Libby Grant Crowned Sweater Queen As Commerce Climaxes Annual Week

Sweater Queen

Libby Grant

Commerce Week reached its climax last Friday night with the crowning of Libby Grant as Sweater Queen at the annual Dalcom Sweater Dance.

Libby, who hails from Halifax is an active member of the Arts and Science Society and is a popular figure on the campus.

This year's Sweater Dance was attended by a large crowd who danced to the refrains of Pete Power's orchestra. Intermission entertainment was provided by Jim Mitchell and his quartet. Carrie Ann Matheson, Commerce queen was presented to the crowd. Chaperones for the evening were Prof. and Mrs. R. S. Cumming and Mr. and Mrs. Stoker.

Commerce Week began Monday evening with the Annual Banquet and Ball at the Lord Nelson Hotel.

Mr. O. Nelson Mann, Executive Manager of the Atlantic Provinces Economic Council was the chief speaker at the banquet. He gave a very informative speech on the aims and functions of APEC.

Highlighting the Ball was the crowning of Carrie Ann Matheson as Commerce Queen. She will represent Dalcom in the Campus Queen contest.

On Tuesday afternoon the first year Commerce Students were taken on a tour of the main branch of the Royal Bank of Canada.

Wednesday afternoon Mr. H. G. Norman, President of the Montreal Stock Exchange spoke to a large number of students on the topic of "The Marketing of Securities."

That evening Al Riggs, President of Dalcom held his annual birthday party at the Zeta Psi Fraternity House.

Commerce week closed on Sunday evening when third and fourth year students were present at an Open House at the home of Prof. and Mrs. Cumming.

Make Plans To Install Howe

The university's first Chancellor, the Right Honourable C. D. Howe, was appointed to the office last summer and the university is making plans for an official and formal installation. It was hoped that the ceremony could be arranged for Munro Day, but previous commitments in England made his presence impossible at that time.

The Board of Governors have appointed a committee to set tentative dates and arrange details. It is expected that the date chosen will be between mid-February and Munro Day.

Give BLOOD Next Week

Blood Drive Next Week

by MOIRA KERR

Starting next Tuesday, Dalhousie will again enter competition with other Canadian universities for the Corpuscle Cup, emblematic of the highest percentage of blood donations, and if the trend of past years continues, we will be further away from securing this trophy than ever before.

Student Forum Is Well Attended

One of the largest gatherings of Dalhousie students in recent years met in Room 21 of the Arts and Administration Building at noon on Thursday, Jan. 16. The occasion for the Students' Forum, under the chairmanship of Council President Murray Fraser, was the presence in the city of Wally Tarnopolsky, National President of NFCUS.

In his remarks Mr. Tarnopolsky outlined the three main purposes of NFCUS, and activities undertaken to achieve desired results based on these purposes. The first is to create a sense of national unity for university students, which is achieved somewhat by the annual NFCUS Conference. Secondly, NFCUS is the national voice for students, and as such has achieved many tangible results, such as reduction of the tax on texts, and reduction of rail fares. Finally it acts as a contact for Canadian students with overseas students.

There followed a question period, at which time Mr. Tarnopolsky answered many questions concerning NFCUS's activities and policies, among these, the NFCUS Life Insurance plan, the number of universities belonging to NFCUS, and the Scholarship program.

Lew Matheson, NFCUS Chairman at Dalhousie, thanked the speaker. Further business included a motion to check into the problem of equal representation on the Students' Council, especially with respect to the Commerce and Engineering faculties.

Ed Harris, Chairman of WUSC, announced the Summer Seminar, for which application forms can be obtained from the Office of the Registrar.

In closing, the chairman announced that the next Students' Forum would probably be the Election Forum in mid-February.

The annual Blood Drive, run by NFCUS with Saint Mary's as this year's mandated university, is being conducted in the East Common Room of the Men's Residence on Tuesday, Wednesday, and Thursday, January 28, 29, and 30. It is directed and organized by a committee consisting of Dave Matheson, Barb Miller and Elizabeth Dustan from the Student Council, plus one representative from each faculty, whose special interest will be the squeezing of every last drop from their group.

Last year Dal did not achieve a very high standing in the Corpuscle Cup competition, run on a handicap basis. About 700 students volunteered to donate, and of these 100 were rejected for being under age and 79 for various medical reasons. However, even those under 18 should register, as they are counted as donors in the competition.

Besides the Corpuscle Cup, there are a number of other trophies offered. The Butsy Trophy, given to the faculty with the highest percentage of donations, was last year won by Pharmacy with 96.7 percent. The Gazette Trophy for the highest percentage in faculties with over 100 members was won by Arts & Science, who had 65.5 percent.

An inter-fraternity competition is also held, and was won last year by Alpha Gamma Delta, where every member contributed.

This year Dave Matheson has suggested the award of a "Drip Cup", to go to the faculty with the lowest percentage. In the running for this glory would be Education, Graduate Studies and the supposedly red-blooded Lawyers.

Next week students have a chance to save a life. It can be done with little effort and no pain. We can win the Corpuscle Cup; so let's try!

Appoint Dr. A. R. Bevan To Head English Dept.

Dr. A. R. Bevan has been named to succeed Dean C. L. Bennet as head of the Department of English at Dalhousie University, it was announced yesterday by the President, Dr. A. E. Kerr. Dean Bennet has been appointed Vice-President of the University from July 1, and Professor Bevan, who is presently Associate Professor of English at Dalhousie, will become head of the Department as of that date.

After receiving the degree of B.A. in English and History from the University of Saskatchewan, Dr. Bevan taught for some years in the High School in his native province. After World War II, in which he served with the Royal Canadian Artillery, he spent two years at the University of Manitoba, where he served as an instructor and received his Master's degree in English in 1947. From 1947 to 1949 he was a teaching Fellow in the University of Toronto. In 1949 he was appointed to the Department of English at Dalhousie.

In 1953 the University of Toronto awarded him the degree of Ph.D. on the completion of a thesis on "Dryden as a Dramatic Artist." In 1956-57 Dr. Bevan was granted a Fellowship by the Royal Society of

Dr. A. R. Bevan

Canada for study in Great Britain. He spent his sabbatical leave in London, working in the British Museum on further study and research on the dramatic works of John Dryden.

A & S, Pharmacy and King's Hold Dances Friday Night

Arts & Science, Pharmacy and King's will hold their Formals on January 24, with the highlight of each Ball being the crowning of the respective Queens.

A continental theme will be the setting for the Arts and Science Formal to be held Friday night in the Tower View Room of the Jubilee Boat Club. Music will be supplied by Gerald Nasse and his orchestra. During the evening the A & S Queen will be crowned.

There is promise of red and white tablecloths, candles, programs and favors. Tickets are limited to Arts and Science students and may be purchased for \$3.00 from Rick Dawson or any member of the dance committee.

