## RESULT OF TO-DAY'S POLLING WILL INFLUENCE THE WAVERERS

### BALFOUR FINALE IS TARIFF REFORM

With Chamberlain, Issues Final Manifesto to Reassure the Working Classes of its Benefits.

THE ELECTION.

Elected yesterday by acclamation	3
Mr. Chamberlain (L.)	
Mr. W. Hills (L.)	
Mr. W. Guinness (L.)	
Elected to-day by acclamation	2
Lord Hugh Cecil (C.)	
Mr. W. Anson (C.)	
Polling to-day in	74
Constituencies, viz:	
Liberal seats	48
Unionist seats	17
Labour seats	9

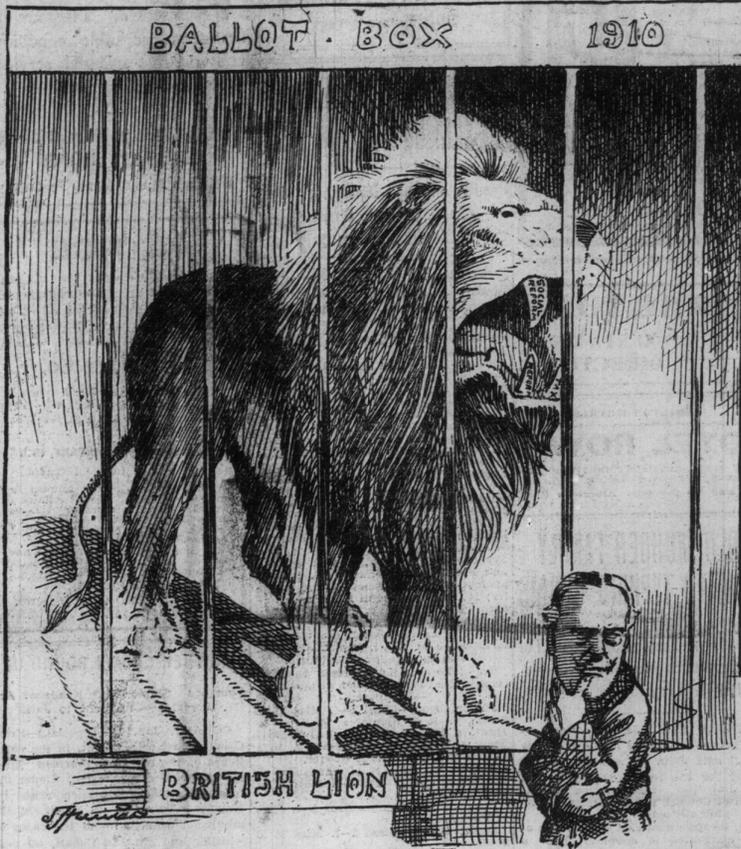

(Canadian Associated Press Cable.)  
LONDON, Jan. 14.—The eye of the polling finds both parties outwardly full of hope. The Liberals certainly and confidently anticipate a comfortable majority at any rate, while the Conservatives think at the worst such a majority will be so small as practically to be useless.  
The betting seems to be 5 to 4 or 6 to 4 against the Conservatives.  
Tariff reformers are making a great final effort to convince the electorate that bread will cost less under a system of protection giving a preference to the colonies.  
J. Balfour and Joseph Chamberlain to-night issued a joint manifesto, tersely declaring that tariff reform would not raise the price of food, nor the proportion of taxation paid by the working class on articles for consumption. It will, not they say, lessen employment and develop trade with the overseas states.  
The Liberal press and speakers are strenuously appealing to the people to vote to protect the vote, urging the certainty that if the people's reflection of the budget is confirmed, a Liberal house of commons in a democratic state would in financial affairs be henceforth "helpless before the coalition of protectionist interests who engineered the crisis," with catastrophic results to working-class exchequers.  
These are the great issues joined, and, as said before, the results all depend on how the "quiet" 20 per cent. of the voters cast their ballots.  
Confident speeches were delivered to-night by Lloyd-George at York, with the words again as his text; by Bonar Law, Austen Chamberlain, Lord Grey, Winston Churchill and John Burns.  
According to the Liberal manifesto, the following London seats to-morrow: North Lambeth, Fulham, Islington, North and Islington South.  
Among 20 provincial seats, which the Conservatives expect to win, are Ashton under Lyne, Palmouth, Burnley, Cambridge, Southampton, Southampton, and two in Manchester.  
A leading financier in the city estimates the Conservative majority at 70.

### An Important Feature in Determining the General Outcome of the Campaign—Both Parties Professing Confidence.

### HEAVY TURN OVER IN NORTH EXPECTED FOR TARIFF REFORM

(Special Cable to The Toronto World.)  
LONDON, Jan. 14.—As the polling dates approach popular excitement is increasing to fever pitch, heightened as it is by the extraordinary uncertainty which surrounds the result of the elections.  
Even the most experienced observers admit the baffling nature of the situation, while professing entire confidence that the new parliament will be in accord with their own personal inclinations. Indeed, it is true to say that warrant can be found for utterly contradictory opinions. Not only are there marked district differences, but the current of popular sentiment has not been uniform anywhere. It has been characterized by curious cross-eddies, whose real significance has baffled enquiry and judgment. Never before has the electoral situation in Britain been so confused, so devoid of material on which any general forecast can be ventured with any degree of confidence.  
The volume of Unionist feeling, so far as can be judged, appears to be abating, mainly owing to the colossal efforts of the free traders during the present week. Mr. Balfour's pronouncement in support of import duties on food products has powerfully influenced the poorer voters, who regard any possible increase in bread prices with an intense dissatisfaction, not allayed by his assurances that the tariff can be adjusted so that it will occasion no advancement in the cost of living. Mr. Balfour's declaration that tariff reform will only diminish unemployment among skilled workers, has been used with considerable effect, and the frequent occasions when Unionist speakers have had to disavow the poster intimating that tariff reform means work for all, have added to the uneasiness that undoubtedly pervades the poorer portion of the population.  
Churchmen Confused.  
English Churchmen—many of them at least—are confronted with a difficult problem in having to choose between the remote peril of disestablishment and the present menace of the liquor trade. At no previous election has the determination of the liquor interests to defeat or delay a thorough scheme of licensing reform been so strongly in evidence. Churchmen who are also social reformers recoil from identification with the liquor trade, and will either cast their votes for the government or abstain from participation in the polling. Either course will tell in favor of the government.  
Turnover in the North.  
From quarters closely in touch with manufacturing centres in the north comes the opinion that there will be a heavy turnover of votes due to the gaining popularity of tariff reform. This view is shared in part by Liberal workers, but no agreement exists as to the extent of its prevalence in these constituencies, and only the ballot boxes can decide whether it is sufficient to change the present Liberal advantage. Still more doubtful is the state of public sentiment in the border counties, and few will venture to predict themselves to a definite expression of opinion. In the south of England it is conceded a number of constituencies will revert to Unionism, and Unionist gains are expected in London, especially in cases of small Liberal majorities in 1906, notwithstanding the intense energy of the Liberal campaign. Taken all over, the sanguine on both sides profess confidence, but the less optimistic think it impossible to reach a clear opinion. Some improvement in the Unionist position is looked for in Scotland.  
To-day's Vote Will Influence Waverers.  
Inasmuch as an unprecedented amount of indecision exists among the mass of the electorate, as the issues have been and are so confused, and as pre-existing party bias will in this election count for little or nothing, much is expected to depend on the results of the first pollings. These have not always indicated the final standing of parties, nor can the electoral sentiment in the counties as a rule be anticipated from the borough returns. But this election is exceptional in character, and the waverers are generally expected to follow the lead given by the earlier polls.  
Lancashire for Liberalism.  
The large Lancashire cities are exhibiting a strong Liberal tendency, and the prospect of dearer commodities is influencing the electors. The dear food bogey obscures the other issues, and everywhere people are ridiculing the prospect held out of better wages under a tariff. Antipathy against the great landowners has been actively stirred up by the Liberals, whose position has improved all over the country as the result of this week's campaign.  
HORACE JAMES DOUGLAS.

## FEELING A LITTLE NERVOUS

SIGNOR BALFOUR, the lion tamer: I'd put my head in his mouth with more confidence if he hadn't grown those teeth lately.

## BRODEUR GONE, AYLESWORTH GOING BELAND AND GUTHRIE IN CABINET

### Minister of Marine Will Be Taken to the West Indies to Recuperate From His Illness.

### A GENERAL SHAKE-UP IS SOON TO OCCUR

OTTAWA, Jan. 14.—(Special.)—It was stated to the correspondent of The World authoritatively this evening that Hon. L. P. Brodeur has seen the last of public life. Just as soon as his condition will permit, he will be removed south, and will spend a few months or longer in the West Indies.  
Mr. Brodeur's retreat from parliament will be followed almost immediately by the retreat of Hon. A. B. Aylesworth, whose hearing is gradually growing worse.  
The minister of justice is now seldom in the house, and The World is informed to-night that he will resign before the fisheries case comes before the House of Commons.  
Thus some important changes will be made very shortly in the Dominion Cabinet.  
Hon. Rodolphe Lemieux, postmaster-general, will become minister of marine and fisheries in succession to Mr. Brodeur.  
Hon. Charles Murphy, secretary of state, will become minister of justice. Hon. Wm. Templeman, minister of inland revenue, will become postmaster-general, and his successor as head of the inland revenue department will be Dr. H. S. Beland, of Beauce, a young French-Canadian member who has shown some judgment and ability.  
Hugh Guthrie of South Wellington will very probably become secretary of state, in succession to Mr. Murphy. He has the definite promise that he will be given the first Ontario vacancy in the cabinet, which should make the position a certainty for him. There is no man of greater ability amongst the younger generation of Liberals.

