Anti-British Suresdra Karr, a native of India and the editor of a paper issued by the Friends of Freedom for India, gave an address before the Women's Trade Union League last night. He called upon the people of America to aid the suffering people of India and said British propaganda was being spread in this country and Great Britain was doing all it could to bring the United States into disrespect all over the world.

CRERAR POINTS TO THE RESULTS OF PROTECTION

Vigorous Attack Made on the Tariff System

Under Protection, He Says, More Canadians Have Moved to States Than Made Up by American Immigrants—Interesting Session of Alberta Farmers.

(Canadian Press Despatch.) Calgary, Jan. 22—More Canadians have gone to the United States during the last eleven years than Americans have gone to Canada, due to the indirect result of the protective system, declared Hon. T. A. Crerar, at 1,500 United Farmers of Alberta here last night.

Political action by the United Farmers of Alberta was practically both new and old, why do we need protection at home? He said the most prolific source for federal election campaign funds in the last forty years was through protection or patronage. On provincial political action he urged that all attention be placed on federal issues and the attainment of the now famous new national policy as adopted by the Canadian council of agriculture.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

DON'T MISS THIS FEATURE BILL

Tonight Will Be the Last Chance to See Great Diving Act.

Those who have not seen the big feature act in the Opera House in which Traville, a trained seal and Grille, give a wonderful demonstration of diving etc., have one more opportunity when the last two performances will be given to-night. This act is one of the best of its kind that ever came to this city and was brought here by the local management as a treat for the patrons. The cost of staging this act was great, but the pleasure derived by those who have witnessed it fully compensated for the additional expense and trouble. The seal shows marked intelligence and gives a wonderfully clever performance, while the man and woman are surely at home in the water.

BABY BORN AS FIRE RAGED IN HER HOME

Six-Pound Girl Enters Life as Father Helps Fight Flames Two Floors Below. (N. Y. Times.) Three brick fires in the Bronx yesterday gave the firemen a bitter day's work in the cold, drove many families shivering in the streets, and resulted in the complete destruction of one of the borough's social landmarks, the McKinley Square Casino at 16th street and Boston Road, formerly the Crotona Casino. During one of them a girl baby was born while its father and the firemen united in a winning battle to keep the flames in abeyance.

### ST. JOHN'S GREATEST MERCANTILE EVENT

Big Rush During Final Days of Oak Hall's 31st Anniversary Sale.

Saturday will be the final day of St. John's greatest mercantile event, which is Oak Hall's 31st anniversary sale and as the popularity of this event seems to grow with every passing day the last two days will no doubt score up record crowds and Oak Hall is preparing accordingly by making still further additions to its already greatly enlarged selling staff.

Thousands of new shoppers wend their way to this great event as soon as they realize that everything in Oak Hall is offered at a substantial reduction, that new merchandise is brought forward every day, and that the Oak Hall guarantee stands back of every piece of merchandise sold. This guarantee is not an empty phrase but is taken seriously by Oak Hall and is interpreted to mean absolute satisfaction to every customer in every transaction.

Furthermore, the Oak Hall motto, "Large volume at minimum profit," assures everyone of the very lowest possible prices in keeping with the quality offered. Under these conditions it is doubtful if there is a person in St. John tummy slip by without taking full advantage of it, but Saturday is drawing near so it behooves everyone to act promptly.

THE CRY OF THE CHILDREN. The Woodstock Press recalls the fact that in September of last year in the Carleton county court an unnatural father was sentenced to three years in the penitentiary for a crime of which his own daughter of tender years was the victim.

He would like to see all the private lands producing pulpwood in the hands of the mill-owners, gained by additional purchases from year to year.

Mr. Barnjum's pamphlet will arouse a great deal of interest in the whole question, New Brunswick is vitally concerned in the preservation of its great lumbering industry; and the government of the province does well to pursue an enlightened policy in respect to the crown lands, which doubtless may be further improved from year to year.

A VANISHING ASSET. Mr. Frank J. D. Barnjum of Amnapolis, who claims that he has the largest amount of standing timber of any pulp company in Canada, and to which he is adding as rapidly as possible, declares that the export of pulp-wood to the United States must be stopped.

SAILING OF THE SARDINIAN

Although hundreds of thousands of Canadians have gone overseas in the last four years to serve the King, in October, 1919, it was a new event in Canadian history. For on the 30th of that month the S. S. Sardinian sailed from Quebec with 1,029 Canadian troops of the first contingent to leave for South Africa, where Britain was at war with the Boers.

CLEMENCEAU'S DEFEAT. The dramatic defeat of Clemenceau for the French presidency is due to a number of causes. One reason was his unpopularity with certain political elements, which at critical moments during the war felt bound to support him and which have been waiting for such an opportunity as yesterday's. Deschanel, who led Clemenceau in the poll, is more conservative than the Tiger. Nor was it altogether unexpected that Clemenceau had had enough of power and honor.

