CURRIE AND LEGERE NOMINATED GOVERNMENT CANDIDATES AT THE CAPITAL ON MONDAY

Stewart and Diotte The Conservative Candidates
—LaBilloy To Run As Independent—Candi-
dates The Only Speakers And Confined To
Half Hour Each—Diotte The Comedian.

The nomination day proceedings at Dalhousie on Monday passed off very quietly. The Sheriff opened his court at 10 o'clock and when he closed it at 12 o'clock he declared the following duly nominated.

Henry J. Currie
John B. Legere
David A. Stewart
Henry Diotte
Chas. H. LaBilloy

It was mutually agreed that the addresses would be delivered in the Skating Rink beginning at two o'clock, with Sheriff Blanchard as chairman. It was also mutually agreed that only the candidates were to speak, and they were limited to a half hour, with ten minutes for reply.

Promptly at 2 o'clock the Sheriff took the chair and called the meeting to order.

The large Skating Rink had been arranged for Premier Veniot's Saturday night meeting, but the crowd was not large and only a little more than half the seats were occupied, and about half the audience were Ladies. Probably the reason that the crowd was not larger was that it was a beautiful day-making day and after the poor weather of the past two weeks the farmers decided to stay at home and make hay while the sun shone.

But there were rooters present for both sides, and at times things were noisy, but the best of order prevailed.

Mr. W. S. Montgomery was also present, and persisted in interrupting the government speakers, until called to order and threatened with ejection if he did not behave himself.

The building was very warm and it had a deficit of \$248,000 last year caused by the interest charges on the Valley Railway construction bonds, but he failed to add that his friends were responsible for the construction of this railway, which is costing the taxpayers of this province \$258,000 per year.

Mr. Currie was the first speaker and was loudly applauded when he stepped forward.

He made a good impression, and it was no doubt, the address of the meeting. He had his facts well in hand, and despite the fact that Mr. Montgomery endeavored to jar him out of his stride, he kept smiling and delivered a very earnest, interesting and convincing address.

He dealt fully with the acts of the present government, and declared that we had the most progressive government this province had ever enjoyed.

"We had the best province in Canada, and what we need to-day is faith in our country and our government. God has given us everything to make a prosperous country; natural resources, of all kinds, and a sturdy manhood. It was for us to go forward and develop these industries. He had only a half hour to preach the gospel of good government," said Mr. Currie.

The destinies of this province demand more from you at this election than ever before. We need a government by men of vision, integrity and business ability and that was what Premier Veniot's government was giving," added Mr. Currie.

The need of the development of Grand Falls was dwelt upon, and the fact that in awarding the contract for the main work, nearly half a million dollars had been saved was also brought out.

"Let us elect men who will not sell our birthright to the big interest. This is a fight to keep intact our resources for generations yet unborn." Applause.

Mr. Currie also dwelt upon the Workmen's Compensation Act, the Health Act and Free School Books, and ended up with a strong appeal for the support of all, and asked them to deposit their ballots for John B. Legere and himself and in support of the Veniot Government on Aug. 10th. Applause.

David A. Stewart

Mr. Stewart was the next speaker, and was warmly greeted.

His address was entirely upon the defensive, and he spent his half hour endeavoring to answer Mr. Currie's address. Mr. Stewart made the best address of his political career, but he was working under extreme difficulties, and he quoted so many figures and read so many extracts that the audience became restless. Then he told a funny story and the audience relaxed.

But he did tell the meeting that he was not opposed to the development of Grand Falls, although he did not see any reason for such haste as the Veniot government displayed. A year or more, more or less would not hurt either way. Better play safe he said. He also admitted that the roads had been better. But look at the amount of money spent on them. Sure they took for this statement he observed were better and so they ought to be. That it would be impossible to do this. He also said that the government amount of work for \$720,000. He ev-

LOCAL VETERAN DIED IN QUEBEC

Remains of Samuel Russell Laid
To Rest With Military
Honors There

Another local veteran of the World War was laid to rest on Tuesday when Samuel Russell, formerly of Tracadie but more recently a resident of this town, whose death occurred on Saturday last at Laval Hospital, Quebec, was buried there with military honors.

The deceased who was 35 years of age had been ailing since last fall, tuberculosis of the bone developing from wounds received in active service. The funeral services which were held at 8 a. m. Tuesday morning were conducted at St. Foye Church by the G. W. V. A. of Quebec City under the direction of R. Mayne Reade, president of the Quebec Light and Power Co., and a veteran of the South African War.

Rev. Father Morrisette officiated. The coffin, draped with the Union Jack, was conveyed to St. Patrick's Cemetery where interment was made in the Army and Navy Veterans' Plot. The late Mr. Russell is survived by one brother, Gregory, of Tracadie, N. B.

He also closed with an appeal for votes for Stewart and Diotte on August 10th.

Messrs. Currie, LaBilloy and Stewart embraced the opportunity of an additional ten minutes, but no new points were brought forward. In fact the audience, which had been good of this railway, which is costing the taxpayers of this province \$258,000 per year.

He closed his remarks with an appeal for support for himself and Mr. Diotte on August 10th.

Chas. H. LaBilloy

Mr. LaBilloy was the next speaker, but failed to make an impression. He is getting old and no doubt his associations of the past year or two have contributed to his losing touch with the Liberal party. His voice was not good, and his address was patiently and quietly listened to. One point he did make, and that was the injustice done Restigouche by not giving her increased representation in the legislature.

He also told the meeting without a blink of an eyelash, that the public debt of the province was \$35,000,000 and that it would take \$45,000,000 to develop Grand Falls.

He concluded with a personal appeal for support on August 10th.

John B. Legere

Mr. Legere, who was warmly applauded addressed the meeting in French, and judging by the applause, he made a good impression.

He also delivered a short address in English and considering his handicap did very well. He pointed out the great benefits to be gained by the development of hydro, stating what he had done for Ontario and Quebec, and he was sure it would be advantageous to New Brunswick.

He also pointed out that due to the business like administration of the present government, the credit of New Brunswick stood second among the provinces of the Dominion.

He said a previous speaker declared that the farmers and people generally would be loaded with debt, their farms mortgaged, and they would not be able to pay their taxes if the government persisted in going ahead with the Grand Falls development. This was false. The people would not be taxed one dollar for this development.

The entire cost would be met by the users of power. On the other hand new industries will be induced to come to the province, and employment will be provided for our young men and a market established for our farm produce.

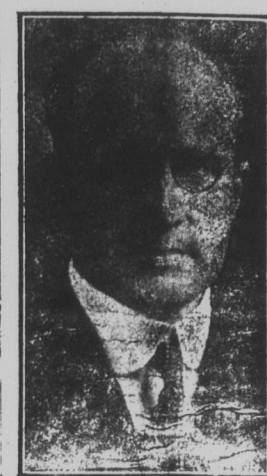

In closing he asked every lady and gentleman to go to the polls on Aug. 10th and vote for Currie and Legere.

Henry Diotte

Mr. Diotte was the last but by no means the least speaker. He was "he" means the comedian of the occasion and by his witty remarks, kept the audience in good humor.

He started out by saying that Mr. Currie did not tell the truth when he said the road from Balmoral west line to the County line at Belledune River, was better. Better play safe he said. He also admitted that the roads had been better. But look at the amount of money spent on them. Sure they took for this statement he observed were better and so they ought to be. That it would be impossible to do this. He also said that the government amount of work for \$720,000. He ev-

HON. IVAN C. RAND

The Attorney General of New Brunswick who ably discussed all issues of the present political campaign here on Tuesday night.

PERSONALS

Mrs. F. Frenette and family are visiting in Bathurst, Beresford and Petit Rocher.

Mrs. J. B. Legere returned recently from Rimouski where she was visiting friends.

Mrs. N. McLean returned home yesterday from Dorchester where she was attending the funeral of her brother-in-law, the late Andrew Anderson.

Misses Ida McKenzie and Edith Miller are in Sackville attending Summer School.

Dr. McDonald of Westville, N. S. is now on the staff of the Soldier's Memorial Hospital at House Doctor.

Mr. and Mrs. Harry Miller and family, accompanied by Miss Helen Stevens left on a motor trip to Harcourt, N. G.

Mr. Edmond Plouffe of Riviere-du-Loup is the guest of his brother Mr. P. H. Plouffe.

Mr. and Mrs. Clarence Boudreau have returned from a motor trip to Mont Joli, Riviere-du-Loup, Quebec and Ste. Anne de la Riviere du Loup by Miss Cecile Plouffe who was their guest for a few weeks.

Mrs. W. H. Magee spent a few days at Riviere du Loup returning by motor with Mr. and Mrs. Clarence Boudreau.

Mrs. James MacLeod has returned home to Sackville, Que. after visiting relatives in New Carlisle and Shigawake.

Mrs. Claude Hamilton who has been residing in Boston for some years is now visiting at her home in New Carlisle, also relatives in Sackville and Campbellton.

Miss Jean Warman has entered the Grace Hospital, Halifax as nurse in training.

Geo. E. MacLeod spent Thursday of last week in Moncton.

Mr. and Mrs. D. C. Firth, and little daughter accompanied by Mr. and Mrs. A. G. Adams returned on Saturday last from a delightful two weeks motor-trip. They went via Parrsboro and Halifax, to the south shore of Nova Scotia and the Annapolis valley, and returned by way of Digby, St. John and Fredericton.

Mrs. Benjamin Larsen and children left on Monday for Miltonect, Maine, visiting her cousin, Mrs. L. Gauvin.

The many friends of Mrs. Arthur Groux of Quebec who underwent an operation at the Hotel Dieu Hospital will be pleased to see her out again.

Mr. Hicks Gallen who some years ago went to Chicago and is now foreman of a large printing plant in connection with the University of Chicago, is visiting his old home here. He is accompanied by his son.

Mrs. George Wilkins and son Allan are visiting in Moncton the guests of Mr. and Mrs. Albert Lewis.

Mr. and Mrs. Henry C. Lahee of Boston are the guests of Mr. and Mrs. F. E. Blackhall.

Miss Margaret McCurdy of New-Castle has returned home after visiting relatives in New Carlisle and Matapedia.

