British Commander Refuses Passage of French Troops Through The British Zone

FRENCH CHIEF WILL NOW MAKE APPEAL TO LONDON

British Say Arrangement Would Make Position Untenable—French Occupy Seat of Stinnes Interest—Decands for Independent Westphalia and Rhineland.

DALHOUSIE MAY BE PERMANENT TROPHY OWNERS

Possibility That Maritime Title May Go by Default—Jeffries to Pay All His Creditors—N. S. Pitcher for Pirates.

Halifax, N. S., March 7.—Dalhousie may take the Maritime college title in hockey by default this year, and as this would be their third win of the Herald and Mail trophy it would become their property permanently.

Robert Forward, a young Nova Scotian, is the new recruit who is expected to reach Hot Springs, where the Pirates are in training, early next week.

His case was peculiar. The U. S. immigration authorities in the district in which he resided refused to permit him to cross the border under the act which forbids entrance to Canadian citizens under contract to work in this country, known as "contract labor."

Los Angeles, March 7.—James J. Jeffries, former world's heavyweight champion, who last week filed a voluntary petition in bankruptcy, in the U. S. district court here, declares his creditors will "all be satisfied, paid dollar for dollar."

It is maintained in some circles that Great Britain's admission to negotiations with Germany must be contingent upon her agreement to support the French in a demand for the fulfillment of Germany's reparations obligations.

It is pointed out that France, in the event of her winning her point with Germany, could hardly afford a recurrence of the conflicting Franco-British views.

However, it is not expected that the Germans intend to make overtures at present. The opinion in political circles is that Berlin will be ready to talk within three months.

STORM AND FLOOD DO GREAT DAMAGE IN FRENCH TOWNS

Situation Believed to be More Serious Than Floods of 1910

Parts of Town of Angors Already Cut Off—Loire Roads Impassable—Limoges Factories Disabled—Forest Fires Also.

Paris, March 7.—(Canadian Press, via Reuters).—From all parts of France come accounts of damages wrought by storm and flood. The provinces are suffering far more than Paris and it is feared that the situation in the Department of Maine-et-Loire will become still more critical than during the terrible floods of 1910 when the Maine River rose 20-22 feet above normal level.

The Loire River has already exceeded its high mark of 1910 and more than twenty roads in the Department of Loire are impassable and traffic is practically at a standstill.

Further outbreaks of forest fires in the mountains are reported, the flames being fanned by high winds. The Cher River is expected to reach its crest on Thursday without doing great damage in Paris, unless there are heavy rains meantime.

Paris, March 7.—The Seine continued to rise yesterday, but the upward trend of the water was slower than on Monday. The flow is expected to reach its crest on Thursday without doing great damage in Paris, unless there are heavy rains meantime.

Montreal, March 7.—A general movement will be made by produce men, packers and other dealers in similar lines, to protest to the Government against the proposed Government bill to amend and consolidate the various acts of parliament respecting live stock.

Montreal, March 7.—The steamer Haak arrived from Louisa here yesterday with seven men including the captain, of the schooner, A. B. Barreau, on board.

New York, March 7.—An epoch-making occurrence was reported in butter circles yesterday when a 532,000 pound cargo of creamy butter arrived from Auckland, N. Z.

New York market men announced that a fleet of butter carrying ships was now on the high seas with nearly ten million pounds of New Zealand butter destined for consumption in this country.

SECOND THOUGHTS ARE BEST

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "in a moment of undue exhilaration—no, sir, hooted had nothing to do with it—I blew a farewell kiss some days ago to the snowbanks. I thought they were going. I was not urging them to go, but felt that they were on their way. They fooled me. It was a false start. I am vexed at myself."

Dublin, March 7.—Fourteen prisoners escaped from Galway jail yesterday by rope ladders. No prominent leaders were among them. Twenty-five others were captured while attempting to escape.

Dublin, March 7.—Three officers and two men of the Free State troops were blown to pieces yesterday by a hidden trap mine connected with a Republican ammunition dump. The dump had been located by the troops near Knocknagall, County Kerry.

Dublin, March 7.—An official account of the fighting between Free State troops and irregulars near Cahirsiveen, County Kerry, Monday, shows there was a brisk encounter and that the casualties were heavier than first reported.

Dublin, March 7.—A land mine was exploded at the door of the income tax office here this morning, killing Detective Patrick Kelly and wrecking the office. Adjoining property, including the office of the National Railways' Union, was damaged.

Rome, March 7.—Monsignor Luzio, of the Sacred Congregation, according to the Vatican announcement, is proceeding at an early date to Ireland for special reasons and will be confidentially entrusted to report on the state of affairs in Ireland.

New York, March 7.—An epoch-making occurrence was reported in butter circles yesterday when a 532,000 pound cargo of creamy butter arrived from Auckland, N. Z.

London, March 7.—(Canadian Press).—The death occurred yesterday of Brig-Gen. Sir Owen Thomas, M. P., since 1918 for Anglesey. He was elected as an Independent in the general election of last year by a majority of 1,862. He was born in 1858. Sir Owen Thomas was an authority on agriculture and live stock and had one of the best stock farms in the Country. He served in the South African war and was mentioned in dispatches.

British Public Stirred Over Defeat of Third of The Bonar Law Ministry

Means Break in Solid Conservative Phalanx in Liverpool

Only Fifty-eight per Cent of Electorate at Polls, Due to Dissatisfaction Over the Housing Question—Result Considered a Great Blow at Government.

London, March 7.—The excitement aroused in the House of Commons and the political circles over the defeat of John Walter Hills, Financial Secretary to the Treasury, in a Parliamentary election today when the result became known through the newspapers.

Aside from the unprecedented defeat of three ministers in succession, only a few months after the new Government came into power, the significance of the breach in the solid Conservative phalanx of Liverpool impresses the public.

It is noteworthy that only 58 per cent of the electorate voted yesterday. This showing is generally attributed to a refusal to support a nominee of the government whose policy on the housing question and some other issues is held in profound disapproval by a faction of the Conservatives.

Another factor in Mr. Hills' defeat, according to some observers was the women's vote. There are more than 14,000 women electors in the constituency and it is among the women that the hostility toward the Government is generally manifest.

From whatever angle the result is viewed, Mr. Hills' defeat is regarded as a staggering blow at the Government eclipsing the result of the Mitcham and Wilsden by-elections in which Sir Arthur Griffith-Boscawen and Lieut-Col. G. F. Stanley, both members of the Government were defeated.

Edmonton, March 7.—Premier Greenfield and his cabinet colleagues on the treasury benches of the Government were voted down by a majority of the legislature yesterday for the first time since they assumed office.

MILITIA ESTIMATES BEFORE THE HOUSE

Move to Reduce the Amount for Annual Drill is Defeated

Criticism of Cadet Movement—Million and a Half for Canadian Navy—Call for Unemployment Relief—Cape Breton Strike Matter Mentioned.

Ottawa, March 7.—Hon. E. Lapointe, minister of marine and fisheries, announced in the House of Commons yesterday the main features of a treaty entered into last week with the U. S., providing for a close season for halibut.

The House went into committee of supply on the estimate of the Department of National Defence. Considerable argument was provoked by the item of \$1,050,000 for annual drill, and an amendment was moved to reduce the amount. The amendment was defeated, however, by a standing vote.

Cadet services, calling for an appropriation of \$450,000 were criticized by several members as apt to develop the military spirit in boys.

The item carried. Votes of \$300,000 for clothing and necessities, \$350,000 for engineer services and works, \$235,000 for pay of staff, \$5,250,000 for the permanent force and \$34,000 for the Royal Canadian Navy carried.

Canada's present naval policy is one of coast defence, declared Hon. G. P. Graham, minister of defence, when naval estimates were under consideration. The retirement of the Aurora, he said, had cost about \$70,000. The vessels at present in commission were two destroyers and four minesweepers. Each destroyer cost \$1,000,000 and each mine-sweeper, twenty-five men.

Senator Bradbury did not think the proposal showed any generosity on the part of France. Senators Turf, Dandurand, Todd and Beaudin were all strongly opposed to any criticism of the gift.

A resolution asking the Federal Government to take such steps as may be necessary to give effect to the undertaking of the government in the resolution agreed to at its conference held in September, 1922, and join with the Provincial Governments in assisting to deal with abnormal unemployment relief on the same basis as that followed during the winter of 1921-22 has been placed on the order paper of the Commons by J. S. Woodsworth, Labor member for Centre Winnipeg.

On an item for the permanent force, there was Conservative criticism of the (Continued on page 2, eighth column)

Doorn, March 7.—The relations between former Emperor William and his wife, Princess Hermine, are strained, according to information obtained from a member of the one-time emperor's entourage. This fact supposedly is the cause for the imminent departure of Hermine and her children for Silesia. The state of the health of the Princess and the raw climate of Holland, however, are being assigned as reasons for the intention to leave Doorn.

"FACE ON BARROOM FLOOR" NOT TIRADE AGAINST RUM, SAYS AUTHOR

New York, March 7.—"The Face on the Barroom Floor," the pathetic recitation that thrilled the hearts of another generation, was written as an admonition to rough and ready bartenders to go easy with the ragged stranger and not as a tirade against rum, according to the author, Hugh A. D'Arcy, today, at a party celebrating his 80th birthday. He nearly choked when it was pointed out that the recitation had been used by the prohibition crusaders for years and was popularly believed to have been written as an argument against rum.

"I hope it never helped prohibition," he snapped. "If I thought it had, I would jump into the Hudson."

STORM MAY PUT DAMPER ON HOUSE OPENING CEREMONY

Lieutenant Governor and Wife Take Up Residence at Queen Hotel—Preparation for Reception—Government Meets Tonight.

Fredericton, N. B., March 7.—A northeast storm which set in last night is said to put a damper on the ceremonial which will attend the opening of the N. B. Legislature, Thursday afternoon. There is a probability that the work of clearing the grounds at the Parliament Building will have to be done over if the storm continues. His Honor the Lieut.-Governor and Mrs. Todd, who arrived from St. Stephen Tuesday night, have taken their residence at the Queen Hotel for the session. Other members of the gubernatorial party who are expected from St. Stephen tonight are Mr. and Mrs. Aubrey Johnson, Col. and Mrs. I. Carleton Brown, Miss Winnifred Mills, Miss Grimshaw, Miss Scovell and Mrs. A. D. Wetmore. The latter is a resident of Montreal.

