ENGLISHES CANADA'S WAR STAND

Liberal Chief, in Non-Partisan Speech, Favors Canada's Participation in War for Defense of Liberty and Civilization—Premier Norris Condemns Politics in Militia Department—N. W. Rowell Urges Efficient Nickel Policy, and Hon. G. P. Graham Denounces Borden Government.

By a Staff Reporter.
London, Oct. 11.—The Liberals in London are in high fettle tonight over their gathering which was addressed by Sir Wilfrid Laurier, Premier Norris of Manitoba, N. W. Rowell, leader of the provincial opposition; W. C. Jacobus, K.C. of Montreal; and Hon. George P. Graham. The occasion was the annual convention of the federal clubs of Ontario, held here this afternoon and followed at night by a big banquet. Fifteen hundred people attended the latter and many, it is said, were turned away because there was no room to accommodate them in the Princess's Winter Garden.

The federated clubs are supposed to be made up of young Liberals, but many of the old guard were in attendance. Hon. Charles Murphy, and Alex. Smith, accompanied Sir Wilfrid from Ottawa and among other prominent Liberals in evidence were: Alex. McCole, M.P., Duncan Ross, M.P., J. G. Turfitt, M.P., Fred Pardee, M.P., the chief Liberal whip, E. W. Nesbitt, M.P., C. M. Bowman, M.L.A., Wellington Hry, M.L.A., victor in the recent north Perth by-election; Hon. W. L. M. King and P. C. Larkin of Toronto.

Sir Wilfrid is the house guest of Sir George Gibbons but will be entertained to dinner tomorrow night by Hon. Charles S. Hyman. The Liberals hope to have him informally visit nearby cities and towns in western Ontario. Mr. Hyman, it is said, would not be surprising if he were later on substituted for George S. Gibbons, as the Liberal candidate for parliament against Will Gray, M.P.

A Non-Partisan Speech. Sir Wilfrid failed to sound the keynote of the coming national campaign. He criticized the Borden Government, but his speech on the whole was of rather a non-partisan character. He mainly devoted himself to denouncing those who he said were plotting to reconstruct the British Empire upon the lines of Prussian militarism. He declared himself a pacifist, but heartily endorsed Canada's participation in the present war for the defence of liberty and to preserve civilization. The Liberal chieftain was in excellent form and his appearance at the banquet table was greeted with uproarious

cheering. Mr. Rowell was given a good reception and made a vigorous speech, in the course of which he arraigned the Conservative government for their position and record on the nickel question. He claimed that the Liberal party for the past 25 years had been endeavoring to conserve the nickel deposits of Canada for the defence of the empire, and dwelt upon the correspondence in 1890 between Sir Oliver Mowat and the imperial government. Premier Norris condemned the influence of politics in the militia department and said that the present pension scheme was neither generous nor democratic. Dependents of a private soldier he thought should be generously treated as the dependents of a commissioned officer killed in action. Canada wanted cleaner politics, and the people of Manitoba were showing this country how to clean house. Canada also needed more wealth, and today the great wealth producing part of the country was the prairie provinces.

Hon. Geo. P. Graham got the crowd going by his vigorous denunciation of the Borden government. Canada, he said, had done well in the war, but he defied anyone to name a locality where a member of the government had taken the lead in recruiting. Sir George Foster, he admitted, had made some speeches, but other members of the government were too busy watching each other. The people of Canada, he said, would never forgive Sir Robert Borden for not calling Sir Wilfrid Laurier to his councils when the war broke out. Evidently the Conservatives hoped to carry on the war without aid from the opposition. Sir Robt. Borden had ignored Sir Wilfrid, an empire statesman who knew Canada better than any other man, and had gone on to out-advise the nationalists like Pelletier and Blondin.

A Great Ovation. Sir Wilfrid Laurier upon rising received a great ovation. The entire audience of Ontario here this afternoon, Sam Clark said the International Nickel Co. instead of paying a tax of 3 per cent upon its net profits as required by law, had been permitted to pay only \$40,000 per year, although profits for the nine months ending December 31, 1915, amounted to nearly ten million dollars. George Wilkie, in a trenchant speech, arraigned Hon. Frank Cochrane as the man responsible for the present deplorable situation. Mr. Wilkie declared that every ounce of nickel should be refined in Canada and that no nickel should be sold for export, even to neutral nations, except under the supervision of the Dominion Government.

FRENCH ADVANCE SWIFTLY MADE

Assault Carried Out Confidently

The Amid Tense Excitement

NO DETAIL OVERLOOKED

Approach Trenches Quickly Dug and Attack Achieves Object.

With the French armies in France, Oct. 11.—(From a staff correspondent of The Associated Press, via Paris)—There was some excitement, but no flurry, on the French front just before the assault directed yesterday. The men stood to their arms coolly; they looked to the breaches of their rifles, jostled their magazines, from beneath in the sashbards, fixed the straps of their steel helmets and lightened their belts. Some of them sat down with their backs against the side of the trench, writing what might be their last messages home, while waiting for the word to "go over".

Trenches Rapidly Dug. The correspondent of the Associated Press had the opportunity of being in the midst of the movement of preparation at a certain point on the French line "Somewhere south of the Somme." The first line trenches were two to three hundred yards apart. The French with great rapidity dug approach trenches, zigzagging forward 50 to 80 yards, where they were filled up by a trench known as the "taking of parallel." From this running still further out came were cut, from trench to trench, the German trenches were occupied by listening sentinels and armored machine gun emplacements. From the trench the German trenches which led to the level ground. In this the German trench was cut, the trench on the level ground out in an open field and another trench in an open field and another trench in an open field.

HURT BY CAR. Pearl Zrnisliski, 104 Elizabeth street, sustained a nasty gash on the forehead last night when struck by Dundas car No. 1040 at St. Patrick street and Kensington avenue. She was taken home in the police ambulance.

THE LIBERAL LEADER

Sir Wilfrid Laurier, who spoke at a banquet given by the Liberal Club Federation at London, Ont., last night.

NO PATCHED UP PEACE

London, Oct. 11.—The British House of Commons tonight agreed to vote the war credit of \$300,000,000 asked for by Premier Asquith, who, after reviewing the progress of the war and the financial situation, declared that peace could not be considered until the central powers had been forced to make adequate reparation and adequate security for the future ensured.

NO NICKEL NO W SHOULD BE SOLD

Even to Neutral Nations Except Under Dominion Government Supervision.

SAY LIBERAL CLUBS

Fourteen Million Pounds, Bought by Germany, Came From Canada.

By a Staff Reporter.
London, Oct. 11.—Some plain and vigorous speaking on the nickel question was a feature of the annual meeting of the Liberal Club Federation of Ontario here this afternoon.

Running After Both. Sam Clark, M.L.A., said many of the labor leaders were running after both parties in the hope of getting jobs for themselves. Many reforms were needed in the country, he believed, it should be made a penitentiary offense to water stock. The big corporations were not paying their men

TEUTONS MAKE ONSET AGAINST ROMANIANS

Foe Makes Powerful Attacks in Transylvania — Ally Holds Own in Fighting.

Special Cable to The Toronto World.
London, Oct. 11.—Latest official intelligence concerning the situation in Transylvania shows that the Germans have begun to launch powerful attacks against the mountain front held by the Roumanians. These have generally been repulsed, and in one place the allies have advanced a little. In the Kallman mountains the Roumanians are retiring towards the Maros and the Alt Rivers. On the Danube the Roumanians have bombarded Vidin, in western Bulgaria.

BRITISH GUNS PREVENT FOE COUNTER-ATTACKS

French Take Seventeen Hundred Prisoners in Operations About Chaules.

Special Cable to The Toronto World.
London, Oct. 11.—Both the British and the French spent the day in supporting their positions north and south of the River Somme in Picardy. The French captured 1702 prisoners in the fighting round Chaules yesterday. The Germans made many efforts to attack the British, but they were frustrated by the alertness of the British artillery.

Germany to Seize Tobacco Ticket System in Prospect

London, Oct. 11.—The German Diet has decided to seize the stocks of tobacco throughout the empire, says an Exchange Telegram dispatch from Copenhagen. It is expected that the issuance of tobacco tickets will follow the seizure.

BRITAIN WOULD BRING SUM TO CARRY ON WAR

Three Hundred Million Pounds Will Be Made Available.

London, Oct. 11.—The British House of Commons tonight agreed to vote the war credit of \$300,000,000 asked for by Premier Asquith, who, after reviewing the progress of the war and the financial situation, declared that peace could not be considered until the central powers had been forced to make adequate reparation and adequate security for the future ensured.

Premier's Strong Declaration of Purpose Enthusiastically Cheered.

London, Oct. 11.—The British House of Commons tonight agreed to vote the war credit of \$300,000,000 asked for by Premier Asquith, who, after reviewing the progress of the war and the financial situation, declared that peace could not be considered until the central powers had been forced to make adequate reparation and adequate security for the future ensured.

GREECE WILL GIVE UP FLEET TO MEET DEMAND OF ALLIES

Dangerous Situation Created by Greek Activities Forces Anglo-French Naval Commander To Present Ultimatum—Piraeus-Larissa Railway Control Must Be Yielded and Forts on Sea Coast Dismantled.

