TWO MEN IN NIGHTSHIRTS
RESCUED UNKNOWN SAILOR

Capt. Powell and Engineer of
the Westport, Fished a
Drowning Man Out of the
Union Street Slip Last
Night.

A Nova Scotian sailor had a narrow
escape from being drowned last night
and only the prompt action of Captain
Powell and the engineer of the
steamer Westport saved the man's life.
The Westport is taking in freight for
St. Mary's Bay ports and Yarmouth, at
Harvey's slip, foot of Union street, and
Capt. Powell had retired to his cabin
early. Shortly after nine o'clock he
was awakened by a cry for help. With-
out waiting to dress in any outer gar-
ments Captain Powell, in his night
clothes rushed to the deck and on the
way he grasped a life buoy near his
door. As soon as he reached the deck
he discovered a man struggling in the
water some yards away from the
steamer. Capt. Powell threw the cork
buoy. It struck within a few inches of
the man's head which seemed to be dis-
appearing beneath the water, an arm
reached up quickly and with a death
grip the hand clutched the life pre-
server.

Captain Powell shouted out to the
man to hold on to the buoy and then
threw a small line.
The engineer of the Westport had
also rushed out of his bunk at the
alarm and with the captain, barefooted
and in their night clothes they
were becoming drunk. He mistook the
head of the slip where there was a
saw. The line was placed round the
sailor's body and after some difficulty
he was pulled upon the saw, then to
the wharf and finally taken to his ves-
sel, which was docked close by.
The sailor returned to give his name,
but said he had been ashore with some
shippers and had left them as they
were becoming drunk. He mistook the
wharf at the foot of Union street for
the entrance to Long wharf and walked
in the darkness over into the water.
He had been struggling for some time
before he called out for help and was
quite exhausted when the welcome life
buoy splashed along side of his head.
If it had not been for the timely assist-
ance of Capt. Powell and the West-
port's engineer, the sailor, who claims
Liverpool, N. S., as his home would
undoubtedly have been drowned.

SHOT HIS SISTER-IN-LAW;
TRIED TO KILL HIMSELF

Harry Wood, Wanted on the Charge of
Murder, Was Found With His
Throat Cut.

WINCHENDON, Mass., Oct. 12.—
Harry Wood, who is suspected of hav-
ing shot and killed his sister-in-law,
Mrs. Ira Wood, at her home last night,
was found at his home early today
with his throat cut by a razor. The
wound is not dangerous. Later Wood
was placed under arrest on the charge
of murder and removed to the police
station.

Near the bed in which Wood was
found a loaded revolver and a razor and
the road between the house and Ira
Wood's residence was found a shell
which fired this gun. Mrs. Wood was
killed by a charge from a shotgun.
The motive for the crime is not
known. Harry Wood would say nothing
about the affair after his arrest
today. He is said to be regarded by
his neighbors as somewhat mentally
defective.

COMMISSION CHOSEN TO
SOLVE JEWISH PROBLEM

NEW YORK, Oct. 12.—A London de-
spatch to the Times says the geographical
commission which Israel Zangwill
was empowered to appoint at the re-
cent session of the international coun-
cil of the Jewish territorial organiza-
tion has been constituted. Mr. Zang-
will has appointed Lord Rothschild,
Oscar S. Strauss, Herr James Simon,
Dr. Paul Nathan and Professor Men-
delstam. The Jewish Chronicle says
of the commission:
"No better body of men could have
been chosen for the work. The com-
mission combined enormous influence
without practical knowledge and
power and represents a splendid Jew-
ish international effort to find some
solution or palliation for a heart-
breaking difficulty."

THE SCHOOL-BOOK DRAIN.

book question is a very live one just
at present when demands are being made
on the over-worked parental purse, for
all sorts and conditions of text books,

harassed father in Halifax would be
glad to see a system like this intro-
duced in our own schools. Is it not pos-
sible?

The Summerside Fire Loss
Amounts to \$225,000

Insurance is \$76,000—Two Schooners in
Trouble, One Supposed to be Lost With
Three Men on Board.

CHARLOTTETOWN, P. E. I., Oct.
12.—A conservative estimate of the
loss by the Summerside fire is \$225,000,
insurance \$76,000. The British American
has \$10,000 and the following companies
altogether \$20,000: Norwich Union,
Home, New York, New York Under-
writers, Caledonian, Law Union and
Crown, and Equity. The following
have \$4,000 each: Royal, Nova Scotia
Fire, Anglo American. \$15,000 is held
by the North British and Mercantile,
Union of London, Phoenix of London.
The total number of buildings burned
in Summerside, including barns and
outbuildings, is one hundred and fifty.
The Charlottetown city council at a
meeting last night offered to assist the
destitute if help is needed.
The schooner Eventide owned by Captain
Joseph Read, of Summerside, is ashore
at Pasphebas, and is a total loss.
The schooner Western Light which left
Chatham for Mininigha Saturday
evening, with no ballast, is missing. On
Sunday a small schooner was sighted
drifting northward. The Western
Light, commanded by Chas. Veno,
of Elmfield, P. E. I., carried two men.

ROYAL BUTCHERS
KILLED MANY DEER

Alfonso of Spain Took a Regiment of Men
With Him to Shoot the
Animals.