MASONIC MEETINGS HERE THIS WEEK

M. W. Grand Master Geo. D. Ellis of St. John and Other Officials Here.

Delightful summer weather no doubt indirectly added to the large number of North Shore Masons attending special lodge meetings in this district this week when Most Worshipful Grand Master George D. Ellis, of St. John, N. B., and officers of Grand Lodge paid an official visit to the three North Shore Masonic lodges. Mr. Ellis and the accompanying officials visited Campbellton Lodge No. 32, F. and A. M. on Monday evening; Restigouche Lodge No. 25 at Dalhousie on Tuesday and will be with the members of Lodge St. John No. 27 at Bathurst tonight.

Mr. and Mrs. Ellis are spending a few days in town guests at the Chateau Restigouche. Mr. E. H. Cairns of St. John and a large number of masons from Newcastle, Chatham and other points also attended the meetings here and at Dalhousie.

Past Grand Chaplain, the Rev. Hugh Miller of St. David's Church, St. John, who is spending his vacation at his cottage on the Restigouche, also attended the meetings.

HOW TO VOTE

Electioners are cautioned to be careful in voting on Monday next, so that their ballot paper will be in order. Printed ballots such as the following will be supplied.

HENRY J. CURRIE
JOHN B. LEGERE

These ballots should be voted without a mark of any kind thereon. Make NO cross opposite any name. If you wish to alter a ballot this can be done by scoring out a name and writing in another on the ballot paper, but make no other mark on same.

Ballots of all kinds will be supplied both inside and outside the polling booth, and we would suggest that electioners use the printed ballots. Make No mark on Ballot Paper

THE LUMBER LORDS
AND THE GOVERNMENT

"I have refused the demands of the big lumber lords of New Brunswick. I have gone as far as reasonable and one step more I shall not go. Now I warn the employers of labor in New Brunswick that the Compensation Act is on the statute books to stay. Let them keep their hands off!"—Premier Veniot at Dalhousie Meeting.

No Shadow of
Scandal Against This Administration

"Supporters of the present Government can go through the length and breadth of this Province and hold their hands high for there is no shadow of scandal against this administration."—Premier Veniot at Dalhousie Meeting.

If Opposition Had
Charges to Make They
Would Have Made Them

"If the Opposition had any charges of graft against this Government which they could prove they would not have allowed eight sessions of the Legislature since 1917 go by without taking some action."—Premier Veniot.

MATAPEDIA, QUE.

Last week there was sent to this office Matapedia notes which contained two items which cast a serious reflection upon citizens of that place. Immediately we received complaint as to the nature of these items, we took steps to find out who sent these in, and are successful we will endeavor to teach that Smart Jane a lesson which she will not soon forget. In justice to our regular correspondents we wish to say that the notes did not come from her.

FIRST AIRPLANE

An airplane passed over Campbellton shortly after one o'clock last Friday and created considerable stir. It started from Halifax and is piloted by American aviators working for the government. After they inspect the Chaleur Bay mill lumber limits at Causapscal, Que., they will proceed to Quebec and stay there until the close of the exhibition.

ORDER NOW

You should have new letter heads and envelopes for the summer business. Order from THE GRAPHIC Phone 126.

RAND SAYS SINISTER HAND OF BIG INTERESTS SEEKING CONTROL OF PUBLIC AFFAIRS

Attorney General Cheered And Applauded By
Electors Who Pack Opera House Here As He
Delivers One Of The Ablest Political Speeches
Ever Heard By A Local Audience—Scores Mc-
Lean For Effort To Dominate Public Affairs—
Deals With Various Issues of Campaign—Colin
MacKenzie On Public Debt.

That behind the Baxter party in the present political campaign there is a sinister shadow which seeks to dominate the administration of this province and control the development of the resources of New Brunswick under "private interest" despotism toward the selfish gain of a certain domineering group, was one of the most significant statements made by Hon. Ivan C. Rand, Attorney General of the province, in his masterly exposition of the policy of the Veniot Government before a large enthusiastic body of electors in the Opera House here on Tuesday night.

A Masterly Address

The Attorney General's address, which lasted nearly two hours, was without doubt one of the ablest political speeches ever delivered before a local audience.

Mr. Rand dealt with all issues of the present campaign and in topping over the weak and flimsy criticisms of the opposition, gave a clear and comprehensive explanation of the Liberal Government's policy.

In the course of his address he also showed, through the employment of indisputable facts, the danger that threatened the province if the Baxter group—without a single definite pronouncement or any one issue—was permitted to get control of the affairs of the province.

A record crowd heard the Attorney General and tumultuous applause frequently punctuated the speaker's remarks. While Mr. Rand did not make what could be classified as "a fighting speech" his address was vastly more impressive because of the quiet, straight-forward way in which he discussed, so fully, the affairs of the province and all phases of the present political issue.

His entire speech was one of notable eloquence, a veritable cascade of effervescent oratory, never offensive or abusive but quiet and convincing from beginning to end.

Scores McLean

Angus McLean came in for some scorching criticism at this meeting in connection with the Grand Falls development. Mr. Rand declaring, in essence, that McLean had revealed himself as opposed to hydro development by the people, and standing for the beginning of the full school term the first free school books—for students up to grade V—could be issued. "This," declared the speaker, "is only a beginning, but it shows clearly that the government is alive to the constant needs and changes of social and educational life."

A Clean Record

After Colin MacKenzie had given a short address on "The Public Debt," the Attorney General opened his memorable speech by expressing his appreciation of the hearty welcome extended to him which was manifest by loud applause as he rose to his feet. He stated that time did not permit him going over the governments record. This stood for itself. He lauded Dr. Roberts for his good work as minister of Public Health, pointing out that this gentleman did this work without any remuneration beyond his salary. He referred to "Mr. Stewart" commented the speaker, the matter of School Inspection and "has seen a few men lying down by other Health Work among the young. The speaker pointed out the great necessity of this work among children for only through an up-to-date health policy designed to meet the needs of the times could the young of the land be adequately fitted in mind and body for the tasks of later life. Mr. Rand was essential and declared that the government had spent the people's money in Research and embracing every opportunity to formulate new improvements in the present Health Act. He lauded the Minister for the way in which he has endeavored to meet the needs of the people along this line and pointed out that this was one instance in which the Veniot government showed itself to be an administration characterized by open-mindedness and in step with the constant need of changes 25% lower than in Nova Scotia, Quebec, and New Brunswick.

Health Work

The speaker declared, however that there were several matters with which the average elector was not very familiar and he proposed to refer at least briefly on these topics. He lauded Dr. Roberts for his good work as minister of Public Health, pointing out that this gentleman did this work without any remuneration beyond his salary. He referred to "Mr. Stewart" commented the speaker, the matter of School Inspection and "has seen a few men lying down by other Health Work among the young. The speaker pointed out the great necessity of this work among children for only through an up-to-date health policy designed to meet the needs of the times could the young of the land be adequately fitted in mind and body for the tasks of later life. Mr. Rand was essential and declared that the government had spent the people's money in Research and embracing every opportunity to formulate new improvements in the present Health Act. He lauded the Minister for the way in which he has endeavored to meet the needs of the people along this line and pointed out that this was one instance in which the Veniot government showed itself to be an administration characterized by open-mindedness and in step with the constant need of changes 25% lower than in Nova Scotia, Quebec, and New Brunswick.

The Road Policy

The Attorney General deemed it unnecessary to dwell upon the matter of the Governments' wise Road Policy. There had been criticism, he said, "Mr. Stewart" commented the speaker, "has seen a few men lying down by other Health Work among the young. The speaker pointed out the great necessity of this work among children for only through an up-to-date health policy designed to meet the needs of the times could the young of the land be adequately fitted in mind and body for the tasks of later life. Mr. Rand was essential and declared that the government had spent the people's money in Research and embracing every opportunity to formulate new improvements in the present Health Act. He lauded the Minister for the way in which he has endeavored to meet the needs of the people along this line and pointed out that this was one instance in which the Veniot government showed itself to be an administration characterized by open-mindedness and in step with the constant need of changes 25% lower than in Nova Scotia, Quebec, and New Brunswick.

Speaking of Musquash Hydro the Attorney General showed up the fallacy of the opposition reports regarding the financial result of this venture the people that no obstacles of a financial nature should be allowed to that what Baxter would have the po-

TEMP. ALLIANCE ENDORSES DIOTTE

Asks Temperance People to
Vote For Diotte and
Stewart

The heads of the N. B. Temperance Alliance, who are evidently out to defeat the Veniot government at any cost, even at the cost of the Prohibition Act are placing the Temperance people in a ridiculous position, and one which they will not soon forget. Read the following copied from the Fredericton Mail, and then ask yourselves "Is this the temperance question or is the Alliance just 'playing politics' with its hundreds of members throughout this province."

Mr. Diotte Endorsed

The Bulletin further says: "All the candidates for re-election who were members of the Opposition and of the Progressive party in the last Legislature stood by and supported our policies all throughout the session." This of course includes Mr. Henry Diotte, member for Restigouche and now running in that county as an opposition candidate. In the course of a speech in the Legislature during the session of 1924 he is reported to have said: "In regard to prohibition there were some who could not pronounce that word without stuttering. A promise had been made that the law would be enforced. He liked the taste of it and hoped the price would be reduced so that the poor people would have a chance."

Wants Free Booze

Mr. Diotte again had occasion to address the House during the session of 1923 and in the course of his remarks again made reference to prohibition. Here is what the official debates report him as saying: "In regard to prohibition it seemed to him that everybody had talked about bootlegging and that sort of thing, and it was time that something should be done. Hon. members opposite were on pretty good terms with the Federal Government, as both went under the same name. He would suggest, therefore, that the Federal Government be asked to take the duty off of liquor, and possibly it might then be handled in the same manner in which it was proposed to handle school books, which was without charge. It now cost about \$31 a case, which was altogether too high. If liquor could be sold for \$1.50 or \$2.00 a bottle, it would be a good way to get rid of the bootleggers, as there would be nothing in it. If the bootleggers were cut out and prices reduced he thought the province would get just as much revenue."

The hearty applause of the opposition members during Mr. Diotte's speech indicated cordial approval of his statement of their case, but for some reason or other his views were not embodied in the party platform adopted at the St. John convention, nor does the Temperance Bulletin express any opinion either one way or the other in regard to it.

Members of the Temperance Alliance in Restigouche will know how to vote on August 10, and that will not be for either Stewart or Diotte.

