We don't ask you to encourage home industry,—we ask you to see the quality of goods we manufacture and get our quotations. Goods manufactured by us are considered high-grade in the leading cities of Canada. Foreign woods imported direct from the south.

MAIL ORDERS
We solicit out of town orders, which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. As we have exceptional facilities for turning out goods, it is important to us to have as few orders as possible. Orders are filled as in the relation in which they are received, and customers can always depend on our doing everything in reason to give prompt dispatch.

WHY DREAD WINTER?

Winter brings Skating, Hockey, Curling, together with the kindred sports of Tobogganing, Sliding, Skiing, etc., Royal Sport that can only be had when Jack Frost begins to bite.

Switzerland, the home of Winter Sports, has no greater natural advantages for being the King Ping country of winter pastimes, than has this Canada of ours.

ENJOY CANADIAN WINTER SPORT!

If you can't play hockey, skate, curl, slide, etc., you'll soon find your right groove.

Muffle yourself up warm and even if Jack Frost is out in full force your enjoyment will be as pleasant as "putting away" ice cream on a July day.

We have the fixings to make a man laugh at Winter. Come in and see our new SWEATERS, knit with snap and style, tempting in coziness. Then our OVERCOATS, MUFFLERS, GLOVES, etc., will fill any expectations you may have in your mind's eye for your winter's outfitting.

MEETING OF TOWN COUNCIL TUESDAY

Long Sederunt of Council—Murray Building to be Leased For Council Chambers

A regular meeting of the Town Council was held on Tuesday evening, His Worship Mayor Andrew presiding. There were also present at opening of session, Councillors White, Quinn, Ferguson, Miller and Alexander. The minutes of the last two meetings were read and confirmed.

A communication was read from the Town Solicitor notifying the council that he had received notice from Mr. H. O. McInerney, St. John, that an action for trespass was to be taken against the town at the instance of the O'Leary's, and recommending that no further work be done on the O'Leary property in the meantime. Letter placed on file.

Communication read from Silas A. Perry, resigning his position as town policeman to date from September 10th. Resignation accepted.

Communication read from W. O. Chamberlain making application for vacant position on the police force. Referred to Police and License Commission.

Communication read from Jos. Caros asking for water and sewerage privileges to his house on Duke Street. The clerk was instructed to reply that such work cannot be done until deed of streets is received from O'Leary's.

Communication read from Mr. S. W. Dimock asking for water and sewerage privileges to the Opera House, also for a 2 in. pipe for fire protection purposes. Referred to Water and Sewerage Committee.

Another communication read from Mr. Dimock asking that the electric light service be extended 1 1/2 miles beyond the town limits for the benefit of a new moving picture hall, which he will build at Athol. Referred to Electric Light Committee.

A largely signed petition from residents of Ward III was received, a copy of which was also sent to the School Trustees, praying that a school be established in Ward III for the primary grades. The Town Solicitor stated that this was a matter for the School Trustees who were taking action on the petition, by having a census taken of the children of those grades in Ward III. The question was a big one and would require careful handling. Councillor White spoke strongly in favour of the petition and urged the council to take some action, after which the petition was laid on the table.

The reports from standing committees as follows were received and adopted viz: Councillor Quinn, Public Charities \$14; Councillor Ferguson, Fire Protection, \$81.40; The account of James Sargeant for work on the fire engine was ordered to be paid at .50c per hour. Councillor Pinault then entered the meeting. Councillor Miller, Finance, \$19.20; Councillor Pinault, Public Property and Streets, \$46.35; Councillor Alexander, Water and Sewerage, \$1988.80.

Councillor Miller then brought up the matter of selling some water and light bonds of the issue of 1904, which had never been sold and have been held by the bank as collateral against the overdraft. Offers have now been received for these bonds which were 4 per cent and he was of opinion they ought to be sold, so that the overdraft in the bank could be materially decreased. After a long discussion on this matter it was resolved to accept the offer of Messrs J. M. Robertson Sons, St. John for these bonds, \$15,000 at 4 per cent at a price of 76.

Councillor Alexander presented a verbal report regarding sewerage on Lansdowne street, asking the Public Property and Streets committee what arrangements had been made with Mr. H. Gerrard regarding his land for this street. It was stated that Mr. Gerrard wanted \$500 for the privilege of continuing Lansdowne street through his property to Minto street, which brought out discussion by the full board and the Town Engineer. Councillor Pinault was averse to paying one cent for land for street purposes. The town by opening up streets was improving the property of the owners, and he was of

M'Lennan's Works DAMAGED BY FIRE

Gutted by Fire on Monday Morning. Heavy Loss

Shortly after five o'clock on Monday morning an alarm was rung in for fire discovered at the M'Lennan Foundry and Machine Works Ltd. Large numbers of the people were aroused by the shrieking of the whistles from the Round House and I.C.R. engines. When the brigade arrived the store at the rear of the blacksmith shop and the shop itself were well alight the flames seemingly to have secured a firm hold.

The firemen were handicapped at the start by using the I.C.R. hydrant which had little pressure of water, but were able to confine the flames within the original buildings. The shop and store which were metal clad suffered severely, the store being gutted completely, and an auto which was there at the time being also destroyed. No reason can be assigned for the origin of the fire, the works being closed since Saturday at noon as usual. The loss which is estimated at \$10,000 is covered by insurance.

Opinion that both Gerrard and O'Leary should give the town a deed of their streets. In the end the matter was referred back to the Water and Sewerage committee for further consideration.

On the request of Councillor Alexander, the W. and S. committee were authorized to proceed with the installation of the sewers on the Pichette property, at their earliest convenience, the work of excavating and refilling to be done by the property owners. The committee were also authorized to purchase 400 feet of 1 1/2 in. hose for wetting down the earth when refilling excavations.

The Fire Protection committee were authorized to purchase 3 more fire alarm boxes, one to be placed on Ramsay street, one on Central street, and one on Cromwell and Duncan.

Councillor Pinault was then heard relative to the proposed leasing of the Murray building for the town offices. He stated that he and Councillor Miller had gone over the property and the owners were willing to do all the necessary improvements requested excepting the ventilating of the two rooms in the basement. They arranged, however, that if the town put this right, they would refund the amount so expended provides the town occupied the premises two years or more. The large hall would be used for council meetings and let for other gatherings. Offices on the top floor would be found for the Town Clerk, Treasurer and Engineer and in one room in the basement cells could be provided for a lock-up, the other room reserved for the use of the firemen. The rent would be \$120 per month. The arrangement was considered satisfactory and the Town Solicitor was instructed to draw up lease.

The Town Solicitor then read the correspondence with Mr. Inerney relative to the case of trespass by O'Leary against the town. The gist of this is, that the O'Leary people threaten the town with an action for trespass because the town years or more water and sewerage have put down water and sewerage lines on the property owners. The council took no action in the matter and by resolution left it in the hands of the Town Solicitor.

The Town Solicitor reported that in the case of the Town vs. H. Petros for contravention of the by-laws, that the judgment handed down by His Honor Judge McLatchey upheld the by-laws but dismissed the case on the ground of insufficient information. Council then adjourned.

HORSE TURNS SOMERSAULT

Newcastle, Sept. 6.—Another runaway accident occurred this morning when a delivery team belonging to Mrs. Deners, ran away down Prince William street, and when nearly down the hill, turned a somersault into the ditch. At first to all appearance the animal was killed, but a number of men got him on his feet, and although badly bruised will probably be all right after a few weeks, but the wagon was broken into bits.

K. OF P. HOLD GOOD ENTERTAINMENT

Breach of Promise Mock Trial Is Much Enjoyed by a Large Audience

On Monday evening at the Opera House the local lodge of the Knights of Pythias under the direction of Col. A. N. Newton staged a mock court breach of promise trial. With the exception of the director, the cast was composed of local people and a crowded house followed the course of the trial with interest and enjoyment.

Miss Jean McLatchey acted the part of the plaintiff, Mrs. Jerusha Rugg Perkins, in a most telling manner, moving the whole court to tears by a recital of the defendant's heartless conduct. Miss Lucy McInnes as the niece was a most charming witness for the defence, and Mrs. D. Murray as a witness for the plaintiff was also very good notwithstanding the loss of the \$3000 ring, value 25 cents. The other witnesses were Dr. A. Martin, who was most amusing in his replies to the cross-examining council, Mr. B. O. Bates and Mr. C. R. Mersereau. Mr. J. G. MacColl took the part of the defendant.

The whole trial was replete with local hits and humor which were much enjoyed by the audience.

The others taking part were: His Honor the Judge, T. Botkin, Esq. U. S. Consul.

Clerk John T. Reid
Crier Chas. A. Alexander
Bailiff Chief Hughes
Defendant's Attorney A. E. G. McKenzie.

