Wilson's Second Reply to Germany

"Sir,-In reply to the communication of the German Government, dated the 12th inst., which you handed to me today, I have the honor to request you to transmit the following answer:

"The unqualified acceptance by the present German Government and by a large majority of the reichstag of the terms laid down by the president of the United States of America in his address to the congress of the United States on Jan. 8, 1918, and in his subsequent addresses, justifies the president in making a frank and direct statement of his decision with regard to the communications of the German Government of the 8th and 12th of October, 1918.

"It must be clearly understood that the process of evacuation and the conditions of an armistice are matters which must be left to the judgment and advice of the military advisers of the government of the United States and the allied governments, and the president feels it his duty to say that no arrangement can be accepted by the government of the United States which does not provide absolutely satisfactory safeguards and guarantees of the maintenance of the present supremacy of the armies of the United States and the allies in the field.

"He feels confident that he can safely assume that nothing but this will also be the judgment and decision of the allied govern-

"The president feels that it is also his duty to add that neither the government of the United States nor, he is quite sure, the governments with which the government of the United States is associated as a belligerent will consent to consider an armistice so long as the armed forces of Germany continue the illegal and inhumane practices which they still persist in.

"At the very time that the German Government approaches the government of the United States with proposals of peace, its submarines are engaged in sinking passenger ships at sea and not the ships alone, but the very boats in which their passengers and crews seek to make their way to safety; and in their present enforced withdrawal from Flanders and France, the German armies are

pursuing a course of wanton destruction which has always been regarded as in direct violation of the rules and practices of civilized warfare. Cities and villages, if not destroyed, are being stripped of all they contain, not only, but often of their very inhabitants. The nations associated against Germany cannot be expected to agree to a cessation of arms while acts of inhumanity, spoliation and desolation are being continued which they justly look upon with horror and with burn-

"It is necessary, also, in order that there may be no possibility of misunderstanding that the president should very solemnly call the attention of the government of Germany to the language and plain intent of one of the terms of peace which the German Government has now accepted. It is contained in the address of the president, delivered at Mount Vernon on July 4 last.

"It is as follows: 'The destruction of every arbitrary power anywhere that can separately, secretly and of its single choice disturb the peace of the world; or, if it cannot be presently destroyed, at least its reduction to virtual impotency. The power which has hitherto controlled the German nation is of the sort here described. It is within the choice of the German nation to alter it.' The president's words just quoted naturally constitute a condition precedent to peace, if peace is to come by the action of the German people themselves. The president feels bound to say that the whole process of peace will, in his judgment, depend upon the definiteness and the satisfactory character of the guarantees which can be given in this fundamental matter. It is indispensable that the governments associated against Germany should know beyond a peradventure with whom they are dealing.

"The president will make a separate reply to the royal and imperial government of Austria-Hungary.

"Accept, sir, the renewed assurances of my high consideration.

(Signed) "Robert Lansing."

WANTED-VOLUNTEERS!!

The Provincial Board of Health, with the authority of the Government of Ontario, has organized an "Ontario Emergency Volunteer Health Auxiliary" for the purpose of training and supplying nursing help to be utilized wherever needed in combating the influenza outbreak. A strong executive has been formed in Toronto. It is strongly recommended that each municipal council and local Board of Health, working in co-operation, take immediate steps to form a local branch of this organization. The Volunteer Nurses will wear the officially authorized badge, "Ontario S. O. S." (Sisters of Service). This "S. O. S." call may be urgent. Classes taking lectures are already opened in the Parliament Buildings, Toronto (Private Bills Committee Room, ground floor), where they will be carried on every day at 10 a.m. and 3 p.m. until further notice. Young women of education are urged to avail themselves of this unique opportunity to be of real service to the community. If they are not needed, so much the better. If they are needed, we hope to have them ready. All towns and cities are urged to organize and prepare in a similar manner.

A syllabus of lectures is being sent to the Medical Officer of Health of all cities and towns. Further information may be had on application to John W. S. McCullough, M.D., Chairman of Executive, Parliament Buildings, Toronto, telephone Main 5800.

Venereal Diseases. For a year past the advisory com-

military district, has been carrying on a campaign in the city and province at the private expense of some of the members, which has brought this important matter before the pub-

lic generally. A portion of the press has given hearty support to the work Another portion has refrained. The work at the best has been carried on under considerable difficulty, and but for the whole-hearted devotion of Captain Gordon Bates, secretary of the committee, assisted by a few more, the important results attained would have been impossible.

