad, not only because the government is in need of money, but because it is desirable that he should be deprived of the resources for another coup d'etat. Speculation places Abdul Hamid's wealth at anything between \$25,000,000 and \$210,000,000.

The city is illuminated tonight and general rejoicing continues. Although this was a holiday court martials were held and several of the principals in the mutiny of the troops were condemned to death. Later they were taken outside the walls of the city and shot. Prince Saïdah Eddins, the nephew of the sultan, who was arrested on suspicion of being implicated in the rising, has been liberated, and his release has caused a good impression.

The streets of the capital are filled with Macedonian volunteers. They are being fed by the citizens at the coffee houses and restaurants which are full to overflowing. A brisk business is being done in the sale of pictures of the sultan and miniature flags inscribed "Liberty, fraternity, equality and justice." Hodjas and Sofias, who have not been seen in recent days are now reappearing in the public places and conditions are assuming a normal aspect.

MONCTON NEWS.

A Druggist Taken for Violation of the Scott Act.

MONCTON, April 28.—A great deal of fault was found with the police here for not arresting the druggist Mr. Holstead for violation of the Scott Act, as there was a judgment hanging over him. But now they have not a word to say on that score as Holstead has been taken to jail. He had been successful in dodging the police and therefore could not be secured till last Saturday. A good many are of the opinion that if Judge Kay or Chief of Police Hildout loses his office it will be on account of the rigid enforcement of the Scott Act.

ROBBERY AT DALHOUSIE

Mail Bags Taken From Baggage
Car and Money Stolen.

(Graphic)

Inspector Duncan Noble, together
with officers from the post office de-
partment are making a thorough in-
vestigation into the matter of the
Dalhousie mail bag robbery and de-
velopments are expected at any hour.

The job was done in a most thor-
ough manner. Not the least clue was
left to give the detectives a chance
to place their hands on the guilty
parties. The envelopes were most sys-
tematically opened and left with the
bags. An envelope containing a quan-
tity of postage stamps was opened but
the contents left. A gold watch and
a valuable ring were left untouched.
The package of money from the Royal
Bank of Canada was taken from its
original package and even the slip and
string left behind. The pair of shoes
mentioned in press despatches have
no bearing on the case, as they were
found in an old wagon in the shed
and had been left there by an em-
ployer last summer.

Several suspects are being closely
watched, and the detectives are con-
fident that an arrest will be made be-
fore long.

Our Dalhousie correspondent sends
the following:

DALHOUSIE, April 29.—The citizens
of this generally peaceable community
were startled on Tuesday morning,
when the news spread about town that
the mail bags had been removed from
the baggage car of the Dalhousie
branch train, taken to a shed in close
proximity to the I. C. R. station.
Rifled and that a large amount of
money had been stolen.

The facts secured by your corre-
spondent are about as follows:

The mail bags for east and west
express trains were taken from the
Post office and placed in the baggage
car of the branch train between eleven
and twelve o'clock at night by Mr.
Havelock McNeill. The car is locked
after the mail bags are placed therein.
When the I. C. R. employees arrived
at the station to prepare the train
for the out going trip to connect with
the Maritime from Halifax they not-
iced that the mail carrier had
forgotten them at the Post Office they
immediately called at Mr. McNeill's
home. The latter was very much sur-
prised at their mission as he had per-
formed his duty as usual. He, how-
ever, accompanied the officials to the
baggage car and finding no trace of the
mail bags in any part of the train
nor about the sheds owned by the firm
of A. & R. Loggie and to their astonish-
ment they discovered the bags, out
open and several registered letters
tampered with.

No person had been seen in the vic-
inity about the time the daring theft
took place. By what means did the
robber obtain a key to enter the bag-
gage car.

According to reports on the public
streets the expert got away with a
package containing \$2000 in bank bills
the property of the Royal Bank of
Canada, a registered letter containing
\$50; another containing \$50; other
letters containing smaller amounts, a
silver watch a gold ring, etc.