Jurors, Messrs P. H. Blyth, M. A. Kelly, E. E. Clark, E. A. LeGallais, J. Moores, T. H. Farnsworth, H. C. Shirley, R. B. Keith, H. W. Pond, E. Sargeant, H. C. Montgomery, and Reuben Dickie.

At the close of the trial the jury found for the plaintiff, damages \$3.48. Three dollars for the jury and forty-eight cents for the judge.

METHODIST MEETING

The annual North Shore Methodist financial district meeting, Rev. Dr. Harrison of Newcastle presiding, was held in Chatham Tuesday. Those present were Revs. C. Squires, Campbellton; K. G. Fulton, Chatham; F. A. Wrightman, Bathurst, and J. A. Ives, Millerton. Revs. A. D. McLeod, Harcourt, and Thomas Pierce, Richibucto, were excused because of illness. Judge Trueman of Dalhousie, S. McLoon of Chatham, alternate, was chosen lay delegate to the special meeting in Amherst, Oct. 1st, in connection with the general mission board. Arrangements were made for holding public meetings re missions, sustentation, education and temperance.

SUCCEED IN DEATH OF MR. A. K. THOMSON

Well-known Retired I. C. R. Employee Expires While Sitting in Chair

The grim Reaper is slowly but surely taking away many of the old and respected residents of this town, but none more suddenly than Allen Kerr Thomson, who expired sitting in his chair on Monday afternoon. The late Mr. Thomson, who was 65 years of age, although not in the best of health, was always able to be up and about. On Sunday he complained of not feeling so well as usual, and on Monday rested in bed. At dinner time he arose and had a meal with his son Wendall, without feeling any ill effects. He had just got seated in his favorite chair with a cigar when he was heard to fall, and his son rushing upstairs found he was dead. He was affected with a weak heart. Needless to say the tragic circumstances cast a feeling of consternation over the whole town.

Mr. Thomson, who was the son of the late Dr. John and Mary Thomson of Chatham, was a veteran railroad man and held many friends on the I. C. R. in Campbellton and vicinity. It is only a few days ago since he received the Imperial Service Order Decoration for long and faithful service on the I. C. R. He leaves a widow, four sons, and two daughters to mourn his loss, William A. of Minneapolis, Arthur B. of Stoughton, Mass., Fred A. of Portsmouth, N. H., and Wendall P., Mrs. John White and Mrs. B. Robinson of Campbellton. He also leaves four brothers, Howard of Chatham, N. B.; Chris and Joseph of Boston, Mass.; Harvey of Westfield, Mass. and one sister, Mrs. Walton Smith of Halifax, N. S.

The family are receiving many expressions of sympathy, the whole hearted sympathy of the whole community going out to them in their sudden bereavement. The funeral was held today, the services at the house and grave being conducted by Rev. T. P. Drumm B. D. of St. Andrew's of which church the deceased was a member.

The pall bearers were Wm. Comeau, Ed. Sullivan, G. E. Asker, J. H. Taylor, Jas. Patterson and W. Currie.

Interment was made in the Rural Cemetery, a large number of friends turning out to pay their respect to the deceased.

Among the floral tributes were: Willow from the family.

Wreath, Mr. and Mrs. Earl Thomson and family.

Spray, Mrs. Wm. McRae and family.

Wreath, Mr. and Mrs. Thos. Malcolm.

Anchor, Mr. and Mrs. W. A. Thomson.

KEEP BACK INTER-COLONIAL MEN'S PAY

St. John Employees Have Another Grievance Tory Management

More evidence of lack of regard for the convenience of patrons and employees is displayed by the Tory management of the Intercolonial Railway. The latest grievance is caused by an arbitrary announcement that the men will have to wait from three to six days longer for their pay.

At every convention of the railway men and at almost every conference between the men and the management one of the grievances aired has been that the men were unable to get their monthly pay envelopes until from the ninth to the twelfth of the month after it was earned. Frequent requests have been made for the adoption of a system which would permit the regular employees at least to secure their pay more promptly.

Instead of improving the situation the men have been surprised by notices that the delay will be extended. The notice reads as follows:—"The management advises that in future, the I.C.R. employees at St. John will be paid their monthly salaries for the preceding month on the fourteenth of each month. When the fourteenth comes on Sunday payment will be made on the fifteenth."

In the past the delay in receiving their pay has been a serious matter to many of the men, especially those with families to support on moderate salaries. Most of the employees find it necessary to stand off the merchants with whom they have accounts for the extra fortnight and in many cases where pressing payments must be met, the delay has been productive of profitable business for money lenders. In other departments of the public service this delay does not seem to be necessary, and the railway men do not see why they should be singled out for treatment of this kind.

It was said today that it is probable that there will be a vigorous organized protest against the new rule by the men affected.—Evening Times.

The implicit confidence that many have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by all dealers.

POLICE CARUSO DISCOVERED

Bluecoat to go on Concert Tour With Shumann-Heink

New York, Sept. 8.—A Patterson policeman, touring the country as a singer with M. dame Schumann-Heink, will be one of the interesting features of the musical season of 1914. The "singing cop," as he is known throughout the country, is Edward J. McNamara, an active member of the Patterson police department at the present time.

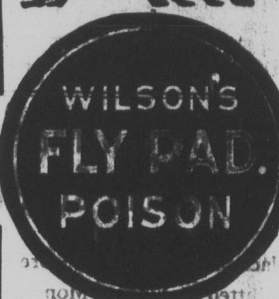

Mme. Schumann-Heink heard McNamara sing at the last Patterson May musical festival in this city and became interested at once.

In speaking of her recruit to a reporter, Mme. Schumann-Heink said yesterday: "He is my little Irish Poleseman, and he will some day rival McCormick. His voice is superb. After he has toured America with me we will go to Australia, and when we return, his name will have reached every corner of the civilized world. He is a wonder."

McNamara goes on reserve duty every night at 12 o'clock. He is supporting his mother and father on his pay and at the same time he is paying a large amount to music professors for voice culture.

If you knew of the real value of Chamberlain's Liniment for lame back, soreness of the muscles, sprains and rheumatic pains, you would never wish to be without it. For sale by all dealers.

Assuming to speak for "two millions of women in America," Mrs. May Wright Sewall, at the twentieth Universal Peace Congress now in session at The Hague, uttered a strong protest "against the fortification of the Panama Canal," and her protest evoked a round of applause. American women and other workers for peace will be encouraged in their attitude by this incident.

CHATHAM SIXTH BIENNIAL EXHIBITION

September 22nd to 26th.

THE BIGGEST AGRICULTURAL EVENT IN NEW BRUNSWICK

His Honor Lieut. Gov. Wood will formally open the exhibition, Monday evening, Sept. 22nd, at 8 o'clock, attended by a guard of Honor from the Chatham Cadets.

Premier Fleming, Hon. Dr. Landry, Commissioner of Agriculture, Hon. John Morrisey, Com. Public Works and other members of the government are also expected to take part in the opening ceremonies.

Greater preparations are being made and on a far grander scale than ever attempted before and the crowds that will attend Chatham's Sixth Biennial Exhibition, it is expected, will be a record breaker.

With ample hotel accommodation, cheap rates on all railroads and the magnificent program of educational features and amusements from Monday the 22nd, to Friday night, 26th, people from far and near will proclaim Chatham Miramichi the Meca of Hospitality.

There will be a particularly interesting program for the farmers, the best herds of cattle, sheep and swine the three provinces can produce will be here, lovers of good horses will get their eyes opened, as this year promises to excel all previous ones in this line, and the poultry department promises to be filled to overflowing.

Expert judges sent out by the Live Stock Commission at Ottawa will endeavor to explain the awards and thus the educational feature of the Big Live Stock Show will be fully demonstrated.

Then you want to come to Chatham to see a real Horticultural Show, it will delight the eye to see the displays of grain, vegetables, collections of market garden produce, the fruit and flower show, all beautifully arranged, presenting a wealth of beauty, all the produce of our Maritime farms.

The North Shore of New Brunswick should be proud of the fame the Miramichi Exhibition now holds among the big exhibitions of the Maritime Provinces.

The buildings are large, roomy, and well arranged. Situated on rising a few hundred yards back from the banks of the beautiful Miramichi, they present a very imposing appearance. With accommodations for live stock of all kinds with substantially built grand stands, judging arena affording splendid opportunities to witness the different judging demonstrations. Well appointed amusement hall. First class dining rooms and last but not least, the finest half mile race track in Canada.

Special excursion rates have been arranged from all points. Come and enjoy the week, take in the two big day races the 24th and 26th. The amusements of all kinds, and drink in the educational features for which the Chatham Exhibition is noted.

