**GIVE OFFICERS CHASE. BILL IS TOO PATERNAL**

**K. Macdonald Addresses Insurance Committee on Behalf of Canadian Life Officers.**

OTTAWA, Feb. 13.—(Special.)—K. Macdonald of Toronto, on behalf of the Canadian Life Officers' Association, addressed the insurance committee this morning.

He criticized the bill as being too much characterized by yielding to theories, and too paternal. Responsibility should be thrown upon the management of the companies, instead of trying to secure good management by law. The limits set by section 20 of the bill on the valuation of securities should be removed. Half-yearly returns of the transactions of the companies would be sufficient, in place of quarterly, as provided in the bill. The powers of the superintendent to inspect head offices should be worldwide, not merely confined to American and Canadian, as he claimed the bill made it.

He objected to the requirement of a division of expenses between first year and renewal business. It would be extremely difficult to make such a division.

In place of withdrawal of an insurance company's license being made the penalty for actuarial insolvency, it was proposed by Mr. Macdonald that a company under these circumstances should be provided with a license to transact business arising out of its existing insurances. The government of the first year's premiums three years within which to recover actuarial solvency. His suggestion was that no limit should be set in this regard.

Mr. Macdonald asked that clause 53 of the government bill to regulate the loadings of the first year's premiums on life insurance policies be struck out. Such a requirement would result, he declared, in driving the insurance companies out of business. It was theory not practice, and was copied from the pernicious report of the Armstrong commission on the State of New York. The new insurance law of the New York State Legislature was coming up for review at Albany this session.

Opposition Makes Attack Because of Improper Use of Patronage in Provincial Elections.

OTTAWA, Feb. 13.—(Special.)—The absence of Hon. William Pugsley in New Brunswick, where the provincial election is on, was seized upon by Mr. Crockett (York, N. B.) as the text for an attack on that minister and a general review of the situation of the Robison ministry.

Mr. Crockett called attention to the improper use of federal patronage in connection with the New Brunswick elections. It was well known, he said, that when Hon. William Pugsley ceased his exploitation of the government of New Brunswick a few months ago, he turned his attention to the larger opportunities which this government afforded, that he left a government so thoroughly discredited that it required a complete re-organization of the cabinet and that men of capacity and reputation could not be induced to join it. The government which Mr. Pugsley handed over to Mr. Robison, therefore, found itself in great difficulty.

The office of attorney-general, which Hon. Mr. Pugsley vacated, was hawked about the province and dealt with by the government in a manner which the minister of public works to fill the vacancy. The result was that Hon. Mr. McKeown, who as a member of the legislature some years previously signed a memorial and carried it to the lieutenant-governor of that province, containing three specific charges of malfeasance against the minister of public works while holding the office of solicitor-general, finally secured the position, but there was required an assurance of federal provision for Mr. McKeown in case of the inevitable defeat in store for the provincial government. The orders issued under the name of the lieutenant-governor to provide Mr. McKeown with a constituency, it was necessary to procure a vacant seat in the House of Commons. Mr. McKeown did not dare to face the electorate in his home constituency, but sought election in the County of St. John, and Dr. Ruddle, M.L.A., was therefore appointed quarantine officer at a salary of \$1800.

**Heard on the Last.**

Mr. Crockett went on to say that the Robison government held on till its statutory term had expired and when it was necessary to prepare for the elections, so discredited had Mr. Pugsley left the government that it was impossible to procure candidates, and again the province was thrown into confusion. Mr. Crockett said that the provincial government held three seats in the County of St. John, it was necessary in order to secure their return to another federal office. It had been stated openly that Mayor Sears of St. John, and Dr. Ruddle, M.L.A., was therefore appointed quarantine officer at a salary of \$1800.

When you have been exposed to wet and cold weather, your muscles and bones begin to ache, your head feels full and buzzing and kidneys give trouble, it is a sure sign of Grippe and you need a good medicine that will give relief quickly.

A lady sufferer writes: "I have suffered from these distressing ailments, colds and kidney trouble, for years. This winter I made the discovery that a very simple thing called Tar-oil was very successful in curing the Grippe and colds in general. I found in most cases that kidney trouble and backache in the winter time is caused by colds. I thought if I could keep myself from having a severe cold I would be able to pass this winter without the dreaded backache and kidney trouble. I have succeeded and now give this simple mixture to all sufferers. It is as follows:

One ounce Tar-oil.  
One ounce Compound Syrup of White Pine.  
One ounce glycerine.  
One ounce Fluid Extract of Licorice.

You can procure these ingredients at any drug store at small cost and by adding three ounces of boiled water you have the preparation complete as it cured me. The dose is a dessertspoonful every two or three hours. ed

Sir Wilfrid Laurier replied that Mr. Crockett was evidently taking newspaper reports too seriously. He could assure that Mayor Sears had not been promised the St. John postmastership.

"So far as I know the conservative there is no intention whatever to appoint Mayor Sears to an office under this government?" asked Mr. Crockett.

"So far as I know the conservative there is no intention whatever, and I have something to say in these matters," replied Sir Wilfrid. "So far as I am aware, no promise or intimation of any kind has been made to Mr. Sears."

Sir Wilfrid also gave an unqualified denial to the report that the other Liberal candidate had been promised the custom office in Fredericton.

Dr. Daniel enquired if it were not true that Dr. Ruddle of St. John had been appointed quarantine officer.

Mr. Fisher said it was true.

Dr. Daniel protested against this interference in local affairs. He was sure that when Mayor Sears read the prime minister's denial he would get after the minister of public works and get him into a difficulty in this matter. Notwithstanding Sir Wilfrid's denial there was evidently an understanding between Sears and Mr. Pugsley.

