## Montreal Stock Market.

**ACTION OF MARKET EXCELLENT IN CIRCUMSTANCES — C. P. R. LED TO-DAY IN VOLUME AND IN ADVANCE — ALL STOCKS WERE FIRM.**

Montreal October 11.

The comparatively low prices reached by stocks of companies which are showing great gross earnings and substantial profits is just the position adapted for investors. They can easily get in now and will profit at the proper time. Meanwhile increased earnings guarantee normal dividends. Afterwards with money and speculative position improved, the comparatively low point at which they have bought in will be good to work from. Beyond the announcement that war had been proclaimed there was little new in the market surroundings. Money has been the subject of discussions as to whether it will be dearer the next five years or not. Some holding that the country is now upon a permanent 4 p.c. money basis, say that good 4 p.c. bonds should sell at par. The local market is acting extremely well, being bullish as far as circumstances warrant, and though undecided as is unavoidable, is on the alert for freer action. None of the ten securities of this forenoon sold badly, though Canadian Pacific was almost alone in advancing from yesterday's prices. It led the market, reaching in one small deal to 94, on higher cable quotations. Dominion Cotton also advanced fractionally. There was much activity in Royal Electric and in every case its sale price was quite close to yesterday's Toronto Railway followed the leading so closely as to fall off only 1/4 from yesterday's price. The other stocks, Twin City, War Eagle, Montreal Gas, Mont. St. Ry., Merchants' Bank and Bank of Commerce gave way very little, though they did not advance. The present market is a favorable occasion for intending investors, but the general public is taking perhaps less interest than usual just at the time when interest would be profitable.

### MORNING SALES.

Can. Pac.—175, 92 1/2. 400, 92 1/2. 2, 94. 100, 92 1/2.

 Payne x-d—500, 120.  
 Nchts Cotton. new—45, 137 1/2.  
 Bell Tel Bds—\$15,000, 115.

### THE CHAMBLY MANUFACTURING CO.

The annual meeting of the Chamby Mfg. Co. was held yesterday and was somewhat of a farce. The old board of directors, realizing they had lost control of the stock, thought they would get over the difficulty by issuing additional stock to such of their friends as they could rely on. This action was illegal and was protested against at the meeting by Mr. Forget and his friends, and although the illegality of their action was admitted by some of the directors, they stated they were prepared to stand by same. The result is that the matter will be settled in the courts, summary proceedings, we understand, having been instituted today.

### THE REPUBLIC MILL.

Mr. Clarence J. McCuaig received word yesterday that Mr. D. C. Jackling, the expert from Mercur, Utah, had arrived at Republic, where he will undertake at once the work of alteration in the mill of the Republic mine. The capacity of the mill will be increased to 100 tons daily, which is three times the present output.

### STRAWS.

The Great Northern has declared the regular dividend of 1 1/2 p.c. on the preferred stock.

Most of the zinc mines of Missouri, Kansas, have stopped work, so as to force the smelters to terms.

Beet sugar crop this year will be 110,000 tons as against 40,399 last year, and 31,871 tons in 1897-98.

Atchison is said to have sold to the Colorado Fuel and Iron Company ten thousand acres of coal lands in New Mexico for \$1,000,000.

An English report says that a financial crisis is very near in the Orange and Transvaal Republics. Transvaal silver has seriously depreciated even within the republic while in the Orange Free State the financial position is becoming acute and suspension of specie payments is expected soon. The Cape Bank refuses to honor paper from both republics.

**MONTREAL MINING EXCHANGE.**

TRADING LESS DULL — INVESTORS PICKING UP STOCKS — MARKET LOCK'S READY FOR ACTION.

Montreal, Oct. 10.

Stocks assumed a little more lively aspect this forenoon and trading on the whole was less monotonous.

In all six issues were dealt in amounting to over 20,000 shares. Big Three sold at 15½ for 3,500 shares, but these were for western delivery and not local stock.

There was a big block of Waterloo which sold at 10, it is one of the unlisted stocks and is situated adjoining the Fontenoy property, the veins are said to intermix on both properties, and new developments are said to be most satisfactory.

Montreal-London was only traded in in broken lots, 300 shares being sold for 51.

Brandon Gold Crown was traded in to the amount of 1000 shares, it sold at 28, which figure was bid for more at the close. The railway passing through this property has quite recently exposed in the neighborhood of twenty five feet of good ore in appearance. No assays have as yet been taken.

There were also sales made in Novelty and Fern, the latter selling for 2000 shares at 12, and the former at 7 for 500 shares.

Smelters returns for the ore shipped from the Evening Star yielded from \$11 to \$12 per ton 7½ was bid this morning for the stock, it might be well to pick up some round these figures.

There was some enquiry for I X L, some rich pockets of ore have been found in this mine lately and there has been considerable demand for the stock. A shipment of twenty-five tons was made to the smelter at Northport, a little while ago, and should the results be satisfactory the management state that this shipment will be followed by others.

