### MR. WHITNEY'S MAJORITY IS 40

But It May Be Increased As Protests Are to Be Made.

Premier Ross Safe in West Middlesex, But Mr. Harcourt Gets Only 20 Majority in Monck Government's Resignation Not in Yet. But May Come At Any Time—Mr. Whitney's Thanks For Congratulations.

Toronto, Jan. 27.—Although Mr. Whitney will probably be able to worry along on his slim majority of 40 this figure is liable to grow before the Legislature meets. A tie is claimed in West Huron by Dudley Holmes, while M. G. Cameron says he has four majority. A recount is altogether probable. The Conservatives will also ask for a recount of the ballots cast in Kingston, where the majority is only 16 in Prince Edward, where Dr. Currie has three majority, and in Peel where John Smith has only 18 of a margin. Complete returns are in from quite a large number of the constituencies and show a considerable increase in the Conservative popular majority. Only eight Conservatives had majorities less than 100. Premier Ross is quite safe in West Middlesex, but he came within 100 votes of defeat. Hon. Mr. Harcourt had 15 in Monck. The majorities so far as ascertained are:

### PREMIER SEES GOVERNOR.

His Resignation May Be Already Decided In But Cabinet Meets To Decide About Things.

Premier Ross paid a visit to the Lieutenant-Governor yesterday afternoon, but whether his resignation was handed in or not is not known. The Lieutenant-Governor and Mr. Ross have nothing to say. It is expected that a Cabinet meeting will be held to-day at which the Government will decide what course to pursue.

There is little or no routine work to be done in any of the departments. That was finished some weeks ago in anticipation of what has happened. The usual procedure in the British Government is to hand in the resignation to the Crown, and after a reasonable time in which the Government may dispose of routine business, Parliament is called. The Lieutenant-Governor, would then call upon Mr. Whitney to form a Government, but before accepting office each member will go back to his constituents for re-election. It may be that the Premier's resignation is in the hands of the Lieutenant-Governor, and that nothing will be given out until after the call has been made. It may be that Mr. Ross will consult his ministers before forwarding his resignation.

Mr. Whitney is not expected in the city till Saturday. As soon as the Lieutenant-Governor has the Premier's resignation he will send for Mr. Whitney. Not till then will the names of the new Cabinet be definitely known.

None of the ministers attempted to account for the landslide of Wednesday. Mr. Dryden lays his own defeat to the use of money, and thinks the Pickering incident did not do him any harm. He will retire to private life. He was getting together his personal effects yesterday.

About the buildings there was a feeling of gloom. The officials do not know where the axe will fall, but the impression prevails that there will be few dismissals. Only those who have been offensively active will be let go, as wholesale removals without good cause might be followed by retaliation by the Liberal Government at Ottawa.

Acknowledges Congratulations. Morrisburg, Jan. 26.—The immense number of messages of a congratulatory nature received by me from all parts of the Dominion, and which are still coming, renders it necessary for me to ask the aid of the press in acknowledging them and expressing my hearty thanks for and appreciation of them.—(Sgd.) J. P. Whitney.

Blake to Whitney. Toronto, Jan. 27.—S. H. Blake

has sent the following telegram to Mr. Whitney: "I congratulate you most heartily on the magnificent victory of yesterday, the result of your arduous campaign. All honest men in the Dominion should join in thanking you for the verdict reached yesterday at the bar of public opinion by an outraged province, unanimous in the head centre of the iniquities—Toronto—which found the indicted criminals in high places, guilty of treason against our commonwealth. We are now hopefully and confidently looking forward to the end of the breaking down Ontario by crooked ways, broken promises, concessions to grafters, and poetic effusions, and to the building up Ontario by a progressive Government, based on equal rights, truth and righteousness."

See Trial Over. Sault Ste. Marie, Jan. 27.—The court sat only for a short time yesterday morning. Mr. DuVernet renewed his application for a summons against O. N. Smith, but the judges held to the decision of Wednesday, leaving the criminal courts open to proceed against him. P. J. Galvin's case was dropped. The arguments against William Coyne will be proceeded with in Toronto, Feb. 14; also that of George Sutherland. Their Lordships left for the east yesterday.

Girl Takes Her Life. Sault Ste. Marie, Jan. 27.—Lillian Thomas was found dead in her room Wednesday evening, having committed suicide by taking carbolic acid. Her mother is Mrs. Arnold of Detroit. In a letter addressed to her mother, she bade her good-bye and asked that her body be buried in Detroit. The girl was tired of life on account of her position, and a love affair, in which a young man of the King Edward Hotel, Toronto, played the role of sweetheart. She came to the Sault from Toronto last October.

Struck By Freight Engine. Thamesville, Jan. 27.—James Kennedy of Hamilton, foreman of the Grand Trunk carpenter and bridge gang, while working at Decow's bridge yesterday, three miles west of Thamesville, was instantly killed. While giving an eastbound freight a signal to come ahead he turned and slipped between the rails and was struck. Deceased was a widower and leaves three small children.

Burned to Death. Dominion City, Man., Jan. 27.—During a violent storm, Wednesday night, the chalet of William Hosack, who was "bitching" near Indian reservation, on the rapids of the Roseau River, was burned to the ground, and a search revealed his body charred beyond recognition. The cause of the fire is unknown.

Train Falls 50 Feet Into River. Doylestown, Pa., Jan. 27.—Four men were instantly killed yesterday by an accident at Doylestown. The men were operating a cinder train, which ran into a snowdrift, jumped the tracks and went over an embankment 50 feet high, into the Delaware River.

Escaped Convict Caught. Virden, Man., Jan. 27.—Convict McMillan, who jumped from a train near here on the 24th, was captured Wednesday at Lenore, after enduring severe frost bites, owing to his exposed condition. He was found laid up in a shanty.

Cardinal Sailed U.K. Rome, Jan. 27.—The illness of Cardinal Savello has taken a serious turn, and it is feared pneumonia will ensue. The Cardinal's temperature is 103.

### DETROIT FAILED

At the last moment to-day the Detroit Hockey Team telephoned that they could not be here for the scheduled match to-night. It was impossible to substitute a game at the late hour, so that the rink will be open for skating to-night. All tickets sold for the Detroit game will be good for the St. Thomas game next week.

## A GOOD BEGINNING.

The campaign just closed was in some respects one of the most important ever held in Canada, points out the Woodstock Express. There was, it is true, a good deal of what is known as the penny variety of politics—the retailing of stale gossip, the repetition of meaningless parrot cries, and appeals to deep laid prejudices—but on the whole the campaign was one of education. The seed sown will bear fruit some time. It may be soon or it may be late, but it will bear fruit, and that is the important point.

It matters very little by what name the people in charge of the affairs of the Province may call themselves; but it is of the utmost importance that, by whatever name the Government is known, it shall represent, and be responsive and responsible to the free, educated and honest sentiment of the people.

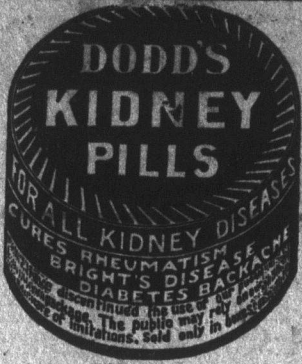

The first essential of popular government is an intelligent electorate. This is an essential that has been woefully neglected in the past in Canada. The partisan spirit has been allowed to prevail to such an extent that a free and intelligent expression of opinion is the rare exception rather than the rule. The education of the electors in the duties of citizenship has been left almost entirely to the party press and the politicians. Party loyalty has been held up to the popular gaze, and has been accepted by popular opinion, as something like a sacred duty. No scope is allowed for the exercise of intelligence and independence; on the contrary the elector who displays the courage of his convictions to the extent of breaking with old party associations is popularly regarded with suspicion. Before popular government can be said to have had even an experimental test the whole popular conception of the duties of citizenship must be changed. Tradition, prejudice and the old feudal idea of loyalty must be swept away, to make room for the free play of honest and intelligent thought and effort. With a free, intelligent and honest electorate will come responsive and responsible government, and in no other way.