London, Oct. 11.—Vice-Admiral Dalglish, commander of the Anglo-French fleet in the Mediterranean, has presented an ultimatum to Greece, demanding that Greece hand over the entire Greek fleet, except the armored cruiser Averoff and the battleships Lemnos and Kilkis, to the allied fleet by 1 o'clock Wednesday afternoon, according to Reuters. Athens correspondent. Demand is also made for the control of the Piraeus-Larissa railway.

Fears of Disturbances. The minister of marine (the correspondent continues, "says Vice-Admiral Dalglish's demands will be complied with, and that the fleet will be handed over before the prescribed time."

The demands were made as a precautionary measure to ensure the safety of the allied fleet.

It is explained that the despatch of artillery and ammunition to the interior, the movements of Greek ships and the continued activity of the reservist leagues have aroused fears of a disturbance of order at points where the allied war vessels are anchored, and also endanger the security of the allied troops on the Greek front.

Vice-Admiral Dalglish demands the disarming of the Kilkis, Lemnos and the forts on the seacoast, while the two forts commanding the fleet's moorings are to be made over to the admiral. Control of certain points must also be placed in the hands of the Anglo-French authorities.

In addition to the disarming of the warships named, their crews are to be reduced to one-third the regular complement.

Size of Fleet. The Greek navy consists of five battleships: the Kilkis, Lemnos, Pearsa, Spetsai and Hydra; one armored cruiser, the Averoff; the coast defence ship, Basilissas; the cruisers Hell and Neaerchos; Miazolis; ten gunboats, 17 torpedo boat destroyers, nine torpedo boats, three submarines and several transporters and other craft. The Greek naval force has been estimated at 4000 officers and men.

Recently there have been reports that Greek warships had deserted the navy and joined the revolutionary forces. Among these were the battleship Hydra and two torpedo boats, which it was declared, left their anchorage and joined the allied fleet in Salamis Bay. The Kilkis also was reported to have deserted, but this was denied.

Bought From U. S. The best ships in the Greek navy are the Kilkis and Lemnos, which respectively are the former American battleships Idaho and Mississippi. The vessels were sold to Greece in 1914, Greece paying \$12,535,775 for them. The Hell also is an American-built ship, having been constructed by the New York Shipbuilding Co. as the Pel Hung for China and purchased by Greece in 1914.

Some of the smaller craft were captured from Turkey in 1897.

At the outbreak of the war Greece had two dreadnoughts under construction, one in France and the other in Germany, and a protected cruiser being built in England.

It is probable that the despatch of Reuters's correspondent was delayed in transmission from Athens to London.

ITALIANS SMASH AUSTRIANS IN MARCH TOWARD TRIESTE

Ally Captures Defences on Carso Plateau, in Julian Alps, and on Monte Pasubio, Taking Over Six Thousand Prisoners.

Special Cable to The Toronto World.
London, Oct. 11.—Giving General Cadorna his chance by denying the Italian front of troops to send to Transylvania to attack Roumania, the Austrians have suffered another severe and dangerous defeat at the hands of the Italians in an offensive in three sections of their front; and besides losing powerful defensive positions, they lost 6,500 prisoners, and they have jeopardized their possession of Trieste.

In one afternoon's operations yesterday the Italians smashed the Austrian front on the Carso Plateau and in the Julian Alps in a sudden resumption of their powerful offensive. The guns had destroyed the intricate defences of the enemy on the front between Vipasca River and Hill 208 on the Carso, advanced beyond it, and captured adjoining strong around the northern part of Hill 208 as well as Novavilla. The fighting was brisk around these positions, but the Austrians were unable to stand the Italian assault. In this drive the Italians took 5,094 prisoners, including 164 officers.

Large quantities of arms and ammunition fell into their hands. Broke Austrian Line. To the north of this battlefield, on the Julian front, south of Gorizia, the Italians launched a powerful blow from a point east of Vertebizza, and the Austrian line between Tobar and Vertebizza, taking 860 prisoners. The fighting here was intense and the artillery preparation of the Italians was terrific.

While all these events were proceeding on Italy's eastern front, the Italians made a powerful thrust northward in the Trentino, carried on Mount Cosmagnon, and made a further advance. Fighting their way forward from

DINEEN'S FALL AND WINTER COATS.

Dineen's overcoats have been most carefully selected, and there is not a coat among them all that belongs to the common run of coats. Nothing steeper in the price either. You must see the goods to appreciate their proper place and value. Imported fall coats, exclusive trade. Excellent wool material and most impressive styling. \$17.50 to \$40. Dineen's, 140 Yonge street.

GENERAL PARADE ORDERED FRIDAY

Twenty Thousand Men Will Take Part at Camp Borden.

A VETERINARY SECTION

Mobile Training Depot Will Be Only Unit in Canada.

By a Staff Reporter. Camp Borden, Oct. 11.—An imposing general parade and review of all battalions here, to be held on the Camp Borden ceremonial area with about twenty thousand troops taking part, has been arranged for Friday of this week.

Corp. Thomas I. Chevers of 133rd Norfolk Battalion fell while boarding the train at Angus tonight when returning to camp. He was rushed to the camp hospital and an operation was performed to remove the injured fingers.

ITALIANS SMASH FOE TOWARDS TRIESTE

Cosmognan, the Italians proceeded as far as the crest of Mount Menerie and the lower slopes of Mount Rote. In this action 630 prisoners were taken as well as a considerable quantity of arms and ammunition.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

GAINING the Italian war machine in motion, Gen. Cadorna achieved signal results in the Trentino, the Julian Alps, and on the Carso. First in importance of time and results, the Italians resumed their march on the Carso front towards Trieste.

One method of measuring the importance of a military success is by the counting of prisoners. In this respect the Italians took 5034 in their gains towards Trieste, with 164 officers; they took 860 more in the breaking of the Julian front, and they also took 860 in their advance on Mount Pasubio.

The significance of the success is the revelation that it makes of Austria's increasing weakness. The blow just delivered will have far-reaching effects. It will be felt in Transylvania. The Romanian war office reported the other day that the Germans had taken several divisions from the Italian front for their eastern adventure.

Events on the British front in Picardy yesterday were marked by an exceptionally heavy bombardment by the German artillery. When the Germans attempted to attack the British north of Courcellette they were caught by gunfire and were prevented from leaving their parapets.

On the French side of the battlefield the Germans, in two attacks on the new line at Chaumes Wood, ran against allied grenades and faded away in a hand-to-hand struggle.

BRITISH COMMONS VOTES WAR CREDIT

(Continued from Page One)

to allies and dominions, £17,000,000; food supplies, railways, etc., £33,000,000. The daily average of expenditures had been £1,000,000, and was £1,000,000 for the last 77 days of the financial year.

Loans to Great Britain's allies and dominions were exceeding the budget estimate. At the present rate they would not be safe in assuming that the total of £50,000,000 would be less than £55,000,000.

Reviewing the progress of the war since the last vote of credit, the premier said that the weather had hampered operations in the secondary theatres, but that in western Europe the progress had been made with all the resources available.

The defeat of the Turks at the Katia, east of the Suez Canal, had gone far to remove the danger of attack on the canal, and had inspired Turkish prestige in Arabia and Syria. In western Egypt, the Senusid tribesmen had been reduced to a state of anarchy.

The whole of the German East African coast had been occupied, and the complete conquest of the colony was only a matter of time. The premier gave high praise to Gen. Smuts and the British troops which are co-operating with him.

Many happy returns to Toronto's oldest civic employe, Mr. William DeVries, 79 Pine Crest road, born Oct. 12, 1836, eighty years of age, without ache or pain and as bright as the proverbial silver dollar.

MANY HAPPY RETURNS

FOR THOSE WHO GO A HUNTING

It is Important to be Properly Clothed When Hunting

THE DEER and moose seasons open November 1st, and in Northern Ontario at that time it's cold enough for the warmest of clothing.

Big Corduroy or Heavy Duck Coats or Mackinaws are probably the most desirable, for they are made of materials that give the very acme of comfort in cold weather, and in the proper length, as the illustrations on either side show, to permit free and easy movement, and those we show possess the advantage of being practically waterproof and windproof.

Strong, comfortable Trousers are also in big variety, too, both in long and in nicker styles.

