

CITY ENGINEER GRAYDON WILL TENDER HIS RESIGNATION HEALTH IS MUCH IMPAIRED

Has Been Head of the Engineering Department of London for Nineteen Years—Position Has Been a Trying One and He Must Have Rest—It Is Likely He Will Be Retained in the Capacity of Consulting Engineer.

City Engineer Graydon will tender his resignation at the next meeting of the city council.

As a matter of fact he handed it to Mayor Beattie on Monday last, but his work kept him from withdrawing it in the meantime, and it was held over. After due deliberation, it is stated, that Mr. Graydon has decided to again tender his resignation.

Ald. Tancock, chairman of the board of works, has been informed of Mr. Graydon's intentions, and he has had a consultation with a number of the aldermen relative to placing Mr. Graydon in the position of consulting engineer for the city, at a salary of \$1,200 a year.

A SUITABLE POSITION.

A number of them have been broached on the subject and all have agreed that the position would be suitable for him. Ald. Tancock stated that Mr. Graydon, by reason of his intimate knowledge of the city, was almost indispensable to the board of works department.

Mr. Graydon has been connected with the department for 21 years. For nineteen years of that time he has been city engineer, and has been in charge of the public works of the city. In point of continuous service he is one of the oldest officials in the employ of the city.

During his term he has seen the city develop at a very rapid rate, and while he has often been criticised, it must be admitted that any man in his position must grapple with the shortcomings of each successive city council.

HEALTH HAS BEEN BAD.

The reason of his resignation is ill-health. For the past two years he has been in failing health, heart trouble causing him great distress at times. The work of the city has grown most rapidly, and the responsibility of the office, in view of the greatly increased amount of public improvements done in the past few years, has been too heavy for him, in view of his delicate condition of health.

Some time ago he determined to tender his resignation, but a number of his friends persuaded him to remain in his present position. However, it was stated today, by an alderman that there was no doubt of his retiring from his present office.

A STORM CENTRE.

Mr. Graydon's long record in the city service has been a good one. A position such as his, is bound to be the storm centre for complaints, and every year he is assailed by hundreds of citizens who have troubles, some legitimate, the majority merely trifles.

It was trying, no doubt, on nerves and health, but for nineteen years he withstood the onslaught, and those who were elected with the sole object of having the city engineer dismissed, have always come to the conclusion that he was too valuable a man to lose when they looked deeper into the affairs of the city.

Those who came to dismiss him usually remained to praise him. During all the agitations he has gone on his way with an unruffled temper, and has never complained of the action of his opponents.

AUTHORITY ON PUBLIC WORKS.

Mr. Graydon is an authority on public works in the city. He knows every inch of London, and his assistance as consulting engineer would be invaluable to his successor.

"After 21 years' service to the city, in which he has given the best he had, City Engineer Graydon deserves well at our hands," said an alderman to The Advertiser. "He should be given the position as consulting engineer, because he can advise us and give us suggestions that would be invaluable. He can save us thousands of dollars a year. I will support him in that, and I am sure every other alderman will. I would not move a hand to take his present position from him, as he is a far more valuable man than the majority of people give him credit for."

ONLY FOUR WELLS BEING PUMPED A DOZEN MORE WILL BE ADDED

Chairman McMahan Has Instructed Engineer Glaubitz to Go Ahead With the Work—Water Supply Can Be Greatly Increased.

The Horton street wells will all be connected at once, and pumped. Only four are being pumped now, and a dozen can be added.

Engineer Glaubitz was consulted last evening by Chairman McMahan, of the water commission, as to the possibility of getting an additional supply of water from the wells, and Mr. Glaubitz informed him that he had no objection to connecting them all. The present pumping apparatus will furnish a great deal more water than is being secured at the present time. Mr. McMahan gave Mr. Glaubitz orders to go ahead and connect the wells.

A Big Demand.

During the past few days there has been a great demand for water. The supply has been taxed to the limit, and some fears were expressed that it would not be sufficient.

"Mr. Glaubitz will connect the wells, and we shall obtain an additional supply of water," said Mr. McMahan. "During the past few days the citizens of London have consumed about five million gallons of water. That is too much, and gives me another reason for advocating the installation of meters on the present system. We have plenty of water today at hand to supply a much larger city, but it is being wasted."

When the other wells are attached the reservoir will probably be cut off at night for a time, in order that the supply may be preserved.

There is less demand for water today than during the past week, as the temperature is not so high.

MERCHANT FINED \$200 BY POLICE MAGISTRATE

Sent Out Circulars From an Alleged Detective Bureau and Had No License.

A local merchant who was prosecuted in court a couple of weeks ago by Provincial Detective Miller on a charge of being a detective without a license, was found guilty by Magistrate Love this morning and fined \$200.

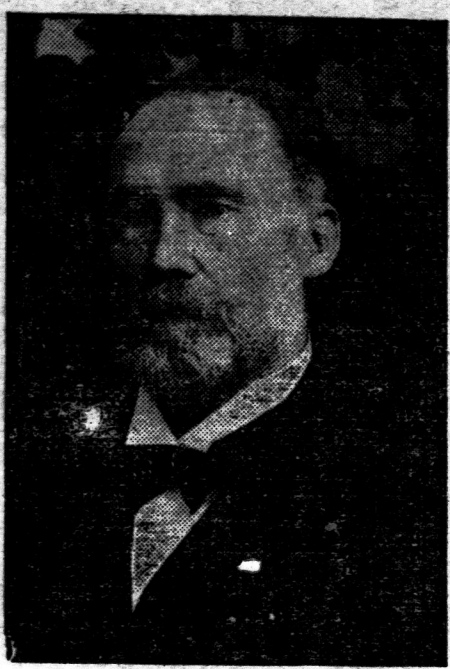

The magistrate considered the matter for two weeks before giving his decision.

Mr. Harper, of Gibbons, Harper & Gibbons, who is representing the defendant, stated to The Advertiser this afternoon that the case will be appealed at once.

"Because the defendant does not engage in a regular detective business," said Magistrate Love, "is no excuse for him sending circulars such as he did, which were intended to create fear in the minds of those receiving them, and make them pay up. I would fine the defendant less if I could, but the penalty provided by law is not less than \$200, and not more than \$500."

MR. W. C. FERGUSON, Formerly of London Collegiate Institute, Who Has Been Appointed to the Staff of Toronto University.

SIR GEORGE ROSS.

MRS. RIDDELL DIED OF POISON

Taken Accidentally Or Administered by Persons Unknown.

HUSBAND ON THE STAND

Provincial Analyst Testifies to Finding Prussic Acid in the Stomach.

Norwich, Ont., June 23.—"Your jurors beg leave to inform you that we have carefully considered the evidence before us, and find that Orena Riddell came to her death from prussic acid poisoning, the same having either been taken in mistake, or administered by some party or parties unknown."

Long before the hour set for the inquest, the small town hall was crowded with spectators, who listened intently throughout the whole hearing in spite of the intense heat. Dr. Riddell arrived early, in company with his lawyer, Mr. W. S. Brewster.

The husband of the dead woman is an undersized man, with a very cool and selfpossessed bearing. He never grew excited, even when Crown Attorney Ball asked him three times if he could tell of any enemy who could desire his wife's death.

The Analyst's Report. At the opening of the inquest, Coroner Ellis read the report of Provincial Analyst Ellis, which showed that prussic acid was found in the stomach of the dead woman. The letter from Dr. Ellis contained the following statement: "I have found about seven-tenths of a grain of hydrocyanic acid, equivalent to thirty-five grains of the dilute hydrocyanic of the British Pharmacopoeia, in the stomach."

The first witness called was Mr. George Chambers, manager of the local branch of the Traders' Bank. He told the coroner that he had in his possession at the bank an insurance policy of the Confederation Company on the life of Dr. Riddell for \$2,000. This had been made payable to the bank as security for money which Riddell owed the bank. He also assigned his book accounts for the same purpose on March 12, 1909.

His Financial Standing Good. When questioned by Mr. Brewster, the witness told what he knew of the financial affairs of Dr. Riddell. He owed \$63 to the Traders' Bank at the present time, so that Mr. Chambers thought that he was in good shape. At the time of Mrs. Riddell's death, their husband only owed \$40 to the bank, but he increased his indebtedness, during the past few weeks, making the larger amount. Dr. Riddell's effects were worth \$1,000, and Mr. Chambers believed that he had recently paid \$500 on his house, and \$500 on his farm during the past year.

WOMEN NOT STRONG ON VOTING TELL TALE FIGURES OF CLERK

Out of 3,459 Ladies On the Voters List, Only 622, Or 18 Per Cent, Voted at the Last Municipal Elections—Men Who Are Entitled to Vote for School Trustees Only, Do Not Exercise Their Franchise to Any Great Extent.

The suffragette movement is not very strong in London, if the statistics prepared by City Clerk Baker on the last municipal election are any indication. There are 3,459 ladies on the voters lists. Of this number but 622 voted, or just 18 per cent.

This in view of the fact that there was quite a strong moral reform campaign in January last does not speak very highly of the interest taken by the gentler sex in affairs of state. However, conditions may improve from this time on.

School Voters. The voters who are on the list for school purposes only do not take a very deep interest in educational matters if the vote cast is any criterion.

There are 1,967 on the list, and only 122 voted. There was a keen interest taken by electors generally at the last election in the kindergarten reform, and a much higher percentage of votes was cast for school trustees than usual. However, this interest was by no means reflected by those who are entitled to vote for school trustees only when but 6 per cent cast votes.

Of the 11,615 men votes on the list, 5,997 cast votes, or 51 per cent, a trifle less than the average.

"The women did not take a very deep interest in municipal affairs," said City Clerk Baker. "The vote cast by the women and by those qualified to vote only for school trustees was disappointing."