NEW YORK, Oct. 12.—A Madrid
despatch published here today tells of
an unique hunt that was given in the
royal forest near Langrange by King
Alfonso. His Majesty invited a bat-
talion of troops known as the Caz-
adores in Madrid to join him and the
court in a big shoot, and every mem-
ber of the battalion from the Colonel
to the latest recruited private trav-
elled to Langrange to take part. The
slaughter of deer was terrific, dozens
falling at a time. The reason for hold-
ing the shoot which lasted through
Wednesday and Thursday, was that
the forest had become so overstocked
with deer that the pasturage was in-
sufficient.

WAR ON BEEF PACKERS

Chicago Building Commissioner Will Close
all Buildings Where There Is Danger

CHICAGO, Ill., Oct. 10.—Open war
was begun on the packing plants at the
Union Stock Yards today by the Build-
ing Commissioner here. It is declar-
ed that the packers have broken their
promises to the city.

A report from building inspectors
was made to the Commissioner today
showing that the packers have built
pretense in a small way to obey the
orders of the department given at the
original inspection of the stock yards
three months ago.

Commissioner Bartenz will make a
personal tour of the yards tomorrow
and will order every building closed
where he considers there is any serious
danger.

WILL ENFORCE THE LAW TO

INJUNCTION AGAINST
MRS. NELLIE BARKER

To Prevent Contamination of
the City's Water Supply

Judge Barker's Decision Rendered This
Forenoon Grants the Application
of the City.

In the case of the City of Saint John
against Mrs. Nellie Barker, in which
the City of Saint John filed a bill
asking for an injunction to restrain
Mrs. Barker from draining the water
closets in her hotel at Loch Lomond
into Loch Lomond, Judge Barker gave
judgment this morning.

The plaintiffs put their case upon two
grounds. First, that they were the
owners of the land on both sides of the
Misep River below Mrs. Barker's land
and on the shore opposite to Mrs. Bar-
ker's land and further up the lake than
the water of the lake and Misep River run
down to Robertson Lake and thence
to the City of Saint John for the
inhabitants of the city and other
purposes, that they had a right to
have the water taken to the city in an
uncontaminated state.

The judge in giving judgment dis-
tinguished between the two grounds, hold-
ing in the first instance that inasmuch
as the city were the riparian owners and
the Misep River below the defendant's
land that the said city had a right to
have it so flow uncontaminated by any
filth or other effluvia matter and also
holding that by the act of the legisla-
ture that as the city was empowered
to bring the water to the City of Saint
John for culinary and other purposes,
they also had the right to have that
and the parent to a fine of \$5. He held
as above referred to. He directed an
injunction to be issued restraining Mrs.
Barker from contaminating the said
water by means of so draining the efflu-
via matter into the lake.

Magistrate Ritchie Gives Some
Straight Talk to Parents
—Youngsters Must Be
in Their Homes at the
Proper Hours.

The boy problem was once more,
before Magistrate Ritchie in the police
court this morning, when Albert Rit-
chey, aged 8 years, Wm. Stone and
Edgar Friers, each eleven years, form-
ed in a line in front of the big desk in
the police court. All were bright and
neatly clad youngsters and their par-
ents were in court with them.

About nine o'clock last night a He-
brew who was passing Myer Gordon's
meat shop on Main street saw a small
boy in the store and immediately in-
formed Gordon, who caught young
Ritchey coming from the shop through
a broken window. The little nine year
old said that Friers had thrown his
pen knife in through the window and
he was only in there to find the knife.
This did not satisfy the butcher, who
seemed to want his pound of flesh, and
despite all explanations he insisted
that Policeman Hamm place the boy
under arrest. The result was that the
little fellow spent the night in a north
end station cell crying his heart out.

An investigation showed that the boy's
story was true, for his pen knife was
found on the sawdust floor of the shop
and was taken possession of by the
policeman.

In court this morning young Ritchey
told the same straightforward story,
as did his two companions. The mag-
istrate dismissed the idea of the boy
being in the store for any other pur-
pose than looking for his knife, but
took up the matter of small boys be-
ing on the street at nine o'clock at
night. He quoted the law which
clearly showed that from March until
November all youngsters must be in
their homes before nine o'clock, and
during the months of November, De-
cember, January and February they
are liable to arrest if out on the street
after seven o'clock in the evening. He
said he blamed the parents for allow-
ing their children to be on the street
at night, and quoted the law where
the child was liable for imprisonment
and the parent to a fine of \$5. He held
as above referred to. He directed an
injunction to be issued restraining Mrs.
Barker from contaminating the said
water by means of so draining the efflu-
via matter into the lake.

WILL TAKE A MONTH TO FINISH AT THE GAS WORKS

Supply Ran Out Last Night and Much
Inconvenience Was Caused.

Inquiries at the gas house last night by those consumers whose lights refused to work brought out the startling fact that the available supply of gas was almost exhausted. The two morning papers had a hard time getting to press this morning as the linotypes machines employ gas for melting the metal, and the work had to be stopped for quite a while.

Mr. Swain, the expert who has charge of the work, was notified, and by his instructions some of the old retorts were heated and the supply brought up.

Mr. Swain, the expert who has charge of the work, was notified, and by his instructions some of the old retorts were heated and the supply brought up.