Slocan Sovereign was steady round 37-36½ Deer Trail was a little off being offered at 21½ with buyers offering 20½.

Virtue still looks sick, but it should be bought on any further reaction. On the whole the market remains, although dull, yet firm at steady prices.

**MORNING SALES.**

- Brandon G. C.—1000, 28.
- Mont-London—300, 51.
- Waterloo—20,000, 10.
- Novelty—500, 3.

# NEW YORK EXCHANGE.

**ON BANKS HESITATING ABOUT GOVERNMENT RELIEF MARKET BROKE — STEEL AND B. R. T. HAD PREVIOUSLY BEEN FIRM — HESITANCY THE DOMINANT FEATURE.**

New York, Oct. 11.

Dow Jones has a special from London saying that war has been declared with the Transvaal. This will not come in the nature of a shock to the market, as the publication of the Boers' ultimatum yesterday was recognized as putting an end to any chances for peace.

Apparently the war has been pretty well discounted in London. There are no indications of panic, in fact, the Americans after opening strong declined only moderately and prices are now about our parity.

Probably the Room will pay very little attention to the news that war has been declared.

The dominant influence on prices is likely to be the determination of the treasury department not only to anticipate the interests on the November coupons, but also anticipate the payment of interest in all bonds up to June 30th, 1900. A discount of about 1 1/2 p.c. per month will be charged for the anticipation.

It is believed that within the next week the anticipation of the November coupons will relieve the money market to some \$3,000,000. The total relief to market will, it is believed, extend to about \$10,000,000.

Bankers express great satisfaction at the action of the government and believe that in six or ten days the stringency in the money market will practically disappear. An increase in the speculative activity is consequently looked for.

St. Paul has broken another record. Earnings, first week of Oct., increase \$69,702.

Business of the railroads in the West is said to be phenomenal and complaints are generally that a car famine is practically certain.

New York (noon) Oct. 11.

Although all hopes for peace have now disappeared and it is only a matter of a few hours before actual hostilities will break out between Great Britain and the Transvaal, the London market this forenoon is reported as being steady and in some cases Americans are actually higher than our closing prices of last night.

The Street generally was disposed to take a cheerful view of the outlook of the market, being encouraged by the strength of the London market and also believing that a decision of the treasury allowing anticipation of payments of coupons due between now and June 30th 1900, would result in materially easing money rates.

Our opening was consequently steady, although lacking in activity.

London houses traded on both sides of the market, but their transactions, light arbitrage transactions, were difficult owing to the narrowness of the London market. There still seems to be a somewhat bullish feeling on the Steel stocks, the largest dealings being in F. S. and A. S. W.

There was pressure on Atch. pfd. B.R.T. was strong on buying and bidding up by a large Broad Street house, but finally yielded in sympathy with rest of market. The reason for the reaction, balance market was the uncertainty which exists in reference to the action of the banks in the matter of anticipation of the government coupons. Many leading bankers are reported to have said that it would not be to their interest to pay 2 1/2 p.c. for the anticipated interest on government bonds. The idea is that should anything like \$20,000,000 be turned loose in the money market, rates

would quickly fall away and would possibly return to the level which existed some 2 or 3 months ago.

There is a suspicion that although the banks have done some talking about requiring relief they are not nevertheless altogether dissatisfied with the existing rates. It is not probable they could not make money on the difference between the rate charged by the government and the rate which they could use the money paid out on the anticipated coupons, but they would lose most heavily in the difference between existing rates and the rates which would be made as a consequence of the larger supply in the money market. When it became known that the banks were hesitating the market sold off and at present is inclined to be heavy.

**NEWS OF THE MINES.****VANCOUVER NOTES.**

Vancouver, Oct. 8.—News has been received from London, England, that the Le Roi Mine will probably pay a dividend this month, the first since the English company took it over. Lord Ernest Hamilton has written as follows to the Atlin press: "Has it come to your knowledge that there is a disposition on the part of certain individuals to jump claims which we have acquired by fair purchase. It has occurred to me that it might be of interest to your readers to learn what the effect of such action would be. We are here representing a strong London company. If the preliminary examinations of our claims is satisfactory that company is prepared to work them on a scale equal to that of the Treadwell, but if frivolous obstacles are placed in the way of our obtaining Crown grants, and undisputed titles, we shall simply wash our hands of Atlin and turn our attention elsewhere."

Atlin reports state that Muir and Harrigan, who are working Nos. 7, 8 and 9 benches below Discovery on the south side of Pine, had their sluice boxes robbed. They are working 12 or 14 men. The night shift had been at work for a good many hours, and judging from former cleanings, there must have been from 20 to 30 ounces of gold in the boxes. No clue has been found. It is the first crime of the kind in the district.

From Fort Steele reports have been received of three important bonds—for example, the Workman, situated near the summit of the Sawyer's Pass, about 22 miles from Crawford Bay, has been bonded by D. W. Moore, of Trail, for 240,000. It is understood the deal was made on behalf of the Canadian Pacific Railway officials.