A gay Parisian night is in view for all who attend.

Mortars and pestles will be forgotten, when pharmacists hold their annual banquet and ball at the Nova Scotian Hotel on Friday evening. The banquet will begin at 5 o'clock, followed by dancing from 9 to 1.

The Pharmacy Ball is open to everyone. Anyone wishing tickets should contact Doug Colquhoun at Phi Delta Theta.

Friday night will also see the Faculty and Haliburton Rooms of

King's College looking like a page out of Robert Louis Stevenson's "Treasure Island". The legendary island was chosen to be the general motif for the first King's Ball of the New Year.

Dancing will be from 9 to 1 with music of Arne Benson and his orchestra. The ball will be restricted to King's students and their guests.

The Dance Committee includes John Turner (chairman), with Janice Waterman, Jim Howe, Innis Christie, Sam Stamford and Miles Mayall.

deux langues peuvent faire une nation

IF any permanent characteristic of a nation is not being turned to good account during that nation's maturation process, then something important is being overlooked and growth promises to be unhealthy. One such characteristic of Canada, in a formal sense, is that she is also "le Canada." Bilingualism represents a compromise which made the Canadian nation possible and there can be no doubt that she is destined ever to be a country with two languages.

Many Europeans recognize bilingualism as a distinguishing mark of Canada. Canadians know that this is a cultural fiction, that there is no factual basis for it whatever. Our country is a land divided by a language barrier and, that this barrier has not proven more serious, is simply an achievement of common sense and good will.

French Canada cannot be blamed at all for the existence of this barrier, which is one of the most formidable obstacles to the growth of Canadian nationhood. English is spoken there, albeit out of the sheer necessity of avoiding isolation. What is not being generally admitted, however, is that it would be equally in the interest of English Canada to know the language of the other part. Yet English Canada makes no move.

When both parts can be made known to each other in the terms of either one, then there is no longer any large breeding ground for mistrust and resentment. That warmer, more intimate contact will make possible a genuine family feeling which, in a federalized country as vast as ours, is indispensable to an unbreakable national unity.

The diverse geographic and economic conditions of the Canadian provinces render a community of outlook and ambition supremely difficult to achieve. Without a purely non-material sense of oneness, deeply rooted in the bilingualism of which every Canadian of vision must take solid account, it is impossible.

There is, of course, only one process by which the language barrier can be removed. Bilingual education throughout the nation.

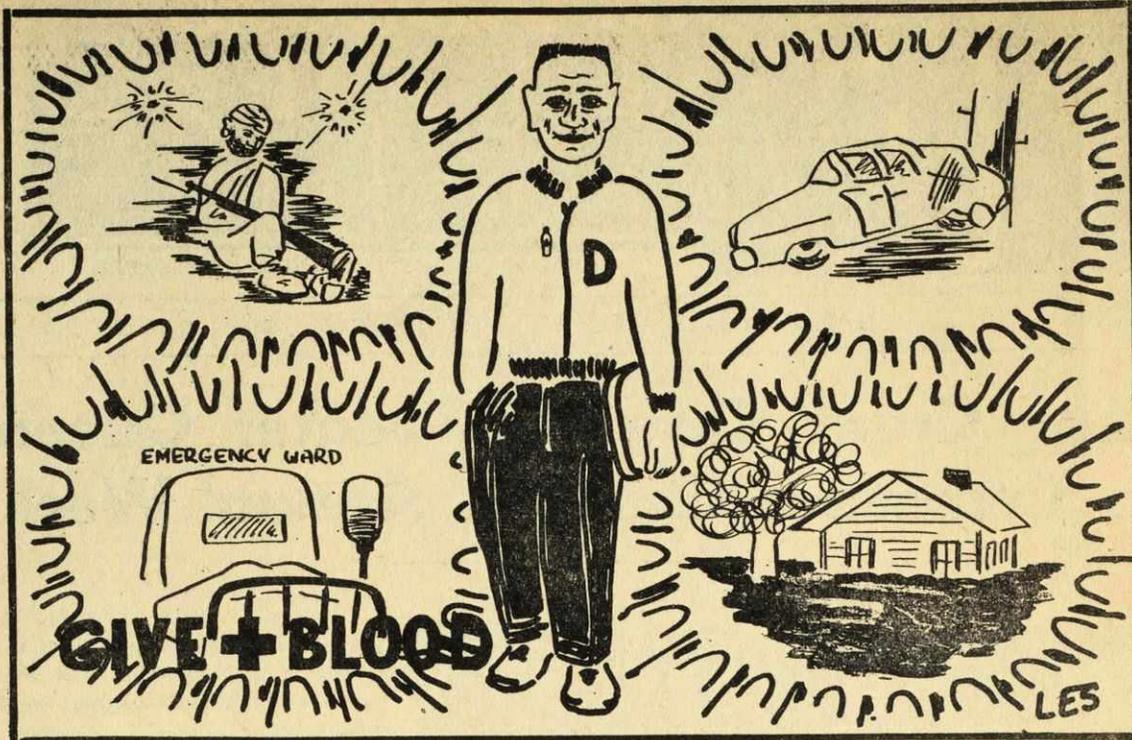

Since education is a provincial responsibility, bilingual education "a mari usque ad mare" is perhaps an idle dream.

If there were, however, more interest in a real bilingualism shown at the universities, there would be grounds for hope. It is only the educated to whom a non-material concept of national unity can make any sense. It is only the educated who can explain why it is vital to Canada, and why bilingualism is fundamental to it.

If the academic world in Canada sees national bilingualism as a worthwhile objective, as something basic to a society more mature, more dynamic within itself and less dependent on alien motive forces than the one in which we now live, then a powerful force driving towards this objective is brought into being.

A. F.

a pint can come in handy

help, i'm bleeding

(Acadia Anthanaeum)

"Be a blood donor!" So often this slogan is heard over the radio, or read in the newspaper, and for many people that is as far as their interest goes. Every day, people are dying, because there is no blood for a transfusion, because someone who was able could not be bothered donating a pint of blood.

The Canadian Red Cross Society is an organization with its primary aim to help society in its suffering. Through disaster relief programs, outpost hospitals, and equipment supply depots, the Red Cross is ready to serve when needed. One of the best known branches of their program, is the blood bank which is being continually supplied by volunteer clinics.

Each year the clinic visits this campus, and students are urged to donate their blood. Each year only a part of those eligible to give their blood offer it. What is the explanation of this apparent disinterest? Of course, the argument is always used, "I can't give blood, because it hurts". How cowardly can one become? The process of giving blood is a painless one, and even if the needle prick does sting a bit, can one not endure it, so that someone who needs a transfusion may have it? Certainly this is a petty excuse.

