#### CURRENT TRADE CONDITIONS. ONTARIO.

THE improvement in general business, reflected by Bradstreet's a week ago, is modified this week by the remark that there is less of the speculative spirit shown in current transactions. This is a hopeful sign, for a revival that is not founded on sound business principles is not wanted. Whether, as a result of restoration of confidence, or from 'other causes, there is a stronger feeling in lumber circles. Enquiries from the United States, which have been of a hand-to-mouth character all season, are taking on more of the old time courage. "We have shipped this week," said a member of a large wholesale firm, "one hundred cars of lumber, the order for which reached us a good time ago, but which has been held until now at the request of the buyers." A stiffening of prices in better grades is an evidence of improvement in trade, for, when business is depressed, the higher-priced article is the first to suffer, consumers satisfying themselves with goods of a cheaper character. Whilst it cannot be said that quotations are absolutely firm, there is less inclination to shade prices, even under temptation of securing orders. Recent visitors to the lumber territories of the province have expressed the opinion that stocks are not heavy, if there was anything approaching a reasonable demand, yet, with the new cut coming on, there will be found to be sufficient to meet all requirements. It may be, however, that a revival of trade will come with greater rapidity than was anticipated, and such a thing as short stocks is possible. As against this cheery feeling, that is one good step towards an improvement in trade, and which it is to be hoped is genuine, we quote the view of a large Ottawa mill man, whose opportunities for sizing up the situation are the best. He writes the LUMBERMAN : "Stocks are not moving as actively as we would like to see them. Our people tell us, this is due to the fact that lumber is in very slight request in the United States markats, and also in some of the foreign markets, particularly those of South America, where our stock has usually found sale. Under these circumstances, as you can easily understand, they are quite satisfied if they can hold present prices. From all we can learn, the improvement in business, so far as the lumber trade is concerned, is more newspaper talk than actual reality. Any improvement, however, would not be felt by the lumber trade immediately, as it is the last to get the benefit of improved trade conditions. Our people tell us that they are looking for a better feeling in the fall trade. Whether or not their hopes will be realized remains to be seen."

#### QUEBEC AND NEW BRUNSWICK.

A somewhat discouraging feature of lumber as effecting big shippers, is the report that comes from across the Atlantic telling of the continued unsettled nature of the deal trade. Shipments from this side of the Atlantic are reported to be reaching the Old Country, but are finding large stocks on hand there. The view is expressed that it would have been better if these had been witheld for a short time. Aside from this fact, however, whilst the British market does not show the improvement that had been hoped for, there are indications that business is on the mend. Shipments are going forward from Quebec in good numbers. New Brunswick lumbermen, so far as they are resting on British trade, find conditions the same as with Quebec shippers, there being no boom in British markets. This quietness is offset by a demand of no small size from the United States, and that country is absorbing a good quantity of New Brunswick lumber at prices that are deemed fairly satisfactory. This class of trade is likely to keep up throughout the season.

#### BRITISH COLUMBIA.

The output of precious metals in British Columbia. will, this year, it is said, be the greatest in the history of that province. This boom is giving a stimulus to trade generally on the coast, and lumbermen are hoping to reap some of the benefit. The actual sales and shipments of lumber are of good size, but the weakness of the trade is the somewhat profitless prices that obtain for many classes of lumber. The lumber trade of the Pacific coast will not assume that robust condition that is merited by its great lumber resources until mill men get together and fix on a better basis for prices. The shingle trade, which has been terrioly low down, shows signs of revival, but, whilst stocks are going out, prices do not stiffen to any material degree.

#### UNITED STATES

The continued depression that has overshadowed the lumber trade for a year and more past is less observable within a week or two. Generally speaking, increased confidence is having a healthy influence on lumber. Capital is not so tardy to seek investment. A good sign of better conditions is also shown in the increased earnings of the railroads for the first four months of this year. These conditions must eventually, if not immediately, place lumber in an improved position. When, however, we come to examine current transactions at individual lumber centres, it cannot be said that the situation has changed very much. Buying is engaged in with somewhat more freedom, yet the actual sales made are still on a very careful basis. The week's reports from Michigan do not show that things are booming very much there; Buffalo records indicate that little lumber is going out from that point, and someone has expressed the view that unless business improves there will be no need for green lumber at that port. One benefit is coming from the renewed confidence, and that is that prices are perhaps a little stiffer. The increased prices for yellow pine are being well maintained.