### STREET RAILWAY REFORM.

There is on one side  
I. The Toronto Street Railway, and its wretched service.  
And on the other:  
II. The Citizens of Toronto.  
III. The Mayor, Controllers and Aldermen.  
IV. The Legislature.  
V. The Toronto Newspapers—six in number, all professing concern for the public welfare.  
Now, the way to get Street Railway Reform (we've had Brother Macdonald writing First-page Reform Rapshodies in The Globe, Social Reform, Local Reform, Tariff Reform in England), is to hold these last four bodies responsible for its passage!  
The Street Railway relies on being able to head off reform, by chloroform, by cry of vested rights, the sanctity of its contract with the city, the Privy Council judgment, and, lastly, that it's a Great Friend of the Conservative Party!  
So it wants Nothing Done. Will it succeed?  
Not if the Citizens Speak Out.  
Not if the Mayor, Aldermen and Controllers are true to their Oaths, their Duty and their Professions.  
Not if the Ten Members and the Legislature are true to Municipal and Public Rights.  
Not if the  
The Globe,  
The Star,  
The Mail,  
The News,  
The Telegram,  
The World,  
are true to the public they profess to serve.  
The World proposes to put this question of Street Railway Reform right up to all these Parties.  
Let the People watch 'em all.  
And what is the quick, fair and only sufficient means to Street Railway Reform?  
(1) Expropriation by Arbitration.  
(2) Tubes.  
Why should there be any trouble in getting these Reforms?  
The World proposes to find out.

## ALL SIGNS POINT TO GOOD CAMP

Government Mining Engineer Makes Favorable Report to Department of Mines on Porcupine District.

These were the Wilson, Miller, Gillies, Hollinger, Davidson and Bannerman.  
On all of these I saw free gold in place. The veins are composed for the most part of rusty quartz with a wall rock of schist. In southern Tladi, on the Wilson, Miller, Gillies and Hollinger, the veins run northeast and southwest, and stand up in ridges above the adjacent schist. Up to the north of the Bannerman and Davidson the veins are not so prominent. I was told that much of the schist adjoining the veins will also run in gold values. Several of the veins that I saw will average 25 feet in width, and the large one on the Wilson I was told would average 75 feet in width for at least 500 feet.  
Owing to the lateness of the season when these claims were staked, very little work has yet been done on them, but all the signs so far are favorable for a good gold camp.  
The rush has already started; from 75 to 100 getting off the train at 222 daily, and this number will undoubtedly be greatly increased after the holidays.  
Options on some of the best properties have been granted to Messrs. O'Brien and Timmins, and large forces of men are now making their way in.

### REVIEW OF THE CAMPAIGN

Issues That Have Been Presented to the Electors.  
LONDON, Jan. 14.—To-night witnessed the close of the parliamentarian election campaign. It has been fought on an issue entirely novel to the people of these times—an issue that has not been raised before in 200 years, and which has been fought with an intensity of conviction, energy and bitterness unparalleled in Great Britain in the present generation. Even the traditional home rule campaign, which came near destroying the Liberal party, failed to arouse the political factions to anything like their present vehemence.  
The conflict that opens the ballot boxes to-morrow for the first general election since 1906 is a death struggle between the two great political parties in the state—the aristocrats and the democrats. "Vote to protect the vote" is the exhortation addressed to the people to-night by the leading Liberal organ, and it then succinctly portrays how the conflict presents itself to the Liberals. On the opposing side is ranged every possible influence in support of the privileged classes.  
Home Rule Lost Sight Of.  
Proof that the struggle is concentrated in the demand of the house of commons for a limitation of the powers of the peers may be found in the fact that all attempts to make home rule and the danger of the dissolution of the two great political parties content have proved unavailing. The British elector, so far as at present may be judged, declines to succumb himself to the temptation to endorse its alleged dangers.  
The Weekly Spectator, a free radical organ, representative of moderate men between parties, rather than to endanger the integrity of the kingdom, which, it says, is in far greater peril than ever before, owing to the apathy of the country displays toward the Irish question.  
New Issues Introduced.  
The two outstanding features of the campaign have been the determination of the Liberal party to support the tariff reform, and the determination of the Conservative party to support the tariff reform.

## FARMERS HAVE PRODUCED A 20 MILLIONS "MELON"

### International Harvester Co. Will Treat Its Stockholders Handsomely With 7 Years' Profits.

NEW YORK, Jan. 14.—Twenty million dollars in common stock is to be the share of the stockholders of the International Harvester Co. in the profits of the past seven years. The announcement that this "melon" would be cut was made at the offices of J. P. Morgan & Co. here to-day. The distribution is to be made as a stock dividend to the present \$60,000,000 of common stock.  
The decision to make the distribution followed a preliminary report to a meeting of the directors to-day, by the controller of the company. This report showed that, after setting aside reserves in excess of those set aside in 1908, the earnings of the company for 1909 exceeded \$14,000,000.  
The stock distribution is not all that the stockholders will receive, for the board of directors to-day further recommended that \$2,000,000 be set aside for last year's earnings as a four per cent. dividend on the common stock. This stock has heretofore paid no dividends.  
The statement regarding the matter was issued by W. W. Perkins, chairman of the finance committee of the company.  
PUBLICITY AT THE DEPOT  
Alberta Government to Open an Agency in Toronto.  
EDMONTON, Alb., Jan. 14.—(Special.)—The provincial government has arranged to maintain a publicity office at the Union Depot in Toronto as one feature of a publicity campaign in an effort to bring the population of the province up to 400,000.  
THREE DIE IN N. Y. STORM.  
NEW YORK, Jan. 14.—A fall of 12 inches of snow occurred to-day. Three persons died in the storm from exposure and lack of nourishment.  
A threatened strike among the laborers of the street cleaning department was averted.

## M'BRIEN RECOUNT FAILS TO UNSEAT AID. SPENCE

### Majority Increased From 9 to 19—Careless Counting of Ballots Revealed.

Ald. David Spence is confirmed in his sixth ward seat with a majority of 19, the recount before Judge Denton increasing his majority over Fred G. McBrien by ten votes.  
The investigation disclosed some apparent evidences of carelessness on the part of returning officers. There are 42 sub-divisions in the ward, and between Nos. 29 and 42 there were a number of polling places where the tally of ballots failed to correspond exactly with the returning officer's figures. Ald. Spence gained twelve in this way.  
Twenty ballots more or less irregular were passed upon by the judge, nine being given to Mr. McBrien and seven to Ald. Spence, while four were rejected.  
The recount proceedings started at 11 a.m. and were not concluded until after 7 p.m. Mr. McBrien made a deposit of \$25 to cover the cost.  
During the past three years the arduous contest in the sixth ward has been very close. Two years ago J. A. McCausland had a recount in an effort to upset Ald. Adams' majority of 13, but without effect. Last year Mr. Adams defeated Mr. McBrien by 22, and a recount was talked of but was dropped.

### FOUND FROZEN TO DEATH

Retired Farmer Lost His Way in Thursday Night's Storm.  
ELDRA, Jan. 14.—Jas. Ferguson, a retired farmer, about 65 years of age, was found this afternoon in a field on the Ewings farm, near Salem, frozen to death.  
It is supposed that on his way home last night he took the wrong turn and was overcome by the storm.

## MONTREAL HOPES TO CONSTRUCT WARSHIPS

### Believes Big Yards Will Be Opened There and in Halifax for Building Canada's Navy.

MONTREAL, Jan. 14.—(Special.)—There is a growing belief that the two shipbuilding plants in Canada will be in Montreal and in the Dartmouth side of Halifax harbor, where Swan & Hunter purchased a site some time ago. It is said in Montreal that the government will not subsidize any steel shipbuilding plant, but will ask for tenders for the construction of war vessels both here and in the old country, believing that if the work can be done in the Dominion, even for 25 per cent more than abroad, the people would justify the additional expenditure.  
The announced arrival of the leading shipbuilder of Glasgow in this city to-morrow would appear to indicate that Montreal has been fixed upon as one of the great shipbuilding centres of the country. Then it is stated that Swan & Hunter will spend a million on the proposed Dartmouth plant, and that in a year's time they will be able to construct first-class cruisers as well as merchant ships.  
It is also understood that the Dominion Iron and Steel Company will add a plate mill to their establishment at Sydney, the product to enter into the construction of war vessels at both Montreal and Halifax harbors.  
Then another important announcement is made to the effect that Maxim, Son & Co. will build an establishment here, as well as the proposed dock, and that they expect to be in a position to carry on all kinds of steelwork, besides the construction of war ships, on the St. Lawrence in the east end of Montreal.

## SAYS WHOLE OPPOSITION WILL VOTE AGAINST NAVY

### "Le Devoir" Springs a Sensation—Paquette, M.P., Says He Will Support Monk.

MONTREAL, Jan. 14.—(Special.)—"Le Devoir," Bourassa's paper, publishes a sensational dispatch from Ottawa this evening to the effect that the opposition will vote en masse against the naval bill, asking that the measure be submitted to the electorate. In an interview, Mr. Paquette, Conservative M.P. for Lislet, says: "I will support Mr. Monk on this question. He is the French-Canadian leader of the party, and I must respect his opinion. I am ready to break the alliance concluded in 1854 between the English Tories and the French-Canadians rather than renounce my principles on this affair of the navy."  
"I am opposed to the participation of Canada in the empire's war because we have no right to be asked to express our opinions and our ideas on imperial matters. England has had wars lasting twenty and thirty years, and they have occasioned enormous expense."  
"French-Canadians have a right to an expression of opinion without being called traitors, and they do not want a navy."