There was no time lost in having
Detective Noble of the I. C. R. on the

WHAT THE BOY
WROTE.

A young man once wrote to his father,
saying, "I am well, only I don't feel like
making any sort of physical exertion."
Thousands of people feel exactly like
that young man—and they are not
lazy people, either. They are generally
dyspeptics, with a first touch of indiges-
tion; they need a short course of
Mother Selge's Syrup, to put their
stomach, liver and bowels into healthy
activity, so that their food will nourish
and strengthen them. Mr. George
Henry, of Shippagan, N. B., who suffered
from Dyspepsia, writes: "I was
and almost unable to work
many medicines without
several bottles of Mother Selge's
and it gave me relief at once.
I am now as much as usual.

been very busy endeavoring to bring
the guilty parties to justice.

Whoever did the act must have been
aware of the large package of money
that was mailed at the Post Office
by the Royal Bank of Canada or was
it the knowledge that a smaller amount
was sent out that night that
led the robber to make Monday night
his time to secure the booty.

The only information given out is
that a pair of men's shoes were found
at the same place as the bags were
discovered and the wrapper that con-
tained the \$2000 was found also.

Excitement is running high over the
affair. Ever since the Dalhousie
branch train has been in operation there
has been no trouble. The em-
ployees are all very careful men and
they are as anxious as the general
public to see the guilty parties
brought to justice. They are doing
all in their power to assist the au-
thorities to search for the criminal.

Conductor McPherson of No. 33 on
Tuesday morning has reported to De-
tective Noble that a foreigner, prob-
ably a Swede, boarded his train at
Dalhousie Junction and was found in
the closet of the second class car when
near Campbellton. When asked for his
ticket he said he was going to Mata-
pedia. At the time the conductor did
not think anything about the matter,
but when the mail bag robbery was
reported he remembered that the man
acted suspiciously.

Mr. McPherson was able to give a
good description of the stranger and
officers along the I. C. R. and A. &
L. S. R. have been notified to be on
the lookout for this fellow. He was a
well dressed man of about thirty five
years of age, and had the appearance
of a sailor.

Mr. McPherson relates another story
in reference to a recent robbery
which may also have some bearing on
the man's actions.

About eight or nine years ago a
young Swedish sailor arrived at Petit
Rocher. He boarded at a farm house
for some time, and one evening he paid
his board and said he was going away.
That night the presbytery was broken
into and a sum of money taken. After
an unfruitful search for the robber
the case was forgotten.

About three weeks ago a Swede ar-
rived at Petit Rocher and again the
Presbytery was robbed and the robber
got away. A detective was em-
ployed on the case, and in going to
Petit Rocher he talked with Con. Mc-
Pherson, giving him a good description
of the suspect. When Mr. McPherson
saw the foreigner Tuesday morning
he at once thought that his passenger
answered closely the description given
him.

No further word has been received
as to his arrest.

MONCTON WEDDING
WEDNESDAY MORNING

Mr. E. H. Sinclair and Miss Mary
Harris the Principals

MONCTON, April 28.—A wedding of
unusual interest took place this morn-
ing at the home of Mr. C. P. Harris,
Steadman street, when his daughter
Mary was married to Edward Herbert
Sinclair, son of the late Edward Sin-
clair of Miramichi. The ceremony was
performed in the drawing room by
Rev. J. Eastburn Brown. Miss El
Helen Harris was maid of honor.
There were no bridesmaids. Mr. Fred
M. Tweedie of Chatham was best man.
After the reception a buffet lunch was
served. Mr. and Mrs. Sinclair left on
the C. P. R. this afternoon for Calif-
ornia and American cities. They will
reside in San Francisco.

