Ottawa, June 23, 1910.

Right Reverend Sir,

I have the honour to acknowledge the receipt of Your Lordship's letter of the 9th instant in reference to the grant claimed by the May River Boarding School during the past fiscal year.

In reply I beg to say that at the time of Your Lordship's visit to Ottawa last spring the question of an increased grant to boarding schools in the West was under consideration. The proposal then was to close the Elkhorn Industrial school and distribute the funds expended annually in its maintenance among the different boarding schools under the auspices of the Church of England. In this redistribution provision was made to pay a per capita grant for 20 pupils at the rate of $100.00 ea at the May River school.

The Department was unable, however, to carry out the proposal to close the Elkhorn school and consequently the funds to increase the grant at May River and other schools were not available.

A reference to official letter of May 9th, 1909. will show that the Department had in view the redistribution referred to above when Your Lordship was advised that an increased grant would be paid the May River school.

It is regretted very much that Your Lordship's

Right Rev. I. O. Stringer,
Bishop of Yukon,
Whitehorse, Yukon.

request could not under the circumstances be complied with, but you will readily recognize the impossibility of making an exception in the case of the Hay River school when there are other institutions operating under similar conditions.

The total earnings of this school for the nine months ended December 31st, 1909 were $1080.00. The grant for the June quarter was paid direct to the Principal, who acknowledged the same, while that for the September and December quarters was paid to His Lordship the Bishop of Athabasca. The earnings for the March quarter will be paid upon receipt of the usual quarterly return and the cheque will be sent, as directed, to the Ven. Archdeacon J. R. Lucas.

I have the honour to be, Right Reverend Sir,

As to the question of having some one in charge as suggested by Mr. Narvie, to see that the proper returns are made and money collected, you might consult with him and ascertain what arrangements he is willing to enter into in regard to the matter, and report same to the Department for consideration and advise.

The proceeds of the sale subsequently made were, therefore, placed to the credit of that Band. As constant changes in the staff always tend to produce friction, I have to draw your attention to the fact that since April of 1907 you have had at least four Assistant Principals and that the present incumbent of the office is about to sever his connection with the school. It is not possible that you could delegate your authority as Principal to an Assistant Principal unless he be a very exceptional man and from the rate of pay which you have been allowing your Assistants it may be judged that they are not highly qualified. Such changes in the staff would also seem to indicate that the Assistant Principals themselves did not find their position congenial, although there is no direct evidence that such is the case.

Madam,

The Department is in receipt of Mr. Bragg's report upon the Carcross Boarding School and, in view of the satisfactory work being performed by the staff, it has been decided to aid somewhat in providing more suitable equipment. The Department will pay for the necessary tables, chairs, bureaus and washstands for the staff, a washing machine, tubs, some table linen, enamelled dishes for the use of the children, knives and forks, nickle teaspoons, oil cloth for the tables, a set of weighing scales, a knitting machine, a suitable range and some carpenter's tools.

You will be good enough to forward to Mr. Alexander Henderson, K.C., Commissioner of the Yukon, Dawson, a list of the articles you require and the number under the headings above mentioned and at the sametime give him some information as to the range, washing machine, knitting machine and carpenter's tools. Mr. Henderson will then make the necessary purchases.

In reference to the medicines which are needed you are hereby authorized to purchase some cod liver oil and other simple medicines for the treatment of diseases in the school and forward the account, in duplicate, certified by yourself, through the officer of the Commissioner of the Yukon.

Sir,

I have to acknowledge the receipt of your letter of the 16th instant, and in reply to that portion in which you deal with the education of the daughter of John MacEwen I beg to say that the Department approves of your suggestion that this girl be placed in the Convent at Arichat, N.S., provided the terms are reasonable. The rate for tuition and maintenance is not quoted by you, but the Department is of opinion that $100.00 per annum should be sufficient remuneration.

In reply I beg to say that the Department is
pleased to know that Miss Hayter is a well qualified teacher
and that she is doing fairly good work considering the
very poor attendance.

In reference to the matter of improving the
attendance I may say that the Department would, if pract-
icable, be disposed to carry out your suggestion and pro-
vide a simple mid-day meal for the children, if the teacher
would be willing to prepare it. You will be good enough
to take this matter up with Miss Hayter and when reporting
make suggestions as to the nature of the meal that you
think could be conveniently provided. I may say that if
some improvement can be effected in the attendance the De-
partment would be disposed to increase Miss Hayter's salary,
but present conditions would not warrent such action now.

In reporting on this school you will be good
enough to state the number of children that should attend,
the distance they reside from the school and give fuller
information with regard to the character, habits, etc. of
the parents.

This Department desires to provide certain equipment consisting of tables, chairs, bureaus and washstands for the staff, a washing machine, tubs, some table linen, enamelled dishes for the use of the children, knives and forks, nickle teaspoons, oil cloth for the tables, a set of weighing scales, a knitting machine, a suitable range and some carpenter's tools for the Indian Boarding School at Carcross, Y.T., and I would esteem it a favour if you would make these purchases. Miss Ida E. Collins, the Matron of the school, has been asked to forward you a list of the articles required and to give you information in reference to the range, washing machine, knitting machine and carpenter's tools that have been asked for. When you receive this information from Miss Collins you may make the purchases and arrange for their transport to Carcross. Sir,-

I have to inform you that a number of communications have been received from Chief A. Wedildahld, of Port Essington, in which he asks for information as to the action that is being taken as regards the British Columbia land question. Chief Wedildahld has several times been informed that the Department of Justice has this matter in hand, and is in communication with the counsel for British Columbia with a view to an agreement being come to as to the questions in regard thereto which shall be submitted to the Supreme Court of Canada for adjudication.

Notwithstanding that this information has several times been given to Wedildahld, he continues to write both to this Department and to the Department of Justice, and has expressed his intention of coming to Ottawa when the case comes before the court for argument. The latter Department has asked that Wedildahld be informed that it will be quite useless for him to come to Ottawa, and that it cannot enter into correspondence with him about the details of the suit.

Be good enough to inform the Chief to this effect at your earliest opportunity, and, further, that the Department of Justice is in possession of all the necessary documents bearing upon the case.

Dear Mr. Michaud,

I have your note of June 20th. The Indians of Edmundston Reserve have a small Fund which I do not think could be better spent than in fixing up the road. They will have to give their consent to the expenditure, which Agent Hunter will be instructed to secure, and I hope that before long the money will be available as you request.

In reply to your letter of the 18th instant, asking for description of the islands advertised for sale by tender, I have to say that the descriptions given in the Surveyor's notes are as follows.-

Opposite Gibson township.

"161- 101.30 acres. Is a large island lying between "158 and the mainland. Rather bare in places, has been "burnt over and small timber growing up. There is an "interesting and intricate channel to the north of it, "between it and the mainland, through which boats of "about 30 inches draft can pass if well handled. The "shore line is broken by bays. Would do well for a large "camping party, as it is in good fishing locality. It "is close to the inside Tug Channel."

Birch Island.

"414- 15 acres. Is thickly wooded with pine, birch, "oak, etc. and is about 15 feet above the lake level in "highest place. It has good camping places and is right "on steamboat channel Parry Sound to Penetang."

"500, or Sages Island. 15 acres. A large island about "12 feet above the water in the highest place and is "thickly wooded with pine, birch, cedar, oak, etc. "It has good sites for tents or buildings and perfect "shelter for boats, only a short distance from Jubilee "Dock."

"503 - 9 acres. A large outside island west from Jubilee. "There is a small frame shanty on it erected about 1906, "but no occupants at the time of inspection. It is "rather sparsely wooded with pine, birch, cedar, etc. "and is 15 feet high. It has some fine sites for tents "or buildings and a fine harbor, good fishing right "off the island, one can see a long stretch of islands "from here and it should be a very desirable location."

Opposite Baxter Township.

"158 - 2.1 acres. This island is well wooded with "young timber, oak, pine, birch, poplar and undergrowth. "A suitable island for a summer cottage. Deep approaches "and sheltered bays. 25 feet high.

Sir,-

I have to acknowledge the receipt of your letter of the 20th instant and note that you consider 32 acres each to be too small an area to allot to the Sioux Indians.

The Department will be largelyguided by your report in this matter as you were informed in letter of the 8th April last.

I have to confirm the following telegram sent you,today "Select Reserve of sufficient area in your opinion "for Wood Mountain Indians subject to final approval by Depart- "ment."

In this connection I have to inform you that Mr. Joseph Hook is a squatter apparently on the South-east quarter of Sec.1, Tp.4.R.4.W.3.M. in which township the Indian Reserve is to be selected. I have to request you to be careful not to include in the reserve the land squatted on by Mr.Hook nor yet any other lands which may have been squatted on or to which there are any other claims whatever. It is desired that the new reserve shall include land absolutely free from any claims.

After you have made the selection please advertise it informally in the locality in order that it may be generally known as after the selection is made no claims of any who may trespass on the selection will be considered. It is of course intended that you should consult the Indians or their principal men and meet their views as far as possible.

Sir,-

I beg to enclose herewith copy of a letter dated the 27th ultimo from Mr. Inspector Semmens respecting the distribution of the 160 sacks of flour received under contract for your Agency.

Mr. Semmens is under misapprehension in regard to the flour for Little Grand Rapids and Pekangekum Bands, as their share is included in the 160 sacks. He was furnished with a copy of the estimates such as supplied you with letter of the 16th March last and told that the supplies for the two Bands referred to were included in the contract.

The shipment of 41 sacks to Little Grand Rapids will make a shortage of six sacks only for the other Bands and the Department cannot understand how Mr. Semmens shipped the balance to arrive at a shortage of 42 sacks.

The Department requests that you will carefully look into the various shipments by Mr. Semmens and arrange for proper delivery according to the Estimates.

You are authorized to purchase six sacks of flour at Selkirk to make up the shortage.

A receipt from the different Bands should be forwarded as usual for the supplies received by them.

I beg to say that it has been represented to the Department that the highway running through the Edmundston Indian Reserve is badly in need of repair. If the facts are as stated, the Department will take into consideration the question of having the necessary work done provided the Indians of the Reserve pass a resolution to have the cost, which it is considered should be confined to $100.00, defrayed from their capital funds. It would be well for you to call a meeting of the Indians and bring the matter before them. If they desire the repairs they should pass a resolutich specifying the amount ($100.00) which they desire to be expended from their capital funds for the purpose stated. It is not proposed to sell this land but, with the consent of the Indians, to allow the Department of Agriculture to use it for a period of say ninety-nine years at a rental to be agreed upon.

As this proposal is one which will be for the benefit of the Indians, the Department assumes that they will offer no objection but will willingly give their consent to the establishment and operation of this farm.

Gentlemen,

I have to inform you that your tenders for the erection of a Protestant school and a Romman Catholic Girls' school in the Village of Caughnawaga on the Caughnawaga Indian reserve for the total amount of $14622.00 have been accepted by the Governor General in Council and upon receipt of the enlcosed agreements and bonds, duly executed by yourself and sureties, in duplicate, you will be authorized to proceed with the work.

When returning these documents be good enough to state the date on which you will be prepared to commence operations, so that the Department's inspector may be present to mark out the site for the buildings.

All blanks in the enclosed documents will have to be filled in before being signed. The full names of yourselves and sureties, together with the place of residence and occupation is to be inserted in the bond and the affidavits must be sworn to before a Commissioner of the High Court of Justice. Should you prefer to obtain a security bond from a guarantee company the Department will accept the same in lieu of the one now sent you.

The Department would like you to give this matter your prompt attention so that the work may be proceeded with at once.

I beg to inform you that the expenditure for relief in the Williams Lake Agency has been very large. The issues of supplies seemingly were much in excess of what was required and the prices charged by merchants have not been satisfactory. The Department wrote Mr. Ogden on the subject on the 26th April, the 6th May and again on the 21st May. I enclose herewith for your information copies of the letters in question. Also copy of Mr. Ogden's reply of the 6th June (file 202242-6). A letter of general instruction on the subject is being sent to the Agent today. I think it well to send you a copy of the communication in question. Kindly look carefully into this matter at your early convenience. No- 366344

Ottawa June 25th,1910.

Sir,-

A letter has been forwarded to the Department in the interest of Blackwater Jimmy,Blackwater. It appears this Indian lives on a farmor ranch on the Blackwater River, he complains that the piece of land he has is too small for him and he wants it extended to a point down the river to include an Indian burying ground and extended up the River to take in some timber.

The information in the letter is not sufficient to decide whether Blackwater Jimmy is living on one of the Blackwater reserves or is simply squatting on a piece of land. Kindly look into the case carefully the first time that you visit the locality. I may say that if it should be your opinion that another reserve or an extension to the reserve should be made,you may temporarily plant stakes at two corners of the proposed lot of land,you should be careful not to include any adverse claims and the Indians should be made to understand that the land will not belong to him or his his band until you have been advised that the Department has been able to obtain it.

Please be careful to report in full all particulars in this or similar cases which may arise and send a sketch with your report showing as accurately as you can the location of the land desired; the Indian's name and the band to which he belongs should be also stated.

Blackwater Jimmy also complains that he had a meadow on Mud River and that he obtained location papers from Barnow,J.P. of Quesnel,B.C. for which he paid $10.00. Barnow told him to put his papers on the stakes on his meadow. He built three houses on the place and now some one had staked it. Please look carefully into this case and if you find that the Indian has been unjustly dealt with advise the Department in order that steps may be taken to obtain the land for him if possible. You should ascertain or place a value on the buildings and other improvements made by the Insian so that in the event of failing to obtain the land the Department may be in a position to demand payment for the improvements.

Sir,

In reply to your letter of the 10th instant,on the subject of relief for Indians of your Agency,I beg to say that seemingly you have not a clear understanding of the regulations of the Department with respect to the issue of food supplies to Indians. It is observed that you state you had many applicants for assistance,and while you refused some persons you have authorized the xxx issue of food in many cases. In every case where you did issue an order to a merchant the order should not have amounted to more than $4.00 or $5.00 ,and should have been only for one or two months. From vouchers recently received, as well as from those formerly sent in,it appears that certain Indians are supplied with provisions from month to month,and in are in fact regular pensioners upon the Government,being in receipt of regular supplies of rice,flour,tea and sugar. Such an arrangement must not continue. There may be exceptional cases but many of the persons referred to can not require continuous aid. During the summer months even the comparatively aged should be able to provide for themselves,provided that they are made to understand that they are expected to support themselves. Issues of tea,and sugar should be discontinued during the summer season. The fact that a woman is a widow is not of itself a sufficient reason that she should be aided. Many widows must be young enough to work for their livelihood. It is hoped that you will give this matter more carefuly attention

attention, bearing in mind that while no undue suffering should be allowed to exist that aid is not to be given unless actually required, and then only with discretion, and that every effort compatible with the requirements of the situation should be made by you to curtail the expenditure for relief.

Sir,-

I have the honour to acknowledge the receipt of your letter of the 20th instant and note that your Department can not consent to an Indian Reserve being laid out in the Township of McCallum on account of the said township being valuable for the timber thereon.

You state that your information is to the effect that the Indians living within the Temagami Forest Reserve are quite contented to be left as they are. Enclosed herewith is a copy of a letter from the Chief of these Indians,Francois Whitebear dated 2Ist ultimo; you will note that they are not at all satisfied or contented with their present position.

The grievance of these Indians is upwards of 30 years standing,it has been brought to the attention of the Department from time to time. Their claim to a tract of land to be set apart for their use is valid and very reasonable. It is regreted very much that the Provincial Government of Ontario has persistently refused the said just claim. I can only ask and again urge that the claims of these Indians be re-considered and that your Department will findlly decide to grant a reasonable tract of land to be set apart for the use af and benefit of the Temagami Band of Indians.

Sir,-

I beg to acknowledge receipt of your favour of the 18th instant advising the Department that one Maurice Sioui a member of the band had recently taken possession of a piece of reserve land at the rear of his holding on which he was erecting a building: that the Council had objected to this appropriation by Sioui and that a resolution was passed by the Council that notice should be given to the Superintendent of Indian Affairs to take the necessary proceedings to obtain a writ of possession.

I may state that the Department is in receipt of communication from Maurice Sioui stating that he required the additional space at the rear of his lot to enlarge his shop, that he thought he had a right to take this land as other manufacturers were allowed to extend their premises in this way, and has asked the Department to see that he is treated justly.

Before any action is taken the Department would be glad to have you state if this man's contention that others are allowed to encroach upon band lands with impunity is correct, and if so,why is this man discriminated against.

I may

I may state that the Department has advised Sioui that it does not appear why the Department should interfere with the action of the Council in this matter, but that we are asking you for a report on his complaint that he is discriminated against. We also stated that he should cease any building operations on this land.