### EARLY CLOSING BYLAW ILLEGAL

Montreal Aldermen Unable to Close the Bars as Intended.  
MONTREAL, Jan. 14.—(Special.)—The favor people are fighting the early closing bylaw with the greatest possible energy. To-day they succeeded in having the city attorneys declare the bylaw illegal, consequently it could not be brought before the council as expected. There is no doubt that the majority would have voted in favor of the measure.  
Then, Manager Weldon of the Windsor has taken proceedings against all the aldermen who voted the second reading of the Carter Measure, W. J. White, K.C., being his counsel. The claim is made that the measure is a direct attack against a business in which millions of capital is engaged, and which means the ruin of many citizens.

### THE BIG MEN'S HAT DAY.

Saturday for men's hats at Dineen's 140 Yonge-street. It doesn't matter whether you are a real particular man and want a London or New York hat with a big maker's name on the inside band, or one that has style and can be purchased at a reasonable or low price, you'll find it at Dineen's. The store remains open until 11 o'clock Saturday night.

### Investment—Not Expense

Advertising in poor mediums, the use of poor "copy" is good mediums, or advertising goods that do not satisfy the consumer, is an expense.  
Advertising properly done on goods of quality is an investment, and not an expense.  
The Toronto World is in the "good-medium" class. An advertising contract will prove the best of investments.

which will include choice selections of CARRIAGE PAIRS, SADDLE, HUNTERS and COMBINATION HORSES, and a number of good ROAD HORSES (trappers and pacers), and several well-bred PONIES. Here are the descriptions of some of them:

- CONSIGNED BY Mr. James McCann, of this city:
  - CANADIAN QUEEN, brown mare, 7 years, 16 hands, sired by a son of Montbars, dam by Five Points. She is one of the best green trotters that has been offered for sale. She has been miles in 2:30 and halves in 1:12 to a bike wagon. She is city-broken, and a great road mare.
  - ALSO her Bike Wagon, Runabout, Portland Cutter, Set of Harness and Robe.
- EBONY, black gelding (pony), 4 years, 14 hands, sired by Golden Jubilee (standard bred). This is a good-looking family pony, well broken to harness and saddle. He has been ridden and driven regularly by a lady, and is thoroughly reliable.
- JUBILEE, chestnut mare, 4 years, 15 hands, sired by Golden Jubilee (standard bred). This is a fine-looking big mare, with faultless conformation and the best of manners. She is well broken to ride and drive, and has lots of quality. Truly a fine combination mare.

WE SHALL ALSO SELL a number of high-class Horses consigned to us by MR. HUGH WILSON, of Oakville, which we have received instructions to sell for the high dollar.

ALSO consignments from such well-known horsemen as Mr. Jas. McMillan, of Hartwick; Mr. Joseph Brownridge, of Brampton; Mr. Albert Kee, of Brampton, and a number of good clip-broken horses.

### UMPIRES' CHIEF TROUBLE COACHERS AND THE BENCH

President Lynch of the National Baseball League Will Provide a Remedy.

NEW YORK, Jan. 15.—When the rules committee of the National and American Leagues meet at Pittsburgh on Jan. 14, President Lynch will offer an amendment to the code which, in his opinion, will do away with a large share of the umpires' troubles.

President Lynch, an expert umpire himself, recently sent a letter to each man on the National League umpire staff, asking for information as to the causes of some of the disorder on the ball field last year and in previous years.

Mr. Lynch has since received replies from the umpires, and when asked about them to-day said: "The replies show that the umpires have practically little friction with the players actually engaged in the game, but that the present trouble is caused, by the coaches and the players on the benches. The rules against kicking on the ball field are clearly drawn and can be rigidly enforced. There are ironclad rules governing the coaches, too, in holding over the code I find that there is nothing to prevent the misconduct of players on the benches."

"An umpire has a hard time watching the players on the field, so that the unruly ones on the bench can do as they please. But I am going to provide a remedy for this evil. I can't say what it will be, but it has not been adopted yet. But I am going to submit it to the joint rules committee with the idea that both leagues will adopt and enforce it."

President Lynch said to-day that the Philadelphia Club's explanation of the trouble over William J. Murray's contract had been asked for, and would be forthcoming directly in the matter would then be taken up by the league's board of directors, a decision to be arrived at by mail vote. In the opinion of President Lynch, if the decision of the directors in this case should not be satisfactory to the Philadelphia Club and to Murray, the matter could be appealed to the National Commission.

President Fogel of the Philadelphia Club meanwhile says the commission has no jurisdiction and proposes to Johnson for saying that Murray has a just claim for \$15,500. Baseball men who have weighed the facts are offering odds that Murray will collect the entire amount.

Baseball Notes. The Baltimore Eastern League team will play several major league teams, including the Giants, in the Monumental City in April, as indicated by this schedule: March 29, Philadelphia, Nationals; March 30, New York Giants; April 4 and 7, New York Giants; April 8, Brooklyn; April 11, Washington, and April 13, Athletics.

The Pittsburgh world's champions will report at West Baden on March 3, and will go to Hot Springs on March 29, remaining at the latter place until about April 10. They will take part in only two exhibition games prior to the opening of the championship season, April 11 and 12, in Memphis. President Dreyfuss says he does not care to run the risk of injuries to some of his star players.

Chairman Herrmann of the National Baseball Commission, is in Chicago for the purpose of meeting representatives of the various semi-professional teams of the United States, with a view of wiping out the last year's left open national agreement contract. The Chicago independent Chicago teams now are the only paying baseball organizations who disgruntled players can find refuge. Mr. Herrmann, "and negotiations are now on to bring the leagues into the fold, thereby making so-called 'outlaw' among players impossible."

Chicago is the centre of four important baseball leagues, and the American League set up its tent, with Ben Johnson as president. Then in came the Western League with Tip O'Neill at the head. A few weeks ago, after a stormy session, Al Tarnear was elected president of the Western League. He, being a native Chicagoan, induced the club owners to look upon the Windy City as their headquarters. Then last, but not least, the American Association last week switched its office from Milwaukee to Chicago.

Eddie Killian, the Detroit Tiger southpaw, has signed his contract for 1910 and Oscar Stange of the catching staff has come to terms for next season with President Navin of the Detroit American.

Charles Rankin of Cleveland broke the world's indoor skating record at Cleveland Wednesday night when the skater of the half mile in one minute sixteen and three-fourths seconds.

John Little Wood, one of the jockeys who contributed to the racing successes of the late Marcus Daly, is dead in Montana of pneumonia. He had ridden on all of the important courses of the continent.

Connie Mack, manager of the Philadelphia American League Baseball Club, has disposed of ten players, only one of whom, however, has been seen in a Philadelphia uniform. This is Pitcher Vickers, whose release has been sold to the Baltimore Club of the Eastern League. Two players were added to Manager Mack's staff. They are Pitcher Sumner, of Washington, Penna., and Pitcher Hanckey of Slatington, Penna.

Railway Mail Clerks Ask Increase. OTTAWA, Jan. 14.—H. B. McGilver, M.P., introduced, and many members accompanied a deputation of railway mail clerks, which waited upon Sir Wilfrid Laurier and Hon. Rodolphe Lemieux to-day. They asked that the maximum be increased from \$1200 to \$1500, and that a flat increase of \$150 be granted all around.

The Insurance Bill. OTTAWA, Jan. 14.—The senate committee to-day passed clause 1 of the Insurance Bill. It deals with interpretation of terms only. There was a long discussion as to whether the bill should be divided into fire and life sections. Senator G. W. Ross strongly advocating it. The matter was left in abeyance till Wednesday.

### TATF'S SPECIAL MESSAGE ON NATURAL RESOURCES

Recommends Issue of \$30,000,000 of Bonds to Carry Out an Irrigation Policy.

WASHINGTON, Jan. 14.—President Taft's special conservation message was delivered to the house and referred to the committee on public lands. The message in part says: "The present statutes, except so far as they dispose of the precious metals and the purely agricultural lands, are not adapted to carry out the modern view of the best disposition of public lands to private ownership. It seems to me that it is the duty of congress now, by a statute, to validate the withdrawals which have been made by the secretary of the interior and the president, and to authorize the secretary of the interior temporarily to withdraw lands pending submission to congress of recommendations or emergency legislation to meet conditions or emergencies as they arise."

### SUFFERED FOR SIX LONG YEARS

Then Dodd's Kidney Pills Cured Mrs. Richard's Diabetes.

Her Rheumatism Also Vanished When Dodd's Kidney Pills Put Her Kidneys in Condition to Do Their Work.

EAST CHEZZETCOOK, Halifax Co., N.S. — Jan. 14.—(Special)—Cured of diabetes and rheumatism from which she had suffered for six years, Mrs. Boniface Richard, well known here, is joyfully telling her neighbors that she owes her health to Dodd's Kidney Pills and to no other cause. "My rheumatism and diabetes were brought on by a cold and a strain, and the I was attended by a doctor who could not help me. After suffering for six years, I made up my mind to try Dodd's Kidney Pills and to my surprise they did me good almost at once. Two boxes cured me completely. I recommend them to everybody as a sure cure for diabetes, backache and all other kidney diseases. Dodd's Kidney Pills cured Mrs. Richard's diabetes because diabetes is a kidney disease, and Dodd's Kidney Pills cure all kidney diseases. Mrs. Richard's rheumatism was caused by her diseased kidneys falling to take the uric acid out of her blood. When her kidneys were cured they strained the uric acid out of her blood and her rheumatism vanished. I recommend, therefore, that authority be given to issue not exceeding \$30,000,000 of bonds from time to time, as the secretary of the interior shall find it necessary, the proceeds to be applied to the completion of the projects already begun and their proper extension. "Upwards of 400,000,000 acres of forest land in the country are in private ownership, but only 3 per cent. of it is being treated scientifically and with a view to maintenance of the forests. "It seems to me that in the development of our inland waterways it would be wise to begin with his particular project (Mississippi River project) and carry it thru as rapidly as may be. I assume from reliable information that it can be constructed economically in 12 years."

