Nova Scotia Farmers' Association

Twenty-Fifth Annual Session Held In Bridgetown— Good Speakers Drew Large Audiences—Important Resolutions Passed—Officers Elected.

The 25th annual convention of the Nova Scotia Farmers' Association opened in Bridgetown at 2.30 Tuesday afternoon, the Primrose Theatre being taxed to its full seating capacity to accommodate the delegates and the large number of local farmers in attendance. President J. Howe Cox, of Cambridge, Kings County, occupied the chair. After the usual preliminary of opening had been regularly attended to, Mr. Cox gave a very interesting address, copies of which were then distributed among the audience.

Mr. Cox paid a neat compliment to the town of Bridgetown, at the head of navigation on the Annapolis River, and referred especially to the beautiful appearance of the Valley in blossom time and the harvest season. I am sure, he said, we can thank Providence for a bountiful harvest for the year 1920. The potato crop was the largest ever in Nova Scotia, but unfortunately one quarter of it was affected by rot. The apple crop was better than expected; over one million barrels were gathered and the prices ranged from \$2.75 to \$3.50 per barrel. The Nova Scotia Shippers' Association succeeded in reducing the marine freight rates, making a saving of \$250,000. He hoped permanent buildings for exhibition purposes at Halifax would soon be erected.

The Agricultural College at Truro was doing good work, and although the Association had severely criticized the Soldier Settlement Act when first introduced, yet many returned soldiers had accepted the Government's offer and over \$1,250,000 had been loaned in Nova Scotia, and 90 per cent of the men had fully met their interest. He recommended a school for Dairying be established in the Province, and that farming subjects be taught in our schools. He said that the Experimental Station at Kentville had done good work under superintendence of Professor Blair, and he praised those who were responsible for having clover hullers brought into the country. Mr. Cox said "we are in greater need than ever of the proposed stockyards and cold storage plants at Halifax. Over two hundred carloads of live stock were shipped from the Maritime Provinces to Montreal during the past season and such a plant would prove a great advantage to stock raisers." Mr. Cox also referred to prohibitive freight rates, and other subjects such as markets, co-operation, sheep, swine, poultry, etc.

The next on the programme was an address on "The Business End of Farming," by Professor A. Leitch, Director of Survey, O. A. C. Guelph. Mr. Leitch is a good speaker and his address was greatly appreciated by all who were there. It brought forth considerable discussion and Prof. Leitch proved himself fully qualified to answer every question that was asked him. The appointment of a resolution committee and other routine business was followed by an adjournment until 8 p. m.

TUESDAY EVENING

During the early part of the evening from 7 to 8 p. m. many of the delegates attended the Primrose Theatre, enjoying a moving picture show in the same hall in which they opened the evening session at 8.45 p. m. This was opened with addresses of welcome from His Worship Mayor J. W. Salter and E. A. Hicks, President of the Bridgetown Board of Trade. A very suitable reply was made by Rev. Father R. L. MacDonald, St. Peter's, C. B. This was followed by an address by J. P. Landry of the Truro Agricultural College

on "Poultry Contests." A telegram was received from Mr. George E. Graham, General Manager D. A. R., from Winnipeg, stating his regrets of being unable to be present. He had been asked to speak on the development of Nova Scotia. The next address was on immigration by Mr. W. B. McCoy, of Halifax, and was in the form of a general talk on this important subject in which Mr. McCoy is thoroughly versed.

WEDNESDAY MORNING

The session was devoted to the reading of the Directors' Report the Financial Statement which showed a balance of \$731,10 on hand, the report of the provincial exhibition committee, superintendents of agricultural associations, etc.

WEDNESDAY AFTERNOON

The first speaker was Prof. A. Leitch of Guelph, Ont., who by special request gave another interesting talk on "the business end of farming" or what perhaps might be called a continuation of Tuesday afternoon's address. Prof. Leitch is one of the most popular speakers on the programme. He was followed by A. B. MacDonald, of Truro, on "Markets and Livestock Marketing." After the usual discussion and questions Mr. MacDonald was followed by W. A. MacKay, also of Truro, his subject being "dairying." The meetings were the best attended of any convention ever held in this town, standing room only being available at this afternoon's session.

WEDNESDAY EVENING

The hall was again filled to capacity, and Professor J. L. Trueman gave a splendid address on "Pastures." H. J. Logan, of Amherst, who arrived during the evening, spoke on "The Union of the Maritime Provinces." The audience was determined to have a few more words from Prof. Leitch and also something from Dr. Cummings, both of whom spoke.

Mr. F. G. J. Comeau, General Freight Agent of the D. A. R., spoke briefly on the development of Nova Scotia. This was followed by a series of moving pictures on orcharding, farming, spraying, dairying and poultry, raising in the Annapolis Valley and along the entire territory covered by the "Evangeline Route."

While the regular evening session adjourned about 11 p. m., the majority of the delegates remained in the hall until midnight, enjoying the D. A. R. pictures and having a general good time.

THURSDAY MORNING

Resolutions calling for further legislation beneficial to the farming industry and the election of officers were the chief features of the closing session of the twenty-fifth annual convention of the Nova Scotia Farmers' Association. The Association urged by resolution that more attention be paid by Provincial Government and by the Federal Government to immigration as it affects Nova Scotia, emphasizing the need for men with agricultural experience and capital to purchase farms, for agricultural laborers and for domestic help.

A resolution was adopted recommending a survey of the agricultural conditions in Nova Scotia by the Provincial Department of Agriculture, with the aim of procuring all available information upon the cost of production under present methods as compared with that under different methods. A committee was appointed to interview the Minister of Railways, and the general manager of the C. N. R. to protest against high freight and passenger rates on Canadian railways.

The Association went on record as protesting against the "Harvest Excursion" system, claiming that it was benefiting Western Canada to the detriment of Nova Scotia. It urged that the railways, if determined to run harvest trains from

Nova Scotia to the Western wheat fields, do so only at the regular passenger rates, first class one way ticket, with option of free return within 90 days.

Re-establishment "at Halifax or some central town in Nova Scotia" of the Provincial Exhibition which has not been held since the Halifax Explosion, at the earliest possible date, is asked. Compulsory grading of cream delivered at creameries of the Province and the establishment of a permanent Maritime School of Dairying were also urged.

A tribute to the valuable assistance given the Association by W. H. Woodworth, of Berwick, was embodied in a resolution which regretted that ill-health prevented Mr. Woodworth from attending the present session. F. L. Fuller was appointed a committee of one to inquire into weaknesses of County Associations, Agricultural Societies and the N. S. F. A. due to faulty relations between these groups, and to propose remedies to increase the prestige of the N.S.F.A. A resolution was passed, urging that the Assessment Act be amended to provide that should the Municipal Council be dissatisfied with the decision of the General Assessors they may refer it back to the General Assessors for amendment.

