Deep Regret is Felt By Friends of R. A. Smith Over His Untimely Death

Hundreds Who Knew Him Were Shocked to Learn That He Had Been Killed—Inquest Into Accident Opened— Stock Exchange Closes for Funeral To-morrow— Campbell and Ross Are Recovering.

An inquest was opened yesterday afternoon at F. W. Matthews' undertaking parlors, Spadina-avenue, into the death of R. A. Smith, who was killed in a motor car accident Wednesday night, near Richmond Hill. The jury viewed the body and were dismissed until Tuesday, July 23. Then the hearing will be continued. Coroner Crawford, who has charge of the probe, said that as the two main witnesses, Victor Ross and Lorne Campbell, were both in St. Michael's Hospital, and as it would likely be fully six weeks before Ross was in fit condition to be up and around again, it was altogether probable that the second hearing would have to be conducted in St. Michael's Hospital. The deposition of the two injured men would be taken there.

Mr. Smith evidently hit the ground with terrific force. His face was covered with blood and there were several contusions and wounds plainly evident. Immediately after the jury viewed the remains the body was removed to his home at 487 Huron-street. Perhaps no one man's death in the last decade in Toronto has been so sensationally sudden and unexpected as was R. A. Smith's. Mr. Smith was one of the few really self-made Canadians. At the comparatively young age of 32, he stood numbered among the really wealthy and conspicuous Canadians.

Over 25 years ago R. A. Smith came to this country from Aberdeen, Scotland. He was married. Arriving in the city practically penniless, he connected himself with the Northern Railroad. He remained with them but a short time. A broader field beckoned him not long until he saw the most possibilities in Canadian financial circles. He made application with the Oler & Hammond interests, and became connected with them in 1896. "It was but a very short time before his peculiar abilities were recognized. His rise in the firm was phenomenal, and before many years had gone by he was a member of the firm's. With the prestige and financial backing his connection with so well-known a firm warranted, he had ample scope for his abilities. It was not long before he became a factor to be recognized in any contemplated endeavors in the financial world of Toronto, and, in fact, of Canada.

Had Great Talent.

He was offered numerous confidential offices as director of important new companies. His great talents were, however, particularly given to the firm of which he was a member. He did connect himself with a few other enterprises, but very few.

"As a man he ranked very high. He had a wonderful personality; was respected and loved by all. As he was large in body, so was he broad in his outlook on life and in his opinion of his fellow-men. No better hearted man lived. More than one would begeth-quick stock exchange gambler can thank his good fortune that he numbered R. A. Smith among his friends. Once knowing and liking you he was always your friend. Money was no object with him so long as he considered you worthy of his aid. Altho leaving a sum conservatively estimated at \$2,000,000, it is well understood among

his business associates that had he so desired he could easily have quadrupled the sum. His purse was ever open to friends or any whom he considered needy.

At the Picnic.

Just to illustrate. Wednesday afternoon, at Jackson's Point picnic, a World reporter was in conversation with him. The baby show was in progress at the time. Mr. Smith remarked: "In my opinion the success of a baby show depends on whether or not every competitor receives a prize. I think all should. Every mother thinks her child the best and finest, and so she should. Give the winners special prizes, but see that all get some kind of a remembrance anyway." These words are a fitting epitaph. He was always thinking of others, and there are a great number in Toronto to-day who are sad because R. A. Smith is dead.

Mr. Smith came to this country well fortified for heroic endeavor. He was married and had a splendid helpmeet. His wife, who survives him, was a Scotch girl he had married in Aberdeen some time before he sailed for Canada. She bore him two children, a boy and a girl. Both are alive. The boy, Walter, is still a student at Toronto University. The girl is at home.

Change in Firm.

His sudden death has caused a shake-up in the firm of which he was a member. It is understood that the firm's name will be changed to Oler, Smith & Oler, and that one of the employees, Harold Frank, is to become an associate member. It is also rumored that Mr. Hammond, who has been a member for a number of years, will sever his connection with the firm.

Sir Edmund Oler feels very keenly the loss of his friend and business associate. "He had this to say of him," "Bob Smith was always considerate and generous. There was not a day in which he did not think of others—not a day that did not see some kind and helpful deed done by him. Large in stature, his impulses found expression in an equally ample mould.

MANY CANADIAN GUESTS AT ROYAL GARDEN PARTY

Ten Thousand on Windsor Lawn Included Prominent Members of Nobility and Notables—His Majesty's First Inquiry Was Concerning Hon. R. L. Borden, Who Was Delayed.

LONDON, July 18.—(C.A.P.)—The King and Queen, accompanied by several members of the royal family, gave a monster garden party on the lawn at Windsor this afternoon. Among the 10,000 invited guests were peers, peeresses, members of parliament, representatives of the church, army and navy and many of the learned societies. Canadians were much in evidence, among those present in addition to ministers, being Lord Strathcona, Sir Joseph Pope, J. C. Carriker, M.P., and Hamar Greenwood, M.P.

Definite Policy Soon

LONDON, July 18.—(C.A.P.)—On their return from the Windsor garden party, Premier Borden and colleagues held a conference to consider recent naval negotiations with the view of definite action.

This morning Hon. Mr. Borden had a lengthy talk with Sir William White, formerly naval constructor of the government, and Lord Brassey.

No statement will be made until the ministers return to Canada.

AUSTRALIA WILL FOLLOW LEAD OF CANADA

Sentiment Favors Policy of Demanding Representation in Imperial Council as Condition of Share in Defence—Eager to Co-operate in Patrolling Pacific.

SYDNEY, Australia, July 18.—(C.A.P.)—Hon. R. L. Borden's declarations are being watched here with interest. The general feeling in Australia seems to point to readiness to claim a seat at the imperial council directly Australia's share in the practical defence of the empire attains a magnitude which would warrant the claim. Meanwhile Australia is steadily proceeding on agreed lines and building up an efficient squadron.

Many Australians are anxious to hear whether Canada intends to develop a western squadron seriously with a view to the co-operation of all dominions washed by the Pacific. The Herald recently observed: "One of the most hopeful signs of the times is the success with which Churchill has grouped the whole nation, indeed, the whole empire, behind his naval policy."

Party Press Divided.

LONDON, July 18.—Speaking generally, the Liberal press thinks Mr. Borden's declaration that the overseas dominions shall have participation in the imperial foreign policy and naval control towards the navy will take a long time to work out. The Unionist press takes the view that it must be done at no distant date.