The Hunters' Coat illustrated on the right is one of the best types known. It is made of 7-oz. grass-colored duck, in single-breasted style, closing with dome fasteners, and has big 12-inch corduroy collar, sleeve straps and in-and-out game pockets, as well as cartridge pockets of various sizes. Sizes 36 to 46 chest. Price 3.00

The Cozy-looking Mackinaw Coat illustrated on the left is made of a 36-oz. woolen material in a soft, rough finish. A blue black in self shade, single-breasted style, with deep storm collar, 4 pockets reinforced with leather, belt at waist, and wind-shields in sleeves. It is 33 inches long and in sizes 36 to 46. Price 4.95

An exceptionally good Hunting Top Coat is the reversible leather and Bedford cord jacket. It is made of a pliable, black leather on one side and a fawn shade English cotton Bedford cord on the other. Has a deep collar, side pockets on either side, and the average length is 32 inches. Sizes 36 to 46. Price 5.50

A Hunter's Frock Coat, in three-quarter length, is made from an olive khaki oil skin material. It closes up at neck with clasp fasteners, and the collar is inlaid with drab corduroy. It is double through shoulders and across front, and has square cut opening to inner pockets. Pockets are covered with top flaps and sleeves have wind straps. Sizes 38 to 44. Price 2.85

Fancy Mackinaw Coats, in striking patterns of brown, grey and red, with large overplaid in various shades. In double-breasted style, with box-pleats from yoke to bottom at front and back; shawl collar that rolls up around neck, and all-round loose belt at waist. Sizes are 36 to 44, and the average length is 34 inches. Price 8.00

Olive Khaki Oil Trousers, double all through legs and with bib and shoulder straps. Price 2.00

Mackinaw Knickers, made in 36-oz. weight, with knitted cuffs at knee; 4 strong pockets. Sizes 32 to 44 waist. Price 2.85

Long Trousers, made of strong grass-colored duck, with top, hip and watch pockets. Sizes 32 to 44. Price 3.25
—Main Floor, Queen St.

Hunters' Flashlamps

THE EXCITEMENT of the chase oftentimes carries the hunter miles from camp, and when he is ready to return it's dark. Then it is that the Flashlight is appreciated. Its quick, bright rays guide the way clearly on the darkest night. The excessive use the Flashlight is put to on a hunting trip makes it advisable to carry along several batteries. Following are the prices of both the Pocket Flashlights and the Torch Lamps.

Pocket Flashlights, in nickel-plated cases; fitted with strong battery and lamp; two sizes. Each, 65c and 75c.

Short Torch type, in black fibre case, with nickel trimmings. Has very strong lens. Price, each 1.00

Another Short Torch type, also in black fibre case; has large lens and polished reflector. Price 1.25

Large Size Flashlights, with small lens, are priced at \$1.25; with large lens, at \$1.50.

Metal Case Flashlight, with powerful reflectors and magnifying lens. In several styles; all nickel-plated. Prices, \$1.50 and \$1.65.

Black Japanned Hand Lanterns that require the ordinary dry cell. In two designs, at \$1.50 and \$2.25.

Hand Lanterns, in nickel or wood cases, fitted with strong batteries and lamps, at \$3.50, \$4.00 and \$5.50 each.

—Basement.

Heavy Hosiery to Keep the Feet Warm and Comfortable

COLD WEATHER is sure to be encountered, especially deer season, and it is important that the hunter wear heavy, thick, woolen Socks or Stockings, to guard against frost bites, etc.

Specially made for trappers, lumbermen, hunters, etc., are heavy Knicker Hose, with fancy patterned turn-over cuffs. Made of selected yarns, in brown, grey and heather mixtures. They are seamless, and have double soles, heels and toes, and 5-4 ribbed legs. Sizes 10, 10 1/2 and 11. Price per pair, \$1.00, \$1.25 and \$1.50.

Another line of Men's Heavy Wool Knicker Hose is hand-knitted and made of fine wool yarn; double at soles, heels and toes. In shades of brown, grey and white, and with fancy cuffs. Sizes 10, 10 1/2 and 11. Per pair 3.00

Men's Three-Quarter Length Heavy Wool Hose, to wear with shoe-packs or moccasins, or heavy boots. Made with seven-ply foot to the ankle, and elastic top, in grey only. Price per pair75
—Main Floor, Yonge St.

First Aid Outfits 30c and 75c

Every hunter should take along one of these handy First Aid Outfits. They are small and compact, and contain all the necessary articles for burns, cuts, bruises or bites. In metal boxes, one about size of a soap-holder. Containing the following:

- Self Adhesive Plaster
- Lint
- Bandages
- Sponge
- Needles
- Thread
- Tapes
- C. H. Brush
- Carron Oil for Burns
- Ammonia for insect bites
- Safety Pins

A larger size box containing bigger quantities is priced at75
—Drug Section, Main Floor, James St.

Strong, Waterproof Footwear to Keep Feet Dry and Warm

PROBABLY the most important part of the hunters' attire are the boots, for in pursuit of the animal he is forced to go through all sorts of rough, damp and swampy country, and oftentimes he has to wade through streams and ponds, so that it is very important that he wear strong, waterproof, and yet not cumbersome, footwear, for at times he has to be fleet of foot.

We are making a special display this week of the proper Hunting Footwear, including boots from the small ordinary ankle shoe-pack to the leather knee top boot and the rubber hip boot. Both leather and rubber materials have greatly advanced, but you'll notice how moderately priced are the following items:

For those who go away north to the wild country we advise taking a pair of knee top leather boots similar to the one illustrated on the left. They are at various prices, from \$3.95 to \$15.00 a pair.

A 10-inch Tan or Black Prospector's Boot, with bellows tongue and in widths 6 to 12, is priced at 3.95

A White Elk Boot with double soles, bellows tongue to top, is a splendid boot for hunters and prospectors. Sizes 6 to 11. 14-inch style, \$10.75; 10-inch style 9.00

The Witch Elk, famous for its durability and comfort, is in a pearl shade with welted soles. Sizes 6 to 11. 15-inch style, \$15.00; 12-inch style 13.00

Oil Tanned Shoe Packs, similar to the one illustrated, are also excellent hunting boots, being waterproof and warm. They are all hand made proof.

Those with nailed soles 15.00
Desirable for hunters who hunt or fish in swampy places are these Knee Rubber Boots. One line is made of No. 1 grade heavy-weight gum. Sizes 6 to 12, 8.65

Thigh Boots, made of strong, heavy gum. Sizes 6 to 12 5.00
Special Troutling Boots, made of light-weight gum in dull finish. Sizes 6 to 12 5.65
—Second Floor, Queen St.

and have bellows tongue to top and double soles and heels. Sizes 6 to 12, 14 inches high 5.50
A 10-inch Pack, of best oil-tanned leather, is also hand sewn. Sizes 6 to 12 3.45
Same style, made by draw-string process, is priced at 5.50
A low-cut 6-inch Boot, made of oil-tanned leather, has hand-sewn seams, soles and heels and bellows tongue. Sizes 6 to 11 3.25
A 16-inch Pack, with heavy soles and heels; has hand-sewn welted soles, and is absolutely water-

Warm, Flexible Hunting Gloves

HERE ARE Gloves that are made of soft, flexible materials that permit the hunter to work the trigger without taking the glove off, and that are warm and comfortable, and in some cases waterproof.

Very popular is the one-fingered mitt, made of Alaska horsehide. It has continuous thumb, full welted seams, knitted cuff and fleecy lining. Price, per pair 1.50

A Heavy Scotch Knit Woolen Gauntlet Glove, made with seamless fingers, in grey only. Price per pair 1.00

Men's Grey Woolen Gloves, made with one-dome fastener, and tan kid binding at wrist. Price, per pair65

A strong, useful Gauntlet Glove is made of pearl sheepskin. It is asbestos tanned, gun cut, and has continuous welted thumb, and seams sewn with wax thread. Price, per pair50

A double Mitt of black wool makes a comfortable hand covering in cold weather. Price, per pair50

Men's Pecary Hog Gloves, with one dome, half pique, Bolton thumb, Imperial back; & strongly sewn, serviceable and washable glove. Price, per pair 2.50
—Main Floor, Yonge St.

Correctly Shaded Caps for Hunters, Each 75c

TO APPROACH the game unobserved is the skill of the experienced hunter and to have the head covered with a cap in shade harmonizing with nature is the all-important consideration. The cap illustrated is in the fawn shade. It is made of corduroy, with straight, flat crown and medium-sized stiff peak. It is a warm comfortable hat and has fur-lined ear laps and is reversible, showing flannel and scarlet cloth. Price75
—Main Floor, James St.

A Few Suggestions From the Grocery Dept.

- India and Ceylon Tea, 30c lb.
- Pure Coffee, fresh roasted, 32c lb.
- Evaporated Milk, 10c tin.
- Klim Milk, in powdered form, for domestic use, 25c tin.
- Finest Rolled Oats, in packages, 25c pkg.
- Pork and Beans in Sauce, 10c and 18c tin.
- Jams in tins, No. 5 pails, 90c tin.
- Potatoes, Apples and Vegetables at market price.

—Fifth Floor.

A Handy and Compact Wedge Tent Complete for \$9.45

THIS little tent is made particularly for the convenience of hunters. It is light in weight, easy and quickly set up or taken down, rolls up very compactly, and is specially made to wedge in between thickly-grown trees and bushes that would be impossible with the ordinary tent.

It is strongly sewn from good quality 10-oz. duck, and is size 7.3 x 7.3. Price of tent alone is \$8.20. With poles and pegs it is complete, for 9.45
—Drapery Section, Fourth Floor.

