Weatherbe and the Honourable Benjamin Russell, the two Judges of the Supreme Court of Nova Scotia who tried the said Petition, pronounced in the above cause on the Seventeenth day of August, in the year of Our Lord One thousand nine hundred and six, in so far as the same adjudges and determines that the corrupt practices proven on the trial of the Petition herein were committed without the actual knowledge and consent of the Respondent herein; and that the said personal charges against the said Respondent be dismissed with costs, and upon the ground of the improper rejection of evidence tendered on behalf of the Appellant, having come on to be heard before this Court on the Fourth and Fifth days of October, in the year of Our Lord One thousand nine hundred and six, in the presence of Counsel as well for the Appellant as the Respondent, whereupon and upon hearing what was alleged by Counsel aforesaid this Court was pleased to direct that the said appeal should stand over for judgment and the same coming on this day for judgment this Court did Order and Adjudge that the said judgment of the said Honourable Sir Robert L. E. R. CAMERON,

I, Edward Robert Cameron, Registrar of the Supreme Court of Canada, hereby respectfully certify to the Honourable the Speaker of the House of Commons, pursuant to the Statute in that behalf, that hereinbefore set forth is the judgment and decision of the Supreme Court of Canada in the matter of the Dominion Controverted Elections Act, Election of a Member for the House of Commons for the Counties of Shelburne and Queen's, holden on the 27th October and the 3rd November, A.D. 1904.

WILLIAM S. FIELDING,

(Respondent) Respondent.

And as to the matters and things as to which, by Sections 43 and 44 of the Dominion Controverted Elections Act and Amendments thereto, the learned Judges who tried the matter of the said Election Petition would have been required to report to the Honourable the Speaker of the House of Commons, I further respectfully certify that the said learned Judges have reported thereon to the Supreme Court of Canada, as follows:—

"1. That no corrupt practice was proved to have been committed with the knowl-

edge and consent of any candidate at said Election.

"2. That the following named persons were proved at the trial to have been guilty of corrupt practices, to wit, bribery: D. C. Mullhall, of Liverpool, J. V. Dexter, of the same place, Frederick Freeman, of Milton, and Henry Tupper, of the same place, all in the County of Queen's, being parties named in the particulars filed herein.

"3. That there were no reasons for believing that corrupt practices extensively pre-

vailed at the Election.

"4. That they are not of opinion that the enquiry into the circumstances of the said Election has been rendered incomplete by the action of any of the parties thereto."

I further respectfully certify that the report of the said learned trial Judges has been left unaffected by the decision of the said Supreme Court of Canada.

Dated this 9th day of October, A.D. 1906.

E. R. CAMERON, Registrar.

HALIFAX, N.S., September 10, 1906.

Honourable R. F. SUTHERLAND, Speaker of the House of Commons.

SIR,—The undersigned Judges of the Supreme Court of Nova Scotia, who tried the Election Petition of Cowie vs. Fielding, deem it proper to acquaint you with the fact of a difference of opinion between us as to the proper authority to which to address our Certificate and Report. The undersigned the Chief Justice considers that no valid appeal has been taken, and that the Certificate and Report should be sent to the Speaker. The undersigned Judge Russell considers that an appeal has been taken and that the documents should, therefore, go to the Supreme Court of Canada, and not to the Speaker. The Statute seems to us to make no provision whatever for such a condition of things and we enclose a copy of our opinions on the question, so that you may be fully informed of the state of the case. You will learn, from these opinions, that the election was declared void, and that no appeal has been asserted from that part of our decision.

Your obedient servants,

ROBERT L. WEATHERBE. B. RUSSELL. Cowie vs.

In the matter of the Petition of Edward A. Cowie against the Honourable W. S. Fielding.

Sir Robert Weatherbe, Chief Justice, filed the following opinion:-

The only question of law or fact determined by us at the close of the trial, and the only issue tried or submitted for trial before us was whether the Election was void.

We then determined the Election was void on account of corrupt practices by agents. As will be seen by our decisions delivered in writing, it cannot be pretended we decided anything else. Nothing else was argued or discussed before us so far as I understood.

I understood at the time that the personal charges were withdrawn. Possibly "withdrawn" is not the word, but it is not pretended, I think, they were pressed or that we were urged or required by Petitioner's counsel to find Respondent guilty of personal charges.

No appeal has been taken from this only issue determined at the close of the trial

or of any matter of law or fact touching such issue.

The Election is void. This is not disputed. It is not pretended that anything can prevent an Election sooner or later. Respondent has not appealed from the decision voiding the Election. Petitioner has not appealed from this decision and does not contend that an Election can be prevented. He merely contends that delay in that Election should take place until an appeal which he has asserted can be heard.

Reading the various clauses together it is argued that it is our duty to certify to the Speaker that the Election has been set aside so that the electors at the earliest date

may choose a representative.

We are required so to certify except only in case of an appeal, and Petitioner alleges that he has taken an appeal. He admits it is an appeal from a matter in no way directly connected with our decision setting the Election aside, but he contends that it is an appeal which stays our hands and stays the hand of the Speaker till his appeal is heard.

It must be admitted that if he had paid the money required as security for Respondent's costs to the prothonotary for an appeal in general terms, he would have such right to stay the hands both of the Judges and the Speaker, though this course might require the Respondent to remain the representative of the Electoral Division.

This is the defect of the Act, if it be a defect.

What is appealed from is an alleged decision by us at the close of the trial to dismiss personal charges against Respondent. We did include such a dismissal in an order declaring the Election void. This was after our decision in writing, which contained no such dismissal had been made. We were asked to follow the form of an order made many years ago, and consented. I must admit it is a sufficient determination of personal charges, but I think no order was required or contemplated by the Act.

There is English authority—not, I think, questioned—that this dismissal of personal charges was not a matter for our determination, and though such decision may be reported by us is not final. The argument supporting that view seems conclusive.

The argument for Respondent is that because there is no appeal on an appealable matter—because at any rate there is only a partial and inchoate appeal—because there is no appeal whatever from the only matter of law or fact by us determined, viz.: that the seat is void—because of this state of circumstances—it is our duty to report to the Speaker that the seat is void.

The alleged appeal which it is asserted should prevent us from certifying to the Speaker that the seat is vacant is from a supposed decision of ours—actually inserted in an order by us—dismissing personal charges—which has been held on good authority a mere matter for our report, and not for a final decision. It has been held that we

have no jurisdiction or authority to make such final decision. We had a notice of this appeal from Petitioner—the only notice before the time elapsed for appealing. But there is a receipt for the money deposited, which was overlooked, and should be regarded as before us within the time limited for appeal.

The ground is there taken that evidence of personal charges was rejected.

I do not suppose that evidence of personal charges at a former Election was admissible, but, of course, we are not to prevent an appeal on that ground, if an appeal within the Act is asserted. How can it be said that there is an appeal if it is from an issue that was not and could not be raised or tried—an issue struck out of the record and dead at the trial. How can such an issue be raised after the trial upon which to found an appeal so as to prevent a Certificate being forwarded to the Speaker?

If no appeal within the Sections of the Act on the subject, read together, has been taken, then it is clearly our duty to certify to the Speaker. Therefore, our first duty

is to find whether such an appeal has been taken.

If the theory upon which the rejected evidence referred to was tendered was to establish an arrangement entered into at that date by Respondent and his agent for a scheme by which money should be expended at the next ensuing Election, by the agent, without Respondent's knowledge, to be refunded after the Election should be over, I failed at the trial to comprehend such a ground for its introduction. There is nothing, I suppose, to show that it was so tendered, but I will assume it was so.

And if it had been so tendered I, of course, should have rejected it on the ground that this was not evidence of the personal charges under the Petition against the present Election. I could not understand that it would have been evidence of such

charges upon any theory whatever.

And, therefore, this contention affords me no support for rejecting the Certificate

to the Speaker.

Nor would I understand that even if it were possible to certify to the Speaker that such an Act would debar me from forwarding to the Supreme Court whatever material is necessary to test any question to be raised attacking any ruling of law or

fact made by us on the trial.

I am far from saying very confidently that in the circumstances the more reasonable construction is not that which would confine us to certify and report either to the Appeal Court or to the Speaker, but I yield, though with doubt, to the argument that here where the appeal is upon one matter which is distinct and separate from that which requires a Certificate to the Speaker, though we may do what is required to promote an appeal, we are not precluded from certifying to the Speaker our determination—unappealed from—that the Election is void.

I am confirmed in the view that in the case of an appeal which does not challenge the decision declaring the seat void, it was not the intention that an appeal on some other matter should prevent the Judges from certifying to that first-mentioned determination, because it cannot be in the interest of Petitioner or the public that delay

should take place.

No one should or does, I suppose, desire in such a case that delay should be promoted. Everything is against the policy of such delay. No advantage is to be derived from it. Why should the Legislature prevent the Judges from certifying on account of an appeal not relating in any way to that matter? We should lean towards a construction so rational, wholesome, and sound in the result. Of course, if there was no room for such an interpretation it should be rejected.

Mr. JUSTICE RUSSELL filed the following opinion:-

The question has arisen whether in consequence of the appeal that has been asserted by the Petitioner in this case it has become the duty of the Election Judges to forward to the Supreme Court of Canada the Certificate and Report which would otherwise be sent to the Speaker of the House of Commons. The literal reading of the Statute favours the view that these documents must go to the Supreme Court.

