

ONE CENT

ONE YEAR WITH HARD LABOR REILLY FOUND GUILTY OF CONSPIRACY

Jury at Belleville Recommend Him to
the Mercy of the Court and Judge
McMahon is Lenient.

Belleville, March 21.—(Special.)—The case of Rex v. Frank J. Reilly came to an end to-night, the jury returning a verdict of guilty. He was sentenced to one year in jail at hard labor. With the conclusion of Reilly's case, the present series of ballot-box trials came to an end, as the case of Rex v. Police Magistrate Harryett and the criminal libel case of Rex v. Carman were transferred to the fall assizes. The grand jury this afternoon brought in a true bill against S. Carman.

In Reilly's case this morning the evidence of Patrick Cotter, a lad from Watertown, was very damaging to the accused, Cotter swearing that he had seen him there in connection with the bogus boxes on two occasions. The other witnesses to prove the existence of a conspiracy were the same as those in

The only new evidence was that of John McDonald, a scrutineer at the Clarendon and Miller poll where Hawkey officiated. He said after the poll that the ballot boxes were turned out into a cheese box, counted and then put back into the ballot box. "Then they made up their returns," he said. "I don't know up their returns, of course. Then the ballots were taken out and put in envelopes. When the box was apparently empty, Hawkey turned it upside down and struck it with his hand, when a ballot which had not been unfolded fell out. The witness asked Hawkey how he knew that that ballot was not unfolded, and he said they said they sometimes go overlooked in that way.

Only One Witness. The defense only called one witness, William Williamson of Kingstons, who was connected with the Hotel Dieu in that city, said when Reilly was in the Hotel Dieu he was not in the kitchen. A man in that condition was unable to think consecutively or coherently. In an advance statement, Williamson said that, considering Reilly's condition last November he should have remained in hospital at least a month. Williamson said Reilly had to go to Belleville, but did not forbid his going. The doctor said he was of the opinion that Reilly, at the time, was not sane, and was liable to make a bad thing worse after reading about the case. To Mr. Hellmuth he said he would not say that Reilly would not be a danger to himself or others. He would not be a danger to himself, he said, but he would not be a danger to others.

liable to mis-state facts.

Called Shibley's Victim.

At 11:45, E. F. Smith, a San Francisco beggar, he addressed the jury. In effect, he claimed that Reilly was the victim and that Shibley, who had cleverly contrived to keep out of the case himself, was the villain. Mr. H. H. Johnston said, we were now in California or elsewhere laughing in their sleeves at Reilly, who was suffering for their misdeeds. He said he felt that the nation of Pharaoh, Egypt, was in the hands of the Lord. He called him nearly everything but a gentleman. No jury, he said, should hang a dog on the evidence of such a man. He then asked the jury to return a verdict of acquittal, and turning for her son's return, claimed that Reilly had never shown any knowledge that the boxes were stolen. The trial was run down after speaking two hours and twenty minutes.

Mr. Helmluth, the crown counsel, said:

FURNITURE THE J. F. BROWN CO. LIMITED CARPETS

Brown's Plan of Doing Business

Was designed to conform to the will and the wish of the people at large. The wage-earner predominates here and elsewhere, and sometimes the wage-earner cannot pay cash for everything he desires. So we have established the most desirable credit system in existence, whereby every honest man can secure a comfortable furnished home, and clothe his family as he wants them clothed without financial embarrassment or the least inconvenience. Our Anniversary Sale is most important to you. We have been successful even beyond our expectations, and we thank you for it. You will find the Anniversary prices and the Anniversary terms surprisingly liberal.

EXQUISITE CREATIONS IN EASTER MILLINERY

THE FIRST SHOW OF READY-TO-WEAR AND TRIMMED HATS AT THE NEW BIG STORE RECEIVED INSTANT APPROVAL. THE HATS ARE ADMITTEDLY BEAUTIFUL, BUT THERE IS SOMETHING MORE THAN ELEGANCE TO ALL THIS FINERY. THE HATS ARE PRACTICAL AND SERVICEABLE—AND WE MIGHT ADD THEY ARE VERY, VERY REASONABLE. EVERYTHING IN THIS ALREADY POPULAR DEPARTMENT WILL BE SOLD ON EASY PAYMENTS IF THE CUSTOMER DESIRES IT.

FOR THE LADIES

It is our pleasure to extend an invitation to come to the New Big Store to-morrow to witness the first showing of some style creations in Ladies' Coats and Costumes to be seen nowhere else in Canada.

Ladies' Coats and Costumes.
Ladies' Raincoats and Silk Coats.
Misses' Coats and Costumes.

Our display comprises both unique and popular models and is so wide in its variety as to please every customer to the last degree.

"Your Credit is Good"

FOR THE MEN

Good Taste Characterizes this Spring's Clothes.

In announcing this First Spring Opening of our New Men's Clothing Department, we are pleased at the very outset to call attention to the fact that there will be no freakish fads in Gentlemen's Wearing Apparel to be found here this season. The innovations are modest along the line of good taste.

Fit-rite Brand Clothing is the climax of successful tailoring.
"No matter what your size or proportion—there's a Fit-rite Suit or Overcoat to fit you."

Your Credit is Good.

Carriages, Brown's Special, can be used as carriage or go-cart, rubber tired wheels, reg. \$25. Anniversary Price 19.75.

Reed Cradles

Wood Tops, regular \$2.25. Anniversary Price 1.75.

HILL'S NOW ON TRIAL HOW HE OBTAINED GOODS

St. Thomas Merchant Appears in Criminal Sessions — Furnished Misleading Financial Statements

The trial of J. B. Hill of St. Thomas was commenced in the criminal sessions before Judge Winchester yesterday.

Hill is charged with having unlawfully, by false pretences, obtained goods with intent to defraud S. F. McKinnon to the amount of \$1288 and upwards; Gordon, Mackay & Co., \$1500; John Macdonald & Co., \$800; Merchants' Dyeing and Finishing Company, \$1182; Crown Attorney Drayton is conducting the prosecution, and J. A. Robinson of St. Thomas appears for Hill.

