### CORRECTION

Learning that certain incorrect statements were in circulation regarding the contract work on the provincial highway west of Wardsville, I referred the matter to the Ontario Department of Highways, and received in reply the following statement from Chief Engineer Hogarth:

"We received sixteen tenders from sixteen different contractors for the above grading work in the township of Mosa, which work includes the Wardsville diversion. "Mr. F. W. Nichols tendered \$26,419.00, and the contract was awarded to the lowest tender received, namely—that from Mr. J. J. Dewhurst at \$24,525.60."

J. G. LETHBRIDGE.

### CARD OF THANKS

Mrs. Emma Purdy and family wish to thank the many friends who so kindly assisted and expressed their sympathy during recent bereavement.

**BANK OF MONTREAL**  
Established over 100 years

## New Superior Chevrolet

**Underwriters Endorse Chevrolet**  
Now Rated as Class "A" Insurance Risk. Less Than a Dozen Motor Cars—All much Higher in Price—Have Similar Insurance Rating, Which is the Lowest Possible.  
The fundamentally sound construction of Chevrolet Superior Models has again been proved by the fact that the Underwriters have given to Chevrolet, Class "A" insurance rating. This means that the Chevrolet owner gets the lowest possible rate of insurance, which means a saving of from 30 to 40 per cent.

Less than a dozen other cars are rated as Class "A" insurance risks, and these cars are all much higher in price. This new ruling is further evidence of the attention to detail which our engineers have given to the production of the Chevrolet car, and which is reflected in the increasing popularity of Chevrolet. The Chevrolet car is the most economical transportation unit for the public. It will take you where you wish to go, comfortably, and at lower cost per mile than any other car.

Chevrolet owners save in initial and upkeep cost, and they also save in cost of insuring their cars.

Orders for Chevrolet are taxing factory production schedules. A shortage on Chevrolet cars is threatened as the season advances.

Get in touch with the nearest Chevrolet dealer at once and ask for a demonstration.

**G. W. SNELGROVE**

## SOMETHING NEW

We have recently purchased a Plan Book Service containing several hundred Floor Plans and Colored Pictures of Farm Houses, Bungalows and Cottages, and can furnish Blue Prints for any of these for Two Dollars each.

If you are going to build, come and look them over. This service includes drawing plans from your own ideas at a very nominal sum.

PLANING MILL GLENCOE LUMBER YARD

### DISTRICT AND GENERAL

Mrs. Freeman Christner, of Florence, received a broken arm last week when she was cranking her car.

Bert Norwood, a Florence boy, broke his leg on Saturday when he jumped from the running-board of a moving auto.

Among the graduating nurses at St. Joseph's Convent, Chatham, are Miss Mary Kearns and Miss Cecilia Doyle, of Wardsville.

The Royal Bank are putting up a building for their business at Dutton. The building will be of red brick with stone trimmings.

The barn of Alex. Clark at Campbellton was struck by lightning on Friday evening. A serious loss was prevented by the timely arrival of neighbors.

The late Mrs. John Grover, who died recently at Thamesville, formerly resided on the Longwoods Road near Wardsville. She was in her 88th year.

Mrs. A. Dennis, of Sarnia, has died from injuries received a few weeks ago when a car driven by George Borrowman was struck by a railway engine near Wyoming.

Hog values touched \$6.75 in the Chicago market on Monday, the lowest price since January, 1912. It was announced by the United States Department of Agriculture.

John McKellar, of Alvinston, was jolted from the top of a freight car in the C.N.R. yards there recently, and fell 14 feet to the ground, sustaining painful but not serious injuries.

The General Assembly of the Presbyterian Church, in session at Port Arthur, has decided by a vote of 426 to 129 to proceed immediately with the consummation of union with the Methodist and Congregational Churches.

Mrs. Mary Harris, an old resident, died on Sunday, June 3rd, at her home near Wardsville, in her 82nd year. She leaves two sons and one daughter—R. Wm. Harris and Charles Harris, of New York City, and Miss Ida Gibb, of Detroit.

Duncan Carmichael's corn-crib at West Lorne took fire Friday evening. The fire spread to Mr. Carmichael's barn and C. Frank's barn, which were adjacent. All three buildings were destroyed, but with the help of citizens and the fire department nearly all the contents were saved.

Ten Canadian National Railway box cars, with their contents, together with one tank car filled with gasoline, two empty box cars and one empty tank car, were totally destroyed by fire at 10:50 o'clock Sunday morning after they had been wrecked one mile east of Kerwood, and the tank car, containing the gasoline, had exploded and ignited the wreck.

The grand jury at the county court in London last week brought in a recommendation that since a great number of the patients at the Ontario Hospital for the Insane are mentally deficient through hereditary causes, it should be made necessary for the contracting parties to procure medical certificates as to their mental and physical fitness before the marriage is solemnized.

**SHELTAND**  
Misses Ila and Mildred Bolton spent Sunday at their home.

A large crowd attended a barn raising at Chas. Elliott's Saturday. Mr. and Mrs. Thos. Green attended the funeral of his brother on Saturday. Much sympathy is extended to the bereaved ones.

John McDougall has returned home from Detroit and opened his blacksmith shop again.

Mr. and Mrs. Fred Jeffery spent Friday at Highgate.

Mr. George Channing, of Washburn, Alberta, is visiting his brother, Fred Jeffery.

John Archer spent Sunday at his home.

### KILMARTIN

Dr. D. S. McLachlan, wife and daughter, of Windsor, spent the weekend at Alexander McLachlan's.

Mr. and Mrs. Archie Burke and daughter Alma attended a silver wedding anniversary at Bad Axe, Mich., last Friday.

John McGregor returned to Detroit last week after spending some days here.

Mr. and Mrs. Wilnot, Mrs. Tyrell and Miss Anna Dewar, of Detroit, were visitors at Alex. Dewar's last week.

Dan L. McKellar is home from Detroit.

Preparations are under way for a Gaelic service in Burns' church, Mosa, on July 8th.

### STRATHBURN

Wednesday afternoon, prior to her marriage to Mr. Pearson, of Chicago, twenty-five friends of Miss Sadie Coulthard gathered at the home of Mrs. Margaret Webster and surprised her with a miscellaneous shower.

A social hour was spent and a dainty lunch served. All joined in wishing the bride much happiness in her new home.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use and certain and satisfactory in its action.

### COUNTY COUNCIL NOTES

The county tax rate was fixed at 9 mills.

On account of the disastrous fire which swept the business section of the village, the council decided to remit \$300 taxes to Alisa Craig.

The special grants to county high schools will be the same as last year. It was decided that usually should be administered county patients needing it, at the county expense, when necessary.

In addition to the usual annual grant of \$500, the Strathroy Hospital was granted \$10,000 towards building a new wing. The grant will be made in four equal instalments, the first to be made in 1924.

Sheriff D. A. Graham will act as high constable for the county for the remainder of the year.

Applications for the position of high constable to be considered at the December session of the council will be called for at once. Sixteen constables will be appointed, as soon as the resignations from the 75 constables now on the list are received. The new constables will be stationed at the following places: London, Strathroy, Parkhill, Glencoe, Wardsville, Newbury, Mount Brydges, Kerwood, Lucan, Alisa Craig, Dorchester, Thorndale, Westminster, London township, Lobo and Delaware.

The high constable's salary will be \$1,500 a year, and he will be provided with \$1,200 for a car, and will be allowed expenses and upkeep.

The special committee which brought in the recommendation to establish a new force of county constables on the old fee system, added to its recommendation that the new constables be named as Ontario Temperance Act Enforcement Officers, with the proviso that all fines divided on the basis of 25 per cent. to the municipality which supplies the offender, 50 per cent. to the county treasury, and 25 per cent. commission to the constable making the arrest.

No action was taken on a motion to ask the government to place a tax of two cents a gallon on gasoline, instead of raising the auto license fees to obtain money for highway maintenance.

### S. S. No. 5 GARDEN PARTY

In spite of unfavorable weather an enjoyable time was had at the garden party Friday evening. In the absence of Mr. Galbraith, Rev. D. G. Paton introduced the entertainers on behalf of the Sports Club. The Adanac Quartette proved themselves real artists in harmony, obtaining some wonderful effects. All four are gifted soloists and when gathered in ensemble produce an artistic blend of melody. They proved that individually they possessed fine voices. Miss Pearl Newton, eloquent and humorous entertainer, delighted the audience with her readings. Miss Newton can change her facial expression and voice to suit the most exacting numbers and was particularly happy in her imitation work. She will be well received should she ever return. Selections by Laughton's orchestra were received in the usual hearty manner.

### DR. CHARLES ROOME DIES

Mrs. Donald Campbell, of Dutton, has received word of the death of her only surviving brother, Dr. Chas. D. Roome, which occurred after four weeks' illness at Cresco, Iowa, where he had practiced his profession for many years. He was 80 years of age and was born in Oxford township, where, in his younger days, he taught in the public schools of the township for several years, afterwards graduating at Ann Arbor in medicine. He located first in Wisconsin, afterwards moving to Cresco. He is survived by his widow, one daughter, Mrs. Roy Platt, and one son, Charles, who is a physician in medicine. He was born in Oxford township, where, in his younger days, he taught in the public schools of the township for several years, afterwards graduating at Ann Arbor in medicine. He located first in Wisconsin, afterwards moving to Cresco. He is survived by his widow, one daughter, Mrs. Roy Platt, and one son, Charles, who is a physician in medicine. He was born in Oxford township, where, in his younger days, he taught in the public schools of the township for several years, afterwards graduating at Ann Arbor in medicine. ## EMPIRE FORESTRY CONFERENCE TO BE HELD IN CANADA IN JULY

In the forefront of prominent men in attendance at the Empire Forestry Conference to be held in Canada this summer will be Major-General Lord Lovat, K.T., K.C.M.G., D.S.O. Lord Lovat is chairman of the Imperial Forestry Commission, which is carrying out a gigantic program of reforestation in the British Isles. The forests of England and Scotland were subjected to serious depletion to supply war demands, and the work of the Commission is to restore as rapidly as possible the forested areas in the United Kingdom.

During the war Lord Lovat was in charge of all British forestry operations, and associated with him were many men, including Canadians, prominent in the lumber and pulp manufacturing world. He has many friends in Canada, and it is anticipated that his coming will warm the hearts of many a member of the clan Fraser, of which Lord Lovat, as Simon Fraser, is Chief. Not only is he a man of great energy, broad vision and outstanding ability, but he is possessed of a most charming personality. The several Canadians who were delegates to the Empire Forestry Conference held in London in 1920 speak highly of his ability as the leader of that Conference.

### OUTLINE OF PROGRAM.

Preparations for the Conference are now so far advanced that certain important particulars can be given in regard to the program. The Conference will open during the last week of July, foresters from all parts of the Empire taking part. Almost immediately after the formal opening a tour will be made in the forested provinces to observe forest conditions and to inspect forest industries. Following the eastern trip the meetings at Ottawa will take place. At the conclusion of

these the Conference will visit lumbering centres and forest areas in Ontario and Western Canada. Many of the delegates will see for the first time forest industries on a scale entirely new to them. The huge pulp concerns in eastern Canada and the gigantic sawmills of the Pacific Coast will undoubtedly occasion much interest.

### AIM OF THE CONFERENCE.

It is the aim of the Conference to find the ways and means of making the Empire self-sustaining in its timber supply. This involves careful stock-taking of forest resources, the pooling of information in regard thereto, and the establishment of facilities for increasing Empire trade generally in forest products. In many cases possibilities have been neglected purely through the lack of information that has prevailed regarding supplies and facilities.

A most important feature of the Conference is the placing plainly before the people of the actual condition of Empire forestry affairs. In some parts of the Empire forest management is on the basis of sustained yield, while in others cutting is carried on greatly in excess of annual growth, so that the woods' capital is being seriously impaired. Many other related subjects will also receive attention.

Canada is honored by being selected as the meeting place of this, the second Empire Forestry Conference. No effort is being spared to justify this selection, and it may be anticipated that the numerous delegates will return to their respective countries with a clearer conception than they have previously had of Canadian conditions, the advantages of Canada as a source of raw forest products, and of the state of her development in the manufacture of wood material into many different forms.

## TO CARRY CATTLE IN GOVERNMENT BOATS

### Canadian Vessels to be Equipped for Ocean Transport During Three Months.

Ottawa, June 10.—An earnest attempt at cattle-carriers by the Canadian Government Merchant Marine will be made this summer. As the result of lengthy correspondence and negotiations between Sir Henry Thornton, head of that service, and the Departments of Agriculture and Marine and Fisheries, six of the Government Marine are to be fitted up for the carrying of cattle to the recently opened British markets.

Owing to the fact that the Government vessels are not designed for such work, and as it would involve an almost prohibitive cost to adapt them completely to such work, it is planned only partly to fit up these boats. They will be equipped to carry a little over 200 cattle each and the cost of equipping the vessels will be comparatively small. It is understood that the Government cattle service will be maintained during the months of July, August and September, the months during which the best weather conditions on the Atlantic obtain, and when the maximum of service can be given at the minimum of risk and cost, and it is believed that at the end of that time it can be ascertained whether or not the experiment is successful and whether or not the Government service justifiably could be made permanent.

According to the plans, which are not yet completely formulated, an effort will be made to have some of the shipments go from Quebec and some from Montreal. In the case of the former port shipping the cattle over the Government Railway direct to Quebec, thus giving the major part of the Government enterprise the benefit of the land haulage and also encouraging the Harbor Commission of Quebec, which has this summer on short notice furnished excellent transshipping facilities to cattle exporters. An opportunity will be afforded also of learning what results accrue from competing with the larger lines of cattle-carrying vessels between Canada and Great Britain.

### Canada Has Sent 15,434 Head of Cattle to Britain

A despatch from Ottawa says:—Since the British embargo was removed (and up to May 31), 10,190 store cattle and 5,244 butcher cattle have been exported to Great Britain, says a report of the Department of Agriculture. Of that number approximately 11,500 were killed from Ontario and 3,900 from the Western Provinces. Prices on good quality steers have been stimulated from 50 cents to \$2 per hundred as a result of the improved demand for good stock. Practically all the stock was either hornless or dehorned, and meeting the requirements of a high class of trade, and at strong prices.

### St. Lawrence at Last Entirely Free of Ice

A despatch from Prescott says:—According to official reports received on Thursday the Gulf of St. Lawrence is now clear of ice, after a season of unprecedented ice conditions. The ice-breaker Mikula has been battling for weeks to clear the way for incoming vessels.