The Statute provides (Section 43, Chapter 9, 1886) that "at the conclusion of the trial the Judges shall, except only in case of appeal, hereinafter mentioned, certify in writing such determination to the Speaker, appending thereto a copy of the notes of evidence," &c. The appeal referred to is inter alia an appeal "from the judgment or decision on any question of law or of fact of the Judge who has tried such petition." In this case it is contended that there has been an appeal from the decision of the trial Judges exonerating the Respondent from complicity in the corrupt acts for which the Election was declared void. This, it is argued, is a decision of a question of law or fact, or both, and the Section which provides that a Certificate and Report shall be sent to the Speaker, except in the case of an appeal, plainly implies that no such Report or Certificate shall be sent to the Speaker if there has been an appeal. This would seem conclusive against the forwarding of a Certificate or Report to the Speaker, even if it had not been enacted in 1891 by Chapter 20, Section 14, that if an appeal, as provided by said Act, is made to the Supreme Court of Canada, the Court (meaning the Election Judges), shall make the Report and Certificate required by Section 44 to the Supreme Court of Canada.

So much for the literal reading of the sections, which entirely supports Mr. Ritchie's contention. Mr. Mellish, on the other hand, asks us to distinguish between an appeal from the whole judgment, and an appeal from only part of the judgment, and to read the provision as to the Certificate and Report distributively. The effect of such a construction would be that in so far as the judgment of the Election Judges has not been appealed from, the Certificate and Report should be made to the Speaker, while in respect to any decision or judgment from which an appeal has been taken, there should be a Certificate or Report, or both, to the Supreme Court of Canada, so that the Petitioner should have the benefit of his appeal, and the Court should be furnished with the material on which it could be properly determined, without in the meantime depriving the constituency of its right to be represented in Parliament. This would, no doubt, be a happy solution of the question, and would deal out evenhanded justice to both parties to the litigation.

But I see very great difficulty in reading the Statute in this way. There is no provision for more than one certificate or for addressing the report of the Judges to more than one tribunal or authority, and the Statute plainly indicates that where there is an appeal, it is the Registrar of the Supreme Court and not the Election Judges who is to transmit to the Speaker the certificate which, if there had been no appeal, would have been forwarded by the Election Judges. It is no doubt an inconvenience to the constituency that a judgment voiding the Election, unseating the member and temporarily disfranchising the constituency, and which, not having been appealed from, is declared by the Statute to be final to all intents and purposes, should not be followed at once by a new Election, at which a Member can be chosen who will represent the electors in Parliament. But I think the meaning and purpose of the Statutes are that the whole matter of the Election Petition shall be finally disposed of by the proper tribunal before the Speaker issues his Warrant for a new Election. It is assumed that the appeal will be prosecuted with effect, and special provisions are made for facilitating its progress and for speedily putting an end to it if it is not duly prosecuted.

I am, therefore, of opinion that if there has been an appeal duly asserted in this case, such as is mentioned in the Act, the Election Judges cannot send any Certificate or Report to the Speaker, and must send them to the Supreme Court of Canada. I think, furthermore, that if the question raised by the Respondent is open to appeal, the appeal has been duly taken, and it would have been our duty to take judicial notice of it even if the Counsel for the Petitioner had not taken the very proper precaution to notify us of the fact that there had been such an appeal taken. If the Petitioner's case rested entirely upon that notification, I should have been strongly inclined to hold that the conditions had not arisen which obliged us to send our Certificate and Report to the Supreme Court instead of to the Speaker. The notification to which I refer led me to assume that the appeal was simply an appeal from the finding that no corrupt

practice had been proved to have been committed by or with the knowledge or consent of the Respondent. The Petitioner has embodied the substance of this statement in the order taken at the conclusion of the trial, but I do not think that such a negative finding is a decision that can be appealed from. It was inserted in the order against my opinion expressed at the time, followed, I must confess, by my acquiescence on the assumption that it could do no harm. But there is really no provision for such a statement in the order, and I know of no provision in the Statute for any such order as has been taken out. The formal expansion of such a statement in the order drawn up cannot make it the decision or judgment of a Court if it does not in reality and substance partake of that nature. The difference between the Certificate and the Report is as clearly drawn in the Statute as anything could well be. The things that are to appear in the Report are defined with precision and are clearly marked off from those that are to appear in the Certificate. The consequences attending the inclusion of things in the Certificate are different from those following from their embodiment in the Report. The determinations certified in the former are final to all intents and purposes. No such provision is made with reference to the statements embodied in the Report, and it is only by virtue of expressed legislation, contained in another Statute, that any penal consequences whatever follow from anything that appears in the Report. The authorities for what I have said are perfectly well known to practitioners familiar with the procedure in Election cases, to whom much of what I have said will appear to be platitude. Let it suffice to quote the remark of Keating, J., in Stevens versus Tillett, L. R. 6, C. P., where he says: "I think too much importance cannot be attached to the marked difference that the legislature has made in unmistakable terms between the effect of the determination of the Judge on which he is to certify to the House of Commons and the Report which he is to make under certain circumstances. That Report has by no means the same conclusive effect given to it that is given to the Certificate as to the status of the Member."

In the case referred to, the question arose as to the effect of a statement made by Martin B. in his Report as Election Judge, "that no corrupt practice was proved to have been committed by or with the knowledge or consent of any of the candidates at the said Election," precisely the same sort of "decision" that the Petitioner is appealing from in this case, except that Martin B. followed this statement in a special Report, with a statement in reference to Mr. Tillett, the petitioning candidate, which did look like a decision on a question of fact, in these words: "The claim to the seat by Mr. Tillett was abandoned for reasons perfectly satisfactory to me, and I believe the Election on his part to have been perfectly pure." Mr. Justice Willes said as to this passage in the Report: "I understand that as having been simply an expression in handsome terms of the result of that enquiry as it affected Mr. Tillett, personally. It was not a declaration, and it could not be a declaration, that there was no evidence which could possibly be brought forward from any other source that would have affected even Mr. Tillett." Proceeding to argue that the Report was not conclusive, he seems to recognize clearly that a Report of this character does not partake of the nature of a judicial decision. "I would further observe that div. (a), div. (b) and div. (c) are to be read together. If the report be conclusive for any purpose it must be because it is a judicial decision. It must be because as observed by the Lord Chief Justice, it is a decision as to status. If it is a decision as to statute as to (a), it is a like decision as to all the other letters in the alphabet involved in the same charge. While div. (a) deals with the charge of personal bribery against the candidate, div. (b) sweeps in any charge of bribery against any other person during the Election. If the learned Judge were to report that it was not proved that any person had committed bribery during that Election, could it be said for a moment that that was a conclusive judicial decision that no person had committed bribery during that Election? This shows that the expression 'not proved' is an expression not amounting to 'not guilty,' but simply to stating that there was an absence of evidence on the subject."

The words of Bovill, C.J., are, if possible, more directly in point upon the present enquiry. He traces historically the distinction between the Certificate and the Report, referring to the Grenville Act, the sections of which draw a marked distinction between a matter which is to be determined by an Election Committee, and a matter upon which an Election Committee may report, and shows how the Report has come to have, by later legislation, important effects which it did not have under the Grenville Act, so much so that a Report finding a candidate personally guilty of bribery has in effect the same finality as one of the determinations contained in the Certificate which latter are by the Controverted Elections Act declared to be final to all intents and purposes. This finality so attributed to it, however, as res judicata does not flow from the fact of its being found in the Report, but from the express provisions of another Statute, as already stated: "If a candidate is found guilty of bribery, having had the opportunity of being heard, no doubt effect is given, but expressly given by Statute to the Report of the Judge, but there is no such enactment nor any effect given to the case where a Judge simply says by his Report that it is not proved. If the case is declared not to be proved, it leaves the matter entirely open for prosecution or to be dealt with in any other way, and no effect is given to the Report in that form. The Act of Parliament does not make such a Report of the learned Judge conclusive, and it seems to me we have no power to make it so, or to declare that the Petitioner is estopped. It is true that in this case the Report of my brother Martin, besides saying that nothing was proved, goes on to say: 'And I believe the Election was on the part of Mr. Tillett perfectly pure. \* \* \* \* How could be believe anything else on the evidence before him? That statement of belief is certainly not a matter declared to be final and conclusive; nor is it anything more than the belief of the Judge on the facts then before him. And if there is no decision on the matter which is now sought to be enquired into, his belief on the subject has no effect. There is no determination by him upon the point, but simply a Report upon what was before him."