Awaiting your report in this matter, I am

Gentlemen:-

Sales 638 to 644

I have to call your attention to letter addressed you on the 24th January last requesting payment of the second instalment of purchase money, principal and interest on the land purchased by you on the 16th December 1908 in the St Peters Reserve and as you have neglected to this date to pay this instalment I beg to say that the Department will grant you a further extension of 30 days from this date in which to make the payment.

The principal due is $988.70 and the interest will be computed on the unpaid balance at 5% from the date of the sale to the date on which you make the payment. The unpaid balance amounts to $3,986.16

This money being required for the use of the Indians the Department will be compelled if the same is not forwarded within the given time to cancel the sales covering your purchase and resume the land for further disposition without an additional notice being given.

Sir,-

In reply to your letter of the 18th inst., with further reference to the proposed sale of certain islands in the Georgian Bay, by tender, and requesting information as to Island No. 808, which has a small shanty erected thereon, and asking whether the Department knows if there is a squatter on this island and if there is likely to be difficulty in the event of a purchase, also if the island has been applied for, I may say that, as none of these islands now advertised for sale by tender have been in the market, and as they are being widely advertised in order to give all intending purchasers an equal chance, prior applications cannot be considered. Island 808 is included in this list.

As to the question of difficulty arising from squatters' improvements, the Department cannot recognize any claim of that nature in connection with the sale of these islands.

Sir,-

With reference to your first annual report received on the 16th ult., I have to make the following remarks.

It is evident that you have not understood the purpose of the three circulars that were sent you under one cover on Feb.16, last. The intention was that you should make out three separate returns as called for in the three circulars. Instead of doing this, you sent in a report in which you combined the subjects outlined in two of the circulars, and as a result the Department had to go to a good deal of trouble in picking out the information and re-writing your report.

If you will look at the three circulars again, you will see that the first states that you are required 'to prepare an annual report on matters in general connected with each of the Indian bands or reserves under your supervision'; while in the second circular requests you 'to transmit with your annual report, but not to form part thereof, a very brief recapitulation' (under certain headings named in the second circular). The third circular informs you clearly that 'the Department desires you to make a separate report on the Indian schools and education generally in your agency'.

Your attention is not drawn to this matter with any purpose of getting you to do anything further this year; but it is hoped that, when the circulars are sent you again next year, you will understand what is required of you.

I remain, your obedient servant,

You are hereby authorized to have the necessary proceedings taken under these Sections to have the girl placed in a suitable boarding school and the Department will pay $100.00 per annum for her tuition and maintenance. This is the highest amount allowed to any of the schools of this class in the Dminion and it is considered that it should be sufficient remuneration for her care.

Ottawa, June 28, 1910.

Sir,

Referring to that portion of your report for the month of February, last, in which you state that you object to other medical men being called in to attend the children in the Battleford Industrial school I beg to ay that the Principal of this institution and the Indian Agent have been informed that you, as the salaried medical officer of the Department, are the only one that should be called in to attend the pupils, and that it will not be necessary for the Principal to apply through the Agent for your services, when they are needed. The Department trusts that this will be satisfactory.

Rev. Sir,

I have to inform you that Dr. Macadam, who is the regularly appointed medical officer for the Battleford Industrial School, is to have full charge of the medical work in this institution and no other doctor should be called in to attend the pupils, unless in consultation with Dr. Macadam and at his request or during his absence from Battleford in a case of emergency. You will be good enough to bear in mind that so long as Dr. Macadam holds his present position these instructions are to be strictly complied with. The finances of your school are not in a shape to permit of the payment for medical attendance out of the per capita grant and, even if they were, the doctor appointed by the Department must have full charge of the medical work in connection with the school.

I may also add that Dr. Macadam's services are available at any time when necessity arises and you are at liberty to call on him without going throught the form of making an application through the Agent.

Your obedient servant,

Asst. Secretary.

Sir,

I beg to inform you that Mr. Henry Abetung, an Indian of the Shawanaga Band, claims the sum of $5.20 from Mr. W. A. Elias, teacher of the Shawanaga school, for services rendered by him as substitute during Mr. Elias' absence in March, 1909.

You will be good enough to make inquiries into this matter and state whether Mr. Elias admits this claim. I find on referring to Inspector Grand's report that an Indian unnamed was in charge of the school on the 11th of March of that year. You should inform Mr. Elias that he should not absent himself from or place a substitute in charge of the school without authority and from the tenor of Mr. Abetung's letter he was quite unfitted to act in that capacity. Be good enough to reply to this letter at once.

Sir,-

In reply to your letter of the 20th June, I beg to say that at the time of Mr. Neil McDougall's appointment as Indian Agent (of which he was advised on the 16th February 1906) he was referred to a letter addressed to his predecessor dated the 18th April 1904, in which the latter was referred to instructions which were addressed to his predecessor on the 28th February 1898. Mr. McDougall was told that these letters (copies of which I enclose herewith) would inform him as to his duties. He was also told that should there be any point on which he desired particular instruction, he should communicate with the Department.

Seemingly Mr. McDougall was written to for the first time on the 3rd April 1906, with respect to his cash book statements. A copy of the letter addressed to him is enclosed herewith. He was written to again on the 2 th April, also on the 18th January 1907. In the last mentioned letter he was told that the person who paid the money to him should always sign the coupon of receipt and that when he received money by mail, he should make a note to that effect on the coupon of receipt. He was told on the 17th May to promptly send in his cash-book returns for March and April of that year. I enclose copy of a letter of the 30th May 1907 inquiring why he did not issue receipts for the $4.00 which he received in March and pointing out to him that he should issue receipts for all

all moneys which he received and that the copy of his cash book should show the collections which he made. On the 5th November Mr. McDougall's attention was drawn to the fact that he had been negligent in sending in his Returns and he was told to attend to the matter at once. On the 19th January and again on the 1st February 1910 it was necessary to write to Mr. McDougall on account of his cash book returns. It is not thought necessary to send you copies of all the letters mentioned, but doubtless if you require to refer to them, you will find them of record in the Port Arthur office.

In May 1910,instructions were sent to the late Indian Agent Mr.E.Lorenz to make valuations of the Right of way and damages and of the Indian improvments thereon of the Grand Trunk Pacific Railway through a number of Indian Reserves. I have to request you to be good enough to forward the said valuations as soon as you can conveniently arrange to make them.

The said valuations as usual should consist of the value of the land taken including the damage that may be done to the reserve generally and separately the value of each individual Indian improvement on or affected by the said right of way. You should consult the Indians in this matter with the view of obtaining their concurrence,if possible, to such reasonable valuation as you may arrive at. Sir:-

I have to call your attention to communication addressed you on the 25th January last requesting payment of the second instalment of purchase money, principal and interest on your land purchased in the St. Peter's reserve on the 16th December 1908, and to advise that a further extension of 30 days from date will be allowed you in which to pay the sum due.

The principal as you are aware amounts to $15,00 and you will compute the interest on the unpaid balance of $60.00 at 5% from the date of the sale to the date on which you make payment.

If this amount is not forwarded within the given time the sale covering your purchase will be cancelled and the resumed by the Department for further disposition without another notice being given.

Sir,-

I beg to acknowledge the receipt of your communication of the 22rd instant, in regard to your application to use and occupy a portion of the Christian Island Indian Reserve, and in reply to say that it has been decided that you may continue to occupy this land during pleasure of the Department, compensation to be made therefor as may be arranged. I may say that I am communicating with the local agent to ascertain what compensation should be made for past occupation and what should be paid in future for the use of the premises. The Agent has also been instructed to advise the Indians that they are not to cut the pine trees in the vicinity of the property occupied by you. You may, therefore, enter into possession of your summer house at any time that you may deem advisable, on the understanding, of course, that compensation as arranged will be made.

I have to confirm the following telegram sent you on the 27th instant "Subdivide Keeseekoose into eighty acre lots on plan adopted by this Department."

You may accordingly plant posts between the quarter sections posts that if to say at every twenty chains on the North and South lines in the unsurrendered portion of the Keeseekoose Indian Reserve.

It is thought that the above may be sufficient for the purpose,if,however,it is especially desired you may run the blind lines and post them also. You should not run any of the side lines between lots as this would be too long and expensive an undertaking. The posts on the North and South road allowance and the posts on the blind lines should be sufficient to enable the Indians to run their own side lines.

I beg to inform you that a communication has been received from Mr. John Binnie, in regard to his occupation of a portion of the Christian Island Reserve, and in connection therewith beg to say that, on representations made, and in view of the length of time that the Indians have allowed Mr. Binnie to occupy the land in question without any objection, it would seem advisable that a permit should be issued to Mr. Binnie to occupy and use the land in question during pleasure, upon making such compensation therefor as may be considered fair and reasonable. I have, therefore, to ask that you to kindly report what you consider Mr. Binnie should be called upon to pay for occupation of the land from the time it was first entered upon up to the present time, and what he should be asked to pay each year during the continuance of his occupation. In reply I beg to say that Mrs. Martin and your mother would share equally in every portion of their father's estate, and that, until the property has been divided, Mrs. Martin cannot give a deed of any particular 12½ acres; all she could do would be to give a quit claim deed of her interest in the said estate, but this would not in any way prejudice the claim of your mother.

Enclosed herewith is a blue print copy of a plan showing certain lands in the Kitselas Indian Reserve,B.C. desired by the Grand Trunk Pacific Railway Company for the purpose of erecting a hotel thereon and for pleasure ground in connection therewith.

The area of the land is 17.66 acres. It consists of blocksmarked on the plan "Hotel site", "A,B and C." The total rental offered is $10.00 per annum subjedt to the condition that within five years the Company will expend the sum of $25,000.00. The lease is to run for 99 years.

I have to request you to be good enough to visit the locality and ascertain on what terms the Indians will be willing to grant the said lease. Be good enough also to report all the facts connected with the case and your own views on the matter. It may be possible that the lease of the proposed land may militate against utilizing at some future day the water power in the Canon. Mr. Templeman, and in reply to the statements made by you as to the attitude of certain of the Indians towards white settlers, I have to say that this Department has already endeavoured to impress upon the Indians that the conduct referred to cannot in any way be admitted in securing for them what they claim to be their rights.

The Department will instruct its Inspectors and Agents to advise the Indians against interfering with those whites who have taken up land under provincial authority.

The Department is aware that the conduct of the Indians in this matter is to a great extent due to the advice given them by those who claim to be acting in their interest, but who, it is evident, have their own ends to serve.

Sir,-

Chief Richard Woodhouse and three Councillors of the Fairford Indian Reserve have written to the Departmnt complaining that the Canadian Northern Rail ay has entered on their reserve and is clearing a right of way. The Company has been notified that if arrangements are not made at once for the proper acquisition of the right of way instructions will be sent to stop all works of construction and to eject the trespassers from the reserve.

The usual valuation of the right of way and of the Indian improvements,if any,will be required an I have to request you to furnish them as soon as you conveniently can. In making your valuations please confer with the Chief and his Council and any Indians especially interested with a view of obtaining their concurrence any such reasonable valuations as may be arrived at.

Sir,-

I have the honour to refer you to the question of the Right of way for a pipe line desired by your Company through the town plot of Kamsack,Cote Indian Reserve,Sask. and to say that the matter appears to have been lost sight of.

The Honourable David Laird informed the Department that it was intended to change the line of your pipe system so that it would coincide to better advantage with any future subdivision of the property by having it to pass along the proposed streets. Under these circumstances the matter was allowed to stand.

We have been advised that you have made application to the Department of the Interior for permission to divert water from the Assiniboine River at a point in township 29,R.32,W.I.M. within the Cote Indian Reserve and inquiry is made as to whether you have obtained the necessary right of way for the pipe line. I shall be obliged if you will be good enough to submit to this Department what you propose to do and in what manner your work will affect the Reserve lands.

Sir,-

The work of surveying in the Kenora and Savan
Agencies consists in re-tracing the straight boundaries of
practically the whole of the reserves in these Agencies.
Commencing at present with those reserves which the Indian A
Agent Mr.R.S.MacKenzie, Kenora,may consider to be the more
urgent. You will therefore require to consult with him
before commencing your work.

At the Agency there were a number of large iro
posts stored many years ago for the purpose of marking the
principal corners of the various reserves I have to request
you to use these as far as they will go. All other posts shou
be of iron if they can be obtained readily in Kenora. They
should be of the size used for the corners of Townships by
the Department of the Interior. In all cases they should be
mounded as provided for in the "General Instructions" a copy
Encl. of which is enclosed herewith.

All the lines should be well cut out and
carefully re-blazed. It is not necessary to make re-surveys of
any of the traverses except in some exceptional circumstances
which may occur. In this event you may use your own judgemn
but you should report the facts in full to the Department.

In separate parcels by mail there has been sent
you a number of blue print copies of plans showing the Reserve
in question,maps of the locality and also a copy of the report

of this Department for the year 1909; on page 91 you find the Agent's report on the several reserves which be of some assistance to you in the work. There is a enâlosed a schedule of Indian Reserves in the Dominion; will find the reserves you are to deal with are enumera pages 15 and 16 of the said schedule.

It is not intended that the boundaries of Lac Reserve shall be re-traced at present unless it is shown the work is urgently required as this is an extensive p of work.

An advance of $1000.00 will be made to you on ac of this work and on application. You will be good enough account generally for the expenditure of this when applyi for another advance. Any further instructions that you m require be good enough to apply for them and they will be furnished as soon as possible.

With reference to outfit an supplies I hwve to s generally that you should purchase what you require in the way of outfit and at the end of the season they will either be stored in the care of Mr.R.MacKenzie or you may sell th as may appear to be the more judicious. You should obt bills of sale and transmit them to the Department charging yourself with the proceeds in your account.

A large portion of your work will be more readily reached by water. It is thought that you will necessarily require a good boat, you should therefore supply yourself wi one either by purchase or rental.

All supplied for the maintenance of yourself and party should be purchased at current rates and vouchers in support of those should accompany your accounts. I may say that vouchers are required for every expenditure when the same can be reasonably obtained.

With Cheques.

Sir,

Referring to your letter of the 18th instant, I enclose herewith cheques Nos 1517 and 1528 in payment of the accounts therewith transmitted.

The Department desires that you will kindly explain what disposition you made of official cheque No 1528 drawn in favour of Mr D.C. McLaren. You should have returned it to the Department for amendment. The error in the cheque was due to the fact that Messrs Morris Bros' account was made out on Mr D.C. McLaren's bill form. Be good enough to reply promptly.

Sir,

Referring to your letter of the 20th. instant, I beg to state that the Department regrets that a clerical error was made in writing the cheque (No. 488.) for Mr. Farmer Perry's salary for April last. Instead of making the cheque to the credit of Mr. Perry it was made, by mistake, for "credit of Jas. Steinhauer". The Bank of Commerce is being requested to transfer the amount from the credit of Mr. Steinhauer to that of Mr. Perry.

Dear Madam,-

I have pleasure in acknowledging the receipt of your favor of the 13th. instant asking for information as to the primitive mode of greeting between North American Indians. I regret that my reply will not reach you before July 2nd., upon which date I note that the performance of Hiawatha is to be given. I may say, however, that as the Indians of this country are rather undemonstrative and phlegmatic their greetings are of the simplest nature. Handshaking was unknown before the coming of the whiteman, and a simple word of salutation, sometimes accompanied by a gesture, was all that passed. In the more ceremonial meetings of Chiefs where each Chief had his own position at the Council fire there was certainly nothing of obeisance as from one Chief to another.

As it might be of interest to you I am sending under separate cover a copy of a late work published by the Department - "People of the Plains" by Mrs. A. M. Paget. As Hiawatha was an Iroquois, it might also be well for you to consult "The League of the Iroquois" by Mr. Lewis H. Morgan, which is a standard work upon the subject.

Yours sincerely,

(Miss or Mrs.) Muriel Mountstephen,

With reference to your pay-list of the distribution of interest money to the members of the Roseau River Band for 1910, I have to inform you that whenever any members of a family are absent at the time of distributic their name should be allowed to stand on the pay-list and they should be shown as absentees, while their money should be returned to the Department with a letter of explanation.

In this connection I may remark with regard to No. 224 that further information is required. According to the pay-list 1 man, 1 woman, 1boy and 3 girls were paid (being the number paid at the previous distribution). The amount paid was $32.70 and $32.70 (3 shares) was not returned to the Department for absentees. Your note of explanation states why the two shares were returned, but it does not show why the third girl was not paid.

Whenever there is a change in a family in future, you should show the number in the decrease or increase column. If a person is transferred to another Band, there will be a decrease of one under one number and an increase of one under the other.

