ARRESTS EXPECTED IN COAL STRIKE WITHIN 48 HOURS

DEFENCE COUNSEL CAUSES SCENE AT STATE TRIAL

Canadian Press Despatch. Winnipeg, Dec. 2.—A dramatic incident featured the trial of R. B. Russell, charged with seditious conspiracy, tonight, when Mr. Justice Metcalfe, presiding at the trial, called for the sheriff and a bailiff, to have the senior counsel of the defence removed from the court-room. It was apparently just because the sheriff was not in the court room at the time, and because of the fact that the bailiff was reluctant to come forward at the first call that the order was not carried out.

As it was a bailiff, when he did acknowledge that his lordship had occasion for his services, was peremptorily ordered to remove hereafter anyone that would not do what the court ordered.

The incident occurred when A. J. Andrews, K.C., counsel for the crown, was reading long passages in articles published in the Winnipeg strike bulletin. The quotations were distasteful to Mr. Cassidy, who several times opposed their being read. On at least two occasions his lordship ruled that the evidence was permissible and that Mr. Cassidy would get his chance in due course to read as much from the strike bulletin as he wished.

Reach a Climax. The climax was reached when Mr. Cassidy interrupted Mr. Andrews and attempted to read a passage from the bulletin, which his lordship told him to stop.

Mr. Cassidy continued reading, with the eyes of all in the court room directed upon him and astonishment indicated on all faces. "Sit for the sheriff," rapped out the judge.

Novocin in the court room budged. "Can't I have a bailiff in this court?" asked his lordship.

Liability to Ejection. Addressing Mr. Cassidy, who by this time had raised his head from the paper he was reading, his lordship said he had distinctly ruled that counsel for both the crown and the defence could read from the bulletin if they desired, but that the ruling of the court Mr. Cassidy had made himself liable to ejection.

To this Mr. Cassidy made the retort: "I shall go myself." "Yes," replied his lordship, quickly.

Special to The Toronto World. Hamilton, Dec. 2.—An important development took place tonight in connection with Saturday's tragedy at the jail when Annie, wife of Paul Kowalski, who is under sentence of death for killing Nick Trombino in February last, and who also took the lives of County Constable H. C. Springstead and Head Turney Arthur Awty at the jail on Saturday, was locked up at the end of the police station. She is charged with threatening to shoot Governor Ogilvie of the jail this afternoon. The arrest was made by a squad of police from North Sherman avenue. Mike Stosiek, 845 North James street, and John Kluck, 171 North Sherman avenue, also retained by the police on a nominal charge of vagrancy. The two children of the Kowalskis are in charge of Inspector Wylie of the Children's Aid Society. It is said that Mrs. Kowalski visited the jail this afternoon and demanded to see her husband, and when her request was refused threatened to kill Governor Ogilvie.

Order—Iron Gates. The provincial inspector of prisons and public institutions, W. W. Dunlop, Toronto, after making an inspection of conditions at the local jail and receiving an official report from the sheriff and the governor of the jail on the killing of Springstead and Awty and the stabbing of Lowrey and Berry in the cell, and the other at the end of the corridor, to separate the death watch from the prisoner. He also advised that when the two guards entered the cell to feed the prisoner the third guard shall remain on the outside and that he is to be armed. In view of the fact that prisoners are now handcuffed and manacled, there is little chance of his being able to do any harm to his attendants.

WINTER OVERCOATS AT DINEEN'S. We do not believe you will find values in men's overcoats equal to those the Dineen Co. is showing. The distinctive style and cut of materials used in his prime overcoats is to men who aspire to appear ultra smart. These overcoats are all made by high-class tailors and are extremely stylish and very moderately priced, \$22.50 to \$55.00. You should see them at Dineen's, 140 Yonge street.

Trains to Cross Border; None from U.S. Till January

More Cuts Soon in Train Service, Says Railway Board Member—To Reduce Freight Service Also—Stop All Movements of Raw Materials.

Canadian Press Despatch. Montreal, Dec. 2.—"Of the 150 cars per day which the United States government undertook to supply to Canada, beginning November 24, not one has been received. The prospects are that little, if any, coal will reach Canada during the month of December. Even though the strike may be settled this will probably be the case." The foregoing was the statement of an official of the Canadian Railway War Board last night.

INTERNATIONAL LABOR'S EIGHT-HOUR DAY CLAUSE PLEASES THE CANADIANS

Delegates Returning From Washington Conference Gratified at Results—Working Out of Short-Day Rule May Be Put Up to Provinces.

Special to The Toronto World. Ottawa, Ont., Dec. 2.—Canadian delegates to the international labor congress at Washington have returned home well pleased with the results and gratified at the position attained by the Dominion in the world's labor parliament. With the inevitable abstention of the United States from the congress the Canadian representatives were faced with an important and difficult situation. Hon. N. W. Rowell and Senator Robinson, who represented the Canadian government, were both eminently successful in the debate and deliberations. The Canadian government entered the conference with representatives from Europe, Asia and South America on several occasions.

Hon. W. L. Mackenzie King, representative for the Dominion, was present during the visit of the Prince of Wales, and was able to snatch time from the festivities to make two brief speeches to the congress.

Of greatest interest to Canada was the adoption of the eight-hour day and 48-hour week proposal. In pressing for this principle, several concessions were made, and, among others, seasonal occupations are exempt from this proposal, as well as several industries in which the application of this principle is yet unpracticable. In Canada, there yet remains doubt as to the authority to enforce this principle, and the federal government will ask for a decision from the supreme court. The federal department of justice holds that there is no provincial jurisdiction over the hours of labor, while the 1 to 1 government in Ontario maintained that this came under the jurisdiction of the federal authority for the Washington conference there were present representatives from all the provincial governments, and these representatives were consulted on questions by the federal delegation. If it is decided that the provincial governments have authority to adopt and enforce the eight-hour day, the provision made in the Paris labor charter for this eventuality, which provides that in cases of a federal system of government the government shall pass and press for approval all such questions to the proper authority.