Charles Reid, secretary of the S. F. McKinnon Company, stated the firm had done business with Hill for about four years. There was an understanding that Hill was to have a line of credit to the amount of \$5000. In March, 1903, Hill claimed a surplus of \$28,643. In the summer he placed an order for goods to be imported. In December, these goods arrived, but owing to the condition of Hill's account were not shipped to him. In March, 1904, Hill furnished another annual statement, showing a surplus of \$28,800, and the goods, amounting to \$1200, were sent. After receiving the March statement, McKinnon shipped in all goods amounting to \$2400, and received from him \$2500 cash. On June 23, 1904, the principal Toronto firms interested got together and decided to give Hill a six-months' extension of time, providing he (Hill) gave them a note for \$10,000. On this note nearly \$8000 was paid, which the firms divided amongst themselves. Out of this Nisbet & Auld got a share.

Richard Nisbet admitted feeling sore at Hill, and of having made the remark that he would spend \$600 to see defendant punished for the alleged deception.

Richard Lee, the assignee of the estate, went to St. Thomas on June 20, 1904. An examination of Hill's books showed the liabilities to be \$38,000. At this time the books showed a deficit of \$28,000.

MANCHESTER DOCK EXTENSION.

Photographs on View of New Works Which King Will Formally Open.

There will be exhibited in the window of A. F. Webster's ticket office, King and Yonge streets, during the next few days, mounted photographs of the new dock and transit sheds at Manchester, England, which are now nearing completion. The dock is to be formally opened by His Majesty King Edward VII. early in May. The new dock, which, when completed, will be known as "No. 3," and the works accessory thereto, are being constructed for the greater part on land which formed part of the old Manchester racetrack, which was purchased by the canal company under statutory powers in the year 1901. The dock itself will be of the length of 2700 feet and of a width of 260 feet. The water area of the dock will be 154 acres, with surrounding quay space, roads, railways, etc., of 32.5 acres. The depth of water in the dock will be 23 feet.

It will be seen from the photographs that in the formation of the dock the conventional type of solid wall has been departed from and that, when finished, each wall will present an appearance similar to that of a long viaduct crowned with an exceptionally high parapet. A considerable saving in first cost has been effected by the adoption of this design, which, in addition to possessing technical advantages during construction, will, it is anticipated, lessen the ranging of vessels moored at the wall when passed by steamers on their way to or from their berth in the dock. The southerly side of the dock is being equipped with a series of five transit sheds for the receipt of cargo from or for vessels. These five sheds will form one of the largest systems, if indeed not the largest system, of transit sheds as a commodity in the world.

The transit sheds will be four floored, including a flat roof, therefore a very large area of quayspace will be provided for handling traffic, the total floor area of the whole of the sheds being about 105,000 square yards. The sheds are being constructed entirely of concrete on the Hennebique system. In this system the columns, walls, pillars, floors, roofs—in fact, the whole of the structure—is formed of steel rods embedded in Portland cement concrete. The system has been adopted for the transit sheds mainly because of the exceptional properties for fire resistance which the material possesses.

The northerly side of the dock will be laid out for the open storage of cargoes, and ample provision in the way of paved quays and roads, railways, crane roads, etc., has been made around each side of the dock.

To the southward of the new dock an area of some 67,480 yards of ground has been set apart for railway sidings, of which there will be, when completed, nearly nine miles.

TO ADMIT POLICYHOLDERS.

New Plan of Equitable Life Adopted by Directors.

New York, March 21.—A plan for the gradual admission of the policyholders of the Equitable Life Assurance Society of the United States, to share in the control of its affairs, was adopted by the directors of the society to-day.

50c Bottle Free

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquezone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Liquezone costs 50c and \$1.

GERM DISEASES

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

For the American rights to Liquezone, we did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquezone destroys the cause of any germ disease.

Liquezone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense heat, at 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1000 for a disease.

Any physician or hospital not yet using Liquezone will be gladly supplied for a test.

BELL GETS HUSTLE ON.

Offering Farmers Phones at Reduced Rates of \$15.

Hesper, March 21.—(Special).—It is hard to fight a big corporation like the Bell Telephone Co., but we intend to keep up this agitation until we accomplish something," said Dr. Ochs, secretary, when seen by The World to-day.

The doctor, who for some years past has taken a lively interest in the telephone question in this district, was made chairman of the committee appointed by the Waterloo County Council to look into the question of extending the rural telephone service and obtaining lower rates. The Bell people, since the committee have got down to work, have developed a solicitude anxiety to have the farmers' phones at \$15, and are having as many contracts as possible signed at that figure.

The committee, which meets at Berlin on Thursday to report progress, is urging that the town in the county shall hold itself open for competitive rates, and not give a sole franchise to the Bell monopolists. Dr. Ochs personally is a strong advocate of government ownership of the long distance telephone lines.

We wish you would feel perfectly free to write the Doctor at any time. Ask him anything you wish to know about your hair. You will obtain the best medical advice free, and no one will see your letter but the Doctor.

Address, Dr. J. C. Ayer, Lowell, Mass.

Testimonials? We can furnish them by the thousand. Here is one: For over half a century Ayer's Hair Vigor has been sold in every civilized land on the face of the globe.

Is not this long, unbroken history of success the very best kind of a testimonial?

HASTEN SAFE CLOSINGS.

J. F. Ellis Makes Suggestions to Special Committee.

Ald. Geary's level crossing committee held its first session yesterday and the board of trade, thru J. D. Allan, president, J. F. Ellis, J. D. Ivey and F. O. Morley assured the members of its hearty support. The board of control adjourned its meeting to be present, the other members being: Ald. Fleming, Jones and McGhee.

During the discussion Mr. Ellis suggested that a citizens' committee be appointed to act with the aldermen, and that an engineer be engaged to outline a plan for separating the grades at all the dangerous crossings. He read statistics compiled by the Buffalo Railway Crossings Commission, showing the results obtained there and Ald. Jones suggested that the Dominion government be asked to appoint a similar body for Toronto.

Mr. Ellis urged the need for haste on account of the great liability of accidents at any time. Controller Hubbard thought the city had done considerable work in protecting crossings, and the mayor stated that Mr. McGuigan of the G.T.R. had intimated that all the crossings in the west end would be protected by the railways.