No government would dare to trifle with its obligations to the electors in the face of a fearless and unprejudiced electorate. It would know that if it did not respond to the will of the people it would soon be replaced by another government that would. It would not dare to face the public with an appeal to party prejudice as an excuse for a broken pledge, for it would know that such an appeal would be in vain. It would not attempt to escape responsibility for the means by which it sought to prolong its existence, for it would know that such an attempt would be useless. Political corruption would disappear, for it would inevitably bring its own punishment. Political corruption flourishes now because a slavish devotion to partyism prevents the higher morality of the people from finding expression at the polls. The people are divided into two opposing and antagonistic camps, the corruption on the one side is pitted against the corruption on the other, and both sides go unpunished. No improvement need be expected until the demand for honesty and purity in political as well as in private life is free to find expression through the ballot box, and this will only be when the elector stands upon his feet as a free man, and votes as an intelligent citizen, not as part of a party machine.

Not only must the people be free to express their will, but the free will of the people must be honestly recorded. In other words, the elections must be fair and honest. There must be no improper influence in the securing of votes, and the votes cast must be fairly counted. An expression of the will of the people obtained by perjury, bribery, impersonation, ballot switching or any of the rascalties with which the people have unfortunately been made too familiar of late years, is a fraud, and a government based on an expression of public opinion so obtained is a fraud. Be its administrative capacity what it may, such a government has no right to be allowed to exist. Its existence is a menace to the institutions of a free people.

As we have said, the first essential of popular government is a free, intelligent and vigilant people. In intelligence is not sufficient without honesty; but the great mass of the people are honest at heart, and with freedom and intelligence the inherent desire for justice and fair play will eventually assert itself.

The campaign just closed marked the beginning of the real struggle for personal freedom in Canada.

Free institutions we have already; what is required is that the people shall be free to use them. To be free to use them the people must have some understanding of the principles of government and the duties of citizenship. In this great work—the most important work that can be undertaken in the life of a nation—the schools, the church, the press, in fact all the forces that make for education, may join. All have a duty to perform. Heretofore that duty has been neglected; it has scarcely been recognized. The inevitable result has been a crisis. This crisis has had the effect of stirring a good many people, and arousing them to a sense of duty. A good beginning has been made, but only a beginning. Let the work continue.

## Victoria vs. Niagara Falls.

The utilization of part of the power going to waste at Niagara Falls has created many industries, some of which are of great importance, but the Victoria Falls, the Zambesi, discovered by Livingstone in 1855, supply more power and are more easily harnessed. The Victoria Falls are much higher than Niagara Falls and the flow of water is double, giving 25,000,000 horse-power, or five times as much as Niagara. In L'Industrie Electrique, Paris, there is an article by M. Miron, which discusses the development of the Victoria Falls with reference to the transmission of power to various South African towns. "The nearest towns," says M. Miron, "are Bulawayo, having 8,000 inhabitants, and Pampye, having about 20,000 inhabitants, and Salisbury and Gwelo (number of inhabitants not known). Considering cities at a greater distance, the most important are Pretoria, with 15,000 inhabitants, and Johannesburg, with 220,000 inhabitants, 80,000 being whites. Krugersdorp has 2,000 whites, and Victoria 25,000 inhabitants, 800 being whites. The most promising field for exploitation will be in the operation of the gold mines, driving the stamps, pumps and other machinery. The power at present used on the Zambesi for this purpose is about 45,000 horse-power, and when the mines there have been put into good shape this will be doubled. It is thought that eventually the falls of the Zambesi will supply power to all of industrial South Africa, thus transforming the immense solitude into a prosperous Empire." Nothing, perhaps, will do so much to quicken the development of Rhodesia as the distribution of power from the Zambesi to its scattered industries.

## Blamed on Canada Greener.

Extremes touch in commercial eccentricities, and the land of the palm is not so different from that of the pine in the oddities of its small traders. It was a Canada greener who owned that it never paid him to keep white sugar.

"If I get a barrel, folks buy it up so fast it's gone in less'n a week," said he. "Don't pay, I tell ye; it don't pay!"

A traveler in the Philippines gives this experience on the island of Negros. He had gone to the open air market, where the native women sit squatting in a row, prepared for the long financial arguments that follow the customer's first mention of a price.

"How much?" asked the visitor, pointing to some mangoes.

"Three cents each," was the answer. There were six mangoes in the basket, and the traveler took them all and laid a twenty cent piece in the seller's lap. But she angrily snatched them back and also returned the coin.

"They are 3 cents if you buy them separately," said she. "If you buy the lot you will have to pay 5 cents, for I shall have none to sell to other people."

## IT WAS NOT A FAITH CURE

Dodd's Kidney Pills Cured Mrs. Adams' Bright's Disease.

She did not Believe in Them. But today She is Strong and Well.

Collingwood, Ont., Jan. 23.—(Special).—Mrs. Thos. Adams, who moved here about two years ago from Burk's Falls, is one of the many Canadians who once had Bright's Disease and are now strong and well. Like all the others she was cured by Dodd's Kidney Pills.

"I was eight months an invalid," says Mrs. Adams, "and no one can tell what I suffered. My doctor said I had Bright's Disease and Sciatica, but I got no relief from anything he gave me. At last a friend of my husband induced me to give Dodd's Kidney Pills a trial. I had no faith in them, for I thought I never would get better, but after taking three boxes of them I was able to do my work. I have had good health ever since I used Dodd's Kidney Pills."

## DISTRICT DOINGS THAMESVILLE

Jan. 27.—On Sunday, Feb. 5th, Rev. Father Devlin, a Jesuit missionary of Montreal, will celebrate High Mass in St. Paul's church at 10.30. He will also preach a sermon on "Characteristics of Catholic Faith" at the evening service at 7.30. This is the first anniversary of the opening of St. Paul's church. All are cordially invited.

The Lord's Supper will be dispensed in St. James Presbyterian church on Sunday morning next. Preparatory services and baptism on Friday evening at eight o'clock.

Divine services will be held in St. Stephens church next Sunday, Jan. 29, at 11 a. m. Sacrament will be administered.

The next meeting of the Art Club will be held in the Town Hall Thursday evening, Feb. 2, at 7.30 p. m. The poems to be discussed are Tennyson's "The Holy Grail" and "The Passing of Arthur."

Miss S. J. Walker has resigned her position as teacher in the Public School and leaves next week for Sault Ste. Marie.

Miss Minnie Gosnell, of Highgate, is visiting at Miss Ethel Richards.

**WHY DO WOMEN SUFFER?**  
Such pain and endure the torture of nervous headache when 25c. buys a sure cure like Nerviline. A few drops in sweetened water brings unfailing relief. You feel better at once, you're braced up, invigorated, headache goes away after one dose. The occasional use of Nerviline prevents indigestion and stomach disorders—keeps up health and strength. Every woman needs Nerviline and should use it, too. In 25c. bottles everywhere.

## WALLACEBURG

Mr. and Mrs. Frank Felstead left on Thursday evening last on their wedding trip to England.

Died, in Wallaceburg, on Wednesday, Jan. 25th, Bertha May Clifford, daughter of Mrs. Harry Bishop. Deceased has one brother, an older sister living. Miss Clifford has suffered long time with consumption. The remains were buried in the family plot in Kingsville, Ont.

The funeral of the late Thos. Bell was held on Thursday afternoon last at the Wallaceburg Cemetery.

Copies of The Daily Planet can be obtained at the store of W. H. Colwell, stationer.

## SEAL YOUR COLD FOR \$1

You surely won't stop at a dollar bill to cure that horrid, sniffeling cold! Go to any druggist and get "Catarrhose" and your cold will be a thing of the past. There is almost withery in the swift way Catarrhose kills colds. But when you consider the sneezing, itching, and watery eyes, the throat, and the general misery that Catarrhose cures, it is not so wonderful. Certainly there is no remedy half so prompt for colds and catarrh as Catarrhose. Refuse a substitute and insist on having only "Catarrhose."