Highgate Lady's Tragic Fate. Mrs. James McLaren Lights Match While Searching for Something, and Clothing Catching on Fire, She Is Overcome by Smoke and Flames.

[Special to The Advertiser.] Ridgetown, June 24.—Upon returning to his home in Highgate yesterday evening about 6 o'clock, Mr. James McLaren found the house to be full of smoke, and upon making investigation found the fire to be in a dark closet under the water tank upstairs. Help was called in and the fire was extinguished, but the body of Mrs.

McLaren was found in the closet burned beyond recognition. The fire is a mystery, but it is supposed that Mrs. McLaren lit a match when in search of something in the closet, her clothing took fire, and the smoke overcame her before she could get out. The village and surrounding country are deeply grieved over the sad accident.

Help was called in and the fire was extinguished, but the body of Mrs.

KNIGHTHOOD FOR SENATOR ROSS ON THE KING'S BIRTHDAY LIST

Ex-Premier of Ontario and Former Member for West Middlesex Remembered in His Majesty's Birthday Honors—Mr. Byron Walker and Henry Bate Also Made Knights.

London, June 23.—The honors conferred on the occasion of King George's birthday include the bestowal of Knighthood on George William Ross, of the Canadian Senate; Byron Edmund Walker, president of the Canadian Bank of Commerce, and Henry Newell Bate, chairman of the Ottawa Improvement Commission.

Mr. J. C. Rutherford, chief veterinary surgeon, Department of Agriculture, Ottawa, is given a C. M. G. The honors include seven peerages, eleven baronetcies and thirty knight-hoods. The new peers are wealthy Liberals, as are practically all the recipients of honors. Among the baronetcies are Sir George's son, Sir Oliver Mowat, and on the 23rd of that month was sworn in as minister of education. As the Liberal party in the general election of 1883 was greatly reduced in numbers, West Middlesex, again became the scene of a very severe contest, the then leader of the Opposition, now Sir William Meredith, putting forth all his personal and political strength for Sir George's defeat. His majority was, however, con-

cludes A. T. Quiller-Couch, the author.

Sir George Ross was born near Nairn, in Middlesex County, on Sept. 18, 1841. He had a rare honor of representing the same constituency (West Middlesex), for an unbroken period of thirty-four years. He was first elected for the House of Commons on the 27th August, 1872. In 1874 he was elected by acclamation, and in 1878 and 1882, after very severe contests. In December of 1883 he was called to join the Government of Sir Oliver Mowat, and on the 23rd of that month was sworn in as minister of education. As the Liberal party in the general election of 1883 was greatly reduced in numbers, West Middlesex, again became the scene of a very severe contest, the then leader of the Opposition, now Sir William Meredith, putting forth all his personal and political strength for Sir George's defeat. We got just what we were looking for, and it served us right.

J. M. THOMSON

Was looking for an attraction for Friday and Saturday selling, something that would create a stir—not an electric fan, but a real bargain—and he got it in a

Ladies' Walking Skirt

A manufacturer with an overplus of cloth offered to make up a quantity of walking and dress skirts at a ridiculously low price if we would clear the lot. There are several styles of cloth in the assortment—Panama, tweeds, etc. You will find a splendid selection of fancy and plain grey tweed, just the thing for picnics, boating or automobiling. They are made up in one of the latest styles; front and back of skirts are box-pleated, the sides are side-pleated under a pointed yoke, well cut and tailored, and regularly sold at from \$3.50 to \$5.00. This lot will be sold at the ridiculously low price of **\$2.19**. We would advise early shopping while the sizes are complete.

Corsets

Another lot of our now famous Corsets. Perfect fitting. No need to describe them. You know the kind and at the same price. Friday and Saturday only, per pair.....**45¢**

These two great bargains are only two spokes of the many attractions for Saturday running into the hub of bargains at No. 182 Dundas street. See our window for skirt display. Don't forget the old store upstairs over Dowling's new clothing store. Wall Paper, Paints, Varnishes and Stains.

UNCLE SAM'S COUNSEL FLINGS DEFIANCE

Says the United States Will Not Allow Britain to Dictate as to Fisheries.

London, June 24.—Continuing his argument on behalf of the United States before the Hague Fisheries Tribunal, former Senator Turner outlined the negotiations preceding the treaty of 1818, and pointed out that the treaty was almost entirely conformable to the draft presented by the American negotiators, and the contents of the treaty implied that the Americans' right to fish was already existing in 1783, and was maintained in perpetuity by that treaty, and that the United States had not renounced its fishing rights in all the bays in the British possessions, but only in territorial bays.

With respect to the regularization of the fisheries, he held that the United States should regulate the fisheries by a common agreement with Great Britain and should have a share in the enforcement of such regulations.

Great Britain has no right to limit American fishermen with regard to the time or manner of fishing, he maintained.

Continuing, he maintained that the treaty of 1818 limited the sovereignty of Great Britain with regard to coastal fisheries, and held that the contention that British legislation and the British Constitution "finished" guarantees against the United States fishermen being unjustly treated by the British colonies was irrelevant.

He argued that the treaty gave the United States no right to set at defiance the wishes of the United States.

He again dwelt on the claim that the United States exercises equal sovereign power with Great Britain over the fisheries, and to support this he quoted largely from legal works and insisted that the right to fish subject to the will or pleasure of Great Britain was no right at all.

He also asserted that Great Britain would never be allowed to set at defiance the wishes of the United States.

NO ULTIMATUM SAY THE TRAINMEN
Committee Expects a Reply From the Railways Some Time Today.

Montreal, Que., June 23.—The meeting of the railwaymen's committee began early this morning, and remained in session till after noon, behind tightly closed doors. No reply to their communication of last night was received from the C. P. R., and it is not likely to be received till late tomorrow morning. Probably the reason is that no official copies of the award have been received from Ottawa yet, and in the absence of this, the company does not wish to speak.

"We have no statement to make," was all that could be obtained at C. P. R. headquarters.

While so far the G. T. R. men have not given any official notice of what they intend to do about the award.

Not an Ultimatum.
"Our note to the C. P. R. last night was not intended as an ultimatum, nor was it quite so bluntly worded as it has been made to appear," said one of the leaders this morning.

"We told them that failing the standardization of rates that we asked it would be difficult to see on what other basis we could negotiate. We did not say to them, give us what we ask at once or it's all off, as it has been made to appear."

"Will there be a strike?" was asked.

"By organizations which are negotiating with the companies are not striking organizations," was the hesitating reply. "They do not strike till they have to, and until every honorable means of averting trouble has failed."

The next move in the big game, one of the most momentous labor situations of recent years in Canada, will be made by the company.

Some of the men frankly admit that they hope for negotiations; a few more impulsive are ready to put the whole thing to the test of a strike.

There is no feeling of soreness apparent among the men at the award of the board of conciliation. They do not pretend to be satisfied with it, but they say that they are confident that the board did its best.

BLAMES POLICE FOR ABSENT BOY

Dr. Scimeca Thinks Kidnappers Are Too Scared to Return Son.

New York, June 24.—An air of expectancy pervaded the home of Dr. Mariano Scimeca today and there was every indication that the anxious father and mother anticipated welcome developments in the search for their 3-year-old son, Michael, the sensational kidnapping of whom on Tuesday was followed yesterday by a reported demand from the child's abductors of \$5,000 as a ransom.

Dr. Scimeca refused to make public all the details of the kidnappers' communication and declined to let the police trace the writers.

"I can do better by working alone," he said. "I expect to get my boy back today."

Dr. Scimeca has expressed a willingness to give up any amount for the return of the lad, but there seems reason for believing that no such amount as \$5,000 will have to be handed over.

As the day wore on a change came over the spirits of the Scimeca household. The word that had been expected from the boy's abductors did not arrive, and Dr. Scimeca became extremely agitated. He declared that the publicity had driven the kidnappers off, and kept them from sending him the letter promised when friends opened up communication yesterday with the men who stole little Michael.

In his excitement Dr. Scimeca bitterly complained of the activity of the police and of the publicity given the case.

He declared that all he wants is to be left alone, and that the kidnappers were afraid to get into communication with him again, suspecting that the detectives would set a trap for them.

A Cool Spot

When the thermometer registers 90 in the shade we hear the same remark: "HOW COOL IT IS IN THIS STORE," and on every aisle cool things for summer wear. All the surroundings help to make you feel cool and comfortable.

SHOP WITH A TRANSFER CARD.

We Forecast Men's Needs

And our results are very gratifying to ourselves, as we find we strike it right with about 19 out of 20, and frequently the twentieth after searching the city, wanders back to the Smallman & Ingram Clothing Store. We find our clothing satisfies the ideas of the man who comes here for clothes that are cool, and fit, and are conservatively stylish, and we think we are right in guessing that twenty out of twenty men will be satisfied, and quickly, too, with the big snaps we show for Saturday in Two-Piece Suits and Wash Vests. See our windows today; on sale Saturday.

Men's 2-Piece Suits \$9.50

These have just arrived from two of the best wholesale tailors in Canada for fine men's clothes, and will be ready for Saturday selling. They are fine grey tweeds in three or four different patterns, the highest class Suits we have yet offered at anything near this price. Two clearing lots, bought at our usual price advantage for cash, which would be priced low regularly at \$13.50 to \$15.00; sizes 35 to 44. A chance for the big men to dress cool. See them in Richmond street window, Saturday.....**\$9.50**

Nobby Suits for Young Men

WALL PAPER CARPETS and FURNITURE THIRD FLOOR.

CAPTAIN CODY FATALLY HURT

British Army Expert Fell One Hundred Feet With Aeroplane.

Aldershot, England, June 24.—Capt. S. F. Cody, the American aeronaut who has been experimenting with an aeroplane for the British war office, is believed to be in a dying condition as a result of an accident on Lark's Plain yesterday, when his machine dashed to the earth from a height of 100 feet. Cody was rendered unconscious and his aeroplane smashed to bits.

