GASOLINE MOTOR RAILWAY PORT CREDIT TO GUELPH MORE WRITS FOR CAR CO.

Railway Committee Reports Bill—Peterboro Asks Right to Develop Power. Engineer's Timetable is Delayed Pending Negotiations—Quiet Day at City Hall.

A railway operated by gasoline motors is one of the possibilities of the future. A bill was before the railway committee of the legislature yesterday to incorporate the Port Credit, Brampton and Guelph Railway. The company intends to use gasoline as a motive power as an experiment, but if it is not a success, electricity will be adopted.

After some busy days the city hall took on a quiet air yesterday. The board of control and some of the heads of departments had a sort of a preliminary talk in the morning before going up to the parliament buildings to urge the city's claims to the many matters which are dealt with in another column.

More Writs for T.R.C. Two writs will be issued by the city to-day against the Toronto Railway Company to recover \$1400 more for the non-compliance with the timetable adopted by the city council.

Complaints from workmen continue to pour in from all directions as to the overcrowding of the cars. The Park Commissioner Chambers and City Solicitor Chisholm has decided that the "keep off the grass" law must be observed or prosecutions will follow.

A HOT-TIME CHARIVARI.

Bullets by Bushell and Dynamite Made Things Lively. acry CARD SYSTEMS FOR DENTISTS

One of the most interesting features of the clinic, which has just closed at the Royal College of Dental Surgeons, was our display of simple systems for busy dentists.

Our system does with one little card index drawer the work which requires three cumbersome, expensive books in the antiquated records so long in vogue.

Made in three sizes at \$2.50, \$5.00 and \$6.50. Make it a point to come in and post yourself on the advantages of this system.

Conservatives will have to shoulder the salary grab. The World prints in another column all that was said in connection with the salary grab by the speakers in the debate last Monday on the address.

It is because the out and out party organs, for some reason or other, are determined to report as little as possible of what is said about the grab, that the World sees fit to publish the debates in full.

The public, however, are more than ever dissatisfied with the grab, and parliament does not deal with it when those who were in parliament at the time it went through come before the electors in the next election.

PROMISES GOT THE VOTES.

Liberal in Cape Breton Elected by Increased Majority.

Sydney, C.B., March 14.—(Special.)—The by-election in the north riding has been fought and victory goes to A. C. Ross, Liberal candidate, who, with two polls to boot, has a majority of over 300 over his opponent, John McCormack. The total number of votes cast will be about 6000. Ross led in every poll except that of 8 1/2 p.m. when McCormack had 301 majority.

The result, so far as the majority goes, is a surprise to both parties, the Liberal majority being more complete than at the general election, when the present Liberal candidate, who, with two polls to boot, has a majority of over 300 over his opponent, John McCormack. The total number of votes cast will be about 6000. Ross led in every poll except that of 8 1/2 p.m. when McCormack had 301 majority.

The expenditure of large sums of money for development of various public utilities, and the candidate representing the opposition in parliament would not have 100 weight with the government.

CHILD BORN TO DEATH. Winnipeg, Man., March 14.—A fatality occurred on a Scotland-street this morning, when the 3-month-old child of A. W. Lord was burned to a crisp in a fire which nearly destroyed the house.

It was therefore concluded that he had concealed himself in one of the houses near the spot where he disappeared, and the police proceeded to search them thoroughly from top to bottom.

Nearly half an hour later they discovered that Hennig had contrived to escape in disguise.

It so happened that one of Hennig's lodgings, rented a month previously, was in one of these houses. It was known to him as an industrial workman named Klemmer. His room was situated at 14 Trekow-street, which

FLEET FOOTED MURDERER GIVES POLICE LONG CHASE

Makes Daring Move in Station House and Escapes by Quick Change of Raiment.

Berlin, March 14.—A sensational hunt for an escaped murderer took place to-day in the centre of Berlin.

Early in December a waiter was murdered here, and the police soon came to the conclusion that a leather worker named Rudolf Hennig had perpetrated the crime.

