RUSSIAN REDS TO OPEN NEW CAMPAIGN OF TERROR; "CLEAN UP" OF CLEVELAND CRIMINALS IS ORDERED; SPANISH SHIP SINKS WITH HEAVY LOSS OF LIFE

Lenine Orders New Campaign of Terror Against the World

Bolshevik Premier Declares Concerted and Drastic Action Necessary by Reds in Order to Maintain Prestige—Advocated Strikes and Attack on Capitalism.

Washington, D. C., Jan. 4.—A new policy of terror abroad, especially in nearby countries, has been decided upon by the Russian Soviet, according to official advices from Moscow received today by the United States Government. Nikolai Lenine is quoted by the advices as saying in a proclamation to the commune committees of Europe that "it is absolutely indispensable to keep the bourgeoise enemy busy with internal trouble in order that they cannot injure Soviet Russia."

"Great strikes should be organized throughout the world," this version of the proclamation says, "and agitation for the establishment of commercial relations with Russia should be increased. In order to fight famine and attack capitalism throughout the universe these things should be done."

Lenine is quoted further as saying that other nations plan to fight Soviet Russia by the use of spies seeking to enter Russia with the apparent purpose of organizing revolts against the Soviet.

RED LEADERS DISAGREE.

Paris, Jan. 4.—The Russian Soviet leaders are not in accord with regard to the offensive campaign against the Baltic states which is reported to have been projected by the Moscow authorities, according to information received in diplomatic circles here. The plan to make simultaneous attacks upon Letvia, Galicia and Rumania has many strong opponents it is declared in their advices, particularly as concerns any disorganization which would result at Baltic ports, endangering their trade and compromising the hope, which is still fostered of opening trade relations with Great Britain.

The same objection, however, does not exist with reference to an attack upon Rumania and Galicia, it is represented. Such an attack would involve Poland, but a strong Bolsheviki section is said to believe it would offer far greater advantages than an offensive in the north.

214 LIVES ARE LOST WHEN SHIP GOES ON ROCKS

Spanish Steamer Santa Isabel Is Wrecked in Storm.

CAPTAIN WAS INJURED

Master of Vessel Is Not Expected to Recover.

Madrid, Jan. 4.—Two hundred and fourteen persons lost their lives when the Spanish steamer Santa Isabel was wrecked near Villa Garcia on Saturday night, says a telegram received here from the governor of Ponte Vedra. Fifty-six persons were saved, but many of them were injured. Capt. Muniz Riqueld, the captain of the vessel, was severely hurt, and it is not expected that he will recover. Many bodies have been washed ashore, and in several cases whole families were drowned. Among the saved was an infant 3 years old, whose parents are believed to be dead. Latest dispatches from Cadiz state the ship was driven on the rocks during a tremendous storm, and the large number of deaths is attributed to the fact that the passengers had been confined to their cabins because of the violence of the storm, many of them being asleep.

The majority of those rescued from the steamer were unable to speak on being landed, owing to their frightful experiences during the hours of clinging to the wreckage in the terrific storm and cold. The meagre details so far obtainable of the disaster indicate that it occurred at 1:45 o'clock Sunday morning, when virtually everyone on board was in bed.

DRIVE CAREFULLY.

PROTESTANT MINISTERS OBJECT TO RIDICULE

Washington, Jan. 4.—The public morals board of the Methodist Episcopal Church announced today that it would inaugurate a campaign to "stop the contemptuous treatment of the Protestant ministry by some cartoonists, writers and actors."

"On the stage and in motion pictures," the board's announcement said, "the Protestant minister is seldom represented except as an effeminate fool. The members of the Protestant churches are exhorted to be liberal, to take humor as humor and be slow to wrath. But the members of the Roman Catholic church do not tolerate such treatment of their priesthood, which is always represented on the stage and elsewhere in a most favorable way, and whose religion is treated with consideration."

The board added that the matter was being called to the attention of ministers of all denominations and their congregations, with a request that any violations of ordinary courtesy be reported to the board, which would make them public.

BAD TRAILS ARE LIKELY TO DELAY TREK TO 'OUTSIDE'

No Definite Word of Balloonists Since They Left Moose Factory.

RIVERS A BARRIER

Streams Not Frozen in Many Places, Will Mean Detours.

[By Staff Correspondent of Canadian Press, Limited, Copyrighted.]

Cochrane, Ont., Jan. 4.—Cochrane this morning was without definite word of the lost and found American balloonists. While there are plenty of rumors in town, there has been no direct communication with Moose Factory, where the naval officers landed and the only information received here was that sent out from Mattice following the arrival there of the Indians, who brought their message of the safety of the officers from the Hudson Bay Post at James Bay.

The Indian runner did not proceed farther than Mattice and it is believed here he started back for Moose Factory after delivering his message. The nearest Hudson Bay post to Cochrane is in Clute Township, but the only means of connection with W. A. Goulding, in charge there, is through the tri-weekly mail service. No word has been received from Mr. Goulding and, in any event, it is not probable he would know of the movements of the party until they actually arrived at this post. Which trail the officers and their guides will pursue from Moose Factory to the C. N. R. is uncertain, and will depend largely upon weather conditions.

Followed the River.

The Indian runner apparently followed the Missanabie River direct to Mattice, where the railway crosses that stream, but the larger company may strike off across country and come into Cochrane by way of Clute and the Abitibi River. Snow is falling steadily in this part of the country today, but this is not likely to hinder the progress of the party in their trek for civilization.

A more formidable barrier is the condition of the rivers. The winter to date has been comparatively open, with mild weather predominating with the result that the rivers are not frozen over in many places. The presence of open water would necessitate many detours through the bush around the portages, adding to the distance to be traveled and consuming more time than would otherwise be the case. Because of the weather conditions, the party may leave the Missanabie and head east for the Abitibi, which would bring them directly into Cochrane, but otherwise they will reach the railroad at Mattice or Corpus-caning. There is no word here today that the party has reached Mattice, and they are not looked for before Thursday at the earliest.

WIRES CONGRATULATIONS.

Toronto, Jan. 4.—The following telegram has been sent by the Aero Club of Canada to Lieut. W. Hinton, in charge of the United States balloon party, now on its way to Mattice:

"The Aero Club of Canada has been following your flight with much interest and anxiety, and wish to congratulate you on your achievement and safety. Waiting to give you a welcome when passing through Toronto. Wire time of arrival."

Vote For Chairman Of Education Board Likely To Be a Tie

As Far As Public School Trustees Are Concerned—Separate School Representatives Have Balance of Power—What Will They Do?

Apparently the first occasion on which the balance of power held by the two separate school representatives of the board of education will be felt will be the election of the chairman of the board at the inaugural meeting on Thursday night, these gentlemen having the right to vote on the election of chairman.

Question having been raised by a citizen as to the ability of the separate school representatives to vote in the election of the chairman of the board, an Advertiser reporter sought the opinion of Secretary R. M. McElheran on the matter. His reply was to the effect that this question had been raised a year or two back and one of the trustees had asked the opinion of the department of education. The answer had been that the separate school representatives could vote in the election of chairman.

At the presen time, the opinion of the senior trustees and the trustees-elect is that if the election of chairman, in event of a ballot, is left to the public school members of the board, the vote will be a tie, but with the separate school members voting a tie is unlikely. The two trustees most frequently mentioned as possible nominations for the chairmanship are Edwin Smith, chairman of last year's No. 2 committee, and Thomas Coleridge, chairman of No. 1 committee.

For the last two or three years it has been the custom, it is claimed by a number of the trustees, to give the chairmanship of the board to the chairman of No. 1 committee. This procedure would mean the election of Mr. Coleridge. The friends of Mr. Smith, however, claim that there was an understanding when he was given the chairmanship of No. 2 committee last year that it should not interfere with his chances of being elected chairman of the board for 1921.

"Drafting of the committees of the board for the year will in all probability be undertaken this afternoon by the striking committee which is comprised of Trustees Smith, Rowe and Mrs. Tanner, but as the list will only be a tentative one and liable to alteration by the board on Thursday night I do not think that it will be fair to those concerned to make their names public, said Trustee Rowe in conversation with an Advertiser reporter today.

"No protest or request for a recount has been filed by Major G. Cooper in connection with the result of the election of trustees," said City Clerk Baker in reply to a question this morning. "Should Mr. Cooper ask for a recount he would have to deposit $25 and the request would include all the votes cast in the city."

Two Hundred Communists Are Wounded in a Clash With Police of Belgrade

Many Russians Among Demonstrants—Officers of Law Draw Bayonets to Suppress Disturbers—Jugo-Slavia Affected by Activities of Radicals—Plot to Kill the Premier Is Discovered.

Belgrade, Jan. 4.—In a clash between Communists and the police, nearly two hundred of the former and a dozen of the police were wounded. Many Russians were among the demonstrants.

The mob stoned the police force, which was trying to suppress demonstrations in progress in front of the Communists' meeting hall. The police drew their bayonets in suppressing the disturbances.

Jugo Slavia has been affected for several days past by Communist activities, which were followed by numerous arrests, occupation of the Communist headquarters and suppression of the Communist newspaper organs. A Belgrade dispatch received Monday quoted the newspapers of the city as announcing that the Government had by the measures it had taken frustrated a Communist plot which looked to the overthrow of the Government and the establishment of a Soviet regime throughout Jugo-Slavia. The plot, it was declared, included the assassination of Premier Vesnitch and other members of the cabinet.

IMPORTANT POSITION FOR DR. E. M. WATSON

Assistant Professor at Western Medical School Going to England.

Dr. Earl M. Watson, 373 Central avenue, assistant professor of physiology and bacteriology at Western University Medical School, and a member of the staff at the Institute of Public Health here, has resigned and leaves London

DR. EARL M. WATSON.

for England next Tuesday. Dr. Watson has accepted an appointment as assistant professor of physiology and anatomy on the faculty of the University of Sheffield, and his duties commence immediately following arrival in England.

He will assist Professor J. B. Leathes, dean of the faculty of medicine in the above university, who is also professor of physiology, and was formerly a member of the faculty of medicine at University of Toronto. Dr. Watson graduated from Western University Medical School in 1919, capturing the silver medal, and since that time has been a member of the faculty of his alma mater. He received his early education in the London Collegiate Institute, and his appointment to the English university is regarded as a signal honor for Western University. Dr. C. G. Emery, professor of pathological chemistry at the University of Sheffield, is a graduate of Western University, being a member of Meds '10.

FARMER FAILED TO KEEP WORD REGARDING WAGES, SO YOUNG FARM HAND STEALS HIS GOODS

Magistrate Graydon Censures Alonzo Butler of Lambton County for Treatment of 16-Year-Old Boy

Cuthbert Telfer, 16 years of age, of this city, pleaded guilty to stealing a horse and buggy, a whip, a robe, an overcoat, a suit of clothes, a pair of mitts and $2 in money, from Alonzo Butler, a farmer of Dawn Township, Lambton County, for whom he worked, on January 1. The boy was remanded to jail for one week.

Tearfully the boy told the magistrate that he had been forced to steal because he had been underpaid by Butler. Although he had been promised $20 a month when he obtained the job in October, through the agency of the local employment bureau, he said that the farmer had first reduced his pay to $15 a month, and then to $10.

To make up for the money which the youth thought was rightly his, he said he stole the outfit, which he later tried to sell in this city. He confessed that he had been in jail prior to October last, when he was sentenced in the county court to 30 days for stealing a sum of money from a man in Denfield. He said that he had had no mother or father since he was a little boy, and that he had been a ward of the Children's Shelter in this city for a number of years.

After the boy had been taken from the courtroom the magistrate called Butler, and subjected him to a scathing lecture.

He told him that he was in a large part to blame for the boy's downfall. "You have acted in a despicable manner towards the boy," he said. "As soon as you saw that the boy was defenceless you took advantage of him. On your own statements you admitted promising the boy $20 a month, and then you deliberately cut them to $10. It was a pity that you could not keep your promise."

Butler told the magistrate that there was no hard and fast agreement, as nothing had been put in writing. He claimed that he cut Telfer's wages in the winter time, intending to make up the summer months.

Magistrate Graydon told him that he had no right to take it upon himself to do that. "When there was an agreement with the employment bureau that $20 a month was to be paid the year around, you should have paid it," he continued. "There was nothing to prevent you from discharging the boy in the spring."

The stolen property was returned to Butler.

Aerial Traffic Laws Necessary For New York

New York, Jan. 4.—Representative United States airmen met here today to aid in formulating aerial traffic laws for New York. Aeroplanes flying over the city are becoming so numerous that the board of aldermen has decided that laws governing aerial traffic are necessary. Organization of a special force of aerial traffic cops will probably be the next step.

NATIONALISTS OF SOUTH AFRICA ARE ALARMED AT MANY SECESSIONS

London, Jan. 4.—Canadian Associated Press.—South African cables indicate alarm by the Nationalists at increasing secessions from their ranks during the election fight, and the growing strength of the South African-Unionist coalition. The efforts of the Labor party to raise economic issues in the urban centres appear to have been unsuccessful. The election fight, though thoroughly spirited, has been without disorder.

The South African-Unionist coalition is headed by remier Smuts.

OBJECTS TO NUMBER OF POLITICIANS ON BOARD

London, Jan. 4. — The Times today complains that the committee to consider Britain's future naval construction policy consists of one sailor, Admiral Beattie, and five politicians, Bonar Law, Winston Churchill, Walter Long, Sir Eric Geddes and Sir Robert Horne. While admitting that the last five are ministers, three of whom have held high office in the admiralty, the Times contends that their practical acquaintance with naval equipment is limited, and that they have many other calls upon their time. Sir Percy Scott, asked to give evidence before the committee, is reported as saying: "I hate to be treated as an incompetent fool, and am not going to muzzle myself by attending the meetings."

Striking Committee Maintaining Usual Secrecy Regarding All Appointments to Civic Bodies

Has Not Met for Deadly Work as Yet, According to Ald. C. G. Moorhead—J. H. Saunders and Dr. O. I. Cunningham for Board of Health.

Arrangements for the inaugural meeting of the city council next Monday made some progress today. Mayor Little has requested Rev. A. A. Bice, who was elected to the school board, to open the council proceedings with prayer.

Interest centres on the actions of the striking committee. This body, composed of the mayor, and Ald. B. F. Brighton, J. Cameron Wilson, F. R. Watkinson and C. G. Moorhead, is maintaining strict secrecy in regard to its conferences, which has always been the policy of striking committees in the past. A report is prepared, but is never made public until presented to the council. The press is not admitted to the meetings of the committee.

Rumors said today that the committee would meet tonight to do its deadly work, but Ald. C. G. Moorhead, one of the principal members, asserts that it will not be in session until Thursday or Friday.

There has been no change in the belief that former members of the council will be assigned to their old stations. The only doubt is in regard to the three new members. According to a very generally accepted opinion, Alderman-Elect W. A. Boss will fill the vacancy on No. 1 committee, while Aldermen-Elect P. J. Watt and G. A. Wenige will take the vacant places on No. 2 committee. The chairmanship of both committees also is in doubt. That of No. 1 committee, is believed to rest more or less between Ald. F. R. Watkinson and Ald. J. Cameron Wilson. Ald. Watkinson has been on the council the lengthiest time and may secure the position for that reason. He has been ill recently, and this with the fact that his private business keeps him fairly busy may prevent him from accepting the appointment. Ald. C. G. Moorhead is leading the race for the chairmanship of No. 2 committee, but it is just possible one of the other members might nose him out.

Not many changes are looked for in the appointments by the council. J. H. Saunders likely will be reappointed to the board of health. Ald. O. I. Cunningham is another prospective appointee for this board. He displayed considerable interest in the plumbing regulations last year, and as these are still under consideration he might be glad of an opportunity of dealing with them as a member of the board of health.

Ald. E. R. Seabrook may be appointed to the Public Library board, or possibly to the London and Port Stanley way commission. If some of the present members of that body should not be inclined to accept reappointment.

BODY OF MISSING MAN FOUND WEDGED IN ROCKS AT BLUFFS

Patient at Westminster Hospital Allowed Leave of Absence.

WENT TO TORONTO

Was Shell Shocked While Serving 8th Battalion Railway Troops.

Frank McMahon, aged 28 years, of Toronto, who for the past six months has been a patient in the Westminster Psycopathic Hospital here, and who was granted New Year's leave last Thursday, was found dead on Scarboro Bluffs, Toronto, last Saturday. The body was wedged in a crevice and by his side a note was found which read: "My time has come, and I must end it all. It is better for the world I should die."

McMahon, who was 28 years of age, went to his home, 436 Sherbourne street, Toronto, last Thursday, from London, and was missing since Friday night. He was manager of the New York Tailors prior to enlistment in the 8th Battalion Railway Troops, with which unit he served overseas until shell shocked. He returned home in 1918, and took up his former occupation, but the effects of active service were such that he was admitted to the Westminster Milltary Hospital for treatment six months ago.

Last week, the authorities at the above institution considered McMahon fit to journey home for the holiday, accompanied by his father, and New Year's leave was granted. Following his disappearance Friday he was not seen or heard of again alive. The young man came of a soldier family, he being the son of Sergt. Harry McMahon, late of the Gordon Highlanders and a well-known physical training instructor. A brother, H. R. McMahon, in business in Toronto, and a sister, Jean, at home, also survive. During the period in which he received treatment at the military hospital here, McMahon was regarded as a model patient and was very popular with his comrades.

Under Father's Care.

Medical Superintendent McGhie of the Westminster Military Hospital made the following statement regarding the above case to The Advertiser this afternoon: "McMahon was taken

CONFERENCE IN INTERESTS OF PRE-NATAL WORK

Co-Operation of Physicians Is Being Asked.

A conference in the interests of prenatal work in the city was held at 4:30 yesterday afternoon at the Institute of Public Health, having been called by Dr. Hill. The meeting consisted of persons directly interested in the health of the citizens of London, who for some time past have felt that a great deal of infant mortality and loss of the lives of mothers was due to failure of the mothers to take proper treatment in the early stages of pregnancy. The result of the meeting will be communication with all the local and neighboring physicians to get their co-operation in this work, so that every mother who does not receive such care from a physician of her own will be given medical supervision for four or five months before the baby arrives.

Those present at the meeting included Dr. McNeil, president of the Western Academy of Medicine; Dr. Harris, secretary of the Western Academy of Medicine; Dr. Robert Ferguson, head of the pre-natal clinic in London; Miss Bertha Smith, supervising child welfare nurses; Mrs. Stapleton and Mrs. Allison, child welfare nurses; Miss Barrons and Mrs. Patterson, board of health nurses; Miss Hanson of the London Health Association; Miss Wilson, Miss Skepper and Mrs. Hart of the Victorian Order of Nurses. Dr. Hill presided at the meeting.

It is the intention to give every mother in London not otherwise receiving it such pre-natal supervision and treatment as may be of benefit to her and to the reduction of infant mortality. Those mothers having their own physician will not be included, but there are a large number of mothers in London who receive no medical attention whatever before the baby arrives, and it is those whom the health bodies of the city hope to reach.

There is now in course of preparation a circular letter, which is to go to all the physicians in London and vicinity, explaining the proposition, and asking for their co-operation and suggestions. It is expected to put the final plan, as approved by all, into operation at an early date, probably within a month.

ENVIRONMENT DID NOT DO THIS MAN VERY MUCH GOOD

Samson Sprickett Slept Each Night at Police Station and Is Finally Arrested For Stealing.

Samson Sprickett, who prior to the last two weeks resided in Hamilton, was arraigned in police court today on a charge of stealing a club bag, a shaving outfit and some clothing from Edward Haydens of Detroit. Although he was willing to plead guilty the magistrate refused to accept the plea. On the request of Chief of Police Birrell, the prisoner was remanded a week.

Sprickett admitted that he had served recently, a term of imprisonment in Hamilton for vagrancy. Since coming to this city, he slept each night in the local police station.

POLICE PROTECT SPEAKER.

New York, Jan. 4.—Canadian Press.—A barrage of coughs and a few moderate epithets fired by Sinn Fein sympathizers accompanied the address of Major George Haven Putnam, the publisher, on "The Relation Between England and America," at the Erasmus Hall High School in Brooklyn last night. Thirty-one policemen guarded the meeting, this precaution being taken because his last attempt to deliver the address on October 11 last was stopped by Sinn Fein sympathizers.

STEEL PRICES REDUCED.

Pittsburg, Jan. 4.—The Jones & Laughlin Steel Company, one of the largest of the independents, today reduced its selling price on steel pipe and other tubular goods to the level of the industrial board prices of March 21, 1919. This move practically places all steel products on the basis of the United States Steel Corporation.

UNIVERSITY COMMISSION HOLDS SESSION; FARMERS INVITED TO GIVE VIEWS

Toronto, Jan. 4.—The royal commission on university finance this morning held their first session for the new year. Several farmers were invited to be present in order to outline their attitude towards the whole question of university finance. The main attention of the commission was devoted, however, to deliberation on the evidence already submitted at last year's sessions. The commission hopes to be able to table its definite report on the university situation shortly after the Legislature reassembles.

MRS. CARUSO APPEALS FOR MINIMUM OF NOISE NEAR HOTEL

New York, Jan. 4.—(Canadian Press).—Mrs. Enrico Caruso has issued an appeal through the newspapers requesting that truck drivers move slowly and chauffeurs of automobiles avoid using their horns or claxons while in the vicinity of the Vanderbilt Hotel, where her husband is ill with empyma. Motormen have similarly been requested not to round street car gongs while passing the hotel.

The Vanderbilt Hotel is at the corner of Thirty-fourth street and Park avenue, where there is heavy traffic 24 hours a day.

U. S. SOLDIER DROWNED.

New York, Jan. 4.—One man was drowned and four other given an icy plunge into 34 feet of water in Brooklyn yesterday. The truck, used for transportation supplies for the army mine planters, dashed overboard when Pte. Mariano Facceola tried to avoid a collision with an electric tractor. Facceola was drowned before his rescuers could force him from the wreckage. The other four men were only slightly injured. Two of them were able to return to duty.

WHIRLWIND CAMPAIGN AGAINST ALL LIQUOR IMPORTATION SOON

Temperance Convention To Be Held Here This Month to Discuss Plans.

Final arrangements for the temperance convention to be held in this city some time during this month are being made at an executive meeting of the county temperance organization, of which Professor James H. Bowman is the chairman, this afternoon. The date will be decided upon and the program drawn up.

The convention will be a large one, delegates coming from all parts of Middlesex. A whirlwind campaign against inter-provincial shipment of liquor will follow the convention.

CLEVELAND CHIEF GIVES ORDERS TO "SHOOT TO KILL"

Crime Wave in Ohio Metropolis at Its Height.

"CLEAN-UP" COMMENCES

Troops Assist Policemen in Round-Up of Criminals.

Cleveland, Jan. 4.—Following two more daylight hold-ups in the business district, "shoot to kill" orders were issued last night to all policemen by Chief of Police Frank W. Smith. Mayor W. S. Fitzgerald told Chief Smith that hereafter emphasis in the clean-up campaign would be placed on getting dangerous criminals rather than minor offenders.

Two new police "flying squadrons" were commissioned.

In answer to an appeal from Chief Smith, 60 members of the Loyal American League with sixteen automobiles, were assisting the police last night.

While Carl Kurdziel, treasurer of the Lincoln Heights Savings and Loan Company, was taking $10,000 in cash and checks to the Cleveland clearing house yesterday, two men jumped on the running board of his automobile and at the point of a gun ordered him to drive under a viaduct. Because he would admit his satchel contained only 8,000 in checks, Kurdziel was beaten unconscious, after which the robbers fled. Approximately $2,000 hidden under a seat cushion was discovered. The armed men later held up Jacob Berkowitz in his pawn shop. When a crowd collected in front they fled with only $50 and a watch. County Prosecutor Edward Stanton yesterday asked the county commissioners to approve a reward of $500 for the apprehension or information leading to the apprehension of the bandits who killed Wilfred C. Sly and George K. Fanner during a $4,200 pay roll robbery on Friday. Three youths are being held as suspects in connection with the crime.

ANOTHER NEGRO LYNCHED.

Meridian, Miss., Jan. 4.—Robert Lewis, a negro accused of the murder of T. W. Greer, a railroad watchman, was lynched here today by a mob which forced the policeman who had arrested Lewis to surrender his prisoner.

FINAL VOWS TAKEN BY NINE ON MONDAY

Chapel of Sacred Heart Convent Scene of Impressive Ceremony.

Monday morning the chapel of the Sacred Heart Convent, Queen's avenue and Colborne street, was the scene of a very impressive ceremony, in which thirteen young women were clothed in the distinctive dress, or habit, as it is called, of the Congregation of the Sisters of St. Joseph. At the same time seven novices were admitted to the taking of their temporary vows of religion, and nine novices had the privilege of pronouncing their final vows, thus consecrating themselves forever to the love and service of the Divine Master.

Family names of the young ladies and those chosen by them in the Community are as follows: Miss Gleeson, Sister M. Grace; Miss Patricia Sullivan, Sister M. Denise; Miss Madeline Sullivan, Sister M. Dolorosa; Miss McGrenere, Sister M. St. Martin; Miss Mullin, Sister M. Amelia; Miss Etue, Sister M. Bernice; Miss Walker, Sister M. of the Angels; Miss Whaling, Sister M. Leocrita; Miss Kelly, Sister M. Sabina; Miss Marcott, Sister M. Hedwidge; Miss Fleckser, Sister M. Ruth; Miss White, Sister M. Carmelita; Miss Cronyn, Sister M. Eileen.

The names of the novices admitted to first vows are: Sisters M. Corona, M. Frances Joseph, M. Placidia, M. Veronica, M. Annunciata, M. Alexandrine, M. Leocadia, M. Francis Xavier, M. Redempta.

The names of those sisters who took their final vows are: Sisters M. Ancilla, M. Frederick, M. Gerard, M. Sylvia, M. Lutgarde, Mary Joseph and M. Lucy.

Bishop Fallon Celebrant.