Cody is a naturalized Englishman. He began his aerial experiments for the war office, but after spending \$5,000 of the Government's money without visible results, more money was refused, and he spent his private fortune in his work. He taught aeronautics to the army officers. The machine in which he was injured is a cumbersome affair of his own invention, weighing two thousand pounds and having 750 feet of wing surface.

It was driven by an 80 horsepower motor.

Cody's most successful flight was made Sept. 28, 1909, when he made a cross-country flight around Aldershot, remaining in the air one hour and three minutes, flying forty-seven miles. On Dec. 29, 1909, he attempted to fly from Liverpool to Manchester, a distance of thirty-nine miles, but after flying fourteen miles got tangled up in telegraph wires and was thrown to the ground, sustaining serious injuries.

Cody claims that he invented "warping wings" for aeroplanes long before the Wright brothers, but his claims are denied.

CRAZY HORSE CHASES MAN UPSTAIRS; DEAD

South Chicago Police Can't Get Animal "Unwedged"; Shoot It.
Chicago, June 24.—A horse, which, according to police diagnosis, was driven mad by the heat, occasioned

much activity in South Chicago late last night.

After the horse had kicked its way out of the barn it ran about the yard. From its actions, H. Stern, the owner, judged it mad and he fled out of the yard and around the house to the front entrance, pursued by the animal.

Believing he would be safe by mounting the stairs, Stern hurried up the first flight. The animal pursued, and when it reached the landing of the second floor, fell down and became wedged in the narrow space.

The police were notified, and two patrolmen were sent to the rescue of the now terrified family. They attempted to pull the horse out of the hallway by means of ropes, but couldn't, so the animal was shot.

HUNTING IN EGYPT.
The hunter you have engaged probably at Aswan prepares during the afternoon a comfortable hole in the sand, near some footpath leading up into the mountains. Here you take up your position after dinner. No better arm-chair could be well imagined than that scooped out in the soft sand, and, after watching big-

eared grey hares at play, foxes creeping stealthily by, or inquisitive owls perching on the edge of the hole, yielding to the beauty of the night, you suddenly develop a kindly feeling for wild beasts in general, and your eyes close in peaceful slumber.

A hand laid on your knee awakes you, and a large whitish object—looking as big as a large donkey—is seen silently approaching. A voice whispers in your ear "Dhabab!" The whitish object cocks its ears, you fire, and five minutes later your hunter bears back to the dhabab a fine specimen of the striped hyena.—From an article in Sports Afield

21-23, 10, 17, 34

ENGLAND IN EGYPT.

When England assumed sole control in 1882, Egypt was still bankrupt, with a public debt of more than \$500,000,000, and an income insufficient to pay the interest and carry on the government. The public revenue in 1882 amounted to \$4,500,000; in 1907, to \$81,500,000; more than \$10,000,000 in excess of the expenditures. On Jan. 1, 1908, the sum of \$45,000,000 was in the general reserve fund, and the public debt was reduced in 1908 by \$1,600,000; it now is \$479,000,000. While millions have been saved and enormous public works completed, taxation has been reduced. The fellah, or peasant, formerly prostrated by taxes, enmeshed in the coils of usurers, the puppet of pashas and the victim of insupportable evils, is now contented and prosperous.

This result has been directly accomplished by the maintenance of a strict financial control. At first, enormous difficulty was encountered by the English in making changes in the system of taxation, because the people, so long accustomed to the betrayal of their interests, thought the plans proposed were simply for the purpose of increasing their burdens.

Little by little, however, they learned that another era had opened, and finally their suspicions were calmed. They then began to work with renewed energy, and now secure in the fruits of their labor, they are not merely improving their own conditions, but are building up the reputation of their country. With the regulation of the Nile, and the welfare of the peasantry, Egypt can confidently look forward to a constant development of the agricultural interests which lie at the base of national prosperity.—From an article in the World Today.

LONDON, FRIDAY, JUNE 24.

ARE DREADNOUGHTS USELESS?

This startling question is being raised by British naval experts. For instance, Mr. Arnold White, who was among the first advocates of the Dreadnought, now assumes that in the early stages of a war these battleships will not be put into use, but will be kept "lying dogs," at Scapa Flow, at Milford Haven, or at Bantry Bay, until the narrow seas are cleared of the enemy's submarine and torpedo craft. In other words, neither the North Sea nor the channel will be a proper place for a well-conducted Dreadnought until the small craft are sunk and the enemy's mines lifted.

Of course, if the Dreadnoughts of one belligerent power cannot put out to sea, neither can those of the other. The first stage of the war will be between the torpedoes—submarines and torpedo craft. "The submarine," says Mr. White, "contrary to general belief, is the weapon of the stronger power. Enemies' harbors can be drawn like a rabbit hole by a keeper's dog. Victory will rest with the power that possesses the personnel that is more willing to die; that is, the more skillful in the use of the torpedoes, and that possesses the larger number and better quality of submarines and torpedo vessels."

Mr. White is unable to understand why the admiralty has not paid more attention to torpedo craft. Germany is ahead of Britain in destroyers, in commission at every age limit from one up to twelve years from the date of launch. Seeing that about 40 submarines or 20 destroyers can be bought for the price of one Dreadnought, the discrepancy between Britain's strength in Dreadnoughts and her weakness in destroyers is to Mr. White unintelligible, particularly as Dreadnoughts may not come into action at all during the term of a war.

The main factor on the outbreak of hostilities between two great commercial powers will be the destruction of the mercantile marine of the weaker power. Germany has about 934 merchant ships plying between her own and foreign ports on any one day, but as Dreadnoughts would neither capture nor defend them the need for Dreadnoughts exists neither in the first nor the second stages of the war. Commerce-destroying will be performed by Kents, not by Dreadnoughts. Dreadnoughts would come in, if at all, in the third stage of the conflict, when the narrow seas are clear for battleships on both sides, and the sea-borne commerce and mercantile marine of the weaker power have been captured or laid up.

Colonel Repington, another diligent student of warfare, expresses the belief that the North Sea falls within the category of narrow waters which eventually must, by a process of evolution now taking place, become practically closed on the outbreak of war, and possibly throughout the war, to the operations of sea-going fleets and cruisers. He believes, further, that the great ships to which so much money is devoted every year will, within a limited period of time, become useless for most operations of which the North Sea and the channel will be the theatre. "In time of war," he adds, "our great and costly battleships and cruisers must be stowed away safely in some distant, safe and secluded anchorage, perhaps tomorrow. The North Sea, in time of war, will be a desert of waters, insecure to both sides, open to neither, commanded by none."

LOW POLITICS.

Sir Wilfrid Laurier has promptly stamped as a falsehood the assertion that a judgeship in Manitoba had been sold by the Federal Government. The authors of the story are those heavenly twins of Canadian politics, Messrs. Roblin and Rogers. They should produce their proofs, or confess they have none. In all probability they will do neither. Roblin, himself, is under a grave imputation. His accusers offered to furnish evidence to show that he was not entitled to a seat in the Legislature, but he refused to give them the opportunity. He has himself to blame if he is suspected of inventing a scandal to divert attention from the one hovering over his own head.

The latest trick of the heavenly twins is to spring an election before Sir Wilfrid can meet them on their own ground. The dates of Sir Wilfrid's western itinerary were made known weeks ago. In Manitoba it would have been his duty to discuss the boundary question, which the twins are seeking to make the sole issue of

Manitoba politics. To forestall this, they have fixed the Provincial election for July 11, the day upon which Sir Wilfrid was announced to speak in Winnipeg. He will thus be unable to personally present his side of the case to the electors of Manitoba before they vote. This tactic is peculiarly characteristic of the twins. Nothing is too slippery, too petty or too debased for the machine which has ruled Manitoba for personal ends for the past ten years. In wiping it out, the people of Manitoba will wipe out a stain on Canada's good name.

THE NEW CANADIAN KNIGHTS.

So long as titles are dispensed in this country, the responsibility will rest upon the Government of the day for the choice of persons upon whom they are conferred. The sovereign is described as the fountain of honor, but his exercise of this prerogative, as of others, is subject to the advice of his ministers. They are in duty bound to see that a gift peculiarly associated with his name is worthily bestowed. Senator George W. Ross, who receives a knighthood on the occasion of the King's birthday, combines personal eminence and a record of distinguished public service. If these are not qualifications for a title it is difficult to say what are. He has been in public life continuously for 38 years, during 25 years of which he was a minister of the crown. His career has been typically Canadian, in the sense that he has owed nothing to fortune except his extraordinary natural ability. Beyond the public school and Normal school he has been self-taught, but he became a finished scholar and an orator with scarcely a peer in the Dominion. His title comes to him gracefully in the autumn of life. He will wear it worthily. It appropriately crowns long, arduous and fruitful labors for the Dominion and the Empire.

Sir Byron Edmund Walker, who shares similarly in the King's birthday honors, is a man of versatile talents and fine public spirit. He is a great banker, an art connoisseur, a lover of literature, and an antiquarian. No voice is more authoritative than his on financial subjects, and he has written some standard works on banking.

Sir Henry Newell Bate, the third of the new-made Canadian knights, is not so widely known as the others. He has been usefully employed in late years as chairman of the Ottawa improvement commission, which has in hand the work of beautifying the capital. He is one of the merchant princes of Canada. Mr. Bate modestly refused numerous invitations to enter politics, and declined public office or public honors until the creation of the Ottawa commission.

Premier Roblin has at least plenty of "sand."

The railway companies and the brotherhoods should hesitate before throwing Canadian prosperity off the track.

Joe Martin has left the Liberal party in Great Britain as he left it in Canada. These are about the only useful services he has rendered either.

