First, there was a breaking out on his little body, and then he just seemed to waste away before our eyes. We were told it was severe bowel troubly but though everything possible was done to save him, poor baby appeared to be beyond hope of recovery. He was always in pain, with severe diarrhoea, and he got so thin that you could have almost blown him away, as the saying is. Whatever kind of food we gave him returned. He was very restless, and hardly got any sleep. We were constantly in fear that baby would die when we were not watching. We had sat up with him all one might, when next day by a lucky chance, we read about Dr. Cassell's Tablets, and at once sent for some. Very soon there was improvement, the sickness stopped and the diarrhoea, and from that time baby got better and better till now he is as well as any child could be."

The Austrians and Germans speak of storming Russian positions, probably after the Russians had evacuated them. The Teutons advanced on a front of 15 miles west of the Vieprz in the district of Chiniel and crossed the Vistula at several places north-

On the Upper Bug the Russian defenders of the bridgehead at Sokal

The Trap That Failed

The report of the Manitoba Royal Commission, of which Mr. Justice Perdue is chairman, was made public yesterday. It is concurred in by Mr. Justice Galt, who was not in agree ment with his colleagues upon many points during the hearing before them. The finding in favor of Mr., Norris will therefore, we believe, command almost universal respect.

It will be remembered that Mr. Fullerton, K.C., representing 14 members of the Manitoba Legislature, charged ope. A meeting was held recently corrupt bargaining between the late and resolutions were passed with a Roblin government and the then opposition members of the legislature. He averred that the Roblin government bribed the opposition with \$25,-000 in cash to abandon their election protests. An additional \$25,000 was activities near the front. Chambers testified before the commission that Norris knew nothing about the transaction. The claim that he was authorized to act for the Liberal party was based entirely upon the testimony of Attorney-General Howden, who swore that Norris told him Chambers was acting for the party. Norris in the witness box gave Howden the lie direct.

# Britain in the War

Those who are inclined to minimize the part played by the British Empire in the war, forget that it cannot be measured by the assistance it has tendered in the field. Britain was unprepared for a war of this magnitude. She had an expeditionary force composed of highly trained regulars, but of small strength as compared with the hosts called to the colors by continental countries. Without taking into account the raising and equipment of the millions of men that are now under arms, or at the front, it must be remembered that the British fleet, immediately on the declaration of war. took command of the sea and has since maintained its supremacy. The German naval and mercantile flags have disappeared from the oceans and German ships are lying idle in the harbors of the world. Meantime the allied nations are free to conduct their seaborne trade and can draw at will from the resources of neutral nations. More even than that, Britain has willingly shouldered the immense burden and Windhoek. That is the Usual Condition of Per-

sons Afflicted With Anaemia. Anaemia is the medical term for oor, watery blood. It may arise from variety of causes, such as lack of exercise, hard study, improperly ventilated rooms or workshops, poor di-gestion, etc. The chief symptoms are extreme pallor of the face and rums, kapid breathing and palpitation of the heart after slight exertion, headaches, dizziness and a tendency to hysteria, swelling of the feet and and a distaste for food. All should, be promptly treated with Dr. Williams' Pink Pills. These Pills make new, rich blood, which stimulates and strengthens every organ and every part of the body. Dr. Williams Pink Pills have made thousands of anaemic people bright, active and strong. The following is one of the many cures. Mrs. Phillips, wife of Rev. W. E. Phillips, Princeton, Ont., "Some years ago, while living with my parents in England, I fell a victim of anaemia. The usual com plications set in and soon I becam but a shadow of my former self. My mother, who had been a former nurse of many years' experience, tried all that her knowledge suggested; tonics of various kinds were tried, and three loctors did their best for me, but without avail, and a continued gradial decline and death was looked for. "Later my parents decided to join brothers in Canada, and it was confidently expected that the ocean voyage, new climate and new conditions would cure me. For a time I

lid experience temporary benefit, but was soon as ill again as ever. I was iterally bloodless, and the extreme pallor and generally hopeless appearance of my condition called forth many expressions of sympathy from friends whom we made in our new home on, Ont. Later a friend urged try Dr. Williams' Pink Pills, in Acton. Ont. and although in a condition where life eemed to have little to hope for, I decided to do so. After using three boxes I began to mend. Continuing I pegan to enjoy my food, slept almost normally and began to have a fresh nterest in life as I felt new blood once again running in my veins. Dr Williams' Pink Pills brought about a omplete cure and I am today in robust health. My husband is rector of this parish and I have recommended the use of the pills to a great number of people with whom we have come into contact in the course of my husand's ministry, for we both know that Dr. Williams Pink Pills can do."