There will no doubt be difficulty in giving practical effect to an ideal incontestably sound, but the thing has been done. At no distant date we will be wise to address ourselves to the question before it is too late.

MISSING LAWYER NEAR ARREST?

James A. Oglivie, Hamilton Defaulter, Missing for a Month, Said to Be Near Apprehension.

HAMILTON, July 18.—(Special)—James A. Oglivie, who it is alleged, defrauded the name of W. H. Lovring, deputy registrar, in the issuing of forged cheques, is said to have been located by provincial detectives, and it is understood that his arrest is expected any moment. Oglivie has been a fugitive from justice for the last four weeks, and it is only within the last two days and since the affair had been placed in the hands of the attorney-general's department, that his whereabouts has been ascertained. In all the defalcations Oglivie is charged with, aggregate about \$40,000. The heaviest loser is Mrs. Sarah A. Johnson, an aged widow. She entrusted about \$18,200 with him.

Are You Going Away?

This is about the right time for you to get away for your summer vacation. For some little fishing trip to the country. What about it? How about an outing hat? The Dineen Company is showing some special lines in English sporting and outing caps and hats not possible to secure beyond the doors at 140 Yonge-st. Yachting, canoeing, tennis, knockabouts and hats for all other occasions.

POLICE INVOLVED BY CONFESSION OF ROSE?

District Attorney Whitman Makes Significant Comment After Hearing Statement of Man Who Hired "Murder Car"—Commissioner Waldo Advised to Sift Mystery.

NEW YORK, July 18.—(Can. Press.)—The trail leads where I thought it did," remarked District Attorney Whitman late to-day. This was just after he had heard the statement of "Jack" Rose, the friend of Police Lieutenant Charles Becker, and the man who hired the grey automobile in which the slayers of Herman Rosenthal, the gambler, drove to the spot where their victim met his fate early last Tuesday morning.

Little by little the involved string of motives and personalities behind the killing is being unraveled as tonight it seemed probable that other important arrests would follow speedily.

Rose's surrender and his confession that he was the man who hired the "murder car," also declaring that he was not in it at the time of the shooting, were the big events of the day in the pursuit of the band who shot down the man who had accused members of the police force with being in partnership with the gamblers.

Mayor Takes a Hand.

Other developments of interest and significance were not lacking, however. Mayor Gaynor took a personal hand in the investigation, sending for Lieutenant Becker, against whom Rosenthal's first specific charges were made, and three other policemen. He was closeted for a long time with them in company with Police Commissioner Waldo. The outcome of the consultation was not made known, but the mayor took occasion to give out a letter he sent yesterday to the commissioner asking that Becker and the other officers be brought before him.

District Attorney Whitman had his say in a letter which he wrote to Commissioner Waldo to-day, relating to the commissioner's request for an immediate and complete investigation of allegations of partnership between policemen and gamblers.

"When you asked this before," wrote Mr. Whitman, "Herman Rosenthal, who had made the charge, was alive. I had proceeded so far that he was to appear before the grand jury and give details and names of other gamblers to substantiate his charge. On the night preceding the day fixed, he was assassinated, evidently by men who feared his testimony, or their agents, on the principle that dead men tell no tales. The awfulness of this situation cannot be lessened by 'again urging me to proceed without further delay.'"

Must Unravel Mystery.

"You are the one to defend the reputation of 10,000 policemen. Their real defence rests in the unravelling of this murder mystery, and you have under your direction a small army of detectives and a fund of money applicable to detective work."

"The newspapers have printed my autobiographical statement to the effect that I do not charge the police department with the murder of Rosenthal. The intimation that I am moved by a desire for publicity in attacking the large body of policemen on account of the wrongdoing of a few is untrue, unfair, and seems to me to be an attempt to turn public attention away from the vital point that Herman Rosenthal charged that he had been forced into partnership with a police lieutenant and that other gamblers were in a similar position."

BANK TELLER A SUICIDE?

KINGSTON, July 18.—(Special)—Seven weeks have passed since Harold G. Arthur, teller of the local branch of the Merchants' Bank, disappeared, leaving defalcations to the amount of \$3900. No trace of him has been found. It is thought that he may have committed suicide.

HON. DR. ROCHE ILL.

OTTAWA, July 18.—(Special)—It is understood that Hon. Dr. Roche, secretary of state, who has been spending a vacation at his home in Manitoba, will not return to the capital for some time. His health, according to a letter received from him to-day, is not good and he intends going to Banff for a few weeks to recuperate.

Big Paper Mill at Soo

SAULT STE. MARIE, Ont., July 18.—(Special)—Fulfilling the agreement made with the city following the vote of the electors on Feb. 24, the mammoth mill of the Lake Superior Pulp & Paper Co. was placed in operation this afternoon, and a 154-inch paper machine is now working on what is practically a test run. Providing the output of the mill is satisfactory on the initial run, paper will be placed on the market immediately, or, rather, will be shipped to consumers who already have orders booked.

The idea is to turn out some 200 tons of paper per day, and orders now in hand would make it appear that machines will have to work overtime for some months at least.

COLONIES UNITE TO OPPOSE HOME RULE

Imperial Grand Orange Council Proclaims to World That Orangemen Thruout Empire Stand With Ulster Brethren—Next Conference Will Be Held in Winnipeg.

LONDON, July 18.—(C.A.P.)—A feature of the proceedings of the imperial grand Orange council, resumed at Glasgow yesterday, was the emphatic denunciation of Irish home rule from the colonies. The proceedings opened with the reading of a letter from the Earl of Erne, imperial grand master, in which his lordship declared if home rule ever came into force, Orange institutions would be the first singled out for attack by the enemies of Protestantism. It was of vital importance that they proclaim to the world that they were not confined to the limits of the three kingdoms, but was a force to be reckoned with wherever the British flag was unfurled.

Resolutions were received condemning home rule as a measure calculated to do irreparable injury to British supremacy.

Support All Over World.

Colonel Scott said thousands were being attached yearly to the Orange banner. No loyal subject of the crown could stand aloof by while old Ireland, an integral part of the empire from time immemorial, was being ruthlessly torn from her moorings. No loyal Protestant of the United States could view with equanimity the passing of the control of Irish affairs into the hands of enemies of the faith. They warned the premier in the gravest manner possible that Ulster in resisting this bill would have the united moral and material support of every Orange jurisdiction in the world.

The next triennial conference will be held in Winnipeg.

SUDDEN DROP IN TEMPERATURE

Cold Rain Caused Inconvenience, But Did Great Good for Farmers, Whose Crops Needed Moisture.