Right Reverend Sir,-

Your letter of the 20th. of May dealing with the establishment of day schools in the Rock Lake Agency has been received and given careful attention. A Petition has also been received from the Indians of Bourgy's and Shamattawa [illegible] for the establishment of day schools. Sir,-

In reply to your letter of the 28th instant regarding the pay-lists of the distribution of Robinson Treaty annuity to Indians of your Agency, I beg to say that last year (1909) Mr. West paid the following families Nos. 1, 9, 14, 18, 20, 24, 42, 52, and 53. Family No. 14 appeared on the 1909 pay-list but the remark 'dead' appeared opposite the number. Mr. West will make payment as he did last year to the persons above mentioned. The remaining families belonging to the Mississauga River Band will be paid annuity for 1910 by you. When preparing your pay-list, you should show thereon the above mentioned Numbers (including No. 18, opposite which you should write that the members of the family are dead) and you should indicate on the pay-list in the remark column that the families in question are to be paid this year by Agent West.

You should pay all the members of the Serpent River Band.

You should not place on the pay-list the boy and girl adopted by No. 18 of the last mentioned Band unless they are the legitimate offspring of some members of the Serpent River Band and consequently are entitled to receive annuity as members of that Band.

With regard to your statement respecting Nos. 10 and 11 of the Serpent River Band, I may say that the

Sir,-

I beg to inform you t hat Dr. W. C. Gilchrist of Orillia has asked the Department for permission to send to the Gravenhurst Sanitarium a young man named Hiram Johnston, who is stated to belong to the Georgina Island Band. The Department cannot locate the young man on the list and desires to learn whether he is a son of Isiah Johnston No. 31 on the pay-list. The case is a pressing one and, therefore, you should immediately reply furnishing full information. I may say that four persons are on the pay-list under No. 31.

Sir,

I have to acknowledge the receipt of your letter containing explanations with respect to the case of Peter Glode; and in reply I may say that your report with respect to the Indian, who apparently is not now in need of aid, is satisfactory, but the course which you have pursued cannot be so regarded. You should be aware that when the Department writes you in respect to any matter to which your attention is desired you should reply without delay, reporting your action if any. Because you knew that Glode did not need aid was no reason why you should not have informed the Department as to his condition, particularly after your attention was called to his case. The Department realizes that you may receive applications for assistance which is not required, and relys upon you to exercise your judgement with regard to the presentation at Headquarters of reports of deserving cases. But you should distinctly understand that you should promptly reply to all official letters, furnishing such reports as are called for. It is hoped that it will not be necessary to again point out to you that you you should, like other Indian Agents, comply with the regulations of the Department as indicated.

Sir,

In reply to your letter of the 20th May,I beg to say that the Departmet regrets to learn of the opposition shown by certain of the Indians of your Agency to the Department acquiring certain land on their reserve for the erection thereon of an Agency house. In view of this fact you should call a meeting of the members of the band (all males of 21 years and over) and lay the matter before them,explaining to them that the land is desired for Agency purposes only,and that the Department considers it will be in their interests to have you live on the reserve,where you will be near to them and can more readily than at present give them instructions in gardening, farming, etc,and thus help them to better their condition. You should make them clearly understand that if the land is sold to the Department it will not be used for any purpose other than that intended nor will sales to Whites be allowed. It is thought that if you speak pleasantly to the Indians ,placing the matter before them in a favourable light they will accede to the Department's wishes. You should do nothing which will arouse their antaganism to the scheme.

In reply to your communication of the 23rd instant, No. F 27, in regard to the quantity of land to be allowed to Joseph Boyer and George Bone of the Keeseekoowenin's Reserve, No. 61, under enfranchisement, I beg to say that, as this Reserve contains 5,600 acres, from which must be deducted the areas sold for right of way of the railway, about 20 acres, the total area for allotment, which does not include the Fishing Station, would be 5,580 acres, and as there are 120 members a in the Band, the allotment to each head of a family would be 46½ acres, so that George Bone would be entitled to be allotted for himself and his wife 93 acres, and Joseph Boyer for himself and wife and five children, 209 acres.

I beg to acknowledge the receipt of your favour of the 4th instant [illegible] to the Kemp claim. I note that Mr. Titus on behalf of Mr. Kemp had written you stating that he had received a letter from the Department saying that you would represent the Department in the matter of the claim and that the Department had consented that it should be referred to His Honour Judge Hewson to ascertain the remuneration which should be given to Kemp.

In reply I beg to say that the Department regrets that its letter to Mr. Titus was not more explicit. The Department received a letter from Mr. Titus suggesting that this matter in all its features be referred to His Honour Judge Hewson or the District Court. The Department replied to Mr. Titus that it had no objection to this course and that he might communicate with you with reference to an amicable reference of this matter.

I may say that what the Department had in mind when writing Mr. Titus was that as this claim particularly concerned your client, it should be ascertained if your client would be agreeable to the proposed method of adjustment. OTTAWA, 5th July, 1910-

Sir-

I beg to acknowledge the receipt of your letter of the 25th Ultimo, enclosing Return of Rents, and making requisition for return of same, regarding which I beg to enclose herewith a statement showing certain differences which, apparently, exist between the records here and those in your office, which I have to request you to be good enough to explain:

In the case of Nellie and Jennie Thomas, I may say that no such names appear among the original list, forwarded by you under cover of your letter of the 8th February last (File 101 281), but, on the other hand, the names Nellie Homer and Jennie Homer appear there and not in requisition above referred to.

There appears to be a discrepancy in the amounts asked for Jemima Sickles, Stephen Williams and Isaac Antone, which is shown on statement enclosed. Regarding Isaac Anton, according to your own statement he was to receive $145.00 and was paid $35.00, therefore, the sum of $110.00 is still due, yet you ask to have $95.00 returned in his favour. The amounts desired for Jemima Sickles and Stephen Williams, would appear to be incorrect, as also shown on statement enclosed.

Upon receipt of your report in this matter, the question of return of moneys will receive immediate consideration.

Sir,

The Rev. Principal of the Qu'Appelle Industrial School in a recent letter states that the floor in the stables should be replaced and also a considerable portion of the concrete wall. He furthermore says that an addition to the farm stable is needed, the house of the employees requires plastering and the floor of the doorway of the boys' and girls' playroom needs to be protected with iron plates. Some minor repairs, such as painting and kalsoming, have also to be made. Father Hugonard has not submmitted any detailed estimate of the cost, but states that the whole can be kept within the sum of $500.00.

It is considered advisable that these repairs should be left in your hands and I have to ask you to be good enough to make arrangements to have those you consider absolutely necessary carried out, the strictest economy to be exercised. As is usual the Department will only pay for the material and the authorities of the school will be expected to perform the necessar labour. A full report from you on the repairs made should accompany the vouchers.

Sir,

As you are aware arrangements have been made for the opening of a day school on the Assiniboine Indian reserve and the Department wishes to impress upon you the necessity for your taking a most active interest in the welfare of this school in order to assure success. There would appear to be no reason why a good day school on this reserve should not provide adequately for the educational wants of the Indians. An endeavour will be made to secure a competent teacher and if the Indians will only evidence sufficient interest there is little doubt that good results will be accomplished. The experience of the Department shows, however, that very much depends upon the interest taken by the Agent in educational work and it is hoped that the record of this school will be one creditable to your Agency.

You should visit the school at least once a week and make special reference to the work being performed in your monthly reports. You should also visit any parents who are negligent in the matter of sending their children to school, with a view to impressing upon them the advantage that will accrue from the education thus placed within their reach.

Your reports on this school will be awaited with interest.

There would appear to be no reason why a good day school on this reserve should not provide adequately for the educational wants of the Indians. An endeavour will be made to secure a competent teacher and if the Indians will only evidence sufficient interest there is little doubt that good results will be accomplished. The experience of the Department shows, however, that very much depends upon the interest taken by the Agent in educational work and it is hoped that the record of this school will be one creditable to your Agency.

You should visit the school at least once a week and make special reference to the work being performed in your monthly reports. You should also visit any parents who are negligent in the matter of sending their children to school, with a view to impressing upon them the advantage that will accrue from the education thus placed within their reach.

Your reports on this school will be awaited with interest.

Sir,-

I beg to inform you that the Department has received from Mr. Stevens of the Victoria Office your letter of the 8th April addressed to that office in regard to the installation of the water work system at the Skidegate village. Owing to Mr. MacLaughlin's illness the letter was not forwarded here until recently. I enclose herewith copy of a letter of today's date which has been written to the new Agent, Mr. Deasy in the matter. You should furnish him with any information which you may possess bearing on this matter witha view to his taking the necessary action in connection therewith. I may say that is is observed that you state in the letter of the 8th April above mentioned that the non-performance of the work was due to hhe fact that the Indians suspected " a ground glass scheme". This phrase I may say partakes of the nature of a slang expression and is not thoroughly intelligible to the Department. I shall be glad if you will kindly explain exactly what you meant by the expression

Sir,-

With reference to your communication of the 6th instant, I beg to say that the Department does not consider it advisable to authorize expenditure from the funds of the Metlakatla Band for the purchase of uniforms for members of the brass Band. Past experience goes to show that it is not advisable to furnish uniforms under such circumstances. In cases where they have been allowed it has been found that the Indians who received them wore them on ordinary occasions instead of using them only when on duty as members of the Band. By letter of even date, the Department has written you with respect to the erection of a band stand.etc.

In reply to your letter of the 6th ultimo, I beg to say that the Department proposes making application for the issue of an Order-In-Council authorizing the expenditure necessary for the erection of a side-walk such as the Indians of the Metlakatla Band desire to have erected near their village. The Department also proposes asking that the Order-In-Council in question give authority for the erection of a band-stand. The expenditure, if allowed, will be charged to the Capital funds of the Metlakatla Band. No action in the matter should be taken until you are again written to. Referring to your letter of the 24th instant, I enclose herewith cheque No 142 for $7.75 in favour of Dr Verret in payment of his account for professional services rendered Indi of your Agency during the absence from home of Dr Leclerc . Although the Department has paid this account you should give both physicians to understand that the Department does not propose to consider the payment of accounts which may be submitted in future for services rendered under similar circumstances. Dr Leclerc is paid a salary to attend the Indians of your Agency,and when he is ~~absent~~ called from home on business not connected with the Indians,and when his absenc is likely to extend over twenty four hours,he should make a rrangements before leaving to have his Indian patients attend if necessary by a physician during his absence. The Department while paying Dr Leclerc a salary to attend the Indians can not continue to pay accounts from other physicians. Sir,-

With reference to the petition of the 17th May last, addressed by certain of the women and warriors of the Six Nations to His Majesty the King, and in which reference is made to a treaty said to contain the provision that no law would be passed to change the system of government of the Six Nations; I have the honour to report that the Department is unaware of the existence of any such treaty.

It may be said, however, that the Dominion Government adheres to the position heretofore taken by it with regard to the matter, and of which the Six Nations have been informed, that it is the wish of the Government that the people of the Six Nations should themselves decide all matters covering their local government, and, that, until it was shown either that the present system was evidently and seriously damaging the interests of the Indians or that the band were desirous of a change in the system of elective chiefs, the Government would not move to bring about such a change.

Regarding the Delawares residing on the Six Nations reserve, it may be said that their adoption

into the Nation was a voluntary act on the part of the Six Nations, and they have for such a length of time exercised the right accorded them that the Government does not consider that it would be justified in taking any action for their removal from the reserve or for depriving them of the privileges extended to them by those with whom they have been so long associated.

As regards expenditure for the hospital for medical attendance and medicine, it is evident that the petitioners are under a misapprehension. There are 4,402 Indians on the pay-list, and the last semi-annual distribution of interest money was at the rate of $2.75 per head. The total net cost to the Six Nations for the hospital for the fiscal year ending March 31, 1910, was $394.31, and for medical attendance and medicines $3150.00, or a total of $3544.31, being at the rate of 80 cents per head, or 40 cents per head on the half-yearly distribution. If, therefore, the expenditure against which the petitioners complain had not been made, the half-yearly distribution would only have been increased to $3.15 per head, and not to $15.00, as stated by them, and they would have been without this medical attendance and hospital service.

The Indians of James Seemum's Band No.I28 have cut hay f r a number of years on the following lands viz:- All of Section 3,Tp.63,R.I3,W.4.M. and the North½ of Sec.34, Tp.62,R.I3,W.4.M. As these lands are situated close to the Indian Reserve and it appears that they are not liable to be taken for settlement it has been suggested that the said lands should be reserved for these Indians. I shall be obliged if your Department can see its way to make the necessary reservation.

It is also desired that the West ½ of Sec.6,Tp.6I R.I2,W.4.M. be reserved for the use of this Department. It appears that there is no hay on the reserve at Whitefish Lake and that the farmer in the employ of this Department is obliged to cut what he requires on the said half section. Kindly advise me if these reservations can be made.

Chief,-

In reply to your letter of the 20th ultimo I have to say that the Department is not in a position to give you any further information than that already furnished you as to the date when the claim of the British Columbia Indians to lands in that province will come before the courts.

The Department has, as you have already been informed, noted what you have to say as to the desire of the Indians to be represented at the trial, and has also instructed Mr. Indian Agent Perry to inform you of the reply which the Department of Justice desired to have conveyed to you on this subject.

In reply I beg to say that the Department is pleased to see that the institution continues to be conducted in an efficient manner. In view of your recommendation you are hereby authorized to have the following repairs undertaken.

The Department will supply material to the extent of $2300.00 for the erection of a suitable bank barn; $50.00 for a root house and $250.00 for the minor repairs and fencing necessary, and you may also arrange for the roofing of the Principal's house and the girls' home with Carey's Magnesia Flexible Cement Roofing, which you estimate will cost approximately $225.00.

Forty new desks may also be provided. These are presumably double desks and, if possible, should be of the kind known as double separate. It may take a little longer for a local dealer at Edmonton to obtain these, but they are ~~very much~~ preferable to the old style.

The matter of providing new laundry building and equipment will have to remain in abeyance for the present.

At Mr. Inspr. Graham's request there is being sgipped to you, to Qu'Appelle Station, freight prepaid, by Messrs. H. N. Bate & Sons, 1000 lbs. of Tea put up in one pound lead packages for Muscowpetung's and Pasquah's bands of Indians (500 pounds for each Band) and the cost will be charged to the Interest Funds of these Indians. The Tea costs .22¢ per pound here with freight to pay. You should see that each Indian gets his share.

None is sent for Piapot's Band as they have no interest funds and if they desire a consignment, it will only be sent upon a guarantee being received from you that the cost will be collected from the Indians and forwarded here before the close of the fiscal year.

Sir,

Referring to your letter of the 13th. ultimo, I beg to state that the Department has accepted the offer of the Waterous Engine works Co. to exchange the engine and boiler at the Agency on the terms mentioned in the Company's letter of the 30th. May last, but with the addition that the boiler will be lagged as suggested by you. The additional price for lagging is $75.00

The freight on the new engine and boiler is to be paid to Lloydminster by the Waterous Engine Works Co. as also the freight back to Winnipeg on those returnad in exchange.

The Company would like to have the machinery returned at once and you should have it put on a car and shipped. It should be billed to the Company in Winnipeg and care should be taken to mark the billing "returned for repairs".

The new engine and boiler are being constructed but the Company has not yet advised the Department as to when they will be shipped.

I beg to acknowledge receipt of your letter of the 25th ultimo reporting the sum of $70.00 having been found by an Indian and that as yet an owner has not been found; and in reply to say that it should be carried in your cash until such time as no chance exists of the owner turning up. If no one should claim it and it cannot be established that it is a portion of the deficit in your own cash it properly belongs to the Indian who found it.

The Department also notes that there is a deficit in your own cash of $96.00 and that you suggest an investigation be held. This, however, cannot be done at present as there is no official available for the purpose. Mr. Swinford is at present in southern Alberta and it will be some time before he reaches North Saskatchewan. If you should fail in the meantime to trace the deficit or discover an owner for the money found, the matter should be brought to Mr. Swinford's notice upon his arrival and he will investigate and report to the Department when the matter will receive further consideration.

Referring to official letters of the 2nd instant in connection with the erection of new school buildings at Hartley Bay and Bella Coola in your Agency I beg to say that the Department does not consider it advisable to formally call for tenders for either of these buildings owing to the delay that would be unavoidable. The better plan would appear to be for you either to let the contract to some reliable man who will do the work within the sum specified, viz.- $1000.00, or else to have it done by day labour, as is proposed at the Bella Coola school. In either case the Department will expect you to see that the workmanship is satisfactory and the building completed in a creditable manner.

$330.10 was collected as fees from patients treated in the Hospital, therefore the total cost to the Band for maintenance of the Hospital during the fiscal year above mentioned, was only $394.31.