ELECTION OF OFFICERS

Election of officers resulted as follows:

President—Johnson Cameron, Stellarton.

Vice President—Rev. R. L. McDonald, St. Peters.

2nd Vice President—Walter Churchill, Yarmouth.

Directors—C. A. Munn, Leitches Creek; A. N. Griffin, New Minas; Harry Eadie, Antigonish; V. B. Leonard, Clarence; A. W. Hebb, Bridgewater.

Representatives on prov. Exhibition Commission—S. A. Logan Amherst; Wm. O'Brien, Windsor Forks.

Auditors—J. M. Trueman, Truro; J. P. Landry, Truro.

Legislative Committee—J. Howe Cox, Cambridge Sta.; Wm. O'Brien, Windsor Forks.

At the meeting of the directors Chas. R. B. Bryan, Truro, was re-appointed Secretary-Treasurer.

Votes of thanks were unanimously extended to the Town of Bridgetown and Board of Trade, M. W. Graves & Co., Banner Fruit Co., O. S. Dunham, Bridgetown Monitor, and the Dominion Atlantic Railway.

The closing speaker of the session was Dr. M. Cumming, of Truro, who spoke on Fertilizer and other matters of interest.

The 25th Annual Convention which was considered one of the most successful in the history of the Association closed at 11.30 a. m.

The place for holding the next annual meeting was left as usual to the executive who will decide it in the early autumn.

Hard Coal May Cost Less Soon

MONTREAL, Jan. 25—About the first of March a reduction of three or four dollars a ton in the price of hard coal may be expected, according to a prominent fuel merchant this morning.

The heavy freight and the exchange, however, will prevent anything like a drop to the old levels.

"CASCARETS" TONIGHT FOR CONSTIPATION

Just think! A pleasant, harmless cascarer works while you sleep and leaves your liver active, head clear, stomach sweet and bowels moving as regular as a clock by morning. No tripping or inconvenience. 10, 25 or 50 cent boxes. Children love this handy cathartic too.

Minard's Liniment for sale everywhere.

Returning to Bridgetown

Frederick M. Mayor,
THE EMINENT TORONTO
EYE SPECIALIST
Is Returning for 3 Days, February 15th, 16th and 17th

HE LOOKS INTO THE EYE

Owing to the remarkable success of this specialist during his recent visit to Bridgetown and the many requests for his services since his departure, I have engaged Mr. Mayor, the eminent Toronto Eye Specialist, for a return visit and his wonderful "Luminoscopy Shadow Test System." He will at the same time demonstrate this wonderful system to all who wish to consult him Free of Charge. Those with defective vision, headaches, or who suspect eye weakness, or those old chronic hard cases who have yet to receive entire satisfaction, should avail themselves of this rare opportunity of consulting an eye specialist of the QUALITY and PROFICIENCY of Mr. Mayor.

Mr. Mayor's recent success here proves his ability to you.

Make an appointment for any morning, afternoon or evening.

Remember Eyes Tested Free. Satisfaction Guaranteed. Glasses only advised when needed. Children's Eyes our Speciality. Prices Moderate.

Do Not Forget These Three Great Days

Every member of Gordon Providence United Church is urged to be present at each of the three big events of next week. On Inaugural Sunday, February 6th, the congregation is to have the pleasure of meeting Rev. C. J. Crowds of the United Memorial Church (who was pastor of Grove Church at the time of the great explosion) and of listening to his messages.

On the Monday following a grand rally of the United Congregation is to be held from 7 to 10 in the evening, when Mr. Crowds will again speak. A very fine program is being prepared and refreshments will be served. The minister will report on the work, just completed, of the organization of the new congregation.

The third event toward which the entire church is looking forward with great interest, will be the visit of Rev. Dr. Chown, of Toronto, one of the big men in the public life of Canada, who has recently returned from a visit to the Far East and brings a message brimful of information and inspiration, on Tuesday evening at 7.30, to which the general public is invited.

NOVA SCOTIA APPLES

Canadian apples are now arriving in this country in large quantities. The Province of Nova Scotia is benefiting by an ample crop, shipments of which have just arrived at the English ports. The C. C. M. Canadian Beaver has arrived at Liverpool with 16,000 barrels of Nova Scotia apples, the Canadian Otter is due at Manchester with the same number and the Canadian Carrier has discharged a total of 18,000 barrels and 350 boxes of apples at the London docks.

Capt. H. W. Robson, seen on board the Canadian Carrier at the Surrey Commercial Docks, stated that he had made a good passage from Halifax in under twelve days, and that his cargo of apples was in very good condition; in fact, he stated, it was the best stock seen for a long time. Unloading had been completed in twenty-two working hours and breakages had been remarkably few. The apples, which have been consigned to large Convent Garden firms consists of Golden Russets, Baldwins, Greenings, Northern Spies and Ribstones, and were grown in the famous orchard district, such as Bridgetown and Windsor, N. S.—London 'Canada.'

REAL ECONOMY

In answer to an inquisitive public—No, the MONITOR'S job department did not make an error in the dates on the Town Election posters. We made an error by putting a few extra copies in last year's order. This year these extra ones have been used by pasting over last year's dates a number of figures cut from office calendars, in order to save the town the price of a new set of posters. This is real economy and original, because we feel sure that there is not another incorporated town in the Maritime Provinces that would think of such a thing. Our taxpayers MUST feel pleased, unless they have seen one of the patched-up posters we refer to, and then—well, we will leave it to them to decide.

S. S. Bruyere Lampart & Holt Line of Liverpool Eng Capt L O Everett sailed from Cardiff January 12th with 5000 tons of general cargo and 3000 tons bunker coal for Rio Janeiro and Santos Brazil; Montevideo Buenos Ayres and Rosario River Plate. This steamer will probably take up her sailings from New York about March if the rates of freight have been settled being one of a fleet of eight of the most up-to-date steamers afloat and designed especially for N Y and South American freight and passenger traffic.

Next Wednesday will be Ash Wednesday—the first day of Lent—There will be three services in the St. James Church in the morning at 10 o'clock in the afternoon (for children) at 4 o'clock and in the evening at 7.30

Hansel Hyson arrived home Thursday evening from the Sanatorium and spent a day with his mother He left on Saturday for Halifax where he will undergo an operation at Campbell Hospital.

Local Happenings

Mr J F McLaren of Digby has our thanks for late copies of Los Angeles papers.