## BLENHEIM

Jan. 27.—Wm. Myland, M.P., has purchased Mrs. A. Campbell's business at Fargo, and takes possession this morning.

Mrs. S. Woodhouse received word this week from Hamilton, of the death of her sister.

For the first time for a number of years East Kent is represented by a Conservative, P. H. Bowyer being the successful man, beating J. E. Cochrane by 105. It was a foregone conclusion that the Liberals would retain East Kent. Premier Whitney is so congratulated on his splendid victory.

Dr. W. H. Hodges, who has been practicing dentistry at Schenectady, N. Y., has sold out his business there and intends locating at Winona, Minn. On his way there he stopped off here to visit old friends.

Mr. Gosnell, of the Inland Revenue department, Winnipeg, visited his brother, E. L. Gosnell, last week.

Messrs. G. M. Baird, and R. M. Thompson were Chatham visitors yesterday.

Mr. Cleghorn, of the C. S. & G. Co., London, was in town on business yesterday.

H. B. Marshall has returned from visiting friends and relatives in Ireland.

The regular quarterly communion services will be held in the Presbyterian Church on Sunday next.

Mrs. G. A. Morgan, of the second concession, has re-entered the General Hospital, Chatham, where she underwent an operation on Wednesday.

Rev. John Atkins, of Alvinston, will preach at the Baptist church on Sunday next with a view to a call.

Mr. W. Y. King has severed his connection with the Pere Marquette and will continue to reside here until spring.

David Baird has taken out a license as a taxicab driver for the county of Kent. Chas. McKenzie, of Rondeau, moved a house from Shrewsbury to Erieau, across the ice.

The Carleton Club are issuing invitations for an assembly for Feb. 9th. Music will be furnished by Finney's orchestra, four pieces, of Detroit.

Mr. J. D. Campbell, of Toronto University, has written stating that he cannot accept the principalship of the school.

## DITTO.

Johnnie—I was at the club with pop-to-day, mamma, and he kept his word, not drinking whiskey.

Mamma—That is good. I am very glad to hear it. And what did he have?

Johnnie—A little brown drink called Ditto. Mr. Hinkley took a Manhattan cocktail.

**The Use and Supply of Radium.**  
It is a far cry at present to discuss the use of radium or radium salts for illuminating or heating purposes. I do not suppose there is one-tenth of an ounce of radium in the whole world.

If you can imagine getting that amount of radium, together it would supply more energy than 250 tons of dynamite. Few persons who talk about radium and its components realize the great scarcity of the raw material for yielding radium of the exceeding minute particles used in the experiments that have astounded the world. It is impossible to say where the future supply of raw material is to come from.

I believe that in America carnotite looks promising as a basis for it. Cleavite, a mineral found in Norway, is also looked upon as a favorite source of supply—Sir William Ramsay is Scientific American.

## SITUATION NOT ACUTE

No Bloodshed in Moscow As Was Dreaded On Tuesday.

Military Reserve Orders to Avoid a Repetition of Sunday's Tragedy—in Several Baltic Towns There Has Been Considerable Disorder—If Movement Spreads Among the Finns It Will Be Armed Uprising.

St. Petersburg, Jan. 26.—Governor-General Troopoff and Minister of Finance Kokovtsov issued a proclamation last night which reveals the Government's plan for breaking the strike not only here but throughout Russia. The proclamation is couched in a paternal tone, and points out that honest workmen, who want to better their condition, should have brought their demands to the Government instead of being misled by agitators into affiliating with a movement which is not confined to economic aspirations. It invites them to return to work, promising them in the Emperor's name a revision of general laws, so as to restrict the hours of labor, the institution of a plan for state insurance and otherwise to meet their demands as far as the law will permit, and guarantee them protection against interference by agitators. This document will be followed either by an Imperial manifesto along the same lines, in the hope of preventing the spread of the strike or by specific proclamations by the local authorities wherever strikes are in progress. By promising to yield the question of hours of labor, which are now legally 11 in Russia, the authorities believe they will meet the main grievance of the workmen.

This together with the guarantee of protection, the authorities hope will induce those strikers who are indifferent to political demands and which class they declare constitutes a great bulk of the men to resume work.

Effect Problematical. It is certain many strikers were forced out against their wishes, but the general effect of the proclamation is still problematical. Though the strikers have been spreading to various towns the situation last night, while disquieting, is not acute anywhere. The great demonstration with an accompaniment of bloodshed, which was anticipated at Moscow Tuesday, did not occur, and the strike in the ancient capital has not spread rapidly, only about 20,000 workmen being out, according to latest reports. Cossacks charged and dispersed a crowd of 3,000 workmen, and reports were circulated in St. Petersburg that many were killed, but advices from Moscow at midnight deny this, the best information being only a few blank volleys were fired. The Moscow military have received orders to avoid a repetition of the Sunday tragedy here, and not use ball cartridges unless they are driven to do so by the direct necessity.

Plans Are Formed. In several Baltic province towns there has been considerable disorder, especially in Riga, where the military are in complete possession. In the streets of Helsinki, there was last evening a resumption of the Tuesday night's rioting, with bloodshed, some 30 persons being wounded. If a general movement breaks out among the Finns, it is likely to take the form of an armed uprising, as almost every Finn has a weapon in his house.

Sir Charles Hardinge, the British Ambassador, last night received from Captain Grove, the British Consul at Moscow, confirmation of the Associated Press despatch from Moscow, announcing the public posting of a London telegram, imputing the disorders to British and Japanese influences, and he will ask for explanations from Foreign Minister Lansdowne. It is not expected, however, that the affair will lead to a serious diplomatic incident, but it is thought the Russian Government will disavow responsibility for the course of Acting Chief of Police Roudneff.

Panic in a Theatre. Kishineff, Jan. 26.—A seditious demonstration during the performance led to a panic in a theatre here last night. Twenty arrests were made, including four Jewish soldiers.

Gorky Arrested. St. Petersburg, Jan. 26.—The Associated Press has been privately advised that Maxim Gorky, the author and reform party leader, has been arrested at Riga, whither he had been summoned by the illness of his wife.

Strike Dies to Threats. Kovno, Russia, Jan. 26.—The governor has issued a proclamation announcing that the general strike at Kovno has been brought about by the threats of a small group of workmen.

New Jap Squadron. Tokyo, Jan. 26.—The Navy Department announces the formation of a special service squadron. No details are given.

Of Madagascar. Seychelles Islands, Indian Ocean, Jan. 26.—The French gunboat Capricorne reports that the Russian second Pacific squadron was at Passandava Bay, northwest coast of Madagascar, Jan. 20. It was thought the squadron intended to go to the east coast of Madagascar owing to the hurricane season.

Martin to Hang March 10. Toronto, Jan. 26.—Alexander Martin's doom was pronounced yesterday by Chief Justice Falconbridge. Unless the Minister of Justice revokes the sentence, Martin will be hanged on March 10. Martin is only 22 years of age, and convicted of one of the most cruel crimes that man or woman can be guilty of—the doing away with his young child.

## BOTANICAL PLANTS

Hold the Secret of Life and Death.

Recent experiments conducted by most eminent scientists, prove that light is a great remedial agent. It is essentially Nature's agent. It may be either sunlight or electric light, but it has a decided effect in helping nature to banish disease and restore health. Other scientific men have proved that oxygen electrifies the heart and can prolong life.

The people on this earth are susceptible to some laws which govern plant life. A plant cannot be successfully grown in the dark. A man is seldom healthy and strong who lives in the dark or in sunless rooms. After all, Nature's ways are found to be the best. Nature's remedies are always best for eradicating disease, and by this we mean a medicine made of roots and herbs. They are assimilated in the stomach and taken up by the blood and are, therefore, the most potent means which can be employed for the regaining of lost health. Dr. R. V. Pierce, consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., in many years of extensive practice, found that he could pin his faith to an alternative extract of certain plants and roots for the cure of all blood diseases. This he called Dr. Pierce's Golden Medical Discovery. Containing no alcohol nor narcotic, this "Discovery" makes rich red blood and a powerful tissue-builder, giving the tired business man or woman renewed strength and health. Rapidly growing school-children and boys often show impoverished blood by the pimples or boils which appear on face or neck, and the heart, lungs and stomach on pure blood, nothing is so good as Dr. Pierce's Golden Medical Discovery.