NAVAL POLICY OF AUSTRALIA BEST

Is Assertion of Admiral Patey Commanding the Battle-ship Australia

London, Monday, Sept. 8.—Admiral Patey, commanding the battleship Australia, was given a rousing send-off at Durban yesterday.

In the course of an interview he was emphatic in declaring that the naval policy adopted by Australia was undoubtedly the right one. "It was based," he said, "on the sound principle that the growth in size and number of ships, together with the entry and education of the personnel that the equipment of harbor and naval basis should proceed."

"Of course the Dominions have to decide for themselves the best way in which they can contribute to the defence of the Empire. What is suitable for one dominion may not suit another. The distance from the Motherland and the length and character of coastline, strategic position and population have all to be considered as factors in deciding what is to be done, but I consider Admiral Henderson's scheme excellent and most soundly built up."

The individual independence of the dominions overseas need never clash with the unity of the Empire as a whole.

Admiral Patey scouted the idea that British jacks should be more favorably treated than the Australian. "I said when a ship was commissioned there should be no dividing line drawn between home Englishmen and Australians and non-commissioned men. So far as I could ensure it, they are officers and men of the Royal Australian Navy. When I arrive in Australian waters I shall have a certain number of ships under my command and most of them newly commissioned. I shall treat them in the same way I should treat a similar squadron under my command in England."

Few, if any, medicines, have met with the uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers.

BOLT KILLS TWO IN BARBER SHOP

Savannah, Ga., Sept. 9.—Chesley Wills, son of G. T. Wills, a prominent merchant of Bridgeboro, went into the barber shop of John Barksdale in that town today to get shaved. Barksdale had nearly finished shaving when a bolt of lightning entered the shop and killed both men instantly. Some of the father was still on Wills' face when onlookers reached him.

A TRIP ON THE BAY DE CHALEUR

To the lover of Nature, the artist or the poet, nothing is more delightful or gratifying than a trip on the Bay de Chaleur. One never tires of its beauty, and its charms for a voyage down the Bay is one replete with beautiful scenery. My trip down the Coast and what impressions it made on me will be a very memorable one. I left Dalhousie on the morning of August 6th, by the steamer "S.S. Canada," a boat which is perhaps one of the most seaworthy boats in Canadian waters, and a pleasure to travel by. I reached Gaspé the following morning, Regatta Day. Ideal weather prevailed, and the water was very calm, making racing, both swimming and canoe very practicable. There were hundreds of visitors there from all over the Gaspé peninsula, as well as many American tourists who have summer homes at different points along the line. The little town was in holiday attire, every building in the place being decorated with flags and bunting. The harbour presented a very attractive appearance, practically every ship in port being dressed in holiday regalia. Gaspé is an ideal spot, situated on the river's bank, surrounded by a wide spreading country. Tourists flock here in great numbers every summer. The sea bathing is splendid, and boating can be enjoyed to an extent. A very pretty picture is at night when the moon is rising, casting a golden glow on the waters. Dozens of canoes and skiffs may be seen gliding peacefully along, and the merry voices of boys and girls can be heard from afar off.

My next stop was Perce. I will never forget the beautiful picture that presented itself as the boat slowly neared the harbour. First the well known and famous Perce Rock, standing by itself apart from

all else like some Gigantic King, then looms up the little village, with its rows of quaint cottages, located at the foot of a range of mountains and hills, so high that they seem to tower almost to the sky. One could gaze upon Perce forever and never seem to tire. Something seems to hold one spellbound. There is a stillness everywhere, broken only by the cries of the millions of birds who make their abode on the heights of Perce Rock. Perce holds thousands of attractions for the tourist. There is always something to discover, some new haunt to invade. Perce has two large hotels, the "Perce Rock House" and "Perce South Beach Hotel". The latter is located near the south beach, a walk of but a few yards, brings you right down to the sea shore, where beautiful sea bathing and boating can be thoroughly enjoyed. The "South Beach Hotel" is a hotel for tourists only, equipped with all modern conveniences. There are beautiful lawn tennis courts, croquet greens, in fact all sources from which amusement can be derived. Bonaventure Island opposite Perce forms a great attraction to the tourist. Many pleasant boating excursions are held around this island during the summer season.

Leaving Perce, I came up the Coast to Pabos Mills, Newport, Grand River, Port Daniel, New Carlisle, Bonaventure and New Richmond, each of these places having its own particular charm. The scenery in Port Daniel is grand and in some places wild, resembling Highland countries. Historic and legendary associations render this place interesting to many people.

My next step was Carleton, which was last but no means least. Carleton holds more interest for me than perhaps any other place on the Gaspé Coast as it is the place where my father spent most of his boyhood days. After his parents' death he was adopted by his uncle, the late John Meagher of Halifax, who represented the County of Bonaven-

ture before Confederation, and who was the means of erecting the first Convent in the Bay de Chaleur. In four years hence the golden anniversary of Carleton Convent will be celebrated. It is also the summer home of Hon. Chas. Marcil, M. P. While in Carleton I was the guest of my uncle, John Cullen, Esq., who carries on a large manufacturing business in leather goods, and is one of the pioneers of the place.

Leaving Carleton on the 29th ult. I returned to my native town by "S.S.R. Call." The subsidized ferry steamer plying between Restigouche's shiretown and several Quebec points. The sail from Carleton till you come in sight of the Inch Arran Hotel and the Hamilton monument is a most interesting one. As you leave, on the right you see the Tracadiegash Mountains, 1800 feet high, on the left, Heron Island. Then Miguasha Point and Charlo Bay, and then you enter Dalhousie harbour, which has been so improved during recent years that it is one of the best in the Maritime provinces.

I have reached home again and have carried with me many loved memories and fond recollections of my trip on the Bay de Chaleur.

KAISER'S PHRASES

Words That Have Now Become Household Expressions

Few monarchs of our time have made so many public speeches, says a German paper, as the Kaiser. His diction is vigorous and picturesque, and during the twenty-five years of his reign he has enriched the language with a stock of household words and expressions of a remarkably clear stamp.

The first household word or phrase of which he is sole author was uttered in 1890, two years after his accession, when Prince Bismarck had been dismissed. At that time he telegraphed to his friend, Count Görz, at Weimar: "We are steering the old course." Since that time "the old course" has always been used to denote Bismarck's policy, and "the new course" the Kaiser's.

On Jan. 7, 1891, the Kaiser sent his portrait to the Secretary of the Imperial Post Office, Dr. Stephan, on his sixtieth birthday, with the inscription, in his own handwriting: "The world, at the end of the nineteenth century, marches under the banner of commerce. It breaks through the barriers that separate the nations, and binds them together in new relations." That message succeeded in introducing the expression, "Under the banner of commerce" into everyday talk as symptomatic of our age.

The phrase, "Blood is thicker than water," he has used several times— notably, with reference to our blood relationship with our cousins the other side of the canal, but the stock quotation was already common in English and Scandinavian literature at the beginning of the last century.

The loudest echoes of all were awakened by the Kaiser when, on Sept. 28, 1898, at the opening of the new harbor at Stettin, he cried, "Our future lies on the water."

"The Petty Poet"
An unusual charge was preferred against Alexander Barron, a laborer, in Inverness Court. It was alleged that he stole three trees from the Rutledge Wood at Culloden. He denied the charge and said he was a journalist and a poet, and was known as "The Petty Poet." Sheriff Grant: "I suppose you mean 'Petty' geographically." The prosecutor: "Yes. It is the name of the district near Culloden." The accused was admonished.

FARMER HAS FACE BLOWN OFF

London, Ont., Sept. 8.—Herbert Purdy, aged 48, one of Alldred's wealthiest farmers, was found dead in his barn today with his face shot off.

According to the story told by Metcalfe, the hired man, Purdy took a shotgun and went out to wait for a hawk which was killing chickens. Metcalfe went with him, but Purdy, he says, sent him back. Metcalfe says when he heard the gun go off he rushed out and found Purdy dead.

An investigation is to be made. Purdy's wife died two years ago and he lived with his two children and Metcalfe.

DUNLAP PONY CONTEST

EVERY CHILD HAS A CHANCE

The contest embraces one of the most liberal offers ever presented, exclusively to the little folks of Campbellton, and will afford them an opportunity to develop their hustling propensities and at the same time win a splendid reward. The Pony outfit is not to be given to the prettiest child, nor the ugliest or best child either. It will be given to the little boy or girl who can hustle. Every child under the age of sixteen years has the same chance.

THE PLAN

The plan is as simple as the offer is liberal. Any child can understand it after a few minutes' explanation. During the contest the business men who are participating in this trade-booming carnival will give Pony Votes on all cash purchases and for the payment of old accounts. With every five cent purchase a five vote coupon will be given. With every ten cent purchase a ten vote coupon will be given. With every twenty-five cent purchase a 25-vote coupon will be given.