Archbishop of Algoma  
Archbishop Thorneycroft, who celebrates the jubilee of his diocese on June 17th. He was created a bishop twenty-six years ago, and an archbishop eight years ago.

### Bush Fires Drive Deer Into Port Arthur

Port Arthur, June 10.—Two full-grown moose were seen for fully an hour browsing at 5 o'clock this morning within 20 yards of the plant of the Provincial Pulp and Paper Co. Men went up quite close to these forest monarchs and they were not disturbed. One of the two, both bull moose, had a fine set of antlers just starting to grow. The antlers are "velvet" just now, and those who saw the big animal this morning say the horns were very beautiful.

Two deer were seen this morning in the State River Presbyrian Church grounds and people got close enough to the animals to take a picture of them.

It is thought that the preponderance of bush fires in the neighborhood has driven these and many other denizens of the bush close into town.

### British Steamer Sinks in Red Sea

London, June 10.—The British steamer Maldan, bound for London from Calcutta with a heavy cargo, is sinking off St. John's Island, in the Red Sea, according to a despatch to Lloyd's from Port Sudan today. Another steamer, twenty miles distant, was reported to have answered the distress calls of the Maldan.

The number of passengers and crew of the Maldan is unknown. A later despatch to Lloyd's from Port Sudan says that the Maldan went to the bottom and is a total loss. The passengers and crew were rescued.

ENGLISH FARMERETTES TOUR CANADA

Four bright young English girls ranging from fourteen to eighteen years of age, have reached Canada to make a tour which will last until September. They travel under the Sir Henry Thornton Scholarships and are chaperoned by Miss Wolfe Murray, a newspaper woman, who is a descendant of General Murray. The girls are Miss Joan Moore, Leicestershire; Miss Ivy Townsend, of Surrey; Miss Mildred White, of Devonshire; and Miss Emma Abbotson, of Middlesex. Their ability to speak and write were factors in their selection. Miss Moore, the youngest, defeated her father in a judging contest before leaving England.

## Weekly Market Report

### TORONTO.

Manitoba wheat—No. 1 Northern, \$1.23 1/2; No. 2 CW, 55 1/2; No. 3 CW, 52 1/2; No. 1 feed, 51 1/2; Manitoba barley—Nominal. All the above, track, hay ports. Am. corn—No. 3 yellow, \$1.00 1/2; No. 2, 99 1/2; Barley—Malt, 40 to 62c, according to freights outside. Buckwheat—No. 2, 70 to 71c. Rye—No. 2, 79 to 81c. Pass—No. 2, \$1.40 to \$1.45. Millfeed—Del., Montreal freights, bags included. Bran, per ton, \$28; shorts, per ton, \$31; middlings, \$35; good feed flour, \$3.15 to \$2.25. Ontario wheat—No. 2 white, \$1.28 to \$1.25.

Ontario No. 2 white oats—50 to 51c. Ontario corn—Nominal. Ontario flour—Ninety per cent. pat., in jute bags, Montreal, prompt shipment, \$5.10 to \$5.20; Toronto basis, \$5.05 to \$5.15; bulk, seaboard, \$4.90 to \$5. Manitoba flour—1st pat., in cotton sacks, \$7.10 per bbl.; 2nd pat., \$6.60. Hay—Extra No. 2 timothy, per ton, track, Toronto, \$15 to \$15.50; No. 3 timothy, \$14; mixed, \$12; lower grades, \$8.

Straw—Car lots, per ton, track, Toronto, \$9.50. Cheese—New, large, 20c; twins, 22c; triplets, 23c; Stiltons, 25c. Old, large, 32c; twins, 32c; triplets, 33c; Stiltons, 35c. Butter—Finest creamery prints, 36 to 37c; ordinary creamery prints, 34 to 35c; dairy, 24 to 25c; cooking, 22c. Eggs—New laid, loose, 31c; new laid, in cartons, 35c. Live poultry—Chickens, milk-fed, over 5 lbs., 25c; do, 4 to 5 lbs., 22c; do, 2 to 4 lbs., 20c; hens, over 5 lbs., 26c; do, 4 to 5 lbs., 23c; do, 2 to 4 lbs., 20c; roosters, 17c; ducks, over 5 lbs., 30c; do, 4 to 5 lbs., 28c; turkeys, young, 10 lbs. and up, 30c. Beans—Can. hand-picked, per lb., 7c; primes, 6 1/2c.

Maple products—Syrup, per imperial gal., \$2.50; per 5 gal. tin, \$2.40 per gal. Maple sugar, lb., 25c. Honey—60 lb. tin, 10 1/2 to 11c per lb.; 2-2 1/2 lb. tins, 11 to 12 1/2c per lb.; Ontario comb honey, per doz., No. 1, \$4.50 to \$5; No. 2, \$3.75 to \$4.25. Potatoes, Ontario—No. 1, \$1.30 to \$1.40; No. 2, \$1.15 to \$1.30.

Smoked meats—Hams, med., 26 to 28c; cooked hams, 29 to 32c; smoked rolls, 26 to 28c; cottage rolls, 25 to 28c; breakfast bacon, 30 to 35c; special brand breakfast bacon, 35 to 38c; backs, boneless, 37 to 42c. Cured meats—Long clear bacon, 50 to 70 lbs., \$18 to \$20; 50 lbs., \$17.50; 90 lbs. and up, \$16.50; lightweight rolls, in bbls., \$30; heavyweight rolls, \$33.

Lard—Pure tierces, 15 1/2 to 16 1/2c; tubs, 14 1/2 to 15 1/2c; prints, 17 to 17 1/2c. Shortening tierces, 14 1/2 to 15c; tubs, 15 to 15 1/2c; prints, 15 1/2 to 16c; prints, 17 to 17 1/2c. Choice heavy steers, \$8 to \$8.85; butcher steers, choice, \$7.25 to \$7.75; do, good, \$6.75 to \$7.25; do, med., \$6.25 to \$6.75; do, com., \$5.25 to \$5.75; butcher

heifers, choice, \$7 to \$7.50; do, med., \$6.50 to \$7; do, com., \$5 to \$6.50; butcher cows, choice, \$5 to \$6; do, med., \$4 to \$5; canners and cutters, \$1.50 to \$2; butcher bulls, good, \$5 to \$6.50; do, com., \$3 to \$4; feeding steers, good, \$7 to \$8.25; do, fair, \$5 to \$6.75; stockers, good, \$5.50 to \$6; do, fair, \$5 to \$5.50; milkers, springers, each, \$80 to \$110; calves, choice, \$10.50 to \$12; do, med., \$8.50 to \$10.50; do, com., \$5 to \$7; lambs, spring, \$18 to \$20; sheep, choice, light, \$6 to \$6.50; do, choice, heavy, \$4 to \$4.50; do, culls and bucks, \$2.75 to \$3.50; hogs, fed and watered, \$8.85; do, f.o.b., \$8.25; do, country points, \$7.85.

### MONTREAL.

Oats, Can. West, No. 2, 61 to 61 1/2c; Can. West, No. 3, 57 1/2c; 58c; extra No. 1 feed, 57 to 57 1/2c; No. 2 local white, 54 1/2 to 55c. Flour, Man. spring wheat, 1st, 2nd, 3rd, 2nd, \$6.40; strong bakers', \$6.20; winter, 1st, 2nd, 3rd, \$6.15. Rolled oats, bag 90 lbs., \$3.05 to \$3.15. Bran, 2nd, shorts, \$29. Middlings, \$34. Hay, No. 2, per ton, car lots, \$15 to \$17. Cheese, finest easterns, 16c. Butter, choicest creamery, 33 1/2 to 33 3/4c. Eggs, selected, 33c. Potatoes, per bag, car lots, \$1.40.

Extra No. 1 feed, quality, \$4 to \$5; com. bulls, \$3 to \$4; calves, med. quality suckers, \$3 to \$3.75; do, com., \$5; do, better finished, heavier, \$7; sheep, good lots, \$5.50 to \$6.75; spring lambs, \$13.50 per cwt; choice lambs, averaging 60 lbs. in weight, 18c per lb. Hogs, mixed lots, good quality, \$10; coarse and rougher hogs, \$9.50.

### Six in One Family Average 100 Years Each

Souris, P.E.I., June 11.—The death here of Patrick Macdonald at the age of 100 years, reveals a remarkable record for longevity among members of his family. His mother, Mrs. Angus Macdonald, died in Souris in 1885, aged 104; his sister, Mrs. Hugh Macdonald, in Souris, in 1916, aged 104; his sister, Mrs. MacKillop, in Beverly, Mass., in 1918, aged 102; his brother, Stephen A. Macdonald, in Souris, in 1921, aged 87; his sister, Mrs. Deagle, in Souris, in 1922, aged 103. The total ages of the six is 600 years, or an average of 100 years each.

### Presbyterian Assembly Adopt Church Union Motion

Port Arthur, June 11.—Two votes were taken in the General Assembly to-night on the question of Church Union, and the difference in the results was not as great as was expected. On both votes the Assembly divided on the straight issue of union. The first vote was taken on the question of an amendment proposed by Rev. Dr. Drummond, of Hamilton, which was defeated by 416 to 137. The second vote on the main motion to adopt the report of the Union Committee was carried by a vote of 428 to 129.

## PRINCESS MAUD TO WED BRITISH SUBJECT

### Another Member of Royal House Prefers One of Own Nation.

London, June 10.—The betrothal of the Princess Maud to Lord Carnegie was officially announced to-night. The Princess Maud is the second daughter of the Princess Royal, Lord Carnegie is eldest son of the Earl of Southesk. The Princess Royal, who was the eldest sister of King George V., died in 1922. She was the widow of the Duke of Fife. The present Duchess of Fife is H.R.H. Princess Arthur of Connaught, sister of Princess Maud, who, it is officially announced, will marry the eldest son of the Earl of Southesk.

## Caterpillar Plague Reported in Saskatchewan

Regina, June 11.—A plague of caterpillars is reported from the Maclean and Qu'Appelle districts. Millions of the insects are eating the leaves off the trees and crawling into the houses, according to reports reaching the Provincial Agriculture Department. While the outbreak seems to be most serious at Maclean and Qu'Appelle, the caterpillars are reported at a number of other points.

PRINCESS CHRISTIAN

London, June 10.—Princess Christian, aunt of King George, died Saturday morning. The Princess Christian, more generally known as Princess Christian, from the name of her husband, was born May 25, 1846. She was the third daughter of Queen Victoria, a sister of the late King Edward VII, and an aunt of the present British Sovereign. She was married on July 5, 1866, to Prince Frederick Christian of Schleswig-Holstein, who died in London on October 28, 1917. She separated from her husband during the war because of his pro-German sentiments. There survive one son, Prince Albert John, Duke of Schleswig-Holstein, who served in the Prussian army during the war, and two daughters, Princess Helena Victoria and Princess Marie Louise.

## GOLD FIELDS OF ROUYN TP., QUEBEC, GIVE PROMISE OF RICH HARVEST

### Noted Mining Companies Acquire Large Holdings in New District—Geological Structure of District Resembles That of Kirkland Lake Fields.

A despatch from Rouyn Lake, Que., says:—Careful examination of leading discoveries in Rouyn township confirms the intermittent reports from surface outcroppings do not contain spectacular showings of native gold. This absence of the glitter of gold may account for the quiet that has marked progress in the field. Nevertheless, in this very quiet there lies a depth of seriousness that should augur well for the future of Rouyn. It is to large veins and to assay sheets that modern miners look, and it is a feature of this day and age that mining gold is not associated with the flashing of rich specimens, but, rather, with the measurement of tonnage and the determination of the average gold content in the zones of segregation. More work has been done on the Powell claims than at any other point in the new district. The Noranda Mines Co. not only holds the Powell under option, but also holds a number of adjoining claims, among them being the A. H. Cochran, J. H. S. Waite, W. A. Chadbourne and others, making up a total of nearly 2,000 acres. What is known as the Powell vein has been traced for close to 12,000 feet, with considerable trenching and exploration work along nearly one mile of its length. The average width of the deposit, as so far determined, is from eight to nine feet, sometimes attaining a width of twelve feet or more. The vein is a true fissure, running east of south and cutting the porphyry and greenstone formations at right angles. No one on the property has authority to announce the average gold content of the ore in the Powell vein, but the information generally accepted

## CHIEF ISSUE AT NEXT IMPERIAL PARLEY

### Far East Likely to be Most Important Topic at Coming Conference.

A despatch from London says:—The relation of the British Empire to Japanese aspirations in the Far East promises to become the most important question for the forthcoming Imperial conference, as it was at the Primo Ministers' conference here in 1921. Two months ago Canada's independent signature of the Halibut Fisheries Treaty was agitating all the constitutionalists, and the prediction was made that it would prove the most contentious subject for the September discussions. It has since receded into the background, as such enlargements in the practice of Dominion autonomy have a way of doing, and promises to be superseded in importance by the less academic issue of the Empire's relations toward its neighbors.

The decision of the Admiralty to transform Singapore Harbor into a great naval base is concentrating attention on the Pacific, which means on Japan. China's release into anarchy and the reoccupation of Vladivostok by the Bolshevik Government are minor questions. Mr. McElghen's voice in the 1921 conference was raised in favor of the abrogation of the Anglo-Japanese treaty. Canada in this matter furthered the cause of Anglo-American unity. Her own relations with Japan since the emigration question was satisfactorily adjusted have been happy, and though she is a Pacific power, element of future discord with the Empire of the rising sun are not intrinsic in her position. Australia's feeling towards Japan conflicts more acutely with the view of the Mother Country in proportion that her empty acres are nearer an armed yellow race seeking expansion. The fortification of Singapore is in a sense a concession to her apprehensions. Singapore is a naval port.

Sir Wm. Robinson raises the military question by his proposal that the Committee of Imperial Defence should become a permanent Council of Imperial Defence upon which the Dominions should be represented.

## JUNKER AIRPLANE TO TRAVEL OVER ICE

### Amundsen Relief Expedition Sails for Spitzbergen to Aid Explorer at North Pole.

A despatch from Hamburg says:—The Roald Amundsen airplane relief expedition to Spitzbergen, under the direction of Consul Hammer, has sailed from Hamburg to Bergen. There it takes ship directly to the ice fields of North Spitzbergen, where the Norwegian Government expedition has already reached. Consul Hammer has one Junker airplane, fitted for travel over the ice, equipped with wireless and a wireless telephone and with tanks of a sufficient capacity to reach the North Pole and return to Spitzbergen. The Norwegian planes and hydroplane can fly only to the edge of the ice, while the Junker can penetrate the Polar region and guide Amundsen.

