RUSSIANS THROW BACK TEUTONIC FORCES

BRITISH TIGHTEN LINES ABOUT LENS, TAKING OUTSKIRTS

Canadian Troops Late Yesterday Added Another 600-Yards To Advance Made Saturday.

British Front in France and Belgium, Aug. 7—(By the Associated Press).—The British lines continue to tighten about the French city of Lens, north of Arras. Canadian troops, who, on Saturday night pushed their positions forward approximately 200 yards along a front of a thousand yards in the western environs of the city, late yesterday added a 600-yard front of a similar depth to their defences south and west of the outskirts of that mining centre.

The Germans have been showing signs of decided uneasiness in the Lens sector for several days, as has been evidenced by their practice of throwing a curtain of fire on the British trenches each morning at dawn.

Vimy and Farbus, towns behind the British lines south of Lens, also have been shelled daily by enemy batteries.

The rest of the British front has continued in a state of comparative calm so far as the infantry actions have been concerned.

TEUTON ARMY FORCED BACK BY RUSSIANS

Repulse For Austro-German Troops Between Dniester and Pruth.

Kissinev, Russia, Aug. 7.—Austro-German troops between the Dniester and the Pruth have been thrown back on the front ten miles from Chotin, according to news from the battle area reaching here. Chotin is at the junction of the Zbrocz and Dniester rivers on the Galician-Russian frontier.

THE BUKOWINA CAMPAIGN.

Petrograd, Aug. 7.—In the direction of Kimpolung in Bukowina, Austro-German forces, after a battle with the Russians, occupied the heights at Molit, says the official announcement issued today by the Russian war department. In the region of the River Bystritsa two Russian regiments voluntarily left their positions, causing the Russian troops to retire a few miles.

South of Grijmalov, the Russians drove back the Teuton advanced posts. In the region west of the River Zbrocz, on the Russian-Galician frontier, Austro-German troops, the statement adds, are hastily gathering the harvest.

In the direction of Fokshani on the Rumanian front, the forces of the central powers and their allies began an offensive and pressed back the Russo-Rumanian troops across the River Tyrladesus.

WIN-THE-WAR POLICY URGED BY MANITOBAN PREMIER AS HE OPENS BIG LIBERAL CONVENTION

Most Complete Representation of Western Liberalism Gathered at Winnipeg To Discuss Canada's War Crisis.

MUST NOT BE PARTISAN OR SECTIONAL FOR BEST RESULTS, SAYS MR. NORRIS.

Believes the East Is Looking To the West For a Lead At Present Moment—Pleads For a United Front Against the Enemy.

Winnipeg, Aug. 7.—It was considerably after 10 o'clock when the Liberal convention was called to order this morning by Hon. T. C. Norris, premier of Manitoba, acting as temporary chairman. The hall was well filled and the score or so of women delegates were early on hand.

At 10:30, Premier Brewster of British Columbia announced the convention would proceed with the work of organization. The convention, he believed, represented the very broadest Canadianism, and he thought it was fitting that as temporary chairman there should be one who had done so much for western Liberalism, Hon. T. C. Norris.

A COMPLETE REPRESENTATION.

Mr. Norris said the convention was one of representative thought. Only three or four members of the four western provincial governments were absent, and it was almost impossible to get any more complete representation from the provinces.

"We expect something from this convention," he said. "Consider that you are present to discuss the interests of Canada.

"There had never been a time in the history of Canada when Canada required service of such a high order as was the case today. The convention was not called for merely partisan purposes, and while they represented the west there was no prejudice against Eastern Canada.

MUST NOT BE PARTISAN.

They must have 'Canada at large' at heart. If they started in with the idea not to be partisan or sectional, then they were on the right basis. The House of Commons was standing still in order to watch this convention, and the whole of the dominion looked to the west for a lead. He predicted that this will be the hub where the business of Canada will be conducted.

"One of the most important things I am going to ask this convention today is to create a 'win the War' policy," said Mr. Norris.

UNTIL DEMANDED.

"There has never been a time in the history of Canada when there was such demand for unity. The spirit of 'Win the War' is covering all Western Canada. There will be no difference of opinion as to that, though there may be as to the measures which should be taken. I have found nobody who wants to quit.

"If ever there was a debt that every Canadian owes it is the debt he owes to the soldier who has given his life. Let us pass over sectionalism; don't let our party feelings run too wide."

NO MACHINE IN CONVENTION.

Mr. Norris said there was no machine organization in this convention, which would be conducted on a democratic basis.

OTTAWA HAS ALL EYES ON WEST TODAY

"What Is Liberal Convention Going To Do?" Question at Capital.

GETTING BEHIND LAURIER

Indications Are That Four Provinces Will Support Old Chief.

[Special to The Advertiser.]

Ottawa, Aug. 7.—All eyes here are turned to the West. The thought in everyone's mind is "What is the Western Liberal convention going to do?"

It is realized that any action which may be taken there will materially affect the whole political situation.

News carried today would indicate that the four western provinces are going to line up solidly behind Sir Wilfrid Laurier. This was more or less contrary to general expectations.

It was thought that the West was going to kick over the traces and kick hard, but instead right from the start they are rooting for the G. O. M. "Now where does this land everything?" is the question asked here.

BIG SHUFFLE OF NAVAL LEADERS; BURNEY IS OUT

Jellicoe's Second in Command Replaced by Wemyss.

ANDERSON IS CONTROLLER

Follows Geddes as Chief of the Shipbuilding Department.

London, Aug. 6—(Delayed).—Official announcement was made at the admiralty tonight that Admiral Sir Cecil Burney ,second sea lord, had been replaced by Vice-Admiral Sir Rosslyn Wemyss. Alan Garrett Anderson, hitherto vice-chairman of the wheat commission, succeeds Sir Eric Campbell Geddes, the new first lord of the admiralty, as controller of naval construction.

London, Aug. 7.—The changes in the British admiralty are attracting much attention and are interpreted as the first step in a reorganization which it is supposed Sir Eric Campbell Geddes, first sea lord of the admiralty, was appointed to carry out.

In quarters where the existing admiralty methods are regarded as unsatisfactory the present step is denounced as a "procrastinatory half measure," and it is declared the change ought to have been so completed as to give the country a resolute and energetic admiralty permeated by an offensive spirit.

Special Duty For Burney.

There is no implication of incapacity against Admiral Sir Cecil Burney, whose service as Admiral Jellicoe's second in command of the Grand Fleet are recognized, and an official announcement states that he will be employed on special duty. It is assumed that as his record was made in active command he may welcome the change.

An official statement contains the announcement that an opportunity is to be taken of the appointment of Vice-Admiral Sir Rosslyn Wemyss to rearrange the duties of the second sea lord of the admiralty, who will be relieved of detailed administrative work connected with the personnel of the fleet. This is interpreted as meaning that the second sea lord will not be trammelled by details, which subordinates can handle, but will be associated more closely than was his predecessor with the preparation of war plans.

Graham Greene Goes.

Another change in the admiralty is the removal of Sir William Graham Greene from the permanent secretaryship at the admiralty to a secretaryship in the ministry of munitions under Winston Spencer Churchill. Sir William's departure from the admiralty is regarded as of considerable importance, as the post of permanent secretary, which he has held since 1911, always has been largely responsible for the continuity of admiralty tradition and policy. It is the continuity which is regarded by many as a most dangerous factor, in that it hinders initiative and adaptability to current needs.

FIELD'S HOME BURNED.

Newfane, Vt., Aug. 7.—The boyhood home of Eugene Field, the poet, in this town, was burned yesterday. The house was built by Field's grandfather, Gen. Martin Field, and was one of the landmarks of this locality. The village had difficulty in saving the town hall and a church which were threatened by the flames.

RACE IS TIGHT FOR TWO FREE TRIPS IN ADVERTISER CONTEST

Young Lady in District 7 Leading Last Night.

ALL TALK IN MILLIONS

The Thousand-Mark Is Now a Thing of the Past.

MRS. (CAPT.) HALLAM, District No. 1.

Who will win the "Two Free Trips?" is the question candidates and their friends are asking themselves today. There is only one answer to the question: The candidate who turns in the most new yearly subscriptions for the ten-day period by 8:30 tonight will be the winner. The race was very close yesterday, and had it closed last night, a young lady in District No. 7 would have been awarded the prize.

The young lady who gave up her position of $1.50 a day to enter the contest, writing for more receipt books, says she is working from early morning until 9 and 10 o'clock every night, and is more determined than ever to win the grand prize. She is still looking for the two-year subscription that a certain gentleman near Woodstock promised her some time ago.

Candidates are now talking in the "millions"; the thousand mark is a thing of the past, and this week will see a great many more in the "million" class.

Wants a Thousand Receipts.

Mrs. Mary Saord, Simcoe, writes: "I received the four receipt books, but as the four only have one hundred receipts, please send by return mail six more books, as I will need them this week. I am working every day, and hope to win one of the prizes."

The kitchen cabinets purchased from the Trafford Furniture Company, and which have been offered as special bonuses to candidates who wed during the contest, are in great demand. Below is a request from another candidate, but, unfortunately, the gift of these cabinets are confined to the lady contestants. However, when this young man marches to the altar, the contest manager and his staff will arrange for something that will be just as acceptable to him as a kitchen cabinet. His letter follows:

"August 3, 1917.

"To the Contest Manager:

"Dear Sir,—Seeing in the paper today that you are giving Hoosier kitchen cabinets to the candidates who get married during the $16,000 contest, I write to know if any candidate who marries during the contest may secure one.

"It is my intention to be married this month to a young lady whose father has been a subscriber to the paper for some time. Yours respectfully, Mr. ——."

Mrs. (Capt.) Hallam, who was a close runner-up for one of the cash prizes last week, takes second place in District No. 1 today.

CONTEST NOTES.

Several letters have been received at the contest department during the past week without any names being signed. The contest department does not recognize anonymous letters, consequently many questions asked cannot be answered.

The last ten-ballot coupon will appear in The Advertiser Thursday next.

Candidates outside the city of London may work up to the last minute, tonight, then mail their returns to the contest department. All such letters must bear the postmark of August 7.

No agent of The Advertiser has any authority whatever to ask subscribers to keep their subscriptions for him, and not give it to a candidate in the contest. Candidates and their friends will confer a favor on The Advertiser by reporting all such complaints promptly to the contest department.

According to the rules of the contest, subscriptions to The Advertiser may be taken for five years in advance by mail at $3 a year, and three years in advance in the city of London at $5 a year.

A new five-year subscription by mail at $3 a year has a value of 50,000 votes. A five-year subscription (renewal) by mail at $3 a year has a value of 25,000 votes.

A new three-year subscription in the city of London at $5 a year has a value of 50,000 votes. A three-year subscription (renewal) in the city of London at [illegible] has a value of 25,000 votes.

Gasparri Out; Means New Vatican Policy Towards the Huns

Papal Secretary of State Is Reported To Have Resigned.

Rome, Monday, Aug. 6—(Delayed).—Many Italian newspapers and some authorities on Vatican affairs continue to affirm that Cardinal Gasparri, the papal secretary of state, has resigned. The retirement of the secretary, it is asserted, will permit of the inauguration of a new policy by the Vatican towards Germany.

The official Osservatore Romano is silent on the subject, but the semi-official Vatican organ Correspondenza flatly denies that the papal secretary has retired.

DUTCH NEWSPAPERS EXPOSE HYPOCRACIES OF GERMAN PEOPLE

Print Pastoral Letter On Humanity With Story of Murdered Sailors.

Amsterdam, Aug. 7.—Dutch newspapers print in a parallel column with an account of the murder of the crew of the British steamship Belgian Prince a Berlin telegram giving the following extract from a pastoral letter read in all the Protestant churches of Berlin last Sunday:

"We will comport ourselves as Christians towards our enemies, and conduct the war in future as in the past with humanity and chivalry."

The pastoral letter was read at a service which Emperor William and the German empress attended at a cathedral. It exhorts the people to humanity and recognizes the hands of God in the protection from invasion which the fatherland has enjoyed.

German "Chivalry."

The British steamship Belgian Prince was sunk July 31 by a German submarine. According to survivors who reached a British port, the U-boat shelled the vessel and the German commander then ordered the crew to take to the boats and go alongside the submarine. The Germans, the survivors assert, removed the lifebelts and outer clothing of all the members of the crew except eight, smashed the lifeboats with axes, and then re-entered the submarine and closed the hatches, leaving the men on deck. The submarine traveled on the surface of the water for about two miles and then submerged. Thirty-eight of the crew were drowned. Three others were rescued by a patrol boat.

RETURNED MAN GETS $27 FOR BAND FUND

Previously acknowledged ..$100.00
Sergt. Appleby (returned). ..27.00

In a remarkably short time on Saturday, Sergt. Appleby, a returned man, collected the sum of $27, to be applied to the fund to help purchase instruments for the 1st Battalion.

Sergt. Appleby, himself a returned man who knows the front well, collected the money from the infantry details, and says that he has a thorough appreciation of the need for music to cheer the men at the front when they get rest in billets. The 1st Battalion has never had a battalion band. It has the musicians, but until now has had no instruments. Recently the original officers of the battlion decided to purchase the instruments of another battalion, which were secured at a sacrifice. On behalf of the officers and the battalion, Capt. W. G. Butler, one of the first officers of the battalion to be wounded, appealed to the citizens of London through The Advertiser, to raise the sum of $350.

Several other Western Ontario places have subscribed to the fund, and when London completes the subscription the officers will have a sufficient amount to secure the instruments.

SHORTAGE OF SALT

Newfoundland Government Has Commandeered All Supplies.

St. Johns, Nfld., Aug. 7.—A serious shortage in salt is causing much inconvenience to the fisheries interests in Newfoundland. Arrangements made some time ago to provide for the needs of the present year have proved inadequate. The Government has now commandeered all ayallable stocks of salt in the colony and arranged for their distribution among the fishermen to the fullest extent possible until additional supplies can be obtained from abroad. Two ships laden with this commodity and bound for this port were torpedoed.

ALLIES HOLDING WAR COUNCIL AT EMPIRE CAPITAL

Continuation of Paris Conference Is Under Way at London.

London, Aug. 7.—A conference of representatives of the Entente Allies, a continuation of the Paris conference, was commenced in London this morning, David Lloyd George, the British premier, presiding.

Among those present at the conference were Premier Ribot and Ministers of War Painleve of France; Baron Sonnino, the Italian foreign minister; A. J. Balfour, the British foreign secretary and Arthur Henderson, and the other members of the British war cabinet. All the Entente Allies, in fact, were represented by either ambassadors, ministers or special representatives.

NOTHING OF INTEREST, REPORTS GEN. HAIG

London, Aug. 7.—Field Marshal Haig, in his report on military operations in France and Belgium yesterday, which was given out officially this afternoon by the British war office, says:

"There was nothing of special interest to report."

NOT THE HOUR TO TALK PEACE, VIEW OF PRESIDENT WILSON AS HURRIES THE WAR BILLS

American Executive Not Biting At Peace Feelers of Central Powers—Does Not Consider Germany Is Sincere — Asks Party Whip To Expedite the Passage of Food Control and Revenue Measures.

Washington, D. C., Aug. 7.—President Wilson had a long conference yesterday afternoon with Senator Lewis, the Democratic whip, urged haste in the final enactment of the food control bill and revenue bills, and is understood to have indicated that he does not consider the present the time for discussion of peace negotiations with Germany.

Senator Lewis would not discuss the latter phase of conference, but it was believed the president indicated that he did not consider Germany's recent peace feelers to be genuine, and that he can be expected to let the country know when he believes the time has come for discussing peace. Senator Lewis declared the president would not allow the American people to lose any rights or suffer any wrongs which "his diligence could prevent." The Illinois senator told the president he believed Congress could adjourn September 1.

EMOTIONAL INSANITY MAY BE DEFENCE OF BIANCA DE SAULLES

Counsel Says She Had No Intention of Shooting Her Husband.

Mineola, N. Y., Aug. 7.—An application for the removal to an hospital of Mrs. Bianca De Saulles, held in the county jail here for the murder of her former husband, John L. De Saulles, is expected to be made today. This announcement was made by her attorney after three physicians had made an examination of his client. Although he would not state specifically just what her ailment was, the attorney said the events of the last few days had accentuated her illness and brought on a collapse. He said also he might go before the supreme court in Brooklyn in an effort to have Mrs. De Saulles admitted to bail on the ground her life was being endangered by being confined in the county prison here.

The mother of Mrs. De Saulles cabled from Valparaiso, Chile, that she was leaving there on Wednesday for New York and was bringing another daughter and her son with her.

The belief that Mrs. De Saulles' defence will be temporary emotional insanity was strengthened today. Her attorney reiterates she had no intention of shooting her husband, whom she divorced on the grounds of infidelity, when she went to his home to demand the return of her son.

De Saulles was a famous football player of Yale some years ago. He married a beautiful and rich Chilian, who later divorced him on charges of infidelity.

CAPT. WILKINS MISSING

Montreal, Aug. 7.—Word has been received here that Capt. H. O. Wilkins, son of F. W. Wilkins, Norwood, Ont., a member of the Royal Flying Corps, is missing since July 28. He graduated from the Royal Military College at Kingston just before the outbreak of war. He was wounded at St. Julien, then he served in Egypt, and a few months ago he joined the air corps.

BIG AUSTRIAN BASE SHELLED FIVE HOURS BY ITALIAN FLIERS; HEAVY DAMAGE DONE

Pola Given Terrific Grilling by Entente Squadrilla.

Rome, Aug. 7.—A detailed report on the air raid at Pola, the Austrian naval base, on Friday night, shows that it began at 11 p.m. and ended shortly after dawn. Each machine carried eight bombs and six grenades.

They first arrived over Pola, an hour after departure, and the last at 4 a.m. The squadrilla carried out the task, which comprised a flight of 320 kilometres, 160 of which were over enemy territory, without the loss of a single machine.

D'Annunzio Aboard.

D'Annunzio, the poet, was aboard one of the larger planes piloted by Capt. Gori. The damage effected was most important. In addition to bombing the arsenal a naphtha depot and a seaplane station were set afire and burned like paper. The Italian aviators, who kept at an average height of 2,500 to 3,000 yards, were able to judge of the extent of the destruction by the enormous sheets of flame and columns of smoke which shot up to a height of 500 yards.

All Escaped.

The Austrians were unable during the bombardment to extinguish any fires started by the bombs, but they kept up a furious fire with their anti-aircraft guns, and thirty of their most powerful searchlights threw a dazzling light over the space where the Italians were flying. Notwithstanding, the latter cruised over the city for nearly five hours and escaped unhurt and victorious.

TEUTONS TAKE 1,300 IN MOLDAVIA DRIVE

Berlin, Aug. 7—Via London.—Austro-German forces yesterday began an offensive against the Russo-Rumanian armies in Moldavia, on the Rumanian front. Russian positions north of Fontshani were stormed, according to the official statement issued today by the German general staff, and 1,300 prisoners were taken. Thirteen guns and numerous trench mortars also were captured.

LOCAL TEMPERATURES.

Following were the highest and lowest temperatures recorded in London during the 24 hours previous to 8 o'clock last night: Highest 83, lowest 64.

The official temperatures for the 12 hours previous to 8 a.m. today were: Highest 66, lowest 52.

U. S. STARTS TITANIC BUYING OF SUPPLIES FOR THE ALLIES

Washington, D. C., Aug. 7.—The newly-created war industries board today went to work on its big war-purchasing program for the United States and her allies, after a preliminary conference with President Wilson. Among the first problems to be solved was that of co-ordinating American and Allied purchases. This probably will be done through Bernard M. Baruch, member of the board, who is to be named purchasing commissioner for each Allied Government, and who also will be chairman of the war industries boards purchasing commission for the American Government.

Some difficulty is looked for in the effort to buy for the Allies at the same low prices obtained by the United States Government. Many producers already have entered protests, saying their Government prices are far below the market.

LITTLE THOUGHT OF WAR'S HORROR THREE YEARS AGO

City Was Concerned With Old Boys' Week of August 7, 1914.

KAISER IN LUXEMBURG

German Hosts Were Advancing, But Few Believed in Long Struggle.

Three years ago today old-boy week festivities were in full swing. Gay throngs filled the streets and crowded the park which harbored the amusement tents. Superficial interest was centred on the events of the great week. Some scarcely had time to read the immense headlines in the extra editions of the newspapers, which told of the mobilizing of Britain's army and the steady advance of the kaiser's host through Luxemburg. The struggle would end, as all recent wars had, in an easy victory for Britain, no taxing of resources to the limit, no food scarcity, a few casualties among regiments, which were only a name to the Dominion.

On the Evening of the War.

Three evenings before flaring headlines announced "Britain may declare war on Germany before 24 hours have passed." The announcement that a state of war existed was made six hours later. Dense crowds gathered on the downtown streets broke suddenly in vociferous cheering as the bulletin announcing the fact was posted in The Advertiser window. Within a few minutes an immense crowd had gathered and was cheering itself hoarse, singing patriotic songs and waving flags.

It was a crowd which stood out in marked contrast to those which gather for momentous occasions now. Not a khaki uniform was to be seen. Everywhere was the straw hat and light summer suit of the civilian. For four hours after the news had been received the street scenes rivalled those enacted when Ladysmith and Mafeking were relieved during the Boer war.

"K." Company Had Departed.

Two days before "K." Company of the Royal Canadian Rifles left London for an unknown destination, in command of Major C. H. Hill and Lieut. Balters. The draft was composed of fifty men. In heavy marching order they lined up at the G.T.R. station, while the officers said good-bye to Col. Hodgins, Lieut.-Col. McCrimmon, Lieut.-Col. H. C. Becher, and other London officers.

These men were the first to leave the city. Not until August 19th did the first body of volunteers depart. It was composed of fifty men from the 15th Army Medical Corps.

On August 5th, the day following announcements of the declaration of war, 150 men of the 7th Regiment volunteered for overseas service, including every officer. Thirty-six members of the 6th Field Battery volunteered on that date, and twenty new members were enlisted.

A dispatch from Quebec, printed in the papers of August 5, read: "The announcement that England and Germany were at war was received with the greatest enthusiasm in this city, where English, French and Irish paraded together in a display of loyalty such as has never been witnessed in the ancient city of Champlain.

"Before a massed crowd Albert Sevigny, M.P. for Dorchester, made it plain that French-Canadians realize the seriousness of the present menace to the Empire and to Canada in particular and were standing shoulder to shoulder with their fellow citizens of other races."

PTE. WILLIAM IRWIN WOUNDED IN THE KNEE

Pte. William A. Irwin, son of Edward Irwin, 1174 King street, has again been wounded, according to official word that reached his father yesterday.

Pte. Irwin left here nearly two years ago as a member of the 2nd Field Ambulance, and was slightly wounded in December last. This time he is suffering from a gunshot wound in the knee, received on July 20. He was employed at Perrin's before he enlisted.

A brother, Sapper Edward Irwin, is overseas with the Canadian Engineers.

SEAPLANE'S CREW INTERNED.

London, Aug. 7.—A dispatch to the Times from Rotterdam says a German seaplane alighted at Texel, Holland, yesterday after being fired at by Dutch soldiers. It was short of gasoline. The occupants were interned.

MARY JANE ON THE SNOBS OF LONDON

BY MARY JANE.

A snob, in my estimation, is the most contemptible thing in the world. A snob on the face of the earth looms forth like a wart on the face of beauty. But a competent dermatologist can cure a wort, while nothing short of an earthquake, or a devastating flood will remove a snob.

I know a young man who is learning to be a machinist. He studies and reads up so much on his chosen work that, he long ago aroused my interest. The other day I met the superintendent of the factory where he is employed, and I asked him if he knew my young friend. "Know him! We're all keeping our eyes on that boy. He has the mind of a mechanical genius, and if he keeps to the straight and narrow path he is going to be one of the big men in the mechanical world." All of which I was glad, but not surprised, to hear. But I was surprised, a few days later, when the boy told me he was to leave the shop. After a lot of coaxing and by degrees, he told me the story. So many of his girl friends fussed up in a few fancy furbelows, forsooth, disdained to speak to him, attired in oil-spattered, grease-stained working clothes, and if he had a nice clean, dress-up job—— The poor little geese! They haven't brains enough to set a watch or wind an alarm clock. Of such is the kingdom of snobs.

The Boy Buckled To.

I gave that boy a talk that had a straight-from-the-shoulder punch in it, and I ended up by telling him exactly what the superintendent had told me. That I had applied the proper panacea for lacerated feelings was evidenced by the bright eyes and shining face. I'll guarantee there will be no more talk about a white collar job. The boy, of course, is very young and snubs hurt a great deal and cut very deeply.

Snobs and snubs. Snubs and snobs. Small of heart, shrivelled of soul and usually afflicted with rapid evaporation of grey matter.

I had the pleasure, not so long since, of meeting Thomas A. Edison and Henry Ford—together; two great men who are great cronies. The two hours spent in their company were fraught, to me, with much interest and a dozen small revelations. There were none of that I-am-the-wonderful-Edison or I-am-the-great-Henry Ford spirit. No, indeed. But there was much laughter and simple fun and good comradeship. Of either of those self-made, big men, I would ask a favor with the utmost confidence. But I would hesitate long, and tremble greatly, at the door of the pompous small man, pompously holding down a small job, and unable to see beyond the parapet of his own importance.

As It Should Be.