Don't miss Saturday night's moving pictures at the Primrose Theatre This seven-reel picture will be the best yet.

The Rebekahs gave a splendid entertainment in their lodge room Monday night Proceeds for the Oddfellows' Home.

Mr Henry B Hicks spoke in the Methodist Church Lawrencetown on Sunday evening in the interest of Mt Allison Endowment fund.

A message has been forwarded Miss Willettat Round Hill of the safe arrival in Australia of the SS Cathlamet U S A lines Capt Wm Willett in charge.

The meeting of the W M A S of the Baptist Church will be held at Mrs J W Peters Tuesday Feb 8th at 3 p m A Missionary tea will be served in the usual way.

The regular monthly meeting of the Woman's Institute will be held in the Board of Trade rooms Thursday afternoon at 3.30 All members are requested to be present and bring with them notebooks and pencil.

There will be a debate in the Methodist Church Vestry next Saturday evening under the auspices of the local Tuxis Boys' Squares commencing at 8 o'clock The public are cordially invited Admission free.

Last Sunday evening in Gordon Providence United Church the entire service was devoted to the interest of the Mt. Allison Endowment Campaign. Dr Bookwith than whom there is no greater favorite in local musical circles favored the Congregation with a solo. In addition to an address by the minister Dr J B Hall of Lawrencetown delivered a very fine address. The expectation is that Bridgetown Circuit will sustain and possibly enhance its well known reputation by going over the top and taking it's objective.

SPECIAL MEETING TOWN COUNCIL

Bills Read Ordered to be Paid, With the Exception of K. Freeman's for Oil and Gas.

A special meeting of the Town Council was held in the Council Chamber Wednesday evening, January 25th, at 7.30 p.m., Mayor J. W. Salter in the chair.

The Clerk read the minutes of the last regular meeting and were confirmed. Councilors present: W. A. Warren, J. S. Moses, A. L. Anderson, M. P. Clute, Dr. A. A. Dechman.

Bills presented and ordered paid as follows: Elias Vidito \$1.40 Wm. Hartford 3.25 Ethel Davies 6.25 J. H. Hicks & Sons 73.76 K. Freeman's bill of \$134.00 was ordered paid with the exception of \$73.05 for oil and gas for Provincial trucks.

A letter from the N.S. Power Commission calling the attention of the town to the proposition of purchasing the electrical distribution plant now installed in the town and extending it to Carleton Corner. The matter was discussed in an informal way, and on suggestion of the Mayor was laid over to be taken up by the incoming Council to ascertain from the N.S. Power Commission further particulars in order to deal with the matter in the most feasible manner.

Moved by Councillor Anderson, seconded by Councillor Moses and passed that the resignation of H. B. Hicks and C. B. Longmire as revisers be accepted, and that F. E. Bath and A. B. MacKenzie be appointed revisers in their place.

A number of applications for policemen for the Town of Bridgetown were read and carefully considered. Moved by Councillor Moses, seconded by Councillor Dechman and passed, that James Goldsmith's application be received, provided that he will look after the electric light system when taken over by the Town of Bridgetown, in addition to the other duties specified in his application, and the Police Committee was instructed to interview Mr. Goldsmith forthwith to effect an agreement with him and determine the time when he shall go on duty as policeman.

The Mayor, in a cordial and positive manner, expressed his pleasure in the harmony with which the duties of the Council have been taken up and performed during his regime of office.

On motion of Councillors Dechman and Warren, a vote of thanks was tendered the retiring Mayor for the efficient and courteous manner in which he had presided over the Council meetings during his term of office. Council adjourned.

J. E. LLOYD, Clerk.

Probate Sale

In The Court of Probate 1921

Province of Nova Scotia, County of Annapolis. In The Estate R. Allen Crow, Deceased.

To be Sold at Public Auction on the premises at Bridgetown, in the County of Annapolis, on MONDAY, the 7th day of March, A. D. 1921, at two o'clock in the afternoon, pursuant to a license to sell granted herein by the Court of Probate for the County of Annapolis on the 27th day of January, A. D., 1921:

ALL the estate, right, title, claim, property and demand which the said R. Allen Crow had at the time of his death in and to all those certain pieces or parcels of land and premises situate, lying and being in Middleton, Bridgetown and Annapolis Royal, in the County of Annapolis, bounded and described as follows:

1st LOT. Situate in Middleton, aforesaid—Beginning at the corner of School Street and Station Street, thence south along west side of School Street one hundred feet, thence west eighty-two feet and six inches north parallel with School Street to Station grounds, thence east along south side of Station grounds to place of beginning.

2nd LOT. Situate in Bridgetown, aforesaid—Beginning at the east side of Queen Street on the line dividing property formerly owned by Joseph Buckler and now owned by Frederick Primrose, and running east on said line thirty-seven feet, thence turning and running south on a line parallel with Queen Street, until it comes to the line between the property herein described, and property of the late Richard James Esquire, and now occupied by Angelina C. James, thence west on said line to Queen Street, thence north along said Street to place of beginning.

3rd LOT. Situate in Annapolis Royal, aforesaid—Beginning on Saint George Street, at the western corner of Charles Dargie's land, thence running north-westerly along said Saint George Street twenty-one feet, thence north-easterly parallel with said Dargie's western line fifty-two feet, thence south-easterly twenty-one feet to the northern corner of said Dargie's lot, thence south-westerly along said Dargie's western line fifty-one feet to the place of beginning, together with a right of way from Saint Anthony Street to the rear of said lot, subject to gates and bars.

TERMS—Ten per cent deposit at time of sale, balance on delivery of deed. GORDON W.CROWE, Executor.

Dated at Middleton, N. S., the 27th day of January, A. D., 1921.

REMNANTS: Hundreds of yards of Dress Goods, Gingham, Prints in Remnants at money saving prices.

These Prices Hold Good While Stock Lasts.

JOHN LOCKETT & SON

February 1st, 1921

Our business year closed on January 31st. We propose starting our new business year with a spirit of

OPTIMISM

Owing to declining prices we will get hit rather heavy, on goods bought at the high prices, yet we hope to weather the storm and win out in the end.

To meet present conditions we have decided to continue a

Discount of 20 Per Cent

on all lines of Dry Goods, Boots and Shoes. We will not guarantee the discount later than February 15th.