In the Sporting Goods Department

HAVERSACKS, size 12 x 12; made of strong khaki, with adjustable shoulder strap. Each 45

Dunnage Bags, made of waterproof khaki; an excellent article in which to keep the blankets and extra clothing dry. Size 12 x 24. Each 1.00

Dunnage Bags, made of brown waterproof duck; size 18 x 30, with lock and handle. Each, \$2.75 and 3.25

Waterproof Stockings, to be worn over stockings inside shoes. Just the thing to wade through marshy and swampy country. Per pair, 2.25

Safety Match Boxes to keep matches dry in damp weather. Each, .50

Marble's All-Steel Safety Pocket Axes. Price, \$2.75 each.

All Fishing Tackle Now Offered at Half Price

Even though the trip be for the purpose of hunting deer, moose, etc., there are always occasions to fish, and while we offer all our fishing tackle at HALF-PRICE, it's a splendid opportunity to get your supplies at a big saving.

—Sporting Goods Dept., Fifth Floor

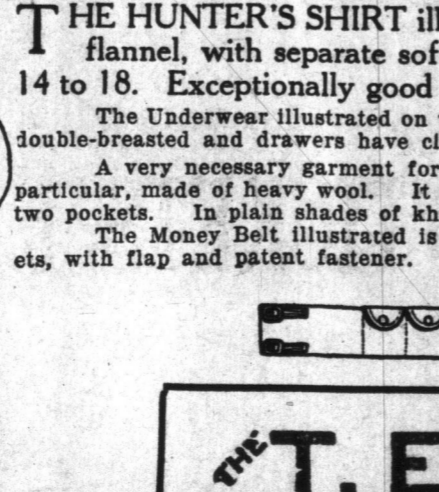

Shirts, Underwear, Sweater Coats and Money Belts for Hunters

THE HUNTER'S SHIRT illustrated on the left is made of heavy khaki flannel, with separate soft lounge collar, soft cuffs and breast pocket. Sizes 14 to 18. Exceptionally good value at 1.59

The Underwear illustrated on the right is made of heavy wool in natural shade. Shirt is double-breasted and drawers have closely ribbed cuffs. Sizes 34 to 44. Price, a garment, 1.50

A very necessary garment for hunters, too, is the Sweater Coat. We suggest one coat in particular, made of heavy wool. It is in plain or fancy stitch and has high storm or shawl collar, two pockets. In plain shades of khaki, grey, slate, maroon, brown. Sizes 38 to 44. Price, 3.50

The Money Belt illustrated is made of sheepskin. It is 3 1/2 inches deep and has six pockets, with flap and patent fastener. In khaki or tan colors. Sizes 30 to 40. Each95
—Main Floor, Centre.

THE T. EATON CO LIMITED

Laurier Denounces Plotters in Canada

(Continued from Page One)

Young friend Mr. Gibbons, whom I have known since he was a little lad, and whom I hope, soon to welcome to the house of commons as one of my colleagues and the worthy successor of my old friend Charley Hyman. (Applause.)

They were meeting, Sir Wilfrid continued, under the shadow of the great war which was desolating Europe and attracting the attention of the entire world. It was a war upon our part waged to defend liberty and preserve civilization. This might seem to be a trite statement, but it could not be repeated too often or too emphatically.

True, they had remonstrated against a tariff in 1915, but that was mainly upon the ground that it reduced the British preference. They had also protested unavailingly against the reckless extravagance of the government, not as to military, but as to civil expenditures. The cost of running the government had increased from \$98,000,000 in 1911 to \$122,000,000 at the present time.

Accused Militarism. "Would we have been better off," he asked, "if some years ago we had adopted the German system? If England had kept a large body of her young men in barracks producing nothing, would she be able today to spend \$22,000,000 a day? For myself, I hope that the policy of England in the past will be the policy of England in the future."

Speaking of Sir Wilfrid's reference to the allies' peace terms, he said: "The people of Germany were infinitely more surprised than we were at the terms of the peace terms. The war should be for revenge, but for justice and liberty."

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid aurore from any drug store (this is all you will need), and apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

Hydro 1915 Report Gives Surplus For Year as \$3,137.79

Hydro also states that unearned sinking fund requirements amount to \$93,733.96.

Hydro report says this deficit is a charge upon future surplus earnings.

At the rate of surplus earnings for 1915 it will take thirty years to wipe out the present deficit.

But Hydro rates are 15% lower in 1916 than in 1915.

Can anyone guess how many times thirty years it will take to wipe out the \$93,733.96 deficit?

Hydro Rates were reduced regardless of cost, in order to meet Telco competition.

Telco rates mean real value for your payments.

Hydro rates mean interior service and additional taxes, as every customer except the city itself is carried at a loss, and Hydro losses mean increased taxes.

Telco service means superior service guaranteed by all the assurance that modern engineering can provide, including steam reserve.

SIXTY MILLIONS IN WAR ORDERS

Big Contracts for Munitions Will Be Let This Week.

OUTPUT IS IMPROVED

Steel Well Supplied and Obstacles Are Being Overcome.

By Staff Reporter. Ottawa, Ont., Oct. 11.—Canada's total munition orders since the outbreak of war have been \$550,000,000. During the present week the Imperial munitions board has been instructed to place additional contracts to the value of \$60,000,000, running well into 1917.

The statement adds: "During the hot weather of July and August a good deal of difficulty was experienced in keeping up the output, due to shortage of shell and forgings. The board is pleased to state, however, that due to the efforts put forth by manufacturers, the output on most contracts is now more satisfactory and increasing in volume each week."

Heavy Shell Output. "The quantity of chrapnel shells now produced each week complete with cartridge cases, fuses, primers and propellant charge has reached almost 300,000, and the board has been authorized within the past week to place continuation orders for this size of shell into 1917."

Large orders were placed during last spring and summer on the larger size of shells, especially 9-inch and 9.5 inches. This involved complete new installations of machinery and equipment. Deliveries of this equipment were slow, but many of these plants have now commenced operating, and the output of larger sized shells is increasing each week and will continue to increase until about Jan. 1, when the maximum output of these plants should be reached.

Steel Well Supplied. "The position in Canada in regard to supply of steel, the basis of all munition work, is now such that no interruptions in output will likely take place, as the immense tonnage required for all classes of shells has been arranged well ahead."

"The fuse plant built by the board at Montreal has now reached a capacity of 15,000 per day and by Jan. 1 will reach 25,000 per day. The policy of the board in placing new business will be to keep all plants now producing munitions fully employed, and where increased production is required on any particular class of work to extend operations of plants which are already equipped and producing munitions."

THREE YEARS SENTENCE IMPOSED UPON DEVLIN

Former Saskatchewan Legislator Guilty of Series of Crimes.

Regina, Oct. 11.—Edward H. Devlin, M. L. A. for Kinsistno, was sentenced by Judge Hanna in the district court today, to serve three years on each of three counts of forgery; two years on each of three counts of uttering one year on each of three counts of false pretences and two years additional on a fourth count of false pretences, all sentences to be served in Prince Albert Penitentiary at hard labor and to run concurrently. He also was allowed the time already spent in prison by Devlin, seven months, to be deducted from the total sentence, leaving two years and five months to be served.

Bloor Street Baptist Church Extends Call to Missionary

Bloor Street Baptist Church has extended a call to Rev. R. C. Benson, a returned missionary from India, to take up the work of acting pastor during the absence of Rev. W. A. Cameron, who is going overseas to deliver a series of lectures under the auspices of the Y.M.C.A. Mr. Benson is a graduate of McMaster University, and served as missionary for seven years. Mr. Cameron will preach in Bloor street church for the last time next Sunday, before going overseas.

PRaises J. K. L. ROSS. Duke of Connaught Praises Him For Princely Donations.

Special to The Toronto World. Montreal, Que., Oct. 11.—While speaking this afternoon at the opening of the Royal Victoria Hospital, the Duke of Connaught said the rich men of Canada were to be highly commended on account of their princely donations. For instance, J. K. L. Ross has built this hospital, costing half a million, while he is spending a round million on the Lennoxville College Building.

Rheumatism

A Home Cure Given by One Who Had It. In the spring of 1915 I was attacked by muscular and inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried ready-made remedies, and doctor after doctor, but was never cured. I was only temporarily relieved. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number of my friends who were terribly afflicted, and all of them have been cured. I have given it to many of our young people suffering from Rheumatism, and it effected a cure in every case. I want every sufferer from any form of Rheumatism to try this marvelous healing power. It costs a cent; simply mail your name and address, and send me five cents. After you have used it and it has proved itself to be what you need, I will send you more for nothing. Why suffer any longer when positive relief is just around the corner? Don't delay. Write today. Mark H. Jackson, No. 246 Gurney Bldg., Syracuse, N.Y.

NO NICKEL NOW SHOULD BE SOLD

(Continued from Page One)

proper wages and he spoke of the International Nickel Company as a conspicuous example. He favored the establishment of a minimum wage for men who labored in the factory or on the farm. He also advocated pensions for widows with dependent children. Geo. Wilkie traced the history of the nickel deposits of Canada and the effort made by the British admiralty in 1904 to conserve those deposits for the imperial navy. It was Hon. Frank Cochrane who, in 1906, rebuffed the British authorities and said that nothing could be done. The Ontario Government is now talking about establishing a nickel refinery at Hamilton, Welland, or somewhere else, for the purpose of refining a portion of our nickel ore in Canada. It should all be refined in this country.