CHATHAM TO HAVE
TWO DAYS' HORSE
RACING IN JUNE

CHATHAM, N. B., April 28.—Chat-
ham will have five days of horse rac-
ing this season as a result of the
energetic policy of the track com-
mittee of the Miramichi Agricultural
Exhibition Association. The first meet
will be held June 23rd and 24th and
will embrace four classes, 2.15, 2.19,
2.21 and 2.27 for which \$1200 in purses
will be hung out. All are trot and
pace. This meet comes exactly one
week before Fredericton's. In the fall
three days' meet will be held here on
Labor Day, September 6th and the
two following days.

Rheumatism Cured
In 3 Weeks

By Father Morrissey's "No. 7"
Tablets.

Mr. James LeB. Johnstone, a promi-
nent member of the Citizen's Band, of
Chatham, N. B., writes: "I contracted Rheumatism by ex-
posure five years ago, and was ailing for
two months and in great pain all the
time. I got Father Morrissey's No. 7
Tablets, and took them for about three
weeks, when the Rheumatism all left
me, and I have had no return of the
pains since."

"Father Morrissey's No. 7" Tablets
have a remarkable record of cures of
Rheumatism and Kidney Troubles.
They act directly on the kidneys, which
have become clogged with impurities
and are therefore unable to free the
blood of the poisons it is continually
gathering from every part of the body.
The tablets clear the kidneys and tone
them up for their work so that they can
properly purify the blood. Once the
Uric Acid is taken out of the blood the
agonizing pains stop, and the Rheuma-
tism is cured. "No. 7" tablets cost 50c
at your dealer's, or from Father Morrissey

WOMEN'S WOES.

Newcastle Women Are Finding
Relief at Last.

It does seem that women have more
than a fair share of the aches and
pains that afflict humanity; they must
"keep up," must attend to duties
of constantly aching backs, or
headaches, dizzy spells, bearing down
pains they must stoop over when they
stoop means torture. They must walk
and bend and work with racking pains
and many aches from kidney ills.
Kidneys cause more suffering than
any other organ of the body. Keep
the kidneys well and health is easily
maintained. But of a remedy for kid-
neys only that helps and cures the
kidneys and is endorsed by people you
know.

Mrs. J. T. McDonald of Mitchell St.,
Newcastle, N. B., says:—"Severe,
twinging pains would catch me across
the small of my back and extend
around mid sides. Often these would
come on me while stooping and I
would be unable to straighten myself
up for many seconds and the suffering
was almost unbearable. Stooping
would also make me so dizzy that I
would have to support myself with
my hands to keep from falling. I was
weak and run down and I suffered
with nervousness. I could not find
relief and had thought nothing would
cure me when on advice of a friend I
began treatment with Booth's Kidney
Pills which I obtained at the Drug
Store of T. J. Durick. I found so
much good from the first box of
Booth's Kidney Pills, that I continued
the treatment and gradually built up
until I had been cured of each and
every symptom of kidney trouble
that had afflicted me for years and
which all else had failed to cure."

NOBODY SPARED

Kidney Troubles Attack Newcastle
Men and Women, Old and
Young.

Kidney ills seize old and young.
Come quickly with little warning.
Children suffer in their early years.
Can't control the kidney secretions.
Girls are languid, nervous, suffer
pain.

Women worry, can't do daily work.
Men have lame and aching backs.
The cure for man, woman or child
is to cure the cause—the kidneys.
Booth's Kidney Pills cure sick kid-
neys.

Cure all forms of kidney suffering.
Newcastle testimony proves it.
Mrs. D. J. Copp of Green St., New-
castle, N. B., says:—"Fog three win-
ters past I had suffered regularly with
kidney trouble and my back had be-
come so weak and sore that I could
not get up from a chair without sup-
porting myself with both my hands.
Severe pains would shoot through my
sides and back and leave me in a mi-
serable condition. I was restless and
nervous and would wake tired and
unrefreshed and very often with a dull
dizzy headache. The trouble had
begun to show itself this winter when
I heard of Booth's Kidney Pills
through an advertisement at Mr.
Durick's Pharmacy. I began their use
and I seemed to build up generally.
The pains left my back and I have
not had an attack of Lumbago or kid-
ney trouble since. I can conscienti-
ously recommend Booth's Kidney
Pills as a remedy of great curative
merit."