SOME TIMELY FACTS
In his address here Tuesday night on the occasion of Attorney General MacKenzie's appearance before a local audience, Colin MacKenzie, the youngest speaker in the present political campaign proved some interesting points in connection with the finances of the province. MacKenzie did not depend on hearsay for the data for his remarks. He was equipped with undoubted facts and figures and for this reason his timely remarks must have found a lodging-place in every mind. The speaker followed the history of the provincial public debt and showed that it was now in reality only \$29,400,000 and not \$35,000,000 as workers of the Opposition were endeavoring to make people believe. Of this \$29,400,000 the Liberal Government is responsible for only \$13,000,000. For this \$13,000,000 the speaker showed clearly that every dollar had been accounted for. This was divided between Roads, Bridges, Hydro Development, grants for Welfare, Educational and Health Work and the balance to cover up the debt of the old Conservative administration.

Speaking on the charge of extravagance which is being made against the Veniot government the speaker stated that since the Liberal party came into power in 1917 the provincial revenue has been increased 140% and the debt increased only 50%. Such figures as these make the extravagance charge look like what it is—merely a misrepresentation of facts to delude the gullible.

MONTREAL FIRM GETS BIG CONTRACT AT LOW FIGURE

Will Build Dam, Power House and Other Structures for \$1,546,556—Veniot Sees Large Saving on Work.

St. John, Aug. 1st.—The Dominion Construction Company, of Montreal, was awarded the contract for the building of the dam, power house and other building in connection with the proposed development of Grand Falls, at a figure of \$1,546,556. It was announced early this morning by Premier P. J. Veniot, following a meeting of the New Brunswick Electric Power Commission which took some time yesterday afternoon and continued for about three hours last night. The gross estimate of the engineers for the work was \$2,033,000, or \$486,444 above the winning tender.

Eight Bids Received.

There were eight tenders, the bids being as follows:
Johnson Brothers.....\$1,819,041
Russell Construction Co.....\$1,812,152
Atlas Construction Co.....\$1,750,561
Northern Construction Co.....\$1,715,136
Foundations Company.....\$1,629,367
Chamber, McCaffrey, McQuinn Company.....\$1,549,003
Peter Lyall and Sons.....\$1,570,295
Dominion Construction Co.....\$1,546,556

Nearly \$500,000 Saved.

In speaking of the contract late last night, Premier Veniot declared that the estimate of the engineers, \$2,033,000, was \$486,444 above the lowest tender and \$238,959 above the highest. "This," he said, "is a saving of practically half a million dollars in the contract price of this work. This saving, added to the \$300,000 less than the estimate saved in the settlement of the International Paper Company, makes an excellent showing and goes to prove there is absolutely no fear the estimate of the engineers will be overrun as the balance of the cost of the enterprise is a matter of calculations upon which no error can be made," the Premier concluded. The contracts will be signed today.

CLUB MATCH SET FOR SATURDAY

Presidents and Secretary's
Teams To Compete At
Country Club

A club match will be held at the Golf Club this week when the President's team will play against the Secretary's team. Play will commence at 2 P. M. Saturday August 8 and matches must be completed by Wednesday, August 12 at 7 P. M. Any competitor who cannot play at 2 P. M. Saturday is requested to get in touch with his opponent and arrange another time. Eighteen holes match play. All players have been matched against others of similar handicap as far as possible and handicaps will not count. The side scoring the greatest number of points in all the matches win the event. The order of play is as follows:

President
Mowat, M. M. vs. H. A. Carr
Shepard, F. E. vs. McKenzie, Geo.
McRae, F. J. vs. Ferguson, Wm.
Armstrong, H. M. vs. Wallace, G. A.
Anslow, H. B. vs. Dimock, S. W.
Burley, H. C. vs. McDonald, J. W.
Fleck, W. W. vs. Scott, Geo.
Fitzmaurice, W. R. vs. Mowat, J. T.
Gilbert, L. A. vs. Mowat, E. P.
Harrington, A. G. vs. Roy, Rev. T.
Gibson, R. H. vs. McNair, Rev. W. W.
Graham, Aubrey vs. Mowat, F. T.
McLaughlin, A. P. N. vs. Sullivan L.
Russell, A. H. vs. Robinson L. H.
Miller, W. H. Jr. vs. McLennan, Cyrus
Miller, W. H. vs. Richards, W. S.
Miller, W. H. vs. McLennan, Alex.
Ingraham, A. vs. Mott, W. M.
Rossborough, R. B. vs. Miller, J. E.

GARDEN PARTY
A garden party under the auspices of the United Church will be held at Matapedia, Que. on Wednesday, Aug. 12th, afternoon and evening. Supper will be served. A program of sports has been arranged—July 27th-28th.

CHEAPER SUGAR
One hundred pounds of fine granulated sugar can be bought for seven dollars and thirty cents at the CAMPBELLTON CASH AND CARRY STORES.

FOR SALE—One Taylor Safe, one first class Counter Scales, Adding Machine and Cash Register, Cheese Cutter also Sewing Machine and range. Apply to Mrs. F. J. MacDONALD. August 4-1w.

BAXTER DECLINES TO MEET PREMIER

Refuses Veniot's Challenge For
a Joint Debate in St.
John This Week.

St. John, N. B., July 31.—The doughty Colonel has again refused a call to battle. Asked this morning regarding a challenge issued by Premier Veniot in which he expressed a desire to meet Col. Baxter in a public debate in St. John next Thursday night, the Opposition leader said that his engagements had been made for some days to come and it would be impossible for him to change them now to address another meeting in Saint John. He is leaving this afternoon on his final tour about the province before the balloting takes place. Opposition followers to day expressed disappointment over the party's meeting here last night. They admitted there was a lack of enthusiasm and that the bubble which had given them hope had burst sooner than expected.

The Graphic \$2.00 year.

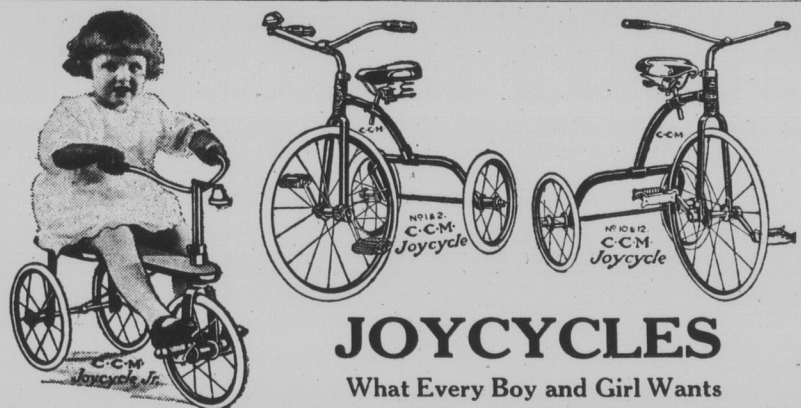

PROGRESSIVE LAW OPPOSED BY DIOTTE

Would Not Give Local Workmen
Needed Protection
From Outside Labor-
ers.

When the matter of placing a tax upon every laborer who came into Restigouche county to work in the mills or about the wharves during the summer months, (men who enjoy all our privileges, but contribute not one dollar towards our taxes) was up for discussion at Fredericton last spring Mr. Henry Diotte, one of the members of the Municipalities committee opposed it. At least the county legal adviser, in answer to a question of Councillor Firth, said he did, and we have no reason to doubt his word. The local workmen will remember Mr. Diotte's attitude was they mark their ballot on August 10th. Workmen, we ask you. Does he deserve your vote?

"HIS MASTER'S VOICE" VICTOR RECORDS

This is your opportunity to buy Victor Records for 55 cts. Come in and pick out your favorites.

THE CENTRAL BOOKSTORE.

Every Automobilist in New Brunswick Knows This to Be True:

THAT FAR AND WIDE THROUGHOUT THE PROVINCE it is now easily possible, by reason of the splendid new Government highways and by-ways, to make business and pleasure trips with comfort, speed and real travelling delight. The farmer with his truck finds marketing facilitated, the outsider is attracted to our country in the tourist season. New Brunswick is now linked up with the great transcontinental roadway system of United States and Canada.

And More Than That, Everybody Knows:

THAT he can now traverse New Brunswick safely and comfortably and expeditiously.
THAT dreaded hills and curves, gullies and cliffside have been eliminated.
THAT business houses are now selling their goods by N. B. auto routes.
THAT it is now possible to motor your family on visits, picnics and sightseeing.
THAT New Brunswick can boast as good highways as the Continent at large.

THAT no better claim for support could be made by any Government.

THAT the Government's road policy has helped keep people working in old times.

THAT our children are learning to appreciate their homeland by automobilizing.

THAT the marketing farmer and his auto truck is a new element in business.

THAT good roadways improve business conditions uniformly in every direction.

The Government Deserves Your Vote

PREMIER VENIOT at DALHOUSIE

TELLS THE ELECTORS OF RESTIGOUCHE WHAT HYDRO MEANS TO THEM

Big Interests are After Our National Resources
and are Definitely Placed—A Record of Good Government.

What was without doubt the largest political gathering ever held in the county of Restigouche, outside of Campbellton, was that addressed by Premier Veniot at Dalhousie, Saturday evening. There were representatives from every section of the county, and the meeting was most enthusiastic.

Mr. J. T. Hebert acted as chairman, and with a few preliminary remarks, introduced Mr. Harold Ramsay of Bathurst.

Mr. Ramsay, who is a forcible speaker, reviewed the record of the present administration from 1917 to date, and showed what a progressive and honest administration the province had enjoyed during the past eight years.

In speaking about the roads Mr. Ramsay reminded the audience that the taxpayers were not taxed to build the main trunk roads, that these were taken care of by the auto license fees. The roads were in splendid condition, and every one knew that good roads bring business to the province.

The development of hydro was another distinctive policy of this government. Hon. W. E. Foster advocated the development of our waterways, and was instrumental in proceeding with the development of Musquash. While the opposition speakers say this was a colossal blunder, the people of St. John and the towns and cities from Musquash to Moncton did not think so. It had saved the citizens of St. John \$200,000 last year, and Moncton \$60,000. This had all been accomplished in the first year, with only \$1,800 deficit, and he understood that the past six months had shown a betterment of \$8,000.