It was decided that another conference should be held within a few weeks.

BELL IN THE HOUSE.

London, March 21.—Question time in the house of commons yesterday was notable for a "perfect bull" perpetrated, of course, by an Irish member. Swift MacNeill, cross-questioning the attorney-general for Ireland regarding the appointment of additional magistrates, asked the question, "Will the attorney-general be good enough to put the question, 'which distinctly arises, Mr. Speaker, out of the answer which the right hon. gentleman has just given?' There was loud laughter, during which Mr. MacNeill tried to correct himself. "Or, rather," he added, "the hon. gentleman has ought not to have given."

MINERVA BUILDING SOLD.

Rumor Says It Brings \$85,000. Traders' Bank in It for a While.

The Minerva Manufacturing Company has been given 15 months to vacate their premises on Front-street, nearly opposite the customs house.

The Traders' Bank has leased the lower portion of the building for that time. It is said that after that the whole building will be occupied by a Montreal firm that is coming here and that the building has been purchased for \$85,000.

This is the building which "stopped" the great Toronto conflagration last year.

DEAF MUTE'S DEATH.

Complained of Pain and Died—Coroner Will Investigate.

Coroner Elliott will hold an inquest tonight on Charles Smith.

Smith was a deaf mute and was a familiar figure around St. Lawrence Market. For about three weeks he has been lodging with Isaac Colas, 244 East King-street.

When he retired Monday night he complained, by motion, of a pain in his chest. He was found dead in bed yesterday morning.

WE WILL BUY

A 50c. Bottle of Liquezone and Give it to You to Try.

germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquezone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

WE PAID \$100,000

For the American rights to Liquezone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquezone destroys the cause of any germ disease.

Liquezone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense heat, at 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1000 for a disease.

Any physician or hospital not yet using Liquezone will be gladly supplied for a test.

TO THE CAPITALIST.

Absolute security. Land in two years that will be worth five times the present price, which certainly will increase the value of stock proportionately.

TO THE WORKINGMAN.

An easy way of procuring a home. A future that cannot be obtained elsewhere. Don't fail to write or call. Every information freely given.

TO THE MERCHANT.

If your business or health fails a plantation will give you a handsome return. No laborious work in a climate of perpetual June.

CUBA THE LAND OF SUNSHINE

CANADA-CUBA LAND AND FRUIT COMPANY, Limited.

Incorporated Under "The Ontario Companies Act."

AUTHORIZED CAPITAL \$600,000

SHARES, PAR VALUE, \$100

OFFICERS AND DIRECTORS:

REV. ALEXANDER CAMPBELL, President.
HAROLD B. ROBINSON, Esq., Vice-President, Cashier Head Office Massey-Harris Company, Limited, Toronto.
AMOS HARRINGTON, Esq., Second Vice-President, Gentleman, Toronto.
ERWIN B. JONES, Esq., B.A., Secretary, Toronto.
CECIL H. THOMPSON, Esq., Treasurer, Toronto.
GEO. F. DAVIS, Esq., Managing Director, Toronto.
JAMES CURRY, Esq., Banker and Broker, Toronto.

WILLIAM PEMBERTON PAGE, Esq., Toronto.
JOHN J. MAIN, Esq., Superintendent of the Police Iron Works, Toronto.
WHITFORD VANDUSEN, Esq., Banker.
J. W. CURRY, Esq., K.C., Crown Attorney, Toronto.

Land at \$10.00 per Acre for a short period only. Purchase now and save money.

All the Company's Land will be increased to \$20.00 per Acre at an early date.

LAND IS THE BASIS OF ALL WEALTH

Exchange of Land

Pick out your plantation tract to-day, while you still have a choice of the best locations.

Read our prospectus as to quality of land, fertility, etc., but remember that if you select your property now and are not satisfied with it when you see it for any reason, we will cheerfully exchange it for another tract in our surveyed portion not already taken up which will be satisfactory. We want everybody satisfied with land allotted. It is also to our interest to give every applicant the very best land on our estate. It means a direct advertisement by the recommendation of their friends and puts great value on our other property.

EVERY OFFICER of this company is active. There are no figure-heads, no "dummies" and no drones connected with the organization. There isn't room for them. Therefore we will see that every promise made is carried out to the very letter.

Land values in Cuba are just beginning to boom, still there have been phenomenal increases in value. Land has increased 1200 per cent. in five years in the neighborhood of the American settlements.

Capt. L. D. Baker and his associates in the Cuba Fruit Company bought thousands of acres at \$3 to \$10 per acre four years ago in Santiago Province. They refuse \$100 per acre for their unimproved tracts to-day. One thousand per cent. increase!

You have the chance to do the same thing—make your money out of fruit-growing and land.

Write for Prospectus

Extracts from Expert Reports from One of the Best Fruit Growers of Cuba.

I rode over this property and made several investigations of the subsoil, digging about five feet deep in each instance. I found nothing that would even to the slightest degree change my opinion regarding the suitability of the land for the successful cultivation and growing of all kinds of citrus fruits. I found the duplication of the Florida soil, on which the best groves in the world are raised, not only in the general appearance of the land, or top-soil, but also in the subsoil, except in no case did I find any hard pan or even any evidence of hard pan.

The land and the subsoil underlying it is in every way perfectly adapted to profitable growing of Oranges.

The soil, as you know, is a sandy, loose earth, easy to cultivate and in this respect much more desirable than any other land to be found in Cuba, because, while it is economical to cultivate, it is the best land in the world for oranges.

Cattle Raising

Hogs multiply very rapidly, breeding as often as three times in a year, so that an increase of ten to a sow is conservative. They sell when young at \$4 to \$5 each.

Cattle increase at the rate of 80 per cent. to the number of cows in a herd, including all loss by death.

A yearling is now worth about \$18, a two-year-old (breeding age) \$25, and a three-year-old \$40. Oxen (broken in) are worth from \$120 to \$180 a yoke.

This Offer is Good for a Limited Time Only

PROMPT DECISION and immediate selection of lands and lots is absolutely necessary, and we urge you for your own good to avoid disappointment by making your choice at once if you wish to share in this great allotment of land.