The celebrant of the mass was Right Rev. M. F. Fallon, D.D., assisted by Rev. Fathers Arthur Finn and John Young. Present in the sanctuary were: Mgr. West, St. Thomas; Mgrs. O'Connor and McKeon of this city; Rev. Father McLaughlin, C. SS. R., Toronto; Rev. Father McLaughlin, C. SS. R., city; Rev. Fathers Forster, Hanlon, Foley, Stanley, Mahony, McCarthy, Valentin, Brisson, Ford, Moran, Getz, Dignan, Corcoran, Garney, Neville, Pocock and Sullivan; Brothers Edward and Theobold.

Bishop Fallon in a short sermon on the advantages of the religious life praised the choice made by the young ladies as Christ praised Mary for choosing the better part, as recorded in the Gospel.

The chapel, a gem of architectural art, and the altars, beautiful even unadorned, were gorgeous with their numerous lights and floral decorations. The choir sang beautiful Christmas hymns in a soul-inspiring manner, also the hymn at holy communion, "Go Ye Forth, O Sion's Daughters."

IN SERIOUS CONDITION

FATHER LAURENDEAU of Ford City, formerly of London, who is in the hospital at Windsor, seriously ill with the sleeping sickness.

FATHER LAURENDEAU IS SERIOUSLY ILL

Former London Priest in Hospital With Sleeping Sickness.

WINDSOR, Jan. 3.—Rev. Father F. N. Laurendeau, pastor of the Lady of the Lake Church, Ford, is in Hotel Dieu seriously ill with sleeping sickness.

Rev. Father Joseph Gerard, Windsor, is also ill with the same disease in Hotel Dieu, but is improving.

Reports stating that Rev. Father T. V. Moylan, C.S.B., principal and vice-president of Assumption College, Sandwich, died from illness diagnosed as sleeping sickness in a Detroit hospital yesterday, were denied by professors of the college this morning.

Father Moylan has been ill for several weeks, and about ten days ago was removed to Harper Hospital, Detroit. He has been connected with Assumption College since his ordination about 15 years ago. He was president of St. Thomas College, Waco, Texas, for a year.

TAKES FORD CHARGE.

STRATFORD, Jan. 3.—Rev. Father McNab, assistant priest at St. Mary's Parish, has been transferred to Ford City, where he will take charge of Father Laurendeau's church, the latter retiring through ill-health. Rev. Father Weber, formerly of Hesson and Stratford, is now assistant here.

CHILD KICKED BY COLT

Three-Year-Old Robert Tassman in Critical Condition in Hospital.

Robert Tassman, 3-year-old son of Robert Tassman, R. R. No. 8, London, is in Victoria Hospital, the result of being kicked in the head by a colt on Monday afternoon. He was rushed to the hospital and an operation was performed, and this morning it was reported that his condition was good. It is thought that the boy may recover.

READY TO FALL IN LINE

Says Labor Men Want to Help in Constructive Movements

"The fight is over, and lost," said Harry Wray, president of the London branch of the Independent Labor party, on Monday night, referring to the Saturday election. "But we want to show that the labor men can be good losers, and we are ready to fall in line and boost any good work, any constructive movement, for the advancement of London and the increased welfare of London's citizens as a whole. We will live to fight another day, but in the meantime we desire to forget all election unpleasantries and hard feelings, do our full share to boost London, and help to make the bigger and better London that we want, just as much as the Chamber of Commerce, Rotary Club, or any other organization or party."

CHILDREN OF LONDON DEPOSIT $14,216.65 IN THE PENNY BANK

Stand Third in List of Report for Year Just Issued.

London stands third in the list of cities whose school children deposit money with the Penny Bank, according to the directors' report and financial statement for the year ended June 30, 1920, which has just been issued. City children deposited $14,216.65.

Toronto led the list with a deposit of $356,753, while Ottawa was next with $37,543. The total deposits for the Dominion increased from $502,504.64 to $606,404, an increase of $103,899 or more than twelve per cent.

The directors attribute this success to the loyal spirit of co-operation that exists between school teachers, bank clerks and the education authorities. They maintain that the bank ought to be operating in every school in every centre in Ontario, and hint that an organized effort in this direction may be attempted soon.

A. TORY PRESENTED WITH PURSE OF GOLD

G. T. R. Official Has Been in Railroad Work Since 1874.

After 46 years' railroad service, A. Tory, Grand Trunk Railway storekeeper in London, has retired, and last night was presented with a purse of gold by the staff of the stores and car works office.

After speeches had been made by C. Forrester ((superintendent), I. N. Clark (master car builder), Henry Farnan, G. Fisher, F. A. Rutherford, W. Tichbourne and George H. Allen, Mr. Tory replied:

"I thank you all from the bottom of my heart," he said. "In the many years that I have been connected with the stores department, I have seen many changes, both in the car department heads and also in the shops. Many foremen who were here when I came have passed away. Others have taken their places. Several changes have occurred in my own department. Quite a number have also passed away. I don't know that I can say any more to you, only to thank you for the very efficient help that I have had from you at all times, not only from my own staff, but from those connected with the car department, especially the foremen, who have been willing at all times to meet the desires that we have expressed in connection with the handling of materials."

A. G. Wanless made the presentation and I. N. Clark acted as chairman.

Mr. Tory entered the offices of the Great Northwestern Railway on February 9, 1874. He went to Montreal at the time of the fusion of the Great Northwestern and the Grand Trunk. In August, 1882, he was with the general accountant, and assisted in making the closing entries of the Great Northwestern Railway. Later he transferred as Hamilton as foundry accountant, and later was supervisor of the company's bolt and nut plant. In September, 1899, Mr. Tory came to London as divisional storekeeper for Ontario lines, but at the same time retained supervision of the bolt and nut works. This latter position he held until two years ago, when the plant was closed.

MOORHEAD OUTLINES COMMITTEE PROGRAM

Gravel Roads Will Receive Immediate Attention, He States.

Ald. C. G. Moorhead, who probably will be chairman of No. 2 committee this year, today outlined some of the work likely to be taken up by that body immediately after its formation. Attention will be given at once to streets on which work has been held back because of the paving program, he declared. A number of gravel roads have been petitioned for for some years, and it is only fair to the petitioners and to the whole city that the work should be undertaken now.

Another important matter will be the readjustment of sewer charges, which, he claims, are excessive, owing to the work being done in the winter. The court of revision has ruled that the additional cost must be borne by the general rate. Adjustment of charges for street oiling will be another task.

The man who went over to Europe immediately at the close of the war to re-establish Canadian trade across the seas, and whose work in that respect earned him the praise of businessmen everywhere in Canada, is to be the special guest of the London Canadian Club at their annual dinner on Friday night of this week at the Tecumseh House.

Mr. Lloyd Harris has had a remarkable business career, particularly on its foreign side. Before going to Europe he was connected with the Canadian trade mission at Washington, and prior to that he had been a resident in London, England, at various times in connection with important Canadian enterprises. He was recently appointed a member of the Dominion Advisory Council for Industrial Scientific Research, and is taking an active part in the work of this body, which is so closely connected with the development of the resources of the Dominion.

London, as a city, is on the tide of a great industrial advance. The opportunity to hear Mr. Harris is one that should not be missed, and the Canadian Club is making it possible for every businessman in London who desires to do so to hear him.

ADVERTISER NIGHT STAFF HEARS PITTSBURG SINGERS

With Aid of "Y" Radio Club Enjoy Concert Miles Away.

To be part of the audience of a concert given at the Westinghouse Electric Company plant at Pittsburg, Pa., was the good luck of the night editorial staff of The Advertiser last night. It all happened thus:

At 8:30 o'clock the telephone rang, and the voice on the other end asked if the night editors would like to hear a concert in Pittsburg. Having received an affirmative answer, the voice said: "This is the 'Y' Radio Club. We are connected with Pittsburg. Listen."

Then could be heard a song by a Pittsburg man and later a short talk. Then the Pittsburg operator said: "Stand by at 9:45 for another big concert."

President J. E. MacIntosh and B. Graham were operating here. They have succeeded in amplifying the sound received here 100 times.

Later members of The Advertiser staff heard New York sending in the Morse code, and also St. Augusta, Florida.

The members of the Radio Club plan to secure a special horn to attach to the instrument here, so that the sound can be carried to the people on the street.

TWO HOLDUPS AND BURGLARY OVER NIGHT

"What Has Police Commission Done to Protect Us," Ask Citizens.

With the reporting today of two holdups of individuals and of the burglarizing of the cigar store and poolroom of D. Cusolito, 74½ Dundas street, citizens are asking "what has the police commission done to assure us the protection due to us as ratepayers and citizens?"

The two holdups, which took place between 11 p.m. and midnight last night, were both pulled off by the bandits within a block or two of each other, one on Talbot street and the other on John street, while the burglarized store may almost be said to be in the same district, being located on Dundas, between Talbot and Ridout streets. Residents in this section also call to mind that Ruddy's bakery store, 208½ Dundas street, was the scene of a daring holdup on Christmas eve shortly before midnight, when nearly $100 was secured by the masked thieves, who made their getaway in an automobile after firing a shot to scare off pursuit.

In none of their attempts at securing easy money last night were the robbers successful in making any large hauls, the holdup of the two individuals only netting them $9.50, while at Cusolito's tobacco store the till only yielded 65 cents in cash, but the visitors, who had gained an entrance by breaking a pane of glass in the front door and then pulling back the door latch, apparently filled their pockets with chocolate bars, cigarettes and cigars valued at about $40. The police were the first to know of the burglary, the broken glass being discovered when the constable on the beat was trying the store doors, and Mr. Cusolito was notified about 2 o'clock this morning.

WESTERN STUDENTS ARE BACK AT WORK

University Halls Are Again Crowded.

EXAMINATIONS ON SOON

Much Burning of Midnight Oil —Social Functions Barred.

There was a good muster of students at the Western University today after the Christmas vacation. The mid-year examinations take place in three weeks, and from now until these important events, there will be a period of real hard work. All social functions are barred and the midnight oil and damp towels will be in evidence until the pinnacle of efficiency has been attained.

There are 534 students on the register, all told, including the faculties of medicine, public health and arts, but the advent of the summer school will add 50 or more.

The department of war trophies, Ottawa, is at present allocating relics among the various universities and the Western has just received as its share a German 105-millimetre gun and carriage complete. This grim reminder of the great war has been given a temporary position near the main entrance.

HOUSING COMMISSION HAS ITS TROUBLES

Geo. Wood Threatens Legal Proceedings Unless Agreement Kept.

While the housing commission has been proceeding quietly with its work for the past two years it has had more than one thorn in its path. Most of the citizens who purchased houses are thoroughly satisfied, but at least one applicant is out for better conditions.

This is Mr. George Wood, 325 Salisbury street. Through his solicitor, he requests "that the housing commission carry out its agreement with him for the completion of a 1½-story house, which he now occupies."

The solicitor states that:

"Mr. Wood complains that for months before he went into possession of the house under the written undertaking an attempt had been made to obtain $500 more from him than he agreed to pay the commission, and that the contractor told him that unless he came over with the money the house would not be finished and that the commission has not compelled the contractor to finish the house they agreed to erect for Mr. Wood under their agreement with him.

"Mr. Wood states amongst other things that your contract calls for No. 2 Milton pressed brick, whilst an inferior quality of another make has been used, and the bricks under the gables are loose and without mortar. The roof is not sheeted with the materials specified nor is the sheeting laid close, and joints broken, nor has it been covered with either building paper or asbestos, and the water comes through with every rain.

"One window sash in the front room is too small; one in the dining-room is not fitted nor hung with weights, and one light of glass in the cellar window was broken before he occupied the house.

"The glass put in the front door is plain glass instead of beveled plate glass, and the side door are one and one-quarter inches thick instead of one and three-fourth inches. There are no keys for the front door and only one for each of the other outside doors, instead of two each. The coalbin is built of old inch rough lumber instead of good two-inch dressed lumber.

"The rain comes through around the windows on the wind side during every storm, and the walls are wet for days afterwards some of them are now wet.

"Mr. George Wood instructs me to give you notice that unless the building is completed at once and an allowance made for the damages he has sustained, he will be compelled to take proceedings."

TREASURE HUNT.

The treasure hunt of the boys' section of the Y. M. C. A. proved quite an exciting and enjoyable affair. Two groups of 30 started, one junior and one senior, captained, respectively, by Arnold Ramer and Bob Williamson.

Each team was furnished with an envelope, which was opened at the start outside the Y. As instructed therein, the juniors went north, while the seniors headed for the south, each bound for a certain location. Here further clues were picked up, and the trail finally led to the corner of Dundas and Richmond streets, where an envelope was discovered in the pocket of the "cop" who directs the traffic at this busy centre. As directed, the junior group made for the establishment of Wendell Holmes on Dundas, where they each received an apple. On sampling the fruit, four of the "hunters" were fortunate in finding in place of the core a brand new copper coin of the realm, on presentation of which they each received a useful prize. The lucky winners were Jack Rankin, Joe Cohen, Fred Martin and Arthur Jackson.

Meanwhile the senior team, having received their marching orders from the capacious pocket of the policeman, made for the premises of the R. M. Briscoe Company, where Mr. Briscoe dealt out similar rewards to those received by the juniors, the senior winners being Freeman Talbot, Donald Chapman, Ben Salvensky and Eric Chapman.

In addition to these prizes, Arnold Ward of the juniors, on returning to the "Y," received a hockey stick for discovering the greatest number of envelopes, and Edgar Kelly, seniors, got the same acknowledgment.

ARTISTIC LADIES' WEAR CO.

211 DUNDAS STREET, LONDON

BANDITS GOT ONLY $9.50 FROM TWO HOLDUP VICTIMS

Talbot Street Locality Scene of Dastardly Outrages on Monday Night.

USED BIG AUTOMOBILE

One Man Threatened Victims With Gun; Other Cleaned Out Pockets.

Only $9.50 repaid the daring efforts of two masked bandits, who between 10:50 and 11 o'clock Monday night held up and robbed at the point of a gun, Vincent Perry, 662 Talbot street, as he was walking along John street, between Richmond and Talbot streets, and a few minutes later, E. Palser, 40 Grosvenor street, at the corner of Talbot and Oxford streets. The fact that the robbers made use of a powerful car belonging to Arthur White of this city was established, when the stolen car was found abandoned in the north end of the city this morning.

There is little doubt that the same men committed both robberies, as the descriptions given by Vincent Perry and E. Palser tallied both as to the appearance of the men and the methods used. According to Mr. Perry one of the men was young, of slight build, and wore a dark cap and dark overcoat. As the second man kept always to the rear, Mr. Perry obtained only an indistinct impression of his appearance.

On both occasions the men used a high-powered car of a late model, and a car of this type belonging to Mr. White was stolen about 10 p.m. from Clarence street, between King and Dundas streets, the police believed that the men stole the car to carry out the robberies.

Owing to the fact that Mr. Perry deposited a sum of $77, which he had been carrying, in a local bank during the afternoon, the robbers were cheated out of a much larger haul. The men did not take a bill-folder and bank book belonging to Mr. Perry, as was first thought, these articles being found later in a pocket of the overcoat, where they had apparently been deposited by one of the men.

According to the story told by Mr. Perry, the men drove the car to the curbing, near where he was walking west on the north side of John street, halfway between Richmond and Talbot streets. One of the men sprang in front and covered him, while the other approached him from the rear.

"Put up your hands," said the man in front, "Put 'em up."

Mr. Perry did not wait to argue. He put up his hands.

One of the men opened his great coat and frisked through every pocket with a professional touch. Besides taking $5 in cash the removed a box of tablets which they apparently thought was a whistle. When they had finished the men hurried around the back of the car, drove rapidly to Talbot street and then headed south.

Mr. Perry immediately notified the police and a few minutes later they arrived. While the police were in Mr. Perry's house the men were holding up Mr. Palser, two blocks away, from whom they obtained the sum of $4.50 in much the same manner as used with Mr. Perry.

No trace of the men had been found up to press time today.

BERNSTORFF VIEWS HARDING FAVORABLY

Thinks Our Policy for Next Four Years Will Be Complete Political Isolation.

WASHINGTON, Jan. 4. — Count Johann von Bernstorff, former German ambasador to the United States, who is now president of the German League of Nations Society, has been telling his people about political conditions in America and advising them to enter into cordial relations with this country. Copies of a speech he delivered recently at Frankfort, which have been received in Washington, contain comments on President Wilson and President-elect Harding. He represents the president-elect as favoring complete political isolation for America and welcomes Harding's attitude toward the League of Nations as favorable to Germany.

Count von Bernstorff advocated better German press representation in the United States and suggests that German newspapers make arrangements with American newspaper correspondents in Germany so that "the truth about Germany may become known in America." The address was warmly applauded by an audience of 40,000 persons.

Among other things Count von Bernstorff said:

"If in nine German newspapers there appeared articles friendly toward America, and in one German newspaper an unfriendly article, one might reckon with surety that the one article would be cabled to America, while the nine others would be disregarded. Unfortunately, it is to be feared that now, after the war, on account of the unfavorable rate of exchange, the matter will be worse. On the other hand, the great French and English newspapers constantly maintain good representation in America. At the very least it should be recommended that the German press now make connections with American correspondents in Germany, in order to provide that through their mediation the truth about Germany may become known in America.

"In regard to politics, we should not expect much from America. This may be inferred from the brief statement of former American Ambassador Hill in Berlin, who believed that for America there is only one foreign policy—the Monroe Doctrine. America's interest in Europe rests only on economic and humanitarian cosiderations. Wilson's failure in foreign politics followed upon his recognition that a policy of isolation could not harmonize for any length of time with an American economic alliance with European states. Therefore, Wilson attempted a reconciliation between the contending parties, in which neither victor nor vanquished should be recognized, and for the avoidance of future wars he sought the formation of a league of nations. After Wilson's failure the idea of America's political isolation was successfully revived, and, simultaneously, the idea of the formation of an economic alliance. Therefore, since in America it has been considered impracticable to asume the obligations arising under the Versailles treaty, the recent presidential election resulted in the defeat of Wilson, who, four years ago, had been chosen peace president.

"Now, the Republican party has achieved victory upon the issue of a foreign policy without any regard to the domestic struggle between the conservatives and the radicals and the disreputable social elements. This conclusion will continue in force for four years. Wilson had declared the alternative 'for or against the league and the Versailles peace.' Yet there are many groups in America in favor of the league, but against the Versailles Treaty. Therefore, Harding, while against the present league, advocated the revival of the principal in The Hague Court of Arbitration and of a plan for the free association of nations without endangering the govereignty of any of the participating States.

"In answer to objections relative to the lack of power of The Hague tribunal to enforce its decisions, Harding explained: 'If The Hague tribunal has no teeth, we can supply them.' Thereby Harding has declared for the principle of America's complete political isolation. It is certain that Harding will not accept the Versailles Treaty without the well-known Republican reservations, and it is even possible that by means of a resolution of the Congress the state of war with Germany will be declared ended.

"This attitude of the United States can only be welcomed by us. It corresponds also with the attitude on this question of the Pacific Congress and of the German Government, which desire, in place of the present League of Nations, the establishment of adequate legal maxims. Again, the explanations of the American representatives at the Brussels finance conference make it clear that there can be no question of the complete political isolation of the United States.

"Germany must then accept the American policy of an economic alliance with Europe, even if it will not have the same economic independence as formerly. We will always proceed in the best manner if we carry on our work of reconstruction with American aid, because in that way we will be forming no political alliances, as so many European states which require assistance are doing.

"When Russia has freed herself from Bolshevism America will, with a special interest, share in the reconstruction of that country. For these purpose it will provide only the necessary capital, but not the labor. This latter Germany must supply."

Count von Bernstorff recommended the resumption of relations with the German-Americans, upon whom, he declared, "we must also depend for the revival of our export business with the United States."

City Briefs

Master Jack Wilkinson of Montreal has returned home after spending the holidays with his grandmother, Mrs. A. G. Mackintosh, Piccadilly street.

MONEY LEFT TO HER.—It was reported that through the death of an uncle in Scotland, Mrs. Thomas Hamlyn, 417 Hill street, has received several thousand dollars.

CURLING CLUB EUCHRE.—Owing to the fact that there is no ice available, the London Curling Club will hold a weekly euchre party in the clubrooms tonight.

WRIT FOR $246 ISSUED.—A writ has been issued in county court by Graydon & Graydon on behalf of Vallens & Co. Limited, against James MacDonald of Hamilton, claiming $246, due on account for goods sold and delivered.

ANNUAL MEETING.—The annual meeting of the Children's Aid Society will be held on Tuesday, January 11, at 3:15 p.m. in the court house. Reports on the various branches of the organization's work will be presented and officers will be elected:

TRIAL BY JUDGE.—William Thomas Oldrich, who appeared in police court last week and elected trial by jury for alleged theft of liquor from a Grand Trunk car, came before Judge Macbeth today and changed his election to trial by judge. January 11 was the date fixed. A. M. Judd appeared as his counsel.

FARMERS INDORSE C. OF C. EFFORTS.—The Vandeleur Club of the United Farmers of Ontario, Markdale, has sent a resolution, signed by W. R. Graham, to the London Chamber of Commerce, indorsing the efforts of the Western Ontario United Boards of Trade to procure suitable farm labor for the southwestern farmers.

CANNOT TRACE AUTO.—The police have been unable to secure any trace of a motor car owned by Vincent Colgan, which was stolen from in front of his home on Queen's avenue early on New Year's morning. Another machine, owned by Joseph McIntyre of Dorchester, which was stolen at about the same time was found abandoned shortly after.

STATUTORY DECLARATIONS. — Statutory declarations must accompany income returns made to the city assessment department this year. The first batch of these was mailed Monday and must be returned within ten days. The forms, when they are filled out, must be brought to the assessment department and sworn to there, or must be sworn to before a notary public.

HAILS FROM TORONTO. — John Grant, who claims Toronto as his home, was arrested here on Saturday, charged with vagrancy. He told the magistrate that he came to this city one week ago in search for work, but that he found none. As the boy said that he had relatives in Toronto who would support him, the magistrate remanded him to jail one week so that the youth's aunt could be acquainted with his plight.

CONDITTION REMAINS CRITICAL.

Freedricton, N. B., Jan. 4.—The condition of Col. Harry F. McLeod, M.P., who is suffering from his fifth attack of pneumonia, was ver ycritical at noon today. From his bedside early this afternoon it was reported that his condition showed no improvement, and that it was hoped the crisis in the attack would come before too much of his strength had been explained.

MUSICIANS' UNION.—At a recent meeting of the local Musicians' Union, the following officers were elected: President, Harry Wooster; first vice-president, M. J. Rourke; second vice-president, Robert Langton; secretary, C. N. Perrin; treasurer, F. H. Dawson; sergeant-at-arms, J. C. Crisci; executive committee, Robert Heard, S. S. Rogers, J. T. Darling, E. Furanna; auditors, E. Briglier, W. Hodgins; delegates to trades and labor council, W. A. Bleuthner, J. Cunliffe and F. Young.

SAYS LUST OF POWER IS GROWING AMBITION OF BRITISH MINISTRY

Manchester Guardian Says Clause in Secrets Bill Is Symptom.

LONDON, Dec. 26.—(Canadian Associated Press).—The Manchester Guardian is very glad to see that the Government has promised to amend its official secrets bill in such a way as will satisfy those who very rightly saw in it the possibility of a real and most arbitrary interference with the legitimate functions of the press. The head and front of the bill's offending was the sub-section which prescribed a maximum penalty of two years' hard labor for any person who "retains for any purpose prejudicial to the safety or interests of the state any official document, whether or not completed or issued for use, when he has no right to retain it, or fails to comply with any directions issued by any Government department or any person authorized by such department with the regard to the return or disposal thereof."

The phrases here used are extraordinarily vague, says the Guardian, and under their literal application there is no newspaper editor in the country who might not be ordered to yield up an "official document" on the authority of any member of the executive who objected to the use that was being made of it. Many such documents come into the hands of editors, and the press has often rendered great public service by the use of them, though that service may not have suited the interests of individual ministers.

Executives are not quite such one and indivisible entities as that excellent phrase "the state" would suggest. Individual ministers have been known to supply responsible journalists with documents and information that by no means suited the purpose of their colleagues. One effect of the bill as it stood would have been to give a single minister the immediate power to withdraw such information. Under the vague wording of the section any number of quite illegitimate occasions for interference might arise, and the fact that powers of this kind should have been inserted into a bill which is properly concerned with the prevention of espionage is a significant symptom of that lust for power unhampered by public criticism which is the growing ambition of the executive.

CAUGHT WINKING AT MISS CYNTHIA GREY

Fat Little Mouse Put to Flight by Indignant Telegraph Editor.

Early this morning there was much commotion in the home of the women's department of The Advertiser, caused by no less a personage than Miss Cynthia Grey. Cynthia, as she is familiarly known to older members of the staff, is always among the first arrivals, for each morning she has a large bundle of letters to look through and answer.

Today she gathered up her correspondence and tripped merrily into her office, after bestowing sweet smiles upon the gratified city and telegraph editors, who bowed and scraped return greetings.

Five minutes elapsed, and the city editor was startled upon hearing the fair Cynthia's voice raised in alarm. He rushed from his sanctum, grabbing a paper weight as he went, for surely Miss Grey was being murdered.

The telegraph editor, though short and fat, had already arrived on the scene of action, and with a copy of the morning edition was busily chasing a fat little mouse as it hopped in and around Miss Grey's desk, playing tag with the aforementioned stout gentleman. However, on the arrival of reinforcements, Mr. Mouse decided that discretion was the better part of valor, and retired in good order to his home behind the radiator.

"He just sat up in one of those pigeon-holes not six inches from my face," said Miss Grey, in recounting the incident, "and he winked at me several times before I had time to get away."

This action on the part of Mr. Mouse was certainly not the proper thing, as he had not been introduced in th eregulation manner, and Cynthia does not approve of winking, anyway. No doubt Mrs. Mouse will take her husband to task for flirting with the good-looking Miss Grey.

TORONTO STOCK EXCHANGE.

Toronto, Jan. 4.—Toronto Railway, Canada Steamships common and Atlantic Sugar were among the features of this morning's trading on the Toronto Stock Exchange. Firmer quotations prevailed throughout the entire list, while Victory bonds were much stronger, some of the issues advancing nearly a point on light transactions. Toronto Railway gained 3 points at one time during the morning and the noon close came with the stock at 63, a gain of 2½ points. Canada Steamships common moved up 1¼, and the preferred stock 1. Atlantic Sugar was higher by a full point at 21½. C. P. R. and Brazilian were stronger.