Cast off snobbery and bury it deep, and in its place, now that gardening is comme il faut, let us raise a bumper crop of Common Sense.

I have been hearing a great deal lately about a certain factory, not located in Algeria, where the genuine factory girls are being patronized almost beyond endurance, by the pseudo factory girls. The patronizing ones are looking at life through the wrong end of the telescope. A hard-working, self-supporting factory girl is a healthier vertebra in the backbone of her country than a parisitic, self-seeking society girl. There is a fearful lot of tommy-rot being committed in the name of patriotism.

When I think of a snob, I just naturally think of a jail; they are so much alike—with a difference. The snob keeps the other fellow out. The jail keeps the other fellow in. And it is much easier to get out of jail than out of snobbery.

I am afraid you will think I am in a cantankerous, grouchy mood today. Not at all. Merely availing myself of the editor's gallant permission to "turn the hose on us, Mary Jane."

SOLDIER'S MOTHER IS FIRST TO SIGN FURLOUGH REQUEST

Mrs. Archer's Son at Front for Thirty-One Months.

PAPERS AT ADVERTISER

Documents To Secure Leave for First Men at Front May Be Signed.

Artificer William Archer, son of Mrs. Annie Archer, 68 Hamilton road, has been in the great game in France for 31 months. During that time he has been away from the guns of the famous 12th Battery (formed from the 6th of London) on two occasions, one for ten days and once for six days.

As one of the few London boys who left in the early weeks of the war, he does not seek to get home. But his mother believes that he has earned a rest, and a mighty wave of public feeling responds to the wish she expressed today.

Only a Handful Left.

"My boy would perhaps resent any publicity which indicated that he wanted to get away," she said. "He had a chance to take his discharge, but would not accept. He wants to stay with his battery, but he should be given a rest. There is not a handful of the original men left in France, and it is absurd for the authorities to say they could not be spared. I have written to Mr. Glass and to the minister, but have had no satisfaction. I heard from Mr. Glass that he received many letters asking him to further the movement."

Mrs. Archer, whose other son, Bert, 19 years old, has been sent to the trenches in France, was the first to sign the petition at The Advertiser office this morning, asking that the "original" boys be given home leave for a month or more. She also secured a number of petitions from Mrs. H. A. Boomer of the Local Council of Women, who has resurrected the movement in London. Mrs. Archer will circulate the petitions and secure hundreds of names. Others anxious to assist may secure petitions from Mrs. Boomer at 393 William street, and those who desire to sign while downtown will find the petitions in the office of The Advertiser.

London Must Be Active.

Mrs. Boomer writes as follows today: "Just a word of sincere thanks for the help and encouragement you gave me on Saturday on behalf of the brave lads of the 1st Contingent. London cannot be left out when all Canada is asking for practical proof of sympathy and appreciation of our brave boys at the front. We recognize that our attention was called to the effort of Garrett O'Connor, with whom I am in communication, through Cynthia Grey's page, and we thank her for lending her columns again to such patriotic service."

Mrs. Boomer expressed thanks for the receipt of the suggestion made by Mr. Woods, a returned soldier, regarding the petitions. The petitions have been altered to include all soldiers who went over with the 1st Contingent, whether Canadian-born or who have adopted Canada as their home.

Mrs. Boomer will be very thankful to hear from volunteer helpers, who may secure petitions from her at 393 William street.

BOMB DROPPED BY AIRPLANE CAUSED LONDONER'S WOUND

Pte. Jack Anderson Only One in Place To Be Hurt.

A bomb, which completely demolished a hut in which a communion service was in progress behind the lines in France, was the missile which caused the name of Pte. Jack Anderson, of this city to be placed on the casualty list as accidentally wounded on July 10.

In a letter to his mother, Mrs. Anderson, of 284 Simcoe street, he describes the incident. The bomb apparently came from an aeroplane, and dropped fairly in the centre of the crowded hut. Only Jack Anderson was wounded, although the building was completely destroyed. His brother, Corp. Sam Anderson, who was sitting beside him, escaped unscratched.

Jack was hit in the leg and arm by shrapnel, but is now recovering at the 26th General Hospital in Etaples.

MANY ACCIDENTS, BUT NO ONE BADLY HURT ON CIVIC HOLIDAY

One Auto Ditched, Others in Collision in South London.

Although a number of auto accidents occurred on civic holiday, no one was seriously injured. In the afternoon an auto driven by Miss Merrick of Strathroy and containing six other passengers, went into a ditch near the entrance to Springbank Park. The passengers were thrown out, but escaped with a shaking up.

Later in the afternoon an auto owned by Roy Finch collided at the corner of Wortley road and Elmwood avenue with a new Chevrolet. The machines were both badly smashed, but the occupants were unhurt.

Last evening while crossing Dundas street at Adelaide, John Sargent of 796 Dufferin avenue was struck and knocked down by an auto, which ran over his front wheel. Mr. Sargent was badly shaken up and bruised.

While motoring home from Exeter last evening, Sam Crawford had barely time to slow up and avoid crashing into a heavy pole, which had been placed across the proof line road near the ninth concession of London. The car was going along about 25 miles an hour when Mr. Crawford saw the obstacle ahead and jammed on the brakes. Even then he was unable to prevent the car hitting the pole and the front wheels passed over it. As the machine was going slowly, however, no harm was done.

"Had we struck the pole at the rate we were going," said Mr. Crawford, "goodness knows what would have happened to myself and the five people who were riding with me."

The matter has been reported to the county police and an effort will be made to bring the guilty party into court.

THREE DESERTERS SENT TO PRISON

Six Months Terms Are Taken Calmly—Fourth Remanded.

Four deserters appeared in police court for sentence today each having pleaded guilty to the offence at the time of his arraignment a week ago.

George Dunn, Sidney V. Runstettler and Vernie Hummell were each sentenced to a term of six months in the county jail, and Joseph Kress was remanded for one week in order to secure additional information concerning him.

Dunn, whose home is at Courtright, enlisted with the 149th Battalion on December 27th, 1916, and deserted in April last. He gave no explanation for his conduct, stating only that he had gone away from his battalion when seized with a sudden impulse to go to the United States.

Runstettler and Hummell, both Kitchener youths, enlisted with and deserted from the 118th Battalion. Neither had any defence to offer, each taking his sentence calmly.

Kress, whose home is at Milverton, illegally absented himself from the 110th Battalion. Major Osborne stated to the magistrate that the civil authorities at Milverton had made representations to military headquarters to the effect that Kress had threatened the life of any person who attempted to arrest him on a charge of desertion. Two military police were then dispatched to Milverton, but had no trouble in placing Kress under arrest.

In passing sentence on the three prisoners Magistrate Graydon dwelt upon the seriousness of the crime.

"I must punish you men because if the offence were regarded lightly by the courts the effect would be to shake the very foundations of our military system," said the magistrate.

SPANISH FISHING BOAT ATTACKED BY SUBMARINE IN TERRITORIAL WATERS

London, Aug. 7. — The admiralty learns that a German submarine yesterday attacked a Spanish fishing boat in the neighborhood of Bilbao, Spain, within Spanish territorial waters. Two of the crew were severely wounded.

HOSPITALS NEAR ROUEN ARE UNDER COL. RENNIE

Hamilton, Ont., Aug. 7.—Lieut.-Col. George E. S. Rennie, who has been overseas since shortly after the outbreak of the war, has been made administrator of all Imperial, Canadian and American military hospitals in the district near Rouen, as well as maintaining command of No. 2 Canadian General Hospital, a cablegram announced today. For nearly two years he was in charge of a big chain of hospitals in England and a couple of months ago left for France to take an important command.

SUB SEEKS SHELTER.

Amsterdam, Aug. 7.—The German submarine U-30, accompanied by two Dutch torpedoboats, today entered the waterway of the Netherlands fishing town of Maassluis, ten miles west of Rotterdam, according to a dispatch to the Handelsblat. It is understood that the U-boat merely is awaiting better weather.

AN UNPOPULAR PASTOR.

Moore Jaw, Sask., Aug. 6.—As a result of the statements made in his sermon in St. Andrew's Presbyterian Church last evening, Rev. Mr. Harley of Paducah, Ky., who is substituting in the pulpit during the holidays for Rev. W. G. Wilson, pastor of the church, will be officially asked by Mayor Davidson to shake the dust of Moose Jaw from his feet as soon as possible. Rev. Mr. Harley is reported as saying in his sermon that Great Britain was responsible for the war, because when Russia was remonstrating with Austria for threatening to murder Serbia, she undertook to remain neutral. He also said that the United States was greater than Britain because she stayed out of the war longer, and concluded by a stattment that the time would come when all of North America would be under one flag.

WEALTHY MAN SUICIDES.

St. Louis, Aug. 7.—Gordon Wheat Lambert, member of one of the wealthiest families of St. Louis, shot and killed himself in his apartments today. He was known as an amateur sportsman, and belonged to many athletic clubs of the country. He was 43 years old.

ALL EMPLOYERS' HELP IS NEEDED TO SECURE MEN

Businessmen Called To Gather at the Tecumseh House Tonight.

NEED IS DESPERATE

400 Workers Required, and City Is Asked To Secure Them at Once.

There will be a meeting of employers of labor at the Tecumseh House this evening to discuss methods of securing 400 men from the city of London to help off with the harvest.

Arthur W. White, who is on the provincial committee, is sending out invitations to all interested, and it is expected that every employer will be on hand.

"We have started to organize, and we will lose no time," said Mr. White. "We want the men, and we want them right away. I am sure the employers of labor will help us out, as the situation is one that demands instant action."

War Stops City Work.

Mayor Stevenson will also take part in the discussion, and will have the council pass a resolution favorable to the scheme. If necessary, the city work will be stopped to help the farmers.

Gordon Philip, secretary of the board of trade, has received from Albert H. Abbott, secretary of the organization of resources committee, Toronto, a circular calling attention to the seriousness of the occasion. The letter is as follows:

Dear Sir,—Ontario desperately needs at least ten thousand men to assist in saving our harvest.

The harvest for which we have been working since early last spring is now upon us, and the labor conditions which we then anticipated has been accentuated by weather conditions. Haying, hoeing and harvesting are crowded together. Therefore, a greater number of men is required to assist in the harvest than could have been anticipated even two weeks ago.

Many Are Co-operating.

Moreover, the harvest promises to be one of the most abundant with which the province has been blessed. You will doubtless have read Sir William Hearst's appeal published in Monday's London papers. In no respect does it overstate the situation. We have called together representative employers of labor from all over the province and have laid the whole situation before them, with the result that the Manufacturers' Association, the Retail Merchants' Association and other representative bodies are co-operating to secure the men.

The mayor of your municipality has also received a telegram from the prime minister, and a letter from this committee, setting forth the situation in some detail. Will you, as associated with the committee, which is co-operating with the organization of resources committee in your municipality, see to it that the various employers of labor get to work at once, and if they themselves, or your municipal officials, are not taking action, your committee should provide the lead.

Work for Local Centres.

Call upon us for any assistance which you deem essential, but please understand that in a province-wide movement the local centre must arrange its own work. That is the basis upon which all our organization has proceeded. We look for your enthusiastic co-operation, and we ask you to keep in close touch with the situation through the daily press and to inform this office of exactly what is being done.

Yours faithfully,
ALBERT H. ABBOTT,
Secretary.

IN THE POLICE COURT

Declining to believe the story of Frank Cahill, 48 Blackfriars street, that he had local option beer in an imperial whisky bottle, Magistrate Graydon, in police court today, convicted Cahill under section 41 of the Ontario temperance act, and imposed a penalty of $200 and costs, or three months in jail.

Cahill was arrested Sunday afternoon in an intoxicated condition on a lawn in front of the home of Alfred Hill, 905 Maitland street. The second charge under section 41 was dismissed, the magistrate taking the view that the front lawn, although a public place, was according to his interpretation not so under the Ontario temperance act.

The third charge of intoxication was withdrawn, as Cahill had already been convicted on the first.

Threw Bottle Away.

Patrolman Faircloth testified that on the evening of July 21st he noticed Cahill enter the Queen's Hotel, and as he did his coat was blown aside exposing a bottle of whisky in his hip pocket. When the patrolman approached him he threw the bottle on the cement floor. The fragments were gathered up and produced as evidence.

Cahill in his own behalf admitted he had the whiskey bottle, but that its contents were nothing but local option beer. He explained the broken bottle by saying it accidentally slipped from his grasp when the patrolman approached him.

Magistrate Graydon characterized Cahill's story as unreasonable, and informed him that if there was the shadow of a doubt he would give him the benefit of it, but thought that from Cahill's record he was not in the habit of carrying around local option beer.

Bailed to Appear.

Alfred Hill, charged under section 40 with keeping liquor for sale, was bailed to appear on Friday, his counsel, J. W. G. Winnett, requesting an adjournment until then to summon witnesses.

Two other men arrested at Hill's house on Sunday, pleaded guilty to intoxication, but both were discharged, as they were in a private house at the time, and nearby residents refused to lay informations against them. Under the circumstances the magistrate had no alternative to discharge them, although they had pleaded guilty.

Two others arrested on the street last evening admitted the charges of drunkenness laid against them. Each explained it was a Civic holiday jag. The first to speak up said that things were so quiet in the city yesterday that he could see nothing else to do but get drunk. Being a fourth timer he was fined $20 and costs or 21 days in jail. The other drew the minimum penalty, $10 and costs, or 10 days. Both selected the days owing to a shortage of funds.

A Regular Sunday Jag.

The last, a Russian laborer, was summoned to appear because of complaints made by his neighbors on Sunday last. After some questioning he admitted it was only his regular Sunday drunk, and he could see nothing unusual about it.

"You should go to church on Sunday instead of getting drunk," said the magistrate.

"No, no; too hot to go to church," replied the accused as he was fined $10 and costs.

WINDSOR YARDMASTER INJURED IN DETROIT

Struck by Street Car On Woodward Avenhe and Leg Broken.

WINDSOR, Aug. 6.—Serious injuries were sustained in Detroit this afternoon by Thomas Mervin, aged 50, employed as yardmaster in the Canadian Pacific yards here. Attempting to cross Woodward avenue, Mervin was hit by a street car, and in addition to a broken leg, received other injuries. He was brought to Hotel Dieu here, and is expected to recover.

RETURNS TO FRONT AS PRIVATE AFTER NOTABLE SERVICE

Pte. James Murray Now in Construction Corps.

TWO DRAFTS ARE AWAY

No. 1 Railway Unit and the A.M.C. Boys Leave for East With 127 Men.

Determined to do his bit, and to do it not only once but twice, Pte. James Murray, son of Scott Murray of this city, left today for an eastern training point as a member of No. 1 Railway Construction Draft. "Jimmie" Murray left London with the original 1st Battalion, and after serving nearly two years in the trenches, during which time he won his sergeant's stripes, the Distinguished Conduct Medal with two bars, and though unwounded, suffered numerous injuries from shell explosions, about three months ago returned to this city, invalided home from the front. He is now going back again as a private, and though not fit for first-line fighting, he left today to do what he can for the cause.

Two Drafts Leave.

Along with Pte. Murray went 57 other members of No. 1 Railway Construction Draft, in command of Lieut. R. D. Torrance, and also 70 members of the Army Medical Corps Training Depot No. 1, in command of Capt. J. A. Bell and Lieut. R. S. Murray. The men were led to the C. P. R. station by the A. M. C. Pipe Band, and the band of No. 1 Special Service Company, and left in coaches attached to the 1:25 eastbound train this afternoon.

A large crowd of friends and relatives was on hand, and the boys were given an enthusiastic sendoff.

Gifts From Veterans.

Other men who have seen active service were Pte. C. A. Piper, Corp. Wells and Pte. Bayton, and these three, together with Sergt. Jimmie Murray, D. C. M., were presented with gifts by Jack Cinliffe, Sergt. E. Ball and Sergt. Smith on behalf of the Great War Veteran's Association. Jimmie Murray and the other returned men were given a rousing farewell by their many friends.

Other men who have seen previous service are Pte. Frederick Coursey, a former member of the 18th Battalion, who is attached to the railway construction draft until he gets overseas, when he will return to his original unit, and Pte. D. L. Bliss of the army medical draft, who went over in the first contingent with the 1st Field Company, Canadia Engineers, and was later invalided home.

Graduate of Western.

Lieut. R. S. Murray, who went away in charge of one of the A. M. C. drafts today, was a member of this year's graduating class of the medical faculty of Western University.

TWO CARS FOUND, THIRD IS MISSING

Thomas Shaw's Ford Is Taken From Queen's Park Hotel.

The theft of motor cars and bicycles in this district in the past few days has almost reached the proportions of an epidemic.

Following the theft of cars on Sunday at Port Stanley and St. Thomas, belonging to F. McDougall, Ingersoll, and W. Baker, 493 Talbot street, city, the police were notified today that a five-passenger Ford touring car owned by Thomas Shaw, east end grocer, had been stolen from Queen's Park at 1:30 o'clock today. The number of the car is 11314, and engine number 91237. It is equipped with a one-man top.

The cars belonging to F. McDougal and W. Baker were recovered last night.

The detectives are endeavoring to locate two soldiers who are alleged to have stolen the automobiles. One soldier is described by the police as being about 19 years old, with a wounded arm. The other soldier is short and stocky and has a very freckled face.

Several bicycles have also been stolen in the past day or so. Donald Topping of 325 Adelaide street had a brand-new Brantford wheel stolen on Friday evening from in front of a Richmond street theatre. Last night Ernest McIntosh of 29 Bruce street had a new wheel taken from in front of The Advertiser office.

PTE. DICKENSON HAPPY WITH HIS CHILDREN AND DECLINES TO TALK

Pte. Dickenson, whose wife is alleged to have married again during her husband's absence overseas, declined to make any statement in connection with the affair when seen by The Advertiser today.

"You can say that I am quite happy with my three children again, and we are having a good time," he said. The interview took place in a photo-studio, where Dickenson had gone with his three children to have their pictures taken.

They will remain in the home for some time, as he is not certain yet whether he will obtain his discharge.

THORNDALE

THORNDALE, Aug. 6. — Quarterly meeting service was held in the Methodist Church on Sunday morning.

Miss Harvey of Wyoming spent a few days with Mrs. (Dr.) Armstrong.

Mr. and Mrs. James McKenzie of London have returned home after spending a week with relatives here.

Mr. and Mrs. H. Rundell and family and J. Routley of Kirkton and Mrs. R. Allen and Miss Mary Allen of Hamiota, Man., motored to Thorndale Sunday.

Rev. R. J. Bowen, district secretary of the Canadian Bible Society, will give an illustrated lecture in Thorndale on September 2.

REAL HERO, ALSO BEAR IN MOVIES, MAKES HIS EXIT

E. Marr Rickert Made a Hit With Society Dames.

LEFT BIG HOTEL BILL

Flappers Flocked Around the Handsome Visitor, So the Tale Is Told.

Some persons in the city of London, in fact, quite a number, would like to hear from E. Marr Rickert, Montreal, who was regarded here as a returned soldier, a member of the famous Princess Pats. Not that they allege that there is any wrongdoing, but at the same time his absence from the city for some days causes them to wonder whether or not the money they long for will ever come.

The young gentleman, quite handsome, by the way, dropped into the city some weeks ago, and put up at the Tecumseh House. According to his story, he was the real thing in the hero way and, in addition, was a bear in the movies. He made the acquaintance of some of the best people, and was quite, yes, quite a swell "fellah" all the way long.

Makes Hit With Ladies.

He was quite a dashing thing among the girls, and was more than popular with the young misses, who really do love an honest-to-goodness hero.

And well connected. Well, rather! An uncle was quite a person, a mere millionaire or something, a giant among the moving picture giants. He himself was a director of one of the big companies, and had acted, just as a pastime, to give the proletariat a treat. Oh, yes, he expected a small thing in the way of a fortune from another uncle in Paris. His photograph said, "E. Merr Rickert, Universal Films," and it was freely given to the flappers.

This is the story told by the folks who knew him. He had some work done by a dentist here, who has not received his money. Hence his worry.

Joy Ride On Her Money.

It is also alleged that he borrowed some money from one trusting damsel and took another young lady out for a joy ride.

Mr. Rickert may not have vamoosed, or otherwise left this city and its inhabitants in the lurch, but at the same time his creditors would like to see him.

In the meantime, the proprietors of the Tecumseh House are holding a trunk and some other belongings to reimburse them in case he fails to bestow the smile of his on the inhabitants of this city. Better, they will hold it until the cash is coming along.

At the hour of going to press, Mr. Rickert has not returned.

CITY BREVITIES

IN MANCHESTER HOSPITAL.—Lieut. A. G. Fraser, recently reported wounded in five places, is now at the High Street Military Hospital in Manchester. Friends in the city have received postcards from him.

LAWSON IS REMANDED.—James Lawson, who was to have been sentenced today for bigamy, was remanded to jail again for another week, his counsel, J. M. McEvoy being out of the city.

LONDON MAN GETS PATENT.—William H. Clampitt, King street, this city, has been given a patent at Washington on a fireproof shutter. Mr. Clampitt has been working on the thing for some time, but has now got it perfected, and patented. He would not discuss the features of his invention.

BREAKS HIS WRIST.—Charles Davis, a G. T. R. car repairer, slipped on a slanting board while at his work yesterday and as a result of his fall sustained a broken left wrist. The accident happened east of Egerton street at the old racecourse. Dr. F. B. Clegg reduced the fracture, the injured man being then removed to his home.

WILL OBSERVE WEDNESDAY. — Mr. Thomas Shaw, president of the Grocers' Association, stated this morning that the regular Wednesday afternoon holiday would be held this week as usual. A number of the business-men in conversation on the market this morning decided to close their stores on Wednesday as customary.

VISIT PORT GLASGOW.—A detachment of twenty men from the Infantry Training School at Carling Heights camp made a trip to Port Glasgow on Monday, where they put on an excellent exhibition of infantry training, including physical training and bayonet fighting. They report a pleasant time during the trip and at Port Glasgow.

COMMANDS TRAINING DEPOT.—Lieut.-Col. Milligan, formerly officer commanding the 18th Battalion, and recently commanding the 21st Regiment C. D. F. Battalion at Windsor, has been appointed to command the central training depot at Carling Heights, and took over his new duties from Lieut.-Col. Delamere, the present officer commanding, today.

COUNCIL MEETS TONIGHT — The council will meet this evening, with an enormous budget of business to dispose of. There will be 82 clauses in the board of control's report, and that will take quite a lot of time to get through with. The discussion regarding the proposed dismissal of Assessor Martin O'Sullivan will be staged, and it is probable that the matter will be settled for some time at least.

DEATH CAME TO HOME TWICE IN THREE DAYS' TIME

Two Children of Stephen Bank Taken Since Sunday.

Death paid its second visit to one family within three days, when it took seven-year-old Mary Bonk on Sunday. Her little sister, Catherine, aged two years, died on Friday from diphtheria. Mary's death was caused by heart-trouble. The little girls were the daughters of Stephen Bonk, 449 Nelson street.

The funeral of the oldest child was held from the family residence today to St. Mary's Church, where requiem high mass was sung. Interment took place at St. Peter's Cemetery.

SWEPT TO DEATH BEFORE EYES OF MANY PLAYMATES

Windsor Boy Caught by Undertow and Drowned.

WINDSOR, Aug. 6.—Elliott Kersey, aged 12, son of George Kersey, 15 Montmorency street, was drowned in the river at the foot of Bridge avenue this afternoon. The boy ventured beyond his depth, and being caught in the swift undertow was swept away.

The tragedy was witnessed by a number of other children, who were powerless to aid. The body was recovered this evening.

WHAT OF IT?

[By Grantland Rice.]

Perhaps the time is nearing when we'll all go to the front;
But what of it?
The married man, the single man, the brawny and the runt;
But what of it?
Some twenty millions now have gone—the bravest and the best—
From every land beneath the sun to face the final test;
Why should we hope to hang around within a downy nest?
So what of it?

Perhaps when we are called to go we'll find the game is tough;
But what of it?
We'll find our dreams are shattered where the hand of Fate is rough;
But what of it?
We'll find that all our idle joys have come beneath a ban;
We'll find our share of bitterness among the fighting clan;
But was Life made for a weakling—or was Life made for a Man?
So what of it?

Perhaps among the fallen brave we'll find the grave is deep;
But what of it?
Perhaps in sombre No Man's Land we'll know our final sleep;
But what of it?
Since each of us owes God a death—and each has got to pay—
Why not swing out with valiant stride along the open way
To where the Great Adventure waits this side of Judgment Day?
So what of it?

STAIRS OF HOTEL AT PORT RENTED FOR $1.25 A STEP!

Holiday Crowds Slept Anywhere and Everywhere, Including Sandy Beaches.

Every available place where one might sleep was put into use last night to accommodate what was possibly the largest holiday crowd of the season at Port Stanley.

Every hotel room of the village had been secured beforehand and the late merrymakers were forced to rest on improvised beds and stretchers. An ordinary bed with a mattress could only be secured at a premium, while benches, chairs and other substitutes for beds demanded a big price.

Slept on Hotel Stairs.

In one small hotel $1.25 was demanded from each boarder for sleeping on a separate step of the stairs. The steps were broad ones, and no one is reported to have rolled down.