In the present case there will be a Report, whether to the Speaker or to the Supreme Court, is the question under discussion, that no corrupt practice has been proved to have been committed by or with the knowledge of any candidate. Will it be contended for a moment that either of the candidates could not be prosecuted for penalties, were it not for the time limitation, if any, applicable to the case; or that the Respondent could not be prosecuted for the very acts of his agents for which he has been unseated if evidence could be adduced to connect him with those acts? If the statement in the Report is the decision of a Court, he certainly could not be prosecuted, limitation or no limitation. It would be res judicata. In my opinion the statement so to be contained in the Report is not a decision of any question of law or fact, but a piece of valuable information derived from the trial which the Judges are commanded to communicate to the Speaker. I think it is no part of the determination which the Judges are bound to certify, and from which, therefore, an appeal lies to the Supreme Court of Canada. The decision in Tillett vs. Stevens is express authority that such a Report has no finality and is attended with no legal consequences to anybody. The determination of the Judges at the conclusion of the trial is expressly made final to all intents and purposes. Because it is final if not appealed from, an appeal is given from it. The common sense of the matter seems to me to be that a statement which has no finality about it and carries no legal consequences, is not appealable. The legal results logically following from the views of the learned Judges in Tillett vs. Stevens may be interfered with under our Statute by its special provisions as to appeals, and I am well aware that appeals have been entertained by the Supreme Court of Canada touching the question of personal disqualification. But it may well be, consistently with the views expressed in Tillett vs. Stevens, that a Report affirming personal knowledge and consent on the part of a candidate would be an appealable decision, while a finding of not proven would be unappealable, and I think it altogether analagous to the procedure in penal cases that the Appellate Court should be able to nullify a conviction by the Court of First Instance which it could not itself have made

in the exercise of its appelate jurisdiction. If, therefore, the appeal were really limited to the matters referred to in the notice from Petitioner's counsel, I should have not much hesitation in saying that it could not, as it certainly should not in justice, prevent our forwarding the required Certificate and Report to the Speaker of the House. But my attention has been called to the terms of the receipt taken by the Petitioner for the money deposited to secure the costs of the appeal. This document may be read in the sense that the judgment is appealed from on the ground, among others, that evidence was improperly rejected which was tendered on behalf of the Petitioner. In fact it cannot fairly be read in any other sense. Now, there certainly was a decision made in the course of the trial rejecting evidence tendered by the Petitioner for the purpose of proving that the Respondent should be This evidence related to the repayment by the Responfound guilty of bribery. dent of money that had been expended at a previous Election, and it was tendered on the theory that Petitioner could by this means prove a scheme or plan by which money should be expended at the Election in question without the immediate knowledge of the Respondent, and refunded after the Election was over. This is not the occasion for discussing the propriety of rejecting the evidence. It was excluded for the simple reason that no semblance of authority could be cited, or at least no such authority was cited from the numerous reported cases either in England or Canada for its introduction. But the point is that the decision to reject this evidence was a decision on a question of law by the Judges who tried the Petition. If it was, there is an appeal asserted on an appealable question. It does not seem to me to be a good answer to this contention to say that the evidence only goes to the matter of our Report, even assuming that I am right in holding that the more negative statement contained in the Report is not appealable. The Petitioner has surely a right to contend before the Appelate Court that this evidence was improperly rejected, and that if it had been admitted the personal charges would not have been dismissed with costs. The question raised by this contention is, I think, an appealable question. The appeal thereupon is an appeal from our decision on a question of law. It is such an appeal, therefore, as is "hereinafter mentioned," to use the words of the Statute, and the consequence follows, from which I see no logical escape, that our Certificate and Report must be sent to the Supreme Court and not to the Speaker of the House.

Mr. Speaker, also informed The House, That in conformity with Chapter 9, Section 46, of the Revised Statutes, he had issued his Warrant to the Clerk of the Crown in Chancery to make out a new Writ of Election for the said Electoral District.

Mr. Speaker informed The House, That he had received from the Registrar of the Supreme Court of Canada, a certified copy of the Judgment and Report of the said Court in the Election Appeal for the Electoral District of Montreal, Ste. Anne, and the same was read and ordered to be entered in the Journals of this House, and is as followeth:—

The Honourable Mr. JUSTICE DAVIES,

The Honourable Mr. JUSTICE IDINGTON,

THE DOMINION CONTROVERTED ELECTIONS ACT AND ACTS IN AMENDMENT THEREOF.

Election of a Member for the House of Commons of Canada for the Electoral District of Ste. Anne, Judicial District of Montreal, and Province of Quebec, holden on the 27th day of October and the 3rd day of November, A.D. 1904.

Between

DANIEL GALLERY,

(Defendant) Appellant;

and

WILLIAM DARLINGTON and Cornelius Gleason, (Petitioners) Respondents.

The appeal of the above-named Appellant from the Judgment and Decision at the trial of the Petition herein of the Honourable Mr. Justice Davidson and the Honourable Mr. Justice Robidoux, the two Judges of the Superior Court of the Province of Quebec, who tried the said Petition, pronounced in the above cause on the Second day of January, in the year of Our Lord One thousand nine hundred and six. in so far as the same adjudges, determines and declares the said Daniel Gallery personally guilty of acts of corruption, having come on to be heard before this Court on the Second and Third days of October, in the year of Our Lord One thousand nine hundred and six in the presence of Counsel as well for the Appellant as the Respondents, whereupon and upon hearing what was alleged by Counsel aforesaid, this Court was pleased to direct that the said appeal should stand over for judgment and the same coming on this day for judgment this Court did Order and Adjudge that the judgment of the said Judges who tried the Election Petition herein be amended by adding to the dispositif thereof the words following, immediately after the last considérant:—

"Doth and do find and adjudge the said Daniel Gallery to have been guilty at the Election in question of paying large sums of money to the several chairmen of his committees between the day of Nomination and the day of Election, corruptly and with intent that these moneys should be paid and disbursed by these chairmen or some of them in large part at least to electors of the said Electoral District for the purpose of inducing such electors to vote for him or refrain from voting against him, or for having so voted or refrained from voting. And that such moneys or a large part thereof, were by such chairmen or some of them so paid and disbursed to such electors for the corrupt purpose aforesaid, and that in so acting and doing the said Daniel Gallery committed a corrupt act within the meaning of the Dominion Elections Act and was

in consequence personally disqualified as prescribed by that Act."

And this Court did further Order and Adjudge that as so amended the said judgment of the Judges who tried the said Election Petition should be and the same was affirmed, and that the appeal should be and the same was dismissed with costs to be

paid by the said Appellant to the said Respondent.

I, Edward Robert Cameron, Registrar of the Supreme Court of Canada, hereby respectfully certify to the Honourable the Speaker of the House of Commons, pursuant to the Statute in that behalf, that hereinbefore set forth is the judgment and decision of the Supreme Court of Canada in the matter of the Dominion Controverted Elections Act, Election of a Member for the House of Commons of Canada for the Electoral District of Ste. Anne's, Judicial District of Montreal, and Province of Quebec, holden on the 27th October and 3rd November, A.D. 1904.

Between

DANIEL GALLERY,

(Defendant) Appellant;

and

WILLIAM DARLINGTON AND CORNELIUS GLEASON, (Petitioners) Respondents.

And as to the matters and things as to which, by Sections 43 and 44 of the Dominion Controverted Elections Act and Amendments thereto, the learned Judges who tried the matter of the said Election Petition would have been required to report to the Honourable the Speaker of the House of Commons, I further respectfully certify that the said learned Judges have reported thereon to the Supreme Court of Canada, as follows :-

"Province of Quebec, "District of Montreal.

#### "In the Superior Court.

"At a Court holden on the 2nd of January, 1906, at the City of Montreal, for the trial of an Election Petition in respect of the Election of a Member for the House of Commons for the Electoral District of Ste. Anne, before the Honourable Mr. Justice Davidson and the Honourable Mr. Justice Robidoux, Judges, pursuant to the Dominion Elections Act and Amendments thereto.

"WILLIAM DARLINGTON and C. GLEASON, "Petitioners;

"and

"DANIEL GALLERY,

" Respondent.

"The Registrar of the "Supreme Court of Canada.

"SIR -By reason of the appeal taken in this matter to the Supreme Court of Canada and in pursuance of 54-55 Victoria, Chapter 20, Section 14, we, the said

Judges do hereby report and certify, to you as follows :-

"The trial of the Petitioners against the Respondent, Daniel Gallery, came on to be tried before us on the 30th of October, 1905, and on succeeding days up to the Second day of December then next, and owing to difficulties which supervened in the making up of the record, it only reached us on the 22nd day of December, 1905.

"Respondent was the first witness called to the box, and he admitted the personal disbursement of \$7,000 for the promotion of his Election. The statement rendered by his legal agent, M. J. Walsh, to the Returning Officer, only amounted to \$291.35, and these initial facts, coupled with the further evidence of Respondent of the manner in which he paid out thousands of dollars between nomination and polling days and as to his knowledge of payments made to hundreds of electors, so affected all the subsequent disclosures that neither his Counsel nor those for Petitioners felt prepared to argue and seek judgment upon any particular charge. To the end the evidence of the Election, even for corrupt practices by agents, was resisted;

"These are the causes for the length of the trial and of the evidence adduced;

"We determined that the Election was void by reason of corrupt practices committed by the Respondent personally and by and through his agents, in some instances with and in others without his actual knowledge and consent, and we ordered Respondent to pay the costs saving the costs attendant upon the production of certain witnesses which we put upon Petitioners;

"We further report and certify that :-

"(a) That corrupt practices in the nature of bribery and colourable employment prevailed extensively at said Election.

"(b) That the enquiry into the circumstances of the Election was not rendered

incomplete by the action of any of the parties to the Petition.

"We further certify that the following persons were proved at the said trial, according to our judgment, to have been guilty of corrupt practices:-

- "Francis McCabe, Paul Hinphy, H. Durocher, the said Daniel Gallery, M. Fitzgerald, John Colfer, Ed. Redmond, Thomas Murphy, L. Jehu, T. Guilfoyle and A. Elliott.
- "We send herewith a copy of the notes of evidence at the trial and of our adjudication thereon.
  - "Montreal, 15th January, 1906.

"C. P. DAVIDSON, J.S.C., "J. E. ROBIDOUX, J.S.C."