JUDGMENT GIVEN IN THREE ACTIONS

Heard at December Session of County Court.

Judgment was handed out today in three county court cases heard at the December assizes.

In the action of Henry and Neal McAuley against Arden Sutherland of Mount Brydges, an action to collect payment for some cement work, the plaintiffs received $57.90 in addition to the money paid into court less $30 allowed on the defendant's set off. There are restrictions as to costs.

The action of John and Margaret Crawford against Elizabeth E. and John Smith, was dismissed with costs against the defendant, John Smith and without costs as against the defendant Elizabeth E. Smith.

The action of Munro Hager against Nellie McNorgan was dismissed. The plaintiff alleged misrepresentation in the sale of a house, a brick veneer dwelling on Wreay street, which he claimed was sold to him as a solid brick house.

RUMORED G. T. R. STAFF CHANGES ARE NOT TRUE

Declares General Manager Whittenberger In Interview, Only Shantymen's Yarns.

General Manager H. E. Whittenberger, of the western lines of the G. T. R., with headquarters in Chicago, flatly denied that he was to resign from the company's services, when interviewed by The Advertiser today, as he was passing through this city en route from Montreal to Chicago. A rumor to this effect has been widely circulated in railroad circles during the past few weeks.

"There is absolutely no truth in it," he said, "nor do I know of any other changes which are to be made. The rumors were nothing but shantymen's stories, so do not put any faith in them."

General Superintendent W. R. Davidson of the western lines, accompanied Mr. Whittenberger.

INVESTIGATION OPENED

Deputy Fire Marshal Jordan, Underwriters and Adjusters, Visit Scene of Last Week's Blaze.

Deputy Fire Marshal E. Jordon, Toronto, accompanied by Fire Chief Aitken, Mr. Warrington, representing the underwriters, and Mr. King, for the adjusters, today made an investigation as to the origin of the fire which occurred last week in the clothing store, Dundas street, where a "manufacturers' unloading sale" was being conducted.

The fire apparently originated in the rear of the cellar, next the market square, and burned with great fierceness while it lasted, the elevator shaft having acted as a funnel to transmit the flames to the main floor. No theory as to how it started can, however, be advanced, pending the official report.

ADVISES WILSON TO CABLE INSTRUCTIONS TO U. S. MEDIATOR

British Premier Submits Suggestion to Head of League.

Geneva, Jan. 4.—Paul Hymans, president of the assembly of the league of nations, received a telegram today from Mr. Lloyd George, the British prime minister, embodying a suggestion as to the further course to be taken by President Wilson on the question of mediation between the Turkish Nationalists and the Armenians. Mr. Lloyd George in his message suggested that President Wilson cable his instructions on the mediation question direct to the American high commissioner in Constantinople.

Earl Curzon of Kedleston, secretary of state for foreign affairs, said in transmitting this message for the premier, that his course had been recommended by the British representatives at Constantinople and Tiflis. The message suggested further that the American commissioner would act in concert with his colleagues there.

In notifying the league of nations last month that he had designated Henry Morgenthau as his representative in the proposed mediation between the Armenians and the Turkish Nationalists, President Wilson said he would await advices from the council of the league of nations as to the avenues through which his proffer should be conveyed, and the parties with whom his representatives couid get in contact.

AGRICULTURE COURSE

Opened Today in Ailsa Craig by Roscoe Finn, B.S.A.

The ninth annual Middlesex county course in agriculture was opened at Ailsa Craig this morning by Roscoe A. Finn, B.S.A., and will continue until January 28. This course is being given in the town hall in Ailsa Craig. A course in domestic science will be given in the Ailsa Craig public school building from January 17 to 28.

As part of the course in agriculture, lectures will be given on live stock, feeds and feeding, field crops, dairying, poultry, fruit growing, soils, manures, agricultural botany, insects and fungus diseases, bacteriology, farm arithmetic and farm accounts.

G. W. Collins of Fort William will assist Mr. Finn throughout the entire course. F. L. Ferguson of the drainage department of the Ontario Agricultural College will give a special address on Thursday of this week. On Friday evening, John Gardhouse of Weston will speak on "Beef Cattle." W. J. Fairweather of the Ontario Agricultural College will speak on January 26 on the subject of "Farm Economics." On January 18, Dr. W. E. Baker of Toronto will speak on "Veterinary Science."

GRIEVE AND RYCKMAN MENTIONED FOR WARDEN

Two Possible Candidates Both Defeated Monday.

The annual battle for the wardenship of the county of Middlesex, which is waged every January session of the county council, promises to be simplified by the defeat yesterday of two possible candidates, J. E. Harrison of Parkhill and Samuel Oakes of Strathroy. Reeve Grieve of Westminster and Reeve Alton Ryckman of Delaware are regarded as the two outstanding candidates at present.

HUGE INCREASE IN THE INLAND REVENUE RETURNS FOR YEAR

Figures for 1920 Beat Those of Previous Year by $1,657,890.40.

The combined figures of the excise and war tax returns for the year 1920 show the huge increase of $1,657,890.40, when compared with the year 1919. The sales tax brought in a total of $1,400,218.87, while the luxury tax netted $72,604.70. In the excise department the value of the duty on spirits, ex-warehouse, was $12,698.05, and the malt, ex-warehouse, amounted to $43,312.98. Factory cigars realized $113,938.05, and cigars, ex-warehouse, $44,516.10. The details are as follows:

ACT IS PRAISED BY GREENWOOD

Irish Secretary Says Measure Is Most Just and Generous.

NEW YORK, Jan. 3.—Sir Hamar Greenwood, chief secretary for Ireland, has made a statement on the Irish question, the full text of which has been received by cable through the British Library of Information. Referring to current rumors as to information "explorations" of the Irish situation, Sir Hamar said:

"I can make no statement except that so far as we are concerned we are out for peace, but there can be no compromise with murder."

Asked whether the passing of the government of Ireland act had had any effect on the situation Sir Hamar said:

Defends Measure.

"The act which now has received the royal assent is more just in its conception and more generous in its provisions that any of the previous home rule bills. Under its provisions the Irish people will have control of agriculture, education, licensing, local government, mines and factories, pensions, insurance, labor exchanges and in short of everything that touches everyday life. Some matters are reserved for a shorter period than was contemplated by the act of 1914. Ireland now has been granted a measure of self-government which, when it is developed to the full extent contemplated in the act, will place her in effective control of her own national life. Yet this measure has been described as worse than useless, and neither in Ireland nor in Great Britain has it been recognized as a tremendous step forward in the history of the Irish question.

Ulster Question.

"The Ulster question has ceased to exist. Unity with Ireland is left to Irishmen themselves to achieve through their own elected representatives in their own parliaments. The act is the pledge of Britain's good-will to Ireland, and it is the best answer to those who consciously or unconsciously are playing into the hands of the terrorists in Ireland by suggesting that the nation is not behind the government in this matter.

"Whatever may be the developments of the future, I believe that the political historian wil point to this act as the beginning of the end of the Irish question. At any rate, it hands over to Irish men and women the government of their own great country."

REFUSE TO DISCUSS IT.

DUBLIN, Jan. 3.—By 22 votes to 15, the Dublin corporation at a meeting today declined to discuss proposals for an Irish truce. The negative vote came in spite of a strong appeal from High Sheriff McWalter, who declared it was "a poor honor to De Valera, who is alleged to be in the country in the interests of peace, for persons professing to be his followers to object to such discussions."

SENTENCE CURATE.

WATERFORD, Ireland, Jan. 3.—A Catholic curate of Callan, P. H. Delahunty, has been sentenced to two years at hard labor by a court-martial for possessing seditious literature and documents.

RAID ON CONVENT.

DUBLIN, Jan. 3.—The military raided the convent of Carmelite Nuns at Ranelagh, a suburb of Dublin, today. They forced the doors and made an exhaustive investigation into all the rooms in their search for letters and documents.

WINTER MAY BE PURCHASING AGENT

WINDSOR, Jan. 3.—Appointment of Ex-Mayor E. B. Winter, who today relinquished his post after two years' service to Mayor-elect Wilson, to a new civic position of municipal purchasing commissioner is being mooted at the city hall, The Advertiser learned tonight.

That creation of such an office has been under consideration for some time is common knowledge at the city hall, but present unsettled construction conditions and the situation in the labor and material market may cause some delay in bringing the plan to fruition.

The plan, however, is to be discussed at an early meeting of the new council, it is stated.

CONDUCTOR HYND PAINFULLY HURT

Sudden Snapping of Air-Brake Causes Peculiar Accident.

ST. THOMAS, Jan. 3.—The airbrake suddenly breaking on a freight near Brownsville yesterday brought the train to a standstill, throwing Conductor Thomas Hynd against the table in his caboose, smashing a couple of ribs and otherwise bruising him. He was taken to his home on Alma street, and his injuries attended to.

Get Their Rewards.

The local street car employees have been competing for prizes offered by Manager Johns for the highest number of ticket sales monthly, and the winners for the past month were: T. Carter, Ross street branch, $15. He sold $328. W. Knight came second with $10, having disposed of $244, and folowed by W. Armstrong, Ross street, $5 for the sale of $168 worth of tickets. The scheme was introduced by Manager Johns as a suggestion that employees interest themselves in traffic on all parts of the line, and their efforts in the city's interests would not go unrewarded.

Wages Reduced.

The Carnation Mik Company has reduced the wages of its empoyees of the factories in the neighborhood by 20 per cent, and the bonus of 8 per cent usually distributed among the members of the staff has been indefinitely postponed.

$450 Fur Coat Missing.

The fur coat of Miss Marie Hebert, Mondamin street, was stolen or accidentally removed while the firemen's ball was in progress on New Year's Eve. It was valued at $450.

Bailiff G. W. Smiley, who has been ill for some weeks, is in a serious condition.

First Robin in 1921.

The first robin, making it bow to people of South Yarmouth, was seen yesterday by I. H. Jones, Dexter.

The Elmdale Public School will be officially opened tomorrow afternoon by Dr. F. W. Marchant.

Secretary G. T. Hughes was given the second prize for scoring the largest number of points among the city exhibitors in the recent show of the Elgin P. and P. S. Association.

LABOR MINISTER TO VISIT ST. THOMAS

Will Investigate Allegations Made by the Railway Employees.

ST. THOMAS, Jan. 3.—The labor situation has reached such an acute stage in railway circles here that Hon. Gideon Robertson, minister of labor, has been called to St. Thomas. The employees on investigation, allege that there are no grounds in sight for the discharge of so many men from the departments which practically control the operations of the road. The employees charge the officials to be moving with other roads to get rid of the national agreement and regulate the schedule of wages themselves.

The M. C. R. acknowledges that the outlook for the return of normal conditions are uncertain. The Pere Marquette is also non-committal. The Wabash-G. T. R. shops are not seriously affected. If necessary the minister of labor will give a week's inquiry into the factors leading up to the present situation.

FORD MOTOR OFFICIALS TAKING NO NOTICE OF WORKERS' PROPOSAL

DETROIT, Jan. 3.—Officials of the Ford Motor Company had taken no official notice tonight of a hand bill circulated Sunday by a number of the concerns employed, asking that the company permit the workers to use the Ford plant, now closed for inventory, to be used by them temporarily for making cars for their own use. No official request had been made to the company for such action, it was announced.

Distribution of the handbills gave rise to a number of false rumors in Detroit today. The police ridiculed one rumor that the Ford employees had declared soviet control and had assumed operation of the plant. When 50,000 workers appeared at the Highland Park plant this morning to receive their pay checks the report was spread that they were storming the plant. But one policeman was on duty in the vicinity of the factory, and there was no disorder, the police announced. Rumors that the governor was to be asked to send federal troops from Fort Wayne were called "absurd" by the police and company officials.

VALERA'S RETURN AGAINST ADVICE

Republican Chief Went Back To Ireland, Despite Dail Eireann.

NEW YORK, Jan. 3.—Eamonn de Valera, "president of the Irish republic," in returning to Ireland, did so against the advice of the Dail Eireann, the "Irish Parliament," which was anxious that he remain in the United States to present "the republic's" claim before the new administration.

This was announced here tonight by Harry Boland, de Valera's secretary, who added that "events moved so rapidly in Ireland in the last few months, that President de Valera decided on his own initiative to return."

Mr. Boland said de Valera had been in close touch with the Irish Republican Government ever since he landed in the United States, and was fully informed of events there. He had no communication, however, with the British Government, Boland asserted.

De Valera, he continued, together with the acting "president of the Irish republic," had announced in behalf of their parliament they were prepared "as representatives of the Irish nation to meet representatives of England to draw a peace treaty between the two nations."

Boland attributed the peace talk "that has been flooding the United States press for the last two months to the effort by British propagandists to have people believe England really sought peace with Ireland."

A Christmas card, addressed to de alera in New York from the Royal Irish Constabulary, has been received, Boland said. The card bore the "black and tan" letterhead, he added, and read:

"To wish you happiness at this Christmastide and through the coming year. (Signed) "One of Them."

PLANT ELECTED OTTAWA MAYOR

Former Londoner Wins Tight Contest by Six Votes.

OTTAWA, Jan. 3.—Controller F. H. Plant was today elected mayor of Ottawa by the narrowest majority ever given in this city in a mayoralty contest. With a total of 15,654 votes cast, only six separated the two candidates, Controller Plant having 7,830, and Controller Jos. Kent 7,824. In fact, when the final poll was received the two adding machines disagreed, one giving Kent a majority of two. This necessitated a recount, which confirmed Plant's majority. However, the result will not be definitely known until the city clerk goes over the return slips from each poll. Controller Kent announced tonight that he would not apply for a recount.

The ratepayers defeated almost two to one the bylaw to permit the council to purchase the Ottawa Electric Railway without a further vote of the people.

The bylaw to elect members of the city council for two years instead of one was also defeated decisively.

The following were elected controllers for 1921:

Nap Champagne, John Cameron, Arthur Ellis, J. P. Balharrie.

Aldermanic results were:

Victoria Ward—S. Rosenthal, E. Laroche.

Dalhousie Ward—J. Forward, F. Hunt.

Wellington Ward—F. D. Lowe, J. McNabb.

Capital Ward—J. Slattery, H. M. McElroy.

Central Ward—C. G. Pepper, C. A. Snowdon.

St. George Ward—W. Cunningham, L. Whyte.

By Ward—E. Gaulin, A. W. Desjardins.

Ottawa Ward—J. A. Pinard, A. Bordeleau.

Rideau Ward—D. H. McDonald, S. R. Broadfoot.

PORT ARTHUR RESULTS.

PORT ARTHUR, Jan. 3.—I. L. Matthews was re-elected today as mayor of Port Arthur for his second consecutive term.

INGERSOLL TEACHERS DEMAND INCREASE

Resign March 1 Unless Their Salaries Are Given a Boost.

INGERSOLL, Jan. 3. — Notice was given by six collegiate institute teachers at a meeting of the board of education tonight that unless their demands for further increases in salary were complied with before March 1 their resignations would take effect on that date. The teachers whose names were signed to the communication were: Principal W. E. Shales, Jean E. Martin, Annie L. Hudson, S. M. Kendall, Olive L. Clark and Edith Roach.

At a meeting of the teachers' committee about ten days ago the teachers presented their claims for further increases, and no action will be taken by the board until the report of the committee has been received.

Misses Riddell and Burns, who have taken up the public health campaign here, were invited to take up the work outlined by the public health department.

HUSBAND AND WIFE ARE BOTH BENEFITED

Mrs. Stephenson Feels It Her Duty to Recommend Dodd's Kidney Pills.

Victoria Lady Who Suffered From Pains in the Back Tells of the Relief She Sought and Found.

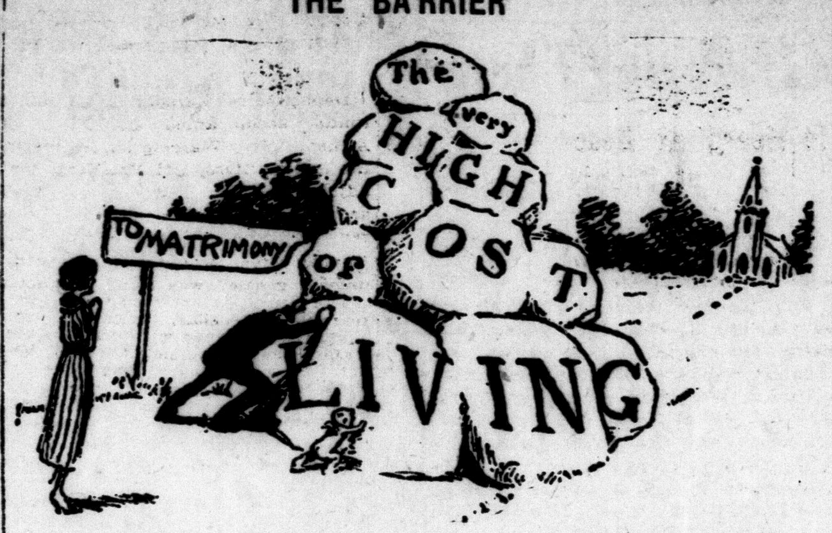

Victoria, B. C., Jan. 3.—(Special).—"Both my husband and myself have obtained great relief through using Dodd's Kidney Pills."

So says Mrs. M. Stephenson, who lives at 1919½ Belmont avenue, this city. "For two years on and off," she continues, "I have taken them for pains in the back and found great relief. I've taken them, too, with hot lemonade for a cold and got splendid results. I feel it my duty to tell what a splendid remedy Dodd's Kidney Pills are. I always recommend them to my friends.

Dodd's Kidney Pills are purely and simply a Kidney Remedy. They act directly on the kidneys, strengthening them and putting them in condition to do their full work of straining the impurities out of the blood. Dodd's Kidney Pills have been in use in Canada for more than thirty years. They demonstrated their worth in the most serious forms of Kidney Disease, such as rheumatism, dropsy and diabetes. They have also done splendid work in strengthening sick Kidneys to ward off serious diseases.

Ask your neighbors if Dodd's Kidney Pills are not the best Kidney Remedy.

THE BARRIER

—Judge, in World Wide.

Western Ontario Election Results

ST. THOMAS, Jan. 3.—Other than the defeat of Ald. Angus Taylor, who is succeeded by W. Stokes, the labor candidate, the old members of the city council were returned at the municipal elections today. The vote was not so heavy as a year ago; Dr. Curtis, who headed the poll, is short about 500, Ald. Raven 300, Lemon 300, McIntyre 100, and the remainer in similar proportions, other than Ald. Meehan, who polled exactly the same number as last year. Ald. Middleton, Walker and Butler went up a peg.

Ald. Taylor was at the foot and he blames the labormen and some of the ladies for his landslide. Alderman-Elect Stokes led in the railwaymen special vote, and his partner in labor, J. W. Roberts next behind. Taylor fell short by 56 votes.

The Bylaws.

Both the waterworks bylaw to expend $233,000 in the extension of the system, and the Sunday street car bylaw carried with big majorities.

The results were: J. D. Curtis 1,344, C. E. Raven 1,215, F. A. Lemon 1,184, W. A. McIntyre 1,067, G. E. Hill 1,042, M. H. Penhale 1,032, P. Meehan 1,022, R. Middleton 1,004, C. A. Walker 987, C. Butler 935, W. Stokes 892, J. W. Roberts 836, Angus Taylor 804; waterworks bylaw, for 1,303, against 346, majority for 957; Sunday street cars, for 1,607, against 429, majority 1,178 for.

VICTORY FOR WEDLAKE.

BRANTFORD, Jan. 3.—George Wedlake, late hydro commissioner, scored a victory in the mayoralty contest here today, when he secured a majority of 100 votes over all three of his opponents. The vote was the heaviest ever cast here, and the issue was in doubt until the last moment. Mayor MacBride, running for his fourth term, was defeated by Wedlake by 683 votes. The votes, with one poll to hear from, were: Wedlake, 3,268; MacBride, 2,580; Ald. J. J. Kelly, 451; ex-Ald. P. J. Symons, 141.

PAUL WINS AT WOODSTOCK.

WOODSTOCK, Jan. 3.—The municipal elections today were hotly contested. Ald. Mack Paul is mayor, and won in a clean-cut way by polling a total vote of 1,010, only eighteen votes shy of the total vote of his two opponents. The result was a surprise in the large majority of the new mayor. The new mayor hails from the town of Strathroy. He has been a member of the council for a number of years.

The total votes were: Paul, 1,010; Parker, 674; Kemp, 354. The race for the four vacancies on the board of education provided the ratepayers with the novelty of a woman candidate, the first one in the history of the city. Mrs. V. L. Francis was the candidate, and she proved a disappointment to her supporters by running last in a field of five.

Six New Aldermen.

In the aldermanic contests not many surprises were registered. In St. George's ward Ald. Roddick and H. B. Neely were elected by acclamation. In the other four wards three old aldermen tried for the new council, and all were returned. The new council will have six new faces on the aldermanic board, James Hill, A. W. Shaver, H. B. Neely, J. W. Sales, George Utting and A. Likins. The results:

Board of education—Canfield, 1,214; Mahon, 1,161; Steele, 1,083; Reynolds, 1,129; Francis, 777.

Aldermen (first two in each elected) —St. Andrew's, Murray, 210; Hill, 133; McWilliams, 107. St. Patrick's, G. Laves, 345; Sales, 333; A. E. Edwards, 133. St. John's, Utting, 117; Likins, 183; Mitchell, 152. St. David's, Shaver, 275; Spencer, 274; Vincent, 74. St. George's, Ald. Roddick, Neely (acclamation).

GREGORY FOR MAYOR.

STRATFORD, Jan. 3.—In one of the closest contests in years W. H. Gregory was elected mayor today over Jacob Keller by a majority of 102. The totals were: Gregory 1,383, Keller 1,281.

The bylaw for establishing a board of education was carried by a majority of 491. There were 1,413 votes for and 922 votes against. In almost every poll of the city there was a favorable majority for the bylaw.

Thos. Clark, a former veteran employee of the waterworks department, defeated J. M. Lillow, who sought re-election to the public utilities commission. J. J. Mason was re-elected. The vote stood, Mason 1,482, Clark 1,124, Lillow 996.

Two of last year's aldermen, R. A. Reid and H. Clark, were defeated. Tom Brown, who was defeated for mayor last year, returned again at the head of the poll. Of the soldier-labor slate only three were elected.

The vote for aldermen stood as follows: Tom Brown 1,532, T. Ballantyne 1,358, C. N. Greenwood 1,266, C. R. Myers 1,248, S. L. Ireland 1,242, J. A. Andrew 1,146, C. Culliton 1,121, J. M. Riddell 1,086, F. M. Gifford 1,019, J. B. Waugh 998, H. L. Griffith 977, G. Blum 957.

The defeated candidates were: R. A. Reid 886, H. Clark 780, R. L. Oman 767, J. Meldrum 750, J. Semple 662, F. Wright 587, R. Hurst 579, A. Edwards 550, G. L. Money 516, C. Cowley 515, R. Andrews 451, P. Bilger 409.

There were only two contests for school trustee. In Romeo Ward ex-Ald. C. L. Welsh defeated J. I. Cousens by 63, the vote being Welsh 406, Couzens 343. In Falstaff C. A. Down was re-elected over A. J. Pequegnat by 17, the vote being Down 202, and Pequegnat 185.

WHO WILL BE MAYOR?

GUELPH, Jan. 3.—At the present time it looks as if there will be at least four aspirants for the mayoralty, although up to date only two have definitely announced their intentions. The four names mentioned today are Ald. Howard, Ald. Burgess, Ald. Quarmby and Ald. Stephens. The first two are sure to be candidates, and the other two have a following among the aldermen who are anxious to see them enter the contest. The mayor will be elected at the inaugural meeting of the 1921 council next Monday morning.

INGERSOLL RESULTS.

INGERSOLL, Jan. 3.—Voting in the municipal elections today was not featured by any special interest. This was largely due to the fact that there was no mayoralty contest or big issues. There were seven candidates for the council. The following were elected: Wm. English, who headed the poll with a total vote of 724; Wm. A. Sutherland, N. J. Daniel, Jas. A. Buchanan, Jas. E. Ferguson, Albert H. McDermott. For utilities commissioner, Mayor J. V. Buchanan, who had a majority of 539 over Wm. Partloud; for school trustees, ward one, W. C. Forman; ward two, J. C. Hegler.

DEAN IS MAYOR AGAIN.

TILLSONBURG, Jan. 3.—The local elections created keen interest, and the vote was the heaviest polled in years. The results were: Mayor, M. G. Dean; reeve, Geo. Hollier; deputy reeve, A. Osten; hydro commissioner, Edwin V. Tillson; public school trustees, W. Crosby, Dr. Taylor, Dr. Atkinson; councillors, George Patton, Arnold Simons, Robert Stroud, Harry Fairs, M. Ostrander, Hartley Berry.

BRANDON IS RE-ELECTED.

ST. MARYS, Jan. 3.—Mayor Brandon was re-elected in today's election by a majority of 174 over Wm. Weir. L. G. Constable was the only member of last year's council to be returned, and he went in by acclamation. Those elected today were: Wm. Dale, Robert McKay, Chas. Fitzsimons, O. V. Whetstone, Peter Munnoch.

RESULTS AT WINGHAM.

WINGHAM, Jan. 3. — Today's municipal elections as usual gave some surprises in the results. The weather was ideal, and with the best of sleighing a large vote was polled. The following will manage Wingham affairs for the ensuing year: Mayor, H. B. Elliott (accl).; reeve, A. Tippling; council, W. H. Greer, S. Mitchell, S. Bennett, W. Haney, F. Houston, A. E. Lloyd; utilities commissioners, W. H. Gurney and W. Holmes. The plebiscite on the question of permitting a second poolroom resulted in a majority of 35 for the affirmative.

TIE AT BOTHWELL.

BOTHWELL, Jan. 3.—An unusually hot fight for the reeveship was the feature of today's voting. When the returns were complete it was found that there was one spoiled ballot, and that the count stood a tie between W. F. Beamish and George Johns. Another vote will be taken tomorrow to decide the winner.

John McLean was returned by acclamation for mayor. The councillors are: W. T. Johnston, A. F. Johnston, John Millson, Walter Curtis, Harry Richards and John Duncan.