Had to Send Toronto Man. Owing to the peculiar nature of the conditions and the impossibility of getting a local man to take the office, Alex. R. Elliott of Toronto has been sent to Port Arthur by the Ontario License Department as inspector. Mr. Elliott, who left last night, accompanied by Provincial Inspector George Morrison, will investigate the serious charges of doping liquor which have been made against the Port Arthur hotels. He is an ex-member of the Royal Irish Constabulary.

People's Popular Service. The popular city band of twenty-seven men, led by J. Andrew Higgins, which delighted a great audience last Sunday night by their artistic playing at the People's Sunday Service, will play at the service in Massey Hall to-morrow night.

Lost in Storm and Nearly Drowned. BROCKVILLE, Jan. 14.—Mr. and Mrs. John Jordan of Chaffey's Locks, narrowly escaped being drowned in Newboro Lake while driving home from Newboro in a blinding snowstorm. They became lost, and in the neighborhood of Doctor's Cut, the horse and cutter went thru the ice.

Three Hundred Miners' Lucky Escape. TRINIDAD, Colo., Jan. 14.—An explosion followed by fire occurred today in the Berwind Mine, 18 miles from here. It is said 300 men were in the mine, but the fire was quickly extinguished with no fatalities.

MR. BAKER SERIOUSLY ILL. LONDON, Jan. 14.—(C.A.P.)—Archer Baker of the C.P.R. is seriously ill with pneumonia, and to-day is reported as very weak. He was only recently married.

Canadian Institute. The Canadian Institute will hold its usual meeting this evening in the physics building, Queen's Park. Saul Duchman, department of electro-chemistry, will read a paper entitled, "Some Studies in Electrolysis," with experiments and lantern slides.

Many Releases. NEW YORK, Jan. 14.—The following releases were announced this afternoon by President Lynch of the National Baseball League:

By Boston, unconditionally, Roy A. Thomas; by Brooklyn, to Rochester (Eastern League), Charles A. Oiperman; E. Holly; J. B. Holmes; Julius Kustus and H. E. Partee; to Indianapolis (American Association), Bill Lewis; to Jersey City (Eastern League), Wallace O. Clement; to Cincinnati, to Quincy (Central Association), Charles R. Keys; to Denver (Western), Alvin J. Dolan; to Kansas City (American Association), Roy Elliott; by Pittsburgh, to St. Louis (American League), Wm. Abstein.

Pirates Defeat Rovers. The Pirates proved too much for the Rovers in a friendly game of hockey at the Granite Rink last night. The game was fast throughout. The winners' defence proved almost invincible. Simpson and Fierliell, in particular, were excellent. The Rovers' defence was the conspicuous man on the wings. Pirates lined up as follows: Goal, Murray; point, Thomas; cover-point, Kingsford; rover, Kemp; centre, Gunn; right, Cobble; left, Baird.

Water Polo, Central Y. vs. Varsity. The first game of the Ontario Water Polo League will be played in the Varsity gym pool on Saturday, Jan. 15, at 8 p.m. The public, including ladies, will be admitted to see the contest, and will have the opportunity of judging whether water polo is the most spectacular game in the world, next to bull-fighting. In addition to the game, there will be a ducking contest, pick-a-back wrestling bout, and exhibitions of fancy swimming.

At a meeting of the Plumbers' Union, local 46, at the Labor Temple last night, Dr. Sheard, medical health officer for Toronto, delivered an address on sanitation. On the second Friday of February, Prof. Hogg of the science department of McMaister University will deliver an address.

The adoption of the 55-hour-a-week law has caused a number of minor strikes in Massachusetts, print and cotton mills. A one-pound shell, a relic of the Spanish war, exploded in a house near the back of a hospital at Portsmouth, Va., wrecking a house and injuring three people.

## Shorter Race Meets The Coming Season In British Columbia

VANCOUVER, Jan. 14.—Racing plans for British Columbia for 1910 are indefinite as yet, the horsemen waiting to see what action is taken at Ottawa on the race track legislation now before parliament. The bill to curtail betting is now in committee and nothing will likely be heard of it for a month or so. It is understood, however, that plans are being laid for four big meetings in the province this year, two each in Victoria and Vancouver. The lengthy meeting of last year will be done away with, and shorter meetings substituted. It is intended to have four meets of 30 days each. The proposal now under consideration is for the season to open for a month in May, at the capital, giving Victoria the first holiday of the year, May 24. Then the horses would go back to the British Columbia Thoroughbred Association's fine track at Minorca Park in June, for 20 days of racing, giving Vancouver "the sport of kings" on Dominion Day. After this meeting would open the season with the racing at Ottawa, possibly, of a week of racing at the Victoria exhibition. Of course every thing hinges on the action of the members at Ottawa, but it is not thought that any adverse legislation will be enacted.

**FIRE CUTS OFF ESCAPE FROM ST. CLAIR SCHOOL**  
Many Scholars Rush Thru Wall of Flame, But Others Turn Back—Three Injured.

The much-boasted fire drill of Toronto school children met with only partial success in a small but terrifying blaze which broke out in the front hall of the St. Clair-avenue school at 3:25 yesterday morning. Breaking out thru a cold air flue by reason of a defect in the hot air furnace piping, the fire threw a roaring blaze across the path of those who sought exit by the front door.

Three of five who jumped or were lowered from a side window on the first floor were slightly injured, while all 16, led by Miss Stanbury, their plucky teacher, made their way to safety past the roaring blaze, which looked more terrible than it really was. The remaining 10, who turned back, were safe when the flames had been extinguished by the janitress and several of the larger boys working with the fire-extinguishers which were used. The resulting damage was but \$250 and the school will be reopened on Monday morning.

The pupils at the rear of the line which Miss Stanbury was leading past the flames to the door lost their nerve and turned screaming back to their class room on the first floor. The teacher having seen all of her charges safely past the flames who would go, turned back herself and went to quell the panic. Not knowing how rapidly the flames might make headway, she was reduced to heroic measures, and opening one of the windows, she proceeded to drop the little tots out of the window into eager arms outstretched to receive them. In this way several were dropped and all but three were caught. Claton Patterson was missed by those below and his spine was so severely injured that he had to be carried to his home nearby, and Harold Taylor, whose ankle was wrenched and who was caught, was also taken home. Eva Patterson was also shaken up, as was Kenneth Taylor. Tom Maljary, who jumped into a snowdrift, escaped unharmed.

By this time the little force of volunteer firemen had put out the blaze and those who remained within were able to walk quietly out. Miss Stanbury, assisted by Principal Gray with Jack Kitchen, a boy in his room on the ground floor, who discovered the blaze, sounded the alarm. The school is a two-story structure, at which 140 children attend. These are taught in four rooms, two on each floor, and the smaller children, under Miss Stanbury and Miss Sloan, occupy those on the upper floor. The very smallest of the primary grade are on the ground floor, with the oldest class under Principal Gray. These little tots were able to get out thru a rear door near which their room is situated.

The fire protection is of the poorest. All the houses on the street are supplied from a two-inch pipe and the nearest fire alarm is over 400 yards distant.

**GOOD-BYE TO WRINKLES**

Scranton Lady Makes Remarkable Discovery That Makes Thin Faces Plump and Wrinkles Disappear as if by Magic.  
Broad-Minded and Liberal, She Offers to Give Particulars to All Who Write, Absolutely Free.

Della Ellison of Scranton, Pa., seems to be the woman whose name shall go down in history as the discoverer of the true secret of beauty. For centuries past women have realized that wrinkles not only made their look much older than they were, but were also the destroyer of their beauty, and with ceaseless efforts they have sought to stay the hand of time which robbed them of this most valuable charm.

Knowing that the honest woman, with clear eyes and furrows midst fight an unequal battle with her younger and better looking sister, many resorted to annoying and even dangerous experiments trying to regain their former youthful appearance. This new discovery, however, will do that treatment is harmless and simple. It is said that aside from banishing it is also a great aid to beauty, making the skin soft and velvety and beautifying the complexion. Many who have followed Miss Ellison's advice look from five to twenty years younger and judging from the number of replies she is receiving daily, people are not slow at taking advantage of her generous offer.

It comes as a surprise that the discovery should be made by a modest little woman in Scranton when our large cities are full of beauty doctors and specialists who have sought in vain for a treatment that would turn back the clock of time and place the imprint of youth on the fast fading footsteps of age, but far more surprising is the fact that she is to remain where she is.

In speaking of her discovery she said: "Yes, know there would be many advantages in my going to some of the large cities, but I have made arrangements to give particulars of my treatment free to all who write me, so that the women in every city and town may have the benefit of my discovery."

This statement shows that she is both broad-minded and generous, and all who wish to banish their wrinkles and improve their complexion should write her at once. Her address is:  
DELLA ELLISON, 1657 Burr Bldg., Scranton, Pa.

Just state that you want particulars of her discovery and she will send them in sealed envelope, free of charge.

**ren had not been under the control of city teachers long enough to be properly trained in fire drill. It was not haste that was aimed at in teaching the drill, but self control, and if there had not been a panic then there would have been no trouble.**

Superintendent Bishop said the building was an old one, and there was only one stairway. He advised the board to have two stairways constructed in all the new schools that have lately come under the city's control.

A special sub-committee was appointed, consisting of Trustees Rawlinson, Simpson, Agnew, Superintendent Bishop and Inspector Hughes to investigate the origin of the fire and the failure of the fire drill.

The question of disposing of the Bloor-street site was also considered, but no move was taken beyond a resolution that it should be sold by tender. Chairman Simpson warned the board that it was their duty to take into consideration that Jarvis College is an old building and that many of the pupils come from above College-street.

It was decided to have Murray-street closed as this leads to the technical school property. Leave will be given Dr. Young to use the grounds to get to his sables from Murray-street.

