MONTCALM WARD FIRE!

True Sketch of the Conflagration in Montcalm Ward, ON THE 30th MAY, 1876.

As our Directory was being placed in the binder's hands, this Tuesday, May 30th 1876, we have to chronicle a most serious calamity which has befallen this ancient city. The fire fiend has again visited us with almost the same results as 1845, 1866 and 1870, this time in Montcalm ward, St. Louis suburb. The space destroyed covers from the Glacis, at St. Eustache street, near St. John's Gate to the Tower Field west of Scott street, in length and in breadth extends from rear of Grande Allée, Lapham Terrace, to rear of Nouvelle (lately called) St. Patrick street.

The streets entirely obliterated and partially so are:

Artillery, Berthelot, Burton, D'Artigny, Lachevrotière, Plessis, Prevost, St. Croix, Scott, St. Amable, St. Augustin, St. Eustache, St. Julie, St. Michael, St. Margaret, Drolet and Claire Fontaine.

The number of houses destroyed as near as can be ascertained amounts to 411 and the number of families rendered houseless about 600, forming a total of about 3000 souls.

This is the nearest approximation that can be made up to the present moment.

The Insurance as far as can be ascertained are as follows, taken from the *Morning Chronicle* of to-day:

The fire took place it is said in Boivin's hangar, in rear of Scott street, at about 3 P. M., and in a few short hours the destruction as stated above was completed.

Royal Canadian, \$18,000; Stadacona, \$35,000; Quebec, 50,000; Royal (English,) \$40,000; London, Liverpool and Globe, \$23,000; Western, 16,000; Niagara District, 10,000; Commercial Union, \$2,500; North British and Mercantile, \$7,000; Etna, \$3,000; Hartford, 1,000; Phoenix, \$1,800; London, 500; Queen, \$4,000; British American Insurance \$15,000; Provincial, \$8,400; Citizens, \$4,600; Scottish Commercial, \$12,000.—Total, \$251,700.

The official report of the total number of houses burnt is 411, but there is reason to believe that the number will foot up to 430, as the official report appears to have been based upon the data of last year.

This report however is as follows:

Claire Fontaine 4; Burton, 11; Prevost, 10; Plessis, 10; Scott, 67; Drolet, 17; Berthelot, 18; Lachevrotière, 27; St. Michael, 33; D'Artigny, 29; St. Croix, 25; St. Augustin, 14; St. Eustache 7; Artillery, 51; St. Julie, 50; St. Margaret, 9; St. Amable, 20.—Total, 411.

The total loss of property and effects is estimated at about a million of dollars.

This sad calamity has happened too at a time, when the class who are the greatest sufferers, had hardly earned a dollar since last fall, just emerging from a long and dull winter, and one of the most backward spring experienced for many years.

We sincerely sympathize with the sufferers, and hope that the charity and assistance so nobly shown and tendered during former calamities of a like nature, may in this instance be again forthcoming.

P R E F A C E .

In presenting the **Eighteenth Edition** of «**Cherriers' Quebec Directory**,» our first utterance to its patrons, is that of congratulation at the Numbering of the City being a *fait accompli*, a consummation long wished for by Residents, Travellers, Agents, &c., but by none more devoutly than the Compiler of the present work, which although in the first instance necessitating an entire re-cast of the Street Directory, yet, for all future editions, will enhance its value to those living within and without this Ancient City and *Mecca* to many Travellers. This Public benefit is a fitting memento of one of the most popular Mayors and Staff of City Fathers, that has as yet received municipal honors and the confidence of its inhabitants. The nomenclature of many of our streets in different wards being similar, was a source of confusion and annoyance; this has been also remedied, by judicious selection of appropriate names in place of those changed. The list of changes in full is printed on the page facing the Street Directory and also at pages 24-128-188.

The encouragement with which the Directory has hitherto met with, has stimulated the Compiler to fresh exertions year after year, so that its size and utility has far exceeded our expectations, so much so, that the work as now issued is not merely a Directory, but a *vade mecum* to the business man, and to all who visit our City, whether for profit or pleasure; add to which its circulation has materially increased, both in and out of the City, affording that publicity which our advertising Patrons, are so anxious to secure.