Mr. Crockett observed that this was no charge at all. Postmaster Smith was accused of having spoken at a meeting of the Liberal campaign workers. As to the postmaster of Woodstock, he had a letter from that official dated the 11th inst. in which he spoke of a meeting in the Liberal cause.

Mr. Lemieux said that the postmaster who had spoken at the meeting was a Mr. Smith, and the candidate was a Mr. Smith, and the postmaster might be the same as the candidate.

"Does the postmaster-general think it is his duty to have a candidate who attended the Liberal rally?" asked Mr. Borden amidst laughter.

Mr. Lemieux said that as to the candidate, the minister had made lots of things like that.

Mr. Lanester contrasted the case of Postmaster Smith with that of the postmaster at Beausville, who had the honor of the Cathedral maintained the enquiry showed that all he had done was to remark after the election, that Mr. Gibson, the Liberal candidate, was "in the soup."

BRUCE GOES TO OTTAWA HE LEAVES ON SATURDAY

President Hopes to Settle Up Every Difficulty Existing Between Great Britain and United States.

WASHINGTON, Feb. 13.—Ambassador Bryce leaves for Ottawa on Saturday to take up with the Canadian administration the details of negotiations affecting Canada and the United States, which it is hoped to conclude and to embody in a treaty which will close all pending matters between the United States and Great Britain.

International Questions. The various questions which are to be made the basis for this treaty may be summarized as follows:

First—Transfer of duty of merchandise across portions of American and Canadian territory.

Second—Transfer of duty until arrival at points in interior.

Third—Application of alien labor laws to citizens of the United States and Canada.

Fourth—Reciprocal mine owning rights.

Fifth—Conveyance of American prisoners thru Canadian territory, and vice versa.

Sixth—Reciprocal salvage and wrecking rights.

Seventh—Use of logging booms in St. John River.

Eighth—Disposition of certain pecuniary claims.

Ninth—Exemption of Canadians coming temporarily to United States from payment of duties.

Tenth—Distribution of power from Niagara Falls.

It would afford the utmost gratification to the president and secretary of state to see every question between the United States and Great Britain disposed of before the close of this administration, and while it is entirely possible that arbitration would be resorted to in the case of any outstanding and long-standing contention.

DOE MARTIN SAYS BOTH GOVERNMENTS SHOULD GO

Scores Sir Wilfrid Laurier—Lennox's Assurances Contained Nothing Definite.

VICTORIA, B.C., Feb. 13.—The Laurier and McBride governments on the Asiatic question were roundly condemned by former Attorney-General Joseph Martin before a crowded meeting of the Asiatic Exclusion League to-night.

Mr. Martin declared that he had given notice of the abrogation of the treaty when Japan last year broke her pledge given by Nasse, when the Japanese treaty was adopted. Lennox's assurances contained no definite promise by Japan. QUEBEC BRIDGE DANGER MAIN PIER IS MENACED

Rush of Ice from St. Peter Lake May Cause Loss if Wreckage is Not Cut Away.

MONTREAL, Feb. 13.—(Special.)—The Herald publishes the following observations of the wreckage of the Quebec bridge to-day that collapsed some months ago, the correspondent had his attention called to the great danger of the main pier on the south shore, which it is said, will be injured, if not totally destroyed, this spring when the Lake St. Peter ice moves, away and moves down the River St. Lawrence with a rush.

The danger lies in the fact that the fallen superstructure of the bridge remains in the same position at the time of its collapse, and the steel bridge will be cut, and the steel bridge will be cut, and the steel bridge will be cut.

**GET INTO THE SUNLIGHT.**  
Pessimism has no place in Toronto. That man whose eyes see nothing but gloom in the immediate present is blind to the activities bestirring themselves under his very feet. Call a halt to Mr. Gloom-eyed and let him look for the bright spots.

Half an hour's walk about the downtown streets, forming the outer edges of this city's business heart, will convince the clear-eyed man that everybody is getting busy to be busier than ever at the same old stand. Not a vacant building, but on the contrary, tenants are filling the storesfronts being remodelled to look like the latest architecture, when the ceilings are taken off. One cast-off bank building being re-created to appear as good as new and a great sight better. Another bank extending its premises in keeping with its growth in popular favor. New buildings have been in course of erection during the winter, and it needed only the sun of yesterday to make them break their shells and surprise the pedestrian.

Take a few minutes off to-day between 12 and 1 (the best time to take a walk in the sun) and observe how the R. Simpson Company have made progress in their model store. Nothing there to cheer the pessimist. Why, man, this town is GROWING, and if you don't hustle some you will be at the end of the procession.

When next you meet a pessimist, tell him to take a walk in the sun and look up. This town is the United Kingdom of Optimism, if you keep your eyes off the gutter and take a walk in the sun.

**BRITISH RAILROAD NATIONALIZATION.**

Not long ago The World noticed the growing attention directed towards the nationalization of the British railways and the leading place accorded to that policy in the program of the Labor party. On Tuesday the question was introduced in the house of commons on the motion of a private member, and the debate showed the substantial accuracy of the informal poll of members of parliament taken some little time ago. A considerable body of opinion in favor of nationalization was disclosed, and Mr. Lloyd-George, president of the board of trade, intimated that the government were of opinion the time had come for an enquiry into the whole subject.