Farmers Busily Engaged in Golden Harvest, Best for Years.

THRESHING VERY SOON

Great Advance Made by Agriculturists During Fine Weather.

In nearly every harvest field in Onengaged in cutting the golden crop of or gathering it into while others even more advanced were cutting the best crop of barley ever grown in the province. Some there are a few, have not yet garnered all their hay, the yield of which has been away ahead of anything hoped for in the earlier part of the season. Probably there never was in Ontario

a day in which so much advance was made along harvest-and general farm lines as yesterday in the cutting and stooking of wheat, the drawing of it in, the cutting of early fields of bar-ley, the clearing of roots, cultivating the fodder corn already from four to six feet high, and wonderfully luxuriant, gang-plowing the hay stubble, and the hundred-and-one other things common to the farm. While not an ideal day for drying grain, barely enough wind to stir the leaves, it was great ripening weather, and all over the midland counties at least the mag-nificent fields of oats and barley took

on a little different hue. In a week barley cutting all over Ontario will be well advanced, and in ten days the oat harvest will be in full swing. The click of the binder will be followed by the hum of the thresher, and in a fortnight the greatest crop of wheat Ontario has seen in 25 years will be pouring into the hoppers.

# JAPANESE CABINET OFFERS TO RESIGN

Bribery Charges Against Min er Precipitate Step by Premier Okuma.

CCEPTED BY MIKADO

Proposal Made for Recon struction With Okuma as Chief.

TOKIO, July 30 .- The Japanese Cab net, headed by Count Okuma, the pr mier, has tendered its resignation to En peror Yoshihito. This action followed t resignation yesterday of Viscount Kantake Oura, minister of the interior, f lowing an investigation by the minist of justice into bribery charges resulting from the parliamentary elections 1

tioned by the emperor after a report on the situation had been made to him by Count Okuma.

Premier Okuma, believing he should hold himself responsible for the acts of the members of his cabinet, was the first to tender his resignation. The other ministers immediately decided to follow the example of their chief. After receiving Count Okuma, the emperor summoned the elder statesmen for a conference. A cabinet change at this time is unpopular with the public because of the war.

Two cases have been mentioned as responsible for the crisis. The first was the charge that 10,000 yen (\$5000) had been offered Viscount Oura by a candidate for the house as the price for keeping a rival candidate out of the field. The minister of the interior denied having accepted this bribe, but K. Hayashida, chief secretary of the lower house, who was arrested Wednesday, has been quoted as admitting receiving the money and distributing it for campaign purposes.

The second case involves two representatives charged with accepting bribes to desert the Selyuk, or Conservative party, and support the government in its campaign for an increase in the army.

The elder statesmen will meet tomorrow, and it is considered probable they The elder statesmen will meet tomorrow, and it is considered probable they will advise that Count Okuma be invited to retain the office of premier and reconstruct the cabinet. The name of Lieut.
General Count Terauchi, Governor-General of Kores, also has been suggested, however, for the post of premier.

# CANADIAN BUSINESS **CONTINUES TO MEND**

Wholesale Merchants Look for Increased Orders From Present Prospects.

# **FARMERS PROSPEROUS**

Improved Position of Allies Also Important Factor in Trade.