There are certain people, who for medical reasons are unable to donate their blood. Consequently, the responsibility of others is increased. No drugs have ever been synthesized which will take the place of human blood. Nothing can be used as a substitute, and therefore you, as a healthy person, are asked to "be a blood donor".

When you are asked to donate your blood, do it, for in that way, someone fighting for life may be helped.

letters to the editor

unfair rap

Dear Sir:

In view of the recent criticisms levelled against the Delta Gamma Society for not fulfilling "any useful purpose" on our campus, I feel obliged to compliment and congratulate the ladies on their successful Open House at Shirreff Hall, January 15.

As for those few dissatisfied persons, I feel that the criticism has been quite unwarranted and suggest that if they must kick at nothing, then they should turn around and kick at themselves.

Real George.

no revue

Dear Sir:

The rumours which have been circulating that there will be no Dalhousie Revue this year were turned into fact last Thursday at an executive meeting of the Dalhousie Glee and Dramatic Society. This decision was reached after a discussion of various points.

The main factor brought forward was the amount of time. Although the meetings had been held and ideas and plans formulated early in December, there remained far too little time to organize a good Revue by January 24th.

With the tremendous amount of work being required in the producing of "Finian's Rainbow," it seemed wiser to concentrate on making our new venture a success than to split our efforts and have two mediocre shows as a result.

However, it is our intent to take those ideas already suggested and those people who have expressed a desire to participate in the Revue and, with any other parties who are interested, create a Munro Day Show, more along the lines of Istenhozit '57.

This we hope will be agreeable both to participants and audience. Plans are in progress right now and we trust that all who are interested will turn out to our meeting.

Sincerely,

The Executive, Dalhousie Glee and Dramatic Society.

through the keyhole

by Pat McDonald

The Queen's Journal this week contains an interesting story about "the one that got away." Apparently, a Queen's student who had never registered disappeared from Kingston over the holidays and cashed three rubber cheques to pay his travelling expenses. His name was Gordon Fenney. Reports placed him in third year Science. However, he did not attend any classes. There were mixed reactions concerning Fenney. "I suspected him from the very first time I laid eyes on him," said one. The Journal's managing editor was speechless, but was later heard to mutter: "My bloody eight bucks!"

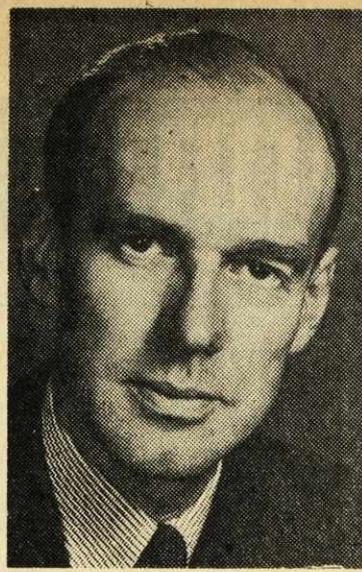

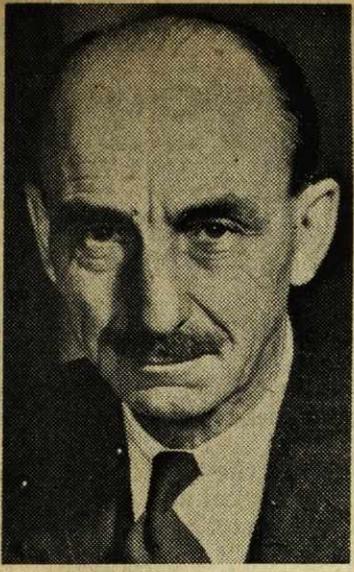

From the Toronto Varsity comes the story of a recently deceased student described by university officials as "a genuine and approachable person whose activities in student life had made a great contribution to his college and university." The student died December 19 of brain injuries incurred in a fall two days before. He had been attempting to reach a friend's second-floor window in Middle House when he slipped from a drainpipe and hit a window on the way down.

The Manitoban states that yearly operating costs in Canadian universities have increased from 37.5 million dollars in 1946 to 85 million dollars in 1956. At the same time, the enrollment across Canada has increased from 44,600 to 71,600.

A report recently prepared by the Industrial Foundation on Education shows in addition to these figures that endowments from industry and commerce have decreased considerably in the past ten years, and as a result, Canadian universities have been forced to raise tuition fees in order to meet the rising operating costs caused by increased enrollments.

Although it is somewhat late, I would like to extend best wishes in the coming year to all the university papers across Canada. And, closer to home, I would like to extend the same wish to the Shirreff Hall girls and I am sure that Santa must have rewarded them handsomely for behaving so well during 1957.

Good-night, Princess.

THIS COULD HAPPEN TO YOU

by PAM CAMPBELL

Throughout the years many of Dalhousies' graduates have risen to positions of high rank both in Canada and abroad. In the following article we pay tribute to eight men and women, past students of Dalhousie, who have cut a niche for themselves in the history of our nation.

Hon. Milton F. Gregg

The Hon. Milton F. Gregg, borne 1892 in Mountain Dale, N. B., received his B.A. from Dalhousie University in 1924 and later he obtained his LL.B. from the University of New Brunswick. In 1934 Acadia awarded him with an Honorary M.A. degree. Previous to his college career, Mr. Gregg was distinguished in the First World War and received the Victoria Cross (for a single-handed attack on the enemy.) In 1924 he was appointed Commanding Officer of the Brockville Officers' Training Centre and in 1946 was made Commander of the Order of the British Empire in the King's New Year's Honours. In 1944, Mr. Gregg departed from his army career and returned to the University of New Brunswick as its President. 1947 brought his resignation as President of the University and the appointment of Minister of Fisheries. The next year he succeeded the Hon. Ian Mackenzie as Minister of Veterans Affairs during the Liberal Government.

engaging in trial work in Hants, Kings, Annapolis and Digby Counties. Later he became a Solicitor for the United Fruit Company and Nova Scotia Apple Marketing Board and he is also a Governor of Acadia University and the Bank of Montreal. He is a Free Mason, a Conservative and Baptist. Mr. Nowlan has held the offices of Customs and Excise, Taxation, Income Tax Appeal Board and the Canadian Broadcasting Corporation under the Department of National Revenue. The most recent appointment of Mr. Nowlan was the Minister of National Revenue in 1957 under the Conservative Government.

Robert L. Stanfield

Robert L. Stanfield was born in 1914 and attended Colchester County Academy in Truro. He attended Crobury College, obtaining his B.A. in 1936. Later he came to Dalhousie where he received his LL.B. and continued to article in Halifax with Stewart Smith, MacKeen and Rogers. In 1942 he became a member of the Wartime Price Board. Mr. Stanfield became President of the Nova Scotia Progressive Conservative Association in 1947 and in 1957 he was appointed to the Board of Governors at Dalhousie. Last year Mr. Stanfield became Premier of Nova Scotia.