If the government resolved to take advantage of the existing statutory power, no further legislation would be necessary. Sixty years ago, Mr. Gladstone, then president of the board of trade, passed an act authorizing acquisition of all railways built after its date on the basis of twenty-five years' purchase of the average yearly profit for the three years immediately preceding. The average dividend on ordinary stock of British roads is about 3 per cent., and the Labor party, who are warmly favoring nationalization, affirm that the net returns would be increased by from \$100,000,000 to \$120,000,000. The announcement of a government enquiry will, it is generally expected, result in a speedy extension of public interest in the question.

**CANADIAN CATTLE AND BRITISH RESTRICTIONS.**

No immediate, or for that matter, early, prospect exists that the restriction on the importation of live Canadian cattle into Great Britain will be removed, and opinion on the part of those interested in the question appears to be as strongly divergent as ever. Altho the fiction that the prohibition is maintained on account of suspicion of disease among Canadian herds is still advanced in its justification, the real situation cannot be disguised, and simply reveals itself as a struggle between two sections of British and Irish agriculturists. On the one side are English breeders and Irish farmers, and of the other the graziers and dairymen who found Canadian live cattle highly serviceable and profitable. There is not much doubt that it is Ireland that really blocks the way. The absolute restriction imposed in 1886 has been entirely in the interest of the Irish farmers, and any interference with their present prosperity would add another grievance to the "distressed country," and delay the restoration of order which the government are so anxious to accomplish without reviving the stringent Crimes Act now in abeyance.

In a recent number The London, Eng., Meat Trades Journal published the report of an interview with Mr. John Sullivan, had by its Birkenhead correspondent. Mr. Sullivan is a Canadian who is described as "having in his time sold more Canadian store cattle than any man in England." Like all Canadians, he strongly resents the unmerited stigma cast on Canadian cattle thru the continuance of the embargo on the ground of suspicion of disease. He states of his own personal knowledge, "having sold thousands of Canadian stores and upwards of 200 dairy cows every week, that there was no such thing as contagious disease among them, and this is fully borne out by those who purchased them." Mr. Sullivan goes farther and turns the tables completely on the British Government. He says that every practical wholesale butcher in the habit of slaughtering English dairy cows are found to be affected with tuberculosis, whereas the extraordinarily

**We Must Reduce Stock We Cannot Reduce Quality**

healthy character of the Canadian cows was shown by the fact that out of the 2500 cows sold by Mr. Sullivan in the three months of periodical government inspection, in not one case was a single trace of any lung disease found. But the Mr. Sullivan wants the embargo act repealed, because of the unwarranted stigma of disease resting on Canadian cattle. He does not consider that Canadian shippers desire to renew the shipping of live cattle. He told his interviewer that on his last two or six visits to Canada within the last six or seven years, not one of the shippers or feeders even mentioned the restrictions. "The trade," he said, "had undergone a change, and they find that they can make more profit from sending their stock to Birkenhead and Deptford, where the cattle have to be killed, than they ever did on the open markets. They also asked, and, rightly, too, why should they send their raw material to the English or Scotch farmers when the same cattle could be finished in Canada, where grain was so much cheaper, and the finished article sent to the British farmer. In addition to which the Canadian farmer, who finished his beasts himself, not only got a better return for them but had also the benefit of the manure for his land, a fact of which any practical farmer or breeder will appreciate the value."

**TEMAGAMI FOREST RESERVE.**

Editor World: Now that both parties in the legislature are agreed that the mature timber in the Temagami forest reserve may profitably be cut for the benefit of the province, it would be well for the department of forests to protect the natural beauty of the tourist region of lakes and watercourses. The base and pleasure-seeker, which the reserves are held in trust, is the falling of trees near the water's edge. Many of the lakes in Muskoka and around a certain extent dangerous to canoeists by this common practice of the lumbermen in cutting the trees on the shore of the lake, it is easier for the lumberman to swing his ax and work on the open lake, so he saws off all the top branches and top of the tree are allowed to sink into the lake when the tree disappears. Unfortunately the whole of the mutilated remains do not entirely disappear. Usually the heaviest part is caught either on shore or on shelving branches run out in various ramifications into deep water. The trees are cut in a constant danger of losing his life, and the greatest length of timber is on his guard against snags. Nature is a big enough offender in this respect without the lumberman's interference. The T. & N. O. Railway, men were sent into the reserve on an island, on Net Lake, in view of the track, two cedars were cut close to the water's edge. Their stumps and sawdust around them are an eyesore to the former scenic beauty of the island, and the tops were felled into the lake, so that, being stuck in the lake until a wind came ashore at a gravelly spot, from which nearly all canoes embark on the station at James' Sidings. There the trees will remain for years, as there is no means of getting them out. When this kind of thing happens when it becomes a legalized thing for the lumberman to take out lumber? On the Montreal River, where the lumberman has often in this respect, but the strong current in spring often dislodges the trees, and the log to a certain extent robs them of the danger to canoeists; but now timber is being cut along the Montreal River on the other side of the stream, why should not a restriction be made there to preserve the shore line as nature intended it should be, and prevent the cutting of trees within 50 feet of any lake or river? This should be made a law punishable by a fine, and should apply to the prospector as much as to the lumberman, as the average prospector in making his posts, especially witness posts, cuts down a tree, the bulk of which is allowed to fall into the water. This he could very easily remedy by felling his tree so that it would fall on the land; but as a tree usually leans towards the water, and when it falls it is easier for the six-man to get away from it as it falls into the lake, it is seldom that a tree is cut to fall on land. The lumberman has other reasons for felling his trees into the lake, and so we find in the Muskoka lakes and other places where the lumbermen have been a shore line on which it is difficult to embark or land in a small boat or canoe. The Temagami lakes are now in a primeval state, rich in scenic beauty and delightful to the pursuits of the tourist and pleasure-seeker. If lumber is to be cut, and I see no reason why it should not, no interests would be injured by preserving 50 feet along the shore line for posterity and making it an offence to fell a tree into any waterway, lake or river. Posterity will thank the present legislature if it serves the scenic beauty of our northern lakes and ensures a 50 foot reserve along all lakes and rivers on which there can never be danger of trees. J. B. Spurr.

