FIFTEENTH YEAR

U.S. FREE LIST EXTENDED

TO INCLUDE COAL OIL, BUT NOT
FARM IMPLEMENTS.

The Internal Revenue and Income Tax
Legislation Reciprocal Provisions
Desired for Free Agricultural
Imports—A Majority of Fifty in
Favor of Free Coal.

WASHINGTON, Jan. 24.—By a majority of
50 yesterday the House of Representatives
decided to put on the free list, with
movement met with tremendous oppo-
sition from the Democrats representing
the coal-producing states of Virginia,
West Virginia and Alabama, and also
Representatives of the railroads in these
states.

The Republicans voted to retain the McKinley
tariff, even those from New England,
who will be greatly benefited by the reduc-
tion, taking a decided stand, and voting
against the motion.

During the debate it was stated that a
million tons of coal went to Canada last
year, and after paying the duty and freight
successfully competed with the Canadian
coal. It was also said that some Canadian
railways were paying a duty on American
coal and using it on the locomotives in pre-
ference to Canadian stock.

It was an exciting debate and at one
time it looked as though the opposition
would be sufficiently formidable to admit
the adoption of an amendment placing a
duty of 40 cents a ton on the product.

Chairman Wilson, however, changed the
line of opinion by a speech of 15 minutes
placing coal on the free list in a speech of
10 minutes. This he did by producing a
volume from which he read a paragraph
of language of a paragraph of the Govern-
ment-General may be proclaimed, when
it is found that the United States had
passed a law allowing certain articles (coal
being one) to be exported without duty,
grant free importation of the same products
from that country.

When Mr. Wilson had finished reading
the Canadian statute the House broke
into a wild shout of applause in approval
of Canadian reciprocity, which it practically
amounted to.

This killed the amendment quickly, for
when the vote was taken some who had
spoken favoring the amendment voted
against it. The amendment was placed on
the free list by a vote of 131 to 81.

Coal Oil on the Free List.
A number of important amendments were
made by the Ways and Means Committee
today to the customs and internal revenue
sections of the tariff bill. It is now on
the floor of the House.

The section which schedules petroleum from
other countries free of duty, when it ad-
mits American petroleum on the same terms
was amended, leaving petroleum to come
in free without restriction, when the
presence of that man, under Emperor
William I, primarily co-operated to
bring about the free trade in oil.

An enlargement of the paragraph relating
to binding time was made so as to permit
importations made from New Zealand here
to come in free.

The early part of the day in the House
was given to a consideration of the amend-
ments introduced by the Ways and Means
Committee over from yesterday as unfinished business.

The pending amendments were one pro-
posed by Mr. Chamberlain (Rep., Ont.), and
another by Mr. Taylor (Rep., Ont.), proposing
to substitute for the iron ore article of the
McKinley law, the iron ore article of the
McKinley law. Both amendments were de-
feated, thus leaving iron ore on the free list.

Amendments were also introduced to
the paragraph of the bill which puts agricul-
tural implements on the free list, the first
being presented by Mr. Chamberlain (Rep.,
Ala.), and provided for the addition of this
to machinery to the free list. It was
followed by a substitute introduced by
Mr. Payne (Rep., Penn.), which proposed to
strike out Mr. Robbins' amendment and
insert a resolution of reciprocity provision.

Mr. Payne's substitute was to strike out
Mr. Robbins' amendment, and providing
for a resolution of reciprocity provision.
In particular, Canada, which should
impose a duty on those articles of American
manufacture which, under the McKinley
act, would be admitted to this country
free.

Mr. Wilson (Dem., Va.) made the point
of order and the substitute proposed
was not germane to the subject under dis-
cussion, but the chairman overruled the
point of order and the substitute was
taken up.

Mr. Payne in speaking to his amendment
went into the subject of reciprocity and
revelation, and to the subject of the
discriminating tolls charged by Canadian
cattle against American cattle.

for a resolution of reciprocity provision.

LAURIER IS GIVEN THE LIE.