It has been proposed that some thing of a wider character be done to further the aims the committee has had in view. There is not the slightest doubt that national action is necessary, and the example of the on United States in this respect appeals to all who sympathize in the work. A sum of \$8,000,000 has been voted in Washington to do that for which Ottawa, so far has not dedicated one cent directly. E. Fidler and Young were absent from the Provincial team, while the T. & D. were minus the services of Long, Yeates and Hepworth. The teams turned out as follows:

T. & D.—Halliwell, Dobson, Dierden, Hamilton, Carroll, Herring, G. Lindsay, Lowe, Crawley, Forsythe, Jackson.

Provincial—Smith, Campbell, Buchan, Acourt, Turney, Brown, Anderson, A. Walker, Lonie, S. Walker, Howson.

Referee—W. Murchie,
Linesmen—Mitchener and Sterling.

The District men played strongly at the commencement and forced the Provincial to play on the defensive. Howson had a great chance to open up the scoring in front of goal, but kicked wildly over the bar. A long period of even play followed until Lonie obtained possession and scored the first goal for the Provincials, the ball being placed in the far end of the net. Halliwell had no chance to save. The strong wind made defensive play very difficult and it occasioned no surprise when Howson added a second goal with a fast, low shot. any advantage, and when the whistle sounded the Provincials led by two clear soals.

When the game was resumed the Provincials had a strong wind against them and the District team took full advantage of this. Play was confined to the Provincials' area for a prolonged time. Smith. Campbell and Buchan working hard to keep their goal clear. Only their excellent defence and weak shooting against them prevented scoring. The game lagged somewhat during this period. It was the Provincials' game in the first half, but in the second half the Districts almost monopolized the play but could not score. In the closing stages the Provincials came back, but no further scoring took place and the game ended with a 2-to-0 defeat for the T. & D. The teams were evenly matched and the game was played in a good sporting spirit.

A large delegation came from Hamulton to witness the curtain raiser at Varsity Stadium yesterday, the contesting clubs being Hamilton Thistles. Junior champions of the H. & D. At Scarboro Beach yesterday afternoor the Athenaeums defeated the Wellingtons, 7 to 5, in a hard fought game that was anybody's contest until the 8th. when the champions, with the Dukes eading, 5 to 4, bunched four hits for three runs. With two down and Graham at second, Beatty doubled to centre. Farr singled to short, and Dodd's drove a liner over second. - These hits, along with a passed ball and Bird's high toss. yielded a trio of tallies. Both teams used substitutes, Gee and Clarke of the Park Nine figuring in the Wellingtons' line-up on account of the absence of Thorne, Nye and Murphy thru illness, while Farr was used by the Athenaeums when Hunt was taken sick in the dressing room. Both Graham and Smith were unsteady, but the former kept the hits scattered in all but two innings. Curzon's batting running catches by Curzon's batting, running catches by Beatty and Farr and the fielding of Brennan and Graham were noteworthy. TORONTO HUNT MEETS AT SUNNYBROOK FARIV

Holiday Run the Best Since Before the War, Thanks to Major Kilgour.

Toronto husting men added another link yesterday (Thanksgiving Day) to the long chain of indebtedness they owe to Major Joseph Kilgour, of Snnnybrook Farm, always an ideal spot for a hunt meet. The host, by providing many with mounts on his splendid hunters, by entertaining all bountifully afterwards, contributed very largely in making it the best afternoon of sport since pre-wardays, Upwards of 50 riders gathered for the run, the red coats, the playful steeds the autumn coloring all combining to make a never-to-be-forgotten picture. Mrs. Kilgour, wearing a cinnamon brown broadcloth suit, with a broad sailor hat trimmed with autumn leaves, received the guests in the coach house.

Among those following in motors were: Mr. and Mrs. James Worts, Mr. W. F. Maclean, Mrs. Gordon, Capt. Arnoldi, Mr. Gordon Wills, Mrs. J. D. Hawthorne, Mr. Frank Proctor, Miss Estie Edwards, Mr. Colthard and Mr. and Mrs; Thom McCabe.

In Straight Heats Atlanta, Ga., Oct. 14.—The two events on the Grand Circuit card today were each high-class events, and in both the fields furnished sufficient grounds for difference of opinion. The 2.09 trot was a split affair, due to the fact that Selah Baird, one of the Murphy stable, insisted upon winning the opening heat. altho public opinion had selected Miss Woodbine or Jeanette Speed for that honor. Selah Baird, however, was a strong contender thruout and landed second money. Directum J. had the edge in the 2.20 pace, and won in straight heats, with Orofina and Hal Boy on his wheel most of the time. The weather was warm and the time was good. Summaries:

British Public Eagerly Awaits

Some Declaration of Government's Policy.