**PREMIER QUICK TO BRING "LAST SESSION" REMARK**

And Proves That Government Has Two Year's Lease of Life.

Progress was made in the debate on the address at the legislature yesterday, when Mr. Preston (Brant), who is a man of ideas, contributed usefully to the policy of readjustment which the opposition has before it, and showed himself wisely sympathetic towards the forward movement. Mr. Hoyle (North Ontario) is an excellent debater and brought out some new material. It is understood that the debate will be resumed on Tuesday by Col. Clark. About six more speakers will take part including the member for Centre Bruce and the two leaders. At the rate it will take a night session to finish next week, as Wednesday the members go to Guelph and the government house dinner will be held. Hon. Mr. Cochran's government bills were advanced a stage and there were three first readings.

Hon. J. S. Hendrie introduced a bill to amend the Ontario Railway and Municipal Board Act of 1906. The bill gives the board power to determine any dispute arising from a railway company and a municipality as to the location of rails in any street or highway, and to say what proportion of the cost of relaying of streets consequent upon the relaying of the rails shall be borne by the respective parties. The board is empowered to regulate in such a manner as to enable it to control the heating and lighting of cars, the use of open or closed cars, the design of seats, and the type of seat and brakes to be used.

Hon. Mr. Hendrie also introduced a bill to amend the Ontario Expropriation Act. The bill provides that in cases where electric railways are diverted from the high-ways, the municipalities shall be erected at the points of diversion. The Ontario Railway Board may also order the removal of any obstruction to the crossing of a fence between the railway and the highway, by either the company or the municipality.

Hon. Mr. Hendrie also introduced a bill to amend the Municipal Act by introducing Mr. E. J. B. Pense (Kingston). The purpose is to make the standard weight of loaves of bread two and one-half pounds.

**Debate Resumes.**

T. H. Preston (Brant) in resuming the debate on the address, did not think that a government debater was correct in stating that the present government was a legacy to the present government from the past. The previous government had been in the direction of abolishing the contract system. They had no indications of a change, and it would not be wide of the mark to say that the present government was a legacy to the present government from the past. A report was now before the house from the special committee appointed by the Ontario Railway Board to investigate the important points found in the American private practice, and said that for his side of the house he was glad to hear that the railway board was to be established. He said that he would support the policy which the right-about-face of the government had secured. An English judge had told a prisoner that he was not sentenced to death for stealing a horse, but in order that horses might be stolen, the present government was now regarded from a remedial point of view, and Hon. Mr. Hanna would have contented himself with the opposition in his new policy.

"We are willing to take a good thing from the Tories and a few good things from us," remarked Mr. Preston, when the premier suggested that he was quoting an opponent's words. The Premier said that he was not quoting any opponent's words, but was sweeping over the country. The editorial centre of gravity in one of the Toronto papers, in a somewhat important article, had said that the Premier had been in the last session of the legislature and the prime minister interposed.

Mr. Preston was certainly not, but had heard rumors. "We have two years yet," said Mr. Whitney, and everyone seems surprised, and some of his own supporters said "One year, two years, three years, four years, five years, six years, seven years, eight PAID DELEGATES. A nice point was raised by The Weekly Sun in its recent issue, anent the paying of delegates by the government to attend Dominion conferences. This article says: "The convention of last week is the second of its kind held in three years. During about the same time we have had a national dairy conference, and a Dominion Fruit Growers' convention. In all these cases the expenses of the delegates were paid by the Dominion department of agriculture. The conferences have been exceedingly valuable, but they would have been still more so if the cost of holding them had been borne by the local organizations represented. You cannot expect full freedom of discussion regarding matters in which federal agricultural policy is called in question when the expenses of the delegates are paid by the authority, certain acts of which may call for criticism."

THE WINDS ARE BLOWING. He, indeed, must be blind, who cannot see in the factor with which Mr. R. E. Gunn's motion was received before the breeders, looking to the making of a big show at Toronto Junction, a strong undercurrent of sentiment for a change of location for our big fat stock show.

The Union Stock Yards are building up a show yard at that point that will be the envy of all who have the pleasure of visiting there. Every accommodation for a show on a big scale is being made. One great argument in favor of that point for the winter fair is the better sales possible for the dressed carcasses. Another point is made in the matter of carload exhibits. There is no feeling to do Guelph any harm, but there seems to be a decided leaning towards more development in Canada along fat stock show lines than is possible at Guelph.

Who's your valentine? Gunn and Pepper are significant names. Disney's sale shows that horses are all right yet.

There are some business expenses that pay. Advertising your sale is one of them. Read our new sale, fence, incubator and liner ads in this issue.

The Holstein Breeders and Ayrshire Breeders have had successful meetings. Take note of Alex. Douglas' postponed sale of farm stock at Markham tomorrow.

Mr. Arthur Johnston of Greenwood is indisposed with a severe cold. Donalds Farm has made a start with Shropshire sheep. Several fine imported ewes were placed there this week.

R. M. Holtby of Manchester has purchased the celebrated Clydesdale stallion Acme.

J. M. Gardhouse of Weston is being complimented upon the purchase of a fine shire stallion of exceptional breeding.

The Farming World and The Dairyman, both of which were published at Toronto, are united into one weekly publication, which will be issued at Peterboro.