In Canada this course might be adopted, but what will be more practical will be a provincial conference to adopt the principle with an agreement for concurrent legislation. Conditions in the United States were very unfavorable to the participation or even co-operation of the government of that country. Congress was in the throes of the peace treaty debate, industrial disputes were rampant, and capital and labor aligned in battle array for a great industrial conflict. Canada had to become the North American leader and in many respects the host. It was a unique position, with the world's greatest labor conference in Canada.

Hold-Up on Strachan Bridge; Gunman Takes a Fur Coat. Two gunmen held up Arthur Sakner, 37 Carlton street, on the Strachan avenue bridge bridge at 10.30 last night and robbed him of a fur coat which he was wearing. Sakner told the police that he was crossing the bridge when two men pointing revolvers at him ordered him to throw up his hands. After ransacking Sakner's pockets they ordered him to take off his coat and hand it over. The hold-up men then ran in the direction of the Old Fort. Detectives from the west end divisions were detailed to the case, but at an early hour this morning no arrests had been made.

Revision of Civil Service Pay Retroactive to April 1, 1919. Ottawa, Dec. 2.—The salary provisions of the new civil service reclassification, so that they relate to the present service, will likely be made retroactive to the first of April of this year instead of coming into force only in April, 1920.

The matter has been under consideration by the government and when asked about it today, Hon. W. L. Mackenzie King, minister dealing with civil service affairs, remarked: "I think it very probable that this will be done."

UNIONIST AND U.F.O. LINE UP FOR FIGHT IN NORTH ONTARIO

N. D. Mackinnon and R. H. Halbert Nominated—Senator Blain Nettles Farmers.

Beaverton, Ont., Dec. 2.—(Special)—Neil D. McKinnon, miller of Cannington, and Robert H. Halbert, retired farmer of Uxbridge, were officially nominated here today to contest the parliamentary by-election in North Ontario to be held on December 9. The by-election is to fill the vacancy caused by the death of the sitting member, Col. Sam Sharpe. The by-election was originally set for October 27, but was postponed on account of the death of the late W. J. Cowan, the Unionist candidate, between nomination and polling day. Mr. McKinnon is now the Unionist candidate, and Mr. Halbert, president of the United Farmers of Ontario, is the candidate of the United Farmers.

Warns About Disorder. At the formal nomination meeting held on October 29 there was a good deal of disorder and warm personalities were exchanged between Mr. Halbert, the farmers' candidate, and John Best, Unionist M.P. for Dufferin. At the joint meeting which followed the nominations this afternoon Dr. Blanchard, presiding officer, requested that a respectful hearing be given to all speakers. He intimated that the death of Mr. Cowan had been hastened, if not actually caused, by the hostile personalities in the last campaign.

The farmers had on hand a number of speakers including the candidate, J. J. Morrison, secretary of the U. F. O.; T. K. Slack, M.L.A. for Dufferin, and John Kennedy, vice-president of the Manitoba Grain Growers' Association of the United Farmers of Ontario, led by Mr. McKinnon, James Cien-denning, ex-M.L.A., and Senator Richard Blain.

The best of order prevailed and all the speakers got a good hearing. In the early part of the meeting the U.

PEOPLE'S EDUCATION THROUGH OTTAWA OFFICE PLAN OF LIBERALS

To Have Organizing Secretary—King Outlines Campaign. Canadian Press Despatch. Ottawa, Dec. 2.—A headquarters office in the capital, under the supervision of a general secretary, who will work out a plan of organization and education of the people "in the principles of progressive Liberalism," is to be the outcome of the two days' meeting of the national organization committee of the Liberal party, which concluded its sessions here this evening. At the close of this afternoon meeting, Hon. W. L. Mackenzie King, leader of the Liberal party, outlined to the Canadian Press the work which the committee had done.

As part of the campaign of organization and information, an executive committee was formed, of which the nine vice-presidents of the province are ex-officio members, to supervise the work of the new office in both of its branches. There will also be a provincial committee, one of every province, thru the provincial organizations, to contribute toward the funds necessary for the dissemination of this information.

Another outcome of the meeting is that there will be considerable platform speaking mapped out after the new year, and Mr. Mackenzie King stated that he would speak in the east, and also possibly in the west, placita, the Liberal platform before the people. Owing to the short time between the new year and the opening of parliament, it is likely that only some of the larger cities will be included in his itinerary.

Outgrowth of Convention. Mr. King stated that the committee which was an outgrowth of the national Liberal convention held here in August, had spent a busy two days discussing ways of setting the Liberal platform as adopted at the national convention before the people, and educating them in the principles of Liberalism and placing the Liberal platform before them in a proper manner. This would be done both

INJUNCTION VIOLATED GOVERNMENT DECIDES; ARRESTS ARE EXPECTED

Convinced That Efforts to End Strike by 14 Per Cent. Increase Have Failed—Contempt Proceedings Will Be Instituted at Once.

Indianapolis, Dec. 2.—Convinced that efforts to bring about resumption of operation of coal mines thru offers of a 14 per cent. wage advance to miners have failed, and that the injunction issued by United States District Judge Anderson against the strikers has been violated, the government has concluded to institute contempt proceedings at once, it was indicated here tonight.

Federal agents would make no attempt as to when court action might be expected, but it is known that evidence has been collected against alleged violators of the injunction, and in well-informed circles it was confidently expected that arrests would be made within 48 hours.

It is understood that the government has delayed taking action in the hope that some other way out of the fuel difficulty would be found.

The injunction, as explained by Judge Anderson, extends to individual miners, operators or other persons who in any way encourage the strikers or interfere with the production of coal. Government attorneys, it is said, intend to sue any miner who makes a statement between two or more men to continue on strike, constitutes a violation of the injunction.

"During the trial in the federal court today, Alonzo Newcomb, a coal miner of Blanford, Ind., charged with violation of federal injunction laws, in which the latter declared that "it would be all his life was worth to attempt to return to work" in the mines. Judge Anderson asserted that mine operators and "a-b" workers "appear to be in cahoots to bleed the public."

BUNKER COAL CUT OFF. New York, Dec. 2.—The furnishing of bunker coal for foreign flag steamships was discontinued at all United States ports after 1 a.m. December 2, it was announced here today by the Tidewater Coal Exchange. This official statement was issued in compliance with an order received from the fuel administration at Washington.