I further respectfully certify that the Report of the said learned trial Judges has been left unaffected by the decision of the said Supreme Court of Canada, and I further respectfully certify that appended hereto is a printed copy of the notes of evidence and all other papers and documents forming part of the case.

Dated at Ottawa, this 15th day of October, A.D. 1906.

E. R. CAMERON,
Registrar.

Mr. Speaker also informed The House, That, in conformity with Chapter 9, Section 46, of the Revised Statutes, he had issued his Warrant to the Clerk of the Crown in Chancery to make out a new Writ of Election for the said Electoral District.

Mr. Speaker also informed The House, That he had received from the Registrar of the Supreme Court of Canada, certified copies of the Judgments and decisions of the said Court in the matter of the Appeals made from the decision of the trial Judges in the Lower Courts relating to the Electoral District of Halifax, and the same were read and ordered to be entered on the Journals of this House, and are as follow:—

Mr. Speaker reported, That when The House did attend His Excellency the Governor General, this day in the Senate Chamber, His Excellency was pleased to make a Speech to both Houses of Parliament, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which he read to The House, as followeth:—

Honourable Gentlemen of the Senate:

#### Gentlemen of the House of Commons:

In opening the third session of the Tenth Parliament of Canada, I avail myself of the opportunity to offer you my congratulations on the unparalleled prosperity prevailing in all parts of the Dominion. The harvest has been abundant, and the trade with both British and foreign nations continues to expand in annually increasing volume, with every prospect of continued growth for many years to come.

The number of immigrants seeking homes in Canada continues yearly to increase, and it is very satisfactory to observe that a larger proportion than in any former year has in the past season come from the British Isles.

During the recess following the last session, I visited the four western provinces, and was much gratified to note the great advance that is being made in the development of the vast resources of those highly favoured sections of the Dominion. I found the people of the West rejoicing in their prosperity, and full of hope and confidence in the future growth of its agricultural and industrial wealth.

The quinquennial census recently taken in the Provinces of Alberta and Saskatchewan shows that those Provinces are now entitled to an increase in their representation in the House of Commons. A Bill giving effect to that provision will be submitted for your approval.

In accordance with the announcement made in a previous session, you will be asked to consider a Bill for the revision of the Customs tariff.

Your Committee have considered that portion of the Petition of the Canadian Pacific Railway Company which asks for power to vary the location of their authorized branch line from a point on the Stonewall-Teulon branch to the shore of Lake Manitoba, reported by the Examiner of Petitions as not being covered by the Notice, and they are of the opinion that as the proposed variation in the line is not important, and no other privileges are being asked for in connection therewith, the publication of Notice is not called for.

Your Committee have also considered the Petition of the Great West Railway Company, for an Act to extend the time for the construction of their railway and for power to construct certain branch lines, and the Report of the Examiner of Petitions in reference thereto to the effect that the Notice had not been published in all the "districts" affected thereby; as there was considerable divergence of opinion on the part of members of your Committee as to the exact meaning of the word "district" as used in that part of the country, your Committee were unable to determine whether the Notice should strictly speaking have been published more extensively than it was; but, as it was very extensively advertised in the particular locality in which it is intended to do the greater part of the construction, they are of the opinion that the Notices as published are sufficient.

The Clerk of the House laid on the Table the following Private Bills:-Bill respecting the Canadian Pacific Railway Company.-Mr. Guthrie; and Bill respecting the Great West Railway Company.—Mr. Galliher.

Mr. Speaker informed The House, That the Clerk of the House had laid on the Table the Thirteenth Report of the Examiner of Petitions, which was read, as followeth:-

Pursuant to Rule 95, Section 2, the Examiner of Petitions for Private Bills has

PRAYERS.

The following Petition was brought-up, and laid on the Table:—By Mr. Bickerdike,—The Petition of the Council of the Montreal Board of Trade.

Pursuant to the Order of the Day, the following Petitions were read and received:—

Of William McCluney and others, of Furnace Falls and other places; of J. F. Gullen and others, of Grand View and other places; and of Arthur Tolton and others, of Minett and other places, all of Ontario; severally praying that the bounties to iron and steel manufacturers may be discontinued after 30th June next.

Mr. Wright (Renfrew), from the Select Standing Committee on Standing Orders, presented to the House, the Fourth Report of the said Committee, which was read as followeth:—

Your Committee have considered the Petition of Charles Laurendeau and others for an Act of Incorporation under the name of the Ontario and Quebec Railway Ferry Company and the Report of the Examiner, dated 17th December last, in reference thereto and beg leave to recommend:—

1. That the proposed Company be restricted in their operations between any points within the limits of the Parish of Montreal and County of Hochelaga on the north side, and any points in the County of Chambly on the south side of the River St. Lawrence, being the only districts within which notice was duly given.

2. That the right to operate steamboat lines should be restricted to such as are necessary for ferry purposes within the limits above mentioned and for any purpose incidental thereto; and

3. That no powers of expropriation should be granted to the Company, except such as may be required for the construction of any branch or spur lines of railway which they may be authorized to construct (under the provisions of the Railway Act) for the purposes of their undertaking.

Mr. Wright (Renfrew), from the Select Standing Committee on Standing Orders, presented to the House, the Fifth Report of the said Committee, which was read as followeth:—

In obedience to the Order of your Honourable House, your Committee have considered the Petitions referred to them on the 24th and 25th instants, and the question whether the said Petitions are or are not liable to the additional charge imposed under Rule 88, 3a "when any Rule of the House is suspended in reference to a Bill or the "Petition therefor." In this connection your Committee have enquired into the practice of the House in the past as regards the receiving of Petitions presented on the last two days of the time limited for "receiving" Petitions for Private Bills, and find that prior to the year 1893 all such Petitions were read and received in the usual way, that is two days after they had been presented, notwithstanding that the time for "receiving" Petitions had expired. In the year 1893 the Petitions so presented having been read in the usual way (two days later), Mr. Speaker ruled that they could not be received, as the time for receiving Petitions for Private Bills had expired; on the following day, however, a motion that the said Petitions be read and received forthwith

was agreed to. Every year since 1893 (with the exception of the years 1895 and 1896, when the practice prior to 1893 was reverted to) Petitions presented on the last day for "receiving" Petitions (and the previous day) have been, on motion to that effect, read and received forthwith.

In view of the fact that this has been the practice of the House for the last Twelve years, and as the Petitioners had no reason to assume that any other practice would be suggested this year; and there is also some difference of opinion as to the exact meaning of the word "Received" in the 87th Rule, and as to whether any suspension of that rule was involved by the motion made on the 23rd instant to receive the said Petitions forthwith, your Committee are of the opinion that the Petitioners, who were, under the impression that they were quite within the requirements of the Rule in presenting their Petitions on that day, should receive the benefit of the doubt, and that whatever practice may be followed in the future, the Petitions presented on the last two days of the prescribed period this year, should be received without being subject to the additional charge imposed under Rule 88, 3a, for the suspension of any Rule relative to Private Bills or Petitions therefor. Your Committee therefore recommend that the said Petitions be read and received, and that they be considered as having been read and received within the time prescribed by the 87th Rule.

Mr. Wright (Renfrew) moved, seconded by Mr. Schell (Glengarry), That the Fourth Report of the Select Standing Committee on Standing Orders be concurred in. Objection being taken to immediate consideration;

Mr. Speaker directed that Motion should stand as a Notice.

Mr. Speaker communicated to the House the following letter:-

(b) withdraw the benefit of the British Preferential Tariff from any British Country (other than the United Kingdom) which has received the same, and from and after the publication of such Order in the Canada Gazette, the General Tariff or the Intermediate Tariff, as mentioned in the said Order, shall apply to goods the produce or manufacture of such British Country.

subject to the provisions of these Resolutions;

(c) from time to time, in consideration of benefits satisfactory to the Governor in Council, extend the benefit of the Intermediate Tariff, in whole or in part, to any British or foreign country the produce or manufactures of which have previously been subject to the rates of Customs duties set forth in the General Tariff, and from and after the publication of such Order in the Canada Gazette, the rates of duty set forth in the Intermediate Tariff, so far as they are mentioned in the said Order, shall apply to goods the produce or manufacture of such British or foreign country, when imported direct from such foreign country or from a British Country—subject to the provisions of these Resolutions; and

(d) withdraw the benefit of the Intermediate Tariff from any Country to which it has been extended, and from and after the publication of such Order in the Canada Gazette the rates of Customs duties, set forth in the General Tariff shall apply to goods the produce or manufacture of such country,

subject to the provisions of these Resolutions.

4a. That on and after a date to be named by the Governor in Council the British Preference shall apply only to goods brought into Canada by ship direct to a Canadian

seaport.

5. That in the case of articles exported to Canada of a class or kind made or produced in Canada, if the export or actual selling price to an importer in Canada be less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada there shall, in addition to the duties otherwise established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption; and such special duty (or dumping duty) shall be levied, collected and paid on such article although it is not otherwise dutiable.

Provided that the said special duty shall not exceed fifteen per cent ad valorem in

any case;

Provided also that the following goods shall be exempt from such special duty,

 (a) Goods whereon the duties otherwise established are equal to fifty per cent ad valorem;

(b) Goods of a class subject to excise duty in Canada;

(c) Sugar refined in the United Kingdom;

(d) Binder twine or twine for harvest binders manufactured from New Zealand hemp, istle or tampico fibre, sisal grass, or sunn, or a mixture of any two or more of them, of single ply and measuring not exceeding six hundred feet to the pound.