The weatherman was peeved and in a lowering mood yesterday, not only in Toronto, but all thru Ontario. He handed out a very peculiar brand of weather—very cold. The thermometer dropped as low as 56 degrees. That's pretty cold for this time of the year. In the morning the prospects for a nice, warm day looked good. Up until noon it was nice, too, but after that, high coats and high shoes were more in evidence than summer clothes and Oxford shoes. Coming after the excessive warmth of the days previous, the low temperature was all the more noticeable and much more keenly felt.

SERIOUS OUTBREAKS MARK ASQUITH'S VISIT TO DUBLIN

Suffragettes Get Blame

Woman Said to Be English Suffragette Caused Fire and Panic in Theatre, and Another Threw Hatchet at Premier's Carriage—His Reception Wildly Enthusiastic.

DUBLIN, July 18.—(Can. Press.)—The British prime minister received a vociferously popular welcome here tonight. On his arrival he was met by Augustin Birrell, chief secretary for Ireland, the national leaders and the mayors of Dublin, Cork and other cities. A torchlight procession, with forty bands and thousands of lights, escorted the carriage to an hotel amid a sustained roar of welcome, the premier constantly standing in his carriage and bowing his acknowledgments and Mrs. Asquith scattering flowers among the crowd.

Suffragettes chartered small boats at Kingstown, about seven miles from Dublin, with a view of making a demonstration on the arrival of the premier's boat, but were prevented from doing so by the vigilance of the authorities. A serious affair, seemingly of suffragette origin, occurred, however, at the Dublin Theatre, where Mr. Asquith will speak to-morrow. During an entertainment a blazing chair, apparently oil-soaked, was thrown from a box into the orchestra. The curtain of the box caught on fire and the audience was thrown into a panic. Attendance extinguished the flames and order was restored. A woman who occupied the box made her escape from the theatre.

It developed later that a second woman was in the box and aided in the incendiaryism. In the confusion one of the women got away, but the other was arrested. She will be examined by a magistrate to-morrow. She is said to be an English suffragette.

Another outrage occurred while the procession was passing Princess-st. A woman threw a hatchet at the premier's carriage, but nobody was injured.

An Artificial Estrangement.

On the arrival of the carriage at the hotel, Premier Asquith and Mrs. Asquith, John E. Redmond, leader of the Irish Nationalists, and the lord mayor of Dublin, proceeded to an elaborately decorated balcony, where Mr. Redmond publicly welcomed the prime minister. Great crowds gathered in the street, gave the premier an ovation, and Mr. Asquith in a brief speech, said that this was the first time the chief minister of the crown had visited Ireland since the act of union, and it was beyond his power adequately to thank the people for their magnificent and memorable welcome. He came on a mission of peace between artificially estranged peoples. They would not forget Grattan and Parnell now that they were entering to the fruits of the labors of these men.

The premier said that he was the ambassador of a treaty of perpetual peace between Ireland and Great Britain, and he assured the Irish people in behalf of the Liberal party and British democracy that they meant to bring their cause to a speedy issue.

The procession then reformed and the party drove to the viceregal lodge, where they will be guests during their stay in Dublin.

SECOND ATTEMPT TO KILL HERSELF

Hamilton Woman Was Run Over by Train, But Escaped Without Injury.

HAMILTON, July 18.—(Special)—To be run over by the locomotive and six cars of an express train and escape unhurt, was the experience of Mrs. James Jeffries, the wife of a Hamilton switchman, yesterday morning. Mrs. Jeffries attempted suicide by throwing herself in front of the Buffalo express shortly after 10 o'clock. When bystanders rushed to the place where the woman had disappeared beneath the locomotive, they were amazed to see her pick herself up, dust off her skirts and walk away, apparently unharmed. She was taken to the police station, where she stated that once before she had tried to end her life. On the former occasion she had taken poison, but had survived the effects of the dose.

Mr. Jeffries, the woman's husband, witnessed the affair from his post, a block away, but did not know that the principal part in the little drama had been taken by his wife, until he was told by the police. No reason is alleged for the woman's desire to take her life. She is probably mentally deranged.

JNO. S. HUYLER LEFT \$2,000,000

Candy Manufacturer Gave Liberally to Charity and Had Very Heavy Life Insurance.

NEW YORK, July 18.—Dr. Solomon Goldenkranz, state transfer tax appraiser, filed in the surrogate office to-day, the appraisal of the estate of John S. Huyler, the candy manufacturer. The gross estate at the time of Mr. Huyler's death, on Oct. 1, 1910, was valued at \$2,352,222. The net estate, after the reduction of commissions and expenses, was valued at \$2,104,264. Mr. Huyler's largest personal holding was in the candy manufacturing corporation which bears his name, his stock in this concern amounting to \$900,000.

Mr. Huyler gave liberally to charity and educational institutions in his life, and in his will he left numerous public bequests. He was also an investor in many industrial securities that have now no market value. These amounted to more than 500,000 shares, including 435,604 shares of the Prospect Basin Mining Co., which had a par value of \$1 each. His real estate appraised \$806,630.

Mr. Huyler had insurance policies on his life aggregating \$279,684. Mrs. Rosa F. Huyler, his widow, has a life interest in \$800,000, less \$15,770 for commission. The present value, according to the theory of the expectancy of life, is \$244,500. Mr. Huyler's sons continue the candy business.

Some of the personal belongings of Mr. Huyler at his Hyde Park home were a watch, \$5; cuff buttons, \$10, and a ring, \$15.

JUDGE MONET WELCOMES CRITICIS.

MONTREAL, July 18.—(Can. Press.)—Judge Monet, who attacked the Archbishop of Montreal and the Bishop of St. Hyacinthe for interdicting the priests of St. Marie Mannoire College at a meeting at St. Johns, has issued a reply to Mr. Henri Bourassa and other writers in the French press, who criticized his attitude.

He declares that as he criticized others, he has no objection to others criticizing him, but that he puts the facts before the public, and these facts have not been contradicted. No amount of personal criticism will shake these facts.

NEW GAS PLANT FOR HAMILTON

If Doherty Interests of New York Can Consume Deal, New Plant Will Be a Fact.

HAMILTON, July 18.—(Special)—The Consolidated Cities, Light, Power and Traction Co., a \$50,000,000 concern, organized by Henry L. Doherty & Co. of New York, has under consideration a gigantic scheme for the consolidation of all the gas interests in Hamilton and district, as practically assured. The effort to purchase the plant of the Hamilton Gas Light Co. lends credence to the report.