Two young ladies, when asked for $1.25 each for the use of an alcove to sleep in, told the proprietress that the price was outrageous and declared that they would not pay it. The owner of the hotel confiscated the ladies' luggage and demanded that they pay double the usual price. This they refused to do, however, after having found their luggage through a piece of good fortune, they departed from the place.

Slept on Beaches.

Tents and improvised shelters were erected all over the various beaches by young men of sporting calibre, and many who would not otherwise have enjoyed the week end were able to do so in that manner.

MORE OF DOT'S ADVENTURES AS SOLDIER OF THE SOIL

The Ontario Government Employment Bureau approves of Dot, the Berry-Picker. Not only did it originally contribute a blue National Service Badge for her khaki-clad arm, but when it read her letters in Saturday's Advertiser, it unhooked its phone for enthusiastic comment.

"Dot's the real thing," said the bureau. "We're cutting her out to send to Dr. Riddell."

That means that 15 Queen's Park, Toronto, the head office for all the employment branches, will see of what stuff the London girls are made, and will have a chance to be as proud of them as we are.

Here's some more berry-picker's diary from the same source. We want to get it in in a hurry for fear Dot reads the first lot and wires the censor:

Thistles Like Trees.

"This has been quite an eventful day. This morning George came for us with the dray at about half-past six and, as we were late to breakfast anyway, we had only half-finished our porridge. I grabbed a piece of toast and buttered it, ran up to our room for our lunches, and we all, about nine of us, piled on the dray. We went right through the village and everyone called at us. They took us straight to the carrot patch, and we began to weed. . . . It was pretty hard work. The weeds were so thick and there were thistles that seemed like young trees. We had to get right down on our knees in the mud and our hands were a sight. I have a habit of drawing my hand across my face, so you can imagine what I looked like at the end of ten minutes.

"At about half-past ten it began to rain and we had to go into the barn. It was out of the question to go back to the carrot patch even after the rain would stop, so we decided to go over to the canning factory and ask for a job. But before we went, we had a nice little visit with an old lady. She lives right next to Mr. Blank's in a huge stone house, all by herself, with three Angora cats and a parrot. We were petting the cat, and she came out and asked us in. We crept with muddy feet into the kitchen. She said she didn't mind, as she hadn't cleaned the floor yet. It looked all right to eat off, but I suppose she knew what she was talking about. Everybody is so good to us, and so friendly. We'll be sure to go there again.

Given Lift by Motor.

"We started out for the canning factory in the pouring rain, but we had only got a little way when a huge motor turned around the corner ahead of us. The man must have looked back and seen us, because pretty soon we saw the motor backing up, and when it reached us the man stopped and offered us a lift. You may be sure we hopped in in a hurry. He went out of his way to drive us to the canning factory. Our uniforms seem to get us everything, don't they?"

Another day . . . "I don't believe we have had hotter weather in years. This morning I had to help with the breakfast dishes and then, as it was Sunday, six of us went down swimming and never got back till dinner-time. We had a very nice dinner—cold veal, salad, pickles and pie. It was too hot to write letters, so I slept till four. Mrs. Blank, wife of the owner of our canning factory, had the whole camp to tea. They have a lovely home, and we had such a nice time.

"Then, about 7:45, most of the girls went down to the beach, while I dutifully came back to write to you. By the way, we rode home on the radial and, as it was full, we stood out at the back, and Lorraine and I sat on the steps. We can do absolutely anything with our uniforms and nobody is surprised. The only trouble is we are out of our element in skirts and don't feel natural when we get dressed up.

Is Feeling Rich.

"Thanks ever so much for the money. I received your letter when I came back while I was washing my uniform. Don't you feel at all anxious about my finances. Of course, there is the four dollars' board every week, and that is a hole, but last week I made more than nine dollars so, you see, I am quite rich. We get paid by the hour—fifteen cents—at weeding, hoeing, etc., but we are paid by the basket for fruit. We can make most at cherries, but now they are over (for which I am glad, as I am tired of falling out of ladders!) we will be picking raspberries, and nobody gets rich on them. We have to think of Lloyd George and the country. I suppose But I don't want you to send me a cent more, but that ten will be fine for extras. I haven't decided whether to bank my money here or send it home. Ask dad. I don't think it's safe to keep too much around.

"You ought to see my arms and hands! First they burned; then blistered; then peeled. The parts that didn't peel, tanned on top of the burn, but the parts that peeled have blistered again and are a fiery red. The parts that have tanned are almost black. My face doesn't seem to have been affected at all. The mosquitoes and flies are awful, but I haven't been troubled very much. It is trying these hot days. Between one and three in the afternoon it seems as if we will go mad. But we don't. However, when 6 o'clock comes we quit—right on the dot!

Wild for Help.

"I think at the end of the month I can come home for a few days. I shall be looking forward to it while I am slaving here. I wish more girls realized how they are needed. The farmers are almost wild for want of help. While I have been writing this letter two farmers have called up. I talked to each of them for about ten minutes. They are all so nice and interested in us. Some Sunday afternoon we are going to have all the farmers and their wives to tea.

"I am sorry I can't write Margaret. If she could stick at the job she wants I would let her come, for she is needed, but I am quite sure she could never stand ten hours a day for long, no matter what good intentions she had. After all, she is only eleven. It is the older girls who should go. If you see Louise tell her how desperate the farmers are. Huge orchards of currants and raspberries going to waste. It is awful. We have a perfect scorn for some of the Grimsby girls. They dress up and sit around all day and don't do a thing."

Dot isn't hitting at you. She doesn't know her letters are in The Advertiser. But, if your name happens to be Louise, or if you're a spiritual cousin of hers, don't forget that the Government Employment Bureau for our district is on the corner of Dundas and Talbot. There's a Springbank car that leaves at seven-thirty each morning. It's the National Service Special, the Farmers' Aid, the Country's Hope. And if you could see fit to occupy a seat in it tomorrow, well, your guardian angel would feel good for a week.

LONDON RANKS SECOND IN JULY'S RECRUITING; TOTAL ENLISTMENT, 4,257

Ottawa, Aug. 7.—Out of 5,257 recruits enlisted by the voluntary method in July, 2,405 were recruited in the last two weeks, and 1,852 in the first two weeks of the month.

By divisions, the enlistments were: London, 243; Toronto, 1,104; Kingston-Ottawa, 163; Montreal, 213; British Columbia, 24; Maritime Provinces, 215; Manitoba, 187; Saskatchewan, 46; Alberta, 48; British Columbia, 162.

DEATHS AND FUNERALS

FUNERAL OF MR. GARNER.

The funeral of William Robert Garner, one of London's best-known printers, who died last Thursday, was held from the funeral parlors of G .E. Logan on Sunday. Funeral services were conducted by Rev. Lewis Wickett of the Centennial Methodist Church. Interment took place in Mount Pleasant Cemetery. The pallbearers were Samuel and James Garner, brothers, from Chicago; Harold Garner, a son; Christopher Peal, James Ferrier and Joseph Craig.

WEDDING BELLS

BROWN—DONNELLY.

A pretty wedding was solemnized on Monday morning in St. Mary's Church, Lyle street, by the Rev. Father Corcoran, the contracting parties being Harvey Brown and Miss Lillian Donnelly. The bride was attractively attired in a pretty steel grey silk dress, suitably trimmed, and hat to match, carrying a beautiful bouquet of pink roses. The bride was assisted by her sister, Miss Mary Donnelly, who also looked charming in blue silk, carrying a bouquet of red roses, while the bridegroom was attended by Charles Gartside. After the ceremony the bridal party repaired to the home of the bride's mother, where a sumptuous wedding breakfast was served, after which Mr. and Mrs. Brown left on the G.T.R. for points east, amid showers of good wishes from their numerous friends in the city.

STACEY—MOTTASHED.

A quiet wedding took place on Monday afternoon, August 6, 1917, at the Hamilton Road Presbyterian manse, Hyatt avenue, when Mr. J. Roy Stacey and Miss Ila Maud Mottashed, both of this city, were united in the holy bonds. Rev. Dr. D. L. McCrae performed the ceremony. The young couple, after a brief honeymoon, will take up their residence in London. Their many friends wish them every happiness.

LIEUT. JAMES GOES TO GLORIOUS DEATH WITH WELSH REGT.

Young Londoner Served With a Famous Battalion.

CALLED "CANADA JIM"

Young Advertising Man Won Commission for Good Service at Front.

Lieut. Evan James, who was killed in action on July 27th, according to an official report received by his mother, Mrs. A. James, 283 Talbot street, was a former Londoner, and left here as a private with a Western Ontario battalion in April, 1915.

After serving eighteen months in the trenches as a private he was awarded

LIEUT EVAN JAMES.

a commission in the imperial army in December, 1916, and at the time of his death he was serving with the famous Welsh battalion that has been mentioned in dispatches for the work in recent fighting in Flanders.

Known as "Canada Jim."

He was twice wounded, once at Ypres in April, 1916, when he received a gunshot wound in the head, and again about three weeks later, when having returned to duty, he was hit by shrapnel splinters in the face. On one occasion during a small raid he captured six prisoners. He showed exceptional initiative, and being the only Canadian in the Welsh battalion to which he was attached, he was known to his fellow officers as "Canada Jim."

Lieut. James was formerly a member of the staff of the McConnell-Fergusson Advertising Agency here, and later of the Gibbons Advertising Company of Toronto. He took a deep interest in church affairs, and was a member of the Southern Congregational Church choir in this city, and also of the Knox Presbyterian Church choir in Toronto.

Another Brother at Front.

Another brother, Driver Ivor James, has been at the front with the 12th Battery since that unit went to the front under the late Major Wood Leonard.

A brother-in-law, Pte. D. L. Bliss, is a member of the Army Medical Corps draft, which is expected to leave for the east in the near future. He went to the front at the beginning of the war as a corporal in the 1st Field Company Canadian Engineers, and having been invalided home is going to do his bit a second time.

THREE ATTACKS BY THE CROWN PRINCE BROKEN BY FRENCH

Germans Unable To Make Progress Against Poilus in Champagne Region.

Paris, Aug. 7.—Three infantry attacks launched last night by troops of the German crown prince against French positions in the Champagne region were repulsed, says the official statement issued today by the French war department. A German attack between Avocourt Wood and Hill 304, in the Verdun sector, was driven off with heavy losses to the Teutons.

There was a violent artillery action in the Bixschoote sector of the Belgian front, and another between Hurtebize and Craonne, north of the River Aisne.

HEAT CAUSES SALMON TO EXPLODE IN STORE

Brussels Merchant Baptized by Contents of Can Affected by Weather.

BRUSSELS, Aug. 6.—Wednesday will be Walton's civic holiday, and will be spent at a monster Red Cross picnic, at which a ladies' baseball match and a program of sports will be put on. James Rea's grove will be the place of meeting.

Rev. Mr. Lundy and wife of Walton are away for their vacation. Mr. Lundy will spend his holiday on the old homestead near Brampton, building up muscle in helping harvest the crops.

A meeting was held at Ethel to deal with the question of resources, and the following committee was appointed: Chairman, John McDonald; secretary, Rev. J. W. Johnson; committee, Dr. Ferguson, A. H. McDonald, A. L. McDonald, Rev. J. L. McCulloch, Councillor Collins, Reeve Livingstone, R. Bremner and D. W. Dunbar.

Thursday afternoon of this week Miss Pritchard of Owen Sound, under the conservation of food campaign, will address the Women's Institute in the town hall and give a demonstration in vegetable and fruit canning.

A can of salmon on a shelf in J. T. Ross' grocery exploded, throwing the contents for yards and giving the proprietor the benefit of the fish. Extreme hot weather is supposed to have been the cause.

Owing to the extreme heat the Oddfellows' lodge is only meeting semi-monthly, instead of weekly.

Lloyd Jackson and George Edwards passed Part II. of the entrance to faculties, and Stuart Grant and Roy Stewart won out in Part I. The quartet is attending Stratford Collegiate Institute.

$5,000 DAMAGE TO KITCHENER THEATRE

Fire, Caused by Defective Wire in Piano, Sweeps Playhouse.

KITCHENER, Aug. 6.—Fire, caused it is believed by defective electric wiring, did $5,000 damage to the Roma Theatre today. According to the report of the fire chief the blaze originated in a wire in the electric piano, which was completely destroyed.

The proprietor believes that it will take a month before the playhouse can be reopened.

SINGS PRAISE OF CANADA UPON HIS RETURN FROM LINE

Gunner Raymond Says of All Land It Is Best.

MEN CLAMOR FOR LEAVE

Get Small Hope of Furlough Because of Need at the Front.

That the original members of Canada's first 40 battalions are badly in need of a long rest, is the opinion of Gunner Gordon Raymond, son of Fred Raymond of Labatt's, who returned to London Saturday on leave of absence, after spending 26 months overseas.

Gunner Raymond secured leave of absence for three months, and is staying at his parents' residence, 40 Ridout street, convalescing from the nervous strain of 17 months' continuous fighting with the Canadian artillery.

"I have secured three months' leave, because my case was thought to be exceptional by the military authorities," hee said, "otherwise I would not have been given a trip to Blighty, although I have been on overseas service for 26 months. Many of the artillery men have been fightifig for a longer time than myself, but have received no leave yet. Everybody is clamoring for a holiday, but it doesn't do much good, as the authorities declare that every available man is needed in some capacity."

Gunner Raymond was delighted with the illuminated aspect of Montreal, and said that the lights of the city were the first he had seen in 24 months. He stated that everybody is optimistic that the war will end this year, but he thought the German and Allied lines would remain as they are at present.

"I expect the Germans to give up the ghost this year because of the economic conditions of Germany and her allies," he said. "The only time my optimism fades is when the Huns begin shelling us, but that never keeps up very long. Give me Canada every time when it comes to choosing a country to live in. It is not because my parents live here that I say that. It is because I like the people, the customs and the climate of Canada better than that of any country in which I have been within the last three years."

EXPRESS CONFIDENCE IN CONSCRIPTION MOVE

Members of I. O. D. E. at Watford Win-the-War Policy.

WATFORD, Aug. 6.—At a joint meeting of Tecumseh and Lambton Chapters, I. O. D. E., held at the home of Mrs. W. J. Thompson, a resolution was drafted expressing the opinion of the majority of the members to be in favor of the win-the-war policy and of conscription.

The Presbyterian and Methodist Churches held union services on Sunday, Rev. Mr. Tiffin preaching at both services. In the armory Monday evening Watford's Dramatic Society, under the capable leadership of Prof. John Roche, staged one of the most artistic and successful plays ever produced in town by local talent. "High Society" is an Irish musical comedy of exceptional interest, and the actors and actresses showed remarkable skill in the portrayal of the characters. A ballet consisiting of sixteen young girls enlivened the play with four fancy dances. The cast was as follows: Mrs. Finnigan (leading lady) Prof. Roche; Mr. Finnigan (leading man), W. G. Connolly; Patrick (their son) R. Brown; Jake, (a Dutchman) L. Millar; Katy (his daughter) Miss E. McKercher; Rafferty (Mr. Finnigan's friend) T. A. Adams; Count (a Frenchman) F. K. Matthews; Adventuress (Lady Hamial) Miss A. Tanner.

The play was under the auspices of Tecumseh Chapter, I. O. D. E. The proceeds, which are not known yet, as the play is to be repeated on Tuesday evening, will be used to buy Red Cross supplies.

LONDON AND DISTRICT MEN RETURNED FROM OVERSEAS

The local branch of the Soldiers' Aid Commission has received information that the following list of men arrived at Halifax on August 1, 1917, and will reach London probably the end of this week:

CLANDEBOYE BARN IS DESTROYED BY FIRE

Hit by Lightning and Goes Up In Smoke After Sunday Storm.

CLANDEBOYE, Aug. 6.—A severe thunderstorm was experienced here on Sunday. Considerable standing grain and uncut hay was leveled and much damage was done to fruit trees.

While the storm was at its height lightning struck the barn of T. Lewis. The resulting fire burned it to the ground. A quantity of hay and some machinery were destroyed with the barn.

WOMEN WHO FADE EARLY

How often we hear the expression, "How she has faded!" or "Hasn't she grown old!" Her friends see it. Her husband sees it. She realizes it herself with a pang. Often she knows the reason, some female derangement has fastened itself upon her and makes it almost impossible for her to drag around from day to day. Such women should remember there is one tried and true remedy for their condition, and that Lydia E. Pinkham's Vegetable Compound for more than forty years has been restoring women to health and happiness. Try it!

THIS MAN SAYS HE COULDN'T RAISE HIS HAND UP TO HEAD

Suffered With Rheumatism Fifteen Years.

TROUBLE DISAPPEARING.

"Tanlac Is the Finest Thing I've Ever Taken," Says Arthur Ward.

"Rheumatism had me in its clutches for fifteen years, and there was never a day or an hour during that time I was free from pain until I got relief by taking Tanlac," said Arthur Ward of 1978 Dundas street, Toronto. Mr. Ward is by trade a stationary fireman. He has lived in Toronto for a number of years, and is now employed by the Government.

"My shoulders and arms hurt me so bad," continued Mr. Ward, "that I couldn't raise my hands to put on my cap and coat and my wife had to help me to dress and undress. I would come home at nights from my work simply suffering agony. My neck was so stiff I could hardly turn my head, and my leg throbbed and pained like a bad toothache. In fact, every muscle in my body seemed to be affected, and I would just toss and roll all night in so much misery I couldn't sleep. I would start off to my work in the mornings so crippled up and stiff I could hardly move. The pain in my leg seemed to go clean to the bone, and at times I couldn't bear my weight on it at all. I tried everything in the way of medicines, and during the past three years have had four operations on my leg, but got little or no relief. I just can't describe my awful suffering, and had just about given up all hope of ever getting any better.

"My wife had been keeping up with the Tanlac testimonials, so one day she said: 'Arthur, I believe if you will try Tanlac it will help you.' So, more to please her than anything else, I bought a bottle, and I can tell you frankly, it is the finest thing I have ever taken, and two bottles have done me more good than everything else put together. Of course, I'm still taking it, but my rheumatism is already so much better that I hardly notice it any more, and my general health is greatly improved. I'm never bothered any more with those awful pains through my body, all the stiffness has gone out of my arms, shoulders and legs, and, while my work is hard, I can stick to it all day and feel good when night comes. I'm feeling fine now, better than I have in years, so you see I have the best of reasons for praising Tanlac."

Tanlac is sold in London by Standard Drug, Limited, under the direction of a special representative, and by an established agency in every town.

Just Try This When Hairy Growth Appears

(Modes of Today.)

A smooth, hairless skin always follows the use of a paste made by mixing some water with plain, powdered delatone. This paste is applied to the hairy surface 2 or 3 minutes, then rubbed off and the skin washed, when every trace of hair will have vanished. No pain or discomfort attends the use of the delatone paste, but caution should be exercised to be sure that you get real delatone.—Advt.

Child Could Not Sleep Nights

Because of Itching Burning Rash On Head and Face. Came In Eruptions. Cuticura Healed.

"My little boy was ailing for weeks and broke out in a rash on his head and face. It was very itchy and burned and the child could not sleep nights. His hair came out and was very dry, and the rash came into big eruptions.

"Then I got Cuticura Soap and Ointment and I used two boxes of Cuticura Ointment and three cakes of Cuticura Soap when he was healed." (Signed) Mrs. John Mackenzie, Walkerton, Ont.

Clear the skin and scalp and keep them clear by using Cuticura Soap for every-day toilet purposes.

For Free Sample Each by Mail address post-card: "Cuticura, Dept. A, Boston, U. S. A." Sold everywhere.

ALLIES DRIVE FOE FROM HEIGHTS IN MACEDONIAN AREA

Two Surprise Attacks by the Enemy Are Likewise Repulsed.

PARIS, Aug. 6.—The French official statement from Macedonia says:

"Army of the East, Aug. 5—There were some patrol fights in the valley of the Struma. The enemy attempted two surprise attacks, one in the Cerna bend and the other between Lakes Presba and Ochrida. Both were repulsed.

"To the west of Malick a column which started from Koritza compelled the enemy to evacuate the heights to the south of Kacata."

ADDITIONAL PROOF THAT GERMANY WAS CHIEF WAR PLANNER

Former Special Agent of the American Embassy at Constantinople Writes.

LONDON, Aug. 5.—Louis Einstein, former special agent of the American embassy at Constantinople, writes the Times, supporting the story of the German conference July 5, 1914, preceding the declaration of war. He says that Marquis Garroni, the Italian ambassador at Constantinople told him that on July 15 the German ambassador, Wangenheim, who had returned to Constantinople from Berlin the previous day, informed him of the conference at which Herr Wangenheim himself was present and that the war was decided upon at the conference.

The Austrian archduke's murder was to be the pretext and that the plan was to present an ultimatum to Serbia which she would not accept and from which war would ensue in 48 hours.

MINISTER OF LABOR LOSING HIS OFFICE; FLAVELLE PRESSURE

[Special to The Advertiser.]

OTTAWA, Aug. 6.—Have the Flavelle interests proved too strong for Hon. T. W. Crothers, minister of labor? Following the report of W. F. O'Connor, K.C., the cost of living commissioner, stating that millions of dollars had been made out of food by the firm of Sir Joseph Flavelle, chairman of the imperial munitions board, Mr. Crothers has received an intimation from the premier that his services are to be dispensed with.

He got the intimation indirectly. Sir Robert Borden told the Toronto winthe-war delegation that a labor man was to be appointed minister of labor, and this was the first news that Mr. Crothers had that he was wanted no longer.

It is well known that several months ago when it leaked out that Mr. O'Connor was investigating the cold storage men, and that the publication of awkward figures would result, an effort was made to get the inquiry stopped, but the effort was fruitless. The cost of living commissioner went straight ahead.

WIND STORM DAMAGE HEAVY AT WINGHAM

Limbs Broken Down, Crops Damaged On Sunday.

WINGHAM, Aug. 6. — A heavy windstorm broke over this district on Sunday evening, and considerable damage was done. Many limbs of trees were blown down.

The windstorm was followed by a heavy downpour of rain, which, although badly needed, did some damage to fruit trees and standing grain.

Owing to the hot weather of last week the local foundry was obliged to close down. It is now running again in full swing, with many big orders to be filled this fall.

Ald. L. F. Binlley and ex-Reeve S. Mitchell are already announcing their intentions of contesting the 1918 mayoralty. It is believed that should they run the vote would be a close one.

LOSS IS $2,000 IN BLAZE AT INGERSOLL

INGERSOLL, Aug. 6.—The hardening department in connection with the Ingersoll Machine Company's plant at the westerly limits of the town, was totally destroyed by fire tonight. It was a frame structure adjoining the main building and the fire started from the oil used in the hardening process. Despite the long run the firemen did very effective work in preventing the flames spreading to the main building and a nearby storehouse. The company has been extensively engaged in the manufacture of munitions and the work will be interrupted for a few days. The damage will probably be in the neighborhood of $2,000, and is covered by insurance.

OLD LUCAN RESIDENT

James Hodgins Dies in His 72nd Year—Buried at St. James.

LUCAN, Aug. 6.—James Hodgins, a respected citizen of the village, died at his residence on Saturday. The funeral was held to St. James' Cemetery, the services being conducted by Rev. William Lowe, rector of the Anglican Church, in the absence of Rev. Mr. Finley, pastor of the Methodist Church, of which Mr. Hodgins had been an old member.

Mr. Hodgins was in his 72nd year, and is survived by a widow, two sons and one daughter—Wilford, with the G. T. R. at North Waterloo; Alfred, of Stephen Township, and Mrs. Frank Colwell of Centralia.

MUCH ABOVE AVERAGE.

ILDERTON, Aug. 6.—Wheat is nearly all cut. Some farmers report late wheat rustling badly. This will have the effect of shrinking the grain. On the whole the crop of wheat and barley being harvested is away above the average for many years.

IRON KERENSKY HAS NEW RUSS CABINET AND ARMIES STIFFEN

Dictator Overcomes Opposition and Democrats Aid Him.

GENERAL ORDERED SHOT

Commander of Guards Corps Which Headed Retreat To Die for Treachery.

PETROGRAD, Aug. 6.—M. Kerensky's cabinet is practically complete. The constitutional democrats have agreed to participate and the list of members who will form the new ministry has been agreed on, but as regards several portfolios the choice is not definite, as the candidates are absent from Petrograd.

The ministry of justice has ordered the arrest of Leon Trotzky and M. Dunacharsky for the part they played in the uprising here last month. The men are international Socialists and leaders in the council of workmen's and soldiers' delegates.

Trotzky a Bad One.

Leon Trotzky lived in the United States at the outbreak of the revolution, and when its success was known he left for Russia. After some difficulty with the British Government he reached Petrograd. With Leonine he led the maximalist disorders in Petrograd in July. Trotzky came to the United States when he was expelled from Europe for preaching peace.

GENERAL ORDERED SHOT.

LONDON, Aug. 6.—General Masaonvosiky, commander of the Guards Corps, which headed the Russian retreat on the southwest front, has been ordered shot, according to a dispatch to the Post from Petrograd. This sentence came after a court-martial, which was ordered by General Hornlioff, commander-in-chief, for non-compliance with his order to shoot deserters.

GIVING BATTLE TO HUNS.

BERLIN, Aug. 6.—The Russians are preparing to give battle to the Austro-German forces advancing on the Russian front between the Dniester and the Pruth, according to today's army headquarters announcement. The Rumanian frontier southwest of Czernowitz is also the scene of Russian resistance.