Don't allow the dealer to insult your intelligence by offering his own blood remedy to you instead of this well-known preparation of Dr. Pierce's. Ten chances to one he will substitute a cheap compound having a large percentage of alcohol in it. Dr. Pierce's Pellets are the best for the bowels. Use them with the "Discovery."

## Poison For Cholera Victims.

"Some years ago I found a vegetable in the city of Buenos Ayres at a time when the cholera was raging in that capital," said a traveler.

"It happened that as I walked along a public thoroughfare one day while the plague was at its height I saw a man fall to the ground, and I surmised that he had been stricken with the dread disease. Before reaching him I noticed a policeman approach the unfortunate and administer a drink to him from a bottle which I had no doubt contained a restorative or some kind of medicine. At the same time the policeman blew his whistle for an ambulance."

"The vehicle came very quickly, and yet before it arrived the man was dead, and it was a corpse that was removed. I remarked to the officer that the medicine had been of no avail. 'Certainly not, sonor,' he answered; 'it was not medicine I gave him, but a deadly poison. That is the way we have to do now to check the spread of the cholera. Besides, the man would soon have died anyway.'"

"I never experienced a deeper feeling of horror in my life and looked on the policeman in the light of a murderer. Yet he doubtless regarded what he had done as in the nature of a disagreeable necessity, and, politely bidding me adios, went his way."

There is no rest cure for the fellow who gets tired doing nothing.

You can't always judge a man by what he talks most entertainingly about.

## MAKES MEN SOUND AND STRONG

Detroit Specialist Making Men's Diseases a Specialty for Years. Will Accept Your Case, Giving Individual Treatment. You may Use It in the Privacy of Your Own Home.

You May Pay When You Are Cured.

A Detroit Specialist who has 14 diplomas and certificates from medical colleges and state boards of medical examiners, and who has a vast experience in detecting diseases of man, is now offering a great remedy so called incurable cases.

DR. S. GOLDBERG.

The possessor of 14 diplomas and certificates, who wants no money that he does not earn, in order to convince patients that he has the ability to do so, Dr. Goldberg will accept your case for treatment, and you need not pay a penny until a complete cure has been made; he wants to hear from patients who have been unable to get cured, as he guarantees a positive cure for all chronic, nervous, blood and skin diseases, which he accepts for treatment. He not only cures the condition itself, but likewise the complications, such as rheumatism, bladder or kidney troubles, blood poison, physical and nervous debility, lack of vitality, stomach trouble, etc. The doctor realizes that it is one thing to make claims and another thing to back them up; so he has made it a rule not to ask for money unless he cures you, and when you are cured, he feels sure that you will willingly pay him a small fee. It seems, therefore, that it is the best interest of everyone who suffers to write the doctor confidentially and lay your case before him, which will receive careful attention, and a correct diagnosis of your case will be made free of charge; if you have lost faith write him, as you have everything to gain and nothing to lose. You must remember not one penny need be paid until you are cured. All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a booklet on the subject, which contains the 14 diplomas and certificates, entirely free. Address him simply Dr. S. Goldberg, 28 Westward Ave., Room 617, Detroit, Michigan. Medicines for Canadian patients sent from Windsor, Ont., consequently there is no duty to be paid.

## COUNTY PARLIAMENT

THURSDAY MORNING.

Clerk Gessell presented his report on the inspection of the Industrial Farm and House of Refuge. This report was for the past seven months, the council having in June changed the year to begin with Jan. 1st, instead of June 1st, as heretofore. On this account the whole of the year's progress was credited to the seven months of the month's expenses, making the next expense only 60¢ per head per week. This pointed to considerable discussion, but the report was finally, on motion, of Messrs Somers and Haggart, adopted.

## ENQUIRIES.

Mr. Ross, Tilbury wants to have a boy admitted to the House of Refuge. He is an epileptic, his parents, although unable to look after him, are willing to pay. The Village will be responsible.

The Warden—The matter should be referred to the physician and the House of Refuge Committee.

Mr. Ross—There is some dissatisfaction among teachers about the examination fees. These are \$1 per candidate, whether he fails or succeeds. When asked if the money should be laid over till Friday, when the Inspectors would be present.

Mr. French—Enquired as to why the committee appointed to settle the case of a colored man admitted to the House of Refuge had made no report.

Mr. Grant—The committee were willing to accept the man from now provided he was passed by the House of Refuge Physician, but they would assume no back liability.

Mr. Hornal—Bothwell refuses liability for an indigent, on the ground that he has not been a resident for five years. The man was committed by the Mayor of Bothwell, but the commitment was irregular.

Mr. Ross asked regarding a petition to the construction of a dock on the River Thames.

The Warden stated that the petition had been forwarded.

## NOTICES OF MOTION.

Mr. Somers—For a committee to inspect the plant in connection with Jeanette's Creek bridge.

Mr. Stewart—That clauses (4) and (5) of by-law 47 be amended.

Mr. Stewart—For a grant to assist Chatham Township re Tupperville bridge.

Mr. Ross—For a committee to inspect the bridge over a creek in Romney.

Mr. Wilson—To assist the Agricultural Societies.

Mr. Haggart—To serve copies of the borrowing by-law.

Mr. Chinick—For grants to East and West Kent Farmers Institutes.

The motion of Mr. Sturgis regarding amendments to the Municipal Act was left over.

The motion of Mr. French to petition the Legislature to amend the Municipal Act so that towns should be represented in the county council by the Mayor and Villages and townships by their representatives was referred to the committee on Petitions and Legislation.

The Council then adjourned till two o'clock.

## THURSDAY AFTERNOON.

The County Council resumed at 2 o'clock.

## MOTIONS.

A communication from the Dutton High School Board was referred to the committee on Education.

Mr. Sturgis—To have amendments made to the Municipal Act laid over.

Mr. Haggart Moved, seconded by Mr. Grant, that the representations on the different committees be reduced to three except those on Finance, Equalization and Agriculture, which should be of the whole council.

Mr. Haggart—The main object of my motion is to earth expenditure. There are ten committees, some of which, as the County Property, Roads and Bridges, and Petitions and Legislation are very large. It has been said that with the reduced membership of the County Council the expenses are as large as when there were 40 members. I think there is a little truth in it. We should make some move to lay down expenses; the reduction of the committees is one step in that direction.

Mr. Somers—There is no extra expense, as the committees meet while the council is in session.

Mr. Sturgis stated that the Roads and Bridges committee was composed of seven members in order that there should be one representative of each Division. There was, as Mr. Somers had said, no extra expense.

Mr. Stewart agreed if there were only three members on the committee on Roads and Bridges all municipalities would not be fairly represented.

Mr. Ross—The Roads and Bridges committee pay out money on their orders. If the motion carries three men would be appointed and the rest of us shut out without anything to say.

Mr. Hornal—If we want to economize, amalgamate the Harrison Hall committee with that on county property. I don't think we would save anything by reducing the Roads and Bridges committee to three.

Mr. Ross pointed out that while the Property Committee had sole control of county property, the Harrison Hall committee were to arrange matters with the city of Chatham.

The motion was defeated on a vote of 11 to 2.

Mr. Wilson's motion that the agricultural societies receive each \$50 on sending in their reports for 1904, was referred to Finance.

Mr. French moved that by-law 628 be amended by increasing the salary of the matron from \$150 to \$200. The motion was referred to Finance.

**Surprise Soap**

It makes child's play of washing—and every day a happy day. The pure soap just loosens the dirt in a natural way and cleanses easily—without injury. Remember **Surprise** is a pure, hard Soap.