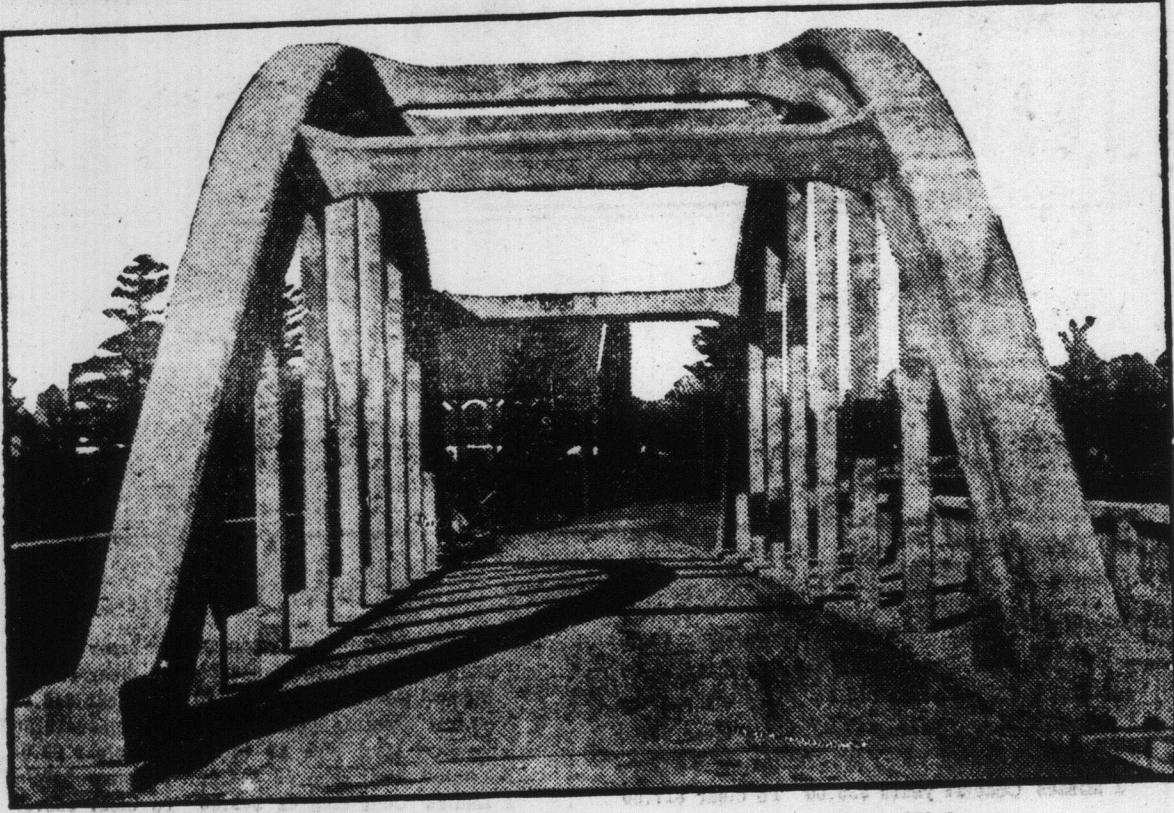

Terms Strictly Cash

Respectfully

SHAFFNERS LTD.

LAWRENCETOWN

Concrete in Bridge and Road Building

Some of the Concrete Work on the Toronto-Hamilton Highway.

The Toronto-Hamilton Highway linking Toronto with a population of about 600,000 and Hamilton with about 110,000, skirts the shores of Lake Ontario for half its length and passes through a section of Ontario rich in historic association as well as scenic beauty.

It was begun in 1914 to relieve a very serious condition of unemployment in the urban centres which followed the entering of Canada into the Great War. The work was placed in the hands of a special Commission consisting of Mr. Geo. Frank Beer, Chairman, Mr. G. H. Gooderham, Mr. W. S. Davis, Mr. R. H. Lush, Mr. M. C. Smith, Mr. T. W. Jutten and Mr. H. Bertram. On account of the relief feature the Commission decided to carry the work on by day labor. Original plans called for a cement concrete roadway six feet in width but the minimum width was increased to 18 feet before laying of concrete was begun and later increased to 24 feet on the five miles nearest Toronto. The minimum width of sub-grade is 26 feet and earth shoulders have been provided except in special instances where broken stone has been added. More than fifty bridges and culverts have been replaced by modern reinforced concrete structures designed to carry a minimum clear width of roadway of 26 feet. Four of the larger reinforced concrete structures are of the so called truss type. The largest clear span is 120 feet, probably the maximum span for bridges of this type on this Continent.

The route followed was not previously the one most travelled between Toronto and Hamilton. Part of it was sandy and for that reason used in bad weather but much of it was little more than a trail, the travelled

portion being only ten or twelve feet in width. Maximum grades of eleven per cent have been reduced to four per cent.

A traffic census taken just before construction was begun showed a total of 526 vehicles per day on the most heavily travelled portion, including three motor trucks. On the busiest days now the traffic exceeds 8,000 vehicles, the average being about 3,000 and the average motor truck traffic about 400 per day. The road is kept open throughout the year in spite of rather severe snow storms. It was not closed for a single day during last winter.

Farmers living fifteen miles from the Toronto market who formerly made three trips by team per week by being up early and late now leave home at eight in the morning and make 12 trips per week by motor trucks in comfort. Many of the farmers sell all of their market produce at their own gates to the motorist and some of them six miles out of the highway, haul it to the wayside and community markets which have been encouraged by the Commission.

A conservative estimate based on a partial investigation shows an increase in land values of 6 million dollars since the highway was first projected. Excellent homes are being built all along the road as districts 30 miles out are nearer in point of time than those 5 miles out before the improvement.

The use of a comparatively high priced surfacing, cement concrete, has been justified by very low maintenance figures. Regardless of the great increase in traffic and in the cost of materials and labor, the cost per mile of maintenance on the concrete roadway was less in 1919 than

in any previous year since construction was completed.

An interesting case of the use of concrete in bridge building occurred in the double tracking of the North Toronto Sub-division of the Canadian Pacific Railway between Leaside and North Toronto, which involved the replacement of bridges known as 0.9 and 1.8.

The bridges were constructed of reinforced concrete, and are a triumph of railway construction work, No. 0.9 being 336 feet long and 90 feet high, carrying two tracks and No. 1.8 of similar dimensions but a three-track structure. The length of the individual spans and the details of their construction are unprecedented in the engineering world. Previous to this no reinforced concrete beam with a length of more than about 25 feet had been attempted; the spans of these two C. P. R. structures are each from 35 to 37 feet long.