### WHITE CANNIBALS LIVE IN MEXICO

Noted English Explorer to Seek Them — Captain De Windt Speaks of Plans to Explore Tiburon Island.

Capt. Harry de Windt, noted English traveler, author and lecturer, will lead about the middle of February an expedition of six civilians and sixty Mexican soldiers to Tiburon Island, inhabited by white cannibals, and which is forty miles from the Guaymas, Mex., railroad station, which, in turn, is only about forty miles from the city of Mexico. Tiburon Island is fifteen by twenty-eight miles, and is owned by the Mexican government, who suppose the savages living there to be the descendants of Dutch, German and Swedish prisoners who escaped from Mexican prisons two or three hundred years ago. The expedition is being backed by the London Syndicate, according to Capt. de Windt, and has in the name of Anton Gilboon, nephew of President Carranza, a concession from the Mexican government, permitting the searching of the island for deposits of pitchblende, from which radium is extracted, and copper, both of which it is said to contain.

"Tiburon Island is only four miles from Mexico," said Capt. de Windt today at the Hotel McAlpin. "The water between the two pieces of land is very shallow. In the summer the separating water, known on the map as El Infierno, usually dries up, so that the journey may then be accomplished by foot. The Yaqui Indians, who live in Mexico across from the island, call it the 'Island of Death' for the reason that any person who lands on it is shot by poisoned arrows and then eaten by the white cannibals, who are known to possess, in addition to their bows, an ancient blunderbuss.

In the past few years, out of sixteen people visiting the island, in parties of two and three, only nine have returned alive, the others being murdered and consumed by these horrible savages so close to civilization that it scarcely seems possible. The Yaqui Indians call the inhabitants of the island Si, or white Indians. If any of these Si's attempt to land in Mexico the Yaquis kill them immediately.

"The Mexican government supposes

KING STREET • GERMAIN STREET • MARKET SQUARE •

they are the descendants of white prisoners. From visitors who have returned alive it has been learned the savages have blue eyes and almost flaxen hair. According to varying reports, there are between 500 and 5,000 of them. I was told by Juan Barlow, a Mexican mining engineer, who two years before the war, protected by fourteen Mexican soldiers, attempted an expedition in search of copper to the "Island of Death," that as soon as he and the soldiers returned cannibals sprang from the rocks and started towards his party, shooting poisoned arrows. He and the soldiers started running for their boats. As he ran, Barlow discharged his gun at the advancing cloths, and saw a woman fall. Later Barlow and some of the soldiers returned for the body of the woman. Her hair was almost flaxen, her eyes were blue. She had been shot through the heart. He took the body to Guaymas, where it was dissected by a Mexican physician, who

pronounced it the body of a white woman of unmixed blood. "Besides myself, the expedition I will lead will consist of Mackenzie Grieve, the companion of Harry Hawker when he fell during his attempted transatlantic flight; an expert radium mining engineer, an expert copper mining engineer; Anton Gilboon, nephew of President Carranza of Mexico, in whose name the concession permitting the exploration of the island was issued; a man servant and sixty Mexican soldiers, assigned to the party by the Mexican government, and probably some American motion picture photographers. Our party will start from Guaymas, which will be our base. We must go from Guaymas to Tiburon Island in flat-bottomed boats, drawn by a tug, since the water is so shallow. Since the distance is forty miles, the journey will take about half a day. We shall merely land the first day and let the cannibals see us. We shall not sleep there at night—not on your life," as you Americans say. There will be tents in our equipment, and these will be pitched in Mexico, four miles from the Tiburon Island. In these we will sleep. "On the island never more than two searching parties will operate at the same time. The two will each be accompanied by twenty soldiers with twenty more on the beach. Signals, by means of flags, will be used to keep the three groups in communication with each other. I imagine the searchings on the island will consume about three or four months. The chief weapon we will use is mustard gas, to stun the cannibals; not to kill them. We also may take two machine guns along, and, of course, we will all be armed. "I have already sold the rights on the book I shall write to an English publisher, Edward Payne, a prominent London theatrical man, who owns the Olympia in London, is trying to arrange with an American motion picture man for the latter to send motion picture photographers along with the expedition."

Interior Minister Addresses Shoe Men of Canada

Says Manufacturers Will Have to Be Taxed to Utmost to Help Wipe Out Debt of Country—Train Operators in Technical Schools.

(Canadian Press Despatch)

Quebec, Jan. 22.—The first annual convention of the Shoe Manufacturers Association of Canada was brought to a close here last night by a banquet at the Chateau Frontenac at which the guests of honor were Sir Lomer Gouin, premier of the province of Quebec, and Hon. Arthur Meighen, minister of the interior of Canada.