The Union Stock Yards, Toronto Junction, are booming. Two big Shorthorn sales are being held there this coming week.

ALEX. DOUGLAS' SALE. It is to be hoped that Mr. Alexander Douglas of Markham will have better weather for his sale of live stock at Markham than he had on his last appointed day. The sale takes place tomorrow.

FARM CALENDAR. Alex. Douglas' postponed sale at Markham, Feb. 15. Edwards-Drummond-White sale of Shorthorns, Toronto Junction, March 5. Miller, Gunn, Shorthorn sale at Toronto Junction, March 6. D. Gunn & Son, Clydesdale sale at Beaverton, March 12. Archbishop O'Rourke. MONTREAL, Feb. 13.—Since Archbishop Brodie placed the ban on mixed marriages, eighteen applications have been made to him for dispensations. Miss De Lery Macdonald, unable to secure a dispensation to be married to A. Shepherd by a Catholic priest, will be married by a Protestant minister, and the ceremony will take place during the Lenten season, a time proscribed by the Catholic Church. Miss Macdonald is a relative of Sir W. C. Macdonald, the tobacco king. Dr. Donald Hirston of Montreal, son of the late Sir William Hirston, is also to be married to Miss Peterson of Goderich, Ont. The marriage will take place at Goderich on March 5.

Make Junction Yards International Show Say Clydesdale Men Resolution Passes at the Annual Meeting of the Clydesdale Breeders to Go to Toronto Junction--Officers Elected--Statements Given--Constitution is Revised.

The Clydesdale Horse Association of Canada met according to announcement in the King Edward Hotel yesterday. A large attendance of members from all over Canada were present. As Secretary Brant of the National Live Stock Records remarked: "I can see faces here all the way from Halifax to British Columbia." It was an interesting meeting, in which the best of harmony prevailed. The morning session was devoted to the election of officers, which resulted as follows: President, John Bright, Myrtle; vice-president, Robert Graham, Bedford Park; directors, Messrs. John Boag, of Queensville, Wm. Smith, ex-M.P., of Columbus, Thomas Graham of Clearmont, James Torrance of Markham, A. G. Gormley of Unionville, A. E. Major of Whitevale and Jos. Henderson of Belton. The vice-presidents for the provinces are: Ontario—Peter Christie, M.P., Manxchester; Alberta—J. A. Graham, Carberry; Manitoba—J. A. Turner, Calgary; Saskatchewan—A. Mutch, Lumsden; Quebec—R. News, Howick; British Columbia—H. M. Vasey, Maritimes—W. W. Black.

The decision of representatives to the various exhibition boards was also proceeded with, and a full list made out satisfactory to the majority. You are an Orator, Gunn. R. E. Gunn of Beaverton moved, seconded by E. C. Hladie of Beaverton, that this society unanimously recommend to the Horse Breeders' Association the advisability of uniting the several horse shows into one, and bringing that show to Toronto Junction, instead of Guelph, as was proposed in connection with the Winter Fair.

George Pepper moved an amendment, which was seconded by J. M. Gardhouse, that the first part of the motion obtain, without the place of meeting being mentioned. The inference from this motion was that Toronto would like one big arena, and at any rate, Guelph would not be the center. But when Mr. Bright put the motion there was no doubt at all about what

When Varsity Was Burned. A newspaper is called upon to answer all sorts of questions and decide all sorts of bets. Last night's favorite query was, "When did the university fire occur?" It may be of general interest to note that it is 18 years ago to-night since the ill-fated St. Valentine's ball at the university, when, in the preparing of the decorations, a coal oil lamp exploded and the damage done. The loss exceeded \$1,000,000.

A Municipal Deputation. A deputation from the Ontario Municipal Association waited on Hon. W. J. Hanna yesterday to urge amendments to the Municipal Act. Elections should not interfere with Christmas trade, and repeal of the Connec Act were the main pleas.

HORSE SALES IMPROVE SHORTHORNS SOUGHT FOR

J. E. Disney & Son of Greenwood Have a Good Sale Despite Bad Roads and Early Date. One of the best auction sales of the season took place at Hillview farm, Greenwood, Ont., on Wednesday, when John E. Disney & Son disposed of their Clydesdale and Shorthorn cattle and horses.

The Clydesdale men think of the proposal. Almost to a man they voted for the motion. In supporting the motion, Mr. Gunn waxed eloquent, and was congratulated upon the result. The chairman then nominated Messrs. Gunn, Thos. Pepper, Gardhouse and Good as a committee to deal with the resolution before the Horse Breeders' Association.

The new constitution which has been carefully proposed under the direction of the executive was then taken up clause by clause. Secretary Sangster read the voluminous document thru before discussion. The new constitution makes provision for every possible contingency, and is in accordance with the recent National Live Stock Records ideas.

CHAS. A. OYPHERS' Model Incubators and Brooders

On my Model Poultry Farm I now have poultry numbering 80,000, hatched and brooded in my own Model Incubators and Brooders. Buying your incubators and brooders of a man who knows nothing for the next to nothing about hatching and raising poultry is running a useless risk. Don't do it. I will not sell you a Model Incubator or Brooder, but I add to them the valuable experience of years. My incubators in their construction, Model Incubators and Brooders, hatch every hatchable egg. This Model Brooder grows sturdy chicks.

## NINE DAYS' BATTLE ENDS FOR PROVINCIAL RIGHTS

Hamilton Radial Bill at Last Has Been Passed by the Railway Committee.