Committee. In 1955 he became Director of International Boy Scouts in London.

John R. Nicholson

John R. Nicholson was born in 1901 in Newcastle, N. B. In 1921 he received his B.A. and in 1923 received his LL.B. from Dalhousie University. In 1931 he became a member of the firm of Russell, Nicholson and Co. in Vancouver and in 1944 a member of the Polymer Corporation Ltd., in Sarnia, Ont. Mr. Nicholson was appointed Vice-President of Brazilian Traction Light and Power Company in 1957. Last year, 1957, he returned to Vancouver and became one of Guild, Nicholson, Yule, Schmidt, Lane, and Collier Firm.

Hon. Mr. Justice J. Kuller Mackay

The Hon. Mr. Justice J. Kuller Mackay was born in Plainsfield, N. S., in 1888. He attended Royal Military Academy, St. Francis Xavier and in 1922 received his Law Degree from Dalhousie. Prior to this, Mr. Mackay served in the First World War and rose to rank of Lieutenant Colonel. In 1923 he was accepted to the Ontario Bar and in 1935 became a justice in the high court division of the Supreme Court of Ontario. In 1950 he took over the duties in the Appeal Division of the Ontario Supreme Court. Last year, 1957, on December 30, Prime Minister Diefenbaker announced the appointment of Mr. Mackay as Lt.-Governor of Ontario.

Chalmer Jack MacKenzie

Chalmer Jack MacKenzie was born in 1890 in St. Stephen, N. B. In 1909 he graduated from Dalhousie as a Civil Engineer. In 1940 he was Acting President of the National Research Council of Canada and in 1941 he became President of the Council, in this year he received an Honorary Degree, Doctorate of Law from Dalhousie. In 1946 he was elected Fellow of the Royal Society and the following year awarded the Cross of the Legion of Honour by the French Government. In 1948 he became Chairman of the Canadian Atomic Energy Control Board. Mr. MacKenzie became President of the Atomic Control Board at Chalk River.

WUSC Proteges

by FRANK CAPPELL

Two Hungarian students, Lazlo Horvath and Gabor Altman, are attending Dalhousie this year under the auspices of W.U.S.C. Arriving in Canada last winter, they worked at Jobs obtained by W.U.S.C., and arrived at Dalhousie last fall.

Providing the necessary financial support is a fund made up of the \$400. profit from last year's variety show, "Istenhozzot" and the \$500. donated by the Students' Council. The University promised free tuition.

W.U.S.C. has enjoyed having these two students at Dalhousie, as has the entire University. Another concerted financial effort, however, will have to be made this term if the students are to return to Dalhousie next fall.

A great big welcome to Sam Peeps on his return to the pages of the Gazette. One missed his happy reminiscences during the past year and a half. To one who does not imbibe in the much vaunted sack, its refreshing to read (and reread) his comments. I heartily endorse his practice of "caning" his wretched wife. Alas, if only our wretched existence were as rewarding.

The Council is once again involved in financial troubles. One observes that the football team, after attracting more spectators per game than any other team in the league, lost money as a result of the NSFL's profit splitting policy. It seems the Tigers attracted one-third of the league's total attendance, yet received only one-fifth of the league's total income, or so the Council informs us. A situation which is disgusting to say the least. As I advocated in my column in the Gazette (Nov. 27, 1957, p. 3) in the best interests of all concerned, we shall have an Inter-collegiate Canadian Football League. Why should we support the Service teams, not only in their efforts to make fools of college students (who don't have the time nor the facilities to compete with such persons as the Royal Canadian Navy, but then turn around and support them financially. I have said it before:

George Clyde Nowlan

George Clyde Nowlan was born in 1898 in Havelock, Digby Co. He graduated from Acadia University with his B.A. in 1920 and later from Dalhousie with his LL.B. He served as a private in the Canadian Army in the First World War. In 1922 Mr. Nowlan practised law in Wolfville

Dr. Florence J. Murray

Dr. Florence J. Murray, born 1894 at Pictou Landing, N. S., attended Prince of Wales College, receiving her pre-Med in 1914, after which she came to Dalhousie Medical School, graduating in 1919. In 1931 she was engaged in a Korean Hospital but in 1942 she returned to Halifax and practiced medicine. After returning to Korea in 1946 for missionary work, she was evacuated from Korea on a "furlough" in 1949. The same year the King of Denmark decorated her for "outstanding service to humanity". In 1953 Dr. Murray was placed in charge of the Severance Union Medical College Hospital in Seoul, Korea, where she is working today.

By BRUCE WILLIS

the only way for a college team to survive in a league such as this is to demand a consideration. Our teams can't start training until September; this against service teams which have not only played several games already, but have been in practice since the past June. Perhaps the reason why the NSFL doesn't want the colleges to form their own league, is that the Golden Goose, which to me resembles a Bengal Tiger, may take its number one drawing card to the new league, and given time to strengthen itself among its own types, come back back and devour the presently cock-sure sparrows across the harbour.

after many requests, the list of phone numbers printed in the Gazette, (Oct. 30, 1957, p. 4), in somewhat different order:

- Sherriff Hall 3-8801, 2-3789
3-9745, 2-3623
3-9746, 2-5248
2-6716
- Victoria General Nurses' Residence 2,6441
- Children's Hospital Residence 2-8441
- Infirmary 3-9744, 3-9634
3-9522, 3-9847
- Grace Residence 3-9988, 3-9655
- Mount St. Vincent (slightly out of town) 5-9612, 5-9758

Any night you're not watching the conventions or such like, call any of the above numbers, for a date or just to talk.

To start the New Year right, or what have you, I hereby reprint,

So far this year we've had numerous opportunities to LIVE. The free dance in the Gym last week was well attended; the Tigers raised some more money for the NFCUS scholarship fund, and all had a good time, including Don Warner (Dal. '57), who never fails to Cha-Cha an audience into submission even with the added attraction of free food. Commerce week was as usual, a great break in the Moneyman's monotony. First year Law is in the midst of an essay, the likes of which has never been seen since English 2.

If you have a beef, and it's worthy of note, write me and I will stretch that great adage, "Freedom of the Press" to the breaking point.

I see by the papers that Sir Edmund Hillary's recent arrival at the South Pole was marred by obvious fact that a well travelled American had beaten him there. Tacked to the side of the Peppermint Pole the Yanks had erected amidst the wastes of the only divorce-free continent left, was the glaring notice that "KILROY WAS HERE." The aforementioned Kilroy is not, despite rumors to the contrary, the highly esteemed editor of this newspaper.

One note of compensation to the great Hillary. The little man hasn't climbed Everest yet!