On the floor of the chamber at the House of Assembly at the opening, His Honor will be attended by R. S. Barber, Official Secretary, and Lieut.-Col. W. J. Osborne, A. D. C.

The Lieut.-Governor and his party will return to the Queen Hotel where a reception will be held. Receiving with Mrs. Todd will be Mrs. W. F. J. Veniot, of Bathurst, wife of the premier. The provincial government will meet tonight in final preparation for the session. Premier Veniot has been here since Monday night and Hon. J. E. Michaud, of Edmundton arrived this morning. Other members will arrive tonight.

ROMANCE IN GRAIN OF SALT. Boston, March 7.—There is a lot of romance wrapped up in a grain of salt. The Mills of New York, addressing the Eastern Association of Physics Teachers, told about it. "Common salt," he said, "the sodium chloride of the chemists, is made up of two atoms, one of sodium and one of chlorine. The sodium atom has one planetary electron too many to suit it. Chlorine, on the other hand, has one electron too few for its comfort. The two atoms meet, the physicist continued, and allow their ability to assert itself. 'So they join forces and become sodium chloride, and in their electrons arranged around it naturally, with the particular electron in question occupying a place of honor from which it could not well be spared. As stretched out until one edge would reach from New York to Cleveland. Then every foot along the way there would be a molecule, but no one could see it because there would be only a few tiny specks, each one of them only one one-hundredth thousandth of an inch across, and moving at a tremendous velocity.

FORECAST OF THE SPEECH FROM THRONE

No Pronouncement of Government's Policy re Grand Falls Development or Prohibition Expected.

(By Canadian Press.) Fredericton, N. B., March 7.—The speech from the throne at the opening of the Provincial Legislature here tomorrow, it was forecast today, will not make any definite pronouncement in respect to the Government's policy as to the development of the Grand Falls.

The matter, as well as that of general hydro electric development, will occupy a position of importance in the speech from the throne. It was also said today there will be no reference to the Government's policy in respect to the Prohibition Act and its enforcement. This, it was pointed out this morning, is accounted for by the fact that Premier Veniot, stated in his manifesto when he assumed office that a supreme effort to enforce the Prohibition Act would be made.

OBJECTS OF THE TRANSPORTATION ASSOCIATION

New Body, Formed Last Evening, Have Interest of Ports at Heart—Officers Elected.

A new organization with high ideals and one which is interested in doing much for the city and port sprang into being last night at a meeting in the Board of Trade rooms of those directly interested in transportation. There were present representatives of railway, steamship and express companies and commercial houses. Officers: J. N. Collins, of the C. N. R., president; John G. Burke, of the C. P. R., vice-president; E. S. Hansen, of Furness Withy & Co., secretary. The executive is composed of the above named officers in addition to C. Harold Scott, representing the steamship companies; John I. Lord, the railway; J. N. Wood, the express companies; and J. H. McIntyre, the commercial houses.

The objects of the club are the interchange of ideas and the study of questions of mutual interest to the members of the club, as well as to promote better acquaintance among the members of the club in transportation. The advancement of city and port will be among the first considerations of the association.

It was St. John Transportation Association and to hold meetings the first Tuesday in each month. The first meeting of the association is on Tuesday, March 13, at 8 p.m. in the Board of Trade rooms. The club will be entered in different lines of sport.

QUEBEC LUMBER CUT ABOVE NORMAL Quebec, Mar. 7.—(Canadian Press.)—Gustav C. Piche, chief forester of the province of Quebec, says the lumber cut in this province during the present winter would reach one billion feet, or about two million cords. The cut about this year was normal, he said, and measured up to the average cut attained during the past ten years, with the exception of the year 1922 when the cut was only about sixty per cent of this year.

POLICEMAN SHOT IN RUM GANG HUNT Cleveland, Mar. 7.—Patrolman John P. Saxton, was shot and probably fatally wounded late last night when he and two other officers were searching for a gang said to be wanted in connection with whiskey running activities. The man who did the shooting is said to be Joseph Rich, who police say, admitted he is wanted in New York on a charge of burglary.

ST. PATRICK'S DAY PLANS. A joint meeting of the A. O. H. No. 1 and members of the ladies' auxiliaries from the city proper, North End and Fairville was held in their hall in Union street last evening at which plans for the celebration of St. Patrick's day were considered. A number of suggestions were offered, but it was decided to defer action until another meeting next Tuesday evening.

The diplomatic correspondent of the London Telegraph writes that the Vatican is giving effect to its recently declared intention of establishing direct relations with Angola by sending to the Turkish capital a special envoy who is familiar with the Near East.

HUSBAND MAY BE HELD FOR MURDER

Body of a Woman, Badly Bruised, Found on Bed—Argument Over Moonshine Alleged.

(By Canadian Press.) Holyoke, Mass., Mar. 7.—Mrs. Mary Burk, 38 years of age, was found dead upon her bed last night, her body broken and bruised as the result of a brutal beating which, according to the police, was administered by her husband, Frank Burk, following an argument over the sale of moonshine whiskey, which was alleged to have been manufactured by the couple. The husband was arrested on a technical charge and held at headquarters. An autopsy indicated, the police assert, that the woman's ribs had been crushed in. It is expected that a charge of murder will be lodged against Burk.

SERVICE AT STONE CHURCH FOR LATE CANON KUHRING

A very impressive service was held at 9:30 o'clock this afternoon in St. John's (Stone) church in honor of Rev. Canon G. A. Kuhring, formerly rector of that church, whose funeral was held in St. Paul's, Toronto, this afternoon. The service here was made, in as far as possible, an exact parallel of that held in Toronto and took place at the same time.

The ceremony opened with the singing of the hymn, "Fight the Good Fight." This was followed by the first part of the Church of England funeral service, the responsive reading of Psalm 90, with Rev. A. W. Daniel, of Rothsay, leading. The collects were then read and a lesson from 1 Cor. 15:20-22. By Rev. Archdeacon A. H. Crowfoot. Another hymn, "Jesus, Lover of My Soul," was then sung. Rev. A. L. Fleming, present rector of the parish, read a telegram from Paul Kuhring, the late canon's eldest son, thanking the congregation for their kindness. Mr. Fleming also expressed the regrets of Bishop Richardson at his inability to be present. An address was given by Rual Dean Rev. W. H. Sampson, who was long a friend of Canon Kuhring. The hymn, "When on My Day of Life, the Night is Falling," was followed by the rest of the burial service and the people, standing, sang the "Nunc Dimittis." The "Last Post" was sounded by a bugler from the Great War Veterans' Association and the organ played the "Dead March in Saul."

INVESTIGATION  
LIKELY INTO DEATH  
OF SYDNEY MAN

Sydney, N. S., March 7.—The Attorney General's Department will probably be asked to investigate the death of Joseph MacDonnell, 21, who died at a Glace Bay Hospital yesterday from the effects of a beating received several days ago.

According to report a local man entered a store tended by Taylor and asked for tobacco. Taylor, told him to help himself from a pile behind the counter. MacDonnell, it is stated, saw the man slip several packages into his pocket, whereupon he charged him with theft. The reply is alleged to have been a blow in the face. It required three stitches to close the wound but no other ill effects appeared at the time.

Next day he became ill at home, and on Wednesday was taken to the hospital in a delirium. Doctors declared he had hemorrhage of the brain.

A store in the Market building recently occupied by T. & J. Manson has been leased to Arthur Henderson for three years at \$2,000 a year. This action was taken at yesterday's committee meeting. L. M. LeLachur appeared at the meeting and said that he had been promised the store by Commissioner Thornton. The commissioners said yesterday that he had told Mr. LeLachur that he would waive the refusal of the store, but that he would not come up to Mr. Henderson's price. He, the commissioner, considered he should get the best price possible for city property and on his motion the stand was leased to Mr. Henderson.

Y. M. C. A.  
WANTS \$8,500

On Wednesday, March 14, one hundred canvassers will cover the business district of the city with \$8,500 as their objective. They have been told that this amount must be obtained for the Y. M. C. A. must go on.

If this institution is to remain the great force that it is—a force that is building up the boys and young men of St. John, both bodily and mentally, it must have the sympathy and support of every business man in the city.

Think carefully what it would mean if St. John did not have a Y. M. C. A., a viewpoint, to our pleasure in life and to our success if we pass above a certain rank in the industrial organization which we call modern civilization.

Famous Old Recipe  
for Cough Syrup

Early and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap but it is no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any drugist, pour it into a 16-oz. bottle and add plain granulated sugar syrup to make 10 ounces. If you prefer, use clarified molasses, honey or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

"WILL TO LOAF"  
IS TAUGHT PUPILS  
Condemns Law Methods of  
Education as Harm-  
ing Children  
Praises German System—  
Engineer, Great Believer  
in Education, Lauds Industrial School.

New York, March 7.—A "will to loaf" is being developed in the minds of the American school children by law methods of teaching, according to Dwight T. Farnham, Consulting Industrial Engineer of New York City, who spoke before the Bureau of Education meeting recently at the Hotel McAlpin.

He compared the conditions existing in the industrial schools of Germany and France with those in the United States. The "will to work," he said was instilled in the German almost from the time he is born.

"The German boy is carefully watched," said Mr. Farnham. "He is given psycho-technical tests. It is evident that his mentality fits him to be a hewer of wood or a drawer of water. His education is confined to such subjects as will increase his manual dexterity. If he shows signs of intelligence he is transferred to classes which will fit him for a farmhand or clerical position. If he displays special ability he is sent to a technical school and trained to become a staff specialist or manager. France is doing the same thing.

"In America we train our youngsters to be ladies and gentlemen and instill the 'will to loaf' in them by sending them to the marriage of the school screen star's conception of 'This is life! America is a rich country and as long as we can afford to bring them up that way let's give them all we can. —Lord bless 'em! But some day we will have to educate children in such a way that their training will fit them directly for their life work, or we will have to follow the Ford plan of breaking down all work into such simple elements that untrained farmer boys and the gay youth of our cities can do the work of skilled mechanics.

"I am a great believer in general education. It adds to the breadth of our viewpoint, to our pleasure in life and to our success if we pass above a certain rank in the industrial organization which we call modern civilization. I doubt if we will have to adopt the expediency of France and Germany in this generation. But it is well to examine the competitive race—think ahead—think ahead—think ahead—we can without detriment to the souls or bodies of our race."