Henry L. Doherty has himself been in the city and has thoroughly gone over the conditions here. He has purchased the Dominion Company, which supplies natural gas to Hamilton, Brantford, Paris and many other places in this part of Ontario. The Dominion deal involved \$1,069,000. An effort is being made to buy the plant of the Hamilton Gas Light Co. Part of the stock has already been offered. This has been refused. If negotiations with the company do not go thru, it is understood that the New York interests will build a plant of their own.

Baseball Toronto 4 Olympic Rowing Results Yachting The Cup Rochester 1 Trials

Note and Comment

The conclusion of the track and field events at Stockholm finds the United States so far ahead as to cause amazement in other countries, notably England, which can offer no valid excuse for a miserable showing.

The Americans went about it systematically. Their only double-winner is a native-born American, Jim Thorpe, who won both all-round events.

Canada has no complaint, scoring, likely, the highest percentage at Olympia, taking into consideration the little band of athletes that represented this Dominion.

What England should do, says Ekin, is to organize a thorough, body a circuit of athletic meets, pulling away a good percentage of the state of the Olympic fund and train carefully in groups, always lining up on the track and measuring on the field.

As was expected the cup cricket game between Toronto and Rosedale set for Saturday, has been put back, the postponement being entirely the fault of the Rosedale side.

Sailor Bowlers Defeat Queen City. Three risks from the R.C.Y.C. visited the Queen City Lawn Bowling Club yesterday for a friendly match.

Broadway Handicaps. The Broadway Y.M.C.A. senior handicap was held last night on Broadway field. The events were on the yards and one-mile run. These were very well contested, and the results were as follows:

The Golf Draw. The club match between Toronto Golf Club and Lakeview Golf Club will take place at Lakeview on Saturday next, July 21.

Wells Does the Come Back. NEW YORK.—The 147-pounder Wells, heavyweight champion of England, knocked out Tom Kennedy of New York after two minutes and 45 seconds of fighting in the eighth round of their bout here last night.

Bowling Tourney At Berlin, Aug. 5

BERLIN, July 18.—(Special)—About a hundred entries are expected for this year's Twin City bowling tourney. Last year over eighty rinks competed. The Berlin and Waterloo clubs are particularly well equipped to hold a successful tourney, by reason of the fact that they have thirty exceptionally fine greens, and they back up that important factor by entertainment features that make this annual gathering of bowlers exceptionally popular. In spite of the number of entries, it is expected only by the London and Toronto tournaments. This year's tourney begins on Aug. 5, and entries close at 6 p.m. on Friday, Aug. 2. W. D. Euler, Berlin, is the secretary.

Nerwana Wins and Swamba is Disabled

Sea is Too Rough for the Swamba and She Loses Her Tiller—Nerwana Looks Good.

The third race of the series of trial races was held over the Q.C.Y.C. course yesterday, and was won by the Nerwana. The new candidate finished about three minutes ahead of the Vivia, which was second. There was a very heavy sea and a strong north wind blowing. The Swamba was disabled during the race. She lost her tiller and was unable to finish. The Nerwana looks like the prospective defender of the George Cup. She won the second race Wednesday, and was victorious yesterday. The Swamba, which brought the cup here in 1910, is away down, and it looks as if she will not be in it. The finish: 1. Nerwana; 2. Vivia; Swamba disabled.

MAHER'S HORSE SALE.

The trade was rather quiet at Maher's Horse Exchange yesterday, as the number of horses on hand for sale was rather small. The attendance was very good, and a large number of the buyers present secured horses to suit them: Bidding was dull and most of the buyers seemed to prefer buying them by private sale. Prices were rather low, a trifle less than last week. Some of the buyers were: P. E. Wakefield, North Bay (part cartload); P. Vandele and Co., Montreal, Que. (part cartload); Ferry Lova, Cunard, Sask. (full cartload); J. D'Arcy, Port Perry; Thomas Hanna, Wellington, Ont.; J. Brown, Toronto, Ont.

A few of the city buyers were: J. Odell, W. Harris & Co., James Harris, A. J. Shelley, Gordon Contracting Co., R. Ansley, A. Vantrol, R. Gimlet, Fred Godson, H. A. Ball, J. McPherson and the Brittain Contracting Co.

While consignments were rather slow this week, the same difficulty will not be experienced in either of this firm's two sales next week, as several regular shippers are now in the country looking for horses of all classes and advices have been received that they have been fairly successful. The quality of the shipments will also be up to a high standard. Watch for this firm's advertisements, appearing in the Saturday morning papers and The Sunday World.

Everybody is going to the Grenadier Headlight, July 20, at the Cayuga. Regimental band and orchestra for dancing.

THE SHAME OF NEW YORK.

New York City is facing perhaps
the most revolting of all the disgrace-
ful scandals which have disgraced its
municipal history. The district at-
torney who represents the State of
New York, openly charges that no
effort was made to apprehend the man
who killed a gambler named Rosenthal
in a public street, brightly illumined,
and within the sight of five mem-
bers of the city police force. Rosenthal
had been paying tribute to the police
department for many years; but, con-
sidering himself ill-treated, made con-
siderable himself ill-treated, made con-
siderable himself ill-treated, made con-
siderable himself ill-treated, made con-

One reason for the continued domina-
tion of Tammany influences is to be
found in that sentiment not uncommon
in many American cities that some
laws cannot be strictly enforced with-
out causing the evils against which
they are directed, to become more
widespread and obnoxious. This is the
pretext upon which the police "regu-
late" vice instead of earnestly trying
to suppress it.

BERLIN'S CELEBRATION.
On Wednesday Berlin celebrated its
entrance into the circle of Ontario
cities and many representatives from
neighboring municipalities associated
themselves with the auspicious occa-
sion. Berlin may not have grown with
the phenomenal rapidity that has sig-
nalled cities of more immediately fa-
vorable location, but its advance has
been steady and sure and established
on a sound basis of civic perfection
and progressive principle. In his brief
but eloquent address to his follow-
ers Mayor Schmalz noted that in 1854
the small and unimportant hamlet
became a village, and that village in
1871 a town. To-day Berlin is a
city of manufacturing importance and
great promise.

But Berlin has other reasons for be-
ing held in honor by the people of On-
tario. The County of Waterloo claims
the Hon. Adam Beck as a son, and in
his speech of response to the mayor's
welcome he paid the new city a tri-
bute for this, that it was owing to
Berlin that the water powers of this
province have been nationalized. The
great country whence came the first
settlers in Waterloo County has long
been identified with the policy of pub-
lic ownership and operation of nat-
ural resources and common services
and utilities, and with the provision
of a system of education that has
been a lesson to the civilized world.