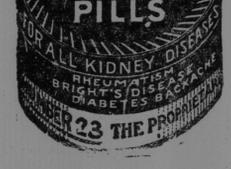

A delegation of the manufacturers waited on Sir Lomer Gouin and urged that the machinery and teachers be training in technical schools for the training of shoe operators. Sir Lomer said that his government would take steps to carry out the wishes of the shoe manufacturers.

At the afternoon session the convention passed a resolution favoring a permanent tariff by the government of Canada.

A resolution proposed by T. P. Rieder asking for the creation of a bureau with a permanent secretary and accountant, was referred to the legislative committee.

At the dinner Hon. Arthur Meighen said that while trade was something the convention knew all about, taxation was something he knew about from experience.

The only way to wipe out the great debt of the country was through taxation. Nowadays, he continued, we were purchasing \$7 worth of every \$4

We sold. This would have to be remedied. Canada was a borrowing nation but we could not continue on this scale and we could not seek a remedy for our depreciation of exchange by borrowing. We would have to improve manufacturing methods, distribution and resourcefulness and manufacturers would have to be taxed to the utmost extent. He said they were taxed equitably and he gave figures on income tax in order to prove it.

Mr. Meighen went on to say that in seeking the biggest share of the world's business that we could perform, the tariff was conceded almost universally to be an instrument and that the government was pledged to an inquiry with a view to the tariff revision. He warned them that they could not expect a tariff that could be used for exploitation nor could they expect a tariff behind which they could shelter in ease and lethargy. The best they could expect would be a condition that would give them a reasonable advantage for Canada's business.

Mr. Meighen said: "Industries, of course, must be legitimate, they must not be mere excises, they must depend mainly on our own resources and cognate industries for their material. So far as I know, all our industries are of that class today. I do not think there are many men of responsibility in this country who would knowingly wipe out or mark down a tariff tax if they knew that to do so was either to drive such an industry from Canada or to prevent its establishment here. There are some who differ as to what are the requirements. To that I say, come and let us investigate. Let us get the facts and decide upon the facts."

"There are others, one political party, possibly two, one political party, anyway, now full-fledged and on the march who would subvert our whole fiscal system, who would legislate first and then count the cost. To such a party, of course, inquiry has no meaning and no purpose. With them, so far as I am concerned, I engage the issue. If this whole thing has to be thrashed out again, let it be done and well done, and let the people once again decide. One thing sure, with the burden on this country today we must have revenue, and we must have business or everybody is going to suffer."

"Speaking in the city of Quebec, let me say that for myself I will welcome a contest whatever the result, where there can be no provincial or sectarian complications. There can be no race or religious angle to the question of revenue or commercial policy. Perhaps the best thing that could happen us is a contest where there will be no argument that would appeal to west or east that should not appeal to Ontario."

"Canada is a real democracy, if there is a real democracy on earth. All men and all women have equal voice. When the time comes it will do us all good to think this thing out and decide it."

N. B. Publicity Through the River Pictures

Also "Fish and Bear Scenes"—The Pictures Are Now to Be Sent to Be Shown in England.

B. E. Norrish, Superintendent of the Bureau of Exhibits and Publicity, a branch of the department of trade and commerce, Ottawa, has written to E. S. Carter, secretary to Premier Foster, advising him of the large circulation of the films prepared by cinematograph experts of New Brunswick scenes, including "The Trip Along the St. John River" and the "Fish and Bear" pictures. It will be remembered that during the last session of the legislature Mr. Norrish, by the invitation of the premier, visited Fredericton and illustrated to the members of the legislature and many others just what was being done by the exhibits and publicity bureau in a photographic way to advertise the natural resources of the Canadian provinces. Several scenes depicting the scenic beauty and natural resources of British Columbia were shown on the screen and the great water powers of the central provinces of Canada were displayed to great advantage. Then followed scenes from other parts of Canada.

As a result of Mr. Norrish's visit he was requested to make films of the St. John River, starting at Edmundston and showing the wonderful water power at Grand Falls, as well as stream-driving scenes and at the same time picturing the busy centres of population along the big stream. Mr. Norrish sent a camping and camera outfit to obtain the necessary views and it will be of interest to those interested in wider publicity for the province to read Mr. Norrish's letter to Mr. Carter, as follows:

Exhibits and Publicity Bureau, Ottawa, January 15, 1920. Dear Mr. Carter,—No doubt you will be interested to learn what circulation the films prepared in New Brunswick last spring have secured. In this connection I would state that the Trip Along the St. John River and the Fish and Bear picture secured through your kind co-operation have been shown throughout Canada generally. One hundred and ten copies of the Fish and Bear picture, in which the province of New Brunswick is featured, have been circulated in the United States and the film "Along the St. John River" will shortly be given the same distribution. Copies have also been sent to South Africa, Australia and New Zealand.