The work of replacing the old re-

torts is being pushed along, but it will be some time yet before all the new ones will be in place. Mr. Swain says that many improvements are yet to be made in the plant and also in the building itself. He thinks it would take about a month before it is finished. The scarcity of water in the city these last few days has also had a great deal to do with the gas, as the engineers complain that they sometimes could not get enough for their retorts.

MOTHER'S SHARE.

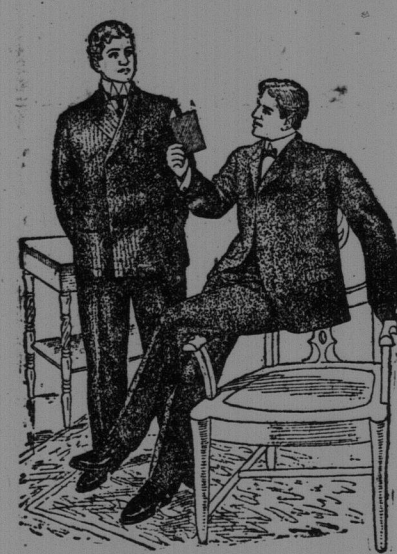

Six-year-old Willie was visiting at his aunt's house. He said: "I have a new coat brother has a new coat and papa has a new coat." "What has your mother that is new?" his aunt asked. "She has neuralgia."

HARD TO GET.

"Can't you find any work at all," asked the kind lady of Frayed Franklin. "Plenty, mum. But everybody wants references from me last employer." "Can't you get them?" "No, mum. It's been dead twenty-eight years."

CO-EDUCATION ABOLISHED

At the Chicago University—Men and Women to be Completely Separated.

CHICAGO, Oct. 11.—Coeducation at the University of Chicago has been abolished. Its official death warrant has been signed by the faculty and henceforth as fast as the plan can be matured the men and women are to be gradually separated until complete segregation has ultimately been secured. The final aim is to build up two affiliated universities, one for women, the other for men.

Dean William D. MacClintock today made announcement of the new plan to the women's college of philosophy. The buildings for the women's college, library, recreation room and entertainment hall are to be entirely removed from the Holy Ghost and its Society. They will meet on a strictly intellectual basis. University life here needs to be more secluded and free from the publicity which is now its greatest selling.

PORTLAND, Me., Oct. 10.—Mrs. Fred Gallat, who, with her three children, the oldest 10 years of age, recently forsook the Holy Ghost and its Society at Shiloh, after living there three years, left Portland today for her home in Tacoma, Wash., on money sent her by her mother. Her husband is with "Elijah" Sandford on the Palestine trip, and she says she does not expect to ever see him again, as he remains steadfast as a disciple of Sandford. She said that the dwellers at Shiloh have been on very meagre rations this fall, and now their chief staple is cornmeal mush.

Gallat had a plumbing business in Tacoma, which he sold out in his conversion, and on his arrival at Shiloh gave all his money to Sandford.

LOST CHILD IN WOLF'S DEN.

ST. JOSEPH, Minn., Oct. 11.—After being lost for two days, during which the entire countryside joined in a hunt for her, 4-year-old Margaret Schweitzer, daughter of a well-to-do farmer, was found unharmed in a wolf's den here this morning. The child was well and apparently contented, and seeing her rescuers for having driven away the "nice little doggies" with which she had been playing.

HE STOLE MONEY FROM SACKVILLE MAN.

The Sackville Post says: Some of the St. John papers stated on Saturday that W. K. Best, of this town, had been in the city searching for a former employee who had stolen \$25 from him. This is only partly correct. Mr. Best was not in the city but he has been searching for a former employee who stole the money and also several pairs of boots. Mr. Best says he gave the man work when he was almost stranded. When his child died in Amherst he let him have money to pay funeral expenses and did not take it out of his regular pay, intending to do so later. One day a few weeks ago Mr. Best was in Port Elgin and on that occasion his employee stole the money that he had given him. He also stole several pairs of boots and he out, and Sackville has not seen him since. Mr. Best wrote to St. John and learned that his man had been in that city, but he has not yet succeeded in locating him. He also owes for several weeks board in addition to some other bills around town. He was evidently a bad case.

HILL'S MEN FIND PASS THROUGH HOPE MTS.

VANCOUVER, B. C., Oct. 11.—The great problem of the Vancouver, Victoria & Eastern Railway has been at last settled by J. J. Hill's surveyors. The surveyors have found a route through the Hope Mountains, which hitherto have been looked upon as an almost insurmountable difficulty.

A special from Princeton says: "Three parties of surveyors are at work on the proposed new route of the V. & E. up the Bulkamien river, crossing the Hope Mountains, through Skagit Pass. It is a preliminary line, and is expected to be finished in November."

Track laying on the V. & E. has reached Mission, and regular passenger trains will be run to that place in a short time. A grade is completed as far as Kormox, and the contractors are awaiting orders with their outfits at Orville.

It is claimed that as soon as the railway reaches Princeton, coal mines in the neighborhood, can maintain an output of 50,000 tons a day. A large amount of development work has been done by one company in the vicinity of the town.

COSTLY DRIVER FOR PLASTER ROCK MEN.

BATH, Cal. Co., Oct. 9.—On Saturday John Adams and Cole Swin, of Plaster Rock, hired a horse and carriage from Gilbert Gibson's livery stable to drive a few miles into the country, but instead of that drove to Perth, where it is said, they got a supply of liquor. On their return they collided with the Tobique accommodation train at Kearney's Crossing, the horse running full tilt into the engine.