The amount of matter in the present Edition, to be exact and reliable could not be got through in a hurried manner, as corrections and changes often occurred even to the last week of publication. The proprietor being a resident of the City, has attended to its compilation *personally*, thereby being independant of the

shortcomings of outside assistance; and it can be safely asserted, that there is nothing either borrowed, copied or taken for granted in the whole work, all has been from original sources. Directory making is like many other things, open to competition, the field being open to all; others indeed have appeared to contest our favor with the public, but we would simply ask the intelligence of a child to compare the two productions side by side. We are proud to say, that our last issue was the largest ever yet sent forth in this City of *any* Quebec Directory, a fact which our Printer, Bookbinder, and Paper Maker can vouch for. The present Edition, will exceed that of the last, and its advertising patronage fully fifty per cent more than any previous issue. Two thirds of the Present Edition, were subscribed for on delivery of the 1875 edition, this certainty of success has enabled us to make our arrangements earlier and issue much sooner than formerly. We thank our patrons, for this appreciation and mark of confidence, and hope it will be extended to the next edition. The work has been made as correct as possible. We have worked hard, and faithfully in return for the Patronage bestowed upon us, and can safely say that the Directory of 1876-7 is second to none in the Dominion. The Compiler has to thank many of the friends to the work, for valuable aid and suggestions, many of which have been carried out, and also the heads of various departments and societies for their courtesy: the Compiler will always be grateful, to those who can suggest or aid in rendering the work still more complete and reliable.

It is to be hoped, that ere the next issue 1877 sees the light, that many of the City improvements now going on or contemplated, may be completed: such as, our Graving Docks and Tidal Basins, completion of the North Shore Railway, at least to Three Rivers, the remaining portion of the Kennebec Railway, the extension of the Gosford Road towards Lake St. John, the widening of John Street, completion of the New Market Hall, the proposed Dufferin improvements, the opening of a New street parallel to that of St. Paul on the water side, and the erection of Stores and Warehouses in Dalhousie street, just opened. The completion of these and others in projection will still add to our present natural advantages and keep our prestige as the First Maritime Port of the Dominion.

In conclusion, we again thank our Patrons and Advertisers, for their liberal encouragement, and hope by continued efforts to merit its continuance, and also to add still more to the utility of **CHERRIER'S QUÉBEC DIRECTORY.**

WEIGHTS AND MEASURES.

Previous to 1828, there were used in Great Britain as legal standards, the Ale Gallon,

Wine Gallon and Corn Gallon, of all different capacities; also the Winchester Bushel for dry measure, besides Heaped Measure; all of these are now abolished, and but one standard Bushel and Gallon for all measures, both dry and liquid, is used, called the Imperial Bushel, one eighth of which is the Imperial Gallon.

The change from the old wine to the Imperial is not compulsory till 1880, up to that time the old wine gallon may be used by those who desire to do so, upon the condition that all bargains effected by it shall be specially mentioned.

The Imperial Bushel is an upright cylinder, whose internal diameter, is 18,789 inches and depth 8 inches. The Imperial Gallon is one-eighth of this, and cubical contents equal to 10 lbs water. We may quote from this, as Imperial Measure, "a pint of water a pound and a quarter;" and from the weight of water given below corresponding to the different measures, it follows, that if measures were lost, we could find their equivalents by weight of water, and if weights were lost we could find their equivalents by cubical contents of water.

The standard of the United States consists of two measures, namely the Winchester Bushel for dry measure and the old English Wine Gallon for liquid measure. The Winchester Bushel, so called because the standard measure was formerly kept at Winchester, England, is an upright cylinder, whose internal diameter is 18½ inches, and its contents equal to 2150 2-5 cubic inches and equal to 77,627 lb. of pure or distilled water at a temperature of 62 and barometer at 30.

The proportion between the Imperial measure and that of the United States is very simple and convenient for reduction, being nearly 5 to 6. Thus 5 Imperial Gallons are equal to 6 Gallons United States Standard. The Imperial Bushel is about 1,32 part more than the Winchester, 31 Bushel Imperial being equal to 32 Winchester.

There are still used in the United States, the old Beer or Ale Gallon of 282 cubic inches, equal to 10, 18 lbs. of water and a New York State Bushel of 2211-84 cubic inches, and gallon of 221-184 cubic inches, or 8 lbs. water. All transactions involving the measuring or purchasing of liquids, &c., should state the measures understood. By an Act of a Canadian Parliament, the following are the legal weights per bushel of the different kinds of grain: but when bought or sold by weight shall be specified by the cental (100 lbs.) and parts of a cental.

1 Canadian Minot = 1 0.4 Imperial Bushels.

A Bundle of Straw 12 lbs. of Hay 15 lbs., and if tied with a withe, one pound additional.

The new Copper Coinage of Great Britain, 1860, is composed of 95 parts Copper, 4 of Tin and 1 of Zinc. A pound of this is coined into 48 pence of 80 half-pence or 160 farthings, and the half-penny measures one inch in diameter. The Canadian Cent is the same diameter, and 100 of them weigh one pound.