DAL SPORTS

Press Box Views

by Bill Rankin

The Dalhousie sports scene has been filled with gloom ever since the students returned from their well earned Christmas vacation. St. Francis Xavier invaded the Bengals home ground two Saturdays ago and left with a comfortable lead in both the hockey and basketball wars maintaining their unbeaten streaks. This is nothing to be ashamed of for both the "X" basketball and hockey teams are the most powerful in Nova Scotia and perhaps the Maritimes.

Last week, however, disaster struck the Bengals when Nova Scotia Technical College eked out a 2-1 verdict over our Tigers. Dal has not felt the tinge of defeat from Tech for several years, but it was not the Tech hockey team that defeated us, it was their supporters. The rink may have been packed last Saturday but it was not with Bengal fans. Tech supporters were sitting in every corner of the rink and from the way the Engineers played their victory resulted from a fair amount of hockey ability and "99 and 2-3%" desire to win instilled in them by the cheers that came from the Tech students.

It was quite evident that Dal had the superior players but lacked that extra punch that could be provided by more fans, with a little vocal talent. And I don't mean singing.

DAL WANTS TO BREAK EVEN

Football has become a major topic in the Students' Council and around sports circles on the Dalhousie Campus for one very good reason. This reason happens to be money or the loss of it. Dalhousie, although it contributes about one third of the tickets sales toward the NSFL is losing money at a wicket rate. In the 1956 football season the Tigers came out with a \$500 dollar profit. The profit resulted from the league ruling that every team keeps its own gate receipts and pays for its own expenses. Now a new system of collecting gate receipts has been invoked. The tickets sales are pooled and the five teams split the money in five even parts.

Under this new system Dalhousie has scraped through the 1957 season with a \$400 loss. Now if my subtraction is up to par I would say that a \$500 profit, coupled with a \$400 loss comes to a \$900 drop in income, even though Dal contributed one third of the NSFL total gate receipts.

Many people have suggested ways of correcting this error but as yet no definite action has been taken.

CONGRATULATIONS TO DENT FOOTBALL TEAM

A belated congratulations should be given to the members of the Dental Society's interfaculty football team. The Dent squad defeated every team in the league and received only one loss, being set back by the Moneymen, during the regular schedule. In the finals the Dental students took their revenge and trimmed the Commerce boys 6-0, previously defeating the Engineers 1-0 in the semi-finals. So congratulations to the Dent men, and in particular the linemen and non-heroes who made it possible for the heroes to gain their glory and the Dental Society to capture the Interfaculty Football Championship.

ENGINEERS OFF TO FAST START IN INTERFAC

The Dental students started the basketball season off on the right foot defeating the Commerce "A" team in their first interfac outing. Engineers who are also in contention for first place in the Interfaculty Championship. The "Shack Men" tripped University of King's College 3-2. It has been rumored that UKC outplayed the Engineers but on the strength of three quick goals the "Bridge Builders" outlasted the King's boys and went on to capture their first win in the new '58 hockey season. The Engineers "A" team was also successful in their first outing on the basketball court nipping the Medical students by a meagre three points.

Intermediates Edge Acadia Grads 29-22

Wednesday night the Intermediates, appearing surprisingly strong, gained their first victory of the season by a score of 29-22 over the Acadia Grads, a new team in the city league.

The players, some back from last year and some new talent, sorked well together, passing well and breaking quickly. The first few minutes the play was somewhat slow, the score being only 4-4 at

the end of the first quarter. In the second quarter the play picked up, they moved more quickly and Judith Bennet made good four shots which helped boost the score to 14-11 in favour of Dal at half time.

The Tigresses maintained their lead throughout the second half and the guards were a big factor in this. The Grads took a lot of set shots from the outside, forcing the defense to play man to man most of the game. Acadia Grads put on the pressure during the last quarter but Dal continued to play a steady game, and won by a 29-22 margin.

INTERFAC BASKETBALL OFF TO GOOD START; ENGINEERS DOUBLE WINNERS, DOWN MEDS

The Inter - Faculty Basketball Schedule opened with a six-game card Saturday afternoon.

In the opening encounter, the power-packed Lawyers downed Arts and Science 53-24 in an "A" League game. Pat MacDonald was high man for Law with 19 points. Conrad scored 12. The leading scorer for Arts and Science was Hugh Farquhar with 7 points. The Lawyers held a 23-10 lead at half time in the well-played game.

The second game of the afternoon was a thriller down to the

wire. As the final buzzer sounded, the Engineers pulled out a 27-24 victory over Medicine. After battling to a 12-12 draw in the first half, the two A division teams traded baskets until the nine minute mark of the second half, when the Engineers opened a large margin.

The third game much resembled the second as both Commerce and Dentistry fought, tooth and nail, to the final whistle. Dentistry pulled

out a 26-22 A division victory after trailing 12-7 at half time.

The Engineers won their second game of the day as they downed Meds 24-10 in a "B" division encounter. The slow, loosely played game stood 8-5 for the Engineers at half time. March and Lewis led the Shackmen with 6 points each. MacMaster poured 6 points through the hoop for the Meds.

Arts and Science ran through the Lawmen in the second half of their

Dal Title Hopes Fade; Tech Wins

by WALLY TURNBULL

Mass Meeting Of DGAC Held On Problems

On Monday night a mass meeting of Shirreff Hall girls was called by the DGAC executive, its purpose being to learn the reasons for the very limited support given to girls' athletics this year. Carolyn Potter, president of DGAC, outlined the activities for the present term and then opened the floor for discussion. The reasons given by the girls for their scanty participation, were generally, limited time due to pressure of studies, and participation in Finian's Rainbow! It was also mentioned that Hall girls hesitate to use one of their limited number of leaves to go to the gym.

Anna Cooke, DGAC's badminton manager then gave a very emphatic and inspiring "pep talk" on the merits of taking part in campus activities. She also told the girls that the badminton tournament will be held earlier this year to enable winners to compete in the Canadian championship competition, and for this reason more badminton players should begin making use of the facilities available on Monday nights from 7:15 to 8:15 and practically any time on week days, as the gym is often not in use.

Inter-Class Basketball

The response at the meeting seemed to indicate that it would be

The Engineers from Tech, after many years finally defeated the Dal Tigers in a rugged hockey game Saturday night, 2-1.

The n Engineers' attack was led by the former St. F. X. star, Jack Keating, who set up the first goal and ragged the puck very effectively with a man short. John Fitch and goalie Coldwell were standouts defensively.