The text of the announcement reads: "Army group General von Boehm-Ermolli: Along the Zbrocz there have been local engagements. Between the Dniester and the Pruth the Russians have prepared for battle.

Resisting in Rumania.

"Front of Archduke Joseph: Southwest of Czernowitz the enemy is offering resistance on the Rumanian frontier. Our attack is proceeding. We are now before the Sereth and after vigorous fighting have captured Radautz. On both sides of the Moldawa and on the eastern bank of the Bystritza, several height positions were wrested from the Russian forces.

"Repeated Rumanian attacks on Casinului and on Little Lepsa, north of the Putna valley, failed with sanguinary losses.

"Army group of Field Marshal von Mackensen: Between the mountains and the Danube the activity has revived at isolated places."

FIGHTING STUBBORNLY.

PETROGRAD, via London, Aug. 6.—British Admiralty, Per Wireless Press. —The Russian forces fighting northeast of Czernowitz, in an attack drove back the enemy upon several villages, capturing guns and machine guns, but later, in the face of superior forces, were compelled to withdraw to their main position, according to the official communication issued today. In Central Bukowina, around Radautz, the Austro-Germans continue to make progress.

Radautz and several other towns have been captured, and the Bystritza River has been crossed by the enemy.

The communication says:

"West of Brody insignificant enemy attacks were beaten off. Northeast of Czernowitz in the region of the villages of Toperrovce and Rarancze our advanced detachments, developing an offensive, occupied a series of heights and drove the enemy back to the abovementioned villages. As an outcome of a daring attack by a detachment we captured a four-gun battery and some machine guns.

Render Guns Useless.

"Afterwards, the enemy, advancing in superior forces, compelled our troops to retire to our main position. It being impossible to remove the guns we had captured, they were rendered useless, the breeches having been removed.

"South of Czernowitz the enemy continues to advance, chiefly in the regions of Dolina, the River Sereth and the Suchawa, and is pressing back our troops. The villages of Olyboka, Komenka, Wosczinec, Chdikrolva and the town of Radautz were occupied by the enemy.

Hold Foe North of Radautz.

'An attempt to hold back the advancing enemy in the region northwest of Radautz was successful.

"Rumanian front: In the direction of Kimpolung the enemy continues his offensive. Owing to the inability of certain of our units we have been forced to retire somewhat to the east. The enemy has crossed the Bystritza River.

"On the night of the 5th our airplanes dropped a number of bombs on the railway station at Barapovitchi, southwest of Pinsk. Direct hits were observed."

FEW CASUALTIES BEING REPORTED IN DISTRICT NOW

INGERSOLL, Aug. 6.—Letters received here from Pte. Russell Greenaway, son of Mr. and Mrs. S. Greenaway, Bell street, state that he is once more in the trenches. Pte. Greenaway was seriously wounded in the thigh some time ago, and was in a French hospital for six weeks.

MISSED RECEPTION.

HENSALL, Aug. 6.—When the London train arrived here on Saturday evening, a large crowd was present with decorated autos to welcome home Pte. Moore, returning after two years' service at the front, badly wounded. The band was playing "We'll Never Let the Old Flag Fall" when the train steamed in, but Pte. Moore failed to appear, having missed the train. He returned on an early train Monday morning.

JOSEPH H. HUGHES DEAD; FORMER BRANDON MAYOR, A NATIVE OF THIS CITY

[Special to The Advertiser.]

WINNIPEG, Aug. 6.—Joseph Henry Hughes, 60 years old, formerly mayor of Brandon, and formerly one of the most enterprising business men of that city, died on Sunday, after being ill several weeks.

Mr. Hughes was born in London in 1857. He came to Western Canada in the eighties. He is survived by a widow and three daughters.

DEATH LIST NOW 35 IN KENTUCKY DISASTER

CLAY, Ky., Aug. 6.—The recovery of three additional bodies from the No. 7 mine of the West Kentucky Coal Company, in which an explosion took place Saturday, together with the death of one injured miner who had been rescued alive, brought the known death list of the disaster to 35. About twelve men, none of whom are believed to be still alive, are confined in the interior workings of the mine.

3 WESTERN PROVINCES ARE BEHIND LAURIER IN COMING CONTEST

Delegates From Sask., Alta., B. C. Indorse Old Chief.

MANITOBA IS OPPOSED

Sir Clifford Sifton On His Way To the Dominion Capital.

[Special to The Advertiser.]

WINNIPEG, Aug. 6.—Talks with delegates arriving on late trains tonight show unmistakably that the delegates from Saskatchewan, Alberta and British Columbia have come to the Liberal convention fully prepared to indorse Sid Wilfrid Laurier.

Manitoba delegates for the most part take the opposite view.

Hon. Clifford Sifton went through to Ottawa from Calgary this morning. He did not stop off.

Four Premiers Speak.

Four Liberal premiers of the four western provinces of Canada tonight addressed in the Royal Alexandra Hotel an audience of upwards of 800 men and women, delegates to the convention of western Liberals, which opens its sessions Tuesday morning.

There was little mention of politics in the speeches, which were jocular and reminiscent. Speakers pointed out that never before had the West met together under such circumstances. Ladies present as delegates, and visitors were complimented on their interest in their new duties of citizenship.

John Stoval of Winnipeg, chairman of the committee on arrangements, presided, and on the platform, in addition to the premiers, were Senator Watson, Senator Ross, Hon. Frank Oliver, Senator Prince, W. E. Knowles, M.P., and Levi Thompson, M.P.

Hon. T. C. Norris, premier of Manitoba, declared the present was the first time the four western provinces had gathered for a common purpose. "We have," he said, "common ground on which to stand."

A Sweep for Liberalism.

Premier Martin of Saskatchewan said the West had been compared to the tail of the dog, but the time had come when the tail was going to assert itself and wag the dog. He predicted "that this tremendous gathering will result in a sweeping victory for the Liberal party at the forthcoming elections."

Premier Sifton of Alberta and Premier Brewster of British Columbia followed with remarks that were brief and of a general nature. After the meeting broke up the members from Manitoba and Saskatchewan met privately in separate rooms to choose their representatives on the resolutions committee.

"Laurier for the West."

When the delegates from northern Alberta arrived today they marched to their hotel carrying the banner: "Laurier for the West."

The Alberta delegates held a meeting this afternoon for the selection of their twenty members on the committee on resolutions, with Mayor Henry, of Edmonton, acting as chairman. The speakers included Premier Sifton, Attorney-General Cross, Hon. Frank Oliver, Hon. A. G. McKay, Dr. Michael Clark, W. M. Buchanan, M.P.; James Douglas, M.P.; Mrs. Knell, of Edmonton, Mrs. W. M. Davidson, of Calgary, and others. The meeting was closed to the press but delegates later declared that it had been very enthusiastic and that Hon. Mr. Oliver had been accorded a striking demonstration.

To Have Only One Leader.

Hon. Mr. McKay, it was stated, introduced the name of Sir Wilfrid Laurier. "We are going into the battle." Mr. McKay was quoted as saying. "We are going with one leader, not two. The party has trusted for the last twenty-five years to the leadership of Sir Wilfrid Laurier."

"Ninety-five per cent of the delegates were unanimously and vociferously for Sir Wilfrid Laurier," stated Hon. Mr. Oliver, after the meeting.

Badges containing the words: "A Solid West," appeared on a considerable number of the delegates this afternoon. Early this evening a delegation of returned soldiers visited the delegates' hotel and sought to obtain the Alberta delegates' banner, "Laurier for the West." The delegates refused to give the banner up and the soldiers did not create any disturbance.

The business sessions are due to begin at 10 o'clock Tuesday morning and to continue for two days. The resolutions committee will be organized during the day and will report on Tuesday upon the resolutions brought before it.

SIR RICH. M'BRIDE DIES IN ENGLAND ON EVE OF SAILING

Former Premier of British Columbia a Victim of Bright's Disease.

VANCOUVER, Aug. 6.—A private cable announces the death of Sir Richard McBride in London at 6 o'clock this morning. Death is said to have been due to Bright's disease, from which the former premier of this province had been suffering for several years. Lady McBride and family are at present in England. Sir Richard and family were on the eve of sailing.

It is not yet decided whether the burial will be in England or British Columbia.

Sir Richard McBride was born at New Westminster, B.C., December 15, 1870. He was educated at Dalhousie University, Halifax, N.S. He went west and started to practice law. In 1898 he became M. P. for Dewdney and was returned in 1900 and 1903. He had been in the House from 1898 to 1916. In 1900 he was made minister of mines, and from 1903 until 1916 was premier of British Columbia. He was made K. C. in 1905 and created K.C.M.G. in 1912.

At the time of his death Sir Richard was high commissioner for British Columbia in England.

VIOLENT EARTHQUAKE SHAKES NEW ZEALAND

LONDON, Aug. 6.—A violent earthquake which caused great damage has occurred in the southern portion of North Island, N.Z., according to a Reuter dispatch from Wellington. The Wairarapa district, northwest of Wellington, suffered most severely.

Pioneer residents of North Island, the dispatch adds, describe the quake as the worst since the terrible upheaval 60 years ago. North Island is the northernmost of the New Zealand group. Two active volcanic peaks on the island are Mount Ruapehu and Tiangiro.

$1,000 DAMAGE DONE

INGERSOLL, Aug. 6.—The work of repairing streets damaged by the repeated storms is now in progress. The work has been retarded owing to the scarcity of labor. However, it is hoped that arrangements have been made which will result in the work being continued without interruption. Chairman T. R. Mayberry of the board of works has been giving much personal attention to the work. The damage caused by the storms is doubtless considerably over $1,000.

CANADIAN AVIATORS WILL BE TRAINED AT NEW CAMP IN TEXAS

Marks Closer Co-operation Between Aviation Schools of U. S. and Britain.

NEW YORK, Aug. 6.—Official announcement was made by the British recruiting mission tonight that Lieut. H. R. Denton, in charge of recruiting for the Royal Flying Corps, will go to Texas shortly to lay out an aviation camp for the Canadians. This camp in Texas, a statement said, will mean closer co-operation between the aviation sections of the American and British forces and a further standardization of methods of actual work.

The plan is to reproduce in Texas aviation schools like those at Camp Borden, Camp Mohawk, Camp Rathbun, Camp Seaside and Camp Armour Heights.

Lieutenant Denton was responsible for the laying out of the Canadian flying grounds. A large number of the cadets recruited in New York will be sent to Texas to finish their training.

SOUTHWEST AFRICA MUST BE RETAINED, STATES SIR T. WATT

Germany Must Not Be Allowed Jumping-Off Place.

CAPE TOWN, Aug. 6.—Via Reuter's Ottawa agency.—A dispatch from Windhoek, Southwest Africa, says:

"The party of union parliamentarians, who under the aegis of Sir T. Watt, member for Natal, are making a tour of Southwest Africa, have been agreeably surprised at the prospects of this protectorate. Sir T. Watt, in the course of a public speech here on Saturday, said that the delegation came to Southwest Africa expecting to find it a desert. Instead, they found good land, wonderful grasses, a great deal of fine vegetation, besides fine cattle, splendid horses and first-class sheep. And they had gained the impression that the country only required money and energy, under British occupation, to make it a land flowing with milk and honey. He paid a tribute to the administrator, who, he said, had established British evenhanded justice to all races irrespective of color. He emphasized that Southwest Africa must be retained, in order not to give the Germans a jumping-off place.

CHICAGO PUPILS WILL TEAR OUT FOUL LEAF

Page Eulogizing Kaiser Will Be Eliminated.

CHICAGO, Aug. 6.—The page in the Chicago public school speller which eulogizes Emperor William of Germany probably will be in the book when school opens in September, it having been found impossible to prepare a new one in time. A movement has been started to designate an hour at the opening day of school for the children to tear out the leaf containing the eulogy.

RIO JANEIRO PAPER, O. PAIZ, BURNED OUT

RIO DE JANEIRO, Brazil, Aug. 6.—Fire yesterday destroyed the building occupied by the newspaper O. Paiz.

HOW THIN PEOPLE CAN PUT ON FLESH

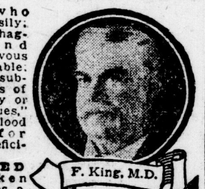

A New Discovery.

Thin men and women who would like to increase their weight with ten or fifteen pounds of healthy "stay there" fat should try eating a little Saltogyn with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Saltogyn—one tablet with every meal for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Saltogyn is a highly concentrated flesh-making food, not a drug, which, added to your regular daily meals separates and extracts from them every ounce of fat-making material they contain and passes them to the blood in an easily assimilated form. Most of this nourishment now passes from your body as waste, but Saltogyn stops the waste, and does it quickly, and makes the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Saltogyn is safe, pleasant, easy to take and inexpensive and druggists everywhere sell it in large boxes—forty tablets to a package on a guarantee of weight increase or money back.

NOTE.—While Saltogyn is widely prescribed in the treatment of nervous indigestion, it should not because of its fat-producing power, be used more than five days at a time, by those who are not willing to increase in weight at least ten pounds. Standard Drug Company can supply you.

WOMEN! MOTHERS! DAUGHTERS

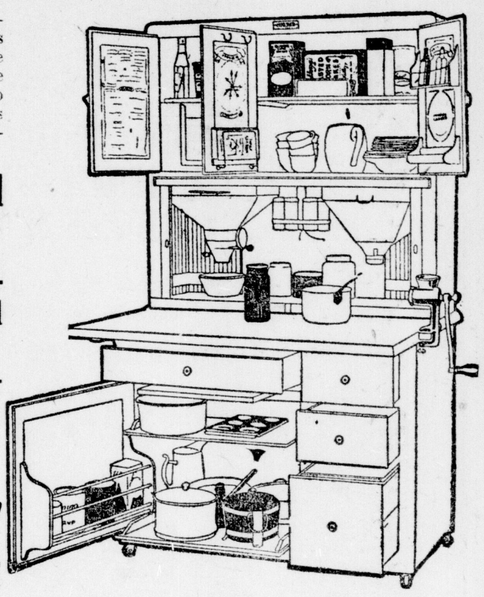

You who tire easily; are pale, haggard and worn; nervous or irritable, who are subject to fits of melancholy or the "blues," get your blood examined for iron deficiency. NUXATED IRON taken three times a day after meals will increase your strength and endurance 100 per cent in two weeks in many cases.—Ferdinand King, M.D.

NOTE: NUXATED IRON recommended above by Dr. King may be obtained from any good druggist on an absolute guarantee of results or money refunded. The manufacturers usually prescribe the five-grain tablets to be taken three times a day after meals.

GERMAN LABOR PIRATES.

WHILE Herr Dr. Michaelis indulges in vapory, ambiguous utterances on the subject of peace, the leaders of the Junker and Pan-German party, which put him in the saddle, or, rather, on the croup behind the kaiser, make much more explicit statements regarding their aims. And not only the military and great industrials stand behind the extreme ideas, but large sections of the German working classes are with them.

The Cologne Volkszeitung, a Roman Catholic organ mainly read by the working classes of Western Prussia, gives a report of a speech made by Herr Bartscher, a trades unionist leader, who has no thought of a peace without annexations and indemnities. Plainly, although Erzberger, the leader of the Centre or Catholic party, has lately turned peacemaker, the Roman Catholic rank and file are not yet disposed to relinquish the big ambitions with which Germany launched her war of conquest. Bartscher, himself a workingman, said, as reported:

"If we do not insist on annexations and indemnities, and get them, too, we shall be burdened with a load which must inevitably bring about economic impotence, and you laborers will be the chief sufferers. If we do not secure more territory, and all the territory we want, it is absolutely certain that we shall be plunged in a new war before many years have expired. We must have more land in Europe, we must have our colonies back again with additions, we must have unlimited raw materials if our millions of workers after the war are to have work."

So Herr Bartscher and the audience of workingmen, who are said to have thundered applause, are still full of the pirate spirit. While German agents put on a smile and talk Kamerad to the Russian armies, the other sort of talk goes on at Cologne on the Rhine. The Bartscherites are still far from owning themselves beaten, and they still want the earth.

Bartscher went on, amidst tremendous applause and gnashing of Hun teeth, to say that England must be crushed, that it was impossible to arrive at an understanding with England. Mr. Lloyd George's recent speeches have declared it impossible to make peace with Germany's government. German Labor, as voiced by Bartscher, seems in no mood to differ with its government, except so far as to go it one better in menacing utterance. The government, also, while affecting some softness of speech, though never disclaiming conquest, speaks as loudly in action, in new die-hard appointments, as its supporters among the people declaim in words.

Bartscher shouted, amid deafening applause, that:

"It was England which originated, financed and carries on the war with an unparalleled use of lies and deceit. She holds Germany's enemies together, and her avowed object is the destruction of Germany. She must be borne down for ever, and a peace shall be established which will secure for Germany the foremost place in the world for all time."

Herr Bartscher and his like would find difficulty in quoting such aggressive sentiments as this last from any Englishman of account. As usual, the Hun condemns himself out of his own insolent mouth. It is clear that what Bartscher and his frenzied listeners really have against England is her success in blocking their designs, and the rather poor prospect at present of better times, restored colonies and more of them, restored trade and the German mastery of the world, which Bartscher contemplates in his own delirious dream of piracy. The charge of deceit comes with poor grace from a people crusted over in 40 years of lying, underhand trickery and greed.

THE NATION MAKES WAR.

"We cannot allow sectional organization to direct the war or to dictate terms. The nation as a whole makes war—and the sacrifices are pretty evenly distributed amongst all classes—and the nation as a whole must make peace. As it is a common sacrifice, it must also be a common settlement."—Lloyd George.

IF ONLY Premier Borden had possessed the statesmanship to take such a view a couple or years or more ago, what a difference it would have made in Canada. The nation as a whole makes war; that is the fact. The Borden theory was that the Government made war; that is the fallacy. Since the nation makes war, the Government ought to be a national body, not party or sectional, in order to have the confidence of the nation.

Whether it would have been necessary to have conscription at all with a national government is doubtful. There would have been considerably less grafting and favoritism, and more encouragement to those who considered enlistment. One thing is almost certain: had there been national government members of the Liberal party would have had more direct information as to the situation than they obtained from Sir Robert and his confreres, and those of them who now oppose conscription might have been ardent advocates had they shared in the secrets held by the cabinet.

Sir Robert Borden has failed to show a true national statesmanship. His party affiliations have been too strong for him.

FRANCE IS STRONG.

SINCE the British offensives have dwarfed, to some extent, the activities of the French armies, there has been much talk of French exhaustion and inability to do more. It has been freely stated that France has been "bled white," that her reserves are running short, and that she must depend on her allies for most of the strength to bring about victory. In view of these rumors, it is more than encouraging to read the statement of such a high authority as Andre Tardieu, high commissioner to the United States, who says that the French army is now stronger than ever before, AND CAN BE MAINTAINED AT ITS PRESENT STRENGTH FOR A LONG TIME TO COME.

The fact that the doings of our ally's forces on the battlefronts no longer provide the most startling news of the day does not mean that their efforts or achievements have become less, but simply that Britain's strength has increased to a tremendous extent. For many months the French had more than their fair share of the actual fighting, and were required to hold a greater length of line than was right, because the huge British army was not quite ready. All this has been changed, and Britain now is taking her full share in the struggle, and, perhaps, a little more, thus relieving the troops which have fought so valiantly.

France is stronger than ever; Britain has greater armies, reserves and gunpower than ever; the United States is preparing to send over a million men and all equipment that is needed. Germany is calling out her young boys and stealing church bells to make munitions. Can the outcome be doubted?

THE RUSSIAN WOMEN.

THE participation of Russian woman regiments in the Galician fighting should put back the vertebral column into battalions bamboozled by the German agents, if any of them remain unshot to pieces. It is also a sign of the times. Women all over the world have been widening their activities for the last fifty years. Business, games, sports, politics, journalism, travel, feats of strength and daring, have all been successfully essayed, so why not war? Trench work and gunnery are less exacting than circus riding, wounds women have always been used to, they are adepts in enduring pain, that is nothing to them. Half the girls in Petrograd will now be wanting to go out and take German prisoners. If any of them are captured by the Huns, they will probably be as successful as their British sisters in enduring prison and hunger.

It is not surprising that Russian women should take the lead in entering the trenches. Russia is fermenting with advanced ideas. It has indeed been teaching the world for some decades now in artistic and literary endeavor and in certain lines of political and social thought. Russian women have been almost notoriously emancipated and energetic in their conduct of life.

A recent book by G. L. Dickinson, the great English essayist, points out that German doctrine and practice have obliterated the line between combatant and non-combatant, between women and men, between civil and military property. Women in all countries are making munitions. War is no longer waged between armies but between nations. The merchant sailors of England took up the gauntlet flung down by the German submarines against the non-combatant on the seas. Now Russian women meet the challenge to the women assailed by airplane and marauder. But over and above that, they assert the new position of woman in society, her right to do anything that she can do well. Three hundred years ago she was not admitted to take part in stage plays. What development may await the part of women in war we hope the abolition of war will abruptly nip in the bud.

EDITORIAL NOTES.

Circumstances do alter cases. A few months ago the sinking of a United States ship with the loss of a few lives was front page news with scare heads. Now the incident is worthy of mention, if space is not too scarce.

The rain that stopped the British in Flanders seems to have developed as a hurricane, flattening crops and uprooting trees in Germany. Gott was not altogether mit Huns. He helped the Allied guns mow 'em down.

The most noticeable feature of Sir Thomas White's announcement that the Government proposed to buy the C. N. R. was the careful way he avoided giving figures as to how much the nation would really be paying for the line.

When a Norwegian ship is taken by Germans and turned into a submarine base, it may be said that Germany is occupying a part of Norway. She is doing to Norway what she did to Belgium, making her a road for attacking the Allies.

Summarizing the needs of the men at the front, a returned officer says they are: men, letters and comforts. The letters cost little, but are placed before comforts on the list of needs. Everyone could help along that line.

There is a theory now that the German forces can be wiped out of existence by an intensely hot blast blown over their positions. Another way, of course, would be to cause a vacuum over their lines and shut off the air supply. Wonderful ideas!

It is reported that the deportations from Belgium have turned the pope against Germany. But surely it did not require these latest outrages to fix his sympathies.

Lloyd George's latest speech shows he is developing a gift for sarcasm, pointed enough to make even the kaiser wince.

A WOMAN LAWYER.

[By Henry Waldron.]

(Copyright, 1917, by the McClure Newspaper Syndicate.)

The town of Hanley knew the Widow Burns as moderately well off and having a daughter who was very plain-faced and very bad tempered.

The widow also was spoken of as being an obstinate woman and very commanding. When she wanted a mudhole in the street in front of her house filled up, she commanded the town authorities to do it, and the nuisance vanished or there was a row.

When the town wanted a footbridge over Mill creek, behind her house, to accommodate a score of workingmen, she said those sons of toil could either wade the creek or take the long way around, and they are taking that way yet.

The town bought a site for a new schoolhouse. The new building would cut off the widow's view of the millpond, and she threatened injunctions and lawsuits until the site was changed.

When the good wife of Jonas Richards died, some gossip that had been buried for twenty years was revived. The Widow Burns, as a girl, was engaged to Jonas Richards, as a young man. They had a quarrel and a separation, and each found and married a new love. Now that death had freed them the gossips were ready to whisper:

"The Widow Burns has got her chance now!"

"But she and Mr. Richards haven't spoken in all these years," was replied.

"Wasn't she at the funeral?"

"Yes, but——. Yes, she was there, and I saw her pretending to wipe away a tear and to feel very bad."

"And doesn't that show she is up to something?"

"But she probably wanted to see who was there."

"More likely she wanted him to see that she was there."

"And—and you think she will catch him?"

"If he doesn't run away."

Mr. Richards had only one child—a daughter, Nellies, 18 years old. Between her and the widow's daughter, Vio, there was a feud, as a matter of course. With the young men of the town it was between a pretty face and a plain one, with the usual results.

Up to the time Mr. Richards became a widower, Vio's mother had very few words of consolation for her when she lost a beau, but later on she one day said to her:

"That Richards girl may have a stepmother some day to bring her to time."

"You don't think her father will ever marry again?" was queried.

"It wouldn't surprise me."

"But who could it be?"

"Never you mind."

"Why, mother, you must know something."

"Oh, I hear about all that's going on, I guess."

"But how would a stepmother bring Nellie Richards to time, as you call it?"

"She'd put her to work in the kitchen."

"Good!"

"She'd get no more new clothes for a while."

"Good again! She brags that she dresses better than any other girl in town."

"Is it true that she is engaged to Frank Haskell," asked the mother.

"Yes, they say so."

"And when is the marriage to come off?"

"There's no date set. He is waiting for an estate to be settled up."

"The stepmother might forbid him the house."

"But her father?"

"Oh, he would do just as he was told by his new wife, even to locking the girl up if she made too much fuss."

"And she would have to live here and do all the housework?"

"Yes."

"And I could snub her all I wanted to!"

"You could, dear."

"Glory, glory, but won't I pay her back! Mother, how soon will you and Mr. Richards be married?"

"Um! um! You musn't ask such a question!"

"But I'm in a hurry to begin the snubbing!"

"Not a word of this to anybody, daughter. I'm rather expecting Mr. Richards to ask me very soon to be his wife, and of course I shall say yes and name an early date."

"And Nellie won't know a thing about it?"