Mr. Ramsay said it looked strange that the big interests had supported Mr. Rand in his election last January, but these were now allied against the government. But the reason was now evident to all.

He said that the development of hydro would mean much to Northern New Brunswick. New industries would be established and much employment provided.

In conclusion he said that he felt sure that all would say that they wished this government to remain in power, and consequently it would be the duty of all to vote for the government candidates. "Applause."

The chairman then introduced

Premier Veniot.

Hon. P. J. Veniot

Premier Veniot was greeted with cheers and applause when he stepped forward to address the meeting. He thanked all for coming in such large numbers to hear him discuss the issues of the campaign. It showed that a healthy public interest was being taken in events of the day. The most important issues placed before the people were brought forward in this campaign. There were two of these. First—Development of hydro at Grand Falls.

Second—The attitude of certain lumbermen, not all, as some are honest and have the best interests of the province at heart.

The Lumber Lords

He cautioned his hearers not to allow the lumber lords to get control, because if the opposition should win, just as surely will they control the administration. He assured the meeting that these lumbermen could never take his government by the throat and demand and obtain concessions. He would go down to defeat first.

The Premier told of the visit of the lumbermen to the government on June 3rd. They had asked for three things: Reduction of stumpage.

Adoption of the Quebec scale.

Reduction of stumpage.

Adoption of the Quebec scale.

Reduction of stumpage.

warned the lumber men, the men who worked in the woods and the small contractors, what a reversion to the Quebec scale would mean that 1,350 feet would have to be cut to make the Quebec "thousand" and that the price would remain the same at it was at present time. This would affect the wages of every man who works in the mills or the forests of New Brunswick.

At a meeting held at Newcastle after the lumbermen had been given their answer, which agreed to a reduction of stumpage, Mr. Angus McLean of Bathurst had been the chief spokesman. Mr. McLean had demanded a refund and said that if it were not granted the association would refuse to support the government.

"Angus McLean the very man who has lately turned against the development of Grand Falls and who says the price per horse power delivered would be prohibitive, was the person who urged me to take the Chairmanship of the Hydro Commission, and to rush the work so that his firm could have the power at an early date to extend the pulp and paper industry. Only two months ago, he urged the construction of a transmission line from Campbellton to Bathurst to tie up with the Quebec Company at Matawebia so as to give power at Bathurst, pending the development of Grand Falls, and the only reason for not carrying out this scheme was that the Quebec Company could not furnish the required power. He was the man who recommended the employment of W. S. & R. S. Lea, Consulting Engineers, to check up the work with Mr. Acres. I cannot understand his present attitude. It is a mystery to me, because in all our discussions he never raised any objection to the cost of power delivered."

Wants Power

"I hold his telegram dated April 29, 1925, in which he says: 'We are prepared to contract at once for 10,000 or 15,000 horse power providing cost is low enough to compete with Quebec, who is our chief competitor in producing newsprint.' This same firm is competing now with Quebec when horse power is costing them from \$5.00 to \$7.00, why would they not compete to better advantage with Grand Falls power at less than \$30.00. I have telegrams showing that the price of horse power in Quebec ranges from \$20.00 to \$30.00 and from \$18.00 to \$22.50 in Ontario said Premier Veniot.

The Big Interests

"Mr. Baxter stated that I insinuated

the Opposition was allied with the 'big interests.' I did not insinuate anything of the kind. I have made a plain statement of fact, touching the alliance and if anything were wanting to prove this, I have only now to refer you to the decision taken by the lumber lords, who, because I would not give them what they wanted, have met in caucus and decided to oppose the government."

"The fight is between the lumber lords of the province and the people. It is a repetition of the lumber deal of 1913, when they paid Flemming \$15.00 a square mile to give them the classification of timber leases they wanted, as well as a fixed rate of stumpage at \$1.50 per thousand for ten years."

The Opposition are allied with the 'big interests,' working against the development of Grand Falls under government control. Every one of them are fighting the government. They fought us before Quebec Legislature, before the International Waterways Commission, in private and in public. We beat them out and now Mr. Baxter is fighting their battle before the people. He dare not pronounce in favor of government development, because the moment he does so, he will lose their financial support in this election.

Hydro Development

The question of hydro development of Grand Falls is the most important which has ever been considered in this province. You well know that New Brunswick is not making the industrial strides she should. We cannot manufacture in competition with Quebec and Ontario which have hydro. To remedy this something had to be done, and that remedy was the development of Grand Falls.

"If we develop Grand Falls, and we can develop it at a price that will make it possible to distribute it through the length and breadth of the province, it will bring new people and new industries to New Brunswick," the premier declared. "It will mean more work for the laboring man. It will mean a market for the products of the forests and the sea and the utilization of the great wealth of natural resources and their manufacture into finished products."

Why Baxter Returned

The reason for Dr. Baxter's return to the Province of New Brunswick was next discussed by the Premier.

"He has come to New Brunswick because he is working in the interests of the 'big interests.' I stated before that Mr. Baxter is affiliated with the big interests and if you have any need of proof of it read the article in the St. John Telegraph Journal signed by Angus MacLean in which the latter says: 'Why does not Premier Veniot, if he has the demand for 10,000 horse power and can supply only 50,000, not turn over the Grand Falls to the four big lumber operators of the province and we will develop it.'"

The Premier then told of the fight waged by the Montreal Gazette against the Government of New Brunswick when its representatives had appeared in Quebec seeking for the storage rights for Grand Falls and of the campaign which was launched simultaneously in the province itself by the Opposition backed by the big interests. Mr. Baxter, he said, does not dare say where he stands on the question of the development of Grand Falls and whether or not he will support the public development of that great natural resource.

"It has been stated that \$30.00 per horse power for Grand Falls power delivered at Bathurst would be prohibitive," said the Premier. "I have looked into the cost of power in some twenty-four towns, cities and municipalities in Ontario and I find that at London, average cost is \$20.55; Litchfield, \$26.68; Sarnia, \$33.95; Simcoe, \$26.91; Smith's Falls, \$31.34; Toronto, City, \$22.52; Goderich, \$29.55; Chatham, \$28.42; Chippewa, \$20.71, etc."

Mr. McLean in one breath says we have no market and in the next complains because we have agreed to sell 5000 H. P. in Quebec and 4000 in Maine. In regard to this matter of market, the commission has prospective markets for at least 70,000 H. P. and the initial development will only be 50,000 H. P. He also stated that already surveys are being made for a pulp and paper mill on the Restigouche.

Mr. Baxter has not dared to make a pronouncement on the question of public or private ownership and development. In the absence of such definite statement, one can only judge of the policy already announced, first by Mr. Baxter in the House of Commons in 1922 and in May 1924, when

ship, and secondly, Mr. Richards' statement in the Legislature in 1924, when he rather favored private development. Why does Mr. Baxter not define the policy of his party on this very important question? Is he afraid of losing the support of the 'big interests,' if he declares in favor of public ownership? The Government policy is clear cut and definite.

On two occasions within the past ten days he, (the Premier) had issued a challenge to Mr. Baxter to discuss the issue at St. John meeting, but he noticed a note in the paper that the gallant colonel had refused, stating (Continued on page 9.)

Re-Vitalize New Brunswick With Grand Falls Hydro Power --Same as Quebec and Ontario-- And Bring Our Boys and Girls Back Home

Examine This Sheet Carefully

It is from a recent issue of The Financial Post of Toronto and was a potent argument on the campaign against the export of hydro power from Canada. The accompanying pictures are carefully figured estimates of what only 1,000 h. p. of hydro amounts to in plants, factories, wages, etc. The figures are indisputable, based on actual results in Canada and authenticated by the Post's financial experts, and used by them as an argument against the export of Hydro power from this country.

**SO-- IF 1000 H. P. Means This Much See What
The Grand Falls Development of a 50,000**

H. P. Minimum Will Mean To Our Province

**Multiply the Above Picture Figures by the Grand Falls Minimum
Output 50 Times Greater and You Place in New Brunswick--**

**\$7,250,000 In Power Plants
\$80,550,000 In Factories
\$27,887,500 In Wages Yearly
\$667,500 In Power Wages
18,750 Employees In Plants
400 Workers On Power
110,000 Persons Helped,
BESIDES**

the many millions of dollars in the purchasing power of all communities, helping and re-creating every line of trade and commerce in this province.

LEADERS IN BUSINESS AND FINANCE, who have no selfish interest to serve and who are not seeking to retard the progress of the Province for the reason that they wish to keep out competition, agree that there is now and always will be a market in Canada for all the hydro power that can be developed along the international boundary from the Atlantic right through to the Pacific. The Snawinigan Power Company's general manager is one of the experts who recently made that positive assertion. Grand Falls certainly comes in that category. It is a project which offers industrial salvation for the Province of New Brunswick. On August 10th YOU will decide whether the Veniot Government shall go ahead with the development of Grand Falls or whether this most potential of all natural water powers east of Niagara shall be handed over again to the "big interests" to remain dormant for many, many more years. Remember the Musquash attempt by the private owners' ship ring!

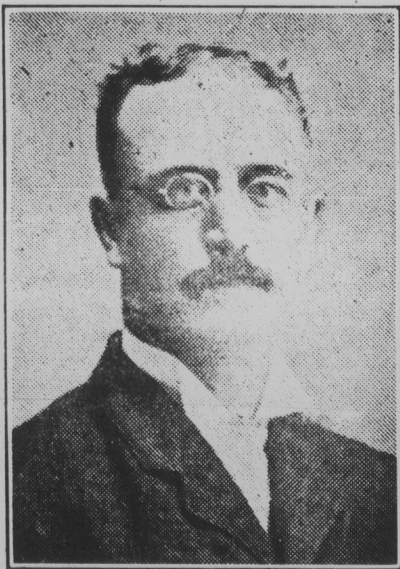

CHEAP POWER WILL CREATE INDUSTRIES.

PORT DANIEL

Salmon season is at an end here and

fishermen report a small catch.

We are pleased to welcome back in

our midst the Rev. E. E. Roy, Rural

Dean of Lewis who was our pastor

eighteen years ago and who is here on

a short vacation. While here he

will conduct the services in the Mis-

sion. (Anglican.)

Our Lay-reader, Mr. Wm. Jones

who has worked among us for a year,

preached his farewell sermon here on

Thursday evening the 16th inst. to a

large and appreciative audience. He

was presented with a gold watch and

for suitably engraved.