No. 23.

#### FOREIGN.

A study of British markets shows that business at London, where trade has been long depressed, is a little easier. What sales are being effected are at current rates. The deal market is the least healthy of any, and shippers are too often ready to accept an undercut in prices. At Liverpool business has been a little quieter than usual. The season's shipments of pine deals from Canada are arriving, with little immediate need for this addition to stocks, as stocks on hand are still of fair size. Trade has been quieter than usual at Glasgow, and it is said of the first of the season's Canadian deal shipments that have just come to hand, that these have attracted little attention, sales being very difficult to negotiate. A report that comes to the LUMBERMAN from a Canadian concern, considerable of whose product reaches South America, does not tell of business being in good shape in that country, and unless a turn in the tide takes place exports to South America will be of a restricted nature.

#### HARDWOODS.

Business of the week in hardwoods bas hardly been up to the average. In the New York market, trade has been quiet and enquiries from there and other points have dropped off. Building operations in Philadelphia are growing, the permits of the past week showing an increase of over \$\$00,000. Hardwoods there are in fair demand, a little more doing in ash than formerly. The furniture trade is variable, at times brisk, and again showing signs of restriction. As building operations of the season progress, the demand for maple, which has been fair, is likely to improve.

#### STOCKS AND PRICES.

CANADA.

Willard Smith, of St. John, N. B., has purchased a large lot of hemlock, birch and spruce logs from John A. Humbell,

Sch. Aida has sailed from Vancouver. B.C., for Shanghai with 637,000 feet of rough lumber and 2 spars, valued at \$6,600.

Graham, Horne & Co., Fort William, Ont., will cut about 10,000,000 feet of lumber this year, and will look to the east for a market for most of the product.

The Moiles mill at John Island, Georgian Bay, owned by James Colclough, of Saginaw, Mich., has contracted to cut logs the lest of the season, for the Spanish River Mill Co.

At a recent sale of Fox, Morgan & Co., London, Eng., a large line of 3x9 3rd spruce, Canadian, made, with two exceptions, L6 10s, which is a slight improvement on the two previous sales.

Exports from St. John N. B., for the past week were as follows : To British ports nearly 3,000,000 feet of deals, etc., and two United States ports over 4,500,-000 feet of long lumber, nearly 5,500,000 lath about 2,000,000 shingles, and over 700 cords of wood.

The Liverpool correspondent of Timber, current issue, reports the arrival of a large parcel of pine deals, ends and boards, from Montreal, for Robert Cox & Co.: large parcels of similar goods per the Laurentian, for other purchasers, and a parcel of spruce deals from Quebec, for Lightbound, Rigby & Co. The Balasore from St. John, N. B., is discharging spruce deals and birch logs, the cargo recently sold by auction by Messrs. A. F. & D. Mackay. The Ulando, from Halifax, has also sold a part cargo of spruce deals and birch timber, the former for Messrs. Pierce, Watts & Co., and the latter for Joseph Owen & Sons.

Exports from St. John, N. B., are as follows : Per ss. Coquet, for Glasgow, Scotland, by W. M. Mackay, 1,980,527 deals and battens, 14,266 scantling, 113,-\$65 ends ; per bark Antoinette, for Limerack, Ireland, by W. M. Mackay, 779,802 deals and battens, 26,559 ends; pei sch. Clifford C., for Plymouth, England, by Stetson, Cutler & Co., 500,000 boards, 64,998 plank, 300,000 shingles, 30 hemlock boards; per sch. G. H. Perry, for Vineyard Haven, Mass., by Stetson, Cutler & Co., 156,823 plank; per sch. A. Gibson, for Boston, by A. Cushing & Co., 85,580 plank, 34,000 deals, 30,577 plank ; per sch. Uranus, for Boston, by John E. Moore, 492 plank ; per sch. William Wilson, for New York, by Dunn Bros., 35,-279 plank, 111,986 deals, 843,900 laths.