OTTAWA, Feb. 13.—After nine days' stubborn fight the radial bill, amended in several respects, was passed by the railway committee.

Mr. Clarke introduced an amendment to clause one, which, in effect, inserted some of the matter cut out yesterday on the suggestion of the minister. This created a long discussion.

A clause was finally drafted with the assistance of Mr. Graham. The effect of the clause was to bring the act under the Dominion, as it is at present, or may hereafter be amended, and to come within the control of the railway commission.

Mr. Lennox argued in favor of putting it under the jurisdiction of the provincial board and to obtain two cents a mile.

Mr. Gibson said that on parts of the road the fare was now less than two cents. But if the company had to spend two or three million dollars to tunnel into the heart of the City of Toronto it might be necessary to charge more than a two-cent-a-mile rate.

Answering some questions, Mr. Gibson said that the section from Oakville to Toronto would probably be first constructed, and then the section to Niagara River.

Mr. Macdonell moved a formal resolution making the road subject to jurisdiction of the Ontario Railway Board, and is so far as his power to sell electricity is concerned to jurisdiction of the hydro-electric power commission. This was declared out of order.

Section 3 was amended providing that cars in the City of Toronto would only stop and take up and lay down passengers in the City of Toronto at such points as were approved by the City of Toronto, and that the road would not run east of Rosedale-avenue, except by tunnel.

Mr. Henderson (Halton) protested against the limitation of competition. He supported the bill because it was to give competition, and this might prevent passengers getting into Toronto except by changing cars.

Mr. Gibson said that this company did not want to do a local business in Toronto. The arrangement was satisfactory to him as it was to Toronto. The bill was amended, making it run thru St. Catharines.

The clause affecting the City of Hamilton was made clear that the consent of the city council must be obtained by law before any crossing or similar works were carried out.

A general clause was also framed, making it necessary to get the consent of all the municipalities through which the road passed before going along any highway or public place, etc.

Mr. Lancaster wanted to know why the consent of the City of Hamilton should be obtained in regard to the agreement with the H. G. & B. Co. Gibson said that the company as a matter of expediency gave way to Hamilton. Col. Gibson agreed to an amendment preventing the company competing with municipal lighting plant without the consent of the municipality being obtained.

He'll never take a drink before noon," remarked a railroad agent in the Flood building recently.

"Oh, come off, he'd never refuse an invitation like that."

"All right, try him."

"Very well; come into his office with me."

"Hello, Jack. Come over and have a little drink."

"Nope, never drink before noon."

"Oh, come on, just one little drink as an appetizer for your luncheon; come along with us anyway, come."

"Well, what's yours, Jack?"

"Bartender, give me a ticket. I'll be back at 4 o'clock and get my drink."

## REGULATIONS FOR PURE MILK SUPPLY

Provincial Board of Health Endeavoring to Safeguard the Consumer.

A set of recommendations has been drawn up by the provincial board of health for the purpose of ensuring the cleanliness and freedom from infection of the milk supply.

All milk containing less than 13 per cent. of total solids, of which 3.4 per cent. must be chemically dry butter fat, must be deemed below the standard.

All buildings for stabling cows must have good drainage, not be within 100 yards of any marshy or stagnant water. Each cow must be allowed 600 cubic feet of air space, and cows are to be kept clean.

The cows from which the milk is sold must not include any diseased animals, and especially none showing signs of tuberculosis or any relative trouble. The employment of the tuberculin test is recommended. Nothing must be fed to the cows which would affect the taste or character of the milk.

Employes must be clean in habits and free from contagious disease, even the milkers' hands must not come in contact with the milk, and only one pail is allowed each milker.

Even the drivers of wagons must be free from contagious diseases. The collection of empty bottles used in the delivery of milk or milk tickets from any house where contagious diseases exist must be made only after the house has been fumigated and such bottles sterilized. In the inspection of dairies, the employment of the score card system is recommended.

## A DELIBERATE SUICIDE.

Buffalo Manufacturer Takes Life in New York Hotel.

NEW YORK, N.Y., Feb. 13.—Lying across his bed in a position that showed conclusively that the deed was done with deliberation, J. W. Bosche of Buffalo committed suicide in the Astor House early to-day by slashing the radial artery of the left arm with a razor. In the room were found letters addressed to the manager of the hotel, the coroner and his wife. In the former Bosche apologized for the trouble he was causing the hotel.

No motive for the deed is known here. Bosche had been at the hotel since Feb. 5. He is said to have been a member of the firm of Bosche Bros., manufacturing jewelers of 518-520 Main-street, Buffalo, with a residence at 61 Kitchell-street, that city.

## WOULD STOP THE 'HOLD-BACK'

Notice of a Bill to Amend the Railway Act.

OTTAWA, Feb. 12.—(Special.)—Mr. Martin (Montreal) gives notice of a bill to amend the Railway Act to make it illegal for a railway company to retain two weeks' pay from its employes, as is the custom at present on most railways.

## Coroner Johnson Surprised.

Speaking of Aid. Keefer's motion, adopted by the city council, asking the provincial government to request Chief Coroner Arthur James Johnson to withdraw either as chief coroner or as surgeon for the Toronto Railway Company, Dr. Johnson said last night that he had received no intimation of a demerit action.

He pointed out that all street railway accidents fell under the jurisdiction of the county coroner, and added that the city is responsible for only one-half of his salary.

## SCARBORO'S PIONEER RESIDENT PASSES AWAY

Mystery Still Surrounds Death of Old Man Near Schomberg—Items From the County.

