

HAMILTON HAPPENINGS

GRAND TRUNK CAR WAS DESTROYED BY FIRE

A Difficult Case For the Firemen—Architect Turns Down Library Board.

HAMILTON, Aug. 11.—(Special.)—Fire this evening destroyed a freight car at the Canadian street yards of the G. T. R. The fire was discovered about 5.30, and the car was partially filled with merchandise at the time. The fire department was called, but, as the flames were among the merchandise they experienced much difficulty in extinguishing them. The loss will be heavy. The cause of the fire is unknown. The death occurred in the case of Gen. Carmichael, one of the oldest cab drivers in Hamilton. He was in his 90th year, and it is said that he drove one of the first cabs in the city. He was the father of George and William Carmichael, the well-known cabinet makers. Chairman Todd of the town's committee authorized the publication of a statement in which he declared that the company was under obligation, thru the terms of settlement, to fire all strike-breakers within a limited time. Mr. Todd is authority for the rather surprising information that all the union men who did not strike forfeit their insurance money. Architect Green of Buffalo, who was one of the judges for the public library plan, has turned the library board down flat on its proposition to have him work with A. W. Pease on the building of the new library. Adam Hunter, librarian, received a letter from Mr. Green to that effect, and it is said that Mr. Green expressed himself in no uncertain terms. It will be remembered that the board turned down the plan which Mr. Green and his associates declared to be the best. There is no change to-day in the condition of Miss Dorothy Hobson. She is still very low and is slowly sinking. Her serious injuries and long confinement have begun to tell on her, and she is now so weak that the small chance of recovery that she was conceded by the doctors is almost despair of.

Chairman Wild of the parks board has locked horns with the merchants who were to supply the ornamental lamps for Gore Park. The result is that the chairman says there will be no lamps. Each firm in his stand, and it is a case-up as to who the winner will be. Mr. Wild is firmly convinced that it would be criminal to put a walk leading on to the railway tracks, and the merchants simply say they must have it. Detroit police have been asked by Mrs. Thomas Lawson of Hamilton to locate her husband who is reported to be in Toronto on July 2, and has not been heard from since July 11, when he sent her money and advised that he was about to return and bring her to Detroit. Mrs. Lawson is in destitute circumstances, unable to earn a living, and has three children. Hotel Hanrahan, corner Barton and Catharine streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1908. Modern and strictly first-class. Ample plan. Rates \$1.50 to \$2 per day. Thos. Hanrahan, proprietor. Phone 1465.

LOW RATES TO MUSKOKA

SENT DOWN FOR TRIAL.

HUNTSVILLE, Aug. 11.—As the result of the inquest held over the remains of an infant found last Saturday at the Kent House, Mrs. Nora Reynolds came up before Acting Magistrate Hutchison at the court house yesterday afternoon, and was sent down for trial at the Bracebridge assizes.

Hon. Dr. Reaume Back.

Hon. Dr. Reaume returned yesterday from a tour of inspection in the district of the Bay of Quinte, the St. Lawrence, the Ottawa and the Rideau Rivers. Inspection was made of the fisheries at the various places along the line.

Remember, Diamonds Enter Canada Duty Free

Advertisement for diamonds with images of various diamond rings and their prices. Includes descriptions like 'Absolutely perfect, fine blue-white, weights 2.3-3 carats, perfect cut, ball of fire.' and 'Pure white diamond, a perfect gem, 1.3-4 carats.'

"Buy of the Cutters," ONTARIO DIAMOND CO., 99 Yonge St. Consolidated with Antwerp Diamond Cutters, successors to Weisman & Co. Established 1887.

NOTE—Diamonds bought of us may be returned, less 10 per cent. of purchase price, at any time stipulated in bill of sale. We handle only blue-white or pure white stones.

STUDENTS WHO PASSED HONOR JUNIOR "MATIC"

List of Candidates Who Obtained First, Second and Third-Class Honors.

The results of the examination for honor junior matriculation are given below. The standing obtained in each subject is indicated after a candidate's name, 1 indicating first-class honors, 2 second-class honors and 3 third-class honors respectively.

The statements of standing of all candidates were mailed to the principals or inspectors on the 10th inst. In the case of those writing at the University of Toronto these statements were sent to the registrar of that institution. The candidates who apply to these parties and not to the department of education for further information. The marks obtained by scholars and candidates have been reported direct to the universities concerned. Scholarship candidates will be informed of their standing by the registrars of these universities.

# EATON'S FRIDAY BARGAIN LIST

## Waists and Petticoats

For 79c. Women's English Print Wrappers, of fancy floral patterned goods, have round yokes with turn down collars and pointed pieces around the yoke finished with fancy braid, buttoned cuffs, belts, and a deep flounce on the skirt. Colors are black and white, navy and white, and red and white. Not every size in every color, but an excellent assortment. Can't promise mail or phone orders. **TO-DAY** 79c

Women's Silk Waists, tucked back and front, finished with rows of narrow zig-zag braid and five jet buttons, forming a yoke effect, or with a small lapel of silk in front, trimmed with three small jet buttons and five large buttons on a wide silk strip, forming a one-sided effect, have all high collars and long sleeves with deep cuffs trimmed with buttons and braid. Colors are black, navy, grey, and taupe. Sizes 34 to 42 inches. Regularly \$4.00 and \$4.50. **TO-DAY** \$2.49

Women's White Lawn Waists, have all-over embroidery on the fronts, and long sleeves trimmed with rows of lace insertion; others have wide strips of embroidery on the shoulders and down the front, finished with rows of insertion and lace. Three-quarter sleeves with lace insertion and lace cuffs. Sizes 32 to 42 inches. Regularly \$2.00 and \$2.50. **TO-DAY** 98c

Women's White Lawn Waists, with all-over embroidery fronts, panels of eyelet embroidery on the shoulders and down the front, or with plain tucked front finished with scroll embroidery with a large medallion in the centre. Among these styles there are some with Dutch neck and three-quarter sleeves. Not all sizes in the lot, but a good selection. Can't promise phone or mail orders. Regularly \$1.00 and \$1.75. **TO-DAY** 50c

## Children's Dresses

Children's Striped Galatea Dresses, with yoke in front and collar and cuffs attached, have belts of a contrasting color. They are trimmed with bias strapping of self tone and piping. This style has three box pleats down the front. Others have a panel effect down the centre and a bias shaped fold on either side; also an attached belt of strapping, the collar and cuffs being trimmed with braid. The skirt is box pleated. Colors shown are sky, and white, navy and white, tan. Regularly \$2.25 and \$2.50. **TO-DAY** \$1.29

## Furs

12 Only Elegant Dark Canadian Mink Pillow Muffs, made from fine skins, with 5 stripes, fancy lining, down bed and hung by a wrist cord. **TO-DAY** \$27.75

2 Fancy Caracul Muffs, designed in large fancy pillow style, have all the late features of trimming, consisting of fancy buttons and ornaments. They have down beds and wrist cords. **TO-DAY** \$21.00