#### UNITED STATES.

Col. A. T. Bliss, of Saginaw, Mich., has sold 1,000,000 feet of lumber, log run, to L. C. Slade, Saginaw.

At Cheboygan, Mich., Pelton & Reid have sola, it is said, 3,000,000 feet of log run to eastern parties at \$16 straight.

C. White, of Cheboygan, Mich., has sold 1,000,000 feet of hemlock logs to W. P. DeKlyne, which will be towed to Buffalo.

S. O. Fisher, of Bay City, Mich., has sold a body of timber near Saginaw, to J. Hurst. It is estimated to cut 25,000,000 feet

The Guelph Cask Co., an English syndicate, has purchased 3,500 acres of hardwood timber near Traverse City, Mich.

Duncan, Brewers & Co., of Duluth, Minn., have sold 400,000 feet at last year's prices for late shipments, and Loper & Rumery have sold 1,500,000 for early shipment, both lots to eastern parties.

A sale of spruce logs was made last week at Bangor, Me., embracing about 3,500,000 feet of spruce logs, at \$13.50 at the boom, which the Northeastern Lumberman says, is the highest price yet made this season.

Geo. Van Dyke, a spruce lumber king, has made an offer to buy 30,000,000 feet of number two spruce boards, standard quality, at \$14 per thousand feet, Boston delivery, less 5 per cent commission and guarantee.

#### THE SITUATION.

REPLECTED THROUGH CORRESTONDENCE OF "WREKLY

LUMBERMAN. Robert Watt, Wiarton, Ont.: "We have no reason to complain of trade, stocks are moving actively, with a particularly good demand for basswood. Among recent shipments from here has been a vessel load of basswood, by J. Kidd. Of stocks held in this locality, hemlock is very large, and there is a tendency to cut prices. Otherwise prices for hardwoods are firin."

Mickle, Dyment & Co., Gravenhurst, Ont.: "No large activity in stocks is to be noted in this district. Bill stuff, pine and hemlock are in greatest demand. What trade is doing is almost entirely in single car lots. Fairly heavy stocks are held here. Prices are firm."

Geo. Thompson, Wingham, Ont.: "Not Geo. Thompson, wingman, one of the present, yery much movement of stocks at present, the basis in most demand. Stocks hemlock being in most demand. generally are small, especially hemlock. There was not much hardwood taken out last winter. I be stiffening." Prices for soft elm scem to

The Pembroke Lumber Co., Pembroke, Ont.: Stocks in this district are going out with encouraging activity. Our specialty is dimension timber, which is in good demand. Recent sales include shipgood demand. Recent sales include ship-ments to the British markets of squares and 3-inch red deals. Prices are advancing.

Huntsville Lumber Co., Huntsville, Ont.: "Stocks are moving with fair ac-tivity, the greater demand being for bill Current sales are of a mixed charstuff. acter, and prices firm. About the aver-age quantity of lumber is held here. There is a shortage of pine shingles. We consider the outlook promising.

Duff & Stewart, Bluevale, Ont .: "Business in lumber in this neighborhood is slow, but we are getting a good many en-quiries which indicate that lumber is wanted, and will have to move shortly. The Union Furniture Factory, of Wingham, recently burned, is likely to be rebuilt, and The will be a help to the lumber trade."

