## WHY C. M. A. GAVE UP THAT LONDON OFFICE FOR SECURING LABOR

Agent Leopold Did His Best, But Was Unable to Satisfy Either Members of the Public at Large, Reports Special Committee.

**STRESS OF THE PAST YEAR HAS BEEN GENERALLY FELT**  
MONTREAL, Sept. 15.—(Special.)—The labor question loomed largely in today's reports, presented before the annual meeting of the Canadian Manufacturers' Association.

J. D. Roland, in his presidential address, predicted a repetition of last winter's hard times. The parliamentary committee was also inclined to pessimism. The report of the British office committee, of which G. W. Watts was chairman, was devoted to a discussion of the employment of labor. The closing of the association's labor bureau in London was lengthily explained. "Strictly speaking," says the report, "there was but one cogent and valid reason for taking this step, and that was that the office had ceased to justify its existence as a business enterprise. There were, however, other influences tending to make the bureau unpopular then, but a revival is hoped for."

Complaints were being made that the help supplied was unsatisfactory; that hands for whom a fee had been charged never reported for duty; or worse still, that parties whose passage had been advanced left their posts without discharging their indebtedness. Grievances of this character were multiplied. In some cases, letters were received stating that the men had been engaged through the London office to perform a certain work who had never even learned the trade involved. In other cases, the association was censured because it accredited representative had recommended the payment of fees for men who were either worthless, or dishonest, or both. Failure to observe specific instructions formed the basis for still further complaints, while on several occasions men who had been hired abroad claimed, on reporting for duty, that they had been promised a rate of wages higher than what actually prevailed.

**A Rocky Road.**  
"Sometimes it would be found, upon investigation, that the complaint was justified; in these cases, the department's fee was promptly canceled, and permission asked to engage new hands to replace those that had proved unsatisfactory," says the report. "At other times it would be found that the employer had only himself to blame, perhaps because of his failure fully to instruct the London agent upon points that were essential, or perhaps because of his neglect to observe ordinary business practices. In these cases it was hard to decide whether to insist upon the payment of the fee to which the department was justly entitled, and by which the chances of antagonizing a member, or to forego the association's claims in an effort to placate the one who felt aggrieved."

Leopold, the London agent, is credited with having conscientiously performed his duties, tho at times exceeding instructions, but to fill the simplest application entailed a vast amount of work. Sometimes the recommendations of applicants were found to be forged. If genuine, there was always the danger that an unworthy person had been given the testimonial out of pure sympathy. In this respect clerical men were frequent offenders. The advance of passage money was almost a necessity in some trades, as long as the steady employment prevented any savings. Efforts were repeatedly made to effect some sort of arrangement with reputable bondsmen or companies to insure the repayment of fares advanced and eventually, but too late, Mr. Leopold succeeded in making an arrangement. "Embarrassing as the adjustment of these difficulties proved to be, it is certain your committee would have continued the office had there been any thing to indicate that it was likely to be of further use," says the report. "But, with the advent of the industrial and financial depression last fall, the labor situation became greatly relieved. Where, a few months before, there had been a scarcity of skilled help, there was now an abundance in all lines of trade. From September to January only two firms made application to the association for fees aggregating \$1551. Of this amount, \$778.75 had been collected up to July 31, \$54.45 had to be canceled for one reason or another, while the balance \$717.80, was still standing upon the books."

"The total disbursements on account of the British office to July 31 were \$275.61, receipts \$78.75, leaving a cash deficit of \$196.86. This will be reduced somewhat by collections still to be made, but as a considerable percentage of the book debts are a doubtful asset, which sooner or later, will have to be written off, it is thought that eventually the department will be shown to have cost the association about \$1600. Outside Criticism of the Office.  
"Before concluding this report, it is only proper that some reference should be made to the criticisms leveled against the association and its labor

Continued on Page 6.

## BORDEAU HAS BIG MEETING IN ST. JOHN

Provincial Premiers Reply to Criticism of Their Taking a Hand in the Conservative Campaign.

ST. JOHN, N. B., Sept. 15.—(Special.)—Twenty-five hundred people were present in Victoria Rink to-night to welcome R. L. Borden and his friends. The utmost warmth and cordiality was manifested in the welcome. When the speakers entered and as they mounted the rostrum 2000 people were on their feet with waving arms and hats, cheering vociferously. Small knots of silent men here and there indicated the presence of Liberals anxious to hear more than one side of the questions of the day. Of the whole number present your correspondent can assert that not 50 persons left before the last speech was concluded.

Hon. Messrs. Borden, Roblin and Hanna were the only speakers. Hon. Mr. Hazen and the local candidates having decided to give the evening to their leader and their guests. Hon. Mr. Hazen announced that in eight or ten days Sir James Whitney would join Mr. Borden's tour. He made an indignant reply to an editorial in today's Sun taking at expenditure in Ontario, and the speaker's support of the Conservative economy of administration plan. It was an article prompted by ignorance or dishonesty. The fact was that \$2,000,000 had been saved annually by economical administration of Ontario Government, and laid out on roads, schools, etc. Mr. Borden replied to the Liberal cry against the provincial premiers assisting in the tour. They were getting anxious, fearing the proofs of Liberal administration. The premiers brought the message of hope and confidence. The Liberals had forced provincial politics into the federal field and this tour would continue.

Mr. Pugsley had come to New Brunswick, Ontario, Graham, Patterson and Aylesworth, to the Ontario elections, and had been beaten. These were the only speakers. The party press was beseeching "Let Laurier finish his work," that of breaking the platform of '98. (It was already completely broken.) The speaker's utterances of the afternoon were: "Sir Wilfrid Laurier assured his government that the Bay of Fundy would be undertaken at once, and would be built by the government of Canada." "The date when the election the premier was not in a position to announce, but he intimated that it would be made public in his speech at Stratford."

**PELLLETIER IS SWORN IN AS QUEBEC'S GOVERNOR**  
Brilliant Ceremony in Which Sir Louis Jette Steps Down From the Throne.  
QUEBEC, Sept. 15.—(Special.)—Sir C. A. P. Pelletier, formerly Speaker of the senate and latterly judge of the superior court, took the oath of office of lieutenant-governor of Quebec this afternoon amid the booming of the citadel cannon and in the presence of a brilliant concourse assembled in the legislative council chamber.

Among those present were Mr. Begin, archbishop, with several of his clergy, the lord bishop, Sir F. Langelet, chief justice, and other judges of the superior court. Senators Shohyn and Choquette, Sir George Garneau, several members of parliament, Sir Louis and Lady Jette, Lady Pelletier, Lady Langelet and Mrs. Dunn, wife of the lord bishop.

Sir Louis Jette presided until after the oath of office had been taken. In the absence thru illness of Mr. Boudreau, clerk of the privy council, Mr. Bennett of the privy council office was the bearer of the royal commission appointing Sir Alphonse Pelletier governor. When this had been read, Chief Justice Langelet administered the oath of office and presented to the new governor the Bible on which they had been taken.

Sir Louis Jette, addressing the new governor, asked to be allowed to be the first to congratulate him, and after a few complimentary remarks, stepped down from the throne, which was assumed by the new governor.

## LAURIER BIDS CANADA LOOK AHEAD GREAT PROJECTS TO BE UNDERTAKEN

Addressing Magnificent Audience at Niagara Falls, Sir Wilfrid Answers His Critics and Outlines Government Program.

NIAGARA FALLS, Sept. 15.—(Staff Special.)—Within the sound of the Great Niagara Cataract in a setting of scenic magnificence and of historic significance Sir Wilfrid Laurier was tendered a reception to-day which will take its place among the notable demonstrations of its kind in the political history of the country. The city was ablaze with color and the air was filled with the music of a half score of bands when the prime minister arrived at 11 a.m. As Sir Wilfrid stepped to the rear of the government car he was greeted with cheer upon cheer, which at times almost completely drowned out the strains of "O Canada" and the "Maple Leaf Forever," with which the musicians sought to do honor to the Liberal chief. Sir Wilfrid was greeted by a number of prominent residents who were escorted by W. M. German, M.P., for Welland.

Mayor Carter, who is a prominent Conservative, then read an address of welcome to Niagara Falls, to which the prime minister replied briefly, and in terms which told of the keen appreciation he felt at this manifestation from the Cataract City. The parade, which started at Suspension Bridge, at 1 o'clock, followed a route of two and a half miles. Flags floated from almost every window, and banners with suitable mottoes were drawn across the street. These bore such words as "Let us have five more years of Sir Wilfrid Laurier, the old war horse," the twentieth century belongs to Canada; Niagara Falls Welcomes Laurier, etc. The procession was led by a short distance of Lady's Lane Cemetery, where sleep the soldier dead and in which the little statue of Laura Secord, the patriot, stands as a monument to history. Just as the demonstration to-day will take its place in the evolution of the nation, so the election of Laurier will be a landmark in the history of the Dominion.

From the platform in Victoria Park probably 15,000 people listened to addresses of Sir Wilfrid and his colleagues. The speaker was freely applauded. Some of the outstanding utterances of the afternoon were: "Sir Wilfrid Laurier assured his government that the Bay of Fundy would be undertaken at once, and would be built by the government of Canada." "The date when the election the premier was not in a position to announce, but he intimated that it would be made public in his speech at Stratford."

**TWO CENT PASSES**  
The prime minister's reply to the demand for a two cent fare on the railroads: "I believe," he said, "that we should take measures to secure a two cent fare to have the railway and transportation interests superintended and controlled by authorities appointed by the government of the country." "There are some people, including Mr. Maclean, who think we should have a two cent fare. We do not intend to do better in the way of votes, but we are not going to give up the principle of a two cent fare."

**THEY'LL BE A SHAMFIGHT ON THANKSGIVING DAY**  
Military Men Will Prepare Plans Next Week for the Mimic Warfare.  
The Thanksgiving militia manoeuvres, popularly known as the sham-battle, will be held this year as usual, unless the expectations of the district militia staff are altogether disappointed. In view of the participation of Toronto and Hamilton troops in the Quebec tercentenary celebration, it was thought by some officers that the Thanksgiving tactics would be abandoned this year, but Lieut.-Col. Galloway, D.A.A.G., corrected this impression last night.

**A WINNIPEG FAILURE.**  
WINNIPEG, Sept. 15.—Archibald Wright, dry goods merchant, has assigned. This is one of the oldest established houses in Winnipeg. A Montreal importing house is the heaviest creditor.

## PRIVATE SLEUTH SOUGHT BY POLICE

A. G. Cardwell is Alleged to Have Compromised His Freedom on Three Separate Occasions.

A. G. Cardwell, superintendent of the International Detective Bureau, Continental Building, is wanted by the police. A warrant has been issued, charging him with abduction of a girl under 16 years of age. Cardwell is not to be found.

It is alleged that Cardwell, in the month of August, went to a woman living in the north end of the city. He told her that he had to go to Niagara Falls, N. Y., in pursuit of his calling. He asked her to let her 15-year-old daughter, who was attending school, go along, so that nobody would think he was a detective. Thus it would help him and be a nice holiday for the girl. The mother at first refused, but after another interview was persuaded to allow the child to accompany him.

He went by boat to Lewiston and thence to Niagara Falls, N. Y., where, it is alleged, that he took adjoining rooms for father and child. The girl declares that while there he attempted to assault her, and falling of his purpose, threatened her with violence should she tell of the affair. This is not the only information in the hands of the authorities. It is said that having secured the arrest of one James Fowler, now awaiting sentence before the sessions for passing cheques for which there were no funds, he saw this man at the jail, and by threats of continued imprisonment, induced him to sign over his share of a patent to his partner, under promise that his bail would be returned and that upon his release he would be re-employed upon a good salary, which was not done.