Bill Buntain picked up Dal's lone goal and worked hard all night. Gardiner and Snow played outstanding games on defense breaking up rushes and knocking down many shots. Claude Brown was very steady in goal and come up with several spectacular saves.

possible to have an interclass basketball tourney under the proposed new ruling which makes members of the inter-collegiate basketball teams ineligible for inter-class competition. Only one game in the series has been played so far and the Freshettes soundly defeated the Juniors 24-6. A noon hour game between the Seniors and Sophomores had to be postponed as the Seniors did not hear about the game in time. An apology to the Sophs for this please!

Girls are arching . . .

Jean MacPhee reports that an inter-class archery tournament got underway last Monday night, and anyone may still participate. No experience necessary, just go to the lower gym on Monday night.

Chance to Reduce

The meeting ended on an exciting note, as the interest of the young ladies was truly aroused at the suggestion of a "reducing class" to be conducted by coach Flo Thomas. The magic exercises will be taught at a class to be held once a week and the girls must do them faithfully each day.

The first period was very fast and both teams were held scoreless. The sides were very even and play moved from one end to the other with both goalies coming up with fine saves. The referees handed out five penalties including a 10-minute misconduct to John Fitch. Passing was weak as individual rushes were the highlight.

Dal opened the second period with a rush. Keating went off for slashing at the twenty-seven second mark and Dal pressed. They kept the puck in the Tech end for nearly two minutes but failed to flash the red light.

At the 7:48 mark a fight broke out in front of the Tech goal. Pete Corkum of Dal and Goodfellow of Tech were given majors for fighting. While they were off Keating put a pass on team-mate Hackey's stick who scored. Brown had no chance on the play.

As the period was closing Dal closed in around the Tech goal again. With 19 seconds left in the period Buntain slapped home a pass from Hill and Clark to tie the score and end the period.

The third period was fast and both teams skated hard. Both goalies played well and were constantly called on to stop shots that were sure goals. Half way through the period John Fitch broke through the defense at centre and came in on Brown alone. Brown made a tremendous save on a hard low shot. At the 13:20 mark MacIntosh of Tech blinked the red light on a pass from Fitch and Gallagher after a scramble in front of the Dal net. With 40 seconds left in the game "Witt" Dargie took Brown off in favour of a sixth forward. Dal's attack failed as a spirited Engineers held on to win 2-1.

BENGALS VICTORIOUS IN MAINE-N.B. TRIP

By BILL WHITE

On January 16, 17, 18, the Dal Tigers staged a successful tour of N.B.-Maine, winning two games and losing one. The highlight of the trip was a well-earned 64-57 victory over UNB.

On Thursday, January 16, the Tigers played Moncton CYO in the local high school gym before a fair crowd. The game was very rough and close, the score being tied 29 all at half time. Dal finally pulled out a hard earned 61-56 victory.

Dave Matheson raced through the CYO team for 19 points. Ted Wickwire popped in 17 points.

Totals: Matheson 19, Wickwire 17, Nicholson 8, White 8, Smith 6, Beaton 3.—61.

Friday night Dal played UNB in Fredericton. The game was played before a large crowd in the beautiful Lady Beaverbrook Gymnasium.

Dal opened the scoring and were never headed. UNB started the game with a zone defense, switching to a man-to-man defense in the second quarter. Dal led 31-24 at the half. In the second half Dal played possession basketball against the well-conditioned UNB club. Fred Nicholson fouled out early in the second half, and Wayne Beaton ably filled the big gap. UNB favored a fast, wide-open style of game, and could not solve Dal's tight defense. Matheson and Wickwire again led the scorers with 18 and 21 points respectively in a fine team effort.

Totals: Wickwire 21, Matheson 18, White 10, Smith 8, Beaton 4, Nicholson 3.—64.

Saturday morning the team left UNB for Presque Isle, Maine, for an afternoon game with Aroostock

State Teachers College. Two games and a 450-mile trip in two days left the Tigers in poor shape for the well-conditioned teachers. Dal showed a complete reversal of form from the night before being pounded 85-45. The game stayed close until the second quarter when ASTC turned on the speed and left Dal behind 38-22 at half time. The Tigers were unable to solve the tight zone defense used effectively by the teachers on the small court and the second half was all ASTC as they outplayed and outscored Dal 47-23.

Totals: Matheson 13, Beaton 8, Wickwire 6, Schurman 4, White 4, Smith 3, Nicholson 3, Weatherston 2, MacGibbon 2.—45.

Law A: MacDonald 19, Homer 6, Hebb 6, Conrad 12, Jones 5, Falconer 5.—53.

Arts and Science A: Layton 2, McInnis 4, Backman 6, Quigley 5, Farquhar 7, Rosere, Davis—24.

Engineers A: Murray 5, Davidson 14, Gilmore, McLeod 2, Ring, Gregor 6, Oulten, Rankin—27.

Medicine A: Drysdale 7, MacKeen 4, Gladwin 4, MacDonald 3, Abbot 2, McKinnon, Coulson, MacGregor 4, DeRobbio, Dennis—27.

Dentistry A: MacLeod 10, Brogan, Greene 2, Anthony, Paturel 6, Raddall, King 8, Kamachi—26.

Commerce A: Thompson 14, Bennett 2, Rainnie, MacIntosh, Shaw 4, MacEachern, Rae 2, Lynds—22.

In the final game on the opening card, Pine Hill won a hard-fought battle against Commerce, 24-16. At half time, Pine Hill held a slim one-point margin but pulled away from the under-manned Moneymen in the second half.

JV BASKETBALL TEAM WINS TWO THRILLERS

Dal's Junior Varsity Bengals fought their way to victory in two high-scoring games this week to gain first place in the City "C" League. For the first they invaded the Y.M.C.A., and, after trailing 27-33 at half time, came from behind to win 61-56. On Wednesday the Tigers tangled with last years champions, the "Owls" handled by John Wellman with 20 points hung on to win 61-54, after leading 37-17 at the half. Beaton sparkled for Dal in the first contest with 20 points.

Interfac Curling In Successful Start

The interfaculty curling schedule got underway last week with six games being run off. Dalhousie sports an impressive array of talent on the ice as many players have participated in Provincial and Canadian bonspiels. Heading the list probably is Harry Stevenson, followed by Dave Moon, John MacIntosh, John Curtis and Rod MacLennan.

On Tuesday, Stevenson skipped his Commerce rink to a 6-4 decision over a stubborn Law aggregation led by Alex Weis. Peter Corkum's Engineering team built up a big lead then coasted to an 8-4 win over Pharmacy. In the third game, the two Arts and Science rinks met, with George Keyes' quartet trouncing the foursome led by Paul Carlos 8-2.

An upset featured Wednesday's play when Cliff Murray and the Engineers scored a 2 on the final end to nip defending champion Moon's Commerce 3 rink 8-7. John MacIntosh gained revenge as he defeated Bob Lusby's Engineering 2 team by a score of 10-5. In a battle of lawyers, Laurie Breen came up with a 6-5 decision over Alex Campbell.