**Liquozone Free!**

Liquozone is a new and powerful Liqueur—should write the Liquozone Co., 428-44 Ash Ave., Chicago. They will send you an order on your druggist for a 50-cent bottle free, if you will state the disease to be treated.

14th concession were sold for taxes, and a balance left of \$80.95. Reeve Pardo requested that that sum be refunded to Raleigh, Clerk Robinson spoke also in explanation. Mr. Chinick pointed out that in similar cases in Romney and Tilbury East the taxes had been paid over to the municipalities. He moved that a committee consisting of Messrs. Hornal, Ross, and himself be appointed—Carried.

On motion of Messrs. French and Haggart, the Council then went into committee of the whole for the purpose of striking the standing committees for 1905, Councillor Sturgis occupying the chair.

On the council resuming, a deputa-tion consisting of Reeve Pardo, of Dover, and Councillor Bourdeau, was heard. They requested a grant from the council in support of the free ferry at Prairie Siding. He stated that there had been talk of building a new bridge, but thought the ferry was sufficient. Mr. Bourdeau also spoke in support of the request.

Mr. Stewart asked as to the cost. Mr. Pardo explained that it cost about \$300.

Mr. Ross complained that the ferry didn't run after six, which was an inconvenience.

Mr. Pardo stated that the hours were from 7 to 9. A man couldn't be expected to do the work over-time for the same money.

Mr. Somers—Mr. Ross wants the man to work the whole 24 hours.

The Warden promised that the Council would consider the matter.

Mr. Grant moved, seconded by Mr. Chinick, that the usual grant of \$150 be made to each of the municipalities of Dover and Raleigh to aid the free ferry at Prairie Siding.—Referred to Finance.

Reeve McCrmi k, of Harwich, was heard regarding Charles Rogers, committed to the House of Refuge, as a Harwich resident. Rogers, he stated, was not a Harwich resident. The matter was left to the House of Refuge Committee.

Moved by Mr. Hornal, seconded by Mr. White, that the indigent Liddle, of Bothwell, be received as a county pauper.

Mr. Grant stated that the committee had reason to believe that Liddle had been admitted on the certificate of an outside physician, not the regular physician. He thought this should be put a stop to.

The Warden agreed.

After some further discussion of the matter the council adjourned till Friday morning at ten o'clock.

## Pain Across the Kidneys For Three Years.

Suffered Great Agony. Could Not Stoop or Bend.

No disease is so quiet and stealthy in its approach as kidney disease. That is why it is so dangerous. It may be deep-seated before you realize the danger. It is therefore of great importance to recognize the early warning symptoms, because in its early stage kidney disease is easily curable. Pain or dull ache in the back is one of the first signs. So are bladder pains, bearing-down pains, smarting sensation when urinating, frequent or suppressed urination, and gravel or sediment in the urine, etc. You cannot be well if your kidneys are not performing their functions properly. In all ordinary cases of any derangement of the kidneys, a few doses of

## DOAN'S KIDNEY PILLS

will put the patient right; in old or chronic cases, the treatment should be persisted in.

Mr. Michael A. McInnis, Woodbine, Marion Bridge, N.S., tells of his experience: "For the last three years I suffered great agony with pain across my kidneys, and was so bad that I could not stoop or bend. I consulted and had several doctors treat me, but I got none the better. On the advice of a friend I procured a box of that valuable life-giving remedy, Doan's Kidney Pills, and to my surprise and benefit I immediately became better. In my opinion Doan's Kidney Pills have no equal as a cure for any form of kidney disease.

## FOR YOUNG FOLKS

SEESAW SWIMMER.

A Delicate Feast of Balancing and How to Perform It.

Cut the tops of two long corks into wedge shape, insert the corks firmly in the necks of two bottles of equal height and place the bottles on the table about ten inches apart with the edges of the corks parallel to each other. Now try to balance a table knife on one of the sharpened corks. If you succeed, reject that knife and try one with a heavier handle, for we must have two knives that will not balance unaided. Having found two such knives, hold them level on the corks with their points almost in contact, moving the bottles if necessary, and set on their points a small, thin

HOW TO HOLD THE SEESAW.

wineglass or tumbler containing just enough water to make the whole affair balance when you take your hands off it.

So far you have accomplished a striking and "ticklish" balancing feat, and that is all. Now attach a bullet, coin or any small heavy object to a thread, carefully lowering it into the water in the little glass. As soon as the coin touches the water the glass begins to go down, the knives turning like seesaws on the corks, and the more of the coin you submerge the lower goes the glass, so that if the coin is large you will have a smash before it is half under water. But you can pull it up at any instant. As you do so the glass follows as if it were glued to the coin, and so you can keep it seesawing up and down.

Perhaps the reason of this is not clear to you. The coin is held up by the thread and does not touch the glass, so how can it affect it? Well, the coin is not held up by the thread alone. The part that the thread and partly by the water, which buoys it up with a force equal to the weight of an equal bulk of water. The coin, therefore, presses the water and consequently the glass downward with an equal force.

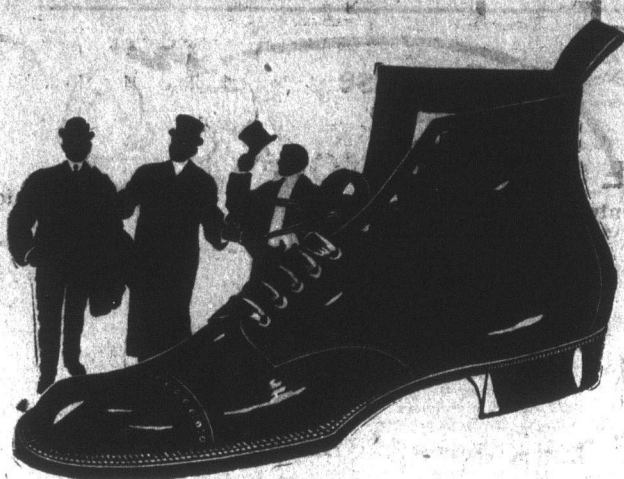

Now, when you pull out the coin this extra weight is taken off, so the glass rises to its original position.

## Birds With Teeth.

Birds are simply reptiles which have shed their scales and teeth, grown wings and feathers and invaded the domain of air. The very oldest bird of which science has any record had very sharp teeth, rather weak wings and a long tail adorned with twenty pairs of quill feathers. Some of these birds were not able to fly at all, and they nearly all lived on fish. Gradually as they developed through centuries they grew more feathers, longer and stronger wings, lost their teeth and got sharp, hard bills instead. There were no birds before the reptilian age, and every bird that flies today traces its ancestry back to a sharp toothed snake. So the old joke, "As long ago as when hens had teeth," is not so much of a joke after all.

## HAWKES CUT GLASS

A yellow diamond makes a good show until compared with a white one, and  
Hawkes glass shows up the yellow in other cut glass when placed side by side. We  
can show you five other makes, Canadian and American, but Hawkes stands out in  
a class by itself. Come in and let us show you the difference, and it won't take long  
either. There is comparatively very little difference in the cost but oh what a differ-  
ence in quality.

## TWO BALLOTS ARE MISSING

Two of the Official Voting  
Papers Unaccounted for  
in City Sub-Div. 14

Official Count Started This After-  
noon—Going on as The Planet  
Goes to Press

The official count opened before  
Returning Officer J. R. Gemmill at  
3.30 this afternoon and is going on  
as The Planet goes to press.

A serious discrepancy has just  
been disclosed by the Sheriff in Sub-  
division 14, Waterhouse's bakery,  
where two ballots are unaccounted for.  
The deputy there was W. D.  
Bentley and his clerk B. Cookfield.  
The papers were signed at this divi-  
sion by Ward Stanworth for the  
Conservatives and Jas. Richards for  
the Liberals.

The Sheriff and party representa-  
tives are looking into the matter, the  
count being left open in the mean-  
time.

### FAR FROM VAGUE

Premier Balfour Deane, Chairman of Op-  
ponents and Makers Announcements.