The horse was thrown some distance from the track and killed, and the carriage was badly wrecked. The occupants were thrown out and Swin was quite seriously injured, being badly bruised about his head and having his collar bone fractured. Adams escaped uninjured.

The train stopped and brought the men down to Bath, and Swin is at present under the care of Dr. Cummins at the Exchange hotel.

DALHOUSIE TO HAVE A CURLING RINK.

DALHOUSIE, N. B., Oct. 10.—Dalhousie will have a curling rink this coming winter. Such was the decision at a meeting held last evening by several progressive citizens. W. S. Smith, president, and R. Y. Blackall acted as secretary. Nearly all the necessary funds have been subscribed. Three sites are offered and a committee consisting of Mayor Montgomery, Hon. C. H. Leblond, and W. A. R. Craig was appointed to select a location and arrange for a charter. Claude Brown, H. J. E. Martin and James Wallace were appointed a building committee. The plans and specifications will be prepared at once by the Brestonville Woodworking Company, and tenders called for immediately. The size of the building will be 60x150. It will be constructed so as to permit of its being used for local concerts and entertainments.

ST. JOHN STAR.

ST. JOHN, N. B. OCT. 12 1906.

APPLES.

St. John is surrounded by the best apple growing lands in the world, and is unable to procure from the near markets a single shipment of this fruit which is fit to use. Nova Scotia raises good apples and the shippers there, neglecting the home markets which give highest prices and quickest returns, prefer sending their consignments to England, almost invariably receiving less money in return than could be obtained near at hand. The spirit of speculation is responsible for this policy, but it is difficult to ascertain what reason Nova Scotian packers have for persistently attempting to deceive New Brunswick buyers. The experience of the past few seasons has clearly shown that Nova Scotian apples will be rapidly driven out of this market. Importers want honest fruit, and as it is practically impossible for them to obtain such in Nova Scotia, they are seeking it elsewhere. It is true that apples from the other provinces still form a large part of the receipts here, but the consignments are fast becoming smaller, and the fruit will not be brought over at all. The principal reason is, of course, dishonest packing. Outside of New Brunswick and Nova Scotia there is no fruit growing equal to that from which early apples may be brought to this province. Ontario is the chief source of supply for winter keeping varieties, but not for the earlier kinds of apples, and the fact that no other supply exists explains why Nova Scotia's hold on this market remains as strong as it does.

This being the case, the great wonder is that farmers along the St. John river and in other sections do not awaken to their opportunities. The Annapolis Valley in the whole history of apple growing never produced such quantities as are grown in small numbers in New Brunswick. There is no fruit coming across the bay which can compare in flavor with the New Brunswick apple, the Duchess of Oldenburg, nor can Quebec, the home of the Fameuse, raise apples of this variety which at all equal those of our own province. The only drawback is that our farmers do not grow enough of them. Experience has shown that there is no land nor climate equal to that found in the central part of New Brunswick when it comes to apple culture, but a better system and closer attention to this branch of agriculture is required. Years ago someone found that the Duchess of Oldenburg found here, and immediately every farmer in the country felt it his duty to raise this variety. No other kind was attempted, at least not to any extent, and the result is that in the early fall the market is glutted with this fruit, while later in the season Ontario captures the trade and, by controlling the supply, gets better prices.

If New Brunswick farmers would seriously engage in apple culture, do away with half their purchases of raise Gravensteins, Baldwins, Bishop Pippins, Russets, and Northern Spys, they would in a very few years find a most profitable market here at home, would provide their own people with the best of fruit, and personally make St. John Valley a paradise compared with which the Annapolis Valley would be forgotten. At the present time up-river farmers send large shipments of early apples to St. John. They are retailed here in stores, but a more profitable market could be found if some attention were paid to packing. The fruit is much firmer and clearer than any other brought here, but it seems to be overlooked in the grading or packing. This injures the wholesale trade, and the result is a cut of about fifty cents per barrel. The farmers are the ones who lose, for the buyers pay only for what they get.

THE GAS NUISANCE.

The gas nuisance last night reached a point which should be made the limit. The feeble flickering flames which gas consumers have been enduring with more or less patience for the past few weeks almost disappeared. In answer to protests from private consumers and from the newspaper offices, which use gas to heat the melting pots on the type-setting machines, officials at the gas house contributed the information that the worst was yet to come. The supply had practically given out, for some unexplained reason, and there was great probability that the whole city would have to be shut off. Appeals were made to officials higher up who were aroused into activity, and after the loss of over an hour of valuable time in this office the supply improved and it was again possible to resume composition.

All this may have been the result of an unavoidable accident, and had it happened at a time when there was no other cause for complaint might well have been allowed to pass unnoticed. But coming as it did as a climax to a long drawn out period of wretched service for which an exorbitant charge has been made, this should serve as the last straw break the back of the public's endurance. The Sun was assured by the St. John Railway Company's officials last night that this was positively the last of it; that hereafter the gas would be

Your lungs have all they can do. They work night and day, and are faithful to the end. Then use them well. If they are rasping and tearing themselves by hard coughing, come to Cherry Pectoral. It heals, soothes, quiets. Your doctor will explain its action to you. Ask him all about it.

unimpeachable in quality and as plentiful as could be required. These assurances are not as convincing as they once were, and it is time that St. John people who use gas were relieved from the necessity of depending for light and heat upon corporation promises. Even if the predicted improvement should take place, it is impossible that the service can be made worth the price now charged. The whole business should be looked into at once. It would be an easy and not a very costly matter to find out just what good gas should cost here. And if it be proved that the present company is treating the people unfairly, as seems certain, there are ways by which a square deal can be forced, even from the St. John Railway Company.