The Junker is named the Roald Amundsen. The pilot is Wilhelm Loewe, a skilled flier. The expedition has been slightly delayed, but is in time to reach the edge of the ice and to fly to the North by June 21. Pilot Loewe will carry huge sheets of black and yellow gauze, which he will drop and indicate the course for Amundsen from the pole to Spitzbergen. This is considered essential to make safe the end of Amundsen's flight, as a compass is useless, according to German meteorologists. Loewe's plan amounts to a flight to the Pole himself. Hammer believes there is no question that Amundsen will leave Point Barrow on June 21 and will cross the Pole within twenty-four hours, if at all.

## Women Preachers in United States Now Total 178

A despatch from Chicago says:—There are 178 women preachers of various denominations in the United States, all of whom are members of the International Association of Women Preachers, according to the list of members recently made public here. Illinois leads in the number of women preachers with 38, 17 of them being in the city of Chicago. Kansas ranks second with 30 women ministers. Nebraska is third in numbers with 18.

## Must Obey Our Law or Leave Canada

A despatch from Vernon, B.C., says:—"You and your countrymen must obey our laws or leave the country, whichever suits you best, and your children must go to school," declared Mr. Justice Murphy here on Friday in sentencing Sam Cherepanoff, a 19-year-old, to three years in the penitentiary for attempting to burn a schoolhouse near Grand Forks, B.C., in March last.

## X-Ray Movies Attain Higher Perfection.

According to competent medical authority, new developments in X-ray movies have been achieved by the use of a new method of sensitizing the photographic plate so as to record new lengths never before photographed.

### LONG STRIP FOR A LONG TRIP

TWO small travellers at Liverpool examine the six-foot Canadian Pacific Railway tickets which will cover their 6,000 mile tour through Canada and the United States. The tickets, which cost \$40.18 each, have 50 different tourist centres of the North American continent.

### When and Where You Want It

On any farm of average size at least one hour a day—36½ ten hour working days a year—36½ days which one of my Toronto Windmills will give you for profitable work, rest or recreation—besides supplying running water wherever you want it. The one bothersome task, that of oiling the windmill in all kinds of weather, is overcome in the Toronto Self-Oiler, which requires fresh oil only "once a year." Friction and wear are practically abolished. Toronto windmills, too, can be made absolutely self-regulating in operation. The "Toronto" Tower will stand for a lifetime because it is the heaviest, strongest and best-braced one built for any windmill. Let me explain why I believe this is one of the biggest conveniences you can have.

GLENCOE ONTARIO

### CANADIAN MEMORIAL.

#### Great Monument Will Stand on Vimy Ridge.

Canada's great monument on the summit of Vimy Ridge will commemorate not only her army's great victory of April, 1917, but also the valor and sacrifice of her missing soldiers. The names of 19,000 missing Canadian officers and men will be inscribed on the memorial. The erection of the memorial will be commenced next spring, says Brig. Gen. H. G. Hughes, C.B., C.M.G., D.S.O., engineer of the battlefields memorial committee, who spent a few days in Ottawa on his way from Europe to Victoria, B.C., where he will spend some time with his family. The construction of the memorial and the laying out of the park on the 250 acres of land on Vimy Ridge granted by France to Canada will occupy five years, and will cost half a million dollars. The whole Gen. Hughes states, will be the most striking war memorial of its kind in the world. Gen. Hughes accompanied Hon. Adolphe Lemieux, Speaker of the House of Commons, and a member of the battlefields memorial committee, in his recent tour of the sites for the monument to be erected by Canada. Gen. Hughes gives great credit to Mr. Lemieux for the part he played in securing from the French Government the tract of land on Vimy Ridge, which is forever sacred to Canada. The Speaker of the Commons, Gen. Hughes says, by his tact and diplomacy and his knowledge of the French language, was able to conduct negotiations with the French Government, to smooth away difficulties which might have arisen and to secure a grant in perpetuity of the land directly from the President of France.

Mr. Lemieux, with Gen. Hughes, too, selected the site for the memorial on the elevation known to those who served in the Vimy Ridge sector as Hill 145. The Speaker of the House of Commons also inspected the work on the figures for the memorial, which Mr. Alward, the sculptor, whose design is to be followed, is doing in London, England. The Canadian memorial at St. Julien is nearing completion and will be unveiled on July 1 next. On the site of the memorial a Peace Garden, Canadian maples have been planted and are growing. Of the Canadian army of France and Flanders, Gen. Hughes is the living memory to inhabit the historic neighborhood of the Ypres salient. He has resided, as engineer of the battlefields memorial committee, at Poperinghe, through which Canadian and British troops moved in thousands during the war. In the Ypres salient, he says 100,000 British missing soldiers lie and are uncovered in the work of reconstruction at the rate of two or more a day. With them in some sections of the front lie their German opponents, the remains of three of whom, lacking means of identification, were dug up together a short time ago. Ypres itself, Gen. Hughes says, is being rapidly rebuilt. Gen. Hughes lodges at "Skidles," familiar of yore to British and Canadian troops. There he was on Armistice Day, November 11, and thence he walked alone from Poperinghe to Ypres and back along the unlighted road, peopled only by the spirits of the armed thousands who trod it in the years of the war.

#### Hats In "the House."

There was a time when every M.P. wore a "topper" in the House of Commons in England. It was considered the correct thing to do.

Incidentally, too, the tail hat was used to retain a seat; but now it is the fashion to go bare-headed, even in the lobby and corridors, and in consequence a different system has been devised.

This consists of the issue to each member present at the brief religious ceremony which precedes the day's business of a small card, with the word "Prayers" printed on it.

Initiating this, and placing it in the little brass frame on the back of the seat he wishes to reserve, it becomes his for the remainder of the sitting; he may even walk out of the House, but no other member can appropriate it.

Of course, there is nothing to prevent a member wearing a hat—even a silk hat—in the House if he wishes to do so.

When making a speech, however, he must do so with his head uncovered. In this case he usually places his hat on a stand behind him, and should he chance to sit down upon it out of sheer forgetfulness, he gets scant sympathy from his fellow-members.

Finally, it may be mentioned that the Speaker never wears his hat—a huge three-cornered black beaver—using it only as a pointer to single out recalcitrant members, or for the purpose of "counting out" the House.

#### Danes Come to Canada.

On account of the great unemployment in Denmark two hundred families, all farmers, of the northern part of Jutland, intend to emigrate to Canada. It is stated that the Canadian Government has promised to place land and facilities for farming at their disposal. Representatives of the emigrants have asked the Danish Government for financial help to make the voyage to the Dominion, but they have not yet had an answer to their request.

#### Turkeys From Hungary.

For the first time, as a result of the initiative and activities of certain Canadian export agents in London, Hungarian turkeys are being introduced to the Canadian public this winter. One hundred thousand pounds of them arrived at Montreal shortly before Christmas, from which point offerings were made to the wholesale trade throughout Ontario. Last year Hungarian turkeys, in comparatively small quantities, found a ready market in the United States.

Fifty pounds of ivory is the average yield of one elephant.

### CARE FOR THE BINDER

#### Proper Attention Is Both Necessary and Profitable.

See That the Reel Is Properly Adjusted—Study the Length of the Grain—Keep a Watch on the Knotter—Don't Forget the Oiling

(Contributed by Ontario Department of Agriculture, Toronto.)

The grain binder or modern harvester is a complicated machine with many moving parts, requiring careful adjustment and constant care if it is to give the best service and last. Perfect sheaf or bundle making begins with the delivery of the standing grain to the knife and platform. In this the reel plays an important part; if properly adjusted for height and distance forward, the grain will fall evenly and will be carried in like condition to the packers and binding attachment. With the reel improperly adjusted, the grain may fall forward or it may be scattered on the platform. Once scattered, it is impossible for the conveyors or packers to straighten it out, to the degree necessary for perfect sheaves. Careful watch should, therefore, be kept on the reel and adjustment made while the machine is in motion to meet the conditions caused by lack of uniformity in the crop. The grain passing from the conveyors or elevator is next adjusted by the butting attachment and the packers.

Meeting the Needs of Long or Short Grain.

The binder table or the butting attachment can be shifted to meet the needs of long or short grain, and the binder operator must be alive to the making of the necessary adjustments or the bundles will not be of a desirable shape and tightness. The binding attachment with its twine ran needle and knotter will give highly efficient service if given reasonable attention by way of oiling and proper adjustment. The binding attachment parts rust very easily during periods of idleness, so liberal applications of a heavy mineral oil or grease to all parts not protected by paint will save the machine, will save time, labor, and temper. Rust can be removed by sandpaper, but harvesting machines were never intended for such treatment. The wooden slats that form an important part of the canvas conveyors will sometimes tear loose. This is caused by the frame and rollers not being in proper alignment or square. This difficulty is overcome by adjusting the cross braces of the frame until it is square and the rollers in alignment.

The Transmission of Power.

The power for operating the various parts of the grain binder is transmitted by chain and sprocket, the various units being provided with tighteners. If the various chains are not run at proper tension, trouble will follow. If too tight the links will break, or the draft will be heavy. If too loose the machine will be driven with a jerky motion. If the chains are just slack enough so such can not be taken off the band when the machine is not running, they will usually be satisfactory when in motion. Chain links and sprockets should be well oiled at all points of contact. Missing sheaves or failure to tie the bundle is a common trouble, usually due to the operator's failure to make the adjustments necessary to give full efficiency to the tying mechanism. If the needle fails to carry the twine far enough over that it may be grasped by the twine disc, a knot will not be tied, since but one end is held. This condition is generally easily recognized by the twine being knotted in a loop at one end, the other end being free. When the twine disc is held too tight by the clamp and spring, it will in turn hold the twine so tight as to pinch it off and cause a failure to tie. This condition is generally indicated by one end of the band being frayed. The loosening of the spring that holds the twine disc will remedy this fault. If the twine disc is loosened too much, the knot can not be tied; this condition is generally indicated by both ends of the twine band being frayed.

Keep a Careful Eye on the Knotter.

Another cause of failure to tie is often found in the knotter spring which holds the finger down upon the knotter hook being so loose as not to hold the ends of the twine while the knot is pulled over the billhook, resulting in a band with clean cut ends but no knot, the adjustment through wear or lack of adjustment through shaking loose of the bolt, holding the twine cutting knife, causing the severing of the twine before the knotter finger or billhook has closed over it. A bent rusty needle or shaft, or needle, billhook, twine disc or twine runs will cause no end of trouble early in the harvest through loose, untied or missed sheaves.

Pay Attention to Oiling.

Oiling the grain binder takes considerable time with fifty or more oil holes to keep clear and supplied with oil. There are bearing surfaces other than oil holes that must receive attention also, such as the reel standards, various chains and sprockets, sliding parts of the binding attachment and the bundle carrier. All bearings subject to heavy friction and speed should be oiled every hour if the binder is to last as long as a binder should. Every bearing should receive lubrication at least twice a day no matter how little work the bearing does. The main drive bearings, the pitman, and the sheaf binding attachment require the closest attention.—L. Stevenson, Sec., Dept. of Agriculture.

The fellow who can do the most for you is the fellow you see when you are in a bind.

Most failures with live stock can be attributed to lack of a definite aim in breeding.

### NORTH NEWBURY

John Clare and family motored from Lobo and spent Sunday with his sister, Mrs. McMaster. Eugene Crotte returned to Gushon on Sunday after spending his vacation with his parents here, and has since been transferred to the Bank of Montreal staff at Hamilton.

George McLean, of Cairo, was a caller here on Monday.

The big circus in London on the 7th drew quite a number from this vicinity.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

Extra copies of the Transcript may be had at the office ready wrapped for mailing to friends at a distance.

### BIBLE THOUGHT —FOR TODAY—

Bible Thoughts memorized, will prove a precious heritage in after years.

THE LOVE THAT SAVES:—For God so loved the world that he gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life.—John 3: 16.

Born  
McALPINE.—At Campbellton, on Tuesday, May 29, 1923, to Mr. and Mrs. M. A. McAlpine, a son.

SCARBOROUGH.—At Riderton, on Sunday, June 3, 1923, to Mr. and Mrs. Scarborough (nee Nellie Jackson, of Wardsville), a son.

In Memoriam  
McDONALD.—In sad but loving memory of our darling Alvin, who was drowned on the 12th of June, 1921:

This day brings back sad memories of a loved one gone to rest. We are the ones who loved him best.—Mother, Father, Brothers, Sisters.

### TOWN AND VICINITY

W. Earl McDonald has passed with honours his second year in arts at Toronto University.

Rev. D. G. Paton conducted the services in First Presbyterian church, Walkerville, last Sunday. A drive through the country at this season of the year should make any one an optimist. Crop prospects are fine.

Mrs. Morrison, wife of Police Magistrate Morrison, was taken seriously ill on Sunday night and is still under the doctor's care.

At a court of revision held at Napier on Saturday, June 9, by Judge Judd, some twenty-seven names were added to the voters' list in Metcalfe.

The midsummer promotion examinations in the public schools of West Middlesex will be held on Wednesday and Thursday, June 27 and 28.

The Presbyterian of London meets at Melbourne tomorrow for the induction of Rev. G. W. Oliver into the pastoral charge there and at Riverside.

Alexander Bruce Ross died at Merivale, Sask., May 17th. He is survived by his widow (Christina Murphy) and two sons, Ira, of Alaska, and William, at home.

James Brown, of Wardsville, has bought the farm of the late Robert Webster, known as the Fleming farm, three miles west of Wardsville, and will move shortly to make his home there.

At the coming election, deputy returning officers will receive \$10 for their day's service, poll clerks \$6 and constables \$4. This is an increase over the last election, when the compensation was:—Deputy returning officers \$7, poll clerks \$5 and constables \$3.

Anniversary services were held at Springfield Methodist church on Sunday afternoon and evening, conducted by Rev. A. S. Whitehall, of Glencoe. Special music was given on the occasion by the Glencoe Methodist choir, and included several anthems, besides numbers by the ladies' quartette and the male quartette.