SIR JOHN THOMPSON'S ALLEGED
FALSEHOOD A BOOMERANG.

The Statement That Tarte Gained the
Richelieu Election With the Connolly's
Money Was Never Made by the Free-
Press. — J. W. Waters. Promoted—Bar-
deser Street to Haug.

OTTAWA, Jan. 24.—Sir John Thompson's
attention was called by your correspondent
today to the following passage in the
speech of Mr. Laurier at the Quebec ban-
quet as reported (revised) in The Globe of
Saturday last:

"Did not Sir John Thompson himself in
language so exaggerated, etc., etc., have
the audacity to pretend that the Richelieu
election lost by the Government in 1892
was won by Mr. Tarte with the aid of
money from the 'Connolly's'?"

Later on "Mr. Tarte promptly dis-
proved the Premier's impudent falsehood, who
had dared to say that he (Mr. Tarte) had
gained the Richelieu election with the money
of the 'Connolly's,' when, as a matter of fact,
Mr. Tarte never put a foot in the
country."

Sir John Thompson said: "I never made
any such statement or suggestion with re-
gard to Richelieu, nor did I ever mention
the name of Mr. Tarte in connection with
Richelieu or the money of the Connolly's."
The speaker then went on to refer to
his own connection with the election, and
to his prominence in the ranks of the
Opposition. He was quite aware that Mr.
Tarte in another connection altogether and
to his prominence in the ranks of the
Opposition. He was quite aware that Mr.
Tarte in another connection altogether and
to his prominence in the ranks of the
Opposition.

The only representative of the press at the
Antigonish meeting was a gentleman who
does not write straight and who told me
that he made his report principally from
memory, as he had not even the conveni-
ence of a seat during the meeting.

On this account his report was inaccurate
in several particulars. He was mistaken
in supposing that my reference to Tarte had
any connection with Richelieu. The readers
of The World will therefore see that
the face of the old Canadian will again
be as I am concerned."

Thomas J. Waters Promoted.
An Order-in-Council has been passed ap-
pointing Mr. Thomas J. Waters, chief com-
missioner of customs, chairman of the
Board of Customs, which carries with it
a small remuneration of \$600 a year.

The raises Mr. Waters' salary to that of a
deputy-minister. Mr. Waters is one of
the most competent, conscientious and in-
dustrious officers in the employ of the
Government, one who is always at his desk
and always well posted on everything re-
lating to the customs service, and the
recognition of his services is exceedingly
well deserved.

Major Sam Hughes at the Capital.
An Order-in-Council has been passed ap-
pointing Mr. Sam Hughes, M.P., deputy
minister of the day to the day to the day
business. He had interviews with the
Minister of Railways and Canada and
with the Minister of Justice, which latter
interview is understood to have been with
reference to the County Court Judge of
Victoria.

Morse Commenced for Pensionation.
Edward H. Morse, the packer in the
Postoffice Department who was committed
to jail for eight days by the Civil Service
examiners for refusing to answer questions
relating to the charge that at the November
election he had not consented to personate
him, was released on Saturday, on the
expiry of his term. Being again brought
before the commission on Monday, he was
advised that he could not pass but had
a friend of his, a commercial traveler in
Montreal, to personate him. This was
reason for his release. He was taken up
for his examination in Montreal instead
of in Ottawa. The name of the commercial
traveler is known until it is known what
steps will be taken against him.

Stroebel to Benz.
Albert Stroebel, the murderer of Marshall,
is in a cabin in the Victoria, B.C. jail,
will pay the penalty of his crime on the
scaffold on Jan. 30. To-day Lord
Aberdeen signed an order-in-Council
at the meeting of the Cabinet, allowing
the law in this case to take its
course. Stroebel, who is a cripple, shot
Marshall in a cabin in the Victoria set-
tlement. The only excuse for the deed was
that Marshall was paying attention to
the girl in the cabin. Stroebel admitted
this girl. There was in the first case a
disagreement of the jury, but on a second
trial the jury returned a verdict of guilty.
The State Department has telegraphed the
fact at Victoria the result which the Cabinet
has arrived at.