Ten copies of both pictures are now in course of preparation to be sent to London, England, where they will be used in Sir William J. Byrd's circuit. If you desire to arrange an exhibition of these films before the legislature during this winter's session I will be glad to send them to you. Thanking you for your kind co-operation. Yours very truly, (Sgd.) B. E. NORRISH, Superintendent.

E. S. Carter, Secretary to the Premier, St. John, N. B.

Minus the Hair. Mr. Vance—I know he was talking to you about me. Now, wasn't he? Miss Speitz—Well, yes. Mr. Vance—I thought I heard him remark that I had a thick head of hair. Miss Speitz—Partly correct. He didn't mention your hair, however.

A Dreadful Insult. Her mother—What's the matter between you and Mr. Klassik? Miss Tomlin—He insulted me. He said I sang like a siren. The idea, comparing my voice to an automobile horn!

VERDICT FOR PLAINTIFF. In the Kings county court yesterday afternoon with Judge W. B. Jonah presiding, the case of George M. Freeze v. Alexander Rangarten and Albert Henderson, a suit for damages alleged to have been done on the plaintiff's car by the defendants, was taken up. The jury returned a verdict for \$75 in favor of the plaintiff. George H. V. Belyea and Miles B. Innes, were for the plaintiff and Daniel Mullin, K. C., for the defence. This was the only case before the county court this session. Marked progress towards compromise in the United States Senate deadlock over the peace treaty was reported last night.

RE-ORGANIZE 3RD ARTILLERY BRIGADE HERE

Lieut.-Col. W. H. Harrison, D. S. O., is to Be Commanding Officer - Headquarters and Three Batteries.

Plans for the reorganization of the 3rd N. B. Heavy Artillery Brigade were discussed at a meeting last night in the rooms of the G. W. V. A., at which several of the officers who will serve were present. The brigade will be commanded by Lieut.-Colonel W. H. Harrison, D. S. O., with Captain E. M. Slader as adjutant, Major W. A. Harrison, M. C., quartermaster, and Major S. S. Skinner, medical officer. The brigade will consist of headquarters and three batteries, one heavy and two siege, commanded by officers who have good overseas records.

The heavy battery will be commanded by Major C. F. Inches, D. S. O., M. C.; the 4th Siege Battery by Major N. P. McLeod, M. C., and the 5th Siege Battery by Major G. A. Gamblin, M. C. Other officers who have signified their willingness to serve are Captain R. St. C. Hayes, M. C.; Captain J. H. A. Fairweather, M. C.; Captain D. V. White, M. C.; Lieutenants H. F. Bennett, C. S. Bennett, R. H. Bruce, E. H. Turnbull, H. A. Bridges, A. A. Dodge and H. H. Ponton.

The 3rd N. B. Regiment was first organized in 1799 and is one of the oldest artillery organizations in the British Empire. Its record during the late war is well known, it having sent upwards of 2,500 all ranks overseas, and at the signing of the armistice one brigade, out of three, and seven batteries out of fourteen in the Canadian Corps Heavy Artillery, were commanded by 3rd Regiment officers and two batteries in training in England as well as the 2nd Division Ammunition Column.

It is proposed to make athletics and entertainment an important factor in the coming season's work, and a meeting of the artillery C. O.'s will be held in the near future to discuss this. Other committees nominated at the meeting were: Regimental committee - Battery commanders and adjutants; band committee - Major W. Vassie, M. C.; Lieutenant R. H. Bruce and the adjutant.

It was decided to commence the training season about the second week in March.

SERVICE THE BIG THING IN Y. M. C. A.

Toronto, Jan. 22 - Emphasis was placed on service in the reports and in the creation of an elevator. It was the Y. M. C. A., and the commission of reconstruction took the ground that service, rather than the payment of a fee, should be the basis of membership in the Y. M. C. A. Co-operation was also strongly advocated.

WANT AN ELEVATOR BUILT IN TORONTO

Toronto, Jan. 22 - A deputation representing the Toronto board of trade, the Toronto harbor commissioners and the United Farmers of Ontario waited upon the Ontario government yesterday and requested that representatives be appointed to urge the dominion government to take early action in the matter of the erection of an elevator. It was said by members of the deputation that the Ontario farmers were suffering considerable loss because of the lack of a central store house for grain in this province.

Premier Drury promised that the movement would have the hearty support of the government.

George Hadrill has resigned from the secretaryship of the Montreal Board of Trade and is succeeded by J. Stanley Cook. Mr. Hadrill had forty-three years service with the board.