Mr. Moore has also bonded with William Millican and Hugh McCool, the Enterprise Mineral claim, located on the west fork of the St. Mary's river, about five miles south of Sawyer's Pass. The consideration is \$20,000. Mr. Thomas G. Holt, of Vancouver, representing Mackenzie & Mann, on the Coast, has bonded Mr. Urquhart's property on the west fork of the St. Mary's river, the consideration was \$30,000.

A Mr. Loxly has taken up a bond on behalf of backers of \$15,000 on the Try Again claim on Four Mile Creek about 10 mile from Fort Steele. The directors of the Fern Gold Mining Company, held a meeting in Nelson the other afternoon for the purpose of considering the report of Mr. J. E. Hardman upon the company's property, and the plan of development. The report stated that the efforts of the management to find the lead after encountering the fault had failed. The work referred to was done prior to May last and consequently the present management is not responsible for it.

Cross cuts are now being driven to find the lead on the opposite side of the fault.

**CRIPPLE CREEK NEWS.****LAST DOLLAR.**

Further details of the strike made on the north end of the Last Dollar by Sexton and Burris, which was mentioned in this column by your correspondent a few days ago, show it to be one of the extraordinary rich finds which have made the camp famous the world over. At a depth of 150 feet the losses started to crosscut both east and west. Two veins were encountered about 125 feet apart. The first values obtained were little more than pay, but further drifting has resulted in the opening of ore shoots on both leads. The west vein is the richest. It is generally believed to be the extension of the Lafayette, Ruby, Lucky Guss and Orpha May ore shoots. There is now exposed from eight to ten inches of mineral, of which an ordinary ore sack sampled today gave the remarkable returns of 54.96 ounces to the ton. The test was made on fully sixty pounds of ore. Three assays made at the same time gave even higher values. These were 97 ounces, 13 ounces and 452 ounces. Alongside of the rich streak there is three feet of mineral. It assays five ounces to the ton. The east vein is wider. It measures six feet from wall to wall. Two assays only have been taken and they give 4.21 ounces and 4.80 ounces to the ton. It seems improbable that, only a pocket should have been entered on both sides, but this development work can determine, either, if permanent, will prove a bonanza.

**ALHAMBRA.**

While direct confirmation of the strike on the Alhambra claim is lacking, the information gathered pronounces it authentic. The Alhambra is owned by a few people, and is not a stock company. An owner states that the lessees have been expecting to strike the vein for some time. This claim is one of the early locations of the camp, and some of the richest surface float has been found on this ground, which has led to an effort to locate the vein, which is believed to be very rich.

On the strength of the report of this strike the Pappoose stock has advanced rapidly, selling as high as Alhambra. The ore body in the Alhambra runs northwest and southwest, and therefore the owners will work in the direction indicated in the vein. It is also believed that the vein touches the Flower of the West vein.

**PINNACLE.**

The Pinnacle, on the north slope of Bull hill, can now safely be placed among the regular dividend payers of the camp in a very short time. Three train loads of ore from the Whip and Glen lease of the Lansing, owned by this company, left the district recently. While the returns from the same have not as yet been received, it is believed that two carloads will run \$740 to the ton and that the entire shipment will average from five and a half to six ounces to the ton. Recent development work is proving the vein a greater producer than ever. It is understood that the lessees on the Lansing propose to put down a new shaft. The lease has only about nine months to run, but they believe that without additional workings, it will be impossible for them to get out in this limited time what ore will be in sight after the fourth level is driven in shaft No. 2.

# CHICAGO MARKET.

OPENINGS WERE STRONG — MARKET WEAK NEARLY ALL DAY — HALF AN HOUR BEFORE CLOSING THERE WAS A RALLY WHEN PRICES ROSE — WAR NEWS SAID TO BE THE CAUSE.

Chicago, Oct. 10.

From Liverpool comes word that the political situation is causing anxiety, wheat is  $\frac{1}{2}$  higher, spot dull but futures firm. Corn  $\frac{1}{2}$  higher, with steady demand. Chicago estimated receipts today: Hogs, 25,000; cattle, 14,000. N. W. cars 760, as against 926 last week.

Schwartz, Dupce & Co., were liberal buyers of wheat on the market opening today, and selling had to a considerable extent the character of selling against calls. Openings were strong and were succeeded by sales which had no very decided character. They on receipts of cables that war had been proclaimed might have been expected to show more firmness. The impression is that the bulge of the last bull market has largely discounted the effects of an actual war and that on this account the war influence on grain markets will be but slight and temporary. The market is developing weakness and gives little tendency to trade even among scalpers. The first ten days of October, like so many of the month's openings furnish little stimulus to trade. Rallies about the middle of these months came and probably they will come in the middle of this month, though the immediate cause is not as yet evident.