Toronto reports to Bradstreets's show that business is improving and that wholesale merchants are looking for increased orders in the future. The volum of trade is in excess of the amount done at this period last year. Collections are good, especially in the rural districts. Drygoods merchants say that business is better at the present time than it has been since the declaration of war a year to. The factors making for these conditions are the satisfactory progress of the allies and good crops in Canada. Ontario farmers never had a better out-look while reports from all over the Amlook while reports from all over the American continent speak of wonderful yields. Drygoods prices are advancing almost every day in one line or another, in the grocery business trade is good and prices are firm. Travelers report that things are in spiendid snape in the country. They find the farmers have lots of money, and country accounts of coun.ry. They find the farmers have lots of money, and country accounts of local houses are considered just as good as they ever were. In the manufacturing centres, however, collections are inclined to be a little slow. Hardware dealers say no change is discernible, in the conditions of their trade. Business is only fair, but collections are as good as they have been at any time during the last few months, in fact they are slightly better. The hardware trade does not look for any increase of orders during August. In this business things are quiet in the rural Ontario. Altho the Ontario oats crop has been damaged by smut to the extent of 15 per cent., other crops are coming along splendidly and the farmers will realize good prices it is expected. Produce prices are keeping steady, but business is only fair. Good cat le are in excellent demand at pre-1 vious levels with slight advances in some cases. Business is picking up in the manufacturing centres owing to the re-

cases. Business is picking up in the manufacturing centres owing to the receipt of large war orders from Britain and her allies. Many Ontario firms have benefited. Railway earnings are improving and the money market is featured by a gradual strengthening of rates as the crop-moving period approaches. as the crop-moving period appro Canadian steel mills are getting a deal of business from the old c Canadian steel mills are getting a good deal of business from the old country for steel and iron aroducts, and local authorities believe Canada is finding a permanent place in the British market.

DEMAND FOR "RAILS"

St. Paul Was Weak Spot Ow. ing to Cut in Dividend.

NEW YORK, July 30.—Trading in the stock market today was characterized by less extravagant speculation in war issues. 'Yesterday's violent reaction caused traders to proceed more cautiously and the outside demand fell off. The instability of these stocks at the high level established on the week's bulge was shown by their erratic fluctuations today. For the most tic fluctuations today. For the most part they held under the high records made 'vesterday. Nevertheless they retained the greater part of their recent large gains. The volume of business diminished from the exceptional figures of the two preceding days, amounting to \$50.000 shares.

At the opening efforts to resume the

upward movement met with temporary success. On the early rise there were gains of six points in Bethlehem Steel, 81/4 in Crucible Steel, 9 in American Coal Products and 3°or 4 points in Republic Steel, Allis Chambers, Westing-house Electric and others. The changed attitude toward these shares, however, was shown quickly. Large offerings were made at the high figures and there was a reaction.

Demand for Rails.

As the position of the industrials became more uncertain demand for railroad stocks increased, and under the lead of Reading a number of substantial advances were achieved. Later there were recessions, especially among the western railroads. St. Paul was heavy owing to the reduction in

Business on the stock exchange was generally restricted, owing to the holidays tomorrow and Monday. # WHEAT RECOVERED AFTER WEAKNESS

Reports of Sprouting and of Rains Encouraged Bulls.

SMALL NET ADVANCE

Bears Insist Spring Crop is Likely to Be Record One.

CHICAGO, July 30.—Despite a heavy downward swing at one time, the wheat market today averaged higher, influenced by a renewal of wet weather delaying and damaging the winter crop Prices closed firm, 1-4 to 5-8 to 3-4 above last night. Corn finished un changed to 1-2 higher, oats up 1-8 to 1-4 to 2 7-8, and provisions varying from five cents decline to a like advance.

Reports of wheat sprouting in the shock and of rains interfering with threshers, gave the bulls a decided advantage to start with, but short sellers were unusually confident, and subjected the market to a swift flood of offerings. Bears made their stand chiefly on assertions from a leading expert that the spring crop seemed likely to equal or exceed the record yield of Reports of wheat sprouting in the that the spring crop seemed likely to equal or exceed the record yield of 1912. This prediction was coupled with

the opinion that a serious visitation of black rust appeared.

Corn Was Strong.

Unfavorable weather had a strengthening effect on corn. The market, however, was swayed to a noticeable degree by the action of wheat. degree by the action of wheat. Oats were in demand thruout the day, especially by July shorts. The July options showed at one time an advance of 3 1-4, compared with last night. Provisions were steadied by reports of export sales of lard. An-other sustaining influence was the firmness of quotations on hogs.