The address was as follows:

Dear Mr. Jones:

We the congregation of St. James'

Church, Port Daniel, wish to express

our deep regret at your removal

from amongst us. Your presence

amongst us has been a great pleasure

to us all, and your ministrations and

preaching will ever be remembered as

you have surely taught us, by example

as well as by precept, to walk in the

paths of righteousness.

As a slight token of our love and

esteem, and of our appreciation of

your services amongst us, we present

you with a watch and fob with all

good wishes for your future welfare.

On behalf of the congregation.

VALUE OF LOCAL PAPER

The frequency with which small town newspapers in Ontario have been suspending publication simply because the proprietors could not make a decent living, is, to say the least, alarming. The local weekly paper is the last line of defence which the small town merchant has at his command to tell his weekly store news to his customers, present or prospective. When, from any circumstance, the local paper is forced to close up shop, there is no other weapon with which the small town merchant can continue to fight his battle, unless he resorts to bills, and that is much more expensive.

Probably the most educative illustration of the consequences ensuing from the cessation of the local weekly was supplied recently in the town of Thorold. Owing to Thorold's proximity to St. Catherine's, the daily press of that city found it a fruitful source of business, which was largely obtained at the expense of the Post. So much so, that the editor decided that the town needed a lesson which he very effectively taught. He discontinued the Post and devoted his whole attention to job work. In less than a year so anxious did the Thorold Board of Trade become to have the paper again published, that they secured for him more advertisements than he could carry in an all home-print, eight-page paper, and paid up a rate almost double that prevailing in Wellington. Thorold, which has a population of over 5,000, did not realize what the home paper really means to a community, until that paper was for a time discontinued. Since its former.

Use the Want Ad. way

FOR SALE—Sand and gravel promptly delivered to any part of town. A large stock always on hand. Right measure guaranteed. Out of town orders promptly attended to. Give us a trial order and you will find our prices and service right. BENJ. AMIN LARSEN, Ramsay St. Phone 281. April 13-14

Fine for catarrh when melted in spoon or snuffed up the nose and vapors inhaled.

Head and Chest Colds Relieved In a New Way

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks Vapo-Rub reaches immediately into congested air passages. This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 15 million jars are now used yearly.

Splendid for sore throat, tonsillitis, bronchitis, croup, head and chest colds, catarrh, asthma or hay fever.

Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

CAMPBELLTON, N.B., AUG. 6, 1925.

SIDE STEPPING.

Was there ever a funnier election? Condemning the government hydro policy, but making no promises of their own the opposition ask to be given control of both the Musquash and the Grand Falls. Condemning the prohibition record of the government but making no promises of what course they will follow in regard to the sale of liquor, the opposition asks to be given authority to handle that question. Condemning the health legislation of the govern-

ment but side-stepping any promise either to repeal or alter the health policy, the opposition ask that Dr. Roberts be put out and that they be given charge. So it is with everything else. There is condemnation of the government for its Crown land administration but no promise of how the Crown lands will be administered. There is condemnation of the government because of the Workmen's Compensation Act but no promise of any change in the act. It is a campaign of condemn this and condemn that, with absolutely not one real promise of anything different yet people, sensible applaud and give support to the campaign as if political issues were being seriously discussed instead of being treated as a joke. The attitude of the opposition is a warning which everyone should treat as a real danger signal. An opposition should have some principles and some constructive policies.—Globe.

THE OLD TRICK

Part of the game of the Opposition is to prophesy of great victories at the polls, so that we may expect anything. But every Government candidate is feeling confident and has reason to be. The Government will carry the Province by a sweeping majority. It recognizes that it can only fear the gigantic fund which the big interests have put into the campaign to buy up voters and work-

ers, but it believes the citizens appreciate their true interests. At present there are just eight seats where the outcome is uncertain; all the rest seem certain for the Government.

RAND SAYS SINISTER HAND OF BIG INTERESTS SEEKING CONTROL

(Continued from page 1.)
ple believe represented a loss was a Second Sinking Fund provided by the government for permanent improvements to the very successful hydro development. He emphatically declared that the people of the province have never had to pay \$1.00 of any loss in connection with Musquash and ventured to say that they never will be called upon to do so. St. John is being supplied electric power at 2 15 cents per K. H. formerly paid the St. John Power Company. Sackville and other towns are clamoring for power.

Grand Falls

The speaker declared Grand Falls the only first class water power possibility in the Maritime Provinces. He made this statement on the information of Mr. Acres who is conceded by the Minister of Lands and Mines in the Ontario government to be one of the best, if not the best hydraulic engineer in Canada. To uphold this statement Mr. Rand read a letter from the Ontario Minister and also a portion of Mr. Acres report on Grand Falls delivered before the House during the spring term.

The only objections the Conservatives have against the immediate development of Grand Falls is that we don't know enough about it and that the people ought to be given an opportunity to decide the issue. The Attorney General quickly exploded these foolish contentions. He pointed out that the average elector knows nothing about hydro development and could not vote intelligently on such a question. As to data, engineers of highest repute had been engaged and these experts declare that this data is sufficiently complete.

Baxter's Bluff

The leader of the opposition has criticised the governments contract with the International Paper Co. "Mr. Baxter knows," declared the speaker, "that this transaction was entirely reasonable and economically satisfactory. It has been said that the deal had been consummated at the expense of the province. Not one jot or tittle of the rights of New Brunswick were surrendered!" declared Mr. Rand.

A Big Undertaking

The speaker pointed out that the securing of the rights of Grand Falls had been a most difficult undertaking. It was necessary for the government to lay its case before the International Commission which is composed of three men from Canada and three from the United States. At first the American members of the Commission

demand a share of the power which would be generated and other serious obstacles were confronted. Yet the government had succeeded in effecting an agreement merely by offering interests in Maine electric power at the same rate as would be charged in this province. In this way they had got around serious difficulties which might easily have held up the entire development of New Brunswick's premiere water power.

McLean's Criticism

Dealing directly with Angus McLean's criticism of Grand Falls development the Attorney General stated that the only objection of this gentleman, "whose colossal egotism is almost beyond belief," was that he claimed the government did not have enough data, but would not say what data. In reply to this the speaker said that Mr. Acres declares that the data on Grand Falls is more complete than on any other power development in the country and added that he is willing to stake the opinion of this expert against that of a man who knows nothing about it. The speaker also suggested that Mr. McLean tell the people of the province the result of his own power development on the Nepisquit River and thus furnish an example of what private enterprise has accomplished in hydro development. (Loud applause.) Following this the speaker pointed out that the government had saved \$800,000 on the Grand Falls project already; \$500,000 of this was saved on the contract awarded last week and \$300,000 on the agreement with the International Paper Company.

Cost Of Hydro

The speaker placed the cost of the Grand Falls development at \$133 per H. P. a figure which compares most favorably with Ontario power. He also stated that he had been authorized to divulge the power rate to consumers. This, he declared was \$24 per H. P. and not \$30 as suggested by Mr. McLean.

Another Round

Taking up the matter of McLeans recently published letters the speaker took another round at this "egotistical gentleman" who, he declared was giving out the manifesto of the Conservative party and therefore doing what Mr. Baxter should have done. Taking up the McLean letters published in Monday's Telegraph-Journal, the speaker described it as revealing the "gorgeous simplicity one finds in a child," and proceeded to tear "this literary gem" to pieces in a manner that brought prolonged roars of applause from the audience. From this later, he declared it was plain that Mr. McLean is seeking to dominate the affairs of this province and secure for himself the development of Grand Falls.

Workmen's Compensation

Dealing with the criticism of the Workmen's Compensation Act the speaker declared that an exhaustive investigation of this measure by an expert revealed its cost to be extremely low. The operation of this act in New Brunswick cost only \$62,000 while in Nova Scotia it cost \$115,000.

Refund Impossible

Dealing with the demand of the lumber lords of the province for a refund, the speaker emphatically declared that the province could not stand a refund.

Closing his address with an appeal for support of the government Mr. Rand declared that the great natural resources of the province should be dedicated to the use of the people and stated that this was the staunch contention of the Veniot government. Their hope was to bring greater prosperity to our people, provide new industries and new opportunities, which would keep our young people at home and repopulate the farms. In concluding, the Attorney General declared that a vote for Baxter would mean not a vote for Conservative government but a vote for McLean and the Lumber Lords of New Brunswick who were seeking to dominate the affairs of the province.

Public Debt

Colin MacKenzie gave a short but forceful address on the public debt. He stated that the large crowd convinced him that he was right in campaigning for the return of the Veniot Administration. He classed this election as "right against might," the former meaning the present Government and the latter the Opposition party.

He took up Hon. Dr. J. B. M. Baxter's speech of Saturday night here, with reference to the debt of the province. He quoted figures from the report of Price Waterhouse and Co., auditors, to support his argument of how this debt was incurred.

Says \$15,000,000 Debt

When the Conservative Government came into power in 1908 the debt was six million dollars, and when they were overturned in 1916 the debt was increased to fifteen million, he said. The gross debt of to-day was thirty-three million, of which fifteen was the old debt left by the Conservative Government in 1916 and eighteen million in bonds.

He also stated that the Conservative party increased the debt by fourteen million with nothing to show for it, whereas the present Government had valuable roads and bridges by which this province was making thousands of dollars yearly through the tourist trade.

His Net Debt Figures

He figured the net debt of the pro-

ELECTION CARD

Ladies and Gentlemen of Restigouche Co.

On August 10th, you will be called to exercise your franchise.

Premier's Broken Pledge.

The Premier's pledge on the floors of the Legislature was that the question of the development of Grand Falls would be submitted to the people at a general election for their approval or disapproval before a single contract would be let. In that the Premier has broken faith with the people of the Province.

The Government's Extravagance.

During the present government term of office of eight years since 1917, the debt of the Province has been increased from around fifteen million dollars to thirty million dollars. An increase during the said eight years of as much as was added to the debt of the province during the forty years following Confederation in 1871, and the present government now proposes to increase it ten million dollars more through the Grand Falls construction without proper data and without knowing what expense the development of Grand Falls may add to the public debt.

Health Act

The Opposition Candidates recognize that the question of public health is today one of the most important branches of a government's work and they favor giving efficiency in carrying out the pro-

visions of the present Act and of improving the working conditions thereunder.