The Alvinston Book Club was entertained by the Glencoe Book Club at a regular meeting of the latter held at the home of Mrs. Rose Stuart on Monday afternoon. After a few words of welcome to the visitors, spoken by Mrs. McArthur, an exceptionally attractive program was rendered, consisting of vocal solos by Miss Brownlee, of Alvinston, and Miss Elma King; piano solo by Miss King; violin solo by Miss Eleanor Sutherland; duet, violin and cello, by Misses Helen and Virgie Clarke; readings by Mrs. Luckham and Mrs. J. N. Currie; selections by the ladies' quartette; Mrs. Mumford, Miss King, Mrs. Currie and Mrs. Sutherland; and a musical guessing contest. Afterwards lunch was served by Mrs. Stuart.

### LUXURIES NOW NECESSITIES

There must be a lot of money in this community, for we get the money to spend for luxuries. We buy autos and keep them running constantly, we spend much for dancing and pictures, we eat cabbage, carrots, new potatoes and strawberries from the south, our girls wear silk stockings and our boys smoke cigarettes. All these things are luxuries that have become necessities within the past 25 years. And we afford them. There must be a lot of money here. The deposits in our banks are larger than ever before except during the war years. Instead of grumbling about hard times we should be raising our voices in a continuous thanksgiving for our great prosperity.

### PERSONAL AND SOCIAL

—Miss Fern Graham is home from Clinton for the holidays.

—Miss Florence Hurley was home from London for the week-end.

—Mrs. Moore, of London, is the guest of Mr. and Mrs. H. I. Johnston.

—Mrs. L. W. M. Freese will be at home the fourth Friday of each month.

—Miss Margaret Eddie, of Woodstock, spent the week-end at her home here.

—Miss Annie Patterson, of Alvinston, is the guest of Mr. and Mrs. John Hayter.

—Mrs. P. D. White, of Detroit, visited the Misses Blackburn over the week-end.

—Don H. Love is visiting his parents and other relatives in Brockville and vicinity.

—Mrs. W. W. Gordon, of Port Huron, is visiting at the home of Mr. and Mrs. D. H. McRae.

—Miss Phemia Campbell, of Mosca, is visiting her sister, Mrs. Angus McGowan, Vancouver, B. C.

—Mrs. Cornell and daughter Marion, of Athens, are visiting the former's son, Hubert Cornell, of Scarborough (nee Nellie Jackson, of Wardsville), a son.

—Miss Margaret Strachan, of Guelph, is visiting her cousins, John Thomas and Andrew Strachan.

—Gilbert McAlpine and Mr. Pincen motored from Woodstock and spent Sunday at the former's home here.

—Mrs. G. H. Singleton and daughter Helen, of Ailsa Craig, are visiting the former's father, J. A. McLachlan.

—Mrs. Clark, Miss Anna Clarke and Mrs. Ballantyne and son, of Toronto, are visiting at the home of Mr. and Mrs. B. F. Clarke.

—Mrs. Stuart J. Schofield, accompanied by her little daughter, Mary Lorne, of Vancouver, is visiting her mother, Mrs. Wm. Tait.

—Mr. and Mrs. George Adams and children, of Harbor Springs, Mich., and Mrs. Sarah Adams, of Leamington, were visitors at Isaac Walker's this week.

—Mrs. Wm. Thomas, Mr. and Mrs. John Cook and Mr. and Mrs. William Cook and son Glen, of Detroit, are visiting at the home of Mr. and Mrs. J. W. Smith.

—Mr. and Mrs. W. G. McGuire, Mrs. Ella McKenzie and Miss Sainsbury motored from Chatham and spent Sunday with Mrs. King and daughter Elma.

—Mr. and Mrs. A. E. Sutherland are leaving this morning on an extended tour of the Maritime Provinces with the members of the Canadian Weekly Newspapers Association.

A special train is being made up at Toronto to accommodate the party, which will embrace upwards of two hundred newspaper editors and their wives from all parts of the Dominion. During the trip the annual convention of the association will be held at Halifax.

### SPECIAL NOTICES

23c trade and 21c cash for eggs, at Mayhew's.

Wedding cake boxes at The Transcript office.

Strawberries for sale. Apply to David Squire, Main street; phone 14 R 11.

Chopping Tuesday, Thursday and Saturday, June 10th.—R. E. Laughton, Glencoe.

Call at Scott's shoe store and get quality shoes and rubbers at a moderate price for cash.

A good program and strawberries and ice cream at this social at Appleton June 28th—all for 25c.

Bargains from \$1.95 up are still obtainable in ladies' and misses' millinery at Hill's Cash Store.

Plants for sale—tomatoes, early and late cabbage, cauliflower, asters and salvia.—W. R. Sutherland; phone 81.

Upholstering, fine cabinet work, carpenter work, furniture finishing.—J. D. Brown, first door north of Transcript office; phone 68.

Why worry yourself with a basket? Tea and lunch can be secured from the Burns' church W.M.S. booth at the U.F.O. picnic in McAlpine's grove on June 20.

A charge of 75 cents a tank is made for water at the municipal power plant. Parties taking water are to pay for each tankful as taken at Mr. Diamond's residence, or 'leave notice there to whom it is to be charged.

### AUCTION SALES

On lot 18, first range north of the Longwoods Road, Mosca, Thursday, June 21, at 1 o'clock:—1 cow; household goods and tools. The property of the late Mrs. Mary Harris. Read posters.

### WOODGREEN

Mr. and Mrs. Thos. Simpson have returned home after visiting at Florence.

Leigh Burgess, of Euphemie, spent Sunday at John Elson's.

Myers Elliott, of Florence, spent the week-end at Thos. Simpson's. Mr. and Mrs. Fred Underhill, of Bothwell, visited at George Scrimshaw's on Sunday.

Miss Iva Squire is visiting at her home here.

Mr. and Mrs. John Elson visited Euphemie friends on Sunday.

Wm. Ellwood, of Wardsville, took charge of the Sunday School on Sunday.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that besides being an effective vermifuge, they are tonic and health-giving in their effects.

### A MINNEAPOLIS WEDDING

Parents of Happy Young Bride Formerly of Glencoe

The Minneapolis Journal of June 4th has the following which will be read with interest by the many relatives and friends of the bride's parents in Glencoe and vicinity:—

Sentiment had guided Miss Adair Douglas McRae, daughter of Mr. and Mrs. A. A. McRae, in the choice of the day of her marriage to Alan Ellsworth Roberts, son of Mr. and Mrs. Charles Roberts, of Duluth, which took place yesterday afternoon at 5.30 o'clock in Park Avenue Congregational church. June 3 was the wedding date of Miss McRae's parents, and yesterday was the 25th anniversary of their marriage. Miss McRae's grandmother, as well as other members in her family, including a great-grandmother, had been married on June 3. An uncle and aunt of the bride, Mr. and Mrs. L. K. McConnell, celebrated their 20th wedding anniversary yesterday, and another uncle and aunt, Mr. and Mrs. John A. McRae, of Detroit, Mich., celebrated their 18th wedding anniversary yesterday. The church was decorated with cythium ferns, baskets of bridal wreath and white lilies and candles. One thousand invitations had been issued.

Eugen Skander and Dr. Paul Glessner, organists, played a program of nuptial music before the ceremony. The vested choir of 50 voices under the direction of Sydney H. Morse sang "Light of Light," Junie, "The Heavens Are Telling," from Haydn's "Creation," and the "Alleluia" chorus, from "The Messiah," before the ceremony. Miss Mabel Hill accompanied them on the organ. As the bridal party entered, the choir sang the bridal chorus from Lohengrin. After the first prayer the choir chanted the "Holy, Holy, Holy" response, and after the second prayer the bride's 50 Alpha Gamma Delta sorority sisters, who were seated in a group, sang the traditional bride's blessing of the chapter. After the benediction the choir sang "The Seven Fold Amen." Dr. Glessner played during the ceremony and Mr. Skander played Mendelssohn's wedding march as the recessional.

The bridal party came down the two aisles, walking singly. The bridesmaids were escorted by John Thomas McRae, the bride's brother, also from Duluth; Harold Ickler and Dr. Raymond Johnson, from St. Paul; two Kappa Sigma fraternity brothers, Mr. Roberts; Robert Wayne Persons, Randolph V. Nottelmann and Alfred Patterson Ramsey; Allister Ross McRae, brother of the bride, and John Kirkwood McConnell, of Minneapolis.

The bridesmaids walked singly four in each aisle in the following order: Mrs. Allister Ross McRae and Miss Schuler, of Lockport, N. Y.; Miss Adair Black, of New York; Miss Mary Simpson, of Lethbridge, Alberta; and Miss Florence Davidson, of Duluth. Miss Mo and Mrs. Ferdinand Peik. Their gowns were fashioned of shot taffeta with tight sleeveless bodices and bouffant skirts with uneven hemline. French flowers in pastel shades, the color note of light and lavender outlined the sleeve eye. The bodices were girdled in velvet ribbon and flowers. Their collars, made of lace, matched the old-fashioned colonial style of costume. Bandoes of silver ribbon and rhinestones gave the finishing touch to the becoming style. Large leopards hats served as holders for their bouquets of sweet peas, roses, lilies of the valley, larkspur and gladioli. They wore white lace mitts.

Mrs. McRae and Miss Stewart wore gowns of pink. The color note of ivory showed in the gowns of Miss Schuler and Miss Black. Miss Simpson and Miss Davidson wore gowns of lavender. Miss Mo and Mrs. Ferdinand Peik wore gowns of Lanvin green.

The maid of honor, Miss Mary Roberts, of Omaha, formerly of Minneapolis, wore a gown of peach colored and silver taffeta, with a flower girdle of lavender and peach pink taffeta. Valenciennes lace outlined the bodice neck and formed tiny sleeves. A panel of lace finished the front of the skirt. Lavender sweet peas, lilies of the valley, butterfly and Cecil Brunner roses were the flowers which she carried in a white leopards hat. Like the other bridal attendants she wore white lace mitts.

Kathryn Sybil Carlton and Jacqueline Lynette Carlton, daughters of Mr. and Mrs. J. L. Carlton, the junior bridesmaids, wore hoopskirt dresses of blue and silver shot taffeta, with pantalettes of Valenciennes lace. Silver ribbons held their hair, made in long curls. They carried old-fashioned colonial bouquets.

Miss McRae, who entered with her father, was gowning in a Millgrim model of silver silk lace net, embroidered in pearls and rhinestones over a foundation of silver cloth. A bow of silver cloth that held the drape at one side extended into a train. Her veil, bordered in Valenciennes lace, hung in court train length from a coronet of Point Michelangelo lace, the lace being a gift from the women of the First Congregational church. Miss McRae has been soloist in the church for six years. Her flowers were a shower of bride's lilies, the bride's bouquet. The rosepetal lace handkerchief which she carried also was a gift from the women of the First Congregational church. H. Seward Kempton, of Duluth, was the best man. Rev. W. E. Dudley read the service.

Four hundred guests had been invited to the reception at the home of Mr. and Mrs. McRae from 11 to 6. Mr. and Mrs. McRae and Mr. and Mrs. Roberts received with the bride couple. Mrs. McRae wore a Millgrim model beaded gown of white crepe

Romaine, trimmed with Valenciennes lace, and her flowers were a shower bouquet of Ophelia roses and lilies of the valley. Mrs. Roberts' gown was of cocoa colored crepe Romaine and she wore a corsage bouquet of Cecil Brunner roses and lilies of the valley. White roses, lilies, bridal wreath, cythium ferns and huckleberry greens were used throughout the rooms, and in the dining-room showers of white roses, lilies of the valley and bridal wreath centered the table.

Mrs. E. A. Tupper and Miss Emily Tupper presided in the dining-room, and assisting through the rooms were Misses J. N. Jacobsen, L. K. McConnell, H. L. Robinson, E. L. Robinson, Wm. E. Dudley, Steven R. Kirby, E. B. Nichols, W. H. Springer, Theodore Wold, Philip Webster, C. S. Yarnell, C. L. Wanamaker, A. P. Ramsey, Joseph Ganello, Miss Josephine Ball, Miss Bess Plummer and the girl party.

Mr. and Mrs. Roberts left last night on a two weeks' camping trip in the northern woods. They will be at Duluth after July 1. For travel, Mrs. Roberts is wearing a beige colored poiret twill suit with a hat to match, and a kitten beaver fur, a gift from the bridegroom's father. Her wrap is of heavy brown embroidered bolivia cloth.

Out of town guests at the wedding were Mr. and Mrs. Charles Roberts, Henry and Charles Roberts, of Duluth; Mr. and Mrs. George Roberts, of Hamilton, Ont.; Mr. and Mrs. Steven R. Kirby, Donald Kirby and Mr. and Mrs. James McLean, of Duluth; Mr. J. J. Kennedy and Mrs. Miss Grace Kennedy, of New Haven Conn.

### SHE SUFFERED FOR EIGHT LONG YEARS

Mrs. Harper's Stomach, Kidneys and Liver Were in Terrible Shape Until Her Husband Discovered Drecto—This Great Herbal Remedy Speedily Restored Her Organs to Their Normal Functions.

Mr. William Harper, of 152 Giles Street, London, Ont., had worried for years over the distressing physical condition of his wife. She had been known a real day for eight long years, and while she persevered with her household duties, it was under a handicap of acute suffering, caused, as is the case with so many men and women, by a faulty renal system. How speedily she responded to the remarkable corrective properties of Drecto had best be told by Mr. Harper himself:

"For the past eight years," says Mr. Harper, "my wife has been a sufferer from stomach trouble. Terrible bloating after meals and gas pressure against the heart caused great pain. Even a drink of cold water would sour and form gas. She was constipated all the time. In fact, never missed a day when she didn't have to take a laxative. Her kidneys were in bad condition and caused severe headaches. Dizzy spells, spots floating before her eyes, and nervousness, all told of a sluggish liver.

"It seemed the first few doses of Drecto gave her relief, and I cannot praise it enough for the good it has done her. She is now practically rid of all her troubles, and is able to eat her meals with great content and no bad after effect, and she now wakes up in the morning feeling fine and refreshed."

Drecto is a never-failing source of relief to those suffering from inter-aliments. Its natural tonic and regulating action on stomach, liver, kidneys and bowels quickly restores them to their normal functions and replaces misery with glowing health and strength. Drecto is made only from herbs, roots, bark and leaves, and contains no mercury, potash or habit forming drugs.

