MACEDONIAN SITUATION.

Waiting for an Opportunity for an Insurrection. Turkey is Quite Ready To Cope With it as she has Advantage in Men and Arms.

LONDON, Aug. 7.—The London papers print mail letters descriptive of the Macedonian situation dated the latter part of July, which indicate that the committee was vigorously preparing for an uprising with the aid of the harvest. The members of the committee, according to these advices, have been vainly hoping for an outbreak of war between Bulgaria and Turkey, or some other sensational occurrence, such as a massacre of the Christians to give them an opening, but nothing has happened, and although the situation is critical it is just possible that the committee may still postpone the date of the outbreak.

GOODSPEED USES AN IRON BAR ON HIS GUARD.

He Assaulted Charles Marr Last Night But Was Prevented From Escaping and Was Tied Up.

That poor little suffering martyr, Fred Goodspeed, the mention of whose name brings tears to the eyes of many, has, for the second time since his confinement in the reformatory, shown what a lovable disposition he possesses. And this second exhibition has almost resulted in another murder.

ment, 'is today justified in the stand he had taken and feels that the public generally will more fully endorse his conduct.

It appears that since Goodspeed's trial he has grown so rapidly that those who saw him as a rather small and weak boy in the court room would be surprised at the change in his appearance. He is now a big, strapping fellow with lots of muscle and vigor.

Since the time he attempted to escape from the reformatory he has been confined in a cell by himself and has not been allowed to mingle with the other boys.

This cell is on the second floor of the building and in it Goodspeed has been enjoying all possible comfort. He has frequently given evidence of being the possessor of a very bad temper, but there has not been any trouble to speak of. On the contrary, he has been most friendly with the officials at the reformatory.

Mr. Marr in speaking to the Star today said: 'Goodspeed is a big, stout boy, and pretty strong, too, but I could handle him easily. He is, moreover, a bad boy, and I don't think he should be in the reformatory. The penitentiary would be a more suitable place for him. We always keep him away from the other boys and thus have little trouble with him, and this is a good plan, for it would never do to let him mix with the rest. He is not in their class at all. We have always been good to him, giving him books, etc., and never expected that he would act as he did last night. I believe a straighter blow would have put me out of business for keeps and that he would have taken my keys and escaped.'

MOROCCO SCRAP.

MADRID, Aug. 7.—According to a despatch to the Impacal from Melilla, Morocco, a fight has taken place between French and Moorish troops near the village of Beni-Fatt. The Moors, who are pursuing a body of Kabyle insurgents, entered French territory in spite of the protests of the French frontier post, and a conflict ensued.

AN AWFUL ACCIDENT.

Wallace Bros. Circus Trains Wrecked on Grand Trunk. The Shrieks of Men and Bellowing of Animals Heard Above the Roar of the Steam.

DURAND, Mich., Aug. 7.—Wallace Bros. circus trains were wrecked here. Nineteen dead already, about 30 more injured. Trainmaster J. McCarthy, of Grand Trunk among dead.

GRAND RAPIDS, Mich., Aug. 7.—A special from Owerse to the Free Press says that Wallace's circus train was wrecked at Durand, on the G. T. railroad, this morning by the second section running into the first. Eighteen persons are reported killed and twenty injured, some fatally.

DURAND, Mich., Aug. 7.—Wallace Bros. circus trains were wrecked here early today and 18 men, mostly employees of the circus, were killed outright. Twenty more were injured, some fatally.

The engine of the second section and four cars of the first section were completely demolished. Much valuable property was destroyed and the loss to the circus people will probably be very heavy. Some of the victims were railroad people attached to the train. These include Trainmaster J. McCarthy, of the Grand Trunk. Some of the animals were killed. The scene after the collision was appalling. The wreckage was strewn about and piled high. The shrieks of the injured and the bellowing of the frightened animals could be heard above the hiss of escaping steam and the excited shouts of the rescuers. It was some hours before the injured were rescued from the wrecked cars. Some of them were in terrible agony, and it is thought that seven more will die. Dead: Jas. McCarthy, trainmaster, G. T. road, between Port Huron and Battle Creek; A. W. Large, special officer, G. T. Battle Creek; John Purcell, Peru, Ind.; Boss Canvasser, Life Larson, Cambridge, O.; six horse team driver G. Thomas, residence unknown, member of stake and chain gang; Harvey St. Clair, residence unknown; John Leary, Springfield, Ill., boss of ring stock; Andrew Howland, New York state, canvasser man; Frank Thorp, Dundee, Mich., trainmaster of circus train; Robert Rice, residence unknown, harness maker; George Smith, residence unknown, blacksmith; Charles Sarda, Peru, Ind., driver; Joe Wilson, Pittsburg; J. W. McCoy, Columbus, O., canvasser man with side show; unknown man, driver of hand wagon, home sold to be Indianapolis, rider in circus; unknown man, home said to be Louisville, four horse driver; unknown man, four horse driver. Unknown man suffocated to death.