Twenty years of English in the public schools in place of some of the courses in advertising and selling were recommended to the Bureau of Education by Ralph S. Butler, advertising manager of the United States Rubber Company. Retail selling, according to Mr. Butler, can only be taught "on the job."

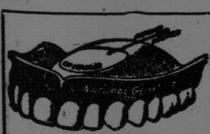

W. H. Lefingwell, president of the Lefingwell-Ream Company, commented in an address during the afternoon session upon the general lack of intelligence and interest of automatic, unthinking labor and suggested the plan of scientific management which contemplates and involves a general rise in the intelligence of all members of a business organization.

"There is no reason," said Mr. Lefingwell, "why an office boy should not understand the general principles of business, as well as the manager. No reason why a typist should be mentally limited to pounding the keys, no reason why a clerk should be a mere automaton—a human adding machine—no reason why a single member of any organization should not see what the universal purpose of the business is and how its parts work harmoniously together."

"Getting this broad, general view of the process even without mastery of any of the details would prevent that sense of bewilderment that soon develops into automatic, unthinking, mechanical effort on the part of our young people who are hustled into offices utterly untrained in any general perception of what business fundamentally is, and with nothing more than a mechanical education, such as exercising a typewriter."

AUTHORIZE BOND ISSUE

The Common Council yesterday authorized an expenditure of \$79,850.00 by the Clevelo Hydro Commission for the construction of ornamental and street lighting systems, the cost to be borne by bond issue. The vote was taken on an amendment proposed by Commissioner Thornton by which the cost per annum for street lighting will not exceed \$37,000 with a fixed number of lights. He explained his amendment by saying that other lights were added the city would know exactly what they would cost. R. A. McAvity, chairman of the commission, said that the work would be done by public tender.

Speaking of "Judeca Capta," Mr. Lasslow said: "My master sought, in this great painting, to offset some of the exaggerations that appear in Joseph's description of the triumph of Titus. I am proud to think that the man to whom I owe what ability I may possess lies in an unmarked, unknown grave. Some day it will be my privilege to cause to be erected a great mausoleum over his grave. And I have taken upon myself the obligation to raise his widow and daughters above

Tombs tell of  
The First Bread

The finding of Bread in the resplendent tomb of Tutankhamen—the ancient Egyptian King, whose burial home was unearthed last month and the finest ever to come to light—harks back to the baking of the first bread.

Again it is an Egyptian mausoleum that shows the earliest relics of the food of ages—six thousand five hundred years ago, the dawn of civilization in that parent land. The grain was crushed in crude sandstones and baked, sand and all in a funny mass.

A strange historic link with the supreme richness and delicacy of

V. O. NURSES HOLD ANNUAL MEETING

Hon. J. G. Forbes is Re-elected President—Decide to Sell Home in Carleton Street.

At the annual meeting of the Victoria Order of Nurses held yesterday afternoon in the Carleton street Home, Hon. J. G. Forbes was re-elected president of the board of directors.

Hon. J. G. Forbes, Commissioner John Bullock, E. L. Rising, L. W. Simms, Judge H. O. McFarney, Rev. Canon R. A. Armstrong, Mrs. George F. Smith, Mrs. M. B. Edwards, Mrs. David McLellan, Mrs. Mayes, Miss B. MacLaren and Mrs. Richard O'Brien, additional members are to be elected later.

During the year 12,184 visits were made by the nurses and 2,142 babies passed through the well baby clinic. During the year expenditures amounted to more than \$14,000 and there was a deficit of \$1,000. It was decided to give up the Carleton street Home and the nurses have secured a flat in Princess street.

Judge Forbes reported that the V. O. N. would receive a bequest of \$2,000 by the will of the late James Manchester, which sum would be placed in the capital account. A letter was read from Hon. Dr. W. E. Roberts urging the continuance of the work of the order in St. John and promising all support and assistance. A report was also presented by Miss D. E. Coates, superintendent of the nurses.

Officials Seek Way to Prevent Food Getting to Rum Row. New York, March 7.—Customs officials, citing the theory that rum fleets with all they have to drink, can't subsist without food, announced last week they would seek a treasury department ruling to prevent rum row from getting anything to eat.

LOCAL NEWS

Regarding a rumor yesterday that Miss Canada was to go to Calgary, W. H. Golding said she would not go on any long trips to a single point, and that any visits to a city at a distance would be made only as part of a tour.

The women's missionary society of the Central Baptist church met last evening at the residence of Mrs. I. M. Hoar, Hazen street, with Mrs. J. E. B. Herd in the chair. Several informal talks were given by outside members. Plans for future activities were drawn up and discussed.

The sum of \$1,010 was the amount collected from the anniversary service of the Knights of Pythias, which is ten dollars more than the objective. The money was forwarded to the treasurer of the New Brunswick Protestant Orphanage. The Pythian contribution is from the combined lodges in the city of St. John and district.

MOTHER'S DAY OBSERVED. At the Y. M. C. A. yesterday afternoon Mother's Day was observed with more than 300 mothers present. Members of the Ladies' Auxiliary were hostesses and Mrs. G. Wilford Campbell, the president, welcomed the mothers. A good programme was carried out. Tea was served in the reading room where the long table was handsomely decorated with tulips, daffodils and narcissus. Mrs. James Christie and Mrs. H. D. Frits presided at the table, and among those assisting with the service were Mrs. George Noble, Mrs. A. G. Gilmour, Mrs. J. H. Elton, Mrs. J. Fendrich, Mrs. R. E. Plumpton, Mrs. F. E. Welchley, Mrs. Cosman, Mrs. Leonard Lingley, Mrs. Holly Lingley, Mrs. Eustace Barnes, Mrs. Fred Gordon, Miss Alice E. Estey, Mrs. D. R. Willet, Mrs. T. H. Send Resolution of Sympathy.

A resolution of deepest regret and sympathy was extended to Mrs. G. A. Kuhring in her recent bereavement by the Diocesan Women's Association at its meeting yesterday afternoon. Mrs. Thomas Walker moved the resolution and spoke feelingly of the willingness

of the late Canon Kuhring to assist the W. A. Dr. Margaret Thurrott of the General Public Hospital staff spoke to the meeting on medical mission. Rev. Canon Armstrong gave the opening address. Several reports were submitted to the meeting in regard to activities of the W. A. The treasurer's report showed receipts of \$229.57 during the month, disbursements of \$80.82 and a balance on hand of \$848.48. Mrs. Heber

Vroom moved and Mrs. J. Roy Campbell seconded a vote of thanks to Dr. Thurrott.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Seth M. Humphrey Apohqui, N. B., announce the engagement of their only daughter Adeline Altes, to Stewart B. Kierstead of St. John, N. B. the marriage to take place in the near future.

elastic webbing at waist and back and full waist band, the boning in both Modarts and Gossards is guaranteed high-oiled steel, free from squeak and tightness, and with every respect for your figure ten years hence. Modarts, available here only, are for average, stout and slender lines—priced \$4.85 to \$10.85—the Canadian Gossards for average to stout, \$5.50 to \$8.50.

Remember They MUST Be Fitted

All previous measurements go by the board—you must start new and the only way to start safely is to be fitted, which costs nothing here for a specialist.

An average figure Corset by Gossard, shown in Pink Satin Brocade, has low bust and long hip and three inch elastic insert—\$7.50.

A straight hip Corset with medium bust and Cluney Lace edging, \$6.

A Modart designed for the average figure, requiring a medium low topped Corset with elastic webbing at the bust. An elastic insert also across the back, and made only in light weight materials, \$7.85.

Another for slender to average lines, has a waist band or rubber top, elastic band, about an inch above the waist, is carried all round. Sloping lines below waist, light boning and sufficient fullness to allow full freedom and comfort, \$7.25.

The same price applies to one for average to stout figures, modelled to give considerable room through diaphragm and bust. It is cut quite low at bust, under arm, shoulder and back. Back above waist is sufficiently full to allow for any surplus flesh through the shoulders. Flat below waist and rather short with elastic webbing across boning. Hips are average length and with plenty of room for a large figure, \$7.25.

One girdle for those who cultivate the uncorseted effect provides with light boning and materials, a support through abdomen and lower side back necessary to retain good figure lines. Plenty of freedom, topless and with elastic band encircling waist, \$4.85.

DANIEL CORNER KING

Line, Line, Grace of Line--Says the Tight Hip Front Lace Corset

The first thing for Spring—correctness in the Corset. Straighter line and even symmetry in a long waist and hip is the model of all modes for 1923. And since every one is front laced, infinite care is required in the choosing of every Corset. It is but asking for trouble not to have yours fitted—here the fittings are free, under the personal attention of Miss Christina O'Neill, honors graduate of both Modart and Gossard academies.

As you will see in the corner window, they all have the new elastic webbing at waist and back and full waist band, the boning in both Modarts and Gossards is guaranteed high-oiled steel, free from squeak and tightness, and with every respect for your figure ten years hence. Modarts, available here only, are for average, stout and slender lines—priced \$4.85 to \$10.85—the Canadian Gossards for average to stout, \$5.50 to \$8.50.

THE RIDDLE OF THE SPINNING WHEEL

Being An Exploit in the Career of Hamilton Cleek, Detective. By MARY E. AND THOMAS W. HANSHEW

(Continued from Yesterday) CHAPTER IV

No red light showed itself at Miss Duggan's window that night—though Cleek sat up until the soft fingers of the dawn were wreathing the sky with lavender veils and the face of the morning peeped through like some goddess stepped down from Olympus to smile upon her lesser fellows. And it was then, and then only, that he sought his bed and the comfort of cool sheets at last.

Dollops, knowing his plan, did not disturb him. And so it came about that the clock upon the mantel had chimed out ten before he opened an eye and looked about him, sleep still dimming his vision and making the unfamiliar room doubly strange. "What the—how the—Gad! if it isn't ten o'clock, and I've been sleeping like a noodle ever since dawn," he said, springing out of bed and donning dress-gown and slippers to have a first glimpse out of the window at that "fairy sight" which Mr. Fairbairn had promised him with his cup of tea. "Well, she is a beauty and no mistake! Good morning to you, fair Palace of the Mists. What secrets are locked away in your breast this morning, I wonder? Well, the night has passed tranquilly enough to be sure, and that poor girl's terrors are stilled for the present twelve hours, at any rate. I'll call there after breakfast and scrape acquaintance with the lot of 'em, and judge if Mr. Robert Fairbairn is as good an observer as he is a talker."