2 Black Russian Pony Skin Coats. These are samples, 30 inches long, with a military collar, medium sleeves, semi-fitting backs, one of them being lined with black satin, and the other with fancy brocade. **TO-DAY** \$21.50

## Ribbons

A collection of taffeta and satin ribbons, pure silk, and especially useful for millinery and trimming, also for sashes and hair ornamentations; a fine range of good colors, such as navy, sky, red, wine, pink, rose, myrtle, amethyst, grey, brown, tan, cream, black and white; 5, 6 and 7 inches wide. Regularly 20c and 25c per yard. **TO-DAY**, per yard 15c

A Group of Superb Patterns, in taffeta, Dresden and diagonal satin, along with many other novelties; elegant for fancy work and millinery trimming. If you have a hat to freshen up, one of these ribbons would do admirably; colors are Nile, champagne, mauve, tan, rose, pink, navy, wine and white, 5 and 6 inches wide. Regularly 39c and 75c per yard. **TO-DAY**, per yard 22c

Taffeta Duchess Satin-faced Ribbons, in white, cream, sky, pink, Nile, myrtle, emerald, navy, orange and red; 2, 2½ and 3 inches wide. Regularly 12c and 15c per yard. **TO-DAY**, 8c

Dainty Little Ribbons, in taffeta and satin-faced qualities; colors white, cream, sky, pink, Nile, moss and red; widths are ¼, ¾, 1½-inch. **TO-DAY**, 5 yards in bunch 10c

A Bargain in Black Ribbons, beautiful luxurious finish, good weight and very serviceable for hair bows, sashes, etc.; 5½ inches wide, sold regularly 25c per yard. **TO-DAY**, per yard 19c

## Books and Stationery

The Encyclopaedia of Useful Knowledge, a book for every home, contains a dictionary of general information, a legal guide, a commercial guide, a guide to education, a social guide, the world and the empire, aids to the study of English, miscellaneous facts and figures, and an English dictionary of over 1,000 pages. **TO-DAY** 85c

Stationery Package, containing 5½ quires (132 sheets) very fine paper, in the favorite city-shape. The surface is a beautiful linen finish in pure white. **TO-DAY**, package 19c

Envelopes of dainty shape to match, per package 8c

FRIDAY MORNING, AUG. 12, 1910.

#### ENGLISH INDUSTRIAL ART.

Professor Arthur Dow, director of the fine arts department of Teachers' College, Columbia, has started to carry out a scheme, intended to provide art students in the United States with opportunities for seeing the work done in the best schools of foreign countries. A beginning has been made with the Royal College of Art, South Kensington, London, which has lent him a representative selection of drawings, designs and etchings executed by British students. The collection will be on view at Teachers' College till August 17, and again from September 21 to October 22, and has been the subject of appreciative criticism. Stress is laid by a writer in The New York Times on the capacity to illustrate literary subjects which the exhibits reveal, the excellence of the technique and its educational value to United States art students. If not already brought under the observation of Toronto art organizations an effort might well be made to have the collection made available to local students.

The Royal College is primarily intended for the instruction of teachers and students selected by competition in the art examinations of the British Board of Education, which curiously enough recently issued a report by the examiners of the works sent in for the national art competition. They severely censure the section embracing embroidery, lace, woven and printed textiles and the like, and regret the increase in the number of quite incompetent works which, they say, are totally unfit for inclusion in the competition. Many of the printed textiles, the examiners declare, were so bad as to receive the condemnatory blue cross, while others displayed "a growing tendency to vicious work in certain schools, which the examiners greatly deplore. Some of these works show such an unwholesome direction, both in form and color, as to call for the severest rebuke." It is only fair to add that other branches of the competition were generally successful, many individual exhibits receiving very high commendation.

#### INSURANCE IN THE FRAME TOWNS.

Steps might very easily be taken by the insurance companies, which are as much concerned in the matter as anyone else, to secure such building regulations as would minimize the risk from fire in such places, as Cochrane and other new settlements in the pioneer country.

There need be no compulsion further than the establishment of such conditions as will make it certain that no extraordinary risks would attach to buildings which conformed to the regulations, and that no insurance would be granted, or only at prohibitive rates, on buildings which were outside the restrictions.

There is plenty of room in all the new towns. The lots are one-fifth of an acre each, and there is no excuse for the overcrowding. It may cost more to erect more substantial buildings and to isolate them in the roomy lots, but the extra outlay would be recouped by the reduction in insurance rates and the gain in safety and permanence and freedom from disturbance. The setback after a big fire in one of the new communities is about the worst trial it has to face.

Objection may be taken by some to the idea of isolating the buildings, inconveniences increased, lack of shelter, cost of street improvement and other items being put forward as reasons against it. The idea of putting only one building on a 60-foot lot does not appeal to those who, defiant of single tax, wish to profit by their ownership. But the insurance rates would act automatically, and would probably differentiate the solid and prudent element from those who are reckless and willing to take long chances. The result would be to have two sections in the town. In one, insurance conditions would prevail. In the other, the slum element would find itself to prosperity the addition of fire-extinguishing appliances would permit the filling up of vacant spaces.

#### CANADA AND FREE TRADE.

Free trade in Canada, or even any material and general tariff reduction, has opportunity for its first obstacle. No doubt a considerable volume of sentiment in this direction exists in the grain states, which in the meantime think they have everything to gain and nothing to lose by the opening of the home market to foreign manufacturers. This is probably a mistaken opinion, since it is by no means certain that Canadian industrial dependence on the United States—which free trade involves—would ultimately

redound to the benefit even of the western farmer. For if Canada is to continue her national career, sectional prosperity, at the expense of other districts just as valuable and necessary for her equable growth, is not calculated to sustain national progress.

Free trade that is one-sided is not free trade in any real sense. Britain has been able to sustain that condition on account of her insular position and her reliance on outside sources for food and raw material. But it is fatuous to argue from the special situation and circumstances of the United Kingdom to those of Canada, widely different as they are. The moderate protection that has been given Canadian industries has been responsible for their appearance and their present vigor. Without it there would have been no erection of branch establishments by United States manufacturers, but instead, swift exploitation of the Dominion's wealth of timber and ores. Under present conditions a policy of free imports would strike a fatal blow at many of Canada's rising industries and threaten her national existence.

#### FOOLISH PROSECUTIONS.

The multiplication of artificial offences undeserving of moral censure is that it tends to weaken respect for enactments and regulations that are proper and necessary. Needless limitation of personal liberty inevitably breeds resentment and revolt, not only against the particular restriction, but against all restrictions. Nor are these sentiments confined to the individual who happens to be immediately concerned. They extend to many who will extract a perhaps perverse but certainly natural satisfaction from vindicating their freedom in their own persons. The foolish prosecution of two citizens for employing a part of their Sunday leisure in cleansing and beautifying their own homes is a first-class example of misdirected zeal. Their conviction for infringing the Lord's Day Act will not bring one single citizen from employing himself to similar purpose. Prosecutions of this ridiculous class simply defeat themselves. Worse still, is the encouragement given the police to neglect their proper functions in order to spy and pry upon the doings of respectable citizens in the privacy of homes that should be castles, but apparently will soon be nothing better than peep shows.