A systematic search was initiated throughout Germany. Hennig's portrait was published in all the newspapers, and was placarded throughout the country, together with the promise of a liberal reward for information leading to his arrest.

Hennig had not left Berlin, but had succeeded in concealing himself in the capital itself. He took lodgings simultaneously at different houses under different names, and walked the streets day after day undisguised without being recognized.

This morning he was captured. Information reached a police station in the centre of Berlin that a man answering Hennig's description had taken lodgings at 59 Choriner-street, and two detectives in plain clothes were dispatched to the house to effect his arrest.

Quiet Prisoner. Hennig betrayed no surprise when they entered, and offered no resistance. He walked quietly to the police station.

But the moment he reached the entrance to the police station, while one detective stepped forward to open the door, Hennig produced a revolver from his inside pocket, and aimed at the other detective.

Hennig then turned and ran, pursued by the other detective. He ran along Woerther-street, where the police station is situated.

formed one side of the block on which he was pursued.

After diving from the roof of this house thru a narrow attic window, Hennig passed unperceived downstairs and knocked at the door of the man whose he had his lodging.

The landlord opened the door, and seeing the man whom he knew as Klemmer did not suspect him as the fugitive for whom the police were searching in the immediate vicinity.

Hennig even made a joking remark about the hunt going on outside, and said he had come home to change his clothes.

Entering his room, he hastily changed into a green suit and peaked cap, and within five or six minutes the transformation was complete, and he walked downstairs and passed the policeman stationed at the door.

The disguise was so complete that it never occurred to the police that he could possibly be the hunted murderer. Hennig nodded to them as he passed, and made a chaffing remark about the futile chase.

When the police succeeded in ascertaining what had happened, Hennig had made good his escape.

More reinforcements were sent from the headquarters to effect the recapture of the cunning fugitive. Pickets were placed at all the public houses, pawnshops, and second-hand clothing shops where Hennig might probably attempt to exchange his green suit for less conspicuous raiment.

Huge placards were hastily printed and posted all over Berlin, requesting the general public to look out for Hennig and assist in his capture, and offering a reward. Dozens of detectives are scouring the city, searching beer halls and lodging houses.

ASSESSMENT ACT FEATURES OBJECTED TO BY THE C.M.A.

Deputation Waits on Provincial Secretary—Owen Sound License Holders Seek Assistance.

That poor people living in poor houses and having means will be compelled to contribute something towards their maintenance, was the gist of Mr. Elliott's bill, discussed by the municipal committee of the legislature yesterday morning.

Mr. Hughes' bill, changing business assessment from \$250 to \$100, although affording opportunity for unjust taxation of wash women, seamstresses and small tradesmen, also gives a chance to get insurance agents, lawyers, etc., with small office room, but profitable business. The bill stands.

The Assessment Act. A deputation from the Canadian Manufacturers' Association protested against the Assessment Act before the provincial secretary yesterday afternoon.

They also object to having the responsibility placed upon them of furnishing information as to employees' wages, but are agreeable to furnishing lists and letting assessors get the figures at first hand.

It is also claimed the act does not discriminate justly between companies to the extent of the assessment. The act is asking the government "to give incorporated companies the rights which they should have of sharing equally in the partnership and in the responsibilities and benefits of good government."

20 cents each. 3 for 50 cents. All styles, all sizes.

Patent Medicine Regulation Proposed Bill Calls for Heavy Fines for Infractions.

Under the terms of the bill which A. C. Pratt will introduce in the legislature, whenever any patent medicine or compound shall contain more than 5 per cent of alcohol, or more than one-twentieth of 1 per cent of morphine, heroin, cocaine, or of the salts or equivalents or derivatives of the same, or any of them, the package or bottle containing them shall bear a label upon which is printed the ingredients and their percentages in red ink.

On or before Nov. 1, 1906, every firm manufacturing patent medicines shall file two samples with the secretary of the provincial board of health at Toronto, together with affidavits by a member of the firm making the preparation that the article offered for sale is the same as the sample.