And directly after breakfast that was exactly what he did do. Dollops, armed with fishing-tackle and rods, received his marching orders in full sight and the sound of the inn's proprietor, knowing full well that within five minutes of that time all that he had said and done would be ablaze over the village, if he knew aught of that garrulous tongue of his.

"Be off with you, Dollops, and have a look at the river," said Cleek from the shelter of the open door-way, as Dollops wended his way slowly down the path to the wicket-gate which led to the road. "And see what fish are in these waters. And if you don't come home with a twenty-pounder, you're no angler, my lad!"

Dollops nodded and winked. "Right you are, sir. As Mr. Asquith says, better wait and see." And if I don't bring 'ome a twenty-pounder, I'll bring 'ome a fair dabbler for eels every time."

"Sounds more like box constrictors than Highland rivers and fish and modest eels," retorted Cleek, laugh-

ing heartily. "And I'm paying a call at the Castle and making my respects to Miss Duggan. So if you've not back for lunch, Dollops, don't fancy dreadful things and imagine I've been consumed by the ghost-lady who haunts those lovely turrets and towers, but come home and wait for me."

Dollops stopped in his tracks and sucked in his breath hard, and the freckled brown of his Cockney countenance took on a queer drabblish shade. He came back again along the path and stopped in front of his master's mouth hanging open, eyes wide.

"Ghosts, sir! Did I see you use the word 'ghosts'?" he ejaculated with a perceptible shiver. "Br-r-r! I don't mind dealin' wiv any kind of 'uman regular goner! You ain't askin' me ter meet the lidy, are yer, sir?"

"Not yet, my boy," returned Cleek, with a laugh and a shake of the head. "So you needn't worry yourself about that. And if I do ask, you may be sure I'll be asking nothing that I would not get along with you, and don't bother your head. When I want you to call, I'll come, too. You can count upon that."

"Well, so long as I don't 'ave to call alone I doesn't mind so much," retorted Dollops. Then, swinging round in his tracks, he went off down the path-way, whistling that very hackneyed but popular tune, "Pack Up Your Troubles in Your Ole Kit-Bag and Smile, Smile, Smile!" While Cleek, watching him for a moment, felt a sudden warmth of feeling toward the rough-mannered but warm-hearted youth who had followed him—wily-nilly—ever since the day when Cleek had made himself responsible for the boy's safety.

A leisurely cigarette smoked in company with the worthy host, and then Cleek took up his soft "squash" hat, seized hold of his blackhorn stick, and with a nod and a smile to Mr. Fair- o'clock, and I've been sleeping like a noodle ever since dawn," he said, springing out of bed and donning dress-gown and slippers to have a first glimpse out of the window at that "fairy sight" which Mr. Fairbairn had promised him with his cup of tea. "Well, she is a beauty and no mistake! Good morning to you, fair Palace of the Mists. What secrets are locked away in your breast this morning, I wonder? Well, the night has passed tranquilly enough to be sure, and that poor girl's terrors are stilled for the present twelve hours, at any rate. walking was at times difficult. Half-way there, as Cleek turned the corner of a little ravine and came out upon a full view of the valley, with the Inn of the Three Fishers to the left and the Castle to the right, he heard more of the din—awfully fond of it and that sort of thing—and promised to call whenever I was out this way. I'm right, am I not?" Cleek liked the

photography's frightfully deceptive—what? Friend of mine—a Miss Duggan—Miss Maud Duggan, I think the name is—lives there, doesn't she? happened to come up here yesterday for the dinner—awfully fond of it and that sort of thing—and promised to call whenever I was out this way. I'm right, am I not?" Cleek liked the

deep, ringing voice which answered him, as he liked the almond blue eyes that travelled so rapidly over his tweeds. Liked, too, the hard, grim mouth which broke into such a charming smile, transfiguring the whole face as though a light had been set behind it. "And Miss Duggan does live here. You're keen on fishing, I take it. Well, so am I. It's a man's sport, and there's few Scotsmen who don't like it. My name's Tavish—James Tavish—and I'm agent for Sir Andrew Duggan's estate. We'll possibly meet each other up the river some time, for I spend most of my spare time there."

"Thanks. I'd like it immensely. Fishing's a lonesome game alone. And though I've brought my man wiv me, and he's a dab hand with the tackle, one gets a bit bored sometimes. I'll probably see you up at the Castle, Mr. Tavish, and we'll improve our acquaintance. Many thanks for your courtesy."

So saying, Cleek passed on up the rough road, while the little chestnut mare rode so magnificently, and went galloping off up the incline, making a fine picture against the rugged scenery of which he seemed such an inseparable part.

Cleek reached the Castle gates at last, rang the jangle bell, and waited while the lodge-keeper unfastened them for him and inquired his name, went with him up the long sweep of gravelled driveway with its bordering yew and young pine trees lending an air of picturesque gloom to the place even upon that bright morning. And having reached the great oaken front door—a monstrous affair scarred by the ruthless hand of Time as much as by the mailed fists which must have thudded upon it in far-off days, or by the spears of the bell, and waited while the jangling echoes of his noise died away into silence before his summons was answered.

At length the door opened. He caught a glimpse of a dim interior, lofty as a church and dark with the panellings of oak oak which flanked it upon all four sides, and then gave his name to the pompous old butler, and was taken into a little ante-room redolent of age—that motley, curtained and still more rarely used—within a moment or two Miss Duggan was standing there before him.

"Mr. Deland! How good of you to have come so soon—how very good!" she said warmly, extending a hand to him in greeting. "You must surely stay and lunch with us, now that you have come all this distance. And I want you to meet my father."

Her voice dropped a tone or two. "Paula is with him now, going over the house-keeping accounts—it is a daily matter upon which he is very insistent. Ross is in the laboratory, tinkering over something to do with the lights, but he'll be out in a minute. I told him I had met you on the train, and that we had got into conversation and found

we were congenial friends through Ailsa Lorne. You know her well, don't you, Mr. Deland?" He smiled, and for a moment his eyes softened. "Rather well, I fancy, as she has consented some day to throw in her lot with me and marry," he returned in a happy, low-pitched voice. "And that is why any friend of hers, you know, must be a friend of mine as well. I'd live very much to have a look at the Castle, if I might be so permitted. Architecture interests me immensely. It's a hobby of mine. And this is surely one of the grandest old stately homes that Scotland possesses!" (To be Continued)

FIFTY PER CENT UNFIT FOR COLLEGE. Commission Reports on Intelligence Tests in High Schools—Girls Make a Poorer Showing Than the Boys. (Boston Herald) Intelligence tests given to 9,333 pupils in the senior classes of Massachusetts public schools during the present school year revealed that forty per cent. of the boys and nearly 60 per cent. of the girls were poor college material, according to the special commission on higher education appointed by Gov. Cox. In the survey it was found that the psychological ratings of the girls were

A somewhat lower average intelligence among the girls in the senior classes of public high schools in this state than among the boy students was indicated by the tests. However, the commission found that it is probable that as a rule more girls of a given mental ability will succeed in school and in college, than will boys of the same ability, because the former usually show greater seriousness in their studies and a greater willingness to work at tasks they do not find agreeable. Hence, the commission declares, it is quite likely that less girls are bad college risks than the figures seem to indicate. Members of the commission are President Lemuel H. Murlin of Boston Uni-

REV. F.S. DOWLING'S CALL DEALT WITH

Annual Meeting of the St. John Presbytery Concluded Yesterday—Reports of Committees Submitted.

The annual meeting of the Presbytery of St. John was concluded yesterday afternoon in St. Andrew's church and the session adjourned to meet again in June.

The election of commissioners to the General Assembly was the first business of the afternoon session. Six ministers elected were: J. V. Morash, Sussex; Rev. W. J. Bevis, Lorneville; Rev. J. A. Ramsay, of Moncton; Rev. James Ross, Halifax; Rev. J. S. Sutherland, Fredericton, and Rev. W. W. Malcolm, St. Stephen.

The elders elected were Hon. J. G. Forbes, A. F. Bentley, C. S. Everett, L. H. Somerville, Dr. Murray MacLaren and H. A. Jamieson, the clerk to choose alternates from the ballot.

ing list, selecting those next in order. Rev. Dr. William Farquharson was invited to sit with the court.

The call from St. Andrew's church, Sydney, to Rev. F. S. Dowling was next dealt with. J. H. Hamilton, J. A. MacKay, C. B. Allan, E. Atherton, Smith, John H. Murphy and Alexander Wilson appeared to represent St. Andrew's church, St. John.

The Presbytery of Sydney wrote that the call, which was unanimous, had been signed by 522 communicants and 829 adherents. Mr. Dowling was to receive a stipend of \$3,000 with a manse and was to be colleague and successor to Rev. Dr. John Pringle. There were seven Sunday schools in the care of St. Andrew's church at Sydney.

Rev. Hugh Miller represented the Sydney church. Hon. J. G. Forbes said that there had been great harmony in St. Andrew's church during the time of Mr. Dowling's ministry and they would regret his leaving. Similar sentiments were expressed by J. H. Murphy, Alexander Wilson, J. H. Hamilton, Mr. McKay, C. B. Allan and E. Atherton Smith. The call was placed in the hands of Mr. Dowling, who said he felt it his duty to accept and asked that he be allowed to make the transfer at the end of the month.

The moderator accepted Mr. Dowling's choice, granting the translation. Rev. Hugh Miller was appointed to be moderator of St. Andrew's church to moderate a call to another minister. There were many expressions of regret at Mr. Dowling's departure.

Mr. Ramsay of the general interest committee read a letter from the General Board on the matter of finances. The letter pointed out 1922 receipts were not equal to expenditures. Deficits would probably be larger. In 1922 the special overage was \$148,100 and in spite of an endeavor to raise stipends budget givings were greater. This was the only encouraging note in the letter.

In 1923 to carry on the work as it had been last year \$1,600,000 would be required. Only \$1,415,000 had been authorized as estimates and this would mean reduction of effort.

The deficit of more than \$200,000 would have to be attended to and \$1,600,000 would be needed. The average budget in other years had been \$1,300,000 and this implied an endeavor to raise an additional \$300,000. The way to do this was for each Presbytery and congregation to fill its budget allocation.