A bylaw to expend $6,000 in connection with a new heating system in the high school carried.

School trustees elected are: Ed. Knowler, Delbert Hoover, A. Trout, Isaac McLean, James Brandy and E. C. Hanson.

HENRY IS MAYOR.

RIDGETOWN, Jan. 3.—P. J. Henry was returned as mayor in today's polling. Other members of the council are: Reeve, N. S. Roszell; councillors, Beck, Hore, Pangburn, Thorold, Scane and Flater.

SMITH IS REEVE.

HENSALL, Jan. 3.—In a hot contest here today Alexander Smith was elected mayor by a vote of 111 against 96 for his opponent, Thomas Hudson.

RESULTS AT BORDER.

WINDSOR, Jan. 3.—One of the hottest political campaigns the border has known came to a conclusion tonight, when returns from elections held today in the towns of Walkerville, Sandwich and Ford City were announced.

In the first two places the contests were particularly keen, opposing factions stirring up old enmities causing hot battles for the respective offices. The results:

Totals prepared tonight indicated are: Sandwich—Mayor, Eugene Breault (accl.); reeve, E. W. Gray; deputy reeve, R. McKee.

Walkerville—Mayor, C. J. Stodgell; aldermen, Calderwood, Crouchman, Moore and Poole.

Ford City—Mayor, E. C. Poisson; reeve, C. Mousseau; deputy reeve, Hebert; council, Reaume, Perrault, Gardner, Lapine, Deneau.

OLD COUNCIL IS OUT AT PT. STANLEY

The Summer Residents Show What They Thought of Assessment Boost.

ST. THOMAS, Jan. 3.—The summer cottagers of London and St. Thomas apparently routed every member of Port Stanley's old council. The boosting of the values of real estate in the residential end of the village by Assessor Matthew Penhale was the chief factor in the election of a full slate of new representatives.

The council-elect has promised some reforms in the system adopted by Assessor Penhale to swell the property values. London sent a big contingent to the village and St. Thomas polled a substantial vote. Dr. G. H. Jackson headed the list with 241 vote for reeve; ex-Reeve Cornell followed with 100, and A. G. Going, 44.

VEGETABLE GROWERS WOULD RETALIATE

Pass Resolution After Considering U. S. Tariff Proposals.

SARNIA, Jan. 3.—The Sarnia Independent Vegetable Growers' Association at their thirteenth annual meeting considered the action of the United States Congress in passing legislation to increase their tariff against Canadian products. The expression of the meeting was as follows:

"That while we prefer to have unhindered business intercourse with the United States, as we consider it would be of mutual benefit to both countries, if the United States builds a tariff wall against the products of this country, this association would look with favor upon any action our Government might take to exclude United States products from our markets and build up our own Empire by preferential treatment."

Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

WESTERN ONTARIO BRIEFS

WOODSTOCK.—Particulars of the accident which resulted in the death of Frank Nolan, a local boy, killed at Mount Clemens Sunday, state that Nolan, with five others, was out in the country motoring, and on returning the car became unmanageable and dashed into a ditch.

KITCHENER.—A young man named Laflamme was remanded yesterday on a dual charge of highway robbery and theft. The police are endeavoring to apprehend Laflamme's pal before proceeding with the case.

GUELPH.—The receipts at the local customs house for December showed an increase of $8,760.22 over the corresponding month in 1919. Last month the receipts totalled $47,157.11, while in December, 1919, they amounted to $38,396.89.

WOODSTOCK.—A local resident was taken to the isolation hospital last night suffering from a severe type of smallpox, the first case in Woodstock in two years. The board of health acted promptly, and a special doctor from London will have charge of the patient.

CHATHAM.—Customs collections for the year ending December 31 are the largest on record here. The total amounts to $2,120,662.92, an increase of $456,658.67 over the collections of 1919 which amounted to $1,664,004.15.

GALT.—Adolph Yirke, the youthful Waterloo hold-up, appeared in the police court yesterday, and was remanded until Friday. He gave as his reason for stealing the money that he wanted to make up a sum which he had lost and which he owed on the brooms he had sold.

CHATHAM.—Building permits for the year ending December 31 totalled $436,634, an increase of $110,087 over 1919, which amounted to $326,547.

WINDSOR. — One hundred and tweny-nine men, out of work, lined up at the city hall yesterday and registered, hoping for employment when the work to be undertaken by the city engineer's department and the water board is commenced. M. E. Brian, city engineer, stated his department would be able to supply work for ten men for three days at a time upon the construction of a sewer.

KITCHENER.—It was announced at Waterloo last night that A. Allen Cochrane, who was defeated for the mayoralty by Mayor Dan Bohlender, will ask for a recount. Mayor Bohlender's majority was two votes.

CHATHAM.—Samuel Barfoot, who for the past sixty years has been in the Dominion civil service, and who has acted as postmaster here for many years, was retired at his own request Dec. 31. Mr. Barfoot is one of the oldest men in the civil service, in point of service, in Canada.

GALT.—Sarah McLarnon, known as "Sadie," a ward of the Children's Aid Society, left her foster home here last Thursday and has not been seen since. The absence of the girl was only announced last night. She is 14 years old and left the home, where she was staying, while the mistress was downtown shopping.

GALT.—Word has been received here of the death in Rochester, where she had been living with a son, of Mrs. Margaret E. Dearling, formerly of Galt.

SARNIA.—The inaugural meeting of the 1921 city council will be held on Monday morning next, Jan. 10, when George Crawford, successful mayoralty candidate, and the nine new members of the council will take oaths of office and the municipal machinery for the year under the regime will be set in motion.

W. T. PELLOW IS NEW INSPECTOR

Goderich Man Was Recommended by Huron County Temperance Association.

CLINTON, Jan. 3.—W. T. Pellow of Goderich has been appointed license inspector for the county of Huron by the Ontario Government, and his duties commenced January 1.

The appointment of Mr. Pellow is a very popular one, and was recommended by the Huron County Temperance Association, of which he has been special officer for the last five years, and the organization that has been largely responsible for the effective enforcement of the temperance laws during these years.

Formerly there were two inspectors for Huron, John Torrance for South Huron and John Mitchell for North Huron. These two officers have now been superannuated under the act as passed at the last session of the Legislature, and will likely receive annually about one-half their former salary. The entire expense of the enforcement will now be borne by the Provincial Government as provided by the Ontario temperance act.

THE OUTLOOK.

One of those "glooms" who periodically endeavor to take the joy from life by predicting early and terrible disaster announces that 1921 will see civilization far sunk, if not altogether submerged, in a morass of social, political and industrial anarchy. It is true that black shadows hover about the old world, that appalling conditions prevail in large sections of Central and Eastern Europe, conditions that seem to head towards stark savagery; nevertheless, there are excellent reasons why we should be hopeful and optimistic as to the world's immediate future. France has settled down to something that at least approaches normality. The French Communists, who would link up with Lenine and his destroyers, have no real strength or influence on their fellow-countrymen. France will not permit organized discord and discontent to get a footing. She is working steadily, if slowly, back to financial and industrial stability, and that means ever-spreading contentment. Italy, too, while still feverish with labor and social unrest, has definitely decided against turmoil and turbulence, which would-be wreckers of civilization have fought to introduce. Italian labor and capital are co-operating instead of fighting.

In Great Britain but 4 per cent of the wage-earners are idle. That does not indicate early collapse and confusion. Furthermore, the foremost financial and industrial experts are agreed that the prevailing slump cannot last long. With Great Britain, France and Italy approaching economic stability there is small likelihood of old world civilization being overthrown.

Here in Canada the outlook is far from being discouraging. It is true that at the moment there is an industrial stagnation that has produced an army of unemployed, but Canada is well able to cope with the temporary slowing down, and the stupendously rich resources of the country are a sure guarantee of rapid and complete recovery. Civilization will weather the storm, and will be the more vigorous for it.

REDUCE ARMAMENTS.

An article in the New York Nation comments favorably on the New York World's suggestion that Great Britain, Japan and the United States should agree to cut down armament expenditure for the next five years by 50 per cent. But, says the Nation, why wait for Britain and Japan? The United States can itself set a good example by reducing armaments without reference to other powers.

This seems sensible enough. What has the United States to fear from anyone, so long as it attends to its own affairs? And it has no commitments like those of Great Britain. Standing outside the League of Nations, and refusing all "mandates," the United States makes itself no brother's keeper. In Mesopotamia Great Britain defends the new, struggling state of Palestine on the one hand, and the helpless mass of India on the other, against the menace of Turks and Bolsheviki that have already submerged Armenia. Undertaking no such work, and contributing no quota to the forces of the League of Nations, the Americans have very little apparent reason for keeping up a big army and navy.

In Canada the last scattering squawks for a navy, and military training, and fortifications, and all that nonsense, seem to have died out. We have settled down to minding our own affairs, concerning ourselves about the outside world only to extend a helping hand where we can, financial aid for the extirpation of typhus in Eastern Europe, credits to Rumania for reconstruction. If the Americans go on with armaments, they will seem to be menacing Latin America, or inviting a hostile combination of Latin America and Japan. Like begets like.

A NEW POWER SCHEME.

No sooner did we hear of a scheme in France for deriving power from the tides than the project is mooted in England of harnessing the high tide in the Severn.

"There twice a day the Severn fills,
The salt sea-water rushes by,
And hushes half the babbling Wye,
And makes a silence in the hills,"

wrote Tennyson. Those poetic waters may serve a useful purpose besides helping navigation.

It is expected that a concrete dam two and a half miles in length across the Severn will provide the development of more power than is now obtained by the Amalgamated Niagara Falls Company. At the same time an immense harbor for seagoing vessels would be created along with the power plant. The work on the construction, if undertaken, will employ great numbers of skilled and unskilled labor for a long period.

The success of such a scheme would be most interesting for Nova Scotia and New Brunswick. If the tides in the Bay of Fundy could be utilized, another great resource would be bestowed upon the Maritime Provinces, in addition to their coal, timber and fish.

How the great natural forces and beauties of the world are turning into utilities! In Scott's novel a hundred years ago the practical eye of Baillie Jarvie saw the possibilities for floating coal barges in Loch Lomond. Ruskin lamented that "the Lady of the Lake" had given place to "the Lady of the Reservoir." Niagara has had a ring put in its nose. Next the romantic moon itself, as it lifts the tides of ocean, is to be employed to run factories, trains and washing-machines. The sun may yet be harnessed up, and then there will be no more worlds to conquer.

BACON AND THE ENGLISH MARKET.

A cable message from London announces that the decontrol of Canadian bacon by the British ministry of food, which had been promised for March 1, 1921, has again been indefinitely postponed.

When control of bacon (which had been freed in the spring following the armistice) was re-established in the summer of 1919, the British food ministry took over huge quantities of American bacon, in the disposal of which it must have lost heavily. In the winter of 1919-20, it again bought heavily of American bacon. It has had great difficulty in disposing of this, and has forced Canadian bacon to aid by requiring that four boxes of American should be distributed by the wholesaler with each box of Canadian. It would appear that there are still quantities of this stale American bacon to dispose of. The ministry is in a serious quandary to know what to do with it, and is trying to maintain control in the hope of not having to take further heavy losses.

In the meantime, the British department of agriculture found that a controlled price for English and Irish bacon was throttling the industry. It demanded, and, in spite of the strong opposition of the food ministry, won control for the home product. The Dominion Government and the Canadian packers at once pressed, and have continued to press, for equal treatment for Canadian bacon. This has been steadily refused. Surely Canadian products should not be discriminated against.

During all last winter, the food ministry, in spite of the strongest protests, insisted on relating the price paid for Canadian bacon to the price of live hogs in Chicago. Undoubtedly, if control had not thus depressed the price, Canadian bacon would have been much higher during last winter, when feed prices were so high.

During the negotiations packers have recognized that for a time after the war control might be necessary, and were inclined to meet the British Government as far as possible. But the imposition of conditions that nearly ruined the Canadian industry, and this last refusal to allow the industry an early chance to return to normal, calls for the strongest kind of action that the Canadian Government and people can take.

The British public want Canadian bacon. With the return of farming conditions to normal, the farmer must keep the British market for his hogs. With the return of a free market, the swine industry will be one of the most important and profitable activities of Canadian farmers. The Dominion as a whole is vitally interested in doing everything possible to place one of its most important export products on a sound and normal market basis.

EDITORIAL NOTES.

D'Annunzio loses Fiume but gets glory and the girl.

If de Valera would take the "rest" cure it would give a rest to the rest of the world.

Bethmann-Hollweg will live in history as the author of the infamous "scrap of paper" declaration. Behind his statement lay the organized barbarism which conspired to enslave civilization and which came close to achieving the same. His remark will live as long as freedom, liberty and justice has to fight slavery, cruelty and tyranny.

WOMEN ON JURIES.

[Detroit Free Press.]

The decision of the supreme court on the right of women to sit as juries in this state follows the general trend of opinion on the relation of women to all the affairs of government. The court says that a woman's rights and duties with respect to jury service are the same as a man's.

It is to be expected that this decision will be followed by the appearance of women on juries as a regular and ordinary thing. It has been said upon theory that women would not make good jurors, and a variety of reasons have been given for saying so. One reason rests upon the old charge that women are not in the habit of reasoning deliberately and consecutively as men do, whence it is said to follow that they will decide cases according to their impulses, their emotions and their "intuitions." It is said that they are too soft and sympathetic for cases where severity is required; that they lack breadth and liberality; that they are too easily influenced, and even that they have no sense of justice.

It is easy to point out upon the other side that every defect alleged to be peculiarly feminine has been observed at work in the minds, hearts and natures of juries exclusively male. The difficulty encountered by prosecuting officers when they try pretty women is notorious. Equally well known is the difficulty in getting juries of men to hold the balance even when a rich corporation is on one side of a case and a poor man on the other. As for the reasoning faculty among men, does not very lawyer know that when a jury returns a specific finding of facts with its verdict, the facts are about as likely to be inconsistent as otherwise?

Upon such grounds as these it is possible to argue that the women cannot do worse than the men. Their impenetrability to the influences of a sweet smile and an inch of silk stocking may make them better in some cases.

CITIZENSHIP.

[Manchester Guardian.]

The generous gift of £20,000 by Sir D. M. Stevenson to establish a university chair of citizenship at Glasgow University is an interesting sign of democratic times. The idea of training men to be rulers is an old one, and critics of democracy from Plato's time to today have stressed the difficulties of governing and the necessity of acquiring administrative technique. Far more recent is the idea of training ment to be citizens, or, rather, to be their own rulers, with a nice discrimination in their choice of representatives and a full knowledge of their own privileges. But it is surely the right answer to the champions of Platonism and the seekers after bureaucratic supermen. Citizenship is a subject that will be increasingly administered to the young. That is a welcome fact, but it does not destroy a lingering regret that the fashion is not an older one. Some of those who are now in very high places might profit by instruction even now in the principles of the British Constitution.

From Here and There

THE WORKINGS OF EXCHANGE.

[Financial Post.]

Exchange is seldom viewed by the public as the great natural adjuster of international economic relations. It is regarded rather as it affects various interests which are viewed from entirely different angles. We find that at present customers are objecting that American exchange substantially raises protection against American goods; that American manufacturers are objecting that they cannot sell in Canada; that Canadian manufacturers object that British exchange gives the British exporter an advantage. And the general public feels—rather than thinks—that there is something sadly wrong when Canadian money is not as good as American money, even though it may be better than British money.

As a matter of fact, these things have a fundamental relationship. It may be pointed out, for instance, that while the objection that exchange gives the Canadian manufacturer an additional 15 per cent protection comes largely from Western Canada, this same exchange has given the Canadian farmer an advantage of 15 per cent on his exports to the American market.

This factor was largely responsible for the marketing of millions of bushels of Canadian wheat in the United States this autumn at a time when European countries were unwilling or unable to buy. This relieved the financial situation in Canada at a time when the strain was very heavy, as the marketing of wheat was being counted on to provide seasonal liquidation of farm loans by the banks. Nor does the manufacturer get all the protection indicated, as he has to pay the increased exchange on his imported raw materials.

1921 LIKE 1873.

[System for January.]

Business conditions today are not greatly different from what they were almost fifty years ago, according to A. B. Farquhar, president of A. B. Farquhar Company, Limited. Of that critical period he states:

"The abundance of predictions that never again should we see low prices, that the country's needs were infinite, and that the best we could hope to do was to keep within hailing distance of demand, really prevented much progress in truly economical business. People were too busy to think of economy. They were not, as I have previously remarked, so skilled in extravagance as we are today, but considering their lights they did what they could. Many sellers showed a disposition to consider the buyer as a poor beggar without the gates, to whom anything might be thrown! We had the seller triumphant and the buyer despondent.

"As demand exceeds supply, so does a crown of arrogance grow on the head of the seller, but the moment the tide turns the buyer takes over this crown, full-grown, and then no slave to an Oriental potentate ever had to go through such elaborate abasement as the newly-crowned buyer requires of the seller. I find, looking back through all these years, that the men who, as buyers or sellers, keep level heads and do not force their transient advantages, in the long run reap the real profit."

A PEOPLE "TO PROUD TO FIGHT."

[Asia for January.]

It seems impossible to deny that most of China's present disabilities and dangers are due to no fault of its own, but to the sudden creation, by the western powers, of a new condition of things. The material civilization of the West asserted its superiority over that of the East by forcible means, with which all the wisdom of the East was unable to cope. If we admit this—as we must—then, if there be anything vital in the ideals that the Anglo-Saxon race profess, anything attainable in the League of Nations ideal of "a reign of law," the West owes the East a deep debt of reparation. And it can be discharged only by sympathetic understanding and by self-denying determination to protect the helplessness of the Chinese people through the necessary period of administrative reconstruction.

And never has there been a race more deserving of protection at the hands of humanity. For, say what you will, the very passive philosophy that exposes China to the rapacity of earth-hungry powers, approaches more nearly to the essential principles of Christianity, as laid down in the Sermon on the Mount, than the everyday practice of most Christian nations. Here you have a people in very truth "too proud to fight," because they not only profess, but firmly believe, that in the long run reason and justice must triumph over force. The polished pacifism of Confucius and the intellectual superiority of his offspring, the classical literati, both tempered with the Buddhist teaching of gentleness and compassion, have produced a type of civilization—a race-mind, fixed in unity of ideas—that, to the Chinese themselves (and to many Europeans), seems morally superior to that of the West—a splendid inheritance.

STRONGEST CHARACTERS NEVER NOISY.

[New Success Magazine.]

The water in a little mountain stream dashing down the rocks makes more noise than the mighty Mississippi River. The strongest characters are never noisy. They are balanced, poised, serene, like a great river. They do their work quietly, efficiently, and never permit temper, passion, prejudice, whim or obstacle to disturb their serenity or turn them aside from their course. The world is looking for the poised, level-headed man, the man who can always be depended on, who won't fall down in an emergency, or go to pieces over trifles. No matter how brilliant or how great a genius he may be in some directions, if a man is not balanced, master of himself, he does not inspire confidence. He may do great things on occasion, when everything is going his way, with nothing to disturb or hinder him. But always in a great crisis or emergency, when a man is needed to assume tremendous responsibility, as when Foch, at the most fateful moment in the world war, was made commander-in-chief of the allied armies, the cry is: "Give us a man with a level head, a man we can rely on, and always know where he stands."

THE LONG WINTER EVENINGS.

[Salem News.]

In the old-fashioned family, old and young used to settle down under the "sitting-room" lamp during the long winter evenings, for much reading and study. Games like authors and parchesi and jackstraws were devised to reconcile the young people to staying at home. Many persons found time for much reading and reflection, and became thoroughly posted on what was going on in the world. The family used to go to bed at early hours, not so much from conviction of the healthfulness of the habit, as because they got too sleepy to stay up. These are the times of more pep and hustle. People want "something doing." When you visit a populous city and see all the crowds on the streets, you think everyone is on the move. Yet if you could look into all the homes, you would see a lot of quiet reading going on. You would find many people trying to improve their abilities by various forms of study and better preparation for work. School study is largely done in the evenings now. Students are apt to work or play at sports in the afternoons, when they dig into next day's lessons at night. Families with live boys find the long winter evenings a problem. Some of the youngsters are much given to drifting to the curbstones of the town centre or the favorite hang-outs, to swap stories and jokes with the lounger crowd. Few young men learn much that is useful in that way. The solution of the problem is plenty of active life as an outlet for youthful vigor. The evening lamp will not hold the young crowd as of yore, at least after they get away from the responsibilities of next day's school lessons. But active games in a basketball or bowling alley, when run as community institutions for public benefit, may be just as useful as the stories read or the games played under the old-time evening lamp.

Poetry and Jest

THOUGHTS.

[The Westminster Gazette.]

The empty house is very still today;
There's naught but silence in the rooms you trod,
Your laughter's flitted from the garden way,
Now that you tread the starry floors of God,
The shadows in the garden fall and pass,
The whitest rose is coming out once more,
There's only sunlight sleeping on the grass,
It's just a wind that shut the waiting door.

Yet all the silence and the empty rooms,
Seem filled with you today, my blessed dead;
Such peace is folded in the fragrant glooms,
Such joy is in the tranquil sunlight spread,
As though your thoughts, your happy thoughts from Heaven,
Moved in the winds and rested in the flowers,
And lingered, loving, pierced with light and shriven,
Among the trivial things and common hours.

Such little laughing thoughts lurk by the way,
And wait, unbidden, by the red house-wall,
Such tenderness besets the sunny day,
Such small, sweet, needless memories wake and call
In all the roses coming out once more,
In all the little winds that lightly pass,
A blessing stirs beside the waiting door,
A kiss from Heaven is fallen to the grass.

MISGIVING.

[January Yale Review.]

All crying "We will go with you, O Wind,"
The foliage follow him, leaf and stem.
But a sleep oppresses them as they go,
And they end by bidding him stay with them.

Since ever they flung abroad in spring,
The leaves have promised themselves this flight,
Who now would fain seek sheltering wall,
Or thicket, or hollow place for the night.

And now they answer the summoning blast
With an ever vaguer and vaguer stir,
Or, at utmost, a little reluctant whirl
That drops them no further than where they were.

I only hope that when I am free,
As they are free, to go in quest
Of the knowledge beyond the bounds of life,
It may not seem better to me to rest.

TORPID LIVER

FOR OVER FOUR MONTHS

The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleansing it of all impurities and poisons.

When the liver becomes lazy, slow or torpid it is not working properly, and does not supply sufficient bile to thoroughly act on the bowels and carry off the waste products of the system, hence the bowels become clogged up, the bile gets into the blood, constipation sets in and liver troubles follow.

Milburn's Laxa-Liver Pills quickly remove the secretions, clear away the waste and effete matter by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood, and cause so many troubles.

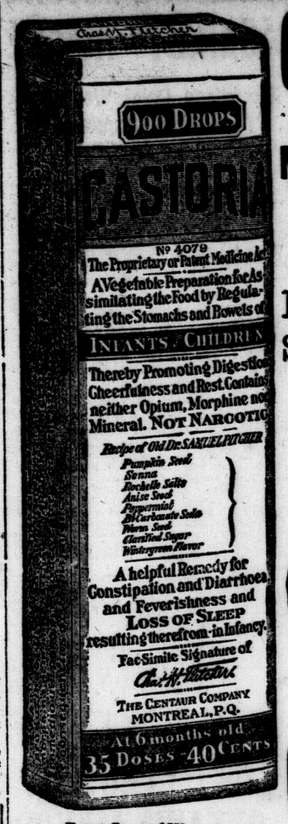

Mrs. Alice Mehill, Napanee, Ont., writes: "I was very badly run down, and had a torpid liver for four months. I tried several remedies, but got no relief. One day my husband brought me home a vial of Milburn's Laxa-Liver Pills, and before I had used half of it I was much better. I only used two vials, and I am a different person today. I can safely recommend Laxa-Liver Pills to any one troubled with liver trouble."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto, Ont.

Thousands Are Nervous Wrecks

Cross, Crabbed and Care-worn

From Weak, Thin Watery Blood

without ever suspecting the real cause of their trouble—Iron-starvation.

A New York Physician says that MORE THAN ONE-HALF THE POPULATION OF AMERICA PERISHES BEFORE MIDDLE AGE and that one of the chief contributary causes of this terrible waste of human life is the devitalizing weakness brought on by lack of iron in the blood.

THERE ARE 30,000,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

An enormous number of people who ought to be strong, vigorous and in the prime of life are constantly complaining of weak nerves, headaches, pains across the back, disturbed digestion, shortness of breath, a general "run-down" condition, melancholy, bad memory, etc., when the real cause of all their suffering is IRON STARVATION OF THE BLOOD.

The proof of this is shown by the fact that when organic iron is supplied to their blood, that all their multitude of symptoms often quickly disappear and the very men and women who were formerly so complaining now become strong, healthy and vigorous, with even dispositions and a sunny, cheerful nature.

Nature put plenty of iron in the husks of grains and the skin and peels of vegetables and fruits to enrich your blood, but modern methods of cookery throw all these things away—hence the alarming increase, in recent years, in anaemia—iron starvation of the blood, with all its attendant ills.

If you are not willing to go back to nature then you should eat more such iron-containing vegetables as spinach and carrots and reinforce them by taking a little organic iron from time to time. But be sure the iron you take is organic iron and not metallic iron which people usually take. Metallic iron is iron just as it comes from the action of strong acids on small pieces of iron and is therefore an entirely different thing from organic iron. Organic iron is like the iron in your blood and like the iron in spinach, lentils and apples. It may be had from your druggist under the name of Nuxated Iron. Nuxated Iron represents organic iron in such a highly condensed form that one dose of it is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It's like taking extract of beef instead of eating pounds of meat.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood and revitalize your workout, exhausted nerves. Your money will be refunded by the manufacturers if you do not obtain satisfactory results. Beware of substitutes. Always insist on having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every tablet. At all druggists.

NUXATED IRON ENRICHES THE BLOOD-GIVES YOU NEW STRENGTH AND ENERGY

PAGE OF INTEREST TO WOMEN

IN SOCIETY

Dr. and Mrs. Edwin Seaborn entertained at a delightful dance on New Year's Eve.

Miss Agnes Niven of Brantford spent the holidays with Mrs. Strain, Brookside street.