At home you always hear the name of this church in connection with the name of the Rev. Dr. George H. Houghton, who was elected vicar in May of the year 1867.

It was on Dec. 20 of that year that Geo. Holland, the actor, died in New York City. The late Joseph Jefferson and Holland had become bosom friends and cronies; the latter had named one of his boys after the actor's name.

Mr. Jefferson was non-plussed for a moment; then he replied, "I don't know your art, but I am indeed surprised at your artifice. I really couldn't officiate at the funeral, for I was preaching against it."

At the time the church was in the hands of the Rev. Dr. Sabine, a book which he had written on the subject of the actor's life was published.

CHURCH AROUND CORNER HOW BECAME IMPROVED-FAMED

Only One That Seems to be Generally Known Abroad—Its Story Told in Many Ways.

No one will deny that Trinity is among America's most famous churches, says The New York Telegraph.

A Keen Appetite and a healthy stomach indicate an active Liver, which is enjoyed by all who use Beecham's Pills.

They insure strong digestion, sweet breath and sound sleep. No other remedy is as good as Beecham's Pills.

It is so long as this is preserved the intelligence of our wisdom of late Church Around the Corner be known of men, for there is no getting away from it—the greatest of all things is charity.

The Church's Humble Origin. The Rev. Dr. George H. Houghton, who so kindly consented to be the vicar of the church, had its beginning, humble though it is, in a private house only a few blocks from the present site.

At the time the church was in the hands of the Rev. Dr. Sabine, a book which he had written on the subject of the actor's life was published.

CLYDE FITCH OF "THE MATINEE GIRL" SHOULD'N'T BE LABELED—SEES THE DETHRONEMENT OF THE MATINEE GIRL.

There is no beverage more healthful than the right kind of beer. Barley malt and hops—a food and a tonic. Only 3 1/2 per cent of alcohol—just enough to aid digestion.

It is much like a family of girls and boys, the sales of the theatre. If you let drama and a blonde farce, and the musical comedy, go called, as a sort of rehearsed production, the public will be pleased to represent and create its own demand as a part of its social life.

## SUPPRESSION OF POOLROOMS

One of the Objects of Methodist Young Men's Work.

At an important meeting of the executive committee of the Methodist Young Men's Association representatives were present from 13 clubs and a paid-up membership of over one thousand was reported.

Among the work laid out for the young men this season was the enforcement of the license laws, suppression of poolrooms and work among the Italians. The united clubs have decided to support the Italian Mission and subscriptions or donations will be received by Walls T. Fisher, 145 Spadina Avenue, treasurer of this fund. The annual fraternal contest was arranged for April 24 at Trinity Methodist Church and the annual banquet for April 3, when the speaker will be Dr. George J. Fisher, international secretary, physical work, Y.M.C.A. of North America, who will address the Canadian Club the same day. The question of the opening of the churches each night was discussed and reported on favorably.

**Cheese Box Machine.**  
D. J. MacLean of Norwood is the inventor of another labor-saving device. This is a cheese-box making machine, on which he has been engaged for some months past steadily. It is a very complicated piece of mechanism, but it moves with great ease and does its work successfully. Five hundred boxes a day may readily be turned out by its aid by one man. The rolls are served at their proper intervals and driven home automatically, and the completed box is made during one revolution of the drum on which the box is bent.

## PLODS THRU ORDER PAPER BILLS ADVANCED

### Legislature Puts in Busy Afternoon With Nothing Particularly Exciting.

The legislature plodded thru the order paper yesterday afternoon, advancing several bills a stage, and deciding not to sit at night. To-day there will be another struggle with the estimates.

Leutenant-Governor Clark attended and assented to the act to amend the Unorganized Territories Act. This is the only act that has gone thru all the stages of the house.

Herb Lennox has given notice of a bill to wipe the Conmee bill from the statute books. Several other measures aiming at the amendment of the bill have been spoken of.

**Replies to Queries.**  
In reply to Mr. Torrance, the attorney-general said the province paid \$22,236 costs in the matter of the attorney-general v. Peters for malicious prosecution, and \$100 supreme court c.s.s. The government had not been asked to pay any further costs. Mr. Torrance was granted an order for all papers relating to the action.