Provided further that excise duties shall be disregarded in estimating the market value of goods for the purposes of special duty when the goods are entitled to entry under the British Preferential Tariff.

(2) That the expression "export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

- (3) That if at any time it appears to the satisfaction of the Governor in Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor in Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.
- (4) That if the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

(5) That the Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of this section and for the enforcement thereof.

- (6) That such regulations may provide for the temporary exemption from special duty of any article or class of articles, when it is established to the satisfaction of the Minister of Customs that such articles are not made or sold in Canada in substantial quantities, and offered for sale to all purchasers on equal terms, under like conditions, having regard to the custom and usage of trade.
- (7) That such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.
- 6. That articles which are the produce or manufacture of any foreign Country which treats imports from Canada less favourably than those from other Countries may be subject to a Surtax over and above the duties specified in the said Schedule "A," such Surtax in every case to be one-third of the duty specified in the General Tariff in the said Schedule "A."
- (1) That any question arising as to any foreign Country or goods coming under the operations of the provisions in regard to the Surtax shall be decided by the Minister of Customs, whose decision shall be final:

Provided that the Governor in Council may make regulations for carrying out the purposes of this Resolution in regard to such Surtax, and may, by Order in Council, from time to time suspend the Surtax from application to the goods of any Country.

- 7. That notwithstanding anything in these Resolutions, fish and other products of the fisheries of Newfoundland may be imported into Canada free of Customs duty until otherwise determined by the Governor in Council, by Order published in the Canada Gazette.
- 8. That fish caught by fishermen in Canadian fishing vessels and the products thereof carried from the fisheries in such vessels, shall be admitted into Canada free of duty under regulations by the Minister of Customs.
- 9. That on the materials set forth in Schedule "B" to these Resolutions, there may be paid out of the Consolidated Revenue Fund, the several rates of draw-back of Customs duties set opposite to each item respectively in such Schedule, when used for consumption in Canada for the purpose specified in the Schedule, under regulations by the Governor in Council.

10. That the importation into Canada of any goods enumerated, described or referred to in Schedule "C" hereto is prohibited; and that any such goods imported shall thereby become forfeited to the Crown and shall be destroyed or otherwise dealt with as the Minister of Customs directs; and that any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offence incur a penalty not exceeding Two hundred dollars.

11. That whenever from or as a result of the judgment of the Supreme Court, or Exchequer Court of Canada or of any Superior Court or Circuit, District or County Court in Canada it appears to the satisfaction of the Governor in Council that with-regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor in Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor in Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

(2) That whenever the Governor in Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor in Council may commission or empower any Judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor in Council whether such conspiracy, combination, agreement or arrangement exists.

(3) That the Judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor in Council for the pur-

pose of such enquiry.

(4) That if the Judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor in Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor in Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

- 2. Resolved,—That it is expedient to repeal all Orders in Council placing articles on the free list or reducing rates of duties, and all other Orders in Council and departmental regulations inconsistent with any of the provisions of these Resolutions.
- 3. Resolved,—That it is expedient to provide that nothing contained in the foregoing provisions shall affect the "French Treaty Act, 1894" or Chapter Three of Fifty-eight—Fifty-nine Victoria, being "An Act respecting Commercial Treaties affecting Canada."
- 4. Resolved,—That it is expedient to provide that the provisions of the foregoing Resolutions shall be deemed to have come into operation on the 30th day of November, 1906, and to apply and to have applied to all goods imported or taken out of warehouses for consumption on or after that day, and to have also applied to goods previously imported for which no entry for consumption was made before that day except as otherwise provided in the Resolutions: Provided that goods which were imported or taken out of warehouse for consumption and on which duty was paid on or after the Thirtieth day of November, 1906, and prior to the Twelfth day of February, 1907, in accordance with the rate of duty set forth as payable on such goods in the Resolutions respecting the duties of Customs introduced in the House of Commons on the Twenty-ninth day of November, 1906, shall not be subject to further payment of duty by reason of such rate of duty having been increased by any resolution or amendment introduced subsequently to that in accordance with which such duty was paid.

And the Question being put on the amendment, so amended:—It was resolved in the Affirmative.

Then the main Question, so amended, being put; the House divided: and it was resolved in the Affirmative.

The Order of the Day being read, for the House again in the Committee of Supply;

Mr. Fielding moved, seconded by Mr. Paterson, and the Question being proposed,

That Mr. Speaker do now leave the Chair;

Mr. Smith (Wentworth) moved in amendment, seconded by Mr. Armstrong, That all the words after "That" to the end of the Question be left out, and the words "it is "the immediate duty of the Government to take such steps as are necessary to thor-"oughly ensure, so far as practicable, the safe transportation of Canadian perishable "food products from the point of production to their ultimate market," inserted instead thereof;

And objection being taken, That the amendment anticipated a Notice of Motion on the Order Paper and was consequently out of order;

Mr. Speaker decided as follows:-

"The Notice of Motion on the Order Paper in the name of the Honourable Member for Wentworth purports on its face to deal mainly, if not entirely, with regulations and appliances as to cold storage, cold air and ventilating chambers in vessels.

"The Motion now submitted by the same Honourable Member by way of an "amendment to the Motion that the Speaker do now leave the Chair for the House "to go into Committee of Supply, is one dealing with the wide and general question "of the safe transportation of Canadian perishable food products from the point of "production to their ultimate market.

"I think this is not the same question, and does not anticipate a question already on the Order Paper for consideration by the House. I therefore rule that it is in

"order."

And the Question being put on the amendment; the House divided: and it passed in the Negative.

Then the main Question being put:—It was resolved in the Affirmative.

So it passed in the Negative;

And the main Question being again proposed;

Mr. Daniel moved in amendment, seconded by Mr. Crocket, That the said Address be amended by adding thereto the following paragraph: "We, Your Majesty's "most dutiful and loyal subjects, the Commons of Canada, in Parliament assembled, "also represent, that it is expedient to amend the terms of the British North America "Act, 1867, relating to the representation of the several Provinces of Canada in the "House of Commons, so as to provide that the number of representatives of any Pro"vince shall not at any time be reduced below that which was assigned to it when it "entered the Union."

Objection being taken that the amendment was not in order,—not being germane or relevant to the main motion;

Mr. SPEAKER:—The Motion before the House deals with one specific question, the scale of payments to be made by Canada to the various Provinces. The amendment proposes to deal with the representation of several Provinces. It seems to me that it is an entirely different question, and that it is not relevant.

I would therefore rule the proposed amendment out of order;

And the main Question being again proposed;

Mr. Martin (Queen's, P.E.I.) moved in amendment, seconded by Mr. Lefurgey, That the said Address be amended by adding thereto the following paragraph:—

"That all the interest charged against the Province of Prince Edward Island in "its debt account with Canada, on account of railways under construction by the Pro"vince previous to its union with Canada, be refunded; and that no interest hereafter 
"shall be charged the Province for such railway expenditure";

And the Question being put on the amendment; the House divided: and it passed in the Negative:

And The House having continued to sit till after Twelve of the Clock on Tuesday morning;

Tuesday, 26th March, 1907.

And the main Question being again proposed;

Mr. Lake moved in amendment, seconded by Mr. Roche (Marquette), That the said Address be amended by adding the following, immediately before the last paragraph:—

"We also most humbly approach your Majesty for the purpose of representing "that it is expedient to amend the British North America Acts, 1867 to 1886, and all "relevant Orders in Council made under the powers thereby conferred; and also, the "Alberta Act and the Saskatchewan Act, being Chapters 3 and 42 of the Acts of the "Parliament of Canada, 4-5 Edward VII., so as to provide that all lands, mines and "minerals, timber, water-powers and all other of the public domain, and royalties in-"cident thereto, situate or arising within the limits of the Provinces of Alberta, Sas-"katchewan; Manitoba and British Columbia respectively, and now vested in the Crown "in the right of Canada, shall hereafter be vested in the Crown in the right of the said "respective Provinces and shall be administered by the Provincial Governments of the "said respective Provinces, subject to any trusts existing in respect thereof and to any "interests other than that of the Crown in the same, except those portions thereof now "used or occupied for the public works, public buildings, and otherwise for the public "service of Canada, which shall continue to be the property of the Crown in the right "of Canada, and so as to provide that a reasonable re-adjustment shall in consequence "be made of the grants of money hitherto provided for as compensation to the said "Provinces in lieu of the said public domain.

"And we pray that Your Majesty may be graciously pleased to cause a measure "to be laid before the Imperial Parliament at its present Session so amending the said "Imperial Acts and Orders in Council and authorizing such amendment of the said "Acts of this Parliament."

· Objection being taken that the amendment was not in order, not being relevant

to the main question;

Mr. Speaker,—It seems to me that the whole question involved in the Motion is the scale of payments to be made by Canada to the several Provinces, and that the question dealing with the land, so far as the Provinces are concerned, is entirely out of order.

I therefore rule the proposed amendment out of order.

And the main Question being again proposed;

Mr. McLean (Queen's, P.E.I.) moved in amendment, seconded by Mr. Martin (Queen's, P.E.I.), That the following Clause be added to the proposed Address after Section C:—

"C(a) An additional allowance to the extent of One hundred thousand dollars an-

"nually to the Province of Prince Edward Island";

And the Question being put on the amendment; the House divided: and it passed in the Negative.

Then the main Question being put:—It was resolved in the Affirmative.