It was met, therefore, that the new
Berlin should lead the way for On-
tario in these all-important branches
of national life.
Altho Berlin has been late in claim-
ing its elevation to higher ranks, this
has not been due to lack of qualifica-
tion. Berlin delayed applying for in-
corporation until the population turned
the 15,000 mark, and to this Mr. Wel-
chel, M.P. for North Waterloo, attrib-
uted part of the exceptional enthu-
siasm that marked the celebration. Dr.
Lockner, who deservedly congratulated
himself on being the first repre-
sentative of the new city in the
provincial legislature, was further
gratified that Berlin stood seventh am-
ong the manufacturing cities of Can-
ada, while its manufacturing output
was one thirty-third of that of the
province and one one-hundredth of that
of the Dominion. A Berliner is indeed
a citizen of no mean city, but of one

COMMUTATION SERVICE A RIGHT.

The supreme court of New Jersey
has upheld a ruling by the public
utilities commission requiring the
railways to furnish commutation ser-
vice between the New Jersey cities
opposite New York and Philadelphia
and the many seaside resorts in that
state, where thousands of families are
sojourning for the summer. Such com-
mutation service is already effective
from New York and Philadelphia un-
der the interstate commerce commission,
but this order applies to traffic entirely
within the state, and reduces the rates,
thus vindicating the principle that
commutation service may be required
of a railway company as a matter of
right.

It is hard to see why this should not
be so. Every city anything like the
size of Toronto has suburban train
service and thousands of people be-
come "commuters." It would be hard
to conceive of many cities like New
York, Pittsburgh or Montreal, setting
alone at all without the suburban
trains. For a railway company to re-
fuse a city this essential service is to
refuse to perform one of the functions
for which it was created.

The railway companies, for some
reason, seem unwilling to give Toronto
this kind of service. It should be de-
manded by the city as a matter of
right, and the railway commission
should define and establish a service
and also the rates.

CURE FOR MOTOR SPEEDING.

It does not pay to ride at forty-five
miles an hour in a motor car. Twenty
miles is sufficiently furious a rate on
an ordinary road. If millionaires want
to go at higher speeds they should
prepare private roads for their reckless
sport. The ordinary man and woman
who chiefly pay for the roads cannot
get the use of what they pay for while
some citizens persist in rushing about
like demented creatures. Nearly every
day some millionaire or another is re-
ported killed, and there is a spirit of
unholy joy in every farm house over
the land as the news is read.

"That's another of them!" says the
farmer as he recalls the narrow escape
his wife or his daughter had not long
before.

Under certain conditions the dominant
instinct for self-preservation ap-
pears to be no longer operative. When
it ceases to control the demented mor-
tal there ought to be some legisla-
tive enactment which would help to
protect him and the public generally.

THE IMPERIAL CENTRE OF GRAVITY.

The World has predicted for a long
time past the migration of the English
peopage to Canada. Members of the
Dudley and the Herford family are
the latest acquisitions. It is announced,
to the blue-blooded section of Toronto
society. There is very little outlook for
actions in England. Another genera-
tion will see the land in the hands of the
small owners on the plan so success-
fully working out in Ireland. Besides
this three per cent. is regarded as a
high rate of interest in England. The
legal rate in Ontario is six, and in
Manitoba eight. Ten is an ordinary
rate further west. English money is
coming west. The people who own it
won't stay behind.

When Canada has fifty millions of peo-
ple the imperial centre of gravity will
have to shift.

Andrew Lang says that the oyster is
a creature of low sensibility. If alder-
men would only be as silent we could
spare them the other reproach.

Consols are down again. These heavy
investments in Toronto real estate are
having their due effect on the English
money market. They have just heard
of the annexation of North Toronto in
London. See Globe and Telegram.

EXPRESS RATES AND TWO CENTS A MILE.

Winnipeg Telegram: The action of
the United States interstate commis-
sion might be studied with profit by
the railway commission of Canada,
which has shown an extraordinary re-
luctance to put express rates on a fair
and equitable basis.

**City Council Will Pay \$625,000
for Property by an Agree-
ment Made Yesterday—
Possession in Three Years,
With Grounds for Public
Park in Meantime.**

In a conference yesterday between
Acting Mayor Church, Robert McCon-
nally and J. E. Worrell, K.C., it was
decided that the city should take over
the Trinity College property for a con-
sideration of \$625,000. It was agreed,
however, that the college authorities
should retain the use of the buildings
until the new structure on Hosking
avenue was completed, which, it is
expected, will require about three years.
In the meantime the grounds will be
used for park purposes and placed un-
der the supervision of the parks de-
partment. The whole agreement, how-
ever, must be ratified by the city coun-
cil at its meeting next Monday.

Re Hughes and Campbellford, L. O.

plaintiff. J. E. Day for defendant. En-
larged one week peremptorily.

Old Wharf Found.
While excavating thru the railway
yard for the new main from the John-
street pumping station to the waterfront,
the workmen yesterday found the re-
mains of an old wharf, which was bur-
ied in the clay about eight feet deep.
The timbers were found about ten feet
north of the pumping station, and were
in a fair state of preservation. The
tunnel for the new main is almost
completed and the men are getting
everything in readiness to lay the pipe.
In fact, several lengths have already
been placed in position on Front-street.

More Money for Roads.
The board yesterday decided to pay
another instalment of \$50,000 on their
appropriation to the York County High-
way Commission. Up to date the city
has paid \$35,284, the county \$65,900, and
the government \$12,722. The controllers,
however, expressed the opinion that
the government should hasten the pay-
ment of their share of the improve-
ments.

**1,000 Islands and Return, \$5.50, Sat-
urday to Monday.**
For anyone desiring a delightful
week-end outing, nothing could be more
delightful than the Saturday to Mon-
day trip by the Richelieu and Ontario
Navigation Co. steamers to 1,000 Is-
lands. Tickets to Alexandria Bay and
return can be obtained at very low rates.
The trip includes the famous "Fifty-Mile Ramble" by ob-
servation yacht, with the winding
channels of this attractive region. Full
particulars, tickets, etc., can be ob-
tained at ticket office, 48 Yonge-street,
Corner Wellington-street. Ed.

Paralytic Burned to Death.
OTTAWA, July 18.—(Can. Press.)—
Mrs. Brunet, aged 72, of 117 King East-
ward-ave., a paralytic, is dead as the
result of terrible burns received when
she attempted to pick up a key from
the floor, she upset a gas stove, and
ignited her clothing. The old lady was
unable to utter a sound or move as a
result of paralysis, to call for assist-
ance.