Hon. Frank Cochrane informed Mr. Auld that the pine timber on lots 1 to 6 in the Township of Chesley, additional had been sold to Burton Bros. Barrie, at \$4.50 per 100 feet board measure, and \$1.50 per 100 cubic feet of lumber. It was not by tender or public auction. Another application had been received, but it was after the timber had been sold.

Mr. May, for Mr. McDougall, was given an order showing all timber licenses granted, or timber or land covered by timber, sold by the present government without advertisement, with names of purchasers and other information. Mr. Cochrane agreed to it if the mover would consent to a record of the motions of the past government since 1895 being included. Altho Mr. McDougall was not looking for this information, his deskmate could hardly refuse Mr. Cochrane's request.

**Waste of Gas.**  
To check the alleged waste of natural gas, Mr. Fraser introduced a bill to provide for a more effective plug to be used in abandoned wells, by having it cased in rubber.

**Amend the Municipal Act.**  
Mr. Bradburn would give power to townships to hold meetings in cities, towns or villages adjacent to townships, as well as within their limits.

**Exemption of Woodlands.**  
Mr. Downey urged the importance of his bill to exempt woodlands from taxation. If the forests had been preserved the people would not have been looking solely to Niagara Falls for water power; some of the rivers of the province would have been producing electricity. The purpose of the bill was to develop and protect wood lots. Ten acres in every 100, and not more than 25 acres in all, would be exempt. In France three-quarters of the woodlands were exempted for thirty years, and every state of the Union had done something to develop woodlands.

Hon. Mr. Cochrane had no objection to the second reading, but he felt there was not sufficient time this session to go into the question fully.

Mr. Hislop thought there would be room for a good deal of trickery. Nevertheless he heartily endorsed any movement towards reforestation.

Mr. Duff and Mr. Kobler also strongly supported the bill, the latter urging that there should be no limit to the number of 100-acre farms a man owned and reforested.

**CO. MURDO had a woodlot which was so well fenced off that even the South York boys could not get into it.**

The bill was read a second time. Mr. Downey's bill, delegating to the council, and not to the mayor, the power of nominating a member of the parks commission, was read a second time.

**Railway Bills Withdrawn.**  
The protection of the lives of passengers and employes of street railways was the subject of an Electric Railway Act introduced by Mr. Downey and given a second reading.

Hon. Mr. Hendrie asked Mr. Downey to withdraw his bill, as well as an amendment to the Street Railway Act, in view of the fact that the provisions of the bill were included in the government railway bill. Mr. Downey then moved for the discharge of the order.

Mr. Little asked for protection for farmers assisting at barn raisings, in an amendment to the Municipal Act, read a second time. The bill provides for municipal inspection of barn-raising tackle.

Hon. Mr. Hanna said the bill ought not to pass in view of the fact that the erection of buildings were liable for accidents should occur.

The bill was withdrawn.

These bylaws were also read a second time: To amend Assessment Act (Municipal); to amend Assessment Act (Municipal); to amend the Municipal Act (McDougall).

**Voting and Exuberance.**  
Mr. Labrosse, the French-Canadian representative of Prescott, made a good English speech in favor of polling on the Friday preceding New Year's Day, when it comes about that New Year's Day is the first Monday in the year.

Hon. Mr. Hanna saw no reason why Scotchmen and others who wish to celebrate on New Year's Day should not do their voting and celebrating on the same day. Second reading carried.

Mr. Macdunnald asked for an amendment providing that arrears for heat and light might be secured by a lien against the land, as in the case of waterworks. Passed.

**Assessment Telephone.**  
Important to the welfare of independent telephone lines was the bill of Mr. Munro's which received its second reading. The bill, which has before been described, would have telephone lines assessed only upon the actual cost of construction.