Dr. and Mrs. Sherwood Fox and family have returned from Toronto after spending the holiday season there.

A matinee at Allen's in aid of the Sick Children's Hospital will be among the events which are promised for the end of the month.

Dr. Davis and his young son of Gananoque spent New Year's with the former's parents, Mr. and Mrs. Thomas G. Davis, William street.

Mr. and Mrs. A. J. Rawling of Hamilton, and Miss Edna Churchill of Cleveland were holiday guests at the home of Mr. and Mrs. George Churchill, Wharncliffe road.

The bridge which is being held at the home of Mrs. Niven, Colborne street, on Thursday afternoon, by the Hugh Niven Chapter, I. O. D. E., is being looked forward to with interest, as it will be the first public function of its kind since the holidays.

The Children's Hospital committee are arranging to hold a reception at Prokos in the near future, the management of that institution having kindly consented to give the proceeds from such an affair to the hospital fund. It is possible that the time of the reception will be set for next Tuesday.

Miss Agnes Duffield was the hostess of a jolly little dance for the not-outs held at the home of her brother on Queen's avenue, last night. Among the guests, who numbered from 80 to 100, were a number of boys and girls home from school for the holidays, and it was indeed a gay time which they spent. The youthful hostess was gowned in pink, while her sister, Miss Louise Duffield, wore a pretty frock of blue.

Miss Dorothy Palmer, Central avenue, was the hostess of a most enjoyable New Year's dance on Friday evening last. The house had been appropriately decorated with holly and mistletoe, and at 11:30 a dainty buffet supper was served, dancing then continuing until 1:30. Among those present were: Miss Gwendolyn Coombs, Miss Helen Hanna, Miss Rita Thomas, Miss Kathleen England, Miss Agnes England, Miss Pearl Palmer, Miss Greta Fleming, Mr. Elgin Saler, Mr. Andrew MacGuire, Mr. Gordon McPee, Mr. Murray MacDiarmid, Mr. Fred Talbot, Mr. Howard Ferguson and Mr. Fred Burgess.

The home of Mrs. William Orchard, Beaconsfield avenue, was the scene of a happy gathering on New Year's eve, when she entertained at a dance in honor of her daughter, Miss Adeline Orchard, and a young house guest, Miss Jean Morlock of Durham. Mrs. Orchard received her guests wearing a pretty gown of French organdie in a delicate blue shade, while her daughter was in rose duchess satin with tunic of silver and pearl sequins. Miss Jean Morlock was gowned in jade green georgette crepe, while Mrs. George A. Young, who assisted in the supper-room, wore French organdie in mulberry tones. About 30 guests in all were present, dancing the evening away happily. A buffet supper was served in the dining-room, where carnations were used effectively as decorations. Little Miss Marion Orchard made a quaint door attendant in white organdie with blue ribbons.

ROBERTSON—HAMMOND.

On New Year's afternoon the home of Mr. Andrew L. Hammond, on Brick street, was the scene of a very interesting event, when his sister, Miss Agnes Hammond, was united in marriage to Mr. Chas. R. Robertson, Rev. Mr. Hunter of Lambeth officiated at the ceremony, which took place beneath an arch beautifully decorated with a bell of white roses and banked with ferns. The bride, looking winsome in her gown of navy charmeuse and georgette, entered the parlor on the arm of her father, to the strains of Lohengrin's wedding march, played by Mrs. Meade Hammond. After the ceremony about fifty guests partook of a dainty wedding breakfast, the tables being prettily decorated in pink and white. Many beautiful gifts were received by the popular young couple. The groom's gift to the bride was a magnificent ivory toilet set, and to the pianist a handsome bar pin set with brilliants. Amid showers of confetti, the bride and groom left on a honeymoon trip to Toronto and other points east.

NOYES—WILLIAMS.

One of the most interesting weddings which has taken place in the city for some time past, was that which was held in St. Paul's Cathedral yesterday morning at 11 o'clock, when Bertie Olwen, second daughter of the Bishop of Huron and Mrs. Williams, became the bride of Gerald Haighton Noyes, son of Mr. J. Guy Noyes of this city. The ceremony, which was very quietly solemnized by the bishop, assisted by the Rev. Dean Tucker, was attended by only the closest friends and relatives of the bride and groom. A large number of local clergy were also noted in the pews, as witnesses of the ceremony.

The bride, who was given away by her brother, Mr. Iola Williams, was charmingly gowned in taupe and orange-figured crepe de chine, wore a smart burnt-orange tam, a handsome sealskin coat and corsage of Ophelia roses. As she entered the church, Miss Annie Arnold, at the organ, played "The Bridday Chorus" from Lohengrin. The groom was attended by Mr. Gilbert Tucker.

After the ceremony a small reception was held at "Bishopstowe," the bride's table being prettily decked with Ophelia roses. At 12:30 o'clock the bride and groom left for Sudbury, where they will spend the next two months, returning in the spring to reside at the groom's country home near Springbank. The bride traveled in a smart suit of navy serge.

Among the friends and relatives present at the wedding were the bride's mother, Mrs. David Williams, who wore a tailored gown, seal coat and smart black hat, Miss Gwenno Williams, Mr. Rowley Williams, Miss Burwell of Toronto, Mrs. H. Hallowell and Miss Mary Hallowell of Walkerville, Rev. Carew Hallowell, Mr. and Mrs. Raymond Smith of Delaware, Mr. J. G. Noyes, Miss Gladys Noyes and Miss Violet Noyes, Judge Talbot Macbeth, Miss Annie Macbeth, Mrs. J. S. Niven, Miss Elsie Worthington and Miss Madeline Greene.

Puppy Stories

(by Vincent G. Perry)

THE PUPPIES' TEST.

Part Two.

Tiny Long Ears was such a delicate little fellow and so much smaller than the rest, it is a wonder his mother hadn't cautioned him to stay at home. He didn't know what he could do to prove his usefulness; in fact, in the face of such great dogs he felt his brothers were, he felt very useless, indeed. He would do his best and trust to luck for something to turn up, he thought, and off he started. Alas! for poor Tiny Long Ears! Misfortune was to happen right at the beginning, for he just had his front paw through the barnyard gate when a gust of wind slammed the heavy gate shut and his poor little front paw was badly jammed. How he did cry with the pain. He tried his best to walk on all four legs, but he couldn't, and the pain was so bad he felt too weak to go on. He limped back to the barn and threw himself down in a sunny spot to lick his sore paw. It was such a nice, sunny spot, it was not long before the paw stopped hurting, but by this time Tiny Long Ears had become tired and went sound asleep. He was wakened suddenly by a shrill cry. Up he got just in time to see Mrs. Speckled Hen squat down and her tiny chickens running for shelter under her wings. A big shadow appeared over the barnyard, and Tiny Long Ears looked up just in time to see a cruel hawk just about to pounce down on one of Mrs. Speckled Hen's tiny chicks.

"Bow, wow, roof!" Tiny Long Ears barked at the top of his shrill little voice. The cruel hawk, quite startled by such a bark, flew high up in the air. A hawk is not so easily fooled, however, and when it looked down Tiny looked quite a small puppy and so the hawk started down toward Mrs. Speckled Hen again. But Mrs. Speckled Hen had gathered her family to safety in the barn, and the cruel hawk was cheated of his prey.

"Well done, Tiny Long Ears," cried an approving voice close by. It was Mrs. Pointer. She had been in hiding and had watched it all. When Tiny Long Ears' brothers all came home, they told their stories, one by one.

Spot and Black Face had failed in their attempt to find a bird. Long legs had run so far he had tired himself out, but he had nothing to show for all his work. Fatty, the naughty fellow that he was, confessed that he had spent the afternoon hunting for the meaty bone his mother had promised as a reward.

"The prize goes to Tiny Long Ears," Mrs. Pointer announced. "By guarding his master's hen yard, he has done the most useful thing of all. A dog doesn't have to go to look for things to do to be useful. He can make himself of use right at home," and so saying she went to get the promised bone, that had not been hidden in a hard place to find at all, so Fatty was doubly fooled.

Tiny Long Ears was not a selfish dog, and after he had eaten all he could of the bone, he divided the rest up among his brothers—all except Fatty, for that naughty fellow had been sent to bed without his supper because he hadn't played fair—and he deserved the punishment, don't you think?

THE END.

CHILDREN'S HOSPITAL COMMITTEE

There is to be a meeting of the Children's Hospital committee at the Western Fair Board rooms on Friday afternoon to make further arrangements for canvassing the counties of Western Ontario for financial support. Now that the city grant of $50,000 has been promised, as well as a grant from the county of Middlesex, the members of the committee feel that the other counties may do something. With the promised $5,000 from the Masons of Western Ontario, the hospital fund has reached the first $100,000, and it is almost certain that the building will be commenced shortly.

RIVERVIEW M. C.

The Rev. Mr. Cree is to be the speaker at the Riverview Mothers' Club to be held tonight at the school. His subject will be "The Ideal Mother." The principal business of the meeting will be the arrangements for relief work in the district.

DRAMATIC CLUB READING CIRCLE.

The one live reading circle of the London Drama League will hold its first meeting of the New Year on Friday night. The circle is studying "Hamlet."

UNIVERSITY WOMEN'S CLUB.

"Trade Unionism" will be the subject of the next meeting of the University Club, to be held at the Western U. Arts Building, on Saturday evening. The main feature of the evening will be a practical talk on the subject, to be given by Mr. Stewart of the local trades and labor council. This will be introduced by a short historical sketch on trade unions.

Boxites, please resolve to observe the following rules when writing to the Mail-Box:

1. Write on one side of paper only.
2. Write on notepaper, not on cards.
3. Sign full name and address, besides pen-name.
4. Do not ask for names and addresses of business firms to be published.
5. When asking for seeds, patterns, addresses, etc., to be forwarded, inclose "a stamped" self-addressed envelope.

CYNTHIA GREY.

Where Is Mrs. Homebird?

Dear Miss Grey,—I am always glad when I see a nice long row of letters in the Mail-Box, and I think it's nice for one to always use the same pen name, as they seem more like old acquaintances when you see the old names, though welcome newcomers, too. I always enjoyed Mrs. Homebird's letters, also several of the old writers, forget their names now. Can some one come to my aid and give me some advice how to handle or train a nice smart little girl that is very untruthful sometimes? She is hardly ten years old. I have only had her a short time, adopted her, and I do hope someone can give me some advice as how to cure her of this bad fault. Seems to be natural to her and no particular reason for it. Please write, some one with experience. A short time ago some one asked how to get rid of mice. Get some strychnine and dissolve with hot water in an old can and put in some wheat, and let it soak hot, same as they fix gopher poison in Manitoba, then put on some old dishes and put through the house out of the way, but where mice will get it. My experience with music lessons by mail was quite satisfactory. Find them much better if some one with some knowledge of music and notes is on hand to give a few pointers or explain once in a while. Some one was asking about this a short time ago. I will send in the way to make butter last longer now it is getting scarcer and dearer. Break up 2 cups butter in a large bowl or crock and 2 cups milk; set it where it will get near as warm as new milk and add salt and butter color; then beat and stir till milk is all beat into butter (use dover egg beater). One is asking for a cure for drunkenness. If they write to me I will copy it from a book, as it is quite long, too long to put in this letter. ANCHOR.

Ans.—Thank you, Anchor, for bringing such useful information, and I hope some mother will be able to advise you with regard to your little girl. No doubt the child will outgrow the fault, but it is best to nip it in the bud, if possible.

Orange and Lemon Peel.

Dear Miss Grey — This is my first visit; hope I am welcome. Would you please send me Juanita's address? Am sending recipe how to make orange and lemon peel that Marie asks for, and please send me six bags of lavender if you have any left; also a few Moonflower seeds and Cosmos, or any that you have in. I think you are doing a grand work getting the mites in like you are doing. Am inclosing a dollar for my mite. Please don't think I'm greedy in asking for six bags of lavender, but they are to go round to my three daughters and myself. Hope I may come again. SEALKOTE.

(Candied Peels) Orange or Lemon or Grape Fruit Rinds.

Cut the rind in strips and let it soak in cold water all night, wash and put on the stove in a large quantity water. Let it boil about half an hou then remove from the fire rinse ar repeat the process. Do this three time rinsing between each time. The four time, just cover the rind with water a add one-half cup of sugar to one gra fruit or two oranges. Simmer slow until the syrup is absorbed. Roll granulated sugar.

Ans.—There are only three sache left so I am mailing them to you; a address and Moon Flowers, but the are no cosmos in Mail-Box at preser Many thanks for generous hospital g and peel recipe.

"Western Ontario's Largest Home Furnishers.

THE inevitable has happened—Furniture prices reach Pre-War Levels! Today our doors open to the citizens of London and Western Ontario with one of the most drastic Furniture Clearances that has occurred since 1913.

WE honestly believe this to be the boldest attempt by any furniture concern in the whole province of Ontario, in fact in the Dominion of Canada, to "make way" for "Lower Prices."

THE reliability of the firm—the quality of the stock—the finest the furniture market affords—our enviable reputation as a square-deal firm—our present gigantic Clearance of every article in the store at a straight 40 per cent off, should fill our spacious store with eager purchasers throughout the continuity of this Big Furniture Event of 1921.

THE original prices remain on every article—no, we haven't marked them up to cover the reduction—the price tags remain the same—you choose—then deduct 40 per cent from the price on the tag, and enjoy for the first time since the commencement of the war, the supreme satisfaction of purchasing the finest furniture, bedding, draperies and rugs manufactured at "before the war pricings."

WE don't believe another firm in London or Western Ontario will duplicate our prices—we don't believe you'll secure such big value for so little money in many months to come. We urge you to attend—see—be convinced—and enjoy buying home furnishings at prices that are at least consistent with the size of your pocketbook.

THERE has been a "buying strike"; we're going to "break the strike." We believe 40 per cent reduction will do it. If you've been one of the many strikers—start buying now! Today.—Tomorrow—the next day, and the many days to follow you will read our announcements in the columns of this paper. You read no prices. We don't think it necessary. Forty per cent Reduction from Regular Prices covers our sales argument to you.

YOU — EVERBODY DEMANDED LOWER PRICES. YOU REFRAINED FROM BUYING —WE, EVERYBODY SUFFERED, INDUSTRY STOPPED, THE BANKS CLOSED TIGHTER, MONEY WAS SCARCE, AND WE ATTRIBUTE THE PRESENT CHAOS TO THE RESULTS OF "THE BUYING STRIKE" THAT THE PEOPLE OF LONDON AND CANADA HAVE INDULGED IN FOR THE PAST YEAR BACK. WE SOLICIT YOUR INTEREST IN THE MOVE TO BRING LOWER PRICES, BETTER TIMES—WE CAN'T DO IT ALONE. YOU—EVERYBODY MUST JOIN IN THE MOVEMENT.

WE shall expect you today—tomorrow and later days—to avail yourself of this one big opportunity to secure the finest Home Furnishings offered in all Canada at 40 per cent Reduction. Think what it means! We are actually selling many articles below the wholesale cost today!

THE big event opened this morning—Nothing is reserved—Furniture—Bedding—Draperies and Rugs—All at Pre-War Prices.

If you've been "striking" for "lower prices" start buying now!

When Will Western 'U' Put Boxing On Its Program?

Widespread Favor of Game, With Its Introduction Into Collegiates, Makes It Opportune Time For Western's Participation.

While Western University has gone in for every other sport, boxing has thus far been left out of the athletic curriculum. How long this will be done cannot be foreseen, but it would seem, with the present agitation in favor of boxing in the high schools of the province and a general revival of amateur boxing tournaments throughout the country, even to the smallest hamlets, the sport must soon make its entry into the lists of Western U.

The entrance of Western U. into the roped arena would give the game a tremendous boost just now, when it is slowly getting a good foothold in London and surrounding towns. Moreover, it would broaden the scope of Western's athletic program and probably bring the institution inter-varsity honors more quickly than many of the other forms of sport. O. A. C. has been remarkably successful in developing good wrestling and boxing strings, and there seems no good reason why Western U. does not take it up.

English schools were for many years loth to take up boxing officially, though it has always been a recognized school sport, and more a purely British sport than any one other. The past few years have witnessed a remarkable growth of boxing in schools, and in the southeastern group this year, there were over 200 entries from the grammar schools, and the best entries ever sent forth.

WEATHER CAN'T STOP BASKETEERS ANYWAY

The hockeyists may be stopped up by spring-like weather, but the basketballers will get going as strong as ever this week, with the additional entry of the London Girls' League, which has 12 teams entered this year, and which opens Friday night at the East End Community Hall.

Mayor Little will throw up the first ball and General Manager Buchanan of the public utilities, blow the opening whistle for the two games, which will start after a big promenade of all basketball girls in the city in uniform is staged.

Despite the fact that London is out of the O. B. A. this year, the game isn't apparently going to suffer any. The City League, a probable military league, the Ladies' O. B. A. and games which will be staged from time to time with outside teams, is going to give the basket fans in the city lots to look over.

Others Make More Than the Fighters

Indian Wrestlers Make Fabulous Sums—So Do Matadors.

Lately there has been a great deal said about the large purses being given to fighters, and the natural conclusion is that boxers are making big money. They do. But they are only common laborers in the world of sport when you consider some other branches of athletics. There are many sports which pay better than the boxing game.

Bull fighters and wrestlers make the prize fighters look like pikers. A good jockey can run up a fortune that any pugilist would envy.

The richest athletes in the world are the wrestlers of India. They accumulate fortunes that run into millions. Goubian, a giant from Upper India, was worth $5,000,000 when he died. These Indian wrestlers, who, by the way, are the best in the world, are attached to the courts of the Maharajahs, who are fabulously wealthy and reward their favorites with enormous salaries and valuable presents. Goubjan possessed jewels worth $1,000,000.

Wrestlers Make More Money.

Wrestlers everywhere seem to make more money than pugilists. Stecher earns more than Dempsey. There are no millionaire boxers. Dempsey, Carpentier or Leonard may surpass the half-million mark some day. However, there are many millionaire matsmen. Hackenschmidt is worth a million dollars. Padoubney, Racevitch and Aberg have each gathered close to a million dollars. Strangler Lewis, Caddock, Wladek Zbyszko and Stecher are piling it up at the rate of $100,000 a year. A wrestler has the advantage of a fighter as he can perform every night in the week, while the boxer enters the ring only at intervals.

Matadors Also Idolized.

The matadors of Spain rival the wrestlers closely in money making. A bull fighter is not only able to gather an immense fortune—sometimes a million or two, but he is received in the best society and idolized by the people. Belmonte, the greatest living matador, is earning about $200,000 yearly.

Tod Sloan, the American jockey, made a million dollars during his career in the saddle. Buddy Ensor, one of the best riders today, added between $50,000 to $60,000 to his bankroll last year. Babe Ruth added equally as much, if not more. Players of hai lai, a sort of Cuban handball game, are said to make as much as $30,000 a year. The Canadian professional hockey players sometimes make more than $10,000 a year.

ONTARIO HOSPITAL BONSPIEL IS OFF

Dr. Robinson Fixes Postponed Date Somewhere in February.

Dr. Robinson of the Ontario Hospital announced last night that the proposed bonspiel of the hospital curlers for Jan. 5 was definitely off until some time in February.

If weather conditions had permitted the holding of this event, London curlers would have had almost a month of continuous bonspiels on their hands, the city championships for the 11th and 12th of January, the ingersoll district play and the St. Thomas Bobby Burns bonspiel following one another in quick succession.

By the time the city championship competitions roll around, however, there should be ice, and then the curlers who are entered for all these affairs will hardly have a breathing space.

The hospital surface was coming along in fine shape the middle of last week, but there is nothing left but the sand foundation now.

OVERALL TO TRY OIL.

VISALIA, Cal., Jan. 3.—Orvall Overall, former noted pitcher for the Chicago Cubs, recently entered the oil business here when the Government sanctioned his oil lease in the Lost Hills country.

GROOMING HIS BROTHER FOR DEMPSEY

MIKE GIBBONS.

Mike Gibbons thinks his brother Tommy has a good chance to beat Dempsey, and a lot of the Western fight fans think with Mike. The younger Gibbons has everything to recommend him except a K. O. punch.

HOPPE TO TRAIN YOUNG WILLIE AS BILLIARDIST

Is Now Five Months Old, So Dad Not Retiring Soon.

BY HEK.

New York, Jan. 1.—Willie Hoppe has won so many championship billiard tournaments that it has become a habit with him. The recent tournament was no exception. In this he made a clean sweep, defeating his youthful rivals, Welker Cochran and Jake Schaefer, twice each. Hoppe once more demonstrated, in a manner that eliminated all doubt, that he is without serious contention in the pastime which he has dominated for so manuy years.

In the defence of his title Hoppe defeated his opponents for a grand average of a little better than 29, as follows:

	Average.	High run.
Cochran	18 4-22	101
Schaefer	28 8-14	179
Schaefer	40	239
Cochran	50	105

This is Hoppe's sixteenth championship season. Thirty-three years old now, he won the world's title in Paris when he was 18, wresting it from Vignaux. Since then he has successfully defended it against the best of players, proving beyond all question that he is the greatest billiardist of all time.

Grows Better as He Ages.

Like good wine and other things which benefit by the aging "process, Hoppe apparently grows better with the years. Billiard experts agree that the erstwhile "Boy Wonder" is at the very top of his form right now, and they have abandoned all thought of his being defeated so long as he elects to defend the championship.

That Hoppe has no desire to retire for many years yet is indicated by the half-jocular remark he made to me after defeating Cochran. Hoppe is the father of two children—a daughter, Alice, 8 years old, and a 5-month-old son, Willie, Jun. Acknowledging my congratulations upon his victory and replying to the complimentary assertion that he is without a foeman worthy of his steel—or cue—Hoppe said:

'Well, if it doesn't occur in the meantime, I hope some years hence to show you a billiardist who will beat me."

Pressed to identify the individual he has in mind, Hoppe named his son, and he assured me that he meant it seriously.

Will Train Son.

"I certainly intend Billy to become a billiard player," Hoppe continued. "When he becomes old enough to handle a cue I propose to take him in hand myself and train him, that he may profit by my experience. Who knows but that he may develop the skill to win the championship—and, perhaps, wrest it from his daddy?"

Hoppe commands admiration not solely because of his ability as a billiardist, but also because of his personal characteristics. He is a credit to the sport—if such it may be called—which he so ably represents, as well as his race and manhood. Of exemplary habits, he is champion among champions, both as a man and a billiardist. He is the model athlete. His daily life is regulated by the rules of healthful living, and from the rigors of this he never deviates a particle. Hoppe, indeed, is an example who is to be copied.

PLAN NATIONAL CONTROL OF FIGHTS

First Session on Monday—Governors Invited.

New York, Jan. 3.—Plans for the formation of a national organization to control professional boxing are rapidly taking shape in this city and the first session of that body here next Monday is expected to develop quick and radical action.

The tentative title selected for the association is the national board of boxing control and the three-day session which begins on January 10 will open with a luncheon to the delegates of the states the governors of which have already designated representatives.

BABE RUTH EXPECTS TO MAKE 60 HOME RUNS THIS SEASON

New York, Jan. 4.—If Babe Ruth doesn't get at least 60 home runs in the 1921 season he will be greatly disappointed, he said today. The home run king plans to go into intensive training at once in the attempt to beat his own record. As he is many pounds overweight, due to his extended vacation in Cuba, he will go to his farm in Massachusetts and put in about six weeks at wood-chopping. Then he will join the Yankees' pitching staff in Arkansas late next month.

Ruth believes that his throwing arm will be in good shape next summer, and he is counting on doing some of the twirling for the team.

"ORAL" BETTING ATTEMPT AT NEW ORLEANS NIPPED

New Orleans, La., Jan. 3.—District Attorney Robert Marr today filed criminal information against five directors of the Businessmen's Racing Association and thirty-eight "layers" alleging violation Saturday at the fair grounds track of state anti-gambling laws.

The informations were filed in the face of an injunction issued Friday restraining the district attorney from interfering with the meeting.

The fair grounds meeting was conducted Saturday with wagering permitted under the "oral" system, the same as that used at the Shrewsbury track, and which District Attorney Marr announced he would not permit in New Orleans parish.

HAMILTON, Jan. 3.—St. Patricks of Toronto scored their second victory of the season at the expense of the Hamilton team here tonight, when they downed the locals by a score of 5 to 4. The victory was well earned, and the score is hardly a fair indication of the margin the visitors had, for they had much the better of the play in the last two periods, but phenomenal work on the part of Lockhart prevented them running up a bigger score. Only in the final period did the Hamilton team manage to hold its own with the Pats. In that period the good work of Carpenter and Prodger had its effect, and two goals were scored for the home team. Couture notched another one at the start of the second period, but after that the Hamiltons were outplayed and were lucky to hold the score as low as it was.

Hamilton fans expected to see Sprague Cleghorn with the visitors, but he was not among those present. Neither was Broadbent, the other Ottawa player, who was awarded to the Hamilton team. Joe Malone has decided to play with Hamilton, but was not on hand either, so that neither team can credit new blood with victory or defeat.

Referee—Tom Melville.

KITCHENER NOT PLEASED WITH FIRST SHOWING

Kitchener, Jan. 3.—Extreme regret is expressed locally over the accident suffered by Snoozer Truschinski at the arena Saturday night. It is openly admitted here that the loss of Truschinski is a serious setback to the team. Kitchener fans in commenting on the Argos game are somewhat pessimistic. It is thought the locals will be unable to stand the pace, judging from their showing against the Argos. It is feared here that the Kitchener stars are getting a bit old as far as staying powers are concerned. Dick Carroll is reticent.

DAVIS CUP FORMALLY GIVEN TO U. S. WINNERS

Auckland, N. Z., Jan. 3.—The Davis cup was formally handed to Capt. Samuel Hardy of the victorious United States lawn tennis team tonight. The occasion was a banquet given in honor of the Australasian and United States players by the Australasian Lawn Tennis Association. Included among the guests were Admiral Jellicoe, governor of New Zealand, and Premier Massey.

Salt Lake City, Utah, Jan. 4.—Jack Dempsey, world's heavyweight champion pugilist, is made defendant in the district court here in an action filed by J. F. Burns, a negro, in which it is alleged that Dempsey has failed to pay Burns for special services performed between January 10 and March 15, 1920, amounting to $700.