#### RETIROING ON A SALARY.

Medical evidence shows that the brain was not affected, was the testimony of Mr. Emerson Coatsworth during the enquiry into Mr. William Crawford's health. Mr. Crawford will have the sympathy of the public in his other disabilities. He has himself testified that he had not been able to do his work to his own satisfaction, and felt he ought to draw a pension instead.

ing the enquiry into Mr. William Crawford's health. Mr. Crawford will have the sympathy of the public in his other disabilities. He has himself testified that he had not been able to do his work to his own satisfaction, and felt he ought to draw a pension instead.

Premier Whitney considerably arranged an office for Mr. Crawford in the Parliament buildings which has the advantage of a good salary, and duties which presumably will make no severe demand upon Mr. Crawford's failing powers. And he is also afforded the ample opportunities to attend to his political duties in connection with the supervision of the Conservative interests in Toronto, to which Sir James undoubtedly attaches great importance.

Mr. Crawford's resolve to relinquish any duty to which he felt he was not doing justice will be an assurance to the public that he will not continue to draw his salary and his pension a moment longer than he feels that he can give himself satisfaction in the circumstances.

#### Chief Thompson parts with his subordinate with more than usual feeling.

Sir James likes nothing better than to give the opposition a nut with a worm in it. They have cracked several, and have their teeth on another now.

Controlled Foster is working round to it. The board of control is to be uniform yet. And the beef-eaters will look dim beside them. And when the mayor gets his uniform on, for that is coming, his honor in the gold lace corsets will be faded to a shadow of his worthship.

No foreign legion ever went to Rome with such a tradition and such a national background as the Queen's Own takes to England.

#### CADET TEAM SAILS TO-DAY.

(Canadian Associated Press Cable.) LONDON, Aug. 11.—The cadet team for Rockcliffe sails on the Empress of Britain to-morrow. Captain McMillan of Etobicoke is in command. Two New Zealand cadets accompany the party.

#### North Toronto Wants Early Vote on Annexation.

A petition signed by about 275 of the residents of North Toronto has been put into the hands of the council asking that a vote be taken for annexation to the city.

This list of names represents some-where about 40 per cent. of the entire residential vote of the town, and the strength of the petition is shown by the fact that the signatories to the petition were almost without exception actual residents of the municipality.

The petition is now in the hands of Town Clerk Douglas and Solicitor T. A. Gibson for their verification, and it is expected that they will take the regular proceedings without delay so that the vote on annexation might be brought about at an early date. A few people in North Toronto have objected to having a vote taken before the municipal election next January, but these individuals forget to recognize that it will take some time to make terms with the city after the vote is carried and that the city may object to take the town in.

If the vote is taken within a few weeks and favorable arrangements cannot be made with the city, something will have to be done after the first of the year by which a special act can be obtained, so that the town must assume some of the responsibilities that which are now accorded sections of the Township of York; namely, that a majority petition in favor of annexation will carry the application before the municipal and railway board, and thereby present its claim for admission into the city boundary.

North Toronto is nothing more than an overflow of city population. The city is responsible largely for this overflow and in creating the suburb must assume some of the responsibilities for its existence. North Toronto people are anxious to get city conveniences. In the majority of instances they are perfectly willing to pay for these, and there can be no valid reason why a section of territory adjacent to the city with a moderately congested population should not become part of the city. It is not to be presumed, however, that the city authorities will object to taking in the town. All that the city will be immediately called upon to put into effect in North Toronto is a sewerage system, the town now being well supplied with water-mains, sidewalks, schools and an adequate fire equipment.

#### Indicted for Perjury.

CHICAGO, Aug. 11.—Thomas G. Leo of the dressed beef department of Armour & Co., was indicted to-day on a charge of perjury by the grand jury, which is investigating the alleged combination of packers.

#### AT OSGOODE HALL

Master's Chambers, Aug. 11, 1910.

Before Alcorn, Master-in-Ordinary.  
Chambers-Perland Mining Co. v. Zielinski & H. Sedgewick, for plaintiffs. Application by plaintiffs for order shortening time for appearance to writ of summons to ten days instead of twenty days. Order granted.

## TO PROTECT CONSUMERS

Canadian Manufacturers Say Australia Sets Good Example.

Mr. Ross, the Canadian trade commissioner in Australia, points out that in protecting the interest of the consumer Australia leads the world. On March 14, 1910, the commonwealth enacted legislation by which labels and bands must be attached to articles for sale, giving a true description of the goods, quantity, weight in gross or net, and name of country where manufactured. The legislation covers shoes, boots, hats, shirts, collars, ties, blouses, corsets, underwear, gloves, stockings, socks, suits, clothing, piece goods, calicos, linens, serges, tweeds, silks and embroideries and all goods in the place.

Canadian manufacturers feel this is a pointer for Canada to follow. The woolen industry here has been suffering for years thru the importation of manufactured shoddy. The difficulty of governing this by a tariff has prevented anything being done to relieve the distress and closing down of woolen mills. By a stringent law against the fraudulent fabric and having it strictly enforced, the consumer would get better wearing value, they say.

The All-Water Route to Rochester, 1000 Islands, Montreal, Quebec and Saguenay River.

To those contemplating a trip to eastern resorts the steamers of the Richelieu and Ontario Navigation Co., which leave Toronto daily at 3 p.m. offer an attractive service, passing through the 1000 Islands in daylight and connecting with observation steamers running the Rapids of the St. Lawrence River to Montreal, where direct connection is made for Lower St. Lawrence and all points east. Low round trip rates are in effect, including meals and berth, also special Saturday to Monday outings. Full particulars can be obtained at ticket office, 48 Yonge-street, corner Wellington-st. ed7

## NORTHERN NAVIGATION CO.

PEACE OR WAR IN STREET RY. CAMP

Continued From Page 1.

be a crucial one which will show whether the men or the company are the arbiters of the pay envelope. That is the way the company views the situation.

How Men View It.

The men size is up very differently, of course. They look at their envelopes, containing on an average between \$12 and \$13 per week, examine the provision and other bills, make a comparison and wonder how they are going to provide for the future when the present eats up all their income. Why should they continue to receive the same wages now that they received when the prices of all necessities and wearables were much lower? They ask, Why have not their wages kept pace with the increase in living expenses?

Of course, their present demands will not place them on the same plane of comfort that they were on some time ago when it cost less to exist, but they do not want to ask too much; better ask a little and get it than ask a lot and not get it.

Further, they resent the published reports of the earnings of the company and wonder why they have not received wage increases corresponding with the increased net profits of the railway. Some time ago it was stated that the company was making \$1,000 per day more than they were at the same period in 1909.