"By my advice, he's going to forbid young Haskell the house, and do it tonight. I made it very strong that he should do so. We'll see how she takes that as a starter. It will be a guide to me to know how to handle her."

How the wiles of the Widow Burns healed the long-standing quarrel—how the widower was drawn to her—how he was influenced by her, though he had not proposed marriage—need not be told. Suffice it that one evening he said to his daughter:

"I have changed my mind about Frank Haskell."

"Why, what do you mean, father?" was asked.

"He is not to come here any more, and neither are you to meet him anywhere."

"But we are engaged!"

"You must break it."

"I must have good reasons to."

"It is enough that I say so."

There were no threats. The next day Nellie Richards met Frank Haskell on the street, and as they walked she told him what had occurred.

"It is the doings of the Widow Burns," he replied. "It is more than whispered that your father and she are to be married in a few weeks. We must do something."

There was a woman passing her vacation in Hanley, and it was understood that she was a lawyer. Young Haskell secured an interview with her to ask if she were a member of the profession and to add:

"I want some legal advice. A widow is after my scalp because I preferred another girl to her daughter."

"Widows are always dangerous," was the legal reply.

"I am engaged to a girl whose father has turned me outdoors."

"It is not the first case of the kind."

"She is willing to elope with me."

"Well, why don't you do it?"

"Because she is only 18, and under the laws of the state it would be abduction."

"Has she got any friends over at Grafton, for instance?"

"I think so."

"Well, I am going to drive over there Thursday morning with a horse and buggy. If I should find a young lady near the schoolhouse at about 9 in the morning I should ask her to ride with me."

"I see."

"Doesn't business ever call you over to Grafton?"

"I go over occasionally."

"Better go over Friday to see a tailor. If you are near the postoffice at 11 o'clock you may see a young lady looking anxiously around. Perhaps she'll lead you to the house of a minister."

"And about the fee?" asked the client.

"Oh, as I am on my vacation, I shall charge you nothing. Ten years ago, before I was wedded to the law, I think I might have been an eloper myself, had anybody suggested it to me."

Miss Nellie Richards took a walk next morning as soon as her father left the house. It ended at the schoolhouse door. She was sitting on the steps when a lady drove up in a buggy and asked:

"Has the little girl got her lessons perfect?"

"Yes, ma'am," Nellie answered.

"Then she shall have a ride over to Grafton with me. I hear that there are lots of blackberries to be picked around there."

"Yes'm."

At noon, when Mr. Richards found Miss Nellie missing, he made tracks for the Widow Burns' to tell the news.

"She and that Haskell have eloped, of course," was the comment.

"But how—how could she?"

"Why, you idiot, any girl can elope if she's not sick. I don't think I want to marry a man without brains."

And when the daughter was told that the marriage was all off she shed tears and wailed out:

"And you are as bad as he is! Now she has gone, and I can never snub her."

After three days the newlyweds came home to face the music. There was no music. Mr. Richards extended a hand to either and said:

"Children, I'm glad you did it—darned glad!"

PIGS ARE REGARDED MAN'S COMPETITOR IN HUNGRY GERMANY

Are Being Slaughtered Wholesale, as They Eat Available Food.

BERLIN, Aug. 2.—German food experts have come to the conclusion that a dead pig is better than a live one, at least in war times. Intimate and exhaustive studies of the porcine appetites have disclosed that the pig is man's chief competitor in consuming valuable foodstuffs. Consequently about half the pigs in Germany have been killed.

The war food bureau today told a correspondent of the Associated Press that while the number of swine within the empire was diminishing, census figures of the last quarter showed that the nation was richer by a 100,000 head of cattle than it was on March 1. On June 1 it was said there was within Germany a total of 21,400,000 head of cattle, while on December 1, 1912, there was 21,100,000.

The German bureau also claims that the killing off of pigs has not jeopardized the future resources of the nation, as pigs are rapid breeders and females have been spared to a large extent.

The experts who recommended the wholesale killing of pigs pointed out in their recommendation that the pig in peace times was liberally fed grains, potatoes, cabbage and beets, which just now form some of the principal articles of the German diet. The feeding of grains to pigs was regarded as being especially deplorable, it being found that in the case of barley, for instance, four-fifths of the nutritive value of the grain was lost when so expended. Barley now has been diverted to other consumers, where, it is declared, it will prove 100 per cent efficient.

ROOT COMMISSION HOME.

A PACIFIC PORT, Aug. 5.—Former Secretary of State Elihu Root and his colleagues of the American commission to Russia, came ashore Saturday from the vessel which brought them across the Pacific. Afterward they were entertained at a public luncheon in a large hall. From this luncheon the members of the party went to a special train, which is to convey them to Washington.

COMMITTEE REPORTS U.S. WAR TAX BILL FOR TWO BILLIONS

Senate Will Begin Debate on Measure Latter Part of Week.

WASHINGTON, Aug. 6.—The war tax bill, finally revised to meet latest estimates, was favorably reported to by the Senate finance committee. It proposes to raise $2,006,970,000 by taxation.

The House bill proposed $1,867,000,000 in new taxes. No provision for additional bonds, to be considered later by the House, are made in the Senate bill.

Chairman Simmons plans to call up the revised bill for debate the latter part of the week, and hopes for its final enactment by Congress early next month. Most of the new taxes proposed under the revised bill for war expenses of the present fiscal year would come from incomes, war excess profits, liquor and tobacco taxes.

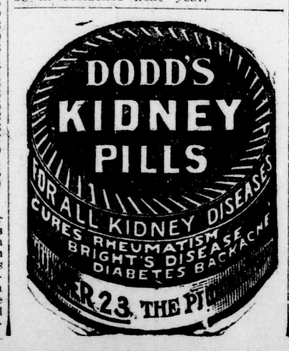

SASKATCHEWAN CROPS ARE GREATLY IMPROVED BY GENERAL SHOWERS

REGINA, Aug. 6.—The cool weather of the last week and rain generally throughout the province, has done much to improve the crop conditions. From a report issued from the office of the provincial department of agriculture today, crop correspondents generally in Saskatchewan are more optimistic than last week.

Almost every point reports local showers during the last week. On the other hand a great deal more rain is needed if the wheat crop is to be anything more than between ten to eighteen bushels to the acre.

RHODES MEN IN TRAINING.

OXFORD, England, July 28.—(Correspondence.)—Most American Rhodes scholars have obtained indefinite leave of absence, and are either returning home for military training or are continuing their training in England, expecting to join the American forces in France. The majority already have had two months' training with the Oxford University Officers' Training Corps. Virtually no Americans are expected to be in residence next year.

PIONEER UNITS ARE NEW AND IMPORTANT IN BRITISH FORCES

German Fighting Method Imposed Trench Warfare.

BRITAIN WELL ORGANIZED

Every Resource Has Been Harnessed to the War Chariot.

LONDON, July 28.—(Correspondence.)—The British army has undergone changes of a far-reaching character since the outbreak of war in 1914, and it now possesses many branches unheard of in pre-war days. Every resource afforded by the manifold capacity of this great industrial community has been harnessed to the war chariot, says a British statement from official sources.

There are certain respects in which the problem by which the British army is faced is unique, and one of the most striking of these is that it must be capable of campaigning in any part of the world and in any climate. In the case of armies like that of Germany, on the other hand, the problem of preparation for war was relatively simple. The ground on which the army was destined to fight was known; it was an army designed to do battle in a particular theatre—Europe. In consequence, everything could be, and was, planned along certain well-defined lines.

Germans Strong on Trenches.

In the present war the importance of field works was apparent at a very early stage, partly owing to modern artillery and partly to the continued entrenching habit of the Germans. One of the cardinal instructions given by the German commanders to their troops on first invading France and Belgium was, "Make trenches everywhere." In fact, all the continental powers had, in addition to their corps of engineers, large numbers of trained pioneers, organized in battalions and suitable for use either as fighting troops or in the construction and maintenance of field works and communications. The absolute importance of the last named can perhaps only be realized by one who has seen the roads during an advance.

But while the continent was to this extent prepared for trench warfare, as was natural in the circumstances, it was otherwise with Great Britain. In the British service only the Indian army possessed pioneer regiments, these troops being always necessary in conducting campaigns in the hill country. When the need for this class of troops became evident steps were taken to form pioneer battalions for the expeditionary force. From the first they proved their value.

Pioneers' Double Service.

Pioneers are prepared to fight or work, as may be required. They perform such services as the construction and repair of communication trenches, fire trenches and dugouts, the digging of trenches and wiring. Their duties are manifold, and there is no form of usefulness at the front which the pioneer does not at one time or another find himself called upon to undertake. His activities range from carrying up ammunition to retrieving the wounded or holding a fiercely disputed trench or sap.

In the great advances on the Somme and in Artois, the pioneers performed work of the greatest importance. The duty of consolidating the captured ground and connecting it up with the old front line of the attackers largely fell to them. In many places they took part in the advance as infantry; in others they kept the advancing lines supplied with ammunition and water, and beat off counter-attacks. Their losses have been heavy, but they have accomplished their tasks in the face of every obstacle.

As a rule, the pioneers remain in the vicinity of the trenches all the time their division is in the line, and do not go back for rest, except at long intervals.

The pioneer is as yet a new type in the British army, but he has long since passed the trial stage and has proved his worth and steadfastness. His metal has been tried in the crucible of war and very thoroughly it has stood the test.

5,000 CANADIANS IN NAVAL SERVICE, SAYS MINISTER OF MARINE

1,600 in British Navy, 400 Patrols, 3,000 Canadian Service.

LETTERS CLEAR PUGSLEY

Sir Wilfrid Reads Correspondence to House of Commons.

[Special to The Advertiser.]

OTTAWA, Aug. 6.—Considerable interesting information was given the House of Commons today in reply to questions. Duncan Ross, West Middlesex, was told by the minister of labor that neither Commissioner Brody nor Commissioner Clarkson, appointed to investigate the William Davies Company, had ever been employed by that company nor by any other company with which Sir J. W. Flavelle was connected.

Sir George Foster stated that H. P. McCue of Pittsburg has been appointed assistant to the Canadian fuel controller at a salary of $25,000. He had been nominated by Mr. Peabody, chairman of the United States fuel commission, and was especially equipped with knowledge of coal production and transportation.

Sir Wilfrid Laurier read to the House letters relating to the investigation of Hon. William Pugsley in connection with the Central Railway of New Brunswick. There was one from Sir George E. Foster, one from G. W. Fowler (since a member of the Commons), and one from the prosecuting attorney. He said that the letters had been left in the New Brunswick Government offices by the recently-defeated Conservative Government that held the investigation in 1908.

Letters Clear Pugsley.

Sir Wilfrid claimed the letters showed that there had been a plan to damage the political reputation of Hon. Mr. Pugsley, and that their contents cleared him entirely from wrong doing. The Government made no comment on the correspondence, and the matter closed without debate.

The finding of the commission, to which the letters referred, were the subject of a motion in the Canadian House by Hon. Thomas Crothers, for the censure of Dr. Pugsley.

Estimates of the naval service department were taken up, and Hon. Mr. Hazen stated that good work had been done in the management of overseas transportation. For the year ending March 31 the average exportation had been over 200,000 tons a month, or eight freight trainloads a day. Since that date there had been an increase to 300,000 tons a month.

5,000 Canadians in Navy.

The cruiser Niobe, said the minister, was being used as naval depot ship at Halifax, and the naval college at Halifax had from 30 to 40 students. In Canada there had been enlisted for the British navy over 1,600 men. Four hundred young Canadians had enlisted for the British motor patrol service. In the Canadian naval service there were over 3,000 men.

No German submarine had been reported in Canadian waters, though there had been a number of scares, said Mr. Hazen.

No More Arctic Missions.

The vote for the Stefansson Arctic expedition, Mr. Hazen said, would be the last money appropriated for this work. Most of the members of the party had returned, and Stefansson was expected back some time in the near future. Stefansson had discovered land that might be of use to Canada at some time.

Sir A. E. Kemp stated that to date there had been recruited for overseas 424,456, of whom 330,000 had crossed the Atlantic. In France there were 142,779, in England 124,399, of whom 23,265 were in hospitals and convalescent camps. 3,944 were en route from Canada, 26,000 had been discharged. There were in Canada 18,475 and there had been discharged in Canada 76,038.

The evening was spent on naval and railway supply, and large sums were voted without serious opposition.

ECZEMA

ECZEMA is not a disease of the blood, and therefore cannot be cured by internal treatment. The curative agent must be applied directly to the inflamed, itching skin. To know this is to save much time and suffering, for it is on this account that Dr. Chase's Ointment has been able to establish such an enviable record as a cure for eczema and kindred diseases of the skin.

Chafing and irritation of the skin is the usual cause of eczema. The irritation may be caused by the clothing or as the result of an injury of some kind. In some cases where the skin is extremely sensitive the frequent application of cold water or the use of impure soap is sufficient to set up an irritation of the skin which results in eczema.

But whatever may be the cause, of one thing you can be certain, that Dr. Chase's Ointment will effect a cure if used persistently. You are not experimenting when you use it, for it is known the world over as the most effective treatment for eczema.

MEXICAN DEPUTIES EAGER FOR PAY DAY

MEXICO CITY, Aug. 5.—Not long ago it was discovered that while an important bill was being discussed in the Mexican House of Deputies, there was not a quorum. When messengers were sent to seek the missing congressmen, they discovered a line of deputies extending far down the corridor in front of the national treasurer's office. It was pay day and they were collecting their sixteen and a half pesos a day. It was necessary for the presiding officer of the chamber to request the treasurer to close his office for the day before a quorum could be obtained.

Cynthia Grey's Mail-Box

"A Number of Things."

Dear Miss Grey,—Here I am once more. I get treated so well that I want to come back again if I may.

How are you standing the heat, or is it cool around The 'Tiser office? I must thank you for the soldier's address.

I see where someone wanted to know how to make wash day easy. I will tell her how I do mine, which, with three girls and myself wearing white, is not small. I put my white clothes to soak the night before wash day; also sheets and all bed linen and towels by themselves in clear, cold water, with a little soda added. In the morning I wring them out, put them directly into the boiler with shaved soap and soda, and let them come to boiling point. Have ready three tubs of water. The clothes will not need much rubbing, and I seldom blue clothes, as they bleach better without it.

I never start to wash till after breakfast, and am always done by 11.

Now I wonder if someone can help me?

I have a child's silk dress, which is turning yellow. Can anyone tell me how to color it pale blue?

Also I would like a recipe for bean pickle with mustard in, and a corn salad. And please, farmers, tell me how to make sauerkraut, as I have over 300 cabbage plants.

I see in the paper how they are trying to get home the Canadian-born of the first contingent. Why not all who went from Canada. Some men who were born elsewhere, but whose wives and families are here, would like to get home, too. If I am mistaken, please set me right.

Can any of our military readers tell me what Class 3 means in military terms?

Well, Miss Grey, the war-cake recipe went overseas all right. My husband says he will get somebody over there to try it. I got it from England in the first place. Now I will really stop. I suppose you will recognize me even if I hide behind THE PURPLE MASK.

P.S.—Please excuse awful scribbling, but my hands are blistered by hoeing "murphys" and such like.

Ans.—Your letter bears reference to a "number of things," some of which I shall have to refer to our readers. Has anybody tried dyeing white silk a blue shade? I know a girl who dyed a white silk blouse a dainty pink simply by soaking red crepe paper in the rinsing water. But I know not how blue might succeed.

I believe the idea of petitioning for a leave of absence was for the Canadian-born men, or those residing in Canada. But so far nothing definite has been done by the Government. In fact, I doubt if the petitions have yet been presented.

Make pickled beans as follows: 1 peck butter beans cut small, cook one-half hour in salt and water; to 3 pints cider vinegar add 3 pounds sugar, bring to a boil; 1 cup mustard, 1 cup flour, 2 tablespoons turmeric, 2 tablespoons celery seed; mix together in cold vinegar, add to boiling mixture, stir constantly, add beans and cook five minutes.

Corn Salad—18 large ears corn, 4 large onions, a medium sized cabbage, 2 red peppers (may be omitted), 2 cups sugar, 3 pints vinegar, ¾ cup mustard, ½ cup salt, tablespoon turmeric; chop and mix all together, add mustard last, mixed in a little cold vinegar. Cook ½ hour.

Your husband would be amused to find a recipe among the pages of his letters, and no doubt he would have preferred a slice of the cake itself.

Dear Busy Babe.

Dear Miss Grey,—I see where "Meadow Lark" wishes to hear from someone who does crochet work, so am inclosing my address for her, if she cares to communicate with me. I have a dear boy of 16 months who is trying hard to help guide my pen. Aren't they the busy ones? How I love to watch the many things they try to do.

Well, Miss Grey, I must fly away, as I am writing a long letter and did not intend to. MARRIED NOW.

Ans.—Am still waiting for "Meadow Lark's" address, so we'll hope to have it soon. The busy boy made a very good success of writing his first letter. May he steer your pen Box-wards again!

Sailor's Wife's Plea.

Dear Miss Grey,—This is my first letter to the Mail-Box, but I have read both of Mr. O'Connor's letters, and I was so pleased to see someone was trying for the men that had been gone for three years. My husband was a naval reserve man and he has been gone three years on the 4th of August, and I have not seen him since. He has only had three days' leave just after he got to England. He has just been under an operation in Malta Naval Hospital, and he keeps begging of me to try and get him leave, and I have tried, and a doctor here has tried, too. You see, I have the two boys, but he has no one, and I can tell you it is as much as I can endure to know that I fail when he pleads so for me to try, and he keeps trying. You see, he is in foreign waters; he has been up the Dardanelles and that way all of the time. What I wanted to know is if I tried to get up a petition if you think that would be any good, or if you could refer me to anyone that might help me. My boys want to see their father so badly, too. My eldest is 10 years; he is in the Fourth Book. Hoping you will excuse me bothering you, also the scribble, as I am not at all strong, and seem full of nerves. Yours sincerely,

A SAILOR'S WIFE.

Ans.—My dear friend, if I could extend encouragement to you, how very gladly would I do so. I am afraid the greatest difficulty in the way will be owing to the fact of his being a naval reservist. So far as I can understand it, this places him under British authority, and not Canadian. Hence any appeals to Dominion military officials would avail but little. It is so hard to speak of this, but I feel I must be frank. However, if you wrote the minister of militia at Ottawa (Parliament Buildings), he may be able to tell you what to do.

Loneliest of All.

Dear Miss Grey,—Thank you for sending me the address of a "lonely." I have a parcel on the way to him. Now, would you please send me the address of the boy sent in by "Exeter"? Of all the lonelies, somehow he sounded the loneliest of all. No doubt others have sent for his name by this time, but maybe I can help some too.

Also, Miss Grey, if there are other lonely boys who are not getting plenty, if you send me their addresses I am sure I could get some other people to look after them, and they would enjoy doing it, too.

Thanking you, and with best of good wishes to you and the Pageites,

Yours, TIM.

Ans.—Good, "Time," you certainly lost no time in forwarding that box. Now, "Exeter's" protege's address is on its way to you, and also one other who seldom sees a parcel of "eats from home." It's good work interesting other folks in these "lonelies."

Harm the Hair?

A.—Never heard of using the herb, or tea from it, on the hair, so cannot advise. Do not know that henna is injurious if used in moderation, but as it colors red, advise you to be very careful not to get too much. If you will allow me to ask the Pageites, somebody may know, but as for me—I am, alas! no beauty doctor.

Wanting to Help.

Names of lonely ones overseas, by whom a bit o' cheer will be appreciated, have been sent to "Two Kids," "Daisy," "A Soldier's Daughter," and "Happy Girl."

Keeps on Smiling.

Dear Miss Grey,—Would you kindly print me a recipe for catarrh in the head and chest, as I have tried almost everything, but nothing semes to give much relief. Also would you kindly tell me how to can corn and tomatoes so that they will keep good?

KEEP ON SMILING.

Ans.—I am sorry not to be able to help you by suggesting a formula for curing or relieving catarrh. Shall leave the inquiry with our readers in hopes someone may advise a remedy.

Please see "Lassie's" corn canning method in Thursday's issue. Last year someone told us of her way for canning tomatoes, so I am reprinting the directions:

Scald and peel real ripe tomatoes and remove the core, as it is this white core that spoils first in the tomato; pack tomatoes in sealer as many as will go in, and fill to overflowing, and see that there are no air bubbles, for if one is not careful with the filling they settle too much; add a teaspoon of salt to each two-quart can, and cook in boiler of water for 20 minutes. I put a thin board on the bottom of boiler to keep the jars on. I put rubbers on and seal down, and if they have not settled more than an inch or so, I leave sealed, standing the jars on their heads until cold. I have had tomatoes keep for two years done this way, and have done 100 quarts to a season and have had no waste, and we have taken first prize at the fair.

Re your postscript, am so glad to hear of the change for the better. Best wishes!

A Message to Wives.

"Cheddar Cheese," one of our Pageites, whose husband has been ill in a military hospital in England, has received from the matron of the institution a cordial letter which contains a touching message to the wives of all men overseas. Since its receipt, "Cheddar" has word from her husband that he has so far recovered as to go to Bramshot, preparing to go again to the front. The writer of the following has not been without her own sorrow. Her husband was accidentally killed before the war, and her only son gave his life in France last year:

Dear Mrs. ———

I was very pleased to receive your letter, but I do not want you to send any money to the hospital. It is for those who cannot do anything or who have not got dear ones fighting, to help us—so please keep the money you so kindly wish to send us, for your soldier boy's children.

I sent your letter on to your husband as I know it would cheer him to see how much you love him. When these men are away so long from their wives and children, and perhaps letters are delayed, or don't come, then they begin to worry and fancy all sorts of things, and it is a great help and comfort to them to know they have the love of their dear ones, who are waiting patiently and bravely for the happy reunion when this terrible war is over. On a very few sad occasions I have known wives who were trusted, to have been untrue, and then I have nothing I can say to the poor broken-hearted fellows. It is terrible to see their grief. Do what you can to help any weak wives you may know, to keep true to their soldier husbands—to write them as often as possible, and so to help them. Temptations lie everywhere; pitfalls for them are thick, but true love is the very best and happiest of medicine for all their ills.

We liked having your husband here. He liked working in the garden, and he did a great deal for us. We have tomatoes and cucumbers that he planted, but they have not done so well since he left. The sergeant who took them on is on a few days' leave as his wife is dangerously ill and then news came that his dear son was missing, and a letter from the officer saying he is doubtless killed. All this time the sergeant's own mother is lying at the point of death and may not be told about the boy. The sergeant lost another son before, and has two others out there fighting. The world is very sad for everybody, but even so, the saddest and most miserable of all are those selfish people who are not doing anything and who are not sacrificing anybody. I am sorry for them.

Wishing you a happy meeting some day—sooner perhaps than we can fancy, and with many thanks for your kind letter, believe me, yours very truly,

———, Commandant,
The Palace Voluntary Aid Hospital
Gloucester, England.

Interested Too.

Dear Miss Grey,—Seeing your invitation to those interested in our superheroes, I thought I would write a few lines. I certainly am interested. My own husband is a fighting 18th man, so I can feel for those wives whose husbands went with the first. There was not much feeling for either the 1st or 2nd contingents. My husband enlisted and was overseas in a month, in France the following winter. I had a letter saying his socks were rotting on his feet. The next letter told of him being without any. Of course I dispatched a parcel right away. He seems to have fared much better since, though, as the noble ladies of the Women's Institute, Daughters of the Empire, and other organizations are doing great work for the Red Cross. I am sure the boys that went first saw worse than they who went later, for are we not more prepared? I am sure those of the 1st contingent that are living could be spared for the rest that they have earned—and at what a price! So many of their comrades have paid the supreme price. Then there would be the 2nd to follow suit. Of course there is really not a great number of either. The original 1st and 2nd are broken up very much.

I had a nice letter from "Aunt Nannie" which I received the day after I had news of my husband being sick in the hospital. So I was worried and delayed answering, but am writing to-night, so I know she will understand.

Now Miss Grey, I wonder if I could get a petition here to do my bit? Also if they are thinking of getting up a subscription, as I would like to do a little. Many a mickle makes a muckle. Aye, Miss Grey, that's Scotch, isn't it? but I am English. With best wishes for the success of our united efforts on behalf of the 1st and 2nd contingents.

CHEDDAR CHEESE.

Ans.—English or Scotch—we're all British, and our hearts are in the right place! I enjoyed reading the letter you inclosed me, and am glad to print its message to the wives of our men overseas. I see no reason why you should not circulate a petition in your district. The movement should be general to have the necessary weight at Government headquarters.

A Charming Sports or Beach Costume.

Blouse 2061. Skirt 2063.

This attractive style comprises Blouse Pattern 2061 and Skirt 2063. In white serge, with pipings of black, this costume would be very smart. It lends itself nicely to bordered goods, and could be made of embroidered flouncing, shantung or linen. As here shown, plain and embroidered volle are combined. Blouse and skirt may be worn separately. The blouse is cut in seven sizes, 34, 36, 38, 40, 42, 44 and 46 inches bust measure. It requires three yards of 36-inch material for a 36-inch size. The skirt has seven sizes, 22, 24, 26, 28, 30, 32 and 34 inches waist measure. It requires 3⅞ yards of flouncing or bordered material 48 inches wide, or 4½ yards of 54-inch material for a 24-inch size. It measures, with plaits drawn out, at the lower edge about 3¾ yards.