**LADIES' HOSPITAL BOARD TO RELIEVE SICK POOR**  
Important Project Decided Upon at Large Gathering Held at St. Michael's.  
Another step forward toward the solution of the caring for of the many poor and needy sick in Toronto during the winter season was made yesterday, when at an enthusiastic meeting in St. Michael's chapel presided over by Archbishop McEvoy, the nucleus of another ladies' hospital board was formed, and a committee of prominent ladies struck off to draft the numerous cases where mothers of large families were stricken; the husband and bread winner unable to remain at home to care for the children in need of a touching appeal for the indigent poor of the city, who are always the principal sufferers during the winter season. He pointed out the numberless cases where mothers of large families were stricken; the husband and bread winner unable to remain at home to care for the children in need of a touching appeal for the indigent poor of the city, who are always the principal sufferers during the winter season. He pointed out the numberless cases where mothers of large families were stricken; the husband and bread winner unable to remain at home to care for the children in need of a touching appeal for the indigent poor of the city, who are always the principal sufferers during the winter season.

**EARLY MORNING FIRE.**  
Fire broke out at 2 o'clock this morning in rear of the Royal Oak Hotel on Yonge-street and Trinity Square.

**JAS. J. HILL, the great western railway man, will to-day celebrate his 70th birthday. He was born in Wellington County, Ontario.**

W. MACKENZIE KING.

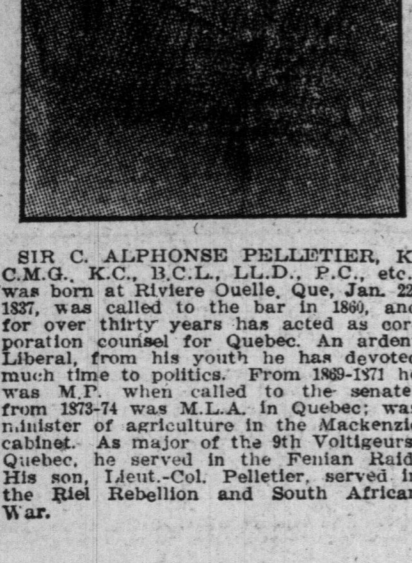

## KING IN WATERLOO LAURIER TO ASSIST

Premier Will Address Convention Meeting at Berlin Next Week in Support of Deputy Minister of Labor.

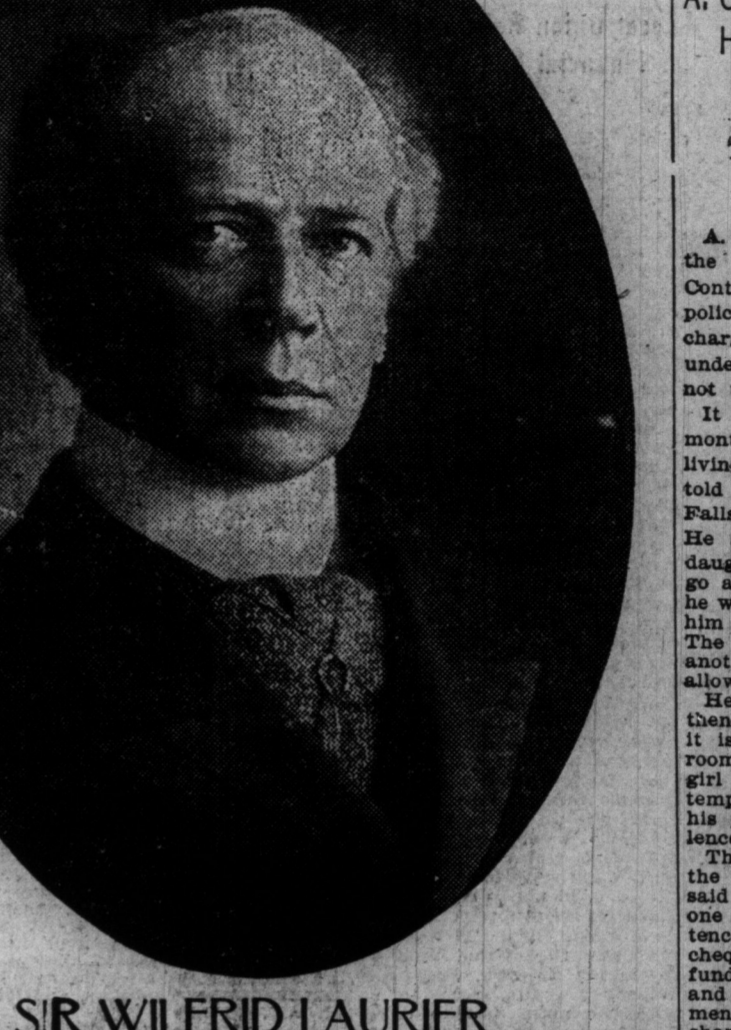

W. Mackenzie King, C.M.G., deputy minister of labor, will be the Liberal candidate in North Waterloo.

The nomination will take place on Thursday of next week, when the Liberal Association will convene at Berlin. To make the occasion a notable one, and incidentally boom the candidature of Mr. King, Sir Wilfrid Laurier will be present to give an address to the delegates and to the crowds that will be attracted by the premier's presence.

**QUEBEC'S NEW LIEUT. GOVERNOR**  
SIR C. ALPHONSE PELLETIER, K.C.M.G., K.C., B.C.L., LL.D., F.C., etc., was born at Riviere Duelle, Que., Jan. 22, 1854. He was called to the bar in 1880, and for over thirty years has acted as corporation counsel for Quebec. An ardent Liberal, from his youth he has devoted much time to politics. From 1883-1871 he was M.P. when called to the senate; from 1871-1874 he was M.L.A. in Quebec; was minister of agriculture in the Mackenzie cabinet. As major of the 9th Voltigeurs, Quebec, he served in the Fenian Raid. His son, Lieut.-Col. Pelletier, served in the Red Rebellion and South African War.

SIR C. ALPHONSE PELLETIER, K.C.M.G., K.C., B.C.L., LL.D., F.C., etc.

SIR WILFRID LAURIER

**Rural Mail Delivery**  
"I have much pleasure in informing you that we have evolved a scheme of delivery for the Province of Ontario and the whole Dominion of Canada, by which we will be able to equip every existing mail route in the Dominion with mail boxes placed at the door of each house and at the junction of the main road and concession lines in order to save the long travel of two or three miles to reach the nearest postoffice."  
"This is the bounty of the Reform Government to the farmers of Canada."—Hon. R. Lemieux, P.M.G., at Niagara Falls.

**THREATENED BY NEGRO SHOOT IN SELF-DEFENCE**  
Tragedy in Temagami After a Drinking Bout—E. G. Eaton Kills F. C. Eller.  
TEMAGAMI, Sept. 15.—(Special.)—E. G. Eaton shot and killed F. C. Eller, a colored man, after a drinking bout. The shooting occurred in a barber shop. Eller attacked Eaton with a razor, when the latter pulled a revolver and fired four times, one bullet going thru the colored man's lungs. Eller died 20 minutes later. The men had been drinking together and had quarrelled. Eaton's chum received a bullet in the hand while looking in the door. It is rumored that the negro was not found after the negro was dead.

**HARD TIMES UP NORTH.**  
Men Said to Be Starving Up at Prince Rupert.  
VANCOUVER, B.C., Sept. 15.—(Special.)—That labor conditions in the north are very bad is the report all northern boats have been bringing down lately. According to the stories of returning passengers, men are practically starving at Prince Rupert. Hundreds of employes who have been working some time are in debt to the company for board and living expenses and with no chance of paying fares to Vancouver.

**EARLY MORNING FIRE.**  
Fire broke out at 2 o'clock this morning in rear of the Royal Oak Hotel on Yonge-street and Trinity Square.

**JAS. J. HILL, the great western railway man, will to-day celebrate his 70th birthday. He was born in Wellington County, Ontario.**

"TIGERS" SEVERE LOSS CAPT. BALLARD HURT

Shoulder Blade Broken in Practice Tackle—The Cataract and the People—Happenings.

HAMILTON, Sept. 15.—(Special).—George W. Ballard, the doughty little captain and quarterback of the Senior Tigers, met with an accident while at practice this evening that will keep him out of the game for at least a month.

Peninsular Central Society—Oats: J. A. Lind, Beamsville, 90 1-2; L. N. Ward, Smithville, 88; John A. Book, Smithville, 87; Elijah Durham, Smithville, 86; L. Martin, Wilmont, 85 1-2.

Directors of the Cataract make no secret of the fact that the financiers of the company have not yet agreed to advance \$50,000 for the improvement of the system, even should the rate-payers pass the bylaw Wednesday.

Before Judge Snider to-day Tom Murphy was charged with assaulting Constable Lenz, and was allowed to go because there was evidence to show that after Murphy had taken Lenz's bison, the constable promised to let him go if he would return it, and did not keep his promise.

There are but 12 male students sitting 200 pupils at the new Ontario Model School. Cameron Bartlett, assistant to General Manager Turnbull of the Bank of Hamilton, has been transferred to Winnipeg, and C. O'Reilly, Winnipeg, will be the assistant manager here.

The police court was all tangled up with a case this morning in which a couple of peanut pedlars were charged with violating a city bylaw that provides a license for hawkers of foreign fruits and nuts.

One Child Cured of Summer Complaint and Six Cured of Cramps by Half a Bottle of DR. FOWLER'S EXTRACT OF WILD STRAWBERRY.

Mrs. Wm. Flewelling, Arthur, Ont., says: "I find it much pleasure to recommend Dr. Fowler's Extract of Wild Strawberry as a grand cure for Summer Complaint. My little boy, one year old, was very bad with it, and a few doses cured him. I also used it on my other six children for cramps, and still have half the bottle left. I cannot praise it too much."

Dr. Fowler's Extract of Wild Strawberry is the greatest of all cures for all bowel complaints such as Diarrhoea, Dysentery, Colic, Summer Complaint, etc.

It is manufactured by The T. Millburn Co., Limited, Toronto, Ont. See that the name appears on the wrapper. Price 25 cents.

NON-UNION SYMPATHIZER

Local Union Relieved of Burden—Financial End of Strike Well in Hand.

The local union of the striking C. P. R. mechanics has been relieved of the work of paying strike wages to the unemployed women who were in sympathy with them.

At strike headquarters the report has been received that freight engines at London and Windsor were beginning to complain, because they were not getting any work to do.

Another point the strikers say is that the most serious difficulty is the heavy consumption of coal necessary to make the engines steam properly.

On Saturday morning engine 829 started out on a run to Orangeville, but the labor people are having to be towed to that place, and since then has been brought down dead to the West Toronto shops.

Doctors say constipation, which can be avoided if Dr. Hamilton's Pills are used; they clear the complexion, tone the stomach and aid digestion.

Frequent Cause of Paleness

Doctors say constipation, which can be avoided if Dr. Hamilton's Pills are used; they clear the complexion, tone the stomach and aid digestion.

THE SUNDAY WORLD is delivered to any address in the city or suburbs for 5 cents per copy.

ABRIDEGROOM'S OUTFIT

This outfit consists of three pieces and although they are very moderately priced every one of them is strong, handsome and may be relied upon for all kinds of rough travel.

DID MURDER AS FAVOR NO LAW TO PROSECUTE

No Statute in Nebraska to Cover Killing of Individual by Request of Victim. OMAHA, Sept. 15.—A curious phase of the legal status of the Rustin murder case has cropped out, and even if Charles Edward Davis, who is under arrest on a charge of murdering Dr. Rustin, should be found guilty of the murder, lawyers here say there is no statute in Nebraska under which he can be punished.

METHODIST W.M.S. BOARD.

Four Day Conference to Be Held Here Next Week. The call was issued yesterday for the annual meeting of the Woman's Missionary Society of the Methodist Church. It will be held at Carlton-street Church, Sept. 22, and three following days.

Lightning Kills Pupil. WINNIPEG, Sept. 15.—Lightning yesterday struck the Spring Coulee School, killing Anna Radon, who was standing with the teacher and a number of pupils in the porch.