Seaman & Newman, Wiarton, Ont.: "Stocks are moving fairly well, with hem-lock and cedar bill stuff leading. We have just delivered 700,000 feet of crib timber for the approaches of the Sault St. Marie canal. Stocks are very large in this section and of a better quality than last season. Prices are advancing slow-

#### QUEBEC CONDITIONS. (Special correspondence WREKLY LUMBERMAN.)

#### I have made particular enquiry respecting the Quebec timber market, as it is at the present time, from a party whose information can be relied on. The tim-ber business of Quebec is in a depressed state, owing to the over stocked market and low prices in England. Very few timber contracts have been made compared with former years, particularly in deal trade. Shippers on this side have curtailed their business considerably. The

following prices will show the present state of the market : Oak, dull and in poor demand, 49c in

dram for best parcel is about the value, but no transactions. Oak, low grades, difficult to place even

at 40c Red pine, poor demand, no change in

value. Elm, no change in value and in fair

demand. Ash, not wanted, small wood 22c and

large about 30c. White pine, first-class and superior wood fully maintains its value and seems likely to do so both in square and waney best; for coarse and inferior there is no market at remunerative prices

Deals, first quality, dull and depressed; other qualities unchanged,

OURBEC, QUE, June to, 1895.

#### EASTERN STATES LUMBER MARKETS.

At Tonawanda, good lumber is being ed for in fair quantities and prices are held firm on most grades.

Activity in building circles at Philadelphia is having a satisfactory influence on the lumber trade, especially hardwoods. Oak is leading. Architects say that cherry is coming into favor again. Maple is in good demand and going into con-sumption about as quickly as shipments arrive

At Albany, where trade has been slow, there was quite a spurt last week, lumber waiting to be loaded and boats scarce. Arrivals of new lumber from the west are The yards show little accumulalow. tion, as the programme calls for constant reshipment of stocks. The amount received up to date is less than for the same period in many years.

Business in New York is of an uncertain character. A rush comes at times, and again remarkable dullness prevails. provement will be manifest in the near future. Transactions of fair size are re-ported. White pine is among the al-It is believed, however, that a healthy improvement will be manifest in the near future. Transactions of fair size are re-ported. White pine is among the slowest of products. Yellow pine is not taking on any great share of strength. Spruce is in the best condition of any lumber.

Despite the stories of depressed trade the record of some Buffalo houses will show a good season's business up to the present date, and the opinion is entertained that the lumber trade is developing strength more rapidly than many suppose. Large quantities of lumber are reaching this point from Duluth. Stewart Bros. this point from Duluth. Stewart Bros. are loading 1,000,000 feet at Duluth and the Holland mill will bring down an equal amount soon. Hardwood factories in the Buffalo district are very busy.

#### COOPERAGE.

Sutherland-Innes Co., Ltd., of Chatham, Ont., say that while no speculative con-Unit, say that while no speculative con-tracts are being made, a large amount of stock is being ordered from the different leading centres for actual consumption. Large shipments of Canadian staves are Large now being sent by vessel to Duluth and Minneapolis. The demand, for heading in Canada is limited, and ridiculously low prices are ruling. In this connection, it is stated, that for some time past, heading has been sold at considerably less than the actual cost of production, and this is not only true of Canada, but also of the United States. The low prices that have been ruling for all kinds of cooperage material means that the manufacturers have been working without profit. Many manufacturers have got dis-couraged, and have made no special effort to put in any large quantity of timber, No. 2 staves have, for some time, been a drug in the market, selling at considerably less than the actual cost of production. Consumption of tight barrel stock in Canada and the United States shows some slight improvement.

#### SHIPPING NATTERS.

The American sch. R. W. Bartlett, is loading lumber at Vancouver, B. C., for San Pedro, Cal.

Lumber shipments by water from Alpena, Mich., are running into large figures this scason.

A raft of 3,500,000 feet is now on its way from Canada to the miles of Bliss & Van Auken, Saginaw, Mich.

The sch. Pandora is on her way from Bay City, Mich., to sarma, with 300,000 feet of lumber, which, it is said, was cut from log-brought from Canada.

Bark Angiolina is loading deals at Miramicha, for Marseilles, France, at 55 francs, and bark Keandra, lumber, at the same place, for Buenos Ayres at \$7.