WHAT'S THE USE SAYS BOURASSA

His Admiration for the Ameri-
can Eagle Moves Him to
Assail Empire Some
More.

MONTREAL, July 18.—(Special.)—
Henri Bourassa continues his pro-an-
nouncement articles to-day.
Assuming that Germany were victo-
rious over England, and if the United
States overran Canada, he goes on:
"Let us ask the simple question: if
Canada were annexed to the United
States, and if Quebec became a state
in the American Union, which of the
rights, privileges, customs, laws, codes
or charters which exist to-day in this
province, would be abrogated, lessened
or modified in the least degree?"

Mr. Bourassa reiterates that French-
Canadian are called upon to make ex-
traordinary sacrifices on behalf of the
empire, while the only reward is a long
series of humiliations.

Belleville's Downtown Station.
Toronto people who go to Belleville
over the Canadian Northern Ontario
line are keenly appreciative of the fact
that the station of this line is located
down on the waterfront, easily within
five minutes' walk of the business and
residential districts and of the principal
hotels of the old city. From
Trenton, where closest connection is
made for Picton, Wellington-on-the-
Lake, and all other Central Ontario
Railway points, the C. N. O. skirts
the shore of Bay of Quinte, and its
trains enter Belleville at the level of
the water, as well as the most convenient
point, cutting across the fine old waterfront
park, just before they reach the depot.
The passenger steps from his train
to a platform where the cool lake
breezes sweep—no dust, no heat, and
all the discomforts usual to a railway
station absent. The walk up town is
a matter of pleasure.

There is a Canadian Northern Ontario
train of superior equipment which
leaves the Union Station for Belleville
and intermediate points at 8:30 a.m.
or earlier, and returns to the city in the
evening, splendid hours for the business man
and the regular traveler. Returning
from Belleville at 7:30 a.m., and another at
8:30 p.m., the most convenient hours
which the passenger department could
select. On Saturdays a train departs
from Toronto at 3 p.m., returning to
the city Sunday night. This Saturday
train service affords a splendid
opportunity to visit relatives or friends
in Prince Edward County without loss
of time, and connections are effected
at Trenton to all points along the Cen-
tral Ontario line.

Trial
Before Kelly, J.
National Trust Co. v. Brantford Street
Railway Co., et al.—J. A. Paterson, K.C.,
for plaintiff; E. C. Smolke, K.C., for
defendants. An action by plaintiff to
recover \$125,000 and foreclosure of mort-
gaged premises in default of payment,
for possession, etc. Judgment on the
opening of the trial it was shown that
on June 11, the defendants had paid to
plaintiffs all arrears of interest, and
an undertaking satisfactory to the
plaintiffs was given for payment of
plaintiff's costs up to the time of such
payment. A breach of the covenant
did not entitle the plaintiffs to posses-
sion or to have a receiver appointed.
Their remedy is on the covenant them-
selves. Action dismissed with costs
for possession, etc. Judgment on the
opening of the trial it was shown that
on June 11, 1912, the plaintiffs being
entitled to costs to that time.

C.M.A. CONVENTION AT OTTAWA.
OTTAWA, July 18.—(Can. Press.)—
General Secretary G. M. Murray of the
Canadian Manufacturers' Association,
met the local members of the associa-
tion to-night and complete arrange-
ments for the holding of the annual
convention of the association here on
Sept. 24 and 25. Committees were
appointed on printing, transportation,
finance, bank and entertainment.
About 400 delegates are expected to at-
tend this year's gathering.

No Sunday Cars in Kingston.
KINGSTON, July 18.—(Special.)—
Sunday cars are unlikely this summer.
The superintendent says they would
not be operated by the wish of the
citizens, and it is understood that the
general feeling is that they are not
necessary.

BUYS SEVEN STORES

Block at College and Ossington
Changed Hands at \$35,000.
Thirty-five thousand dollars was the
price of the block at the northwest
corner of College-street and Ossington-
avenue, which changed hands recently.
The property was owned by Harry L.
Brown, but the name of the purchaser
has not been made public. There are
seven stores on the property, five front-
ing on Ossington.

F. Gray of Guelph paid \$17,000 for
three properties on Alice-street, Nos. 14,
16 and 18. The purchaser is a drug-
goods merchant, who will erect a four-
story building on the site.

**WHERE AND HOW HAIR NETS
ARE MADE.**
Hair nets, properly speaking, are not
simply nets for the hair; they are nets
made of hair, Strasbourg, Germany, and
Vienna, Austria, are the only cities
where hair nets are sold in important
amounts. Years ago Strasbourg was
devoted more time to the cultivation of
their dolls and vases and have en-
gaged in other industries, while the
peasants of Bohemia still continue to
rugged mountain country furnishes few
opportunities for more lucrative em-
ployment.

It is estimated that Strasbourg sells
annually about 120,000 hair nets. Dur-
ing the last year trade has declined,
owing to the change in the style of
coiffure, and also on account of the
increased use of cheaper nets made of
waste silk.

The hair nets are made almost wholly
in the homes of Alsatian and Austrian
peasants. Weaving the nets is a work
requiring manual dexterity that can be
acquired successfully only in youth,
when the fingers are supple and the
eyesight is good. This industry and
the peculiar skill required to knit hair
nets has become a family hereditary.
The children begin first to tie the hairs
together, and to end, to make one long
hair. Then, without any implements
except a round piece of wood about six
inches long and half an inch in diam-
eter, and a needle, the older girls and
women, and sometimes the men also,
weave the nets. Each mesh is knotted
in such a manner that the net is
strong and elastic, and it is a more delicate
and difficult task than tying a string.

The work is poorly paid. The rate is
usually low at present—five a dozen
nets of ordinary color. That means
that a worker must tie about 15,000
knots to earn 15c, besides knotting the
hair together, adjusting, counting, fold-
ing and packing the nets. To make a
dozen nets is a day's work of ten or
twelve hours. When the demand is
greater, the pay increases more or less
in proportion to the work done. These
nets, accordingly, require twice as
much hair and their weaving is
slower and more difficult work than
making any other kind of net.

Practically all the hair used in mak-
ing hair nets comes from China. No
other hair possesses just the right de-
gree of coarseness and resilience to give
that peculiar, elastic spring to the
mesh that a good net requires.
The hair of the northern blond races
is too fine and straight to be of any
utterly useless for this purpose. The
black hair of the southern races, Ital-
ian and Spanish, is a little coarser and
more suitable. Japanese hair is too
stiff and coarse. The hair of the yak
has been tried without much success.