Mr. Borden's Ontario tour ended yesterday. So did the hot spell. It must have been a pure coincidence. Sir James Whitney spoke only once, and Mr. Borden's oratory is frigid and calculated.

The county of Middlesex is complimented by the honor conferred upon its gifted son, Sir George Ross. And his Conservative opponents in his old riding will be among the first to congratulate him.

Mr. Borden heard a speaker on his platform at Treton bitterly denouncing Mr. Foster. Mr. Borden was a consenting party to the attack. And in such a case "consent" will be interpreted as "assent."

It is gratifying to see that no Canadian baronetcies are among the King's birthday honors. Hereditary titles are out of place in this country. It is to be hoped the present Government will not repeat the error it made on a former occasion.

The British Government will not oppose the latest woman's suffrage bill. It will probably pass the House of Commons. If the peers reject it, they will receive the forcible attentions of Mrs. Pankhurst and her militant daughters and devotees. It may be a deep-laid scheme on the part of the Government to avenge itself on the House of Lords.

REGULAR NATURALIST.

[The Argonaut.]
 It was a picnic party of genuine city dwellers out for "a day with nature," that finally went into camp on the banks of a pretty stream and spread their lunch. They were just settling themselves when one of the girls, with a little scream pointed to a small green "thing" that had climbed from the water and which was regarding them solemnly. "Oh, what is it? Will it bite?" was demanded in a feminine chorus, as skirts were hastily gathered up. One of the young men approached the strange animal and cautiously poked it with his cane. "Oh, I say, you know," he exclaimed, his face lighting up. "You know, I really and truly believe that this is one of those things they get frogs' legs from, by Jove, I do!"

YOUR LEISURE.

[Chicago Tribune.]
 Take care of your leisure, and your life will take care of itself.

PINE FORESTS AT SOUTH POLE.

[Westminster Gazette.]
 Professor David, who occupies the chair of geology in the University of Sydney, and who accompanied Sir Ernest Shackleton to the Antarctic, has been making some interesting remarks on his discovery there. The fossil woods he had found showed that pine forests had flourished in the vicinity of the South Pole at a remote geological epoch. The coal seams he had discovered suggested the same

conclusions. At that time there was more or less continuous land from Australia to the South Pole. The climate all over the world was at that period probably much milder than at present.

THE VIXEN.

[Pick-Me-Up.]
 Ethel (confidentially)—Do you know, Clara, that I had two offers of marriage last week?
 Clara (with enthusiasm)—Oh, I am delighted, dear! Then the report is really true that your uncle left you his money?

NOTHING SUBDUED ABOUT HER.

[Boston Transcript.]
 Fuddy—Do you believe that people acquire mental qualities from what they eat?
 Duddy—Hardly think so. My wife's mother eats crushed oats, mashed potatoes and whipped cream, and yet she's very pugnacious.

SWEET PEACE.

[Tit-Bits.]
 "Mrs. Naggett," said the doctor, "your husband needs a rest. He must go to Hastings for three months."
 "Oh, splendid!" she exclaimed. "I'll be delighted to go there."
 "Very good. You go there for three months after he comes back. That will give him six months' rest."

YOUTH IN A SMILE.

[Christian Science Monitor.]
 Genevieve Ward, famous tragedienne of the sixties and seventies, has a prescription for youth. It is laughter. "I have tried to keep happy," she thinks that is the only way to keep young. Cheerfulness is the sunny ray of life. It is the great essential. My mother when I was a most ardent pedestrian. She wore short, sensible skirts, and walked many miles every day. She always was cheerful, and she never thought herself old."

THE UNIVERSAL CRAZE.

[Louisville Courier-Journal.]
 Mary had a little lamb;
 She put it through a drill,
 And now she seeks for pretty weeks
 Next year in vaudeville.

Jack and Jill acquired such skill
 That common life they spurn,
 They work eschew and want to do
 An acrobatic turn.

And that's the way it goes today;
 We sneer at luxury and
 We all aspire to princely hire
 And life upon the stage.

DISPERSING THE MOB.

Examining Officer—If you were put on the police force how would you disperse a mob?
 Applicant—I would pass around the hat.

TOUGH AND BITTER REPAST.

[Boston Transcript.]
 Figg—What is the height of irony?
 Pogg—I give it up. What?
 Figg—Offering a man a toothpick after you've made his eat his words.

THE WORTH OF HIS MONEY.

[Cleveland Plaindealer.]
 "Mathilde Browne was very rude to an over-dressed old woman she met on the street car the other day."
 "I know the story. The old woman turned out to be Mathilde's very rich aunt, and now she's going to give all her money to a hospital for decrepit dogs."
 "Nothing of the kind," said the old woman. "The old woman was the Browns' new cook—and now they haven't any!"

MORE SERIOUS.

[Hamilton Times.]
 The Chinese are not as shrewd as they have been supposed to be. Fines of \$200 for playing fan-tan! Why do they not get a club charter and learn the white man's game of poker?

MUST BE GOOD.

[Boston Transcript.]
 Patron (to restaurant proprietor)—Look here, sir, this clumsy fellow has split half my soup down my back.
 Proprietor (to waiter, sternly)—Bring this gentleman a full order of soup instantly.

A QUESTION OF HEARING.

[Tit-Bits.]
 "We can't eat this steak; it's not good," complained a young man who was spending his honeymoon in the Scottish village.
 "You're surely joking, sir," said the landlord of the inn. "It means surely he's good. It's a bit of the minister's audacious!"

INNOCENTS ABROAD.

[Answers.]
 The burly farmer strode anxiously into the postoffice.
 "Have you got any letter for Mike Howe?" he asked.
 The new postmaster looked him up and down.
 "For—how?" he snapped.
 "Mike Howe," repeated the farmer. The postmaster turned aside.
 "I don't understand," he returned stiffly.

"Don't understand!" roared the applicant. "Can't you understand plain English? I asked if you've got any letter for Mike Howe!"
 "Well, I haven't!" snorted the postmaster. "Neither have I a letter for anybody else's cow! Get out!"

THE VESTED INTERESTS.

[The Tatler.]
 "Yes, Mrs. Snooks, I've got 'ow they would get tariff reform and make the foreigner pay, as we've got one in our top-floor back, and I ain't 'ad nothink of him for six weeks now."

NOT THE RIGHT COLOR.

[Exchange.]
 A certain Col. White, who kept two black servants, was very often absent from church. The two black men, however, attended with exemplary regularity. One day the vicar, who was a bit of a wag, met the colonel and said:
 "I say, colonel, I miss you very much from your pew in church."
 "Oh, yes," said the colonel, airily. "But you'll find that my two niggers are always there."
 "Yes," said the vicar; "but you know two blacks do not make a White."

Summer Skin Troubles

Sunburn, blistering and irritation are the commonest forms of summer skin troubles, and Zam-Buk ends these very quickly. It works in two ways. As soon as applied, its antiseptic powers get to work and kill all the poison in a wound, a sting or a sore. This generally ends the smarting and the pain. Then Zam-Buk begins the healing process, and fresh healthy tissue is built up. For sores, blistered feet, sore hands, heat rashes, baby's heat spots, sore places due to perspiration, etc., you can't equal Zam-Buk.
 Also unequalled for cuts, ulcers, abscesses, piles, and all inflamed and diseased conditions of skin and subcutaneous tissue. Druggists and stores everywhere sell Zam-Buk, price 50c a box, but you are warned against accepting any of the harmful imitations.

SATURDAY STORE HOURS:
 8 A.M. TO 10 P.M.

CHARLTON INSANE TO BE HIS DEFENCE

Confessed Slayer of Wife at Lake Como May Never Be Tried.

New York, June 24.—Apparently unconcerned over his desperate plight, Porter Charlton, the young bank clerk, who stands the confessed murderer of his wife, the former Mrs. Scott Castle, the Lake Como murder victim, spent a comparatively restful night in his cell in the Hoboken jail here, where he was lodged after his arrest on the North German Lloyd pier yesterday, and calmly awaited his arraignment in recorder's court today.

Abedon to the advice of his attorney, R. Floyd Clark, the youth has stopped talking about himself and his affairs, and it was only by his anxious father, Judge Paul Charlton, of Washington, who with care-worn lines on his face, was early on the scene, and to his legal advisers, that Charlton had anything to say. His comfort during the night was materially increased by the kindness of the jail officers, who, when the boy expressed a desire to take a bath, rigged an impromptu shower in his cell and permitted Charlton to indulge in an unwelcome luxury for prisoners in the rather meagrely fitted out Hoboken lockup.

While much hinged on the attitude of the judicial officers in the New Jersey district where the capture was effected, it was stated before the arraignment today that when Charlton was brought into court an adjournment for 24 hours at least would be asked to enable a better preparation to be made for Charlton's defense. It was discovered that former state senator William D. Edwards had been retained in Charlton's defense, while on the other side were found Italian officials who were expected to ask Charlton's extradition to Italy (to be tried for the murder of his wife). Here from Washington appear in the case was the Marquis Di Montagliari, charge d'affaires of the Italian embassy, who had with him the Italian vice-consul in New York Gustave Di Rosa.

certain in any event to weigh heavily with the action to be taken upon any such demand by the Washington authorities.

An early application for the examination of Charlton by alienists was one of the indicated developments in the case today.

Police Surgeon William J. Arlitz, of Hoboken, made an examination of Charlton this morning in the jail, after which he made the statement: "I see signs of insanity, but I do not care to discuss it any further. I have been engaged by Judge Charlton to act as one of the alienists in behalf of the defense. I examined young Charlton last night and again this morning."