With every dollar purchase a hundred vote coupon will be given. With every ten dollar purchase a thousand vote coupon will be given to the amount of any purchase made at these business places during the contest. The contest will last for thirteen weeks, ending Dec. 24th. The Pony, Vehicle and Harness will be given to the child who gets the most votes during the contest. Should two children tie for first place \$300 in gold will be divided equally between them. A pretty liberal proposition, isn't it.

HOW TO ENTER

Any boy or girl can enter the contest by going to all of the above named places and enrolling his or her name in the contest registry book. Or if preferable the contestants can have their parents or some friend do the enrolling for them. Each of the little contestants will be given some printed matter to assist them and the plan will be thoroughly explained to them.

HOW TO VOTE

On every vote coupon given out by the business men who are in the contest is a black line on which can be written the name of the child voted for. These names should be written plainly.

WHERE TO VOTE

There will be ballot boxes at each of the places interested in the contest. They will not be opened until the contest is over. No contestant can thus find out how many votes another contestant has, and as a result the contest is bound to be fair and above board throughout.

RAILWAY MATTERS

Much work is always ahead of any real live Board of Trade, and it is sometimes hard to keep tabs on all that should come under their scope. In the case of our own B. and there is one matter which seems to escape their notice and that is a better railway service for our local people. Apart from the through trains the Maritime and Ocean Limited, we have no decent service of trains such as is required for a district as large as the county of Restigouche. At the present time any one residing in some of the small villages between Matapedia and Bathurst desiring to do an hour's business in Campbellton has to lose nearly two days. In the lower part of the county the people are served by only two trains, the noon and the night freight, which are not primarily passenger trains, and which are most erratic in their movements, the noon freight especially. Farmers desiring to come to town from this section have been known to be kept waiting for hours at some small station for this noon freight, no one being able to inform them when the train would arrive, latterly going home disgusted, unable to get to town to do their business.

If the Board of Trade could prevail on Mr. Hayes, the new traffic manager of the I. C. R., to have a meeting with them, there is not the slightest doubt but that some arrangement would be made to improve

this state of affairs. What would be a most suitable arrangement would be to have a train leave Bathurst at say 6.40 for Campbellton, calling at all stations on the way, returning to Bathurst between 5 and 6 p. m. A similar train could be despatched from St. Flavie at 6 a. m. Quebec time, arriving here between 10 and 11 a. m. Eastern time, returning to St. Flavie either before or after the Limited passed through going west.

The idea is that we want the country people to come into Campbellton, and these two trains would be of inestimable value to the many in the small towns who are deprived of the privilege of coming here for business of all kinds. An arrangement of this kind would do much to combat the great mail order business, and give our own merchants an opportunity to show that both with regard to prices and values they had the prior claim to the business of this country district.

OUR NOBLE RULERS

An Ottawa dispatch to the Standard announces that "An order in council has been passed changing the name of the dredge Sir Wilfred at Toronto to P. W. D. No. 117."

There can be no further doubt of the capacity of the Borden government for great and noble acts of administration. Mr. Borden and his colleagues have no stomach for trivial matters. Quebec has been shouting to them about terminals, St. John has been asking about grain conveyors, Halifax has been seeking expenditure on terminal facilities, and from all over the country have been demands for this or that public work said to be called for in the interest of Canada's trade. Nothing, however, can rob the Borden government of its sense of proportion. Here was a dredge at Toronto, a Tory Toronto—bearing the name of Sir Wilfred. How could the affairs of this country progress while that name remained on that dredge? Every time a tory would go down to the water front and read the name on the dredge, he would throw fits, and there would be a case for the ambulance and the emergency hospital.

The moment the condition of affairs was made known at Ottawa and as soon as enough of the gallivanting members of the cabinet could be got together, a cabinet council was hurriedly called and an order in council passed, to have that name expunged from the record and the title P. W. D. No. 117 inscribed on the dredge.

There is a dredge in St. John harbor called W. S. Fielding. Obviously it must now become a P. W. D., and unless this is done P. D. Q. there may be trouble and hurry calls for the local ambulance.

We are informed that the change of the name of the dredge at Toronto is in the interests of navigation. Presumably this dredge is in the habit of carrying freight and passengers up and down Toronto Bay, or up and down the lake; or, perhaps, bearing the name Sir Wilfred, it has refused to throw mud.

At all events, the nation will breathe more freely, knowing that it has at Ottawa a government which devotes its great talents to the task of finding new names for its dredges and calling cabinet meetings to attend the christening.—Evening Times.

WOMAN SMUGGLER PAYS BIG FINE

Pays \$3,500 For Duty on Jewelry and Clothing

Trenton, N. J., Sept. 9.—Mrs. William Velie, wife of an automobile manufacturer of Moline, Ill., who was arrested on a pier at Hoboken with her maid, Mary Lillie, charged with smuggling, was fined \$3,500 by Judge Reistab in the United States District Court. The maid was fined \$50 on the same charge.

Mrs. Velie, gowned in the latest Paris style, was accompanied to court by her husband and several lawyers. When the presentment from the United States commissioner was read, Judge Reistab called Mrs. Velie to the bar and asked her to plead. Before she could reply one of her lawyers announced that both Mrs. Velie and her maid would plead non vult.

The United States District Attorney then recalled that several thousand dollars worth of jewelry, including a pearl necklace, and much fine wearing apparel, had been found in Mrs. Velie's trunks which had not been declared as dutiable. He asked for a maximum fine, which would be \$5,000. The fines were paid in cash, and the party left the court in automobiles.

ST. FLAVIE STATION

Your correspondent has been very busy since a while that is the reason why we have noted no items from our little town, so it is quite time to let the world know that we are still living.

The weather for the past few days has been very favorable, farmers report an abundant crop of hay, also an early harvest.

Death has removed from our midst one of our most respected citizens in the person of Mr. L. N. Girard, P. M., who died suddenly at his home on the 14th August.

Mr. B. St. Amant and Mr. Jos. Cote purchased two splendid automobiles. Quite a number of tourists are spending their vacation down at the seashore.

Mr. and Mrs. Jos. Cote left on Saturday for Dover, N. H., where they will be the guest of Dr. E. N. Carignan.

Miss Bujold, assistant postmaster has returned home from a trip to Quebec and Ste. Anne de Beaupre and is leaving at once for a month's vacation down the Gaspé coast.

Mr. I. A. Rioux of Kamloops, B. C. is spending the summer here the guest of his father, Mr. D. Rioux.

Mr. Reid, manager of the Molson's Bank and Mrs. Reid left on Sunday for Montreal. Mr. J. B. Dube, I. R. C. conductor, sold his residence to the National Bank and now resides in Lewis. The National Bank will begin to do business here on the 12th inst.

Mr. Amedee J. Cote paid a flying visit to St. Flavie last week in automobile with friends. Mr. and Mrs. E. F. Levesque are back from Quebec where they attended the exposition.

HELD ENJOYABLE SOCIAL LAST WEEK

Ladies Auxiliary of B. of L. E.
Entertain Visitors in
Oddfellow's Hall

On Wednesday evening, Sept. 3rd a most enjoyable social was held in the Oddfellows Hall under the auspices of Restigouche Div., of the G. I. A. to the B. of L. E. when the ladies had as their guests the members of Snowdrift Div., B. of L. E., with their families also Sugarloaf Div., B. of L. P. and E. with their families. The hall was beautifully decorated with red, blue, white and purple, the colors of the order. The platform, the stands and piano banked with potted plants and a wreath of cut flowers, the whole being a very pleasing mass of colors. Mrs. J. A. Gilker, President of Restigouche Div., extended to those present a warm and hearty address of welcome after which the following program was rendered in a most pleasing and efficient manner:

Piano Solo Florine Doherty
Vocal Solo Jean McDonald
Reading Isabel Frazer
Vocal Solo Lulu Gilker
Piano Solo Mary Price
Reading Marguerite Henry
Violin Solo Mrs. M. Doherty
Piano Solo Gladys Keah
Vocal Solo P. Mullin
Recitation Mrs. M. Doherty
Flower song by three little girls
Misses Jean McDonald, Jessie Smith and Garland Lutz.