The order was issued, it was said, as a conservation measure for the nation's supply of fuel. Agents of foreign lines were notified that they must, after that date, secure their coal from other sources.

BOARD OF TRADE AWAITS PRESIDENT

Campaign to Retain C.N.R. Headquarters Halts for Mr. Dunstan. It is pretty hard for the average business man to realize the magnitude of something he doesn't see. That is particularly true of the importance of Toronto of the Canadian National Railways headquarters. The head office is at the corner of King and Toronto streets, where Sir William Mackenzie and Sir Donald Mann used to reign. But that building was far too small even for the old Canadian Northern.

The Canadian National Railways' staff is housed in different buildings in the city, Adelaide and Wellington streets, and it is a fair guess that outside the chief executive offices, rents for the building probably amount to thousands of dollars a week are being paid.

Two Thousand Clerks Now. Roughly that is equivalent to six per cent of the total payroll of the company, which is estimated at between one and a half and one and three-quarter million dollars. There are approximately two thousand head office employees of the National Railways in Toronto, and apart altogether from the addition of the Grand Trunk to the system this number is bound to increase.

If the average number of dependents is only two there must be six thousand people in Toronto directly living on C.N.R. headquarters. Everything they require in food, clothing, shelter, education, amusements, religion, and all other amenities of life compels the employment of other hundreds if not thousands. The King Edward has from say a hundred to a hundred and fifty guests per week who are in the city to sell commodities to the C.N.R., and so the tale of public ownership's consequences multiplies. In no less than such a striking offering. Do not let it be cheated, Mr. Lewis."

39TH YEAR—ISSUE NO. 14,266

TWO CENTS

PREMIER EXTENDS FARMER OBJECTIVE TO FEDERAL HOUSE

Urges Yeomen to Fight Battle for Democracy in Dominion Elections. "The provincial election looks big to us at present, but after all it is a small thing. The matter of importance is the people's not so much the provincial as the Dominion government. I would ask the yeomen of this country who have broken off party shackles to extend this movement. The big battle that will tell whether this country is to remain a democracy or changes to a plutocracy will be fought in the Dominion election, but here is to guard the trenches we have won."

Thus spoke Premier Drury at the second annual banquet of the Hamilton branch of the U.F.O., held in the market hall last night. Reeve Paget-Markham, president, and there were 500 people present—a typical audience of men and women, who gave the new premier a rousing welcome.

W. C. Gohn proposed the toast of "Canada and the Empire," and Rev. Mr. Curllis responded, remarking that he thought he could pledge the support of all political parties to the new premier of Ontario. (Applause.) The province, he claimed, led in men, money and production.

Reeve J. T. Waltham, who gave "Our Present Legislature." He believed the people would get far legislation, and that there would be nothing in the nature of class laws.

Premier Drury had a notable recollection, the large audience singing "For a Jolly Good Fellow." He said that in the past legislatures and parliaments had put party first and country second. They had now entered upon a new era, not brought about by legislation, but solely by the people themselves, who had shown disgust and dislike for the old party system. If they altered their thinking, it would be done by those who had gone before, or their reason to be clouded by party prejudice they were not doing their duty to the country.

No Service Following. Mr. Drury said while he was head of the cabinet he would not like to see an altogether service following event of the Farmer and Labor groups. That had been the curse of governments in the past. They must go forward and retreat, although these might seem to be things together. One of the problems was the proper handling of the great reserves of the north and in old Ontario. The resources had been too carelessly treated in the past, and no attention had been paid to reproduction in the forests. The province should have more of the wealth of the mines. It was a difficult thing, but it could be done. There must be a new era, not a revolution of the education system, particularly in the common public schools. Greater freedom must be given teachers and more responsibility put on trustees. Instead of making examinations a whole thing they must place real education first. Children had been put in the school system, but in the past, and their individuality had not been recognized. The government did not by any means intend to neglect higher school education. They were not going to economize on essential things, and one of the latter was common school education. (Applause.) He hoped the rural people that.

Room For Economy. "Lots of economy can be worked everywhere," the premier declared. "It must be our task to economize until the province is in a good sound financial position." They had undertaken a great task which some people thought was beyond their powers. They had commenced, however, with a great many advantages. They had set out to abolish patronage, which had been the curse of the old government. They had no political friends to be looked after, and no U. F. O. man was an office-seeker. They were proud of that fact. It was a grand thing and gave the new government a chance to live up to their motto. They must make service to the public the test of everything.

"We may be a green lot," the premier said, "but we have a cabinet of which we need not be ashamed. They are men who will give themselves freely to the service of the province, and who will not serve any clique or party. We desire to do justice to all classes, and I hope and believe we shall accomplish some good for the province. We shall crystallize some of that public spirit which put us in power." (Applause.)

Ladies in a humorous speech, and Mrs. Webster, Oakwood, responded.

Mrs. Geo. Armstrong, Winnipeg, is Freed of Intimidation Charge. Winnipeg, Dec. 2.—Mrs. Geo. Armstrong was acquitted today on a charge of intimidation arising out of the Winnipeg strike. She was alleged to have caused girls to stop selling newspapers on the streets on June 5, 1919.

General Strike at Malaga Causes a Death of Bread. Malaga, Spain, Dec. 2.—The general strike recently called in the city is still in force and all the stores and factories are closed. Bread is totally lacking, and disturbances have occurred among the masses of the population. There are reports of the lighting supply service working.

Brantford, Ont., Dec. 2.—(Special)—BeWARE OF BRACKETS BRINGING GIFTS NOW reads, "beware Christmas gifts from unknown friends." Chief of Police Slemin received warning today from the International Association of Police Chiefs urging that a keen watch be kept for explosives being sent as Christmas gifts as the Federation of Russian Communists had plans to scatter such parcels the country over, particularly among those active in suppressing Bolsheviki and anarchists.

Madrid, Dec. 2.—About 200,000 men are estimated to be striking in the Catalan region. The day passed there without important incident.

COMMISSION DEALS WITH JOWLETT CASE

Father Tells Police Board Son Hardly Recognizable - Adjourned.