They consider that their work is for the men and as able men they should receive more. Their work requires skill both of hand and of brain, they say, and as skilled men they receive the opinion that they should be paid as well as men of other skilled vocations.

Their work is not arduous, tho the hours are long, and it is interesting to them, and they like it. Therefore they wish to continue in their places, but they believe that as faithful employees of the company they should receive better remuneration and treatment. The company must have men to run the cars and they want to be those men, but they think it is only fair that they should receive more consideration at the hands of the company. The company should be wise when they have willing men in their employ who wish to continue in that employ and merely want sufficient wages to be able to save a little for the proverbial wet weather and the unproven old age and be able to exist in comfort as well as the men.

Citizens Worry.

For the citizen there is a decidedly unpleasant cloud to be seen on the horizon, bearing in lurid letters the word "Walk-". Whether the cloud will burst remains to be seen as there is still time for a gentle breeze to come along and divert the direction of the storm cloud.

Toronto's last experience during the street railway strike of a number of years ago, does not give rise to any desire to have the experience repeated. Walking may be excellent exercise, but it is not conducive to rapidity of transit. Improvised stage lines along the principal streets are not very handy either. Motor vehicles would come largely into requisition now if there was another strike, even more so than during the previous one, but their scarcity in numbers does not make them a pleasant alternative.

Since the danger is close and many have to travel long distances prayers for peace will doubtless be plentiful until the crisis is safely past.

THE WEATHER

OBSERVATORY, TORONTO, Aug. 11.—(6 p.m.)—Light showers have occurred in Manitoba to-day, and local thunderstorms, with hail, in southwestern Alberta, while showers have been general in Quebec and maritime provinces. Elsewhere in Canada the weather has been fine, and, in Manitoba, very warm. Minimum and maximum temperatures.—Dawson, 32-54; Victoria, 48-68; Vancouver, 50-72; Kamloops, 64-80; Edmonton, 50-51; Calgary, 45-60; Banff, 48-75; Moose Jaw, 54-81; Qu'Appelle, 50-70; Winnipeg, 55-91; Pelly Sound, 49-73; Toronto, 64-78; Ottawa, 60-74; Montreal, 60-74; Quebec, 65-71; St. John, 53-64; Halifax, 58-64.

Probabilities.—Lower Lakes and Georgian Bay—Moderate variable winds; fine and warm. Ottawa Valley and Upper St. Lawrence—Light to moderate westerly winds, fine and warm. Lower St. Lawrence—Moderate southerly to westerly winds; mostly fair and warm. Gulf—Moderate southerly to westerly winds; partly fair, with a few light showers. Thunderstorms. Maritime—Fresh to strong southerly to southeasterly winds at first, shifting to westerly at night; showery at first, fair by night. All West—Mostly fair and comparatively cool, with scattered thunderstorms.

THE BAROMETER.

Table with 4 columns: Time, Ther., Bar., Wind. Rows for 8 a.m., 10 a.m., 2 p.m., 4 p.m., 8 p.m., and Mean of day.

STEAMSHIP ARRIVALS.

Table with 3 columns: At, From, and other details. Rows for Aug. 11 arrivals from Koenigs Luise, Montreal, etc.

BIRTHS.

EVANS—Born at Goodwood, Ont., on Aug. 11, to Mr. and Mrs. George Evans, a son (John Simon Todd).

MARRIAGES.

BURNS-JONES—On Tuesday, Aug. 9th, at 30 Vermont avenue, Toronto, by the Rev. E. R. Baker, D.D., Edith Price, daughter of Mr. and Mrs. W. Hunt Jones, to the Rev. J. A. Stead Burns of Elkhora, Manitoba.

SCOTT-CLARK—On Wednesday, Aug. 10, 1910, by the Rev. Mr. Bach, Epiphany, at the residence of the bride's father, Thornhill, Agnes B., only daughter of Robert Clark, Esq., to Sergeant John Scott, late of the Weststers Band Rifles, S.A., and eldest son of Mr. John Scott, Walmer Terrace, Motherwell, Lanarkshire, Scotland.

DEATHS.

MORLEY—On Wednesday, Aug. 9, 1910, at Small Pond, Beesley-avenue, Oshawa, N.Y., youngest daughter of Mr. and Mrs. H. G. Morley, aged 3 months.

PHILPOTT—Accidentally drowned at Friday afternoon, Aug. 12, 1910, at Norway Cemetery.

Funeral at 11 a.m. Saturday from his late home, 131 Beech-avenue, to St. John's Cemetery, Norway.

SMITH—On Wednesday, Aug. 10, 1910, at 221 Mahlin-avenue, Toronto, Frederick Smith, aged 44 years.

Funeral at 2 p.m. Friday at the residence of Mr. Joseph Fritzer, Friday, at 2 p.m. Interment in Necropolis.

FLEW THROUGH THE STORM

Thrilling Journey of Aviators in Big Aerial Race.

MEZIERES, France, Aug. 11.—With an average speed of more than sixty miles an hour, Aviator Le Blanc today flew from Nancy to Metz, a lead of 200 miles in the six-day program, in which \$17,000 in prizes are to be awarded.

The direct distance between Nancy and Metz is 100 miles, but Le Blanc raced with a storm most of the way, and was driven far out of his course.

In the two hours and five minutes that he was aloft Le Blanc estimates that he traveled at least 130 miles. The storm forced Lindpainter, one of the contestants, to alight. Le Blanc and his crew, however, drove their machines ahead of the storm, escaping the centre of it, but getting badly "mixed up" in the edges.

A crowd of 50,000 greeted Le Blanc on his arrival here and the enthusiasm was the greatest that has yet marked the race. Le Blanc was carried by his horse on the shoulders of frenzied admirers.

OVER FALLS IN BARREL

Bobby Leach, Who Has Twice Gone Through Whirlpool Rapids, Will Try It.

NIAGARA FALLS, Ont., Aug. 11.—(Special.)—Bobby Leach today signed Elmore, to go over Niagara Falls in a steel barrel some time before the end of September. Each party to the contract has received \$100 with George Holliday, Thorold, as evidence of good faith.

Leach has twice gone thru the whirlpool rapids in a barrel. He expects to take the same route as that traveled by Anna Edison Taylor in her memorable trip over the cataract in 1891. Elmore has returned to Toronto to organize a syndicate to take moving pictures of Leach's proposed trip.

MANITOBANS WANT GRAND LODGE.

OTTAWA, Aug. 11.—(Special.)—The Supreme Grand Lodge of the Sons of England this afternoon discussed the request of the Manitoba members of the order for the establishment of a provincial grand lodge for the province. There was a good deal of opposition to the proposal. It being argued that if Manitoba were granted a grand lodge, similar demands would be made by other provinces.

It was decided to leave the matter over for further discussion.

Labor Day Baby Show.

In a meeting at the Labor Temple last night the Labor Day Committee confirmed the report of the baby show committee, which called for 24 cash prizes, amounting to a total of \$150. The exhibit will be in the new Women's Rest Building, near the Dufferin-street entrance. The committee are busy making the show universal and hence are willing to accept babies from every quarter of the globe.