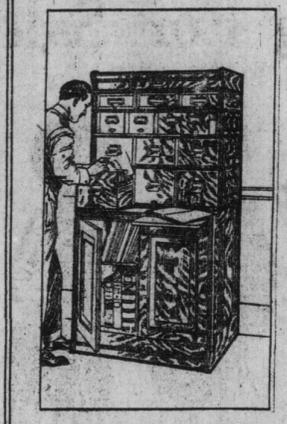

**MRS. ELIZABETH CAMPBELL**  
Contralto Soloist, Bloor Street Presbyterian Church.

Mrs. Elizabeth Campbell, prominent in musical circles, has been engaged as contralto soloist for the choir of the Bloor-street Presbyterian Church, under the direction of the very able choir-master, Peter C. Kennedy.

Mrs. Campbell's full, rich and highly cultivated voice, combined with her attractive personality, has made her very much in demand in concert work in Canada.

The Bloor-street Presbyterian Church is now the fortunate possessor of a quartet unrivaled in Canada and possibly in America, the other members being Mrs. Leonora James-Kennedy, soprano; Mr. P. Redfern Hollinhead, tenor, and Mr. Arthur Blight, baritone.

**Dodson as a Bridge Whist Player.**

J. E. Dodson, the character actor who is just now touring in a comedy called "The House Next Door" is an expert bridge player, and an authority on the game. He plays with many well-known New York millionaires, among them Charles M. Schwab, Pierpont Morgan and dozens of other men whose combined wealth runs up into a stupendous aggregate. By the common verdict of bridge players in the States he is acknowledged to be the greatest player in America.

"Bridge is the greatest card game in the world," says Mr. Dodson. "The reason is that it combines the still necessary in whist with the element of gambling that makes poker fascinating."

When in New York Mr. Dodson's bridge partner is usually Charles M. Schwab. Not long since Mr. Schwab, who is devoted to the game and a very good player, was challenged by two well-known men in Wall-street, both millionaires.

"We will play you and a partner for \$10 a point and we will accept the offer of supremacy." The challenge.

Mr. Schwab promptly accepted and named Mr. Dodson as his partner. The game among the millionaires is played upon drawing a check for half of his winnings, but Mr. Dodson refused to take the money.

"I only play within my means," he said, "and I am satisfied."

Mr. Schwab did not forget the game, however, and not long afterwards he included the actor in a stock transaction which resulted in his very considerable profit.

**HUGHES SAYS PANIC**

Ward Seven Schools Not Sufficiently Fire-Drilled.

At the meeting of the property committee of the board of education yesterday a great deal of discussion was given to the St. Clair school fire. Inspector Hughes stated that the children had not been under the control of city teachers long enough to be properly trained in fire drill. It was not haste that was aimed at in teaching the drill, but self control, and if there had not been a panic then there would have been no trouble.

**BETTER THAN SPANKING.**

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 65, Windsor, Ont., writes free to any mother her successful home treatment, with full instructions. Send no money but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

**STORM TIES UP TRAFFIC**

Reports from London, St. Thomas, Stratford, Chatham, Brantford, Windsor, Woodstock, Niagara Falls, Hamilton, Quebec and intermediate points in Western Ontario, and from Kingston in the east, say that yesterday's snow-storm has blocked country roads and badly disorganized train and electric railway services.

**To Cut a Big Melon.**

NEW YORK, Jan. 14.—Another "melon" of large proportions—the distribution of \$20,000,000 in common stock—is to be given the stockholders of the International Harvester Company. The announcement was made at the offices of J. P. Morgan & Co. this afternoon.

**Huron Old Boys.**

In error it was stated that the at-home of the Huron Old Boys was to have been held last night. It is scheduled for Feb. 11, four weeks hence.

**DEAF PEOPLE Can Be Made To Hear**

Many people are deaf because the middle ear is inflamed by Catarrh, and its nervous mechanism injured. The ear like the nasal passages, catarrh germ disease, is carried to the ear in little drops by air through a catarrhogenic infection. This virus is deposited into the ear passages. Its curative influences reach every part of the inflamed ear. The outer ear is removed of the concentration that closes the ear to external sound, and the restoration of the natural condition of the nerve supply upon which hearing depends. No person suffering from Catarrh of the ear should neglect a remedy that offers so much assurance in improving their hearing. Catarrh in throat, nose, or bronchial tubes is pleasantly and effectively removed by Catarrhogenic Complete outfit sufficient for three months' use, price \$1.00, smaller size 50c. # COBALT --- Mining Stocks --- Cobalt ---

## Narrow Price Fluctuations Characterize Cobalt Stocks

Public Participation in Market Movements Continues Light—Kerr Lake Firms on Better Speculative Demand

World Office, Friday Evening, Jan. 14.

A slightly better tone was exhibited by the majority of the Cobalt securities on the local markets early in today's session, but stocks sold off later and closed weak in most cases. Such is the case as Beaver, Timiskaming and some others of the lesser priced stocks maintained at easy prices. But a firmer attitude was assumed by the higher priced shares, particularly so in the case of Kerr Lake, which advanced 20 points to \$10 under a better speculative demand, while the apparent attitude that holders were not inclined to liquidate as readily as has been the case for some days now. During the afternoon another slump set in, however, the shares retreating to \$5.80, and closing weak ten points lower. A flurry in Cobalt Lake was the feature of the market. These shares sold up a point to 15 on rumors of more favorable developments on the property, but as is usually the case, lost part of this gain later in the day, closing at 14 1/2. The other Cobalts showed comparatively little change from the previous session.

The recent shake-out in the market has to a certain extent cleaned out a lot of weakly held accounts, and placed the list in a better technical position to sustain a rally. But as long as outside participation in the trading continues as dormant as appears to be the case at the present moment, no movement of consequence is likely to be experienced. Meanwhile, traders look for narrow fluctuations and price movements in the main adverse to holders of the speculatively held securities.

### PORCUPINE GOLD

Specimens Shown Are Marvelous, But Caution is Required.

Greville & Co. in their market letter says:

Porcupine—We have the benefit of the opinions of two first-class mining men who have examined this camp recently. In the first place there is no doubt about the phenomenal showings on some of the claims. The gold quartz veins hereafter discovered in Ontario have hitherto carried a low row pay streak on one of the walls. In Porcupine it is different. The quartz across the whole vein is 10, 20, 40 feet and even wider. Besides, to us as permeated with gold throughout.

Some of the specimens we have seen are simply marvelous. The quartz given us is that great ridges of quartz rise suddenly from the level. Then with swamp on each side and rain across the country like the ribs of a great animal. It is described as a country of easy access and easy to work. The diamond drill worked on the O'Brien claim, and the showings were of a great depth.

On the other hand, we learn that two complete townships or 44,000 acres have been staked without missing one 40-acre lot, and that probably not more than one in one hundred has minerals of value. Where values can be shown the mining man, who is willing to put up his money to work a claim, and to discover whether it is in paying quantities, is asked such a preposterous price as to quite preclude the possibility of doing business. Besides, the two complete townships staked, four other townships are partly staked and Toronto, Montreal and Ottawa, and every town in Ontario, are staking with men trying to sell snow-staked claims, one in a hundred of which probably carries minerals of value.

The word we have received from our advisers is to "go slow." That there are good values, we may say enormously good and valuable claims in Porcupine, is undoubted. The difficulty is to separate the wheat from the chaff.

Mr. Waldman for Porcupine.

Mr. J. H. Waldman, president of the Waldman Silver Mines, Limited, accompanied by H. W. Harding, the consulting engineer for the Waldman Mines, arrived in Cobalt on Wednesday, and spent to-day at the Waldman Mine. Mr. Waldman left late in the day for a trip to the Porcupine district with Mr. Harding and Mr. Stronoff of the Waldman staff.

### PRICES ARE EXTRAVAGANT

Claim Holders in Porcupine Are Turning Away Cash Buyers.

The owners of claims in the Porcupine goldfields are said to be holding them at extravagant figures and to come to Toronto to have difficulty with men trying to sell snow-staked claims, one in a hundred of which probably carries minerals of value.

The word we have received from our advisers is to "go slow." That there are good values, we may say enormously good and valuable claims in Porcupine, is undoubted. The difficulty is to separate the wheat from the chaff.

St. Patrick Chapter Installation.

To-night the officers of the St. Patrick Chapter, Royal Arch Masons, will be installed by R. Ex-Com. R. W. Brennan, assisted by the most principal function this year's installation of the St. Patrick will be featured by a brilliant after entertainment.

## CLOSING UP OPTIONS ON PORCUPINE CLAIMS

Report Has It That \$60,000 Has Been Paid on Timmins Properties.

It is understood that Henry and Noah Timmins paid \$60,000 to the holders of the claims in Porcupine, which they are said to have bonded for \$300,000. A report is also current to the effect that M. J. O'Brien will pay \$50,000 to-morrow in part payment of the claims which adjoin the Hollinger property. Both parties have had experts on the property, and if the indications look good enough to warrant an outlay of that extent a prospector would be justified in looking for something good.

### RALLY SHOULD ENSUE

Mining Markets Assume Good Appearance at Present Levels.

Heron & Co.'s letter says: After a fairly steady opening, the mining market developed a dull and heavy tone, which continued for the greater part of the week. Weakness in New York stocks no doubt exerted a considerable influence towards the absence of outside participation to any extent. Trading was moderate and speculative favorites. The bulk of the selling, however, was for the account of in and out operators, who were perhaps disappointed that the expected January boom showed no signs of materializing. Toward the close, the market took on a better appearance and from the present level a good rally should ensue, to be followed later on by a much higher range of prices throughout the list.

Excitement over the gold discoveries in the Porcupine Lake region shows no sign of abating. Numerous mining experts of high standing, who have returned from the field, declare that there is every reason to believe that the camp should have a great future—the surface showings being unparalleled in richness and the rock formation favorable to the formation of moderate to depth. Authentic news of diamond drill tests now being made on several properties should be forthcoming shortly.