THE REAL THINGS OF LIFE.

It matters little where I was born. Or if my parents were rich or poor. Whether they shrank from the cold or walked in the pride of wealth secure. But whether I live an honest man, And hold my integrity firm in my clutch, I tell you, my brother, as plain as I can, It matters much.

It matters little how long I stay In a world of sorrow, sin and care, Whether in youth I am called away, Or live till my bones of flesh are bare; But whether I do the best I can To soften the weight of adversity's touch On the faded cheek of my fellow-man, It matters much.

TO AVOID TROUBLE.

An expressman who called at a 32nd street boarding house for two trunks was asked by the landlady where they were going. "I don't know," he said. "You see, I only half the hauling. I will take the things to our office and somebody else will take them the rest of the way." The boss at the desk will know the address. The moving is done on the installment plan to keep you folks from finding out when the money is gone. They were afraid to trust me with the number, for fear you might worm it out of me. So they told it to nobody but the manager. Lots of people who move often make the trip in sections like that. Half the time when I take a trunk away from a boarding house I don't know where it will wind up. That is generally done when there is a row and the folks who leave don't want to be followed. Been a little trouble here, I imagine?" He added tentatively.

"Yes," sighed the landlady, "a little."

RUBBING IT IN.

They were very fond of each other, and had been engaged, but they quarrelled, and were too proud to make it up. He called afterwards at her house to see the old gentleman, on business, of course. She was at the door. Said he: "Ah, Miss Blank, I believe? Is your father in?" "No, sir," she replied; "pa is not in at present. Did you wish to see him personally?" "Yes," was his blunt response, feeling that she was yielding; "on very particular business, of course." "But who shall I say called?" He never smiled again.

RAPID GROWTH.

"It's dreadful queer," said the housewife, "that the potatoes you bring me should be so much bigger at the top of the sack than they are at the bottom." "No, sir," she replied; "pa is not in at present. Did you wish to see him personally?" "Yes," was his blunt response, feeling that she was yielding; "on very particular business, of course." "But who shall I say called?" He never smiled again.

"Dr. Beason is once more among us for a brief season," wrote the chronicler of Northby's social and religious life. "He says and does exactly as he thinks right, without regard to the opinion or belief of others."

UNDULY PUFFED UP.

"That little minnow," said the first fish, "seems to have got a big opinion of himself all of a sudden."

THANK FORTUNE.

Tumbell—You look relieved.
Briley—I am, I've just paid all my debts.
Tumbell—How did you manage it?
Briley—Oh, I borrowed \$1500.

WHAT NONSENSE.

Rooter—If they win this game, by George! It's a real upset!
The inevitable Girl—Eight straight? Why, how absurd, Harry! Eight is the crookedest of all the figures.

NOT SO BAD AS IT SEEMS.

Intending Guest—But your children make such an awful noise.
Landlady—Well, you notice it more because it's such a quiet street.

WHY NOT TAKE OVER
ALL THE LAND AT ONCE

Street Comment on the City Policy in Regard to the 30 ft. Strip on Union Street

There is considerable comment around the city on the policy adopted by members of the common council in securing the 30 foot strip of land in front of the Sloth & Quinlan granite works and the Gordon mail works on Union street, West End, and a good many citizens fail to understand why the city is taking steps to secure such a small section when the whole property will be needed within a very short time. All the land on which these works are situated is owned by the city and is leased to the present tenants. These leases will both expire on the first of November next, or within three weeks, and it seems odd that the city council should spend so much time in deliberations and talk of expropriation proceedings when no more time would be occupied in putting a valuation upon the property and taking it over under the terms of the leases.

Some seven or eight years ago, when the former leases expired and when renewals were asked by the tenants it was made by certain members of the council to have the property taken over then, as the idea prevailed that the city would require all this land in the very near future, either for dry dock purposes or for the extension of harbor facilities. The movement was turned down, however, and the leases, extended for a period of years, which expires very shortly. The plan was now suggested about the streets is that valuations should be appointed to decide how much the city should pay Messrs. Sloth & Quinlan and the Gordon Company for the improvements on the property. Then the whole of the lots should be taken over at once, instead of a thirty foot strip as is talked of. If this 30 feet is taken now and the leases renewed they will only have to be broken in a very short time as the remainder of the property will be wanted and it seems unwise for the city to talk about paying thousands of dollars for such a small section of the land and then having to pay it all over again with a great deal more added for the remainder of the property.

WILLIAM STRACHAN, OF
GILT EDGE FAME, IS DEAD

(Special to the Sun.)
MONTREAL, Oct. 12.—William Strachan, of Gilt Edge soap renown, died this morning in the general hospital of kidney trouble at the age of 58 years. He was one of the most prominent merchants. Besides his soap and oil business he was president and managing director of the Montreal Stock Exchange Company, was one of the promoters of the park and island railway and was a director of the Montreal Herald Publishing Co. He was a liberal in politics.