DURAND, Mich., Aug. 7.—A wrecking crew was on the scene in a very few minutes. All the physicians and trained nurses in town were sent for and those in nearby places were rushed to the scene on handcars. The Hotel Richelleu was converted into a temporary hospital and scores of volunteers with stretchers were in readiness. The dead, many of them so terribly mangled that identification seemed impossible, were laid on the grass. By six o'clock a corps of 12 physicians were at work. Four of the injured died at the hospital before 8.30 o'clock. When the wrecking crews had finished, seventeen dead men were lying on the grass awaiting removal to the morgue.

The circus performers were in the rear of the train and escaped injury. Wallace Bros. say that their loss will be heavy, but have given no estimate of it as yet. This is the second wreck that the Wallace shows have suffered within a month.

COMETS AND WOMEN.

The analogy between comets and women once found the subject of the following peroration from an evening contemporary: "Comets doubtless answer the same wise and good purpose in the creation; so do women. Comets are incomprehensible, beautiful and eccentric; so are women. Comets shine with peculiar splendor, but at night are most brilliant; so are women. Comets are enveloped with a lucid nebula, through which their forms are visible; so are those of women in their light and elegant attire. Comets confound the most learned when they attempt to ascertain their nature; so do women. Comets equally excite the admiration of the philosopher and of the child of the valleys; so do women. Comets and women are therefore closely analogous, but the nature of each being inscrutable, all that remains for us to do is to view with admiration the one and to love the other to adoration."—Golden Penny.

ST. JOHN STAR.

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY (LTD.), at St. John, New Brunswick, every afternoon (except Sunday) at \$2.00 a year.

ST. JOHN, N. B., AUGUST 7, 1903.

THE INCOME OF ST. JOHN LAWYERS.

St. John has more lawyers than doctors. Judging by the assessment list, several lawyers earn more than any doctors, but perhaps the average income from the law is not greater than that from medicine. At the head of the St. John legal fraternity in earning power stands the attorney-general. He is taxed on an income of \$6,000. As this appears to be rather less than Dr. Pugsley usually receives for public service, his snug private practice appears to have been overlooked in the rush. As it is, however, Dr. Pugsley is assessed on the largest personal earnings of any person in St. John, with the exception of the manager of the Bank of New Brunswick, and two members of a leading commercial house. There is a drop of \$2,000 to the next largest income earned by a St. John lawyer. Recorder Skinner is down for \$4,000. It will perhaps be a surprise to the uninitiated to learn that these two are the only lawyers whose income exceeds \$3,000. The \$3,000 men are few. Leaving out those who do not practice law, but give their attention to insurance, we find only two, A. H. Hanington, K. C., and L. A. Currey, K. C. Five are assessed on incomes of \$2,500. In this list the solicitor-general is included. One is assessed on \$2,200 and four on \$2,000. The larger number of lawyers in active practice are assessed of incomes between \$1,000 and \$2,000. Favorite figures are \$1,200 and \$1,500. In the case of some of those assessed on small incomes the bills of costs must be quite reasonable, and they have a surprising gift for making a moderate income go a long way in keeping up their establishments and accumulating property.

HOLD HIS OWN.

LONDON, Aug. 6.—The agreement of the International Mercantile Marine Company with the British admiralty and the board is published in a parliamentary paper tonight. It provides that the British companies included in the combine shall remain on a footing of equality with other British companies in respect to any military, naval or postal services that the British may require from the British mercantile marine. The vessels shall still be subject to fire or purchase by the admiralty on the same terms as existed prior to the combination. The British companies included in the combine shall continue to be British companies, qualified to own British ships, and at least a majority of their directors shall be British subjects. Nothing shall be done to jeopardise the existing British register or the right of a vessel to fly the British flag. The agreement shall continue for twenty years, dating from Sept. 22, 1902, and shall be terminable thereafter at five years' notice on either side. The International Mercantile Marine Company agrees that the chairman of its British committee shall accept service on behalf of the American company in any process or other document arising in connection with the agreement. The Lord High Chancellor is appointed referee in any dispute arising out of agreement. His decision in law and fact shall be final.

HOSPITAL FOR THE INSANE.