Prove Your Faith In Your Own Power

The City of Toronto is in business. Through the
Toronto Hydro-Electric System it is distributing electric power.

The Toronto Hydro-Electric System exists to-day
because the citizens of Toronto had faith in their ability to serve
their own needs.

There was need for better service in electric power.
There was demand for lower rates, and the citizens of Toronto had
faith in their ability to secure these. They pledged that faith when
they voted to establish the Toronto Hydro-Electric System.

Foremost among the supporters of the Hydro-Electric
policy were the manufacturers of Toronto. It is in no small part due
to the almost unanimous support given the Hydro-Electric policy by
the manufacturers of Toronto that the civic power plant came into
being.

Every manufacturer in Toronto and every citizen is a
part owner of this great system—a partner in this business. Those
who use Hydro-Electric power are supporting an enterprise in which
they have a personal interest.

The Toronto Hydro-Electric system has well war-
ranted the faith of the manufacturers and citizens of Toronto.

Hydro-Electric has given Toronto a reliable, efficient
power service. It has reduced rates to half what they formerly were.

The Toronto Hydro-Electric System has "delivered
the goods."

It is now up to every manufacturer and
citizen of Toronto to PROVE his faith
by using Hydro-Electric power.

CHICAGO WHEAT PRICES DROP STILL FURTHER

Another Drastic Stamp in Values in the Pit—No Let-up in Liquidation—Crop Outlook Reported Very Favorable.

CHICAGO, July 18.—Likelihood of all records being broken this season for yields per acre through the northwest, made an unmistakable heavy market today for wheat. The finish was at a break of 7/16 to 1/4 cent from last night, and was unchanged to 1/16 off, and provisions depressed 1/16 the way from a shade to 3/16.

Experts in Minnesota and the Dakota reported a perfect flaring weather just at the right time to help bring about a wheat crop of unprecedented size, possibly as much as 700,000,000 bushels for the three states named. Bearish sentiment was neutralized at intervals however, by advices from the Canadian Northwest that some damage had been done by recent frosts. Invariably, the market headed downward again, some pressure being so constant as to suggest liquidation on a large scale, wholly aside from the heaving of new wheat from the south-west.

Corn Displacing Corn.

Corn prices were unshaken by the plentiful supply of new oats being offered freely at low figures to the east as a feeding substitute for the coarser grain. Fine showers in sections where heat has recently been intense, tended also to weaken the market.

Despite the fact that oats finished at the lowest level reached this season, prices did not cover so wide a range as usual. Trade was of a more general character. Shorts covered a great deal. Demoralization ruled the pork market for a short time; until packers came to the rescue, before the semi-trailers extended to other products. Stop loss selling, the result of weakness in the grain trade, formed the chief reason for the break.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, July 18.—Wheat—The comparative strength in Winnipeg with the firmness in Buenos Ayres and the continued unfavorable weather in Russia mostly offset the pronounced weakness in America yesterday, and values at the opening here were bid lower. Following the opening there was some disposition to gain for profits and an additional decline occurred, with estimates from America indicating a bumper spring wheat yield, but this was followed by a promise of support owing to less favorable harvest prospects in Europe. At the close the market was dull, 3/16 to 3/4 lower yesterday.

PREDICTS RECORD CROP.

The Price Current (Cincinnati) says: Developments of the week have been distinctly favorable in regard to progress of the crops. Harvesting in the north has been completed, with better yields than expected. Critical situation of the wheat crop west of the Mississippi has had important relief. Combined total wheat crop since harvest for United States this year, it is realized, will admit of considerable surplus for export. Cattle justifies previous high expectations as to yield. Corn marketing encouraging progress, and maintains high promise of results only moderately short of the best experienced in the market for several seasons be free from adverse conditions.

ST. LAWRENCE MARKET.

Poultry, alive and dressed, is in demand. Dealers contend that they are not getting all the supply they can handle. Farmers are very busy and consequently cannot take time to send in the much-needed goods. Prices remain low. Spring lamb went up another two cents with the stiff rise in the prices of lambs on the live stock market.

Mutton is stiff and firm at retail and wholesale and should there be no lowering of the price of live weight stuff, the retail quotations may bob upward, as the demand grows as the market becomes shorter.

Potatoes are growing weaker at wholesale and retail as the new crop comes in. Only four loads of hay were sold on the city market yesterday and the old hay quotations will be made the coming week.

Chicago Gossip STEEL TRUST AND ITS TEN YEAR RECORD

On account of the practical certainty of the Stanley committee advising the dissolution of the United States Steel Corporation, the annual report of the concern, being for the year 1911, just issued, is of more than usual interest. The Steel Trust is the only billion dollar organization in the world and the magnitude of its operations is plainly realized from the many millions of shares owned by it.

Bat Weakness in General List Offset the Improvement—Dome Extension and Preston Down to New Records—Cobalt Firm.

Thursday Evening, July 18.—Hollinger monopolized the bulk of attention in the mining exchange today, continued strength in that issue being, in effect, the only feature of any consequence in the dealings. Elsewhere the speculative movement was narrow and marked degree, with small price changes the net result of the day's operations.

Irregular Undertone.

A good deal of irregularity was displayed by the general list of Porcupine, a revival of liquidation and consequent weakness in certain quarters effectually setting off the measure of firmness shown elsewhere. Dome Extension was the weakest spot in the whole market, these shares dropping back to a new low record at 14 1/4, nearly two points below yesterday. Vipond lost a fraction of a point at 35, while Preston-East-Dome at 1-1/2 also established a new low record. Elsewhere quotations were unchanged.

Mining Exchange Holidays.

The Standard Stock and Mining Exchange will be closed all day Saturday, July 20, in observance of the Dominion Day holiday.

California Oil Industry Prospers.

The American National Bank of San Francisco, in its June financial letter, says: "Conditions in the oil industry are marked by a continued optimism looking to the future. Although production still outstrips consumption of the product, the signs of the times are encouraging. One of the largest companies operating in California has announced plans to increase its capital from \$25,000,000 to \$50,000,000 in order to extend its plants and the better to care for its far eastern trade."

Oil Depots Planned on American Coast.

SAN FRANCISCO, July 18.—Seven new oil depots, it was announced here yesterday, will be opened on the west coast of North America for the use of oil-burning steamships and for the combustion craft. Other stations are soon to be established on the South American coast, and it will soon be as convenient for a ship to find oil on her voyage around the Horn as it is now to find coal.

