But he has much to contend against. The Due de Montpensier and Prince Francisco de Bourbon came to words in the royal antechambers and his grace very narrowly escaped being well thrashed with a broom handle. In consequence of this scandal the prince has been abruptly dismissed the army, in which he held a high command. He is the son of Don Enrique dismissed the army, in which he held a high command. He is the son of Don Enrique de Courbon, who was killed by the Duc de Montpensier in a duel. Despite this, his grace does not appear to have made any effort to save him from disgrace. Don Francisco is, they say, about to join Castelar and the republicans.

Medical aid was at once summoned and the victim's friends among the men of the town gathered to do what they could for him. All sorts of expedients were resorted to to keep the man awake but nothing availed, and about 6 o'clock the next morning he passed away to his long rest. Money Tight.

(From the Montreal Star.) The result of the N.P. victory is already making itself felt on the money market.
To-day money is very tight, and many of
the banks are calling in their call loans, one banker being notified that to-day (Monday) he will have to pay up to the tune of \$500,000. This is explained by the fact that an immense amount of Canadian capital is invested in America, while many applications have been made here for loans connection with proposed manufactories in view of the five years continuance of the

Bathe the Babies.

Mothers should bathe their babies freuently during the hot weather. By so oing they will keep their little ones cool and comfortable. Moreover they will also insure themselves comparative quiet. For the child that does not suffer from the heat in summer time will, in all human probability, be good tempered and sleep as it ought to sleep at night and in the middle of the day. Fretful infants sour the tempers of angelic mothers and make homes very wretched places for the fathers and providers. The latter should therefore counsel their spouses to bathe the babies as often as possible.