When one of the police officers hurried Charlton to a newspaper, which printed his picture this morning, the officers remarked: "You're in a pretty tight place, boy."
 Charlton languidly accepted the paper and remarked with an easy air: "Oh, it might be worse. I am not worrying."
 The dingy little court room in Hoboken where Charlton was arraigned was packed to suffocation this morning.

ENGINEERED RUSH; GUILTY OF FRAUD

Prospectors Started Boom at Cariboo Lake, Which Turned Out a Fizzle.

North Bay, June 24.—Blackburn and Jones, two prospectors who were responsible for the mad rush into the Cariboo Lake district in April from Halleybury and Cobalt, in which a special train was utilized as a result of samples of telluride ore and lurid stories of gold strikes, were found guilty in the general sessions yesterday of obtaining money by false pretences from Robertson & Son, a mining brokerage of Halleybury, who paid seven hundred dollars for exclusive information and advance staking of Eldorado and development into a stampede.

By consent of the crown attorney sent to jail was deferred until the fall sessions, and the prisoners were released upon their own recognizances, their conduct in the interval to be considered in imposing sentence.

Joe Burr, a professional beggar, who trained youths to impersonate cripples and solicit alms, was sentenced to one year in the Central prison for relieving a miner of ninety dollars by the use of drugged whiskey.

MOUNTAINS OF GOLD

Rich Find of Quartz Reported From Stewart, B. C.
 Montreal, June 24.—News has been received at the Grand Trunk Pacific headquarters of what seems to be the greatest discovery of quartz reef gold in the neighborhood of Stewart, B. C., that has yet been made in Canada. The report,

made by one of their engineers, says: "It is almost unbelievable. A thousand stamps could be worked for a hundred years on the ground we have traversed, and scarcely mark the reef, for it is many miles in extent, and in places more than 2,000 feet high, as I judge. It is more than a mountain of ore, an entire range of it, in fact. Great porphyry dikes extend through the reef, and between them lies the ore. In places 50 to 1,000 feet wide. It is my opinion the reef will eventually be traced down the canal and it will prove the greatest mineral discovery ever made."

STICKS TO "DOMINION"

Steel Corporation Abandons Intention To Adopt New Name.

Montreal, June 23.—The Dominion Steel and Coal Corporation have abandoned its intention to use the name "Canadian Steel Corporation" and will stick to "Dominion."
 The Dominion will be called the Dominion Steel Corporation Limited, owing to the fact that the original title selected was too much like that selected on the second time by the Hamilton Company, who are calling theirs the Steel Corporation of Canada. This was decided on at the adjourned meeting of the shareholders today. Mr. Plummer confirms the report that the corporation has decided not to build new mills to compete with the Hamilton merger. Nothing will be done in the present about calling the steel and coal preferred stocks in exchange for a corporation issue.

EMBRO HAPPENINGS.

Embro, June 24.—Miss Jessie McIntosh, of Woodstock, spent last week with her aunt, Miss Jessie McLaughlin, at her home in Embro. Mr. Alex. Campbell returned on Saturday night from his western trip. Mr. Dillane, of Palmerston, is visiting his son, Mr. W. J. Dillane.

Mrs. Legg has returned to her home after spending several months with friends in Tillsonburg. Rev. Mr. McDermott, of Alvington, occupied the pulpit of Knox Church on Sunday.

The marriage was quietly solemnized in the Congregational Church on Wednesday afternoon, June 15, of Miss Annie Smith, daughter of Mr. and Mrs. Wm. Smith, of Holiday, to Mr. John Wood, only son of Mr. Geo. Wood, Rev. W. D. Spence, pastor of the church, performed the ceremony in the presence of only the immediate families.

Rev. E. D. Silcox, of Toronto, was renewing acquaintances in this village recently. Helen Davidson and Mrs. Jas. Steele and son Ross, of Woodstock, visited friends here on Tuesday. Mr. Edgar Atkinson has returned to his home in Woodbridge after spending some weeks with his brother, Dr. H. B. Atkinson, V. S. Miss Anderson is visiting with Hamilton friends. Mrs. Frank Matheson and son, of

Constipation.

No one need expect to be healthy if the bowels are allowed to become clogged up. A free motion of the bowels daily should be the rule with everyone who aspires to perfect health.

Costiveness or constipation clogs the bowels, chokes up the natural outlet of impure matter, and retains in the system the poisonous effete waste products of nature, causing bad blood, dyspepsia, headache, biliousness, foul humors, pimples, boils, blotches, piles, etc. Burdock Blood Bitters has built up an unrivaled reputation as a cure for constipation and all the diseases which arise from it.

Mr. Burns Woodcock, of Nashua, N.H., writes: "For over two years my wife was troubled with constipation. She tried several physicians, but could get no relief, but after taking three bottles of Burdock Blood Bitters she was completely cured and is to-day in good health. My wife and I cannot speak too highly of Burdock Blood Bitters."

For sale by all dealers.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

TRUNK MYSTERY HAS BEEN SOLVED

Porter Charlton Admits Murdering Wife at Lake Como.

CRIME FOLLOWED ROW

Capture Largely Due to Victim's Brother-in-Law, Who Watched the Steamer at Hoboken.

New York, June 23.—The Lake Como mystery is solved. Porter Charlton, an American youth of good family, sought by the police of two continents, was arrested in Hoboken, N. J., shortly before noon today, as he stepped from the North German Lloyd liner Princess Irene. In less than an hour he had confessed without a tremor that in a fit of temper he beat his wife into insensibility with a mallet, jammed her body in a trunk, and sank it in the waters of the Italian lake.

She was Mary Scott Castle, of San Francisco, a woman 16 years his senior, divorced wife of Neville H. Castle, a San Francisco lawyer, and beautiful.

Charlton is only 21 and a son of Judge Paul Charlton, a law officer of the bureau of insular affairs at Washington, and a classmate of President Taft's at Yale. The boy married Mrs. Castle in Wilmington, Del., last spring over his parents' protests. Ill-mated, both of erratic temperament, they sailed for Italy for their honeymoon. Homicide brought it to an end, and her body was found in the lake by fishermen on June 10.

Caught by Brother-in-Law.

Fleeing from Italy under an assumed name, almost penniless and shabby of dress, Charlton, who had run straight into the arms of Captain Henry Harrison Scott, U. S. A., the slain wife's brother. He was taken to police headquarters at Hoboken, where, after a futile escape, so spasmodic that is produced extreme nausea, he regained his composure and unflinchingly signed the confession. Tonight he is behind the bars in the Hoboken jail, pending settlement of the complicated problem of extradition.

Captain Scott's foresight resulted in young Charlton's arrest. Stationed at Port Wright on Fishers Island, off New London, Conn., Captain Scott obtained hurried leave of absence at 1 o'clock this morning, and went to Hoboken to scan the passengers of incoming liners. Three Hoboken detectives aided him.

He accompanied the prisoner to police court, but did not hear the heart-rending confession. Charlton, whose collapse after arrest seemed due to fear of Captain Scott, refused to make a statement in the army officer's presence and the latter left the room. Throughout the ordeal Captain Scott had himself well, but at the request of the officers who had noticed a bulge beneath his coat which proved to be a pistol, he surrendered the weapon without objection.

MISS GAYNOR ELOPES

Daughter of New York's Mayor Centre of Romantic Affair.

Wilmington, Del., June 24.—Miss Edith Augusta Gaynor, second daughter of Mayor of New York, and Harry Kermit Vingt, millionaire horseman, clubman and society man, of that city, eloped to this city yesterday and were wedded by Wilmington's "marrying parson," the Rev. Dr. Geo. L. Wolfe, of the First Methodist Protestant Church, in the office of Andrew C. Gray, attorney-general of Delaware, in the city hall building.

At ten o'clock the bride and bridegroom left Wilmington, presumably for New York. Mr. and Mrs. Vingt will reside temporarily at the Plaza Hotel.

STEAMERS REPORTED.

HONOR FOR GIBSON.

Ottawa, June 23.—Hon. J. M. Gibson, lieutenant-governor of Ontario, is among those currently mentioned as likely to be a recipient of King's birthday honors. An announcement of the list of Canadians is expected shortly.

Had Weak Back.

Would Often Lie in Bed for Days Scarcely Able to Turn Herself.

Weak back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged. Those who have never been troubled with kidney trouble do not know of the suffering and misery which those afflicted undergo.

Doan's Kidney Pills are a specific for all kidney troubles.

They begin by helping the kidneys to flush of all the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and all the urinary passages and carrying away the uric acid, the chief cause of rheumatism, from the blood.

Mrs. Arab Schuman, Black Point, N.B., writes:—"For years I was troubled with weak back. Oftentimes I have lain in bed for days, being scarcely able to turn myself, and I have also been a great sufferer while trying to perform my household duties. I had doctors attending me without avail and tried liniments and plasters, but nothing seemed to do me any good. I was about to give up in despair when my husband induced me to try Doan's Kidney Pills, and after using two boxes I am now well and able to do my work."

Doan's Kidney Pills are all that you claim for them, and I would advise all kidney sufferers to give them a fair trial."

Price, 50 cents per box, or 3 for \$1.25, at all druggists or The T. Milburn Co., Limited, Toronto, Ont.

In ordering specify "Doan's."

WHIRL OF EMOTIONS WAS MRS. CHARLTON

Victim of Hysterics and Whims Cousin of Late President Harrison.

New York, June 24.—The arrest yesterday at Hoboken, of Porter Charlton and his subsequent confession of having murdered his wife at Lake Como has aroused fresh interest in the dead woman.

Mrs. Charlton's stage career in the early nineties was both brief and exciting. At that time she was Mrs. Castle, but as an actress she was known as Mary Scott. She lived in constant whirlwinds of emotions. The California company in which she first played "The Princess and the Butterfly," and an adaptation from French called "In Paradise," never knew when she would appear, or when she was on the stage, what she would do or say.