**Two Years for Aldermen.**  
Mr. Thompson (East Simcoe), in moving the second reading of his bill to make the term of municipal office two years instead of one, pointed out the saving of trouble and expense there would be. Hon. Mr. Hanna remarked that Toronto was making a like request, and that other municipalities were asking for terms of two, three and four years. He moved that the bill be re-

ferred to the municipal committee, which would be held in session on Monday.

Another bill by Mr. Thompson, to make it obligatory for nominees to municipal office in townships to file a declaration of their qualifications, was given a first reading on Monday afternoon, and a second reading on Tuesday.

A second reading was also given Mr. Kidd's bill to provide that householders or ratepayers might have power to petition for the formation of police villages. Hospital Bill.

The houses went into committee. Mr. Cochrane's bill, to protect forests from fire, went thru without objection, and the Toronto General Hospital bill was then taken up. Mr. Graham asked if any consideration had been given to the objection that the Toronto members of the board should not be members of the city council. Hon. Mr. Hanna said after a consultation with the mayor it was deemed advisable to leave the bill as it is.

The premier replied to Mr. Ross' objection that those who were flying the danger signal weren't able to offer a good reason for so doing. There would be only five representatives on a board of trustees, and it would be impossible to harm them. They were men who had been honored by the city in electing them to the city council, which body had voted \$200,000 for the hospital. Mr. Harcourt took up the debate. It would be only a slight restriction to provide that council should name representatives without saying that they should belong to the council. Mr. Goldwin Smith, P. C. Larkin or J. W. Flavelle, for instance. He argued that municipal councillors were not eligible for appointment as license commissioners, or kindred office.

**Will Keep Faith.**  
The provincial secretary said that the city had made its grant on an understanding as to representation, the mayor having been a member of the board for years. There could, in good faith, be no change made in the act without getting a practically unanimous assent of council, which would not be given.

When further funds were needed, application would be made to private subscribers, and, secondly, to the municipal council. It would be a matter of great importance when city council was asked for more money, and it was in the council men familiar with its needs. There couldn't be any better protection. The objectors were not entirely silenced, but they were dropped after a few minutes of further discussion. The complete reading of the act was deferred for the making of some minor changes.

**Notices of Motion.**  
Mr. Thompson (Simcoe) - Bill to amend the Division Courts Act.  
Mr. Lucas - Bill to amend the act respecting the Deeds and Estates Act.  
Mr. Pattinson - Bill to amend the Municipal Act.

**OPERATE DURING FIRE.**  
While Maine Hospital Burns, Doctors Work With Patient.

Biddeford, Maine, March 14. - The Trull Hospital was burned to the ground to-day.

All the patients were removed to safety, including a woman who was undergoing an operation. In this case the doctors worked until it was not safe to remain longer in the building. The patient was removed to a nearby place, where the operation was completed.

**ANARCHISTS PLOT TO KILL.**  
New York, March 14. - A cable despatch to The Herald from Rome says that the Gazette del Tribunale says that a prisoner who is ill in the infirmary of a prison has confessed that he was present at a meeting of anarchists in which a plot was concocted to kill the King of Italy on the occasion of the inauguration of the Milan Exhibition on April 18.

**Detained by a Friend.**  
Detroit, March 14. - William Talbert, a resident of Hillsdale, Mich., Ont., who is wanted at Ypsilanti, Mich., on a charge of alleged forgery, was taken to this side last night by an acquaintance of his, who acted with an officer from Ypsilanti and the Detroit police.

Talbert was placed under arrest as soon as he landed from the ferryboat.

**Q. O. R. Sergeants' Excursion to Buffalo, March 17th.**  
The above have secured from the Canadian Pacific Railway the low rates for their St. Patrick's Day excursion. Extra train leaves Union Station 8:45 a.m. sharp. Tickets are good returning on all regular trains Sunday and Monday following.

**Pet Stock Association.**  
Hespeler, March 14. - An enthusiastic meeting of poultrymen was held here to form a local poultry and pet stock association. Mr. Terry, assistant to Prof. Graham, O.A.C., presided.