Str. King Edward Released. PORT ELGIN, Sept. 15.—The steamer King Edward, which grounded off Chantry Island on Sept. 5, was released and towed to this port. There is a crack about eight feet long in the bottom of the steamer.

In Athletics Second Wind means the calling into action of the reserve forces of the body. A good reserve force is as necessary to the business man and the housewife as to the athlete.

TWO YEARS FOR WIFE BEATER.

LONDON, Sept. 15.—George Crow of Dorchester, who on Sept. 2 pleaded guilty before Judge Elliott in the criminal court to assaulting his wife, who afterwards died, was sentenced to-day to two years less one day in the Central Prison, Toronto.

Judges at Niagara Show. ST. CATHARINES, Sept. 15.—The following are the judges appointed for Niagara District Flower, Fruit and Vegetable Show, to be held here this week: Apples, plums, vegetables, Geo. W. Wilg. Hamilton; peaches, quinces, E. Morris, Fonthill; grapes, pears, M. Pettit, Winona; commercial packages, E. A. Carey, Ottawa; wrapping and packing, Alex. McNeill, Ottawa; special fruit preserves, Miss Shuttleworth, Toronto; flowers, John H. Dunlop, Toronto; honey, Miss Wilcox, St. Catharines; and school competitions, R. Walker and S. Richardson, St. Catharines.

Marmora Mill Burned. MARMORA, Sept. 15.—The Marmora Cooperage mill was burned last night, with a loss of about twenty thousand dollars, with some insurance. The mill employed nearly sixty men.

Str. King Edward Released. PORT ELGIN, Sept. 15.—The steamer King Edward, which grounded off Chantry Island on Sept. 5, was released and towed to this port. There is a crack about eight feet long in the bottom of the steamer.

Shoots Down Foreman. NEW YORK, Sept. 15.—Enraged by the announcement of his engagement to marry another girl, a married woman, employe of a clothing factory, to-day shot down the foreman, Francisco Panza.

DEMOCRATIC GAINS.

PORTLAND, Me., Sept. 15.—Revised returns of the state election yesterday give Fernald, Republican candidate for governor, 729 over Gardner. The feature of the election was the increase in the Democratic vote throughout the state. Every one of the four congressional districts showed gains.

Shoots Down Foreman. NEW YORK, Sept. 15.—Enraged by the announcement of his engagement to marry another girl, a married woman, employe of a clothing factory, to-day shot down the foreman, Francisco Panza.

Lightning Kills Pupil. WINNIPEG, Sept. 15.—Lightning yesterday struck the Spring Coulee School, killing Anna Radon, who was standing with the teacher and a number of pupils in the porch.

Str. King Edward Released. PORT ELGIN, Sept. 15.—The steamer King Edward, which grounded off Chantry Island on Sept. 5, was released and towed to this port. There is a crack about eight feet long in the bottom of the steamer.

Cricket Beaten by an Inning

Marshall Hits Up 52 of Canada's 116 Runs

Lacrosse Galt Wins Protest

Grand Circuit at Syracuse Spanish Queen Wins Big Race

NOTE AND COMMENT

When the Quaker City cricketers were in Toronto this summer they agreed with the suggestion that the present international match should be abandoned...

It is considered that Ontario or Quebec would show better form than a non-descript aggregation like the eleven that has just suffered the most disastrous defeat...

That improvement is needed in the selection of a team to cope successfully, not with an American eleven, but with Philadelphia, is a fact which is not in dispute...

Some of the Quaker team are just back from a successful tour in England, and they returned the Canadians for an insignificant tour...

Of the Philadelphia team that beat the Canadians only two were on the English tour—J. B. King and C. H. Winter—and it looks as if they had more than one good eleven if it were not for the fact that the Canadian committee's selection...

Montreal beat Sheepshead Bay by a long margin in furnishing winning favorites at their meetings that closed yesterday on Saturday...

They have some racing out in Western Canada, there being a meeting of some pretensions in Vancouver, B.C., this week...

The nod system of betting is making a success of it in the present Gravesend meeting, and horsemen are expressing the hope that if the season should turn out to be a success...

The season is late and cold, and we have no chance to do better than figure as an average, the greatest of interest is taken locally in baseball...

Who are the men that the Parisian women would wish to be loved by? Such is the question posed by La Vie Parisienne, the oldest satirical paper of the French capital...

Buffalo Wins a Close Struggle Orioles Win and Grays Lose

Montreal Defeats Rochester—Last Game of the Season Here Today—Scores.

Our old friend Jack White broke away from the barrier yesterday with a rap over the bowlers, and his own team gained two in the remaining eight innings...

The feature of the game was the hitting of the pitchers, both having two hits to their credit. Schaffy had a peculiar day at the bat, he being passed twice, hit twice, while the other batsmen played well...

Toronto's first run came in the fourth, when Whitney tripped, with one down. Keenan sent a liner at Nattress, but Nattress bungled Brown's hit, Whitney scoring...

Montreal's first run was made in the first, when Whitney tripped, with one down. Keenan sent a liner at Nattress, but Nattress bungled Brown's hit, Whitney scoring...

While in the Eastern the season ends Saturday next, except for a Sunday game, every day in Newark, the game is closed the season on till Oct. 4 and the Americans to Oct. 8.

It is almost too good to believe, but a fact, nevertheless, that Toronto's professional baseball season winds up today at Hamilton's Point.

If you notice a youngster limping laboriously do not think the status quo of that injury. It is the mark of a hero, Rugby football is with us, and the long hair does not indicate musical temperament...

Good-by, boys, take good care of yourselves. Friday will ring down the Eastern League baseball curtain in Toronto for 1908...

Galt Wins Protest

Intermediate C. L. A. Championship Will Be Decided on Saturday—Lacrosse Notes.

The C.L.A. executive, with President Keenan in the chair, and the following members present, J. P. Doyle, D. McMillan, W. J. Keenan, J. K. Foran and Secretary J. A. Murray, met at the Toronto club last night to decide the Galt-Owen Sound protest...

Owen Sound, who were represented by Harry Keenan, M.L.A., and A. Rankin, protested that game with Galt in Orangeville on Sept. 4, on the ground that Kid Munro played under the certificate of his brother, W. J. Munro, President J. A. Murray of the Galt Club represented the satisfaction of the executive...

President Keenan reported that he had expected Tom Jones and Hugh M. Stewart to be present at the meeting, but they were unable to attend...

Bradford v. Galt at the island Saturday for the intermediate championship of the C. L. A.

Paddy Brennan has been elected captain of the Olympic team.

Dade, Finlayson, Paddy Ramore and McEoy of St. Kitts are not going with the Olympic team.

McLeod of Calgary, a defence man, has been elected as the representative on the Olympic team.

Galt and Bradford could not agree upon official last night for their game Saturday at the island, so it will be up to President Keenan.

United States Wins Thirty-Fourth Annual Match by an Innings and 21.

Philadelphia, Sept. 15.—The thirty-fourth annual cricket match between all-Philadelphians, representing the United States and Canada, ended to-day in defeat for the visitors.

The feature of the match was the bowling of Vetterlein for all-Philadelphians, and the batting of Marshall of Canada, who made the high score of 52 for his team.

Philadelphia, Sept. 15.—(Special.)—A sensation has been caused by the disclosures resulting from the motion to wind up the London and Port Stanley Amusement Co.

Early in the year a young New York, C. H. Oberhelde came here and promoted the company to take over the famous Fraser House at Port Stanley, to purchase additional land and install Coney Island attractions.

On a motion for a winding-up order the books were examined. There were no vouchers. Furnishings were entered in the books for hundreds of dollars over cost.

Later he was succeeded and left for the United States.

Prominent St. Thomas men are directors and all stand to lose.

FISHERIES PROTECTION. See Association Pass a Number of Important Resolutions.

SAULT STE MARIE, Ont., Sept. 15.—(Special.)—At the regular meeting of the local branch of the Fish and Game Protective Association to-night, the secretary was authorized to write to the department re illegal fish nets used by the fishermen.

EASTERN LEAGUE RECORD.

Table with columns: Club, Won, Lost, Pct. Rows include Buffalo, Toronto, Montreal, Rochester, etc.

Jersey City, Sept. 15.—(Special.)—The local defeated them 8 to 7.

Wheat at St. Thomas.

Ninety Cents is Being Paid by the Millers There.

ST. THOMAS, Sept. 15.—(Special.)—St. Thomas is the chief grain centre of Western Ontario, according to the price of wheat announced to-day, the Campbell Milling Co. paying ninety cents, compared with 82, the highest in London.

Brisk Midnight Fire.

Fire of unknown origin destroyed the two-story frame dwelling of Alfred Little at 39 Armstrong-avenue at 11.45 last night.

Fall Fractures Skull.

Edmund Baisley, a carpenter, 171 Symington-avenue, was seized with epileptic fit on the street yesterday morning. He fell, fracturing his skull.

Fire at Charlton.

CHARLTON, a summer resort on the shores of Charlton Lake, fifteen miles from Brockville, was escaped destruction by fire yesterday. A spark from a sawmill ignited a large barn and well-known house, and five barn houses were burned.

MAJOR LEAGUE BASEBALL RECORD OF THE PITCHERS

Mathewson of New York Leads the American.

In this phenomenal baseball year, when records are being broken with great frequency and new records are constantly being thrust forward...

Close to Mathewson's achievements in the record of victories by the Chicago American, who has pitched in 46 games, and has landed a winner in 34. No less than 17 batters have fallen before him by the strike-out route...

Strike-Out Leaders. If a table of strike-out leaders in both leagues were made up, the leading pitchers would be as follows: American—Wadell, St. Louis, 131; Walsh, Chicago, 129; Rucker, Brooklyn, 118; Overall, Chicago, 129; Reubach, Chicago, 107; Pfister, Chicago, 104; Camnitz, Pittsburgh, 102.

Record of Detroit in pushing Walsh to the top of the list. The Detroit pitcher stands close to another Detroit pitcher, standing close to the veteran Cy Young, who occupies fifth place in the league...

In the National League, McCarthy of the Pirates took a long stride toward Cobb's gain in points for the week landing him at 348, and while Cobb advanced four points, he is now 11 points behind the Detroit ace...

Nature's Cure.

So many people are suffering from nervousness or ailments caused by nervousness that it is impossible to put out a fire with oil.

When you take a drug to cure a nervous ailment, you only aggravate the trouble and cause it to become chronic.

Nature will cure you if you will give her the right kind of assistance. The reason you never see a man who has been cured of a nervous ailment is because they are not properly fed. Nature will cure you if you will give her the right kind of assistance.

Dr. McLaughlin's Electric Belt will cure you if you will give her the right kind of assistance. The reason you never see a man who has been cured of a nervous ailment is because they are not properly fed.

Forward all complaints to The World Office, 83 Yonge Street, Toronto.

GOVERNOR HUGHES' RENOMINATION

Mr. Hughes' renomination for the governorship of New York is a great victory for the independence of the state executive as well as for the forces of reform.

To anyone taking the trouble to investigate the method of operation of the state executive, it would have been apparent that we acted through in a perfectly straight-forward manner.

It is doubtful whether apart from the imminence of the presidential election Governor Hughes would have been left to fight his own battle unaided by an expression of White House opinion.

Mr. Hughes has always been an active politician and he has not scrupled to use the vast influence a president wields on behalf of the Republican party.

In another column The World publishes a characteristic appeal by Mr. H. C. Hammond, on behalf of Ontario's 12,000 conscripts.

Mr. Hammond points out that the majority of those affected are adults who die at the most productive age of life.

Mr. Hammond pleads that this leakage should be stopped and that grants on the present basis are far too small to be really effective.

HIT WITH A FARE BOX And Then Arrested for Assaulting the Conductor.

Following an altercation with Conductor Warnock (No. 845) Geo. Symonds, a tinner attached to the Dymond, a trolley car living at the King Edward Hotel, was taken from an east bound King-street car at 12.30 p.m.