Shirley Ogilvie has been named a director in the Ogilvie Milling Co. This is in addition to the board.

The big 3-session Thanksgiving Day Carnival of merriment in Victoria Roller Rink next Thursday is being marked as the chief source of amusement for the holiday. In the morning all children will be admitted free. In the afternoon there will be skating to a band programme, and as a special feature a half handicap race. The evening, however, the most interesting feature takes place, the Masquerade. Forty dollars will be given away in awards, and every attendant, whether spectator or skater, will have a chance to win \$10 at the gate—Advt.

WHAT LED TO MODUS VIVENDI OVER NEWFOUNDLAND FISHERIES

Hon A. B. Morine Former Leader of Opposition in Newfoundland, Gives Story of Negotiations Between Great Britain, Newfoundland and the United States.

TORONTO, Oct. 11.—Hon. A. B. Morine, former leader of the Newfoundland opposition, was asked for an expression of his views regarding the modus vivendi just agreed upon between the British and United States Governments.

"The use of purse seines is bound to be injurious to the fisheries, and in addition Newfoundlanders can be employed by Americans to use these seines, it will have the effect of destroying the colony's legislation long in force against the use of such seines. Therefore, even the concession of their use under the modus vivendi for one year is regrettable, and likely to be followed by bad results."

"To understand the situation, it must be remembered that in ports on the west coast of Newfoundland, Americans have the right under the treaty of 1818 to catch fish of all kinds. It has heretofore been the practice for the Newfoundlanders to engage in the fall and winter fishing, for herring and then sell their catch to the Americans at the price of \$1.25 per barrel, as fixed by a regulation of the colonial legislature."

"This fall and winter fishery should be distinguished from the ordinary taking of herring for bait, because the catch goes into food consumption. This fall and winter fishery was naturally very profitable to the Newfoundlanders, but it was interfered with last autumn by the colonial government, an action protested against by the Newfoundlanders interested. The reason for this interference was the bringing of pressure to bear on the Premier, Sir Robt. Bond, and his interference with the herring fishery of the west coast, was due apparently more to a desire for retaliation than to any good reasons of state."

"Personally, I opposed that legislation on the grounds that such interference would drive the American fishermen to the use of purse seines as employed by the colonial government. I am of the opinion that the Americans would have been forced to adopt them, when the American fishermen came last fall, they found great difficulty in obtaining their supply of herring, because having always relied on the Newfoundlanders, they lacked the necessary fishing equipment. They were thus forced to adopt purse seines and power launches when they would probably prefer to go back to the old

MONCTON PASTOR HAS RESIGNED AGAIN

Rev. G. W. Whitehouse Can't Make Up His Mind to Stay—Industry May Move to Dorchester

MONCTON, N. B., Oct. 12.—At a business meeting of the First Baptist Church last evening Rev. G. W. Whitehouse, the pastor, announced that he had considered his decision to resign and could not see his way clear to withdraw. The resignation is to take effect at the pleasure of the church. This came as a complete surprise to the church. Some six or seven weeks ago Mr. Whitehouse announced his resignation but at the earnest request of the church and the Christian Brotherhood, the men's organization of which he was leader, he decided to reconsider it and the congregation believed the matter was closed and the resignation withdrawn.

William LeBlanc came before Magistrate Kay this morning in the first Scott Act case before the local court in many weeks and was dismissed. There was no evidence for the prosecution, a witness who had been subpoenaed having left town.

The Stratton Babbitt Co. which has established a factory here may move the plant to Dorchester, Shiretown of the county, which is reeling out after industries of all kinds. At a meeting of directors it was reported that a very tempting offer had been received from Dorchester and it is not unlikely that the concern may move to that place.

CHICAGO MANUFACTURERS DEMAND RECIPROCITY

Convention Passed a Resolution Favoring Revision of the Tariff.

CHICAGO, Oct. 11.—A revision of the general tariff laws of the United States and better reciprocity with foreign countries, especially England and Canada, was demanded in a resolution adopted by the National Association of Agricultural Implements and Vehicle Manufacturers at the closing session here today of its 12th annual convention.

A banquet tonight completed the work of the convention. Today's session was devoted to a general discussion of the timber industry of the United States in which it was pointed out that Canada has about the only product available for many of the members of the organization. The matter was finally disposed of by the adoption of the resolution.

Jamestown, Va., was selected as the meeting place of the 1907 convention and H. F. Niles, of Racine, was elected president.

But Gave Himself Up, Preferring Comfort to Freedom.

MIDDLETOWN, Conn., Oct. 11.—W. H. Tucker, the Hartford murderer, who escaped yesterday from the asylum for the insane at Middletown and who today surrendered himself in New York City, was brought back here tonight, arriving shortly before midnight.

He was accompanied by Dr. A. S. Thomas, of the hospital staff, and was shackled to one of the asylum attendants. Tucker tonight told practically the same story as earlier in the day to the New York authorities. He said he had escaped through the aid of keys which he had fashioned out of sawy metal. He walked to New Haven and there boarded a freight train, riding in a box car to New York. He said he was cold and hungry when he reached New York and gave himself up because he preferred warmth and food to liberty.