The New Savoy Tea Rooms, 114 1/2 Yonge-street, over Blackford's. A special 25c lunch served in gentlemen's smoking room from 12 to 3.30 p.m. and from 6 to 8 p.m. Tea room open from 10 a.m. to 11 p.m.

PASSED A COMFORTABLE DAY AND WAS CHEERFUL

Reassuring Bulletin on Mayor Gaynor's Condition—Difference Among Physicians Denied.

NEW YORK, Aug. 11.—The following bulletin on Mayor Gaynor's condition was issued at 10.30 to-night by his physicians: "Mayor Gaynor has had a comfortable day and he has taken sufficient nourishment. He is cheerful, stronger and is now resting quietly. The complete radiographic examination by Dr. C. D. Caldwell shows definitely that the bullet is lodged in the vault of the pharynx, easily accessible, but it is not considered to attempt to remove it at present. The blood examination is also satisfactory."

Judging from official bulletins, Mayor Gaynor spent a satisfactory day, and as yet his physicians say no sign of blood poisoning has developed. On the other hand, rumors were afloat to-day that his condition was such that his surgeons were in the midst of a disagreement. Robert Adamson, his secretary, and E. J. Lederle, health commissioner of New York, gave out a statement discrediting the reports of friction among the medical advisers. The statement does not deny the report specifically, but by implication.

The patient tonight at this afternoon and the exclusion from the sick room of all save Mrs. Gaynor and the attending physicians first gave rise to these disquieting rumors. It is admitted that the mayor had lost temporarily at least, his cheerful frame of mind, and had requested that his wife remain at his bedside almost continually. Because of soreness in the wounded throat an antiseptic spray was frequently used, and it was during this process that the mayor showed signs of fretting.

John Purroy Mitchell, the acting mayor, visited the hospital this afternoon, but was not allowed to go to the sick room. Hoping, he said he knew nothing of the reported friction among physicians.

"I can see nothing to change the good progress," said Mitchell, unless that it be that another day has elapsed. The physicians have simply done what I think should be done, decided not to let the patient get worked up by having too many visitors."

Good signs of the day were the continued optimistic tone of the official bulletins and the departure of Thomas Gaynor, the mayor's brother, for Baltimore.

Gallagher, the would-be assassin, in prison in Jersey City, is beginning to lay the groundwork of his defence. It will be insanity. His lawyers, Dr. F. S. Potter, an alienist, talked with him to-day. Alexander Simpson of Jersey City, counsel for the prisoner, says he has investigated the man's record and finds basis for a trace of hereditary insanity.

Jersey City, Aug. 11.—Supreme Court Justice Swayze to-day charged the special Hudson county grand jury on the attempt to assassinate Mayor Gaynor. He practically told the jury that it would be unwise to try to take the matter up with the idea of indicting James J. Gallagher, the assassin, for the reason that the whole matter now hinges on the condition of the mayor. If they took up the matter now and indicted Gallagher for atrocious assault with intent to kill, Gallagher might plead guilty, but a record and find a basis for a trace of hereditary insanity.

During the severe electrical storm to-day, St. Andrew's Church, Beaver Hill, was struck by lightning. Firemen crawled up the inside of the steeple and extinguished the blaze before much damage was done. Lightning also struck a trolley wire and burned the fuse out of a car at the corner of Greene-avenue and St. Catharines-st. A hole was burned thru the car. The motorman's hands were severely scorched.

WATERFRONT NOTES.

Jack Dodde, assistant baggageman on the R. & O. steamer Kingston, lost his balance and fell off the wharf at Brockville yesterday.

Great commotion ensued among the boat passengers and deck hands and a rush was made to see him frantically struggling in the water. The wharf stood seven feet above the water level; there was no ladder nor life-preserver at hand and he was unable to get up.

Things had begun to look serious, when Second Officer W. E. Hazlett came him out with the aid of a boat-hook.

The freighter Plummer of the Merchants' Mutual line is due here tonight from Montreal with a cargo of 290 tons. She will leave for Fort William with the same amount of freight Saturday morning.

The inland line freighter Dundurn arrived here with 250 tons last night from Montreal. She will leave for Hamilton this morning.

Commodore J. McGiffin of the Niagara Navigation Co. has been forced to absent himself from his duties on the Cayuga owing to an attack of blood-poison in the hands. Capt. Malcolm of the Corona is sailing the Cayuga, while First Officer Bongard has charge of the Corona.

SOME IMPROVEMENT.

MONTREAL, Aug. 11.—The fact that the strike on the Grand Trunk has been brought to a conclusion and that strike conditions have improved has shown last night by the statement of earnings exhibited by the company, when a decrease of traffic earnings of \$105,367 was shown. This, during the week previous, when the strike was in full progress, a decrease of over \$400,000 was registered.

Big Dredging Contract.

OTTAWA, Aug. 11.—A number of contracts have just been awarded by the department of public works. Dredging in Mississippi Bay, N. B., by J. Poupour, Montreal, and A. R. Loggie, each get a contract for \$100,000 approximately. L. Cohen & Son, Montreal, will dredge at Montserrat, the total being about \$800,000. The total will build a breakwater at Matane costing \$550,000.

Two conditions crowd us at the present time, pressing prices down and compelling us to clear our wareroom floors of the large number of instruments on hand.

First is the approach of the day of removal to our new store, 193-197 Yonge St. Second, the opening of the Industrial Exhibition calling for extra space in our warerooms for an Exhibition display of our own famous Pianos and Player-pianos.

Hence Such Startling Prices for Pianos and Player-Pianos. Quoted to-day by ye olde firme of Heintzman & Co. 115-117 King Street West, Toronto

We are quite indifferent as to real values. Our wareroom floors must be relieved of the several hundred slightly used pianos, player-pianos and organs there to-day. Call at warerooms and see for yourself the wonderful bargains offered. If not convenient to come to city, fill in and mail attached coupon and get particulars of this record-breaking and record-making sale.

Never mind if you are short of money. A small sum down and something small each month will at once place a piano in your home.

WILL MAKE CAREFUL ESTIMATE OF TIMBER

Extensive Program Mapped Out For Committees of Conservation Commission.

OTTAWA, Aug. 11.—(Special.)—The Canadian commission for the conservation of natural resources, of which Hon. Clifford Sifton is the chairman, has planned an extensive program of work for the various committees which constitute that body.

An effort will be made by the committee on forests to get together the best available information in regard to timber still standing in quality, acreage, whether owned by private individuals, provinces or the Dominion, likewise an estimate of the amount of timber in the forest reserves of the country. The committee will also make a study of the results which would attend the prohibition of the export of logs.