London, Jan. 27.—(C. A. P.)—  
Speaking to his constituents in Man-  
chester, Premier Balfour Deane, denied the  
assertion made by his opponents  
that he had been vague regarding  
the fiscal question in his utterances.

Mr. Deane had offered a reward to  
anybody who could state his fiscal  
policy on a sheet of note paper. He  
would do it on a half sheet. Holding  
up a sheet of note paper, he read  
from it:

"I desire such an alteration in our  
fiscal system as will give us freedom  
of action, which is impossible while  
we hold ourselves bound by the max-  
im that no taxation should be im-  
posed except for revenue purposes; I  
desire this freedom in the main for  
three reasons—it will strengthen our  
hands in negotiations by which we  
may hope to lower foreign tariffs;  
it may enable us to protect the most  
valuable industries of the colonies,  
which desire to give us preferential  
treatment; it may be useful where we  
wish to check the importation of  
those foreign goods which because  
they are bountied or tariff pro-  
tected abroad are sold below cost  
price here."

"Secondly, I desire that closer com-  
mercial union with the colonies which  
has received so much colonial sup-  
port. I think it might produce great  
and growing commercial advantages  
both to the colonies and the mother  
country by promoting freer trade be-  
tween them. Such a commercial  
union is beset with many difficulties,  
but those can best be dealt with by  
a colonial conference, provided its  
objects are permitted to be discus-  
sed and unimpeded by limiting insti-  
tutions. I recommend that the subject  
shall be referred to a conference on  
these terms."

"Lastly, I do not desire to raise  
home prices for the purpose of aid-  
ing home production."

**Colonies and Preference.**  
Sir Henry Campbell-Bannerman, M.  
P. (Liberal leader), addressing his  
constituents at Queensferry, said he  
believed the colonies would be wil-  
ling to give us any preference that  
would affect their advantage over  
us. The colonies were bound to us  
by ties of blood, long association  
and common interest. Mr. Cham-  
berlain's theory tended ultimately to  
impair the unity of the Empire.

## MANY STRIKES APPEAR

Though Situation in Russia is Nowhere Now Acute.

Whereabouts of Father Gapon a Mystery.

Though it is thought that he is in Moscow—Strike spreading in the Amoy Capital, But There Have Been No Collisions of Special Gravity—Strikers Remain Indecisive.

St. Petersburg, Jan. 27.—Although the strikes in Revel, Libau, Kief, Odessa and a few smaller places are extending the situation is nowhere acute. An increasing number of workmen are out in Moscow, but there is no general disorder there.

The whereabouts of Father Gapon still remains a mystery, although it is believed the priest is in Moscow. The Russian capital presents almost a normal appearance, and the authorities are confident that the backbone of the strike has been broken.

Some factories and mills are resumption of operations is expected on Monday. The authorities expect the failure of the strike here will have a discouraging effect upon the workmen in other cities to which the troubles have been spreading, and believe that there is no longer danger of a complete suspension of all the industrial concerns in Russia.

Minister of the Interior, Sviatopolk-Mirsky has promised a delegation of editors who called upon him that he will investigate the arrest of several prominent writers who are now confined in the St. Peter and St. Paul fortress and secure their release as soon as possible.

Moscow, Jan. 27.—Although the strike is steadily spreading the movement thus far has not been accompanied by collisions of great gravity. Yesterday's events were restricted to minor skirmishes in the northern and eastern outskirts of the city in which the troops successfully resisted all efforts of the crowd to break through the cordon. No bloodshed is reported. Both the authorities and the masters have shown admirable coolness in the face of the situation, the former avoiding provocation by studiously concealing the troops and the latter by displaying a readiness to meet the men's demands.

It appears that when the strikers made the round of the mills calling on their comrades to quit work, under threat of wrecking the plants, the masters decided to allow the men to take a holiday with full pay, providing they remained in their dwellings, and the workmen unanimously consented, the result being that the intimidators were unarmed.

In the meantime workers and masters are negotiating for a settlement of their differences. Several firms have offered an advance in wages which would bring the average earnings of their workmen to \$10 per month and lodgings. One firm has offered to knock off one hour from the legal working day of 11 hours, but this is the burning question on which the majority of the masters are unwilling or unable to agree to concessions. The Danilowsky textile factory alone continues working.

Troop Optimists.

St. Petersburg, Jan. 27.—Governor-General Trepoff manifested complete confidence that the crisis is over, and that public order and the safety of the city are assured. Further than this the Governor-General takes an optimistic view of the situation in the province.

Thirty Workmen Killed.

London, Jan. 27.—A despatch to Reuters' Telegram Co. from Riga confirms the previous announcement of a collision there between strikers and troops. Thirty workmen were killed or wounded, and a sub-chief of police and two soldiers were mortally wounded.

## Employees Return to Work.

St. Petersburg, Jan. 27.—Three hundred employees of the Baltic works returned to their employment yesterday. It is expected that work at the Neva shipbuilding yards will recommence to-day.

Factory Burning.

London, Jan. 27.—A despatch from St. Petersburg, timed 9.26 p.m. yesterday, to a news agency, reports that Pahl's factory and a large cotton mill have been set on fire and are burning fiercely.

Damage Telegraph Lines.

Libau, Russia, Jan. 27.—Telegraphic lines and telephone wires have been damaged. A strike has also begun at the wire works. Men singing songs and blowing trumpets went from factory to factory calling out the workers.

All the Printers Strike.

Saratoff, Russia, Jan. 27.—All the printers have struck. The employees of the Russian-Ural Railroad have joined in the movement. There has been no rioting thus far.

Street Cars Stop Running.

Kyev, Jan. 27.—This town is calm. Some of the factories were reopened yesterday morning, but they were closed later. The street cars have stopped running. Troops are patrolling the streets, but there has been no disorder.

## Obstinate Coughs and Colds.

The Kind That Stick.

The Kind That Turn To Bronchitis.

The Kind That End In Consumption.

Consumption is, in thousands of cases, nothing more or less than the final result of a neglected cold. Don't give this terrible plague a chance to get a foot-hold on your system.

If you do, nothing will save you. Take hold of a cough or cold immediately by using

**DR. WOOD'S NORWAY PINE SYRUP.**

The first dose will convince you that it will cure you. Miss Hannah F. Fleming, New Germany, N.S., writes:—"I contracted a cold that took such a hold on me that my people thought I was going to die. Hearing how good Dr. Wood's Norway Pine Syrup was, I procured two bottles and they effected a complete cure."

Price 25 cents per bottle. Do not accept substitutes for Dr. Wood's Norway Pine Syrup. Be sure and insist on having the genuine.

### THE PEOPLE'S VERDICT.

Toronto, Jan. 26.—The people of Ontario spoke yesterday. They condemned the Ross Government. They gave the Conservatives an overwhelming majority.

### Narrow Squeeze For Ross.

Other Ministers narrowly missed sharing in the disaster. Premier Ross had the narrowest squeeze of them all, and for a time it looked as if he would not pull out. The last returns available last night gave him 50 majority, with two places to hear from, which are expected to go Conservative. Mr. Ross had 604 majority two years ago. His two new Ministers survived the wreck, Graham by something over a hundred and Mackay by about three hundred.

Toronto gave a popular majority of about 10,000 for the new Government.

### Premier Ross Alone—And Silent.

Hon. G. W. Ross was the only Cabinet minister in the city yesterday. He remained in his office at the Parliament Buildings, surrounded by a coterie of officials, and remained in his private office until the last election returns came in by special wire. Premier Ross continued to sit in his office, but as the returns came in, his friends gradually left him—by 10 o'clock he was alone. Representatives of the press were waiting to get his views, as to the probable issues which had turned the current of opinion against his party and his Government, but spunklike the Premier was silent. The last returns had struck him dumb and with that stolidism which is characteristic of Mr. Ross when he is at bay, he refused to hang on to power to the very last, he said that he had nothing to say—"not a word for the press to-night." It was quite late before Mr. Ross returned to his home, but as he left the buildings which for 32 years had given shelter to a Government of which he is the chief, and encountered the cruelly cold north wind that was blowing outside, the retreat of Napoleon from Moscow could hardly have been more chilly or depressing.