This illustration calls for TWO separate patterns, which will be mailed to any address on receipt of 10 cents FOR EACH pattern, in silver or stamps.

CAUTION: Be careful to inclose the above illustration, and send size of pattern wanted. When the pattern is bust measure you need only mark 33, 34 or whatever it may be. When in waist measure, 22, 24, 25, or whatever it may be. If a skirt, give waist and length measure. When misses' or child's pattern, write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than one week from date of application.

Why Not Have a Little Variety in Your Meals Instead of the "Same Old Thing"?

Instead of white bread and dry toast for breakfast every morning order brown bread, French roll, crumpets, hot rolls, or buttered toast. Instead of plain water biscuits have Bath oliverș, thin captain's or oatcake. Instead of fish fry a vegetable dish now and then, and let your dinner consist of soup, meat, vegetable dish, and sweet. Try boiled sprouts and chestnuts tossed in butter, stewed celery with cheese sauce, Spanish onions and tomatoes au gratin, corn with cheesesauce, braised and stuffed lettuce, or curried vegetables.

Instead of the usual cake for tea have whiteheart cherry jam or honey, on slices of crisp French roll; or try sandwiches of honey with shredded nuts mixed in. Have bread and butter cut from milk bread or currant loaf, and don't forget that pickelets make a pleasant change from muffins and crumpets, and that stale sponge cake cut into fingers and baked crisp is very good.

Remember that there are many kinds of cheese—Gruyere, Boudon, Brie, Camembert, for example.

When you give a little dinner, do not have just what everyone else has. Try the effect of giving almonds blanched and soaked in cold water for twenty-four hours, and then thoroughly dried in place of salted almonds.

Look round the shops when you go out; spend five minutes in turning the pages of the cookery book, and do not order roast mutton and apple tart because you cannot think of anything else.

At quite a few luncheons held lately a novelty has been introduced in the form of a fruit cup. Halves of orange or grapefruit skins have all the membranes removed. In the middle of each of these is placed a tablespoonful of orange water ice and the regulation fruit cup, of oranges, grapefruit, grapes and cherries is placed around this. It is a new touch that is greatly appreciated, especially at this time of year.

Did you know that steamed brown bread is delicious if toasted and served with raspberry jam? Brown bread sandwiches are very tasty if the filling is made with coarsely-chopped peanuts and cream cheese, moistened with a little cream.

Variety is added to the usual mayonnaise dressing by adding a spoonful of chili-sauce. This is especially good over asparagus salad.

If you are fond of ripe olives and have 75 cents to spare, there is a treat in store for you in the shape of ripe olives stuffed with tuna fish.

And now another idea has been introduced in the form of grated Swiss cheese. It is used on salads and the vegetables that call for grated cheese.

WHEN TO GET IN YOUR GARDEN PRODUCE

The best rule as to when to pick your fresh vegetables for immediate use is to examine them daily as they approach the proper stage for eating. The fast-grown vegetable is usually the best vegetable to eat, but it is also the one which passes its prime most quickly.

When Beans Are Ripe.—Open a pod, see how well the beans inside are developed and compare the appearance of the pod you have opened with the others on the vine. When you find some that seem, on opening, to have developed enough, pick others of the same general appearance. With beans, as with most other vegetables, be discriminating when you start picking, and pick only the largest at first.

When a Beet Is Ready.—A beet is considered ready for marketing when the bulb has grown to a size of from an inch and a half to two inches in diameter. Beets larger than this are apt to be tough and fibrous. In the home garden beets may be picked when even smaller than this. Pull the whole beet. Discard only dead leaves, for beet tops make excellent greens.

Be Careful in Picking Corn.—The time to pick sweet corn is when its sugar content is highest. This is when the kernel is fully developed, but is still in the dough or milky state. By pulling back part of the husk without removing the ear from the stalk, you can examine the kernels and then judge other ears in comparison with the outside appearance of the one you have examined.

Picking Your Peas.—The pea is highly perishable, quickly losing flavor and tenderness after picking, and also if left on the vine too long. The pea must be watched even more closely than the bean and the corn. It will particularly be found that some pods will be ready for picking while others on the same vine are a week behind in their development.

When Eggplant Is Ready.—The eggplant is ready for use as soon as it has attained its form and is well developed and colored.

Don't Let Cucumbers Get Ripe.—Cucumbers must be eaten when very green. They must also be eaten soon after they are picked, if their slices are to be found crisp and of good flavor. Most cucumbers commonly grown in Canada reach a size of from six to eight inches long, and about an inch and a half in diameter. When yours reach this size pick them.

When to Pick Radishes.—Radishes are picked about as soon as they are large enough to furnish one or two bites, rather than when they are mature. The big radish is not nearly so good to eat as the half-grown one. Always clear out the largest first so as to give the very small ones room to grow.

How To Gather Spinach.—In gathering spinach take the whole plant, root and all. It is best to pick the larger plants first. This will leave more space for the smaller plants to grow in, and those which have been held back by their neighbors will then rapidly pick up.

When to Pick the Tomato.—In the home garden tomatoes may be allowed to ripen on the vine, though tomatoes which are to be sent to market are picked green. The ripe tomato has a full, deep-red color, but is also firm. Do not delay in picking until the fruit has become soft and mushy. For canning, the riper the tomato can be successfully handled the better will be the finished product.

How You Can Help the Onion.—When your onion plants are well on their way to maturity you can force the growth of the bulb by preventing the continuous growth of the tops. This is often done by rolling an empty barrel along the rows, crushing the tops. When the tops are practically dead, then pull the bulb by hand and spread out in a dry, well-ventilated place to cure.

Early Cabbage Won't Keep Long.—The home gardener may take his cabbage as soon as the head is large enough for eating, or he may wait for the fully matured product. Early cabbage will not keep long, so it should be picked only as it can be used.

"God's Gracious Invitation." Isaiah, lv.

Golden Text—"Seek ye Jehovah while he may be found; call ye upon him while he is near." Isaiah, lv., 6.

5. Verses 1-2—Is a boy eight years of age morally responsible to God?

6. Verse 3—How old was Josiah when he began to seek after God?

7. If Josiah when a boy had not sought and found the Lord, what effect would that have probably had upon his reign?

8. If a boy is not converted by the time he is sixteen years of age, what are his chances of ever being converted?

PERSONAL MENTION

Misses Myrtle and Fay Davis have left for a month's vacation at Chatham, Wallaceburg, Sarnia, Port Lambton and other western points.

—Rev. Dr. Silcox will preach in Canton, Ohio, and Detroit, Mich., during his vacation. The two Congregational Churches will meet in the Southern Congregational Church for the remainder of August.

The Waste of War is terrible, but the waste of food in times of peace is colossal. Rich and poor alike eat tons of food that has little food value—and this useless food breaks down the so-called eliminating organs and depletes the physical and mental powers. Shredded Wheat Biscuit is all food, prepared by a process which makes every particle thoroughly digested. It is 100 per cent. whole wheat. Two or three of these Biscuits with milk, make a nourishing meal, supplying the greatest amount of energy at lowest cost. Delicious with sliced bananas, berries or other fruits.

LITTLE BOY HAD DIARRHOEA

Only Blood Passed Bowels.

Diarrhoea, dysentery and summer complaint are responsible for more deaths, especially of children, during the summer months, than any other form of disease.

Diarrhoea does not need to persist for any length of time until the whole system is weakened, and no other disease so quickly undermines the strength and brings about a condition of prostration and often collapse.

Mrs. E. Stoddart, Lower Clark's Harbor, N. S., writes: "When my little boy was a year and a half old, he was taken awfully bad with diarrhoea. I had the doctor, but he got worse, so that only blood passed his bowels. I tried everything, but he got no relief. One day while I was at work, I picked up a piece of paper, and on it was an advertisement for Dr. Fowler's Extract of Wild Strawberry. After trying a bottle he began to get better, and the second one made a cure. I would not be without it in the house for my little ones. I am proud to say "Dr. Fowler's" saved my little boy's life."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 72 years, and there are many imitations of this wonderful bowel complaint remedy. See that you get the genuine when you ask for it. Price 35c.

HEALTH AND BEAUTY HINTS

BY MRS. MAY MARTIN

Vera B.: Your skin will grow soft, clear and smooth after a few applications of a plain almozoin jelly-cream, made at home as follows: Put 4 tablespoonfuls glycerine into half-pint water, and in this dissolve 1 ounce almozoin (which you can buy at your druggist's). Apply a thick coat of this to the skin before retiring, then wash off in the morning and use more of the jelly-cream for massaging. This gradually dispels the wrinkles and lines and banishes pimples, blackheads and the "muddy," oily look. The almozoin jelly-cream is greaseless and will not grow hair.

Mrs. A. T.: You may not require glasses. Get from your druggist one ounce crystos and dissolve in one pint water. Then put a few drops in the offending eye several times a day until inflammation and soreness have vanished. The crystos eye tonic is especially good for granulated eyelids, and using it strengthens the eyes and gives them a youthful sparkle.

Adeline: The reason for that dryness of hair after your shampoo is because that kind of soap irritates the scalp's tissues and makes them over-sensitive. Canthrox will correct this, for it is a tonic as well as cleanser, and is so stimulating to the blood vessels and scalp tissues that the danger is entirely eliminated. To prepare your shampoo, dissolve a teaspoonful of Canthrox in a cup of hot water, then pour it slowly on the head as you rub briskly. This dissolves every trace of dust, dandruff and excess oil, and after rinsing the hair will dry quickly and evenly.

Lucy G.: Loss of weight is a serious matter and calls for prompt action. Get from your druggist one ounce kardene and put it, together with half cupful sugar, into half-pint alcohol; then add hot water to make a full quart. Take a tablespoonful before each meal. This simple home remedy increases your appetite and gently cleanses the system of impurities, restores a healthy condition to the vital organs. When this is done your weight will be normal and the glow of health will be upon your cheeks.

Mrs. A. R. J.: I make a good lotion that is very helpful to my skin by dissolving four ounces of spurmax in half-pint witch hazel or hot water, to which is added two teaspoonfuls glycerine, which will soon correct that oily, sallow, "wornout" appearance of your complexion. This simple lotion is soothing and healing and imparts a velvety smoothness and natural loveliness to the complexion, not possible with powder or rouge. You will like the spurmax lotion because it is easily applied and cannot be detected when on.

Lucille: I always use a plain quinzoin hair tonic, made at home by pouring one ounce quinzoin into half-pint alcohol, then adding half-pint water. Rub a little well into the scalp twice a week and you will soon rid the scalp of dandruff and restore the hair roots to health. The regular use of the quinzoin tonic will restore the former gloss and even color to the hair and make it soft, long and fluffy.

Mrs. M. N. T.: Your excess weight can be easily and quickly reduced by taking this parnotis treatment, made at home as follows: Put four ounces parnotis (which you can get at your drug store), in 1½ pints hot water and strain when cool. Take a tablespoonful before meals until weight is where you want it. No harm results from the use of the parnotis treatment, and the flesh is left solid and the skin soft and smooth.—Advt.

BLUE LABELS TAKE BOTH FROM BEECHES

Trim Leaders of Toronto City League in Snappy Games at Tecumseh Park.

London's prize bunch of Blue Labels put it over the Toronto Beeches twice on civic holiday. Both games were good ones, and the players on both sides did snappy work all the way through. In the morning game, which London took 8—6, it was the fifth inning before either team settled down to work. The Beeches probably expected a walkover, and the Labels may have been slightly restless. Billings did some good work, holding the Toronto crew to five hits. Gadsby was very much on the job, getting a three-bagger in the eighth, scoring Dinsmore and Armstrong.

The afternoon game was a tight one, neither team scoring until the sixth, when the visitors got one, while Dinsmore and Delaney brought them in for the local club. In the seventh each team got a run, and in the eighth Delaney scored again, making the total 4—2. The Labels played snappy ball all the time, and the visitors were plainly out to win, but Ernie Dinsmore was able to get more out of his men than the Toronto people could stand. Ernie was right there all the time, and much of the credit for the win should go to him. Flint shaped up well enough, and held Toronto to ten hits. Smith, the Beeches pitcher, was also worth watching. The Labels played an almost perfect game, only two errors being chalked up against them. Six were placed against the Beeches.

A rather amusing incident occurred about halfway through the game. Billings had singled to first, and the crowd on the stands and the players were watching for the next play, when Graham sprung the old hidden ball trick, easily putting Billings out, who was taken completely by surprise. Unfortunately for Graham, Umpire Morris was watching the pitcher, and didn't see the play he couldn't call Billings out.

Civic Holiday Celebrated By Sports and Races

Yesterday Was a Big Day at Guelph—Speedy Racing Offered.

GUELPH, Aug. 6.—This was civic holiday in Guelph, and was celebrated by the holding of horse races under the auspices of the Riding and Driving Association, and water sports, the first of the kind to be held here, under the auspices of the trades and labor council. Both were attended by large crowds. Many visitors from the surrounding district were present. The horse races were splendid, although several other matinees were held in other places, which took away some of the horses which entered here. The finishes in all the classes were close, and exciting especially in the 2:10 class, when the winner had to extend himself to the utmost. The track was fast, and good time was made. Following were the results of the races:

2:10 Trot or Pace.
Mansfield (J. McDowell), Toronto 2 1 1 1
Iona Hal (H. Litt), Guelph 1 2 2 2

MARY ROSALINE WINS AT DEXTER PARK MEET

DETROIT, Aug. 6.—More than 125 horses are stabled at Dexter Park to participate in the new race track's first short ship meeting, which opened this afternoon. The opening day's card was featured by a 2:10 pacing stake, in which Willow Hal, Teneko, Mary Rosaline Parr, Canute, Black Ball, Mussell Shell, Theda Bara, and several others started. Mary Rosaline Parr won handily after five good heats had been paced. In addition to the $1,000 stake the 2:25 trot and 2:13 pace had well filled fields to face the starter.

The new scene of the short ship events is located on Gratiot avenue at French road, just beyond the city limits. The park was originally constructed for matinee racing by Belgian horsemen of the eastern portion of the city. New stands were erected when the Detroit Driving Club passed up the short ship, the track has been put in shape and horsemen expect one of the circuit's most profitable meetings. The horses came to Detroit from Mt. Clemens, where short shippers held forth last week.

CHICAGO NATIONALS BUY BARBER OF BALTIMORE

CHICAGO, Aug. 5.—Fred Mitchell, manager of the Chicago National League baseball club, returned from the east today, and announced that he had bought Outfielder Barber of the Baltimore International League club, for $15,000, and two players, whose names he did not give. He said Barber had been batting around .360.

CIVIC HOLIDAY WAS BIG AT THISTLE CLUB

Thirty-Five Rinks Compete in Big Tourney at the Thistle Greens—Rowing Club Takes Four Prizes—Good Bowling Shown.

Thirty-five rinks bowled at the Thistle Club's big tourney on Civic Holiday. W. J. Snelgrove won out, Oke was second, Scott third, Casselman fourth, Bluett fifth, Heaman sixth, and Shannon seventh. Trull was in the finals, but finished just outside the money. The Rowing Club took four prizes—first, second, fourth and sixth. The remainder stayed with the Thistles.

STAKE DAY AT COLUMBUS.

Columbus, Ohio, Aug. 7.—The rich stake of the present Grand Circuit meet is on this afternoon's card at the Columbus track, when 2:15 trotters start for the S. & S. (Swisher & Shepard), $3,000 purse. Busy Lassie is a heavy favorite to win because of her successes at Detroit and Kalamazoo over practically the same field. During the Kalamazoo meeting Busy Lassie won two $10,000 stakes. W. J. Leyburn, Royal Knight, Peter Chenault and others are in the field of entries.

The other events of today's program are the 2:13 class trot and the 2:16 pace. Judge Jones will be the favorite in the 2:13 trot and Tramp-a-Bit in the pace.

CANADA IS THE UNITED STATES' BEST NEIGHBOR.

AN ADVERSE TRADE BALANCE OF $300,000,000.

Canada has, for several years now, been increasing her adverse balance with the United States until it has reached the imposing figures of over $300,000,000. The fact that our neighbor to the south is now an ally of Great Britain and right in it with us in the war, will tend rather to increase this trade balance against us, than to decrease it, and it will stand our manufacturers in hand to find out some specialties for which there is or may be a demand created in the United States. It is remarkable how many of our presumably patriotic Canadians, especially the ladies, imagine that if they want a gown, hat or pair of dress shoes that they will feel au-fait, in anywhere, they must cross the border to make the purchase. This is as untrue as it is unnecessary, and while in the United States the writer has had it remarked to him by people who had been spending some holidays in Toronto, that they had never seen a better-dressed people—men and women—than there is to be seen on the streets of Toronto any day. It takes some inland cities a long time to outgrow their early village ways; the people also reflect this in their taste in dressing, and street costumes reflect the kind of stocks carried by the stores, many of which have not the "dare" or "pep" to bring on thoroughly up-to-date goods for the purpose of educating their customers as to what is being worn, but this does not apply to the stocks carried by the larger stores of our metropolitan Canadian cities, and it may be necessary to discourage, by legislation, possibly, the importation of American goods of the luxury class. It would seem that during our war, anyway, our people ought to be satisfied with what they can buy at home. This is not the time for show and demonstration, but the rather for economy and sobriety in all things. Let us conserve all we can rather than spend all we may. To consider the folly of spending more money for something imported, when something for the same purpose may be had among those of Canadian manufactures, and serving us equally well—for less money—is not to be unduly apprehensive. It is only exercising a proper appreciation of things as they are. The war is not over yet, nor can any say when it will be. Meantime, we must conserve: we must make what we have go as far as it will, even at the sacrifice, if it must be, of sentiment and the ultra-refined taste, many of our Canadian boys have already made the supreme sacrifice that we may continue in the enjoyment of unmolested freedom. It ill becomes those of us who because we have the money to spend, go about, looking for the imported article of higher cost, and thereby make it necessary to cut our contributions to the nation and its worthy needs, just that much more. To save; to conserve is the call of the day.

THRIFT BEGAN WITH CIVILIZATION.

Thomas A. Edison says: "Waste is worse than loss." The time is coming when every person who lays claim to ability will keep the question of waste before him constantly. The scope of thrift is limitless. "Some of our greatest industrial organizations have learned their A-B-C's in waste elimination and have found themselves well repaid.

Chauncey M. Depew said of the French in 1913—"The unequalled thrift of the French people makes France the world's banker. They save five hundred millions of dollars a year, which they put in the haands of a syndicate of their bankers to invest. There is now over a thousand millions of dollars in France awaiting investment, and hoarded because Europe is a powder magazine and plenty of fools around with matches, and because of deep mistrust of American securities. Besides the vast sum spent in her internal improvements, France has loans abroad of two thousand millions of dollars, one-third of it, nearly, to Russia, while Germany is borrowing at high rates of interest wherever money is to be had.

SAVE THE SMALL AMOUNTS.

"You think your 'little' is not worth saving, but I have noticed that the cigar man, the theatre man and the sodawater man have such a high opinion of your 'little' that each is glad to get his hand on just a small fraction of it, in order that he may carry it to HIS bank and have it placed to the credit of HIS account. I suppose it is all the same to the bank—your little is going there anyway—but, say! "If it is going there anyway, would it not be better to carry it there yourself and have it placed to your credit?"

EDWARD LEIGH PEEL.

"Go to the ant, thou sluggard; consider her ways and be wise; which, having no guide, overseer or ruler, provideth her meat in the summer and gathereth her food in the harvest."—THE BIBLE.

S. W. Straus, head of one of Chicago's largest bond houses, says "The way to material success in life is the simple. The man who sets a straight course and refuses to deviate from it, who lives on less than he makes, thus constantly amassing a surplus, and who invests that surplus wisely and conservatively, is bound to build up a comfortable fortune to retire on when his business days are over."

MONEY WILL GROW IF PROPERLY PLANTED.

Action is the mainspring of success; inaction, nine times out of ten, is the chief source of failure. The man who moves must eventually get somewhere, but those who, through disinclination or timidity, never make a start, get nowhere. What is true of individuals is true of money. It has been said that "Money grows," and so it does—but not of itself. Money is valuable for the things it will buy, the things it will accomplish; but it is useless unless its energies are fully employed and properly directed. In this resppect it may be likened to electricity, which has existed for all times, but until harnessed and directed by man was of no advantage to any one. Properly employed, a dollar will make another dollar for a man much easier than he could make one by his labor. Money to make money must be planted and cultivated, however, otherwise it cannot grow.

A merchant who invests, say $10,000, in a stock of goods will profit in proportion as he is able to turn his stock; that is to say, if he can turn his stock at 5 per cent three times a year his profits will total 15 per cent, as compared with 5 per cent on a single turn. Sometimes men in various lines of business find it advantageous to sell their stocks or properties at an actual loss in order to get a turn on the money invested, and buy up something else which may be turned quickly at a profit.

Merchants will recognize this as a well-established business principle, and it is quite as sound and just as applicable in the field of investment as it is in merchandising, though not nearly so generally applied. As an example, investors will all too frequently buy a stock at $10, and instead of taking a profit at $14 or $15, as they would in any other business, hold it until a reaction comes. To be sure, it frequently happens that the stock regains its loss, but the investor in the event that he sells on the second move, has secured only one profit when he might have had two.

Making money in the market involves no different principle, fundamentally, than making money in any other business—it means keeping money employed, and turning it over as frequently as possible. A review of the market since last fall will show that a large majority of the stocks traded on the New York Curb have in their swings given investors an opportunity to take profits on from one to several turns. With the country at war, with billions of dollars to be spent for supplies, with practically every industry in the country already working at cappacity, with orders piling up—what will you do with the opportunities offered by the present market?—Exchange.

LIFE INSURANCE HELPS THE SMALL INCOME TO GROW.

Only through life insurance can a man, by a comparatively small annual investment, from the moment of making the initial deposit extend his earning power beyond the term of his activities here, for the maintenance of those, who during his life were dependent upon him for support.

Life insurance is sentiment transmuted by forethought and thrift into the genuine substance which sustains widows and children, providing home and food and clothing for them after the death of the breadwinner. In its form it is business, created and nurtured by the overflow from the inexhaustible springs of love in the heart of humanity. In its nature it is affection, projected through business channels into the years of the future, to then provide for those who can no longer serve in person. Administered under personal actuarial formulae, with scientific precision, it is animate with tenderness, unselfishness, foresight, and consideration for others. It is evidence of the triumph of love over death, of the conversion of the intangible attributes of the heart into the material substance upon which physical existence depends. In times of peace it is prudence, which thoughtful men exercise in considering their responsibility toward others. In times of war and insecurity it is a necessity, which should safeguard every home.—W. C. J.—Equitable Agency Items.

WALL STREET CONDITIONS.

The last week has been one of little marked activity, notwithstanding that general conditions were favorable to an increased business at high prices.

The United States Steel report was much better than many expected, showing net earnings above taxes, of $90,579,204, which, after allowing $16,154,000 for depreciation and the necessary 1¾ per cent for preferred Stock, leaves a residue of about $12.50 per share on the common or about three times that required for the 8 per cent dividend it now pays in 5 per cent regular and 3 per cent extra.

Bonds are selling well, the week's sales showing a decrease of only $41,000,000 over same period last year when such a thing as the Liberty Loan was not thought of.

Call money has been easy, ranging from 2 per cent to 2½ per cent, with industrial collaterals 4¾ per cent to 5 per cent.

Bar silver made a further advance in New York of 2⅝ cents to 80¾ cents per ounce.

Exchange on London, demand $4.75 9-16. Russian Roubles, demand $21.50.

The crop reports continue good and apart from an ever increasing Government tonnage the railways are assured of all the traffic they can handle, ordinarily from agricultural and industrial activity along their own lines. The outlook is generally good and while it may be well to take on properties cautiously as to the extent of commitments, the man who is satisfied when making three or four turns a year should have little difficulty in picking up several things among the railways and steels to do this. There is little to warrant a steadily advancing market, but there is as little risk in buying at present prices, good properties to hold as an investment, while bonds of the best class are at bargain prices.

Life Insurance For Young Men

The importance of encouraging young men to make at least a start in life insurance is not fully appreciated. Many too hastily assume that it will be time enough to act when they shall have become producers and when there shall be someone depending upon them. The young man should begin early for several reasons:

It costs considerable money to rear and educate a boy; and it is right and proper that the family purse should be reimbursed for the benefit of the others in case of premature death. The same amount of money put into a house would certainly be covered by fire insurance. Besides, the expenses of sickness and burial in most families cause sacrifice and embarrassment, and this could at least be prevented by life insurance.

It is well to start a policy in early youth because the premium is low and the insurance will cost less throughout life, or be fully paid in early manhood.

Accident or impairment of health may make it impossible to pass a medical examination in the future.

Some time later the individual may want to engage in some hazardous occupation, or go into prohibited territory, and may not therefore be able to get life insurance when it is most wanted, whereas most companies have no limiting conditions after one or two years.

Paying for a policy, especially for an endowment, will teach a boy or young man economy and thrift. He can see that he is making some progress in estate building, and the proceeds of an endowment policy in early middle life may prove to be the foundation of a future fortune,

While life always looks bright to young men, the mortality tables tell us that at age twenty or thereabouts in ten years eight out of one hundred will pass away.

Send for our booklet, which will tell you in detail just what is the best policy for you.

SASKATOON IS LOYAL.