After the conclusion of the above program, Pres. Mrs. Gilker, on behalf of the Ladies Auxiliary presented Snowdrift Div. with a set of officers' jewels and Mrs. Cool presented a beautiful Bible, a gift from Mrs. Gilker to Snowdrift Div. Though taken somewhat by surprise, Mr. Matthews, C. E. of the lodge, rose to the occasion, replying in a most grateful and feeling manner, expressing cordial thanks for and appreciation of the gifts, also thanking the Ladies Auxiliary for the very live interest taken in Snowdrift Div. Short addresses were also given by Mr. Gilker and Mr. Devereaux. In the course of his remarks the latter said "It is not yet a year since Restigouche Lodge was organized, but already its influence for good is being felt among us and we are beginning to take deeper interest in everything connected with our Division, we are gradually being inspired to work together more heartily 'for the good of our order.' And now in closing, said Mr. Devereaux. "I hope and trust that the Ladies Auxiliary will never have to appoint a grievance committee." After the addresses were concluded dainty, yet bountiful refreshments were served and then a few dances indulged in, much to the enjoyment of everybody and a very pleasant evening was brought to a close by singing the National Anthem, which was followed by three cheers and a tiger for the Ladies Auxiliary.

from a gentleman of New York, who was here last week on a fishing and hunting expedition, an offer of \$150 for his dog "Mars", a splendid grey hound.

TAKE VACATION

GYPSY FASHION

Spokane, Wash. Sept. 10.—Mr. and Mrs. F. S. Hartzell, owners of a 500-acre alfalfa ranch 150 miles southwest of Spokane, in a horse-drawn gypsy wagon are enjoying a trip across the Cascade range and through Rainier National Park. The wagon is patterned after the vans of England and contains complete living quarters. It is built for comfort and not for speed. It has a five-inch tread on wheels and is long enough for a bed, a large supply of food and a refrigerator.

"My wife and I want to see more of the country and we want to see it right," said Mr. Hartzell before starting. "We have our automobile, but for trips of the sort we like, that won't do. We want to follow our own inclinations, take it easy and live like nomads for a time. I think we're both going to like it."

KILLED AT ELM TREE

A man named Joe Devereaux, whose place of residence is said to be Pett's Rocher, was Saturday evening killed by falling off a railway bridge at Elm Tree a short distance from Pett's Rocher station, earlier in the evening. The last that was seen of him, he was going down the track towards Elm Tree. Sunday morning his remains, badly cut up, were found in the gully beneath the bridge. He leaves one brother Harry in Montreal and two sisters, Belle in Michigan and Lillie in Halifax. The funeral was held on Wednesday.

PARTRIDGE PIE

The route of the International Railway is through one of the best districts in the province, for both large and small game; numbers of moose, deer and foxes being seen from the engine every day. But it was for the boys on the express out of Campbellton on Saturday morning last to bring good "game" story; which, however, is vouched for as being "the whole truth, and nothing but the truth." As the train was whizzing along through a likely stretch of country, and with M. Doherty at the throttle, was making pretty good time, it raised a large flock of partridge. The birds attempted to fly across the track, but the train was too quick for some of them, they were hit by the front end of the car and killed, falling down on the car platform. Mr. Malcolm's private car was attached to the train, and Charlie, the chef was along too, so the birds were immediately decapitated and prepared for dinner; partridge pie being on the menu card quite unexpectedly.

MRS. WM. NICHOL

At Broadlands, September 2nd., there passed to her heavenly home, Mrs. William Nichol at the advanced age of 82 years. Her illness was only of short duration, and was borne with the patience which characterized her whole life. The funeral service was conducted by Rev. Gordon Firth. Interment took place at Kemps Road cemetery. A large gathering of people followed the remains to their last resting place. Mrs. Nichol was one of those rare people, whose unselfish and motherly kindness endeared her to all with whom she came in contact. Her family have the sympathy of the entire community in their bereavement.

FUNERAL OF MISS GOOD

On Sunday, August 31st, Annie, daughter of Mr. and Mrs. Robert Good, died at her home at Dalhousie Junction after an illness of eight weeks. Miss Good who was nineteen years of age, was of a gentle disposition which won for her many friends in whose hearts she filled a large place. She was a devout member of the Church of England, and for some months faithfully fulfilled the duties of organist at its services. She leaves to mourn her loss her father and mother, five brothers and three sisters. The funeral, held on Wednesday Sept. 3rd, was conducted by Rev. R. J. Coleman assisted by Mr. R. A. Patterson, and was largely attended. Many beautiful flowers bore silent witness to the affection and esteem in which the deceased was held. Interment was made at Dalhousie.

SENATE PASSES THE U. S. TARIFF BILL

Washington, Sept. 10.—The Democratic Tariff Revision bill passed the Senate at 6:48 o'clock yesterday amid a burst of applause that swept down from crowded galleries and found its echo on the crowded floor of the Senate. Its passage was attended with surprise in the final moments of the voting when Senator Lafolette, Republican, cast his vote with the Democrats, and was joined a few moments later by Senator Poindexter, Progressive. The vote on final passage in the Senate was 44 to 37.

The Democrats had counted thoroughly the long tariff fight on losing the votes of Senators Ransdell and Thornton, of Louisiana, Democrats, who voted against the bill yesterday because it would put sugar on the free list. Until the names of Senators Lafolette and Poindexter were actually called, however, no one knew definitely the stand they would take, and their votes were greeted with enthusiastic applause.

STRICKEN WITH POISONING

Halifax, N. S., September 9.—C. J. Coll, general manager of the Cape Breton Coal, Iron & Railway Company, was stricken with ptomaine poisoning here today and was removed to the hospital in a critical condition.

RAISES RUMPUS

Melbourne, Australia, Sept. 9.—Much political capital is being made out of the action of a late labor member, Webber, who, on becoming Mayor of Richmond, withdrew the name of King George from the toast list of the first official dinner. Webber declared himself a convinced Republican and defended his conduct in retaining this office while holding anti-monarchical views. It is stated to-night that Parliament is contemplating action. Liberal political associations are denouncing Webber as disloyal.

NARROW ESCAPE

About 8 o'clock on Saturday morning, while Section Foreman Lindon and men were going over the section, they saw a man sitting down at Williston's field, near Newcastle, about one half mile of Patterson's siding, four miles from Newcastle. On questioning him he claimed he was a passenger from Truro to Montreal and fell from the Maritime express on the night before. He gave his name as G. F. Helleur. The sectionmen brought him to Newcastle, and he was immediately sent to Dr. Desmond for a medical treatment. His back was somewhat bruised and there were some cuts on his head and face, otherwise he seemed to have escaped serious injury. The train must have been running about thirty-five miles an hour.

FIVE FINGERS

This busy little village is now bustling with renewed activity, as the throngs of woodmen make their way to the camps, and the few discontented workers "wend their homeward way", after a brief stay. This village's business will be increased by the addition of a large camp operated by the Shives Lumber Co., Ltd., about seven miles from the village, under the management of C. Van Horn of Campbellton. Those who have visited this establishment, report it to be a model of its kind, being up-to-date in every report.

Re the bazaar held by the united villages of Five Fingers and Anderson, of which an account appeared in last week's edition, we are informed that the net proceeds of same amounted to over \$800, which will be expended in the building of the vestry of the church, and same will be used as a church the forthcoming winter. The main body of the church will not be built till next summer.

Many new buildings have been erected during the summer and much land cleared. Visitors to the place are struck with the rapid development. This and the adjoining village of Anderson, which will eventually be one, are growing like the proverbial mushroom.

The greatest drawback at present is that the frost strikes us with a vengeance on account of the small clearings, but in the course of time this disadvantage will have disappeared. The following article from the pen of Olaf O. Nylander, geologist, of the geological survey of Canada, who spent a few days in this section, will re-assure the settlers of a more prosperous future.

The limestone formations at Hazen Settlement, (I.N.R.), belong to the lower Silurian and are of the same geological horizon as the rocks of Grand Falls on the St. John river and those of Aroostook River in Maine.

The limestone rocks are much crumbled and fissured by natural forces and the movements of the earth's crust, consequently they decay easily and form the very best of soil.

This level country is very easy to work, and looks much like a rolling prairie when cleared. There is one peculiarity about this limestone land, that in wet seasons the limestone affords good under-drainage, and the soil is therefore light in very dry seasons the water stored in the limestone keeps the soil sufficiently moist to keep the crops in good growing condition.

Dr. Chas. J. Jackson, when making his survey of northern New Brunswick and Maine in 1837-38 predicted that the Aroostook Valley would be the granary of New England and his prediction has been verified. The soil in Hazen Settlement possesses all

the elements of the Aroostook Valley, but has the advantage of being a more level and much larger territory than the latter. The greatest drawback at present is that the small clearings do not allow the free circulation of air and thus the early frosts take greater effect on vegetation. The slight difference in latitude and elevation will not make any perceptible difference after the land is cleared, and when the settlers have learned to adopt modern methods of farming it will be equal to the best of the Aroostook valley land.

NEW CARLISLE

Mr. Tedcastle Travers, Mr. Robert Hays and Miss Madge Ross have returned again to complete another year at the New Carlisle Academy.

Mr. F. Tibault of Paspebiac spent Sunday here.

Mr. Hamond of Paspebiac also spent Sunday here.

St. Andrew Church pulpit was filled last Sunday by two new clergymen, one of whom preached a very teaching sermon.