BANK OF MONTREAL GETS AN INTEREST IN THE COLONIAL

London, Jan. 22 - (Canadian Press) - Considerable interest has been aroused here by the announcement of the acquisition of a substantial interest in the Colonial Bank by the Bank of Montreal. Recently the powerful Borealis Bank acquired a leading interest in the Colonial Bank, which was followed by the establishment of a connection between the Colonial and National Bank of South Africa.

The financial editor of the Morning Post remarks: "Now we have the Bank of Montreal joining in the movement. It is evident this is no haphazard development but behind it there is a very distinct guiding hand. Just as in years past we have witnessed great centralizing of this country's bank resources, so now there is a growing recognition of the strength obtainable from affiliation of purpose and a careful organization of resources in all pertaining to banking overseas."

The Financial News says: "The increased facilities approved by these arrangements are no help."

For West Indies Business. London, Jan. 22 - (By Canadian Press) - Inquiries here indicate that the acquisition of the Bank of Montreal for a substantial interest in the Colonial Bank was largely dictated by the growth of Canada business in the West Indies. The Bank of Montreal will now prosecute a West Indian business through the existing branches of the Colonial Bank while the arrangement also secures the Colonial Bank from opening Canadian branches.

A similar interest has been acquired in the Colonial Bank by the National

Dorothy Perkins (Miss Vidor) and Daisy Perkins (Miss Pitts), were opposite in everything but their name and origin. Dorothy was ambitious, artistic, and longed for the environment and refinements which wealth could bring. Daisy was full of mischief, buoyant and inclined to be "lazy."

Dorothy realized her ambition, but it almost broke her heart. Daisy stayed in the little country town, married her father's clerk, who was transformed into a Prince Charming in her eyes when he bought a flivver and doted up on her in staid clothes, and found happiness.

Mr. Tilley said he did not think the public would object to an increase but he thought a measured service would not be fair. It was ridiculous to limit the number of calls to sixty per month.

The chairman spoke of his correspondence with regard to securing an expert and said that Mr. Milgram came very highly recommended. He furnished information here at the hearing of the N. B. Power Company about a year ago. He had received a protest from the Camp Hill Telephone Company against the increase, but said that the protest proved the case. It would have to be decided upon evidence alone.

**P**RESENTS and acts of courtesy formed a prominent part of that wonderful system of conciliation by which the early French settlers of Canada gained the friendship of the Indians. Father Hennepin, historian of La Salle's party, in 1680 found the Hurons shaving the heads of their children with hot stones. Producing a razor, he quickly and deftly performed that important service for a whole village.

The gratitude and appreciation of the Red Men knew no bounds, and a gift of two or three of the valuable instruments cemented ties which lasted for decades.

Although we are far removed from the period when hot stones were used for razors, no Canadian has experienced the acme of shaving delight until he has used a

A Real Razor—made Safe

In principle, the Durham-Duplex is identical with the razor wielded by Father Hennepin. But to the long blade of the old-time razor—the only blade that can be used with the close-cutting diagonal stroke—has been added the twentieth-century improvement of detachable, double-edged, guarded blades. You cannot cut yourself with the Durham-Duplex. The patented guard always protects

you. And you can enjoy the luxury of a fresh edge at a moment's notice by stropping or honing your dull blades to new keenness. Eight million men have changed to this real razor made safe and new thousands every week are discovering that Durham-Duplex, with its oil-tempered, smooth-shaving blades, gives them complete shaving satisfaction. JAPANESE POLICY  
IN THE PACIFIC

Australian Authority Says Japan "Studying Developments From Point of View of Possession."

Adelaide, South Australia—Australia must keep her eye on the Pacific, is the warning given by a well-recognized authority on the question, the editor of the Sydney Morning Herald, C. Brunsdon Fletcher, author of "The New Pacific" and "The Problem of the Pacific."

Japan, he urges, is undoubtedly studying developments from the point of view of possession; not for the benefit of others but for her own trade and industrial needs. It, therefore, behooves Australia to be awake to her own duty.

When Mr. Fletcher visited Adelaide recently he was interviewed on the question which has had his close and critical attention for many years. He says he is profoundly impressed with the importance of the Pacific ocean as a great highway and the need for Australia being ready for the immense development which must take place shortly. Japan is energetically on the alert. Mr. Fletcher remarked that only a few days previously he had read a letter which had been received in Australia from an Englishman who had just gone to Japan. This man had been particularly struck by the manner in which Japan was dealing with the natives of the Marshall Islands. Some of the chiefs had been taken to Japan and shown around by selected officials. Japan was handling the Marshall Islands with a thoroughness and efficiency which made a great object lesson for Australia.

"Anyone who takes up the last Japanese Year Book," said Mr. Fletcher, "will see that schools established in the Marshall Islands are not temporary but are there for all time. All the Japanese influence in these islands is directed to persuade the natives that Japan is there to guard them and to help them to develop their country."