The method employed in the erection of the reinforced concrete spans is a specially interesting feature of the structures. Each slab as a unit weighed 56 tons, which was the limit load that could be handled by the C. P. R. 100 ton standard wrecking cranes. The crane engaged handled no less than 110 slabs, each 55 tons in weight, or in all something like 6,000 tons, and all this was done without a single mishap to either men or material. Another remarkable feature is that both structures were built without interruption from June, 1917, to July, 1918, which was a shorter period than would have been required to manufacture and erect similar structures in steel. Passenger and freight traffic on the C. P. R. main lines were continued throughout the construction during the progress of these interesting works.

You can't convince us that a novel is interesting unless the hero and heroine get married in the last chapter and live happily ever after!

DANDRUFF GOES! HAIR STOP! FALLING

Immediately after using "Dandruff" you can not find any dandruff or falling hair, but what pleases you is that your hair seems twice as abundant; so thick, glossy and just radiant with life and beauty as a 25 cent bottle now. Have lots of long, heavy beautiful hair.

A dressmaker may not have a graceful form, but she knows how to make up for it.

STOMACH TROUBLE, GASES, INDIGESTION

"Pape's Diapensin" is the quickest, surest relief for Indigestion, Gases, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs only few cents at drug store. Millions helped annually.

Marriages opens a few eyes and many purposes.

Father Time is no gallant; he always tells on a woman.

Rested Feet, Sore Feet, Tired Feet, Burning and Aching Feet

After a hard day's work or a long tramp and your feet are completely damp and your feet are hot, rub them well with MINARD'S LINIMENT. It will relieve you and you will never be without a bottle.

Nova Scotia and Her Arms

A movement is on foot in Nova Scotia for the restoration of the original armorial bearings of that province in place of those adopted at Confederation. Most Canadians are unaware that in 1621 King James I. of England, and VI. of Scotland, as King of Scotland, and as a Scottish monarch, granted to Sir William Alexander (afterwards Earl of Stirling) the territory now forming the whole of the Provinces of Nova Scotia, New Brunswick, and Prince Edward Island, and parts of Quebec and of the present State of Maine, on the sole condition of paying annually "one penny of Scottish money, if so much as the dexterity of the support of the grant being that Sir William might carry out a project he had in mind of making of this vast territory a New Scotland in America, as there was already a New England and a New France.

The story of Sir William Alexander and his efforts to carry out his great project is beside the present purpose. It all came to little enough at the time but bore fruit as we know long afterwards. Royal encouragement to the scheme given by King James was continued and amplified by his son and successor, Charles I., and among other marks of favor the last named sovereign made a grant of arms to Nova Scotia in these terms: Silver, a cross of St. Andrew blue with an in-escutcheon of the Royal Arms of Scotland, Crest, on a wreath a bunch of laurel and a thistle issuing from two hands, the one hand being in armor and the other naked. Supporters, on the dexter side the Royal unicorn silver, horned, maned, and hooped gold, imperially crowned, gorged

ARMS GRANTED TO THE COLONY OF NOVA SCOTIA BY KING CHARLES I

The Present Arms of Nova Scotia. The arms primarily and by Royal authority to the country and not to the Knights Barons of Nova Scotia. Its use by their Order was a different matter altogether, and with quite different concomitants.

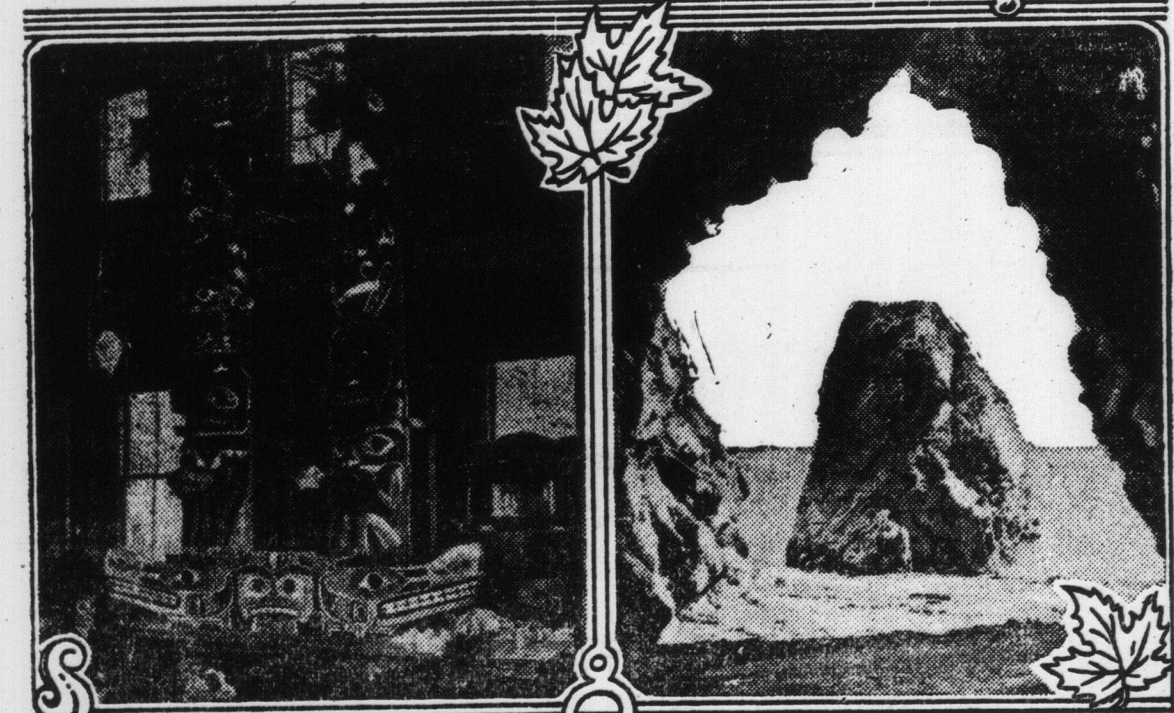

But the mistake referred to accounts no doubt in some measure for what took place in relation to the Provincial coat of arms at the time of Canadian Confederation. The ancient arms were then found "in possession" in this Province. They were displayed in the doors of the Province building, and are to be seen there still, and in the old Great Seal of the Province. But at the time of Confederation the origin and authority of these arms had been forgotten.

It was thought that the Province had little ground for using armorial bearings which (as was supposed) belonged in reality to an order of Barons. The record was not looked for in the right place, namely, in the Lyon Office in Edinburgh, where it might have been found, and so the College of Heralds in London, supposing no doubt that the field was clear, proceeded to prepare arms and a new seal for Nova Scotia as a Province of the Dominion of Canada, not moved thereto by the Provincial authorities of the day, but in opposition to their wishes. The new Great Seal was received in December, 1868, but was neither welcomed nor adopted nor proclaimed by the Lieutenant-Governor-in-Council, but pigeon-holed, and left unused for years afterwards. If the Provincial authorities had been aware of the strength of the case for the old arms it is natural to suppose that they would have had serious reasons for change, but in course of time they gave way, and allowed the matter to go by default in favor of the new arms.