One version of the affair is that Symonds, being the aggressor, struck at the conductor, who was standing on the rear platform at the corner of King and Yonge, and that the conductor struck back with the fare box, when the motorman, hearing the disturbance, stopped the car and came to the aid of his conductor.

In front of the King Edward, where Symonds was arrested, a crowd of indignant spectators gathered—all anxious to vindicate Symonds and cast the blame on the conductor.

A number of the passengers insisted upon registering their names as witnesses on Symonds' behalf.

Among the names voluntarily offered the police as witnesses were: Frank Knowlton, 206 East Gerrard-street; Frank Leslie, 107 Carlaw-avenue; J. Durham, 107 Carlaw-avenue, and Robert Burns.

APPLES, ORANGES FIGS AND PRUNES

The God-given Cure for All Diseases of Bowels, Liver, Kidneys and Skin.

Few people seem to realize how important—how absolutely necessary—it is to keep the Bowels, Kidneys and Skin in proper working order. They wonder why they have Salow Complexions—Indigestion—Headaches—Rheumatism—while all the time their systems are clogged and poisoned with waste tissue and indigestible food which these organs should have removed.

HOPE JAW BRANDY WORKS. Clarence Harvey Narrates an Experience of His Own.

The old saw, "a rolling stone gathers no moss," cannot be applied to stories about Clarence Harvey, the versatile comedian of the Imperial Opera Co.

Long and hard Harvey tried in his earlier stage days to give a real good live scene of a drunken man, but his efforts always fell flat until he visited Japan, several years ago. One day he related his misadventure along these lines to the British consul at Yokohama, stating that in his endeavors to get the knack of being humorously drunk on the stage he had gone so far as to sample every known brand of whiskey, but that it was all to no purpose.

Next morning he told the consul that his education had been complete and was cheap, as it only cost him 45 cents and oasts. Harvey says Japanese brandy lodges in the legs.

Helen Fler, aged 19, a chorus girl with the Cherry Blossom Co., is in St. Michael's Hospital with symptoms of typhoid fever.

ABOUT THE EXHIBITION BACKWARD AND FORWARD

Some Suggestions, Not in the Spirit of Carping Criticism, Which May Be Worth Consideration.

Now that the great Toronto fair—the Canadian National Exhibition as it is becoming generally recognized to be—is out of the weatherwood, enthusiastic citizens may indulge in a little hallooing on the magnificent results of the show of 1908.

Providence has been gracious, as the clergymen acknowledged daily in their prayers at the director's anchorons, and a grateful patriotism may well inspire the breasts of Canadians as they consider the gathering together of the assembled wealth of the Dominion in the stately buildings in Exhibition Park.

A substantial surplus may be anticipated from the receipts of the fair. It is an ill wind that blows nobody good, and if the farmers murmur at dry breezes the exhibition directors are correspondingly rejoiced.

The feature of the fair to the general public was undoubtedly the military spectacle in the evening and the splendid fireworks which followed. Soldiers are always popular, but set in the picturesque frame of the Crimean panorama, and with the stirring and favorite airs from the fine bands, the performances of the local regiments raised the enthusiasm of the spectators to a high pitch.

In the variety performance as The World has suggested in former years, no sorrow would be felt at the elimination of the "death-defying" feats which are supposed to attract crowds. The people who morbidly desire to see their fellow creatures flung to death merely for the purpose of amusing idle onlookers is not a type to be envied.

The directors can make no mistake in expending a fortune on the artistic side of the exhibition. This year while some notable pictures were being hung in the building, there were not the outstanding qualities which marked the collection of 1906. The French paintings were especially below the standard, and one could not escape the feeling that they were sent with due contempt for colonial taste.

New buildings are being imperatively necessary in several departments. It is time the equable was settled which excludes harvest and farm machinery from the fair. This is a big Canadian interest of which view to the fair is nothing.

Since the burning of the transportation building the magnificent carriage exhibit of former years is non est. The manufacturers' building is already much too small, and the process building is filled with exhibits which should be elsewhere to give process work more room.

It would be all ill wind that did not blow the exhibition H. J. P. Good, and the air currents were auspicious which drifted him into the publicity department. Mr. Good has done wonders for the press and public in supplying and circulating information about the fair and a large amount of its success flows thru the channels he opens.

The non-liquor court was formally opened for business at the old stand in the city hall yesterday, but none of the cases called were ready to be gone on with, so Justice Latchford adjourned.

WHEN DOCTORS AGREE!

HAT "doctors differ," is proverbial, but there are many points upon which the medical profession is practically unanimous. One of them is, that of all stimulants, the safest and most wholesome is a good, well-matured whisky.

The advice of one of Canada's most distinguished physicians was:—"In Scotland drink Scotch, In Canada drink Rye."

In each country you can be sure of the age and quality of the native product, the sale of new whisky for home consumption being forbidden by law.

In Canada, the best Rye Whisky is

Corby's "Special Selected"

Because: It is absolutely pure whisky, being manufactured entirely from the best and cleanest grain, without admixture of coloring or flavoring matter of any kind. Its excellent flavor is derived entirely from the pure grain.

Do not ask simply for Rye. Ask for Corby's "Special Selected."

EPWORTH LEAGUERS GOING OUT TO CHINA

Unique Missionary Farewell Meeting at Elm Street Methodist Church. Rev. T. E. Bartley presided at what he termed "the most unique meeting ever held in Elm-street Methodist Church" last night.

Rev. James Allen of the mission board said it was within the memory of ministers still in the ministry when many of the churches which were now sending out missionaries were themselves supported by grants from the home mission field.

It would be all ill wind that did not blow the exhibition H. J. P. Good, and the air currents were auspicious which drifted him into the publicity department. Mr. Good has done wonders for the press and public in supplying and circulating information about the fair and a large amount of its success flows thru the channels he opens.

Plans to Rest. Heintzman & Co., Limited, 115-117 West King-street, Toronto, make a feature of renting pianos at a small sum per month, and what is paid in this way will, when desired, be allowed on the purchase of a piano. If interested see them.

Eaten by Wolves. VANCOUVER, B.C., Sept. 15.—(Special.)—Mike McHugh of Vancouver disappeared three years ago at Alberni, Vancouver Island. Today the remains of the skeleton were found, indicating he had been killed and devoured by wolves or panthers.

Fire at 211 George-street caused \$10 damage yesterday morning.

OTHELLO'S AGITATION GONE

SPENCE and HALES: "Avant, thou horrid spectre! Unreal spirit, hence!" —From The Lancet.

THE BREWERS' MISTAKE. The Lancet: The brewers have been making a mistake and a serious one. They have been taking the temperance agitators and self-styled moral reformers literally. They have in some way been misled into believing that these gentlemen were concerned about intemperance and the evils attendant upon it.

The brewers should have a care. All the signs point to a hard winter, with an abnormally large army of unemployed and out of money. Surely at such a time, with a near future so foreboding, an army of unemployed temperance and moral reform agitators should not be let loose on the community. Then the brewers should be warned by the fate of the old man who made a failure of the attempt to please everybody, and lost his ass into the bargain.

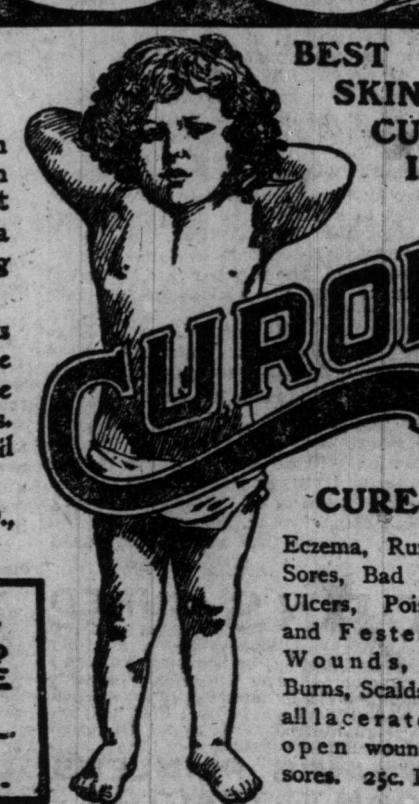

BAD LEGS

A TINY SCRATCH...WATCH IT! One of the after effects of the recent summer is the serious sores and Bad Legs brought on through scratching the heat blains or insect stings.

LAURIER BIDS CANADA GO AHEAD

(Continued from Page 1.)

now with an affection never before suspected," said Sir Wilfrid amid applause and laughter.

Premier and King Charles. The prime minister paid a tribute to the late Sir Alexander Mackenzie.

"Chas. II. was once the King of England," he said, "and was not a very good man—something like myself. I know this because I read The Mail & Empire—this too will, I suppose, be recorded among my sins. I have read The Mail every day for 30 years, and I am shocked at my own wickedness.

Therefore I compare myself with Charles II. But Charles had some good points and I have. Charles II. had no children. Another point of similarity. Charles II had a brother who became James II. and he had all the bad points of his ancestor. The same time he said, 'Brother, have no care, no one will kill me to make you king.'

"There is no one to kill me to give the position to Mr. Borden or Mr. Foster," continued the prime minister.

"Mr. Borden says this to be a campaign of pure mischief. This is so I accept the challenge in its entirety. But, sir, I am familiar with such tactics as this. I am too old a bird to be taken in by such a challenge. I know something of the history of the Conservative party myself. This is no new chapter in a story old story. The Tory party have been good preachers, but poor in practice. Sir John Macdonald was not a purist, and could laugh at their pretensions, and he used to say of one of his followers that 'There never was a man half so honest as my friend so and so looks.'

"And I will say that there never was a man so virtuous as Mr. Borden talks, except it be Mr. Foster."

Disgrace to Canada. Sir Wilfrid then alluded to the historical Pacific, McGreevy and Lake St. John scandals, where the government was taken to task in charges of corruption that had been made not only in the past but in the present.

"I have reached the status and dignity of a nation," said the prime minister in conclusion. "The British Empire is composed to-day of a galaxy of young nations and among these Canada is by consent in the first rank. I don't pretend to say that this can be proclaimed as the work of any party, but I do say that the past five years have been the greatest generation of Canadians which are unfolding pages of history for future generations to read. The honor of growing the nation is reserved to the administration, which you placed in power in 1896."

Committee of Arrangements. The picnic committees are to be congratulated upon the success with which the preparations were made and the day's proceedings carried out.

The committees were composed of the following: John J. Bamfield, chairman; D. B. White, secretary; F. H. Leslie, chairman printing committee; W. H. Robinson, chairman finances; W. Griffith, chairman music; W. H. Newman, chairman parade; and W. E. McCredie, chairman platform.

Surplus Disproves Extravagance. The present administration in twelve years could show a surplus of \$12,000,000.

That was his reply to Mr. Foster's charge of criminal extravagance. The charge had become inspired with confidence and \$50,000,000 of new capital had poured into the country. The trade of the country rose, he pointed out, from \$250,000,000 to \$650,000,000 annually.

They had relieved the motherland of the expenses of the fortification at Halifax and Esquimaux and still a surplus had accumulated.

"Things are changed," he admitted. "The revenue is not so buoyant as it will be our duty to decrease our expenditure accordingly. There is not a government in which in Europe or elsewhere—that has spent more for legitimate purposes in proportion to population than Canada."

Why, Mr. Gorman, talks about our lavish expenditure and then goes down to Prince Edward Island with the prime minister's pocket money of \$100,000. This is not had for one economically inclined."

Speaking of the proposed deepening of the Welland Canal he said: "This is an expenditure which is of no great benefit to Canada. I am not given to say that we are going to do this work at the right time, but we will as soon as the revenues will permit us to do so."

Sir Wilfrid pointed with pride to the benefits which it would accrue to the people of the province. He pointed to the fact that had been emulated by Transvaal. The national policy was dead.