Possibly the premier and attorney-general, or the solicitor-general and Mr. Sweeney may learn a good deal about the care of the insane by visiting institutions in the New England States and the upper provinces. But there is more hope from the appointment of a superintendent who knows his business. Provincial ministers cannot learn in a short but expensive tour how to administer the affairs of a hospital for the insane, and an ordinary physician does not suddenly acquire such special knowledge by virtue of an appointment from the local government. There is no miraculous communication of grace in the signature of the Lieutenant-governor to qualify a man for the most difficult department of medical practice. A government has no more right to lay hands suddenly on a general physician and say to him "Now you are an alienist and may take charge of the hospital for the insane," than it has to make him a dentist or an oculist without preparation. Three or four years ago, when it was apparent that a change in management at Fairville would have to be made before long, some physician otherwise well qualified might have been selected and given a provincial appointment on the condition that he would go abroad and take a thorough course of instruction. As that was not done it is now necessary for the government to bring in from abroad some well trained and experienced man. When he is found he will probably know what ought to be done to bring the New Brunswick institution in line with modern methods.

PARLIAMENT.

OTTAWA, Aug. 6.—A variety of motions received the attention of the commons today. Demer's act respecting the jurisdiction of the exchequer court as to railway debts was made a government measure. The cost of entertaining the international congress of geology to meet in Canada in 1906, will be defrayed by the government. A resolution was before the house to fix the salaries of the railway commissioners at \$10,000 each, the chairman and \$8,000 for the other commissioners, and \$4,000 for the secretary. The railway commission bill was taken up and a clause was adopted by which railway contractors will be compelled to pay current wages to men employed on subsidized roads; and further provision was made to compel railways to provide safety appliances on freight cars built for use in Canada. Mr. Hackett gave notice of amendments to the Grand Trunk Pacific bill. Laurier gave notice of a bill to amend the mounted police act. Mr. Fielding gave notice of a motion for larger appropriations for the intercolonial railway.

THE WESTFIELD SUICIDE.

The body of a man discovered hanging on a tree on the line of the C. P. R. below Westfield yesterday has been identified as that of a tramp who was seen recently by several people wandering through the country. The body was discovered by Charles Hayter, a farmer of Ingleside, who immediately notified Coroner Ballentine of Westfield. An inquest was held over the body last night resulting in a finding of a verdict of suicide. The unfortunate tramp was seen on Wednesday by Fred A. Hamm and others, and when warned to keep the road he replied, "I'm a foolish fellow," and passed on.

DEATHS.

BILLY—Died suddenly at Red Head, Aug. 5th, John Selva, of Charlton, aged 35 years, leaving a wife and son to mourn their loss. Buried from his late residence, 86 Middle street, St. John West, Aug. 5th, at 2.30 p. m. Friends and acquaintances are respectfully invited to attend.

LOCAL NEWS.

Barnhill Bros. yesterday made an assignment to F. A. Peters, of C. H. Peters' Sons, at the unanimous request of their creditors. Chapman & Tilley, solicitors.

The local government heard yesterday Messrs. Hanington and McAvity of the Cushing pulp mill with respect to their application for the purchase and lease of a portion of the asylum leave so near the water front just above the bridges. The government will consider the application.

The death is announced of Edward Bourke at his home in this city after a short illness. Mr. Bourke carried on a wholesale liquor business on Dock street for a number of years. He left three brothers, Thos. L. Bourke, Robt. C. Bourke and John Bourke, and one sister. Mr. Bourke was well thought of by all who knew him.

W. E. McLaughlin of the Waterous Engine Works, Brantford, is in town for the purpose of making an examination of the steam fire engine located in No. 2 fire station, which these people sold to the city some years ago. It is claimed that some of the boiler tubes have given out, and this expert is here to ascertain the condition of the machine and to make the necessary repairs.

A. A. McCluskey has severed his connection with Balrd & Peters and the D. F. Perrin Co., and will henceforth represent the J. Bruce Payne Co., Ltd., of Granby, in the maritime provinces, with headquarters at St. John. Miss Lily Myers, formerly of this city but recently of Cape Breton, left for her home last night after spending a few days in St. John as the guest of Mr. and Mrs. Romannuff. She was met by a large crowd of the members of the Zion Social Club of this city and given a hearty send off. Miss Myers expressed her regret on having to leave so soon, but wished the members of the club the utmost success in their undertaking. She is a charter member of the organization. Mrs. Romannuff accompanied her.

BOARD OF WORKS.

A special meeting of the board of works was held yesterday afternoon to consider matters connected with the building of No. 4 wharf, at Sand Point and the erection thereon of a warehouse.

An order was made to collect \$57.00 wharfage from R. Redford & Co., of Montreal, on the steamer Almora, the company having protested against paying the bill. The Cushing Sulphites shall accept service on behalf of the American company in any process or other document arising in connection with the agreement. The Lord High Chancellor is appointed referee in any dispute arising out of agreement. His decision in law and fact shall be final.