But even then the ancient arms did not go wholly out of memory. The shield is still to be seen, not only on the old office doors in the Province building, but on odd pieces of jewelry of much later date, and the full achievement appears on the Bank of Nova Scotia \$10 notes, of the issue of January 2nd, 1911. In this last case, the Indian sinister supporter is shown in a sitting posture and the unicorn charging a woad the dexter side of the shield—the shield itself is of a shape characteristic of the period of debased heraldry and is wrongly marked red! All these details are wrong, but the interesting fact remains that in casting about for a suitable design for its notes the Bank of Nova Scotia selected the ancient rather than the modern arms of the Province. The Historical Societies of Nova Scotia now ask the rectification of the blunder committed when the ancient and lawful arms of Nova Scotia were supplanted by a new and commonplace design of salmon and thistles.

L. M. F.

Pictures From The West Coast of Vancouver Island

Totem Poles, Nootka Sound. Caves, Maqueua Point, Nootka Sound.

Two days out from Victoria, going north on the West Coast of Vancouver Island! One travels most of the way in the open sea with the nearest land to the left, the islands of Japan and the Siberian coast. But now and then, according to the freight destination, the ship runs up some of the loveliest waterways in the world. These are the inland passages which the Pacific has made for itself in thousands of years in a vain effort to bisect Vancouver Island. At the last, in spite of the many miles of inroads it has made, the sea always falls back discomfited, for a great chain of mountains runs down the centre of this island, and tumbles the might of the ocean—There far shall these come and no farther.

One of the most beautiful of these greening arms of the sea enters in at Nootka Sound, and curves around a score of islands, and innumerable islets, finding its winding way out through Tashish Narrows, accompanied for all its journey by clouds of gulls, cormorants, and Sitwah ducks, which circle about and dip and sway in colorful, rhythmic companies, reflected, as is everything in earth and sky, in the placid water where through which the ship

glides noiselessly.

Nootka is the oldest settled district on the West Coast of Vancouver Island, and it remains almost as it was in the beginning. In spite of the fact that there is a large modern cannery at the wharf, with every labor saving device installed, the Indians who work there live in the same kind of rude little huts that they had hundreds of years ago. Narrow winding trails lead one through dense woods, where the path is often broken by a noisy waterfall which must be crossed on a fallen log or rough boulders. Only an hour's journey from the cannery is Friendly Cove, famous on the scene of many a murder long ago, including that of whole ships' crews; and the enslaving of white men by the Indian king. Here are to be seen the remains of ancient Spanish barricades, and mounds of whitened skulls, the latter gruesome reminders of wholesale massacres.

Along the West Coast are dotted missions and mission schools, but Nootka scorns such innovations, as she does all things that go with civilization. This may be deplorable, but it makes for interest and what is picturesque. Barefooted and barelegged the old squares great ones clad in colors as gay as they can find, with their heads tied up in

brilliant kerchiefs. They chatter to one in their own unintelligible jargon, their beady eyes brightly contemptuous, their smiles infinitely patronizing. Their daughters work in the cannery. They wear the head-dress of gaudy hue, but are clad from head to foot in yellow mackintosh. Some of them are comely, most of them are uncouth, but they make a vividly colorful picture, as they crowd to meet the boats.

The old women bring baskets and mats—the former really beautiful works of art, made of rushes or the inner bark of the cedar, woven in fine and intricate designs. They sell them for a mere song, compared with the price one is asked in the cities' shops.

The chief's house stands at the right of a great waterfall, and all round it, drawn up out of reach of the water, salt or fresh, lie a score of war canoes, some in hot water, and grotesque head pieces of ravens or ducks. They are burned on the outside and highly polished, and are painted red within. Nothing can be more quaintly beautiful, nor more suggestive of the old days of tragic adventure.

ATTRACTIONS OF TWEED, ONT.

Canadians have grown more and more appreciative of the richness and variety of the different parts of our Dominion. The Province of Ontario, rich in scenic beauties, historical settings and opportunities, has parts that are distinctive—one of which is Tweed, township of Hungerford, county of Hastings. It has attractions of lake, river, hills, central location, sound business activity from a farming and dairy country and an adjacent district that is rich in promise. The situation is a happy one—just west in the rocky region of Frontenac and Addington counties, and it retains enough of the rugged along with many other scenic attractions, to make it a desired summer resort. Small islands dot the lake, give the euphonious name of "Stoco" by the early native settlers, the Mohawk and Massasaga Indians and around it is woven a mint of Indian lore and woodland vision. The winding and tree-clad shore which varies from low, gently sloping sandy beach to swiftly sloping rocky line presents every beauty that attracts traveller and tourist. Richard Woodcock settled in Tweed in 1828, and from James Jamieson, who at one time owned the village site, Tweed received its name. Born near the Tweed river in Scotland, the pioneer gave the name to an "Fleets" and some "Chimney" mines having produced quantities of gold. In the farming district, dairying gives an extensive manufacture of cheese with as many as 20 cheese factories within a radius of ten miles of the town.

The outstanding district of the township is North Hastings where are the only known deposits of mica on the continent, of a workable size, and mispikite ore as the most natural source of pure, white arsenic is of great value to the Dominion. These deposits have been thoroughly prospected during the last year and have been pronounced the largest in the country. This country is very suitable for mining development as it is well supplied with water-power and transportation facilities. The only arsenic that is produced in Canada at the present time is that obtained as a by-product from the Cobalt mines and is being manufactured on a small scale with practically all the output going to American agents so that it is difficult to buy Canadian arsenic without going outside of Canada to do so. Arsenic which is as high as 14 cents per pound has an abnormal price which cannot be maintained if the new sources of supply are developed and the serious shortage in the world's supply is drawn. A good deal of attention to this field in Eastern Ontario. The supply of arsenic in the United States has been practically exhausted and the American miners are anxious to tap the mineral resources of Canada in order to carry on their business.