She would order most gorgeous costumes, which would arrive a few minutes before her cue was called. In those days her husband, Mr. Neville Castle, a meek-mannered worshiper of his wife, would be in the wings, and expected to pay hundreds of dollars in cash before the dresses were delivered.

The stage manager stormed at Mary Scott, the actress, fiercely assailed Mr. Castle, and the husband would meekly pay. These hurricane scenes, however, alienated his affections, and when the company went on tour Neville Castle stayed behind.

The absence of her husband made her more eccentric than ever. She seldom slept except in ordinary day clothes, and always on the counterpane. A night would rarely pass without her awakening various members of the company in a state of hysterics. She never failed to swoon just as the train would arrive at some fresh town, until once in Portland, Oregon, the unconscious actress was unconsciously conveyed to the nearest hospital. That cured her of her fainting habits.

During a matinee performance at Seattle she threatened to kill an actress as soon as she should make her entrance on the stage to play some scene with her. Her colleague's life was probably saved by the tact and common sense of an actor who, noticing Miss Scott's highly wrought condition, threw a bucket of cold water over her just before she left her dressing-room. She played the scene without bloodshed, but afterwards admitted she had seriously contemplated a tragedy in full view of the audience. Charles Frohman, so the newspapers here say, once declared she had one of the most exquisite speaking voices he had ever heard, but she was her own worst enemy and the cause of her failure on the stage.

She grew despondent, became an artist's model in New York, and came to London for a few weeks four years ago, and hypnotized many admirers, the last and most enthusiastically devoted of them all being Porter Charlton. She had the most perfect self-control, and when asked why she left Neville Castle, who was the most obedient, devoted slave any woman ever had, she would answer: "He never resisted me, and I couldn't stand it. I like a man with force, who will fight me sometimes, and not always let me have my own way."

The victim was 36 years old, and, ten years ago, was one of the most beautiful women in the United States. A variety of worries intensified a naturally emotional nature, and at times she was mentally unbalanced. She was the daughter of Col. H. H. Scott, of the Confederate Army, a cousin of the late President Harrison, and a niece of Admiral Sampson.

KNIGHTHOOD FOR ROSS

Continued from Page One.

siderably increased, as it was in several of the subsequent elections of 1886, 1890, 1894, 1898, 1902 and 1904.

Minister of Education.

From 1883 to 1899 Mr. Ross held the office of minister of education, during which time he devoted all his energies to the improvement of our school system. At no period in the history of Ontario was more great importance given to the work of education in all its departments, from the kindergarten to the university, and as a result school premises were made more comfortable and more satisfactory, high schools were enlarged and equipped with apparatus and libraries, technical and art schools were opened for the artisan and mining schools for the prospector.

The university was greatly strengthened in its different faculties, and other institutions of learning were so re-organized as to give them a substantial interest in its prosperity. In New Ontario district schools were established and generously aided by the education department. In the midst of so much active, criticism was to be expected, but, nevertheless, Mr. Ross never abated his efforts to maintain for his province the position of leadership in educational advancement and efficiency.

Though active as minister of education, Mr. Ross took his full share of work in the House in general legislation and debate, and in the case of by-elections or a general election, he was always at the disposal of the House of Commons, his services on the platform were always at the disposal of the Liberal party.

Premier of Ontario.

In 1899 Mr. Ross succeeded to the Premiership on the retirement of the late Mr. Hardy. Of the various public measures that occupied his attention during those five eventful years, the most important were the new assessment act, to which the Hon. Mr. Gibson gave so much of his time and ability; the act for the improvement of public highways, by which \$1,000,000 were set apart for the betterment of transportation in rural districts, and the act enabling municipalities to unite for the purpose of utilizing the energy of Niagara Falls in producing and transmitting electricity.

In regard to this act the fact is too often lost sight of that the commission which this act authorized could accomplish everything undertaken by the hydro-electric commission of the present Government, excepting the expropriation of work already established. Then there is the act for guaranteeing the bonds of the Lake Superior steel plant at Sault Ste. Marie, an act which rescued Canada from the control of the United States Steel Trust, and has proven that, under reasonable encouragement, the iron industry of Ontario can be so developed as to become a great factor in the actual wealth of the province. The steel rails produced at the Sault are now used by all Canadian railroads, and are found equal to the best in the world. Mr. Ross, in saving this in-

R. H. & J. DOWLER

A PHYSICAL TEST FOR THOSE WHO WED

A Radical Reform Proposed by the Charities Convention.

Guelph, June 23.—A series of important resolutions was introduced before the Conference of Charities and Correction this afternoon, including the recommendations that all persons about to be married be physically examined; that parents be held responsible for the acts of their children; that boys and girls be kept off the streets; that an institute for the feeble-minded be built in this province; that all commitments to the Mercer be for thirty days and the institution moved to the country; and a resolution expressing satisfaction at the removal of the "dollar" and "costs or thirty days" system for inebriates. All the resolutions carried, with the exception of the first, which was held over.

The officers elected for the year were: Honorary president, Hon. W. J. Hanna; president, Sheriff Middleton; Hamilton: vice-presidents, Sir Louis H. Davies, J. Ross Robertson, Toronto; George H. Perley, M. P., J. P. Downey, M. P., J. J. Kelso, Adam Brown, Hamilton; Dr. Charteris and Dr. Rosebrough; secretary-treasurer, F. M. Nicholson, Toronto; executive, Dr. Bruce Smith, Sheriff Cameron, W. L. Scott, Ottawa; Sheriff Magwood, Stratford; Rev. Father Minahan, Toronto; Chief Slemm, Brantford; J. E. Farewell, K.C., Whitby; Rev. W. Armistage, Picton; M. K. Richardson, Fisherton; J. H. Menemey, Hamilton; J. H. Burnham, Peterboro; Mrs. W. J. Gage, Toronto; Mrs. O'Sullivan, Toronto; one breads fifth, fifth breads vice," declared Dr. Roberts, medical health officer of Hamilton, in dealing with the problem of sanitation. He advocated "sunlight and fresh air" as the cure of many social evils.

NOT ALL ESTATE FOR CORNELL

Toronto, June 24.—Mr. Larratt Smith, solicitor for the Goldwin Smith estate, speaking about the dispatch from Ithaca, stating that President Schurman, of Cornell, had announced that the bulk of Goldwin Smith's estate had been left to Cornell University, said:

"Dr. Schurman was too general in his statements. The university is a legatee, but it does not get as much as he said."

"I simply informed him that he was a legatee, and of the amount of the bequest, and he has made an announcement at the closing exercises of the year."

"The complete terms of the will, however, I cannot make public until it is entered for probate."

CORRESPONDENCE.

The Condition of the City Streets.

To the Editor of The Advertiser:

City Engineer Graydon is reported, in your issue of yesterday, as stating that the bad condition of the city streets is wholly due to lack of funds. This reason, however, does not account for the littering of the streets with cobblestones so large as to be ruinous to bicycles, autos, vehicles and horses. A township pathmaster would not think of leaving such stones on the highway. They should either be broken or removed. Here is a simple, inexpensive remedy that would improve the streets twenty-five per cent.

If the city engineer will not have these stones broken or removed, I

propose that it be done by private subscription. A small gang of men would clear the streets of this city of cobblestones in one week, and it would be time and money well spent. Possibly the city engineer might prosecute the workmen for trespass.

A calm erected in the park from these stones would make quite a monument of 20th century street repairing.

Yours truly,
LONDON, JUNE 24.
R. FERGUSON.

HARVARD MAN SUICIDES.

Oxford, England, June 24.—H. Slandford Burton, a dental surgeon, was found dead in his office here today, death being due, according to the authorities, to poison, self-administered. Burton was a graduate of Harvard University.

The Dominion Savings and Investment Society
DIVIDEND NO. 76

Notice is hereby given that a dividend at the rate of 4 per cent per annum upon the paid-up capital stock of this Society, has been declared for the current half year, and that the same will be payable at the offices of the Society, Masonic Temple, Richmond street, London, on and after the 2nd day of July, 1910.

The transfer books will be closed from the 15th of June inst., to the 2nd day of July, 1910, both days inclusive.

NATHANIEL MILLS,

London, June 13th, 1910.

Managing Director.

THAMESFORD.

[Special to The Advertiser.]

Thamesford, June 23.—The members of the Adult Bible Class had a very enjoyable moonlight picnic in James Young's grove, last evening. They commenced to recruit about 7 p.m., at Mr. John Lawrence's, and were conveyed across the Thames to the island in rowboats. A social time, with a varied programme and delightful lunch, was the order of the evening, all going home voicing that such entertainments were beneficial to the advancement of young people.

Mr. Sam Henshaw, our genial blacksmith, after a few hours' serious illness, was removed to the hospital to be operated on for appendicitis, which was successfully performed yesterday. All hope for his speedy recovery.

Mrs. Henry Brown, of the eighth line, fell from a mow in the barn yesterday, fracturing three ribs and injuring herself seriously.

The death occurred yesterday afternoon of Mrs. E. McKenzie, after an illness of several weeks. She will be buried in St. Andrew's Cemetery on Saturday afternoon beside her husband, the late John McKenzie.

Miss Smith, of Princeton, is presiding over the pupils writing at the entrance examination, while Mr. James McDonald is at Embro. He also presides over the examinations to be held at Woodstock next week.

Miss Fox, who has so successfully taught for three years, has tendered her resignation, much to the regret of her pupils and the community, as she was a great favorite.

THEY WANT SIR WILFRID.
Washington, June 24.—Officers of the National Rivers and Harbors Congress, which will meet in Washington next fall, are already at work preparing the programme. President Taft

"Jexall Remedies"

has accepted an invitation to speak, and it is expected that Sir Wilfrid Laurier will also address the conference.