In the absence of Apothecaries weights and measures, the following items are worth remembering:

EXCHANGE CALCULATIONS

In the absence of tables, the following calculations will be found useful; and as there are various modes of calculating Exchange, we choose the following as being the most easily understood. As before stated, such are made upon the old base or par, rendering it necessary to convert all sums to that standard, to enable us to find the required result. Four shillings and six pence sterling and one dollar at old par are equivalents; and as that relative value has been altered, but still retained as a base of calculation, it follows that 9, 9½ or 10 cent, premium quoted, means, 9, 9½ or 10 cents on the dollar, or dollars, on the hundred, or pounds, &c., in addition to the old par value; and as in these calculations we shall use the dollar as basis, quotations as above will read as \$1.09, \$1.095, or \$1.09½ and \$1.10; and the sums are to be multiplied or divided by the required premiums, written in a similar manner.

Sterling into Dollars and Cents.—At any premium. Multiply the pounds by 40, and divide by 9; this result gives the sum in dollars at old par; then multiply this result by the quoted premium, expressed as before stated.

Example.—What must I pay for a Bill of Exchange for £300 sterling, the quoted rate being 8 per cent, or \$1.08?

Solution.—£300 multiplied by 40 and divided by 9, gives \$1,333.33 at old par; then 8 per cent, added to this, or multiplied by \$1.08 gives the answer, \$1,440.00.

Dollars and Cents into Sterling.—At any premium; (this operation is the reverse of the preceding). Multiply the dollars by 9, and divide by 40; this sum will be dollars into sterling at old par, which divided by the quoted premium, gives the required result.

Example.—What amount of Exchange on London can I buy for \$1,440.00, the quoted rate being 8 per cent, or \$1.08?

Solution.—\$1440, multiplied by 9, and divided by 40, produce pounds at old par, this sum, being divided by \$1.08, gives the answer, £300 sterling. **Note.**—When shillings and pence are in the sterling amounts to be operated on, it will be necessary to reduce them to the decimals of pound. A very little practice will soon familiarize one to the easiest method;

say for 17 shillings and six pence, then 10 is £5. then say 5s. half of that or £125; these added, give £875, the required decimal. This mode will expedite all calculations in other denominations, especially where there are fractional quantities.

EXCHANGE WITH FRANCE.

London and Paris par of Exchange, one pound sterling equal to 25 francs 57 centimes. United States and Paris.—20 francs Louis Napoleon equal to \$3.84 or one dollar in gold, 5 francs 21 centimes. The real value of the franc is about 9½d sterling and the real value of the pound sterling is 25 francs and 26 centimes in gold, and 25 francs and 26 centimes in silver.

CANADA AND FRANCE.

One franc=18½ cents. Five francs=93½ cents or 4s 8d. Canadian One dollar.=5 35-100 francs. French invoice are reduced to dollars and cents for Canadian Custom Entry at the rate of 18½ cents per franc, or decimally expressed. 186.

Francs, into Dollars at Par.

Multiply the amount by the decimal, 1866. Dollars into Francs at Par.

Divide the amount by the decimal. 1866.

Bank Exchange here with Paris assumes a par of 25 francs to £1 sterling governed by quotations of sterling Exchange, with ½ per cent, additional for difference between Paris and London; thus, if sterling Exchange be 10½ our Bill must be based on 11.

Question.—I have a Bill from Paris to pay, amounting to 216. 05, sterling Exchange being 10½ per cent; what must I pay here in dollars and cents?

Solution.—216. 05 francs divided by 25 produce £8 12s. 10d sterling and this amount into dollars and cents at 11 per cent. (½ par more than the quoted rate), produces \$42.63, which I have to pay, to settle my account with Paris.

Canadian Pounds into Sterling at 9½ or New par of £1 4s. 4d. to the pound sterling. Multiply by 60 and divide by 73.

Sterling into Pounds Canadian at 9½ or New par

Reverse the preceding rule or to the sterling add 1-5 and 1-12 of that fifth, equal to 21-2-3 per cent, of the whole amount.

Sterling into Dollars, at 9½ or New par

Multiply the sterling by \$4.866, or divide by the decimal 2055.

Dollars into Sterling at 9½ or New par

Divide the dollars and cents by \$4.866, or multiply the amount by the decimal. 2055; the result will be pounds and decimals of a pound.

 upwards, according to the location of sleeping
 berths. All have equal Saloon privileges.
 Return tickets at reduced rates.