Further adjournment of the charge of assaulting a prisoner made before the board of police commissioners by Fred Jowlett, against plainclothesman Dunlop was made by the board yesterday afternoon. Mayor Church endeavored to find out who assaulted Jowlett near a Greek restaurant on West Queen street several weeks ago, and in order that witnesses might be heard, several members of the jail staff will be asked to appear at the next meeting of the commissioners.

Officers from the Clarendon street station testified that Jowlett was in front of the restaurant when the front window was broken and when a police sergeant called Jowlett to come to him, Jowlett is said to have started to run away. The officers in the station said that Jowlett was bleeding about the mouth when brought into the station, but did not complain of having been roughly treated by the police.

He spent Sunday over the Don, and when he appeared Monday morning in police court was acquitted of a charge of breaking the cafe window. Jowlett's father stated that he was not badly injured about the face he could hardly recognize him.

Chinese Raids. The consul-general of China wrote the commissioners from Ottawa complaining of the raids last month on the Chinese stores on Elizabeth street. He asked that the police locate the ringleaders of the gang and prosecute them. The board are already having the police endeavor to locate the ringleaders and if they find them the board will see that they are prosecuted.

Dr. Clarke and Mrs. Huestis interviewed the commissioners, asking that all patients suspected of being feeble-minded be medically examined before they are dealt with by the court. The commissioners expressed sympathy with the request, but remarked they have no jurisdiction in the matter.

The city solicitor will be requested to draft an amendment to the city by-law giving the police power to convict theatrical firms for showing posters which are not approved by the police. As the law is at present the police only have authority to confiscate the posters.

A returned soldier wrote asking that he be given a position training policemen in first aid to which he is highly experienced in first aid work. The commissioners are satisfied with the doctors now training the men.

Two probationers, H. Shingleton and Jackson, resigned and their resignations were accepted.

Sportsmen and Red Cross Combine to Cheer Wounded

SEEK KAPUSKASING PROBE.

A deputation from the Grand Army of Canada, headed by H. McLeod, L. Montgomery, J. F. Marsh and D. Precious, waited on Premier E. C. Drury yesterday asking for an investigation of the conditions at the Kapuskasing soldiers' colony. Premier Drury promised the deputation that he would order an investigation of their complaints and see what could be done to adjust matters.

A lecture on "Ireland of Today," with lantern slides, was given last night at St. Vincent's Hall, Roncesvalles avenue, by Rev. L. Minehan, who has just returned from the green isle, and will be given first-hand information to his audience. The lecture will be repeated tonight.

DEWSON SCHOOL WANTS \$130,000.

On Thursday night the board of education will be asked to set aside in next year's estimates the sum of \$130,000 for an extension of Dewson Street School. Last spring, in compliance with the city's request for retrenchment, the board cut out of its items an appropriation of \$70,000 for the same purpose.

GETTING "HEP" TO THE GOOD EATS

A Host of Dyspeptics Can Get Back to the Old Days of Freedom by the Simple Expedient of a Stuart's Dyspepsia Tablet After Meals.

"Gosh! I never knew before how good these little pork sausages were." Thus says the man who thought his stomach was gone for all time, but who tried the simple expedient of a Stuart's Dyspepsia Tablet after eating. And with this for a starter, he goes in for a cheese sandwich, a slice of hot mince pie, eats ham and thinks only of the energy and good feeling that follow eating the foods that make most people ravenous and hungry even when they are not. And all of this without sour risings, no gas, no belching and none of that giddy heaviness that so often follows indigestion. Try these tablets after eating. They are used extensively wherever good eaters are found and are on sale almost everywhere in the United States and Canada.

SUPERVISORY MEN LABORITES TODAY

Masters, Mates and Pilots Join Ranks of Trades Unionism.

Most recent, and, perhaps, in its way, the most important move in the arena of trades unionism, is the alignment of the National Association of Masters, Mates and Pilots with the Trades Council in Toronto. Tomorrow night the roll-call of the Trades Council will be answered by Captains Cooke, Niece, Brown and Milton Hornby. This is significant, having in mind the fact that only a few days ago one of the chief exponents of trades unionism in Toronto stated that what was needed in the movement was the infusion into its ranks of what might be termed the supervisory section of the working community.

The National Association was organized in the United States last March and today numbers 38 harbors, which, in the parlance of mariners, is synonymous with locals at the Labor Temple, Harbors in Canada have already been organized in Montreal, Quebec and Kingston, nearly a hundred belonging to Kingston, 150 in Toronto and 300 in Montreal. It is the intention of the business manager for the lakes institute many more harbors in the very near future, and the association will shortly take in all the coasts of lake and ocean within and bordering both the United States and Canada.

Capt. W. J. Stitt is president of Toronto Harbor No. 68. A secretary is elected on Friday. Capt. John Strain of Buffalo is the business manager for the association.

WILL NOT AFFILIATE

G.W.V.A. Decides Against Joining Veterans' League Upon Terms at Present Proposed.

That the G. W. V. A. of Toronto will not join or affiliate with the Veterans' League of Toronto upon the proposed terms of representation has now virtually been decided. The views of each individual branch in the matter have been secured, and with the exception of Riverdale, all are dissatisfied with the basis of the federation as proposed.

Secretary J. V. Conroy, of the district command, stated to The World that it was unreasonable to expect the G.W.V.A. to surrender its influence and authority by consenting to enter a league in which it is to have no more representatives than any one of a dozen bodies with one-tenth of its membership.

Under the constitution of the Toronto League of Veterans each organization is represented by five delegates without regard to size, while the plan favored by the G.W.V.A. is per capita representation.

MAN SERIOUSLY HURT.

Struck down by a Church street car while crossing from the north to the south side of Wellington street at 5.40 last evening, R. C. Winlow, aged 60 years, of 224 Beech avenue, was hurt about the head and internally. At 11 o'clock last night the General Hospital reported his condition serious. The street car was east bound on Wellington street and was driven by Motorman James Wallace 337 Parliament street. Wallace was not detained by the police.

A Message to Business Men and Their Wives

The following statement coming from a hard-headed business man like Chas. M. Schwab is something that should be taken seriously as an indication that music is departing from its ancient state of divine uselessness.