As to the uses of arsenic, there has been remarkable development in the last few years. It is a poison, and its use as "Paris green" is well known, but it has been found a life-giver as well as a life-destroyer and agricultural experts have realized its potent and far-reaching possibilities as a fertilizer. A journalist, writing of the possibilities of development of this ore in Eastern Ontario states: "If North Hastings, the land of rocks and shallow farms, can supply a commodity of such value to agriculture, it will be another illustration of the wonderful provision of nature, and the strange but happy irony of events; for the barren places shall give new life to the more fruitful regions of the earth."—C. Pioneers in Peace River District
 Grande Prairie Alta.
 One August morning ten years ago, a Dominion Cabinet Minister at Ottawa interrupted for best part of a day the normal course of business to unfold to me, a sympathetic, travelling Englishman, his vision of the New North West.
 He had just returned from a long tour right through the Peace River district, up the Mackenzie Basin to Fort McPheron.
 "We have no wish," said he with emphasis, "to induce settlers to enter as yet the new Promised Land,—this, remember, was in 1911,—I speak of the future only. But I am satisfied that when the present prairie lands are all disposed of, then this back country will be taken up, because it will pay people better to secure land there than to pay the price that will be asked for the other."
 "Much work has to be done first, however. Rivers have to be made navigable and the land has to be surveyed. My journey was made to ascertain if these undertakings would be justified. And my verdict is yes. Though this land lies north, it is not appreciably colder than the southern portions of the province. At Edmonton the climate is as favorable as at the international boundary, owing to the lower altitude; and for the same reason, together with other contributory conditions, a couple of hundred miles further up country makes little difference."
 In 1914 came the railway gang, and in 1916, when its work was done, in pressed the pioneers. This year I have followed in their tracks and, reflecting on what I have seen, I endorse this wisdom.
 First, the country is of uncommon charm—great tracts of prairie, with patches of light bush, set among low purple hills, and intersected by belts of timber and by fine rivers and streams. Park-like is the descriptive term that springs to one's pen. Roses flourish everywhere by millions, and scent the air. Lilies challenge them for grace and glow. A thousand tinted grasses add soft undertones, as they ripple in the breeze. Rarely have I been so moved with visions of a country's future as when our automobile pounded along the ninety-mile trail from Peace River Crossing to Spirit River. The naked prairies of the south have their charm—at least under summer skies; but here is a country where the eye is rested and the soul inspired, while still the pocket fills.
 And the pocket does fill, sure! In some instances it puzzles one a lit-
 the how. It is not to be explained the issue of taking to each other's washing, though there is "taking in" of some sort. If the unwary stranger suffers it. But where the occupation is farming the mystery is explained. Nowhere south or east have I seen better crops, and last year this district prospered when others nearly failed. One man gleaned 120 bushels of oats to the acre, and 48 bushels of wheat. He is located about twelve miles above the Crossing and floats his grain down there in scows, freightage ten cents per bushel; and with a stream running nine miles an hour he doesn't lose much time.
 Just north of Dunvegan, on the 14th July, I planted oats, four feet high and upwards by my pocket-measure. And wheat, rye, timothy and indeed all kinds of hay, were luxuriant. A man may be no agriculturist or authority on soils, but even a fool can't mistake the evidence of growing crops.
 The pioneers, I said, are pressing in; and more than pioneers. Wise men, not merely from the East, but also from the South and West, are nosing around to pick up the "snaps" and secure their stake in what will surely—given the subjoined conditions—be a rich country. At one hotel in Peace River, in one day, there were visitors registered from Brandon, Moose Jaw, Victoria, Sacramento, Los Angeles, San Francisco, New York and London. At Dunvegan Crossing I met camping, with pack-horse, knife and gun, a pleasure-stranger who was being out in play as he worked. He was guiding his long evenings with Anatole France's "Les Deux ont Soit." What was a man of such culture doing there? Prospecting and picking up good things, you bet your life.
 And the people already settled are of the right stuff—downright, enterprising, sociable, "sports"; earnest in play as in work. Spirit River has just had a two days' sports meeting. The folk came in from as far afield as eighty miles—chiefly in autos. There wasn't a bed to be had. Men walked the street all night. Others slept in their cars or on the inhospitable floors of barns, offices and poolrooms. But nothing daunted their zeal. After a boxing contest in the late evening, a dance followed until the small hours. The sports events were numerous and dashing. Better racing and charm, offers to those who love to tramp on snowshoes or glide on skis, or hurtle down on toboggans or drive, wrapped in furs, to the jingle of sleigh-bells a choice of outdoor winter recreation such as would be difficult to rival.
 The population of Quebec revels in its glorious winter, from the cradle of the grave. Hardly can the Quebec child toddle than it takes to snowshoes and very soon after that you find it on skates or on a toboggan or on skis. As the years pass he or she joins a club and plays hockey, and many with the approach of maturity learn to yield the broom-
 and the curling stone and "soop her up." A dog sleigh is a step on the ladder to a sleigh driven by a fast trotter.
 Winter Sport is thus native to Quebec, and the guest at the Chateau will quickly find himself infected by the spirit of the place. The snowshoe clubs extend their invitations to their outings and plan to hold many of their outings on Dufferin Terrace, just at the Chateau doors. A big curling Bonspiel is scheduled for this season, in which teams from many points in both Canada and the United States will participate. Within the hotel there will be indoor golf, billiards, music and an excellent floor for dancing. The convenience of having both a skating rink and a curling rink actually within the Chateau walls need only be mentioned to be appreciated, while the toboggan slide on Dufferin Terrace and a ski-jump are within less than two hundred yards of the door of the hotel.

On Snowshoes, Skis and Skates in Old Quebec

 SPILLED BUT HAPPY
 READY FOR THE DASH AWAY
 SNOWSHOE GIRL

With the object of making Quebec the leading winter sport city on this continent, a very attractive and varied programme of matches, races and competitions, some of international character, has been arranged for the season of 1921, and visitors to this beautiful city will have a wonderful opportunity of witnessing or participating in a giddy round of ski-races, hockey games, snowshoe tramps, curling matches, skating events, indoor and outdoor festivities and entertainments all in a historic setting without parallel in North America.
 The Chateau Frontenac which is the traditional centre of the city has co-operated heartily by the contribution not only of a triple toboggan slide, a sheltered skating rink within the spacious courtyard of the hotel, and a curling rink in the Palm Court, but also of a cup for competition between local amateur hockey clubs of the city and of prizes for competition between the ski-clubs and snowshoe clubs.
 The whole city with its hilly streets, its fine public parks, its beautiful park on the Plains of Abraham, its proximity to quaint old French Canadian villages and natural scenery of spectacular beauty such as Montmorency Falls, its atmosphere of hospitality and gaiety and charm, offers to those who love to tramp on snowshoes or glide on skis, or hurtle down on toboggans or drive, wrapped in furs, to the jingle of sleigh-bells a choice of outdoor winter recreation such as would be difficult to rival.
 The population of Quebec revels in its glorious winter, from the cradle of the grave. Hardly can the Quebec child toddle than it takes to snowshoes and very soon after that you find it on skates or on a toboggan or on skis. As the years pass he or she joins a club and plays hockey, and many with the approach of maturity learn to yield the broom-

Children Cry for Fletcher's
CASTORIA
 Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.
What is CASTORIA?
 Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

MUNICIPAL COUNCIL
(Continued from page six)

REPORT OF COMMITTEE ON TENDERS AND PUBLIC PROPERTY

To the Warden and Councilors of the Municipality of Annapolis:

GENTLEMEN:—Your Committee on Tenders and Public Property beg to submit the following report for the year ending Dec. 31st, 1920:

In consequence of the increased cost of most of the supplies used in our department and the desire of your Committee to maintain where possible services in keeping with present requirements, we find an increase in practically all the departments under our charge. However, we can report some needed changes and improvements to account for a part of this increased expenditure.