Peter Campbell was appointed treasurer and on motion it was decided that allocations to Presbytery funds should be paid by May 1, or no grant for expenses made. Rev. Mr. Malcolm was appointed secretary.

Rev. Mr. Dowling reported as Librarian. Rev. A. V. Morash was appointed to be in charge of the Ralph Clark Memorial Bursary Fund.

Rev. William Fraser presented the slate of standing committees, and these were adopted as follows: Religious Education—Ministers, Rev. W. A. Ross, Rev. William Swan, Rev. E. Y. Lewis, Rev. W. W. Malcolm, Rev. W. J. Bevis, Rev. A. Wood, Rev. P. Jackson, Rev. J. Hardwick, laymen, Robert Reid, M. A. Halton, T. Baker, H. P. Craig, T. A. Baird, James Miller, W. B. Brown, W. H. Sinclair.

Records—Ministers, Rev. A. F. Fisher, Rev. J. Hardwick, Rev. G. F. Sears and Rev. E. J. Kerr; laymen, R. Campbell, J. Jamieson, C. Campbell, W. F. Olmstead, Thomas Graham, W. H. Murray and M. E. Eikhart.

Finance—Ministers, Rev. Dr. Sutherland, Rev. S. R. Price and Rev. W. H. Spencer; laymen, Peter Campbell and Alexander Wilson.

Supply and Statistics—Ministers, Moderator and clerk; laymen, C. S. Everett and L. H. Somerville.

Business—Moderator, clerk and conveners of committees. General Interests—Ministers, Rev. J. A. Ramsay, Rev. Dr. Sutherland and Rev. F. S. Dowling, Rev. H. Miller, Rev. G. R. Price, Rev. A. V. Morash, the Moderator, clerk and conveners of committees; laymen, Colonel Murray MacLaren, T. H. Somerville, A. F. Bentley, T. R. Speedy, J. Thompson, H. S. Campbell and Duncan Fraser.

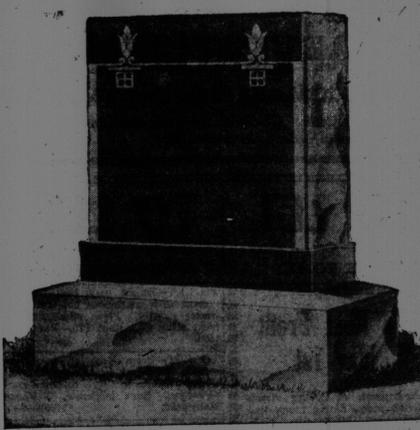

Home Missions—Ministers, Rev. W. M. Townsend, Rev. Dr. James Ross, Rev. F. S. Dowling, Rev. H. Miller, Rev. R. Moorhead Legate, Rev. W. H. Fringie, Rev. W. W. Malcolm, Rev. J. A. Ramsay and Rev. A. Sutherland; laymen, Hon. J. G. Forbes, C. S. Everett, Colonel Murray MacLaren, Dr. G. G. Corbet, G. Boulter, D. Evans, O. Cameron and A. F. Bentley.

Foreign Missions—Ministers, Rev. W. M. Fraser, Rev. R. Moorhead Legate, Rev. H. Miller, Rev. D. F. Marshall, Rev. D. F. Marshall, Rev. A. J. W. Bark, Rev. W. J. Bevis, Rev. J. H. MacLaren, Rev. G. F. Sears, Rev. R. J. Miller; laymen, O. Cameron, D. Campbell, W. C. Elliott, J. J. Galbraith, W. M. Walker and William McHarg.

The application of Rev. W. Ross, retired minister of British Columbia, to be given a summer mission station was referred to the home mission committee. The Brandon Presbytery sent word that William Scott had resigned as a minister of the Presbyterian Church.

Rev. Mr. Swan gave notice of motion that the fall meeting of the Presbytery should be held in October rather than September.

The meeting recommended that the Home Mission Board grant applications for a grant and loan to St. David's

congregation for building purposes and to the church at St. George for repairs. In view of the fact that the Maritime Synod meets in St. Andrew's church, St. John, in October, it was agreed that the local ministers and representative elders should be the nucleus of a committee to arrange for the coming meeting.

The session at Grand Falls was instructed not to sell any further lots. Rev. W. A. Ross read the Sunday school report for the year, telling of 180 schools with 665 teachers and an enrollment of 4,908. He introduced Miss May Gemmill, Presbyterian national work secretary. Miss Gemmill gave a short talk on the C. G. I. T. programme.

Rev. Dr. Sutherland said that the November thank-offering had been a failure and he would not recommend another special appeal. Dr. Sutherland read the report of the statistical committee giving figures for the past year. He said that only three congregations had reported and urged that an improvement be made for next year. There were many changes, both favorable and unfavorable, from last year.

MAYOR FISHER PRESENTS REPORT Says Building Inspector is Not a Safe Man to Have in Charge of Inspection of Buildings—The Matter in Commissioner Thornton's Hands.

At yesterday afternoon's meeting of the Common Council Mayor Fisher presented a report on the matter of the refusal of the building inspector to grant a permit for repairs to his building in Charlotte street. It was as follows:

I beg to report: (1) That in compliance with the expressed wish of the council an application was made in writing on 2nd inst. to the building inspector for a permit to repair the building at 96 Charlotte street, and the application, as was the case with the preceding ones, has been refused.

(2) That the building inspector, in refusing to issue the permit, is continuing to act in direct opposition to the legal advice given to him in writing by the city solicitor, advice from whom is constantly being accepted by the members of the council in their departmental affairs.

(3) That the building inspector has by his present action, shown that he is not a safe man to have charge of the inspection of buildings.

My recommendation is that this report be referred to the Commissioner of Safety with a request to consider same and to report at the meeting of the Council in committee on Thursday next.

This recommendation carried and Commissioner Thornton will report on the matter.

COMMON COUNCIL MEETING Considerable routine business was transacted yesterday at the Common Council meeting. Commissioner Wigmore was given authority to buy one Venturi meter and one register for renewal work at the header at Little River, the cost not to exceed \$4,070. On motion of Commissioner Frink the Mayor was requested to table all the correspondence in the matter of the paving of that part of Douglas avenue concerned in the dispute between the provincial government and the C. P. R. with reference to the height of the new bridge. A letter was received from the executive of the Kindergarten Association referring the charges of misrepresentation and mismanagement made recently by Mrs. J. W. V. Law. The letter will be acknowledged and filed.

INTERESTING FACTS ABOUT NOVA SCOTIA

Settlers Arriving Last Year—Tourist Travel—Operation of Housing Act.

A report brought down in the Nova Scotia Legislature says:—The number of settlers entering Nova Scotia during the year was 1,654. The bulk of these, namely 1,087, came from other British possessions and 864 from U. S. A. It is shown that the principal decline in immigration to this Province compared with pre-war days is due to the stoppage of the flow from foreign countries. Immigration from the British Isles has remained fairly steady.

The settlers of whom the Department has particular information number 484. The majority of these came from the British Isles, with a few from Holland, Norway, Sweden and Denmark, and are classed as farmers, farm laborers and domestics.

It is difficult to secure information as to the resources of each settler. Three hundred newcomers disclosed capital to the extent of \$127,870, and the total capital brought in by settlers is conservatively estimated at \$220,000.

Under present conditions it is essential to have a situation ready for every settler coming to Nova Scotia. The difficulty is that farmers generally do not feel they can give advance notice

of their requirements. There were 482 placements made in farming districts. Progress has been made towards obtaining a complete survey of the resources of Nova Scotia. During the past summer a survey was made of a tract of land in Digby County, which was thought might be settled by a class of settler content to pioneer. The report is not yet available.

The increase of our tourist trade is engaging the attention of the Department. An up-to-date motorist map is in the course of preparation, and the expenditure of an advertising campaign being laid. The establishment of a National Park is related to the subject of tourists.

During the year the Housing Act was adopted by Middleton Hanport and brought into operation in Sydney and Glace Bay. Further allocations of Housing money have been made totaling \$419,000, making the total to September 30th, 1922, \$1,267,460. Up to that date 308 houses were erected in the Province, with the average loan thereon ranging from \$3,100 to \$3,858.

For the fiscal year the administration of the Housing Act involved an expenditure of \$547,448.50, making a total of \$1,122,881. Collections made by the Department from Commissions totaled \$86,880.92.

ADMITS KILLING WOMAN. Prisoner Says He Tried Christian Science to Cure His Worry. Wildwood, N. J., March 7.—Frederick Ellinger, former telephone lineman, who is alleged to have shot and killed Mrs. Emma McKewen as she was nursing her baby at her home, at 148 Schellenger Avenue, was held on a charge of murder this week. Detective Unfreed said that Ellinger, who was a former boarder in the McKewen home, had told him that he was in love with Mrs. McKewen. He admitted shooting her, when he was arrested yesterday, to the police said. The detective said that Ellinger told him the matter had been preying on his mind for six weeks, during which time he had gone to a Christian Science church in an effort to get cured of the worry and nervousness.

Not yet five years old, Jackie Ott, of Miami, Florida, has a chest expansion of 2 1/2 inches.

NEW INDUSTRY IN SCOTLAND. Shipyards Are Now Occupied Breaking Up Former Great Warships.

Scotland has a new industry. It is ship-breaking. The great shipyards which built the mighty British battle-ships are now busy demolishing the same ships—some of which took part in the North Sea fights in the World War—and preparing their steel hulks for the melting pot, after which they will be turned into plowshares or some other instruments of peace. The fate of the ships was determined at the Washington Conference on Limitation of Armaments, and it is providing work for hundreds of men at Rosyth, Alloa, Granton, Inverkeithing and BoNESS.

Perhaps the most interesting of the warships to be demolished is the old Dreadnaught. This great battleship was launched in 1906 heralded the world race in armaments, is ending its days in Inverkeithing Bay. It has been purchased for scrap, but as the present owners have to enlarge their plant, the actual work of tearing her to pieces has had to be delayed.

SPRIT OF EAST WELL PORTRAYED

Opera House Show, "East is West," Well Received by Large Audiences.

When a company essays to present an oriental play, it accepts a task which is far from being a sinecure. There is something about Chinese or Japanese productions which calls for the most careful treatment, the one of two things results—either the play goes flat, or, equally as disastrous, the performance is a whitewash of propriety and becomes a burlesque.