Where Business Men are Wrong

It is a favorite saying among men that "Music is for Women." But is it? Why are not the refining influences of this wonderful art just as much needed by men as applicable to men? Some men seem to think they lose a part of their masculinity if they confess to a love of music. Well, I love music and I think I have held on pretty well to the masculine side of my nature. In fact, music has meant much to me in my life. Again and again it has refreshed me when I was dog-tired; taken me out of myself and away from the problems of business. A book can do that, but only in a limited way. But not so surely as does music.

There is a reach to music that the other arts have not; it seems to "get" to you in an exhausted mood and quieta and refreshes where a book or a picture is not so sure. Of course, much depends on a man's nature, on his temperament. But, speaking broadly, and knowing men as I do, I cannot help but feel that the average business man would be benefited by a little more of the music that he himself loves. I need not be the long opera at first. Let him select the shorter concert. But few men immersed in their right in turning their backs upon music as a means of absolute refreshment, mental and physical.

C. M. SCHWAB. THE WILLIAMS & SON CO. R.S. 145 YONGE STREET ESTABLISHED 1849

CITY HALL NOTES

The city council, at its meeting on Monday last, passed six paragraphs of the first page of a 64-page agenda. No exceeding the speed limit here.

All grocery and fruit stores will be compelled to close their doors at 7 o'clock on and after Dec. 12, and to serve a customer with even a lemon to cure a bad cold after that hour will be an illegal act. Housewives, who like to do their Christmas buying with the valued aid of their husbands, will not be able this year to follow the custom, as during Christmas week all such naughty places as a grocery or fruit store will be out of bounds by the time their fathers has finished his tea.

A good many of the aldermen realized yesterday the full meaning of the old saying: "Act in haste, repent at leisure," and wished they had gone deeper on the early-closing question before registering their votes in its favor on Monday night. All day yesterday the phones at the city hall were working overtime. Questions were being leveled at them from small grocery and fruit store owners, asking ordinarily of getting rid of the particular alderman had voted against the individual citizen's business interests. The questions were difficult to answer, but the aldermen before the people for re-election, who some big "explaining" will have to be done, indeed.

Controller McBride says a big deputation of small grocery and fruit store proprietors will be on hand at Thursday's council meeting to endeavor to get a re-opening of the whole question, and, if that fails, it is likely the matter may be heard of in the law courts. Many of the largest grocers are also not at all pleased with the present decision. It seems Controller Maguire had promised to pass a resolution making the law effective from Dec. 29, instead of Dec. 12. The resolution was not pressed, and now both the large and the small grocers will have little opportunity of getting rid of the particular alderman who has voted against the individual citizen's business interests. The questions were difficult to answer, but the aldermen before the people for re-election, who some big "explaining" will have to be done, indeed.

The Toronto Hydro will be before the board of control today asking \$800,000 to cover a new issue of bonds to carry them over in 1920. The money is needed, it is stated, for necessary extensions and new equipment.

The mayor yesterday sent a telegram to the American government asking that the United States vaccination requirements be relaxed. The mayor pointed out that no deaths had occurred in the city from smallpox, that the outbreak was of a mild type and that the death rate of Toronto was the lowest in the continent. He also pointed out that Canadian business was being considerably interfered with by the existing regulations.

The city architect's department estimates that the city will enjoy a big building boom in 1920, to the extent of quite \$24,000,000 worth of permits. The nearest approach to this figure was in 1912, when \$27,000,000 was passed upon.

Baldwin Limited have filed plans for a \$200,000 steel plate tank at Ashbridge Bay. This is the first of a series of buildings for the firm. The total expenditure will be about \$1,500,000.

Dunlop Limited are building a new factory at Queen and Booth avenue to cost \$450,000. Other permits issued yesterday were: Chaplin Realty Co. of Welland, Ont., four permits to erect two-story brick dwellings on Collin avenue, near Imperial street, ranging from \$5,000 to \$5,000.

William Hughes, 25-27 Amroth avenue, \$2,000. E. J. Bailey (in trust), two detached, two-story brick and frame dwellings, south side Hillside avenue, near Yonge street, \$5,000. I. Goldstein, one pair semi-detached, two-story brick and frame dwellings, and one detached dwelling at 31-33-35 Kippendavie avenue, \$7,500.

GIRL LEADERS CONFER.

At a conference for leaders of girls held in St. Anne's Parish House under the auspices of the Toronto advisory committee for co-operation in girls' work, addresses were given by Miss M. Taggart, on "Teachers' Preparation of the Sunday School Lesson," by Miss M. Trotter on "Teaching by Living," and by Mrs. J. C. Doherty on "The Girl, Her Characteristics and Needs." Brief addresses were also given by Rev. Lawrence Skye and Rev. H. E. Brechin. Miss Nellie Boynes, chairman of the committee, presided.

FRIENDS TO HONOR HEARST.

Non-partisan as well as followers, friends and admirers of Sir William Hearst will honor the ex-premier at a complimentary dinner to be held in the King Edward Hotel on Dec. 17 by way of paying tribute to Sir William Hearst for his services to the people of Ontario. An honorary committee for the dinner is being formed, and the not yet completed consists of many of Ontario's leading men.

ALLEGED PICKPOCKET CAUGHT.

Charged with attempting to pick a ladies' nurse in a downtown department store yesterday afternoon, Cecil Harris, 1 Salmon avenue, was arrested by Detective Wickert.

AIRY MILLIONAIRE ONCE IN TORONTO

Ex-Manager of Shingle Company Will Buy Zeebrugge on Shoestring.

P. J. Keirnan, the alleged Irish-American "millionaire" who promised two months ago to invest £150,000,000 in Irish housing, has not yet produced the first million demanded some weeks ago by Dublin Corporation as an evidence of good faith.

P. J. Keirnan, formerly known as W. P. Keirnan, will be remembered by many as the erstwhile manager of the Toronto Shingle Company, with offices at 533 West Queen street. Later Mr. Keirnan formed the Fidelity Funding Company of New York, which, after a lurid career, was wound up.

The Irish housing scheme, he by no means the first airy offer of millions which has come from Mr. Keirnan, who is a bluff, suave man of 55, born in County Wick in England in 1815. In 1915—An offer to the British treasury to raise a "war loan" of £5,000,000 in the United States. The proposal was severely "turned down" by the treasury.