TORONTO JUNCTION, Feb. 13.—Thinking it would be interesting to have a ride on a farmer's sleigh, Willie Murphy, a little seven-year-old boy of Gillard-place, east of the Don, indulged in that pastime to-day, when a cutter and occupant, that suited his fancy passing near his home. The two soon became fast friends, for the farmer evidently never wished to part company with the little fellow till they had arrived almost at Lambton. According to the child's story, the man drove to a stable there and then told him to get out of the sleigh as he was going no farther. H. Leachman of 348 West Dundas-street found the lad late in the afternoon wandering along Dundas-street, between Elizabeth-street and Lambton. He had had nothing to eat since morning, his feet were wet and cold, and he was "on the rocks" generally. Mr. Leachman brought him home and gave him a good meal, after which the boy communicated the information that his father was an employe of the Conger Coal Company, and that his home was at Gillard-place. J. H. Beamish, the local manager of the Conger Coal Company, on hearing of the affair, telephoned to the head office and found that there was a man of the name and age given by the company's payroll. The Whitton-avenue police were thereupon notified, with instructions to communicate with the witnesses of his parents. His father came to the Junction to-night and took his son home.

A foreigner named Maslans was arrested this evening by one of the company's detectives on a charge of stealing six cases of securities. He was admitted to bail on two sureties of \$100 each.

The street foreman's department has been engaged for the two or two in draining the surface water from the streets, so that their condition is at present much better than is the case in many parts of the city.

The board of health were to have met to-night, but on account of the town clerk not notifying the members a quorum could not be obtained. Dr. Gilmore, the new medical health officer, states that six cases of scarlet fever in town have already been reported to him this month.

Miss Annie Burton died suddenly yesterday afternoon at her parents home in Islington. She was in her twentieth year. Interment will take place in Ebenezer Burying Ground to-morrow.

Miss Wolf of Eridale was married yesterday in Eridale to Mr. Coultier, a merchant of Langdon.

The Ladies' Aid of Royce-avenue Baptist Church will hold a musical entertainment in the church to-morrow evening.

The funeral of Mrs. Mary Jane Woodhead of Harriet-avenue, York Township, will take place on Saturday at 2:30 p.m. from Runnymede Presbyterian Mission to Prospect Cemetery.

## WOUBURN.

One of Scarborough's Pioneers Has Passed Away.

WOUBURN, Feb. 13.—(Special.)—The death of Alexander M. Secor, which took place at the residence of his son here yesterday, removes one of the oldest residents in Scarborough Township. Mr. Secor was 88 years old and a native of Scarborough, having been born on lot 19, con. D, and has for the greater part of his life resided within its borders. By profession Mr. Secor was a miller and built the first flouring mill in Scarborough Township, Durham County. Prominent in the early business and social life of the historic old riding of Scar-

borough, he with many others was largely instrumental in wresting it from the primeval forest and bringing it to its present high position.

He is survived by three sons, Maitland, James and Angus. One daughter, Mrs. Cleghorn, predeceased him.

Mrs. Secor was for twelve years prominently identified with the municipal life of the township, as deputy reeve and treasurer. The late Mr. Secor was a member of the Presbyterian Church and in politics a Liberalist.

Broad-minded and progressive in his views, few men have left upon the memory of the township a more lasting history of their native township.

Interment will take place at St. Andrew's.

## NORTH TORONTO.

Officers Have Hard Time in Arresting York Township Farmer.

NORTH TORONTO, Feb. 13.—Supposedly crazed by grief over the death of his son in late Samuel Dunn, Chief of Police Collins and another officer last night had their hands full in effecting the arrest of the son, John Dunn, at his home concession 2, East York. The funeral of the late Samuel Dunn took place in the afternoon, the son being unable to attend. Shortly after 8 o'clock last night the chief received a telephone message to go out to the farm, which he did. There he found young Dunn, apparently a raving maniac, and difficulty was experienced in overcoming the poor fellow and bringing him down to the Eglinton police station, where he was placed. Dunn was violent, and before he had been long in the cell he smashed the long wooden bench, on which the prisoners sleep, to pieces. At times Dunn would rave incoherently. He was under watch all night, and on the advice of Dr. Johns was this afternoon removed to a place of safety.

The remains of the late Rev. Newton Hill of Davisville Methodist Church were laid to rest in Mount Pleasant Cemetery this afternoon. The funeral was largely attended, and the following clergymen were present: Rev. J. W. Wilkinson, Rev. W. Wellwood, Rev. L. W. Hill, Rev. George Brown, Rev. T. W. Pickett, Rev. J. J. Reddit, Rev. Mr. Garbut, Rev. Dr. Chown, Rev. F. C. Keen, Rev. J. J. Blace, Rev. J. W. Stewart, Rev. T. M. Gamble, Rev. C. F. McTavish, Rev. Dr. Galbraith, Rev. T. E. Bartley and Rev. A. Lesca.

The Rev. T. E. Bartley officiated at the house of mourning, and was assisted by Rev. L. W. Hill, Rev. Dr. Galbraith, Rev. J. J. Reddit and Rev. Mr. Garbut. At the grave Rev. J. W. Wilkinson officiated, and was assisted by Rev. Dr. Galbraith, Rev. T. E. Bartley, Rev. A. Lesca, Rev. T. E. Bartley. At the house service the two hymns selected by the late

Rev. W. Hill were sung, namely, "Arise, My Soul, Arise!" and "Lead Kindly Light."

Members of the congregation, namely, Messrs. J. S. Davis, J. M. Whaley, C. H. Shaver, S. B. Longtree, W. W. Cordingley and Geo. G. Gouling.