Drecto is being specially introduced in Glencoe by P. E. Lumley and is sold by a good druggist everywhere. Renew your daily newspaper subscriptions at The Transcript office.

HIGHEST CASH PRICES FOR HIDES AND WOOL

STUDEBAKER LIGHT-SIX TOURING CAR \$1375

### A Six—and a Studebaker—for \$1375

The advantages of six-cylinder performance and Studebaker quality are combined in the Studebaker Light-Six—at a price of \$1375. You can throttle down to a snail's pace in high—then quickly and smoothly accelerate to a racing speed. Vibration is practically eliminated at any speed—due to the perfect engine balance secured through machining the Light-Six crankshaft and connecting rods on all surfaces. No other car in Canada selling for less than \$3500 follows this practice.

The operating cost of the Light-Six, like the initial cost, is low. Proof of its low fuel consumption has been established through 27 world-wide tests, which set an average of 26.9 miles to the gallon. Minimum repair cost is proved by Studebaker's limited volume of repair parts sales, which in 1922 averaged only \$15 per car in operation.

Thousands of owners vouch for the Light-Six, while Studebaker's 71-year-old reputation is a further assurance of quality. Your purchase of a Studebaker Light-Six will be a safe and satisfactory investment.

## SPEEDING UP THE PIGS.

What factors make up the economic essence of the pig? Feed, man and horse labor, risk, interest, depreciation in capital and equipment, and general overhead cost all excepting the profit, which is elusive and oftentimes ephemeral. The time consideration may very well affect all of these items favorably to the grower, the shorter the time involved in taking the porkers from farrowing to market the less the expense.

Pushing on suitable feeds, though highly necessary, is not the only essential however. Good management must be practiced, and sanitation diligently and persistently exercised.

Delousing is good business procedure if lice are present. Crude oil kills the skin but deadens the parasites. It is applied easily by herding the hogs into a corner, oil-sprinkling them thoroughly and rubbing it in with a good broom. In badly infested herds the ears should be oiled to root the lice from one of their favorite dens. The leg pits and the tail ends are favorite hiding places too.

Try and get the litters out on clean pastures, preferably those that have not carried hogs heretofore. Emphasize the good pastures: Alfalfa, red and other clovers, rape, the blue grass, especially when it is young and tender, and other green pastures. But pasture alone is not sufficient. Neither is pasture supplemented with a quarter of a full grain ration enough to make the pigs go well. Even good pastures on which basal grains are liberally fed—grains such as corn, barley, milo maize and others—give much better results when there is added a little

skim or buttermilk, meat-meal tankage, fish meal or a combination of any one of these with linseed-oil meal, corn-oil-cake meal, soy-bean meal, ground soy beans, or wheat middlings. To make rapid gains on pastures, even the good ones, supplements are in order. Even on good alfalfa pasture the addition of a little tankage proves a fine pep producer.

To make sure that the hogs are properly supplied with minerals a suitable mixture should be at all times. Even on such a good pasture, minerals have given good results when added to a ration of corn, self-feed, plus a supplemental mixture of forty parts of blood meal, thirty parts of linseed meal and ten parts of peanut meal. The gains were somewhat more rapid, and the feed requirement less.

The mixture making the best showing was equal parts of limestone, bone meal and salt. We now suggest that the salt be not over 20 per cent. of the mixture. A half ounce of potassium iodide added to the hundred pounds of minerals is considered good practice, inasmuch as the iodine supplied by this potassium compound is often found to be lacking in sufficient quantity in the swine feeds as usually fed. Wood ashes may be used in place of the limestone, and rock or acid phosphate instead of the bone meal.

Do not forget that the pigs need shade and that plenty of good cool drinking water is absolutely essential to full speed ahead. The wallow of concrete will be helpful during the hottest months, stimulating the appetite and promoting gains. A combination wallow and feeding floor, with house over all, helps solve the high cost of the wallow.

## THE CHILDREN'S HOUR

OUR FEATHERED FRIENDS—THE SWALLOW.

BY LEBERNE BALLANTYNE.

Each year the Department of Health spends a lot of money in their efforts to keep down mosquitoes and flies. Those who have visited their exhibit at the Canadian National Exhibition realize the work they are doing. To the boys and girls of our own district there is a very important phase of work in this connection which they could do to assist this splendid cause.

The greatest flycatcher which nature has provided for our use is the barn swallow. This beautiful bird, with its long, slender, forked tail, its black coat, and henna-colored vest and throat, builds a truly remarkable nest on the side of an old beam of the barn or shed, and plasters it there with mud mixed so well with grasses and resting on a beam or slight projection that it will sometimes remain in good condition for years.

If they nest in objectionable places, rather than drive them away, it would amply repay the farmer to leave some projections somewhere convenient where they can build without causing annoyance, for they are of great advantage both to the farmer in riding him of the obnoxious insects, and his stock in lessening the number which torture them.

All their food consists of insects, and as they have no really bad habits, these friendly little birds should be encouraged in every way possible. Their great advantage over the sparrow is that the sparrow nests close to domestic buildings to feed upon the insects for food, whereas the swallow eats practically no insects, whereas the sparrow is definitely useful, eating no insects. Unfortunately the sparrows, like most lazy folks, despise the industrious ones, and torment and try to destroy the nests to drive off the swallows.

These facts have been proven beyond doubt, and it is up to the boys and girls, and the owners as well in each district to protect the swallow family, and to learn those of our birds which are really useful.

THE BIRTHDAY PRESENT.

BY EVA M. CARROLL.

Mary Ann was a little girl who lived in the shabby little cottage on Maple Street, but it was a very neat cottage, and Mary Ann was a neat little girl. For her playthings she had a few toys and books, of which she took excellent care, but most of the time she had to work hard. Her mother was not strong, and Mary Ann often got up before daylight to help her with breakfast.

This morning was Mary Ann's birthday. While she was busy helping her mother cook the breakfast she paused for a moment before the kitchen window to look out at the morning sky. "How lovely!" she cried, and then she thought: "To-day is my birthday, and I wish that some one would give me a present as beautiful as the sky before sunrise."

She turned away from the window and began to get ready for breakfast. "Aunt Hattie," she was thinking, "always gives me a birthday present, but it is nearly always something useful—a gingham dress or a cook apron, or something like that." And then she began to think about what she would like to have: "A piece of pink hair ribbon, a beautiful story-

book with ever so many colored pictures—and, oh, a great number of lovely things." But she was a little ashamed of herself for feeling dissatisfied with what Aunt Hattie would probably give her. Of course she did appreciate useful gifts; but just this once she wanted something beautiful. About noon Aunt Hattie came, and in her hand was a package. She opened it presently. It was not a present at all, but only some embroidery that she had brought along to work on during the afternoon.

After a short time she said, "Mary Ann, I bought a little present for you this morning and asked them to send it out from the store. It should be here soon."

"How sweet of you, Aunt Hattie," said Mary Ann.

In the afternoon while the little girl was playing in the small yard in front of the house a boy rode up on a bicycle and handed her a package with her name written on it.

"Oh, this is my present!" she cried in delight and began to open it at once. When she saw what it contained, she cried, "Oh!" again, but this time not from happiness, but from disappointment. And such disappointment!

Then she carefully tied the package again and went to her own little room, where she sat down and cried. "How could Aunt Hattie have bought me such a present!" she sobbed. "How could she have thought of such horrible things!"

Presently she sat up and dried her eyes. "I must not act this way," she said to herself. "If anyone is kind enough to give me a present, I must thank her for it, no matter what it is."

As soon as the tears were all gone from her eyes she went into her mother's room. Aunt Hattie was still embroidering the table cover.

"Aunt Hattie," the little girl began, trying bravely not to cry, "thank you for the ones. Mother or I will make a cream dressing for them, and we shall all enjoy them for supper."

"You thank me for what, child?" exclaimed Aunt Hattie in amazement. And then she laughed heartily. "Not onions, Mary Ann," she said, "hyclinths!"

"Hyclinths!" cried Mary Ann. "Is that what they are? Oh, how wonderful! And I have a beautiful flower-bed all my own!"

And when the spring came the lovely blossoms of the hyclinths were enough to delight any little girl. People passing in the street often stopped to look at the beautiful flowers. "See that delicate pink one," said a lady who passed one day; "it is as beautiful as the sky before sunrise."

YOUTH'S COMPANION.

## Combined Silo and Storage Bin.

A Kansas farmer, desiring to make his silo space available for the storage of wheat, corn and other grains when it was not full of silage, built an elevator shaft and installed an elevator between his twin silos. Either one or both of the silos may be used for grain. The elevator will take a load of livestock, found that on occasions he was short of grain-storage room and at other times short of silage room. In years of large grain production he seldom made much silage. He could hardly afford the building of both silos and granaries for the maximum profit, the common classes of cattle sold at heavier discounts in April than during the previous month. Expert stock of both finished and feeder type and quality were the backbone of the market.

Evidence of a continued strong demand for store cattle is revealed in the fact that the average prices paid for good feeders and stockers in April

## Home Education

"The Child's First School is the Family"—Froebel.

### Burbanking Your Child—By Zahrah E. Preble.

Luther Burbank says "Whoever believes there is a great gulf between plant life and human life is wrong. Racial improvement, like plant improvement, is all a matter of heredity, environment, selection and crossing of types. The strongest conviction I have, after breeding plants sixty years, is that what can be done with plants can be done with human beings—and must be done if our civilization is not to be overwhelmed by the unfit. Plant life, I am convinced, is no more plastic than human life."

What can you do with your child to improve him for his own sake and for the sake of the future race? You have already furnished him with heredity: those strong and weak tendencies which are born with the child. These tendencies are not yet characteristics. They are merely sign posts which indicate the way that young nature may be turned by careful culture or careless neglect. You know what happens to a garden which is left to its own devices, and that even in the most carefully tended garden weeds will spring up. But the good gardener does not deny the flowers their proper amount of water and care in order to starve out the weeds.

In the matter of cultivation of your child to bring out the best potential qualities, the environment has a lasting and formative effect. Much can be done to overcome even unfavorable physical surroundings, if the mental atmosphere is made harmonious and the child taught to look for and see the advantages and beauty everywhere. True environment is more a matter of mental attitude than most people realize. If the parents are constantly

criticizing their surroundings, what can they expect the child to develop except an undesirable critical attitude toward all phases of life?

It is in selection of the strongest physical and mental tendencies and the training of these toward the best expression that the parent acts as a Burbank with the child. Is the child showing a strange stubborn quality which seems to be the predominant tendency? Do not consider this a flagrant weed, but look upon it as a desirable trait of determination, and by judicious selection of interests train it toward that end, thus "burbanking" what otherwise might remain a weed forever. Opposition or forcing will not do the work, only careful, patient understanding and directing will accomplish the best result. Consider what Burbank did with a wild Mexican grass. In eighteen years its meager seed had become full ears of corn under his skillful handling. You have more than eighteen years in which to "burbank" the promising traits of your child. But remember, patient training and interference are two very different things, and produce widely opposite results.

Look to yourself first to see if you are a good gardener before you attempt to experiment with nature. You cannot live your child's life, any more than the gardener can live the life of the rose or cactus. But as the gardener can make the rose more desirable by training it to shed its thorns, and the cactus a friendly, instead of an unfriendly plant to mankind by depriving it of its spines, so you can train your child's tendencies and mind to make of him a better citizen.

leaves ample room for the operation of an elevator that will handle several hundred bushels of grain in an hour. The power for the elevator is furnished by a tractor that is owned by the farmer.

When the silos are filled with grain a special silo door with a spout for letting grain into a wagon is placed in one of the lower door holes of each silo. On one side of the elevator shaft and under a dumping platform is a pit into which the grain from wagons is dumped. The pit has a capacity of 200 bushels. A spout is arranged from each of the silos to the pit so that grain that is likely to heat in the bins may be run through the elevator occasionally to be aired and cooled. In this way kafir may be stored in the bins if it is run through the elevator occasionally. The elevator will also handle ear corn so that it may be stored in the bins.

By arranging silos in this manner, storage space for several thousand bushels of grain is provided with only the additional expense of an elevator shaft and an elevator between the silos.—R. E. Deering.

## This Year's Live Stock Market.

There is an optimistic tone to the summary of market conditions for the first four months of the year issued by the Dominion Live Stock Branch, as the following quotations will indicate. Sales of cattle at the public stock yards this year were 204,960 compared with 160,960 in the same period last year. Cattle on slaughter during this year were 11,786 compared with 6,097 last year. This year a steady increase month-by-month is recorded.

A general improvement was apparent in quality and weight, giving proof that stall-feeding was more general during the winter of 1922 than during 1922.

Despite the heavy increase in volume over the previous offerings, the average price during April, and the bulk of sales, checked at higher levels than during March. While quality gained recognition in higher prices, the common classes of cattle sold at heavier discounts in April than during the previous month. Expert stock of both finished and feeder type and quality were the backbone of the market.

Evidence of a continued strong demand for store cattle is revealed in the fact that the average prices paid for good feeders and stockers in April

exceeded those realized in March, in spite of an increase in the available supplies. Steady development of the overseas trade is stimulating interest in feeding.

Combining "through-billed" with public sales of hogs, the increase for the four months of 1923 approximated 131,000 head. Despite the increase in offerings, prices were higher on bacon quality hogs at all yards. A seasonal increase in domestic demand, and a better tone to the British bacon demand, are quoted as the underlying strength.

The sheep and lamb movement in the four months this year showed over 9,000 head heavier than in the corresponding period last year. Prices were materially higher at Toronto, Montreal and Winnipeg, and about steady farther west.

The export trade in live stock and live stock products showed a heavy increase in April this year compared with the same month last year, although exports of sheep and mutton were lighter. There has been a marked increase in shipments of beef to Britain and a decrease in shipments to the United States.

Halley's comet returns at intervals of about 75 years.

## YOU CAN'T TIE TO 'EM

BY A. E. STEWART.

I was on a tour of the stables of my farmer friend, and had stopped to admire a fine, big bay horse.

"Yes, he's a fine-looking horse," said the farmer. "If he was as good as he looks, he would bring a pretty sum, but he is not dependable; you can't tie to him; you can't rely upon him in a case of emergency. He's too temperamental, for one thing, and too easily discouraged for another. He's a big and strong and sometimes when things don't come as fast as he thinks they ought, he becomes angry and simply tears them to pieces. On the other hand, he wants to be the judge as to when he has done enough. If it comes to hauling a heavy load up a steep grade, he gets tired easily and wants to stop and rest, and if I don't let him, he simply 'throws up' and won't pull a pound.