Policy of Transportation. It gave the Conservative government credit during the past years they were in effect, for the execution of one great idea; the building of the Canadian Pacific Railway. The fact that it was approved of the terms which that great project was created. The extravagant subsidy, in its enormity, was not the exception, but the rule. It was wrong. This blighted an otherwise useful measure. But it was a useful measure, and gave full credit to the Conservative party for its part in the Liberal government with it.

Then they fell asleep until in 1896 the country was in a deplorable condition. The nation was stagnant. Manufacturing was dormant. Then we devised the policy of all policies, the policy of transportation. We have been 12 years at it and we are not yet finished. We built the Crow's Nest Railway, opening up a region of vast mineral and timber wealth. We brought the Intercolonial Railway to Montreal. We deepened the canals, a work which was finished in three years. We improved the harbors at Port William and Port Arthur, at Depot Harbor and other ports in consequence. We improved the harbor at Montreal and made the St. Lawrence safe as the streets of that city, right down to the ocean. The merchants of Boston and Portland now know that the people that their trade is going to Montreal.

Grand Trunk Pacific. "The one question to which we have given greatest attention, the one measure which I do more for the people of Canada than any other is, I believe, the building of the Grand Trunk Pacific. We were attacked, by all the forces for taking that step. They said

"Don't go so fast! That railway was not started one day too soon. It is really serving settlers along hundreds of miles of its lines in the west."

You were told that I had said that the cost of the country would not exceed \$13,000,000. Worse, you are told it will cost Canada over \$200,000,000. This is a most dishonest statement. The country will build from Montreal to Winnipeg and the Grand Trunk Pacific will pay at least three per cent. upon the cost of construction. But we stated we could limit the interest for seven years, and that would come from the pockets of the Canadian people. I believe we could revise our calculation somewhat in view of later financial developments, but it will cost the country little more than the amount of his account. The interest on the capital invested will be recouped by the Grand Trunk Pacific—every cent of it—except the seven years' interest during the period of construction."

Hudson Bay Road. "We have undertaken to build the Hudson Bay railway, it may not appeal to the people of Welland, but I say to you that what affects one part of the Dominion affects all, and you are asked to give your share of this national undertaking."

"We have provided that this railway shall be paid for out of the sale of lands with which it will be connected and we have decided that this railway is a necessity. All the wheat is now sent out via Lake Superior and we want to provide a new railway to the seaboard. Then the west will have two outlets."

"But you ask, are you not going to hurt the St. Lawrence route? O, ye of little faith! The trade of Canada will be too great even for these two outlets. The time to build is not tomorrow, but now, and we are looking after the survey to-day. The government will build this railway to have it operated later on as may be considered advisable. All the terminals will be built by the government, and retained under all circumstances for the benefit of the people of the north-west provinces."

"We have reached the status and dignity of a nation," said the prime minister in conclusion. "The British Empire is composed to-day of a galaxy of young nations and among these Canada is by consent in the first rank. I don't pretend to say that this can be proclaimed as the work of any party, but I do say that the past five years have been the greatest generation of Canadians which are unfolding pages of history for future generations to read. The honor of growing the nation is reserved to the administration, which you placed in power in 1896."

Committee of Arrangements. The picnic committees are to be congratulated upon the success with which the preparations were made and the day's proceedings carried out.

Grand Trunk Pacific. "The one question to which we have given greatest attention, the one measure which I do more for the people of Canada than any other is, I believe, the building of the Grand Trunk Pacific. We were attacked, by all the forces for taking that step. They said

"Don't go so fast! That railway was not started one day too soon. It is really serving settlers along hundreds of miles of its lines in the west."

You were told that I had said that the cost of the country would not exceed \$13,000,000. Worse, you are told it will cost Canada over \$200,000,000. This is a most dishonest statement. The country will build from Montreal to Winnipeg and the Grand Trunk Pacific will pay at least three per cent. upon the cost of construction. But we stated we could limit the interest for seven years, and that would come from the pockets of the Canadian people. I believe we could revise our calculation somewhat in view of later financial developments, but it will cost the country little more than the amount of his account. The interest on the capital invested will be recouped by the Grand Trunk Pacific—every cent of it—except the seven years' interest during the period of construction."

Hudson Bay Road. "We have undertaken to build the Hudson Bay railway, it may not appeal to the people of Welland, but I say to you that what affects one part of the Dominion affects all, and you are asked to give your share of this national undertaking."

"We have provided that this railway shall be paid for out of the sale of lands with which it will be connected and we have decided that this railway is a necessity. All the wheat is now sent out via Lake Superior and we want to provide a new railway to the seaboard. Then the west will have two outlets."

"But you ask, are you not going to hurt the St. Lawrence route? O, ye of little faith! The trade of Canada will be too great even for these two outlets. The time to build is not tomorrow, but now, and we are looking after the survey to-day. The government will build this railway to have it operated later on as may be considered advisable. All the terminals will be built by the government, and retained under all circumstances for the benefit of the people of the north-west provinces."

"We have reached the status and dignity of a nation," said the prime minister in conclusion. "The British Empire is composed to-day of a galaxy of young nations and among these Canada is by consent in the first rank. I don't pretend to say that this can be proclaimed as the work of any party, but I do say that the past five years have been the greatest generation of Canadians which are unfolding pages of history for future generations to read. The honor of growing the nation is reserved to the administration, which you placed in power in 1896."

Committee of Arrangements. The picnic committees are to be congratulated upon the success with which the preparations were made and the day's proceedings carried out.

The committees were composed of the following: John J. Bamfield, chairman; D. B. White, secretary; F. H. Leslie, chairman printing committee; W. H. Robinson, chairman finances; W. Griffith, chairman music; W. H. Newman, chairman parade; and W. E. McCredie, chairman platform.

Surplus Disproves Extravagance. The present administration in twelve years could show a surplus of \$12,000,000.

That was his reply to Mr. Foster's charge of criminal extravagance. The charge had become inspired with confidence and \$50,000,000 of new capital had poured into the country. The trade of the country rose, he pointed out, from \$250,000,000 to \$650,000,000 annually.

They had relieved the motherland of the expenses of the fortification at Halifax and Esquimaux and still a surplus had accumulated.

"Things are changed," he admitted. "The revenue is not so buoyant as it will be our duty to decrease our expenditure accordingly. There is not a government in which in Europe or elsewhere—that has spent more for legitimate purposes in proportion to population than Canada."

Why, Mr. Gorman, talks about our lavish expenditure and then goes down to Prince Edward Island with the prime minister's pocket money of \$100,000. This is not had for one economically inclined."

Speaking of the proposed deepening of the Welland Canal he said: "This is an expenditure which is of no great benefit to Canada. I am not given to say that we are going to do this work at the right time, but we will as soon as the revenues will permit us to do so."

Sir Wilfrid pointed with pride to the benefits which it would accrue to the people of the province. He pointed to the fact that had been emulated by Transvaal. The national policy was dead.

Policy of Transportation. It gave the Conservative government credit during the past years they were in effect, for the execution of one great idea; the building of the Canadian Pacific Railway. The fact that it was approved of the terms which that great project was created. The extravagant subsidy, in its enormity, was not the exception, but the rule. It was wrong. This blighted an otherwise useful measure. But it was a useful measure, and gave full credit to the Conservative party for its part in the Liberal government with it.

Then they fell asleep until in 1896 the country was in a deplorable condition. The nation was stagnant. Manufacturing was dormant. Then we devised the policy of all policies, the policy of transportation. We have been 12 years at it and we are not yet finished. We built the Crow's Nest Railway, opening up a region of vast mineral and timber wealth. We brought the Intercolonial Railway to Montreal. We deepened the canals, a work which was finished in three years. We improved the harbors at Port William and Port Arthur, at Depot Harbor and other ports in consequence. We improved the harbor at Montreal and made the St. Lawrence safe as the streets of that city, right down to the ocean. The merchants of Boston and Portland now know that the people that their trade is going to Montreal.

Grand Trunk Pacific. "The one question to which we have given greatest attention, the one measure which I do more for the people of Canada than any other is, I believe, the building of the Grand Trunk Pacific. We were attacked, by all the forces for taking that step. They said

ARE H. C. HAMMOND'S FIGURES CORRECT? If so, a Solution of the Tuberculosis Problem Must Brook No Further Delay

MR. HAMMOND'S LANGUAGE IS PLAIN, BUT PERHAPS NOT AS FORCIBLE AS USUAL.

Toronto, Sept. 11th, 1908.

To the People of Ontario:

About two months ago my doctors ordered me to give up all business and to assume the role of an invalid during the remainder of my term. Among the duties I am dropping is the Trusteeship of the two Sanatoria.

THE DEATH ROLL FROM CONSUMPTION

It is estimated that in Canada there are some 40,000 sufferers from tuberculosis, and that there are 8000 deaths annually. In Ontario there are believed to be about 12,000 cases, and from 1896 to 1906 there were 36,700 deaths, or about 11 per cent. of the deaths from all causes.

In Ontario in 1907 there were 2667 deaths from it, while from smallpox, scarlet fever, diphtheria, measles, whooping cough and typhoid fever the total deaths were 1059, or less than half. Now, let us see what has been done to fight the enemy. The National Sanitarium Association has been the pioneers in this work. The Muskoka Cottage Sanatorium for incipient cases, and a pay institution, was built in 1896, and since then some 2000 cases have been cared for. The Muskoka Free Hospital was started for indigent incipient cases in 1902, and since

at Weston, from which I have derived much pleasure since their inception, and I desire before passing on to appeal for the last time on behalf of our fellow-creatures who are victims of the insidious disease—CONSUMPTION.

The King Edward Sanatorium (pay institution) was started in 1907, and so far has had 48 patients. I may say that when this last was opened the Trustees thought there would be a demand for single wards—of necessity more expensive than when semi-private—but they found the demand so limited that they reduced the terms to one-half, and the place is now filled, and I believe, with care, it can be made to pay expenses, and we are doing good to a larger number of people. His Excellency Earl Grey graciously came up to the opening of the King Edward, which passed off very well, and we thought: Well, now, some new interest will be taken in the work."

PROMISES MANY—DEEDS FEW

delegates all spoke nice words, all looking toward action. I am disappointed at the report of the speech made by the Honorable Provincial Secretary, who, while assuring the meeting of the interest taken by the Government, did not promise anything until to-morrow, and so far I cannot learn that anything has been done. He did suggest the distribution of a pamphlet, neatly printed, on the disease, so that everyone should be informed about the nature of it, but that strikes me like ordering a pail of water to extinguish the top story of the Parliament Buildings if ablaze.

MORE VIGOROUS METHODS REQUIRED

have—Muskoka Cottage, 85; Muskoka Free, 75; Toronto Free, 65; King Edward, 25; Mountain, Hamilton, 30. In all, 280. Does this not strike you as rather thin?

THE NAMBY-PAMBY WAY OF HANDLING TUBERCULOSIS IS NOT WORTH A GRAIN OF SALT. IT MUST BE TAKEN HOLD OF, WITH PLENTY OF MONEY BEHIND, BY STRONG HANDS, BY THE SCRUFF OF THE NECK, AND LITERALLY "YANKED" OUT OF THE PEOPLE OF THIS COMMUNITY.

Two hundred thousand dollars has been spent in land, buildings and equipment of the two Muskoka Sanatoria, and over \$250,000 has been spent in maintenance.

We have spent \$83,000 on two at Weston, and \$68,000 on maintenance.

In 1905 the Mountain Sanatorium was built at Hamilton, with a capacity of 130, for local patients.

The deaths in Ontario for the past five years have been: 1903, 2723; 1904, 2877; 1905, 2669; 1906, 2911, and 1907, 2667, or an average of 2769 per year.