BRITISH EMIGRATION TO CANADA TREBLED.

For Seven Months, Ending July, the Arrivals Were 36,902, Against 12,304 For the Same Period Last Season.

OTTAWA, Aug. 6.—The immigration returns just issued give the arrivals for July as 11,275, an increase of 2,680 over July, 1902.

There were 5,093 British, 2,867 Continental, and 2,315 United States for the month, and 1,170 British, 3,143 Continental, and 2,251 United States, for a total of 6,559 for July, 1902. For the first seven months of both years the arrivals were:

AN IRISHMAN'S REASONING.

In an Irish farming community lived a certain son of the Green Isle who was particularly fond of sausage. He was not always careful to observe Friday by refraining from his favorite form of pork.

One Friday the good father called unexpectedly while Michael was at dinner and found his parishioner enjoying his sausage.

"Michael," said the priest, "you must not indulge in meat on this day."

"Sure, father, it's not meat I'm eating. It's sausage," replied Michael.

"But, Michael, sausage is meat."

"Oh, no, your reverence; sausage is 'not meat.'"

"Well, Michael, I'll say no more, but I am in need of firewood, and you may bring me a load as penance for this."

The next day Michael appeared at the parochial residence and unloaded a big load of sawdust. The priest, on meeting his parishioner, said:

"The next day Michael appeared at the parochial residence and unloaded a big load of sawdust. The priest, on meeting his parishioner, said: 'It was wood I wanted.'"

"Sure, father, it was wood I brought," replied Michael.

"No, it was not; it was sawdust," answered the father, getting angry.

"But, father, if sausage is meat, isn't sawdust wood?"

ASYLUM MATTERS.

The local government had a session in this city yesterday morning as the commissioners of the Provincial Lunatic Asylum. The resignation of Dr. G. A. Hetherington was received and accepted. Mrs. Young, the matron, also sent in her resignation, the same to take effect on Sept. 1st. This was also accepted. The asylum commissioners decided to take no action in the direction of naming a new superintendent to replace Dr. Hetherington. It was

decided to name a committee to visit some of the asylums in Canada where new lines of treatment have been adopted. The committee selected is made up of Premier Tweedie and Attorney General Pugsley. In the event of these gentlemen being unable to make this tour Hons. H. A. McKeown and F. J. McSweeney will undertake this visit. These delegates will look up all matters and upon their representation to the government will be taken to name the superintendent of the institution.

WORMS BEHIND HIS EAR DRUM.

WEBSTER, Aug. 5.—Nearly crazed with pain, William Prince of Quinebaug, Ct., stumbled into Dr. Genevieve's office tonight, and after pointing at one of his ears sank into a chair almost unconscious. The physician put the X-rays on the sufferer's head and discovered five worms wriggling behind the ear drum and crawling toward the nerve of the brain. It took the doctor nearly two hours to extract them, during which time Prince suffered excruciating pain.

HORSESHOERS KICK.

A meeting of the Horseshoers' Union was held last evening in Laborers' hall, but owing to the small attendance it was decided to call a special meeting next week and transact the important business. The men are feeling sore over the wage question, and are of the opinion that they are receiving too little for their services. For instance, they are shoeing as many as eighteen horses a day, and only getting from \$5 to \$11 a week.

At the next meeting, which will be announced later, business of importance will be transacted, and a large attendance is requested.

HOW THE WORLD ASSIMILATES IMPROVEMENTS.

How quickly the world assimilates new improvements which in many instances radically affect the habits of living of a large proportion of the public has been often demonstrated. Electric lights, telephones and trolley cars were all introduced to popular use within the memory of the present generation. Yet, whoever stops to wonder at an electric light, who marvels at the "no pull—no push" street car and who gives the telephone more than a passing thought—save to register a kick at unsatisfactory service. And the bicycle came in, was a nine days' wonder, and then settled into the rut of a commonplace utility. And thoughtless people said the "fad had died out. No, it merely became an everyday necessity. It excites no more comment than electric lights or telephones or trolley cars. Being more personal than any other modern utility, it is less talked about than the public utilities, for the same reason that people do not frequently discuss their shoes, or clothes, or hats. Yet the bicycle is now almost as much a part of the daily life of the public and a personal necessity of thousands as their clothing, or shoes, or hats.