SENATOR BEAUBIEN ATTACKED.

Le Canada Has Violent Article Following Drummond's Speech. Special to The Toronto World. Montreal, Oct. 11.—The Liberal party is evidently going to make political capital out of the pro-British speeches of Senator Beaubien and others, favoring recruiting, as Le Canada, the party organ, has a violent article this morning attacking the senator for his Drummond-like speech, as well as the other delivered to the Ontario delegates.

THANKS SUBSCRIBERS.

The ladies' board of the Toronto Western Hospital desire to thank the public for responding so generously to the appeal for funds for the Edith Caroll Memorial Nurses' Home.

ple of England," he said, "were surprised. But I venture to say, the people of Germany were infinitely more surprised. The war should be for revenge, but for justice and liberty."

Continuing, he declared the opposition had impressed upon the government this fact. Twenty-five years ago the Liberal party drew attention of the imperial government to the large nickel deposits and suggested imperial co-operation in their development. "The government," he said, "is making a serious mistake in the interests of Ontario, the Dominion and the empire. I urge it tonight, I appeal to the government during the few remaining months they are to be entrusted with government responsibility, that they at least make a start upon the right lines in regard to an effective nickel policy."

A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid aurore from any drug store (this is all you will need), and apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

FUNERAL OF LOUIS KING.

The funeral of Louis King, who died suddenly in the General Hospital, was held yesterday from 155 Dunn avenue. Mr. King was the son of Hyman King, a well-known Jewish merchant. Many friends attended the funeral. Interment took place at the Holy Blossom Cemetery.

100% FORFEIT

Increases strength of delicate, nervous, rundown people 200 per cent. in ten days in many instances. \$100.00 forfeit if it fails, as per full explanation in large article soon to appear in this paper. Ask your doctor or drugist about it. Tamblay, Limited, always carry it in stock.

KARAWAN & TURKISH CIGARETTES 10 10 PLAIN, DARK & GOLD TIPS

What the British Red Cross Society and the Order of St. John are Doing for the Sick and Wounded in the War

TWO facts justify the claim that the work of the British Red Cross Society and the Order of St. John is unique.

1. The Joint War Committee of the two Societies is the only institution which carries voluntary aid to the sick and wounded of the British forces on land and sea in every region of the War.
2. Its work is therefore the concern of all classes of British subjects, whether living at home, in the Dominions and Colonies beyond the seas, or in foreign countries.

The magnificent response of the whole Empire to the appeal based on these facts has raised a fund of over \$20,000,000 for Red Cross work, which, spread over three Continents—Europe, Asia, and Africa—involves an expenditure of \$170,000 a week, and benefits alike the sick and wounded of all branches of His Majesty's forces, from whatever part of the Empire they have come, and also, in a secondary degree, the Allies.

The work is done with the full approval of the Admiralty and the War Office, and in cordial co-operation with the Medical Services. It is the pride of the Red Cross that in every crisis in the campaigns of Great Britain and her Allies it has been able to bring prompt and efficient aid to supplement the untiring work of the official Services.

FRANCE AND FLANDERS

The care of the wounded and the sick of the British forces serving in France and Flanders falls under two main heads, their transport by motor ambulance and hospital train, and the provision of hospitals.

MOTOR AMBULANCES.

The motor ambulances, fitted with every appliance which can ease pain and secure comfort, have now entirely replaced the obsolete horse-drawn ambulance carriages, and have made unnecessary the makeshift use of supply waggons for the carrying of the wounded. This complete transformation followed the vigorous action taken by the Red Cross in September, 1914, when the agonies endured by our wounded in the Great Retreat called aloud for reform. The Joint Committee now has 1,100 motor ambulances serving the British Army in France and Belgium, 60 with the French Army, and 25 with the Belgian. Large repair shops have been established at Boulogne, and between 400 and 500 other motor vehicles, including lorries, repair waggons, touring cars, and cycles, assist the transport of the wounded. A personnel of over 1,500 persons is employed, of whom several have been mentioned in despatches, and one has his D.C.M. A large number of women drivers employed at the bases are members of the Red Cross Voluntary Aid Detachments and of the First Aid Nursing Yeomanry.

HOSPITALS.

Below is a list of the hospitals and convalescent homes as at present established under the auspices of the Red Cross for sick and wounded soldiers in France. These have been of the greatest value to the Army authorities, who send men to them as to their own hospitals, knowing and glad to own that nothing which surgical skill and good nursing can do, or money provide, will be left undone:—

THE BRITISH RED CROSS SOCIETY

INCORPORATED BY ROYAL CHARTER, 1906.

Patrons:

THEIR MAJESTIES THE KING AND QUEEN

Presidents:

HER MAJESTY QUEEN ALEXANDRA.

Chairman of the Council:

THE MARQUESS OF LANSDOWNE, K.G.

The British Red Cross Society is the immediate successor and present representative of the first Red Cross Society ever established in Great Britain. This was the British National Society for Aid to the Sick and Wounded in War, which was founded by the late Lord Wantage in 1870, and in 1906, at the instance of the late King Edward, amalgamated with other bodies under the title of the British Red Cross Society. The primary object of the Society is to furnish aid to the sick and wounded in time of war.

THE ORDER OF ST. JOHN OF JERUSALEM

INCORPORATED BY ROYAL CHARTER, 1587 and 1888.

Sovereign Head and Patron:

HIS MAJESTY THE KING

Grand Prior:

FIELD MARSHAL H.R.H. THE DUKE OF CONNAUGHT, K.G.

Sub-Prior:

THE EARL OF PLYMOUTH, P.C., C.B.

Prelate:

THE ARCHBISHOP OF YORK

The Order of St. John (or, to give it its full title, the Grand Priory of the Order of the Hospital of St. John of Jerusalem in England, is the modern embodiment of the famous foundation of the 11th century, "For the Relief of Christian Pilgrims to the Holy City." Under its auspices was formed, in 1877, the St. John Ambulance Association, to organize a civilian reserve to the Army Medical Department, and to give general instruction in rendering first aid to the sick and injured. An offshoot, five years later, was the St. John Ambulance Brigade for duty in street crowds and elsewhere, and to enlist auxiliary units for the Medical Services of the Navy and Army.

In October, 1914, the British Red Cross Society and the Order of St. John decided to co-operate for the purpose of the War, and a Joint War Committee of the two Societies was formed with this object.

HOSPITAL TRAINS.

Altogether four hospital trains have been placed at the disposal of the Army through the Red Cross. Each is designed to carry 450 men, but can carry 500 in times of pressure. They bring back the wounded swiftly and smoothly from behind the fighting line to the coast. Removable beds are supported on brackets on either side of the carriages, and are as comfortable as they can be made. Each train has an operating table, dispensary, kitchens, etc., and an expert staff. On occasion a train has been run on to a siding and an urgent operation performed during the journey home. Many thousands of men have travelled homewards in these trains from the battlefields of France and Flanders—among them the King himself, after his severe accident while reviewing the troops. The train known as No. 11 carried in less than 12 months over 26,000 patients, and travelled 26,000 miles.

HOSPITALS.

The following is a list of the hospitals now maintained under the Red Cross in Egypt:—

No. 1—Red Cross Conval. (Syrian).....	35 beds.. Alexandria
No. 3—Red Cross Conval. (Lady Douglas, 42nd Div.).....	50 beds.. Alexandria
No. 4—Red Cross Conval. (Ross).....	28 beds.. Alexandria
No. 6—Red Cross Conval. (Lady Howard De Walden).....	150 beds.. Alexandria
No. 7—Red Cross Conval. (Sultan's Montasah Palace).....	1,000 beds.. Alexandria
No. 10—Red Cross Conval. (Lindemann).....	36 beds.. Ibrahimiéh
No. 11—Red Cross Conval. (Old Residency, Mustapha).....	17 beds.. Alexandria
No. 12—Red Cross Conval. (Officers).....	40 beds.. Cairo
Red Cross Hospital Station (Giza).....	520 beds.. Cairo
Red Cross Conval. Hospital, Walda Palace, Helouan	100 beds.. Cairo

Two hospitals, Nos. 8 and 9, were opened for nurses; No. 8 (Zizinia) is now closed, but No. 9 (Bulkley), containing 23 beds at Alexandria, is doing admirable work.

THE GRAVES OF THE FALLEN.

Early in the war the Graves Registration Commission undertook the difficult task of making a record of the thousands of graves of British soldiers in villages, woods, and countrysides. The Commission replaced the extempore crosses put up by comrades or peasants with more lasting ones, and communicated any information they could gather to relatives of the dead. This duty has now been taken over by the Army; but it is still the work of the Red Cross to take photographs of the graves to send home to those who wish for them.