On motion of Sir Wilfrid Laurier, seconded by Mr. Fielding,

Ordered, That the said Address be engrossed.

On motion of Sir Wilfrid Laurier, seconded by Mr. Fielding,

Resolved, That a Message be sent to the Senate, informing their Honours, That this House hath passed an Address to His Most Excellent Majesty the King, humbly representing that it is expedient to amend the scale of payments authorized under Section 118 of the Act of the Parliament of the United Kingdom of Great Britain and Ireland, commonly called the British North America Act, 1867, to be made by Canada to the several Provinces of the Dominion for the support of their Governments and Legislatures; and requesting their Honours to unite with this House in the said Address, by filling up the blank therein with the words "Senate and."

Ordered, That the Clerk do carry the said Message to the Senate.

And then The House, having continued to sit till Three of the Clock on Tuesday morning, adjourned till this day.

# Tuesday, 26th March, 1907.

Your Committee have considered the Bill from the Senate, intituled: "An Act "to incorporate the United Baptist Woman's Missionary Union of the Maritime Pro"vinces," and have agreed to report the same with Amendments.

Mr. Fielding moved, seconded by Mr. Aylesworth, and the Question being proposed, That Mr. Speaker do now leave the Chair;

Mr. Bourassa moved in amendment, seconded by Mr. Lavergne (Montmagny), That all the words after "That" to the end of the Question be left out, and the words "the Report of the Royal Commission on Life Insurance and the Evidence connected "therewith have made public various transactions in which Members of this House "participated, namely, the Honourable Member for North Toronto (Mr. Foster), the "Honourable Member for King's, New Brunswick (Mr. Fowler), the Honourable Mem-"ber for East Simcoe (Mr. Bennett), the Honourable Member for Prince, Prince Ed-"ward Island (Mr. Lefurgey).

Objection being taken that the words in the 5th Paragraph of the Amendment, as follows: "addressing the Honourable Member for Yale-Cariboo (Mr. Ross), stated: "'We will show your connection with Mr. Hill'," were out of order as being a repetition of a statement which had been formally denied by the Member charged;

Mr. Speaker ruled that, under the circumstances the recital of such a statement was out of order,—whereupon the Mover of the Resolution, with the consent of the House, withdrew the statement from the recital in the amendment, and the words were accordingly expunged.

Resolved, That this House will, To-morrow, resolve itself into the said Committee.

The First Order of the Day being read, viz.: Consideration of the Fifth Report of the Select Standing Committee on Agriculture and Colonization;

Mr. Monk moved, seconded by Mr. Henderson, That this Government has entered into certain agreements with a syndicate or association of persons known as the North Atlantic Trading Company, for carrying on an immigration propaganda in Continental Europe, said agreements beginning in 1899.

That large sums of money have been from time to time paid by the Government of Canada to the said North Atlantic Trading Company under the said agreements, and considerable amounts are still pending between the Government and the said company.

That C. H. Beddoe, Accountant of the Department of the Interior, a witness examined before the Select Standing Committee on Agriculture and Colonization, during the present session, as appears by the Report of the said Committee, was officially sent to Europe by the Department of the Interior, upon the refusal of the Audit Department to sanction the payment of some claims of the said Trading Company, in order that the said Beddoe should examine and audit the accounts of the said company and ascertain if the said company had expended in immigration propaganda the amounts it was bound to expend, under its contracts with the Government.

That the said Accountant, having proceeded to Europe and made his report upon the said audit and being examined before the said Committee, has refused to answer the questions put to him, concerning: 1. The names of the agents and sub-agents of the North Atlantic Trading Company in Europe, mentioned in his audit report as having received money, in execution of the contract; and 2. The names of the printers to whom moneys are alleged to have been paid by the said company in execution of said contract, the whole as mentioned in report of audit.

That the said Accountant offers as a reason for his said refusal a promise made by him to the officials of the said North Atlantic Trading Company to the effect that he would keep said names secret.

That it is and has always been the undoubted right and privilege of this House of Commons to have all the information which it may desire regarding public matters of any kind and description, coming within the jurisdiction of Parliament, and the refusal of the witness to answer, under the present circumstances, constitutes a breach of such privilege.

And the Question being put on the Motion; the House divided: and the names

being called for, they were taken down, as follow:-

Mr. Speaker informed the House, That the Clerk of the House had laid on the Table the Twenty-fifth Report of the Examiner of Petitions, which was read, as followeth:—

The Examiner of Petitions for Private Bills has the honour to present the follow-

ing as his Twenty-fifth Report:-

Pursuant to Rule 95, Section 3, your Examiner has duly examined the Bill from the Senate, intituled: "An Act for the relief of Arthur Leon McPherson," and finds that the requirements of the Rule have been fully complied with.

And The House having continued to sit till after Twelve of the Clock on Thursday

morning;

Thursday, 11th April, 1907.

Mr. Law, from the Select Standing Committee on Standing Orders, presented to the House the Seventh Report of the said Committee, which was read, as followeth:—

Your Committee have considered the Petition of the Canadian Northern Railway Company, for an Act authorizing them to construct certain branch lines in Saskatchewan, Alberta and British Columbia, and also, the Report of the Examiner of Petitions relative thereto, dated 22nd January, 1907, that no Notice had been published in the Province of British Columbia, in connection with the application, and they find that since the Report of the Examiner was made, the Notice has been published for the required time in the proper newspaper, so that all the requirements of the 90th Rule have now been complied with.

Your Committee have also considered the Bill from the Senate, intituled: Act to incorporate the Ottawa Terminals Railway Company," and also, the Report of the Examiner of Petitions, dated 9th April, 1907, relative thereto, to the effect that the following power asked for in the Bill was not specifically mentioned in the Notice, as required by the Rule, viz.: "to establish and operate for hire a service for the conveyance and transfer of passengers and baggage by means of omnibuses, cabs or other road conveyances, and to acquire, &c., and dispose of shares in any company having for one of its objects the establishment or operation of such a service." While your Committee feel that the granting of such a power without any Notice whatever to the public might tend to prejudice certain of the rights and privileges at present enjoyed by existing transfer systems, they are, on the other hand, also of the opinion that the power asked for is one which very properly forms an integral part of the project which the company has in view, and, as the omissions from the Notice appears to have been accidental, and not of design, your Committee recommend that the power asked for be allowed to remain in the Bill, but that a clause or proviso be added thereto for the purpose of safeguarding any existing rights and privileges which might otherwise be prejudiced thereby.

Mr. Speaker acquainted the House, That a Message had been brought from the Senate by their Clerk, as followeth:—

The Senate have passed the following Bills without any amendment, viz.:—
Bill intituled: "An Act for granting to His Majesty certain sums of money for "the Public Service, of the financial year ending the 31st March, 1908."

Bill intituled: "An Act respecting the Grand Trunk Railway Company of "Canada."

Also, the Senate have passed a Bill, intituled: "An Act respecting the Hamilton "Radial Electric Railway Company," to which they desire the concurrence of this House.

Mr. Lemieux, from the Special Committee to whom was referred Bill respecting Industrial and Co-operative Societies, presented to the House the Fourth Report of the said Committee, which was read, as followeth:—

Your Committee have had under consideration Bill respecting Industrial and

Co-operative Societies, and have agreed to report the same with Amendments.

Your Committee have held several sittings and taken the evidence of a number of witnesses as to the possible advantages to Canada of legislation upon the lines indicated in the above-mentioned Bill, which authorizes the formation of co-operative associations.

From this evidence, derived from persons who have made a special study of the co-operative movement in Europe, it appears clearly that co-operation offers very great advantages to the farming classes, particularly in certain branches of agricultural pursuits, such as dairying, market-gardening and fruit culture. Co-operation has also been proved of great use in the purchase by farmers of agricultural implements and fertilizers.

Your Committee found that co-operation offers a means for the labouring classes to purchase, under the most favourable terms, the necessaries of life and the articles required for the exercise of any trade. It also provides a system by which the wage-earners can either build or acquire their own homes, by means of small loans from credit and savings societies.

Your Committee have given the credit and loan feature of the Bill their special consideration and have arrived at the conclusion that any general movement to foster co-operation would be incomplete if it failed to assure the formation of co-operative associations destined to provide small loans and means of investment for people whose situation removes them from the sphere of action of our ordinary banks.

In dealing, however, with this feature of the proposed measure, your Committee have provided special clauses destined to surround the exercise of the credit and savings power by these societies with all necessary guarantees to prevent any possible abuse.

The interesting experiment made by Mr. Desjardins with the institution known as "La Caisse Populaire de Lévis," establishes clearly that this special form of co-operation is productive of the best results and can be carried out without risk, if under proper control.

This control and supervision your Committee have sought to ensure in the Bill.

The witnesses heard by your Committee are persons well versed in the co-operative movement since its inception; their testimony bears out with singular unanimity the conclusion to which your Committee have arrived, that the proposed Bill, as amended by your Committee, if enacted, would be productive of the best results, and your Com-

mittee therefore recommend that the Government take charge of the measure and have it passed.

Your Committee also report herewith their Minutes of Proceedings and Evidence, and the Exhibits filed, and recommend that the same be printed, with the exception of Exhibits from Nos. 2 to 10. (Appendix No. 3.)

Mr. Speaker communicated to the House the following letter:-

Office of the Governor General's Secretary, Ottawa, 12th April, 1907.

He accordingly presented the said Bill to the House, and the same was received and read the first time; and ordered to be read a second time at the next sitting of the House.