WEIBSTER, Aug. 5.—Nearly crazed with pain, William Prince of Quinebaug, Ct., stumbled into Dr. Genevieve's office tonight, and after pointing at one of his ears sank into a chair almost unconscious. The physician put the X-rays on the sufferer's head and discovered five worms wriggling behind the ear drum and crawling toward the nerve of the brain. It took the doctor nearly two hours to extract them, during which time Prince suffered excruciating pain.

It seems that while tarrying Sunday an insect known as the blow fly flew into Prince's ear. The fly staid in the ear long enough to leave five worms behind. When they got crawling over the nerves Prince nearly went insane because of the pain. The doctor says that if the worms, which were nearly half an inch long, had remained in the ear a few hours longer they would have reached the brain nerve and death would have instantly occurred.

The case is without a precedent in this section, and Dr. Genevieve says he never heard of a similar one.

A meeting of the Horseshoers' Union was held last evening in Laborers' hall, but owing to the small attendance it was decided to call a special meeting next week and transact the important business. The men are feeling sore over the wage question, and are of the opinion that they are receiving too little for their services. For instance, they are shoeing as many as eighteen horses a day, and only getting from \$5 to \$11 a week.

At the next meeting, which will be announced later, business of importance will be transacted, and a large attendance is requested.

decided to name a committee to visit some of the asylums in Canada where new lines of treatment have been adopted. The committee selected is made up of Premier Tweedie and Attorney General Pugsley. In the event of these gentlemen being unable to make this tour Hons. H. A. McKeown and F. J. McSweeney will undertake this visit. These delegates will look up all matters and upon their representation to the government will be taken to name the superintendent of the institution.

BASE BALL.

For three innings last evening on the Shamrock grounds the Y. M. C. A. team, with "Sixty" Donovan in the box, had the best of the Clippers, the score standing 2 to 1 in the Y. M. C. A.'s favor.

At the beginning of inning-four, the Clippers' captain, McEachern, claimed it was too dark to continue. Captain Whely of the Y. M. C. A.'s was seen; he was also of the opinion that it was too dark.

The executive of the St. John Amateur Baseball League met in session last night in the Y. M. C. A. parlors.

Those in attendance were: Dr. Robertson, president; S. S. Wilson, Y. M. C. A. secretary; Peter Carroll, Clippers; George Dunham, Franklins; Thos. Burns, Portlands, and P. J. Hanlon.

It was decided in the interests of the patrons of the game to discontinue from last evening the night games and that in future the game be nine-inning contests.

The first of such events will take place next Saturday afternoon on the Victoria grounds, when the Clippers and Y. M. C. A. teams cross bats at 2 o'clock.

The Franklins and Portlands will commence hostilities as soon as the first game is over.

The Clippers and Y. M. C. A. teams will be for the one admission, and as each team is hard at practice, one playing as good as the other, all evenly matched, the attendance should be large.

The outcome of Saturday's games will be awaited with much interest.

A fast and furious game of ball was played last evening on the Barrack square between the employes of Paterson & Co. and the Vim Tea. As the electric lights were not in running order and the electricians failing to appear, the game was called on account of darkness, with a score, 13 to 11 in favor of the Vim Tea.

A member of the Belyea crew told a Sun reporter last evening that the new boat built for them recently by Elijah Ross was giving perfect satisfaction, and is all in not more than that he expected.

He said that the rumor to the effect that the boat buried badly when rowed at the high rate of speed, was untrue. The men are practicing hard every morning and night, and are doing good work. Of the Old Fort, where the crew are practicing, there are several boats out at the same time, and the contests for first place cause some exciting sport.

BRIDES FOR FOREIGN NOBLES.

A. Vallert Says He Represents French Marquis and German Count.

It may not be explained in detail in the public prints, but there are two splendid opportunities for two young American women of good social position and incidental wealth, or vice versa.

It is not clear which at present, according to A. Vallert, who lives at No. 24 West Twenty-fourth street.

They may become respectively either a countess in the nobility of the German Empire, or a Marquise of France, temporarily residing in Austria.

Mr. Vallert about it and get names and pedigrees. Emperors, he hinted, have ideas about some things, and there are gloomy fortresses, exiles, banishments and such things.

Mr. Vallert, who lives in a pleasant home with his family, said last night that he was a veteran of the German army and was adjutant in an organization of such in this city. He was well acquainted with many noble families abroad, and some of assured social position in this city, and thus he had been selected to bring about the international alliances.

"I must not speak at present," he contented shaking his head mysteriously, "as there would be the greatest trouble. You see, the count belongs to a very old and noble family of Germany. He is young and handsome. He is in the army and has vast estates and princely homes. I could not, no! I could not give to you his name. It would mean disgrace to him, and, who knows, to me?"

"The marquis, he, too, is noble. But neither may I speak of them. His family left France and moved to Austria. He is in the Austrian army. He likewise would be disgraced.