PRETTY FURNITURE DISPLAY.

An early visit to the establishment of Amland Bros., Ltd., will amply repay those who are about to purchase furniture, as they have a beautiful assortment of stylish furniture on their floors which is the best display they ever made. Just now they are showing a handsome line of sideboards, buffets, china closets, dining chairs, etc., and they will add heavily to your dining room for Thanksgiving day.

TWEED HATS!

As each Fall comes around these hats become more popular, and it is little wonder—they are so handy, comfortable, durable and inexpensive.

This Fall we are showing them in two dressy patterns, one dark, the other a medium color, in a good medium shape, suitable to most any man.

They are English made, and stand knocking about.

GREAT DAMAGE DONE TO CROPS BY EARLY FROST

WASHINGTON, Oct. 11.—A cold wave swept over the east and south today and broke all records for this season in many sections, but tonight the weather bureau announced that while the temperature would rise "only slightly" tomorrow, there will be warmer weather Saturday and by Sunday seasonal temperature will again prevail east and south. In many sections the severe cold snap was accompanied by snowfall and a storm of snow and sleet that raged in upper New York state particularly caused great damage, wrecked telephone and telegraph lines and interfered with other traffic. In some places it is already getting warmer. Down along the Blue Ridge mountains in the Virginias was the coldest part of the country, and at Mount Weather, the government observing station in the mountains, 60 miles southwest from here, the mercury was down to freezing, while four below freezing was scored at Elkton, W. Va. North of Lake Superior was another cold section and White River, where it is reported the thermometer registered 23 degrees below.

BUFFALO, N. Y., Oct. 11. The storm of snow and sleet which swept over this part of the country last night and today was the worst in many years. Telegraph, telephone and trolley lines were prostrated in all directions. The storm covered a wide area, including Ontario, western New York and northern Pennsylvania. The damage to the rich fruit belts of Chautauque, Niagara and New Orleans counties is incalculable. Whole orchards of peach trees and other small fruits were crushed to the ground by the wet, clinging snow, which fell heavily for many hours. Tonight the weather is clear and cold and the lines of communication are being slowly re-established.

Buffalo bore the brunt of the storm. The damage in this city alone is not far from a quarter of a million dollars, and two deaths occurred which were directly due to the effects of the storm.

All night the telephone and electric light systems were paralyzed. The streets were littered with broken wires. The street cars stopped running at times. The shade trees which line the streets were ruined by the thousands. The Delaware Park, considered one of the handsomest street parks in the country, has suffered damage that twenty years will not repair. From midnight until morning, with practically no wind stirring, the snow continued to fall heavily and steadily and the cracking limbs and falling branches sounded like a bombardment of musketry.

Reports from all sections of New York tell the same story of destruction. In Chautauque county, along the shore of Lake Erie, snow covers the ground to the depth of several inches. Trains were blocked for hours, the snow bending down the branches of overhanging trees upon the trolley and feed wires. All telephone and telegraph lines are in an inextricable tangle. Miles of poles are down. It will take several days to re-establish anything like normal conditions.

Communication with Canada is still cut off. Reports received from there by mail today stated that the snow storm was accompanied by a high wind in some sections of the province. In Guelph it reached the proportions of a tornado which cut a swath one hundred feet wide through the town, unroofing houses and leveling some buildings. No lives were lost so far as is known.

ST. CATHERINES, Ont., Oct. 12.—It is estimated that over a million dollars' damage has been sustained in the Niagara district by the heavy rain, snow and sleet storm of the past few days. Shade trees suffered in every locality, large branches being blown to the ground.

Advertising in its fundamental and etymological significance, means a turning toward; hence, an advertisement is that which turns the attention of the people towards the matter which it represents.—Successful Advertising, London.

On Thanksgiving Night at St. Andrew's Rollaway the first roller sports held here in twenty years will take place. As will be seen by the advertisement in this evening's paper there are twelve events. Some of them such as barrel race, potato race, tug of war, wheelbarrow race and nail keg rolling race are entirely new to this city, and will prove to be big surprises. Entries will be received at the rink box office up to 1 o'clock Tuesday night, Oct. 16. Arrangements can be made for practice hours, and the use of skates by applying to the rink manager. Valuable prizes will be given for the various events, and they will be placed on exhibition in a prominent store window on Monday.

NO SETTLEMENT YET WITH THE WEST SIDE FIRMS

Civic Sub-Committee Blocked by High Prices for a Slice of Union Street.

The sub-committee appointed by the board of works to endeavor to make an arrangement with the Gordon Land Works and Sneath and Quinlan & Co. for the purchasing by the city of a strip of land off Union street have so far been unable to come to an agreement. The lessees of the lot of land that is required have asked a very high price for their property, and the sub-committee feel that the price is too heavy for the city to pay.

Only a few weeks remain before the winter port business begins, and if the ground can not be secured soon a serious drawback to business at Sand Point will result. The sub-committee will make a report at the meeting of the board of works next Monday.

The C. P. R. has surrendered a strip of ground, 200 feet long, on the southern side of the salmon pond, and work will be started soon in driving the piles preparatory to laying the tracks for the trains to pass over.