BERRY THANKS MAYOR

Mayor Geary yesterday received the following letter from S. M. Berry, vice-president of the Order of Railway Conductors:

"I will take the opportunity at this time of especially thanking you for the interest you took on behalf of all concerned, and the encouragement you gave other representative men in the way of bringing pressure to bear upon the management to use all honorable means in bringing about a speedy settlement of the differences that existed between the Grand Trunk Railway Co. and their employes in train and yard service. I am firmly convinced that a prolongation of the trouble would have been disadvantageous to a great many. While you may have heard that the employes were not fully satisfied with the settlement made, I can assure you that a great majority of them, particularly the better thinking men, are well satisfied with the settlement."

PORCUPINE ELECTRIC RAILWAY

Surveyors Already at Work—May Start at Matheson.

Give to Newsboys' Building Fund Campaign for Home and Gymnasium Should Appeal to All Who Feel the Need of Social Service.

TORONTO UNION NEWSBOYS' BUILDING FUND. I promise to pay to The Toronto Union Newsboys' Building Fund of Toronto, Ontario, dollars, to be used exclusively in the purchase of a site, preparation of plans, erection of and furnishing a Toronto Union Newsboys' Home and Gymnasium in Toronto, Ontario.

HAVE BIG SURPLUS Financial Report of the C.M.B.A. is Extremely Satisfactory.

OTTAWA, Aug. 11.—(Special.)—The second day of the C. M. B. A. convention was ushered in with great enthusiasm. Since last convention statement, June 30, 1907, the surplus of the association has increased from \$235,497.42 to \$322,531.68. The present balance in the hands of the grand treasurer is \$310,756.17. The reserve fund amounts to \$274,742.01. The total grand surplus is \$585,498.18.

SHIP LINERS WANT ARBITRATION BOARD. MONTREAL, Aug. 11.—(Special.)—Ship liners are making an application to Mackenzie King for a board of arbitration under the Lemieux Act. The men want more wages than the shipping companies are willing to pay. It seems that cattle shipments have fallen off considerably and consequently the number of men employed has been under the normal. It is expected the minister of labor will grant the request.

ALWAYS WORKING NEW PLANS. MONTREAL, Aug. 11.—(Special.)—In regard to the report that the Canadian Pacific had absorbed the Allan Line, Sir Thomas Shaughnessy, president of the Canadian Pacific, said this evening: "The Canadian Pacific is always working some new plans for its steamship service. There is, however, nothing special going on just now."

H. W. Just Coming. Manager Orr of the Canadian National Exhibition received word yesterday that H. W. Just, C.B., C.M.G., of the colonial office, London, Eng., would be a visitor at the exhibition and would study Canadian conditions.

DISPLAY OF SHOOTING STARS. Several people last evening noticed a large number of "shooting stars" in the eastern skies and considerable comment was made upon the unusual activity of the planets. Nothing unusual, however, was noticed at the Observatory in Queen's Park; but it was learned from that source, however, that meteors in large numbers are not at all uncommon during the latter part of August on until October.

Many Terrera. Manager Orr announces that the largest collection of Boston terrera ever gathered together in Canada will be seen at the dog show at the Canadian National Exhibition.

CAVERHILL'S MALTED BARLEY FLAKES. Serve for breakfast every morning during summer. It's nourishing, but doesn't heat—far better than cold, insipid breakfast foods.

THE NEW BREAKFAST FOOD. Children revel in its toothsome flavor. You'll also like the fine malt taste. Order to-day. Big Package 15c. 6 lb. Sack 35c.

## SOMETHING WANTED TO PUT THE MARKET UP.

World Office.  
Thursday Evening, Aug. 11.  
A slight reactionary tendency was noticeable on the Canadian exchanges to-day. This was especially seen on the Montreal market, at which centre, it is believed, large holders of stock are cautiously selling securities at the present time. Outside interest in the Toronto market was of a small character, and except that the realizing was not forced prices would scarcely have held as firmly as they did. Movements in speculative stocks were somewhat irregular. Rio showed strength, while Sao Paulo acted in the reverse way. The cessation in the bullish movement at New York was an evident influence in this market, and the best that can be said to-day is that prices show steadiness. It will require something more definite than is at present known to put the market as a whole much higher.

## THE STERLING BANK OF CANADA

Notice is hereby given that a dividend of One-and-One-Quarter Per Cent. (1 1/4 per cent) for the quarter ending 30th July instant (being at the rate of five per cent. per annum) on the paid-up Capital of this bank has been declared, and that the same will be payable at the Head Office and Branches of the Bank on and after the 15th day of August next.

The Transfer Book will be closed from the 30th July to the 30th July, both days inclusive.  
By order of the Board,  
F. W. BROGHALL,  
General Manager.  
Toronto, 12th July, 1910.

## CONFERENCE ON JOINT CONTROL

Interstate Commissioner and Chairman Mabee Discuss Situation.

NEW YORK, Aug. 11.—Martin A. Knapp, chairman of the interstate commerce commission of the United States, and J. P. Mabee, chief commissioner of the railway commission of Canada, held a conference here to-day regarding ways and means of obtaining joint control of the traffic between the two countries.  
The meeting to-day preliminary to others. The two chairmen have only the power to make enquiries and submit a report to their commissions, in which they will recommend what they consider to be the most feasible plan. Rail and water traffic will be considered, and some plan devised for a joint regulation and a mode of operation applicable to the situation.  
It is not expected that the commissioners will be ready to report to their respective commissions before fall of the year in the winter.

## Panama-Pacific International Exposition

San Francisco is determined to be the city in which the completion of the Panama Canal will be celebrated. Fifty is fixed for the event. Already, five years ahead of time, the city is preparing a committee on publicity and exploitation, is urging all friends of San Francisco to request their representatives in congress to select San Francisco as the celebration city. New Orleans and Washington are also aspirants, but the city of the Golden Gate appears to have the long lead.  
Among the interesting claims now advanced by Mr. Fee are that the children of San Francisco have subscribed \$3,000,000, and will make it \$5,000,000, and that the City and State of California will add as much or more, that 90 per cent. of the people who take vacations do so in the summer, and one of the factors influencing their destination is cool climate; that (contrary, possibly, to general belief in the east) cool summer climate is San Francisco's strongest card, temperature averaging 58 degrees, which is only 7 degrees higher than winter; that the new San Francisco, built in the past four years at a cost of \$70,000,000, is the last word in great cities, and in itself is a magnificent exposition of everything modern and beautiful in structure and the things that stand for a clean, healthy place to live and do business; that it is best equipped in hotels, and finally, that the success of the exposition otherwise, of the exposition is assured from the fact that experience has shown that 75 per cent. of the attendance of the previous great expositions came from within a radius of 250 miles of San Francisco and the cities around its bay, within 30 minutes' ride of a population of 300,000, within 50 miles of San Francisco, 1,000,000, and within 250 miles 1,400,000; the people nearby can be depended upon to make it go, as well as to give sufficient life and snap to insure a pleasant reception for those coming from distant points.

## Lehigh Valley Annual Report Shows 20 per Cent. Earned on Stock

St. Paul gross operating revenue for June increased \$582,702.