The floral offerings were exquisitely beautiful, and were donated by these friends, by Eglinton Lodge, A.O.U.W., Mr. and Mrs. J. S. Davis, Davisville Ladies' Aid, Davisville Methodist Church, Davisville Sunday School, sprays by the Davisville Epworth League, Mrs. McTavish, Dr. and Mrs. Bell, W. A. Garrett, Mr. and Mrs. Dundas and others.

A crowded house greeted the performance of the annual entertainment given by Court Eglinton, No. 842, C.O.F., to-night. The program was much appreciated and consisted of the following: "Messenger March," by the Ozburns Ladies' Mandolin Club, also a medley of Messrs. vocal solos; vocal solos by Mr. Price, the German yodler; Miss Ethel A. Richardson, Mr. W. Loch, Miss Mason, and the humorous portion was supplied by the following: The fencing contest was much appreciated. A. S. Lawson, chief ranger, made a short speech, setting forth the advantages derived by a member of the Canadian Order of Foresters.

A high-class musical concert was given at Christ Church, Deer Park, this evening by the choir, in which the following artists took part: Prof. J. Churchill, Art Bridge, the Messrs. May and Hattie Aridge, Miss Hazel Winters, Miss Evelyn Severs, Miss Armstrong and Miss J. Augustine Aridge and A. Buskell.

The Davisville Public School team played the Deer Park Public School a game of hockey this afternoon at Deer Park. The visitors won by 5 to 3.

The Davisville Public School will give a concert in the town hall on Tuesday, Feb. 25. The object of this entertainment is to raise money for the purchase of a plan for the school.

Councillor Parke went on a few days' business trip to Montreal to-day.

## MIMICO.

Will Be Benefit Concert to-Morrow Night—Factories Are Busy.

MIMICO, Feb. 13.—Among the special doings arranged for St. Valentine's Day here will be a grand benefit concert in the evening in the public school hall at 8 o'clock. The concert is in aid of the Home for Incurable Children and will be held under the auspices of the Lord Lansdowne Chapter of the Daughters of the Empire of Mimico. The program will also include several dramatic selections, first among which will be the fascinating story of "Cinderella," with its beautiful scenery, costumes and ballroom effects.

Yesterday the Merzle Wall Paper Co. of New Toronto shipped by C.P.R. a score of their wares, which was somewhat of a record. The number of consignments totaled 12, and the freight bills included names of places from Halifax in the east to British Columbia in the west. This company are very busy at present shipping carloads of goods for the coming spring trade.

## A Word to Men

THE winter is pretty well advanced. The season for lighter overcoats will be along pretty soon. We want to interest you in an investment.

Lots of people think ahead far enough to buy their winter's coat in the summer time. Our proposition is along a similar line.

We want every man who is wearing out his old overcoat to take stock of its remaining usefulness and figure it if it wouldn't pay him to buy a new one now while prices are low.

Remember, he has saved the price of a new coat already. He has worn his old one all winter. Now he may invest his saving to the greatest possible advantage. He will then have a new coat for best while the cold weather lasts and put away practically a brand new coat for next season.

Same argument applies to furs—now see the reductions for Saturday.

THORNHILL.  
Many Friends Pay Last Tribute of Respect to Late Mrs. Robinson.  
THORNHILL, Feb. 13.—(Special.)—The funeral of the late Mrs. Geo. Robinson took place here this afternoon from the family residence, near Dollar. Deceased was ill for only a few hours, retiring on Monday evening at 8 o'clock from a feeling of indisposition. At 9 o'clock she lapsed into unconsciousness and passed away at midnight. Deceased was the eldest daughter of the late Robert and Eliza Williamson and was born near Elgin Mills, where her parents resided. She is survived by her husband and two brothers, Robert and John, a kind and sympathetic friend and neighbor, deceased will be greatly missed in the neighborhood.

SCHOMBERG.  
Mystery Still Surrounds Death of Old Man Found Near This Village.  
SCHOMBERG, Feb. 13.—(Special.)—Interest in the circumstances surrounding the finding of the body of the aged unknown man in the Holland Marsh, some four weeks ago continues unabated, and much interest locally and otherwise attaches to the case. The circumstances are briefly those: On the afternoon of Jan. 10 a farmer was proceeding along the road known as the "old survey," thru the district known as the Holland Marsh, when, in order to make a short-cut to his own home, he diverged from the roadway and struck thru the ice, frozen grass, and in some places muskeg, toward his own home. While passing one of the gullies he came upon the body of an elderly man, partially imbedded in the ice and snow, and frozen stiff. He immediately acquainted the coroner of Schomberg of the matter, and on the following morning the body of an elderly man, partially imbedded in the ice and snow, was brought to the village, and a distance of about five miles from Schomberg, and one mile from the public highway, and brought in the body. So difficult of access was the spot that the party were compelled to unhitch the horse and pull

the running gear of the cutter to the spot and drag it back bearing the body.

Coroner Erereton, after keeping the body, which was that of a man in advanced years, well and comfortably clad, for a week, in the hope of identification, decided that an inquest was unnecessary and ordered its interment, which was done at the expense of the township council.

It is regarded by some of the residents of Schomberg as somewhat of a coincidence that, some four days before the finding of the body of an old gentleman named Hambly, of Orangeville, had a serious altercation with the hostler of a local hotel, and later in the day the latter remarked that "Hambly had gone home to sleep and he would do likewise." The hostler, however, did not know the body, which was that of a man in advanced years, well and comfortably clad, for a week, in the hope of identification, decided that an inquest was unnecessary and ordered its interment, which was done at the expense of the township council.