Many barns have been stored with hay and oats, which will be needed in due time.

CAPLIN

Our school reopened on Tuesday with Miss Florence Robinson of St. Godfrey as teacher. Owing to a much larger attendance this term, an assistant teacher will be required.

We notice the merry-go-round is again in our midst, which is causing quite an excitement among some of the old people as well as the young.

Some of our young people are taking advantage of the trout fishing this season, in the small stream known as McEwen's brook.

The fish though not very plentiful, average from two to five inches in length. Oh! you big trout.

Now that the blueberry season is over, some of our young ladies will have to look out for some other employment, as we notice great crowds have been swarming the plains. Blueberries are alright, but Oh! you gooseberry.

Miss Andrew has returned to her home in Campbellton, after spending some time with the Misses McEwen.

NEW SYSTEM IN VOGUE ON I.C.R.

Day of Fines and Suspensions Gives Way to New Method of Discipline

The day of fines and suspensions for the men employed on the Intercolonial Railway has passed thanks to the present General Manager, Mr. F. P. Gutelius. It has long been felt by those not connected with the railway that the method of disciplining the employees by means of suspensions and fines was a system of the past, and the change to some more modern method of dealing with the infractions of the rules will be welcomed by the public, as well as by the persons directly concerned. In the past the men employed in the operation of the I. C. R., have been subject to fines and suspensions, amounting to anywhere from one to hundreds of dollars for accidents or errors, and in the majority of cases the punishment might be undeserved. Of course, in the interest of public safety, it is necessary that employees, especially those in responsible positions, should be disciplined, as, no doubt, there are some cases of carelessness in rail-roading resulting in loss of life or destruction of property, as the case might be. That being so, the question is what is the most equitable way of dealing with the offender. Is it by suspension of a week, a month or three months, setting back or fining the employee? The General Manager of the I. C. R. believes that these are not the best methods to improve the service or to give the men a chance to redeem themselves. Consequently he has decided to adopt on the I. C. R. a new system, which will appeal to all concerned.

The old system of suspensions and fines for infraction of the rules is being replaced by the merit and demerit method known as the "Brown System of Discipline," in which an account is kept for each employee wherein meritorious acts which make for safety, economy and good service are rewarded by merit marks expressed in numbers on one side and demerit marks similarly expressed on the opposite side of the account. When the number of demerits exceed the number of merit marks by sixty, it may be said, the employee is dismissed from the service. Merit marks are given for such as the following: Discovery of defects in rolling stock which would cause train accidents; discovering defects in rails, switches, frogs, misplaced switches, which prevent accidents are meritorious acts liberally recognized. On the whole the new system appears to be in excellent change not only in the interests of the employee, but the public as well.

FELL FROM MOVING EXPRESS TRAIN

Passenger Falls From Train Running Thirty Five Miles an Hour

Newcastle, N. B., Sept. 8.—About 8 o'clock on Saturday morning while Section Foreman Lindon and men were going over the section they saw a man sitting down at Williston's field about one half mile of Patterson's Siding, four miles from Newcastle. On questioning him he claimed he was a passenger from Truro to Montreal, and fell from the Maritime Express of the night before. He gave his name as G. F. Helleur. The sectionmen brought him to Newcastle and he was immediately sent to Dr. Desmond for medical treatment. His back was somewhat bruised and there were some cuts on his head and face, otherwise he seemed to have escaped serious injury. The train must have been running about thirty miles an hour.

PRETTY WEDDING AT DOAKTOWN

Doaktown, Sept. 4.—The marriage took place on Wednesday evening at 7 o'clock in the Methodist church, of Miss Gertrude M. Lyons, daughter of Mr. and Mrs. Charles Lyons, to Mr. Irvine Hamilton, of Campbellton. The ceremony was performed by Rev. W. Tilley.

The bride, who was given away by her father, was gowned in pale pink messaline with overdress of silk with pearl trimming. Her veil was arranged with clusters of orange blossoms and she carried a shower bouquet of white asters and white daisies, her only ornament being pearl earrings, the gift of the bridegroom.

The bride was attended by Miss Zaida Hinton who was dressed in light blue voile and carried sweet peas.

Mr. Abbot Lyons, brother of the bride, acted as best man, and the ushers were Mr. Everett Donald and Mr. Robert Russell. Miss Frances Whyte rendered the wedding march and the church was beautifully decorated for the occasion with ferns and cut flowers. The bridal party stood beneath an arch of pink and white flowers. The bride was the recipient of many gifts from friends in Houlton, Campbellton and elsewhere, including a substantial cheque from the groom. The groom presented the bridesmaid with an amethyst brooch and to the groomsmen he gave gold cuff links.

After a reception held at the residence of the bride's parents, Mr. and Mrs. Hamilton left on a nine o'clock train on a trip to Montreal, Toronto, Chicago and Duluth. They will reside in Fort Francis, where the groom is employed in the Canadian Northern Railway Company.

The bride traveled in a tailored costume of navy Bedford cord, with hat of white felt.—Chatham World.

POPE PIUS IS AGAIN INDISPOSED

Rome, Sept. 4.—Pope Pius X. is again suffering from a slight indisposition, somewhat similar to the serious illness which the aged pontiff passed last spring. At the Vatican it is said that his present trouble is due to a cold; but it has brought on hoarseness, headache and slightly rising temperature, and Vatican physicians have suggested a complete rest. His Holiness, however, insisted upon keeping engagements he has made for today, and he received in audience Cardinal Ferrari of Milan, who headed a body of Milanese pilgrims. The Pope afterward appeared before the pilgrims themselves and welcomed them to Rome.

A MESSAGE FROM A WOMAN TO WOMEN

"Every Woman Should Take 'Fruit-a-lives'"

LAKELAND, ONT., MAY 12th, 1911

"Kindly publish this letter of mine if you think it will benefit other women who might be afflicted with the diseases I have had in the past, but am now, thanks to 'Fruit-a-lives', completely cured of. It is my firm belief that every woman should take 'Fruit-a-lives' if she wants to keep herself in good health.

Before taking 'Fruit-a-lives', I was constantly troubled with what is commonly known as 'Nerves' or severe Nervousness. This Nervousness brought on the most violent attacks of Sick Headache, for which I was constantly taking doctors' medicine without any permanent relief. Constipation was also a source of great trouble to me and for which the Doctors said 'I would have to take medicine all my life', but 'Fruit-a-lives' banished all these troubles and now I am a well woman."

ONE PROHIBITORY LAW FOR DOMINION

Dominion Alliance Wants the Opinion of Voters

Toronto, Sept. 5.—A Dominion prohibitory law will probably be asked for by the Dominion Alliance. This was foreshadowed in the report which Mr. F. S. Spence made to the annual meeting of the Dominion council at the Metropolitan Methodist Church. W. Patterson outlined a method by which this might be obtained and the whole matter was referred to the legislation committee.

Reviewing the position of the provinces regarding the temperance movement, Mr. Spence pointed out that there were two alternatives for further attainment.

One way would be to make one united demand on the Dominion government for a national law and for this there was a strong expression throughout the land.

The other way would be to work for provincial prohibitory laws, or they could ask the Dominion government to so amend the Canada Temperance Act to enable the vote to be taken in provincial areas instead of by counties.

Mr. Spence pointed out that the legislation could be:

(1)—A Dominion prohibitory law, to be put in force by Act of Parliament directly.

(2)—The plan which is urged in Quebec to have a Dominion law enacted which would come into force after a vote of electors.

(3)—Provincial legislation for prohibition in the provinces as a whole. But in this case further legislation by the Dominion would be needed in order to guard against the importation of liquor from other provinces.

Reviewing the course of Dominion temperance legislation since the Confederation, Mr. Spence referred particularly to the plebiscite of 1898 which gave a majority in favor of prohibition, but which the Dominion government would not act upon because it would have to coerce Quebec which alone was opposed to the temperance legislation.

Mr. Patterson's suggestion was that upon the ballot papers for the Dominion should be printed the question: Are you in favor of legislation to prohibit the importation, manufacture, and sale of intoxicating liquors for beverage purposes?

A further suggestion was that the ballot of each elector should be nullified unless he voted upon this question.

The idea was that at each succeeding general election this question should be voted upon until not less than fifty-two per cent of the vote was in favor of legislation and that then action should be taken at the next session of parliament for the prohibition of the importation, manufacture, and sale of intoxicating liquors for beverage purposes.

INTERCOLONIAL DEATHS IN AUGUST

Only three deaths are reported by secretary Paver, of the Intercolonial and Prince Edward Island Railways' Employees' Relief and Insurance association for August. They are J. A. Theberge, freight agent, Campbellton; J. W. Cole and William Hayden, both retired employees, Moncton. All were insured in Class C. for \$250 each. The sick and accident funds and death levies for the month were \$1 in class A, 70 cents in class B, and 55 cents in class C. The total number insured is 5705, of which 690 are in Class A, 255 in Class B and 4799 in Class C.