Confirmed theatre-goers, when it was announced that the James F. Carroll Players intended to produce "East is West" became skeptical, but those who were fortunate in attending the three performances at the Opera House on Monday and Tuesday last, are of the opinion that "East is West" is one of the most delightful and satisfying Eastern plays ever presented to local audiences.

The story, which is a good, healthy, interesting-to-the-last one, was worked out with a finish by the talented cast, in a manner that met with approval on all sides. Particularly well handled were the roles which call for Chinese fanaticism, and a white of teeth, piquant humor of the east was lost in the rendition.

As last week, Miss Lillian Foster was cast in a part which demanded an extremely clever handling, in the role of the Chinese girl, she was as much as in evidence, and her performance a life-like reality which made one forget that she was an artificial person for the time being.

The flexibility of her portrayal was remarkable, from heights of truly dramatic situations she can drop to the most compelling of pitiful lines with such ease and grace that the tear of sympathy becomes in a trice the twinkle of amusement.

Her friends—and she adds to the list the days go by—were pleased to note that the injury which last week interfered with her getting about as easily, was apparently improving.

Opposite Miss Foster was Frank McHugh who gave another finished performance as Billy Benson, Mr. McHugh has established an enviable reputation in juvenile leads, and his characterization of Billy gave him ample opportunity to demonstrate his ability.

Leslie Adams, the leading man of the company, in the part of Lo Sang Kee, foster-father of Ming Tug, got everything out of the part that was humanely possible. But it was evident that he is worthy of better roles, and this is promised for next week, when the Company will stage Scandal.

Jerry O'Day's portrayal of the character of Charlie Yang, cunning Americanized Chinese, was one of the high points of the performance. Thoroughly liked by his audience, he handled his part in such a manner as to elicit loud applause in spite of its dislike for the character.

Charles H. Stevens and Doris Kelton, as Mr. and Mrs. Benson, and Sylvia Farnese, as Mildred Benson, were good in parts which, though minor, called for careful handling. Maurice Clark, tobacco habit seems to have been greatly stimulated since the beginning of the war period, as the total value of tobacco in foreign exports to the United States in the eight years since 1914 is \$1,826,000,000, against \$78,000,000 in the eight years immediately preceding the war.

IRON, STEEL, METAL AND MACHINERY

In its summary of the iron, steel, metal and machinery markets, Canadian Machinery and Manufacturing News, Toronto, makes the following comment in its March 1st issue:—

Having scored advances in practically every department within the past few weeks, the steel market may be said to be in a condition of nervous suspense. This means that the forward price movement has hardly reached its limit. There are daily reports of this, that, or the other commodity comes along, consistent alignment. One expert manner employing the best of art work, the most effective colors, the best printing and quality of paper. This incident might be done only in a very expert manner, employing the best of art work, the most effective colors, the best printing and quality of paper.

Another sign which has never failed as an index to better things is the strength of the market in old materials, or scrap metal. This has been turned back for some time, but with the turn of the year some revival in strength appeared. The demand has become more definite with supplies of certain grades holding for higher quotations. During the past two weeks the steel market has been such as to warrant higher prices from the dealer. These will undoubtedly bring out much material that has been held against just such a turn. Advances range from fifty cents to \$1 per ton, with non-ferrous metals.

It is impossible to overlook the fact that mill deliveries on imported lines are likely to be a problem. The Steel Corporation and, in fact, some of the independents, will not, it is said, look at a new booking that calls for delivery at less than five months. Some high premium for being asked for deliveries at two or three months. Cases are known where as high as 2.60 to 2.70 was asked on bars and angles on a Toronto laid-down figure at around 3.65. Today the warehouses who may be said to be fairly well covered are advancing their base 3.50 to 3.60, and while this may not represent stability in the Canadian market, it may be taken for granted that, on the average, the base will undoubtedly be higher.

Present conditions cannot but be welcome to those warehouses who have carried over any considerable amount of stock from 1920, when the base was 3.90 to 4.25 and bars went as high as 5.25. Since 1920, a very considerable amount of this high-priced stock has moved out; in fact, some of it is said to have been marketed at one-half the 1920 figure, or at least 1.00 less than the base price of that time. Whether the present market will move upward to those levels is very doubtful. The inclination of buyers is to look for a break. The appearance of order books would indicate that this, too, is doubtful. On the one hand it can hardly be said that the mills want a runaway market, because of its after effects, and on the other hand it does not appear safe, on the part of the buyer, to adopt an over-conservative attitude. He is likely to be caught short in his requirements.

Sheets are also moving toward a scarcity. Especially may this be said of imported American mills are practically out of the market for second quarter business and he is a fortunate buyer who has his needs covered for any quarter. The motor car industry has made a nice run on pickled sheets, and other materials required for that industry. While prices are showing an official advance, the standing quotations are regarded as nominal only.

Machine tool manufacturers report that the past two months make showing that is well in advance of the same period last year. Advancing materials, high cost of labor, high overhead, and tax problems cannot, however, be reconciled with the demand of the buyer for much lower prices. In the past three years machine tools have been reduced 20 to 25 per cent, but at the present time production levels are higher. Advances of 10 per cent, that have been made during the past six months do not take care of the upswing and it would not be surprising to see, at an early date, machine tools showing an early 10 per cent increase in price. Railway and general industrial demand is materially better than it has been for the past year.

Winnipeg, March 7.—Compulsory wheat marketing will be provided for under the legislation to be introduced by the Manitoba Government, Premier Bracken announced in the Legislature yesterday.

Missouri has the reputation of starting things. Charles Z. Coffin, manager of the Merchants' Association of Kansas City, has written a letter to Fred M. Lee, president of the organization, urging a national campaign to promote morning shopping in retail stores.

Realizing that this problem affects merchants all over the country, Mr. Coffin is sending out his letter to merchants associations in the hope of eliciting their support in the movement.

His letter reads as follows:— "Our Kansas City stores, like most all stores throughout the country, are daily without customers in any considerable quantity during the first two hours of each business day. This condition exists throughout the four seasons of every year. From 9 a. m. until 11 a. m. salespeople are idle; still in the store, but doing nothing. This is a waste of time and money. It is my belief that this store abuse is very well known to all merchants everywhere, also to all merchants' associations, but as far as we know little effective work has ever been done either by individual stores or by any association would be for the evil and to entice people to shop at stagger hours commencing early each business day.

Another sign which has never failed as an index to better things is the strength of the market in old materials, or scrap metal. LEVIATHAN TO BE FASTEST SHIP

Liner Reconstructed to Its Former Grandeur—Kaiser's Suite of Eight Rooms Restored.

Newport News, Va., March 6.—The Leviathan, second largest ship afloat and the largest flying the American flag, which has been reconditioned at a cost of \$8,500,000 will sail from the shipyard of the Newport News Shipbuilding & Drydock Company here about May 1 as the fastest, safest and most luxurious steamer in the world.

The Leviathan was originally designed as a 25 knot boat, Admiral Benson said. "We have improved on that speed. I confidently expect she will beat anything else."

2,900 Men Did Work. In the past months 2,900 artisans have completed one of the most difficult jobs in the history of American shipbuilding.

making of some of the difficulties had to be surmounted. Homer Ferguson, president of the shipyard, said:

"Our job on the interior of the Leviathan in most instances was to reconstruct what had been destroyed or lost. Hand carved pillars, fixtures of unusual design, stained glass windows of rare quality, carved woodwork, the product of German skill and manufacture, had to be procured."

"Every mirror in the steamer, and there are thousands of them, has been scratched. We had to canvass hundreds of factories to get the kind of glass that had been used originally."

The biggest job was the re-arranging of 10,000 tons of oil in the bottom of the ship to make provisions for carrying 10,000 tons of oil and 2,000 tons of water, since the Leviathan has been converted to an oil burner. The total gross tonnage of the vessel is now 70,000, as compared with the Mauretania's 60,000.

Will Carry 3,859 Passengers. Accommodations have been provided for 3,859 passengers, divided into four classes, and a crew of 1,100. The second class state rooms and social rooms, in the opinion of several shipping men, are comparable with the first class accommodations on the coastwise vessels.

The so-called "ballroom" of the Leviathan, on a deck used by many American officers of high rank, during the war, has been restored to its pristine grandeur. Blazing glass windows has been removed, windows with state seals taken their place.

Mr. Ferguson told of discovering evidence that Germany had built the vessel with an idea of war time requirements. He said that in tearing down the stage in the ballroom, which had been irreparably ruined by spiked shoes, he found a drainage for an operating room, with other indications that it had been planned to use the ballroom as a hospital in war time.

Features of the Leviathan, which pool, entirely reconstructed in green tiling, with Russian and Turkish bath rooms along the gallery; a dog house on the top deck for 50 pets, a flower shop larger than the average Fifth avenue establishment and a Ritz-Carlton restaurant, which was said to have cost more than any of the similar restaurants on other liners.

\$100,000 WORTH OF LIQUOR TAKEN IN RUM RAID. Agents Fight Pitched Battle and Capture Three After Chase Across Roads.

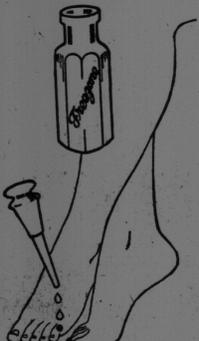

New York, March 7.—Government prohibition agents are stirred by reports of the activities of rum runners of Atlantic Highlands. A couple of months ago it was charged on all sides that the New Jersey coast town was the receiving centre for Bahama liquor, and agents from New Jersey and New York hastened thither. Now the smugglers, it is said, are at it again, and assertions were made that the woollen market in that vicinity was in such a super-saturated condition that the bottled contraband was bringing in importers only \$40 a case.

Coincidentally the arrival here of Major Maurice G. Marklin to succeed Gus J. Simon as chief enforcement officer for the State of New York, Agents Charles Gutman, Peter Reager and Harry Drescher staged one of the biggest raids made here in some time. After a pitched battle and a chase over the roof tops near a garage at 110 West Fifty-sixth street, the three agents seized \$100,000 worth of whiskey and gin and captured three prisoners.

Four other prisoners were captured, one of whom was shot in the knee by agents last night at the foot of Bay Thirtieth street, Bath Beach, in an alleged attempt to land thirty cases of whiskey. The wounded man was John Soreiller, of 1922 Thirtieth street, Brooklyn.