"Both these noble, amiable young men have sought in vain for brides in their country. There is nothing to compare there to the dash, the chic, the beauty of the American girl. They have set their hearts on American brides, and so, being busy at home, I have been commissioned."

"The marquis and the count, both wear Vandyc beards and are young. They are not in uniform. Mr. Vallert explained that if the acceptable young woman appears and chooses the marquis, that young man will obtain a day of absence and come to this country at once. The count may have more trouble, but he will arrive later. Meantime, nothing must be said.

TROUBLE IN RUSSIA.

LONDON, Aug. 7.—The Daily Mail's Nikolai correspondent, under date of August 2, fully confirms the "Times" correspondent's accounts of the strikes in South Russia. The correspondent says that the number of men who are affected and that simultaneously strikes occurred over a vast industrial area.

The strikers, on the whole, have preserved exemplary order, but this, however, has not saved them from severe attacks, directed by Gen. Arsenief, governor of Odessa. Groups of men who assembled last Saturday with the intention of holding a meeting were driven into a solid mass by five hundred Cossacks, backed by two lines of infantry with fixed bayonets. About 2,000 strikers being thus enclosed by a double cordon, the Cossacks rode through them, striking right and left with heavy whips, the fallen men being trampled under the horses' feet.

When the living mass had been thoroughly kneaded to the governor's will, continues, the correspondent, numerous men were arrested as suspected agitators. The infantry then marched off and the strikers scattered in a dozen directions with Cossacks at their heels. It is reported that four hundred strikers were more or less seriously injured and that from six to eight succumbed. The whole affair is a typical piece of administrative savagery. The police and gendarmes at Odessa belonging to one depot were ordered to march to the scene and risk all the terrors of insubordination unless the miserable pittance of eleven to fourteen pence, which they are allowed daily was increased and the hours of labor reduced. Since the loss of his terrors over for Russian policemen.

LONDON, Aug. 7.—The Times this morning prints a despatch from Kiev, Russia, dated August 1st, which says that Gen. Gerasief, governor of the district of Odessa, and the mayor of Odessa, together with a committee of influential citizens have induced the tramway strikers to resume on the disbanding of their pickets. Their demands will be considered and concessions granted.

UP GOES THE PRICE OF BEEF.

Choice Meats Raised Two and a Half Cents a Pound. Several Western Cities.

OMAHA, Neb., Aug. 4.—The price of fresh beef is to be raised throughout the city in the centre of the town. The South Omaha. Already the raise has taken place in several western cities and is expected to reach New York and the east during the present week.

On choice meats two and one-half cents a pound is added, while other classes are raised proportionately. This raise comes in the face of the reduction in the price of cattle and in spite of the heavy run of range cattle, which is expected within two weeks, which always lowers the live stock market still further. Indicating an understanding between the packers, the raise in prices is being made simultaneously by all the packing houses.

SLASHED TO DEATH.

ALLENSTOWN, Pa., Aug. 6.—Eugene Bloch and Katie Falsinger, wife of Robert Falsinger, were found tonight in the latter's apartments with their throats cut. The woman was dead, but the man may recover.

Mrs. Falsinger was horribly slashed. Bloch made a statement to the police that the deed was committed by a stranger this morning while he and Mrs. Falsinger were in bed; that he was wounded while trying to prevent her murder. Mrs. Falsinger was estranged from her husband. Bloch is divorced from his wife.

MOUSSA BEY AGAIN.

LONDON, Aug. 7.—A letter from Yedda dated July 29, reports that the notorious Kurdish chief, Moussa Bey, who was responsible for many of the Armenian outrages has escaped from Medina with several other Kurdish chiefs, and that he has been living in exile, and that all attempts to intercept them have failed. The sultan was so incensed that he ordered the immediate dismissal of the governor of Medina, who has been living in exile, and that all attempts to intercept them have failed. The sultan was so incensed that he ordered the immediate dismissal of the governor of Medina, who has been living in exile, and that all attempts to intercept them have failed.

Moussa Bey figured extensively during the Armenian troubles in 1894-5. He wounded Rev. Mr. Knapp, an American missionary in 1896, and despite the evidence against him was acquitted. The U. S. minister and the American missionaries resented the verdict and to appease them the sultan exiled him to Medina.

HALIFAX WON.

TRURO, N. S., Aug. 6.—The trophy hung up by the Truro Rifle Club was shot up by the Salmon River range, with the result that this time it goes to the Halifax Rifle Club. The following are the names of the competing teams with scores in ranges and totals:

5th Royal Garrison Regiment, 200 yards, 224; 600 yards, 224; total, 448. Halifax Rifle Club, 200 yards, 229; 137; total, 617. Royal Engineers, 200 yards, 242; 600 yards, 224; total, 667.