Monthly meetings are to be held. Thomas Traplin was elected president; W. Rife, vice-president; E. Thorn, treasurer, and G. W. Tobbe, secretary. About thirty joined the association.

**His Life for His Property.**  
Utica, March 14. - By the burning of a farm house at Babcock Hill, in the southern part of this county, last night Thomas Dugan was burned to death. Dugan returned to save some property and was overcome by the flames.

## JUDGE'S SEVERE CENSURE.

Young Man Had Bad Use of Young Girl's Letters.

Brookville, March 14. - (Special.) - Thomas Parks of Cardinal has brought action against J. Reid of the same village for damages for alleged seduction of his daughter Agnes. The case came on for trial at the present sitting of the court before Judge Clute. Under cross-examination the girl broke down and collapsed in the witness box, her condition being such as to cause a postponement.

She went down before the lawyer for the defence when he produced incriminating letters written by Miss Parks to a young man named J. Mattice of Morrisburg. The case was forthwith dropped. After recording judgment his lordship called Mattice to the bench and administered a severe rebuke.

He was addressed by the judge as follows: "And you preserved these letters received from this girl and now make evasive of them for other people. Any man who would do this is not fit to be at large in decent society. That is one of the worst pieces of blackguardism I ever came to my attention as a judge, and these letters to be returned to the girl."

**MUSIC HALL FOR BIG STORE.**  
Wanamaker's Latest Enterprise - Toronto Musician in Charge.

Detroit, March 14. - G. A. Depew, choir director of the First Presbyterian Church, has accepted the position as organist and concert director in Wanamaker's new store in New York. A large concert hall has been built in connection with the store, in which a thirty thousand dollar organ has been placed. Mr. Depew will give afternoon recitals. There will also be recitals by piano and orchestral concerts.

Prominent organists in all over the country will be brought to New York to give recitals.

Mr. Depew received almost his entire musical education in Toronto. He holds the degree of musical bachelor from Trinity College. He came here about 15 years ago.

**PICTURES FOR THE SCHOOLS.**  
Art reproduction from the greatest masterpieces in the world will decorate the walls of Toronto's schools. It is another of Inspector Hughes' ideas. He places great store by the mute influence good pictures have in moulding character and submitted a list of pictures to the advisory art committee, who chose the following: "The School which will be hung in each school."

"Mona Lisa," by Leonardo Da Vinci; "The Artist and Her Daughter," by Rene Le Brun; "William III, Prince of Orange-Nassau," by Van Dyke; "Old Woman Saying Grace," by Maes; "The Ash-Tree Avenue," by Hackart; "A Fresh Breeze," by Ruijsdael; "The Foster Sisters," by De Vos; "Virgin, Infant Christ and St. John," by Botticelli; "Madonna in the Meadow," by Raphael; "A Young Bull," by Potter; "Portrait of Charles First," "Children's Sports," "London Bridge," "St. Anthony and Children."

**Really to Be Released.**  
Kingston, March 14. - F. Rielly is to be liberated at Belleville this week after serving a year for his connection with the bogus ballot box scheme.

## IMMENSE DAMAGE DONE BY STORM IN SOCIETY IS.

Huge Waves Swept Land Out of Existence, But Loss of Life Not Large.

Auckland, N. Z., March 14. - The steamer Taniwha, from the Samoa Islands, has arrived here, bringing additional details of the storm which swept over the society, Paumotu and Cook's Islands, on Feb. 7 and 8.

The first indications of the tempest discerned at Paapeete were the falling of the barometer on Feb. 6 and increasing sea on Feb. 7. The breaking of the waves on Foreshore caused the natives to evacuate their houses and move to higher ground. The morning of Feb. 8 the sea increased, many houses were shattered and trees were leveled by the tornado. At noon the worst of the storm had passed. The only white person who is known to have perished was a man named Lebiach, a caretaker, who was drowned.

The damage to the harbor at Paapeete is estimated at \$400,000 and on the whole island of Tahiti \$800,000. It is believed that three schooners were lost at sea.