All entries for the intercollegiate playdowns must be given to Marty

DAL VS Y.M.C.A.:

Dal: Beaton 20; Wellman 12; McGibbon 11; Fisher 6; Thomas 6; Pottie 6; Creighton.—61.

Y.M.C.A.: Wallace 15; Richardson 10; MacLaughlin 10; Brown 8; Harnish 6; Langley 3; Longley 2; Parsons 2, Gladwin.—56.

DAL VS OWLS:

Dal: Wellman 20; Weatherston 11; MacGibbon 9; Pottie 8; Thomas 7; Parker 6; Creighton, Somerville.—61

Varsity Swimmers Urgently Needed

Swimmers are urgently needed for the Varsity swimming team. Because of the Council's deferred agreement with the YMCA concerning the times for use of the pool and for other unknown reasons, try-outs for inter-collegiate swimming have met with little enthusiasm from the girls. Those interested in competitive swimming are asked to come out at the following times or at least one of them:

Monday 3:00-4:00
Wednesday .. 7:30-8:30
Thursday 3:00-4:00

Classes of instruction will be given every Wednesday night from 7:30 to 8:30 for all those interested in learning to swim or in improving.

Farnsworth in writing by 9:00 p.m. Friday, Feb. 7. Marty lives at Phi Delta Theta fraternity.

Clodhoppers Top King's

King's college hoopsters lost a close, hard fought battle to the Clodhoppers in a regularly scheduled tilt in the City Senior C Basketball Loop. Both teams fought nip and tuck all the way until when the final whistle blew, the clodhoppers led 52-44. Banfield and Gilbert dominated the scoring for the Clodhoppers while McCordick led Kings.

Led by Banfield, shooting 9 points the Clodhoppers held a 20-19 edge at half time. Hale Dewar and Wilson led King's in this half with 4 points apiece.

The lead changed hands several times in the second half but time ran out for the Blue and White squad. Banfield and Gilbert scored 15 points apiece in the last 20 minutes, while Avery McCordick led King's with 14 points.

Clodhoppers: Danfield 24, Gilbert 19, Forbes 4, Casser 3, Inkpen, Champion, King, MacKelvie, Simmons, Ward—52.

King's — McCordick 16, Hale 8, Wilson 7, Dewar 6, Brister 4, Andrews 3, Bain, Parker, Hamm, Short

Radicals Double Losers;— King's

The King's gym wasn't too busy last week as only one inter-bay basketball game was played. North Pole Bay trounced Radical to extend their unbeaten streak. Led by Harold Hazen and Don McLeod who potted 22 and 13 respectively, the Eskimos won easily 56-29. Leading the way for the losers was "Winkie" Clark who accounted for 21 of Radical's 29 points.

Radical Bay had, on the whole, a bad week as they were also defeated in hockey by Middle Bay, 6-5. This

CLOSE GAMES FEATURE INTERFACULTY HOCKEY

A&S 4, DENTS 2

In the opening game of the inter-face hockey season, Dentistry gave Arts and Science a good battle, but it was not quite enough as the arts-men emerged with a 4-2 win. Dents, playing with only eight men, forced the boys from Studley all the way until the latter part of the third period when they tired.

Arts and Science, with four former Varsity players in the lineup, Fitzgerald, Hope, Martin and McInnes, have a good chance of taking this year's title, although they proved to be no powerhouse against the Dents.

Fitzgerald scored first, but Greene knotted the count on a pass from Conrad. MacLean put Arts and Science ahead towards the end of the first period as he scored from a scramble in front of the net.

There was no scoring in the second period. In the third Withrow made it 3-1, but Greene notched his second goal to make it 3-2. Joe Martin rounded out the scoring to make the final score read 4-2 for Arts and Science.

MEDS 10, LAW 0

In the second game, the Meds proved far too strong for last year's runner-up Law squad, showing too much speed and checking ability

game was much closer and it was anyone's game until the last second.

Deke Warren and Glenn Lane paced the way for the Middle Bay sextet as they each picked up 4 points. Warren bent the twines four times and hard-working Glenn Lane proved to be the playmaker of the evening as he set up 3 goals as well as notching a goal for himself.

For the Radical boys, Russ Hatton starred, slamming home 3 goals.

for the lawyers, who were never able to get started.

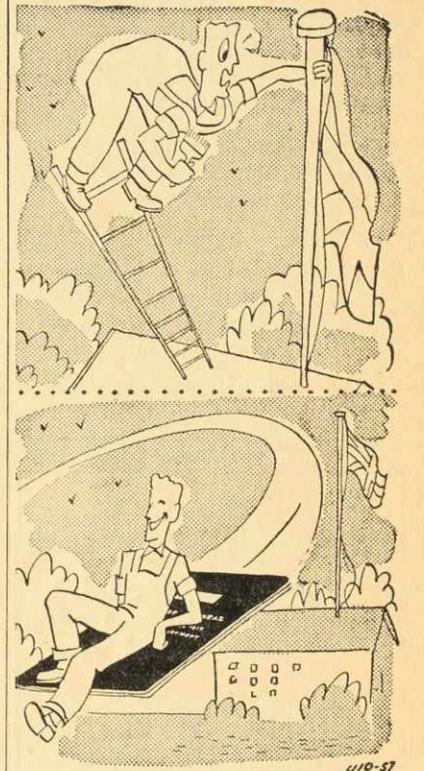

"Spud" Chandler opened the scoring for the Meds as he banged in Perry's rebound. From then on it was no contest, as the Medical boys piled it on to the tune of 10-0. Dennis scored a hat trick, while Rollie Perry, former varsity player for four years, and Duke MacIsaac each scored twice. McPhail and Nason scored singletons along with Chandler.

ENGINEERS 3, KING'S 2

Last Wednesday noon, those present in the Dal rink witnessed the finest inter-fac hockey game of the year so far, as the Engineers, strong contenders in the "A" division of the league eked out a victory over King's by a score of 3-2.

Led by aggressive Eddie Andrews and hard working Carl Day, the boys from the shack managed to pile up their three goals in the first frame. The other tally came off the stick of Glenn Pace.

King's fought back in the second stanza and rang the register twice on goals by Greg MacLeod and Ian Parker. The third period went scoreless.

National NFCUS President Pays Visit to Dalhousie

An appearance at a Dal Student Forum was a highlight of the recent visit of National NFCUS President, Wally Tarnopolsky to the universities in this area. The Forum, held in the Dal Gym, gave students an opportunity to ask pertinent questions, with regard to NFCUS generally.

Mr. Tarnopolsky also spoke to a NFCUS meeting, and gave an outline of NFCUS policies for the coming year. During a question and answer period, the position of NFCUS with regard to other international student organizations was set forth.