"difficulties arise, or will arise, in connection with the mandates given to the commonwealth by the peace conference. Australia will have to consider her large responsibility and she must have men specially trained and of administrative ability. They will have to deal, not only with the natives, but with the problem of the development of the German territories that will be taken over."

Looking further ahead, and taking the Pacific as a whole, one realizes that the empire would be very much stronger if some system could be devised by which the control everywhere would be under one flag. Our strikes, unquestionably, have affected the food supply of the white population in the islands and made it extremely difficult for them to carry on plantation and other work. Prices have advanced and the people who look to us for the comforts of life have been left in the lurch."

Co-operation in Pacific Urged.

Sydney, New South Wales—The American community of Sydney, Australia, to do honor to J. P. Brittain, United States consul-general in Australia, on the occasion of his recent departure for America in the S. S. Yucatan. Mr. Brittain takes up similar responsible duties at Winnipeg, Canada. M. B. Richards was toastmaster, and among the guests were Sir William Cullen, the chief justice of New South Wales; Mr. Holman, the state premier; H. Y. Braddon (until recently trade commissioner in the United States); and F. Norton, the incoming consul-general. The speakers bore united testimony to Mr. Brittain's singularly successful term of office during an unusually exacting period. Sir William Cullen dwelt on the cordial relations between the United States and Australia and said the both must cooperate to make the Pacific what it should be. Mr. Holman was impressed by the same theme.

TOWN MANAGERS

(Woodstock Press.)  
After careful consideration the town of Pictou, N. S., has followed the example of Woodstock and Hartland, N. B., and has appointed a town manager. Woodstock pays its manager, R. Fraser Armstrong, \$3,000 a year; Pictou pays its manager, Joseph L. Eaton, a stipend of \$2,000 a year. Hartland gives its manager, W. A. Plummer, \$1,000 a year. The town manager of Woodstock is a returned soldier, with a civil engineer's degree and with some pre-war experience as civic official. All the civic employees save the town clerk, are under his control and all civic services. He acts as town purchasing agent. No interference by mayor or councillors with his orders or actions is permitted. He sits at the council board with the right to participate in discussion but has not the right to vote. His term of office is for two years. A monthly report as to work done and money spent is submitted by him to the town council and their report is open to inspection by any ratepayer.

Englishmen at Work.  
English sportsmen are preparing for active participation in the Olympic games to be held at Antwerp, Belgium, next summer. Despite the fact that many of the best athletes in the United Kingdom fell in the war, reports indicate that material is plentiful and promising. Very few of the Olympic team of 1912 will be available, and England will be particularly weak in the field events. The majority of the candidates are "green." Intensive training, however, will polish them sufficiently, it is believed.

The athletes of Oxford and Cambridge are as yet unknown quantities, as they have just resumed work interrupted by the war. Cambridge has at least one star runner in G. M. Butler, quarter-mile champion of England. Butler's best time to date is 49.4 seconds, but experts believe he can clip a second from this mark.

Among the promising new men is W. A. Hill, a sprinter, who recently captured the English championship for the 100 and 200 yard events. Sergeant-Major Mawly, a veteran track man, has done the century sprint in 9.9 seconds and has been training carefully lately. A. G. Hill, another old-timer, is looked to for some sensational work. He still holds the half-mile and mile championships of England, and held the best four-mile time in 1910. He is thirty-five years old.

Larry Cheney, veteran boxer, may not be among those present when the Phillies assemble in the spring. Cheney has been with the Cubs, Robins and Braves and is nearing the end of his major league career. Jack Adams is said to be dissatisfied and may also go to another club.

Johnny Lavan has branched out as a regular physician in St. Louis, but he is not ready to drop his baseball bat. He plans to play next season with the Cardinals.

There is much speculation as to where Sherry Magee will land for next season. The veteran is being courted by many clubs, but the veteran will be picked up by a major league club. He drew an unconditional release from the Reds a few days ago.

The recent release of Terry Turner by the Mackmen ended the major league career of the oldest active player in the American League. Turner came into the league back in 1904.

Tex Rickard may bid for bout  
Believed to be Getting Ready to Stage Championship Event.

New York, Jan. 21.—After hiding his name and waiting developments while rivals were stampeding each other in their eagerness to secure the title, promoter Richard Dempsey-Georges Carpenter world's heavyweight championship bout, Tex Rickard, leading American promoter, looms up as a prospective proponent of the international ring match.

Rickard, with characteristic deliberateness, steadfastly refuses to either deny or affirm reports which have been circulated now for some time, but, nevertheless, the impression prevails that the English western promoter, who has undertaken the ring's greatest financial enterprises in the past is preparing for a continuance of his activities in this line. How far Rickard has progressed in this respect, however, is a matter for conjecture. The western promoter, adopting the policy that characterized his connections with the Jeffries-Johnson and Willard-Dempsey championship matches refuses to divulge any of his plans or to even admit he has been dickering for the match, even in the face of the report from France in which Francis Desamps, manager of Carpentier, is said to have received an offer of \$200,000 for the French boxer's services to be promoted by Rickard.