We are pleased to be able to tell you that the electric light which has been installed in the County Hospital, Home, Colored House and barn, and has not only proved satisfactory but very economical. After getting an offer of \$800.00 from the Bridgetown Electric Light Co. for a complete installation, we were able, by getting the poles and building the line, through the help of Mr. Myers and his men, to reduce the expenditure by about \$175.00, making the total cost of installation about \$625.00.

The County Hospital has been, we think, well conducted during the past year, and the increase in the cost of maintenance is pretty well covered by the electric light, the increase in insurance and the additional number of inmates.

The County Home has been taxed to its utmost to accommodate those needing this protection, and at present, with 29 inmates, there are others which only the lack of room keeps them where they are not only suffering discomfort but in some cases an extra expense to the Municipality. Should these conditions continue, we will have to consider some way of increasing the accommodations for our poor.

One of the flaws of the County Home had to be rebuilt this year and some new floors put in, and we are arranging to have some new floors laid in the Colored House.

The farm has been fairly productive this year, and the following crops were raised:

Hay	45 tons
Straw	8 "
Turnips	600 bus
Potatoes	700 "
Peas	3 "
Oats	412 "
Carrots and Beets	70 "
Pork killed for use	900 lbs

SALES FOR YEAR OF SURPLUS

Potatoes	\$176.00
Straw	12.00
Cider Apples	34.60
Young Pigs	54.00
Horse for Farm	12.27
Total	\$288.87

PRESENT STOCK ON FARM

2 Horses,
12 Cows,
2 Heifers.

We have had some bad luck with our horses this year. One of the horses which you know has been failing for some time had to be removed, and another, a very valuable animal, died from lockjaw some two months ago.

We have lately purchased a fine work horse which Mr. Myers got in Halifax, and we expect to have another by spring to carry on as usual.

Our large purchase of wood last season will be more than adequate for the winter, and will allow us to economize some in our purchases this season.

We have no change to report in the heating system of our institutions.

In operating the Ferry service the past year, we again attempted to practice a reasonable economy, but finally yielded to the insistent demands of the people served for a more expensive service, with the result that a very serious deficit is confronting us, and as this Ferry service is to be continued for some months at least, we would recommend that steps be taken either to have the people in whose interest this service is maintained contribute more largely to this expenditure, or to operate a less expensive service.

Your Committee advertised for tenders on supplies for three months, also printing, with the following awards:

J. H. HICKS & SON	
Hoop, Five Hoses	\$13.50 per bbl

Shorts	\$2.60 per bus
B. N. MESSINGER	
Molasses	\$1.20 per gal
Meal	\$3.00 per bag
Brown Sugar	\$1.00 per cwt
H. H. WHITMAN	
Flour Bags	\$12.90 per bbl
Bran Bags	\$2.50 per cwt
Rolled Oats	\$4.29
XXX Sugar	\$11.45 per cwt
A. S. WILLIAMS—For Year	
Meat, Beef Forequarters	10 1/2 cts per lb
Beef Hindquarters	12 1/2 cts per lb
J. MOSES	
Mutton For Year	17 cts per lb

60 Assessment Books @ 55 cts per book	
25 Collectors' Books @ 50 cts per book	
10 Committee Books @ 50 cts per book	
10 Clerks' Order Books @ 50 cts per book	
500 Notices of Assessment	\$7.50
Printing Minutes in Paper, free.	

AWARDED

Tenders for collection of rates were awarded as follows, with names of bidders:

Ward 1, Avarid Hedges 4 p. c. I. T. Colston, Wm. Booth.	
Ward 2, M. P. Neily 5 p. c. Dr. J. Sponagle, E. R. Povers.	
Ward 3, Norman Healy 3 1/2 p. c. Joshua Banks, George Clarke.	
Ward 4, Elias Messinger 3 1/2 p. c. Abner Williams, Henry Messinger.	
Ward 5, I. F. Longley 2 1/2 p. c. Andrew Walker, Fenwick Harris.	
Ward 6, Elias Messinger 3 p. c. Henry Messinger, N. E. Chute.	
Ward 7, Roy Casey 4 1/2 p. c. Charles Haines, John Gacey.	
Ward 8, Chas. Stronach 6 p. c. Herbert Hicks, Fred S. Jones.	
Ward 9, J. H. Robinson 4 p. c. B. C. Clarke, W. W. Clarke.	
Ward 10, W. C. L. Dargie 3 1/2 p. c. A. J. Ehlin, Alex Dargie.	
Ward 11, Andrew Shaw 3 p. c. H. A. Bent, Aubrey P. Bochner.	
Ward 12, A. S. Beals 5 p. c. J. E. Shaffer, H. H. Whitman.	

Ward 13, Elbert J. Whitman 4 p. c. D. A. Whitman, Leonard Whitman.	
Ward 14, Foster Taylor 8 p. c. O. H. Ford, Walter Hebb.	
Ward 15, Grey Gillis 8 p. c. Appleton Buckler, Norman Buckler.	
Ward 16, T. H. Spinney 5 1/2 p. c. Z. S. Gates, A. Stanley Brown.	

Attached are the detailed expenditures for the different departments.

Respectfully submitted,
F. W. BISHOP,
C. L. PIGGOTT,
A. P. BOWLEY,
Committee.

REPORT OF COMMITTEE ON INSAANE	
To the Warden and Councilors of the Municipality of Annapolis County: GENTLEMEN:—We, your Committee on Insaane, beg leave to report as follows:	
We have examined the accounts of the N.S. Hospital for the past year and find that the sum of \$2922.66 was paid for the care of patients from this Municipality for the year 1920, and recommend that the sum of \$3000.00 be placed in presentation to cover the expenditures for the current year. Respectfully submitted, ANSEL CASEY, LEBANON TROOP, Committee.