WE CANNOT keep this offer open always, as the Plantation Tracts we have to dispose of are limited in number.

WE RESERVE the right to withdraw this offer at any time, or to increase the price of our land.

LAND OWNERSHIP is an almost certain safeguard against adversity.

HARD TIMES, sickness and old age may come, but he who owns his home is certain, at least, of a port in which to ride out the gale or end his days peacefully in this sailors' "snug harbor."

FORTUNATE, indeed, is the man, or woman, whose ownership of land includes both a home and a living, or means of support. Such land-ownership carries with it not only a place of abode, but also food, raiment and the comforts of life. As a heritage for one's family it is better than life insurance or a bank account. In short it does what a farm should do.

Extracts of Letters From Cuba

Call and see Originals.
Your letter of the 11th of January to hand. I will gladly give you any assistance I can. I have not visited the tract of land you mention, but I am told that it is very good land. It is hard to find land in Cuba that is not good for something. Provided the company is solid, you have an opportunity of a lifetime in buying this land at \$10 per acre in small lots. Large tracts of 200 or more acres are still for sale at this price, but it is almost impossible to buy small lots. The land you think of buying is good for oranges and some of it for tobacco, and all of it for pineapples.

I purchased my land from the Davenport Company of Cuba, an American company, with offices at 23 William-street, New York. It is a very wealthy company, and they have spent an enormous sum of money here. They started two and a half years ago selling land at \$10 per acre. I bought six months ago at \$50 per acre, and on the first of February it goes up to \$80 per acre. Nearly all this company's land is now sold, and they are trying to buy more. About 2000 acres are planted with oranges and planting is still proceeding rapidly.

I know of no land on this terrestrial sphere so blessed by Providence in all that goes to make up natural wealth and productive possibilities, sunshine, moisture, immensely fertile soil and a delightful climate, and then consider the close proximity to the best market in the world for its produce. It is only four days from New York, while California is twelve for freight.

I am so convinced of the merits of the proposition of the Canada Cuba Company that I have invented a goodly sum in it. I made thorough inquiries before doing so, and came at the proposition from several sides and always with the same results, an increased confidence in the ultimate profitable result of the investment.

We have not given vegetable-raising prominence enough. There is a fortune in it here now; we have the very best land for it. Strawberries, 75 cents per box; common potatoes, 3 cents per pound; tomatoes, 3 cents per pound and everything in proportion.

The location of your property is excellent—high, dry, free from rock or stone and first-class sandy loam soil.

A Home in Cuba

AN OPPORTUNITY like this comes but once in a lifetime. Anyone can have a home in Cuba under our most liberal colonization plan.

The way is now open to you. It only remains for you to grasp the opportunity now offered.

Bear in mind, too, that the western farmer who raises twenty bushels of wheat to the acre and gets seventy-five cents per bushel for it, thinks he is getting rich, while in Cuba \$250 to \$500 per acre can be made with far less effort and uncertainty.

TEN ACRES of good fertile land in Cuba, properly planted in early winter vegetables in the autumn, and properly cared for, with careful methods employed in harvesting and marketing the crop, will yield a net return by spring of from \$800 to \$800 per acre, or \$8000 to \$8000 for the season's work, exclusive of cost of cultivation.

THE CROP from such a tract is marketable in December and January from thirty to sixty days before the Florida groves have begun to ship—and at a time when the northern markets are practically bare of competing products.

Absolutely no Risk

We think we have shown you in the past that you take absolutely no risk when you invest with us. You secure land to-day that will be worth five times its money in one year.

A TEN-ACRE GROVE of orange and grapefruit trees will yield you a profit the fourth year of \$1 per box, or \$900 (80 trees—80 boxes, \$90 x 10 acres—\$900).

When your grove comes into full bearing it will pay you from \$2700 to \$5000 a year for life, and it will be worth \$10,000 cash any day you wanted to sell it, and it will be yours.

TEN ACRES planted in pineapples will yield any man who will look after it properly from \$2500 to \$3000 a year returns from fruit and suckers, out of which must come the cost of the actual cultivation, which is not large when once the tract is planted.

How does this compare with farming profits in this country?

Pineapples

Eight thousand to 10,000 plants per acre bear in 12 to 18 months from time of planting an average of 8000 pineapples, or 250 crates per acre; cost delivered at New York, \$1.25 per crate; average wholesale price over six months, \$2.93 per crate; average profit per crate, \$1.68.

Our estimate: 250 crates per acre; profit, \$1 per crate; total profit, \$250 per acre.

THE ADVANTAGES over California and Florida may be enumerated briefly as follows:

IN CALIFORNIA the profits of the orange growers are diminished by:

Expensive artificial irrigation.

Expensive methods of frost protection.

Frequent losses of fruit and trees from frost.

Expensive fertilizers to enrich the soil.

Heavy freight rates (by rail) to eastern markets.

Fourteen days' haul to New York.

IN CUBA the orange grower enjoys:

Copious but not excessive rainfall.

Rains well distributed throughout the year.

Absolute freedom from frost.

Naturally fertile soil.

Freight rates forty-eight cents less per box than California.

Four days by steamer to New York.

Every Information Freely Given

This company is the owner of 70,000 acres of very rich, fertile land in the Province of Pinar del Rio, Cuba. This land is suitable to the growth of the finest quality of tobacco, oranges, lemons, pineapples and other citrus fruits.

One acre produced last year \$2700 in tobacco. The revenue-producing powers of this estate will not be reduced by sale of lands, as the cultivated portion will be increased by additional plantation.

The lands offered for sale can be made as productive within a short period as those at present cultivated.

The estate is abundantly watered by numerous streams and fresh water springs.

The temperature is even, so that catarrh is unheard of.

This company is now offering land in blocks of ten acres or more at \$10.00 per acre. Stock at par, or scrip entitling the owner to an option to take land at \$10.00, or stock at par, for a limited period.

Only 10,000 acres will be offered at \$10.00 per acre, of which 7000 acres are already sold. The second 10,000 acres will be sold at \$20.00 per acre or over within a few months. The balance of the estate to be disposed of—30,000 acres—will be raised to \$50.00 per acre or over.

As the price of land is raised, the price of stock will also advance. Purchase now and save money.