RUTH GOT MONKEY UP.

NEW YORK, Jan. 3.—While the baseball moguls were in merry session here recently, someone passed out another one of those Ruth-Tarzan stories. This one happened while the Babe was a member of the Red Sox. It seems he had grown heartily tired of being dubbed Tarzan, and so expressed himself one day in the club house. "The next guy," he said, "that pulls this Tarzan stuff on me is gonner be ruined for life. Get me?"

"Yeh, that's right," said Scott to the bunch. "Up a tree with that monkey stuff."

BREAK IN MINORS WILL COME NEXT WEEK AT CHICAGO MEETING

Baseball men will invade Chicago early next week to attend the first big meeting of the year.

The joint conference of majors and minors at which the proposed new national agreement will come up for ratification, the major league schedule meetings, and several annual meetings of minor leagues will be held.

As a result of the various meetings there is a chance that a break may come in the ranks of the minors. The Class AA leagues, it develops, will insist that they be left free from the draft, and other factions in the minors will have varied demands to make.

For one thing there is a feeling in the minors that 25 years is too long a period for which to sign any pact. Certain members of the minor league committee also feel that the proposed new agreement does not give the minors enough voice in future baseball legislation.

There is a financial side to the signing of a new agreement also, for if the minors insist on having Judge K. M. Landis designated to act in their behalf as well as in behalf of the big leagues, they will no doubt be given an opportunity to bear a share of the burden of the expense of running his office and paying his salary.

The draft question, however, appears to be the crux of the whole matter, and it will be up to the National Association to thresh it out. The Class AA leagues, it is said, may ask that they be permitted to step into a class of their own as a third party to any agreement signed, with recognition as a "near major unit" of organized baseball. Just how this can be accomplished remains to be seen.

ST. PATRICKS ARE ADMITTED TO BE SPEEDIEST TEAM

Hams Were Outplayed at Every Stage of Game.

Hamilton, Jan. 4.—There was no doubt about St. Patricks being a better team than Hamilton last night. All the fans acknowledge that, and the score, 5 to 4, is not a true indicator of the play, for in the second and third periods the visitors simply smothered Lockhart with shots, but his great work was one of the features of the game. Only in the first period did the Hamilton team shape up as worthy opponents of the visitors. The work of Wilson, Cameron, Noble and Dye was decidedly effective, the latter pair being responsible for the goals scored for the Saints.

The game was witnessed by the largest crowd that ever viewed a hockey game in Hamilton, and so great was the rush for seats that the crowd was not all seated by the time the first period had ended. The professional brand of the great winter pastime has made a hit here, and the Hams are assured of good support even if they are not out in front in the league race. There was no sparing of the hickory in last night's game, and while many penalties were handed out, all were minor ones and a great deal of the rough work escaped the eye of the referee. It was not a real rough game, however.

It looked in the first period as though the Hams might come through with flying colors. They held their own with the visitors in the general play and had better luck in the scoring, two goals getting by Mitchell, while the Saints failed to tally. They had many shots, however, and only the great work of Lockhart prevented their getting to the front earlier than they did. In the second and third periods they simply played the Hams off their feet and left no chance for any argument as to which was the better team.

NOTED STALLION BROUGHT TO U. S.

New York, Jan. 4.—Archaic, a noted stallion, who finished second in the last English Derby, arrived here yesterday on the steamship Menominee and will be taken to John Sanford's Hurricania stud at Amsterdam, N. Y. Horsemen who gathered at the pier, declared the stallion is one of the handsomest thoroughbreds ever brought to the United States. He stands 16.1 hands and is of rich chestnut color with a star and flaze. The purchase price was said to be $55,000 at present rates of exchange.

A large consignment of yearlings and mares purchased abroad by United States turfmen were also landed.

GORDON WILLIS DIES.

Ottawa, Jan. 4.—Sergt. Gordon Willis of the Ottawa police force died in the Royal Victoria Hospital, Montreal, last night.

Gordon Willis was a football player of ability as well as being an all-round athlete. He was for many years centre half of the Ottawa seconds, and also a member of the team that won the Quebec Union in 1914. Graduating to the seniors, he was a regular until this season, when he received a serious internal injury following the first game against Hamilton Tigers. He was compelled to undergo a serious operation from which he temporarily rallied and resumed his police duties. His injury, however, necessitated a further operation which he failed to survive.

WILL "NUMBER" PLAYERS.

Boston, Jan. 4.—Hockey players will be numbered at all games held in the new Boston arena. The management announced today this will be a new departure for the majority of college teams playing here. The Harvard team's first practice of the season was attended by more than 60 candidates. With but two exceptions the regulars lined up with a veteran seven. Coach Claflin plans a two-hour daily practice for the remainder of the season.

HON. N. W. ROWELL WILL SPEAK TO CANADIAN CLUB IN NEW YORK

New York, Jan. 4.—Canadian Press.—The Canadian Club announced today that Hon. Newton Wesley Rowell, former president of the Canadian Privy Council, and one of Canada's delegates to the assembly of the League of Nations at Geneva, will be the principal speaker at a banquet to be held at the Hotel Biltmore here on January 21. E. W. Beatty president of the Canadian Pacific Railway, will also be among the speakers.

N. Y. Exchange Now Over 17%

The additional advantage accruing to the investor buying securities which pay interest in N.Y. funds continues to increase. The premium on the N.Y. dollar is rising. Moreover, everything indicates that

The Exchange Premium is Here to Stay

for many years—because Canada's imports from U.S. so greatly exceed her exports that it will take years to rectify this unfavorable balance of trade.

The moral for the investor is: Buy securities paying interest in N.Y. funds, and so increase the yield over a long period.

We can offer securities of a strong Canadian Company marketing its product in U.S. and paying interest in N.Y. funds. Ask us about them.

REDSKINS TO LIVE AT TOURIST CAMPS

Hotel Men Plan Novel Lure for Resort Trade.

Grand Rapids, Mich., Jan. 4.—Newly-organized Great Lakes Way camps at Traverse City and Cadillac are to become Indian camps, according to plans now being developed by Carroll F. Sweet, Hugh J. Gray and other Grand Rapids men identified with the Michigan Tourist and Resort Association. Two clubs in addition to those at Cadillac and Traverse City are contemplated.

Officers of the association feel that because Indians are already in the northern parts of the state where these camps will be located, it is good business to capitalize them.

Indian women will be at the camps weaving baskets, making pottery and pursuing other traditional occupations. Wigwams and tepees will replace bungalows, there will be canoes on the streams and the entire atmosphere of the camps will be suggestive of primitive Indian life. The two camps now in operation will open for the season June 1.

MANY PASSENGERS ARE REPORTED LOST

Fears Expressed For Members of Crew of Spanish Boat.

Madrid, Jan. 3.—One of the several boats which put out from Villa Garcia to search for the passengers and crew of the wrecked steamer Santa Isabel, returned today with forty persons who had been rescued. The vessel was on her way from the Canary Islands with two hundred passengers and crew when wrecked. The Santa Isabel was totally wrecked Saturday night on the coast of Villa Garcia. Boats from Villa Garcia began to search for survivors Sunday morning. Forty-five survivors from the wrecked steamer have been taken to Ribayara, a village on the Galician coast. The captain of the Santa Isabel was rescued, but was unconscious. Although official dispatches are lacking, it is reported that many passengers and members of the crew were lost.

The Santa Isabel went aground at 4 o'clock Saturday afternoon. Fishing vessels which were dispatched immediately from Ferrol and Corunna found the steamer aground in shallow water with the funnel and masts still visible.

The Santa Isabel was engaged in coastwise service between Cadiz and Corunna. It is officially stated that all passengers on board were to transship at Cadiz for Buenos Aires.

BODY OF MISSING MAN

to his home in Toronto on probation by his father, who promised that he and his son would be in constant attendance with the patient, whose condition was greatly improved. He was not on New Year's leave, but was to stay at his home so long as his condition warranted it. However, the youth's mother died recently, and, while he was informed of her death, I do not think he realized it until he reached home, and the shock caused him to take his life. His father has accepted all responsibility for the unfortunate affair, and we are very sorry. McMahon showed no suicidal tendencies here, and if he had we would have legally committed him permanently. We parole many patients on probation, and a nurse visits them periodically to report on their condition. McMahon was a model patient during the latter period of treatment here, although at times he became confused."

BOY SACRIFICES LIFE IN EFFORT TO SAVE HIS DOG

Northampton, Mass., Jan. 4.—In an effort to save his dog, which had slid off the edge of the ice into Paradise Pond, on the Smith College grounds, yesterday, Harold Abbot, 14 years old, was drowned. The dog was rescued. The boy, who was a deaf mute, was a pupil at the Clark School for the Deaf. His father, Rev. David C. Abbot, is a missionary to India, and is now here on a furlough.

REQUIRED 20 SHOTS TO SINK FORMER GERMAN RAIDER

Los Angeles, Cal., Jan. 4.—Twenty 4-inch shells fired by the United States destroyer Wickes at ranges varying from 3,500 to 2,500 yards, were required to sink U-boat 88, former German high seas raider, six miles off the San Pedro breakwater, late yesterday.

BRANTFORD CROWD REFUSES TO LISTEN TO MAYOR WEDLAKE

Brantford, Jan. 4.—For the first time in Brantford's history, a newly-elected mayor was refused a hearing by the election crowd, Mayor-elect Wedlake being booed by the crowd to such an extent as to find it impossible to speak. However, Mayor McBride, who followed, fared no better, he also having to give up an attempt.

VILLA HEADS FEDERAL CAVALRY IN PURSUIT OF FORMER FOLLOWER

El Paso, Texas, Jan. 4.—Francisco Villa, at the head of a force of federal cavalry, has taken the field in pursuit of one of his former followers, known as El Charro.

CARDINAL GIBBONS'S CONDITION IMPROVES.

Baltimore, Md., Jan. 4.—The improvement in Cardinal Gibbons's condition, which permitted his return home yesterday, continued this morning, it was stated at the archiepiscopal residence. He enjoyed a refreshing night's sleep after an absence of nearly a month at the home of friends in Western Maryland, where he became seriously ill, and was said to be doing very well.

POET'S WARSHIPS ARE DISMANTLED

Italian Army Assumes Responsibility of Procuring Food for People.

Triest, Jan. 4.—Disarmament of warships under control of the D'Annunzian legionaries, in Fiume, continued today, all submarine chasers coming out and being taken over by the blockading fleet. The army has taken over the work of finding food for the population in the zone affected by recent attacks until the situation becomes stabilized, and legionaries are being enrolled before being taken out in groups of 300.

A score of Arditi tried to run the blockade of Fiume in a motorboat armed with a machine gun yesterday, but they were captured, and there have been other arrests of persons trying to get out of the city.

Church Thief Even Stole Pastor's Silver Cigarette Case

Chicago, Jan. 4.—Parishioners of the Episcopal Church at Winnetka, a fashionable North Shore suburb, are mystified as to the identity of the elderly gentlemen who occupied a front pew Sunday morning after he had visited the choir-room and secured all the valuables from the overcoats of the choir members.

Missing articles included the pastor's monogrammed silver cigarette case, a Derby hat and sums in cash ranging from car fare to $10.

The thief was first espied by Mrs. Archibald Shaw, a member of the choir, who saw him in the choir cloakroom. He explained that he was attending the services and lost his way. Later he was noticed among the congregation.

As the man left the church an usher shook hands with him and asked him to return. He promised to do so.

AMERICAN CITIZEN SUING MEXICAN GOVT. FOR HALF MILLION

Dr. Charles T. Sturgis Files Claim With U. S. State Department.

St. Johns, Mich., Jan. 4.—Dr. Charles T. Sturgis, formerly of this city, has filed with the state department claims for more than $500,000 against the Mexican Government, charging the loss of a ranch of 3,000 acres, and cruelties suffered by his family while held captive by Mexican bandits at La Blanca, State of Chiapas. The bandits are alleged to have driven off 3,000 head of cattle and goats, and to have destroyed the coffee plantation and buildings.

Mrs. W. H. Keenwright, Dr. Sturgis's mother-in-law, is alleged to have died of starvation, while Mrs. Sturgis was forced to do messenger duty between the bandit camp in the mountains and Mexico City, under threat of death to Dr. Sturgis. Dr. and Mrs. Sturgis were released on November 11 last, without food or money, and made their way across the United States line, the complaint says.

SWISS SOCIALISTS ARE FORBIDDEN TO ACCEPT WORK UNDER LEAGUE

Berne, Jan. 4.—Members of the Swiss Socialist party have been forbidden by that organization to engage in any work under the auspices of the League of Nations. A resolution has just been passed by the executive committee of the party declaring that acceptance of any mandate whatsoever from the league, or any institution created by it, was incompatible with the acceptance of a position of trust in the party.

ELECTED PROVISIONAL GOVERNOR OF FIUME

Rome, Jan. 4.—Anton Grossisch was elected provisional governor of Fiume by the communal council of that city. The council ratified the convention recently concluded at Abbazia between representatives of Italy and Fiume, it is said in dispatches received here.

SIGN LANGUAGE AT BOSTON MARRIAGE

Boston, Jan. 4.—A marriage in which the services had to be interpreted to both the bride and groom occurred here yesterday when Edwin W. Frisbee, a deaf mute, married Miss Cora F. Crocker. As the minister read the ritual aloud each sentence was repeated to the bride and groom by touch and sign language. Mr. Frisbee is senior member of the board of trustees of the New England Home for Deaf Mutes and Miss Crocker has lived there for the last year.

RECEIVER APPOINTED.

Toledo, Jan. 4.—For the second time in less than a week a receiver was appointed yesterday to take charge of a branch railroad of the Toledo Railways and Light Company, a subsidiary of the Henry L. Doherty Company of New York.

Last week the United States district court named a receiver for the Toledo and Western, an interurban line running to Pioneer, Ohio, and Adrian, Mich., and today another was appointed to take charge of the Maumee Valley Railways and Light Company, a loop line 30 miles long, running around the city and through Perrysburg and Maumee.

COMBINE FRANCE'S NEEDS.

New York, Jan. 4.—A plan to combine all of France's financial needs in this market for 1921 was reported in Wall street today to be under negotiation by representatives of the French Government in the United States. The arrangement is not expected to be completed possibly before March, but if successful, it was said, all French requirements would be placed in one lot. Maturities for the year will exceed $75,000,000 in the United States, it is estimated.

WILL COMBAT OPEN SHOP.

Rochester, Jan. 4.—Decision to combat any movement for the open shop and to oppose wage decreases until the cost of living shall have been materially reduced was made at yesterday's session of the executive board of the United Shoe Workers of America here. The board tomorrow will begin discussions of a plan for a working alliance between labor organizations outside the American Federation of Labor.

HULL'S POLICE RECORD.

Ottawa, Jan. 4.—According to the annual report of the chief of police of Hull, Quebec, there were 2,712 arrests in that city during the past year. Of this number only 400 were residents of the city. "Drunks" constituted the major portion of the offenders, 1,780 having faced the magistrate in the twelve months.

In 1919 there were 1,622 arrests made.

HAY PRICES ARE SLIGHTLY EASIER

Live Hogs Bring $15 Per Cwt. —Potatoes Slow.

Twenty loads of hay were offered at the London market today, as compared with 12 loads yesterday. The price was slightly easier, being from $26@29 per ton, but most of it sold at $27@28.

Two loads of straw brought $12@12 50.

Oats ranged from $1 50@1 53 per cwt, being in better demand.

For select live hogs for tomorrow's shipments $15 was paid, and dressed hogs realized $21 50@22 per cwt.

There was a poor sale for potatoes at $1 75 per bag wholesale, and the demand for this product is likely to remain slow for some time.

Eggs remained unchanged at 75c per crate, 80c per basket, and 90c by the single dozen.

Very little poultry was offered, and prices remained unchanged.

Corn—May, 76c; July, 77⅛c.

Oats—May, 50⅛c; July, 48⅞c.

Chicago, Jan. 4.—Wheat prices reacted somewhat today from yesterday's sharp advance. Doubt as to the stability of such a sudden gain was expressed, and there was a disposition to await new developments regarding European call and about domestic milling demand. Besides, reports were current that the Egyptian Government would try to resell 11,000,000 bushels of wheat contracted for in Australia. Opening prices, which ranged from 1⅜c lower to ½c advance, were followed by moderate setbacks all around.

Corn was bearishly affected by large receipts here. After opening unchanged to ⅝c lower, the market continued to sag.

Oats weakened with other grain, starting ⅛c off to ¼c advance, and then undergoing a general decline.

MONTREAL STOCK EXCHANGE.

Montreal, Jan. 4.—The local stock exchange was more than exceptionally quiet and inactive during the early trading this morning, and practically nothing worth mentioning occurred in the first half hour. Atlantic Sugar remained steady and unchanged at 21, as did also Brompton at 55⅜ and Riordon at 135½. Breweries strengthened ½ point to 50, as did also Spanish River to 85½. Other important issues did not appear during the early trading.

MAJOR P. A. CURRY, general manager White Star-Dominion Line in Montreal, was for three years, previous to assuming his present duties in Montreal a year ago, director of embarkation for the British Ministry of Shipping at New York. He was formerly with the White Star Line in Southampton, Eng., and on the outbreak of war joined the Oxford and Bucks Light Infantry Regiment. In 1915 he was wounded at Ypres, and soon afterwards discharged from the army and sent to New York. For his services with the ministry of shipping, Major Curry was awarded the Distinguished Service Medal by direction of President Wilson.

NEW DEVELOPMENTS IN EGGS ARE LACKING

Increase in Production Noted at Country Points—B. C. Fresh Easier.

OTTAWA, Jan. 3.—There are no new developments in the egg situation. Some increase in production is noted at country points, and Ontario country shippers report paying stores and producers 70c to 75c, and making sales at 75c to 80c, f.o.b. The state of the market depends largely on the trend of the States markets and the exchange rates.

Toronto—Steady; jobbing, specials, 95c @$1.05; do., storage extras, 78@80c; do., firsts, 70@72c.

Montreal—Quiet; jobbing specials, $1 @1.10; storage extras, easier, 75c; do., firsts, 70c.

Winnipeg—Unchanged; jobbing, storage extras, 68c; do., firsts, 60@63c; do., fresh specials, 90c; one car of storage seconds reported rolling to Toronto.

Saskatchewan—Unchanged.

Alberta—Receipts of fresh increasing; trade quoting extras, 70c; do., firsts, 66c, f.o.b. country points; storage, prices unchanged.

British Columbia—Local fresh easier; country points, 66c; 70c offered for specials; a shipment of Chinese eggs is expected early this month.

Maritime Provinces—Firm and unchanged.

Chicago—Current extras, 65@66c; refrigerator, firsts, 57½@58c; do., extras, 58½@59c.

New York—Current extra firsts, 75@76c; do., firsts, 73@74c; refrigerator, firsts, 60@61c.

NEW YORK STOCK EXCHANGE.

New York, Jan. 4—Wall Street, 10:30 a.m.—Price movements showed an uncertain trend at the dull opening of today's stock market, although gains outnumbering losses were reported. Oils and tobaccos were firm with kindred specialities while shippings and rails denoted further selling pressure. Atlantic-Gulf common soon fell 2½ points to the new low record of 67, the preferred also recording a new minimum at a loss of 1½ points. Royal Dutch, Mexican Petroleum, Tobacco Products, Retail Stores and Food Products were higher by liberal fractions to a full point.

1:30 p.m.—The break in Mexican Petroleum, for which no explanation was offered, caused actual losses of 1 to 2 points at midday. Pan-American Petroleum, American Sugar, Food Products Crucible, Mercantile Marine preferred, United States Rubber, General Asphalt, New York Central and St. Paul were among the reactionary issues.

If Breath Comes Hard, If Nose Is Plugged, You Have Catarrh

Perhaps you haven't heard of the new remedy—it's so pleasant to use—fills the nose, throat and lungs with a healing balsamic vapor like the air of the pine woods. It's really a wonderful remedy—utilizes that marvelous antiseptic only found in the Blue Gum tree of Australia.

The name of this grand specific is Catarrhozone, and you can't find its equal on earth for coughs, colds, catarrh or throat trouble. You see it's no longer necessary to drug the stomach—that spoils digestion—just simply inhale the balsamic essences of Catarrhozone, which are so rich in healing that they drive out every trace of Catarrh in no time.

For speakers and singers and persons troubled with an irritable throat, bronchitis, asthma, catarrh or la grippe, Catarrhozone is of inestimable value.

The inhaler can be carried in your pocket and may be used at any time or in any place.

Large size, guaranteed, and sufficient for two months' use, costs $1; smaller size, 50c; sample size, 25c. Sold by all storekeepers and druggists.

TEUTONS OFFER FRIENDLY HAND TO UNCLE SAM

New Covenant Is Seen by Von Bernstorff.

WASHINGTON, D. C., Jan. 3.—"Our most pressing tasks for the future are concerned with the United States of America; the most intimate acquaintance between the two peoples, whereby on our part we will let the past lie buried and direct our view toward the future, a readiness to enter into the closest possible economic alliance with America, and the acceptance of Harding's proposal to revive are idea of an international court or the organization of a better league of nations.

"We must, above all, be confirmed in the conviction that only through the solidarity of the interests of all humanity will it be possible to complete the work of reconstruction and to remedy the world's economic situation."

Count von Bernstorff, former German ambassador to the United States, and president of the German League of Nations Society, declared the foregoing in continuing a recent address in the Saalbau at Frankfort, Germany, a copy of the address having been received here from Berlin today.

Discusses United States Politics.

"In regard to politics, we should not expect much from America," the count declared. "This may be inferred from the brief statement of former American Ambassador Hill in Berlin, who believed that for America there is only one foreign policy—the Monroe doctrine. America's interest in Europe rests only on economic and humanitarian considerations.

"Wilson's failure in foreign politics followed upon his recognition that a policy of isolation could not harmonize for any length of time with an American economic alliance with European states. Therefore, Wilson attempted a reconciliation between the contending parties in which neither victor nor vanquished should be recognized, and, for the avoidance of future wars, he sought the formations of the League of Nations.

Speaks of Wilson's Defeat.

"After Wilson's failure the idea of America's political isolation was successfully revived, and, simultaneously, the idea of the formation of an economic alliance. Therefore, since in America it has been considered impracticable to assume the obligations arising under the Versailles treaty, the recent presidential election resulted in the defeat of Wilson, who, four years ago, had been chosen peace president.

"Now, the Republican party has achieved victory upon the issue of a foreign policy without any regard to the domestic struggle between the conservatives and the radicals and the disreputable social elements. This conclusion will continue in force for four years. Wilson has declared this alternative 'for or against the league and the Versailles peace,' yet there are many groups in America in favor of the league but against the Versailles treaty.

Peace by Resolution.

"Therefore, Harding, while against the present league, advocated the revival of the principle in The Hague court of arbitration, and of a plan for the free association of nations without endangering the sovereignty of any of the participating states.

"In answer to objections relative to the lack of power of The Hague tribunal to enforce its decisions, Harding explained: 'If The Hague tribunal has no teeth we can supply them.' Thereby Harding has declared for the principle of America's complete political isolation. It is certain that Harding will not accept the Versailles treaty without the well-known Republican reservations, and it is even possible that by means of a resolution of the Congress the state of war with Germany will be declared ended.

SUGAR PRICE AGAIN REDUCED.

Vancouver, Jan. 4.—The sugar refinery announced another cut of 25c in the price of all grades of sugar yesterday. This brings the quoted price on granulated to $12.70 per cwt.

"Crook" Pictures Are Porbidden by Chicago Police

Chicago, Jan. 4.—Motion pictures portraying criminals at work have been barred in Chicago it became known today. Chief of Police Fitzmaurice announced that three weeks ago he had issued orders to movie censors not to issue permits for any photoplay that showed a crime committed, even though the end of the picture might show the criminal in a prison cell.

The order became public when three youthful robbers, who were sentenced to the state reformatory at Pontiac said their crimes had been inspired by a "crook" moving picture.

BERLIN GUARDS ITS INDUSTRIES

Technical Body Runs Factories and Keeps City Going in Case of Strikes.

BERLIN, Jan. 3.—The backbone of the German Government today is the Technische Nothilfe, a technical emergency and association supported by the Government, Dr. Alexander Berwit, one of the leaders of that organization in Berlin, told the correspondent of the Associated Press the other day.

Dr. Berwit's statement was made as the "alarm" went out for the Technische Nothilfe to mobilize to take charge of the electric lighting plants here, left idle by a sudden strike. He considers his organization more potent than troops or police for the welfare of the country.

At Mercy of Few Radicals.

"Two or three hundred irresponsible radicals here can terrorize 4,000,000 people," the doctor said. "Troop cannot prevent it; the electric lighting plants are dark, the trams are still—and what can soldiers do? They cannot operate these plants, which require highly skilled labor. There is only one organization that can assume control, and that is the Technische Nothilfe."

The Technische Nothilfe went in and began firing the furnaces, and then the strikers voted to return to work. The Technische Nothilfe moved out.

"We are skilled workmen, not strikebreakers or labor union men; we really are representatives of a public that in these days is more or less at the mercy of a few agitators," said Dr. Berwit. "We never interfere in a strike for wages. All we do is step in and operate public utilities, prevent sabotage, and furnish the people just the bare necessaries of a daily existence. We step into the breach when chaos threatens."

All Germany Organized.

In Berlin it is understood the Technische Nothilfe has 10,000 men enrolled for immediate service. They are carefully recruited from every business, and listed so there can be no confusion. Arrangements have been made whereby they can drop the work they are doing and answer the Technische Nothilfe's call. "All Germany is as carefully organized as Berlin," Dr. Berwit declared.

"In case of disputes between employers and labor we have nothing to say. Wage demands may be exorbitant or legitimate, we do not consider them. We merely see that people are not terrorized, that destruction of public utilities, sabotage, is held to a minimum. The leaders of union labor are not opposed to us. They are, in fact, with us, for they realize it is essential to the life of the state to keep certain industries functioning. They are not always able to do that themselves.

"There no longer is any great danger from a general strike anywhere in Germany, for, mind you, all this agitation you hear so much about is not a general agitation; it's the howling of a few of the ultra-radicals, ready to do anything, spreading discontent wherever they can, working for destruction of everything that is, and offering nothing worth while as a substitute."