THIRTY-SEVEN DIE IN MEXICAN WRECK

Train Breaks From Locomotive and Runs Away On a Down Grade.

Mexico City, June 24.—Thirty-seven persons were killed and as many injured yesterday in the wreck of a troop train on the Manzanillo line of the National Railway in the State of Colima. Four cars of the train broke loose from the locomotive and dashed down a steep grade, jumping the track at a terrific speed. There were about 150 men in the four cars. Many jumped before the cars gained headway and thus saved their lives. The dead include a number of soldiers, five officers and members of their families.

Engineer Watson, an American, and Conductor Martinez, a Mexican, were now in jail at Zapitico pending investigation.

TWO RIBS FRACTURED IN ROW OVER WAGON

Hyman Hochman and John Duncan Figure in an Altercation.

Hyman Hochman, a Simcoe street backsmith, got into an altercation this morning with John Duncan, a young colored man, when Duncan came to get a wagon for his horse. Hodge Duncan, with the result that Hochman is in Victoria Hospital with two ribs fractured.

Duncan was placed under arrest on a charge of assault, and appeared before Magistrate Love and was bailed in the sum of \$600 to appear in a week.

Hodge Duncan arrived on the scene just in time to pull his son away as Hochman was falling, and at once took him to the police station, where he gave himself up.

Mr. Duncan, sen., furnished \$400 of the bail necessary to release the boy. Dr. Resner attended Hochman, and states that his condition is not very serious, and that he will be around shortly.

The dispute arose over a wagon, which Hodge Duncan and left to be paired, and which the younger Duncan started to take away.

Hochman didn't want him to take it and grabbed one of the shafts. Duncan then threw him against the wagon heavily.

Young Duncan has never been in trouble before, and is regarded as a quiet, inoffensive fellow. He is married.

FIGHT NOT "FIXED"

Stakeholder Tim Sullivan Declares That It Is On the Level.

New York, June 24.—State Senator "Big Tim" Sullivan, stakeholder of the Jeffries-Johnson fight, says that there is no basis for the stories that the championship fight is "fixed." Senator Sullivan has been in Europe several years, and came home today on the Lusitania.

Reno is just as good a place for the fight as Frisco," said Sullivan. "I'm sorry to see that talk about the fight being 'fixed.' I am of the opinion that the fight is absolutely on the level. I am holding \$71,000 of fight money, and \$51,000 more is to be placed in my hands 24 hours before the fight."

PRAISE FOR LA PALME.

London, June 24.—The Times says that Beatrice La Palme in La Nozze Di Figaro attacked the difficult music of Susanna with remarkable vocal skill.

A Mountain Climber Gains Twelve Pounds on Change of Food.

When a change in food can rebuild a man 77 years of age, it is evidence that there is some value in a knowledge that can discriminate in the selection of proper food to rebuild the body. A physician attending a California man, 77 years old, told him that death from old age would soon claim him. He suffered from general weakness and debility.

An old lady advised him to quit coffee and drink Postum and to eat Grape-Nuts food every morning. He took the advice, and has gained twelve pounds. Says he is as well as ever he was, and can take long trips in the mountains, which he had been unable to do for a long time.

There is reason for this; in the first place, coffee acts as a direct nerve stryker on many highly organized people, both young and old, and many people haven't the knowledge to select nourishing, healthful, rebuilding food.

Both Postum and Grape-Nuts are made from selected parts of the field grains that contain delicate particles of phosphate of potash and albumen. These two elements combine in the human body to quickly rebuild the grey matter of the brain and in the nerve centres throughout the body.

Direct, sure and certain results come from their use and can be proven by any person who cares to make the

ATTENDANCE WAS RATHER DISAPPOINTING

Weather May Have Kept Girls Away From the Baths Today.

The children's free swimming pond at the sulphur baths was opened this morning. There was a small attendance of girls. Chesley avenue school sent over a dozen representatives.

Professor Butterworth, an experienced instructor, took charge, and the children evinced a desire to learn to swim.

Sheriff Cameron announced that a number to pursue would be offered for the season closes.

The next free day is Wednesday for boys from 9 until 1 o'clock.

The girls' day next week will be Thursday, instead of Friday, on account of the holiday, but all subsequent days will be on Friday of each week.

The baths are absolutely free. A special fund is being raised to make the prizes as inviting as possible. Today the sheriff received a donation of \$12 for that purpose from Mr. George Armstrong.

The baths are exclusively for children of 14 years and under, and the promise is for a much larger patronage than last year. There is no restriction whatever, except good conduct on the part of the boys and girls participating. Last year not a single complaint was received regarding bad conduct.

BANKER DEPORTED

Swiss Capitalist and Lady Companion Are Shipped Back.

Washington, June 23.—Hans Bauder, of Zurich, Switzerland, the banker and capitalist, and Miss Pauline Burgin, his travelling companion, who were detained in New York by the immigration authorities last Saturday when they arrived on the Kaiser August Victoria from Europe, have been ordered deported as undesirable immigrants.

The decision to deport Bauder and Miss Burgin in made with the approval of the secretary of commerce and labor. Bauder, who came over on the same vessel with former President Theodore Roosevelt, attracted considerable attention, and announced to many of his fellow passengers that Col. Roosevelt had invited him to visit at Oyster Bay to discuss European politics.

KOHLER ACQUITTED.

Cleveland, Ohio, June 24.—Fred Kohler, Roosevelt's chauffeur, who was found not guilty by the civil service commission, of charges filed against him several weeks ago.

The chief broke down and wept when President Harding, of the state commission, announced the verdict. He was given an ovation as he left the city hall.

NURSES GRADUATE.

Hamilton, June 23.—Fourteen graduates of the Hamilton City Hospital Training School for Nurses received their medals and diplomas this afternoon at the annual graduation exercises.

The class included: Miss Lanaway, Woodstock; Miss Walker, Miss McCallum, Miss Faulkner and Miss McKenty, Hamilton; Miss Irwin, St. Thomas; Miss Watson, Springville; Miss Dennis, Palermo; Miss Rothwell, Britton; Miss Grant and Miss Shearer, Listowel; Miss McIntosh, Lucknow; Miss Cliff, Clinton; Miss Crescan, Buchburg; Miss Faulkner won the McLaren scholarship prize.

ILLUMINATE HAMILTON.

Hamilton, June 24.—Seeing Hamilton by night will be a spectacle worth while if the plans of Thomas Kelly, contract agent of the Hamilton Electric Light and Power Company, materialize to the extent that he expects. Along both sides of King street, from Wellington to Bay streets, and on James street, from Canmore to Hunter streets, it is proposed to install handsome, ornamental electric lamp posts, each holding five 80-candle power lamps, with special diffusing globes. The lamps will be planted just 45 feet apart on the curb, and when they are lighted will present a spectacle that will make these two thoroughfares a veritable white way and a thing of beauty.

COST OF PENNY POST.

London, June 23.—In the Commons today, the postmaster-general said, that the imperial penny postage has now entailed a loss of £150,000, which would be increased to £400,000 if the penny post were extended to European countries.

The Marriage Bell

JOHNSTON—ROSS.

Avondale Presbyterian Church at Tillsonburg was the scene of the most brilliant event of the season on Wednesday afternoon, when Miss Ada Claire, daughter of Mr. and Mrs. J. C. Ross, was united in marriage to William Johnston, a prominent young businessman of Kenora, Ont. At 1 o'clock, promptly after the sympathetic rendering of "Beloved, It Is Morn," by Mrs. R. Baird, the bridal party entered the church, which was daintily decorated for the occasion, and took their places before the altar, which was banked with palms, roses and ferns, in lavish profusion. The petite bride, entering on the arm of her father, looked her loveliest in a rich Parisian robe of white satin, and rare old lace. A shimmering veil and wreath of orange blossoms crowned her fair hair. Her bouquet was of white roses and lilies of the valley. The attendant bridesmaids, Miss Helen Ross, of Toronto, and Miss Marguerite Sinclair, were tastefully gowned in pale pink, with lace corsage, and touches of black velvet, wearing large tulle hats, and carrying sheaves of American Beauty roses.

The matron of honor, Mrs. (Dr.) Laidlaw, of Kenora, was beautifully robed in shell-pink satin, with heavy lace coat and swathed turban, with heron's plume.

The groom was supported by Dr. L. Panton, of Kenora, while Rev. J. J. Brown, in performing the ceremony, after the service the bridal party returned to "Heywood," the home of the bride's parents, on Washington avenue, where a reception was held. The bride's mother—gowned in a robe of golden bronze satin, with heavy sequined overdress—received with the bride. Guests were present from London, Kenora, Simcoe and other places. After the reception the happy couple left for a honeymoon at Atlantic City. On their return they will reside in Kenora.

A very pretty wedding ceremony was performed last at the home of Mr. Jeremiah Robson, on the town line of Lobo and London Townships, when his daughter, Miss Ella May Robson, was married to Mr. Robert A. Stephenson, of Glen Oak, Canada. The ceremony was performed by Rev. J. C. McCracken. The bride was given away by her father, and entered the drawing-room amid the strains of the "Bridal Chorus" from Lohengrin, played by her sister, Miss Cora Robson. While the register was being signed the bride's brother, Mr. W. Robson, sang "Because." Mr. and Mrs. Stephenson left for their honeymoon train, and will visit Buffalo, Detroit and other points.

A very quiet but pretty wedding was solemnized on Wednesday afternoon at the home of Mr. Thomas Jackson, Township of Lobo. The contracting parties were Mr. Wilbert Coughlin, of London Township, and Miss Mabel Jenneve Jackson. The bride looked charming in her tasteful robes of white silk and silken sash, and carried a bouquet of white carnations. Miss Bessie, the little sister of the bride, who acted as flower girl, was very pretty in a gown of white embroidery, with sash of blue. Rev. Rev. Archibald Richardson, of London, performed the ceremony in the presence of the near relatives of the bride and groom, the bride being given away by her aged grandmother, Mrs. Jackson. Afterward the London set down to a dainty luncheon prepared for the occasion. The happy young couple left amid showers of rice and confetti for an extended honeymoon trip to eastern points, carrying with them the good wishes of their many friends.