## Chicago Shows 8.8 per Cent. on the Stock

Efforts may be made by the professional element to extend the recession in the stock market which seems to be acting naturally in reacting after the several days' advance. Following irregularly it is probable that the resumption of bullish operations will be seen in the absence of unfavorable developments, the trend in leading issues still appearing to be upwards. Purchases on weakness should give moderate profits.—Financial Bureau.

## Joseph says: Lehigh Valley will sell considerably higher.

The buying is of solid description. New York Central, is very good; buy Atchafalaya; average steel on any moderate dips.

## It is clearly evident that the upward swing in prices has about run its course.

While the advance has gone a little further than we anticipated, this has resulted in a complete elimination of the short interest and the development of a very weak technical position. The wisdom of the recent rise is doubtful, and that it had little justification, as far as any change for the better in underlying conditions is concerned, will be shown in the near future. While the market may back and fill around the present level a short time longer, we advise the sale of such stocks as steel, Amal. Smelters, U. P., S. P., Hill's, St. P., Atch., and C. & O. When existing conditions in the corn belt begin to

## Regular Dividends Are Declared On Union and Southern Pacific

Wall Street Awaits the Announcement, But Does Nothing After—Toronto Exchange Dull on Divided Ideas of Future.

World Office.  
Thursday Evening, August 11.  
The decline on Wall-street to-day was somewhat of an influence among traders in domestic stocks, but the offerings in certain sections of the market were so limited that it had no especial influence on prices.

Rio, Mackay and Twin held up firm because of the small actual offerings which came into the market and the buying of the former stock was sufficiently good to advance the price against an adverse market.

Speculative interest on the exchange was a small item, but the offerings were too light to throw a damper on those who are seeking higher prices. The only really heavy issue was Sao Paulo which, although only fractionally weaker, was not wanted when real offerings of the stock were presented for sale.

The investment shares on the exchange were about steady, and buyers of these securities are not willing to advance their quotations under present conditions.

The market is regarded as a narrow one, and such as cannot be operated in except by those who can size up the possibilities some time in the future. On this question there is considerable division of opinion and quotations will, therefore, be subject to a contest on this account until some definite issue is evolved to demonstrate that either buyer or seller is in error.

Bank of England Statement.  
The proportion of the Bank of England's reserve to liabilities is now 10.19 per cent. against 50 per cent. last week and compares with an advance from 50.7 per cent. to 51.3 per cent. in this week last year.

## ON WALL STREET

Erickson Perkins & Co. had the following at the close: The dominant tone to the stock market to-day was reaction. Losses of a point were scored in numerous issues, but a part of the decline was made up. American Smelting was the weakest spot, with an extreme decline of more than five points on rumors of dividend reduction. Amalgamated Copper declined modestly in sympathy. In fact, the general weakness was in measure due to the influence of Smelting stock. Nothing developed to-day to indicate that course the directors of the American Smelting will pursue on the dividend question.

A batch of railroad earnings given out just before the close of business came in for some comment, the percentage being as follows: The earnings capacity of the Harriman lines was well illustrated by the announcement of a surplus for Union Pacific available for dividends out of last year's earnings amounting to \$46,709,000, an increase of \$4,111,000; and Southern Pacific of \$3,541,000, an increase of \$3,541,000. St. Paul showed a surplus of \$4,688,000, other railroads out of last year's earnings June 30 last was \$1,110,000, although the net decrease being \$1,110,000, the net increase \$3,449,000. For June St. Paul showed a net increase of \$582,702, and net increase of \$468,000. Other railroad reports at hand to-day showed large net decreases for June. Forthcoming monthly statement will be equally poor, we assume.

The buying power in stock is at low ebb, while we will get rallies it looks like J. P. Stockell & Co. say at the close: The market has established itself as a traders' market, peculiarly sensitive to good or bad news. We believe that some of the short and more on the long side. Should the market decline again to-morrow as it did to-day, leading stocks could probably be bought for a turn.

Charles Head & Co. to R. R. Bondard: The market to-day showed a reactionary tone, reflecting selling of stocks. Stockell & Co. say at the close: The market has established itself as a traders' market, peculiarly sensitive to good or bad news. We believe that some of the short and more on the long side. Should the market decline again to-morrow as it did to-day, leading stocks could probably be bought for a turn.

Wood, Gundy & Co. have just awarded an issue of City of Saskatoon 4 1/2 per cent. due at the end of thirty years and \$88,000 5 per cent. due at the end of ten years, and the bonds are issued for various municipal purposes, including waterworks, electric light, sewers, sidewalks, high school, hospital and fair grounds, etc.

NEW YORK, Aug. 11.—Regular dividends were declared by the Union and Southern Pacific directors at a meeting to-day.

Railroad Earnings.  
Duluth Superior, first week August \$2,328.  
Mex. first week August \$2,328.  
Mo. first week August \$2,328.

Local Bank Clearings.  
This week \$27,138,421.  
Last week \$28,039,360.

Tractions in London.  
Playfair, Martens & Co. reported the following prices on the London market yesterday: Sao Paulo 187 1/2, Rio 187 1/2, Mexican Tramway 117.

British Consols, Aug. 11.  
Consols, money 8 1/4, 8 1/4, 8 1/4.  
Consols, account 8 1/4, 8 1/4, 8 1/4.

Money Markets.  
Bank of England discount rate, 3 per cent. Open market discount rate in London for short bills, 2 1/2 per cent. New York call money, highest 1 1/2 per cent. lowest 1 per cent. Call money at Toronto, 3/4 to 6 per cent.

Foreign Exchange.  
Glazebrook & Cross, Building (Tel. Main 7317), to-day report exchange rates as follows:  
Between Banks—Buyers, Sellers, Counter.  
N. Y. funds, par. 1/2 to 1/4.  
Ster., 60 days, \$35-32 1/2-1/4.  
Ster., demand, 9 1/2-9 1/2.

August 11. Open. High. Low. Close.  
September 13.88 13.88 13.87 13.87  
October 13.78 13.78 13.67 13.67  
November 13.68 13.68 13.57 13.57  
December 13.58 13.58 13.47 13.47  
Cottons closed quiet, 25 points lower; middling uplands, 13.75; do. good, 13.65; sales, 145 bales.

COTTON GOSPI.  
Erickson Perkins & Co. had the following general profit-taking was carried on by the leading bull interests during to-day's session, in spite of the failure of Texas rainfall to materialize, and prices advanced sharply. Otherwise there was little news feature. General conditions over the cotton market were favorable, and as we have stated before, it would not surprise us to see the condition improve in the September. It would be the first time since 1902. The new crop has been pulled on the drought in the central portion. There are no indications of rain for that section, but in our opinion, the present levee discounts the drought without heading the improvement over the balance of the belt.

Prices revised daily by E. T. Carter & Co., 55 East Front-street, Dealers in Wool, Hides, Calfekins and Sheepskins, Raw Furs, Tallow, etc.