Transactions for the week ending to-day on the Standard Stock and Mining Exchange amounted to 581,558 shares, and on the Toronto Stock Exchange to 1,456,727 shares, having a value of \$71,219.38.

### TRADE WITH U.S.

More Than Doubled Within the Past Ten Years.

WASHINGTON, Jan. 14.—The highest record ever made in trade between Canada and the United States was that of the week ending Saturday, Jan. 9, when the value of exports to the United States increased to \$88,000,000. In the same period the exports from the United States to Canada increased from \$27,000,000 to \$31,000,000, a Canadian official statistics show that in 1909 60.4 per cent of all Canadian imports were from the United States, compared with 46.08 per cent in 1889.

### HELPLESS MOTHER SEES HER BABE SWALLOW POISON

BUFFALO, Jan. 14.—On Wednesday evening, Mrs. Frieda Buchert fell from the Lackawanna viaduct. When found three hours later, she was unconscious on the ground and she was unconscious from exposure and the result of her injuries. To-night, while lying in hospital, she was found to have swallowed a bottle of tincture of opium and drink the poison. A three-year-old child, the only other person in the house, was sent to a neighbor's call for help. The baby will die.

### First Giraffe Born in Captivity

BRIDGEPORT, Conn., Jan. 14.—A male giraffe, said to be the first ever born in captivity, was born at Barnum's circus winter quarters here to-day.

### Preyed on Women

NEW YORK, Jan. 14.—The Hoboken police asserted that "Benny" Emil Karl Von Mueller, just arrested in Los Angeles on a bigamy charge, has victimized no less than fifty women between here and California during the last ten years.

## Everyone Thought She Was Going Into Consumption.

Gained Ten Pounds in Two Weeks by the Use of Burdock Blood Bitters.

Mrs. Fred Biggs, Kingston, Ont., writes: "I was completely run down, my blood was out of order, and I used to get so weak I would be compelled to stay in bed for weeks at a time. I could not eat, was pale and thin; every one thought I was going into consumption. I tried everything and different doctors until a friend advised me to use Burdock Blood Bitters. I did not have one bottle used when my appetite began to improve. I used six bottles. I gained ten pounds in two weeks. When I began to take it I only weighed ninety-three pounds. It just seemed to me to be the best thing I never expected to be so strong again. I will tell every sufferer of your wonderful medicine."

The blood reaches every portion of the body to distribute nutriment and remove waste matter and waste products. Clearly then, any influence, good or bad, affecting the blood, must necessarily affect the entire system for good or evil as the case may be.

Get pure blood and keep it pure by removing every trace of impure morbid matter from the system by using Burdock Blood Bitters. It exerts a curative influence unapproached by any other remedy.

For sale by all dealers. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

# THE IMPERIAL Guarantee & Accident Insurance Company of Canada

HEAD OFFICE: 46 KING STREET WEST  
TORONTO

The Annual Meeting of the Shareholders of the Imperial Guarantee & Accident Insurance Co. of Canada was held at the Head Office, No. 46 King Street, West, Toronto, on the 10th inst.

Mr. E. W. Cox, President of the Company, in reviewing the business of the year, made reference to the growing popularity of Accident Insurance and its effect on the success of the business of the company during the year. The amount of insurance written was over \$24,270,000, an increase of \$1,445,000 over the business taken out in 1908. This is considered exceptionally satisfactory in view of the fact that the business of the company is confined to Personal Accident and Guarantee Insurance.

The gross income amounted to \$219,741.76. The assets now total \$306,954.00, and after allowing for Reserve for unearned premium calculated on the full Government standard, and all other liabilities, the surplus for the protection of policyholders has increased to \$213,447.12.

The following were elected as the Board of Directors for the ensuing year: E. W. Cox, Noel Marshall, Hon. Geo. A. Cox, Hon. F. T. Frost, R. Bickerdike, Elias Rogers, G. A. Morrow, J. J. Kenny, H. C. Cox, W. D. Robb, P. G. Goldsmith, S. Burrows.

At a subsequent meeting of the Directors, Mr. E. W. Cox was re-elected President, and Mr. Noel Marshall Vice-President, with E. Williams General Manager, and Frank W. Cox Secretary.

## GOVERNMENT OFFERS 4 PER CENTS TO PUBLIC

Terms of Ontario's Popular Loan  
Announced by the Provincial Treasurer.

Ontario Government four per cent stock can be obtained in any multiple of fifty dollars at two per cent premium. The principal will be paid on 1st June, 1910, and the interest is paid by cheque half-yearly on 1st June and 1st December. Applicants should send accepted cheque, payable to the order of "The Provincial Treasurer of Ontario," for \$102, for each \$100 required, addressed to "The Provincial Treasurer, Toronto," and stock certificates will be forwarded.

This stock can be transferred in any multiple of \$50 only by the owner or his attorney in the same manner as bank stocks. If bonds are required, they can be obtained in denomination of \$1000 on same terms, but in case of bonds, the accrued interest from 1st December to date of mailing should be added, as also time interest on \$1000 for each \$1000 from 1st December. Both stock and bonds of this issue are free from

all provincial taxation, including succession duty, and are an authorized investment for trustees and executors.

## TUBE LINES

To Grand New York City.  
The Grand Trunk-Legh Valley route, which is the only all double-tracked line from Toronto and Canadian territory, now lands passengers in the heart of New York or Brooklyn, by means of the "tube lines" from Jersey City depot in five minutes time. No long street car lines are now required. Take the 4.32 p.m. or 6.10 p.m. trains and enjoy modern electric lighted sleepers, with two berths for each berth. Fare, \$10.55 from Toronto to New York.

Tickets, berth reservations at City Ticket Office, northwest corner King and Yonge streets. Phone Main 4209.

Canadian Pony Society.  
The annual meeting of the Canadian Pony Society will be held at the King Edward Hotel, on Thursday evening, Feb. 3. The secretary reports that the past year has been the most successful the society has ever known.

The executive of the society at a recent meeting voted \$100 to the Spring Horse Show, and expressed the hope that more valuable prizes would be given to the pony, as that type of horse was growing tremendously in public favor.

## Sunday at Massey Hall.

Col. George W. Bain of Kentucky will be the speaker at the Sunday afternoon "Canadian Temperance League" meeting in Massey Hall. J. N. McKendry will occupy the chair.

### QUARTERLY DIVIDEND NOTICE NO. 77.

Notice is hereby given that a dividend at the rate of Twelve Per Cent. Per Annum upon the Capital Stock of this Bank has been declared for the quarter ending 31st January, 1910, and that the same will be payable at the Head Office in this city and at its branches on and after Tuesday, the 1st day of February, 1910, to shareholders of record of 20th January, 1910.

The Annual General Meeting of Shareholders will be held at the Head Office of the Bank in Toronto on Wednesday, the 16th February next, at 11 o'clock noon.

By order of the Board,  
GEO. P. SCHOFIELD,  
General Manager.

## REAL HISTORY OF HOW MERGER WAS ARRANGED

### Mr. Ross Got 95 Net For His Stock and Paid Expense of Underwriting.

Messrs. Playfair, Martens & Co., in their weekly letter, say: "In reply to that part of our letter of the 5th inst., dealing with Dominion-Steel stock, we have received from Mr. E. R. Wood the following official statement regarding the Ross transaction: 'Mr. Ross was offered \$100 per share for his stock. He refused to sell at that figure unless the same offer was made to the other shareholders. A large number of the latter had already signified their desire to co-operate in bringing about the purchase of Mr. Ross' stock, and their desire to retain their own shares in the coal company, rather than sell them even on terms acceptable to Mr. Ross. This still left a considerable body of shareholders, and in order to enable the parties negotiating to make an offer to these shareholders, Mr. Ross voluntarily conceded 5 per cent. of his purchase price, so that his shares netted him \$85. With the \$250,000 thus obtained an underwriting agreement was arranged to take care of all the remaining shareholders who might desire to sell at the same rate when Mr. Ross received, that is, \$85 per share and on the same terms of payment.'

"In the result, for reasons of convenience, consolidated mortgage bonds of the steel company were substituted for the 50,000 shares of stock sold by Mr. Ross, and are now held as security for the remaining \$70 per share which has still to be paid to him, the 50,000 shares being transferred to the steel company. For similar reasons of convenience, it being found that only a small number of the remaining shareholders desired to sell, the purchasers concluded that it would be better not to take advantage of the time for payment of the remaining \$70 per share, but to pay the whole of the purchase money at once, and this has been done. This change of policy was due entirely to the fact that a large amount of stock had come in, they would certainly have taken advantage of the full period of time allowed for payment."

"We are now in a position to state that C. H. Cahan did not make a cent out of the Ross transaction. Our reason for repeating what we had heard in this connection was that it afforded a satisfactory explanation of the disposition of \$250,000. We did not assert that Mr. Cahan had received the commission. Exception has been taken by Montreal newspapers to our statement that Mr. Ross received par for his stock. Our desire in going into the matter was simply to draw attention to the fact that \$100 a share had been paid for Mr. Ross' stock.

"In order to make this point without any possibility of contradiction, we will put the matter in a different way: The Dominion Iron and Steel Company paid \$100 a share for 50,000 shares of Dominion Coal stock owned by Mr. Ross. Mr. Ross retained \$85 a share and paid the remaining \$15 a share for an underwriting syndicate headed by Mr. E. R. Wood, as a commission. The syndicate had to underwrite only 7000 shares as a result of offer of \$85, and intended to turn the stock into the merger. It is the intention of the Dominion Iron and Steel Company to pay off the Ross loan of \$3,500,000 in ten equal instalments, in other words, Mr. Ross is being paid under the terms of the Royal Trust Company's circular.

"In consideration of the fact that the Dominion Iron and Steel Company paid \$100 a share for 50,000 shares of Dominion Coal, that holders of about 26,000 shares refused the syndicate's offer, preferring to go into the merger, a large number of the latter are pending which they are going to turn into the merger, and that Dominion Coal stock has an earning power equal to at least twice its present dividend, we believe the stock should sell at higher prices before the merger is consummated."