WHY RED CROSS WORK IS NEEDED

"What Lord Wantage saw and experienced during the Crimean War impressed itself deeply on his mind; he realized that, however well organized an Army Medical Service may be, it never has been, and never will be, able to cope adequately with the sudden emergencies of war on a large scale, and he held that voluntary organizations, unimpeded by official restrictions, are alone capable of giving auxiliary relief and of providing extra comforts and luxuries with the requisite promptitude and rapidity. He felt, moreover, that the British people would always insist on taking a personal share in alleviating the sufferings of their soldiers, and that some recognized and authorized channel through which public generosity could flow was a matter of paramount importance."

Memoir of "LORD WANTAGE, V.C., K.C.B."
Father of the British Red Cross Movement.

THE VALUE OF RED CROSS WORK

From the late LORD KITCHENER OF KHARTOUM.

I am glad to have an opportunity of testifying to the great value of the services rendered by the Joint Committee of the British Red Cross Society and the Order of St. John to the Royal Army Medical Corps in the discharge of their duties. The admirable work which these Societies have carried out in their beneficent task of helping the sick and wounded has established a strong claim upon the gratitude of the Army and the community, and their activities are worthy of the fullest support.

War Office, Whitehall, S.W., 10-3-16.

School Head Resigns

Cause Was Friction

Windsor, Oct. 12.—Members of the board of education, without discussion, accepted the resignation of James A. Smythe as principal of Tuscarora Street School last night.

Report Says Five Are Killed, Eight Wounded

Hamilton, Thursday, Oct. 12.—Five more Hamiltonians have been killed and one has died of wounds.

Dies After Sustaining Fracture of Skull

Hamilton, Thursday, Oct. 12.—C. Buckner of North Wentworth st., died at the City Hospital last night of a fractured skull, sustained while working at the International Harvester Company.

Soldier Buried Alive

Three Times in Battle

St. Catharines, Oct. 11.—Three times buried in one day during the Somme offensive, Pte. Howard Wismer of this city is alive to tell the tale.

JAIL MEALS COST MORE

Windsor, Oct. 11.—High cost of living did not miss Essex County Jail, according to Governor Harmon, who in his annual report, states cost of feeding each guest was 14 cents per day.

DODD'S KIDNEY PILLS

DODD'S KIDNEY PILLS. Cures all kinds of kidney ailments, including backache, rheumatism, and general debility.

THE WEATHER

Observatory, Toronto, Oct. 11.—(8 p.m.) On the whole, today has been fine and a little warmer than yesterday in all parts of the Dominion except in Alberta where it has been slightly cooler.

Minimum and maximum temperatures. Dawson, 22-24; Prince Rupert, 44-48; Victoria, 48-56; Vancouver, 40-56; Kamloops, 23-44; Calgary, 48-51; Edmonton, 41-48; Medicine Hat, 28-41; Moose Jaw, 27-38; Battleford, 28-39; Regina, 24-38; Saskatoon, 20-37; Winnipeg, 32-41; Port Arthur, 40-54; Parry Sound, 42-58; London, 31-41; Toronto, 38-43; Ottawa, 38-56; Kingston, 41-53; Montreal, 32-41; Quebec, 28-43; Halifax, 20-32.

THE BAROMETR.

Table with columns: Time, Ther., Bar., Wind. Rows for 9 a.m., Noon, 3 p.m., 6 p.m.

STEAMER ARRIVALS

Oct. 11. From: Al. Liverpool, New York; Oscar III., Kinnaird, New York; Giuseppe Verdi, Genoa, New York.

STREET CAR DELAYS

Wednesday, Oct. 11, 1916. Bathurst cars delayed 3 minutes at 6.45 a.m. at Front and Spadina by train.

DEATHS

AMOS—In Wellesley Hospital, Toronto, on Oct. 10th, Mrs. Alfred A. Amos (nee L. May Johnston), aged 51 years, wife of Alfred A. Amos of Cobalt.

HIPODROME

Hamilton Revelle, the eminent dramatic actor and exponent of artistic romantic roles, and Marguerite Snow, known from end to end of the country as "Fretty Peggy," will headline the bill at the Hippodrome next week in the Metro wonderplay, "The Half Million Bride."

AT THE MADISON

William Farnum, without doubt the most popular and finest leading man in "good" roles on the screen today, will be seen at the Madison Theatre for the remainder of this week.

AL. JOLSON COMING

Commencing on Monday evening, Oct. 23, the Winter Garden's latest offering, "Robin Hood, Jr.," with the irrepressible Al. Jolson, star entertainer of that institution of humor, beauty and present-day popular music, will be the attraction of the week.

ESCAPED PRISONER IS AGAIN IN JAIL CELL

Hamilton, Thursday, Oct. 12.—A prisoner who has been away from the City Jail for some time, was again in jail today.

ARGYLESIRE ASSOCIATION

The first meeting for the season of this association was held on Tuesday night, in St. George's Hall, A. M. Campbell, president, in the chair.

PLEADS NOT GUILTY TO FOUR CHARGES

Hamilton, Thursday, Oct. 12.—A man who has been charged with four charges of larceny, pleaded not guilty to all four charges today.

SAPPER SWARTMAN HURT

Special to The Toronto World. Orillia, Oct. 11.—Saturday casualties list incorrectly stated that Sapper Swartman had died of wounds.

Special to The Toronto World

Orillia, Oct. 11.—Saturday casualties list incorrectly stated that Sapper Swartman had died of wounds.

This Bush Yields only 2 1/2 ozs. yearly

A VERY small yield considering the size of the bush. It takes about 6 1/2 bushes to yield a pound of ordinary tea—and about 10 bushes to yield a pound of Red Rose Tea, as only the tender shoots and buds are used to produce the distinctive flavor

and richness which characterize this high-grade tea.

RED ROSE TEA is good tea. In sealed packages only. Try it.

PLAYS, PICTURES AND MUSIC

"WHEN DREAMS COME TRUE."

"When Dreams Come True," which will be the first in a series of plays to be presented at popular prices at the Grand next week, is by Philip Rathbone, author of the farcical success, "Over Night," "Little Miss Brown," and "Very Good, Eddie!"

LOU TELLEGEN AT ALEXANDRA

Romance and Lou Tellegen—the two seem inseparable. It is, therefore, with much interest that we hear reports that this gifted young actor will be seen at the Alexandra Theatre for one week, beginning Monday, Oct. 16, in a romantic comedy, "A King of No-where."

STAR THEATRE

Something different, is the way in which the Well Amusement Company announce the character of the entertainment, which their "Grown-Up Babies" Company will offer at the Star Theatre next week, with the usual Lyman Moody and his troupe.

HOUDINI AT SHEA'S

The famous Houdini, world-famous self-liberator, the man who has defied and baffled the police of two continents, will come to Shea's as the headline attraction next week.

PRIVILEGE TO HELP

The opportunity is at hand for every woman in the province, her privilege to help, by entering her name on the subscription lists to be found in every post-office and bank, or thru the society to which she belongs, to assist in the gift to the Duchess of Connaught which is being given by the women of Ontario to help every Canadian prisoner of war.

THE FUNERAL CHAPEL OF A. W. MILES

396 COLLEGE STREET

Convenient when death occurs in hotels, hospitals or apartment houses, with motor hearse going to any cemetery or Forest Lawn Mausoleum direct, or with train going outside city.

SOCIETY

Her Royal Highness the Princess Patricia has graciously accepted from the Women's Canadian Club, Ottawa, four boxes, containing over two hundred Christmas stockings, which will be sent to the men of the Princess Patricia's Light Infantry.

Mr. Mitchell and Sir Alfred Bateman, K.C.M.G., members of the Dominion Royal Commission, arrived at the Queen's last night, and the other members, Sir Jan and Lady Langerman, Sir Edward Bowring, Mr. W. Lorimer, Mr. J. B. Sinclair, Mr. T. Garnett, Mr. and Mrs. Talbot, Mr. E. J. Harding, Mr. A. H. Bridgman, Mr. A. E. Mitchell will arrive on Saturday afternoon.

The Duke of Devonshire will be the guest of honor at a meeting of the Canadian Club in London on Oct. 18. Sir George Perley will preside. Capt. Mackintosh, A.D.C. to H.R.H. the Duke of Connaught, will return to Canada with the Duke and Duchess of Devonshire after he has spent a few days in England.

Colonel and Mrs. James A. Cantile, Winnipeg, are in Montreal, called there by the serious illness of Col. Cantile's sister, Mrs. Huestic. They were accompanied last by their two little sons.

Mr. and Mrs. Robert Walde spent the week-end at their home in Lady Gibson in Hamilton.

Mrs. Beardmore is staying with Admiral and Mrs. Kingmill in Ottawa.

Mr. Stewart Tupper and her three daughters left town last week and sailed from New York for England to visit Mrs. Tupper's son, Sir Charles Tupper, who is at present on leave, and Lady Tupper at Folkestone.

Mr. Cyril Maude drew a large and very enthusiastic audience to see his clever impersonation of Jeff, the barber, last night at the Grand. A few of the large number were: Miss Brock, Mr. Brock, Mr. and Mrs. Ernest Rolph, Miss Haney, Canon and Mrs. Plumpton, Mr. and Mrs. Colley Robertson, Mr. and Mrs. Huestic, Mrs. and Miss Connally, Mrs. William Heald, a great number of officers in khaki, and two rows across the theatre of soldiers from the Connaught, who were Mr. Cyril Maude's guests.