The Order of the Day being read for the House again in the Committee of Supply;

Mr. Lake moved, in amendment, seconded by Mr. Macdonell, That all the words after "That" to the end of the Question be left out, and the words "the Government "of Canada took proceedings in the Exchequer Court to set aside a patent issued to "Malcolm MacKenzie, as the assignee of Felix Montalbetti, on the 25th day of July, "1901, comprising one hundred and sixty acres, known as the Blairmore town site.

"That evidence was taken in the said proceedings before the Honourable Mr. "Justice Wetmore, as special referee, and it appears by his report made upon con"sideration of the said evidence, that the said Felix Montalbetti in making applica"tion for the said patent had made untrue statements as to the material facts and that 
"the said untrue statements were fraudulently made with the intention of improperly 
"influencing the minds of the officials of the Department of the Interior.

"That the said finding of Mr. Justice Wetmore, as special referee, was approved and confirmed by the Honourable Mr. Justice Burbidge, Judge of the said Exchequer Court.

"That notwithstanding the said finding the Government by its counsel appeared "in the said Exchequer Court and withdrew the said proceedings and consented to "an Order which confirmed the said MacKenzie in his title to the said town site so "acquired by fraud.

"That the said MacKenzie is a prominent supporter of the present administration "and was their candidate at the general elections in 1904, for the Electoral District "of Alberta, and is now a member of the Provincial Legislature of the Province of "Alberta.

"That the said town site is very valuable, and is estimated to be worth between \$100,000 and \$200,000.

"That the collusive action of the Government through the Department of the "Interior in thus confirming a political supporter in the possession and ownership of "property obtained by fraud deserves and should receive the strongest condemnation "of this House," inserted instead thereof;

PRAYERS.

Mr. Ethier, from the Select Standing Committee on Miscellaneous Private Bills, presented to the House the Sixth Report of the said Committee, which was read, as followeth:—

Your Committee have considered the Bill from the Senate, intituled: "An Act "to amalgamate the Jordan Light, Heat and Power Company, and the Erie and "Ontario Development Company (Limited), into one corporation, under the name of "The Jordan-Erie Power Company," and have agreed to report the same with Amendments.

Mr. Greenway, from the Special Committee appointed for the purpose of enquiring into the prices charged for Lumber in the Provinces of Manitoba, Alberta and Saskatchewan, presented to the House the Third Report of the said Committee, which was read, as followeth:—

Your Committee have, during the course of their enquiry, held some thirty-three sittings and examined thirty-two witnesses, and have had a large number of books, letters, price-lists and other papers and documents laid before them as exhibits, which together with the Minutes of their Proceedings from the 19th February last and the Evidence taken by them are herewith submitted for the information of the House.

Your Committee are of the opinion that the prices charged for lumber to con-

sumers in the Provinces referred to are excessive.

Your Committee find that there has existed for some years past, and still exists, an association known as "The Western Retail Lumbermen's Association." This association included all three Provinces until recently, when the dealers of Alberta formed a similar association of their own called "The Alberta Retail Lumber Dealers' Association." These two associations amount, in the opinion of your Committee, to a combination, and the objects and results of the operations of these two associations have been to unduly enhance the said prices, as appears from the price-lists themselves and the by-laws, minute-books and correspondence, and evidence of witnesses, in regard to the said operations.

Your Committee also find that more recently the manufacturers formed associations known as "The British Columbia Lumber and Shingle Manufacturers' Association" and "The Mountain Lumber Manufacturers' Association," which, in the opinion of your Committee, amount to a combination, and co-operated with the said retail associations, and on the part of these manufacturers a good deal of evidence was submitted to show that their prices were not excessive, but, before concurring in that view, your Committee think there should be more evidence as to the cost of production to the

manufacturers.

Your Committee also had to take into consideration the fact that the cost of lumber to the settler is materially affected by the cost of freight, as well as by the cost to and profits of the manufacturer and retailer. (Appendix No. 6.)

Mr. McKenzie, from the Select Standing Committee on Agriculture and Colonization, presented to the House the Seventh and Final Report of the said Committee, which was read, as followeth:—

Your Committee have had under investigation, during the current Session of Parliament, the conditions of Agriculture in the Dominion, in relation to the several departments of agriculture, viz.: the Growing of Cereals, Root Crops, Fruits, and the Division of Dairying, upon each of which much valuable information to producers and dealers in the products of these respective divisions, has been taken in evidence,

all of which form an essential part of this Report.

The evidence upon the growing of wheat demonstrates a steadily increasing area, year by year, brought under cultivation with highly satisfactory results to the cultivators, both as to acreage yield and the quality of the wheat produced. Each succeeding year reveals new fields in the great West, hitherto thought not to be adapted to wheat production. One remarkable instance of this occurs in the case of saline soils that for many years were deemed useless for the raising of wheat, are now, by the application of tillage, found to produce splendid wheat both as to quality and quantity. This is given on the evidence of Mr. John Macoun, Naturalist, who, in 1906, made a minute exploration for report upon the soil, climatic conditions, and growing crops along the line of the Grand Trunk Pacific Railway, from Edmonton to Portage la Prairie, in which he states that he saw as heavy standing wheat crops, as he had ever before seen upon any soil, growing upon saline soils, once supposed to be unsuited if not altogether incapable of producing wheat.

Another extension of the wheat-growing area of the West is found in the higher northern latitudes, now demonstrated to be capable of growing wheat more profitably than was hitherto supposed possible. Mr. Thompson, M.P., produced before the Committee a sample of excellent hard wheat grown at 63 degrees north latitude in the Valley of the Yukon—this sample being from a third crop in succession, grown upon the same farm. Mr. Macoun, above-named, states on evidence that wheat can be grown in 61 degrees north latitude, and adds the further interesting fact, "That whenever any pro"duction comes near its northern limit it produces more and its progeny seems to have

"greater strength."

Mr. Elihu Stewart also states on evidence that in 1906 he saw a promising crop of wheat grown 550 miles north of Edmonton.

From the increasing discoveries during successive years, it is concluded that the actual wheat-growing area of Western Canada, is as yet, of undetermined measure-

ment—any statements to the contrary being merely theoretical.

The Director of the Dominion Experimental Farms, furnished on evidence, the following comparative statements of the acreage yield of wheat as between the Canadian Provinces mentioned and that of other leading wheat-producing countries of the world. In Great Britain the average wheat crop is 30:95 bushels per acre. In Ontario the average of winter wheat is 22:50, and of spring wheat 18:92, showing that we are not in this respect a great way behind the Mother Country; France averages 19:57 bushels, which is under the average yield for Ontario; Manitoba gives about 18:45, the North-west of Canada 19:13, while Russia, in Europe, gives an average of 9:05 bushels per acre, and the United States 13:43. The Argentine Republic gives an average of

14:76 bushels per acre. Australasia as follows: New South Wales has an average of 9.9 bushels per acre; Victoria, 7.18 bushels; South Australia, 6.62 bushels; West Australia, 11.51; and Queensland, 15.77.

It is also in evidence that the settlers upon land are well pleased with the returns the soil yields for their labour, and happy in the enjoyment of the moral freedom they find in Canada, and ample protection secured to them for the safety of life and property. This is the case as expressed particularly by settlers from the continents of Europe and Asia.

The dairy industry is found to be also in a prosperous condition. The cheese branch has not very largely increased its exports last year, but the prices received in the markets of Great Britain were such that for about equal quantities exported in 1905 and 1906, the latter year's export \$4,000,000, was received in excess of the export of the former year. It is satisfactory to note that Canadian cheese received in the British market, is regarded as second to that of no other country. This largely is due to the introduction of cool curing rooms as an adjunct to cheese factories, and the ample provision made for export in cold and cool storage. This provision for export has in the past year been extended to several products, not so provided for in the past, and will doubtless be attended by corresponding results.

Owing to the provision made under agreement with the Government of Canada for the provision of ample cold storage for perishable products on railway and steamship lines, aided by cool curing rooms at factories, the dairy industry may now be regarded as settled upon a safe and permanent basis, conditional, however, upon manufacturers keeping up the standard of quality.

Your Committee have had evidence before them in reference to the cultivation and export of fruits, particularly of apples, and it is found that the provision of cold storage in export, has materially enhanced the favour with which Canadian fruits are received in the United Kingdom and on the continent of Europe. This in turn has stimulated fruit-growers to greater care in selection and packing, in consequence of the better price thus received for their products. The protection to honest packers extended by the Fruit Marks Act, has led to more care as to quality on the part of sellers. By the evidence of the Chief of the Fruit Division of the Department of Agriculture, there is left over a large surplus yearly, of small fruit of the apple orchards that is not marketable owing to size, but which might be very profitably manufactured into excellent jam, jellies, &c.

Co-operation would probably convert this present loss into a profitable industry.

A careful survey of the entire field demonstrates that agriculture, the corner stone of national wealth and power, is in a more prosperous condition at present, in the Dominion of Canada, than in any other country of the world, whilst the yet unmeasured territory of rich virgin lands, awaits settlement, ready to respond bounteously to the industry and intelligence of many millions of willing hands. In a word, Canada is the world's great bread field of the day. Besides, no other country of the globe offers a larger measure of constitutional freedom and legal protection to her people, irrespective of social class conditions, or rank.

Another feature that augurs an enduring prosperity to agriculture in Canada, is the rapidity with which agricultural scientific training is being adopted as a branch of her national system of education, thereby placing the pursuit of agriculture on a par with the so-called learned professions.