ANNUAL SLAUGHTER OF WAGE-EARNERS

Now, if you have a large business and are paying men to manage it for you, and they know of a big leak by which you are losing thousands of dollars yearly, and if they knew that this could be stopped by the careful expenditure of money, and they neglected to do so, you would naturally discharge them; yet this is what our Members of Parliament have been doing for years, and are doing now. There should not be any politics in this matter; both sides are equally blamable. There is no doubt that the country must be managed by somebody, but these men are your servants, elected by your votes, and if they do not carry out your orders, you can turn them out.

The Government has been good to the existing Sanatoria in a small way, according to their lights, and the City of Toronto has been

AN APPEAL TO THE BEST MOTIVES

If you will not be aroused to the necessity of prompt action in this serious matter from the economic point of view, perhaps you may be susceptible from that of love and humanity (Our hospital motto).

YOU ASK, "AM I MY BROTHER'S KEEPER?" I SAY, "YES, MOST DECIDEDLY YOU ARE."

White or black, rich or poor, we all come from the same basic element, MUD. We are brought into this world without any volition of our own, and we are told by our spiritual teachers that we are born in sin. This has always appeared to me as doubting the justice and loving kindness of the Almighty. Assuming that since the days of Adam and Eve we have been born gamblers, I think if at our birth we could be possessed of the knowledge of all mundane things and have a mirror held up showing our life to be, with the option of accepting it or not, in nine cases out of ten, no matter how rocky and hard the pathway showed up, we would accept, trusting that the hours of health and happiness, or the intensity of the enjoyment thereof, would more than compensate for the hours of sickness and sorrow.

In this country most of us begin to work early. I did at fifteen—some forty-eight years ago—and a great portion of our life we go hustling along, cutting corners to try and get ahead, making paths across the corner lots in cities, and driving from point to point, trails on the prairies, but when we come to the evening of our days, if the world has dealt well with us, we are not looking for rapid transit, but are contented to walk around the corner lots in the cities, and keep to the road allowance on the prairies.

Shortly after birth we are usually baptized in the faith or religion of our parents. When we grow up we generally stay with it, or we may

good to the Toronto Free Hospital, and I have not any fault to find, but if tuberculosis is to be stamped out in this Province, as it can be, it must be done in a wholesale way; no little pica-yune grant of \$100,000, but let it be started at \$1,000,000, with more to follow when needed, and the money will return good dividends in due time. Your Members of Parliament may say, "Oh! the farmers will not stand for the expense." I should hate to believe that. If a farmer has a \$200 cow, or a \$500 horse, and they catch cold, he does not wait till they get worse and die; if he cannot dose them he calls in a veterinary and pays out money for treatment.

Professor Mavor tells me that a wage-earner at 25 has cost some one to nurture and rear about \$1000, or double the value of a good horse. In 1892, the late Ontario Government, looking around for something to help the Treasury, passed the Succession Duties Act, and in reading the preamble you might infer that the revenue would be devoted to the upkeep of asylums, hospitals, and other charities. Since the act was passed in 1892 up to the present date the Province from its operation has received over six million dollars. Twenty-five per cent. of that would have made a nice attack on tuberculosis.

I understand that since 1906 half of the receipts goes to the University of Toronto. It is all right that the Province should have a first-class university in the capital of the Province, but it should not be supported by moneys which, in a way, belong to our hospitals and charities. Since the passing of the act there has been a large falling off of bequests to charities in wills that have been filed for probate, and in two notable cases of wealthy men dying within the past two years, it was either mentioned or implied in their wills that bequests to charities were omitted on account of the act.

change to one we consider better suited to our temperament or our surroundings. Sometimes we drop all faith and wander about in the unsatisfactory realm of speculation. Some of us have a simple, little faith that if we do our duty towards our neighbor, we do our duty to our God; but, any faith or no faith, no sensible man or woman can get away from the fact that we have a duty to perform towards our neighbor when in trouble, and if we shrink that duty we should despise ourselves; and when we do that we had better DIE.

You wonder why I appeal to you. Well Mr. Gurney's remarks at the March meeting gave me the idea. You are the people of the banner Province of the banner Colony of the great British Empire. You plume yourselves and expand your chests and pat yourselves thereon, and think you are IT, and if you exalt yourselves you must accept the responsibilities.

I like the Collect for the twenty-fifth Sunday after Trinity in the Episcopal Prayerbook. It sounds as if there was liable to be some action before to-morrow, and begins thus— "Stir up, we beseech Thee, O Lord, the wills of Thy faithful people."

Now I appeal to you to stir up your Members of Parliament and get them busy. Stir them up with good or bad language, the power of the press, the appeals or denunciations of the pulpit, or, if necessary, try a shotgun, but stir them up, and do not you sit down upon the bank with folded arms looking like a lot of apathetic Lunkheads waiting for that to-morrow which never has, and never will, come. DO SOMETHING NOW. Faithfully yours,

H. C. Hammond

P.S.—The Toronto Free Hospital for Consumptives is still open for subscriptions to the Building or Maintenance Fund. Money is indeed urgently needed. I shall be pleased to receive your gifts, large or small, to help on this great work on the banks of the Humber.

CORNS CURED IN 24 HOURS. You can painlessly remove any corn, either hard, soft or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scars, contains no acids; is harmless because composed only of healing gums and balsams. Fifty years in use. Cure guaranteed. Sold by all druggists in 5c bottles. Refuse substitutes. PUTNAM'S PAINLESS CORN EXTRACTOR

With the Trocadero Burlesquers at the Gaiety. BERT KURZWEL

# COBALT... Stock Offering of Chambers-Ferland Largely Over-subscribed

## SILVER-QUEEN AND TRETHERWEY SCORE VERY SHARP ADVANCES

Profit-Taking Holds Some Issues Down, But the General Tone of Market is Strong.

World Office, Tuesday Evening, Sept. 15.

Profit-taking invaded the mining markets to-day in some issues and the prices of these stocks eased in the quotations as a consequence, but the sales were taken readily and the general buoyancy of the market was not thereby influenced. Last week's shipments from Cobalt were larger than any similar period, the total output exceeding 1000 tons. This was a strong influence on sentiment, and with one of the most convincing arguments in favor of higher prices for the various securities. Silver Queen, Silver Leaf, Tretthewey, McKinley-Darragh and Coniagas attracted excellent buying to-day and advances occurred in each of the stocks. It has leaked out recently on the McKinley and those who got the information bought into the stock this morning on this knowledge. The advances in Silver Queen and the others were due entirely to the belief that these shares are selling much below intrinsic values to which the market prices must ultimately adjust. There was a substantial movement to-day, and it was announced that two cars of high-grade ore were shipped from this property this week. Silver Queen and La Rose were firmer, and both sold considerably higher for future delivery. The market closed in excellent shape with offerings in many stocks quite scarce.

### BOSTON AND NEW YORK

Yesterday morning's advance in Silver Queen was due to orders from Boston and New York for the shares. Five thousand shares were ordered for Boston, but only portions of the order were filled, owing to the advance in the price. The balance of the orders are being held in case of realizing by holders on Wednesday. Another attempt to secure control of this property is again rumored.

### COMPETITION FOR WATTS.

King Edward Trying to Buy Up the Minority Stock.

It is currently reported that the King Edward Mining Company have tried and failed to secure the minority holdings of the Watts mines, and that they are now going out in the open market and endeavoring to accumulate same. This, no doubt, has been one of the reasons for its material advance in the past week. The stock has undoubtedly been manipulated and kept down to its present low selling price for the purpose of accumulating the holdings. There is nothing left for outsiders to do but to bid for it, which they are now doing. This stock is intrinsically worth much more than the price it is selling at. It is one of the prominent shippers in the Cobalt camp.

### STOCK OVERSUBSCRIBED.

Orders for Chambers-Ferland Largely in Excess of Offerings.

It was announced yesterday morning from Montreal that the subscription to the issue of 400,000 shares of Chambers-Ferland had been closed and that the total subscriptions were 187,000 more than the offering. Several brokers have sold the stock to clients, and if there is any more interest exists, it is likely to be big. The stock has been sold at 80 cents, and 78 cents was bid throughout the day, but no transactions were reported at that figure.

### DELAY IN DELIVERY.

Crown Reserve Not Being Delivered According to Market Rules.

Several brokers are complaining that their purchases of Crown Reserve made some days ago are not yet delivered. The time allowed for delivery at the Standard Exchange is three days, but this limit has been exceeded and requests for delivery have been ignored. The remedy for the broker to whom the stock is due is to buy a similar amount of the stock in the open market and charge up any loss to the defaulting broker. The delay in delivery is believed to be because the selling brokers are short of the stock.

### RED ROCK CLOSED DOWN.

Editor World: Could you please tell me if the Red Rock Silver Mining Co. are doing any work on their mine in Cobalt?

Constant Reader.

Red Rock was closed down. Frank Chapin, Trader's Bank Building, will give all information.

F. E. M.

New York Curb.

R. R. Bongard (Charles Head & Co.) report the following transactions in Cobalt: Nipissing closed at 1/2, high 1 1/2, low 1/4; Buffalo, 1 1/2 to 1 3/4; Colonial Silver, 1 1/2 to 1 3/4.

### COBALT ORE SHIPMENTS.

Following are the weekly shipments from Cobalt camp, and those from Jan 1 to date:

	Week end.	Sept. 12 Since Jan. 1	Week end.	Sept. 12 Since Jan. 1
	Orn in lbs.	Orn in lbs.		Orn in lbs.
Buffalo	850,000	8,600,000	Little Nipissing	40,110
Coniagas	842,800	8,500,000	Nancy Helen	387,427
Cobalt Lake	341,833	3,400,000	O'Brien	4,884,307
Crown Reserve	182,000	1,800,000	Peterborough	41,277
Chambers-Ferland	49,280	480,000	Right of Way	113,000
City of Cobalt	254,500	2,500,000	Provincial	142,210
Drummond	688,000	6,800,000	Silver Cliff	52,000
Foster	2,572,400	25,700,000	Silver Queen	1,128,990
Kerr Lake	778,174	7,700,000	Townsville	211,700
King Edward	867,280	8,600,000	Tremiskaming	102,940
La Rose	871,892	8,700,000	Tremiskaming & H. E.	748,620
McKinley	2,306,040	23,000,000	Tretthewey	1,100,500
Nipissing	894,727	8,900,000	Watts	1,816,470
Nova Scotia	892,275	8,900,000		481,000

The total shipments for the week were 2,008,700 pounds, or 1004 tons. The total shipments from Jan. 1 to date are 50,784,045 pounds, or 25,392 tons. The total shipments for the year 1907 were 23,081,010 lbs., or 11,540 tons, valued at \$1,476,100. The camp produced 188 tons, valued at \$120,217; in 1906, 214 tons, valued at \$1,476,100. In 1905, 519 tons, valued at \$3,000,000.

### DEVELOPMENT DELAYED BY INTERNAL TROUBLES

Chambers-Ferland Should Have Joined the List of Shippers Long Ago.

COBALT, Sept. 15.—(From the Man on the Spot.)—Ordinarily the appearance of a new shipper among the Cobalt mines attracts very little attention, but the announcement made last week of the Chambers-Ferland becoming a shipping mine was not an ordinary occasion.

Everyone familiar with Cobalt knows that this should have been a shipper in the earliest days of the camp's existence. The internal difficulties that so long delayed this status were removed a few short weeks ago, and Supt. Jeffery has lost no time in the development of the property.

Lying as it does so close to the vein of the O'Brien mine, and catching the great La Rose mine, and catching the veins of that property and of the O'Brien and Nipissing, no new flotation in Cobalt camp has received better endorsement from the mining experts who have developed Cobalt than Chambers-Ferland.

Three shafts have been sunk and considerable surface work has been done in opening up the 18 inch vein discovered on the property. No. 1 shaft is near the O'Brien No. 1 and is 100 feet deep. Drifting has been done at the 100 ft. level in a northerly direction for 65 ft. to the La Rose, and southerly to the O'Brien for 68 feet. A 5 ft. stope has been carried for 45 feet in the north drift and in the south drift a 5 ft. stope for a distance of 25 feet, making the drift 12 feet high. Stulls and lagging are being put in place and ore chutes put in every 25 feet. Stopping will be started immediately and carried to the surface. The rock will be left in the cut and the ore will be sacked and dropped down the different chutes.