A cable was received yesterday morning from Mr. A. W. Dyas, saying that he was sailing for home on two months' leave. Mr. Dyas was wounded early in September, and has been in a hospital in Manchester, recovering from wounds and shell shock.

A dinner was given last week at the Fort Garry, Winnipeg, for Sir George Foster, minister of trade and commerce.

Mr. and Mrs. W. J. McWhinney spent the last week-end and holiday with friends in Montreal, and motored to King's Hall College, Compton, to see their daughter.

Mrs. Magan has returned from England, and after an absence of six months.

Mrs. Von Kunitz is giving a reception tonight at the Academy of Music, in honor of Miss Vera Barstow, the violinist, at 9.30 o'clock.

Mr. and Mrs. Arthur R. McMurray have moved from 191 Cottenham street to 108 Balmora avenue.

Mr. MacAulay Pope accompanied his father, Mr. W. W. Pope, on a fortnight's expedition into the country.

Mr. and Mrs. Douglas McDougall are at Kirkfield Inn.

Miss Marjory MacMurray is spending this week at Kirkfield Inn.

Miss Freda Taylor has returned from France on two months' leave, and is with her sister, Mrs. Charles Lowndes, Walmer road.

Mrs. Ormond is spending a few days in Toronto.

Mrs. Homer Dixon and Miss Homer Dixon, Lundy's Lane, are spending a week in town.

The Church of St. George the Martyr, yesterday afternoon at 4.30 o'clock was the scene of the marriage of Olive May, only daughter of Mr. and Mrs. George B. Lindsay, to Mr. Arthur Trent Blackburn, Berkeley street, the Rev. John T. Dykes officiating. The bride, who was unattended, was given away by her father. She was wearing a tailor-made of tete de negre velour, with velvet hat, and corsage bouquet of sweetheart roses and lilies. After the ceremony Mr. and Mrs. Blackburn drove to the station and left by the bride's train to spend their honeymoon in New York and Atlantic City.

UNPAID TORONTO TAXES. Taxpayers who failed to pay the second instalment of 1916 taxes by the 21st of September last are reminded that by doing so now they will only be charged the small addition of one-half of one per cent, whereas if payment is delayed beyond the 21st October the full penalty of five per cent will be imposed.

BRILLIANT HARNESS RACING SEASON DRAWING TO A CLOSE

Lexington Grand Circuit Contributing to Turf History—Trotting Next Week In South.

Detroit, Oct. 11.—Racing activities in the north will end with October, and the announcement of the final heat will bring to a close a most remarkable season.

Nothing seems to dim the glory of Lexington, the meeting in progress there being as brilliant as any given on the harness course and in some particulars it is quite the most notable.

The two-minute goal has been an elusive thing that has eluded the best stallions in the world for many years.

Whether Palo Alto could lower the record was the real question in California and among the men in the Marvin stable was Bill Williams, who now is superintendent of the training.

Both Native Belle and The Real Lady are by Moko, so that remarkable stallion again in the limelight.

In lowering the record, Volga displaced Mary Putney, that had put the filly mark at 2:05 1/2 last year.

Volga, that had shown such wonderful flight last year, came out improved, and not only won the three-year-old Futurity at Lexington, but she equaled the record for her sex when she trotted the final heat in 2:04 1/2.

KARAVAY TURKISH CIGARETTES 10 for 10c PLAIN CORN & GOLD TIPS

For decision tomorrow, who will take unto herself a record for her age and sex. What a wonderful trio of trotting mares! Never has the turf had such in a single season.

Mabel Trask Brilliant Trotter. In spite of the honor that goes with the trophy, which was the badge of championship, which she captured the first week at Lexington more heavily laden with the garlands of victory than did Mabel Trask.

When you come to list the great horses that have gone thru the seasons, winning handsomely, butting into their positions at the front, none quite comes up to Mabel Trask.

Stellar Facing Performances. Among the records that made fame for themselves in the top-notchers list was that of Mabel Trask.

A new one on the grand circuit, Hazel H. dropped the first heat in 2:04 1/4 and then beat him in 2:03 1/2.

Valentine is making a serviceable pacer out of Little Frank D., a recruit from the Ohio tracks, winning in 2:06 1/4 with him.

Worthy Volga, from S. A. Fletcher's stable, captured the first heat in 2:04 1/2, and the two-year-old trot.

SECOND RACE—The Cumberland, 2:06 pace, 3 in 5, \$2000. Miss Harris M., b.m. (McDonald) 1 1 1 1 1 1

THIRD RACE—Free-for-all pace, 2 in 5, \$2000. Single G., b.h. (Geers) 4 4 1 1 1 1

FOURTH RACE—2:05 trot, 2 in 5, \$1200. Ross B., b.g. (Wright) 1 1 1 1 1 1

PORCUPINE GRADUALLY FORGING AHEAD

Old Order of Fur Traders Has Given Place to New Era of Mining.

FORTUNES MADE

Early Prospectors Had Little Idea of What Future Held in Store.

From an Occasional Correspondent. Timmins, Oct. 11.—Seven years have passed since the Porcupine was staked, and very great advances have been made here since that time.

But the fur traders were not looking for the precious metal, and to Ben Hollinger belongs in a considerable degree the inauguration of the new era.

The writer has in mind a recent instance in which at least \$10,000 has been lost through neglected opportunity.

In going into the wilderness in 1899, Ned Timmins played a lone hand.

Work has been proceeding at the Success for the past 19 months, but so far nothing has been accomplished except the disproval of the theory of the engineer in charge that there are trunk and branch veins on that property.

Work has been proceeding at the Success for the past 19 months, but so far nothing has been accomplished except the disproval of the theory of the engineer in charge that there are trunk and branch veins on that property.

Table with 2 columns: Month and Ounces. Rows for January through September.

THREE SHIFTS PUSHING DAVIDSON CROSSCUT

Future Policy of Company Based on Development at Third Level.

Development work on the Davidson property is making rapid progress and is yielding results which go far to prove what has been contended for some time, viz., that the holding is showing up as one of the prospective big mines of the Porcupine camp.

The most important development under way is the running of the cross-cut toward the main vein on the 300-foot level.

Another important development is the sinking of a shaft on the new vein recently discovered on the south claim about 500 feet distant from the main shaft.

The shaft of the south claim, which will be known as shaft No. 2, is being sunk by contract, as labor conditions in the camp are such that development work at the present time. The management was able to make a very favorable contract on the basis of \$25.00 per foot of sinking, whereas a price of \$40 a foot would not be considered out of the way in view of the labor situation.

STEADY MARKET FOR PORCUPINE BONANZA.

R. E. Kemerer in his market letter says: One of the recent listings which has attracted considerable attention and which has been acting in a most satisfactory manner is Porcupine Bonanza.

TO ESTABLISH TRANSFER OFFICE

Owing to the increasing number of shareholders of Vacuum Gas Co. in Canada the company will establish a transfer office in Toronto as well as in New York.

Newray on the Broad Tape

New York, Oct. 11.—The broad tape of the New York ticker service, which distributes authentic news to the many financial firms here, had the following today:

TIMISK. ISSUES STRONG QUARTERLY STATEMENT

Bullion on Hand Shows Big Increase—Sinking Shaft to Contact. The third quarterly statement of the Timiskaming Mines, just issued to the shareholders, indicates the strong position this company is in.

HOLLINGER SHAFT IN McINTYRE ORE BODY

By Special Correspondent. Timmins, Oct. 11.—In the report recommending consolidation of the various properties now composing the Hollinger it was stated that the McIntyre has worked several veins up to where they pass from McIntyre ground into Acme ground, and while accurate figures cannot be given for this ore, we may conservatively make an allowance of 100,000 tons, having a gross value of \$750,000.

MOTIVE FOR ATTACKING BRAZILIAN TRACTION

Sir William Mackenzie Also Says Dividend Rumors Are a Surprise to Him. Sir William Mackenzie says: "I am surprised to hear that there have been rumors about the Brazilian Traction dividend. The story that a very large block of the stock had changed hands at 45 is without foundation."

PRICE OF SILVER

London, Oct. 11.—Bar silver is up 1-16d at 23 1/2d. Commercial bar silver is up 1/4 at 67 1/2c.

TRADERS WERE NERVOUS.

Heron & Co. had the following at the close: Montreal, Oct. 11.—Stocks were in a nervous state at the opening today, but later sold off in sympathy with lower New York prices.

McINTYRE MILLHEADS FOR OCTOBER HIGH

Underground Development Proves Area of Pay Ore Much Larger Than Expected.

By Special Correspondent. Timmins, Oct. 11.—McIntyre's production figures for last month will show, when the official statement for the quarter ended Sept. 30 appears, that the output was at least \$100,000 above August, which itself was a record period.

R. A. P. PROPERTY CLOSED

For Machinery Repairs. By Special Correspondent. Boston Creek, Oct. 11.—The R.A.P. Syndicate's property at Boston Creek was closed down last Thursday for permit of boiler repairs and installations.