Prohibition

The Opposition Candidates fully realize that the enforcement of the Prohibition Act under the present government has been a farce, and if elected promise to support vigorously the proper enforcement of the present Act.

Provincial Finances

The Opposition Candidates fully realize the financial situation of New Brunswick today and the reckless expenditure of public monies during the past few years and support as a plank in its platform, strict economy and retrenchment.

The present fight is no longer a party fight but a fight for relief from the oppressive legislation of a government dominated by a clique of two or three men.

Vote for David A. Stewart and Henry Diotte, the Candidates of the opposition Party, whose policy is:

1. The development of Grand Falls for the people if they wish it after a careful investigation made by experts and acquisition of all data regarding costs.
2. Street economy.
3. Proper enforcement of the Prohibition Act.
4. More efficient administration of the Health Act.

vince at \$29,400,000 not \$37,000,000 or \$38,000,000 as announced by members of the Opposition. With the value of the dollar compared with that of 1908, Mr. McKenzie asked what the debt would be now if the Conservatives were still in power. The revenue in 1908 was \$1,300,000. The Conservative party increased it by 25 per cent or \$1,600,000, whereas the Liberals increased it by 140 per cent, or to \$3,800,000, he said. Mr. McKenzie said the Opposition were saying that we were facing bankruptcy. He said that the chief bonds-

men in the Maritimes were clamoring for bonds of New Brunswick and that they were selling at 99.9. He said money well spent was not extravagant and that the present party were giving the people value dollar for dollar. He said that he had heard a parody on the popular number, namely, "It Ain't Goin' to Rain No More," the words being "We ain't goin' to graft no more, but if we get our hands on hydro we are sure going to rob some more." There was great laughter, speakers with fitting remarks.

CURRIE AND LEGERE NOMINATED CANDIDATES ON MONDAY

(Continued from page 1.)

have been out for eight years now and are cold and hungry and want in."

That Mr. Stewart's memory is failing for in discoursing on the extravagances of the Government he forgot to tell us how much it cost when he was in the Government to paint the railing of the old, tumble down bridge over Walker Pond just below Campbellton. If that payment was considered all right, why worry over some little expenditure of the present Government.

That Mr. LaBille is going to secure one vote surely, as he threw out a nice bid for the support of Mr. Stewart when he told the people that if he (LaBille) were elected, he would vote to secure the portfolio of Minister of Public Works for Mr. Stewart. It is surely plain that Mr. LaBille's sympathy is with the Stewart party.

That Mr. LaBille is living in the remote past and he enjoys telling the people how he was appreciating the worthies of long, long ago, Hon. A. G. Blair and others—but fails to explain that although willing, oh so willing to take upon himself the responsibilities of a representative of the county, he has always failed to get the nomination and although not asked to "come out" has again and again thrust himself on the people, to the embarrassment of what he calls "his own party."

That eventually Mr. Stewart aspires to a Cabinet position. What should we call that aspiration? Ambition—Well, hardly. The little dog who had a nice bone in his mouth and, crossing a brook, saw the reflection as he thought of another dog with another bone, snapped greedily at the second bone. Alas! Mr. Stewart. We are afraid that neither circumstances, grace nor ability ever intended that you should hold a Cabinet position.

That if a Cabinet Minister should be found resident in Restigouche Co. and of Opposition leanings, the electorate should pray that the position would not carry with it the right to expend large sums of money. Memory seems to suggest that the little purchasing done by Mr. Stewart in a Government capacity was done from his own brother-in-law and at lovely prices.

That Diette assumes no responsibility. Laughs and jokes about the whole matter and the only serious thing about the whole matter of the candidacy of the immortal Henry is that his position at Fredericton during the last four years cost the rate-payers of the Province \$1,000 each year. But Henry saved \$999 of it. So that's that.

That friends of prohibition who are in a condition of dissatisfaction with the Government can, unfortunately, find no ray of hope in the attitude of the Opposition. The platform utterance of the Opposition Monday contained not one word of what they will do for the cause of Temperance. We only know that the leader of the Opposition is a determined enemy of a Prohibition law—that he has not one real, at the heart, prohibition follower in his Cabinet slate.

That in the ranks of the Government party are found the most sincere friends of moral reform and if backed up by a united people at this election, will do for us an exceeding good work along the lines of prohibition—Mothers' Allowances, Prevention of Disease and care for babies of poor people.

AFTERNOON TEA
Afternoon tea will be served at Riverside Park on Friday afternoon, August 7, from 4 to 6. Proceeds to go toward the Milk Fund.

That if the people go back on the Government at this time and thus prevent the development of New Brunswick by the aid of Hydro, the Province will be set back many a year and we of the present day will have to toll along from hand to mouth and leave the prospect of a glorious future to men who will develop this vast great asset of our Province through some private company, the members of which will become wealthy while we will be left to grope along, because we are being misled by the fairy stories of Baxter and Stewart.

That it is your privilege and your duty to get into the van of that great throng who are pressing forward in the development of this province—through the homes, the children, the schools, the churches, as well as the natural resources, who will be found at the polls on the 10th instant depositing a vote for the Liberal candidates, exponents of a policy of progress in all phases of our provincial life.

NOBODY LOVES
A DEAD TOWN ANY MORE

"Stay away from that town. It's a dead one." Do you want that to be said of your town? Of course you don't for you wish as a matter of local pride if for no other reason, to have your town stand high in the estimation of the world. But are you sure that you are doing everything in your power to place your town in the position which you wish it to occupy? That is the question that every person should ask himself or herself at frequent intervals.

When things are running smoothly, when times are good, and when it is fairly easy to make a good living for the wife and kiddies, it is so easy for a man to forget that these things do not come to a town as a matter of course but are the results of the right kind of effort on the part of the citizens of the community. It is so easy for a man to grow careless and think that because this condition existed it will continue to exist without an effort on his part or that of the other residents of the community. That is why it is important for every one to stop and think seriously once in a while about what it would mean to him if the prosperity that makes life worth living for him should take wings and fly away.

ESSEX COACH—For Sale at a bargain, an Essex Coach, run less than 9000 miles, new tires, overhauled and newly painted.

For particulars apply to H. B. ANSLOW, Campbellton.—July 29-31st.

FULL OF ACHES
AND PAINSToronto Mother Found Relief
by Taking Lydia E. Pinkham's
Vegetable Compound

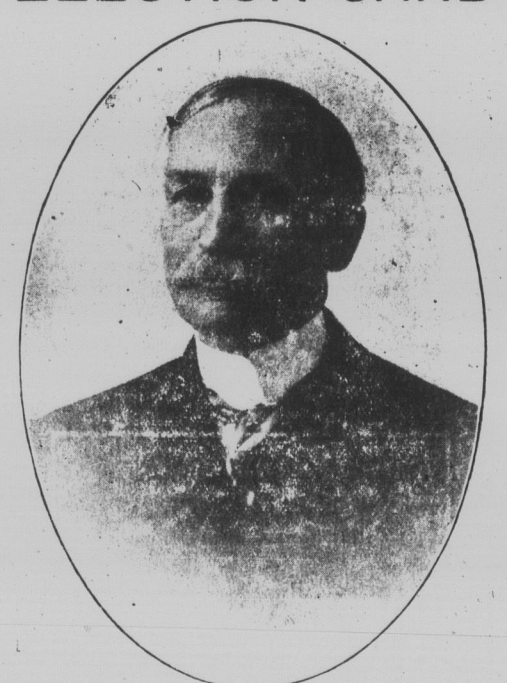

Toronto, Ontario.—"I have found Lydia E. Pinkham's Vegetable Compound a splendid medicine to take before and after confinement. A small book was put in my door one day advertising Lydia E. Pinkham's medicines, and as I did not feel at all well at the time I went and got a bottle of Vegetable Compound right away. I soon began to notice a difference in my general health. I was full of aches and pains at the time and thought I had every complaint going, but I can truthfully say your medicine certainly did me good. I can and will speak highly of it, and I know it will do other women good who are sick and ailing if they will only give it a fair trial. Lydia E. Pinkham's Liver Pills are splendid for constipation. You are welcome to use my letter if you think it will help any one."—Mrs. HARRY WESTWOOD, 548 Quebec Street, Toronto, Ontario.

The expectant mother is wise if she considers carefully this statement of Mrs. Westwood. It is but one of a great many, all telling the same story—beneficial results.

Lydia E. Pinkham's Vegetable Compound is especially adapted for use during this period. The experience of other women who have found this medicine a blessing is proof of its great merit. Why not try it now yourself?

ORDER NOW
You should have new letter heads and envelopes for the summer business. Order from THE GRAPHIC, Phone 126.

ELECTION CARD

To The Electors:—

Ladies and Gentlemen,—In answer to the request of a great number of electors, I have consented to be a candidate at the election to take place on the 10th day of August, 1925. I have accepted the honor because I feel that our growing county should be represented at Fredericton by men of experience.

I am proud to have been born of an honest and modest family. I have lived in many homes since the death of my parents. I have always taught that work and probity are the surest ways to success.

After I returned to my native town, Dalhousie, in September, 1881, from New Richmond, P. Q. where I spent two of the happy years of my life, and when I managed a large business and won the esteem and respect of all classes and creeds, I was elected to represent my native county in the Legislative Assembly of New Brunswick.

During the twelve and a half years I handled the affairs of the County of Restigouche, which passed through a period of harmony, progress and prosperity, unexampled in its history.

The evidences of respect and esteem you have given me in the past leads me to believe that you have not been indifferent to my work.

Great questions confront the people of our province and county, and my only ambition is to be useful to the electors.

Having served the province faithfully, having brought to the discharge of the different functions which were confided to me much devotedness, a great industry and successful administration with the

splendid work to be seen in every section of the County of Restigouche, must impress every elector at this moment as to the advisability of giving me the opportunity to finish my work.

My successful administration of the Agricultural Department is a guarantee to the farmers. I am a true friend of the labouring classes. My past connections with Hospitals, Deaf and Dumb Institutions, assures my co-operation on all questions in which men or women take interest in the uplifting of humanity. I will put God and Country above party interest.

In all New Brunswick, my election would be hailed with delight and it would bring glory to the County, showing that the electors of the County of Restigouche, are influenced by sound principles of justice.