CANADA'S TRADE.

OTTAWA, April 28.—The statistics
of Canada's trade for the last fiscal
year have been completed and show
that imports totalled \$298,123,792,
which is a decrease of \$60,249,793 from
the total of the previous fiscal year.
The exports of domestic products were
of the value of \$259,992,366, which is
a decrease of \$3,446,586.

March the last month of the year
just closed, shows an increase of trade
which promises well for the year just
beginning. During the month the im-
ports amounted to \$23,363,362 which is
an increase of \$3,811,130 over the pre-
vious March. The total of the im-
ports was \$18,397,974 which is an in-
crease of \$454,487.

The total trade for the year was
\$559,655,951, a decline of \$78,744,340.

There is an interesting indication in
the figures of coin and bullion handled
during the year. The import of pre-
cious metals amounted to \$9,988,442,
while during the previous year the im-
port was \$6,548,661. Coin and bul-
lion exported amounted to only \$1-
58,973 while during the preceding year
the export reached the great total of
\$16,637,654.

LATE DR. SMITH WAS
A TRUE HERO

A St. John correspondent writes
a Montreal newspaper:

There died last week in Tracadie,
the bleakest, most lonesome place on
the New Brunswick coast, one of those
men who, though not living in a clois-
ter, devote their lives to the good of
their fellow men. The dead man was
Dr. A. C. Smith head of the medical
department of the Canadian Leprosy
Asylum.

He had given his life to the care
of these unfortunates and to trying
to find a cure for the dread disease;
and when he died he had the satisfac-
tion of knowing that he had managed
to strike upon one compound that
would cure the disease in the early
stages and would alleviate the suffer-
ings and prolong the life in the ad-
vanced ones.

To prolong life for a leper seems
almost cruelty, but the lepers them-
selves do not think so.

Dr. Smith used to tell your corre-
spondent that leprosy was a disease, ly
to life as the cleanest of mortals,
and were as afraid of dying of con-
sumption or some other ailment as if
they were not already doomed to die
from the disease that kept them iso-
lated from mankind.

"Some day or other," he said, "you'll
hear that I have shut myself up in
that place," pointing to the lazaretto,
and if you do hear that such is the
case I want you to promise that you
will write me every month." The prom-
ise was given and kept.

He probably died as so many of the
nuns die who act as nurses in the in-
stitution. But they do not show the
revolting symptoms of the unclean
disease; they just waste away and
die, only to have other sisters take
their places. Dr. Smith himself said
that there was not and never had
been a satisfactory diagnosis of the
cause of death, but he ascribed to the
constant inhaling of the fetid air. Not
being constantly in the lazaretto he
lasted longer. His predecessor died
there also in the cause of humanity.

Dr. Smith lived apart from his
family for fear of infecting them. His
patients, the miserable inmates, wor-
shipped him.

THE CANADIAN FOR MAY.

The Canadian Magazine for May is
a most interesting number. The first
article in point of timeliness is en-
titled "Kaiser Wilhelm: His Opportunity
and Failure." It affords a splendid
conception of the present situation in
Europe. "Ontario's Outworn Police
System" is a vigorous criticism by
John Verner McAree, a writer who ap-
parently knows whereof he writes.
"Montreal: A Great Commercial Cen-
tre" is contributed by John S. Mac-
Lean, and is finely illustrated. There
are other good illustrated articles—
"Hubert the Sculptor" by Gustave Du-
dard; "DubSung the Sookeye" by Har-
old Sands, and "Making Cheese in
Sitzerland" by H. B. Sommer. Miss
M. Montgomery, author of "Anne of
Green Gables," contributes a story of
the supernatural entitled "The Return
of Hester." A comprehensive ap-
preciation of the music of the season
particularly in Toronto, is given by
Miss Katherine Hale and there is as
well an article by Arthur Hawkes
entitled "Why I Am A Suffragette" and
nature sketches by Susane Marny and
F. M. Kelly, a clever character sketch
by James P. Haverson, with poetry
from John Boyd, E. M. Yeoman, A.
Clare Giffin, Douglas Roberts and Char-
lotte Beaumont Jarvis.