TESTING THE WATER MAINS

The testing of No. 3 water main will not be resumed until 10.30 tomorrow morning. Superintendent Murielch does not anticipate any further delays. The required pressure will probably be reached tomorrow. It is thought that No. 3 main will not break in the city limits. The breaks have all occurred near the one place, and if the pressure can be carried into the city it is probable that no more trouble will result. As soon as No. 3 main has been tested work will be completed on No. 2 low service main.

The residents of Carleton were without water yesterday. Some connections were necessary to shut off the supply for a time.

HE WANTS TO GO TO HIS HOME IN MONCTON

Three Drunks and a Gull-Hunter Before the Magistrate Today.

There were three drunks on the police court bench this morning. John McTavish pleaded guilty to being drunk on Westmorland road and was fined \$4 or 10 days jail. James Harrington, who was arrested on Forrest street, north end, was in a very shaky condition. He said he had been out of jail only about four weeks. The magistrate remarked that Harrington was becoming a wreck from drink and that he was the last that could be sent to jail for six months without a fine. He was in a bad state and was only killing himself. Harrington was remanded until inquiries can be made, and if nothing satisfactory is learned the prisoner will be sent as the first of the fall batch to do six months' work in the chain gang.

The third drunk was Richard Cloney. With tears in his eyes he pleaded guilty to being loaded in the I. C. R. depot. He said he had been employed in the cotton mill, earning seven and eight dollars a week. His wife and five children lived near Moncton and he sent them out of his wages three or four dollars a week to live on. "It was one way home, your honor, and have just enough money to take me there. Give me a chance and I'll go home right away," said Cloney. The magistrate informed the prisoner he should have thought about his family when he was spending money in rum. Cloney was remanded to jail, but may be given a chance to go home after he gets clear of his jag.

Wm. Beatty answered to Policeman Henry's charge of shooting sea gulls from the deck of the steamer May Queen at Indantown. Beatty said he was trying to get one of the birds to have it mounted, and did not know there was any harm. It was pointed out to him that there was a fine of \$5 for any person who killed a pheasant, sparrow, swallow or sea gull. He was threatened with the penalty and allowed to go with a warning.

BROKEN SPUD REPLACED, DREDGE IS AGAIN AT WORK

The dredge Beaver resumed work shortly after one o'clock this afternoon. An accident to one of the spuds occurred yesterday and a new one was installed this morning. The old spud was in bad condition for some time and it was expected to break at any time. Mr. Mayes did not wish to stop work at Indantown, and it was absolutely necessary and yesterday's accident occasioned a short delay. The broken spud weighed 26 tons, and was valued at \$1,350. It is expected that more boulders will be removed today and as there are only three or four left the work will likely be finished by the first of next week.

THE FIRST WASH DAY SINCE WATER BECAME PLENTIFUL

One of the biggest and best natured washes that ever flouted in a salty St. John breeze commenced a merry can-can early this morning. It was the first appearance of a general wash-day since the waterworks tinkers started fooling with the invaluable supply, and needless to say pulleys, lines groaned under the most unusual burden. Every member of the household was represented in the laundering—pa, ma, and the children—and everything from blankets to handkerchiefs came in for a soap-and-water renovating. Back yards and roofs as far as the eye could grasp were variegated with drying apparel, brilliant patch here and there suggesting that rheumatic grandfather had at last ordered his red flannel shirt to be put in commission, while legs and arms akimbo in the breeze told tall tales of approaching wooten weather. And so it was in every district from break of day, but pity help the waterworks bosses if they continue their fast-and-loose manoeuvres, the housewives will mob them.

INSPECTORS LEAVE FOR THE STATES THIS EVENING

Capt. Wright, the dredge inspector, is in the city and will leave this evening for Boston where he will look over the Bothfield. Capt. Wright will also inspect a dredge at Providence, Mass., which may be purchased by the city. Alderman McDermick telegraphed to Hon. Mr. Broderick, minister of marine and fisheries, last night, asking that Charles Dalton, inspector of boilers, be permitted to accompany Capt. Wright on his trip of inspection. A reply was received which stated that Mr. Dalton could go. The city must pay the expenses both. The trip will cost the city at least \$300.

KNIGHTS OF COLUMBUS AT CHARLOTTETOWN

CHARLOTTETOWN, P. E. I., Oct. 12.—This is Knights of Columbus week in Charlottetown. Wednesday fifteen candidates were initiated in the first degree, and the second and third degrees, in the former case by P. G. K. J. G. Gallagher, and in the latter by State Deputy Master, of St. John.

FERRY MEETING WAS NOT HELD

The ferry committee was to have met this morning but as Recorder Skinner was unavoidably absent, the meeting was postponed. Recorder Skinner will place before the committee a number of recommendations resulting from the recent case brought against the ferry by James Collins, whose wife received fatal injuries on the ferry last winter.

Winter Overcoats Ready-to-Wear.

Every few days for weeks past new lots of Winter Overcoats have been coming in. We have now a great many overcoats and a great variety of patterns.

It is easy for you to select here. Each size is kept by itself in one or more wardrobes, so that you can examine 30 or 40 different qualities and patterns in a few minutes. The prices run from \$10 to \$25. At \$10 we are showing the greatest variety and best values we ever offered. \$10, \$15 and \$18 Overcoats are great leaders.

Sales so far indicate that colored effects will be most in demand. The styles are loose-black, semi-shaped, form-fitting or French-back, and paddock—the first two most popular.