The following statement, compiled from the returns received at the Department, shows the number of cases treated during 1909 and up to the end of May 1910. You will observe that of 151 patients admitted to the Hospital 98 were tubercular cases. After carefully looking into the matter you should report what proportion of the tubercular cases on the reserve have been treated in the hospital. It is only by obtaining such information that the Department can ascertain whether the Institution is meeting the full requirements of the situation as it was established principally with a view to over-coming the ravages of tuberculosis on the reserve. You should also state whether any cures of this disease have been effected.

Right Reverend Sir,

I have the honour to acknowledge the receipt of Your Lordship's letter of the 25th ultimo in reference to the transfer of a pupil from the Peigan (R.C.) Boarding to the St. Joseph's Industrial school.

In reply I beg to say that the object of the Department in asking for the medical certificates in the cases of pupils for whom transfer is asked to industrial schools is to have assurance that they are in a satisfactory state of health and able to take advantage of the training in farming which they will receive and which is the assigned reason for asking that they be given a few years at the larger institution.

In the case of the boy Shining Double of the Peigan school a report received last year shows that he was well developed and healthy and in view of the difficulty experienced by the Principal in obtaining the services of a physician the transfer has been granted. Arrangements will also be made for systematic visits to the school of the physician lately appointed and it is hoped that in future there will be no trouble in obtaining without any serious delay the necessary certificate.

I may add for Your Lordship's information that the Principal of the Ermineskins school lately applied for a

Rev. Sir,

Referring to correspondence in connection with the transfer of Ensebe Shining Double from the Peigan (R.C.) Boarding to the St. Joseph's Industrial school I beg to say that the wish of the Department was to have this boy medically examined before leaving your school, not after his transfer to St. Joseph's.

The report made by Doctors Bryce and Lafferty has been consulted and shows him to have been well developed and healthy last year and, in view of the difficulty experienced by you in procuring the services of a physician, it has been decided to grant the transfer.

Arrangements will be made for systematic visits to your school by Dr. Gillispie and in future it is hoped you will be put to no inconvenience in obtaining a certificate for any child you may wish to transfer.

Sir,-

I beg to inform you that for more than a year Dr. H. A. Christie, of Lillooet, B. C. has attended certain INdians of the Williams Lake Agency, and he has been paid on accounts for the services rendered. In March last the Agent, Mr. Ogden, was asked to report the names of the bands, and the number in each band attended by the Doctor. The Agent was also asked to state the distance which each band is located from the doctor's office. This information was desired with a view to the consideration of the question of placing the doctor on salary. I enclose herewith for your information copy of Mr. Ogden's report, dated 11th June.

The Department desires that you will arrange, as soon as possible to visit the Agency, and that you will when there look very carefully into the matter, in order that you may furnish a full report and recommendation to the Department.

For the 12 months ended 31st March last Dr. Christie's accounts amounted to $618.35, or an average of $51.52 per month. You should state whether you consider too frequent attendance was rendered, and also whether, in the event of an appointment being made on salary, the expenditure might be reduced. You should name what you would consider a fair rate of remunderation. The Agent, you

Sir,

With reference to letter of the 8th. of June in which you were informed of your appointment as Inspector of Indian Agencies in the Province of British Columbia, I beg to give you instructions for the performance of your duty, which may be added to from time to time as occasion demands. Your appointment is made to facilitate the transaction of Indian business in the Province and to secure a better control over Indian Affairs. You are expected to give your whole time to the discharge of your duties. The Agencies in your Inspectorate as at present organized are as follows:- Kootenay, Okanagan, Kamloops, William's Lake and Stuart Lake.

You should visit and inspect these Agencies not less than twice a year and no doubt special instructions or investigations will lead you to visit them at more frequent intervals. It will be your duty to inspect the Agency Offices and see that the correspondence is properly copied and indexed and that all papers are carefully and systematically arranged; that all financial matters are brought to record in books of account and that no cash is retained in the hands of the Agent. After each general inspection you should forward a full report to the

to the Department.

In addition to this inspection of the offices yo should inspect the reserves wherever it is possible to do and assure yourself that the Agent is carrying out the instructions delivered to him (a copy of which you will find herewith enclosed).

You should endeavor by all means to gain the confidence of the Indians who should be treated with considerate patience and who should learn that they have in yourself, as official of this Department, an officer whose sole interest is to protect them in the enjoyment of their rights, to improve their condition, and to assist them in their progress towards complete civilization. At the same time you should endeavor to abate any irrational demands that may be made in any direction and influence the Indians in their relations wi their white neighbours to be reasonable and peaceable, and it is not expected that you should support the Indians in any claims which could not be legally supported or which are contrary to their best interests or in opposition to the traditions or usages of the Department.

You should obtain the fullest first hand information as to the location of the Reserves and any assets of natural value thereon such as timber, &c., &c. You should assure yourself that the rights of the Indians to these Reserves are being respected by the neighboring white people and report fully as to any cases of trespass. You should not permit the Agents or the Indians to enter into bargains for the occupancy or sale of their lands or timber or for the rental of privileges on the reserves; such agreements must be entered into only in accordance with the provisions of the Indian Act.

While it is not the policy of the Department to issue supplies to Indians it is desired that no suffering amongst the aged or infirm or those who have no natural protectors should exist. The Agents have authority to issue relief in such

such cases and you should see that the instructions are followed.

It is thought to be most important that the sanitary condition of the villages and houses should be improved and you should work with the Agents in presenting constantly to the Indians the necessity of keeping their houses as clean as possible. The condition of any temporary accomodation for Indians at canneries or other centres of industry should also receive your attention and you should urge upon the owners the necessity of improving such accomodation if you find it insufficient or unsanitary.

A considerable sum is spent each year on the provision of medical attendance, medicines and Hospital accomodation for the Indians. You should acquaint yourself with the names and localities of the physicians in receipt of salary from the Department, or authorized to present bills for attendance given and the location of Hospitals. It should be your first care that these physicians give proper services to the Indians and that the Hospitals render the necessary attention to their Indian inmates.

Particular attention must also be paid to the education of the Indians and to the operations of the Day, Boarding and Industrial Schools throughout the Provinces. You should inspect these institutions whenever possible and report from time to time.

The Agents have been requested to forward through your office their monthly reports and you shoudd transmit them without delay and with whatever comments you may think it advisable to make.

You should make yourself thoroughly familiar with the Regulations for the disposal of Indian lands, Timber and Minerals, a copy of which is also enclosed herewith.

In closing these general instructions I have again to draw you attention to the purpose of your appointment which is to

Ottawa, July 4th., 1910.

Sir,-

With reference to letter of the 8th. of June in which you were informed of your appointment as Inspector of Indian Agencies and Reserves in the Province of British Columbia, I beg to give you instructions for the performance of your duty, which may be added to from time to time as occasion demands. Your appointment is made to facilitate the transaction of Indian business in the Province and to insure a better control over Indian Affairs. You are expected to give your whole time to the discharge of your duties. The Agencies in your Inspectorate as at present organized are as follows:- New Westminster, Cowichan, Kwawkwith, Lytton and West Coast.

You should visit and inspect these Agencies not less than twice a year and no doubt special instructions or investigations will lead you to visit them at more frequent intervals. It will be your duty to inspect the Agency Offices and see that the correspondence is properly copied and indexed and that all papers are carefully and systematically arranged; that all financial matters are brought to record in books of account and that no cash is retained in the hands of the Agent. After each general inspection you should forward a full report to the Department.

In addition to this inspection of the offices you should inspect the reserves wherever it is possible to do so and assure yourself that the Agent is carrying out the instructions delivered to him (a copy of which you will find herewith enclosed.)

You should endeavor by all means to gain the confidence of

W. E. Ditchburn, Esq.,
Inspr. of Indian Agencies,
Victoria, B.C.

the Indians who should be treated with considerate patience and who should learn that they have in yourself, as an official of this Department, an officer whose sole interest it is to protect them in the enjoyment of their rights, to improve their condition, and to assist them in their progress towards complete civilization. At the same time you should endeavor to abate any irrational demands that may be made in any direction and influence the Indians in their relations with their white neighbors to be reasonable and peaceable, and it is not expected that you should support the Indians in any claims which could not be legally supported or which are contrary to their best interests or in opposition to the traditions or usages of the Department.

You should obtain the fullest first hand information as to the location of the Reserves and any assets of natural value thereon such as timber, &c. &c. You should assure yourself that the rights of the Indians to these Reserves are being respected by the neighboring white people and report fully as to any cases of trespass. You should not permit the Agents or the Indians to enter into bargains for the occupancy or sale of their lands or timber or for the rental of privileges on the reserves; such agreements must be entered into only in accordance with the provisions of the Indian Act.

While it is not the policy of the Department to issue supplies to Indians it is desired that no suffering amongst the aged or infirm or those who have no natural protectors should exist. The Agents have authority to issue relief in such cases and you should see that the instructions are followed.

It is thought to be most important that the sanitary condition of the Villages and houses should be improved and you should work with the Agents in presenting constantly to the Indians the necessity of keeping their houses as clean as possible. The condition of any temporary accommodation for Indians at canneries or other centres of industry should also receive your attention and you should

urge upon the owners the necessity of improving such accommodation if you find it insufficient or unsanitary.

A considerable sum is spent each year on the provision of medical attendance, medicines and Hospital accommodation for the Indians. You should acquaint yourself with the names and localities of the physicians in receipt of salary from the Department, or authorized to present bills for attendance given, and the location of Hospitals. It should be your first care that these physicians give proper services to the Indians and that the Hospitals render the necessary attention to their Indian inmates.

Particular attention must also be paid to the education of the Indians and to the operations of the Day, Boarding and Industrial Schools throughout the Province. You should inspect these institutions whenever possible and report from time to time.

The Agents have been requested to forward through your office their monthly reports and you should transmit them without delay and with whatever comments you may think it advisable to make.

You should make yourself thoroughly familiar with the Regulations for the disposal of Indian lands, Timber and Minerals, a copy of which is also enclosed herewith.

In closing these general instructions I have again to draw your attention to the purpose of your appointment which is to obtain better Indian administration in the Province, and I have to request that you will, while acting in all matters with judgment, espouse the cause of the Indians and act as their friendly adviser and helper upon all occasions.

Your obedient servant,

Secretary.

Referring to your letter of the 11th Sept.last and previous correspondence relating to the Right of way of the Skeetosh Water Works and Power Co.Ltd. across the Deadwood Creek Indian Reserve,B.C. I beg to inform you that under date July 9th 1908 Mr.A.W.Vowell,the then Indian Superintendent for B.C.,was instructed to the effect that the said Company should file in this Department a correct plan of the location of the said ditch and of the land occupied in the said Reserve. It is presumed that Mr.Vowell duly communicated this matter to the Company; I have now to ask you to be good enough to have the said plan prepared and forwarded to the Department as soon as the Company can conveniently have the survey made.

Sir,-

With reference to letter of the 8th. of June in which you were informed of your appointment as Inspector of Indian Agencies and Reserves in the Province of British Columbia, I beg to give you instructions for the performance of your duty, which may be added to from time to time as occasion demands. Your appointment is made to facilitate the transaction of Indian business in the Province and to insure a better control over Indian Affairs. You are expected to give your whole time to the discharge of your duties. The Agencies in your Inspectorate as at present organized are as follows:- Queen Charlotte, Bella Coola, Nass River, Stikine and Babine.

You should visit and inspect these Agencies not less than twice a year and no doubt special instructions or investigations will lead you to visit them at more frequent intervals. It will be your duty to inspect the Agency Offices and see that the correspondence is properly copied and indexed and that all papers are carefully and systematically arranged; that all financial matters are brought to record in books of account and that no cash is retained in the hands of the Agent. After each general inspection you should forward a full report to the Department.

In addition to this inspection of the offices you should inspect the reserves wherever it is possible to do so and assure yourself that the Agent is carrying out the instructions delivered to him (a copy of which you will find herewith enclosed.)

You should endeavor by all means to gain the confidence of

T. W. Woolands, Esq.,
Inspr. of Indian Agencies,

the Indians who should be treated with considerate patience and who should learn that they have in yourself, as an official of this Department, an officer whose sole interest it is to protect them in the enjoyment of their rights, to improve their condition, and to assist them in their progress towards complete civilization. At the same time you should endeavor to abate any irrational demands that may be made in any direction and influence the Indians in their relations with their white neighbors to be reasonable and peaceable, and it is not expected that you should support the Indians in any claims which could not be legally supported or which are contrary to their best interests or in opposition to the traditions or usages of the Department.

You should obtain the fullest first hand information as to the location of the Reserves and any assets of natural value thereon such as timber, &c. &c. You should assure yourself that the rights of the Indians to these Reserves are being respected by the neighboring white people and report fully as to any cases of trespass. You should not permit the Agents or the Indians to enter into bargains for the occupancy or sale of their lands or timber or for the rental of privileges on the reserves; such agreements must be entered into only in accordance with the provisions of the Indian Act.

While it is not the policy of the Department to issue supplies to Indians it is desired that no suffering amongst the aged or infirm or those who have no natural protectors should exist. The Agents have authority to issue relief in such cases and you should see that the instructions are followed.

It is thought to be most important that the sanitary condition of the Villages and houses should be improved and you should work with the Agents in presenting constantly to the Indians the necessity of keeping their houses as clean as possible. The condition of any temporary accommodation for Indians at exhibitions or other centres of industry should also receive your attention and you should

urge upon the owners the necessity of improving such accommodation if you find it insufficient or unsanitary.

A considerable sum is spent each year on the provision of medical attendance, medicines and Hospital accommodation for the Indians. You should acquaint yourself with the names and localities of the physicians in receipt of salary from the Department, or authorized to present bills for attendance given, and the location of Hospitals. It should be your first care that these physicians give proper services to the Indians and that the Hospitals render the necessary attention to their Indian inmates.

Particular attention must also be paid to the education of the Indians and to the operations of the Day, Boarding and Industrial Schools throughout the Province. You should inspect these institutions whenever possible and report from time to time.

The Agents have been requested to forward through your office their monthly reports and you should transmit them without delay and with whatever comments you may think it advisable to make.

You should make yourself thoroughly familiar with the Regulations for the disposal of Indian lands, Timber and Minerals, a copy of which is also enclosed herewith.

In closing these general instructions I have again to draw your attention to the purpose of your appointment which is to obtain better Indian administration in the Province, and I have to request that you will, while acting in all matters with judgment, espouse the cause of the Indians and act as their friendly adviser and helper upon all occasions.

Sir,-

I am writing you with reference to a charge by Jean Feron, Esq., for $2.50 for services in connection with the prosecution of Abraham Nicolas at Oka, as explained by Mr. Joseph Perillard in his letter to you of the 25th ultimo, copy of which we have on file.

I note that the explanation given by Mr. Perillard for $1.00 of his charge is for copies of the proceedings which justices of the peace are required to furnish to the registrar of the district. The Department is not aware of any returns required except the quarterly returns mentioned in Section 1133 of the Criminal Code, 1906, and these appear to be required of the justice in the course of his position as magistrate, for which no fee appears to be provided.

The explanation of the charge of $1.50 is that this was for Mr. Feron as clerk, for which no fee appears to be provided by the Code.

I may say that in taxing the fees of magistrates, constables and witnesses the Department is guided by the tariff provided by Section 770 of the Criminal

Code, 1906, and it does not appear how the Department can depart from that tariff, as it states that the fees therein stated, and no others, shall be and constitute the fees to be taken on proceedings before justices under that part.

It does not appear, therefore, to the Department that this fee of $2.50 can be allowed.

Sir,

2 I have to acknowledge the receipt of your letter of the 9th ultimo in further reference to the erection of a new school-house at Skidegate.

In reply I beg to say that the Department has just received a letter from Mr. Perry in which he states that the building referred to by him in conferring with you was that it is proposed to erect at North Island for the Massett Indians. The Department would, therefore, like you to take up at your first convenience this matter in accordanne with the instructions given you in letter of May 26th, last.

Ottawa, July 7th., 1910.

Sir,-

In reply to your letter of the 27th. of June I regret that you have been unable owing to illness to fully consider the question of your transfer to headquarters. The abolishment of the Indian Office at Victoria was merely the final action to complete the centralization of Indian business in Ottawa. Previously the Indian business of the Provinces of Manitoba, Saskatchewan and Alberta had been gradually directed to headquarters and a few years ago the Indian Commissioner's Office at Winnipeg was done away with. It was possible that in making such a radical change the personal interests of some of our officers might suffer.

It is desired to make use of your knowledge gained in the Indian Office at Victoria for transacting the same class of business at Ottawa and the purpose in transferring you here would be defeated if a person uninformed on these subjects were to receive the transfer, provided it were possible to carry out such an arrangement.