Ladies' Night was royally observed by the Gyro Club last night when about a hundred members and their guests sat down to an excellent supper and following this held a very enjoyable dance. R. Gale presided at the banquet and Dr. J. H. Barton, president of the Rotary Club, was an honored guest. Miss Canada had been invited to the function but owing to her absence from the city, she was not present. The Gyro Club orchestra, under the leadership of Dr. P. L. Bonnell, contributed the musical programme for the evening.

CORIS Lift Off with Fingers

Doesn't hurt a bit! Drop a little 'Freestone' on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of 'Freestone' for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How to Treat.

Medical authorities state that nearly nine tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food scours, causing the disagreeable symptoms which every stomach sufferer knows so well. Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who are troubled with ailments with no more fear of indigestion.

Fine Record of Humane Service

(Halifax Recorder.) The report on Nova Scotia's Humane Institutions for the year ended September 30, 1922, was laid before the Legislature on Monday, Dr. W. H. Hattie, the Provincial Health Officer, Inspector of Humane Institutions, says:

"Three new institutions have come under inspection during the year, viz: The Grace Maternity Hospital, Halifax; the Dawson Memorial Hospital, Bridgewater; and the Chester Municipal Home, near Chester. The institutions now on our list number forty-four.

In the various institutions inspected, care or treatment was provided for a total of 16,295 persons. In the General Hospitals, 12,382 patients were treated. At the Nova Scotia Sanatorium the number of civilian patients under treatment amounted to 324. The Grace Maternity Hospital and the Receiving Home (Salvation Army institutions), provided care and treatment for 307 mothers and 300 babies. In the institutions for the insane and poor 2,912 persons received treatment or care.

In the general hospitals, the hospital days totalled 228,005. In the institutions for the insane and poor 6,661. Those cared for in institutions for the poor and the insane were classified as follows:

Insane adults ..... 1,734 Sane adults ..... 912 Defective children ..... 266 Normal children ..... 230

It should be stated that many of those classified as "sane adults" are really handicapped by mental defects, although not technically insane. Compared with the previous year, the total number of persons under care in the various institutions shows an increase of 1,870. The increase in the general hospitals was 1,895, in the Sanatorium ninety-four, in the institutions for the insane and the poor, fifty-seven.

The data submitted to us indicate that the properties and equipment of the local general hospitals which come under inspection, are valued at approximately \$1,225,000, while the maintenance costs for the year amounted to nearly \$372,000. The Salvation Army institutions are valued at \$330,000, exclusive of land; the maintenance cost was over \$22,000. The local asylums for the harmless insane and for the poor, with the land occupied (about 3,400 acres) are valued at nearly \$890,000. These institutions expended during the year, on account of maintenance, approximately \$260,000. The total value of the property of these various institutions is, therefore, approximately \$2,438,000, while the total amount expended in their maintenance during the year approximated \$654,000. It will be understood that the Provincial institutions are not included in the above statement.

The following shows the number of admissions, discharges, etc., at the Nova Scotia Sanatorium, Kentville, during the year:

Number of patients in Sanatorium Sept. 30, 1921 ..... 94 Number admitted 1921-1922 ..... 227 Number re-admitted 1921-1922 ..... 13 Number treated during the year ..... 334 Number in Sanatorium Sept. 30, 1922 ..... 95 Number reported on (discharged), 226 Number re-admitted (discharged), 190 Tuberculosis arrested ..... 2 Suspected tuberculosis ..... 2 Non tuberculosis ..... 34 Condition on discharge: Disease arrested ..... 14 Disease apparently arrested ..... 22 Disease quiescent ..... 92 Improved ..... 29

MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is Child's Best Laxative

Hurry, mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup." It never cramps or overacts. Full directions are printed on each bottle. Say "California" or you may get an imitation fig syrup.

Bad Breath Overcome

"Bad breath is a sign of decayed teeth, foul stomach or unclean bowels." If your teeth are good, look to your digestive organs at once. Get Sige's Carative Syrup at druggists. 15 to 30 drops after meals, clean up your food passage and stop the bad breath odor. 50c. and \$1.00 Bottles. Do not buy substitutes. Get the genuine.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre At Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn grey, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While grey, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, the concourse can tell because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning all gray hairs have disappeared. After any application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

HAVE KIDNEYS EXAMINED BY YOUR DOCTOR

Take Salts to Wash Kidneys if Back Pains You or Bladder Bothers.

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food, they combined with lithia, add to the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with small misery in the kidney region, sharp pains in the back or sick headache, tongue coated, when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush out of the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent drink. It is a natural remedy. By all means have your physician examine your kidneys at least twice a year.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night.

For unsightly skin eruptions, rash or blotches on face, neck, or body, they do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

BILL OFFERED TO JAIL TUT-ANKH-AMEN FAKERS

Albany, March 7.—Hearing that the makers of faked antiques are rushing work on "relics" from the tomb of Tut-ankh-amen, Senator Dick has introduced a bill providing prison terms and fines for the fakers.

The bill was introduced at the request of the State Museum. It makes it a misdemeanor to make archaeological forgeries. Dr. A. C. Parker, head of the department of geology and archeology of the museum, said that these fakes were sometimes so skillfully wrought as to defy scientists.

FINDS \$10,000 IN CAB; RETURNS IT TO GRATEFUL OWNER

Most Honest Taxi Driver Scores Again—Gets \$100 and Sounding Kiss

Other Honorable Acts to His Credit—Not His First Return of Money—Hero of Runaway Incident Also.

Another credit mark is to be added to the record of Taxiab Driver William J. Brothers of 85 Gates street, South Boston.

He found on the floor of his taxicab a wallet containing \$5,000 in bills, and securities valued at about as much more, and hunted through the South station until he found the owner, Henry Weston, a Greenville, N. Y., business man.

Mr. Weston gave Brothers a \$100 bill and Mrs. Weston threw her arms around his neck and gave him a resounding kiss, much to the amusement of a large crowd of commuters. Mr. Weston also telephoned to police headquarters, told the officers of the return of the wallet and said he wanted the world to know that Brothers was the most honest taxicab driver he ever met.

Last January, Brothers found and returned \$1,400 which the paymaster of the Armstrong Company had dropped in his taxicab, and last October, he stopped a pair of runaway horses on Beacon street, just in time to prevent their running over a small child who had fallen in their path.

Mr. and Mrs. Weston were returning from a visit up North, and Brothers drove them to the South station, where they were to continue their trip home. After the Westons had entered the South station, Brothers found the wallet in his taxicab. He ran into the station, searched through the concourse and then through the waiting rooms, where he found the couple seated on one of the long benches.

"Have you lost anything?" he asked. "No, I guess not," replied Mr. Weston. "Well, you'd better take a look," said Brothers. Mr. Weston did so and exclaimed, "Why, my wallet is gone." Then followed bestowal of the reward and the kiss.

Brothers has been employed by Armstrong Company for the past 18 months. On his finding the \$1,400 dropped in his car by the paymaster, he was promoted from driver class B to driver class A, and given an increase in wages. He is 36 years old and has a wife and four children.

NEW \$2,000,000 COTTON MILL

Salisbury, N. C., March 7.—Construction of a new cotton mill and building of a town six miles south of here will be begun soon at a total cost of \$2,000,000. The new mill will be built by W. J. Swink of China Grove, and O. A. Cannon of Concord, N. C., who have bought 400 acres of land for the project.

for Loss of Appetite

This weakening condition arises from some failure of the body to dispose effectively of the waste products of digestion. The natural way to tone up, stimulate, and regulate the system—thus inducing a healthy appetite—is to take plenty of fresh air and drink ENO'S Fruit Salt first thing every morning. All druggists throughout Canada sell.

8 UNCONSCIOUS DRINKING "SMOKE"

Will Get Choice of Jail or Taking Pledge at Holy Name Mission.

New York, March 6.—Police Captain Peter Tighe, Sergeant Charles Humbertill and a squad from the East Fifth street station picked up in their precinct eight men unconscious from drinking "smoke" a mixture of alcohol and water. They will be arraigned in Essex Market Court this morning and may choose as did eighteen other men similarly rounded up on Wednesday between going to jail or to the Holy Name Mission before Father Rafter to pledge themselves to let "smoke" alone. Of the first group four chose the Mission.

A large quantity of alcohol in containers labelled "olive oil" was seized yesterday by Prohibition Agents Arthur Van Tassel and Thomas F. Channon as it was unloaded from a truck on the New York Central pier at Park Place and North River. They arrested Joseph Gonco, 40, of 240 North Fifth street, Brooklyn.

The carload of liquor, shipped as hay from Canada to Hastings-on-Hudson where it was seized on Wednesday, was transferred to the Army Base in South Brooklyn yesterday by Prohibition Agents who estimated that more than 4,000 quarts of champagne and Dawson Scotch were concealed in the hay.

Gus Wester, 42, a salesman of 300 East Eighty-sixth street, made such a mystery of a suitcase he carried from hallway to hallway in Harlem where he was seen in whispered conversation with tenants of a building, that he directed suspicion toward himself and was arrested. It was charged that Wester had a gallon of whiskey and was peddling it at 20 cents a glass. Anthony Cassese, convicted bootlegger, was taken yesterday from the Raymond street jail, Brooklyn, on his way to the Federal penitentiary at Atlanta to serve a sentence of two years.

Healthy Mother Merry Children Happy Home

TO maintain a happy home the housewife must keep in good health. Her duties are many and various, and it seems as if every other member of the family depended very much on her. "Where is my hat?" cries the boy. "What did you do with my coat?" asks the daughter. "I can't find any handkerchiefs," yells the husband. The housewife is usually the advisor and general manager of the family.

Lydia E. Pinkham's Vegetable Compound helps women to maintain a happy home by keeping them in good health.

Winnipeg, Manitoba—"I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said that he could do nothing for me, owing to my condition. My husband's grandmother advised me to take Lydia E. Pinkham's Vegetable Compound. I started it right away, and everyone noticed what a different woman I was in a short time, and able to do my work."—Mrs. EMILY DAVIS, 721 McGee Street, Winnipeg, Manitoba.