Terms—25 per cent. cash; 25 per cent. 30 days; 25 per cent. 60 days; 25 per cent. 90 days; or terms can be arranged:

Bee Keeping

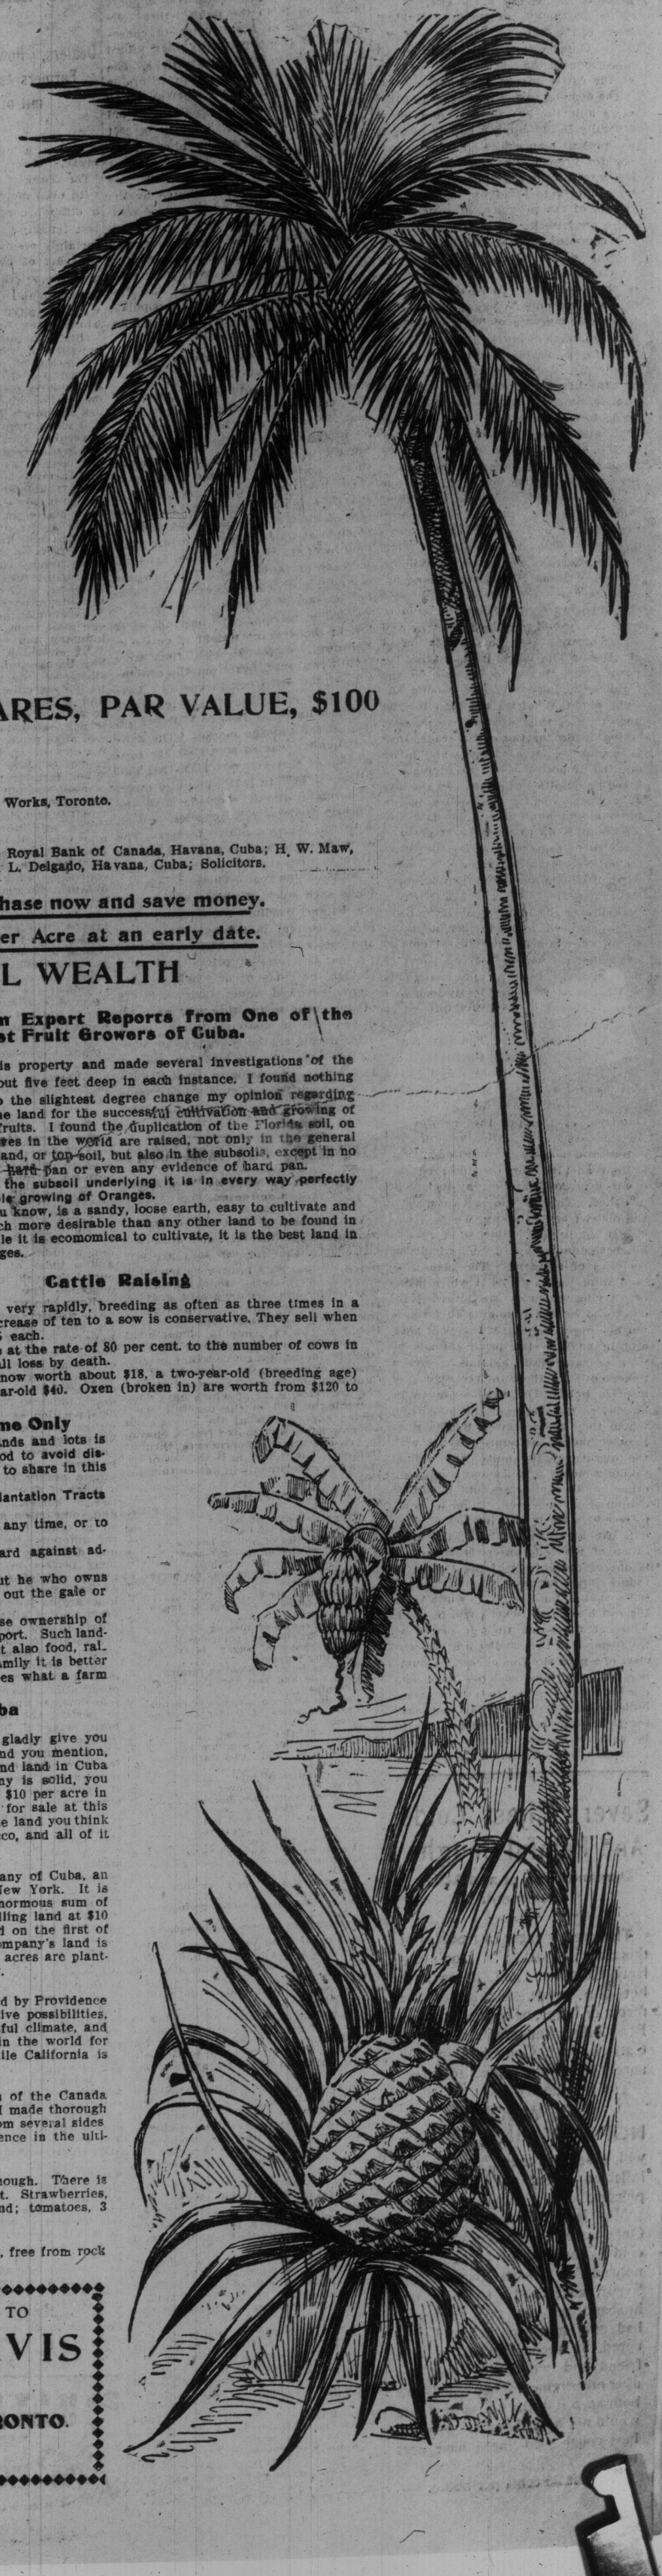

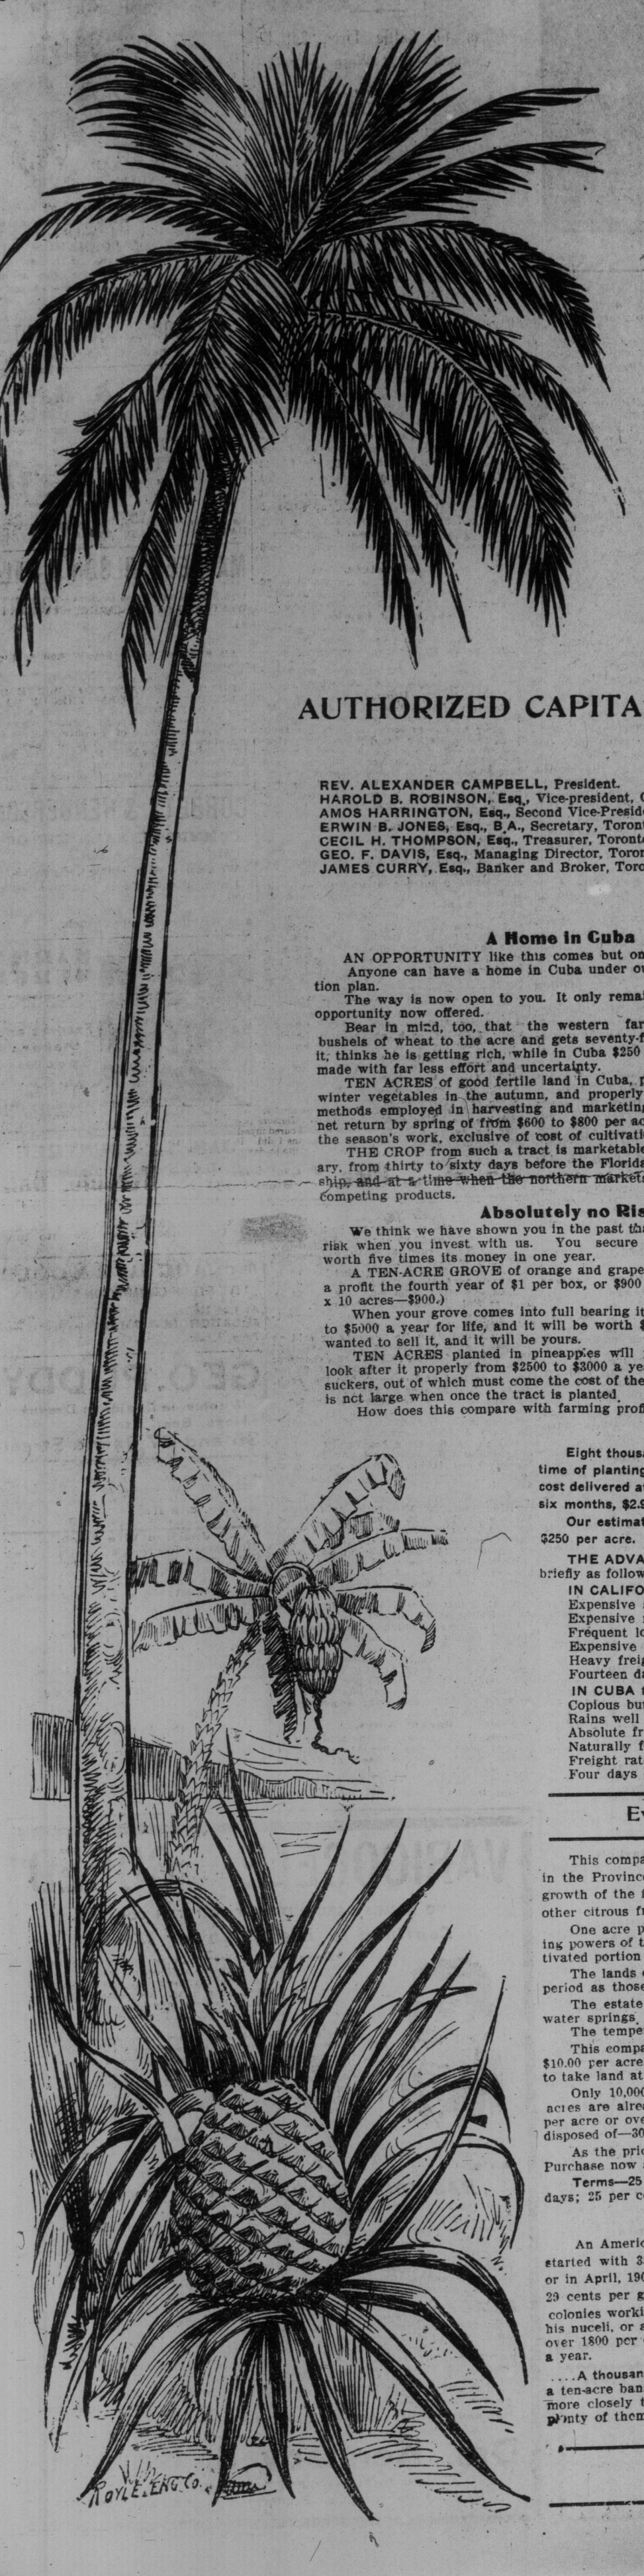

An American settler near Candelaria, Pinar del Rio Province, Cuba, started with 33 colonies of bees in April, 1900. Just two years later, or in April, 1902, he had actually sold 7200 gallons of strained honey at 23 cents per gallon, and 150 nuclei of bees at \$1.50 each, and had 600 colonies working. He had realized \$2,078 from his honey and \$225 from his nuclei, or a total of \$2303, and had increased the size of his "plant" over 1800 per cent. This "side line" yielded an income of nearly \$1200 a year.

A thousand dollars a year can be easily earned by a planter of a ten-acre banana plantation and if care be taken to cultivate the land more closely than the natives do, thereby securing large bunches and plenty of them, this sum can be increased.

BULLETIN TO AID FARMERS.

Gives Results of O.A.C. Experiments
—Lectures for New Ontario.

The department of agriculture has issued a bulletin referring to "Field Experiments with Farm Crops." The results are given of experiments at the Ontario Agricultural College, and it is published in advance of the college report in order that the farmers may get it before sending in their applications for Farmers' Institute lectures will be sent to New Liskeard and Rainy River districts during June and July next. Efforts to organize new institutes there will be made. Summer lectures will be given at Manitoulin, St. Joseph, Muskoka, Parry Sound, Algoma and Nipissing.