QUAKERS WILL FEED PEOPLE.

Neumunster, Holstein, Jan. 4.—The Quakers Society announces that, beginning January 6, it will feed 2,000 children and mothers here. The population of Neumunster numbers only 25,000.

AUTHORIZED TO ISSUE BONDS.

Washington, Jan. 4.—The Michigan Central Railroad, a subsidiary of the New York Central, was authorized today by the Interstate Commerce Commission to issue notes and bonds, payable to the parent company, amounting to $5,050,000. The proceeds will be used for the purchase of new equipment and for improvements to the line.

APPOINTED PERMANENTLY.

Hamilton, Jan. 4.—At a meeting of the directors of the Hamilton Amateur Athletic Association yesterday, Charles Smith, a well-known newspaperman, was appointed permanent secretary of the organization, an office which has been vacant since the outbreak of the war. Smith enlisted with the 205th Tiger Battalion and lost an arm while serving in France.

A PIMPLY FACE OR POOR COMPLEXION QUICKLY RESTORED

Thousands of young men and women would be handsome and attractive were it not for unsightly pimples, blackheads and rough, uneven skin. Custom seems to recommend lotions and salves, but unfortunately their effect is but temporary. These disfiguring blemishes do not originate in the skin—their birth in every case goes further back, to the blood, which must be cleansed of humors before the pimples depart for good.

A physician who has made a careful study of such cases says that the quickest relief comes from a blood-building medicine like Ferrozone. The minute Ferrozone strikes the blood its good work begins. Poisons and foul matter are expelled. Every trace of humor is driven out, and the whole life current is supplied with nutriment and health giving qualities. You can always tell a Ferrozone complexion when you see it—the cheeks are clear and rosy, no signs of sallowness—the eyes are bright and expressive because rich red blood is circulating through the whole system, carrying health, energy and strength with it. Not only will all skin eruptions disappear, but an increase in vital strength, an all-round improvement will be apparent. No rebuilding tonic could be more efficient. Get Ferrozone today—good for young and old, for well folks and sick ones too. 50c per box, or six boxes for $2.50, at all dealers, or direct by mail from The Catarrhozone Co., Kingston, Ont.

Why Not Work for Yourself?

Why depend upon a job? At the end of five years or ten years what have you—just a job! Get in business for yourself and be independent—then you won't have to worry about being fired when times are slack. You may have some money saved up, or if not, you may have a house you can sell, or a friend with some capital to invest. Think this over seriously now at the beginning of a new year and consult us freely for information as to business openings. Service free to buyers —a small commission charged sellers: no sale, no charge.

THE MARRIAGE OF ANNE

BY MAY CHRISTIE

(Copyright, 1920, by the McClure Newspaper Syndicate.)

XCIV.—Plans For Paris.

"So you've lived a lot in Paris, have you?"

John Courtney moved his chair a little closer to Julie, and fixed his eyes attentively on her pretty face.

"Indeed I have! I adore Paris! When my first husband was alive we had an apartment on the avenue."

Here Miss Margery cut in:

"The Avenue? Where is that?"

Julie opened expressive eyes, in intense surprise.

"L'Avenue du Bois de Bologne? Fancy your not knowing it! And I understood you to say that you knew Paris!"

Margery's hands tightened on the edge of the chair. Her face flushed unbecomingly. The snub direct. . . . oh, how she hated it!

"My friends all lived in the best part of the city," she began.

But no one seemed to be listening. For Julie was recounting some incidents of the gay capital, with such verve and spirit that the attention of the group was directly focussed on herself.

"There's a light-heartedness in the very air," she was saying, a tender gleam in her pretty eyes. "I love to sit in the little out-of-door cafes, and watch the crowds drift by on the Champs Elysees. That's life! Here one only exists!"

"I agree with you," said John Courtney, quickly. "Ah, madame, how I wish that you could show me Paris!"

Julie rolled coquettish eyes at him. Here was a great and speedy success, indeed.

"And why not? You could take an 'appartement' of your own, and become a 'fashionable bachelor,' giving 'five o'clocks' to which the best people could be invited—" she began.

Again did Margery interrupt.

"Mr. Courtney is not a bachelor. He is a widower."

Julie instantly stretched out a sympathetic hand.

"A widower? Ah! He, too, has suffered like myself! We have much—much—in common!" (The little minx actually managed a gleam of tears in her pretty eyes!)

Her gesture and her words seemed so spontaneous that John Courtney was obviously touched. For an instant his hand held the attractive widow's. Then he released it.

I dared not look at Margery. As for Neli he was actually grinning.

"I should love to take an 'appartement,' as you call it," said the millionaire, "but there's only one clause that must be appended to the contract. You—Madame Julie—must be in Paris always when I am there!"

This was delivered with a very gallant bow.

Poor Margery.

Julie beamed. Compliments were to her as sunshine is to flowers. She visibly expanded.

"Agreed! We shall entertain, together, shall we not? I can act as hostess, at your fashionable 'teas'?"

"Cela va sane dire." He attempted the phrase heroically. His pronunciation was appalling. But Julie did not smile.

Margery, however, considerably piqued and out-of-tune, put her two hands to her ears, and made a little face.

"I should advise your taking French lessons, before you and Madame Julie take Paris by storm," she acidly observed.

Mr. Courtney, however, was in too beatific a mood to be easily upset.

"Why, certainly! This fair lady—" he indicated Julie by a wave of the hand—"if she will undertake my tuition—"

"Nothing would give me greater pleasure!"

"I couldn't possibly be in better hands!"

Considering that Miss Margery spoke French like a native, her chagrin is to be excused!

"I have visited Paris many times," went on the millionaire, "staying at the Eduard Sept Hotel, or the Meurice, or the Ritz. Often I have wanted to possess a little home—logis, you call it—of my own."

"There I can help you," cried the triumphant Julie. "My friends, the Vicomte and Vicomtesse Destouches, are leaving their chic and gorgeously beautiful 'appartement' at the end of the month. They desire that it should be rented for one year, while they travel. The price may be high—" She paused.

Mr. Courtney lifted a deprecating hand.

"The money does not matter," he said quietly.

Julie beamed. Here was a man after her own heart!

"I have your permission to write the Vicomte and Vicomtesse, then?"

He nodded.

"It would be a favor."

Julie gave her brilliant, fascinating smile.

"You will occupy the 'appartement' in the autumn, perhaps? I shall be in Paris for a month or two—" Her manner was timidly charming, tentative.

"Naturally I shall be there also!" was the gallant answer, as John Courtney gave her glance for glance.

(Poor Margery!)

ENGLAND TODAY NOT SO MERRY

Government Weathers Assaults on Policy, But People Groan Under Taxation.

LONDON, Jan. 3.—What promised to be the most formidable attack yet made on the Government's financial policy has collapsed, and the coalition is breathing more freely. In spite of many prophecies of disaster, Mr. Lloyd George's Government has weathered all the storms of the year and will enter 1921 with no unusually dark clouds on the horizon.

Last spring the chancellor of the exchequer, Austen Chamberlain, estimated that the expenses for the current year would amount to £1,418,300,000, including £234,198,000 to be applied to reduction of the national debt. Later he estimated that the expenses in a normal year would be £808,000,000; but he added that next year would not be a normal year, and he could not tell when the normal year would arrive. Subsequently he increased the 'normal year' estimate by several million pounds. More than three-quarters of this "normal" budget was due to the war. The last pre-war budget was just under £200,000,000.

Taxes Increased.

To raise the enormous sum required to meet the United Kingdom's expenses, heavier duties were laid on liquor and tobacco, postage rates were doubled, the cost of telegrams was increased, the income tax was stiffened, the excess profits tax, the bane of the businessman, was retained, and a number of minor assaults on the individual's purse was made. On the revenue side, nothing was estimated as coming from German indemnities, and nothing was put in for installments of the huge debts due from the Dominions and from foreign countries—some £1,800,000,000—on much of which the United Kingdom is not even receiving interest. In short, Mr. Chamberlain did his best to show the world that the United Kingdom is solvent in spite of the staggering burden which she must carry. But to do so he had to add heavily to the burden of the individual and corporate taxpayer."

The budget estimates came in April and the new taxes became effective within a few weeks. Before the end of summer it was evident that the business conditions on which Mr. Chamberlain had relied would not hold. The stagnation which was paralyzing the continent and had already begun to affect business in America began to be felt in Britain. Business, which had cried out against the excess profits tax because that tax took from it money which might have been used in building up capital for extensions, now began to complain because its revenues were dwindling so rapidly that it would have few taxes to pay. Wholesalers who had deluged factories with orders found that the demand for goods was ceasing and began to cancel. Retailers, deceived by the enormous after-war spending of millions of people who suddenly felt such relief from the war-tension of more than four years that they could not restrain their desire for the things of which they had deprived themselves so long had stocked up heavily; when this demand began to slacken they found themselves loaded with goods which they must either keep on hand or sell at a small profit or even a loss. The banks withdrew credit, fearing a general smash. And all this produced a feeling of insecurity, of despondency, which was manifested in a general and whole-hearted cry that the Government was demanding too much money from the taxpayers, and that it must find some way of cutting expenses.

Not Used to Publicity.

This feeling was reflected throughout the press, but most strongly in those papers controlled by Lord Northcliffe, which are ever alert to the slightest change of beat in the public pulse. They demanded retrenchment; they pointed out several ways in which they thought money could be saved. The test came on a vote in the House of Commons on the continuance of one of the departments created for war purposes. The Government won, as usual; but the Northcliffe papers characterized those members who had voted for the continuance of the department as wastrels, and published their names. This proceeding, common enough in the United States, is very unusual in England; so unusual in fact, that many of the members listed considered this attack on them an outrage. They tried to raise the question in Parliament, as to whether the press had a right to attack them for their votes, and when the speaker ruled the matter out of order, action was brought in the courts.

SOVIET THREATENS TO REACH BALTIC

Incorporation of Little Border States in Bolshevist Federation Predicted.

MANY DANGERS INVOLVED

French and British Policy Would Be Affected—Large American Relief Stores There.

PARIS, Jan. 3.—The prediction that within three months the Soviet Federation will include Reval, Riga and Kovno, with the Baltic Sea once more the western boundary of Russia, is made in information about the Baltic situation I have just received from a well-informed authority on the spot. Such events as my informant foresees would raise serious problems not only for France and Great Britain, but for the United States. To Great Britain the entry of the Baltic States into the Soviet Federation would mean the abandonment of her dream of control over "Russia's western windows."

The little states of the Baltic were, in the main, the creation of England and far-sighted British Statesmen hoped that if they could be assured independent existence, it would give England an unrivaled position toward Russia, both as respects influence and trade. Just a year ago the British had virtually completed an economic and financial agreement with Esthonia, Latvia and Lithuania, which would have stabilized them financially, but which gave Great Britain in return a monopoly of rights over their principal industries, timber and flax. By January 1 of the present year the details of the scheme had been worked out and it received the assent of the Esthonian and Latvian Governments and only needed ratification by the respective Parliaments to become effective. This, however, was afterward refused largely, it is said, owing to the secret influence of Soviet gold. For the Bolsheviki had an evident interest to prevent the British from getting a firm foothold on Russian soil and from assuring the political and economic dependence of the states which, as America always maintained, must by geographic position be a part of Russia.

To the French the spread of Soviet influence to the shores of the Baltic could not fail to be alarming for two reasons. First, the menace to France's ally, Poland, who would be militarily outflanked by the extension of the Soviet boundaries in the northwest, and again faced with war or submission to the Bolsheviki as a result of the Red support of the Lithuanian claim to Vilna. Secondly, the destruction of the barrier between Russia and Germany. Ever since the armistice the French have done their utmost to prevent a common frontier between Germany and Soviet Russia. They are haunted by the dread of a combination of German efficiency and Russian millions.

The problem that would confront America as a result of Bolshevization of the Baltic States is less political than in the case of France or Britain. The American Red Cross and Children's Relief Associations have got big organizations in the Baltic area, where upward of one hundred Americans are engaged in fighting disease, feeding children, housing the homeless, clothing the destitute and generally succoring the impoverished and devitalized population. Not only are there large stocks of Red Cross and Relief Association goods in the Baltic area which it is impossible to remove quickly, but I know that a great majority of Americans engaged in the work would decline to abandon it under the threat of a Bolshevist upheaval. If the Baltic States "go Red" it will happen at a moment's notice, and the result would be the same as if American organizations concerned were now working in Soviet Russia proper, a practice to which both the state department and the Bolshevist leaders hitherto have been opposed.

NOVEL SUGGESTION FOR FARM PROBLEM

Each Farmer Should Be Allowed Two Wives So As To Reduce Cost of Farming.

DENVER, Col., Jan. 3. — One wife for each man in the cities, two for each man on the farms—this is what George Smith, a Colorado farmer, suggests to Governor Shoup as a solution of the farm problem, in a letter received at the governor's office.

Adoption of the suggestion, Smith believes, will make Governor Shoup a greater man than Lincoln, but the governor has not decided whether he will include Smith's suggestion in his message to the Legislature as one of the proposed measures for the relief of the Colorado farmer. Smith gives a number of reasons in support of his suggestion. Here is what he has to say:

"I am a farmer seven miles south of Denver. My wife is sick and I can't hire any house help. You are a good governor, or the people wouldn't have elected you by such a large majority the second time. You should originate some good help for farmers, and I offer you something to help the farmers and you can lead all the other governors if you can get it made a law.

"It is, let the city man have one wife and the farmers have two wives. You see, one could help the other, and a farmer could more surely raise boys to work the farm and not need to hire at high wages. Then the farmers could sell crops cheap and make money, and living in cities would be cheaper and many young men would leave cities to be on a farm and have two wives.

"I tell you this argument about farmers to be organized is all bosh. A farmer needs no theories. I am certain a farmer can't get any help unless it is born and raised on a farm. Experience is needed every time.

"You would be a better man than Lincoln if you can get the United States to let all the farmers have two wives. You see, the farmer would be independent of hired help in a few years, both on farm and in housework. A farmer could often marry two sisters, or good pals. I am your friend and believe this, if it can be started by you, will excel all you can ever do while governor or in your life. Think it over."

WARNS SMOKERS TO OBSERVE RULE OF DECENT USAGE

Abuse of Privilege Encourages Those Who Want Anti-Tobacco Blue Laws.

SCIENTIFIC COMPARISON

Health Commissioner of New York Says Combustion of Cigarette Better Than Other Forms.

New York, Jan. 3.—Since the beginning of the agitation for blue laws many complaints have reached the health department complaining of smoking in public places and the attendant practice of spitting on floors. Health Commissioner Dr. Royal S. Copeland gave utterance yesterday to a warning to those who smoke that they are hastening anti-smoke ordinances by their disregard of the laws of decency and the usages of polite society.

"My purpose in speaking," said the health commissioner, "is because I want to put a friendly warning to the thousands of smokers in the city, many of them my warm personal friends, that—if it is possible to use the expression—they will kill the goose that laid the golden egg. There ought to be organized a society for the decent use of tobacco, an organization that will teach consideration for others; then, if every one joins it there will be no need for blue laws to suppress smoking."

Dr. Copeland is not a smoker. He said he felt called upon to speak of smoking, because some agencies had been insistent that he begin a campaign on smokers. His interest, he added, was confined to the injury to the public health, especially the health of non-smokers.

"I doubt if smoking in moderation, where the smoke is not inhaled, is very harmful," he continued. "But the very nature of the practice makes for the excessive use of tobacco, and those who abuse any habit must pay. Smoke is material just as dust is, and smoke is a detriment by mechanical presence just as by nicotine content. While smoke irritates the throat of a smoker to a small degree, its effect upon the non-smoker is much greater. The irritation and coughing weakens resistance, and those who have to breathe smoke-laden air are more susceptible to respiratory diseases. The disgusting spitting on the floor is also cause of the spread of disease and should be stopped.

"Whatever harm comes to the smoker comes through nicotine. Perfect combustion causes nicotine to decompose and renders it harmless. So immunity in smoking depends upon complete combustion, and the smoker who makes use of green tobacco or tobacco that is moist is bound to have the most harmful effect from its use.

"At present there is an uprising of persons interested in the enactment of laws which will prohibit the sale and use of tobacco. If any such laws are written in the books, the responsibility will rest squarely with smokers whose selfishness is unrestrained, and who thoughtlessly abuse the habit of smoking to the unhappiness and the indignation of those who do not use tobacco. If sentiment against smoking is growing it is the smoker who is contributing most to that growth of sentiment.

"It is, in my opinion, time that the smoker practiced self-restraint in public places such as restaurants at the normal times for eating, in offices where women are employed and in every other place where the habit might interfere with the comfort and well-being of others. I have received complaints from women who have to work in offices where men smoke. They are forced to breathe the smoke-laden air and they are without redress.

"I have no objection to the use of tobacco in restaurants where late suppers are served, and people go there for pleasure rather than to buy a regular meal, but it is a contemptible abuse of privilege for the smoker to contaminate the atmosphere in places where the customers have gone for one of the substantial meals of the day."

Cigarettes Most Suitable.

Asked what was the least harmful way of using tobacco, Dr. Copeland said that, contrary to popular belief, the cigarette was the most suitable smoke, as tobacco taken in that form is more perfectly consumed, and as combustion is better, the nicotine is practically destroyed. The cigarette is, however, dangerous in that most cigarette users inhale the smoke, and smoke inhalation is a "crime against health." More danger, he thought, lurks in the "butt" or the last third of a cigar, because it has been so moistened as to make combustion almost impossible.

"If the man who desires to smoke, and personally I do not, will smoke a cigarette or a dry cigar or use a dry pipe and keep it dry while smoking, I think it safe to say that providing he does not inhale the smoke, no particular harm will result to him as an individual. Personally, I think it a foolish thing to interfere with the liberty of the individual. There can be no doubt that smokers find solace and comfort in the moderate use of tobacco. Let them, however, use consideration in not causing discomfort to those who do not use tobacco."

One of the complaints received by the health department against the unrestrained use of tobacco in restaurants and other public places came from Dr. Charles G. Pease, president of the Non-Smokers' Protective League. The league, he said, had been called upon to enter a campaign against the "criminal" invasion of the constitutional rights of those who do not smoke. The department was appealed to, and Dr. Copeland urged to give relief through the enactment of "an adequate health ordinance."

RECOUNT BEGINS WEDNESDAY.

Grand Forks, B. C., Jan. 4.—Judicial recount of the ballots cast for the local candidates in the provincial election will begin next Wednesday morning before Judge Brown of the county court.

The Conservative candidate, John McKie, through his agent claims that 30 of 50 rejected ballots clearly indicate the intention of the voters, although they were rejected because the cross was placed immediately after the name instead of in the proper place. Of the 30 ballots, 25 are for Mr. McKie, and the remainder for E. C. Henniger, the Liberal candidate, who at present stands elected by a majority of 9 votes.

SHE DARKENED HER GREY HAIR

Tells How She Did It With a Home-Made Remedy.

Mrs. E. H. Boots, a well-known resident of Buchanan County, Ia., who darkened her grey hair, made the following statement:

"Any lady or gentleman can darken their grey or faded hair, and make it soft and glossy with this simple remedy, which they can mix at home. To half a pint of water add 1 ounce of bay rum, one small box of Orlex Compound and ¼ ounce of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the grey hair is darkened sufficiently. It does not color the scalp; is not greasy and does not rub off. It will make a grey-haired person look 20 years younger."—Advt.

EXPLORERS GET 'BACK TO WORK'

16 Expeditions in Progress Or Are Under Way After Four Years of Inactivity.

NEW YORK, Jan. 3.—Sixteen exploration expeditions are now in progress or in contemplation after four years of inactivity in this line of scientific research due to the Great War. Most of these enterprises have been undertaken or projected since the armistice and they recall the fact that Mother Earth still has important biological, zoological, geological, ethnological and meteorological problems which are still unsolved.

One of the most important of these enterprises is the British Antarctic expedition, headed by Commander John Lachlan Cope, F. R. G. S., formerly of the British navy. It is financed for $750,000, includes five ships, 125 men, several aeroplanes and extensive wireless apparatus. The undertaking is to require five years and its objects are the circumnavigation of the Antarctic Sea, a dash to the South Pole, the locating of new whaling grounds, and the discovery of supposedly rich gold, silver, coal and ruby fields.

Expected to Be Imprisoned.

Captain Roald Amundsen, who discovered the South Pole in 1911, left Nome, Alaska, last August in an attempt to reach the North Pole. His ship, the Maud, had already spent 19 months in the Arctic, north of Asia and Europe, and had successfully made the northeast passage. He expected the Maud to be locked in the ice pack and to drift toward the Pole when the Arctic winter ended.

In negotiating his way to Nome he was frequently compelled to blast a path through the ice. Captain Amundsen was last heard of off East Cape, about 170 miles northwest of Nome in the Bering Straits. The explorer, on account of high wages and scarcity of men, was handicapped by lack of help, his only companions being three sailors and an Eskimo cook.

The other interesting expeditions projected or now under way are as follows:

Siberia—Captain Axel Landmark and Captain John Vatney, in a 50-foot power boat are on a 4,000-mile voyage to the Kolyma River, using a primitive chart made in 1878 by Nordenskjold, a Swedish explorer, on his voyage from Norway to Japan via the Arctic Ocean.

Plans Another Expedition.

Greenland—Knud Rasmussen, Danish explorer, who returned from the east coast late in 1919, after studying Eskimo tribes, is preparing for another expedition of five years' duration. Lange Koch, another Dane, is planning a scientific survey of North Greenland, his main purpose being to establish Danish sovereignty in that territory.

Africa—Four expeditions are in progress, namely, the Mackie ethnological expedition to Central Africa for the purpose of studying the Bahima, one of the chief pastoral tribes of Ankole, a district west of Uganda; the British Natural History Museum expeditions to the west coast and the Jeb-Maria Mountains; the Duke of the Abruzzi's effort to find the sources of the Webi Shebell River, which flows from Abyssinia, through Italian Somaliland into the Indian Ocean and the entomological tour of the Belgian portion of Tanganyika and the Eastern Congo, by T. A. Barns, who explored the Ituri and Semliki forests, finding a strange race of pygmy savages as well as gathering a wonderful collection of moths and butterflies.

Baffin Land—Donald B. MacMillan, who was with Peary, plans to start next year to explore one of the richest fields in the far north. He expects to establish a camp 700 miles south of Etah in Northwest Greenland, where his Crocker Land expedition passed four winters. He will attempt to circumnavigate Baffin Land and penetrate 1,500 miles of its western coast.

Nova Zembla—Dr. Olaf Holtedahl of Christiania University, is organizing a northwestern natural science and geological expedition to this country, and plans to start next summer.

Studies Earthquake Situation.

Mexico—Professor Emelio Oddone, a famous Neapolitan seismologist, representing the Italian Government, is now studying the earthquake situation in Mexico by means of his 'interviameter,' an invention by which he is able to measure both motion and energy.

The Amazon—Exploration of this great river is to be undertaken next year by a large party of American scientists, headed by Dr. Henry H. Busby, of Columbia University. The party expected to leave early in January, and to traverse more than 1,000 square miles of almost virgin land in the upper reaches of the river basin. Dr. Rusby was to be accompanied by Dr. David Starr Jordan, president of Leland Stanford University; Dr. Carl H. Eigenmann, of the University of Indiana, who were to study fish and reptiles; Dr. Ruthven, of the University of Michigan, to study frogs, and Dr. Edward Kromers, University of Wisconsin, and Prof. A. H. Gill, Massachusetts Institute of Technology, to investigate seed and volatile oils.

Ecuador and Peru—Collections of flora and fauna are now being gathered for the American Museum of Natural History in New York by Captain Harold E. Anthony and George K. Cherrie.

Pacific Islands—Solution of the origin of the Polynesian race is one of the objects of a survey of the Pacific islands planned at a recent conference of scientists at Honolulu under the auspices of the Pan-Pacific Union, representing the United States, Canada, England, Australia, New Zealand, Hawaii, the Philippines and Japan. An expedition will be sent to the South Seas for the purpose by Yale, Harvard and other institutions.

China and Tibet—The third expedition, backed by a fund of $250,000, is soon to start from Central Asia under the leadership of Roy Chapman Andrews, associate curator of mammals in the American Museum of Natural History, New York. The Chinese Government is expected to co-operate with this enterprise.

PUSSYFOOT SATISFIED WITH SCOTTISH VOTE

LONDON, Jan. 3.—Voting on the prohibition question in Scotland has been going on in the more remote districts for a month or more, and the final result will probably not be known until the end of the year.

The latest returns are: 196 localities for no change in the present system; 24 for limitation of saloon licenses and 23 for the abolition of existing licenses.

W. E. "Pussyfoot" Johnson, the American "dry" campaigner, stated to an interviewer at Bradford the other day that he was very satisfied with the results so far, which meant the closing down of 292 saloons in Scotland.

Asked how long he thought it would take to make Britain dry, Mr. Johnson said he believed that England, Ireland, Scotland and Wales would be bone-dry in 10 years.

The Cambridge Union, the well-known university society, held a debate the other day on prohibition and voted against prohibition 211 to 203.

Toy makers eagerly seized upon the "Pussyfoot" notion for the Christmas season, and all sorts of toys, dolls and mechanical devices have been adapted to the idea.

INDIAN PRINCESS ASKS FOR 2,500 TIMEPIECES

GENEVA, Jan. 3.—The Begum (princess) of Bhopal, India, who bought 4,000 silver watches to take back to her people in the central Indian state, when she visited Switzerland in 1911, has just sent for another lot of 2,500 timepieces. She wants her subjects to be punctual and not rely on the sun for the time of day.

The Begum, or Mohammedan Princess of Bhopal, probably is the only female ruler of a state in India and is also called sultan. The throne of Bhopal has descended in a female line for more than 75 years and many of the Begums have displayed modern tendencies in looking after the welfare of their subjects, who number 665,000. The sultan Jahan Begum succeeded to the throne in 1901. Bhopal is the principal province of Central India and its capital, the city of Bhopal, has about 75,000 population.

GERMAN IMPOSTOR CAUSED FLUTTER IN SCIENTIST CIRCLE

Colossal Intellectuals Fooled By Engineer With Atom-Breaking Machine.

"INVENTOR" IS IN JAIL

Persistence of British Inquirer Exposed Fake, So World Will Not Be Revolutionized For a Little While.