FAREWELL MEETING.

The farewell meeting of Lieut. Col. Pugmire and Major Stanton took place last night and not on Wednesday night as stated before. The subject for the evening was The Vacant Chair. Before this discourse was delivered a duet was sung by Col. Pugmire and Major Stanton. A large attendance was present, and Col. Pugmire, who is one of the most forcible of S. A. speakers in Canada, held the attention of all throughout his address by his soul-stirring and emotional reminiscences. He has been successful in his revival campaigns here, winning during his six days' service thirty-seven souls.

Col. Pugmire goes from here to Toronto along with Major Stanton, where they will take a week's rest before proceeding on their next campaign. Major Stanton is principal of the Training Home in Toronto. He and Col. Pugmire have been the guests of Rev. Dr. Morton at a veteran Wednesday evening meeting at the Victoria Hotel. The latter is sending about twenty candidates to be trained for officers.

IS SERIOUSLY ILL.

HALIFAX, Aug. 6.—News has been received of the very serious illness of Rev. Dr. Morton, a veteran missionary of the Presbyterian church in Canada, who for 38 years has been laboring in Trinidad. He has started on a voyage to England, but the hope that he will recover is slight. He has been attacked by stomach trouble, complicated with other ailments.

WELSHMEN FOR CANADA.

MONTEAL, Aug. 6.—Llewelyn Thomas of Swansea, Wales, who is here, says that it is altogether possible that there will be extensive immigration to Canada from Wales next spring. Lord Bute and other members of the house of commons are interested in the matter.

BIG ILLUMINATED STAGE PICTURES.

To Charles Mear, much credit is due for opening up a new vein of optical entertainment, which seems destined to win popular favor.

Collaborating with Joseph Byron, the noted artist photographer of New York, Mr. Mear has devised a wide experience and daring enterprise, has devised a course of views obtained from contemporary theatrical successes, which are said to amaze and delight the spectator by their artistic perfection and unusual perspective.

In the space of a single exhibition Mr. Byron's magic camera brings to view every actor and actress of note in some one or more scenes of plays with which they have become popularly identified—the entire setting and the supporting company being reflected with mirror-like accuracy, as to dimensions, action and expression.

As the list includes several hundred subjects, it would seem that nothing of importance has escaped Mr. Byron's telescopic sweep of the theatrical starry firmament—from John Drew to Dan Daly, or from Sarah Bernhardt to May Irwin.

In its vast scope, not less than in its marvelous exactitude does this Byronic revelation challenge admiration. The engagement of the attraction at the Opera House here is for six nights and five matinees, beginning Aug. 10, the matinees to be given daily except Monday.

FIRE IN NEW JERSEY.

POINT PLEASANT, N. J., Aug. 6.—Fire which started in the store of former State Senator J. G. W. Havens today, destroyed several business houses in the centre of the town. The damage is estimated at about \$100,000. Ex-Senator Havens lost a valuable collection of antiquities which he had been collecting for forty years.

TO SUCCEED BLAKE.

TORONTO, Aug. 6.—A Globe special says Sir E. H. Carson has been appointed to succeed Hon. Edward Blake as Canadian counsel on the Behring Sea commission.

ST. ANDREW'S SOCIETY.

Regular Quarterly Meeting Held Last Evening.

The regular quarterly meeting of the St. Andrew's Society met last night and transacted its usual business. Thos. A. Rankine, the president, occupied the chair. An amendment to the constitution was passed, and the office of historian was added to the list, whose duty is to collect notes and records affecting the history of the society and its members. These are to be preserved in a book provided for the purpose, which is to be laid upon the table at each quarterly meeting. The reason for creating this office was that in preparing the history of the society which will be issued in November much difficulty was encountered in collecting material. It is for the purpose of keeping records of the society in future. A Gordon Leavitt was elected historian. The history will contain the records of the St. Andrew's Society of St. John for the past 105 years. It has been written by the late I. Allen Jack and is now in the hands of the printer.

After the adjournment of the society last night there were songs by M. K. Cameron and music on the bagpipes by Homer Cruikshank, piper of the society. Mr. Cruikshank is getting out a very handsome set of pipes from Scotland.

VISITING OLD FRIENDS.