Frank Pedley, assistant superintendent of Indian affairs for the Dominion government, had a consultation yesterday with Hon. J. J. Fox, commissioner of crown lands, with a view towards a better understanding between the Dominion and provincial governments regarding these matters.

Sam Fox, M.L.A. for West Victoria, and George Kerr, M.L.A. for Stormont, had the distinction yesterday of being the first to sign the roll of the new legislature. This, with the taking of the oath, is the last act before becoming a member.

Those who did not sign yesterday will have an opportunity at 10 o'clock this morning of doing so, when Col. Clarke will be in the chamber for the purpose.

300 LIVES LOST.

Chinese Fleet of Boats Caught in a Sea of Fire.

Hongkong, March 21.—Three hundred people have lost their lives at Whuchow, the treaty port on the West River, near by 200 miles from Hongkong. At this time of the year, the place is crowded with natives arriving from the Chinese New Year's festivities, and is unusually packed. Half the people have their homes in kampanis, slipper boats and junks and most in the river. A few nights ago tongues of flame were seen to shoot up from the crowded boats and spread from one to another. As the frail craft were bereft of their bamboo rafts, they drifted and spread the fire to pontoon.

The people aboard were fighting helplessly, jostling each other in the water in their efforts to get to safety. At least 300 perished, either in the flames or by drowning, the exact number will never be known.

Cooking operations are said to have been suspended for the fire.

FIFTY-FIVE DEAD.

Brookton, Mass., March 21.—Fifty-five dead, sixteen disabled, forty-eight missing and 235 employees of the factory accounted for in a fire to-night, the situation following yesterday's mill catastrophe. For the first time since the fatal explosion razed the shoe factory of R. B. Grover & Co., the city seemed today to fully realize the enormity of the calamity. This has been brought about by the positive identification, by this of clothing, or otherwise, of several bodies, and the failure to recover the bodies of those who had survived, must have been brought forth.

ABOLISH FREE MARKET.

Galt, March 21.—(Special.)—Galt has abolished the free market. From next Saturday fees will be charged vehicles occupying a place on the square. The restriction providing against the whole-sale buying of market produce earlier than 9 o'clock has also been removed. To-night the council further decided to sell the property by tender. At one time \$1000 a year was offered for the fee. The market, as heretofore, managed, is a loss instead of a revenue to the town. The council have adopted the sweeping changes in order to turn a \$35,000 investment to some money earning use. The experiment will be watched with interest by surrounding towns and cities.

TO SPECIAL COMMITTEE.

Ottawa, March 21.—(Special.)—On motion of Sir William Mulock in the house today, Hon. J. H. Ferguson and Victor Gordon were added to the special telephone committee.

WORK COUNTY AND SUBURBS

Hasn't Been a Police Court Case
This Month—Chicken Thief
Loose in Vaughan.

Toronto Junction, March 21.—One of the hands employed in the Nordheimer piano factory here received a written notice today to report for work tomorrow morning, from which it is inferred that the strike is over so far as the employers are concerned.

March has been a record breaker in the police department. So far this month there have been no police court cases. Some attribute the clean slate to the benign influences of the local cold weather, and others say the continued cold weather will be to the police to do when its gets warmer.

Three years ago this spring a house was erected in the west end. This house has never been occupied, and it is understood that the owner has offered \$4000 for it, but wanted more. It has been assessed as an "unfinished house" at \$1400 ever since, and other property-owners are kicking because it is assessed at one-third the price asked for it.

The Annettsville Methodist Church last night. "Resolved, that love is a greater incentive to labor than necessity." Miss Lena Keicher and Miss E. Price spoke for the affirmative and won. The speakers for the negative were Miss Crouter and Miss Florence Moss, and the judges were Miss Nixon, Miss Sheppard and Miss Ellis.

Short addresses on "The Crying Needs of the Town," by W. A. McMaster; "The Streets of the Town," by Wilbur Horner; "The Street Car Service of the Town," by L. O. Horner; and "The Smoke Nuisance," by J. H. Colville, were delivered at the meeting of the Brotherhood of St. Paul. The addresses were given by individual citizens, and a representative from a municipal point of view.

The question has been raised as to whether the rent of Kilburn Hall for the public meeting called by the mayor is a matter of public interest. Monday evening should be paid by the town (in which there are many Catholic taxpayers) by individual citizens. "It doesn't matter," said one citizen today, "we must have that meeting before the mayor calls a public meeting. The latter has no option in the matter."

A temperance service of song will be held in Kilburn Hall on Thursday evening at which several musical selections will be rendered by Annettsville Methodist Church choir. Other features will be a lecture by A. Ward, illustrated with lantern slides, and a musical by Master James Macmillan, followed by presentation of a musical play, "The Music Hall next Monday evening. The pupils will be assisted by Miss King Edward, Miss King Edward, and Miss King Edward.

Those who did not sign yesterday will have an opportunity at 10 o'clock this morning of doing so, when Col. Clarke will be in the chamber for the purpose.

Cook's Baths

"The Travelers' Home."

"Travelers' Home" expresses the comfort and coziness of Cook's Turkish Baths better than most hotels. When a traveler arrives in town he can bring out his grip and after a few hours rest take a comfortable bath, obtain a good night's sleep for no more than hotel accommodation, without the Turkish Bath would cost.

Each, including sleeping accommodation, \$1.00.

COOK'S TURKISH BATHS

202-204 KING ST. WEST, TORONTO

SECURES SHARES IN RIVAL CONCERN

Judge Will Not Compel Registration Without Notice, However.

The Imperial Starch Company of Prescott, Ont., has been successful in securing shares in the rival company, the Starch Company, Ltd., of Toronto.

A shareholder named Leacy sold two shares of the Imperial to Geo. F. Benson, president of the Morrisburg company. Mr. Benson asked the court yesterday to compel the registration of the shares.

Chief Justice Meredith said: "I will not direct the registration of the shares transferred to Benson, making Mr. Benson a member of this rival company, until, at least, the company has had notice of the transfer."

The company was ordered to appear on Friday. Chief Justice Meredith yesterday directed the Imperial Starch Company to pay into court \$3000, the estate of Isaac Butcher of Brant, who died intestate, and Isaac Butcher, his son, will share the estate with his two sisters.