An Irish Wrecker of Windows.
Mr. Thomas Connolly, Government agent
in Dublin, writing to the Department of
Trade and Commerce, says that he has
made an arrangement with Mr. A. C. McCracken,
owner of the extensive 'Temple' wooden
mill at Kildare, Ireland, for the erection of
a wooden mill at Mission City, the town
furnishing the site and building and Mr.
McCracken bringing over the necessary
machinery and operatives. The president
of the Board of Trade, in his letter to Mr.
McCracken, speaks of the large number of
sleep in British Columbia and thinks there
is a fine opening for a mill.

Boatmen on Public Meetings.
The first of the weekly meetings of the
Macdonald Club was held in St. James'
Hall to-night, and despite the very un-
pleasant weather there was a large at-
tendance to hear the lecture of Dr. Bourne,
Clerk of the House of Commons, on
"The Conduct of Public Meetings." The
lecture was highly instructive and con-
tained much useful information. Next week's
meeting will be addressed by Sir John
Thompson on the questions of the day.

THE PRINCESS OF WALES
Will Hereditary Take No Part In Social
Functions.

LONDON, Jan. 24.—The Prince of Wales,
in declining for the Princess an invitation
to visit Belvoir Castle, the residence of the
Duke of Rutland at Grantham, Lincoln-
shire, stated that the Princess would
not take no part in social events.

Truth further says that the Prince is
unable to take much exercise. He will aban-

THE CRICKETERS' BALL.

A Gay Scene at the Pavilion Last Even-
ing.—Noted Visitors From Many
Cities.

Mid decorations of green and crimson,
to swaying music, the cricketers danced
in the Pavilion last night.

The success of the second annual ball of
the Toronto Cricket Club is now history.
The old Pavilion in its most gay days
never witnessed a more brilliant and
which gathered last night at the invitation
of the men who wield the bat and chase
the ball.

Everybody who is anybody was there.
From Ottawa Lord Ave, accompanied by
Capt. Urquhart, A.D.C., especially to
dance with the beauty of the willow.
The Lieutenant-Governor and Mrs. Kirk-
patrick, with all of Toronto's four
hundred, were there. Many were
the partying and dancing, showing that
the fame of the hospitality of the
veteran cricket club has spread afar.

The opening set of dances was formed as
follows:

Mrs. Kirkpatrick, Mrs. Street, Mrs.
Cochran, Mrs. Archer, Mrs. G. T. Black-
burn, Mrs. G. T. Blackburn, Mrs.
J. Kerr Osborne, Major-General Sir

The hall was tastefully, even lavishly, de-
corated. From the ceilings hung huge
flags and yacht club pennants. Soft cur-
tains in harmonious tones draped the
walls. The stage, converted into a luxu-
riously furnished ballroom, was
the scene of the most brilliant dancing
of the evening.

A NEW RECIPROcity SCHEME

PROPOSED BY THE AMERICAN NA-
TIONAL BOARD OF TRADE.

The Wilson Bill to be Inoperative In Re-
gard to Canada, and to become operative
in regard to the Duties on American
Goods to the Satisfaction of Mr.
Claveland.

Yesterday's session of the National
Board of Trade of the question of recipro-
cal trade with Canada was discussed and
the following resolution adopted: "That
the National Board of Trade memorialize
Congress to take such action in the enact-
ment of the new tariff as will secure the
largest possible extent of trade with this
continent."

In addition to this resolution there was
adopted a suggestion as an addition to the
Wilson tariff bill providing that the new
tariff should not become operative in re-
gard to Canada as long as the duties on
American goods are not reduced to the
satisfaction of Mr. Claveland.

intercourse between the two countries can
be gradually become operative, to re-
port to the President, who shall lay the
report before Congress.