Running the election as an independent candidate at this stage, my object is to be the mouth piece in Parliament of the people who desire progress in the administration of provincial affairs, so that the burden of taxes may be diminished, rather than increased.

Justice to all classes and creeds. Justice for every citizen whether liberal or conservative. Full justice for the labouring men, who keep the wheels of industry turning.

Time is short to visit all parts of the County, but I ask one and all to do their share in bringing about my election.

Charles H. LaBillico
Dalhousie, N. B.
July 27th, 1925.

NEW RICHMOND
EVANGELISTIC SERVICES

A wonderful series of special evangelistic services was held in the congregation of New Richmond, Q.E., of which Rev. Alexander MacKay is pastor.

Three weeks services were planned but so great was the interest shown that the meetings were continued for nearly five weeks.

The evangelist was Rev. J. S. McKay now settled in the congregation of Millerton, N. B.

Mr. McKay is a man eminently qualified for such work, a man thoroughly sincere, of great earnestness, heart and soul interested in this great work of a man of faith and prayer, a fearless preacher of the gospel of Jesus Christ in all its simplicity and fullness and power.

The general testimony of the people throughout this community is that the congregation was never so stirred as during these meetings. Two weeks meetings were held in the large hall at New Carlisle West, one week in the Church at Grand Caspédia, one week in the church at Black Cape and the concluding week in the large central church at New Richmond. In each of these places everything possible was done to accommodate the crowds but there were many who could not get within the buildings and quietly and reverently stood by the doors and windows or sat in cars and wagons, listening attentively to the old story of Jesus and His love.

The result of these wonderful services has been a great spiritual uplift. There has been a general quickening of spiritual life. The Christian people have been greatly edified and there has been a great gathering of souls, upwards of one hundred came into the enquiry room seeking help and guidance and most of these accepted Christ as their Lord and Saviour.

Quite a number of the converts belonged to Plymouth Brethren families. Plymouth Brethren attended these services in large numbers.

On Sunday July 19th, the Sacrament of the Lord's Supper was observed when two hundred and twenty five communicants took part, the largest number in the history of the congregation partook of the Lord's Supper. During this service thirty five new members, many of them heads of families, many of them young men, were received into fellowship with the church in profession of their faith in Christ.

The last weeks meetings were held after the Communion Service on the 19th, inst., and it is expected that a great number of the converts of these on profession of their faith at the meetings will unite with the church on profession of their faith at the next communion.

"The Lord hath done great things for us whereof we are glad."

POINT LA NIM

Miss Ethel Glover is spending a few days at her home.

Miss Eunice McNeish and Miss Gertrude Glover are visiting Mrs. Harold McIntosh in Bathurst.

Miss Myrtle McNeish and Miss Annetta Glover are visiting down the Gaspé Coast.

NEW BRUNSWICK LEADS the WORLD
in PRACTICAL HEALTH MEASURESSOMETHING THAT IS HIGH ABOVE
THE TURMOIL AND STRIFE OF POLITICS

NO COUNTRY IN THE WORLD has yet experienced the thrill of satisfaction New Brunswickers enjoy today in the matter of Public Health. The simple reason for it is that this Province and the Government Party are the first to submit to Electors so brilliant a record of a health department accomplishment. New Brunswick is the mother of practical modern health legislation, the first to institute a Ministry of Health. Others are following suit and asking for our plans and specifications.

SEE WHAT THIS DEPARTMENT OF HEALTH
HAS ACCOMPLISHED ALREADY

A Tuberculosis Expert Touring the Province Continually.	Vital Statistics of Every Family Recorded by Government.
Serum and Anti-Toxin Depots in Every Locality in New Brunswick.	Backward Children to be Specially Taught and not Retarded.
Food Waters of the Province Regularly Examined in Government Laboratory.	Working Conditions in Factory, Warehouse and Office checked up.
District Boards of Health Vigilantly Inspect Sanitation.	Birthday Medical Examination of Everybody to Begin This Autumn.
Food Inspectors for Shops, Restaurants, Hotels, Dairies.	Child Welfare Departments to Assist Burdened Mothers.
Free Treatment to Check and Eliminate Venereal Diseases.	Free Dental and Optical Clinics for Children of Poor.
School Children Regularly Inspected by the Department of Health.	Milk Supply Safe-guarded Against Impurities.

FAIR MINDED, UNPREJUDICED VOTERS WILL SUPPORT THE GOVERNMENT THAT DOES THIS

VOTE for the GOVERNMENT

Premier Veniot at Dalhousie

(Continued from page 4.)

that his time was all taken up. The Premier remarked that his time was also taken up, but he could make an opportunity to meet Mr. Baxter.

Mr. Baxter says he would like more information. "I have been keeping a record of Mr. Baxter's statements in connection with the Grand Falls proposition since he has become leader of the Opposition," said the Premier.

"and I find that he now has to his credit five different shifts. He wants on four months to get full information. Why it has taken the government eighteen months to procure the information they have. But Mr. Baxter had his eyes opened Saturday when he saw that the contract for the Grand Falls development had been let for \$1,546,556 or \$486,444 less than the engineers' estimates.

This was the positive price, made under contract signed and sealed. Added to this the cost of machinery for the power house, which is known to a dollar, and the cost of transmission lines, and we can say exactly what the entire development will cost.

On two items alone, we have already shown a saving below the estimates of about \$800,000, and he could say definitely that power would be sold at Campbellton and Bathurst at less than \$27.00 per H. P. There is now no guess work about it.

The Premier then entered into a discussion of the signing of the contract with the International Pulp and Paper Company. He refuted the allegations that the contract had been signed in his own room by himself.

Hon. Mr. Baxter had been referred to his own law partner regarding the signing of the contract, which was witnessed by Mr. Lewin, Consulting Engineer, Acres, Hon. I. C. Rand and two members of the Commission and myself.

Since the leader of the Opposition has opened the door to insinuations regarding the character of the members of the Government that door will be kept open, Mr. Veniot declared, but it will be kept open by assertions of fact regarding the members of the Opposition. The latter have said that "the night was dark" when the contract was signed, but it was not so dark as had been hoped for when the \$125,000 had been taken by J. Kidd Fleming, or when \$100,000 had been taken on the patriotic potato deal.

It was not so dark as Mr. Baxter would have hoped for but did not get, the night George B. Jones placed \$20,000 in Mr. Baxter's own safe or when Mr. Baxter had paid out \$3,000 to cover up the potato scandal or when he had taken a cheque for \$500 from

E. R. Gould and Company and had returned it later when it was discovered.

Hon. Mr. Baxter had helped, as Attorney General, to cook the accounts of the province and he had said that he would rather hold his tongue and go down to defeat with the rest of them than disclose what he knew. He is the man, the Premier declared, who is seeking to get back into power again.

Mr. Baxter had said that he wanted an honest Government and yet he appeared on a platform in Woodstock with J. Kidd Fleming on one side of him and B. Frank Smith, the perpetrator of the potato scandal on the other. George B. Jones who got \$61,000 to cover up a scandal and who paid out only \$30,000 for that purpose, putting the rest of it into the hands of the boodle gang, was also there.

That is the group, the Premier declared, which is seeking to gain control of the affairs of the province, while it so far has been unable to make a single charge against the present administration.

The Premier then referred to Hon. Mr. Baxter's loss of temper at Bathurst when he had been presented with a questionnaire concerning the scandal with which he had been connected. There Hon. Mr. Baxter had referred to the Premier of the Province as a small spotted animal which left a stench behind. He had too great respect for a skunk to liken Mr. Baxter to one and as far as a stench was concerned the stench of a skunk had nothing on that of Patriotic Potatoes. If Mr. Baxter did not have any respect for the holder of the office then he should for the office itself, the office which he was striving to obtain.

When the Foster Government came into power in 1917 he had been placed at the head of the biggest spending department, Public Works. In the past eight years that department had spent nearly \$14,000,000 and not a charge of a mis-spent dollar could be brought against it. It was something for which the Government was to be congratulated and he contrasted this record with the conditions prior to 1917, when hundreds of thousands of dollars had been misappropriated.

"The Liberals of the province of New Brunswick and the other supporters of the Government can go through the country with their heads held high. Do not be ashamed to support the administration because there has not been one shadow of scandal cast upon it," he declared.

Compensation Act

"I believe the Workmen's Compensation Act is the best act any government has ever placed upon the statute books of the province," declared Premier Veniot. "Never before did the laboring man have any protection or the mother or orphan in the event of death of the husband and father.

"Why should the lumber industry not pay?" asked the Premier. "It is not the industry making money out of the laboring man? So long as I am head of this Government the Act will stand despite the threats of the lumbermen. Let them come. I am prepared to meet them."

Who opposed the pre-ent Compensation Act when it was up in the house. Every member of the opposition, including Messrs. Stewart and Dittie opposed it. He warned the laboring men to be on their guard.

Under the Compensation Act, a penalty is provided where the employer regulates the wages paid on the basis of the compensation fees he has to pay. The lumbermen always denied this was being done. We now have their own admission of the existence of a scheme to make the workmen pay for his own protection. I intend to have this matter fully gone into by the law officers of the Crown and will see that the proper remedy be applied without mercy, fear or favor. It is an outrage, a robbery of the rights of the working man. It also gives the lie direct to those lumbermen who are asking for a reduced stumpage and refuse to give a corresponding increase of wages to the men, because compensation is costing too much. How can it cost too much to the lumbermen if they make the workman pay it? It is another way of robbing the poor man.

Provincial Finances

The Premier touched on the finances of the Province. The statement of the Opposition that the debt was thirty-five millions was not correct. It was \$29,960,000. When the present administration took office it found floating indebtedness which amounted to falsification of the financial statement. Their statement was not correct. This government had increased the debt but it had something to show for it. Musquash accounted for much and was paying its way. There had been a great increase in revenue. The funding of the Motor Vehicle Fees had been adopted and had proven so successful that other provinces had copied the system. The old government increased the debt fourteen million dollars in nine years and the only thing they had to show for it was the Valley Railway, which was the sink hole for thousands of dollars yearly.

Premier Veniot at Dalhousie

(Continued from page 9.)

Turning to the question of taxes, Premier Veniot said: "We have not directly imposed any additional burden on the people of the province of New Brunswick."