MINING MEN

Between West Shining Tree Gold Camp and Nipigon (400 miles) several mining belts cross the west.

PURCHASES OF MERIT

The metal issues, wherein property conditions and company earnings practically assure a sharp and sustained advance, are dealt with at length in the columns of the Cobalt and Porcupine securities.

MINE STOCKS DULL PRICE CHANGES SMALL

Market Appears to Be Marking Time—Buying Power Lacking.

Dull trading with no weakness of any account shown, nor on the other hand, any rallies, describes in brief the mining stock market at the Standard Exchange yesterday.

Table with 2 columns: Stock Name and Price. Includes Porcupine, Dome Extension, Dome Lake, etc.

MARK HARRIS ON MINES AND MINING

Mining is rapidly coming into its own, and many investors that formerly preferred almost any kind of an investment in preference to mining are now placing their funds in metal stocks.

Many of the leading publications of this country and the United States were openly antagonistic to mining investments so late as five years ago, but today these same periodicals publish long articles giving details of the wonderful progress in this remarkable industry.

The chief factor in mining today is machinery, and as America leads the world in this line it is easy to understand how and why the mining industry has advanced in the past two decades until it occupies first rank, not only in volume of business, but as a safe and permanent investment.

Twenty years ago mining was a crude affair and few properties produced on a large scale. Low-grade properties were looked upon as white elephants, and many that are now rich, prosperous mines were abandoned in those days as practically worthless.

The two best mines in Canada are both low-grade milling propositions. I refer to the Dome and Hollinger of Porcupine, and I assure you will find both of these paying dividends long after some of the high-grades are gone and forgotten.

The ore in the NEWRAY, which I have recommended so strongly, is identical with that in the famous Hollinger, and as the NEWRAY has already uncovered three great big veins that run anywhere from 10 to 40 feet in width, it is reasonably certain the mine will be a big producer for many years to come.

This is very important from an investing standpoint, as it means a large tonnage and long life, providing the veins continue to depth.

In my own mind there is no question of this, as Porcupine is, without doubt, one of the few camps in the world where the ore has proven to great depth. The Hollinger has ore all the way down to the 1400-foot level, and the diamond drills have penetrated ore down to 2100 feet.

At the present moment the shaft is down 425 feet; therefore the management contemplate cutting these big veins first at 200 feet, then at 300 and 400 feet.

Manager Charlebois intends to start crosscutting to cut these veins at depth within a few days, and when this is accomplished he will start the mill, and NEWRAY will become a producer.

With the large bodies of low-grade ore that are now in sight, NEWRAY could start producing today, but the management prefer the economical way, as that will save stockholders thousands of dollars in unnecessary expense.

I advise the man who has never made a mining investment to purchase NEWRAY, for it will do more to convince him that mining is the safest and most profitable industry in the world than all the articles I could write in a lifetime.

Mark Harris

**NIPISSING SHARES
ADVANCE SHARPLY**

Additional Five Per Cent. Bonus
Meets With Great
Success.

SOUND INVESTMENT

Cash Assets Now Increased by
Four Hundred Thousand
Dollars.

In their market letter of this week, Plummer & Company say at the last meeting of the board of directors of the Nipissing Company, it was decided to distribute to shareholders, with the payment of the current quarterly dividend, a bonus of an additional 5 per cent, and following this announcement the shares advanced sharply to a price of \$9.00 per share, from which figure there was a natural reaction. The position of the Nipissing is undeniably strong, some \$400,000 having been added to its cash assets during the past nine months, and it is expected that the earnings of the company for the current year will be in excess of \$2,000,000, which increase in earnings will accrue principally from the increased price of silver and the added extraction which has resulted from the installation of the oil flotation process. The recent development work which has been presented by the management has resulted in the opening up of several new veins, from which shipments of high grade have already been made, and these veins have undoubtedly added largely to ore reserves of the company which were last estimated at 7,000,000 ounces.

The cash assets of the Nipissing Company for the past three quarters appear as follows:

March 30, July 1, Sept. 26,
Cash in bank \$ 898,527 \$1,073,966 \$1,218,838
Receivables 311,977 521,147 457,859
Ors and bullion 555,597 370,806 499,956
Total \$1,766,101 \$1,965,919 \$2,176,653

The August production of the company was 293,434 and shipment from the property amounted to 226,341.

We have long held that the Nipissing shares offered one of the soundest and most profitable investments in the whole mining field and we hold to the opinion that the shares are selling at a figure which is considerably below their real value. A price of \$10.00 per share for Nipissing is well within the mark and it is our opinion that the stock will sell at or above this figure in the very near future.

Hollinger: For the first time since the merger of the properties, which now comprises the Hollinger Consolidated, the company records earnings sufficient to meet the regular dividend requirements, and, of course, the slight question of the dividend as to the security of the dividend in fact that earnings are equal to the requirement is a matter of satisfaction. The stock exchange price of \$10.00, a decrease of \$1.02, standing at \$8.98 as against \$9.61 for the previous four weeks, and, at the same time, working costs were reduced to \$9.97, compared with \$11.05 during the previous period. The details of the statement are as follows:

Sept. 3, Aug. 11,
Gross profits \$221,548.80 \$220,357.00
Current expenses 596,736.13 687,154.00
Gold assets, estimated 487,434.29 399,920.00
Deficit 241,034.69 222,577.00
Working costs 182,061.96 164,130.00
Ore treated, tons 50,177.00 49,837.00
Running time - 90.47 p.c. 92.07 p.c.
Average value - 8.59 p.c. 9.61 p.c.

This company has, during its existence, of some five years, paid out dividends amounting to \$5,550,000, or 25 per cent of its original capital, a record which has seldom equalled by any gold mine and certainly not equaled by any quartz gold mine on the North American continent, and that the mine will, in the future, surpass even its own record may be taken as a foregone conclusion.

Porcupine Bonanza: One of the new holdings which has been attracting considerable attention because of the excellent market which has been made in the issue is the Porcupine Bonanza, which made its appearance on the stock exchange about 10 to 11 cents, and which subsequently advanced to a price of 16 cents. During the reaction which occurred about a week ago, the shares sagged slightly to about 14 cents, but stock was rapidly absorbed at around this figure and as a consequence, there was a further advance of the company's property situated immediately north of the Big Dome and about one-half mile from that property.

**BRAZILIAN DECLINE
IS DISAPPOINTING**

Theories Advanced for the Stock's
Further Weakness—Local
Market Generally Easier.

Another shake down among the Wall street stocks sent a further tremor thru the Toronto stock market yesterday and provoked some speculation and probably some short selling. The decline was not considered important, and the company's property situated immediately north of the Big Dome and about one-half mile from that property.

The speculative issues were all under selling pressure, and this, too, light, was sufficient under the circumstances to compel lower prices. Stocks are well taken on the declines, and a change in sentiment will probably witness a smart recovery, but it is not likely that this will be seen until the New York operators turn that market.

These Are Samples of The Excellent Values To-day at

SIMPSON'S

When Black is to Be Worn

Women will find, both in ready-to-wear clothing and in uncut materials, everything needed in dull blacks, of every grade, for full or partial mourning.

The New Black Millinery

Compromises dozens of New York and Paris models, together with a great variety of hats from our own workrooms, originations and adaptations from imported models.

From Paris

Handsome models from Mignan, Marqui Maurice, Rives and others.

From New York

Charming models from Bonital and Moorehead & Jardine.

Our Mourning Hat Dept.

has been enlarged to double its usual size for today, to accommodate the new hats.

The Use of White Crepe in edgings and facings is a feature, as well as the new and entirely different lines brought out so well in black. A very large variety of styles can be had at \$6.50, \$7.50, \$9.00 and \$10.00.

Women's Imported Dresses in Black Ranging From \$18.50 to \$35.00

Just received from New York are several distinctive styles in mourning dresses, many of them individual models; cut in the new straight or semi-fitting lines, with pleated, tunic or tucked skirts, and simple and novelty waists in box pleated and coatee effects; some with touches of crepe or fur; others with net vestee and transparent sleeves. Sizes 34 to 42. Prices \$18.50 to \$35.00.

The Women's Skirt Department

Offers an attractive model, made from black liberty satin; cut full with three rows of shirring and a loose-fitting yoke effect; cut in points, and finished with small self-covered buttons and a heading. All stock sizes. Very special value... 6.95

Heavy Dull Black Georgette Blouses

A becoming style in heavy silk Georgette, with open, convertible collar and dull black buttons; six 1/2-inch tucks each side of front, and double tucks at back; graceful sleeves and tucked cuffs. Sizes to 42 bust. Thursday... 7.50

Blouse of Dull Black Silk Crepe, a most exceptional weight, with French mourning crepe collar and cuffs, centre hemstitched panel, with nine tucks on each side. Thursday... 10.00

A Blouse Model in Perfect Taste is of dull, heavy Georgette, made up gracefully, the front falling from a hemstitched yoke. Collar and cuffs are of white French mourning crepe. Thursday... 10.50

Special Values in "Dull Black" Silks, Velvets and Dress Goods