SASKATOON, Aug. 5.—Twenty-two thousand persons cheered themselves hoarse at the Saskatoon exhibition yesterday afternoon to voice their approval of the following resolution:

"That on the anniversary of the declaration of a righteous war this meeting of the citizens of Saskatoon records its inflexible determination to continue to a victorious end the struggle in maintenance of those ideals of liberty and justice which are the common and sacred cause of the Allies."

The resolution was moved by Pte. Harry Turner, late of the Princess Pats, who gave his eyesight for the cause, and was seconded by Rev. Wylie C. Clark.

CREWS OF SEVEN SHIPS, SIX U-BOAT VICTIMS, REACH ATLANTIC PORT

Canadian Schooner Among Those Torpedoed Off the Azores.

AN ATLANTIC PORT, Aug. 6.—The crews of seven vessels, six of which were sunk by German submarines off the Azores, were brought here today by a French steamer which took them abroad at a port of call on her voyage from Europe. The vessels sunk by submarines were:

Italian bark Doris, 1,353 tons, last reported as leaving Buenos Aires, May 8.

Canadian schooner Wilhelmina Gertrude.

American four-masted schooner John Twohy, 1,091 tons, from Norfolk, Va., for Algiers.

Norwegian steamer Ellen, 3,877 tons, from Philadelphia, for Marseilles.

Norwegian steamer Hanseat, 3,538 tons, from an Italian port, for Hampton Roads.

Norwegian steamer Horland, 2,472 tons, Stockholm, for France.

The seventh vessel, the British schooner Conqueror, of 150 tons, was abandoned and went down on June 11 off Flores, after she had sprung a leak in rough weather. She encountered no submarine, according to her crew.

The sinking of all these vessels except the Ellen, Doris and Wilhelmina Gertrude had been previously reported.

TWO AVIATORS INJURED BY FALL AT TORONTO

TORONTO, Aug. 6.—While flying over the grounds of the Rosedale Golf Club this afternoon W. P. Scoot, of the Leaside Aviation School, met with an accident, which resulted in both his legs being broken and probably internal injuries being sustained. Another aviator accompanying him was slightly injured.

Another accident to an aviator occurred this evening on the Danforth road, but the pilot was not hurt. Something went wrong with his engine and he was forced to make a descent in a meadow. His machine was somewhat battered, but he escaped injury.

MONTH'S NOTICE NEEDED IN LEAVING GERMANY

BERLIN, Aug. 6.—Neutrals desiring to leave Germany are now advised to file their applications at least four weeks in advance, as police permits to leave the country cannot be issued until the military authorities have acted on each individual application.

Three thousand applications from neutrals were recently on file in Berlin alone.

DECREASE IN TONNAGE.

LIVERPOOL, July 28.—Correspondence.—The annual statement of the Mersey docks and harbor board shows the number of vessels which paid rates and harbor dues from July 1, 1916, to July 1, 1917, exclusive of Government vessels, to be 16,747, representing 14,018,65 2tons, a decrease of 1,995 vessels and 1,661,291 tons, compared with the previous twelve months.

The total tonnage entering and leaving the Mersey during the past year was 28,037,304 tons, against 31,359,886 tons last year.

ARMAMENT BUSINESS DOOMED.

BIRMINGHAM, England, July 28.—Correspondence.—The armament business after the war will be "done for," in the opinion of Arthur Chamberlain, who presided at the annual meeting of the explosives and armament firm of "Kynochs." He also stated that firms similar to Kynochs had concluded certain agreements which they believed would insure their mutual prosperity when more peaceful lines had to be followed.

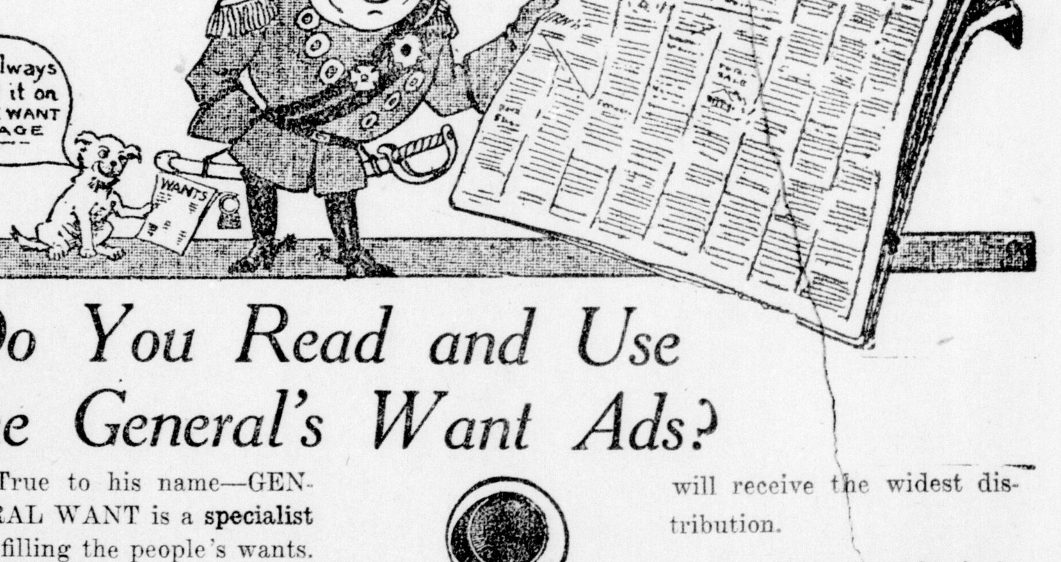

202 FLYING CADETS.

TORONTO, Aug. 6.—Another party of 202 cadets from the United States avition service reached this city on Saturday night to be attached to Leaside Camp for training purposes, making nearly 450 American air students now attached to the various Canadian camps in the neighborhood of Toronto. The party was in command of Lieut. Robert C. Oldys and came from Camp Kelly, in Texas.

JAP SHIPBUILDERS STRIKE.

NAGASAKI, Japan, July 25.—(Correspondence.)—Demanding an increase of 30 per cent in wages, 10,000 workmen employed at the Mitsubishi shipbuilding yards went out on strike. The men claimed they should share in the prosperity coming to Japan, as a result of war-time ship construction.

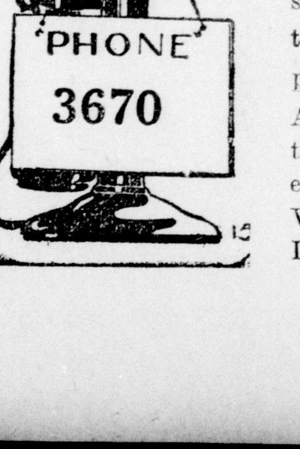

The strike probably will be settled by arbitration.

Do You Read and Use the General's Want Ads?

True to his name—GENERAL WANT is a specialist in filling the people's wants.

Here, there, everywhere, are people who want to sell, to buy, to rent, to exchange; to find another position or employ additional help; to accomplish this, that and the other thing. There's a solution for every want—but your want must first be brought out into the light—told in the WANT PAGES of The Advertiser, where it will receive the widest distribution.

Stop wishing and begin to use GENERAL WANT's short cut to results—advertise your want—that means placing a WANT AD in The Advertiser, where it'll have the advantage of the greatest possible audience your WANT AD can reach in London and vicinity.

CANADIANS EFFECT ANOTHER ADVANCE TOWARD LENS CITY, BOMBING FOE FROM CRATERS

[By Stuart Lyon, Special Correspondent Canadian Press.]

CANADIAN HEADQUARTERS IN FRANCE, via London, Aug. 6.—Following up the successful advance on Saturday afternoon in the region of Cite-du-Moulin, another advance was made last night, which carried our outposts up the main line of the enemy's defence on the railway embankment to the west of Lens. The men of two Canadian battalions in a dashing attack captured a crater, occupying a crossing road to the east of Cite-du-Moulin, and a crater to the north, on the Lens-Lievin road, which passes through Cite-du-Moulin.

For several days the enemy had maintained strong posts in these craters, whence harassing rifle grenade fire was directed at our outposts' line at night.

The attack, for the most part, was carried out with bombs, the approach in both cases being through a maze of partially destroyed houses, which did not lend themselves to the use of the rifle. When the bombs began to fall the enemy did not stay to fight it out, but retired towards his main positions, leaving the craters to be incorporated in our advanced lines. An attacking party then advanced to two tunnels known to be occupied by the enemy, and bombed them, inflicting, it is believed, a considerable number of casualties on the enemy.

A break in the clouds has permitted a resumption of the artillery and aerial activity.

FIFTY-SEVEN RINKS BOWL AT CHATHAM

CHATHAM, Aug. 6. — Ideal weather favored the annual Scotch doubles of the Chatham Lawn Bowling Club today. Fifty-six rinks from well-known bowling clubs of the western peninsula played a number of interesting games. Valuable prizes are being offered by the local club to the winners of the two events. Shortly after the arrival of the visiting rinks this morning an interesting presentation of the Daily News trophy was made to Webb of Windsor, the winner of the keenly-contested prize at the June tourney:

SPRINGWOOD CLUB HAS FINE SHOOT

The Civic Holiday shoot of the Springwood Gun Club came off in fine style yesterday. The weather was ideal, the attendance was good, and some excellent scores were made by the guns. Some of the new shooters made the old hands step some to keep above them. The event of the day was at 50 targets with handicap. Day was the high gun with a straight score. Scores of 49 each were turned in by Wm. Gibson, Simcox, Veal and Smith. The scores (first eight are prize-winners):

NEW RECORD FOR EVANS.

Toronto, Aug. 6.—"Chick Evans, United States open and amateur golf champion, playing with George S. Lyon, several times champion of Canada, against local professionals, Freemand and Cummings, today made a remarkable record over the Rosedale golf course. A few years ago Sargent of Chevy-Chase, Washington, D. C., won the professional championship on the course with a 73 in one round. Today over the course, which has since been shortened, cutting off three strokes, Evans returned a card of 65.

FIVE FOE MINISTERS AND 5 SECRETARIES HAVE QUIT OFFICE

Foreign Secretary Zimmerman Succeeded by Von Kuehlmann.

LIBERALS DISAPPOINTED

Feeling in Germany Is That Bureaucrats Are Still in Full Control.

Berlin, Aug. 6.—Official announcement was made today that five ministers of state, including Foreign Secretary Zimmermann, and five secretaries of state, including Finance Minister Lentze and Interior Minister von Loebell, has resigned their portfolios.

Dr. Richard von Kuehlmann, the German ambassador to Turkey, has been appointed secretary for foreign affairs in succession to Dr. Zimmermann.

The ministers and secretaries of state who resigned were:

Ministers of State.

Minister of Justice—Dr. Beseler, appointed November, 1905.

Minister of Ecclesiastical Affairs and Instruction—Dr. von Trott Zu Solz, appointed July, 1909.

Minister of Agriculture, Domains and Forests.—Dr. von Schorletter, appointed in 1910.

Minister of Finance—Dr. Lentze, appointed August, 1910.

Minister for Interior—Herr von Loebell, appointed May, 1914.

Secretaries of State.

Imperial Postoffice—Herr Kraetke.

Imperial Secretary of Justice — Dr. Liscot.

Secretary for Foreign Affairs—Dr. Alfred Zimmermann, appointed November, 1916.

President of the Food Regulations—Adolph von Batocki.

Dr. Richter, under secretary of the imperial home office, also resigned his post.

Dr. Karl Helfferich will continue to be representatives of the imperial chancellor and a member of the ministry of state and temporary minister of the interior.

Not More Than 3 U-Boats Per Month Lost, Says Berlin

BERLIN, Aug. 6.—It is officially declared that contrary to rumors of overwhelming losses in submarines, the monthly average is little more than three underwater boats lost during the period from February 1 to August 1, while the monthly increase in submarines constructed is many times larger.

ACCIDENTALLY SHOT.

ORANGEVILLE, Ont., Aug. 6.—Lewis Delaney, 16 years old, was accidentally shot today about a half a mile south of this town, by a companion, Hugh Johnston, 14 years of age. He died in a few minutes. The boys were employed with a Toronto departmental store, and came here to spend civic holiday.

Huggins Sees Where Giants Have No Cinch

Cardinals' Manager Predicts Close Race for Pennant This Season.

Miller Huggins, the shrewd little manager of the St. Louis Cardinals, thinks this year's race in the National will be one of the hardest fought and tightest in the history of the game.

"Naturally, I have watched all the teams in the league carefully, and have arrived at the conclusion that there will be a blanket finish in the old league this year," said Huggins.

"Of course, at this time the Giants seem to be the class of the league, but there are other clubs that will have to be reckoned with before the end of the season. The Phils are far from being out of the running, and my own club, the Cubs and the Reds, must be counted in. Mathewson seems to have his hearties in a winning mood, and it wouldn't surprise me if the Reds caused no end of trouble before October rolls around."

MAY TAKE TEAMS TO FRANCE.

WASHINGTON, Aug. 6.—A wealthy baseball enthusiast has offered to finance the undertaking if Clarke Griffith, manager of the Washington Americans, will take two teams of major league baseball teams to France for a series of games behind the lines for the entertainment of the American soldiers and their allies. A condition of the offer is that Walter Johnson, the Washington pitcher, be one of those selected for the trip.

FOE AGAIN DEFEATED IN COUNTER-ATTACKS ON BRITISH POSITION

Fade Away Before Withering Fire at Hollebeke.

BEATEN AT WESTHOEK

German Food and Water Supply Cut Off by Guns of Haig.

LONDON, Aug. 6.—Again today the British forces operating against the important coal city of Lens (Canadian front) made further slight advances west and southwest of their objective, according to the British official communication issued this evening. In addition an attempt by the Germans to raid British positions north of Arleux was repulsed.

German forces last night again attacked the new British lines in the neighborhood of Hollebeke on the Belgian front, but they were repulsed.

A German attack on the British position at Westhoek was also unsuccessful.

The text of the statement reads:

German Attacks Beaten.

"Early last night the enemy attacked in the neighborhood of Hollebeke. He was driven off before reaching our lines. An attack under cover of a heavy barrage against our positions at Westhoek was equally unsuccessful.

"A German raiding party was repulsed during the night east of Epehy.

"An enemy attempt to raid our trenches early this morning north of Arleux was caught by our rifle and machine gun fire before reaching our lines and driven off with severe casualties.

"We advanced our lines slightly today southwest and west of Lens.

"Yesterday after several days of inactivity, due to unfavorable weather, our airplanes again were able to carry out successful bombing raids and other work. In air fighting five German airplanes were downed, of which one was forced to land behind our lines. Three others were driven down out of control. One of our machines is missing."

Enemy Columns Dispersed.

Reuter's correspondent at British headquarters wires:

"Yesterday afternoon a big movement of troops behind their lines was plainly visible and our artillery duly attended to these columns of route. The weather continues fine and dry and although misty at times is all our airmen and gunners could wish for."

THE BATTLE OF HOLLEBEKE.

BRITISH HEADQUARTERS IN FRANCE AND BELGIUM, Aug. 6.—(By the Associated Press).—Hollebeke, a Belgian town southeast of Ypres, which was the scene of heavy fighting early yesterday morning, was again the object of a German counter-attack last night, but the enemy was repulsed by the British fire before even the wire entanglements in front of the trenches had been reached.

After the failure yesterday of the morning assault on Hollebeke and a post just north of the canal the Teutons continued to bombard the positions heavily throughout the day, leaving little doubt that they intended to have another try to retake this section of the newly-acquired British lines.

Met by Withering Fire.

When the German infantry finally left their trenches and moved forward they were met by an intense artillery fire and a withering storm of bullets from machine guns and rifles. They continued to push forward, but before the wire defences were reached they wavered and broke and retreated hastily to their own trenches.

The partial success of the German's yesterday morning attack when they gained a footing in Hollebeke, was due entirely to the heavy fog which prevented the British gunners from seeing the signals the infantry in the front lines gave indicating the German advance.

Inflict Heavy Losses.

Not having the assistance of their artillery, the British gave way slightly, but in the counter-attack which they immediately delivered, the British infantry hurled the Germans back with considerable losses and captured a number of prisoners.

Evidences of the force of the British bombardment before the opening battle of Flanders continue to multiply. German prisoners taken in the St. Julien sector, are unanimously declaring that it was most deadly and effective. No food, water or munitions had reached their front line for three days because of the concentration of the fire from the British big guns.

Owing to the accuracy of the British fire on German ammunition dumps many of them had to be moved to the rear and the ammunition brought up piecemeal.

FRENCH CRUSH ATTACKS.

PARIS, Aug. 6.—The war office communication issued this evening says:

"Both artilleries have been rather active in Champagne in the region of the Monts and on both banks of the Meuse, especially in the sectors of Avocourt and Louvemont."

"Belgian communication—During the night the enemy artillery was active against our communications. Gas shells were fired in the region of Ramscappelle. Some patrol fighting took place to the south of Dixmude. A few projectiles fell during the day on various parts of the front."

German attacks were made last night on the French positions east of Noisy Farm, in the region south of Boville, at Avocourt Wood, and in Alsace. The French official statement this afternoon says that all the attacks were crushed by the French artillery.

On the French front in Belgium, the situation was unchanged.

The text of the afternoon statement follows:

"Attacks made by the enemy to the east of the farm of Noisy, in the region south of Boville, in the Avocourt Wood, and in Alsace, were repulsed by our fire. The artillery fire in these sectors was fairly spirited at various times.

"The night was calm on the rest of the front."

25 "TANKS" CRIPPLED?

BERLIN, via London, Aug. 6—Strong British attacks were made yesterday against the German positions between the Ypres-Menin road, and the River Lyd, on the Belgian front, says the official statement issued today by the German general staff. All the attacks were repulsed.

The statement adds that several machine guns were captured from "some of 25 tanks lying in the side by our front."

The statement reads:

"Army group of Crown Prince Rupprecht—In Flanders, the firing activity by day was small, for the most part. During the evening the artillery duel in some sectors attained great intensity. Strong patrol attacks by the British which were launched last night and this morning against our positions, between the Ypres-Menin road, and the Lys, were everywhere repulsed.

Loot British Tanks.

"In the crater field, with which we are well acquainted, our storming troops carried out successful enterprises. Numbers of prisoners were brought in. Several machine guns were salved from some of the 25 tanks lying in the side before our front.

"In other sectors, the fighting activity was limited throughout the day to scattered fire. In the evening the activity increased between La Bassee Canal and the Scarpe as well as on the Chemin-des-Dames. Forefield engagements resulted in our favor.

"In an aerial fight First Lieut. Dontermann shot down his 25th opponent.

VETERAN JAILER DEAD.

KINGSTON, Aug. 5.—Charles H. Corbett, governor of the city and county jail for 52 years, and the oldest jailer in point of service in Canada, died yesterday, aged 71 years. He was a prominent yachtsman and curler, and a writer of some distinction.

NEW HUN MINISTERS CERTAIN TO CLASH, SAYS GERMAN PRESS

Von Kuehlmann and Helferich Keen To Direct Policy.

RADICALS DISSATISFIED

No Marked Concessions To Parliamentaryism in the Cabinet Make-Up.

Mexico City, Aug. 7.—When news of the retirement of Dr. Alfred F. Zimmermann, the German foreign secretary, was received last night it caused general feeling among prominent Mexicans that his downfall was due largely to the failure of his plan to have Herr Heinrich von Eckhardt, German minister to Mexico, attempt to embroil Mexico and the United States and use Mexico as a go-between in an effort to alienate Japan from the Allies.

Copenhagen, Aug. 7.—Will Dr. von Kuehlmann or Dr. Karl Helfferich, vice-chancellor, be the real director of foreign policy under the Administration of Dr. Michaelis, the imperial German chancellor? This is the political problem of the hour in connection with the shakeup of cabinets in Germany. It is known the versatile Dr. Helfferich desires to have a hand in steering Germany's new course in world politics after the war, and it is rumored that the new chancellor, unacquainted as he is with international affairs desires to retain the ex bank director (Dr. Helfferich) as his special adviser and mouthpiece, particularly for this field.

Helfferich Unpopular.

In fact, one of the avowed reasons for Dr. Helfferich's retention, despite his present unpopularity in the Reichstag, was that his services are indispensable in peace negotiations. The Berlin Tageblatt, the Lokal Anzeiger and the Vossische Zeitung all refer to the possibility of a conflict as Dr. von Keuhlmann, it is understood, is disinclined to permit himself to be relegated to a subordinate place.

A second feature of the shakeup is the consideration shown the Catholic Centre party, whose demand for representation in the imperial and Prussian cabinets for the Roman Catholic population was recognized by the appointment of three Roman Catholics, Spahn, Waldraff and Kuehlmann. With a revocation of the anti-Jesuit and Polish expropriation laws, also part of the Centrist program, that party is considered to have done very well as a result of the parliamentary crisis.

Radicals Dissatisfied.

While the Radical and Socialist press is dissatisfied at the absence of any marked concession to parliamentaryism in the new cabinets and at the failure to consult the Reichstag on the appointments, newspapers of the opposite camp are aggrieved at the shelving of Dr. Beseler, Prussian minister of justice, Count Loebell, Prussian minister of interior, and Baron von Schorlemer, Prussian minister of agriculture, and other stand-patters on Prussian franchise reform.

The Tages Zeitung shows its dissatisfaction in a short, cool, non-committal paragraph of greeting to the new Administration and by giving far more space to sketches of the departing statesmen than biographies of the new appointees. Herr Zimmermann, ex-foreign secretary, in an article in the Lokal Anzeiger, scolds Dr. Michaelis for jettisoning those tried and trusty officials in favor of political novices of untried worth. The Vossische Zeitung severely criticizes the appointments of Dr. Helfferich and Dr. von Kuehlmann on the ground that both favor the rapprochement of England and not of Russia as a basis of postbellum policy. It says Dr. Helfferich was Dr. von Bethmann Hollweg's evil genius in foreign affairs, who first delayed unrestricted submarining by getting out statistics, and then discredited it by impossible predictions.

Tageblatt Scoffs.

Theodor Wolff, editor of the Tageblatt, scoffs at all the appointments except that of Dr. von Kuehlmann, whom he advises to use his elbows vigorously to gain room to run his own department and prevent intrusion by Dr. Helfferich. The Lokal Anzeiger also advises a firm-hand policy and holds out as an enticement the glittering opportunity of leading the premier military power of the world to that just and permanent peace which will be as great a victory for Germany on the diplomatic field as that of Hindenburg on the field of war. The Anzeiger's adoption of the phrase "peace by understanding" does not imply any change of heart in the paper, which is committed absolutely to a powerful pan-German peace.

ATTEMPT IN SENATE TO EXEMPT DIVINITY STUDENTS FROM ACT

Service Bill Expected To Pass Committee Stage Today.

[Special to The Advertiser.]

OTTAWA, Aug. 6.—The military service bill is expected to pass the committee stage of the Senate tomorrow.

Good progress was made with the measure tonight, and the disposition of the Upper House seems to be to give the bill much quicker dispatch than it received in the commons.

There will be an effort to restore the exemption for divinity students, but this is not expected to succeed.

The measure was taken up in the committee stage of the Upper House tonight and half a dozen clauses passed

Marriage Clause Stands.

The principal discussion centred around the declaration that "for the purposes of the section, those marrying since July 6 shall be considered unmarried." This was construed by some as a reflection on the motives of those marrying since that date, and also as reflecting on their marital status. A proposed amendment, however, was voted down.

Senator Landry gave notice of an amendment likely to provide considerable discussion. It proposes that within the meaning of the act "clergy" shall be defined according to the laws of the different denominations. This evidently is planned to replace the "divinity students" who after being exempted, were eliminated from the category of exemptions and made liable to service.

NEW SOUTH WALES MINES TIED UP BY BIG STRIKE

SYDNEY, N.S.W., Aug. 6.—A strike of railway and street railway employees, which has been in progress for some days, now affects 20,000 men, and is seriously hampering the coal mines and other industries. The origin of the strike was a dispute over the customs of trades unions. The new men demand immediate action, while the Government has promised an investigation of their grievances three months hence.

The New South Wales manufacturers are talking of shutting down all industries in order to assist the Government.

FINANCIAL AND COMMERCIAL

THE LOCAL MARKET

Because of inadequate storing facilities, on account of the large yield, hay was offered in abundance this morning on the local market and the price came down to a minimum value as a consequence.

The demand for hay is good, but is so far exceeded by the supply that if the farmer makes even the smallest profit on his loads he will be doing well. $9.00 to $9.50 was the general offering for a ton of hay, allowing little profit for the purveyor after paying for labor.

Contrary to expectations raspberries remained unchanged in price, although the supply was exceptionally good. The official value was 17c to 18c., and because of the good demand, prices remained stationary throughout the morning. It is not thought likely that the berries will show any substantial decrease in value the remainder of the season. The raspberry crop has been good, but the demand for the fruit this season has been particularly large, which together with the scarcity of pickers keeps the price at its present height.

New vegetables are still selling at low values, tomatoes, potatoes, beans and peas being very plentiful and going at a brisk rate. Potatoes remain at $1.75 to $2 per bushel, and present indications point to no immediate decline, although some grocers are of the opinion that spuds will gradually depreciate in value until the 50c per bushel mark is reached.

The demand for butchers' meats and poultry is becoming brisker with the appearance of cooler weather, but prices are unchanged notwithstanding. Live stock is stationary, and in good demand, with the exception of live hogs, which advanced 50c over Saturday's quotation of $15 per cwt.