Berlin, Jan. 3. — Herr Willie von Unruh, a Leipzig engineer, lately fluttered the German scientific dovecots as they had not been fluttered since the finding of radium. He announced a discovery towards which the whole scientific world for years has been earnestly striving. Unruh said he had found a method of breaking up the atom. What he claimed to have done is what nature does over an infinitely extended period of time, and on an extremely small scale in the case of radium.

By breaking up the atom or disintegrating it and harnessing the pent-up power in it, a boundless source of energy would be tapped. Such discovery as science knows would open up endless possibilities. Each person could release from among his ordinary possessions enough motive energy to make him his own millionaire. In his cigarette case he could store enough force to carry him in an aeroplane round the world. Everything, indeed, would be revo[lu]tionized to a degree which would ma[ke] the harnessing of steam and electricit[y] appear, by comparison, to be the merest trifles.

Little wonder then that the German scientists rushed in a body, as one might say, to see Unruh. Unruh received a large number of savants and arranged for a demonstration of his wonderful machine. When a great box was exhibited to those experts, most of them were, according to one professor present, speechless with astonishment. There in front of them was an enormous case, into which they could see. There was the curious machinery which broke up the atom and produced an electric current, which kept five lamps, each of 1,000 candlepower, burning for hours on end. Certainly everything appeared all right, there was no evidence that the electric current was introduced into the case from the outside. Could they examine the case and machine to make quite sure? they asked. Unruh replied that at that time he could hardly permit such an examination. He had to protect his astounding secret. That was, of course, judged to be a reasonable attitude, and the savants dispersed to ponder over and discuss the terrific discovery.

Following on this exhibition some Bavarian newspapers hinted there was something wrong with Unruh's machine. When he failed to reply they declared he was not quite honest. When that failed to draw him they boldly proclaimed he was simply an impostor.

So the scientists came on the scene again. Could they see Unruh? That was impossible, they were told as he was not well. A few days later, when a British inquirer was somewhat more persistent, the grim truth came out. Unruh was in jail. So the world will not be revolutionized for a while yet, and Herr Willie will go down in history with Ulivi, who, six years ago, played the role of a great inventor with an imposture about wonderful ultra-rays. By reason of his invention, Ulivi managed to elope with an admiral's beautiful daughter, but Herr Willie has added no such romance to his fraud. He had been mundane enough to make his alleged discovery the means of obtaining a considerable amount of other people's money, it said, and so it is that his romance ends undramatically in a dull prison cell.

For some time to come certain German professors will be exceedingly snappy on the subject of breaking up the atom.

SAYS REDMOND AND DILLON SAVED CARSON FROM PROSECUTION

Masterman Says Irish Nationalists Persuaded the Cabinet To Desist.

MACCLESFIELD, Eng., Jan. 3.—The Irish Nationalist leaders, John Dillon and John Redmond, saved Sir Edward Carson, Unionist advocate, from prosecution for preaching rebellion in Ulster in 1914, says Charles F. G. Masterman, who was then financial secretary to the treasury.

Mr. Masterman in addressing an audience here blamed Sir Edward for beginning the resistance to the crown which led up to the present situation in Ireland. One of his hearers asked why the Ulster leader was not then prosecuted and Mr. Masterman replied:

"The cabinet was ready to do so, but John Redmond and John Dillon, acting through Mr. Lloyd George, persuaded the cabinet not to take the step. They argued that in three months' time the Home Rule Bill would become law, and they would then be responsible for the government of Ireland. They asked that they should be allowed to undertake the government of Ireland without being hampered by any feeling created beforehand by the prosecution of Sir Edward Carson. They thought they could overcome what they regarded as the blague (humbug) of the Ulster movement."

"They may have been right or wrong," concluded the speaker, "but the war broke out before the test came."

TAKE CARE [illegible] OF THAT COUGH

Some people get a nasty cough and don't pay much attention to it, saying: "Oh, it will wear away in a short time," but while it may wear off, serious injury may have been done to the lungs and respiratory organs by the prolonged, harsh, racking coughing.

On the first sign of a cough or cold get a bottle of Dr. Wood's Norway Pine Syrup. It will stop that nasty, troublesome cough, ease the tightness across the chest, and loosen the phlegm.

Mrs. Wm. Earnshaw, Apsley, Ont., writes: "Last winter I caught a bad cold, had a sore throat and a terrible hacking cough that I could not get rid of. I could not sleep at night. I tried quite a few remedies, but they did not do me much good until I got Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles, my cough was all gone. I feel that 'Dr. Wood's' has no equal."

When you get Dr. Wood's Norway Pine Syrup, you are not experimenting with new and untried remedy, but one that has a reputation extending over thirty years.

Put up in a yellow wrapper; three pine trees the trade mark; price 35c and 60c a bottle, manufactured only by The T. Milburn Company, Limited, Toronto, Ont.

FOUR MAY RESIGN FROM POLICE FORCE

Negligence of Duty Alleged Against Three Sarnia Officers.

SARNIA, Jan. 3.—Complaints lodged against Police Sergeant Wm. Seabrook and Constables Frank Esson, Walter Leigh and Sam Woodhouse resulted in Magistrate Gorman announcing tonight that the commission had found that the three officers named first were negligent of their duty on the night of December 26 last, when the jewelry store of J. C. Barr, Front street, was burglarized, and that the reports booked for that night were not satisfactory, and that P. C. Woodhouse had been drinking on duty.

The four officers named were given the opportunity to send in their resignations before January 10 next, according to the secretary. Judge Albert E. Taylor, chairman, and Magistrate Gorman, secretary, were the only members present at the adjourned session, Mayor Wm. Nesbit, the third member, being absent.

The complaint against P. C. Robert McCullough was not taken up, but left in abeyance until the first meeting this year, it was announced. P. C. Arthur Webster, whose resignation was reported at last Wednesday's session of the commission, has turned in his uniform and a successor is being sought.

WANTS "MOVIES" ON THE FREE LIST

Tells Tariff Commission That British Films Should Be Admitted.

OTTAWA, Jan. 3.—(Canadian Press.)—The importance of placing moving picture films of British manufacture on the free list was emphasized before the tariff commission this afternoon by Col. A. A. McGee, representing the Anglo-Canadian Picture Plays, Limited. Col. McGee explained to the commission that it was practically impossible under present conditions for the British film to compete with the American film. The British film was the equal, if not superior of the American production, and it was felt that it merited a certain amount of encouragement.

Lady Pope, appearing on behalf of the Daughters of the Empire, supported Col. McGee. The moving picture, she said, had become a great educational factor in the life of the community. One of the objects of the society which she represented was to Canadianize the foreign element in the Dominion. The effect of the large number of United States films constantly exhibited in Canadian theatres was to neutralize these efforts, and the foreigner became more familiar with "Old Glory" than the Union Jack. Lady Pope also objected to the bad English in the explanations on American films. She thought that if national ideas were to be kept up it would be wise to encourage and develop English films.

Chief Press Censor.

Colonel Ernest J. Chambers, who acted as chief press censor during the war, explained that German propaganda had been carried on extensively in the United States through the moving-picture film. The moving-picture industry in the United States had been at that time largely in the hands of German Jews. He became convinced that the moving-picture industry had been sold out body and soul to interests inimical to Great Britain and Canada. He had therefore interested himself in getting British films into Canada, a very difficult problem during the war. Conditions were different now. The British manufacturers wanted to sell in Canada, and should be encouraged.

Scores Protection.

Speaking on behalf of the United Farmers of Ontario, M. H. Staples of Toronto, educational secretary of that body, declared that a protective tariff failed to do away with unemployment. It did not create markets for the farmer and it had also failed to maintain a favorable trade balance for the country. The spirit of unrest was abroad in the country in spite of the protective tariff, he said. Protection, complained Mr. Staples, resulted in double taxation and created a shelter behind which the lazy or incompetent manufacturer could hide. The protective tariff directly fostered class selfishness and encouraged sudden industrial expansion, which was not healthy and natural. A protective tariff was opposed to a tariff for revenue.

The hearing adjourned at 5 o'clock, to resume tomorrow morning at 10 o'clock.

Dairy Utensils.

Abolition or a substantial reduction in the customs tariff on glass bottles, tinware, dairy utensils and machinery and other articles used in the dairy industry was urged upon the tariff commission this morning by a deputation from the National Dairy Council. D'Arcy Scott, counsel for the council, presented a resolution passed at a meeting of that body in 1919, asking for these tariff changes. The resolution referred to "the unreasonable and excessive customs duty, which amounts to 40 per cent on some articles regularly used by dairymen, and which is one of the chief factors in keeping up the price of milk." A reduction in the customs tariff, the resolution stated, would bring about a reduction in the cost of living.

Today's proceedings opened the last meeting which the commission will hold prior to beginning actual work on tariff revision. Prior to representations from the National Dairy Council, charges were made against the Automobile Equipment Association. It was claimed by R. L. Phillips, a Fredericton, N. B., dealer in automobiles and auto accessories, that as a result of the organization of this association of jobbers, business in automobile accessories was being unduly restricted. He suggested legal proceedings to dissolve the "trust."

PERMANENT TARIFF BOARD NEEDED, SAYS LABOR DELEGATION.

OTTAWA, Jan. 3.—Canadian Press.—Representing two hundred thousand workers, male and female, organized into two thousand local unions, Messrs. Tom Moore, president, and P. M. Draper, secretary-treasurer of the Trades and Labor Congress of Canada, today presented to the Dominion commission of inquiry on tariff a statement of facts and opinions on the relationship of labor to the tariff. The statement points out that the congress is a non-political body.

The statement sets forth that the organized workers of Canada believe in the utilization of natural resources of Canada and their conversion from the raw state to the finished one within the boundaries of Canada. The congress' statement in brief asked that industries enjoying protection should be compelled to absorb all Canadian labor first; that protection should never be so high as to create a monopoly; that the Government should have full control over capitalization and thus prevent the cutting of "melons" and watering of stocks; and that a permanent tariff board should be created to carry out these or other similar regulations.

Investment Needed.

The creation of an industry, says the statement, calls for investment not only of the shareholders' money to build and equip the factory, but also from the workers themselves, who invest in transporting their household effects and homes to a close proximity to the industry in which they are engaged, or, in many cases, go further and invest their all in a plot of land or a house, in the full expectation of securing steady employment from the industry. This investment is often lost sight of, but is a very material one, the closing of an industry in many cases bringing absolute ruin to many workers by destroying investments thus made. It is therefore important to the worker that industries established should be as stable as possible.

Much Competition.

Canada is placed in the centre of competition. To the south the United States, with its huge and fully developed industries turning out products in mass, and with a great home market fully protected to supply; to the east the workshop of the world, Great Britain, with a century of industrial development behind her and numberless workers whose wage standards were far below that which Canadian workers should be expected to accept, whilst to the west the Orient, with its hordes of cheap laborers, able to flood our market at any time, if there were no bars against them.

In view of all this, Canadian workers admit the need of protection to our industries, but they are not satisfied with its past application, believing it has been misused, aftener for the benefit of capital than used for the benefit of labor.

CHINESE NATIONALIST LEAGUE CELEBRATION

Farman Lee Elected President for 1921.

Members of the local Chinese Nationalist League celebrated on New Year's Day the tenth anniversary of the establishment of the provincial government set up in Nem Kin, in the Province of Kwang Su, and which was the beginning of the Chinese Republic. About fifty members attended the celebration, which was held in the society's club rooms at 428 Clarence street, Past President Chin Ming presiding. Farman Lee was elected president for 1921. Ten years ago on January 1 North and South China united under the name of the Chinese Republic.

A resolution was passed asking all local Chinese to hereafter follow the Christian calendar in recording time.

"THE DEEP PURPLE" IS SPLENDID VEHICLE

Grew & Powers Company Appear To Greatest Individual Advantage.

"The Deep Purple," a play of strong dramatic interest, dealing with New York crooks of several types, is a splendid vehicle through which nearly every member of the Grew and Powers company appears to greatest individual advantage at the Majestic Theatre this week. Practically every member of the cast has found a part admirably suited to him or her, and although better plays have been presented since the company organized in London, last night's performance was probably the best all-around performance of any play to date by these clever players.

George V. Dill in the role of the hero, a western mining engineer, William Lake, plays his part with a vim, verve and vigor that satisfied everybody in the house from the orchestra boxes to the back of the second gallery.

Gwendoline Pates is her usual bewitching and brilliant self as Doris Moore, while Marguerite Weston, with rare felicity and charm, plays the part of Ruth Lake. Edna Marshal, as Frisco Kate, enjoys a role this week with sufficient scope to prove herself an actress of splendid talent and wide capabilities.

William A. Grew is neat and adequate as Laylock, the western desperado; Dillon Deasy is quite capable as Leland, the unscrupulous crook; and good support is given by James Swift as Pop Clark, Alfred Rigali as the police inspector, Edward Latimer as the hotel copper, and Harry P. Young as Lieut. Flynn.

Vera Secord, as Christine, the Scandinavian maid, is inimitably good, while Louise Gilchrist, as Mrs. Lake, achieves some very satisfactory work. D. O. Secord, as the hotel valet, plays this minor part all right, but might look his part better in some other role.

CERTAINLY WELCOME TO SEE 'EM NOW

But the Big Sale Does Not Begin Until Friday Morning at 8:30 o'Clock in R. Leo Watson's Stores.

"After the publication yesterday of the news of our Men's Midwinter Sale I was asked by several customers if they could look at what we have to sell now. 'Certainly,' was my answer," said R. Leo Watson.

"Anything and everything we have to sell will be sacrificed—but on some things the price subtraction will be greater than on others. For instance, we have about decided to cut right in half the label price on a few "lonely" overcoats, whilst we will have some genuine guaranteed Semi-ready suits as low as $23.95.

"There will be specials and extra specials, for the longer a garment stays in our shop the more it costs us, yet the less we will sell it for.

"All our $4.50 and $6.00 shirts will be marked down to $3.95, while the $10 to $18.50 silk shirts will be sold at $6.95.

"I cannot relate all the bargains as yet, for each day we study the replacement cost, the probable cost next year, and each day we take careful stock of just what we can do.

"I have one of the best men I can find to help me, for this winter will witness the greatest price revision ever known in Canada—right here."

ELECTORAL SUB-DIVISIONS IN CITY TO BE REVISED, SAYS CITY CLERK BAKER

Many of Present Subdivisions Are Larger Than Law Provides.

Complete revision of subdivisions in London will be undertaken this year, City Clerk Baker announced Monday. A change of this kind has been needed for some time, and the city is now in a position to commence it, he said.

Statutes require that there shall be less than 300 voters in a subdivision. There are more than this number in subdivisions 1, 3, 4, 12, 13, 16, 18, 19, 21, 55, 64, 68 and 77. Reducing the size of these, however, undoubtedly will mean changing the boundaries of many of the others, so that the shake-up is certain to be general. Where possible, the city clerk favors the square or rectangular subdivision in preference to those with irregular boundaries, and the revision will be carried out along those lines.

The work cannot be undertaken until the voters' list is compiled. This will be started as early as possible, but will take longer this year, as there are three sections to be listed. City officials must make a complete list of persons entitled to vote at parliamentary elections, which includes every British subject more than 21 years of age, and not on the voters' lists of tenants, owners or income voters. Although the city bears the full expense of this, it is of no value except to the government. The second list will include persons entitled to vote at municipal elections only, and the third those entitled to vote at both parliamentary and municipal elections.

The work will be completed in the early fall. The making of new subdivisions will then be taken up and will be completed for use in the 1923 elections.

RAILROAD EMPLOYEES PLEDGE LOYALTY TO BROTHERHOOD HEADS

OTTAWA, Jan. 3.—The determination of its members to stand by the Canadian Brotherhood of Railroad Employees in the difficulty which has arisen through the action of the executive of the Trades and Labor Congress of Canada, in attempting to revoke the brotherhood's charter of affiliation, is expressed in numerous messages received at the head office in Ottawa over the week-end.

Many of these have come from individual members. One of the strongest messages was received last evening from Hamilton Division No. 34. It reads: "Meeting today resolved unanimously to stand solidly with Canadian Brotherhood of Railway Employees regardless of what any other organization may do."

Commenting on the messages, A. R. Mosher, the grand president of the brotherhood, last evening said: "These expressions of loyalty are not unexpected. Never for a moment did I doubt the loyalty and support that would be forthcoming from the members. It would be false modesty on my part to refrain from expressing my appreciation of these reminders of the confidence which thousands of railway and express workers in this country so fully repose in the C. B. R. E. It is just such loyalty and co-operation that has sustained the organization in the past, and which will continue to sustain it in the future, regardless of whom our opponents might be.

MISSING HAILEYBURY MEN RETURN SAFE

HAILEYBURY, Jan. 3.—Safe and sound and quite unaware until they met a search party that their month-long absence from here was causing uneasiness among relatives at home, Marty Wright, ex-mayor of Haileybury, and Charlie Wright, his nephew, turned up here this afternoon. They had experienced no trouble and were in no difficulties at any time. They were at the Anvil Lake Mining Company's property in the Maple Mountain section and were detained there by the condition of the roads, which had been affected by the mild spell. There is still no word here of the fate of Chris McCool, the missing Pembroke lumber man.

At The Theaters

AT THE GRAND.

London playgoers who missed seeing Richard Brinsley Sheridan's "The School for Scandal," as presented last night at the Grand Opera House by Clifford Devereux and one of the strongest casts playing classic British plays that ever visited the city, will have two more opportunities of seeing this splendid aggregation of players in this, the finest comedy of manners.

The play was well mounted and the gorgeous old-time costumes of the period of 1775 with their variety of color and their trimmings of dainty lace ruffles produced pictures which for their vividness and artistry will live forever in the memories of those who were happy enough to witness the production on its first appearance in London.

Veiled though the shafts of satire with which Sheridan depicts the follies of the idle rich of Old London of that day are in phase and expression hard for the modern theatregoer of Canada at times to grasp, yet the truth of the play to certain conditions of modern life was easily recognized and the lesson intended carried as vividly as ever to the observant student.

As Sir Peter Teazle, the aged bachelor, who has married a young country girl and transported her from the simplicity of her former life to the maelstrom of "society," where her very simplicity makes her the butt of scandal and envenomed tongues. Clifford Devereux cleverly portrays the honest-minded, though irascible husband, who would fain protect from busy tongues the honor of his wife.

Mr. Devereux's impersonation of the character is a marvel for its truth to life and smoothness of presentation. Miss Zinita Graf, as Lady Teazle, was an excellent conception of the part of the inexperienced wife, who, while longing to do her duty to her husband, finds herself surrounded by a crowd of effeminate men and bitter-tongued women who by innuendo and gossip seek to separate her from her husband.

Charles Surface, the rollicking, spendthrift, prodigal son of Sir Peter's old friend, is most admirably portrayed by Ian Keith, while his unctuous, over-moral brother, Joseph Surface, who seeks the ruin of Sir Peter's wife, while courting his ward, Maria, is given clever embodiment by Edmund Forde.

Miss Winnifred Day, as the ingenue Maria, who stoutly believes in the good that exists in Charles Surface, despite all that evil tongues can say, has a most winsome stage presence, but at times failed to make her voice audible to her audience.

The other lady members of the cast who deserve mention were Miss Mary McAndrews, as Lady Sneerwell, and Miss Anabel Montagu, as Mrs. Candour. C. H. Stark, as Sir Oliver Surface, the uncle of Charles and Joseph, who takes his own method of finding out the real character of his nephew, gives a pleasing presentation of the jovial man of the world who thinks well of all till he has proved them. The Rowley of Anthony Andre was a lovable presentation of the staunch friend who believed in the goodness of the prodigal through good report and ill. The other members of the cast gave the principals excellent support.

The play is presented in five acts, and especially delightful features were the stately old-time minuet at the close of the first act and the denouement of the screen scene in the closing of the fourth act. Playgoers who were unable to witness this play last night will have an opportunity of seeing it tonight and at a matinee on Wednesday.

On Wednesday and Thursday nights Mr. Devereux and his company will present Shakespeare's "Much Ado About Nothing," and on Friday and Saturday Bulwer Lytton's "The Lady of Lyons."

AT LOEW'S.

Lavishly staged with beautiful costumes and handsome women, "A Romantic Adventuress," produced by Paramount, and in which Dorothy Dalton plays the title role, is the feature film at Loew's for the first half of the week. This offering opens in New Orleans, with Miss Dalton as the young daughter of Professor Vanni, whose wife refused to forsake her stage career during his illness and deserted him. The brave father opens a dancing school, and as the years grow upon him the management of the institution falls upon the shoulders of his daughter.

The faithless wife, in search of a gay life, resides in New York, and is known as Mrs. Martyn. One day, upon returning from the mardi gras carnival, in which she wins the laurel wreath for her beautiful portrayal of "Queen of the Night," Alice Vanni, discovers her father's lifeless body. Without a relative in New Orleans she is compelled to seek shelter with her mother in New York, who exploits Alice's talent as a dancer in order to uphold her social position.

While in New York, and at the onset of her stage success Alice meets Marsell, the star football player of the Yale team, and in return for her encouraging cheers at the game, the Yale team attends the theatre in a body, and greet "La Mimosa," as Alice is known before the footlights. Later Alice and her mother journey to Monte Carlo, and here the latter unscrupulously endeavors to force her daughter's marriage to a wealthy Italian by blackmail. This scheme fails and Alice meets Marsell, her football hero, at the famous gambling resort. The scenes of the Mardi Gras at New Orleans, and those of Monte Carlo, are wonderfully staged, and included in the thrills is a close-up of a rugby game. An all-star cast supports Dorothy Dalton in this vehicle.

"My Goodness," a Mack Sennett comedy of the funniest sort and Loew's Screen Pictorial conclude the film bill, while three excellent vaudeville acts round out a delightful program. Work and Mack present eccentric dancing and acrobatics which are new to Londoners and Jerome and Albright, two youths, offer original songs that please. Liola Shaw and company, the headline attraction, present an amusing satire on married life, entitled "There She Goes Again." The three persons in this number are accomplished artists, and the settings are very appropriate.

AT THE ALLEN.

Breathing the very spirit of Canada's great hinterland, "Nomads of the North" at the Allen Theatre the first part of this week, was witnessed by packed houses at the first showings Monday, and it undoubtedly will continue to attract big crowds throughout Tuesday and Wednesday.

The outstanding feature is a huge forest fire. The roaring flames are seen sweeping through the great forests of the north and forming an ever-closer circle around the little group of fugitives. Wild animals race through to safety, but for one of the little group the gallows waits if he escapes, while certain death faces him if he remains. It is a dramatic situation which could only be dealt with by James Oliver Curwood, on whose novel the picture is based.

Animal actors are used to an even greater extent than in "Back to God's Country." Bears, mountain-lions and other ferocious denizens of the north, play important parts in the great drama. little Neewa, the bear cub, Brimstone the pup and other animal stars are more lovable and amusing than when they first made their bow to the public.

The principal roles are played by Lon Chaney and Betty Blythe, both of whom are artists of the first rank. The story deals with the efforts of a Hudson Bay officer and his blackguard son to thwart the love of Nanette Rowland, an orphan, for Raoul Challoner, a trapper. They succeed in having Challoner outlawed on a charge of murder and help Corporal O'Connor of the R. N. W. M. P., a former lover of Nanette's, to bring him to justice. Their plans are dramatically foiled.

The overture "Arctic Pictures" by the Allen orchestra is appropriate. The Christie Comedy is an exceptionally funny one, and other pictures make up an exceptionally good program.

TWO MEN SHOT.

Dublin, Jan. 3.—Two men who, according to a statement issued from Dublin Castle, were badly wanted by the police, were shot by soldiers yesterday while attempting to escape. They were David Tobin and Thomas Murphy of Ballingarry, County Limerick.

The statement says that as a military car approached Tobin's house he and Murphy ran out of the door. Tobin, after proceeding a hundred yards, took shelter behind a bank. With drawn revolvers the soldiers outflanked him and shot him dead. Murphy was brought down by a bullet and died later.

CHASED OVER HOUSETOPS.

BRANTFORD, Jan. 3.—Tony Fern gave Sergt. Borthwick the chase of his life today, when the heavyweight champion of the Canadian Army tried to serve a warrant on him. Fern having failed to answer a summons for implication in a liquor case. Fern climbed over a number of roofs and kept up until Borthwick, having sprained his ankle, used threats and Fern came down.

CURRIE APPEALS FOR SPIRIT OF SACRIFICE

Montreal, Jan. 3.—A stirring appeal was made tonight by Gen. Sir Arthur Currie before the Men's Club of the Church of St. James the Apostle for a continuation of the same spirit that had imbued Canada and her troops during the war, to win victories during the coming years of peace, so that further conquests might be made over the difficulties that face the country. He urged that a continuation of the spirit that had actuated the Canadian shock troops would mean that the Dominion would continue to establish the morale of the world in the reconstruction period, as it had during the war.

W. VIRGINIA LOSES CAPITOL BY FIRE

Charleston, W. Va., Jan. 3.—The capitol building of West Virginia was destroyed by fire late today. Two firemen were killed and several others injured when a section of the roof under which they were standing, caved in. The spectacular nature of the fire was enhanced when much ammunition stored on the third floor of the building exploded.

MANY TEXTILE MILLS ARE NOW REOPENING

Providence, R. I., Jan. 3.—The textile industry in this state took on new activity today with a reopening of many mills that had been closed for a few days or a few weeks.

Manufacturers said the increased activity was due to no real improvement in the situation at present, but might prove to be the beginning of a gradual upward movement leading to full-time operations.

A QUICK RELIEF FOR HEADACHE

A headache is frequently caused, by badly digested food; the gases and acids resulting therefrom are absorbed by the blood which in turn irritates the nerves and causes painful symptoms called headache, neuralgia, rheumatism, etc.; 15 to 30 drops of Mother Seigel's Syrup will correct faulty digestion and afford relief.

BOY ACCIDENTALLY KILLED.

Portage La Prairie, Jan. 4.—While the twin sons of Robert Hall of Westbourne were cleaning out a stable on New Year's Day, Robert was fatally stabbed in the head by Thomas with a fork he was using in pushing the refuse through a hole in the wall, Robert being outside the barn. The boys were 11 years old.