Mrs. W. Raymond is claiming unpaid damages from George (Gosnell) Bloomfield, who is alleged, made statements detrimental to the business of Mrs. Raymond.

The Strachan-avenue case is now determined. The division court confirms the judgment of Judge Meredith against the contention of John Inglis & Co., and the city can convey the property to Harris Company the 14 foot strip on Strachan-avenue.

W. J. Long of Hamilton will not appear further in regard to the sale of the Canada Woolen Mills to him for \$250,000. A new sale will have to be made.

Damages of \$5 is all that the Sheppard Publishing Company gets against its former manager, Mr. Harkins. Costs on a much larger scale are allowed, however.

TEACHERS WHO GET SCHOLARSHIPS

Fourteen Who Go to Guelph for Nature Study Instruction.

The education department yesterday issued the following list of successful candidates for the Macdonald Institute scholarships at Guelph:

Miss H. E. Hockley, Eden, first-class certificate.

Edith M. Phillips, Cedar Dale, first-class certificate.

W. J. Blackstone, Dundalk, second-class certificate.

W. J. Buchanan, Morden, second-class certificate.

George A. Clayton, Arkell, second-class certificate.

Cecil R. Klink, Agricultural College, Guelph, second-class certificate.

Miss L. L. Leach, Cherry Valley, second-class certificate.

Miss S. L. Fotheringham, Toronto, second-class certificate.

Miss Jennie R. Mowbray, Kingsville, second-class certificate.

Miss L. L. Leach, Cherry Valley, second-class certificate.

Miss Amy Irene Spink, Kingston, second-class certificate and university undergraduate.

Miss Catherine M. Strath, Sault Ste. Marie, second-class certificate.

Miss L. L. Leach, Cherry Valley, second-class certificate.

Miss Amy Irene Spink, Kingston, second-class certificate and university undergraduate.

Miss Catherine M. Strath, Sault Ste. Marie, second-class certificate.

Miss L. L. Leach, Cherry Valley, second-class certificate.

Miss Amy Irene Spink, Kingston, second-class certificate and university undergraduate.

Miss Catherine M. Strath, Sault Ste. Marie, second-class certificate.

Miss L. L. Leach, Cherry Valley, second-class certificate.

Miss Amy Irene Spink, Kingston, second-class certificate and university undergraduate.

Miss Catherine M. Strath, Sault Ste. Marie, second-class certificate.

Miss L. L. Leach, Cherry Valley, second-class certificate.

Miss Amy Irene Spink, Kingston, second-class certificate and university undergraduate.

1400 LEAVE FOR THE WEST

300 COME FROM BRITAIN

Home Seekers' Excursion Heavily Patronized, Including Many Women and Children.

Yesterday saw one of the largest excursions of homeseekers that have ever left Toronto for the west. It is estimated that almost 1400 people left in the four sections of which the North Bay train was made up, the first being on eight cars and the other of several cars each. Of these seven were baggage coaches. The first section left the Union station promptly at 1.45 p.m., the others moving out at regular 15 minute intervals.

In spite of the bustle, the arrangements made by the well known agents there was no confusion and everything went with smoothness. There were more than the usual number of women and children leaving in the party, which also included a sprinkling of westerners returning home after spending the winter months in the West.

Most of the homeseekers were young farmers gathered from all over Ontario, whose goal was, making \$1000 by more than one bystander, represented a distinct loss to the province. A number of farmers were seen in waiting, but few bargains were struck, as most of the immigrants expressed a wish to "wait a bit."

Last night fifty freight cars were sent out with settlers' effects including horses, cattle, implements and household goods, all belonging to the party that left in the afternoon. The freight train will run thru to Winnipeg and arrive very shortly after the owners of the cargo. The railway men are expecting the greatest influx to the Northwest this year that has ever been known.

FROM THUNDER BAY WEST.

Grand Trunk Pacific Starts Work in Spring.

Montreal, March 21.—(Special.)—It can now be stated authoritatively that the Grand Trunk Pacific will commence to build in the early spring from Thunder Bay westward to Pacific coast. It was for this purpose that the bonds to the amount of five million dollars were issued.

This is the first work that will engage the attention of the company. This section is considered to be the cheapest to build. There may be a change made later on, in case the British Columbia government and the request of the Grand Trunk Pacific in the matter of a grant of public land, the Grand Trunk Pacific will be actually commenced just as soon as contracts can be let.

Work is now being made, under the direction of Mr. Morse and Mr. Stephens, the chief engineer, for the construction work.

At a meeting of the provincial cabinet yesterday afternoon, a decision was arrived at relative to the question of seine fishing in the Thames River. The government will issue no licenses for seine fishing in the Thames River for this year, and after this year no licenses for any part of the river will be issued.

Hon. Adam Beck, representative of the City of London, has pressed the claims of the anglers in this matter, and the decision of the cabinet will be held with satisfaction by lovers of the sport.

LETTER WAS FILED.

Galt, March 21.—(Special.)—At the cabinet meeting a petition to the legislature, praying for enactment of a law to place married women's property on an equality with that of single women, was submitted by the City of London.

The mayor said: "What shall we do with this interesting and important document?"

Ald. Thomson: "Oh, please send it back and inform the Toronto corporation that the women of this town are the greatest trouble to me to get on for any such nonsense."

The mayor: "I don't think that would be so gentlemanly, ought to be treated at least with courtesy."

The letter was filed.

HELDLOCK & CO.

Founded in 1785, this house has its offices and some cellars right in the centre of the Rue du Sud. It has long since been known for its general store, and is now in possession of a modern establishment at the Rue Coubert.

Here everything points to the enterprise of the firm and their determination to continue the business on a grand scale. Under the guidance of M. Duntze, the chief de caves, I had an opportunity of seeing the premises, and can speak in warm praise of their completeness. The firm were one of the first to take the wine to the city, and they appreciate it as much for its retention of the sparkle in the wine as for the actual saving of the cost of the wine.

They own vineyards, but, like other large firms, purchase the grapes and crush them in their own cellars. They have a large number of cellars, and the wine is stored in them for a long time before it is bottled. They have a large number of cellars, and the wine is stored in them for a long time before it is bottled.