THE
BEST
REMEDYFor Women—Lydia E. Pink-
ham's Vegetable Compound

Belleville, Ont. "I was so weak
and worn out from a female weakness
that I concluded to try Lydia E. Pink-
ham's Vegetable Compound."

"Compound, I took
several bottles of
it, and I gained
strength so rapidly
that it seemed to
make a new woman
of me. I can do as
good a day's work
as I ever did. I
sincerely bless the
day that I made up
my mind to take
your medicine for
female weakness,
and I am exceedingly grateful to you for
your kind letters, as I certainly profited
by them. I give you permission to
publish this any time you wish."
—Mrs. ALBERT WICKETT, Belleville,
Ontario, Canada.

Women everywhere should remember
that there is no other remedy known
to medicine that will cure female weak-
ness and so successfully carry women
through the Change of Life as Lydia E.
Pinkham's Vegetable Compound, made
from native roots and herbs.
For 30 years it has been curing
women from the worst forms of female
ills—inflammation, ulceration, dis-
placements, fibroid tumors, irregulari-
ties, periodic pains, backache, and
nervous prostration.

If you want special advice write
for it to Mrs. Pinkham, Lynn, Mass.

Synopsis of Canadian Northwest Land
Regulations.

Any person who is the sole head of
a family, or any male over 18 years
old, may homestead a quarter-section
of available Dominion land in Mani-
toba, Saskatchewan or Alberta. The
applicant must appear in person at
the Dominion Lands Agency, or Sub-
Agency for the district. Entry by
proxy may be made at any agency, on
certain conditions, by father, mother,
son, daughter, brother or sister of
the intending homesteader.

Duties.—Six months' residence upon
and cultivation of the land, each of
three years. A homesteader may live
within nine miles of his homestead, or
a farm of at least 80 acres, wholly owned
and occupied by him or by his father,
mother, son, daughter, brother or sister
of the homesteader.

In certain districts a homesteader
good standing may pre-empt a quar-
ter-section alongside his homestead.
Price \$3.00 per acre. The homesteader
reside six months in each year, or
from date of homestead entry, during
the time required to obtain a
homestead patent) and cultivate the
land.

A homesteader who has obtained
his homestead right and who wishes to
pre-empt may take a quarter-section
homestead in certain districts. Price
\$3.00 per acre. Duties.—The homesteader
reside six months in each of three years,
cultivate fifty acres and enter a homestead
worth \$300.00.

THE MASONIC BALL.

The Ball, given by the Masons in the Opera House on Wednesday, although not as largely attended as had been expected, was a social success and a credit to the committees in charge. A very pleasant time was spent. The costumes of the ladies were expensive and elegant, the music of the highest order, and the decorations superb. J. P. Whalen was the caterer and performed his duties in the best style. Among those present from outside places were: Mr. and Mrs. Fleming Johnston and Frank Fitzgerald, St. John; Mr. and Mrs. Hugh M. Ferguson, Rexton; Mr. and Miss Harriman, Loggieville; Miss Sheridan, Buctouche; Miss Flaherty, Chatham; Mr. and Mrs. G. F. Ward, Chatham Junction, and several from Millerton.

THE MILLS STARTING UP.

W. A. Hickson & Co.'s mill began work on Monday morning, with the usual number of men, about 75. The mill has been supplied with new machinery which greatly increases its efficiency. D. and J. Ritchie's mill will begin work to-morrow. None of the Nelson mills have started yet.

Both Snowball's and the Miramichi Lumber Company's mills at Chatham have been put up in immediate start on the season's operations. The Miramichi Company's rolling mill in Chatham will start to-day and their big rolling mill at Morrison's Cove will begin shortly after. Snowball's big mill will start to-day, and the company will operate the Lyman mill which they bought a few days ago. The old Hutchinson mill at Douglas town now owned by the Miramichi Lumber Company is already running, its Stream Drilling prospects this year are only fair.