1916—A proposal to sell \$5,000,000 of Chinese bonds and float a company with the Chinese government as partners. Nothing came of this.

1917—A proposal to form a corporation with the title of the Reconstruction and Federation of British Industries, with a capital of £1,000,000,000. This was started by the formation of a syndicate with a capital of £250 in 15 shares.

1918—A definite offer to the Ecuador government of a loan of £10,000,000, and a National Bank with a capital of £2,000,000. The finance minister of Ecuador has recently been cabling to his consul-general in London, asking why this promise has not been carried out.

1919—The Irish housing scheme with its offer of £150,000,000, which so far has not resulted in anything. A scheme for the purchase of Zeebrugge harbor dock and the investment of £50,000,000 in Belgium. Four Rumania.

A proposal to buy £10,000,000 worth of British stock for the "reconstruction" of Rumania. In connection with the Zeebrugge scheme, Mr. Keirnan, who was refused a passport by the British authorities on many occasions during the war, was allowed a passport to go to Brussels. He was accompanied by Mr. J. A. Hamilton, of Brooklyn, Dallas, Scotland, who is the alleged representative of a "trust" which, according to Mr. Keirnan, is going to find the millions for Irish housing.

On his return, Mr. Keirnan stated that he went to "buy Zeebrugge" with "treasury sanction," and his passport was obtained at "the instigation of the treasury." At the treasury nothing is known of Mr. Keirnan's proposal, and no assistance has been given or promised to him.

REPUTATION WORTH \$10,000.

A jury in the assize yesterday brought in a verdict in favor of the defendant in the suit for slander entered by Alonzo J. Chapman against Samuel Newland. Plaintiff alleged that Newland had said that he (Chapman) had stolen some shrubs, thus injuring his credit and reputation, for which he asked \$10,000.

CHARGED WITH THEFT.

Detective Koster last night arrested John Clark, 102 Stafford street, on a charge of theft. Clark is alleged to have entered the home of James Goult, 105 St. Patrick street, and stolen an overcoat.

ASK HALF MILLION.

Toronto Presbyterian churches are asking for a half million dollars in connection with the forward movement. At a meeting of the presbytery yesterday morning the committee asked that the representatives of each church be assigned to solicit subscriptions.

Rev. H. R. Berlis made a plea to stay in his present charge at Rhodes avenue church and was strongly upheld by members of his congregation.

To Consumers of BITUMINOUS COAL

The Fuel Controller for Canada, having succeeded in securing a daily allotment of Bituminous Coal for Canada, is obliged, in view of the great demand, to confine shipments to public utilities and hospitals.

All other users of Bituminous Coal must secure their requirements from the stocks of coal now in storage in Ontario until such time as public utilities and hospitals have secured a supply sufficient to carry them through the Winter, or until the United States Government increases the present allotment.

Importers of Bituminous Coal are cautioned not to order shipments forward, as no coal will be permitted to leave the United States until so ordered by the United States Government.

WEDNESDAY MORNING, DEC. 3

Are Fairies to be Abolished?

Dr. Katherine D. Blake, head of the New York Normal College, wants no more fairy stories told to children, because they are not "true."

Why the suggestion should come at this particular time is hard to understand. Not for centuries has human imagination soared so feebly, or the stream of fancy been so nearly dried up as at the present time.

One who reads Justin McCarthy's "Contemporary Portraits" published in the 60's, must be fairly appalled by the decline in literary output which characterizes the English-speaking world at least some sixty years later.

They Forget Economic Freedom. The schemes for imperial industrial reconstruction have no end—and not much reconstruction.

Sir George Foster's Job. During the war a manufacturer and business man's parliament was projected to meet at Ottawa, under the aegis of the department of trade and commerce.

The N. P. May Pray to be Delivered From Its Friends. The national policy is essentially national. A protective tariff is designed to build up the country which adopts it without regard to how it affects other countries.

Report Seven Million Increase In the Customs Receipts. Ottawa, Dec. 2.—An increase of \$7,029,500 in the customs receipts for the eight months of the fiscal year ending Nov. 30 is shown by the monthly statement of the customs department.

The Middle Classes Are Up.

The English Middle Class Union is organized and the secretary cannot keep up with the increase in membership. Kennedy Jones, M.P., who was Lord Northcliffe's partner, and the western farmers from the mine at the active propaganda for the extension of public ownership.

Another has described the middle classes as the "brains, blood, heart, nervous system of the body social"; and the working classes as the "flesh, mighty, sinews, skin, lungs and bones."

Make a Start. Public ownership of the coal mines or any other mines need not begin with the purchase of those at present in operation.

Ministerial Department. Ministers are still new in their offices at the parliament buildings, and they have not learned the tricks of the trade, some of which are very necessary.

Can Canada Go Into Naval Policy Now? It may be questioned whether the time is opportune to revive the subject (Canadian navy). It is not as when a few years ago the German menace existed and the policy of building three dreadnaughts to be associated with the British fleet was propounded.

Waste of Assets. Why was the Dovercourt paid off at the rate of 7 cents on the dollar, and the other shareholders at 24 cents? asked Mr. Kilmer.

SIDELIGHTS ON THE ELECTION

BY IDA L. WEBSTER. There seems to be some doubt as to the legality of women entering the municipal field.

It has been said that Alderman Brook Sykes is keenly considering the advisability of entering the controller arena.

Mr. Ballantyne, who is said to be one aspirant for the mayor's chair, thinks that the aldermen should be elected for a three-year term.

Certainly Tommy Langton Church will run again, and certainly he will be elected. Providing, of course, there are only three in the field.

The interview with her mother was probably the very worst thing for Louise in her present nervously exhausted condition. She went up the stairs surprised to find her breath coming fast as she completed the climb.

Never very strong, she was doing more daily work than was good for her, for the adored house was fairly large for one woman to handle, particularly one not skilful about planning housework.

There were a couple of letters on a table and it simply said, "Glad you are back. I'll be home tonight and hope you will feel well enough to have dinner with me."

**LABOR NEWS**  
MANY JEWELERS ACCEPT DEMANDS  
Watchmakers Discuss Question of Piecework System.

Among the firms which have accepted the agreement of the Watchmakers' Association and whose employees are now at their posts are W. W. Munn, H. T. Morris, A. C. Stammers, M. R. Meredith, George Vanstone, Arthur Clayton, H. Memovich, all retail jewelers, and The Klein-Burroughes Company, The Green Watch Company, The Elgin Company and H. A. Saunders.