"But look over here, I have something worth while to show you. 'Here's a horse that is a horse; I could hardly run the farm without him. No, he is not so nice looking as the other, but what he lacks in looks he makes up in worth.

"I have seen this fellow pretty tired, but I never knew him too tired to start the first time I told him to go, and when it comes to a 'pinch pull,' this fellow would pull the world off its balance if the harness didn't break."

My friend stopped and lovingly put his arm about the neck of his favorite horse, and the horse returned the caress by gently rubbing his nose against the farmer's cheek.

Yes, some horses are very like some people. Some people won't do what they could so easily do, and others will give their money, time and talent freely and wish they could do more.

There are many people who remind me of that first horse. They are big and strong, neatly dressed, carefully manicured and sweetly perfumed, but they simply won't do the work that needs so badly to be done. They make a nice appearance, but their usefulness ends. "You can't tie to 'em."

## Poultry Marketing Co-operation.

While the title of a bulletin just issued by the Dominion Live Stock Branch, "Co-operation in Marketing Poultry Products," would indicate that its contents were of interest to those engaged with poultry business, nevertheless, the majority of the principles laid down are applicable to any form of agricultural co-operation. The writer, Mr. A. Benson, District Poultry Promoter for Ontario, hits a vital point when he says that while there is evidently an earnest desire on the part of producers to improve existing marketing conditions, there appears to be a lack of uniformity of thought and ideas as to methods of procedure, and the limits of the field in which co-operating producers can hope to achieve the greatest and most permanent success. It is evidently with a view to help in remedying this condition of affairs that the bulletin has been written and published. Not alone are the fundamental necessities of success and the principle of co-operation laid down, but details are given relative to organization, to the loyalty, and confidence that must prevail, to the methods of management that must be adopted and maintained if success is to be achieved, to warehouse methods, to marketing, to grading and standardizing of eggs, to pooling of financing, to the survey that should be taken of conditions and territory to be controlled prior to organization, to the cast-iron contract that should be made between members, and to the attitude of producers; the whole concluding with the rules of a suggested market agreement for local units.

## A Chemical Fire Protector.

After a couple of accidents with oil stoves in his home which resulted in small fires a Western farmer has installed a unique and inexpensive device for protecting his home from fire with chemical fire extinguisher. In the basement was placed a thirty-gallon hot-water-heater tank. Near the top was mounted a small air-pressure gauge. Below this, near the centre of the tank, a stem from an old automobile inner tube was mounted in the tank for pumping air into the tank. From near the bottom of the tank a half-inch pipe was passed up through the floor into the kitchen of the house. To the end of this was fastened a stopcock and twenty feet of half-inch rubber hose. A quarter-inch hose nozzle was fastened to the end of the hose. The tank was filled about two-thirds full of a chemical fire extinguisher already prepared and air pumped into the tank until the pressure reached forty pounds on the gauge. The tank is kept pumped up to this point all the time.

With this pressure and this length of hose it is possible for the farmer to reach any part of his house and put out any fire that may start. The equipment makes available a quick method of stopping fires.

In the midst of all her political, financial, and industrial problems and readjustments, England has enacted a law which regulates the Exhibition and Training of Performing Animals.

## Canada's New Wheat Champion

For ten years Canada carried off the world's wheat championship as symbolized in the highest award of the Chicago "International," and the remarkable feature in a survey of this decade's achievements was the number of occasions on which the Canadian farmer securing the coveted prize was an immigrant from the British Isles who, previous to his filling on a Western homestead, had scarcely the most elementary knowledge of agriculture.

In 1922 the championship was wrested away from Canada by a Montana farmer and the Dominion left with the consolation that that state had found it necessary to import Canadian seed, produced by the Wheat Wizard of Saskatchewan, Seager Wheeler, to accomplish its end. In 1922 Canada won back her old place of honor, making her eleventh championship in twelve years, and this time the farmer to bring her such signal renown was an American farmer who had come up across the border to grow superior wheat.

R. O. Wyler of Luseland, Saskatchewan, his worldly possessions consisting of the sum of \$400, his other asset a determination that this sum, in combination with Canadian soil and climate, would make him a prosperous and outstanding farmer. During a temporary land boom he bought a half-section of land on half-crop payment for \$10,000, and though during the next few years he saw the value of his farm practically cut in two, he did not grow discouraged and never thought of quitting. To use his own words, he "dug right in and worked like a beaver." In 1912 he married a girl from his home state who has since shared his labors and now shares his prosperity and triumphs.

PERSEVERANCE, KNOWLEDGE AND ENERGY. Mr. Wyler has been a farmer from his earliest years, and came to Canada with a valuable store of agricultural knowledge and a readiness to adapt it to new conditions and to keep pace with new developments. He has always been keenly interested in the production of superior grain and is, more or less, a seed specialist. It was this he came to buy his first sample of registered Marquis wheat from Seager Wheeler, carrying it away in a twenty-pound sack. He planted this in a small plot, and throughout the growing season culled out the plants and

heads that were not true to type. Then when the grain ripened he carefully selected enough perfect heads to sow the plot next year. And so on, year after year, he assisted nature in producing her best until there was no superior grain in the world and his half bushel of wheat at Chicago carried off the sweepstakes and the silver cup of the Government of Saskatchewan.

Plant breeding and selection are, however, only Mr. Wyler's hobbies. He is a commercial farmer in the widest sense of the word and has developed his holdings along prosperous lines. He now has a thriving farm of 320 acres, which he operates with but little outside help. His farm is divided into three fields, one-third being summer fallowed each year. This year he raised over three hundred bushels of wheat in the face of adverse weather conditions. He does not stake his all on grain growing, but is a firm believer in mixed farming, hog and cattle raising being followed at the same time. He and his little family have, in the brief ten years' period, attained the inevitable prosperity that rewards sincere and earnest efforts in Western Canada, and the man who left Ohio with but \$400 has now a comfortable home on one of the best half-sections in the Saskatchewan district, which is increasing in value every year.

CANADA HAS THE SOIL AND CLIMATE. A survey of the world wheat championships over the past twelve years makes most interesting, most valuable, and most encouraging reading. The signal achievements of British immigrants who arrived in the Dominion ignorant of Western conditions and farming methods of any sort, pointed the way to fellow-countrymen to emulate them and should have been the greatest stimulus to further emigration from the British Isles. For while it almost seemed as though previous grants who arrived in the Dominion ignorant of Western conditions and farming methods of any sort, pointed the way to fellow-countrymen to emulate them and should have been the greatest stimulus to further emigration from the British Isles. For while it almost seemed as though previous grants who arrived in the Dominion ignorant of Western conditions and farming methods of any sort, pointed the way to fellow-countrymen to emulate them and should have been the greatest stimulus to further emigration from the British Isles.

## The Change.

"I left the old farm, confessed an Ordinary Man, 'to escape the endless work, the long hours, the savage bite of the winter mornings and all the rest of the dull monotony of the treadmill existence; in short, to be master of my own destiny.' Now, here in the city, I am not obliged to do anything. I do not wish to do, except grind day after day humped over my desk, ride back and forth in street cars with a well-nourished booby standing on my foot, or feet, as the case may be; melt or congeal, according to the season, in an apartment where I do not even know the names of most of my fellow dwellers, but am well acquainted with the subjects about which they upbraid each other, fiercely and frequently; get run over occasionally when I stroll out for an airing, or held up and otherwise made little of. "In other respects I am as free from care as a bonny bird. And by saving

up my money carefully all the rest of the year I am able to go back to the old home neighborhood for two weeks every summer and struttingly run it all over the folks there, most of whom could buy me and never remember they had paid out the money."

## Arrested.

Who was it off robbed Farmer Binks, Stole mower, plow and rake And many more farm implements Slyly as any snake?

Who took them off before his eyes? A rogue he'd not mistook Because they went just flake by flake— It was that robber Rust.

But now wise Binks has foiled the thief, And makes no more complaint— He's coated all his implements With rust-arresting paint.

—Oscar H. Roesser.

## KEEP THE IDEAL TRACTOR COVERED.

The tractor is allowed to stand in the field without cover too often. It has to burn the cheap fuel and too often uses the cheap grade of oil which is quite expensive in the end. Very often a farmer, after running his car 3,000 miles, finds that it develops a knock. It is immediately taken to the garage for repair. Too often the same farmer hears his tractor knocking a little and he looks out and sees about eight to ten acres of land yet to be plowed. He thinks: "Well, I'll finish the plowing before I get the tractor repaired." Before the eight or ten acres have been plowed his machine has turned over as much as the automobile engine runs in 3,000 miles.

Transmission and engine bearings are protected from shocks by pneumatic tires in the automobile. The tractor is often run in high gear over hard roads without these protections. Across the fields on the road would be much better for it.

Poor oil, for instance, will cause enough repair bills when used in the automobile, but will be far more costly if used in the tractor engine. The tractor operates under full load all hours of the day and runs at the maximum temperature. It therefore needs an oil film between the piston and the cylinder which will stand such temperatures.

Too often the tractor operator doesn't know where to find the instruction book which came with the machine. As a general thing, the standard farm tractor instruction book is written by some of the keenest minded engineers in the country and the book contains good information.

More of these instruction books would be read if the agent who sells a tractor would go over the important things with the tractor purchaser. Much of the tractor trouble may be held at the door of the salesman who failed to inform the farmer about the machine.

## STORIES OF WELL-KNOWN PEOPLE

### "Father of Irish Bulls."

Sir Boyle Roche, popularly known as the "father of Irish bulls," once said in a speech in parliament: "I should be put ourselves out of our way to do anything for posterity; for what has posterity done for us?"

On one occasion Sir Boyle declared himself ready to give up "not only a part, but, if necessary, even the whole of our constitution to preserve the remainder."

His infelicitous mode of conveying an invitation to a noble lord to partake of his hospitality is among the best known of his blunders: "I hope, my lord, that if you ever come within a mile of my house that you will stay there all night."

### Had Him Hypnotized.

Formerly Governor of Dartmoor Convict Prison Sir Basil Thomson tells the story of a lady visitor who, on being shown round the place, endeavored as she passed to say a few kind words to the unfortunate prisoners.

"Remember, my good man," she chirped to one veteran, "that stone walls do not a prison make, nor iron bars a cage."

"Well," said the old sinner, "they've got me hypnotized then—that's all, ma'am."

### Ice Cream for Hades.

Billy Sunday, the famous American evangelist, is nothing if not direct. He believes in impressing his hearers at all costs.

Recently, for instance, he was preaching upon the terrors of the "bad place" to a gathering of youthful New York "toughs."

"Boys," he said, "you've seen molten iron running out of a furnace, haven't you? It comes out white hot, sizzling and hissing. Well—"

The preacher pointed out a long, lean finger at the lads.

"Well," he continued, "they use that stuff for ice-cream in the place I've been speaking about."

### A French Woman Editor.

Besides being a writer of distinction Mme. Jane Misme is said to be the only woman newspaper editor in Paris. She is in full charge of the woman's page in L'Opinion, a leading Paris daily, and her admirers claim that she is in some measure responsible for the success and circulation of that periodical.

In addition to her editorial duties she devotes a large portion of her time to the feminist movement in France, and she was one of the delegates to the Congress of the International Women Suffrage Alliance which was recently held in Rome. She was one of the speakers at that Congress, and is a firm believer in an international suffrage organization among women.

### Detachment.

If on some perfect planet we could stand And with disinterested view the lives of two lead,

See through our clearer eyes the life indeed, Stripped of its daily dole—the small demand—

A clean cut, naked fact; could we command The strength that we assume, the pride—our creed—

Whereby in confidence we dare exceed, Or say we do, all else Creation planned?

Could we in that brief interval compare With tree, with rock, that neither stir nor fret?

With humble soil that doth no pride beget? We could not. Yet we light our centuries

With "Man shall have dominion over these." —Helen Frazee-Bower.

### "There is a River."

A beautiful and moving story comes to us from one of the African missions. A well-known white missionary set out for a village that had been determinedly hostile to the gospel. His friends said that he would only waste his time, but he felt bound to go and do his best to help.

After a tedious journey he reached the village with his four bearers carrying his tent and the other necessities. Their arrival was the signal for a great gathering of little black children, many of whom had never seen a white man before. The missionary glanced at them once and then went on with his task of pitching the tent.

After a while one little fellow put his curly head in under the canvas; he was plainly fascinated with the white man. The missionary took no notice of him for fear of frightening him off, but he knew that the little fellow was coming closer and closer.

At last he felt the boy's fingers tugging at his trousers. Then as he paused in his work a little black hand pushed its way into his, and he looked down into the eager but shy little face. Clutching him now with both hands, the tiny representative of a village that did not want the gospel said: "Please, white man, tell me the name of the river where you wash yourself white."

Could the appeal to humanity of the children of Africa be better expressed?

London's Law Courts cover five acres of ground.

The Tobacco of Quality

### Surnames and Their Origin

#### SPOONER

Racial Origin—English. Source—An occupation.

Family names, particularly those which are derived from occupations, conceal within themselves many interesting side lights on the habits and customs of an age now dim in history.

It's one of those obvious family names. It comes from the word "spoon" (reference being to the utensil, not the action). If family names were being formed to-day there would be none of this one, for though there are millions more spoons in use to-day than there were in the Middle Ages, where to-day will you find a spoon-maker? Lots of manufacturers make spoons, but we don't call them spoon-makers, because they make knives and forks and soup ladles as well. Lots of workmen may specialize in spoonmaking in the factories of these manufacturers, but each one handles only a special process, one step in the manufacture. Lots of dealers sell spoons, but they sell so many other things as well that we call them hardware dealers or jewelers.

But in the Middle Ages it was different. The very existence of the name Spooner proves it. The "spooner" made spoons and the "cutler" made knives, and neither interfered with the other's trade nor thought of combining the two. And why are there

no "Forkers" to-day? Because in the Middle Ages, in England at least, the fork was unknown as a table "tool."

#### SUTTON

Racial Origin—English. Source—A locality.

There are not many persons who can guess offhand the original meaning of the family name of Sutton, unless, perhaps, they see it in the company of such names as Easton and Weston. Yes, that is it. "Southtown" would be the full and modern spelling of the name, which, from being the name of a place, has also become the name of many persons whose ancestors hailed from that place.