Building lots at Lower Derby and Millerton are at a premium and are selling as high as \$300 a piece.

The finest pictures yet shown by a moving picture company here are those of the Passion Play, which have been shown this week, and will be on the program to-night for the last. FUNERAL OF MISS FREEZE.

The funeral of the late Miss Maude Freeze took place in Doaktown on Thursday. The remains were accompanied home by Deceased's sister, Miss May, graduate nurse of Montreal. Deceased leaves her parents, Mr. and Mrs. Samuel Freeze, her sister May, a brother, Arthur, of the Royal Bank, Vancouver, and two brothers at home. Among relatives who attended the funeral were: Dr. Pedolin, George Stables, and Misses Fowler, Minnie, and Ada Pedolin, and Addie Stables of Newcastle.

Mr. and Mrs. John Johnson, who have sold to Chas. McArthur of New Glasgow, N. S., their Newcastle farm which they have occupied fifty years, are moving this week to New Glasgow, where they will settle near their sons, C. M. and W. J., who compose the enterprising grocery firm of Johnston Bros., in that town. Chas. M. Johnston, who had been home for about ten days left for New Glasgow yesterday. His parents follow to-morrow. Newcastle will miss Mr. and Mrs. Johnston, as they were most valuable members of the community. Settling here on a piece of wilderness land, they developed it into one of the finest farms in New Brunswick, and they now retire to spend the remaining years of their life in well-earned repose. The Presbyterian Church, of which both were active and willing workers will deeply regret their departure. Mr. Johnston was a native of Scotland and Mrs. Johnston of Bathurst. The former settled here in 1850, and in 1850 the couple took the farm they are now leaving. The best wishes of all their many friends follow them to their new home.

THE ILLS OF CHILDHOOD
HOW TO CURE THEM

In thousands of homes throughout Canada Baby's Own Tablets is the only medicine used when children are ailing, and the mother who keeps this medicine on hand may feel as safe as though there was a doctor always in the home. Baby's Own Tablets cure all stomach and bowel troubles, break up colds, destroy worms, and make teething easy. Guaranteed free from opiates and poisonous drugs. Mrs. Geo. Wilson, Wilson's, N. B., says:—"I began using Baby's Own Tablets about five years ago, and since then have used no other medicine for my children. They never fail to bring relief, and I would advise all mothers to try them." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

READY MIXED PAINT.

Martin-Senour 100% Pure Paint
Our friends and customers wanted the best paint, so here it is. Made only of the best ingredients. It will not crack or peel off—2 gallons will go as far as 3 gallons of the adulterated paints. Come in our store and take a look at a positively pure paint—made of pure lead, zinc and linseed oil—Martin-Senour 100 percent Pure Paint. Use it this season—you will never regret it. Will look better and wear longer than any paint we have ever sold.

WHO IS

The Most Popular Employee
OF THE I. C. R?

Beginning with this issue of THE ADVOCATE, until the 26th of June, next, a contest will be waged for the most popular employee of the People's Railway.

Below will be found two coupons. The first when duly filled in and accompanied by one dollar for a full year's subscription to THE ADVOCATE, in advance, entitles the sender to 100 votes for the candidate of his choice. The second coupon when filled in entitles the sender to one vote for the chosen candidate. This coupon may be sent in by any person, whether subscriber or not.

Any person whose subscription is at present in arrears, may, by paying all arrears and one year in advance send in one coupon No. 1 duly filled in for as many dollars as are remitted.

Coupon with remittance enclosed may be handed in at, or sent by mail to, the office of the publishers any time before ten o'clock on Saturday evening, June 26th, next.

Announcement of results will be made in these columns each week until above date.

The person receiving the largest number of votes will be presented with a handsome Morris Chair.

All employees of the I. C. R. and all retired employees are eligible for candidature.