It was from the workings in No. 1 shaft that the 30 ton car of No. 1 grade ore was shipped to the conveyor 4000 ft. ago. Seven tons of high grade ore are sacked and ready for shipment and about 320,000 worth of ore has been taken out. The screenings average 480 ounces to the ton. This No. 1 vein is a continuation of the O'Brien vein which runs thru the Chambers-Ferland west into the La Rose, and is the main mass of the La Rose. The vein is in their No. 10 tunnel. This vein in the La Rose tunnel had a width of between three and four inches, and several tons of high-grade ore were sacked that averaged 3600 ounces of silver to the ton. The vein matter has a width of between 5 and 6 feet of good milling ore, and will doubtless be treated at the concentrator. The screenings taken out by La Rose from this rock matter averaged 850 ounces of silver to the ton.

Shaft No. 2 is near the traveled roads and is down 100 feet. At the 30 foot level a cross-cut westward has been started to tap the vein 40 feet distant. This vein is carrying rich ore and is being rushed. La Rose shipped a car of ore from this vein last year that averaged 1000 ounces of silver. Two cobalt veins appeared in the shaft 3 inches and 1 1/2 inches wide. Several veins will be worked from this shaft. Shaft No. 3 is sunk on vein No. 7 down 32 feet. This vein is carrying rich silver value. Veins 6 and 7 run parallel and will be worked from this shaft. They are La Rose veins and show 1000 ounces of silver to the ton on the surface on that property. Supt. Jeffery has 38 men and four drills working double shift.

Frank Burr Moore.

### VALUABLE MINES OPENED IN SOUTH LORRAINE

District Discovered This Year Promises to Rival Cobalt in Production.

"I think in a very short time as much silver will be taken out of South Lorraine as out of Cobalt itself," said William Joel of 308 Confederation Life Building, a mining man who has spent 20 years in South Africa, to The World yesterday.

This district, the importance of which has only recently become known to prospectors, is about 15 miles south-east of Cobalt. The discovery in the spring, since which time a large number of promising properties have been opened up. The first discovery was the Keely mine. This mine was by hand \$40,000 worth of silver before the mine was sold to Dr. Nesbitt for \$300,000. The next mine to come into prominence was the Halleybury mine. This mine was sold to the Halleybury Mining Co. Property. This company has a capital of \$50,000 in 200,000 shares of 25 cents each. The shares are now selling at Halleybury at \$1.50. The company is bagging rich ore.

From the Wetliufer property enormous quantities of silver-bearing samples of the stuff are on exhibition at Halleybury. These contain huge masses of native silver. The owner informed the World that he was in the verge of closing a deal for the sale of the property for \$500,000 cash.

Mr. Joel exhibited a photo of a nugget taken from the Halleybury mine about a month ago. The nugget weighs 147 1/2 pounds, and is almost pure silver.

People connected with the Kerr Lake and Nova Scotia mines have over 14 properties in this district alone, and a Buffalo syndicate has bought 33 properties.

Mr. Joel is handling the Proprietary Silver Mines. This company has a vein carrying fine body of cobalt, smaltite and silver, and large interests in the South Lorraine district in the vicinity of valuable mines, and has a capital of \$100,000. The company is bagging rich ore.

As an index of the activity that is going on in this district, the following is a list of the mines that are being worked. Wherever there has been systematic prospecting good results have followed.

### STRIKE BREAKER SHOOT.

Wounds Picked Who is in Serious Condition in Hospital.

Winnipeg, Sept. 15.—(Special.)—Last evening in the western part of the city, Jas. Pepperton, an strike-breaker, was accosted by a picket line, three, who asked him where he was employed. For answer Pepperton pulled out a revolver and fired, shooting Robert Kerr in the hip. Pepperton then fled, but subsequently was arrested in the yards by one of the C.P.R. special constables. Kerr was removed to hospital, where the bullet was removed at midnight. The case is serious, but not hopeless, since there is intestinal injury. The shooting of Kerr has aroused a bitter spirit among the strikers and threats of lynching Pepperton are heard.

### EXHIBITION VISITORS SEEM BORRY TO GO HOME

Yesterday was the last day on which people holding special railway exhibition tickets struck out in Toronto, and as most of these annual visitors wanted to stop as long as their tickets would allow, the result was heavy outgoing traffic at the Union Station yesterday, where the officials' asser about 20,000 people were handled.

The chief clerk in the Grand Trunk district passenger agent's office was besieged yesterday with applications from sick, or would-be sick, travelers, who wished to have their tickets extended, but this is allowed only when the application is accompanied by a doctor's certificate confirming the illness, and some of them did not go to this trouble.

### Adventure on the Bay.

Curtis Lang, a newly joined member of the Argonaut Rowing Club, started out for a little spin on the bay yesterday morning. He was getting along nicely when he encountered a rough sea. The boat was in a man's journeying across from the island saw his difficulty and took him in his canoe. A crew set off from the government boat "Speedy" to rescue his craft, and did so in such a manner that by the time the shell had reached the Argo float it was in a serious condition, two or three boards having sprung.

Ottawa and Return, \$5.40

Via Grand Trunk Railway System, Sept. 22, 24, 25, and 27 to Sept. 13 to 25, inclusive. Return limit on all tickets Sept. 23. Secure tickets at City Office, northwest corner King and Yonge streets.

### Don't Dominate Auto.

The Dominion Automobile Company denies that it was one of its cars that knocked down and injured Jas. Chapman at Bloss and Marchant streets on Monday night.

### Douglas Mining Co., Ltd.

C. S. GZOWSKI, Toronto, President Authorized Capital, - \$500,000.00

DIVIDED INTO 500,000 SHARES, AT \$1 EACH. Of which 250,000 shares have been issued in payment of property and development work, and 250,000 remain in Company's treasury.

THE DOUGLAS MINING COMPANY was incorporated in 1904, and has six claims in the Sturgeon Lake Gold Fields, about 160 miles north of Fort William, which comprises what is admittedly the best gold property in the district. The directors have refrained from offering stock to the public until they were convinced that the property contained large and valuable gold deposits. Sufficient development work has now been done to prove enough ore averaging from \$15 to \$40 per ton to keep a mill going for many years; therefore to obtain the necessary money to build a 100-ton mill 75,000 shares will be sold at 80 cents per share. This is an excellent opportunity to obtain high returns on a small outlay of capital. The values in the property have been absolutely proved. Splendid samples of gold ore from the Douglas Mining Company's property may be seen at the office of the Douglas Mining Co., Trader's Bank Building, Toronto. The men behind the enterprise are of undoubted reputation and standing.

The officers of the company will receive no remuneration until the company is on a dividend paying basis.

For further information and application forms apply to E. D. WARREN & CO., 4 Colborne St., Toronto, Can.

### WE ADVISE THE PURCHASE OF COBALT STOCKS

La Rose, Nipissing, Tretthewey, Kerr Lake, Nova Scotia, Crown Reserve, Temiskaming, McKinley-Darragh, Silver Queen and Foster.

Unexplained Weakness Occurs on Wall Street

General Reaction Begun in New York Stocks - Toronto Market Becomes Heavy.

World Office. Tuesday Evening, Sept. 15. The annual meeting of the Rio shareholders was held today, but it had no beneficial influence on the stock.

Wall Street Pointers. Money was almost unobtainable in London yesterday. Republicans win in Maine with 8000 majority, smallest for a presidential year in many years.

Depositors of National Bank of North America will receive final cheques for remaining 25 per cent. This week with 6 per cent. interest on deposits. Copper selling agents report large sales into November.

Special bullish operations seem likely to continue in the stock market, which remains as a whole in the higher trading area, backing and filling with pools working more readily in the low-priced rails on the long side.

Not hard to maintain prices. Domestic securities were somewhat tame again today, although the volume of transactions was enlarged.

Superb Millinery Opening

IT'S the second millinery opening of the fall, and among numerous millinery openings it must go down as something worth while for the well-costumed woman of Toronto.

Our effort has always been to secure exclusive styles. Not extreme either, but such hats, while being ultra stylish, are rich in quiet design and finish.

Many new effects are among the imported lines, such as khaki brown, trimmed with black, and with white touches thereon. Taupe with blue and peacock green. Ostrich feathers are the feature of many Paris hats, while flowers are extensively employed in trimming dress designs.

One particularly striking design is a Paris picture hat with rolling brim; the facing of the brim is of tan velvet and top of green velvet. The crown is of good height and is surrounded with a bandeau of gold. Two large emerald green feathers fall gracefully over the side and back.

DINEEN, 140 Yonge Street, corner of Temperance Street.

York County and Suburbs

ENGINEER BANKS VERY SERIOUSLY INJURED

Falls From Pole and is Taken to Hospital—Annexation Not This Year Says Mayor Oliver.

WEST TORONTO, Sept. 15.—Some more whitecaps were added to-night to the already troubled waters of sanitary inspectorship in West Toronto, which have been more or less tempest-tossed since June, when the council dismissed Enoch Ward.

The commission also adopted a lengthy set of resolutions regarding the police force, and passed several accounts. James Banks, engineer for the Suburban Railway Company, met with a serious accident about 2:30 p.m. today. He was out doing line repairing and early this afternoon was on a pole in Weston repairing cross wires when the pole broke off at the ground, and Banks being strapped to the pole fell with it before he could release himself.

Another matter, and one in which the present council can do little service, is to compel the company to clear the roadbed of the mass of rubbish and soil which has been piled up from one end to the other. Farmers who have been asked to free their land from the rubbish and soil have refused to do so.

NEW WATER RATES BASIS TO BAULK TRICKY USERS

Revenue Will Be Increased 25 Per Cent, But Small Tenants Will Be Relieved.

The board of control yesterday decided to recommend to the city council that water rates be fixed at 50 cents per room instead of 25 cents per room per annum, and 25 cents per inmate.

This action was taken on receiving a report from a special sub-committee composed of Controllers Spence and Harrison, and the former declared that under the present conditions consumers were enabled to cheat the city out of water rates. The controller said that by establishing a flat rate of 50 cents a room, cheating would be abolished and the water rates would be increased by 25 per cent, but that the revenue would be no greater than at the present time.

To show that the water inspectors were misled as to the number of occupants of rooms, he submitted the following figures: Water Assessor's Inspector, season 1908. Chestnut-street 850, 1413; St. David-street 288, 393; St. George-street 653, 1171.

STOUFVILLE, Sept. 15.—The annual meeting of the York County Board of Health was held in the Stouffville Methodist Church on Thursday and Friday.

WESTON, Sept. 15.—A shreded wheat bag was given in the town hall Sept. 15, under the auspices of the Women's Institute.

WILL THEY EXTEND? Metropolitan Board of Control. The Toronto and York Radial Railway Company are said to be prepared with a well defined proposition to extend their line from Yonge-street to Markham village and on to Louisa Hill, eventually reaching Port Perry.

MOUNT DENNIS, Sept. 15.—This was the occasion of the opening of the new school building which cost \$25,000. The building is a two-story structure, with two classrooms, a gymnasium, a library, and a playground.

FIELD CROP STANDING. The standing in the York County field crop competition in oats and goose wheat has been awarded and is in brief as follows: E. W. Lar, Coleman, Scarborough, 31st; E. M. Lovell, Agincourt, Scarborough, 37th; G. Fitzpatrick, Westford, Scarborough, 35th; R. McCowan, Bloomers, Scarborough, 34th; Alfred Woods, Agincourt, Scarborough, 33rd; Special, W. A. Patterson, Agincourt, Scarborough, 32nd; A. McCowan, M.L.A., secretary, Richmond Hill, Richmond Hill, 31st; W. H. Cluette, Thornhill, 30th; J. Graham, Carville, Richmond Hill, 29th; J. H. Cluette, Thornhill, 28th; J. L. Victoria Square, Richmond Hill, 27th; A. Nicholls, Richmond Hill, 26th.