There is an erroneous idea, still quite widespread, that names originally bearing a prefixed "de" were by virtue of this "de" indicated as of "noble" origin. Nothing could be further from the truth, even though it is true that most of the ancient noble families bore surnames so prefixed.

The "de" meant to the people of Norman England exactly what it means to the people of France to-day. It meant "of," and nothing more. "William de Sutton" means "William of Sutton." Such surnames were borne by the over-lords of domains. But they were also borne by anybody, even serfs in many instances, who had come from the places mentioned.

Sutton is a town in Devonshire.

## BABY'S OWN TABLETS OF GREAT VALUE

Mrs. Hermadis Chagnon, Ste. Theodose, Que., writes:—"Baby's Own Tablets have been of great value to me in keeping my little one well and I would not be without them." Thousands of other mothers say the same thing. They have learned by actual experience the value of the Tablets in regulating the bowels and stomach; banishing constipation and indigestion; breaking up colds and simple fevers; and keeping the baby free from the many simple ailments of childhood. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Yes, indeed. Worm—"Hey, Mr. Bug, don't you think I can get a job in the circus as a costar?"

#### MONEY ORDERS.

The safe way to send money by mail is by Dominion Express Money Order.

#### Consolation.

When the young husband returned from the office he found his wife in tears.

"Oh, John," she sobbed, "I had baked a lovely cake! I put it outside for the frosting to dry—and the dog ate it!"

"Well, don't cry about it, sweetheart," replied her husband, patting her flushed cheek; "I know a man who will give us another dog."

In Russia there are estimated to be 1,229 women to every 1,000 men. Germany comes next with 1,100 and Austria 1,069.

Minard's Liniment used by Physicians.

### SOUTH AFRICA AS A FRUIT PRODUCER

Recently the Union of South Africa celebrated the shipment of one million cases of fruit to Europe in one season. This is the first time this record has been achieved. The picture shows General Smuts, with some of the members of the Cabinet, examining the millionth case just before it was shipped.

#### Pat Scored.

An American was boasting to an Irishman about the speed of American trains.

"Why, Pat," said the American, "we run our trains so fast that the telegraph poles look like a continuous fence."

"Do they, now?" said Pat. "Well, sir, I was wan day on a train in Ireland, and as we passed first a field of turnips, then wan of carrots, then wan of cabbage, and then a large pond of water, we were goin' that fast I thought it was broth!"

### The Man at the Helm.

How many landmen appreciate the hours of ceaseless anxiety experienced by the navigating officers of the White Star liner Pittsburg, which staggered into Halifax with her bridge torn away in a gale? When a ship's compass room is injured it requires all the knowledge and fortitude of which a seaman is capable to steer a ship, with its living freight, to harbor.

Few people realize how a ship is held to her course by that most used and most inaccurate scientific instrument in existence—the mariner's compass.

Its errors are numerous and troublesome. They are only partially understood and partially corrected. They vary with the place the compass occupies in the ship; with her heading at the time of observation; with the direction of her head when being built; with the temporary movement of iron within the ship.

The compass used for laying off courses and taking bearings is called the standard compass. With it are compared all the other compasses in the ship.

There are three north points that the navigator must take into consideration. First, the true north, which is the straight line, the meridian of longitude, joining the poles of the earth. Second, the magnetic north, which is the direction in which the compass needle would point if affected only by variation. Third, the compass north, which is the direction in which the compass needle actually points, affected as it is by the variation of the place and by the local attraction of the ship. When the navigating officer gives the helmsman a course he first obtains from the chart the magnetic course that he wants. This he corrects for deviation from his standard compass deviation table, and the result is the course by standard compass that he must set.

He then goes to the standard compass and gives orders to the helmsman until the ship's head is on that course, when he shouts "Steady!" The helmsman notes the reading on his steering compass and steers that course until further orders. The ship is then on her course. The officer of the watch compares the two compasses at frequent intervals, and so the voyage goes on.

Is religion narrowing? Well, so is the gun barrel that keeps the projectile in the rifling; so are the railway tracks that keep the express train from the ditch; so is the steering wheel that holds the car in the middle of the road; but they save from wreck and mean achievement.

## HOW DELICATE GIRLS ARE MADE STRONG

### Rich, Red Blood Needed to Keep Up Their Vitality.

It should be constantly borne in mind that pale, bloodless girls need regular out-of-doors exercise. But a lack of appetite and tired aching limbs tend to hinder progress. To save the weak, thin-blooded sufferer, she must have new, rich red blood and nothing meets a case of this kind so well as Dr. Williams' Pink Pills. These pills not only enrich and increase the blood supply, they help the appetite and aid digestion, relieve the weary back and limbs, thus bringing new health and strength and transforming anemic girls and women into cheerful, happy people. Among the thousands of girls who have obtained new health through the use of Dr. Williams' Pink Pills is Miss Lydia G. Garneau, Freeman, Ont., who says:—"About two years ago I was in a very nervous and run-down condition. I could not eat, did not sleep well and was fast becoming an invalid. I was subject to fainting spells which made it very embarrassing to go in company as I never knew when a fainting spell might come on. After several fruitless treatments I was advised to try Dr. Williams' Pink Pills, and by the time two boxes were used I felt an improvement. I kept on taking them, and am now thankful to say that I owe my present health and happiness to this medicine, which I cheerfully recommend to other run-down girls."

If you are weak or ailing, avail yourself at once of the home treatment which Dr. Williams' Pink Pills so easily afford, and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine, or may be had by mail at four a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

#### Drudge.

He's afield all day In wind and sun, Where tall grass rustles And shadows run.

The birds sing for him, The flowers smell sweet, The brown earth crumbles Beneath his feet.

What have I to see? A stove, a floor, Two little windows, A narrow door—

I want the flowers, I want the birds; The wind would sting me Soft little words.

I'm just his woman, So I must stay In a hot kitchen Day after day.

Some days I'm wishing Even to be Only a field mouse Just to be free!

#### Well-informed.

Proud Wife (to nervous friend in automobile):—"I feel so safe with George driving, now that he has joined the Red Cross. He is learning first aid, and knows where all the hospitals are."

Old Gentleman—"Well, he has a rich father, and I haven't."

Minard's Liniment for sale everywhere

## IS SURPRISED TO FIND SHE IS ALIVE.

### Mrs. Gorman Says She Didn't Expect to Survive Her Troubles—Praises Tanlac.

"Three years ago, before I got Tanlac, if anyone had told me I would be alive now I couldn't have believed it," said Mrs. Hannah Gorman, 414 Arthur St., Windsor, Ont.

"I had suffered from stomach trouble for seventeen years. Many a time I was in such agony I didn't think I could live through the day. I had awful smothering spells, terrible headaches, and was so nervous I was almost frantic and sleep was practically out of the question. Why, I was so weak I could hardly dress the children, to say nothing of taking care of the household duties."

"However, Tanlac gave me back my strength, and I've enjoyed perfect health ever since. I gained nearly ten pounds in weight, have a wonderful appetite and sleep eight or ten hours every night and feel so well life is a pleasure. Tanlac was a godsend to me. No medicine in the world can equal it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

#### The Motor Age.

A little girl from the city had been visiting in the country, and was being questioned as to what kind of time she had. Finally some one said, "I bet you don't even know how to milk a cow."

"Bet I do," she said. She was pressed for particulars, and explained: "You take the cow into the barn and give her some breakfast food and water and then you drain her crankcase."

The game of polo has been traced back to 600 B.C.

## WOMEN FROM FORTY TO FIFTY

Will Be Interested in Mrs. Thompson's Recovery by Use of Lydia E. Pinkham's Vegetable Compound.

Winnipeg, Man.—"Lydia E. Pinkham's Vegetable Compound has done me good in every way. I was very weak and run-down and had certain troubles that women of my age are likely to have. I did not like to go to the doctor so I took the Vegetable Compound and am still taking it right along. I recommend it to my friends and to any one I know who is not feeling well."—Mrs. Thompson, 503 Lizzie St., Winnipeg, Man.

When women who are between the ages of forty-five and fifty-five are beset with such annoying symptoms as nervousness, irritability, melancholia and heat flashes, which produce headaches, dizziness, or a sense of suffocation, they should take Lydia E. Pinkham's Vegetable Compound. It is especially adapted to help women through this crisis. It is prepared from roots and herbs and contains no harmful drugs or narcotics.

This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Lowell, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

### WARDSVILLE

Miss Ava Weer is visiting friends  
in Adrian, Mich.

Miss Effie Campbell, who has been  
seriously ill, is recovering.

Tom Simpson spent a few days  
last week with friends at Mooretown.

Will Atkinson is attending the  
General Assembly at Port Arthur as  
the Wardsville delegate.

Mr. and Mrs. Arthur Smith and  
family and Morley Fauds, of St.  
Thomas, spent the week-end in town.

A new sidewalk is being laid in  
front of the Roosevelt Hotel and  
Mrs. Will Henderson's residence,  
Main street.

Rev. S. J. Bridgett conducted the  
union service in the Presbyterian  
church Sunday morning. Large con-  
gregations have turned out to the  
union meetings.

Miss Margaret Archer and her  
niece, Margaret Rogers, left on Wed-  
nesday to spend the summer in Al-  
liston.

Mrs. Will Jackson, St. Thomas, is  
with her sister, Miss Atkinson, who  
has been seriously ill for the last  
few weeks.

A largely attended meeting of the  
W.M.S. of the Presbyterian church  
was held on Thursday. Arrange-  
ments were made for the district  
convention to be held here June 27.

Mr. and Mrs. Gordon Brown, of  
Brigden, and Mrs. Neighbor (nee  
Vera McKee), of Los Angeles, were  
visitors in town during the week.

Mr. and Mrs. Geo. Constant and  
little daughter Evelyn, of Walkers-  
ville, are spending a couple of weeks  
with Mr. and Mrs. Geo. M. Fauds.

Misses Eleanor and Florence Mar-  
tin, Detroit, were week-end guests at  
the rectory with Rev. and Mrs. Mur-  
phy.

Mrs. Ada Potter spent a couple of  
days last week in London, complet-  
ing arrangements for the county W.  
C.T.U. convention in London on June  
19 and 20.

A meeting in the interests of J. G.  
Lethbridge, U.F.O. candidate, held in  
the music hall Tuesday night, was  
largely attended. Mr. Lethbridge  
and Mrs. Glenn, of Hensall, were the  
principal speakers.

Mrs. Knapton and daughters and  
Mrs. Reilly and daughter, of De-  
troit, motored over and spent a few  
days with Mr. and Mrs. Hugh Archer.

Departmental examinations began  
at the high school on Tuesday, with  
Principal Yorke, of Glencoe, presid-  
ing. Miss Farrington is presiding at  
Glencoe.

Mr. and Mrs. Will Bilton and Mr.  
and Mrs. Swale and son, of Winni-  
peg, were guests during the week  
with Mr. and Mrs. Bilton, sr. The  
party motored from Winnipeg and  
left on Friday for Montreal.

The death of Miss Desale Purdy,  
which occurred Saturday morning at  
her home in Windsor, after a short  
illness from scarlet fever, came as a  
great shock to her many friends here.

The family had till a few years ago  
resided in Wardsville and Desale was  
one of our own beloved girls and a  
general favorite. After her Normal  
school course she taught at Fern  
Dell, and for the last two years has  
been on the staff of the Ford school.

The funeral, which was very largely  
attended, was held from the after-

noon train at Glencoe Sunday after-  
noon to Oakland cemetery, and ser-  
vice was conducted at the graveside  
by Rev. S. J. Bridgett. Besides a  
host of friends there are left to  
mourn her mother, two brothers,  
Will, of Windsor, and Elbridge, of  
Wardsville. A number of friends, be-  
sides the family, accompanied the  
remains from Windsor, among them  
being Miss Ella Milner, Ross Doyle,  
Leo Auckland, Leonard Purdy and  
Mr. and Mrs. Ellwood and daughter  
Beryl.

The annual meeting of the Wards-  
ville branch of the W. I. was held in  
the town hall on May 17th. There  
were 19 members present. The fol-  
lowing officers were elected for the  
year: Mrs. Glenn, president; Mrs.  
H. Watterworth, vice-president; Mrs.  
G. Fauds, secretary; Mrs. D. L. Pur-  
cell, treasurer; Mrs. Murphy, district  
director; Mrs. F. Henderson secre-  
tary-treasurer of emergency fund.

Receipts for 1922-23, \$239.71; bal-  
ance from 1922, \$165.56; emergency fund,  
\$2.93—total, \$407.29. Relief work  
during past year: two large boxes  
packed for fire sufferers; returned  
soldier, \$7.49; aid rendered old resi-  
dent in fuel and other supplies,  
\$40.47; memorial hospital, \$14.

Notice—Monuments in Scotch and  
Canadian granite furnished. In-  
scriptions cut at the cemetery—  
Wardsville Granite & Marble Works;  
Chas. Minna, proprietor.

### NEWBURY

Knox church W. M. S. held their  
regular meeting in the basement of  
the church. The devotional exer-  
cises were led by the president, Mrs.  
Farquharson. Twenty-three answered  
roll call. Mrs. J. G. Bayne and  
Mrs. C. Teifer gave papers on "For-  
eigners in Canada." An appeal was  
made for help for the new hospital  
at Matheson. The ladies decided to  
make and supply twelve garments.

The summer meeting of the New-  
bury-Mosa Women's Institute was  
held in the town hall, Newbury, June  
5th. About 60 ladies were present.

Miss Edith Hopkins, of Lindsay, was  
the speaker and gave an excellent  
address, her subjects being "Some  
things that make life worth while,"  
"Food Problems of Today" and "Co-  
operation and Beautification—Your-  
self and Your Home." She also  
spoke of the great good the institute  
is doing for the women of today and  
the young girls who will be the wo-  
men of the future. The program,  
which was a very good one, was given  
by the ladies of Bothwell and No. 9  
branches. It consisted of a piano  
solo by Miss Henderson, a reading  
by Miss Gillies, a report of the year's  
work of No. 9 by Miss McLachlin, a  
reading by Mrs. McMurchy, a few  
words by the president of the Both-  
well branch, a very good report of  
our own work by Miss Ida Hagitt,  
a few words by District President  
Miss Walker, a solo by Mrs. Bell, a  
reading by Mrs. Hickey and a piano  
solo by Mrs. Quite. A beautiful  
lunch was served by the Newbury-  
Mosa ladies. We would like to have  
more ladies come to our meetings,  
which are held each month.