Replying to the statement of the president of Ryrie, Ltd., that so far as he knew the fully constant watch details pertaining to departments, and that his figures were incorrect. They pointed to three great receiving departments of the company was receiving less than \$30 a week, officials of the union stated last night that Mr. Ryrie as president was not fully conversant with details pertaining to departments, and that his figures were incorrect. **SAY STONECUTTERS ARE LOCKED OUT**  
Well-Attended Meeting of Stonecutters Appoints Committee to Meet Employers.

Stonecutters, who are alleged to have been locked out by their employers for refusing to work pneumatic hammers, at a largely attended meeting held last night at St. O. B. Hall, decided to appoint Jack Brown, Douglas Robinson and J. Smith a grievance committee to confer this morning with Victor Vokes, J. Scott and G. Oakley, representing the cut-stone section of the Builders' Exchange, with reference to the use of the pneumatic hammer opposed by all classes of stonecutters. Further action by the union will be withheld until the conference is concluded today, and a special meeting is called for tonight, this to be held at the Labor Temple if possible.

A letter has been drafted to the Builders' Exchange secretary, D. J. Davidge, pointing out that the craft is opposed to the use of the air hammer because thru its vibrations it induces a paralysis which seriously affects a stonecutter's ability. The letter points out that even after three years' service in the G. E. P. P. returned men still complained of the effects of the vibrations occasioned in pre-war work as the marble-cutting yards. Owing to this hammer, the letter points out, many good men have left the trade for healthier occupations, and less capable men have made stone-cutting a jumping-off place.

**Refuse to Use Hammer.**  
The union as far back as the middle of October, intimated to the exchange that after November 1 no member of the union would work with the hammer. The date was traversed to December, when the employers were reminded of the intention of the men. The employers then locked out all the men, although 70 out of the 80 members of the union were working on jobs where the hammer was not used.

Mr. Oakley was not in when called up, and John Vokes stated he would not talk. It was therefore impossible to get the employers' version of the trouble.

**TO SETTLE COAL DISPUTE**  
Ottawa, Dec. 2.—The minister of labor has appointed a board of conciliation to deal with the dispute between the Dominion Coal Company and its employees at the Glace Bay mines. Rev. Clarence McKinnon of Halifax will act as chairman; J. U. Walters of the Dominion Coal Company, the employees, and Col. W. B. Thompson of Halifax, the company.

Rev. Clarence McKinnon is the first instance of a clergyman acting as chairman of a conciliation board under the Lameux act. Mr. McKinnon some fifteen years ago aroused widespread comment when for a long time he refused to exchange a humble pastorate in Sydney, N. S., for a metropolitan charge with a large salary.

**NEW SCHOOL OF CO-OPERATION**  
Many Laborites of advanced views favor the system of co-operative association of employers and men described in the latest move of its kind, the co-management of the Sweet, Orr & Co. plant at Yorkville on Hudson street, New York. It was pointed out in interviews with The World that the system of permitting the men to elect their own foremen and to establish their own minimum wages, as well as to adopt any union wages, had everything to commend it, and here and there something to call for criticism.

**RAN HORSE CARS.**  
John Rolstone, the popular street railwayman, one of the oldest members of Division 113, Street Railwaymen's Union, who died on Monday night, was among the few men in Toronto who could boast of vivid experience with the intricacies of horserace service in the Queen City. He operated street cars for more than 20 years, and ran horse cars for several of these, entering the employ of the Toronto Railway Company about twenty-eight years ago and in 1902.

The remains of the late Mr. Rolstone, who was 65 years of age, will be buried at St. James' Cemetery at 2 o'clock today.

**ELECTRICITY REPLACING STEAM**  
It was stated yesterday afternoon on good authority that at least a hundred stationary engineers were out of employment only a week ago, and that today there were an increase of at least 70 men still disengaged. The reason assigned for this state of affairs was that electric motors were now rapidly replacing stationary steam heaters. One man pointed out that a motor could be run by a boy of 14 without a certificate, something impossible with a steam heating plant, which required a fully qualified engineer on the job.

**LATE MRS. REEVE BURIED.**  
Edward Reeve, secretary of the Painters and Decorators' Association, suffers a bereavement in the death of his mother, Mrs. E. T. Reeve, 38 Lippincott street, who died on Sunday at the advanced age of 62. With all due solemnity and accompaniment with full representation of the union of which the son is secretary the remains of the late Mrs. Reeve were buried at St. James' Cemetery yesterday afternoon.

**PETERBORO VETS IN POLITICS**  
Peterboro, Dec. 2.—At last night's meeting of labor (local branch) of the Great War Veterans, Comrade R. H. Muir was elected president of the association for the coming year, defeating Lieut.-Col. G. R. Ackerman, who was next in the running. Other officers elected follow: First vice-president, W. J. Clancy; second vice-president, R. E. Layfield; treasurer, G. Coleman; executive committee, Dr. A. W. McPherson, W. Batley, W. Primeau, L. Lebar and W. Perks.

The G.W.V.A. voted against going into politics on the following division: Yes 61, no 89.

**VOTE \$5000 TO G.W.V.A.**  
Regina, Sask., Dec. 2.—At the annual meeting of the ratepayers of the rural municipality of Sherwood, held yesterday afternoon, a unanimous resolution was passed recommending that the council donate \$5000 to the Great War Veterans' Association.

**LAND FOR SOLDIERS**  
Over 100,000 More Acres in Prairie Provinces Set Aside by Government.

Ottawa, Dec. 2.—Over 100,000 acres of Hudson Bay reserve lands lying in the prairie provinces, which have come into the hands of the Dominion government, are being turned over to the soldier settlement board for settlement by returned soldiers.

In addition to the Hudson Bay lands, the Eastview (Pope) ranch, near Gascon, Alberta, comprising about 18,000 acres of high-class agricultural land, has been secured. All these lands will be disposed of early next spring. They will be divided into two classes: (1) Specially valuable lands, which will be sold at reasonable prices under settlement condition; (2) less valuable lands but still suitable for agriculture, which will be disposed of to soldiers under soldier grant.