The reference to the terms of your appointment has been noted. The position of all officials of the Government who are permanently appointed by Order-in-Council are subject to change by the same authority, and your treatment has therefore been strictly in accordance with the usage in cases where officials are transferred to other spheres of duty or where their offices are abolished. It is regretted that from personal reasons you are disinclined to accept

the transfer and under the circumstances the best that can be done is to keep you upon the Pay-list until the end of the fiscal year unless you find a position elsewhere in the meantime. In any event you will be paid for three months from the time when all service for the Department ceases. As there are no positions now available in British Columbia in the Indian service which you could be offered the present arrangement seems to be the only one open.

Sir,-

I have to transmit the following instructions for your guidance as Acting Indian Agent : -

The reserves set apart for the Indians under your charge and their extent and the number of each band will be seen by reference to the Annual Report for 1909, pages 28 to 31.

One of your most important duties will be the protection of the reserves and the timber and other valuables thereon from trespass; and, to enable you to carry out the law in this and other respects as regards the Indians under your charge, you should make yourself thoroughly acquainted with the provisions of the Indian Act, a copy of which will be forwarded to you. You should act promptly in ejecting all those who are not entitled to reside upon the reserve, and not allow any such to establish themselves thereon, and, in cases of doubt arising, you had better communicate with the Department forthwith.

In the event of any matter coming to your notice which may necessitate the employment of a lawyer, it will be necessary for you, under existing regulations,

before seeking legal advice or assistance to communicate the facts to the Department, with a view to the necessary instructions being given by the Department of Justice to its agent, and the accounts of any counsel, advocate or solicitor will not be paid unless he has been instructed or retained by authority of that Department.

It is the earnest desire of the Department that the Indians of your agency may be advanced as rapidly as possible in the arts of civilization, and it will be your duty by advice and practical instruction to endeavour to accomplish this object. You should accordingly encourage the Indians, by every means in your power, to give up their nomadic habits and to take to cultivating the soil, and where practicable you should instruct them in regard to seeding their land and reaping their crops, and in fencing and building and the keeping of their premises in good order. You should also give them advice in respect to their animals' being properly housed and cared for during the winter.

Every encouragement should be given Indians who are not engaged in farming to at least lay out and cultivate gardens in which they can grow corn, potatoes, turnips and other vegetables for their own consumption.

The prevention of intemperance among the Indians you should also use your utmost endeavours to effect by advising them constantly against the use of intoxicants and bringing to justice any person who may credibly be reported as having furnished or who may of your own knowledge have brought liquor to the reserves, or who may have had it in his possession thereon.

In cases of sick and aged members of a band or orphans and widows who are unable to work and no means sufficient nor friends able to support th... Department would be willing to supply funds or ...

the actual necessaries of life in such cases as you may think deserving of assistance, upon the facts being fully represented by you, accompanied by a Resolution, if possible, from the Indian Council requesting that the relief be given. Such grants must, however, be considered as altogether exceptional, as the Department is of the opinion that a too-ready practice of giving assistance to Indians only tends to pauperize them, and prevents them from becoming self-supporting. They must be made to rely as much as possible upon their own exertions to obtain a livelihood. Should the Indian Council in any case of destitution refuse to vote money and you are of the opinion that the case is one that should be relieved by the Department, you should report all the facts, so that the Department may use its discretion in the matter.

You will be charged with the duty every summer of distributing among the Indians the moneys to which they are entitled under the Robinson Treaty, Treaty Nine, and any other moneys to which the Indians may be entitled that may be sent you from time to time. In any case of absenteeism from the payments you will return to the Department the moneys unpaid with a list showing the names of the persons not paid and the amount due to each. Should any Indian, however, be desirous of having his annuity paid to another Indian he must deposit with or forward to you a Power of Attorney or order authorizing you to make such payment. The Department will not sanction the acceptance of orders on merchants or be in any way a party to, or be concerned in, any arrangement under which an Indian may incur debts on the faith of his [illegible] the same by the transfer of his annuity or [illegible]

also transmit, if so requested by an annuitant in writing, his annuity money by post in a registered letter on condition that you append to the Pay List a certificate of registration, the authority under which the money was transmitted and the receipt of the parties to whom it was sent. In connection with the discharge of this duty you may find that many of the Indians are not living on their reserves; the documents on file in your office will, no doubt, contain full information as to the place where all the Indians were when the last payment was made. As little time as possible should be lost in transmitting the Pay Lists to the Department. Opposite the name of each payee his signature should appear as an acknowledgment by him that the amount shown was received by him. The Pay Sheets should be certified by the Chiefs, and attached thereto should be a statutory declaration on the forms which will be supplied you, stating that the Pay Sheets are correct.

With regard to the collection and receipt of public moneys by you you are required by the regulations of the Treasury Board to make a daily deposit if the receipts amount to $25.00, otherwise, whenever that sum is on hand. The deposit should be made in a chartered bank to the credit of the Receiver General on account of Indian Funds, and certificates of deposit and draft should be sent to the Department at the end of each month, attached to the returns to which they relate, and you should issue a receipt from the book of forms, which, no doubt, you will have received from the late Agent, for every payment made to you; and you should furnish the Department at the end of each month with a duplicate copy of your cash book, showing the cash transactions for the month on the forms provided for that purpose, to which you should attach the coupons for the Auditor General of the receipts issued.

Should a receipt form be spoiled and not issued you should attach it also. All accounts transmitted to the Department for payment should be made out on or attached to the forms supplied for the purpose, and should be in duplicate and certified by you. No expenditure should, however, be incurred that has not first been authorized by the Department. At the end of each quarter you will be required to transmit in duplicate your account for contingencies, such as postage, etc., on the form provided for the purpose.

Encl. All accounts should contain full details and be made out on the forms of which a supply is sent herewith, and they must be supported by vouchers. At the same time, but not under cover of the same letter as any other document, you will forward a requisition, also on the proper form, for the salaries payable to parties in your agency, and upon receipt of such a requisition cheques will be sent you to pay the amounts due; your own salary will, however, be paid monthly, if you so desire, without a requisition.

The education of the Indian children, for which the Department has afforded facilities, should form the subject of constant advice to the Indians, and you should bring all the influence you can to bear on them to send their children regularly to school, and whenever an opportunity presents itself you should inspect the schools and note any irregularities which may come under your notice or any neglect on the part of the teachers to afford instruction to the pupils, and should you consider any change in the books or repairs to the school necessary you should submit the same to the Department for consideration. At the end of each month you will be expected to forward

Encl. to the Department a report on the form, a supply of which is sent you herewith, and at the close of each quarter you should carefully examine and certify to the correctness of the teacher's returns in so far as it is possible for you

to do so, and transmit them to the Department accompanied by a requisition for payment of the teachers' salaries on the form of which a supply is also sent. There are seven schools within your agency. A statement of the schools and their location will be found in the Annual Report at the pages above referred to.

You will be called upon to furnish for publication not later than March 31 in each year, an annual report on affairs in your agency, together with a statement of the produce raised and of the property of various kinds owned by your Indians. A form for the latter will be supplied at the proper time, and the same should be filled up with great care and accuracy. You will also be required each year, before March 31, to take a careful census of your Indians, and to make a return on the form of which a supply will be furnished you.

You should keep for reference or inspection a diary or daily journal showing how you were engaged each working day of the year. To admit of the payment of any account for travelling expenses incurred by you on Government business an extract from the diary of the entries for the days covered by the account will have to be attached thereto. In this connection I need hardly say that such accounts can only be incurred after authority has been received from the Department, and they must be kept down to the lowest possible figure consistent with the requirements of the Service, and no payment will be made except for actual necessary expenses.

In your correspondence you will be good enough to confine yourself to one subject in each letter, and in reply to any letter from the Department you should quote the number and date thereof. Your letters should be written on paper of foolscap size and should be inclosed in suitable envelopes, and letters intended for the Department

Rev. Sir,

I have to acknowledge the receipt of your letter of the 27th ultimo applying for the admission of Bertha Scott, daughter of the interpreter on the Blood Reserve, to the Pelgan (R.C.) Boarding School.

In reply I beg to say that as this girl is not an Indian she is not eligible for admission and her nominal adoption by the grandmother does not alter the conditions.

In several cases lately it has been noted that Indians have nominally adopted relatives who are the children of white or half-breeds, presumably with the object of having them educated in Indian boarding or industrial schools. This is a practice which should be discouraged and it is not the intention of the Department, unless under extenuating circumstances, to recognize these children as grant earners in the schools. Reference is made by you to the admission of children whose father and mother did not take Treaty. The fact that an Indian has not taken Treaty does not debar his children from the privilege of admission to an Indian school, but in this case the father is a half-breed in the employ of the Department, which is under no obligation to provide for the education of his children in a residential school.

Your obedient servant,

Sir,-

Referring to your letter of the 15th ultimo, I return herewith the account which you forwarded in favor of Mr. James Martin for stationery furnished for the Indian School at Massett, previous to the date upon which you took charge of the Agency. As there would seem to be no reasonable doubt but that the stationery was supplied, you should issue a voucher, duly certified, for the amount of the account which is returned herewith in order that it may be attached to the proper voucher forms, as indicated. It would have been better had you sent in a voucher when reporting the matter.

In this connection I may say that when you receive an account, which appears correct and which you feel justified in certifying to, you should submit a voucher for payment together with your report in the matter. In this way time will be saved. You should, of course, in every such case report all the facts to the Department when submitting the voucher for payment. At the same time I may remark that the Department expects you at all times to closely supervise expenditure and to keep the same within reasonable limits.

Sir,

I beg to inform you that in May Dr Walter Scotchard,wrote the Department from Chase,B,C,making the Department to appoint a medical officer to the Indians of that district,stating that the nearest physician was situated at some 40 miles distant from the Indians. Mr Irwin,the Indian Agent,was asked for a report. The following is a quotation from the letter sent him. "You should state the number of Indians in the district in question,and whether in your opinion the services of a physician are required. If you recommend the appointment you should advise what salary it would be fair to allowfor the services which the doctor would have to render. You should also name the reserveswhere you think he should attend."

I enclose for your information copy of Mr Irwin's reply,dated 10th June. You will observe his statement that the Indians referred to are at present under the professional care of Dr Wade. of Kamloops,who attends them if they call upon him at that place but who is entitled to an additional fee if he goes to Shuswap to see them. Dr Wade is paid $66.00 a month for treating Indians from Kamloops,Deadman's Creek,North Thompson and Shuswap.When he is called upon to visit Indians upon reserves beyond Kamloops he is allowed extra fees. You will note that Mr Irwin states Shuswap is a central point for Indians of Adam's Lake,Neskainlith and Little Lake Bands. You will also observe that he states that seemingly the Indians referred to by Dr Scotchard are doing fairly well although they may not get all the treatment required.

The above facts have been set forth in order that you may

may have a full understanding of the matter. It is desired that when you visit Kamloops you shall make full enquiry into this matter, in order that you may submit a report and recommendation to the Department.

When dealing with this particular case it would be well for you also to make enquiry with respect to the attendance rendered by Dr. Vale. In November 1909 the Indians of Thompson River (south side) made complaint to the Department to the effect that Dr. Vale had not visited them professionally for many years, and that they had often sent to him to attend them but without result. Dr. Vale denied absolutely the truth of the complaint, and his statement was accepted by the Department. You should state whether his district is too large. Page 30 of the Annual Report of the Department gives statistics of the bands visited.

As pointed out to you in letter of even date it is very necessary to observe economy with regard to arrangements for medical attendance, yet the Department desires to furnish so far as is possible medical aid to all Indians requiring the same.

Sir,-

I have to acknowledge the receipt of your letter of the 28th ultimo, and in reply to say that the Department is willing that you should employ Theotime Mignault, of Moisie, as constable on the same terms as those under which Mr. Joseph Gamache is acting at Seven Islands, his pay to be at the rate of $60.00 per annum.

As regards your recommendation for the appointment of Dr. McDougall at Seven Islands, this is a matter regarding which the Department would require to have more information than is at present in its possession before it could undertake to decide as to the necessity for the division of the medical district now under your charge.

Rev. Sir,

Protests have been received from the parents of the Indian girls placed at service by you within the past year with the concurrence of the Department. In May, last, when the first communication was recieved, a letter of explanation was written in which the motives actuating you and the officers of the Department were fully dealt with, and it was hoped that no further objection by the parents would be forthcoming, but neither their consent to nor approval of the continuance of the system can be had.

In view of the attitude of the Indians of your district generally towards residential schools it is not considered politic to place their girls in service against their wishes, nor to retain them in the school beyond the age of 18 years, unless there are in any particular case exceptional circumstances which would warrant such action.

The greatest care must be taken not to antagonize the Indians, as all efforts to recruit will prove futile. For this and the further reason that they are quite within their rights in raising the objections it has been decided to recall to the school those girls who have not reached the age of 18 and grant the final discharge of those who have attained that age. To those to be discharge honourable

Sir,

In reply to your letter of the 15th ultimo, asking for information as to the lists on which you are to calculate the stumpage on the timber cut on the George T. Baird Limits, I have to inform you that you should use the old Tariff in calculating the dues on timber cut prior to the 13th of October 1909, as the new Tariff came into force on that date.

I am sending you herewith a supply of copies of the new Tariff, which you will use in calculating dues on all timber cut subsequent to the 13th of October, 1909.

Dear Mr. Cash,-

I beg to acknowledge the receipt of your communication of the 1st inst., inclosing a postal note for $5.00, and a communication from Mr. P. Pinsault, of Kamsack, making application for a strip of land adjoining the S. W. ¼ of Sec. 28, and being composed of Fr. S. E. ¼ of Sec. 28 in Tp. 29, R. 31, W. 1st M., containing 14 acres, and in reply to say that, as Mr. Pinsault was the first applicant for this land, the Department is prepared to carry out a sale to him at the upset price of $7.00 per acre, the terms of sale being as usual, one-tenth cash and the balance in nine equal, annual instalments with interest at 5%.
As the cash payment amounts to $9.80, and only $5.00 has been transmitted, it will be necessary for Mr. Pinsault

Right Reverend Sir,

I have the honour to acknowledge the receipt of Your Lordship's letter of the 24th ultimo in reference to Indian school matters in your Diocese.

In connection with the Sturgeon Lake school I beg to say that instructions have been given to have the school-house thoroughly repaired. These repairs call for an expenditure of close to $300.00 and, when completed, it is hoped that the building will be quite comfortable and much improved in appearance. As this expenditure is somewhat higher than was anticipated the matter of enlarging the teacher's residence will have to stand over till next year and in the meantime it is hoped that the present accommodation will suffice.

The contract for the erection of a teacher's residence and pupils' dining room on the John Smith's reserve was let sometime ago and the work is now under way. Any delay that occurred in proceeding with this work was unavoidable. The Department wished to erect a creditable building and had careful plans and specifications prepared. Following this tenders were called for, but all the details were attended to as promptly as was possible and the building should be ready for occupation by the Rev. Mr. McDougall and his family early in the autumn.

Right Rev. J. A. Newnham, D.D.,
Bishop of Saskatchewan,
Prince Albert, Sask.

A change of teacher at the Ahtahkakoop school at an early date is no doubt most desirable, but, as in the case of the Sturgeon Lake school, repairs to the building in order to make it comfortable called for an outlay of $232.00 and funds are not available this year for the erection of a teacher's residence; owing to this fact it is deemed advisable to allow Mr. Ahenakew to remain in charge for at least another year.

It is noted that Your Lordship has in view a married man to take charge of the Sturgeon Lake school and the Department would like to know whether the present dwelling, which was erected by your Church, will provide temporary accommodation. As Your Lordship has already been advised a salary of $500.00 will be paid a teacher and, if his wife is competent and willing to take up field matron work among the Indians on the reserve, an additional grant will be made for her services. In the absence of fuller information, however, a definite amount cannot at present be decided upon.

In reference to accommodation for teachers on these two reserves I may say that the Superintendent of Indian Education contemplates visiting the Carlton Agency in the near future and while there he will make special inquiry with a view to having the necessary work undertaken early next year.

Mr. Borthwick, the Indian Agent, has been written to in regard to Mr. Crane's complaint that he has not been furnished with necessary supplies during the last year and it is hoped that there will be no further difficulty in this respect.

In conclusion I beg to assure Your Lordship that the improvement of day school conditions in your Diocese is

earnestly desired, but as it is quite a large undertaking and as similar improvements in many other districts have at the sametime to be considered progress must necessarily be comparatively slow. However, it is thought that a decided advance has been made during the past year and it is hoped that results next year will be even more satisfactory. In the meantime a communication from Your Lordship in reference to the qualifications of the teacher and his wife referred to above will be awaited.