Dairy produce is brisk and the prices of butter and eggs remain high, with little chance of showing a decline for some time to come. Butter sells readily at 42c per pound retail, while eggs bring 42c and 40c per dozen at retail and wholesale prices.

Although the appearance of corn was a source of much worry on the part of the farmer a month ago local growers state that the heat of the last two weeks has worked wonders with the corn crop, and that a first rate yield is now looked for.

WALL STREET.

New York, Aug. 7.—Wall Street, 10:30 a.m.—A three-point advance in Nova Scotia Steel and a decline of 2⅜ in Bethlehem Steel, new shares, based on rumors of new financing, indicated the irregular trend of prices at the opening of today's market. Otherwise changes were limited to fractions, mainly upward, but reactions soon ensued, United States Steel falling from 127⅞ to 126¾, with similar reversals in related industrials.

12 noon—The heaviness of industrials became more pronounced later, reversals extending to 4½ points in old Bethlehem Steel, 2⅝ for the new and 1 to 2 points among other stocks of the same class. Equipments, motors, leathers, Industrial Alcohol, Distillers, American Tobacco, Utah Copper, Texas Company and Cuba Cane Sugar were included among the other backward features. Moderate rallies occurred before mid-day.

BIG ARKONA PROGRAM

Civic Holiday on Wednesday Will Be Well Celebrated.

ARKONA, Aug. 6.—Great preparations are being made for Arkona's civic holiday Wednesday, August 8. In the afternoon baseball games will be played between strong teams representing Forest and London. As these teams are playing for cash prizes and a silver trophy, great interest is being taken in the results of the contest. The Forest band has been engaged for the day's entertainment. Speakers have been secured from various points, including J. E. Armstrong, M.P.; D. Martyn, M.P.; George Elliot, M.P., and others.

In the evening a grand concert will be given. Miss Alice Dunbar, comedian, will be the headliner.

During the day the Women's Institute will serve meals in the large building adjoining the grounds. Proceeds for patriotic purposes.

SUB CAPTAIN BOASTS SANK NINETEEN VESSELS IN THREE WEEKS' TIME

An Atlantic Port, Aug. 7.—One German submarine during a three-week period ending July 19, sank 19 vessels aggregating 66,000 tons, and was still in condition to remain longer away from its base, according to a report brought here today by Harold Hasen of Detroit, a member of the crew of one of the 19 ships, who said he received his information from the U-boat commander.

Hasen said he belonged to the Norwegian sailing ship Artensis, of 1,789 tons gross register, sunk while on its way from Glasgow to Hampton Roads. A detail from the U-boat boarded his ship and removed all the food supplies. The crew was then ordered into the boats, given the course to the nearest land, and the Artensis torpedoed. The captain of the submarine, Hasen said, told him and other members of his crew, with pride that he had sunk 18 other ships in the three weeks, and was after more.

NEW NAVAL CONTROLLER EXCELLENT MAN FOR JOB

London, Aug. 7.—Alan Anderson, the new controller of the navy, who will be responsible for the admiralty's shipbuilding requirements, has a close knowledge of both shipping and railways. He was long associated with a company of shipping brokers, and is a director of the Midland Railway. He is a son of Dr. Eliza B. Anderson, a well-known physician, and the first woman to be elected as mayor in England, being the chief magistrate of Aldeburgh.

SEVERAL FINED FOR MOTOR LAW BREACHES

Two motorists, convicted of speeding, were fined $5 and costs each, and another $3 and costs when found guilty of passing a standing street car. A fourth charged with exceeding the speed limit of 15 miles an hour called evidence to prove that his car was at home during the hours he was supposed to be travelling. He was given the benefit of a doubt that the patrolman might have misread the car number, and was discharged.

The first two pleaded not guilty, and each said he could not understand how Patrolman Tomlin had imagined he was going fast. The magistrate, however, took the patrolman's word for it and levied the fines.

The car owner found guilty of driving by a standing street car pleaded his own case.

Sergt. Lucas, Motorman W. Kerr and Conductor James Reath testified he had violated the act by driving by as a woman passenger was about to alight.

GAS MASK PARADES FOR THE SAMMIES AT FRENCH CAMPS

American Soldiers Trained To Combat Deadliest Terror.

GIVEN SEVERE TESTS

Subjected to Gas Mixtures Many Times More Powerful Than That of Huns.

American Training Camp in France, Aug. 7.—By the Associated Press.—The issuance of French gas masks to the American soldiers has brought them a little nearer to the realization of their proximity to real warfare. The men are looking forward to the gas experiments with the greatest possible interest as giving a touch of adventure to their training. When the so-called "gashouse" is completed, the men will be put through a mixture of a deadly vapor several times stronger than will ever be encountered upon the field of battle. Some German prisoners have claimed that in their training they have endured periods of five to ten minutes in a gas mixture fifty times as strong as could possibly be maintained in an open air attack. The men are put through these intense mixtures to demonstrate to them that with proper care and use of their equipment they cannot be hurt by any gas likely to be encountered in the front line trenches.

Deal With Terrors.

It is a most important branch of the modern training of a soldier that he should be convinced that there are many methods of effectively dealing with the dealiest terrors of latter day warfare; that careless, sloverly and unheeding soldiers are the ones first to succumb. It is even demonstrated to the soldiers that the terrifying liquid fire can be avoided, except in most extraordinary circumstances such as being caught in a tunnel or in a dugout with the enemy in such a position that he can pour flames through the entrances.

The Mask Training.

In training the Americans regarding gas the greatest weight is to be laid on demonstrating to each man the value of his protective appliance, and seeing that he is fully instructed in its proper use. He will be made to realize, however, that only by skillful and rapid adjustment of the mask can protection be assured, and that it shall be a daily task with him to see that his appliance is in good condition. Fit must be assured, for otherwise the gas penetrates through every small hole and attacks the eyes and mouth so that in a short time the man is put out of action.

Gas at Long Range.

The increasing use of gas shells even from the longest range guns makes the carrying of masks far back of the line an imperative military necessity. The first traces of gas poisoning are a hot mouth and irritation of the throat. Despite proof that the Allies have so often produced to the contrary, and the terrible deaths Allied soldiers died when this hideous mode of warfare was first sprung upon unsuspecting foes by the high command of the German army, private soldiers and Germans say the gases are so-called "smelling substances" and are not poisonous.

The substances they assert exert stupefying action and in long exposure have an asphyxiating effect. Under their influence vision is affected. A man subjected to it is forced to close his eyes in a few seconds, and can observe nothing. Germans naively admit, however, that "it is impossible to remain in these gases without protection." The exact nature of the composition of practically all of the German gases is known to the Allies, and the Americans are obtaining immediately the full results and benefits of all this laborious and dangerous work."

CHINA IS LIKELY TO ENTER STRUGGLE

President Approves of Unanimous Decision Made by the Assembly.

PEKING, Thursday, Aug. 2.—(Delayed).—Acting President Feng Kwo Chang today approved the unanimous decision reached at a special meeting of the Chinese Cabinet to declare war on Germany and Austria-Hungary.

The ministers of the Entente powers probably will meet at the Chinese foreign office on Saturday to discuss China's declaration of war, which is expected to be issued next week.

ONLY 4,548 MEN NEEDED FOR U. S. REGULAR ARMY

WASHINGTON, Aug. 6.—Less than 5,000 men are needed to complete the quota of all the states for the regular army. Recruits accepted Saturday and Sunday numbered 1,400.

The total since April 1 is 179,350, leaving 4,548 to be enlisted.

The war strength of the army is 283,000 men.

It seems difficult to think of anything better than a plain gold band. We often find a man with this idea in view; he wants to feel that his wedding ring has a real value, consistent with its great significance.

A gold wedding ring, if over $10, at the most, is liable to be either too heavy, or the karat so high that it is too soft.

A PLATINUM RING is many times harder than gold and can be bought from $20 to $40.

FIFTH PICNIC OF CATHOLIC FORESTERS A SPLENDID SUCCESS

Ideal Weather Favored Outing at Springbank on Holiday.

Perfect weather brought out a large crowd for the fifth annual picnic of the Catholic Order of Foresters, held at Springbank on Civic Holiday. A feature of the fine program was a ball game between St. Mary's and St. Peter's teams, in which St. Mary's won 6 to 4. Will Delaney proved the heavy hitter of the day. In a tug-of-war the teams broke even. A fine program of races was put on, at which the prize-winners were:

Boys' Race, Under 6—1 Wilfred Noonan, 2 Will Morallie, 3 Raymond Henry.

Girls' Race, Under 6—1 Agnes Bowers, 2 Kathleen Zaver, 3 Gracie Teale.

Boys' Race, Under 8—1 Burnard Fitzmaurice, 2 Wilfred Noonan, 3 Raymond Henry.

Girls' Race, Under 8—1 Madeline Dicknoether, 2 Agnes Bowes, 3 May Kelman.

Boys' Race, 8 and Under 10—1 Wilfred Noonan, 2 Bernard Fitzmaurice, 3 Joe Ryne.

Girls' Race, 8 and Under 10—1 May Flaherty, 2 Tilda Groom, 3 Margaret Dicknoether.

BIG CARNIVAL EVENING ATTRACTION AT THE IRISH PICNIC

That big carnival, arranged by the Irish Benevolent Society for the evening attraction of the Irish picnic at Port Stanley Thursday, has aroused the enthusiasm of the pleasure-seekers of London, and that it will prove an innovation of the utmost popularity is already assured.

The feather tickler and confetti will be there, and there will be a line of attractions, ending up with a display of fireworks on the beach, that will draw vast crowds from London, St. Thomas, and, in fact, the whole of Western Ontario.

There is no other picnic in the year like that of the Irishmen, and this year they have outdone themselves in furnishing the wherewithal for a great day's sport.

The attractions of the afternoon will include new and startling numbers for the sports program, while the best collection of prizes ever assembled for the baby show and dancing sections has been brought together by the men in charge.

Heretofore the Irish picnic has closed late in the afternoon. This year it will be nicely under way at that time, and those whose employment keeps them in the city till the close of business hours will still have a chance for a part in the revelry at night. There will be cash prizes for the best Irish costumes at the board-walk carnival, while it is rumored that some of those who will be there are planning a bathing suit parade.

Mayor Stevenson's proclamation of a half-holiday for Thursday and of the abandonment of the usual Wednesday half-holiday has caused the greatest satisfaction in the city, and merchants generally have indicated their intention of observing the day, in order that all may enjoy a rollicking day with the Irishmen.

FORMER LONDONER WHO GAVE UP HIS LIFE IN THE CAUSE OF LIBERTY

LIEUT. THOMAS EATON.

LT. THOMAS EATON, FORMER LONDONER, KILLED IN ACTION

Had Only Been in Trenches for a Month.

Lieut. Thomas Eaton, son of the late James Eaton, and Mrs. Eaton, Toronto, a former London boy, was killed in action on Saturday. A cablegram to John H. Chapman announcing the fact on Monday morning. Mr. and Mrs. Chapman left for Toronto on Monday evening to be with Mrs. Eaton.

Lieut. Eaton was born in London, his father being a prominent drygoods merchant here for many years. He attended the public schools here, and graduated from the collegiate. Later when the family moved to Toronto, he went with them, and assumed a responsible position with the T. Eaton Company. He was a member of the Queen's Own in Toronto and was active in recruiting and drilling some months. Later he volunteered for overseas, reaching England early in the year. He had been in the trenches in actual fighting not more than a month.

Lieut. Eaton was a splendid specimen of manhood, strong and handsome. He was an ideal soldier, beloved of his men. He is survived by his mother, and one brother, Rev. Howard Eaton, Honeywood, Ont. Sir John Eaton is a cousin, his father being a brother of Timothy Eaton.

MARY PICKFORD IN 'THE LITTLE AMERICAN' AT PATRICIA THEATRE

"The Sweetheart of the Screen" Showing in Her Latest Photoplay.

Mary Pickford in "The Little American," the latest production in which the "Sweetheart of the Screen" has been starred, is the supreme feature attraction at the Patricia Theatre the first four days of this week.

Without hesitation it can be said that this wonderful picturization is the best in which the most famous actress in motion picturdom has been featured.

Miss Pickford is given a character delineation in this photoplay in which she displays wonderful ability in a role for which she seems to be particularly adapted.

"The Little American" is a photoplay de luxe, and in its making the Artcraft Motion Picture Corporation has disregarded expense in producing a photoplay that stands out as a master production of master minds.

This picture was only completed three weeks ago, and was shown at Ottawa last week for the first time in Canada, and its appearance at the Patricia is its second presentation in the Dominion.

It is one of the most entertaining photoplays ever seen in this city. It is a treat for young and old alike. Capacity audiences marked its presentation at every performance on Monday.

Briefly the story is as follows. Miss Pickford appearing in the role of Angela Moore.

Synopsis.

The birthday of Angela Moore is the same as that of her country—the fourth day of July. She is a typical American girl living in Washington. She is courted by Count Jules De Destin of the French embassy, but her affections are centered in Karl von Austreim, a young German-American, who although he lives in Washington, has been educated in Germany.

Karl has proposed to Angela and has just been accepted when he is secretly called to join his reserve in Germany, and vanishes from sight before war is declared. Jules goes to join his French regiment. Angela receives no word from Karl, and when her aunt, living in a French chateau, requests that she join her, Angela gladly accepts, and writes Karl that she is sailing. Karl receives this note, and at the same time news that the Veritania has been torpedoed. Believing his sweetheart drowned his whole nature changes. Angela manages to reach the chateau, which is in the path of the German attack.

Angela sees some of her servants killed, revolts against the Prussians, and telephones the range of the German batteries to the French gunners. The German colonel orders the house searched, and Karl catches Angela in the act of telephoning. Escape is impossible, and to save him Angela cleverly makes the colonel think Karl has aided her. She is brought before the court-martial and sentenced to death. It is then that Karl realizes he is in the grip of a relentless horde—throws down his sword, renounces his allegiance to the Prussian army and the two are about to be shot.

The rifles of the firing squad are about to send the lovers into eternity when the deluge of shells wreck the building. Angela is turned over to friends, and Karl is sent to a concentration camp. Through the efforts of Jules, and in return for Angela's assistance in repulsing the Germans, Karl is granted his freedom, and returns to his sweetheart.

A Fox comedy, "Social Pirates," in two reels, presents a series of comedy situations that are indescribably funny.

In vaudeville Lillian De Vere renders in a number of well-selected songs. She is the possessor of a rich contralto voice, characterized by great volume.

On Friday and Saturday Mary Pickford will appear in "The Poor Little Rich Girl."

HAROLD JARVIS, THE FAMOUS TENOR, NOW AT THE MAJESTIC

Celebrated Singer Opens His Engagement and Receives Great Ovation.

Harold Jarvis, the famous tenor, known to thousands of Canadians and Americans who have been entertained by his wonderful singing, opened an engagement Monday at the Majestic Theatre.

This popular playhouse was crowded to capacity at all performances, Mr. Jarvis being tendered an enthusiastic welcome, the audience insisting that he respond to encores for each of his songs.

For the first half of this week he will sing "The End of a Perfect Day" and "Somewhere a Voice Is Calling." Both these selections the famous tenor rendered in a masterly style, his interpretation of each being musically perfect.

On Thursday, Friday and Saturday by request he will sing, "Beautiful Isle of Somewhere," a song which has made the name of Harold Jarvis known throughout the civilized world. The Victor Phonograph Company in a recent statement claims that the record of that song, which was secured some years ago from Mr. Jarvis, has proven to be the greatest selling phonograph record in the world.

Being the soloist at the First Presbyterian Church, Detroit, the largest one in the state of Michigan, including in its congregation the foremost citizens of that city, Mr. Jarvis, in addition to singing at all performances at the Majestic, will at the same time fulfill his Sunday obligations to the church he has been connected with for so many years, by leaving here late Saturday night for Detroit, returning to the city again each Monday morning during the period of his engagement.

That his singing is appreciated was evidenced by the applause and demands for encores following each of his numbers yesterday.

The photoplay attraction, "What Money Can't Buy," is a dramatic production interwoven with a pretty romance, unfolded in a manner that keeps the audience constantly on the alert for the next scene.

Dainty Louise Huff and Jack Pickford, are the stars, supported by that famous character actor, Theodore Roberts, and a cast of equally celebrated players.

The following is a synopsis of the play:

Madison Hale, wealthy American financier, and Govrian Texler, financial advisor of the king of Maritzia, a small principality of Europe, are bidding against each other for the concession to run a transcontinental railroad through the country.

The American in New York is operating through agents in the kingdom. Young Dick Hale, having just completed school, desires to make a trip and visit Maritzia, which was the birthplace of his mother's grandfather. Arriving there, Dick meets the princess, who is under an assumed name, and the two young people fall in love, much to the chagrin of Ferdinand Vaslof, a young military officer and nephew of Texler.

The princess induces Dick to accept the lieutenancy in the Maritzian army. Hale Sen., hearing that he is not apt to get the railroad concession, boards his yacht and personally goes to the principality. He does not approve of the marriage until he meets the young princess.

The nobility of Dick's greatgrandfather is established, and he and the princess receive the blessings of their two fathers.

The extra screen attraction, "By Right of Possession," features Antonio Mareno and Mary Anderson. A thrilling situation is shown in the play, in which a cattle stampede takes place, and the hero rescues the young woman from beneath the feet of the flying herd.

The Majestic Concert Orchestra, under the leadership of Mr. Joseph Tirri, renders the overture, "Masaniello," by D. F. E. Auber. As on all previous occasions the orchestra members were tendered an ovation at the conclusion of the selection.

The above bill in its entirety will be repeated today, followed on Wednesday and Thursday by Bessie Barriscale in "The Hater of Men."

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! See if Tongue Is Coated, Breath Hot or Stomach Sour.

"California Syrup of Figs" Can't Harm Tender Stomach, Liver, Bowels.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste, and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

GODERICH WOMEN ASK MEN BE FURLOUGHED

Want First and Second Contingent Soldiers Given Respite From War.

GODERICH, Aug. 6.—The meeting called by the Women's War Auxiliary, held in the courthouse, was attended by the majority of the prominent women of the town. Mrs. Hamilton, president, presided. The reports of the delegates to the Toronto conservation of food convention were read by Mrs. Carrie, secretary.

When a letter from Premier Hearst on the conscription of men and money was discussed, it was apparently supported by all present.

A resolution was brought up that the men at the front who had been in service for two or three years be given a three months' furlough, and their places taken by men who, while wearing the khaki, had never seen the trenches.

There was a lengthy discussion on the preparation of food to the best advantage, and the relative nourishment of a great many kinds of food.

BLYTH AUTO OWNERS AIDING IN ROAD WORK

Remove Stones Which Obstruct Traffic and Improvement Results.

BLYTH, Aug. 6. — All the places of business closed here on Saturday from 3 p.m. to 5 p.m., when intercessory services were held in Trinity Church, at which an offering was taken in aid of the French Red Cross. The order of the services was of a union character, with the three ministers of the town assisting.

Mrs. T. C. McElroy, who underwent a serious operation in St. Joseph's Hospital, London, returned home Wednesday evening.

A number of those owning autos in Blyth have been doing a good service to the roads in this section by getting out with rakes and picks and taking off the stones, which are a menace to travel. If the autoists all through the county would do likewise it would not be long until the roads would be in good shape.

H. Thomas, C. P. R. agent here, always takes great delight in his garden at the station, and nearly every year it gets into the prize money awarded by the company. This year his garden is fully up to other years, and it certainly improves the appearance of the grounds at the depot.

Dominion Fruit Inspector F. Metcalf has left for the western provinces, where he will attend to his duties for the next few months. There is little in Ontario this year, and he was not needed here.

CARLISLE CHURCH'S 60TH ANNIVERSARY FITTINGLY OBSERVED

The Moderator of General Assembly Preaches at Diamond Jubilee.

ILDERTON, Aug. 6.—Diamond jubilee services were held in Carlisle Presbyterian Church on Sunday. Rev. Dr. John Neil, moderator of the General Assembly occupied the pulpit at both morning and evening services. Large congregations filled the church at each service.

The distinguished preacher took for a text, "All scripture is given by inspiration of God." The subject, "The Bible," was forcibly expounded. Dr. Neil said at no time was the Bible on so solid a foundation as today. No book is read today as the Bible is. The master poets, Homer, Dante, Milton, Shakespeare, drew their inspiration from the Bible.

The speaker, referring to the great European war, said that if "Germany had made the Bible the guide of its national life instead of the 'God Woden,' the god of war, there could have been no war." He told what the Bible had done for Scotland, and by using anecdote and story for illustration kept the attention of the large congregation.

An interesting part of the morning service was the reading by the pastor, Rev. Mr. Geddes, of a short historical sketch of the church since its foundation 60 years ago. When on petition by several pioneers the church was formed by Revs. Jas. Skinner and Jas. Fraser, the two pioneer missionary preachers of that day, 1857. Reference was made to the first pastor, Rev. Fletcher, who was followed by Revs. Dewar and John Rennie, and the present pastor, Rev. W. H. Geddes, who has been pastor for nineteen years. The good work now being done by the two congregations of Carlisle and Ailsa Craig in supporting a missionary was commented on.

Only one of the original members, John Drummond, is now alive.

BROCKMAN

BARRY—DESMOND.

INGERSOLL, Aug. 6.—At the Church of the Sacred Heart this morning the marriage of Miss May Kay, daughter of Mr. and Mrs. Daniel Desmond, Cashel street, to John Barry of Hamilton, was solemnized. The ceremony was performed by the Rev. Father Kuntz of Kitchener. The groomsman was Daniel Desmond Jun., while the bridesmaid was Miss M. Hughes of Ingersoll. Both the bride and bridesmaid were gowned in white crepe de chene.

The groom's gift to the bridesmaid was a pearl pin, and to the best man a signet ring.

After a wedding breakfast at the home of the bride's parents, Mr. and Mrs. Barry left on a trip down the St. Lawrence. They will reside in Hamilton.

BEST HAY IN YEARS.

WINGHAM, Aug. 6. — The hay crop, which has new been practically all harvested, is one of the best in years. The local average will be about four tons to the acre.

Wheat, barley and rye are fit to cut, and some oats, sown early, are already turning.

In spite of the scarcity of the farm help the farmers are doubling up and doing fairly well with their crops.

Apples seem to be a fair crop in this district, but examination of the most of the fruit reveals a white maggot in the centre. The same deceptive appearances prevail for cherries, too. As a result many baskets of cherries had to be imported to meet the local demand.

EXCEPTIONAL HAY CROP.

BLYTH, Aug. 6.—The farmers in this section are finishing up their haying operations. They have the satisfaction of knowing that they have taken in one of the largest crops they have ever had, and it is in first-class condition.

All the other crops are equally as good, as it is nothing to see oats and barley higher than the fences. The roots are also looking well, but there are some complaints about the blight being on some potatoes.

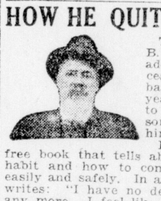

NEW GERMAN FOOD DICTATOR.

COPENHAGEN, Aug. 6.—Herr von Waldow, high bailiff of Pomerania, according to the Berlin Vossische Zeitung, has been designated as successor to Adolph von Batereckl, as president of the German food regulation board, or "food dictator," as the post is commonly known.

FAREWELL SERMON.

THEDFORD, Aug. 6.—Rev. Ash Everest preached his farewell sermon last evening. He moves to Bayfield this week.

HOW HE QUIT TOBACCO

This veteran, S. B. Lamphere, was addicted to the excessive use of tobacco for many years. He wanted to quit, but needed something to help him.

He learned of a free book that tells about the tobacco habit and how to conquer it quickly, easily and safely. In a recent letter he writes: "I have no desire for tobacco any more. I feel like a new man."

Anyone desiring a copy of this book on tobacco habit, smoking and chewing, can get it free, postpaid, by writing to Edward J. Woods, 549 P, Station E, New York City. You will be surprised and pleased. Look for quieter nerves, stronger heart, better digestion, improved eyesight, increased vigor, longer life and other advantages if you quit poisoning yourself.—Advt.

Stomach Medicines Are Dangerous

DOCTORS NOW ADVISE MAGNESIA.

Just how dangerous it is to indiscriminately dose the stomach with drugs and medicines is often not realized until too late. It seems so simple to swallow a dose of some special mixture or take tablets of soda, pepsin, bismuth, etc., after meals, and the folly of this drugging is not apparent until perhaps years afterward, when it is found that gastric ulcers have almost eaten their way through the stomach walls. Regrets are then unavailing; it is in the early stages when indigestion, dyspepsia, heartburn, flatulence, etc., indicates excessive acidity of the stomach and fermentation of food contents that precaution should be taken. Drugs and medicines are unsuitable and often dangerous—they have little or no influence upon the harmful acid, and that is why doctors are discarding them and advising sufferers from indigestion and stomach trouble to get rid of the dangerous acid and keep the food contents bland and sweet by taking a little pure bisurated magnesia instead. Bisurated Magnesia is an absolutely pure anti-acid, which can be readily obtained from any drug store. It is absolutely harmless, is practically tasteless and a teaspoonful taken in a little warm or cold water after meals, will usually be found quite sufficient to instantly neutralize excessive acidity of the stomach, and prevent all possibility of the food fermenting.—Advt.