INTERIM APPROPRIATIONS
Recommended by the Executive Com-
mittee in Advance of the Estimates.

The Executive Committee will meet to-
day at 2:30 o'clock, when the following re-
commendations will be presented:

Your committee recommend that the sev-
eral committees of the council, the Police
Commissioners and School and Library
Boards be requested, without further delay,
to prepare and forward estimates of ex-
penditure for the present year, to enable
the treasurer to proceed with the
preparation of the general city estimates.

Your committee have considered a draft
bill to authorize the borrowing of \$250,000
under the name of Theodor, and recom-
mend that the chairman have leave to in-
troduce the same in council.

Your committee recommend to recommend the
following appropriations in advance of the
estimates as part of the financial appropri-

THE SHERIFF IS OUT OF IT.

MITCHELL AND CORBETT WILL FIGHT IF THE GOV. KEEPS QUIET.

Duval Club Gets a Permanent Injunction.—Yet Many Even Money Bets Were Made in Jacksonville Yesterday That Corbett Would Be No Fight—The Fight Has Been Postponed.

The prevailing opinion among followers of the prize ring last night was that Corbett and Mitchell will meet in the arena at Jacksonville to-day as stipulated in the articles of agreement, although many even bets to the contrary were made yesterday.

At Jacksonville yesterday Judge Call granted a permanent injunction restraining Sheriff Broward from interfering with the fight. Bill that officer has hopes, as his representatives were given leave to submit additional evidence to-day when Judge Call opens court at 10 a.m.

When the Duval Club secured their victory they decided to have the fight in the arena originally built for this purpose at 1 o'clock this afternoon. If Referee Kelly gets the mill started promptly as expected the news will be much in evidence, and no one here is likely to finish too quickly. It may last 50 rounds. Notwithstanding all the ridicule heaped upon Mitchell and the lying statements sent out by unscrupulous, scoundrel correspondents, the Englishman will be much in evidence, and no one here is likely to be surprised and a great many delighted to see him victorious.

On form Corbett should win. His endurance should give him the battle, but the referee being favorably inclined toward the outsider, and whether Mitchell accepts one of these remains to be seen. There are many doubts but that a spectator will do all in his power to secure victory for their countryman, but it is to be hoped that the Englishman will get his fair play by deserving.

There are many doubts but that a spectator will do all in his power to secure victory for their countryman, but it is to be hoped that the Englishman will get his fair play by deserving.

On form Corbett should win. His endurance should give him the battle, but the referee being favorably inclined toward the outsider, and whether Mitchell accepts one of these remains to be seen. ALTERATIONS AND BUILDING.

A Crowded Store—The Monster shoe House of the City—The Palace shoe House of Canada.

We began alterations nearly two months ago, and soon expect to see the long desired alterations to the Palace shoe House of Canada.

Our only business in the monster shoe stock on the premises of winter goods, purchased and manufactured to fill five times the space now at our command.

Instead of occupying half the block, every foot of space of our new building, these goods are piled from cellar to attic.

Truly it is not for the comfort of the citizens of Toronto have always placed in us, and the patronage we have ever liberally bestowed on us, we would not have withered this gigantic work of altering our building, weighed down as we were with goods.

To remove the goods off the premises we have been obliged to use as we could not afford the confidence of our many customers and of the public generally, we wished that our loss might be their gain; hence this sale.

The bareness of disposing of 850,000 worth of goods to enable us to proceed at once with our alterations has been considerably reduced, and we are now able to offer within the next few weeks, a few prices will give an idea of the sacrifice we are now making.

Ladies' Double-breasted, buttoned boots, hand-sewed, extension soles, that have never offered at less than \$4, will be given away for \$2.50.

These boots are manufactured by Gray Bros., Syracuse, in the United States, and are made of the best quality of leather, and are guaranteed to last for years.

St. Louis square and commensurate to Ladies' French kid, Biedersteiner boots, costing \$12.50, will be sold at \$7.50.

These boots are hand-made in the United States, and are guaranteed to last for years.