FATAL ACCIDENT LAST FRIDAY

Girl at Red Bank Burned to Death While Cooking Breakfast

Newcastle, N. B. Sept. 5.—A fatal accident occurred at Red Bank, about ten miles from Newcastle last Thursday, and the result of which Miss Phoebe Johnson, aged thirty-two years, was so badly burned that she died at two o'clock Friday morning.

The particulars of the accident are somewhat meagre, but it appears that Miss Johnson was in the act of cooking breakfast, when her clothing caught fire.

She ran out of doors and screamed for help, but the wind fanned the flames, and before they could be extinguished, the unfortunate woman was badly burned and suffering from the shock. She only lived a few hours. Medical aid was summoned from Newcastle, but the efforts of the doctors were fruitless.

Miss Johnson was the only daughter of Stephen Johnson, a prosperous farmer of Red Bank, and besides her father, two brothers are left to mourn their loss. The brothers are Calvin and Elijah Johnson, both of Red Bank.

The funeral was held on Saturday morning at ten o'clock.

FALL EXCURSION TO MONTREAL

Montreal is always a city of interest and especially so in early autumn when the weather is enjoyable, the many stores crowded with seasonal novelties, and the places of amusement in full swing. A visit there at this time of year cannot be otherwise than enjoyable, and with the very low fares prevailing on the Intercolonial Railway in connection with the annual fall excursions. The round trip can be made more cheaply than at any other time. On September 11, 12 and 13th, the round trip fare from Campbellton will be \$12.50, tickets good for return September 20th. On September 25, 26 and 27th the same rates will prevail with the return limit October 13th. Travellers from the Maritime Provinces have the choice of two of the finest trains on the continent the "Ocean Limited" and the "Maritime Express" both renowned for the excellence of their sleeping and dining car service. UNKNOWN MAN KILLED ON I.C.R.

About 19 o'clock Saturday evening the body of an unknown man was found on the I. C. R. track near Petit Rocher, twelve miles north of Bathurst station, by the crew of a freight train which was passing at that hour. The man was unknown to the people of that section and it could not be ascertained by what train he was killed. He is believed to have been a foreigner, who was tramping, following the railway line through the province.

It is understood that an inquest will be held at Bathurst to determine, if possible, the man's identity and by what train he was killed.

"MY STOMACH IS FINE Since Taking Na-Dru-Co Dyspepsia Tablets"

Mrs. J. Merkle, Waterloo, Ont., enthusiastically recommends Na-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why. "I was greatly troubled with my stomach," she writes. "I had taken so much medicine that I might say to take any more would only be making it worse. My stomach just felt raw. I read of Na-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked wonders. Anyone having anything wrong with his stomach should give Na-Dru-Co Dyspepsia Tablets a trial, they will do the rest. My stomach is fine now and I can eat any food."

One of the many good features of Na-Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take. The relief they give from heartburn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal. They'll make you feel like a new person.

HOW THIS WOMAN FOUND HEALTH

Would not give Lydia E. Pinkham's Vegetable Compound for All Rest of Medicine in the World.

Utica, Ohio.—"I suffered everything from a female weakness after baby came. I had numb spells and was dizzy, had black spots before my eyes, my back ached and I was so weak I could hardly stand up. My face was yellow, even my fingernails were colorless. I had displacement. I took Lydia E. Pinkham's Vegetable Compound and now I am stout, well and healthy. I can do all my own work and can walk to town and back and not get tired. I would not give your Vegetable Compound for all the rest of the medicines in the world. I tried doctor's medicines and they did me no good."—Mrs. MARY EARLEWINE, E.F.D. No. 3, Utica, Ohio.

Another Case.
Nebo, Ill.—"I was bothered for ten years with female troubles and the doctors did not help me. I was so weak and nervous that I could not do my work and every month I had to spend a few days in bed. I read so many letters about Lydia E. Pinkham's Vegetable Compound curing female troubles that I got a bottle of it. It did me more good than anything else I ever took and now I am cured. I feel better than I have for years and tell everybody what the Compound has done for me. I believe I would not be living to-day but for that."—Mrs. HATTIE GREENSTREET, Nebo, Illinois.

MRS. PANKHURST TO TOUR AMERICA

Will Address Meetings at Several of the Big Cities

London, Sept. 5.—The Women's Social and Political Union, has issued a statement announcing that "as Mrs. Pankhurst has broken down the sentence of three years penal servitude by speaking twice at a public meeting without being arrested" she has decided to undertake "a short lecturing tour in America for the purpose of representing 'The case for women enfranchisement, reference to its connection with the white slave problem'."

Meetings will be held in New York, Boston, Chicago, Philadelphia and other big cities. Miss Joan Wickham will sail on the Cedric on September 11 to arrange for the tour.

CHRISTIAN SCIENTIST IS CHARGED WITH MANSLAUGHTER

London, Sept. 8.—The point whether the father is guilty of manslaughter following the death of his child, if he relies solely on the services of a Christian Science practitioner during a serious illness, was decided in the affirmative by Justice Rowlatt, in the Central Criminal Court today. Though the case was actually tried, the defendant was acquitted because the charge was not proved.

A verdict of manslaughter was returned on August 9 last by a coroner's jury, against Benjamin Jewell, whose seven year old daughter died from diphtheria, while undergoing Christian Science treatment. Jewell pleaded not guilty, declaring he was not aware that the child was suffering from diphtheria.

Justice Rowlatt directed the jury to acquit Jewell on the ground of insufficient evidence, but, turning to the defendant he admonished him to be more careful in the future, saying:

"If the case had been proven I would certainly have passed a heavy sentence, Christian Science or no Christian Science."

NEW SCHEDULE OF PAY ON THE I.C.R.

Increases Amount to About 11 Per Cent and Total \$125,000

Halifax, Sept. 6.—Secretary McLean of the Canadian Brotherhood of Railway Employees, returned last night from Moncton with the signed schedule of the new rate of wages and readjustment of privileges for the employees of the I. C. R. The increases contained therein averaged \$5 a month to monthly paid men and two cents an hour to the hourly and daily paid men. The total increase when figured up will come to nearly \$125,000, or equal to 11 per cent of the old schedule.

The following is a summary of the schedule of increases: General freight foreman, frequent shed foreman, foreman freight checkers, senior freight checkers, junior freight checkers, all come under the \$5 a month increase, senior, junior 2nd year junior third year, 2 cent increase \$1.80 to \$2; \$1.70 to \$1.90. \$1.75 to \$1.95 respectively. Baggage masters and assistants increased \$5 a month. Ferryman between Point Tupper and Mulgrave \$5 to \$15 a month, daily paid men two cents an hour. Baggage station porters two cents an hour. Round house employees between two and three cents an hour. Tank men all over the line \$5 a month.

To the minimum wage of the 1st year parlor car conductors \$10 increase, same with 1st year sleeping car until maximum of \$90 is reached in two years service instead of \$85 in five years under old schedule. Dining car conductors \$20 a month maximum of \$90 in one year service. Dining car chefs \$90, increasing minimum from \$60. Clerks all over service get \$5 a month increase.

Revision of special privileges. Relief work, all men called upon to do relief work temporarily will be paid the wage of the employee relieved, except in case of vacation. Overtime, all hourly and daily paid men will be paid time and a half for all overtime beyond regular hours and holidays.

The entire system has now been divided into promotion districts and each employee on each district car now have promotion from the lowest job to the highest, providing he qualifies. Senior employees to have the preference where ability is equal. The hours of duty have not been changed, but have been more clearly defined for each case of employment than was the case under the old agreement.

A gentleman having given a boy a penny for some little services, was surprised that there was no expression of thanks. Thinking to teach him a lesson he said: "My lad, you've forgotten something." "Oh, no," returned the boy. "But," replied the gentleman, "I'm sure you have. Now, what do you say to mother when she gives you a slice of bread and butter?" "Oh, ay," said the lad, "we just say to mother, 'which side is the butter on?'"

Equal Heat In Every Part of The Gurney-Oxford Oven

Every woman well knows the bad results from constantly opening the oven door to move a cake to another shelf or turn a pan of biscuits. Often the shifting or the cold air striking in proves utterly disastrous to her baking.
The Divided Flue on the Gurney-Oxford range equally distributes the heat to all parts of the oven which is regulated to the exact temperature required by means of the Economizer.
This wonderful time-labor-and-money-saving device controls the heat of the whole range.
It is worked by a small handle which moves around a series of six notches. The housewife soon learns that by moving the handle to No. 1 she has a very hot oven, to No. 3 a moderate oven, and that No. 6 checks the fire so as to burn scarcely any coal while she goes out shopping. On her return she simply moves the handle to the number that gives the required heat and the result is prompt.