COUGHLIN—JACKSON.

A very quiet but pretty wedding was solemnized on Wednesday afternoon at the home of Mr. Thomas Jackson, Township of Lobo. The contracting parties were Mr. Wilbert Coughlin, of London Township, and Miss Mabel Jenneve Jackson. The bride looked charming in her tasteful robes of white silk and silken sash, and carried a bouquet of white carnations. Afterward the London set down to a dainty luncheon prepared for the occasion. The happy young couple left amid showers of rice and confetti for an extended honeymoon trip to eastern points, carrying with them the good wishes of their many friends.

STANDARD OIL BLOCKED.

Berlin, June 24.—The German Government, following an inquiry regarding American concessions in Asia Minor, suggests that the powers reach an agreement with the Baghdad Railway Company. The impression at the foreign office appears to be that no large amount of United States capital is likely to be invested there.

The duke will go to Montreal, Toronto and points in Manitoba. He expects to return home in two months.

SUTHERLAND AT NEW YORK.

New York, June 24.—The Duke of Sutherland, who strikingly resembles Andrew Carnegie, in appearance, and known as one of the wealthiest members of the British nobility, was in New York today on his way to Canada, to look after personal business matters. It is an earnest advocate of an alliance between Great Britain and U. S., and pointed out to his interviewers the advisability of such a union.

The duke will go to Montreal, Toronto and points in Manitoba. He expects to return home in two months.

CORNERING THE TENTS.

Sacramento, Cal., June 24.—All the visible supply of tents in Sacramento has been bought by the merchants of Reno and will be used to house the visitors who will attend the Jeffries-Johnston fight. Yesterday morning several prominent Reno merchants arrived in this city and toured the various stores, where tents were kept in stock, and bought the entire supply. At the present time it is impossible to get accommodations in Reno, reservations having been made in all the hotels and lodging-houses. It is expected that with the supply of tents bought in Sacramento the thousands of visitors to Reno will be accommodated with sleeping quarters.

ANOTHER SUICIDE AT NIAGARA FALLS

Unknown Man Leaps Into River and is Carried Over the Horseshoe.

Niagara Falls, N. Y., June 24.—An unknown man jumped into the Niagara River at the Sisters Island this morning and was carried over the Horseshoe Falls. He was seen by two tourists who had just alighted from a carriage. The man hurriedly threw off his coat and vest and made the plunge before he could prevent him. Nothing was found in the clothing by which the suicide could be identified.

No one questions the honest motives of those who advocate local option, or prohibition—not even we who brew Regal Lager. But the temperate folk who use Regal Lager as a daily beverage, for health's sake, know how mistaken is the idea that so pure and tonic a drink is an intoxicant.

QUESTION OF A SITE FOR HIGH ST. CHURCH

The Matter Was Discussed at a Meeting Held Last Night.

The most important matter before the London Methodist Council at its annual meeting in Wesley Hall last night was the consideration of a site for the proposed new High Street Mission.

The High Street people wish to build on the corner of Methuen and Ridout streets, but at a previous meeting a resolution was passed holding the new church to a site south of Emery street and West avenue.

Mr. Thomas Spettigue and Mr. Miller, representing the High Street congregation, brought up the matter, asking for a reconsideration of the matter.

Askin Street Methodist Church board opposed any reconsideration. A vote was taken, and a majority were in favor of reconsideration, but not a two-thirds majority, which the Askin Street people claim is necessary to carry. It is probable that the High Street Church will be built on the site desired by its members.

Officers for the year were elected as follows: President, J. H. Chapman, re-elected; clerical vice-president, Rev. Dr. Manning; lay vice-president, Mr. John Watson; secretary, Israel Taylor, re-elected.

N. W. ROWELL APPOINTED.
London, June 24.—N. W. Rowell, K. C., of Toronto, was a member of the committee at the world's missionary conference.

BELTZ

PRACTICAL FURRIER.

mentals by Mr. Linnell and Mr. Roberts; address by Rev. G. M. Hazen; dialogue by Miss McEwen and Mr. H. Horwood, and a recitation by Rev. L. W. Wickert. The Rev. H. A. Graham, of the Wellington Street Methodist Church, was chairman for the evening.

Mr. Watson is President. Mr. R. J. Watson, of this city, was elected president of London District Epworth League at an executive meeting of that organization held in the First Methodist Church last evening. The office was made vacant by the resignation of Rev. J. W. Hibbert, of Thorndale, who is moving from the London to the Wellington district. Mr. Watson will have the oversight of all the Epworth Leagues in this district, including London and surrounding points, making about 35 leagues in all. The executive discussed different matters relative to Epworth League work, and started to make arrangements for the annual convention of the district, which is to be held the first Monday of November, 1910.

An Artistic Programme. The following pupils of Miss Belle Brown, assisted by Misses Margaret Coleman, Geraldine Glover, Eloise Bold, Geraldine Bingham and Lettie Ward, piano pupils of Miss Steele; Mrs. McCully, violin pupil of Mr. Poure; Misses Verna Boss and Violet Campbell, elocution pupils of Miss Anthistle, gave an exceptionally artistic programme at Heintzman Hall last evening. Misses Gladys Shaw, Bertha Blackwell, Edith Greer, Edna Calloway, Duchess Ferguson, Estelle McConnell, Devina Scott, May Mason and Mr. Chas. Coles. A number of the pupils of Mr. Chas. Percy gave a recital at Conservatory Hall last evening. They were Misses Lillian Leach, Norma Piper, Francis Carrothers, Daisy Austin, Nellie Chatterton, Bertha McMillan, Eva Smith, Mary McRitchie, Gladys Ives, Mrs. Albright, pianists; Misses Elva Rogers, Faith Turnbull, Messrs. C. Acres, E. B. Lantyne and Fred Tuckey, vocalists.

WESTMINSTER LADY INJURED IN RUNAWAY

Mrs. Peter Little, of Concession 2, Hurt Yesterday on Vauxhall Bridge.

A runaway occurred on the Vauxhall bridge yesterday morning whereby Mrs. Peter Little, of the second concession of Westminster, sustained injury. Mr. and Mrs. Little were driving along Egerton street, when their horse became frightened and ran away. The animal dashed onto the bridge, but did not turn out far enough to pass a gravel wagon going in the opposite direction.

The rear end of the gravel wagon struck the buggy, and its occupants were thrown out. Mrs. Little was more seriously injured and was removed to the Homister House. She sustained bruises on her back and head, but refused to have a doctor called.

It is feared that the point of a hat-pin is imbedded in her scalp, the hat-pin having been broken off.

Special attention paid to wedding orders. Hueston's Liveries.

GET AWAY DAY AT THE CAMP

Citizen Soldiers Prepare to Leave for Their Homes.

ALL ARE WELL SATISFIED

All Signs Point to the Fact That the Camp Was a Big Success From Every Standpoint.

Today is breaking-up day at camp, and since morning the men have been busy packing up their belongings and getting in shape for going home. As quickly as they completed their arrangements the various companies marched to the depots, where special trains were in waiting to take them home. Special parties remained behind to take down the tents and pack them away, and attend to other duties that have to be looked after.

Men Were Satisfied. The men who are leaving for home today are a far more satisfied lot than those who left at the close of the camp last year. This is due to many things, but one of the principal reasons is the satisfactory efficiency pay they were enabled to make by means of the splendid instruction they were allowed at the ranges. Practically every man secured either first or second-class efficiency pay, and all are loud in their praise of the care and patience the officers devoted to them in their instruction. The officers on their side are well pleased with the results obtained, results which are a long way better than any ever accomplished before.

Efficient Shooting. The opinion is general that more has been done at this camp to solve the problem of efficient shooting than has been done in years of past training.

"If many of the fellows who stayed away on account of the trouble over efficiency pay last year, had known how we were going to be treated this year," said one soldier, "they would have come to train, and there would have been a good many more men in camp than there were. If the same rules are in force next year camp will be much better attended."

Officers state that in all the years they have been at camp the drill work was never more thoroughly done. "We never accomplished as much work as we have this year," said one officer. "This was due to the splendid system that prevailed. There was no lost time, and the men were doing something all the time."

The men themselves are well satisfied in this respect also, and feel that they have accomplished a good ten days' work. The candidate examination in equitation came before the board yesterday afternoon, and the results will be announced shortly. The examining board was composed of Lieut.-Col. McKenzie, Lieut.-Col. McEwen and Major Lamb, and those who were examined were Capt. H. W. Linton, of Hamilton; Lieut. J. C. Nolce, Capt. Dunlop, Lieut. Turnbull, Lieut. C. E. Sale, Lieut. F. W. Campbell and Lieut. P. W. Pike.

Probably there was never a more orderly camp held in London. Only three men appeared in the police court, and of these none were charged with drunkenness. The charges were all of being disorderly, and none were of a serious nature. The regulation prohibiting the sale of liquor in camp was strictly lived up to, and not a complaint came to the ears of any of the authorities that the law was being broken.

The physique of Jap wrestlers is astonishing, and is the result of more intensive form of feeding than any glutton ever dreamed of. It is the chief requisite, and of "passive exercise" that is a massaging-incredible quantities of food can be absorbed by these giants in shoulders, back and girth.

If You Are Going Away for the Summer Months You Will Want Some of the Good Things We Have to Take Along.

We have many things you will want that will not be obtainable where you are going.

Boxes carefully packed ready for shipment, with your other goods. Mail and telephone orders carefully filled.