Sir,

I have to acknowledge the receipt of your letter of the 2rd instant, and in reply I beg to say that on May 25th. last, Rev. T. E. Egerton Shore, Associate Secretary of the Methodist Missionary Society, Toronto, asked the Department if it would be disposed to increase your salary with a view to retaining your services as teacher of the Scotch Settlement school, and on the 28th of that month Mr. Shore was written and advised that the Department would pay you at the rate of $500.00 per annum from the 1st instant. The Department was, therefore, of the opinion that the matter had been satisfactorily arranged and that you would remain in charge of the school.

If you do not purpose continuing this work after the summer holidays kindly advise the Department by return mail in order that steps may be taken to secure a successor.

With reference to the payment to be made you I may say that June 30th completes a school year and you will be paid a full year's salary, but no allowance can be made for next term, which is in the commencement of a new year. Sir,

The Department desires to erect by day labour a brick school-house on a cement foundation on the Oneida Indian reserve and, if satisfactory terms can be arranged, would like to have your services to supervise this work including the purchase of the necessary materials and supplies. It is desirable that this work should be proceeded with at the earliest possible date in order that the building may be completed early in the autumn.

If you find it convenient to undertake this work for the Department kindly state when you could commence and the daily rate of pay you would expect, the latter to include your living allowance. Sir,-

I am in receipt of your letter of the 29th ultimo, in regard to the claim made by Joshua Commanda to be recognized as a member of the Nipissing Band of Indians, which claim is based upon the statement that his father received Robinson Treaty money in 1850: and in reply I have to inform you that the Robinson Treaty and subsequent years pay-list for that year has been carefully examined. There is no trace thereon of payment having been made to Louis Commanda (commonly known as Sandiente), the father of Joshua Commanda, and no other evidence has been found in the Department to indicate that this man was at any time recognized as a member of the Nipissing Band. Under the circumstances, the Department cannot place Joshua Commanda's name on the pay-list. You should advise him to this effect.

Rev. Sir,

I have to acknowledge the receipt of your letter of the 21st ultimo in which you ask for the discharge of Genevive Okeemaw and Betsy Wapahew from the Ermineskins Boarding School.

In official letter of the 29th ultimo you were asked to state definitely what these pupils intend doing wher they leave the school. It now appears that the first above mentioned is to be married, but you have still not complied with the request made in official letter of July 2nd of last year and made, together with the Agent, a report as to what assistance, if any, might be given these girls to enable them to make a start in life for themselves. The discharge of these two girls is hereby granted, but the Department will expect to receive a further report at an early date.

You have not stated whether the girls are entitled to honour certificates. If so and you so advise the Department they will be forwarded. These certificates have recently been issued by the Department and are suitable for framing. They are sent to all graduates from boarding and industrials schools who creditably complete their courses and no doubt would be highly prized by the pupils of your school.

Ottawa, July 9, 1910.

Rev. Sir,

I have to acknowledge the receipt of your letter of the 30th ultimo, and in reply I beg to say that in view of the statements contained therein pupils Nos. 150, 153 and 154 may be discharged from the Battleford Industrial School and, as you suggest, the question of assistance may be left in abeyance for the time being. The Department will, however, expect you to keep closely in touch with these ex-pupils and report at a later date as to their habits and the necessity for granting them aid to commence life for themselves.

The names of pupils Nos. 162 and 192 may be dropped from the roll of the school. The discharge of pupil No. 0127, who is in service, is also approved.

Be good enough to let the Department know whether you would recommend the granting of honour certificates to each of the above mentioned and, if so, you should give their names in each case.

Your obedient servant,

Secretary.

S.F.332-4

Ottawa, July 8, 1910.

Sir,-

It will doubtless be known to you that there has for some time past been a great deal of unrest among the Indians of British Columbia, due to the impression that exists in the minds of many of them that their rights to lands in the province are being encroached upon. The belief held by these Indians that an injustice is being done them is, it is suggested, being made use of by certain whites who are carrying on a systematic campaign for the purpose of uniting the Indians in an independent movement for the settlement of the land question. The result of the statements made to the Indians has been that in many of the outlying districts settlers who have taken up land under provincial authority are being warned against doing so by Indians, who claim that the lands not having been surrendered still belong to them.

As regards the claims of the Indians, the Department desires that you may be made aware that this whole question was some time ago submitted to the Department of Justice, in order that such action might be taken as would lead to a judicial decision being obtained in regard thereto. The Deputy Minister of Justice has been

giving this matter his most careful attention, and has been collecting all the evidence possible in support of the claims of the Indians. He has also had several interviews with Mr. Adam, Deputy Attorney General of British Columbia, relating to a reference of questions with regard to the British Columbia Indian title, and has recently been in communication with Mr. Bellew, K. C., the leading counsel for British Columbia, with a view to the settlement of the questions to be referred to the Supreme Court on this subject.

It is evident that the Indians under your supervision may, so far as possible, be made aware of these facts, and assure that every effort will be made to secure for them the fullest measure of justice. They should also be informed that we earnestly advise for the present action on their part, and that to take the law into their own hands can only tend to prejudice their case.

I have to inform you that a delegation of Chiefs who called at the Department recently made the statement that you drink intoxicants to excess, and that, in consequence, when you distribute things to the Indians, they are in danger of being poisoned. The Chiefs also drew attention to the fact that your example in using intoxicants has a very bad effect on the Indians in that respect.

The Department desires that you should realize that the charge brought against you by the Chiefs is a very serious one indeed, and makes it necessary to warn you that if any further complaints are received on this subject,on what may appear to be sufficient grounds, the question of your continuance in office will be duly considered.

I 17052/1

Ottawa, July 9, 1910.

Right Reverend Sir,

A report recently received on the Poundmakers day school shows that the teacher lately appointed is altogether unfit for the position. There is no teacher's dwelling on this reserve, but an unmarried teacher can secure board and comfortable quarters at the farm house, 1½ Miles from the school, and the Department is assured that the farmer will co-operate in every way with the teacher in maintaining the attendance and raising the efficiency of the school.

I have to ask Your Lordship, therefore, to take into consideration the appointment of a teacher with proper qualifications and to one with the necessary certificates a salary of $400.00 per annum will be paid. I shall be glad to hear from Your Lordship in connection with this matter at an early date.

Right Reverend Sir,

Reports received on the Little Pines day school show that very unsatisfactory progress has been made, due largely to the incompetency of the teacher, Mr. C. T. Demeris.

Your Church has on this reserve a teacher's dwelling and there would appear to be a good field for an active teacher. If Your Lordship can nominate one with proper qualifications a liberal salary will be allowed. It would not, however, appear to be advisable to dispense with Mr. Demeris' services until there is some assurance that a successor can be obtained.

Only improvements of a permanent nature cand be provided for out of such funds. Interest Funds can be used for such purposes if the consent of the Band is obtained in writing, but unless every member of the Band will benefit by the expenditure it is not considered a fair way of expending their funds. To equip a few Indians at the expense of those who cannot farm and will receive no benefit from the expenditure cannot be approved of. Ottawa, 11th. July, 1910.

Sir,

In reply to your letter of the 9th. instant, I beg to say that while the Department does not approve of the Indian Agents being brought to Winnipeg to accept the bulls it will waive any objection there is to such a course in this instance, but it should be clearly understood that the Department will not pay any of the expenses of the Agents either coming to Winnipeg or returning therefrom.

It is feared that the bulls will be late reaching the reserves and that their services will not be of much use this year which is to be regretted.

When the order was given you it was understood that you had the animals on hand and that you could ship immediately, otherwise they would have been bought locally near the reserves.

Your obedient servant,

Secretary.

Sir,

With reference to letter to you of the 4th July, I beg to say that an Order-in-Council has been passed sanctioning an expenditure of $600.00 from the Capital funds of the Metlakatla Band of Indians in the construction of one mile of side-walk from their village to the sand bar. The Order-in-Council also provides for an expenditure of $200.00 for building a band-stand on the reserve.

The Department desires that you will have the work begun and carried through to completion at an early date. The expenditure should on no account exceed the amounts stated. The work should be done by day labour, and Indian workmen should be employed, but you should engage a competent foreman. The Department will expect you to see that satisfactory work is done, and the best results obtained from the expenditure now authorized.

Dear Senator,-

With reference to a letter addressed to you from Mr. George Schelbert, Prince Albert, Sask., asking assistance to construct a road along the side of the Stony Indian Reserve No. 94 A in Tp. 49, R.27, W. 2nd. I have to say that until the exact location of the proposed road is known and what action the Provincial Government proposes to take in the matter cannot very well be considered. I have to add that the question of spending Public money on roads through Indian reserves requires very serious consideration.

Rev. Sir,

An examination of the return from the Brandon Industrial school for the June quarter shows that you ask for the grant for Willie Sinclair, pupil No. 167. As you have already been advised this boy is not eligible as a grant earner in an industrial school and no grant can be paid for him.

The return also shows that pupils No. 45, Joe McDonald, No. 046, Mary Anne Evans, No. 065, Caroline Walker, are twenty years of age and pupil No. 087, Jane Walker, twenty-one years of age. The grant for these pupils has been paid for this quarter, but as they are all considerably over the age limit no further grant will be allowed the school, unless there should be in any individual case special reasons why the pupil is retained in the school. In all cases the discharges of pupils should occur when they have reached the age of eighteen, unless the consent of the Department to their retention in the school is received. At any rate the matter should be the subject of consideration by yourself and the Department when the age above referred to is reached.

I have to acknowledge the receipt of your letter of the 29th ultimo in reference to the admission of Catherine Moar as a grant earner to the Brandon Industrial School.

In reply I beg to say that, as you are already aware, application was made to the Department of the Interior by Philip Moar for scrip for himself and seven children, one of whom is Catherine. Scrip was issued to the father, but the Interior Department had not last fall arrived at a decision in connection with the children. Should the girl be decided eligible for scrip she cannot, of course, be admitted as a grant earner in your school, but pending a final settlement the Department has decided to allow the grant from the time she entered the school on the distinct understanding that should she at a future time receive scrip her name will be dropped from the roll. Be good enough to forward a supplementary return for this pupil from the time she entered the school and the grant will then be paid..

Very Reverend Sir,

The Department is in receipt of a communication from Miss Edith Isbister, who has been for sometime in charge of the Brokenhead Indian School, resigning her position and I have to ask you to be good enough to submit for the consideration of the Departmentapplications for the vacancy.

You are already aware of the wish of the Department to secure a better class of teachers for Indian schools in your district and also of its willingness to pay more liberal salaries when teachers with proper qualifications can be had. It is trusted, therefore, that you will be able to nominate a competent teacher for this school. When submitting any applications kindly state the age and certificates held by the applicant.

Sir,

I have to acknowledge the receipt of your letter of the 21st ultimo in reference to the erection of a school building for the Massett Indians at North Island, for which the Department offered a grant of $250.00 for the purchase of material.

In reply I beg to say that the existing conditions as described by you have been noted and the matter of purchasing the material ~~hx~~ and having it taken to North Island will be left to the discretion of yourself and the Rev. Mr. Hogan. It is the wish of the Department to have all this material purchased at the most reasonable rates and at the most convenient and accessible place. If the material is purchased now as suggested by you, in order that it may be shipped to North Island when the Indians again go to that point, it will be necessary to see that proper arrangements are made for careful storage.

You will be good enough to report the action taken at a later date.

I have to acknowledge the receipt of your letter of the 30th ultimo, in which you ask for a copy of an agreement which was made between the Indians of Norway House and the Rev. John McDougall in reference to some extra land in connection with the Mission at that point.

In reply I beg to say that no agreement such as the one to which you refer is to be found on the school files and the Department is of opinion that none was forwarded.

The Department has under consideration the erection of a new boarding school at Norway House next year and would esteem it a favour if you would take into consideration, while in the locality, the matter of a site. In looking into this matter you should consult with the Principal of the school and the Indian Agent.

The site for the school must be on the Indian Reserve and should be high and dry and easily drained and an efficient water supply should be available. In connection with institutions of this kind it is desirable to have a goodly portion of land which can be cultivated for gardening purposes and if at all possible for the conducting of farming operations on at least a small scale.

Sir,-

I have to acknowledge the receipt of your telegram of the 5th instant and to confirm the following telegram sent you yesterday:-

" Read telegram of twenty-seventh ultimo two hundred and twenty dollars for two graves being same rate at Kitsumkalum or one hundred and ten dollars per grave. Railway will pay this rate. This is satisfactory. Instruct Indians to remove bodies and not delay construction."

In explanation I have to say that the telegram to you of the 27th ultimo stated in error $220.00 per grave. The arrangement with the G.T.P. is $220.00 for the two graves in the Kitsequela reserve, that is $110.00 for each grave or very nearly the same rate as paid for the Kitsumkalum graves. There were thirteen graves in Kitsumkaylum.

The amounts paid by the Railway Company are as follows:-

New Cemetery	$200.00
Damages for interfering with existing cemetery	$1000.00
Removing 18 bodies @ $15.00	270.00
	$1470.00

You will note that the said sum of $110.00 per grave covers all damages of every nature. The Indians have to remove the bodies and make new cemeteries if they so desire. Also if there is more than one body in one grave no extra sum is to be paid. I have to add that the said sum of $110.00 per grave is considered ample and satisfactory. Kindly instruct the

In reply to your letter of the 30th ultimo I have to say that the rate per grave was mis-stated in telegram to you of 29th ultimo. The sum agreed upon for the two graves in the Kitsegueola reserve was $220., that is $110.00 per grave, being very nearly the rate paid for all charges in connection with the cemetery in the Kitsumkaylum reserve.

The said sum of $110.00 appears to be satisfactory. The Agent has been wired to instruct the Indians to remove their dead and not to impede construction.

With reference to the Petition signed by yourself and other members of the Band dated 2nd. June last, and to that portion thereof which asks for a prompt settlement of the unpaid land moneys, I beg to say that as will be seen upon reference to the attached statement the Band has already been paid from the funds received by the Department to date from the sale of the lands, $947.75 over and above the 50% they are entitled to under the terms of the surrender. When further funds are received from parties to whom the lands were sold, another distribution of 50% will be made.

In addition to the principal funds included in the attached statement there has accumulated up to the present time interest to the extent of $I628.46 which can be paid to the Indians, but as it will only provide for a per capita payment of $I.35 it is thought well to keep it for the present until such a further sum accumulates as will permit of a substantial per capita payment, but if the Indians so desire the distribution can be made.

I beg to acknowledge the receipt of your favour of the 4th instant, with reference to the Kemp matter. This letter, for some reason or other, did not come to the attention of the writer until to-day.

In reply I beg to say that the Department regrets that its letter to you of the 9th instant, with reference to the adjudication of Kemp's claim, was not more explicit.

In our settlement with R. L. Graham through his solicitor, Mr. Murray, the latter undertook on behalf of his client to hold the Department free from liability for any claim which Mr. Kemp might be able to obtain from the Department by legal process, and, in writing you on the 9th instant in reply to your letter suggesting that the matter be referred to Judge Hewson, of your District Court, the Department thought that, as Mr. Murray's client had assumed the responsibility for Mr. Kemp's claim, Mr. Murray should be consulted as to the proposed settlement, as the matter concerned his client, and it was in his capacity as solicitor for Mr. Graham rather than solicitor for the Department that we suggested referring the matter to him. We thought you would in all probability be able to agree upon a way of adjusting this claim.

My Lord,-

With reference to despatch No. 448 from the Right Honourable the Secretary of State for the Colonies, transmitting a copy of a letter from Chief Wedildahld, of British Columbia, I have the honour to report as follows,-

The Indians of British Columbia, for whom reserves have been set apart under an agreement entered into in 1876 between the Governments of the Dominion and the province, have advanced the claim to ownership of all the lands outside of a few reserves that have been surrendered by them. The contention of the Indians is that these lands were from time immemorial in the possession of the several tribes and that their right to possess and occupy them was acknowledged by Royal Proclamation. This claim of the Indians was some time ago submitted to the Department of Justice, in order that such action might be taken as would lead to a judicial decision being obtained in regard thereto. The Deputy Minister of Justice has given this matter his most careful attention

Sir,

I am in receipt of your letter of the 2nd instant, in further reference to the pay-list of the distribution of land interest money to members of Pasqua 's Band for 1910;and in reply I may say that seemingly you have ~~mis~~ been mislead by the following clause which appears under "Memorandum for Agents 'guidance " in the front of the pay-list book. "Changes that do not affect the number in the Bandare not to be entered in the column showing the increases and decreases headed 'Other Causes '". This clause should have been eliminated from the pay-list before it was sent to you. It is regretted that this was not done.

Every family should be entered under its proper number in the pay-list whether present or absent from the pay-table, and in the case of an absent family the pay-list should ~~shew~~ give the number in the family in the same way as it was given when last paid . The full amount which the family would have drawn if present should be shewn in the absentee column,and a note of explanation regarding ~~as~~ absence of family should appear in the "Remarks" column. This mode of entry is desired as it will show the amount payable provided there were no births or deaths in the fam ly,which fact will have to be ascertained later when the said family applies for payment.