Miss Gertrude Burr's friends will  
be pleased to know that she has  
passed well in her recent exams at  
Victoria Hospital, where she is train-  
ing as a nurse. She made 78 1/3 per-  
cent.

R. J. Petch has reopened the grist  
mill, which is a great convenience to  
the public.

Much sympathy is extended to R.  
H. Moore in the death of his father.  
Expressions of sorrow were heard  
on every side when news came on  
Saturday of the death at Windsor of  
Miss Desale Purdy. The deceased

visited at the home of Amos Fennell  
at different times and had many  
many friends, who will sympathize  
with the bereaved mother and two  
brothers.

Roscoe Holman was successful in  
getting the county council to pay  
\$500 of the \$846, the cost of the wig  
signal put at the C.N.R. cross-  
ing.

D. J. Batsner and Eugene Crotte  
were in Detroit for a few days last  
week.

Mrs. Fred Sullivan, of Bothwell,  
spent a few days with her mother,  
Mrs. Jane Connolly, this week.

Dr. Robertson, of Kilmarin, had  
charge of the service in Knox church  
on Sunday, Rev. C. D. Farquharson  
being in Port Arthur attending Gen-  
eral Assembly.

The Anglicans are completing ar-  
rangements for their garden party, to  
be held Friday, June 22nd. Posters  
will give particulars.

Mrs. Margaret Parish left on Sat-  
urday for her home in Ottawa. She  
was accompanied as far as Toronto  
by Mr. and Mrs. Thos. Hagitt, who  
are making an extended trip to the  
western coast.

Services in Christ church on Sun-  
day were conducted by Rev. Mr. Ab-  
bysaker. Rev. Mr. Murphy's friends  
were pleased at his being present  
and assisting. The former gentle-  
man sails on Saturday for India, his  
home, where he will go into mission-  
ary work.

Following an illness of nearly six  
weeks, the death of Mrs. Mary Bea-  
mont Harris occurred at her home,  
lot 18, first range north of the Long-  
woods Road, Mosa, near Wardsville,  
in the early hours of Sunday, June 3,  
in her 84th year. Deceased had lived  
for nearly 60 years in the same place  
and was well known for her bright,  
brave way of facing the trials of pio-  
neer life. Coming to the farm, which  
was only very little cleared, she and  
her husband, the late Peter Gibb,  
started out to make a home. In less  
than three years Mrs. Gibb was left  
a widow, with her baby girl. Her  
stories of her trials at those times  
were most interesting and showed  
the courage and faith of a Christian  
woman. Later she married late  
Henry Harris, who predeceased her  
ten years. Still she kept that same  
uncomplaining way, trying to see the  
bright side of life. The funeral ser-  
vice was conducted at the home on  
Tuesday afternoon by Rev. S. J. Brid-  
gett, and interment was made in  
Wardsville cemetery. The family  
left are the devoted daughter, Miss  
Ida Gibb, of Detroit, and two sons,  
Charles D. Harris and Prof. W. H.  
Harris, of New York. The floral of-  
ferings were very beautiful. Among  
those from a distance who attended  
the funeral were Miss Nellie Archer,  
W. H. Merritt, Mrs. Washburn, Allan  
McNicholl and Mr. and Mrs. Fred  
Bertenbecker, of Detroit, and Mr.  
and Mrs. Geo. Lauspeary and son  
Lyle and Mr. and Mrs. C. A. Laus-  
peary, of Windsor; Prof. W. H. Har-  
ris, of New York, and Mrs. C. D.  
Harris, of Oakville.

Mrs. Fowler and daughter and Fred  
Edward, of Petrolia, spent Sunday  
with Mrs. R. K. Jeffery.

### SHIELDS SIDING

The June meeting of the Needle  
Club will be held at the home of  
Mrs. Edna Walker on Friday, June  
22. A full attendance is requested.

The Kilmarin soft ball team will  
play Napier team at the U.F.O. pic-  
nic at McAlpine's grove on June 20.  
Also the Walkers baseball team will  
play Napier at 1.30 on the above date  
at the picnic. These will be inter-  
esting games as all teams are well  
matched.

### MELBOURNE

The 35th annual convention of Car-  
adoc Sunday School Association was  
held on June 7th in the Methodist  
church, Melbourne. The morning  
session opened at 10 o'clock, with  
President, Wm. Lewis, in the  
chair. After the devotional exer-  
cises the president gave an address,  
expressing his appreciation of the  
co-operation of the officers during  
the year. After the appointment of  
committees and the report of the  
secretary-treasurer had been given,  
the reports of departments were re-  
ceived, which brought some lengthy  
and most interesting discussions.

The afternoon session opened at 2  
o'clock, with Rev. Dr. Brown in  
charge of the devotional exercises.  
Reports of committees were given  
and a vote of thanks tendered to the  
president, Mr. Lewis, and secretary,  
Mr. McPhail. An invitation from  
North Caradoc to hold the conven-  
tion there in 1924 was accepted. Ar-  
rangements were also made to con-  
tinue holding the institute meetings  
during the coming year. Thanks and  
appreciation were extended to the  
pastor, trustees of church and ladies  
for their kindness and the splendid  
meals served. Rev. Wm. Jewitt, of  
London, gave an address on "Im-  
pressive and Expressive." A most  
interesting discussion followed this  
address, in which many took part.

Rev. Mr. Hopper, of Delaware, then  
taught the Sunday School lesson for  
the following Sunday, which was  
very instructive and much appre-  
ciated by the large gathering. Four  
group conferences were then held  
and Sunday School work discussed.  
At the evening session Rev. Mr.  
Rutherford was in charge of the de-  
votional exercises. The new officers  
were installed by Rev. Wm. Jewitt.

The officers for 1924 are—President,  
G. W. Watson; 1st vice, Hugh Bro-  
die; 2nd vice, Jas. Turnbull; secre-  
tary-treasurer, H. A. McPhail; child-  
ren's department, Miss Mather; boys'  
work, Rev. Mr. Ross; girls' work,  
Mrs. (Rev.) O'Kelly; adults' work, W.  
Lewis; home department, Mrs. N.  
Courtis; missionary, C. Winter; tem-  
perance, F. Sutcliffe; teacher  
training, Rev. Mr. Hopper. Address-  
es were given by Rev. Wm. Jewitt  
on "The Four-fold Life" and Rev. S.  
R. McVittie on "The Afterwards of  
Life." The new president, Mr. Wat-  
son, closed the convention with a  
hymn and prayer and announced  
that the new executive would meet  
in the Methodist church, Mount  
Brydges, on the 21st. The conven-  
tion was considered the best in many  
years. The church was well filled at  
each session.

### KNAPDALE

Roy Barnes spent the week-end at  
Tom Fletcher's.

Mr. and Mrs. Albert Goldrick and  
George Goldrick, of St. Thomas, are  
visiting at the home of Mr. and Mrs.  
Goldrick.

Plewis Hillman was home for the  
week-end from Detroit.

Wm. Brown spent Saturday in  
London.

Miss Lily Goley, of Adrian, Mich.,  
spent Sunday with Misses Nora and  
Geneva Stewart.

### NORTH EKFRID

Mr. and Mrs. Howitt, of London,  
are the guests of Mr. and Mrs. Orey  
Raney.

Miss Esie Mills, of London, is  
spending a few days with her father,  
Wm. Mills.

Samuel Raney returned home last  
week from Windsor, where he has  
been visiting friends and relatives.

A number from here attended the  
anniversary services at Springfield  
on Sunday.

Bert Pierce and family, accompa-  
nied by Miss Ella Mills, motored to  
London and spent the week-end with  
friends and relatives.

Miss Lizzie Pierce spent the week-  
end with Miss Annie McLean, of Car-  
adoc.

Appin and North Ekfrid baseball  
teams played a game Saturday even-  
ing, with score in favor of North Ek-  
frid.

Miss Pearl Pettit returned home  
on Friday after visiting in Fingal for  
a week.

North Ekfrid boys had a good  
home game of baseball Friday night.  
Anniversary services will be held  
here Sunday, 17th, afternoon and eve-  
ning.

Mrs. Foster had the misfortune to  
cut and break her ribs, and is under  
the doctor's care.

Worms sap the strength and un-  
dermine the vitality of children.  
Strong's Worm Exterminator drives  
out the parasites.

### CAIRO

Mrs. Geo. Tomlinson, of Chatham,  
is visiting her nieces, Mrs. Fred Bur-  
don and Rhea Walker, and others.

Ila Burr, Maurice Baird and Er-  
nest Ebbingshaus, all of Windsor, are  
visiting at Richard Burr's and Alex.  
Munroe's.

Mr. and Mrs. John R. McKeown,  
of Sarnia, are visiting the former's mo-  
ther and brother during the week.

Mrs. Margaret Macaulay, of Glen-  
coe, is spending a few days with her  
friend, Mrs. Gertrude Fenby.

James Brittain and family have  
moved into Mrs. Margaret Macau-  
lay's house, west of the Presbyterian  
church.

Mr. and Mrs. Will Ball and Miss  
Mae Ball spent Sunday at W. H. Mc-  
Keown's.

Mrs. D. M. Smith is spending the  
week with her daughter, Mrs. Will  
Ball, of Strathroy.

Mr. and Mrs. D. L. McGugan spent  
Sunday with their daughter, Mrs. J.  
A. Armstrong.

Put it in for Lame Back—A brisk  
rubbing with Dr. Thomas' Electric  
Oil will relieve lame back. The oil  
will immediately absorb the oil and  
it will penetrate the tissues and bring  
relief. Try it and you will be con-  
vinced. As the liniment sinks in, the  
pain comes out and there are ample  
grounds for saying that it is an ex-  
cellent article.

### APPIN

An interesting meeting of the  
Methodist Ladies' Aid was held on  
Tuesday at the church, when new  
work for the present year was ar-  
ranged. The ladies undertook to  
make an autograph quilt also to be-  
gin work for a bazaar which they ex-  
pect to hold about the first of Decem-  
ber. Much enthusiasm was display-  
ed by all the members.

We are pleased to note that Percy  
Lotan is improving, after undergoing  
an operation for appendicitis in St.  
Joseph's Hospital, London, last Sat-  
urday.

Several from Appin and vicinity  
attended the big garden party at No.  
5 last Friday evening and report a  
fine program.

A good attendance and an interest-  
ing time was had at the regular  
monthly meeting of the young peo-  
ple's organized class held at the  
home of the president, Mrs. Dan Gal-  
braith, on Tuesday night. Arrange-  
ments were made for a social to be  
held in a couple of weeks.

Mr. and Mrs. John Cook and  
Mrs. Muriel and Miss Chappel,  
of Meaford, are visiting at James  
Macfie's.

### CRINAN

Mr. and Mrs. Fred Zoller and  
daughter Jean, of Muirkirk, spent  
Sunday with relatives here.

Wm. Long is removing the barn he  
purchased from Carr & Miller.

Mr. and Mrs. Tom Dymock and  
family, of West Lorne, visited his  
brother, James Dymock, Sunday.

A number from here attended the  
funeral of Miss Desale Purdy at Oak-  
land cemetery on Sunday.

Mrs. Jacob Zoller spent a few days  
of the past week in Glencoe.

The W.M.S. had a very successful  
quilting bee last Wednesday, two  
quilts being taken off.

Mrs. Carroll and son David spent  
Sunday at Geo. Carroll's.

Rev. Mr. Meyers, of Toronto, con-  
ducted the services in Argyle church  
on Sunday for the Dominion Alliance.

Mr. and Mrs. John McRae and  
Miss Grace spent Friday in Ridge-  
town.

### CASHMERE

Mrs. C. F. Smith is visiting Mr.  
and Mrs. John Smith, Cairo.

Owing to the funeral of Miss Des-  
ale Purdy, of Windsor, formerly of  
Wardsville, our church service was  
held Sunday evening instead of in  
the afternoon. Rev. Mr. Bridgett,  
our pastor, conducted the funeral  
service.

Arthur Tunks lost a valuable cow  
that broke pasture and strayed onto  
the C.N.R. tracks on Saturday.

Mrs. Freeman Mann is in a London  
hospital undergoing an operation on  
her nose.

Mr. and Mrs. Allen Stiller and Mr.  
and Mrs. David Smith, of Bothwell,  
and Melvin Stiller, of Detroit, spent  
Sunday with Mr. and Mrs. Earle  
Tunks.

Finlay Patterson has returned to  
Windsor after spending a few days  
at his home here.

It Will Prevent Ulcerated Throat.—  
At the first symptoms of sore throat,  
which presages ulceration and in-  
flammation, take a spoonful of Dr.  
Thomas' Electric Oil. Add a little  
sugar to it to make it palatable. It  
will allay the irritation and prevent  
the ulceration and swelling that are  
so painful. Those who were periodi-  
cally subject to quinsy have thus  
made themselves immune to attack.

## Why Waste Money Daily!

Of all farm machines, the  
cream separator is the one  
on which you can take no  
chances, for the smallest of  
cream losses soon mount  
into dollars.

Have you seen  
the wonderful  
**LISTER  
MILKER**  
Simplicity  
Itself!

The Melotte has been the  
farmers' best friend for over  
30 years. It is the machine  
with suspended bowl and  
enamelled bowl casing.  
Hanging naturally on a ball-  
bearing spindle, the bowl is  
perfectly balanced, and is  
guaranteed easier to turn  
and to wear longer than any  
other.

On account of the recent ad-  
vance in raw materials, it is  
impossible to guarantee present  
low prices for any definite time.

Ten-year guarantee with every  
machine.

Write for free descriptive  
booklet. Don't delay.

## The Motor Car By Which All Others Are Judged

For over fourteen years McLaughlin-Buick has been  
"Canada's Standard Car." During this long time it has  
firmly established itself in the affections of Canadians  
from coast to coast, until today it is recognized as the  
standard of comparison for all other automobiles.

And this recognition of sterling worth has been well  
merited. Everything that the highest engineering skill,  
the most efficient workmen and the best materials could  
give has been given to make it a car to be proud of, not  
only as regards dependability and durability, but also  
in appearance, finish and equipment.

The 1923 models are the finest models in every respect  
that McLaughlin-Buick ever built. A close inspection  
and test will more than prove it.

There Are 15 McLaughlin-Buick Models to Choose From

**M. J. McALPINE, Dealer, Glencoe**