**Eaton Machine Gun Battery**  
Organizes New Social Club

Members of the Eaton Machine Gun Battery, at a largely attended meeting in the Central Y.M.C.A. building, completed the organization of a social club that will be known as the Eaton Battery Club. Sir John Eaton was elected honorary president, and the following officers selected: President, C. C. Bradley; vice-president, C. F. Caldwell; secretary-treasurer, Capt. F. O. Wood of 288 Davenport road. The executive committee will be composed of the officers named and the following: T. S. Clark, J. J. Smith, J. W. Ferguson, Charles Vickers and A. B. (Dick) Turpin.

The first special evening of the new club will take the form of a smoker, and will be held in two weeks' time.

DEFENCE COUNSEL CAUSES A SCENE

(Continued from page 1.) "but the court will go on." Looking about for some of the officials, his lordship asked: "Is there a ballist here who will obey my orders?" The ballist who was seated near the desk thereupon got to his feet. "Now," ordered the judge, "if you hear any one hereafter refusing to do what I tell him you will put him out?" "Yes, sir," was the reply.

The afternoon session opened with Mr. Cassidy continuing his argument against the admission of evidence in regard to a meeting of the Trades and Labor Council. He argued that the "organization was protected by legislation" and that no evidence regarding meetings could be used as evidence in a sedition trial. Mr. Justice Metcalf, in giving his decision, stated that the evidence of Mr. Cassidy was not admissible. He was allowed to go on with his evidence.

W. D. EULER, M.P., RESUMES DUTIES

Recoveries From Mauling by Mob—Kitchener All Quiet. Kitchener, Ont., Dec. 2.—(Special.)—There were no further demonstrations here today against those who attempted to raise the name issue. The News-Record, which was wrecked last night, was published as usual today, and even published an extra at 6 o'clock this morning with the aid of the company's auxiliary plant, The Ontario Journal, which amalgamated with The Record when Euler and Metz purchased the majority stock in the latter journal about two months ago.

W. D. Euler, M.P., who was knocked unconscious in the G.W.V.A. Hall last night when he refused to kiss the flag, declaring that he would not do so under any circumstances, returned from London today upon his return from England after serving in France, Italy, Turkey and Russia with the R.A.F. Lieut. Rekofocki is an old newspaperman.

## THE WORLD'S GREATEST OIL POOLS

A wonderful wealth is in store in the Peace River District where eminent Geologists and Oil Experts from all over the world, who have made careful and thorough investigations, report that they are convinced and state with full confidence that THE WORLD'S GREATEST OIL RESERVOIR will be found there.

Here is your opportunity to share in this wonderful wealth possibility.

### Let Canada's Wealth be Enjoyed By the Canadian People

Here is an opportunity for Canadians to invest in Peace River Petroleum Limited, a Canadian Corporation, controlled by successful Canadian business men, who intend in all sincerity and earnestness, to develop the marvellous oil fields in Peace River.

The Corporation, as will be seen by this announcement, controls over 48,000 acres of the best oil lands in

### This Vast and New Oil Field

The names of the directors, all of whom are well known Canadian business men, are alone a guarantee that development work will be aggressively proceeded with, and the funds of the Company expended with economy and wise judgment.

In the past the cream of Canada's mineral resources have been exploited by foreign capital, but here we have a genuine Canadian enterprise which deserves, and should have, the support of every Canadian who is interested in the development of Canada's vast oil resources.

### American Oil Fields Nearing Exhaustion

The great oil fields of America are nearing exhaustion, and at the present rate of consumption of petroleum products, America will soon be compelled to curtail her export of oil.

A recent geological report to the United States Government by Dr. A. E. Atcheson on the oil resources of U.S.A., states that, "The peak of production in oil will be passed in 1921," and it has been predicted that within six years the United States Government will be forced to terminate all exports of oil.

What will Canada do when the United States prohibits all exports of oil?

We are at this moment suffering from a similar situation with Coal.

Peace River Oil will solve Canada's fuel problems.

Canada is now one of the smallest producers of oil in the world, only producing less than 300,000 barrels. Last year Canada imported over 10,000,000 barrels, and her consumption is rapidly increasing.

With the tremendous oil resources that Canada possesses, she should and will be one of the largest producers of oil and become an exporter instead of an importer of oil.

### OIL IS KING

Oil to-day is King—The world could not live without oil—Oil lubricates the machinery of the universe—Oil is the coming fuel for all purposes—Navies—Merchant Ships—Railways—Gasoline Engines—Farm Tractors—and so on without end.

Look at the rapid increase in consumption of oil for the past several years and the demands are increasingly greater each year.

The nation that cannot control its oil supplies must lag behind in the industrial race.

### Shrewd Canadians Are Buying

The shrewd men in Canada who believe that history will repeat itself are buying shares of PEACE RIVER PETROLEUMS LIMITED, as they believe that the great geologists of the world cannot all be wrong when they predicted that the Peace River District would become the greatest oil field in the world and this is now confirmed by the number of wells that have already been drilled and struck oil.

There is no miracle in a good investment, a good investment is the simple result of good judgment.

In view of these facts, you are recommended to buy shares in Peace River Petroleum Limited, at the present low price and help to secure.

CANADA'S OIL FOR CANADIAN PEOPLE.

**IMPORTANT**  
Oil has already been struck in two wells now being drilled on the Company's properties—Both wells will be drilled deeper to the BIG OIL POOL.

The "Financier" of London, England, one of the oldest and most reliable financial papers in Great Britain, in a recent article practically demanded that the public are entitled to participate in the shares of oil companies, and that shares should not be offered to a favored few.

Here is an extract from their editorial regarding a recent issue of oil shares in England:

Instead of permitting the investing public to participate in the financing of the project, and to ignore the great investing public outside that favored circle. We cannot help thinking that it would have been fairer to allow the great body of British investors to apply for shares. Undertakings of national importance in their scope and objects ought not to be the possession of the privileged few, but should rather be in the beneficial ownership of investors generally.

Every investor, large or small, has an opportunity to invest in Peace River Petroleum Limited—a project of national importance to Canada.