During his visit here in Halifax, Mr. Tarnopolsky met with the Hon. Mr. M. Leonard, Provincial Minister of Education. Also present at this meeting were Lew Matheson and other NFCUS officers. One item discussed at the meeting was the ques-

tion of a grant from the province, to enable students to attend the NFCUS seminar, to be held at the University of Western Ontario, in London, Sept. 8-12. The Minister said that \$250.00 would be given by the province. Since there are five member universities, and each is entitled to one representative, this means that \$50.00 will be allotted to the Dalhousie representative.

Before leaving this area, Mr. Tarnopolsky appeared on the local TV Show "Gazette", and also spoke to the students at King's College. He will return to Halifax for the Atlantic Regional NFCUS Conference, to be held at Saint Mary's University, February 14, 15 and 16.

Interest Grows In French Circle

Interest in the Cercle Francais is growing, judging from the number that attended the meeting Monday evening, January 13.

French songs were sung and taped. Two films were shown, "Ver sailles" and "Neiges."

The next meeting will be Feb. 10. It was decided that the annual French night will be held March 17. That night two one-act plays, a comedy, "L'Homme Explosif," and a drama "Le Silence de la Mer" will be presented by French students.

Professor Gives Lecture Series

Those who would like to know more about music are advised to attend a series of lectures by Professor Hylton E. Edwards, of the Maritime Conservatory of Music, and lecturer in music at Dalhousie University, which began on Jan. 14.

Professor Edwards is dealing with four aspects of music—an introductory lecture on the nature of music; the composer's task; the listener's part; and aspects of the interpreter's part in music.

These lectures are offered by the extension service of Dalhousie's Institute of Public Affairs.

Three Campus Parties Prepare For Election

Representatives of Dalhousie University's three campus political groups have set Wednesday, Feb. 6, as election date for the University's 60-seat Parliament, now controlled by a Progressive Conservative government. A spokesman for the group state that sessions of the House itself would get underway Feb. 17 for two days of sessions with a speaker to be chosen from several outstanding political figures in Nova Scotia.

Details are being worked out already for the handling of the election with polling booths to be established on the Forrest campus, the Studley campus and at King's College.

Representation in the last campus parliament consisted of 34 Progressive Conservatives, 16 Liberals and 10 representatives of the Canada First Party.

Leaders of the three parties for the 1957-58 term are Innis Christie, Amherst, Progressive Conservative head; Al Riggs, Louisburg, Leader of the Government Opposition; and "Manny" Pittson, Halifax, leader of the minority opposition party.

News From Sodales

By FRAN STANFIELD

Last Monday night intercollegiate debating trails were held and Alade Akese and Alex Weir were selected to debate against St. Mary's University on February 19 at Dal. Margaret Doody and Geoffrey Steele will battle wits against Mt. A on February 7 also at Dal.

Interfac debates have been moving very slowly this term. Everyone seems to have an excuse or is too busy. The first round of debates must be over by the end of January and if not completed by then the debate will be defaulted.

Due to many postponements only debates have been scheduled but your chairman may phone you when your turn comes to debate.

Margaret Doody and Mary MacDonald vs John Curtis and Dave Curtis; Thursday, Jan. 30 — West Common Room—1:30 — Chairman: Fran Stanfield. Fulton and Leefe vs Ramey and Nudelman; Monday, Feb. 3—Lew Reading Room—1:30—Chairman: Gloria Read. Robinson and Cochrane vs Sherman and Ryan; Tuesday, Feb. 4—West Common Room—1:30—Chairman: Fran Stanfield.

NEWS BRIEFS

A Panel Discussion will be held on Sunday, February 2, at 8:30. The subject discussed will be alcohol. Members of the panel are: Father Rourke, Duncan MacMaster (Dal Med School), Pat MacDonald (Dal Law School) and a representative from Alcoholics Anonymous. The place: Newman Hall on Windsor Street.

A Bridge Party will be held January 29, at 7:45 in room 21 of the Arts building sponsored by The 4-Year Molar Club (Wives of Dent Students). Admission is \$1.00 and there will be prizes. All profits will go to the new Dent building. Everyone is welcome.

Found—A Rosary, on the east side of the Rink, at the Dal-Tech Game. Owner please apply to the Gazette Office.

Students and professors from universities and colleges in Newfoundland, Nova Scotia, Prince Edward Island and New Brunswick, will participate in the 5th Atlantic Regional WUS Conference to be held February 7 to 9. Dalhousie University will act as host and is already making extensive and elaborate preparations to welcome the delegates and offer a good program. An important part of the Conference will be several seminar sessions on a topic to be announced. The delegates will also review the work of WUS in the region, consider measures for improving the WUS program, and examine ways and means of strengthening local committees.

SCM Vocations Secretary To Conduct Interviews

Helen Dixon, travelling secretary of the World Mission and Vocations Department of the SCM of Canada will be on the Dalhousie-King's campus from January 29 to February 6. Helen has all the details of jobs available this spring and will be anxious to meet those interested in the possibility of working abroad.

Helen Dixon

Helen herself was a short-term tecturer in English on the staff of a college affiliated with the University of Madras, India. She is one of a number of Canadian university graduates who have found employment abroad, in recent years, through schemes sponsored by the churches, the SCM, the British Colonial Office and the Colombo Plan.

Gordon Haliburton, son of the Provincial Minister of Agriculture, and former SCM'er at Acadia and Dalhousie is another. Gordon did graduate work in History at Dal and in 1955 went to London. While there he answered a routine advertisement put out by the Colonial Office and before long he found himself appointed as Education Officer in Sierra Leone, Africa.

If you want to find out more details about such schemes, plan to talk with Helen Dixon while she is on the campus. Arrangements for interviews can be made through Heather Williams or Rhoda Palfrey in the SCM Office, (3-6609).

Mt. A. Students Set Up Gym Fund

SACKVILLE, N.B.—Mount Allison University students Tuesday took the question of a new gymnasium into their own hands by voting to found their own "gymnasium fund."

At a special meeting of the students' council Tuesday a group of over 500 students voted unanimously to have five dollars added to their annual general fee, with the additional revenue to be placed in a separate fund for the building. Student officials stated that, in this way they hope to arouse sufficient interest in alumni circles to put the program over.

Plans drawn up last summer call for a basketball court with a seating capacity of 1284, a swimming pool with seating accommodations for 150, six badminton courts and an auxiliary training gymnasium. Estimated cost of the building will be \$850,000.

WINTER CARNIVAL

Mount Allison is also planning a winter carnival February 13-15 in hope of raising further money for the project.

Les Little of Moncton, president of the students' representative council, said concerning the fund-raising campaign:

"This method worked a year or two ago to get the University of British Columbia a new \$1,000,000 residence. I think we can put it over here at Mount Allison."