I may remark that a circle was drawn around certain figures in the pay-list when it was returned to you in order to draw your particular attention thereto.

In the case of No 15 the figure one should be placed in the column "Nummer in family".

If the pay-list is made out as indicated it will be possible for the Department to ascertain at any time the approximate number in any family. This could not be done if absentees were left off the list.

No 115 . Your remarks in this connection show the necessity for entering the full family in the pay-list each time a distribution is made,whether the persons are present or absent at the time of payment. In 1909 this family should have ~~had~~ consisted of four persons,three paid and one an absentee,whose money should have been returned to Department.

The Department appreciates the difficulties with which you have to contend in making proper returns,~~but~~ you should at all times endeavour to make the pay-lists perfectly correct and to furnish therein all necessary information.

The original pay-list is re-enclosed herewith in order that you may make out the duplicate,in accordance therewith. The duplicate should be an exact copy of the original.

In reply to your letter of the 7th instant I may say that the Department is pleased to learn that the mustard weed is not prevalent to a very large extent upon the Reserves within your Agency. The Department I may say approves of the action already taken with a view to eradicating this weed. It is desired that you will endeavor as far as possible to have the Indians adopt the necessary measures to exterminate this and other weeds upon the Reserves. They should so this not only in their own interests, but also to prevent the spread of weeds amongst the surrounding farming country.

Right Reverend Sir,

I have the honour to acknowledge the receipt of Your Lordship's letter of the 3rd instant in further reference to the admission of children to the Indian boarding and industrial schools.

In reply I beg to say that this is a matter which has for a considerable length of time been receiving the earnest and careful consideration of the officials of the Department. At the sametime the suggestions offered by Your Lordship and others interested in educational work among the Indians have been gladly noted and, where practicable, acted upon.

As to the establishment of fresh air dormitories as a part of the programme of the Department in alleviating the present unsatisfactory health conditions I think that the following statement will show that Your Lordship is under a misapprehension in supposing that any discrimination against the Roman Catholic schools has been exercised. The policy of the Department is to treat all religiuos bodies in a fair and equitable manner and there was no departure from this policy in the case of the Peigan school.

In February, last, Mr. Inspector Markle submitted plans for a pure air dormitory in connection with the Peigan

Church of England school and on the 18th of that month instructions were given to have the work proceeded with. In the same communication Mr. Markle was asked to prepare plans for similar dormitories at the Roman Catholic school. These were received on March 29th and on April 14th authority was given for their construction. At the sametime Rev. Father Doucet was advised of the action taken and on the 23rd of April he acknowledged the Department's communication.

This action on the part of the Department was unsolicited and I think Your Lordship will agree prompt. If there has been delay in completing the work it is no doubt due to the fact that Mr. Markle's many and varied duties have prevented his giving the matter the attention he would wish. Owing to his experience it was thought expedient to leave the whole work in his hands and there is no doubt that when completed these dormitories will be appreciated by the staff of the school.

These explanations will, I think, show that there is no ground for the assertion that that Roman Catholic Church was unfairly treated in the matter of the erection of these dormitories.

Mr. Inspector Markle will be written to with reference to the completion of this work.

The Department does not approve of your allowing the children to visit the stores and wharves at the noon hour. They should be constantly within your supervision from the time they arrive at the school in the morning until they leave again in the evening.

Dear Sir,-

With reference to letter to you of the 2nd instant regarding the complaint made by certain farmers in the vicinity of Kettle Point Reserve to the effect that the weeds growing on the Reserve are detrimental to their interest having affected their farms, I beg to say that the Department has had a full report in the matter from the Indian Agent, Mr. Nisbet. It would appear from this report that mustard and other weeds are not as prevalent upon the Reserve as you have been lead to suppose. Mr. Nisbet states that several of the Indians are busy pulling the mustard with a view to eradicating the same. I may say that he also remarks that the farms of the whites have more mustard growing upon them, than grows on the Indian lands. I may say that the Department is writing the Agent and informing him that all possible measures should be taken to prevent the spread of the mustard and other weeds upon the Reserve.

The Department has under consideration the purchase of some double desks for the Port Simpson Indian day school. Mr. Perry, the Agent, has quoted prices f.o.b. Sir,

Mr. Benson of this Department, who recently visited the boarding school at Chapleau, recommends that certain necessary repairs be made during the summer holidays, and it is considered advisable to carry out the recommendation for these repairs, which are as follows:- the chimney should be thoroughly cleaned and the plaster painted; the ceilings in the cloak-room and hall should be kalsomined; the hall and cloak or wash room should be wainscoted to a height of 4' 5"; the kitchen floor needs to be painted; a substantial wash stand to hold six galvanized iron wash basins fastened to the wall should be placed in the wash room and a piece of zinc should be provided for the floor under the heater.

Mr. Benson states that new closets are badly needed, but as those at present in use will do temporarily you will be good enough to obtain an estimate of the cost of erecting suitable closets with screened approaches. They should be so constructed that the boxes can be removed without any difficulty, in order that they may be kept perfectly cleaned. In your estimate you should give a description and state the size of the closets.

Two plain chairs are also needed in the classroom and you may purchase these.

You may also have five tables made of the sizes

I have to acknowledge the receipt of applications for the admission of three pupils to the Qu'Appelle Industrial school.

This is a ruling which is fair to both Protestants and Roman Catholics alike and will, it is hoped, avoid much of the unpleasantness which has fallen to the lot of the Department in dealing with these cases.

The application shows that this child is a Protestant and in view of the ruling above stated his admission to Qu'Appelle cannot be approved. Sir,

In reply to your letter of the 4th instant, I beg to say that you may make provision in your next estimates for the services of a clerk for your office. In the event of an appointment a house would probably be required for the clerk. You should therefore provide in the estimates for the cost of the erection of one. Ottawa, July 14, 1910.

Sir,

I have to acknowledge the receipt of your letter of the 5th instant enclosing quotations from Lambert and Earle and Groat Bros. for ranges, portable bake ovens and clothes dryers with laundry range attached.

In reply I beg to say that the Department intends only to supply at the present time one new double range and to make the necessary repairs to the one at present in use and it is thought that these two will meet the needs of the institution for the present.

Separate prices quoted by Lambert and Earle are for the range, bake oven, dryer and laundry stove and the Department wishes to know their price for their hotel range No. 202 with one fire and two ovens, this being the one marked in the catalogue sent the Department.

Grost Bros. have quoted a price of $430.00 for two of their "Grest Majestic Hotel Ranges" and presumably they would be all one for $215.00.

The question of supplying a bake oven and installing new equipment in the laundry may remain in abeyance for the present and you will be good enough to bring these matters to the attention of the Superintendent of Indian Education who hopes to visit Elkhorn before long.

In reply to your letter addressed to the Honorable the Minister of the Interior on July 5th, I have to inform you that the salaries of Mr. Frank Pedley and the other officers of the Indian Department at headquarters are paid by Parliamentary appropriation; that is, the amounts are voted each year by Parliament and paid out of the Consolidated Revenue Fund. The Indian Agents scattered through the Province of Ontario are paid from a Fund specially set apart for the purpose, also assisted by Parliamentary appropriation.

Sir,-

I beg to acknowledge the receipt of your favour of June 1, which reached the Department on July 11, in which you state that there are some people on the River Indians who have Indian women living with them in their houses, and that you have good reason to believe that they are in the habit of having liquor in their houses, and that you suspect that these women consume some of this liquor, and you ask the Department for its interpretation of sub-section "A", of section 135 of the Indian Act in this connection.

In reply I beg to state that the view that the Department takes of this sub-section is that it refers to the case where the householder or head of the house, tent, wigwam or place of abode is an Indian or non-treaty Indian, and that it is not intended to apply where an Indian is residing in the house of someone else.

If, however, it can be proved that the person referred to in your letter gives liquor to the Indian woman who is living with him, as you have reason to believe, it appears that he can be convicted under sub-section "A" of Section 135.

Sir,-

In reply to your letter of July 2nd. I think it well before preparing any information in reply thereto to draw your attention to the fact that this Department does not employ official chaplains as members of the staff or pay anything out of public funds for the maintenance of religious services. One missionary of the Roman Catholic Church in New Brunswick is paid $100.00 a year from Parliamentary appropriations. This payment alone survives of several which were continued after Confederation. Upon his death or removal from his present location the stipend would not be paid to his successor. In a few other cases we pay from a special Fund three Roman Catholic missionaries in the Province of Quebec, and in one instance we pay the salary of a Church of England clergyman from the Interest Funds of an Ontario Indian Band. No money is otherwise paid for the maintenance of religious services and I wish to point out that none of these clergymen are officials of the Government.

As during the last ten years certain grants have been made for building or repairing places of worship, both from Indian Trust Funds and from Parliamentary appropriations, it would be possible to make a statement in reply to your second requisition.

I should be glad if you would express your opinion as to whether your first clause would apply to the clergymen above mentioned.

Rev. Sir,

The Department has at present under consideration the making of provision for the education of certain Indian children on the Caughnawaga Reserve whose fathers were killed at the Quebec Bridge disaster. No decision has been arrived at as to the number for whom it would be necessary to provide, but the Department is of opinion that they should, if possible, be cared for and receive their education in the Wikwemikong Industrial School.

Your school has now almost the full complement of pupils from the Province of Quebec, but these would be treated as supernumeraries and as discharged their places would not, of course, be filled in the school. It would also be understood that no further recruits would be taken from Caughnawaga, unless under exceptional circumstances, until such time as the total enrollment of regular and supernumerial pupils had reached the normal condition.

I have to ask you to be good enough to state whether this proposal is acceptable to you and, if so, how many children you can accommodate over and above the number for whom the per capita grant is now allowed without overcrowding your dormitory, dining-room or class-room space.

The Department has learned that contrary to instructions you have allowed the Departmental bulls to run at large on the Reserve at Whitefish Lake before the authorized time, namely the 1st of July. It is understood that three of them have been at large since about the middle of May and four since about the 20th of June. Mr. Batty, who has written the Department in the matter states that you have excused yourself in this matter upon the ground that the fences enclosing the farm were not strong enough to hold the bulls, but as it is your duty to see that all fences are kept in proper repair, such an excuse cannot be accepted.

The Department regards your action in this matter very seriously and will not lightly pass the matter over. The consequences are sure to be detrimental to the interests of the Department and the Indians. It is desired that you will furnish a full explanation in the matter without delay.

The course which you are reported to have taken in this matter appears to indicate that you are not qualified to fill the position which you occupy. Such a course of action tends to retard the Indians in their cattle raising

Dear Sir,-

I beg to acknowledge the receipt of your letter of 13th instant, in which you ask if nothing can be done to stop the sale of liquor to halfbreeds in the vicinity of Kippewa Station.

I may say that this Department only has to do with Indians and not with halfbreeds. The halfbreeds are subject to the law the same as whites. As to the Indians, I enclose a copy of the Indian Act and would refer you to the clauses relating to intoxicants, from which you will see that in case of a violation of these clauses any person can take action to prosecute the parties.

If your letter relates entirely to Indians, I may say that just at present we have no one available to send up there but might be able to do so later on if conditions do not improve.

Yours truly,

A. S. Morley, Esq.,

Kippewa Station, P. Q. Secretary.

Rev. Father Belanger, Principal of the Wikwemikong Industrial School, has applied for increased salaries to the teachers of the Wikwemikong, Wikwemikong-ing and South Bay schools in your Agency.

He has been advised that the teacher at Wikwemikong received an increase on April 1st, last, and, it has lately been advised, the teacher of the South Bay school is to receive an increase from the first of the current quarter.

Before taking action in reference to his request in regard to Wikwemikong the Department desires a full report from you upon the work of the teachers at this school. The Inspector's reports on this school make it difficult for the Department to determine what teachers are engaged solely in the day school, as those who are on the staff of the industrial school perform part of this duty. I have to ask you, therefore, to be good enough to furnish a full report upon the day school work, in which you should state the number of pupils enrolled and the give the names of the teachers, their qualifications, ages, salaries, etc., and where there is any division of duties between the industrial and day schools you will be good enough to show it.

I have to acknowledge the receipt of your letter of the 8th instant enclosing a sketch and reporting upon the need for a new school-house for the children on the Chippewas Indian reserve residing between St. Isidore and Dinsmore Roads.

In reply I beg to say that it is the intention of the Department to ask Parliament at the next session for an appropriation with which to erect a suitable building for the accommodation of these children and one of the first questions to be taken into consideration is the selection of a suitable site. This should receive consideration by you at an early date. The school should be centrally located and the site should be high and dry and easily drained. Rev. Sir,

I have to acknowledge the receipt of your letter of the 6th instant in reference to increases to the salaries of the teachers at Wikwemikong, Wikwemikongsing, South Bay, West Bay, and Sheshigwaning schools.

In reply I beg to say that the salary of Miss Frawley was increased to $350.00 from April 1st, 1910, and that of Miss Duhamel at Sheshegwaning to $400.00 from the same date. Evidently you were not aware that these increases had been made.

Miss Frances Solomon is only temporarily engaged as a successor to the late Miss Peacock at West Bay, but if a competent teacher with proper qualifications is secured the Department will pay a salary of $400.00.

In view of the satisfactory record of Miss St. James, teacher of the South Bay school, her salary will be increased to $400.00 to take effect from the 1st instant.

A special report on the work of the teachers at the Wikwemikong day schools is being called for and when this is received the question of increase will be given due consideration.

Sir,

I have the honour to acknowledge receipt of your letter of the 29th ultimo and in connection therewith enclose herewith for your information a copy of a letter forwarded this day to the Board of Railway Commissioners.

As stated in that letter this Department has no further objection to the approval of the location of the Melville-Regina Branch of the Grand Trunk Pacific provided your Company will construct a good underpassing and a good cattle-pass as you propose. In addition will construct the cattle pass under the highway as well also good fences.

I may explain that it appears the bridge or cattle-pass in the present highway enables cattle to pass without straying on the highway. The extension of the same under the deviated highway is to afford the same convenience as before the construction of the Railway.

A telegram from Mr. D'Arcy Tate is to the effect that you wish to commence construction. Kindly forward as soon as possible a plan on tracing cloth and a blue print copy showing your final location across the school lands together with your offer of the sum your Company is willing to pay for the land and damages thereto etc.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 11th ultimo and to inform you that the Department has decided not to urge the construction of a fence across the school grounds.

The Railway Company has offered to build an underpassing at one point and a cattle-pass at another point. The Company has been informed that the Department will not further object to the revised location, if the said cattle-pass is built under the highway also and that good fences are to be built on each side of the Right of Way, calculated to prevent the boys, as far as possible from getting on to the Railway track.

I have also to say that Railway construction will not be permitted until the Right of Way is duly arranged for.

Rev. Sir,

I have to acknowledge the receipt of your letter of the 4th instant enclosing a voucher from the Principal of the Red Deer Industrial School for materials used in repairs during the past year.

In reply I beg to say that the Department is not at present prepared to pay this account. I may add, for your information, that on the 5th instant authority was given Mr. J. A. Markle, Inspector of Indian Agencies, to expend a sum, approximately $3025.00, in the purchase of material for the erection of a barn and root house; for minor repairs and fencing; for the roofing of the Principal's house and girls' home and for new desks for the classroom. However, if the Principal will forward through Mr. Markle properly certified vouchers, with the receipts from the various dealers from whom the goods were purchased attached, payment will receive consideration, provided the Department finds towards the end of the current fiscal year that the funds at its disposal will permit [redacted]

Sir,

The Department has noted that pupils from the Carlton Agency are recruited for the Duck Lake Boarding School and the applications for admission forwarded through your Agency. In many instances it is necessary to have information which can only be supplied by the Agent in charge of the reserves from which pupils are drafted, as they only can be in possession of the some of the details called for. I have to ask you, therefore, to request the Principal of the Duck Lake Boarding School to in future forward the applications for admission from the various Agencies through the respective Agents.

Sir,-

I beg to inform you that Mr. Indian Agent Lewis has laid before the Department the petition addressed by you and other Indians to the Honorable Frank Oliver in which you ask for prompt settlement of unpaid land moneys. I beg to say that as will be seen upon reference to the attached statement the St. Peter's Band has already been paid from the funds received by the Department to date from the sale of the lands $947.75 over and above the 50% they are entitled to under the terms of surrender. When further funds are received fromparties to whom the lands were sold, another distribution of 50% will be made.

In addition to the principal funds included in the attached statement there has accumulated up to the present time interest to the extent of $1,628.48 which can be paid to the Indians, but as it will only provide for a per capita payment of $1.35 it is thought well to keep it for the present until such a further sum accumulates as will permit of a substantial per capita payment, but if the Indians so desire the distribution can be made.