On motion of Mr. Campbell, seconded by Mr. Johnston,

To the King's Most Excellent Majesty:

Most Gracious Sovereign:

We, Your Majesty's most dutiful and loyal subjects, the Commons of Canada, in Parliament assembled, humbly approach Your Majesty for the purpose of representing that it is expedient to amend the scale of payments authorized under Section 118 of the Act of the Parliament of the United Kingdom of Great Britain and Ireland, commonly called the British North America Act, 1867, to be made by Canada to the several Provinces of the Dominion for the support of their Governments and Legislatures by providing that—

A. Instead of the amounts now paid, the sums hereafter payable yearly by Canada to the several Provinces for the support of their Governments and Legislatures, to be

according to population, and as follows:-

(a)	Where the population of the Province is under 150,000.	\$100,000	
(b)	Where the population of the Province is 150,000, but		
	does not exceed 200,000	150,000	
(c)	Where the population of the Province is 200,000, but		
	does not exceed 400,000	180,000	
(d)	Where the population of the Province is 400,000, but		
	does not exceed 800,000	190,000	
(e)	Where the population of the Province is 800,000, but		
	does not exceed 1,500,000	220,000	
(f)	Where the population of the Province exceeds 1,500,-		
	000	240,000	

B. Instead of an annual grant per head of population now allowed, the annual payment hereafter to be at the same rate of eighty cents per head, but on the population of each Province, as ascertained from time to time by the last decennial census; (or, in the case of the Provinces of Manitoba, Saskatchewan and Alberta, respectively, by the last quinquennial census or statutory estimate), until such population exceeds 2,500,000, and at the rate of sixty cents per head for so much of said population as may exceed 2,500,000.

C. An Additional allowance to the extent of One hundred thousand dollars annually

be paid for ten years to the Province of British Columbia.

D. Nothing herein contained shall in any way supersede or affect the terms special to any particular Province upon which such Province became part of the Dominion of Canada or the right of any Province to payment of any special grant heretofore made by the Parliament of Canada to any Province for any special purpose in such grant expressed.

We pray that Your Majesty may be graciously pleased to cause a measure to be laid before the Imperial Parliament at its present Session, repealing the provisions of Section 118 of the British North America Act, 1867, aforesaid, and substituting therefor the scale of payments above set forth, which shall be a final and unalterable settlement of the amounts to be paid yearly to the several Provinces of the Dominion for their local purposes and the support of their Governments and Legislatures.

Such grants shall be paid half-yearly in advance, to each Province; but, the Government of Canada shall deduct from such grants, as against any Province, all sums chargeable as interest on the public debt of that Province in excess of the several

amounts stipulated in the said Act.

All of which we humbly pray Your Majesty to take into your favourable and gracious consideration.

And objection being taken by Mr. Sproule, Member for East Grey, That the subject-matter of this Address having already been a subject of consideration, discussion and decision in this House, during the present Session,—the same could not be again brought up;

And a Debate arising thereupon;

Mr. Speaker,—decided that The House having unanimously decided on 23rd April to reconsider the subject, the point of Order was taken too late, and the House might go on and consider the Resolution for an Address.

And the Question being put on the proposed Motion, That the House do resolve itself into a Committee to consider of a proposed Resolution for an Address to His Most Excellent Majesty the King:—It was resolved in the Affirmative.

To this Bill the Royal Assent was signified in the following words:-

"In His Majesty's name, His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill."

After which His Excellency was pleased to deliver the following Speech to both Houses:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In bringing to a close the Third Session of the Tenth Parliament of Canada, I desire to express to you my thanks for the care and assiduity you have shown in the discharge of your important duties, the results of which are apparent in many important Acts which must prove of great benefit to the country.

I am glad to observe that the fiscal period terminating on the last day of March was, in proportion to its length, the most prosperous in the history of the Dominion, and that the present indications are that the expansion of the country's trade and revenue will continue during the year that we are now entering upon; a fact that is particularly gratifying in view of the important undertakings to which Canada is committed.

The stream of immigrants entering the Dominion continues yearly to expand, and it is very gratifying to note that a larger number is coming from the British Isles than in former years.

The recent revision of the tariff will, it is believed, meet with the general approval

of the trade, removing as it does many inequalities heretofore existing.

One of the most important of the subjects which have engaged your attention is that of the subsidies and allowances to be paid out of the Dominion treasury to the several provinces. I trust that the proposed changes in the Imperial legislation respecting which you have adopted an Address to His Majesty will, if enacted, go far towards removing the grievances of which the Provincial Governments have complained as to the insufficiency of their revenues.

The substantial aid now offered towards the establishment of cold storage should stimulate the erection of those necessary adjuncts for the preservation of perishable

foods.

I have observed with gratification the passage of an Act having for its object the maintenance of industrial peace in all public utilities. This legislation has already been applied with success. It is confidently expected that when the provisions of the Act for the settlement of industrial disputes are fully understood, both employees and employers will be ready to refer their differences to Boards of Investigation and Conciliation and thus avoid the evils following strikes and lockouts.

The arrangements lately made between the Imperial and Canadian postal departments, providing for a substantial reduction on newspapers and periodicals coming from the United Kingdom, have, I am glad to know, been received with much satisfaction as a measure likely to promote a freer communication between the Mother

Country and Canada.

Gentlemen of the House of Commons:

I thank you in His Majesty's name for the liberal supplies you have granted for the Public Service.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In now relieving you from your duties let me express the fervent hope that when we meet again at the next session, an equally prosperous condition will prevail throughout Canada and in the meantime let us not forget to express gratitude to a kind Providence for the many blessings conferred upon our country.

Then the Honourable the SPEAKER of the Senate said:

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is HIS EXCELLENCY THE GOVERNOR GENERAL'S will and pleasure, that this Parliament be prorogued until Saturday, the First day of June next, to be here holden, and this Parliament is accordingly prorogued until Saturday, the First day of June next.

# HIS DECISIONS ON QUESTIONS OF FORM AND ORDER:

- 12. A motion being made that certain petitions for Private Bills be read and received the same day as presented, Mr. Speaker declared the motion out of order, as no such motion could be made except upon a report of the Standing Orders Committee, 123.
- 13. Certain petitions for Private Bills being read, Mr. Speaker said that as the time for receiving petitions for Private Bills had expired the said petitions could not be received, 126.
- 14. A motion being made to authorize a Standing Committee to sit while the House is in session, Mr. Speaker ruled the motion out of order, not being recommended by the Committee, 215.
  - 15. Objection being taken to an amendment moved to a motion, Mr. Speaker ruled that the mover of the amendment having exhausted his right to address the House before proposing the amendment, it could not be put, 230.
  - 16. An amendment to the motion for the House in Committee of Supply being moved, objection was taken thereto, on the ground that it anticipated a notice of motion on the Order Paper; Mr. Speaker decided as follows:—

    "The notice of motion on the Order Paper in the name of the Honourable Member for Wentworth purports on its face to deal mainly, if not entirely, with regulations and appliances as to cold storage, cold air and ventilating chambers in vessels. The motion now submitted by the same Honourable

## Speaker-Concluded.

HIS DECISIONS, &c.—Concluded.

Member by way of an amendment to the motion that the Speaker do now leave the Chair for the House to go into Committee of Supply, is one dealing with the wide and general question of the safe transportation of Canadian perishable food products from the point of production to their ultimate market. I think this is not the same question, and does not anticipate a question already on the Order Paper for consideration by the House. I therefore rule that it is in order," 336.

- 17. On a motion for an Address to His Majesty for the purpose of amending the B.N.A. Act regarding the payment of subsidies to the Provinces, an amendment was proposed regarding the representation of the Provinces, and objection being taken thereto on the ground that it was not relevant to the main motion, Mr. Speaker decided:—
  - "The motion before the House deals with one specific question, the scale of payments to be made by Canada to the various Provinces. The amendment proposes to deal with the representation of several Provinces. It seems to me that it is an entirely different question, and that it is not relevant. I would therefore rule the proposed amendment out of order," 348.
- 18. A further amendment being moved to the same motion (as in No. 17), to provide for the vesting of the minerals, lands, timber, &c., in the respective Provinces, and objection being taken thereto on the ground of irrelevancy, Mr. Speaker said:—
  - "It seems to me that the whole question involved in the motion is the scale of payments to be made by Canada to the several Provinces, and that the question dealing with the land, so far as the Provinces are concerned, is entirely out of order. I therefore rule the proposed amendment out of order," 349.
- 19. An amendment being moved to a motion for the House in Committee of Supply; objection was taken to a certain part thereof on the ground that it was a repetition of a statement which had been formally denied by the member charged, Mr. Speaker ruled:—
  - "Under the circumstances the recital of such a statement is out of order," 369.
- 20. A member having made a motion as a question of privilege, Mr. Speaker ruled "that the motion is out of order, because the subject-matter it refers to has already been dealt with, discussed and decided upon by the House;" and the said Ruling being appealed against was sustained by the House, 381.
- 21. On a motion for the House to go into Committee of the Whole to consider of an Address to His Majesty on the subject of the Provincial subsidies, objection was taken on the ground that the subject had already been discussed and decided during the present session; Mr. Speaker decided that the House having unanimously decided to reconsider the subject, the point of order was taken too late, and the House might go on and consider the Resolution for an Address to His Majesty, 513.