He asked how his hearers would like to be in Nova Scotia, or Quebec or Ontario where they were taxed on income by the province and where for three miles out of each incorporated town they were taxed for the maintenance of the roads, or where, as in Quebec, the farmers were assessed one half of the cost of the highway which fronted on their farms.

"The Government is spending money but that money is going where it can be seen. It is not going into the pockets of any boodle gang, of any Tom, Dick or Harry," Premier Veniot declared.

The supplying of free school books to the people of the province was the next subject taken up by the speaker. He told of the Opposition criticism at the present time because they were being supplied free to the children of the provinces in all grades up to and including grade five, and the equivalent in the country.

Musquash Paying

"There is no deficit at Musquash," he declared, "despite the efforts made by the Opposition as experts in the juggling of figures to prove this contention." The heaviest cash deficit which had ever occurred on a year's operation at Musquash was that of 1924, amounting to \$1,800 occasioned by the necessary expenditure of \$351,000 in repairs for damage caused by the floods of 1923. "I can assure you there is no cash deficit at Musquash and that during the past six months it paid \$5,000 in increased business over a similar period for the previous year," declared the Premier.

How Money Was Spent

Of the amount of debt increase \$3,250,000 had been expended upon the roads, and as stated the payment of the bonds were taken care of by the auto license fees. The province had 17,000 miles of roads, and 11,000 bridges. Of this total mileage, much had been rebuilt, and it was acknowledged that this province had the best general roads in the Dominion and these were constructed at from 20 to 25 per cent, less than those of any other province.

The Race Cry

The Premier dealt with the race and religious canvass and said that since being in office had never let religion or language make any difference. As a matter of fact among his own people the Opposition canvassed that they should not vote for Veniot because he had been brought up among the Scotch in Nova Scotia. In one section he was accused of being too French and in another too English.

The speaker appealed to the spirit of the Great War where no soldier asked another if he were French or English. They even say that I am poor, that I have no property in my own name and consequently no interest in the province," continued the Premier. "I am a poor man—that is an inconvenience, but no disgrace. I have earned every cent I have made, but if I had followed the practice of those who preceded me in office I might have been rich and independent today. This statement is perhaps the best certificate of character my opponents could give me.

In conclusion the Premier told his hearers to weigh the issues carefully and he felt sure that they would vote for Currie and Legere and the Veniot government on August 10. Applause. Three hearty cheers were then given for Premier Veniot and the gathering dispersed after singing the National Anthem.

FOUND DEAD

John Chaplin, Indian of Dorchester, who has been a patient of the Moncton Hospital for some weeks, was found dead in bed about half past eleven o'clock Wednesday night. Dr. H. H. Coleman, Coroner, who was called, decided that an inquest was unnecessary, death being due to natural causes, while the patient was asleep.

NOTICE

A new millinery store will be opened by the Frenette Sisters of Bathurst in Mrs. A. K. Thompson's block, corner Subway and Water Streets. The date of the opening will be announced later. August 4-1w.

ANNOUNCEMENT

Mr. and Mrs. Sam McEwen wish to announce the marriage of their daughter Miss Myrtle McEwen of Montreal, N. Y., on June 27th. The attendants, to Mr. Wm. Lewis of Niagara Falls, N. Y., on June 27th. The bride and Mr. Wm. Lewis, father of the groom.

HOTEL DIEU REPORT

The monthly analysis of service for the Hotel Dieu Hospital for the month ending July 31st is as follows:
Patients admitted 111
Patients discharged 108
Operations 66
Deaths 28
X-Ray examinations 221
Laboratory examinations 31
Average daily census 31
Inspection and field experimental work 1
The afternoon and 3 o'clock McDonalds apartments, Duke St., or French, made a very full day. The courtesy of the use of the Fredrickson Club house and course also was extended to the party.

BIG OIL PRODUCER

The New Brunswick Gas and Oil Fields, Limited, has made the announcement that a well producing 110 barrels of oil daily has been drilled to a depth of 2,680 feet on the Stony Creek field. There is no great gas flow as yet from this well but it may be drilled deeper. Another well, producing oil and gas in considerable quantities has also been drilled this summer by the Company.

FACTS NO BARRIER

TO MISREPRESENTATION BY THE OPPOSITION
Hon. Dr. Baxter on Thursday evening declared bringing Grand Falls current to Saint John impracticable because 50 per cent would be lost in transit. If Dr. Baxter did not know, any honest electrical engineer will tell him about 8 per cent is the total loss from all causes in transmitting electricity. Any honest electrical engineer will tell him further that it is perfectly feasible and economically practicable to transmit power over much greater distances. Further, the current on the way to Saint John would serve a host of communities not now enjoying cheap electricity, including Fredericton—St. John Globe.

SAW MILL MACHINERY FOR SALE—Consisting of 1 Leonard boiler; 1 2 H. P. engine, 10 inch cylinder; 1 steel saw bed equipped with McLennan roller gauge; 1 16 foot carriage cog feed; 1 McLennan lath machine; 1 lath butter; 1 lumber trimmer; 1 48 inch Tmeted tooth saw; 1 36 inch Tmeted tooth saw; 36 feet of smoke stack almost new; shafting, belting, pulleys complete to run the plant all in good working order can be seen running at the present time. I will sell at a bargain to a good buyer. Any one interested come and see or apply to M. SMEARER, Archibald Settlement, N. B. August 6-4pd.

C. J. Wallace will be at W. H. Miller Co's barn on or about the 15th. August with a good load of heavy horses—July 30-3wks.

OPEN BARS PLEDGED

BY THE OPPOSITION

CANDIDATES IN KENT

Hon. Dr. J. D. Landry and A. E. O'Leary Reveal Hypocrisy of Opposition Attitude Toward Law Enforcement When They Talk of Electors of Kent County—People Aroused at Action Taken by J. B. M. Baxter and His Followers.

Buctouche, August 1.—Return to the system of open bars in the province of New Brunswick has been promised the electors of Kent County if the Opposition candidates are elected, according to reports of several meetings held by the leaders of that party in this constituency. A. E. O'Leary made the declaration of support for the liquor interests on the platform at South Branch when he spoke there. Hon. Dr. J. D. Landry has also made the statement on several occasions and is using it as a private canvass as well, according to information supplied from reliable sources.

This statement and open advocacy of the return to the open bar has aroused not only the prohibition elements in the community, but others, as well, who remember the conditions that prevailed when the license system was in force in this province. The hypocrisy of the Opposition is making this pledge while criticising the present enforcement of the prohibitory law has been openly revealed to the province by these brazen statements.

It is believed that the whole prov-

SAFEGUARDING NEW BRUNSWICK'S FAMILIES

TOWERING HIGH ABOVE THE MURK AND CONTROVERSY OF POLITICS is the conservation of human life, as put into practice by the Government's Act. From the cradle to old age citizens of New Brunswick are vigilantly protected by the widespread influence of this legislation the first of its kind in any country, emanating from the first Ministry of Health in any parliament in the civilized world. Since the Act went into force infectious diseases have been reduced up to 70% including the eliminating of smallpox. Infant mortality has been reduced by 100 yearly and it is carefully estimated that 1,200 lives are saved each year already by the safeguarding measures of the Department of Health, as created and carved out by the Government now seeking a renewal of your confidence.

SAVING THE LIVES OF 1200 New Brunswick People Each Year.

Marvelous Record of the Department of Health Already - - The Figures for it

IN 1920 WHEN THE GOVERNMENT'S NEW HEALTH ACT WENT INTO FORCE the death rate was 15.6 per 1000 people. At the latest reckoning the percentage has been reduced to 12 per thousand—his figures out a salvaging of human life amounting to 1200 persons annually—a remarkable record made possible by the efficient, continuous and systematic work of health officials and the sincere co-operation of the medical profession and parents of the province.

Learn For Yourself—Read This:

TUBERCULOSIS ATTACKED.—A recent survey of the tubercular people of New Brunswick places the total between 4000 and 5000 with an average mortality from 400 to 500 yearly. In addition to precautionary measures being taken through medical inspection of school children and anti-tuberculosis work in general—including the River Glade Sanatorium and district health officers—the Department of Health has engaged a Tuberculosis Expert who will tour the province continually spying out cases and rendering every assistance to physicians in wiping out this dread disease.

SMALLPOX, DIPHTHERIA AND TYPHOID.—In checking up the toll of these dread diseases since the Health Act went into operation Smallpox has been reduced from 485 cases in 1920 to only 2 cases so far in the year 1925, practical elimination. Diphtheria has been reduced from 70 deaths in 1920 to 32 in 1924—more than fifty percent reduction. Typhoid had 421 cases in 1920 and in 1924 there were only 233 cases—another wonderful shrinkage. These are facts—not fancies.

SAVING 400 BABIES A YEAR.—Infant mortality in 1920 was 135 for each 100 living births. To-day that number has been reduced to approximately 100 or a saving of close to 400 babies every year. Sober-minded citizens of New Brunswick cannot fail to appreciate this wonderful new conservative of human life through organized health regulation. From a money standpoint the economic saving of a human life—which experts place at \$2000 per capita—means millions of dollars to this province.

1200 FEWER DEATHS PER YEAR.—The general death rate in New Brunswick in 1920 was 15.6 per thousand of population. Under the Health Act with its widespread beneficial influence, this percentage has been cut down to 12, or roughly speaking a saving of over 1200 lives per year. Since an efficient Department of Health has been functioning throughout the province the death rate has been steadily decreasing. These figures are attracting the attention of the professional world on all sides.

OTHER WONDERFUL ACCOMPLISHMENTS.—In the year 1924 alone, of which there is a complete record, 700 patients suffering from venereal diseases were professionally attended at Government expense to the extent of 10,000 treatments. It is carefully calculated these social diseases under strict supervision will soon be reduced to a minimum of cases. Strun Depots have been instituted throughout the province giving immediate relief in cases of Diphtheria, Smallpox, etc. where these precious relief measures are required.

OTHER PROTECTIVE MEASURES.—The Government Laboratory under Dr. H. L. Abramson, bacteriologist, checks up the food waters of the province as a typhoid preventive measure. The Laboratory is accessible to all doctors for blood tests and other microscopic and analytical work. Medical inspection of public schools arrests disease and infirmities at the outset, and a class of 80,000 juveniles are each year throughout the province carefully watched and advised by Government medical officers in co-operation with family physicians and parents themselves.