Referring to official letter of June 6th and previous correspondence in connection with the site of the proposed new boarding school on the File Hills reserve I beg to say that it is the wish of the Department to secure the title to the fractional part of Section 33, upon which the new buildings will be situated. Referring to your letters of the 3rd and 25th ultimo, with which you forwarded respectively vouchers Nos 4737 and 4763 in favour of Constable Belcher,I beg to say that the vouchers have been taxed by the Law Clerk of the Departmet,and I enclose herewith cheques Nos 1895 and 1896 in settlement thereof. With regard to the amounts at which payment is made I beg to say that the voucher (No 4737) rendered at $64.00 has been reduced to $53.25, 75¢ only has been allowed as witness fee for attending court,thereby reducing the item dated 26th April to $3.75. $1.00 has been allowed for each arrest,instead of $1.25,and therefore the item dated 25th April rendered at $20.0 0 stands at $24.00 . The last item has been reduced from $16.00 to $1.50 . In connection with this latter item the Law Clerk has quoted as follows from Section 770 of the Criminal Code. "Attending sittings of trial,for each day necessarily employed "in one or more cases when engaged more than four hours ...$1.50" It appears that the attendance in the 16 cases was all on the same day.

With respect to voucher No 4763 rendered at $19.00 I beg to day that payment has been made at $16.50 .The last item dated 25th June is reduced from $4.00 to $1.50. Kindly make the necessary explanations to the constable.

Sir,-

With reference to your letter of May 13th in regard to the case of Mrs. Sarah Ritchie, I beg to say that she has again written to the Department for her interest money. She has been told that you hold a cheque for $10.00 which amount you received from her husband for her, but that as she when living with her husband contracted certain debts, the Department is of the opinion that she should assist him in making settlement which he is endeavoring to do. You should report to the Department whether Mrs. Ritchie makes application to you in this matter and also state the disposition of the cheque above referred to.

It is thought that the Ritchie family's interest shares should be applied towards settlement of their joint debts. When these are paid, it will be time to consider whether the women shouldibe paid her own interest money.

I re-enclose herewith your cash book statement for the month of June as there is an error in the statement of balances on hand. These balances totalled $510.49 not $513.49. I have also to point out that receipt No. 2608 is missing.

It is observed that in many instances you have not shown cheque numbers in connection with payments made. The inference is that the payments were not made by cheque. The Department desires that you will make whenever possible all payments by cheque and obtain a receipt in each case. This system should be followed as it affords a double check in connection with all transactions. Kindly re-enclose the statement corrected without delay.

Sir,-

With refernece to your pay-list of the distribution of interest money for the Spring of 1910 to Indians of your Agency, I beg to direct your attenion to the following,-

No. 151 West Bay Band. You should have stated the number under which the woman was paid previous to her marriage. It will be necessary for you to notify Agent Sims in order that he may strike her off his pay-list you should advise the Department of the number under which she was formerly paid.

No. 12 Cockburn Island Band. If three persons who resided continuously in the United States for over five years did not have permission from the Department or the Agent, as provided by section 15 of the Indian Act, you should strike them off the pay-list, as they have forfeited their right to be recognized as Canadian Indians. If their names are struck off the pay-list a note of explanation should be placed in the pay-list opposite No. 12.

Ottawa, 15th. July, 1910.

Sir,

With further reference to the purchase of certain lands in Tyendinaga by the Ontario Limestone & Clay Co. Ltd. of Tellerville, I have to inform you that the area of land purchased by the Company has been finally ascertained to be 250 80/100 acres. This land at $40.00 per acre amounts to $10,032.00 which has been duly entered therefor, under No. 303 dated the 15th. April,1909. According to the terms of sale interest upon the 1st. and 2nd. instalments of $15.00 and $10.00 respectively amounting to $6,270.00 are now past due. Owing to the uncertainty as to the acreage taken the payments made have been divided and applied with interest calculated on each payment instead of on the unpaid balance. The total amount paid on account has therefore been credited, Principal $5,523.52 and Interest $125.33 as follows:-

15th. April,1909. 250 80/100 acres @ $40.00 per acre -			$10,032.00

[illegible],

On April 13th, last, you were written to in connection with the applications for the admission of Peter White Dog and Augustine Little Bull to the Crow-[illegible] Boarding School. No applications for the admission of these boys have been received and, as you were informed in the letter above referred to, the grant for their earnings cannot be paid until such time as their admission is formerly approved.

During the quarter ended June 30th, last, Maxim Bird Eagle, No. 40, and Richard Brass, No. 41, were admitted, the former on May 1st and the latter on June 1st. No applications and medical certificates for these admissions have been received and, as in the two cases above mentioned, the grant cannot be paid.

Certificates of health for each of the four above mentioned and formal applications for admission must be insisted upon at an early date.

I am in receipt of your letter of the 11th instant in regard to the need of certain Indians of your Agency to be furnished witha threshing machine, the cost of which you suggest should be made a charge against the Band's funds; and in reply I have to inform you that before giving a decision in the matter the Department desires you to state the number of Indians who cultivate their land and the area which each has under cultivaton. This information is necessary in order that the Department may know what proportion of the Band would benefit by the proposed expenditure. You should also state what arrangements the whites in the neighborhood make to have their threshing done. In the absence of specific information it appears to the Department it would be unwise to purchase a machine for these Indians. It is thought that they should be able to have their threshing done by whites. You should state whether this could be arranged for and if so, at what cost? Sir ,-

I beg to acknowledge the receipt of your favour of the 8th instant, addressed to Mr. Pedley, with reference to Loch Lomond and Fort William Indian Mission reserve. I note your request on behalf of the town of Fort William for a license of occupation of that part of Loch Lomond situate within the Indian reserve, and also of the land surrounding that part in order that you may be able to prevent any person resorting to the lake for any purpose, as this appears to be the only way to preserve the purity of Fort William's water supply.

In reply I beg to say that, according to the articles of surrender by the Indians of the right of way for the Fort William pipe line conducting water from Lakes Lomond and Crescent, it was stipulated, among other things, that regulations be made to afford such protection to the source of supply and watersheds thereof as may be proper, which would appear to be all that is required.

Sir,

F.W.C.

I have to acknowledge the receipt of your letter of the 4th instant enclosing requisition for supplies for the Aiyansh school.

In reply I beg to say that the articles asked for will be ordered from the Government Stationery Office, with the exception of the bench fittings, axes and stove. It is thought that suitable desks can be made at the school by a carpenter and you are hereby authorized to purchase a stove and the necessary piping at a cost not exceeding $20.00 and also two axes. Some slated cloth for a blackboard will also be sent. Lesson cards for the Simple Readers cannot be had and you will be good enough to so advise Mr. McCullagh.

The Department would like to be advised if these supplies reach their destination. The complaint made by Mr. McCullagh with regard to the non-receipt of supplies in the past cannot be understood as goods have been sent at intervals regularly to the Aiyansh school. The directions to send via Kincolith have been noted.

The Department would like to know whether suitable boards could not be made.

Your obedient servant,

Secretary.

Rev. Sir,

I beg to refer to the return from the St. Joseph's Industrial School for the June quarter. On that return the grant is asked for pupil No. 281, Jack Setting Bull, from May 15, last, but previous to the receipt of your return that from the Blood (R.C.) Boarding School had been received and the latter return showed the boy to have been present till May 21st, up to which time the grant was paid. There is, therefore, a discrepency of six days and the Department cannot pay two grants for the one pupil.

Pupil No. 285, Moise Gladu, was paid for the whole of the June quarter at the Ermineskins Boarding School and, therefore, no grant can be allowed your institution for any portion of that time.

Pupil No. 282, Eusebe Crow Flag (Eusebe Shingsing on the return) was shown by the Peigan (R.C.) Boarding School to have been in that institution till May 31st and the grant was paid them for 60 days. The return from the St. Josephs school shows that he was resident there from May 15th and, therefore, no grant can be allowed you for the month of May as it was previously paid to the Peigan school.

I have to request you to be good enough to run a li[ne] for a pro[posed] ditch at the North-west corner of the Caughna[wa]ga Indian reserve as indicated to you by Mr. S. Bray in May last. That is to say you should follow the natural run [of] the water from the present ditch along the boundary of th[e] reserve.

You will plant a substantial stake 3 ft. 6 inches [in] the ground and another stake at each 100 feet and number them consecutively. Run the level with care; forward to the Depar[t]ment a plan, a profile, your estimate of the cost of the wor[k] and your report together with your account.

It is also desired that you should run a line of levels down the ditch recently constructed by the Municipality on the boundary of the reserve to the Chateauguay River for the purpose of ascertaining if there is any material advantage in constructing a new ditch through the reserve. It is thought that there should be very little difference in the height of the water at the mouth of this river and at the point of the proposed ditch in the reserve.

You may charge $10.00 per day for this service and [for] any team hire at current rates. Your accounts should be [made] out in full with vouchers to support every expenditure. It is considered that the cost of the entire work should no[t] exceed $150.00.

Ottawa,16th. July, 1910.

Sir,

In reply to your letter of the 2nd. instant, I beg to say that the Department is pleased to learn that the Wawaiakum or Campbell River Band of Indians have evinced a desire to start farming operations, with a view to improving their condition.

With regard to the amount at the Band's credit it would seem that you are under some misapprehension. Their interest account stands $568.11. Capital funds can not be expended without authority of Order in Council, and the expenditure to be incurred must be in the way of permanent improvements. The purchase of a farming outfit such as referred to in your letter does not come under this heading, and therefore only the interest moneys ($568.11) can be used.

It is observed that you think that a team suitable to requirements might cost $700.00. The Department considers that you should be able to obtain a good working team for at least $400.00 which would leave $168.11 towards the purchase of harness and implements. The Department with a view to encouraging the Indians, would be prepared to pay accounts not exceeding $150.00 additional from the appropriation in order that you may provide a suitable working outfit.

The above arrangement is the best that can be made

made in the interests of the Band. The Department leaves it to you to decide just what articles should be bought and relies on you to act with discretion and exercise economy.

You should of course have close oversight of all work undertaken by the Indians. The Department will expect you to advise and direct them. You should see that the horses are cared for by a reliable Indian and that proper food and shelter is provided for them. They will have to be well cared for at all seasons of the year. The implements as well as the horses should be housed. The implements should not be allowed to remain exposed to the weather.

Your full report will be expected later.

When you have finished the work in the town-plot of Mostyn in the Muscowequan Indian reserv I have to request you to be good enough to proceed t Kylemoor Station on the Fishing Lake Indian reserve No. 89 and to lay out the portion of land reserved for the purpose into town-lots.

Encl.

The portion reserved is marked on the print enclosed. It consists of the

S.W.¼ of the N.W.¼ section 10.
N.W.¼ " " S.W.¼ " "
S.E.¼ " " N.E.¼ " 9.

The plot is to be laid out in accordanc with the plan approved by the Minister of the Interio of which you have a copy, that is to say in a manner similar to that to be adopted at Mostyn.

A street should be laid out on each side of the Station-ground and then the blocks and streets laid out in regular order. It is considered that the first two rows of blocks should be laid out in lots of 66 feet by 124, with the lanes 16 feet wide through the middle of the blocks. It is not intended to have any half or 33 feet lots laid out. All the remainder of the plot is to be laid out in blocks only; the four cor ners

I may add that, while the Department understands the reason for the appointment of a chief to fill the vacancy created by the death of the late Chief George Beaver, Otinekimow, as there still appear to be two councillors, namely, Cuthbert Steersman, No.31, and Jeremiah Pachenoss, No.27, it is not understood why there should be the appointment of another councillor.

It is observed that he states that he will make two visist a month to the Indians in question until other arrengements are made by the Department to meet the medical needs of the Indians; and in reply I beg to say that the matter of an appointment of another physician will be taken up at a later date. In the mean time you should see that the Indians are not allowed to suffer through lack of professional services.

As no mention is made of the arrengement under which Dr. Kergin and his partner Dr. Richards have charge of the work at Port Simpson for which a salary of $600.00 per annum is paid, it is assumed that Dr. Kergin and Dr. Richards will continue to perform this work for the salary which it was arranged they are to receive.

The Department notes your remark that Dr. Eggert of Prince Rupert would be willing to take up the work which Dr. Kergin has resigned, at a salary of $60.00 per month.

month. It is assumed that there is not a Doctor at Metlakatla and also that there is no physician nearer to that point than Dr. Eggert of Prince Rupert.

The Department notes your remark that it is possible that Dr. McPhee may resign. When dealing with the question of the appointment of a successor to Dr. Kergin, the Department will also look into the salary question in Dr. McPhee's case, and it is hoped that a fair adjustment of the whole matter will be arrived at. If you have any further suggestions to make in this connection the Department will be glad to receive them.

Sir,

I have to acknowledge the receipt of your letter of the 13th instant reporting that the daughter of Hester Wabezee, No. 118 of the Saugeen Band, is roaming about the reserve, sleeping in the woods and begging her food from house to house.

In reply I beg to say that you should at once take steps to have this girl placed either in the school at Muncey or in the Mohawk Institute, at Brantford. If she will go of her own free will you may at once communicate with the Principals of these schools with a view to ascertaining whether they have room for her or not. The Mount Elgin Institute at the present time has its full number, but, in a case of this kind, the Department would be willing to pay the grant for an additional pupil. If the girl will not go willingly it will be necessary to take steps to have her formally committed. In the meantime she may remain with the Indian, Henry Ritchie, if he is agreeable, until such time as final arrangements can be made and the Department will pay him a reasonable price for her board and lodging. I have to acknowledge the receipt of your letter of the 12th instant in further reference to the application for the admission of Joe Lavallee to the File Hills Boarding School.

In reply I beg to say that in view of the circumstances the Department cannot admit this boy as a grant earner. In the first place he is not an Indian. Had he been adopted and raised by the uncle, Otter Skin, upon the reserve it might have been deemed expedient to extend to him the privilege of education in an Indian school, but there would not appear to have been even a formal adoption by the uncle, as the mother evidently raised the child and brought him to the school herself. The Department, therefore, cannot approve this application and you will be good enough to advise the Principal accordingly.

I have to acknowledge the receipt of applications for the admission of five pupils to the Clayoquot Industrial school.

In reply I beg to say that the applications and certificates of health are all satisfactory and on these grounds there is no objection to the admission of these children.

The Principal is, however, carrying a number of children over and above that for which the grant is provided by the Department and the wisdom of carrying too many in excess of the number for which the per capita grant is allowed might be questioned, as these extra pupils will be quite a drain upon the finances of the institution. This is, however, a matter for the Principal himself to decide upon so long as there is ample accommodation and it is understood that the Department is in no way responsible.

Sir,-

I beg to acknowledge receipt of your telegram of the 19th instant, forms upon which to make out your and industrial agricultural statement were sent you yesterday. Enclosed herewith is the statement made by your predecessor last year in order that you may use it for your guidance. You will note that he only represented 335 Indians as being employed in hunting and other industries of these 291 engaged in hunting trapping and fishing earned about $28,000 and though over $20.000 were earned by other industries only 44 were stated as being engaged in them.

You will observe also the the column "Total value of [illegible] al income of the Indians is likely to [illegible] than the amount at which it was given [illegible] family of five.

As this return is needed immediately and it may be impossible for you to get accurate information upon [illegible] lands distant from the agency it will be necessary for you to give to the best of your ability figures in respect to such points by estimate

The enclosure is to be returned.

Madam,

On April 14th, last, you were written to and advised of an increase in your salary and asked for a report upon your work at the Sagamook Indian school. No acknowledgment of this letter has been received, but the Department is in receipt of a communication from Mr. Agent Hagan enclosing a list of articles for which you have asked to provide the mid-day meal and give lessons in cooking to the children. Mr. Hagan has been authorized to purchase these articles, but in the meantime the Department would like to have the report asked for in the letter above referred to and at the same time to say that it is only the intetion to supply a simple mid-day meal to supplement the lunches brought by the children from their homes, and before any further purchases can be authorized it will be necessary for you to make a statement in detail of the number of meals served and the cooking lessons given with the provisions already granted.

The Department furnished you under cover of letter of the 10th March last with a copy of the Contract for bacon and flour for the Norway House Agency as well as a detailed copy of the estimates showing the quantities of these and other supplies to be received from the warehouse allowed for the Bands mentioned therein. The flour, bacon, tea etc., for Little Grand Rapids and Pekangekum were included in the contract and the estimates show it very clearly.

Further, on the 15th April last the Department furnished you with a copy of the contract awarded the Hudson's Bay Co. for the supplying and delivery of supplies to Norway House and other points north not mentioned in estimates referred to and all you had to do was to receive the supplies at the various points.