As the sun of life sinks toward the west

Life has been said to consist of a constant succession of breakdowns and repairs. In old age, the former predominate. The body machine is more or less worn out. Digestion is less perfect, elimination of waste is increased in quantity, but reduced in efficiency.

Hence, constipation is particularly pernicious. Constipation means more than mere failure of the bowels to move regularly and thoroughly. It meams stagnation of the contents of the intestine, increased fermentation, putrefaction and germ action, the production of irritating and poisonous substances, that are absorbed into the blood and carried all over the body.

This is always serious-in old age it is especially dangerous.

Constipation cannot be cured by drugs at any age. It is especially harmful to an aged person to use pills, salts, and similar strong purges in order to force the bowels to act.

But the Nujol Treatment for Constipation is not only safe, it is in every way efficient.

Nujol is not a drug, does not act like any drug. Nujol helps nature to re-establish easy, soft, thorough bowel evacuation -as "regular as clockwork."

Nujol softens and keeps perfectly moist the intes-

Nuiol makes it easy for the intestinal muscles to act, and prevents them from overwork.

Nujol absorbs poisons and carries then out of the body. Get Nujol from your druggist and take it according

and passed a resolution requesting wholesale houses and offices to close at the same hour. A communication was also sent to Sir George-Foster, acting prime minister, requesting that government offices close at three o'clock. These steps were taken as a further effort to check the spread of influenza.

A report from the doctors of the city on Monday afternoon showed that there were no more people sick in bed than on Friday, altho quite a nun ber of new cases had developed, but the patients had not taken to bed. While figures regarding the death rate on Monday were not obtainable,

it is known that they were high. An appeal for help came from Mayor Fisher at midnight.

The paper is emphatic that the question of an armistice must be in the hands of Marshal Fock, but insists that one could not possibly be granted without adequate guarantees, for instance, the surrender of certain strategic points in Germany. Moreover, it says: "The British nation has the right to speak on this question by virtue of its having borne the chief burdens of the war and played a preponderant part in it.... The British fleet, according to the testimony of all foreign observers, including Admiral Sims, has been the absolutely indispensable foundation of

Britain Demands Removal

Of War Prisoners to Rear

London, Oct. 12.—Great Britain de-mands the immediate removal of Bri-tish prisoners to a distance of not absolutely indispensable countries of our present victories. . . We should be devoid of the common feelings of and humane treatment of prisoners in German occupied territory and elsewhere and that Germany permit re presentatives of the Government of Holland forthwith to inspect occupied territory behind the German lines, with a view to ascertaining that the grievances complained of are redressed. Germany must undertake that no British prisoner of war henceforth shall be employed underground in sait mines.

> Prominent Men Believe the Enemy Aims at Saving Armies From Destruction.

London, Oct. 14.-The London news-

papers are publishing numerous interviews with leading men of all classes of public life on the German reply to President Wilson. The dominant note thruout these is distrust of Germany's good faith with a belief that she is intent only on saving her armies from inevitable destruction and robbing the allies of the fruits of victory. General approval is expressed of the reserved manner in which the reply has been received by the public at large, among which the news of the proposed armistice evoked feelings not of rejoicing but of anxiety lest anything be done which would jeo-pardize a just recompense for the ter-rible sacrifices made. Nowhere has there been any flying of flags nor has has there been any ringing of bells.

Public feeling on the subject has been especially affected by the sinking of the Leinster. Thus T. P. O'Connor, speaking at Whitfield's Tabernacle yespeaking at Whitfield's Tabernacle yespeakin Germany's overtures.

Further, it is stated, when the time is ripe for considering the question an armistice will not be granted or even considered without the considered with th

The allies, he declared, must apply which alone would guarantee the world from a repetition of her crimes against it, and an armistice should not be allowed which would convert a disastrous defeat and perhaps a wholesale surrender of the German armies on the battlefield into a leisurely and safe guaranteed retreat, for that would en-able the new race of militarists to able the new race of militarists to claim that they had led Germany, not to defeat, but to victory.

"There should be reparation for the devastation Germany has caused in so many lands," said Mr. O'Connor, "and I cannot help hoping that the chief criminals will not escape retribution, and I cannot help fearing that the same gang of miscreants may risk another chance of recovering power deluge the earth with blood."