FANCY FAIR. The first day of the fancy fair being held at Trinity College by the sisters of the church passed off very successfully yesterday. The musical program in the afternoon was very enjoyable, and the fine light illustrated lecture in the evening by Canon McNab was exceedingly interesting.

EAST TORONTO, Sept. 15.—If the \$5000 in disbursements the council and school trustees is raised by de-benture, the rate will be 19.5 mills, but if paid out of the vestry fund, it will be 21.5 mills on the dollar, said Chairman Phelan at last night's meeting.

Mr. Harris, secretary-treasurer of the West Toronto school board spoke briefly, as did also Mr. Ellis. He stated that the school was in a better position than ever, and Chairman Baylis submitted the financial statement.

Mr. Raybould, trustee of S. S. No. 29 and Trustee Marshall spoke briefly, but well. W. F. McLean, M.P., South York, said that the school have not better roads in York Township than here.

Mr. Harris, secretary-treasurer of the West Toronto school board spoke briefly, as did also Mr. Ellis. He stated that the school was in a better position than ever, and Chairman Baylis submitted the financial statement.

New Fall Suits for Men

At \$10.50 and \$12.00 we can give you the usual fit, quality and style. We import the cloths and make up the suits in our own factory. We take particular pains with them because so many men like to pay about these prices.

The \$10.50 ones are blue or black worsted, the \$12.00 ones are of English tweed. Read the descriptions.

Men's Blue and Black Single and Double-Breasted Suits, these suits are made in our own factory from pure imported botany wools of smooth soft finish, such as will not shrink. The material makes a neat dressy suit for all the year round wear, and is absolutely permanent color, having been proved and tested by years of experience with us. The cost is made according to this season's newest model, with nicely rounded shoulders, strong twill mohair linings. Every size Thursday 10.50

Men's Imported English Tweed Suits. In a cloth of firm body, made from fine selected yarns; the colors are rich dark browns, showing subdued dark stripes effect; made according to this season's newest model, with correctly fashioned single-breasted style, with nicely moulded shoulders of broad effect, neat fitting collars and shapely lapels; fine twill linings. All sizes Special Price Thursday 12.00

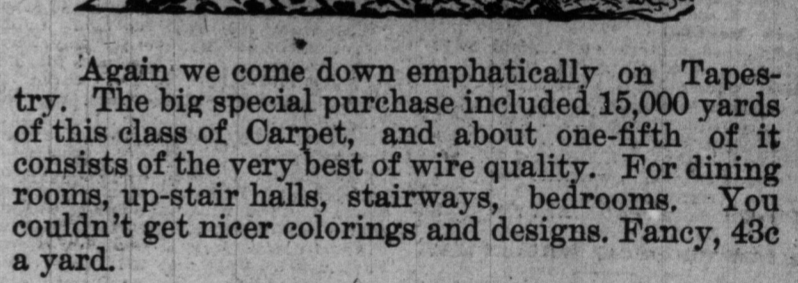

\$1.25 Shirts 55c. Men's Fancy Negligee Shirts, in plain-blue zephyr, cambrie, in spots, checks and stripes; cuffs attached or detached; generous size; sizes 14 to 16-1/2. Regular up to \$1.25; Thurs- 55c

Men's Choice Neckwear, in all the newest colorings, latest styles, correct widths, all pure silk, 4-in-hands and flowing ends, plain colors and fancy patterns. Regular 46c and 50c; Thursday 25c

Men's Strong, Well-Made Working Shirts, collar attached and pocket, black and white and blue and white spots and stripes, of good quality duck; sizes 14 to 16-1/2. Regular 60c; Thursday 29c

DRINK FILTERED WATER

SEED'S "HYGIENIC" FILTER, SELF CLEANING, FITS ANY FAUCET. 25c, 35c AND 50c EACH.

AIKENHEAD'S HARDWARE, LIMITED - TEMPERANCE ST. ELEVATOR BURNS. SHOAL LAKE, Man., Sept. 15.—The Western Canada Flour Mills Co.'s elevator at Oakburn was totally destroyed by fire early this morning. One thousand dollars' worth of flour and three C.N.R. cars were burned.

SUFFOCATED TO DEATH IN NEW M.C.R. TUNNEL

W. R. Kimball and Bert Johnson Lose Lives Returning to Shaft for Missing Workmen.

WINDSOR, Sept. 15.—The first double fatality to be charged to the construction of the Michigan Central tunnel under the Detroit River occurred early today in shaft No. 4, of the Canadian approach to the tunnel, when two men were suffocated to death by smoke from burning timbers and tar paper in shaft No. 4, of the Canadian approach to the tunnel, when two men were suffocated to death while attempting to enter the shaft in a rescue party. The dead: W. R. Kimball, superintendent of shafts 1 and 2. Bert Johnson, a carpenter.

In the hospital: Bert Schuman, shaft superintendent; Charles Cakobread, a Windsor fireman.

The fire was put out about 3 a.m. after the air pressure maintained constantly up to that time had suffered because of the smoke that hindered the rescuers. The blaze was confined to the timbers, constituting the falsework inside the cement wall, and the loss will probably not exceed \$2000.

About 200 men were working in the tunnel when the fire broke out. It was necessary to pass the men slowly thru the air lock as they had been working under air pressure. All were reported checked out of the shaft, however. Kimball and Johnson apparently lost their lives thru returning into the burning shaft to look for men who might possibly have been left behind. Their bodies were both found near the foot of the stairs leading down the entrance to the shaft.

CHANGE FOR THE KAISER TO SAY WORD FOR PEACE

He Has It in His Power to Abolish War Among Civilized Nations, Says Carnegie.

BERLIN, Sept. 15.—Andrew Carnegie has written a letter from Skibo Castle, Scotland, to Representative Richard Bartholdt of Missouri, president of the American group of the Inter-Parliamentary Union, which convenes in this city Sept. 17, in which he says: "The Emperor of Germany ever realized his manifest destiny, peace would follow. He has it in his power to abolish war among civilized nations. All he has to do is to ask Great Britain, France and the United States to unite with him in declaring that since the world has contracted to 'neighborhood' and is in constant and instantaneous communication one part with another, the interchange of products between them amounting to hundreds of millions a year, the time has passed when any one civilized nation can be permitted to break that peace in which all are so deeply interested. International disputes must be settled by arbitration."

HUGHES NOMINATED

Has a Decisive Plurality When Counting-Up Times Comes.

SARATOGA, N.Y., Sept. 15.—At 4:30 p.m. to-day on motion of State Commit-tee man Wm. Barnes, Jr., of Albany, the Republican state convention made unanimous the nomination of Chas. E. Hughes of New York to be governor of the State of New York to succeed himself.

JAIL FOR HOTEL MAN.

Owen Sounder Sent Down for Four Months for Selling Liquor.

OWEN SOUND, Sept. 15.—(Special.)—Magistrate Creaser to-day sentenced Matthew Simmons, proprietor of the Coulson House, to four months in jail. Simmons pleaded guilty to a second offence of selling liquor illegally.

SOME WOULDN'T WORK FOR NIGHT'S LODGING

At the monthly meeting of the board of the House of Industry the superintendent's report showed 94 families assisted for the first time, and 311 families now on books of the house. Eight hundred and ninety-two were sheltered 274 nights, and received 7224 meals. Twenty-six cubic yards of stone were broken in return for shelter. Three hundred and forty-two men refused to work and have not been allowed to remain in the ward.

The treasurer's report shows an overdraft of \$4,613.35.

Killed in Runaway. MIAMI, Man., Sept. 15.—George Bruce, one of the oldest settlers in these parts, was killed last night in a runaway accident.

YORK COUNTY AND SUBURBS

ENGINEER BANKS VERY SERIOUSLY INJURED

Falls From Pole and is Taken to Hospital—Annexation Not This Year Says Mayor Oliver.

WEST TORONTO, Sept. 15.—Some more whitecaps were added to-night to the already troubled waters of sanitary inspectorship in West Toronto, which have been more or less tempest-tossed since June, when the council dismissed Enoch Ward.

The commission also adopted a lengthy set of resolutions regarding the police force, and passed several accounts. James Banks, engineer for the Suburban Railway Company, met with a serious accident about 2:30 p.m. today. He was out doing line repairing and early this afternoon was on a pole in Weston repairing cross wires when the pole broke off at the ground, and Banks being strapped to the pole fell with it before he could release himself.

Another matter, and one in which the present council can do little service, is to compel the company to clear the roadbed of the mass of rubbish and soil which has been piled up from one end to the other. Farmers who have been asked to free their land from the rubbish and soil have refused to do so.

STOUFVILLE, Sept. 15.—The annual meeting of the York County Board of Health was held in the Stouffville Methodist Church on Thursday and Friday.

WESTON, Sept. 15.—A shreded wheat bag was given in the town hall Sept. 15, under the auspices of the Women's Institute.

WILL THEY EXTEND? Metropolitan Board of Control. The Toronto and York Radial Railway Company are said to be prepared with a well defined proposition to extend their line from Yonge-street to Markham village and on to Louisa Hill, eventually reaching Port Perry.

MOUNT DENNIS, Sept. 15.—This was the occasion of the opening of the new school building which cost \$25,000. The building is a two-story structure, with two classrooms, a gymnasium, a library, and a playground.

FIELD CROP STANDING. The standing in the York County field crop competition in oats and goose wheat has been awarded and is in brief as follows: E. W. Lar, Coleman, Scarborough, 31st; E. M. Lovell, Agincourt, Scarborough, 37th; G. Fitzpatrick, Westford, Scarborough, 35th; R. McCowan, Bloomers, Scarborough, 34th; Alfred Woods, Agincourt, Scarborough, 33rd; Special, W. A. Patterson, Agincourt, Scarborough, 32nd; A. McCowan, M.L.A., secretary, Richmond Hill, Richmond Hill, 31st; W. H. Cluette, Thornhill, 30th; J. Graham, Carville, Richmond Hill, 29th; J. H. Cluette, Thornhill, 28th; J. L. Victoria Square, Richmond Hill, 27th; A. Nicholls, Richmond Hill, 26th.

FANCY FAIR. The first day of the fancy fair being held at Trinity College by the sisters of the church passed off very successfully yesterday. The musical program in the afternoon was very enjoyable, and the fine light illustrated lecture in the evening by Canon McNab was exceedingly interesting.

EAST TORONTO, Sept. 15.—If the \$5000 in disbursements the council and school trustees is raised by de-benture, the rate will be 19.5 mills, but if paid out of the vestry fund, it will be 21.5 mills on the dollar, said Chairman Phelan at last night's meeting.

Mr. Harris, secretary-treasurer of the West Toronto school board spoke briefly, as did also Mr. Ellis. He stated that the school was in a better position than ever, and Chairman Baylis submitted the financial statement.

NEW WATER RATES BASIS TO BAULK TRICKY USERS

Revenue Will Be Increased 25 Per Cent, But Small Tenants Will Be Relieved.

The board of control yesterday decided to recommend to the city council that water rates be fixed at 50 cents per room instead of 25 cents per room per annum, and 25 cents per inmate.

This action was taken on receiving a report from a special sub-committee composed of Controllers Spence and Harrison, and the former declared that under the present conditions consumers were enabled to cheat the city out of water rates. The controller said that by establishing a flat rate of 50 cents a room, cheating would be abolished and the water rates would be increased by 25 per cent, but that the revenue would be no greater than at the present time.

To show that the water inspectors were misled as to the number of occupants of rooms, he submitted the following figures: Water Assessor's Inspector, season 1908. Chestnut-street 850, 1413; St. David-street 288, 393; St. George-street 653, 1171.