Steerage Passage at Lowest Rates.

Pre-paid tickets issued to bring passengers
 from principal points in Great Britain and
 Ireland, to any Railroad Station in the United
 States or in Canada, at low rates.

Steerage Passengers

are supplied with an abundance of food, pro-
 perly cooked and which is served to them by
 the company's stewards three times a day,
 but they are required to provide themselves
 with a Plate, Mug, Knife, Fork, Spoon, Water
 Can, and bedding, all of which can be bought
 at a small price, at the port of embarkation.

Steerage Passengers are provided with
 berths to sleep in, each grown up person
 having a separate berth.

Ten cubic feet of baggage is allowed for
 each adult passenger free of charge.

Steerage tickets can be obtained for passage
 from principal points in Great Britain and
 Ireland, to any railroad station in the United
 States or in Canada. Tickets can be obtained
 at favorable rates, from the Agents of our Line
 throughout the country.

Notice—To passengers going to Euro-
 pe and who have purchased tickets from our
 agents or who wish to buy their tickets in New
 York.—Upon your arrival at New York avoid
 runners and hackmen at the depots and come
 direct to the Company's Office, 69 Broadway,
 or go to their Offices on Piers 44 or 47, North
 River.

Steerage passage \$6 U. S. Cy.—Prepaid
 steerage tickets from England, Ireland and
 Scotland at the lowest rates. Drafts issued
 from £1 upward at current prices.

The most southerly route has always
 been adopted by the National Line.

Experienced surgeons accompany our steam-
 ers, also stewards and stewardesses for at-
 tendance on steerage passengers.

NIAGARA DISTRICT MUTUAL FIRE INSURANCE COMPANY OF CANADA.

ESTABLISHED IN 1836.

President, T. MACK, M. D.

Vice-President, JAS DOUGLAS, Mayor of St. Catharines, Ont.

Board of Directors, Province of Quebec, W. Glendinning, P. P. Martin, G. Joseph, O. DeGuise

Special Feature.—This Company has established a new plan of Insurance whereby 75 per cent only of the premium is asked of the regular stock rate—a note being taken for the other 25 per cent—and judging from the past experience of the Company, extending over a period of 40 years, it is thought that no further call will be made. The above plan being for an insurance for one year.

On the three year system, a note for the whole premium is taken on which a first call of 10 per cent is paid when granting the interim receipt—and an assessment made each succeeding year during the continuation of the policy—according to the losses sustained. The Company being Mutual it furnishes insurance at cost price.

A. DE LAET, General Manager.

LES

"ÉTRENNES."

A pamphlet of choice literature written expressly for the work and published annually by A. B. CHERRIER. Unquestionably the best advertising medium for Christmas and New Year; has since the first year of its publication in 1870, been patronised by the best mercantile houses of Quebec and Montreal. Gratuitous circulation of 10,000 copies. Will be published early in the month of November 1876. District circulation 5,000. City circulation 5,000.

Business men, give it in due time a share of your ADVERTISING PATRONAGE, if you will convince yourselves of its value as an Advertising Medium. Orders will be solicited by the publisher early in November next. Published annually in Montreal and Quebec, and alternately in English and in French.

A. B. CHERRIER,
 Publisher.

DELMONICO RESTAURANT

CORNERS

PAUL, PETER & SAULT-AU-MATELOT STREETS,
LOWER-TOWN, QUEBEC.

This DELMONICO RESTAURANT is the only one of the kind in this city. Is carried on a first-class Paris style, comprising Ladies' and Gent's private Dining Rooms, for small parties. Also, Table d'Hôte.

All dishes prepared by a first-class French cook, late from Paris.

Ladies and Gents waited upon by respectful and attentive waiters.

Being at proximity of the Commercial Centre, will be open from SIX TO NINE, for the accommodation of the travelling public.

FILES—We have had the satisfaction of receiving, by this day's English mail, intimation that the file of the *Quebec Mercury* bound in yearly volumes from its foundation by T. Cary, senior, bar-

rist, first editor and proprietor, in January, 1805, (and grandfather of the present editor and proprietor), has been received complete and in good order at the library of the British Museum in London, where it will be preserved with all the other historical works open to the British public in that valued and venerable institution. Canadians can thus at any time refer their friends of correspondants in England to the *Mercury*, for reliable records of local events during recent or remote years; and it shall be our endeavor always to make it as full and authentic a diary in the future as it is admitted to have been during the past. Complete files of this paper are also among the archives of the Parliament of the Dominion of Canada, at Ottawa, and that of the Provincial Legislature in this city. *Mercury*, January, 1876