## AFRAID TO EAT MANY THINGS

If you are Use Dodd's Dyspepsia Tablets—What They Did for R. A. Barton.

Talking of the Christmas season and its accompaniment of turkey, plum pudding and other palatable but rather indigestible dishes it is of interest to at least seventy-five per cent. of the general public to know that the ill-effects that follow heavy dinners can be avoided. There are thousands of people in Canada who once faced a heavy dinner with fear and trembling who now eat what they like when they like and enjoy it too. They have used Dodd's Dyspepsia Tablets.

One of these is Mr. R. A. Barton of 23 Tyndall Avenue, Toronto, well known in Queen City business circles. "Yes," Mr. Barton says, "there was a time when I was afraid to eat many things that would have suited my taste. Now I can eat whatever I set before me asking no questions. Dodd's Dyspepsia Tablets did it after all the doctors I consulted had failed. It took perhaps a dozen boxes to fix up my stomach but it's all right now. If you're troubled that way try Dodd's Dyspepsia Tablets."

**Preserving Food Fests.**

Hundreds of methods of preserving foods have been tried, but few of them have proved practical for the farmer because of the difficulty or expense of treating them. One of the experiment stations has recently begun an extensive experiment with several of the most promising of these methods, most of which depend on extracting the natural juices of the food and filling the pores with some antiseptic preparation which prevents the working of wood destroying germs. Charring the posts seems to be about the best of the simpler methods of treatment. Hot air is another good preservative.

**BROKEN SLEEP—TIRED NEXT MORNING.**

Sleep not only rests, but builds up the body. Cut down the hours of sleep, and you cut down health in the same proportion. Rebuilding then comes, nerves go to smash, you grow tired, weak and wretched. To restore sleep you must get more bodily strength, more nutritious blood, healthier nerves. Ferrous Solves the whole problem, makes you sleep soundly, gives endurance, vim, ambition. No more morning weakness—instead the fine of youth will run in your veins, supplying abundance of energy and vigor. With energy expresses the instant effect of Ferrous Solves, try it.

**Cost of War in Figures.**

The enormous cost of war can only be realized when set down in aggregates. About \$10,000,000 a week is the estimate of the cost of the Russo-Japanese war. That means about \$500,000,000 or half a billion dollars, a year. The United States Civil War of four years' duration cost the nation alone \$4,000,000,000. During the closing months the Government outlay was \$1,000,000 a day. It cost the allies a billion and a quarter to give Napoleon his Waterloo.

**YOUR WORK-OUT STOMACH.**

What it means is the strengthening influence of Dr. Hamilton's Pills—they work marvels where the stomach and digestion are poor. In one day the appetite increases and the whole system is rapidly strengthened. No stomach specialist could write a better prescription than Dr. Hamilton's Pills of "Mandrake and Bitter-salt." At all dealers in a yellow box, price 25c, or five boxes for one dollar.

**Political Anecdotes.**  
You can't tell how the thing is done. These statements are a little lot. The man who says he won't may run. The man who says he will, may not.

The mother who would be horrified at the thought of letting her daughter wander away to a strange country without guide or counsel, yet permits her to enter that unknown land of womanhood without counsel or caution. Then, in utter ignorance, the maiden must meet physical problems whose solution will affect her whole future life. Dr. Pierce's Favorite Prescription has been well named a "God-send to women." It corrects irregularities and imparts such vigorous vitality to the delicate womanly organs, as fits them for their important functions. Many a nervous, hysterical, peevish girl has been changed to a happy young woman after the use of "Favorite Prescription" has established the sound health of the organs peculiarly feminine.

Every woman should own a copy of the People's Common Sense Medical Adviser, sent free on receipt of 31 one-cent stamps to pay expenses of mailing and customs. The same book of 1008 pages in substantial cloth for 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

The studious king never reigns but he pours over a book.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other powders, as it is both soap and disinfectant.

A woman may be fancy free and still not fancy her freedom.

## MR. WHITNEY SERIOUS.

Displays Modesty in Immediate Presence of Great Political Upheaval—Acknowledges Liberal Aid.

Morrisburg, Jan. 26.—In the immediate presence of the great political upheaval in the province to-day, I can have but little to say.

"All must acknowledge the serious nature of this sympathetic expression of the people's will."

"I fully and gladly appreciate the fact that Liberals in large numbers joined in this expression."

J. P. Whitney, leader of the Conservative party in the Province of Ontario, made the above statement last night.

During the evening Mr. Whitney was fairly deluged with telegraph bulletins, which kept him informed of the situation as it developed.

Popular Majority of 30,872.  
The figures last night were far from complete. Quite a number of the constituencies have not reported figures, just the general result, but with the figures set hand the popular majority is as follows:

Conservative majorities.....35,474  
Liberal majorities.....4,599  
Conservative popular maj.....30,872

**Whitney's Strong Reaction.**

Not one of Mr. Whitney's strong backers in the last House was beaten. They carried their seats by majorities away up in the hundreds. The Liberals made a dead-end on such men as Hanna in West Lambton, Reame in North Essex, Casselman in East Hamilton, Hendrie in West Hamilton, and Beck in London, but these men piled up votes faster than they were even able to do it before.

Conservative gains—Brant North, Bruce South, Durham West, Fort William, Halton, Kent East, Lanark North, Lambton East, Middlesex East, Middlesex North, Nipissing East, Nipissing West, Norfolk South, Ontario South, Peterborough West, Parry Sound, Perth South, Perth North, Port Arthur, Renfrew South, Simcoe Centre, Stormont, Wetland, Wellington East, York East, York North.

Liberal gains—Ottawa (two seats), Glengarry.

**William Fraser Has Died.**  
London, Jan. 26.—(O.A.P.)—William Fraser Rae, author of many books on Canadian travel, died at Bath of pneumonia, aged 70.

## YOU CAN INTEREST HIM

Any Man Over Fifty.

You can interest any man over fifty years of age in anything that will make him feel better, because, while he may not as yet have any positive organic disease, he no longer feels the buoyancy and vigor of twenty-five nor the freedom from aches and pains he enjoyed in earlier years, and he very naturally examines with interest any proposition looking to the improvement and preservation of his health.

He will notice almost other things that the stomach of fifty is a very different one from the stomach he possessed at twenty-five. That greatest care must be exercised as to what is eaten and how much of it, and even with the best of care, there will be increasing digestive weakness with advancing years.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man of fifty, but every man, woman and child of any age, because the whole secret of good health, good blood, strong nerves, is to have a stomach which will promptly and thoroughly digest wholesome food, because blood, nerves, brain tissue and every other constituent of the body are entirely the product of digestion, and no medicine or "health" food can possibly create pure blood or restore shaky nerves when a weak stomach is regaining its daily wear and tear of the body from a mass of fermenting, half-digested food.

No, the stomach itself wants help and in no roundabout way, either; it wants direct, unmistakable assistance, such as is given by one or two Stuart's Dyspepsia Tablets after each meal.

These tablets cure stomach trouble because their use gives the stomach a chance to rest and recuperate; one of Stuart's Dyspepsia Tablets contains digestive elements sufficient to digest 3,000 grains of ordinary food such as bread, meat, eggs, etc.

The plan of dieting is simply another name for starvation, and the use of prepared food and newfangled breakfast foods simply makes matters worse for any dyspeptic who has tried them.

As Dr. Bennett says, the only reason I can imagine why Stuart's Dyspepsia Tablets are not universally used by everybody who is in any way troubled with poor digestion is because many people seem to think that because a medicine is advertised or is sold in drug stores or is protected by a trade mark must be a humbug, whereas as a matter of fact any druggist who is honest and knows that Stuart's Dyspepsia Tablets have cured more people of indigestion, heart burn, heart trouble, nervous prostration and run-down condition generally than all the patent medicines and doctors' prescriptions for stomach trouble combined.