Can't Work Up the Boom in Coppers.

Despite the continued strength of copper metal at 75 cents a pound, and the efforts of the Boston and New York brokerage fraternities, the copper stocks refuse to boom. In fact the recent decline in prices has carried values below the level of the more prominent issue, the metal was 12 1/2 cents a pound, when these might be cited such securities as Groux, Franklin, Lake, North Butte, North Lake, Union, and Wolverine. Elsewhere in the copper and silver point of the year has been recorded to the chagrin of the professional element.

Foreigners Buy Foreigners.

The incoming of a spirited demand for Hollinger brought about a sharp return in the price of that issue in the local exchanges yesterday. The buy was stated to be coming from Montreal and was understood to be largely for foreign account. There is considerable interest in the Canadian stock market, and the share value is \$900 a share.

Brokers Had to Get Down Town Earlier in Day.

NEW YORK, July 18.—The Consolidated Stock Exchange of New York commenced its new system of opening at 9:30 a.m. instead of 10 o'clock for the first time to-day. The occurrence attracted a good deal of attention in Wall-street, but is not expected to have any material result. The committee in charge named the active stocks which will be called for trading at the start, subject to amplification and change later. The stocks were divided into two lists, list "A" to be called for first, and list "B" immediately thereafter. Following were the list "A"—Amalgamated Copper, American Smelting, Chicago, Milwaukee, Reading, Union Pacific and United States Steel.

KINGSTON, July 18.—(Special.)—Hon. W. W. Fock, M.A., Attorney-General, resigned to go to Vancouver, B.C., to accept a position in a strong financial institution.

HOLLINGER SHARES GO SOARING ONCE AGAIN

The buying in Hollinger was reported to be for Montreal account, and according to current report, was understood to be due to favorable reports from the mine, which have been circulated in inside quarters in the eastern centre. The shares were in scant supply and the demand quickly brought out the fact that any material call for the securities might lift prices to a startling extent in very short order. On July 15, the price rose from \$12.25 to \$12.60, and the close of the day was at \$12.60. The gain of approximately 25 points from yesterday's closing quotation.

GILT-EDGED STOCKS SHOW BIG DECLINE

The almost continuous weakness in British consols, which declined on Thursday, to 74 5/8, a new low record since they were put on a 2 1/2 per cent basis, and in fact their lowest valuation since 1896, draws attention to the downward tendency exhibited by practically all high-class investment securities. It is only necessary to glance at the so-called gilt-edged stocks in the London market to see this. Canadian gilt-edged securities, however, are at their lowest since issued, and compare with the highest 100-118 this year and extremes of 102 3/8 and 92 5/8 in 1911. Last week, on an offer of quite a small amount of stock, South Australia 2 1/2 per cent, stamped 1 3/4 points to 92 5/8, plain evidence of the fact that current quotations in the old country market for many colonial government issues are largely nominal, being maintained until a seller appears, when they are promptly lowered to the level of the London market.

PALL OF GLOOM OVER MARKET

Vivacity Wanes in Toronto Stock Exchange --- Narrow Price Changes Thruout Whole List.

The pall of gloom cast over financial Toronto by the sudden death of Mr. R. A. Smith, one of the most highly respected members of the brokerage community of this city, was reflected in the stock market by greatly restricted trading and a slightly dealer under- tone. Practically all the vivacity in speculation was removed by the tragedy, in fact so that the list drifted into a period of apathy in which narrow price changes and insignificant movements were the only characteristics. The Brazilian traction stocks were traded in to a much smaller extent than usual, the total dealings in both Rio and Sao Paulo combined amounting to little more than 700 shares. The price range in each instance was remarkably small, Rio fluctuating within a limit of half a point, while Sao Paulo recorded a like showing. Both issues closed at a net loss for the day, Rio at 159 1/4 bid, and Sao Paulo at 158 1/4 bid, those quotations being about midway between the extreme limits of the session. In the London market at the close the common stock of the holding company for the Brazilian tractions was quoted at 95 to 97. The valuation of the shares as indicated in the local market by Rio and Sao Paulo was approximately 84, thus precluding profitable arbitrage transactions between the two exchanges. In the general list trading was generally limited, with few features evolved. Toronto Railway dropped back over a point, selling below 147 for the first time in upwards of a week. Mackay Common eased during the morning, but recovered its loss and closed on a par with last night at 81 7/8 bid. Detroit United followed the movement in Montreal and reached 75 here.

DULL TRADING IN WALL STREET

But New York List Shows a Firm Undertone After Early Uncertainty --- Small Price Changes.

NEW YORK, July 18.—Stocks manifested increasing firmness to-day after an early period of uncertainty. Trading, however, was of the same dull and perfunctory character as that which has marked most recent operations. Favorable crop news, undoubted improvement in the steel industry and increasing ease in the domestic monetary situation all combined to create an atmosphere of mild optimism, even though they failed to stimulate business in securities. Of the several factors named, the increase in the price of steel is perhaps the most potent to-day. Equipment orders are coming along steadily, and this fact is beginning to find reflection in the stocks of the companies benefited. Amalgamated Copper was another strong feature deriving much of its support from a better enquiry for the metal at prices approaching recent high quotations to meet increased business by appropriating large sums to augment efficiency. Various specialties were relatively active and strong, but their movement exercised little or no influence in the way of outside support. The tone of the foreign exchanges offered scant comfort to the constructive side of the account. London turned weak after a cheerful opening with the new familiar tale of another drop in consols. The Bank of France gained over \$2,000,000 gold and its increased discounts were partly offset by reduced advances. In Berlin domestic securities were weak under realising with a good undertone for Americans.

SOME SMART GAINS SHOWN IN MONTREAL

MONTREAL, July 18.—In comparison with recent days the Montreal Stock Exchange to-day's sessions were quiet and featureless. The volume of trading fell off to little more than half that of the day before and only a few issues in the active list showed price changes of as much as one point. The tone, however, continued strong and the fractional declines recorded for some stocks were unimportant in view of the substantial advance which prevailed over the whole list has experienced. Trading in Detroit United, which went over 6000 shares on Wednesday, fell away to less than a third of that amount on the day. Canadian Pacific Railway also rallied smartly to 21 1/2 for a gain of 1 1/2 points, while St. Lawrence Park gained 5 points and Hochelaga Bank, after a 6-point advance on Wednesday, advanced two points higher. Toronto Railway and the Brazilians were very quiet.