The situation regarding the match has advanced no further than when the contest was first talked of, after Carpentier's sensational victory over Joe Beckett, the English champion. Charles B. Cochran, the English promoter who is reported to have Carpentier on behalf of the match, has had no definite word from Rickard. Manager Desamps, for Carpentier, is credited with the announcement that his agreement with Promoter Cochran will expire next month. Promoter Cochran flatly denies this, and reiterates that his contract with the French firm, box for anybody else unless Rickard agrees.

THE KENNEL.  
First Winter Show.  
The first winter night show of the New Brunswick Kennel Club was held last evening in the club rooms, Market building, and was a success. The judges were John McGrath, Thomas Kilien and John F. McDonald. In the Kitten and puppy class George Gray's Glencho Betty won first, with William Hanlon's Britches Grand second. Mandy Law, owned by George Gray, won third. Winwood Betty, owned by W. B. Taylor, Glencho Betty was awarded the best puppy prize for the best setter of any variety.

In the English setters, Gerald McCarthy's entry, Tess Mayfly, got the winners ribbon, while J. Pollock's Heather Queen, reserve.

Miss Pug, entered by James Dinmore, won the English bulldog prize. In the Cocker Spaniels, Miss Canada was the only entry in the puppy class. A. Gillard's entry, Baby, was awarded first in the limit class in which Miss Eileen Ritchie's Champion Patricia got the winners ribbon in bitches with Baby in the limit class in which Miss Eileen Ritchie's Champion Patricia was reserve. The best parrot, sparrow and Nangi, which was awarded special in this breed.

The next evening show will be terriers and collies and some real good entries are expected.

TEX RICKARD MAY BID FOR BOUT  
Believed to be Getting Ready to Stage Championship Event.

with Cochran's sanction during this year. William Fox, who has improved his offer to a flat purse of \$550,000, on a division basis of 75 per cent. to the winner and 25 per cent. to the loser, with an additional percentage of the net profits, is still awaiting word from Manager Jack Kearns.

Promoter Rickard, while he refuses to state just what his intentions with regard to the Dempsey-Carpentier match, will probably be prepared to make some definite announcement during the coming week. The western promoter has never declared himself out of consideration in the bidding for the prospect, but answers for his proposed negotiations he neither denies nor affirms.

Reports cover the impression that Rickard has a representative abroad dickering with Manager Desamps for Carpentier's services. The western promoter is understood to be in constant communication with the French boxing manager through this representative. It is probable that Rickard is personally attending to the negotiations for Dempsey's services, and is withholding the information in a position to announce something definite from Carpentier's end of the situation.

**FOR VOCATIONAL CLASS.**  
At this morning's council meeting Commissioner Thornton read a letter from the vocational training board asking for the use of the committee room in city hall for holding classes in sketching and reading working drawings under G. A. Duffy of the city engineer's staff. He said the board of assessors would require the room for about two weeks from Feb. 1 for hearing of tax inquiries so the matter was left in Commissioner Thornton's hands. Commissioner Daulton suggested an alternative scheme to obtain the use of one of the rooms in the county court building for the classes.

**NEW MILITARY CLASP**  
It was announced at local military headquarters this morning that a clasp will be issued to members of the Canadian Expeditionary Force who served in France between August 5, 1914, and midnight of November 22 and 23, 1914, when the Hun was turned back at the battle of the Marne. The clasp is in bronze with the dates engraved and is to be worn on the 1914 star, which has been issued to members serving in France up until December 31, 1914. **EGAN-SKUSE.**  
A very pretty wedding took place at nine o'clock last night in the Church of St. John the Baptist when Rev. A. W. Meahan, D. D., united in marriage Miss Jessie Skuse of Bristol, England, and John Egan of Longford, Ireland. The groom, who is a veteran of the Fighting 25th Battalion, is now employed in the Department of Immigration and Colonization, and is well known throughout the maritime provinces. The bride was supported by Miss Collins of 270 Prince William street, and John Collins of 9 Chubb street acted as best man. After the marriage the young couple motored to the home of the bride's parents, where a dainty repast was served. The table were prettily decorated with pink and white roses. Among the numerous presents received was a substantial check and pass from the immigration and colonization department and a beautiful china set from the groom's fellow countrymen. The bride and groom and Mrs. Egan spent their honeymoon touring the maritime provinces. They have the best wishes of many friends.