A schooner has been fixed to load lumber on the south shore of Nova Scotia, for New York, at \$3. a marked improvement on the figures that have prevailed for some time.

The Canadian steamer Jack, which ran into and broke the Welland Canal locks about three weeks ago, ran into and sank the steamer Nor man on Lake Huron some days ago, and after-wards sank herself. She was loaded with lumber.

A firm of ship owners, writing to an English lumber journal, say that Miramichi is one of the most undesirable ports in Canada. "Stevedoring alone costs over 6s per standard. The depth of water only averages 15 feet, and with other disadvantages the rate of freight should be considerably higher than current quotations."

The following shipments were made from The following shipments were made from the port of Montreal during the week ending June 10th: SS. City of Kingston, T. F. Vipond & Son, 3,692 boards to Jamaica; ss. Warwick, Dobell, Beckett & Co., 5,209 pieces of deals, to Glasgow; ss. Siberian, Imperial Lumber Co., 537 pieces of deals, to Glasgow; ss. Si-berian, W. & J. Sharpless, 5,968 boards, to Glasgow; ss. Lake Ontario, J. Burstall & Co., 221 pieces birch, to Liverpool; ss. Lake On-tario, W. & J. Sharpless, 6,047 deal ends and 1,480 boards, to Liverpool; ss. Lake Ontario, D. W. Campbell, 6,358 boards, to Liverpool.

BUSINESS DIFFICULTIES AND CHANGES.

Fires have been discovered on the limits of

J. R. Booth, near Lamab Creek. R. Atkinson, of Brandon, Man., to the lumber business at Griswold. , is going in-

J. R. Booth, of Ottawa, Ont., has decided to rebuild his mills at Burlington, Vt., which

were burned several months ago, Messrs. Godwin have removed their rotary mill from Beaver Brook, N. B., to New Hor-ton, where they have Soo,000 feet of logs to

W. H. Murray, D. B. Warner, C. P. Wood-man, F. Stetson, and G. E. Baruhill, well-known New Brunswick lumbermen, held a conference in Bangor, Mc, a week ago, with Bangor and New York lumbermen, when the idea of establishing in New York a commission house, handling lumber shipments from St. John and Bangor, was discussed The plan is to form and bingor, was blocked. The plan is millers and shippers at both places, with an office in New York, in charge of a responsible party. Nothing definite has yet been reached

#### LUNBER FREIGHT RATES.

LUMBER freight rates for pine on the Grand Trunk Railway have been made a fixture, as below. Of any intended change due notice will be given lumbermen.

General instructions in shipping by Grand Tounk are embodied in these words in the tariff schedule: On lum ber in carloads, minimum weight, 30,000 lbs, per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than \$4,000 lbs.) will be charged, and must not be exceeded. Should it be impracticable to load certain descriptions of light umber up to 30,000 lbs. to the car, then the actual weight only will be charged for, but not less than 24, 000 lbs. The rates on lumber in the tariff will not be