The warship Zelee reports that Paumotu, a low archipelago, suffered more severely. The small islands of Yavou and Hikuru are said to have disappeared. Heavy seas swept over many islands, natives seeking refuge by climbing cocoa palms. Six lives were lost on the island of Tahiti, including Father Paul, a Catholic missionary, who, after having sought refuge in a tree for several hours, fell into the waves.

Twenty-five persons were drowned on Anae Island, on which the once beautiful district of Tuirare, was reduced to a bare coral strand. There were six deaths on the island of Motutonga, where native divers saved the lives of many people who had been in the water 12 hours.

It will probably be some time before the damage to the Paumotu Islands is known.

**PUBLIC AMUSEMENTS.**  
The Four Mortons, for years' headliners in vaudeville, will be seen in the Grand Opera House next week, in the latest vaudeville comedy, "Brook into 'Into Society,'" which is all that its name implies, from the standpoint of mirth and melody. They are supported by a company of 25 extremely pretty girls, whose ability at looking bewitching is something far beyond the ordinary. The usual matinee will be given on Wednesday and Saturday.

The popular melodrama, "Shadows of a Great City," will give its engagement at the Majestic on Monday afternoon, when of the stage of that popular theatre will get its annual ducking, and so will Lillie Nellie, also Tom Cooper, when he plunges into the river of real water, and saves the innocent one from a watery grave. This is one of the most thrilling yet natural scenes ever given.

The show at Shea's this week is one of the biggest. Manager Shea has given his patrons in some time. The headliner, Paul Conchas, is doing marvellous feats of strength. The wonderful Ellinger has the most artistic act of its kind. Others who please are Barrows and Lancaster Co., in "Tactics"; Theresa Dorogoval, Lew Hawkins, Rhee and Elmer, Luigi Del Oro and Wormwood's dogs and monkeys.

For the week of March 19, Manager Shea has provided a splendid bill, headed by the Kalamazoo troupe of bicyclists, who have been appearing all season at the New York Hippodrome. Others are Emma Francis and her whirlwind Arabes Callahan and Mack, Burton and Brooks, Harry Atkinson and Alfred Arneson.

When the "Kentucky Belles" come to the Star Theatre next week, local players will have an opportunity of judging for themselves just what a high-class burlesque company is. All the members are pretty and talented and know how to wear costly costumes that the management has provided for them. They possess excellent voices.

Madame Albani's concert this evening will be long remembered as being the last concert program in which this great prima donna will sing in Toronto. The feature is undoubtedly "Hear My Prayer," in which Madame Albani takes the soprano solo, and the Toronto Festival Chorus of 160 voices, under Dr. Torrington, presents the choral part of this beautiful motet. The newly equipped organ will be played by Dr. Charles A. E. Lewis, while Mr. Wankel and Miss Verne will play the piano. Madame Albani's other numbers are Mozart's aria "L'Amore"; (a) "Songs My Mother Taught Me" (Dvorak); (b) "Daffodils & Blowing" (German). She will sing as encores "Crossing the Bar," Lord Tennyson's last poem, Tosti's "Good-by" and "Home, Sweet Home."

Henri Marteau, the great violinist, who comes here on Wednesday evening next to Massey Hall, in conjunction with Jean Gerardy, is considered by many to be the greatest master of the younger school. The plan opens to-morrow morning.

The plan for the America Jubilee Singers, who appear here on Monday evening next, will open at Massey Hall to-morrow morning.

The Dolmetsch Trio, composed of Mr. Arnold Dolmetsch, Mrs. Mabel Dolmetsch, and Miss Kathleen Salmon, will give a concert to-morrow evening in Conservatory Hall and will give an entirely altered program on Monday evening. The seats are on sale at Tyrrell's bookstore.

**Injunction Against Arcanum.**  
Chicago, March 14. - Frank Culver, an attorney, filed a bill to-day complaining of alleged excessive rates of insurance instituted last May by the supreme court of the royal arcana and asking that the order be prevented by an injunction from placing the rates in effect.

The suit is similar in character to actions that have been previously filed in other states.