With regard to the above letter, a gentleman of large financial interests, who is in a position to speak with knowledge of the transaction referred to, pointed out to The World last night

## Scalp Humors And Loss of Hair

### Long Continued Dandruff Causes Incipient Baldness, but Can- not be Cured by Hair Tonics.

A Trial Package of Stewart's Calcium  
Wafers Sent Free.

The complaint called DANDRUFF is one which annoys thousands of people. It is characterized by a rapid and profuse exfoliation or peeling off of the scalp tissue of the scalp in the form of small, dry scales, which fall continually upon the clothing, especially upon the shoulders, much to the annoyance of the person affected with this disease.

When dandruff is present in the hair there is an almost constant and intolerable itching of the scalp, and rubbing or irritating the skin with the fingers only aggravates the trouble. In some cases the hair and scalp may be excessively dry, while in others they are very oily, indicating over-secretion of the scalp glands in one case and their deficiency in the other, and both constituting a diseased state.

After one has been troubled with dandruff for some time, the hair begins to fall out, and proper treatment is not used, a complete baldness will ensue ultimately.

The first thing the average person who has scalp and falling hair does is to begin the use of a hair tonic, supposing the trouble to be a local disease exclusively. Such is not the case, however, and the use of tonics or other local applications will not cure such troubles, as their existence indicates that the blood is in a debilitated, depleted and impure state, and the circulation through the scalp and through the surface of the skin generally is sluggish and sub-normal.

"The employment of a hair tonic or hair salves, then, is utter nonsense when one desires to cure dandruff, falling hair, or any other scalp diseases, as the blood must be purified, its circulation through the skin restored and the system toned up generally.

STUART'S CALCIUM WAFERS have cured many long-standing cases of dandruff and other scalp diseases, and the use of 100 or more of the hair, after salves and hair tonics had failed to give even temporary relief, for the simple reason that these powerful little wafers invariably purify the blood so thoroughly and increase its volume and improve its circulation, that the hair and scalp are nourished and the scalp and hair follicles no longer waste away. Thus the hair being supplied with nutriment in the form of pure, rich, red, pure blood naturally continues falling out.

Secure a box from your druggist for 50c and send us your name and address, accompanied by a satisfactory explanation of the disposition of \$250,000. We did not assert that Mr. Cahan had received the commission. Exception has been taken by Montreal newspapers to our statement that Mr. Ross received par for his stock. Our desire in going into the matter was simply to draw attention to the fact that \$100 a share had been paid for Mr. Ross' stock.

"What actually happened, he said, was this: Mr. Ross was approached with an offer of \$100 a share for his 50,000 shares of stock, which represented about one-third of the entire capital of the company. He declined, unless the offer could be made to all the other shareholders of the same. This was declared to be an impossibility. The parties wishing to bring about the deal could not afford to pay \$100 to all the shareholders.

The situation was figured out. Mr. Ross himself owned a third of the stock. Large shareholders unwilling to sell held another third. The remaining \$5,000,000 was an unknown factor.

Mr. Ross made his offer of a rebate of 5 per cent. This went to the syndicate office in Montreal and Toronto capitalists, which was got together, with some difficulty, to finance the deal. Their offer was only a fair profit on the stock, and they expected to have to take up one-half of this. They actually underwrote about 25,000 shares, not 7000, as was stated in the Montreal newspaper. They were to be repaid in ten equal instalments, in other words, Mr. Ross is being paid under the terms of the Royal Trust Company's circular.

## SOVEREIGN DIRECTORS WERE KEPT IN THE DARK

### Tried to Cover Up Illegal Action When Informed of Stock Purchase.

Evidence in the Sovereign Bank case before Chancellor Boyd, yesterday was given by Senators Archibald Campbell, Donald McMillan and McLaren, all directors of the defunct institution. All of them denied any knowledge that the bank was purchasing its own stock. Others to give evidence were James McPhee, son-in-law, and Rev. Mr. McMillan, son of Senator McMillan. The Senator, son of Senator McMillan, said that he held, they said, was only in their names, and they never expected any return or dividends from it.

The case, which has been adjourned till the 4th of April, was one in which Curator Staver of the defunct bank is trying to get judgment for \$400,000 from the seven directors on notes they gave for 3085 shares of the stock, which former General Manager Stewart purchased out of the bank's funds. Money to cover the European liabilities was obtained from J. P. Morgan & Co. of New York, his security being a bond signed by the directors. Senator Campbell said he became a director of the bank at the time of its inception, and when it went into liquidation he owned 307 shares. He said the directors had every confidence in Mr. Stewart, and when the matter was discussed with Mr. Stewart, it was a great surprise to all the directors to find what had been done. Under the circumstances, witness pointed out, the directors deemed it advisable to sign the bond.

"We, as directors, were simply trying to cover up the illegal act and help the bank over the supposed temporary difficulty," said Mr. Campbell, "and we came to the conclusion after signing the bond that it was better to do so than to split up the stock and get some persons to hold the stock which had been purchased out of the bank's own money. We thought that it would be better to have the stock stand in the directors' names."

Mr. Campbell then told of giving 450 shares to his son, the note given by Mr. Campbell, Jr., being for \$59,000. To James Bicknell, K.C., Mr. Campbell said he was unaware that J. P. Morgan & Co. had refused to advance any more money until the illegality of the bank's action had been cleared up. The bank's action had been cleared up at the meeting of the directors in March, 1907, that he learned. Senator McLaren had notified him of the bank's action, and it was because he did not want to see the bank affected that he signed the bond, "particularly as we were not responsible for the transaction, and he said we were not criminally responsible, but we could be held responsible financially."

Witness then told of giving some of the stock to his son and son-in-law. Mr. Campbell and Senator McLaren denied all knowledge of the bank's illegal action.

### Invested \$2000 in a Company Promoted in Toronto.

WINDSOR, Jan. 14. (Special) — Toronto people play a part in the proceedings brought by Mrs. Victoria C. Dray, a handsome young widow of this city, against Kuppenheimer of Montreal, now charged with swindling her out of \$3000.

In court Mrs. Dray said she met Kuppenheimer in Montreal when he said he owned an island in the St. Lawrence, near Montreal, and he was its ruling prince. He afterwards introduced a woman as his wife, and the prince of the island, Kuppenheimer, Dray to invest money in the Draper Company, Limited, of Montreal, with offices in Toronto and Detroit. Among Toronto names on the list of members of the company were, Dr. G. H. Garratt, Peter Altink, Messrs. Derrick and Ballinger. Mrs. Dray invested \$2000, and was given a position

### THE MARKET

For the past three weeks there has been a quiet, dull market, with but few exceptions. A rapid rise occurred in Kerr Lake, driving the stock from \$7.50 per share up to \$11. This was occasioned by an increase in the dividend rate from 35c per share to 50c per share quarterly, making a 40 per cent. dividend.

Beaver has held around 34c to 36c, but is evidently being accumulated by inside interests—people who know the amount of ore that is being shipped.

Little Niipissing increased 7c per share, while Otisse is at its lowest point on its downward course, closing last night at 16. Forced liquidation in this stock has brought the price down, as well as in one or two others, but we consider it a first-class purchase.

Temiskaming at 55c is a splendid purchase.

It is of interest to note that Cobalt Lake has held steadily around 15c. There is no doubt that this stock will make good during the present year. Peterson Lake is also slated for a substantial advance.

We would recommend the purchase of any of the above for substantial profits in the Spring upward movement.

### DIVIDEND PAYERS

Shareholders in this group of stocks seem to be better satisfied as the months go by. There is a gradual increasing all along the line in the rate of dividend disbursements. Kerr Lake pays 20 per cent. and has millions of ounces of ore blocked out, so that your money is absolutely safe. Right-of-Way stock, with splendid prospects, and of no uncertain value, will be completed for the taking over of fifteen additional operating wells. This will make twenty-seven producers owned by the one company. Besides, the Halliday lease being down over 800 feet, and with rapidly increasing production, it is being put into operation by the first of the month. No dry holes have ever been struck on any of the leases owned by the company. Canadian Central Mines was formed for the purpose of operating any one particular property, but to do a general mining development business,

On Wall Street, Erickson Perkins & Co. had the following: There was another period of very heavy liquidation in stocks this afternoon, the entire day running up well to the million and a half mark.

Charles Head & Co. to R. R. Bondard: The market to-day has been a decided and unexpected disappointment. There has been absolutely no news, yet in the face of higher London prices and general bullish advices, from the opening quotations, there was a steady stream of liquidation, that augmented as the day progressed until declines of two to four points were common.

#### WESTON BOARD OF TRADE HOLDS FINE BANQUET

New Organization Has Done Effective Work—County and Suburban News.

WESTON, Jan. 14.—(Special).—Weston Town Hall has been the scene of many an enjoyable event, but in the happy good-fellowship and generally delightful feeling prevailing, the first annual banquet of the Weston Board of Trade, held here to-night, suffers nothing by comparison.

It was an event unique in the history of the town, inasmuch as the Weston Board of Trade dates back little more than six months. But the organization has abundantly justified its existence. It was a great gathering and while a number of invited guests were present, the assembly hall presented a fine appearance, while the tables, under the deft hands of Host and Mrs. Armstrong, in appearance and quality were all that could be desired.

About 75 of the leading business men of the town were present, while among the guests were Supt. Osborne, C.P.R.; W. J. Trethewey, Ald. Baird, Rev. Mr. McGillivray, Rev. Mr. Slaght, Reeve Bull, T. Galbraith and Dr. L. F. Irwin. Major Wadsworth, the president of the western board of trade, presided, and Oliver Master, the secretary, read a number of letters and telegrams regretting inability to be present.