Cumberland Bay, N.B.—"I was troubled with weak feelings, headache all the time, a cough, fainting spells and pains in my back and sides. I could not do a single bit of work and had to be helped out to the hammock, and I had to be carried up and down stairs. After other medicines had failed, a friend advised me to take Lydia E. Pinkham's Vegetable Compound as she said it was excellent for any one in the family way. Before the first bottle was taken I could walk alone and as I kept on with it I got stronger, until I was able to do all my work. My baby is a big, fat, healthy fellow."—Mrs. MURRAY J. BARTON, P.R. **MISS BULAH LESLIE**  
The death of Miss Bulah Leslie, formerly of Grand Falls, N. B., occurred in Los Angeles, Calif., on Tuesday. She leaves to mourn her mother, two sisters, and two brothers, in Los Angeles, and one brother in Grand Falls.

**LIQUOR CHARGE**  
Two men for drunkenness appeared before Magistrate Ritchie in the police court this morning. From information given by one of the prisoners the liquor inspectors set out on the warpath. Just before noon Harry Wetmore was brought before the court on a charge of charge. A deposit of \$200 was put up and the case was set down for hearing tomorrow afternoon.

**SUCCESSFUL OPERATION**  
Many friends of Harry Burns, son of T. M. Burns, Secretary of the Board of Health, will be pleased to hear that he is recovering from a recent operation in the St. John Infirmary. Mr. Burns, who is a junior student at St. Joseph's College, received an injury to his hip in a hockey game played some time ago in the college rink. It is expected that he will be able to leave the institution this week.

**SUNDAY'S PRESENTATION**  
The bouquet of flowers presented Mrs. W. F. Roberts by the Bible Class at the mally day service in the Wesleyan street Baptist church on Sunday was made by little Belle MacAloney, not by Margaret Hamilton as previously reported. The flowers which decorated the pulpit were sent to the sick. The choir was ably assisted by S. J. Holder and he sang by request "Just Outside the Door." This was much appreciated by all present.

**LAST CAR CLUB**  
A very pleasant evening was spent at the home of Mr. and Mrs. T. C. Nickson, 188 Paradise Row, by members and several invited guests. Five tables of whist were played, the winners being Miss Carter and T. O. Don, consolations awarded to Mrs. Beaman and Mr. Irvin. At the finish of the card game twenty-four sat down to a daintily prepared supper. A toast proposed by the president to the host and hostess was heartily joined in by all. "Aloha and Syne" finished a most enjoyable evening.

**GLEN FALLS COMMUNITY CLUB**  
The regular fortnightly meeting of the Glen Falls Community Club was held on Monday evening at the home of Mr. and Mrs. George Buckle, Glen Falls. In spite of the prevailing epidemic of colds the meeting was well attended and enthusiastic, denoting the keen interest the members have in community work. Some discussion took place as to the advisability of changing the night of meeting from Monday to Tuesday. The report of the concert committee showed good progress made. It was decided to meet next at the home of Mr. and Mrs. George Cuthbertson.

**PRESENTATION**  
The home of Miss Alice Heathorn, Harrison street, was the scene of a pleasant function this week, the presentation of the Douglas Avenue Christian Church "Tens" gathered and presented her a handsome silver vanity case with monogram suitably engraved. The presentation was made by Rev. Wm. Phillips. Miss Heathorn thanked the donors and expressed the hope that she would be of service again to the church as she had been the resident accompanist at a recent minstrel entertainment. The evening was passed with songs and music including a selection by the McEachern quartet, solo Miss Hilda Williams, solo, William McEachern and a musical quintette, with mouth organs and accordion, by the McEachern quartet and A. Treacrin. Refreshments were served.

**ALLOWED TO GO WITH WARNING**  
John Knudson appeared in the police court this morning on report of Policeman Lindsay for ill-treating a horse by overloading it. The policeman said that from information given him the horse was hauling too big a load. The driver denied that the load was too heavy and called two witnesses to prove that the sled contained only a quarter of a cord of wood. The Magistrate taking all the circumstances into account allowed Knudson to go with a warning.

**OIL SHALES CASE IS CONTINUED**  
In Chancery this morning the case of the Prudential Trust Co. vs. The Oil Shales Co. of Canada, Ltd., was continued before Chief Justice Hazen. Hon. Wm. Pugsley was on the stand throughout the morning and up to time of adjournment until this afternoon. W. Tilley, bank accountant was also examined concerning the deposit of some ten thousand pounds stored in the bank, one bundle of which was opened for inspection in the court. One of the bundles was placed in evidence and the others numbering several large parcels ordered returned to the bank but still in custody of the court.

**COBURG STREET W. M. S.**  
The Woman's Missionary Society of Coburg St. Christian Church met last evening at the home of Mrs. L. McRoberts, 266 King St. East. The girls' Missionary Circle, and the Women's Society from Douglas Avenue church meeting with them.

A few words of welcome were given the visitors, after which the meeting was left in the hands of the Douglas Avenue Society. The subject of the evening was Empire Building. The Bible lesson was read by Mrs. A. Roberts followed by prayer by Mrs. Phillips and special music by Mrs. Henderson and Mrs. Taylor. The first paper was read by Mrs. McEachern on the life on the frontier in Western Canada. Miss Campbell gave a solo and a paper was read by Mrs. Pugh on laying the foundation in the Western places for the church. The next paper, by Miss Armstrong, was on the development of the church, and Mrs. Geo. Armstrong spoke on echoes from every where. The meeting then took a social form when refreshments were served. Mrs. Coggins thanked the visiting society for the evening's entertainment, also Mrs. McRoberts for her kind hospitality. The evening was brought to a close by singing Bless Be the One That Binds and Mizpah benediction.

### High Tides, Ice and Wind Menace The Bay Coast

MILLIONS OF DOLLARS LOSS IN PROSPECT IF JAM BREAKS SUDDENLY

### Fifty Feet of Ice Piled on Shore in Some Places—Wharves, Weirs and Navigation Aids Threatened—Blinding Storm Adds to Situation.

Damage to the possible extent of millions of dollars is feared as a result of today's heavy easterly blow combined with the prevailing high tides along the coast and the abnormal quantities of ice which may be broken loose from the shores and started out to sea. Practically all the wharves, and weirs, as well as the Marine and Fisheries departments aids to navigation will be smashed up or carried away if the ice goes out in any quantity. The ice conditions in this part of the world are worse than they have been for at least thirty years, J. C. Chesley, agent of the Marine and Fisheries department, said this morning. To give some idea of the abnormal quantities of ice, the captain of the Keith Carn today stated yesterday that the wharves in Yarmouth Harbor were filled underneath from the bottom of the harbor the whole way back to high tide mark with a solid block of ice. The power which might be exerted if this went out was shown in the fact that the other day the ice rose and lifted the wharf four feet in spite of the fact that there was a complete train of it at the time.

**Fifty Feet of Ice.**  
What may happen to the smaller wharves along the coast, unprotected and unsheltered, is likely to be far worse. The officials of the department are waiting and fearing at any minute news of disaster which will cost the

Government a fortune to repair. Along the coast of Southern New Brunswick and about Yarmouth basin, the small harbors are filled to the mouths with ice and it is piled on the shore, in some cases to the height of forty and fifty feet. The distance it extends is also in the nature of a record. A lighthouse kept from a point just outside Yarmouth was reported to have said recently that it could not see salt water from his post on account of the unheard-of fields of ice. The captain of a ship coming here from the U. S. recently reported fields of ice fifty miles south of Cape Sable.

**Laurentian Forced Back.**  
St. Andrews harbor and many of the other small harbors along this coast are blocked with solid ice. The Laurentian started for Black's Harbor this morning to make an attempt to break the ice but was forced to turn back by the driving snow. It has been decided by the department to bring the Aberdeen to St. John to undertake some very important work here and this move has caused a considerable amount of protest from Yarmouth, where she has been breaking ice for some months. The ice has been kept piling up in the harbors and bays along the coast by the prevailing northerly and westerly winds but it is feared that this storm will take it out of in an almost solid mass.

### TWO AND A HALF INCHES MORE SNOW

**St. John Gets Share of the Storm Which Sweeps Over East of Continent—Some Ships in Trouble.**

The city was visited by another snow storm today, the snow starting early this morning and up to noon two and a half inches had fallen on the level. The lowest temperature was eight degrees above. The storm was accompanied by a strong biting north-east wind, which makes life outdoors very disagreeable.

**At Toronto.**  
Toronto, March 7.—Nine inches of snow fell during the storm which reached this city yesterday and night. Most of the night the wind at times reached 41 miles an hour.

**New York State.**  
Buffalo, N. Y., March 7.—Five and one half inches of snow fell in the greater part of western New York last night. High winds caused deep drifts, which handicapped trolley car service.

**New England in Grip.**  
Boston, March 7.—New England was today in the grip of one of the worst snowstorms of the season. All night the snow was driven before a high northwest wind and this forenoon it was falling as fast as ever. Trains were delayed and trolley service impeded.

**Washington Warning.**  
Washington, March 7.—The following storm warning was issued today by the weather bureau:  
Storm of marked intensity central of southern New England coast, moving rapidly northeastward, will be attended by northeast backing to northwest gales.

**Vessels in Trouble.**  
Woodhole, Mass., Mar. 7.—Light-ship No. 90, beached by her captain at Quick's Hole yesterday to save her from sinking after she had struck a rock, was abandoned by her crew today and is being hoisted.

**Lightship in Trouble.**  
The lightship was on her way from Nantucket South Shoals to New Bedford.

**Vineyard Haven, Mass., Mar. 7.**  
The four-masted schooner Augusta G. Hilditch, bound from Boston for Norfolk, light, grounded on West Chop during a snowstorm and gale last night and was held fast in the sand today. The crew of ten men remained aboard. An attempt will be made to pull her afloat when the weather permits. The schooner registers 1,412 tons.

### ASKS PARDON FOR CALGARY MAN

Ernest A. Sinnott, 36 Montferris Avenue, Brighton, Mass., has addressed the following letter to the members of the Government of Canada: Gentlemen: My country's comrades—you are my friends, I trust. Honorable gentlemen, the spirit of the God of love and mercy on you descend. I plead to you for a pardon for Herbert Arthur Sinnott of Calgary. My friends, we do find as we slip our beads along on the rosary of years, this life we live is an infinite mystery even unto perfect man. Gentlemen, since man was man, since time was time, all men have made mistakes and only slowly learn to live with never ending hope. My honored friends, I plead to you to pardon the one mistake in all of Herbert Arthur Sinnott's sad and lovely life. Lastly, I plead to you for him along humane, merciful, and equitable grounds and in the name of the God of love I worship.