weight only will be charged for, but not less than 24°, 600 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond, to the same destination. For initiance, the rates from Tara or Hep-worth to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Wiarton to the same points. The rates from Cargill and Southampton to points east of Livtowel and south and west of Straiford will be the same as from Kineardine, but in no case are higher rates to be charged than as per mileage table published on page 9 of tariff.
Rates from Ieading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Ilarie and other points in group B to Toronto, 6%2; Colling sood, Fenetang, Coldwater, Waubauhene, Sturgen Bay, Victovia Harbor, Midland, Feneton Falte, Longford, Gravenhurst and other points in group C, to Toronto, 6%2; Burk's Falls, Herriedale and Sundhide, to Toronto, 7%; Burk's Falls, Herriedale and Sundhide, to Toronto, 6%4. These rates are per roolbs. Rates from Toronto, 6%1. These rates are per toolbs. Rates from Toronto, 6%2. These rates are per roolbs. Rates from Toronto, 6%2. These rates are per roolbs. rates on hardwoods average about from 1C. to 2C, per 100 fbc. higher than on softwoods. For rates on milway uies, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the district freight agent. On the Canadian Pacific the rates on pine and soft-woods may be illustrated as follows: Cache Bay, North Bay, Sturgeon Falls and Warren, to Toronto, oc Al-gona, Cook's Mills, Massey, Spanish River and White-fash to Toronto, 13C, Ottawa to Toronto, to C. Al-gona, Cook's Mills, Massey, Spanish River and White-fash to Toronto, 13C, Ottawa to Toronto, to C. From Ottawa, Hull, Aylmer and Duchesne Mills to station on the Lake Erie and Detroit River, Erie and Huron, Teronto, Hamilton and Buffalo, and Michigan Central Railways, the rate is 1456, per 100 lbs, Regulations apply as to minimum size of carbad of 30,000 lbs, and an advanced rate is charged for hardwoods. Lumber freight rates on the Canada Atlantic Rail-way are as follows: Ottawa to Toronto, to cents per 100 lbs; Ottawa to Oswego, \$1.00 per M ft., (3,000 lbs, and under per M ft.); Ottawa to Montreal, \$too per M ft., (3,000 lbs, and under per M ft.); Amprior to

Montreal, \$1.50 per M ft., (3,000 lbs and under per M ft.); Ottawa to Quebec, \$2.00 per M ft.; Amprior to Quebec, \$2.50 per M ft.; Ottawa to Buffalo, 12 cents per too lbs.; Ottawa to Port Huron and Detroit, 14 cents per too lbs.; Ottawa to New York, five carloads or over \$1.00 per M ft.; Amprior to New York, 55, 50 per M ft.; Ottawa to Boston, Portland and common points, local is cents; exports its, per too Bs.; Arnprior to Boston, Portland and common points, local 17 cents, export 35 cents per too lbs.; Ottawa to Burlington, 6 cents per too lbs.; Ottawa to Albany, 10 cents per too lbs.; Amprior to Albany, 12 cents per too lbs.; Ottawa to 51. John, N. B. and common points, 20 cents per too bbs.; Ottawa to Halifax, N. S. and common points, 235 cents per 100 lbs. Minimum carload weight for shapment of lumber, lath, shingles, etc., is so,000 lbs., and rates quoted above are in cents per too lbs.; except when quoted per M ft. the minimum carload charged is to M ft., lumber not exceeding 300 lbs. to the M fert. Ottawa rates apply on shipments from Rockland and Hawkesbury.

MODIFICATION OF MARDWOOD RATHS. THE Grand Trunk Railway and Canadian Pacific have made the rates on hardwoods from certain p-anits to Toronto and Hamilton as follows The regulations are over the signature of Mr. John Earls, W D. F. A., of the G. T. R., and given in reply to a letter from Toronto hardwood men "After careful consideration we have come to the con-clusion that, on and after Jan, 1st, 1895, a mothfactuon will be made in the present arrangements for hardwood humber, to the effect that the rate will be 7/3C, per too the, from our Northern and Northwestern branches to upply from main line points and the atraight run be-tween Toronto, Sarnia and Wundser; also that so far are trates on common lumber to points like touelph, Galt, Lawlon, Woodstock, Ingersoll, etc., from all lumber shipping stations the rate will be the same on hardwood aron pin ... On the old principle, we suppose, that half the baf is better than none, hardwood men have something, possibly, to be thankful for, though there

ONE YEAR

is no good reason why the rates generally on hard-wood should not be as low as on pine. It is understood that the C. P. R. rate will be made uniform at 7%c. from same points.

CEDAR -ORDERS PROMPTLY FILLED FOR telegraph, telephone or electric poles, tres, posts, cedar shingles and cedar light word, also hemlock di-mension lumber- -J. E. MURTHY, Hepworth Station.

MILLS Having Brown Ash 12, 14 and 10 ft. firsts and seconds, inch Bass firsts and seconds 12 feet, or any other Herdwood Lumber, can sell same for cash by ad-dressing H. D. WIGGIN. No by State St., Boston, MASS.