**New York Dairy Market.**

NEW YORK, Aug. 11.—Butter—Stronger; Creamery specials, 29 1/2 to 30c; extra, 28 1/2 to 29c; third to first, 27c to 28c; state dairy, common to finest, 25c to 26c.

**FARM LABORERS.**

310 Excursions, August 12th and 16th, to Winnipeg and a great many points in Manitoba and Saskatchewan including certain points of Grand Trunk Pacific and Canadian Northern Railways.

**FRUIT MARKET.**

The local fruit market was rather quiet yesterday with receipts smaller than usual. Tomatoes and cucumbers were here in abundance and caused the price of the former to drop to 2c.

# MINING STOCKS

## Public Interest Still Small And Traders Stop Advances

### Recent Purchases of Some Cobalts Have Come From Those Who Know the Mines—Kerr Lake Strong.

World Office, Thursday Evening, Aug. 11.—An advance of \$1 a share in Kerr Lake in two days has given a stimulus to the Cobalt market, but the main influence thus far has come from the States, the local buying being only of a small order. At the Toronto Mining Exchange to-day prices held firm about yesterday's quotations, but the fact that there were few real new buying orders in the market admitted of the traders putting out stock on the strong spot and this had the effect of holding quotations in check.

Among brokers, the market is said to be in a good healthy condition, but it will require a bigger public interest than is now in sight to cause a much further advance. On this, there depends as to whether it will become more stagnant and steady.

Most of the recent buying has come from people who are investing on the ground that, although the advance in Cobalt has delayed the ultimate end of prices must be at a higher level.

The following item was written to The World by Mr. A. E. Hogue, a mining engineer of considerable reputation who is at present looking over the claims in the Porcupine district, and who has had a large experience in Australia and South Africa.

Every day strengthens my favorable opinion of this place, that it will develop into a profitable goldfield. The showings on Timmins, Vioand, and other properties are certainly good enough to cause a boom in any part of the world, and there are many very promising claims to the south of Whiting and Tisdale.

## Timiskaming Finances Strengthened in Six Months.

### Debit of \$97,000 Converted Into Credit Balance of \$179,496 in the Six Months.

Following is a statement issued by the Timiskaming directors for the second quarter of the current year. The great improvement in the company's finances since the annual meeting no doubt accounts for the strength of Timiskaming stock in the mining market.

During the first six months of our fiscal year we have produced and shipped 851,725 ounces of silver as against 670,320 for the whole of last year. Of this amount 655,889 were produced by hand picking, and 195,836 were recovered from the mill during 92 working days.

The mill feed consisted in the main part of the discard from the hand sorting tables, and one from the development faces. The remainder, or about one-third of the whole, was made from the dump reserves.

The main reserve has been carried by the dump reserve has been reduced to 26 inches of bonanza ore. No. 2 vein has now commenced from the 500 foot station, and there is still some 50 feet to drive before we encounter it.

The formation to this depth remains the same, so we look with confidence to equally good results here as obtained on the 100 foot level.

At the latter depth considerable development work has already been done in opening up veins Nos. 1, 2, and 4, with results that are most gratifying. No. 1 is most spectacular, varying up to 26 inches of bonanza ore. No. 2 varies from 6 to 10 inches wide of from three to 25 hundred ounces ore, and No. 4 which we have just encountered on this level is some 8 inches wide and equally high grade.

The high grade reserves have more than 100 feet of ore, and our condition is such that we can easily maintain our present heavy output for a considerable length of time.

**Is there a Woman Left in Town**

who has not visited our hosiery counters during this present month? It seems improbable, judging from the numbers who throng this department every day—but if there is one, this advertisement is written particularly for her. Though we've sold fifty per cent. more hosiery than in the same number of days last August, there is still to be seen here the finest hosiery stock in Canada. New shipments are constantly arriving from famous European mills, and each day sees a fresh and interesting addition made to each section of this sumptuous stock.

So do not be thinking that the good things have all been picked up; there are good things every day, and there'll be just as many during the second half of the month as there were in the first—here for instance are the new ones for Saturday morning:—

Women's Pure Silk Hose, black, tan, garter top, lisle sole, heel and toe, gauze weight, all sizes. Regular \$1.00. Hosiery Sale price Saturday, pair 59c.

Women's Silk and Wool Hose, elastic rib, black, with red, sky, white, green, also fancy striped and checked patterns. Regular \$1.00. Hosiery Sale price Saturday, pair 49c.

**The Right Kind of Flyer for August**

No Twentieth Century idea has been more appreciated than the arrangement which brings August Furniture to thousands of homes during the summer time, at close to manufacturer's prices. Though for the last five years Furniture prices have been soaring, we've been able to supply many households during this sale with better Furniture at lower prices than they had ever experienced before.

Come to our FIFTH FLOOR Saturday morning and see the way we're making Furniture fly! People are making comparisons and the inevitable result has been a record sale for our Furniture Department. Here is a list of flyers for Saturday morning:—

Sideboard, in genuine quartered oak, well made on mission lines, in early English finish, lined cutlery drawer and long, deep linen drawer, and three separate cupboard compartments; plain back, fitted with British plate mirror. August Furniture Sale price \$23.50.

Extension Table, in early English finish, made in solid quartered oak, pedestal design, with round top, 44 inches in diameter, easy running slides, extending to 8 feet. August Furniture Sale price \$18.50.

Princess Dresser, in rich golden quartered oak finish, two large, deep drawers, and neat toilet, fitted with heavy bevel plate mirror, well made and exceptional value. August Furniture Sale price \$9.75.

Somnoles, in genuine birch and mahogany veneer, highly polished, shaped fronts and double tops; trimmings of solid brass. These items are at half-price and less. August Furniture Sale price \$4.50.

Sliding Bed Couch, frame made of heavy angle iron, well braced, and spring of wire fabric; mattress is denim covered, and has valance at front and two ends. A comfortable couch by day, easily extended to a comfortable bed for night. August Furniture Sale price \$8.25.

Size 4 feet long, 24 inches high, 18 inches wide. A handsome utility box, as well as making a comfortable seat. These settees are exceptional value at Saturday's price, each \$4.98.

**American Tourists**

It was on October 12th that Christopher Columbus discovered America, but Americans discover that Fall shopping begins at Simpson's two months earlier. To-day, this 12th day of August, or any day in August for that matter, you will find American tourists buying here. Needless to say they are the most discriminating of customers. They know a good thing, an up-to-date thing, when they see it. They recognize that

Simpson's Silks and Dress Fabrics, Simpson's Kid Gloves and Silk Hosiery, Simpson's English Hall-marked silver, Simpson's Furs, Fancy Goods and Souvenirs, Simpson's Clothing for men and women,

are worth making a journey to see, and are the best value for the money on this continent.

Then they are appreciative of store comforts. The plunger elevators, smooth running and commodious, the ladies' rest-room, the airy restaurant on top floor, with club service, at a moderate price, all call forth the exclamation "why, you can't get it anywhere else outside of New York city!"

The **SIMPSON** Company Limited