Among those present were: President Watson, Toronto Board of Trade; Capt. T. G. Wallace, M.P., James S. Gunn, president Guelph Board of Trade; E. Gillen, G. T. R. superintendent, middle division; G. W. Hogarth, manager G. N. W., and others.

The toast list was a lengthy one and following that of the "King," Major Wadsworth gave a short resume of the work of the board of trade. The passage of the waterworks bylaw, the installation of an all-night service over the Bell Telephone lines and the opening up of negotiations for a postoffice more in keeping with the town, were some of the good things already accomplished.

"Canada" was eloquently responded to by Mr. Wismer and Rev. Mr. Haddow, the latter receiving an ovation.

"Transportation" found an eloquent exponent in Supt. Osborne, who dwelt trenchantly with the big question of better local and thru transportation matters.

"Industries," "The Municipality of Weston," "The Press," and "The Ladies" brought to a close a delightful evening.

With a membership already of 75 the outlook for effective work is most encouraging.

Among some of the townsmen present were Reeve Bull and Councillors Cousins, Rowntree, Pearson and Jacob Bull, N. J. McEwen, David Rowntree, G. M. Lyons, J. M. Gardhouse, S. S. Holmes, Mr. Gray, W. J. Griffith, T. J. Maguire, Archibald Campbell, E. Hill, H. Jennings, George Fraser, Jas. Gardhouse, Mark Gardhouse, J. Coon, S. Hill, J. H. Taylor, J. Barker, A. B. Moffat and T. L. Moffat.

A regrettable feature was the unavoidable absence thru illness of Geo. W. Verral, one of the most active and efficient members of the board of trade.

#### WEST TORONTO.

Lakeview Lodge Has Fine Time at Installation.  
WEST TORONTO, Jan. 14.—About 250 people were present at the installation of officers of Lakeview Lodge, No. 272, I.O.O.F., which was held to-night in the public library basement. The presentation of past masters' jewels was also a feature of the program, the proceedings having been thrown open to the members' families and friends. The new officers are: S. G. Gibson, noble grand; W. Gordon, vice-grand; J. Malind, secretary; W. Douglas, financial secretary; J. H. Agnew, treasurer; J. Lee, warden; J. Hurst, conductor; H. H. Chapman, Charles Phipps, R.S.S.; H. P. Scott, L.S.S.; J. Dunn, R.S.N.G.; W. Lankin, L.S.N.G.; G. A. Rome, I.G.; W. Curtis, O.G.; Bro. Warr, R.S.V.G.; Bro. Lamont, L.S.V.G. The installing officers were: Grand master, W. Dawson; G.M., S. Davis; G.W., Bro. Brooks; G.S., Bro. Manes; G. P. S., Bro. Hurst; G.T., C. Sims. The installation, a splendid program of piano and banjo duets were gone thru. Dr. Norman presided.

For fighting on the rear platform of a Dundas car about 6.30 to-night, Geo. McKenzie of New Toronto, was arrested at Keele-street on a charge of disorderly conduct.

During their run to the fire at W. J. Kemp's house on India-road, last night, the West Toronto firemen lost an ax from the truck sleigh. Will the finder kindly notify the fire station, Keele-street.

#### NEWMARKET.

Jury Exonerated Both Town and Bell Telephone Company.  
NEWMARKET, Jan. 14.—The inquest into the death of Geo. Partridge was resumed to-night.

The manager of the Bell Telephone in Newmarket testified that about two months ago on a wet, windy night, he had seen a very bright spark between the primary and the secondary wire on the transformer from which Mr. Partridge's house was lighted. He was positive the wires were not in the same condition then that they are now.

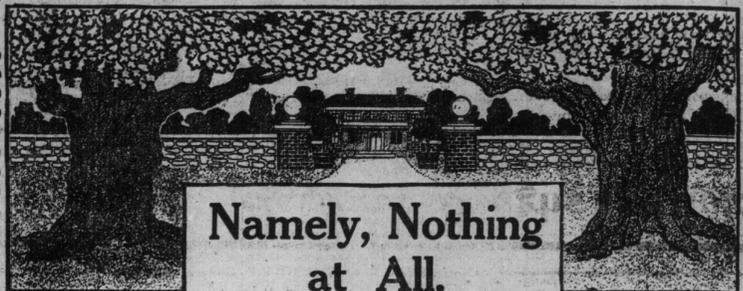

Mr. Hopper, an employe of the town said that on the night of the accident he had seen a spark between the primary and secondary wires, but by mistake he had cut the primary wire going into the transformer. He had since repaired that by putting in a new piece of wire, and putting in a new cross-arm, and by that he had got the wire in practically the same position as it had been before.

### What the Housefurnishing Club Charges for the Privilege of Deferred Payments on Housefurnishings

## Namely, Nothing at All.

How much does a bank charge you when you open a savings account?

Nothing.

How much does the city of Toronto charge you when you pass in or out the city limits?

Nothing.

That's all we charge you for joining the Housefurnishing Club.

Nothing.

Its privileges are absolutely free.

You pay not one cent extra on cash prices first or last, in the shape of fees, extra profits, premiums, lost discounts, or in any other form, shape or manner whatsoever.

If we could put it stronger we would do so.

The Housefurnishing Club is a free convenience extended to 500 responsible house-owners for the month of January in the Carpet and Curtain Department and the Furniture Departments of this store. You may choose whatever your house needs, have the goods delivered now, and pay for them during the next half year. Simply a dignified charge account at the lowest cash prices, and no extras of any kind above the board or below.

Call at the Club Office in person and discuss this matter fully. It's just as free and as fair as we say.

Club Office, ground floor, James Street.

scribed by Mr. Goodwin existed, it would account for the condition in Mr. Partridge's house. This concluded the evidence.

The jury then retired and in less than an hour returned with the following verdict: "That Mr. George Partridge came to his death by electric shock in his own house on Jan. 1, 1910, caused by his own neglect in not having the wiring in the house put in proper repair after having been warned by previous shocks, and the family having been warned by the town engineer, that they should have the wiring examined and from the evidence produced no blame attaches to either a Corporation of Newmarket or the Bell Telephone Company."

#### NORTH TORONTO.

NORTH TORONTO, Jan. 14.—(Special).—The annual meeting of the Eglington Presbyterian Church will take place on Wednesday evening next and that of Deer Park on Wednesday, Jan. 26. Each of these congregations have experienced wonderfully successful years, and the reports to be submitted will doubtless be most satisfactory.

On Monday evening, in the Eglington Presbyterian Church, Rev. J. W. Stepien will lecture under the auspices of the Y. P. S. on "The Life of Gen. Gordon." Everybody is cordially invited.

The managers of the hockey and skating rink will hold a carnival on Saturday evening, Jan. 15. There will be skating to-morrow (Saturday) evening, with the town band present.

The Holmes Electric Company are installing and expect to complete the fire alarm system within a couple of weeks, when the town will be in possession of a system said to be excelled by none.

On Sunday morning Rev. T. W. P. Porter of Reid-avenue Baptist Church will occupy the pulpit of Zion Church. In the afternoon Mr. Porter will address the school children, and in the evening the pastor will occupy his own pulpit.

#### DOVERCOURT.

Rev. Mr. Ross will preach Sunday, Jan. 16, at Davenport-road Church at both services, and W. J. Pollard will speak to meet on "A Christian Man in a Warehouse," at Oakwood Club, at 4.15 p.m.

Decorators are at work preparing the Girls' Society rooms at Davenport-road Church (Presbyterian) for the use of the young women of the neighborhood.

#### GOODERHAM FARM SOLD.

The Gooderham farm, situated south of the Danforth-road in Con. E. Scarborough, half a mile east of York town-line, was sold yesterday to John Sheridan, cattle dealer and exporter.

This farm is composed of 60 acres of the best fertilized land in close proximity to Toronto. Mr. Sheridan purposes dividing this property into small lots, say, from one to five acres each, for garden purposes, to suit purchasers. This land is highly fertilized.

#### EAST TORONTO.

EAST TORONTO, Jan. 14.—Fire broke out this afternoon at 2.30 on the premises of William Matthews, 14 Allen-avenue.

The building is a two-story affair and owing to the quick work of the firemen was soon under control. The damage to the contents amounted to \$20 and to the building \$30.

Word has been received that the public rink at Gerrard and Main-streets will be supplied with two electric lights. As the rink is at present without lights, the installing of two will fill a long-felt want. The lights will fill a long-felt want.

are expected about the first of next week. Miss Alice Irving is visiting at the home of her mother, Mrs. W. B. Irving, Washington.

Victoria Industrial School. Over seventy guests attended the annual supper of the Victoria Industrial School last night. G. Tower Ferguson, chairman of the board, was master of ceremonies, while among the guests were: Mrs. G. T. Ferguson, Beverly Jones, W. J. Gentry, secretary; J. J. Keiso, Ald. and Mrs. R. H. Graham, W. F. Chapman and W. H. Elliott, inspectors of public schools; W. L. Richardson, superintendent manual training, public schools; Rev. A. and Mrs. McMillan, Rev. Canon and Mrs. Tremayne, Rev. Joseph Wilson and Dr. Buschard.

## Wet Feet--Coughs and Colds

Trying thin ice—walking into puddles of water—these are the greatest temptations of childhood.

The result—wet feet during school hours—coughs and colds—perhaps croup or bronchitis—often pneumonia or consumption.

If you have at hand Dr. Chase's Syrup of Linseed and Turpentine you can soon check the cold and bring relief to the little sufferer.

Made of simple yet wonderfully potent ingredients, thoroughly proven by many years of enormous success, easy to take and promptly effective—Dr. Chase's Syrup of Linseed and Turpentine has no real rival as a cure for croup, bronchitis, coughs, colds, whooping cough and asthma.

You cannot expect such results from imitations and substitutes. They are sure to disappoint you.