**Prohibition Matters**  
That he was well satisfied at the turn things had taken along the Maine border with regard to vigilance of the prohibition authorities was the expression of Rev. W. D. Wilson, chief prohibition inspector today on his return to the city from Moncton. It used to be, he said, that heavy stocks of liquor were brought through from Quebec and sent across the border at St. Leonard's by motor car, provided the inspectors on this side of the line were active. If chances were good on the New Brunswick side, the liquor was not shipped into Van Buren but was kept on this side and distributed. He had repeatedly urged the inspectors on the Maine frontier to help his inspectors, Rev. Mr. Wilson said, but it was only of very recent date that they had responded. From seizures which they had been making lately, however, he thought they were in dead earnest now in the enforcement of the prohibition enactment.

Speaking of shipments from Montreal via express, Rev. Mr. Wilson said that care must be exercised by those to whom the liquor was addressed or they would be liable. The law says that they cannot take delivery of the goods at the offices of the company but must have it delivered to their private residences by the company. As to some talk which had been made concerning people having to send to Montreal houses where wholesale houses had liquor for sale, the criticism being made as to the money going out of the city when it could be left here, Mr. Wilson said that the local act said that no liquor could be bought here for use as a beverage though it could be imported between provinces by reason of the dominion enactment.

**TRAVELERS' AID SEEKS GRANT**

Request of \$1,000 to Help Good Work — Some Facts Told Commissioners.

A delegation from the Traveler's Aid waited on the city council this morning and asked for a grant of \$1,000. The council promised consideration. The delegation consisted of Mrs. John A. McAvity, president; Mrs. Jas. F. Robertson, vice-president, and Mrs. R. A. Jamieson, secretary. Mrs. Jamieson outlined the activities of the workers, Miss Hoyt and Miss Berry, and gave figures of cases handled in the last year, including 2,991 trains and ninety-one boats met, 1,919 people helped at the boats and trains, 1,620 given temporary shelter in the Union street home, twelve in the Y. W. C. A., 396 in hotels and ninety-six in the homes of friends, and employment found for fifty-three girls.

She spoke of several special cases treated, including one runaway girl returned to her home and another girl who was rescued from the hands of an unscrupulous person and sent to friends in Fredericton.

She said they kept a fund for emergency loans, which were almost invariably returned. The expense in the last year was \$1,200 more than revenue.

Mrs. McAvity said a provincial grant of \$1,000 was also asked for. She said with the assistance of the Y. W. C. A. a rooming directory of safe hotels, etc., had been made up and was available for all travelers.

The re-organization of the various militia units throughout the province is being carried on and the work is progressing favorably.

After the meeting in Sussex the general and Colonel Sparling will go to Chatham for a meeting in connection with the re-organization of the 73rd Regiment with headquarters there. Captain H. S. Murray, district record officer for this district, is to be on the Maritime Express this evening for Chatham to attend that meeting. The commanding officers for the various units will be selected at the meetings.

Next week the general and Colonel Sparling will go to Woodstock and Fredericton to aid in re-organizing the 67th Regiment in Woodstock, and the 71st in Fredericton, and also the 1st Brighton Field Company with headquarters in Woodstock.

**ASKS CITY COUNCIL TO PURCHASE THE ODDFELLOWS' HALL**

At this morning's committee meeting of the common council, a communication from Dr. F. E. Emery, chairman of the Vocational Board, was read, asking the council to take up the question of acquiring a building in the city for central headquarters and for ordinary courses. He said that the attendance at the classes demonstrated the necessity for this building and said the Oddfellows' Hall, which was a suitable location and could be adapted to the purpose, could be purchased for \$28,000 to \$30,000 and the lot adjoining leased for ninety-nine years. The council decided to notify the chairman that the council would hear a delegation from the board with regard to the matter.

**IN THE COURTS**

In the case of Baird vs. Jones before Chief Justice Hazen, application for the commitment of the defendant for contempt for breach of an injunction order issued by Mr. Justice Grimmer in February, 1919, was made by D. Mullin, K. C., for the plaintiff, J. B. M. Baxter appeared for the defendant. Affidavits were read by counsel on both sides and Mr. Mullin made application for permission to cross-examine the defendant on his affidavit. The matter was set over to Wednesday, 28th, at 11 a. m.

In the chancery court this morning before Judge Grimmer in the case of Shannon vs. Shannon, et al., application was made to dissolve an injunction order issued by His Honor some time ago restraining W. Smith, one of the defendants, from cutting lumber on a lot of land in the parish of Wicklow, Carleton county. Jonathan Shannon contends that the land had been deeded by him to his brother Robert, who, he says, agreed to reconvey to Jonathan but instead conveyed to the other defendants. Affidavits were read for the defence and contra-affidavits for the plaintiff. His Honor granted an order dissolving the injunction order. W. P. Jones appeared for the plaintiff, J. B. M. Baxter, K. C., and M. L. Hayward for the defendants.