The smooth top castings will not catch or retain grease.

The bright nickle trimming lifts off for cleaning and keeps the range new and shining in appearance.

For years stove experts have been working out woman's problem in the kitchen and the Gurney-Oxford range is the solution.

NEW BRUNSWICKER EDUCATION EXPERT

Now in The Province on an Important Mission

Fredericton, Sept. 8.—Charles Homer Lane, chief specialist agricultural education in the United States Department of Agriculture at Washington, D. C., and a former student at the University of New Brunswick and Provincial Normal School, is here today conferring with Dr. W. S. Carter, Chief Superintendent of Education, relative to agricultural education in the public schools in New Brunswick. Mr. Lane was born in Massachusetts near Boston, but came with his family to New Brunswick when a small boy, and for eighteen years remained in this province residing in Westmorland county. He attended the U. N. B. in this city, also the Provincial Normal School, and then became a teacher at the Academy at Sackville, finishing his college course at Mount Allison University. While in Canada, Mr. Lane is visiting MacDonald Consolidated Schools, with a view of preparing a report on that work as carried on in the Dominion, for the United States Bureau of Education. This morning, accompanied by Dr. Carter, he visited the Provincial Normal School and there addressed the students.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Haily Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

ANNETT-CULLIGAN

A wedding of much interest took place on Sept. 3rd in the Sanctuary of the church of St. John the Evangelist, Belledune, when Miss Josephine Culligan, daughter of the late John Culligan, was united in marriage to George D. Annett of Gaspe, P. Q. The ceremony was performed with Nuptial Mass by the pastor Rev. T. Van de Moortel, in the presence of a large congregation. The bride was attired in cream satin with train, Irish lace and pearl trimmings, bridal veil and orange blossoms, and carried a bouquet of maiden hair fern and lilies of the valley. Her sister, Miss Opal Culligan attended her and wore a pretty dress of cream silk net over pink, with black velvet picture hat and carried a bouquet of sweet peas. The groom was ably supported by Mr. John McNeil. The bride preceded by the bridesmaid entered the church to the strains of Mendelssohn wedding march rendered by the organist Miss Mabel Culligan. During the ceremony appropriate hymns were sung by the choir. The church was beautifully decorated and carpeted for the occasion. After the ceremony the organist played Marionette's wedding march, while the bridal party left the church. They motored to the home of the bride where refreshments were served, after which she donned her traveling suit of navy serge, with large black picture hat. They motored to Bathurst where they took the limited for Halifax and other points of interest. On their return they will reside in Amherst, N. S., where the groom is employed with the Rhodes Curry Co. Ltd. The bride was the recipient of many beautiful presents including gold, silver, cut glass, etc. The grooms present to the bride was a beautiful gold bracelet, to the bridesmaid a gold-necklace and pendant set with pearls and amethysts, to the groomsman gold initial cuff links. The bride was a very popular young lady and all join in wishing them many long years of happiness.

Editor Campbellton Graphic

Dear Sir

In your issue of Sept. 5th we, of Richards I. N. R., noticed a letter in your popular paper written by some one from Five Fingers, or Anderson, whom it would be well for the people up there to look after, as he is in a bad way and should be put on a diet of gruel and pea soup until his pulse gets normal. This person needing gruel appears to be deeply offended at an article in your paper a couple of weeks ago singing the praises of Richards, whereas he never hears the praises of Anderson or Five Fingers.

Now we of Richards have a very kindly feeling towards our neighboring villages and we would not presume to take it upon ourselves to sing their praises as they are quite capable of doing so themselves. This pea soup man then goes on to tell about coming down to our tea party, on the 19th, on the express and bringing down a cycle on which to go back on in the evening. He speaks of trying to get lunch for 12 and the best they could do, was a lunch for the whole bunch for one dollar. That was too steep for their small pocket-book, they being used to pea soup at fifty cents a pot full. It was certainly hard lines. We think if this pea soup man and his friends would come down to Richards for a week and eat some of our popular Andrew Savoy's cheese sandwiches or some of our obliging Uclid Potvin's tarts, it certainly would make a great improvement in the growth of their brain. He says that it was tough after spending forty or fifty dollars at the bazaar. Now the bazaar was about over when the express came down. One of our men who ran a booth claims he sold a bag of pea-nuts and ten cents worth of two for five cents cigars to a person who had apparently come down on the express and had red hair. I wonder if he saw any of the gang up at Ross Siding that night who were counting ties and every once in a while would go and hug a telegraph pole.

I remain

ANNOUNCEMENT.

Beginning with this issue the Graphic will be published Thursday afternoon instead of Friday as before.

This change has been found advisable because of the fact that a great many post offices on our list cannot be reached on Saturday, consequently the Graphic does not reach its destination until Monday.

This change will effect Tide Head and Flatlands and offices served from these offices served through Matapedia and all the new offices along the International as well as the offices along the Atlantic Quebec and Western between New Carlisle and Gaspe.

This change will necessitate advertisers and correspondents sending in their manuscripts one day earlier. We trust that all will keep this in mind.

THAW IS FREE AND RE-ARRESTED AGAIN

Is Dropped Over the Border by the Canadian Officials and Re-arrested.

Coaticook, Que., Sept. 10—Harry K. Thaw, removed forcibly from his quarters today, is now a free man in American territory, travelling in an automobile with a number of American newspaper reporters.

The Mattawan fugitive was dropped over the border by the Canadian authorities into Vermont. Alone, dazed and free, he did not know what to do. The newspaper men following him took him into their car and are now travelling with him. Already they have passed from Vermont into New Hampshire. As the car progressed the newspaper men reported Thaw's movements.

The situation Harry Thaw finds himself in today is by far the most extraordinary that has marked the progress of his sensational case since he fled from the Mattawan Insane Asylum August 17.

Montreal, Sept. 10—The members of Thaw's family and his lawyers here were dumbfounded when they learned that the immigration authorities had deported Thaw "I am simply paralyzed," said J. N. Greenshield, K. C., the leader of Thaw's band of lawyers. "I cannot understand it. With a writ of prohibition and habeas corpus out it seems to me to be utterly impossible to believe. It is a disgrace to the country and to our administration of law. All we can do, if Thaw was forced across the line, is to bring Robertson, the assistant superintendent of the immigration department, before the Court of King's Bench, but what good will that do us?"

Averill, Vt., Sept. 10—Harry K. Thaw arrived here shortly after 9 o'clock this morning an absolute free man. He was in an automobile with a number of newspaper correspondents. When the Canadian immigration officers left Thaw at Norton Mills, Vermont, they told him as he stepped from the automobile that he was free to go where he liked. The newspapermen's car was racing after Thaw containing the immigration officers and Thaw climbed into it.

"My departure from Coaticook, was an absolute surprise to me," said Thaw "as it was to everybody else also. My plans are indefinite. I do not know what I shall do or where I shall go."

Albany, Sept. 10—A requisition upon the Governor of Vermont for the return to New York State of Harry K. Thaw was signed by Acting-Governor Glynn recently and sent on for use in the event of Thaw being returned to the Vermont border by the Immigration Officials of Canada.

Mr. Glynn was advised to-day of the latest move in the Thaw case, but declined to comment on it. Supt. John B. Riley, of the State Prison Department, expressed surprise when informed that Thaw was within the boundaries of Vermont.

"I hope he will be in Mattewan by night," he remarked. William T. Jerome and Deputy Attorney General Franklin Kennedy were reported to have spent the night at Manchester, Vt., on their way to Albany.

Colebrook, N. H., Sept. 10—Harry K. Thaw wandered about the hills in Coos county, N. H. for three hours today after being thrust across the Canadian border at Norton Mills and was arrested by Sheriff Drew of Coos county at Little School House, five miles from Colebrook, just before noon. Thaw made no resistance and was brought immediately to Colebrook. Thaw in his wanderings was accompanied only by newspapermen. He did not know where to go. Leaving Norton Mills he stopped at Averill, Vt., and leaving there doubled back into Canada, re-entered Vermont at Canaan then crossed the Connecticut River at Stewartstown. No one attempted to detain him. He was planning at this time to strike a railroad and buy a through ticket to Detroit. Vainly he tried to get in connection with his lawyers at Montreal. Failing in this he resumed his blind journey until detained by the sheriff. The sheriff had no warrant but held him as a fugitive from justice.

BEFORE IT'S TOO LATE

Many prosperous citizens have lost their valued possessions over night. Then they kicked themselves because an outlay of a few dollars on every thousand of valuation every few years would have left them protected and prosperous. Don't be foolish. Few things are as cheap as fire insurance in the beginning, and nothing may prove more costly in the end than its lack.