Toronto, Jan. 26, '05.  
The Planet, Chatham:  
I am very sorry that, in a contest where political integrity was the vital issue, West Kent stands so overwhelmingly condemned by the rest of the Province.

A. W. THORNTON.  
The Planet also received this morning the following kind letter from Dr. T. L. McRitchie, vice-president of the East Kent Liberal-Conservative Association:

Harwich, Ont., Jan. 26, '05.  
Editor Planet, Chatham:  
Dear Friend—We congratulate you on the strong and straightforward fight put up by you against a hard proposition in West Kent. You lost, but lost honorably. West Kent missed a magnificent man in James Bowyer.

We of East Kent thank The Planet most heartily for the splendid support you have given our candidate and now member-elect Philip H. Bowyer. The result here has more than worked for victory though hardly expected it, as East Kent has such a long record as a hide-bound Liberal constituency.

Friend Phil. takes the honor very modestly as we knew he would. He

was charred up and down Main street last evening. He is just tired out. I advised him to be taken home to rest, but this could not prevail till eleven o'clock. You will know how it was done as you know our candidate. He had the united support of all friends of honest Government. I think we can hold East Kent now for some time.

Where will Archie be sitting? I don't know whether there will be any necessity for back benches for the few left in opposition to J. P. Whitney. I trust he will now give us strong, efficient and honest Government.

Again wishing The Planet and staff continued success and thanking them for their good work, I am, Sincerely yours,  
T. L. McRITCHIE.

## COUNTY PARLIAMENT

Continued from Page Three.

FRIDAY MORNING.

A detailed account of amounts received by the Registry office was presented, which led to some discussion. The Warden thought the money coming to the county from this source should be paid when due. Treasurer J. C. Fleming, stated that the fees should be paid on the 15th of January every year. They were not paid yet.

The report was received and referred to the Warden.

Mr. Sturgis presented the report of the committee to strike standing committees for 1905. The following are the committees—Finance—The whole Council; Mr. French, chairman.

Education—Mr. Grant, chairman; Messrs. Haggart, Brien, French and Horal.

County Property—Mr. Haggart, chairman; Messrs. Campbell, Grant, Somers, Wilson, White and French.

Roads and Bridges—Mr. Horal, chairman; Messrs. Ross, Brien, Chinnick, Sturgis, Stewart, and the Warden.

Equalization—The whole Council; Mr. Campbell, chairman.

Petitions and Legislation—Mr. Sturgis, chairman; Messrs. Ross, Stewart, Somers, Campbell, Printing and Contingencies—Mr. Brien, chairman; Messrs. Haggart and White.

Agriculture—The whole Council; Mr. White, chairman.

Harrison Hall—Mr. Stewart, chairman; Messrs. French, Grant, Horal and the Warden.

The committee also recommended that the Warden have power to vote on all committees.

### ENQUIRIES.

A query from Mr. French led to a considerable discussion regarding the state of the Thamesville bridge.

Mr. Chinnick brought up the question of the indigent Little, from Bothwell.

Mr. White urged that Little was unquestionably a county pauper.

A letter from Mr. Johns, of Bothwell, regarding the matter, was read.

On motion of Messrs. Somers and White, the previous resolution passed at the December session that the county would not be responsible for Little's keep, was rescinded.

Mr. French raised the question of co-operating with Essex and Lambton regarding a competent accountant to act as auditor.

The Warden stated that this would necessitate a change of legislation.

Mr. Horal didn't approve of the system of appointing auditors. He urged that the Council choose competent men in committee instead of making motions in open Council.

### NOTICES OF MOTION.

Mr. French—For a grant to East and West Kent Farmers' Institutes.

Mr. Ross—Regarding a bridge at Two Creeks.

Mr. Ross—For a committee to investigate the fees for examinations for entrance to H.G. schools.

Mr. Brien—For a special grant for the Howard Agricultural Society, at being their fiftieth anniversary.

Mr. Ross—For a grant for a ferry at St. Peter's church.

Mr. Wilson—For a committee to County responsibility regarding bridges over County lines between Kent and Essex.

Mr. Wilson—For a grant to assist Tilbury East and Romney to construct a tramway to Lake Erie to secure gravel.

### MOTIONS.

Mr. French's by-law to amend by-law 598 received its first and second readings.

Mr. Stewart moved that by-law 647 be amended by reducing peddlers' licenses from \$45 to \$25 and from \$25 to \$12.50 respectively.

The Warden—A by-law can't be amended by Resolution.

Mr. Ross—You can test the feeling of the Council.

Mr. Stewart urged that the present heavy licenses were a hardship on local storekeepers, who formerly had rigs on the road.

Mr. Ross opposed the change. He thought the high licenses kept out peddlers from Detroit and had reduced petty dealing in his vicinity. He urged the Council to keep up the licenses.

Mr. French agreed with Mr. Ross. The high licenses did more good than harm to local storekeepers.

Mr. Wilson thought they kept out Yankee competition.

Mr. Grant—These Yankee peddlers come in just the same. In Dover the local storekeepers have stopped supplying out rigs, whilst rigs come out

from Chatham. It is a hardship to local storekeepers.

The motion was lost by a vote of 10 to 5. Messrs. Stewart, Chinnick and Grant supporting it.

Mr. Chinnick's motion to grant \$25 each to East and West Kent Farmers' Institutes was referred to Finance.

Mr. Stewart's motion to aid to Tupperville bridge was left over till the afternoon.

Messrs. Somers and Haggart moved the appointment of a special committee, composed of Messrs. Ross, Chinnick and the Warden, to look into the plans and specifications for Jeannette's Creek bridge.

Mr. Stewart—Doesn't that work belong to the Roads and Bridges committee?

The motion caused a brisk discussion.

The Clerk read the report of the special committee, recommending that the County pay one-half the cost, the Tilbury East Council to maintain the bridge.

The motion was put and carried. The Council then adjourned till two o'clock.

### SATCHEL OF THE SATELLITE

The Province is sore.

H. Bowyer takes his glorious victory modestly.

The poor B. Mistake succeeded in cutting down Archie's majority.

The only editor to get kicked was the one that ran as an independent.

I guess I'll have to take a little rest after the exertions of the campaign.

It's rather tame to get back to municipal affairs now that I have saved the Province.

The Banner's "His Hour Has Come" fit more cases than that of the Hon. G. W. Ross.

This G. H. J. has a well-earned reputation for getting the returns first on the street and having them correct.

You probably have noticed how much the people appreciate Phil Bowyer, Hugh Clark and J. P. Downey, those good Con. editors.

"As usual, we were first with the returns"—The B. Mistake. That's probably why they went out and got a Planet extra to get some of the figures from.

The Planet had the correct city returns 35 minutes after the polls closed. The B. Mistake had them 24 hours later. The same thing happened at the municipal elections.

It's a proud man that Whitney ought to be. Just think of being the chief representative of all the good Tories and the few decent Grits of

### PARLOR MUSIQUE

A delightful parlor musicale under the auspices of the Ladies Aid Society of the First Presbyterian church was held last evening at the handsome home of Mrs. S. M. Glenn, Park Street. There was a large attendance of both ladies and gentlemen and an exquisite program was provided, following which refresh-

freshments were served.

The musicale was a genuine treat. Short addresses were delivered by Rev. Mr. MacGillivray, Col. J. B. Rankin, Capt. Fred. Stone and others. H. W. Anderson presided and the following entertainers contributed to the excellent program: Mrs. John Coover, Mrs. James Butherford, Mrs. Walker, Misses Agnes Phillimore, Hope Rankin, Flora McGeorge, Vera Smith, Walker and McLaren, Messrs. E. B. Arthur and C. H. Gunn, and Masters Willie Hoig and Ray, Glasford.

The ladies deserve much credit for the success of the evening.

### A cough medicine over sixty years old

This must mean merit, solid, genuine merit. It certainly must be true that Ayer's Cherry Pectoral cures coughs, colds, croup, bronchitis, asthma. Ask your own doctor to explain why it strengthens weak throats and heals inflamed lungs.