J. J. Anselow, the leading newspaper man of Windsor, N. S., is in the city. Many years ago Mr. Anselow was the chief editor of the Newscaster, N. B. Advocate, and a brilliant reporter of the proceedings of the N. B. legislature. He is now renewing old acquaintances in Fredericton and St. John, and is having a jolly time for a temperance man. Mr. Anselow looks as young and vigorous as he did in the days when he crossed swords with D. G. Smith of the Chatham Advance. Just now his interests are tied up in Windsor, and he swears by the Church of England town. Mr. Anselow is an old hand down to his boots. When the Sun tried to interview him on the political situation, he replied that he was not in the confidence of Laurier, Borden or Blair. He was a newspaper man, pure and simple, and the prosperity of Windsor was his theme. As the town prospered, so did his newspaper.

THE HORSE SHOW.

Dr. Frink, chairman; Col. Markham, E. A. Schofield, F. E. Came, Wm. Greig and Secretary Gleason of the show committee, with Robert Armstrong, proprietor of the Victoria rink, inspected that building yesterday and made arrangements for cutting an entrance for horses through the side of the building and erecting thirty-two boxes inside.

The prize lists are printed, but it was decided at a meeting of the committee to re-arrange the disposal of some of the handsome cups so generously donated by several public spirited gentlemen for competition at the horse show on the 6th and 7th of October. It therefore becomes necessary to print a slip to send out with the lists, which will be in the hands of the public in a day or two.

N. B. RAILWAY CO.

At the annual meeting of the New Brunswick Railway Co., held yesterday afternoon at the company's office, 42 Princess street, the following directors were elected for the ensuing year: H. H. McLean of St. John, Samuel Thorne and John S. Kennedy of New York, D. Willis James and E. R. Burpee of Bangor, Louis Strathmore of Mount Royal, Robert Meighen, John Turnbull and Joseph Hardisty of Montreal, John McMillan. Mr. Meighen was elected president; H. H. McLean, vice-president; W. T. Whitehead, land agent, and Alfred Seelye, secretary.

OVER A CENTURY OLD.

In Sinclair & Linton's store window there is a copper-lustered jug which has survived nearly a decade. It was originally owned by Capt. McIntosh, who bought it in England the year of the Declaration of Independence. He was then captain of a British vessel plying between New York and British ports. Upon his arrival home to New York he was compelled either to take the oath of allegiance or quit the country. He chose the latter alternative, and removed with his family to Liverpool, N. S., taking along with him other household effects the jug in question. It was kept in the family till a few weeks ago, when Mr. Linton bought it. It is now about 125 years old, and is of interest on account of its history and antique design.

A SECOND OFFENCE.

The young woman Elsie Alberta Earle, who was arrested here some days ago charged with having stolen some \$16 from another young woman with whom she boarded in this city, is again in the hands of the police. The woman from whom she made the former steal refused to prosecute and the Earle girl was allowed to go. But she does not seem to have been cured of her stealing capacity by this lesson. The charge against her this time is having stolen \$35 from Miss Maggie McKenzie of the General Public Hospital staff.

LATEST ARTICLE BY TOLSTOI.

He Thinks the Decline of Liberty Everywhere is Inevitable.

LONDON, Aug. 5.—Count Tolstol, says the Paris correspondent of The Times, is contributing to a Paris review an article called "An Appeal to Politicians," which contains a profoundly pessimistic survey of the inevitable progressive decline of liberty under all forms of government.

Count Tolstol says the recognition of the right of conscience to force is a feature of autocratic systems as well as of revolutionary and Socialist ideals. Modern technical improvements have so strengthened modern governments that revolutions by force have become impossible, hence the only effective means of securing true liberty is the adoption of a religious conception of life.

The Russian author seems to regard the Doukhobors as models of the higher morality, and concludes that the sole means of benefitting humanity is for the individual to give an example of good life.

The "Times" correspondent says the article seems stronger in negative criticisms than on the positive side.

THEY CAN'T AGREE.

POTTSVILLE, Pa., Aug. 6.—The conciliation board appointed to adjust the differences between the anthracite miners and the operators today failed to agree on certain grievances and made an appeal to the judges of the third judicial circuit of the U. S. court for the appointment of a seventh man or umpire. The questions in dispute will be referred to this umpire, whose decision will be final and binding on both parties.

DEFECTIVE BLOCK.

The jury empanelled to enquire into the death of Jesse Murphy, which took place at the Cathedral square a few weeks ago, met last evening, and after the remaining witnesses had been examined, succeeded in bringing in their verdict. Very little was added to what had already been brought to light by previous witness. Those examined were Alfred Dodge, Samuel Drury, Dr. Charles Pratt and William Connors. Samuel Drury, sworn, said that he did not think the timber used was fit for the purpose.

William Connors, the second witness called, said that he had had considerable experience as a lineman with the St. John Street Railway, and he would have considered the material used as perfectly safe for a weight of six or seven hundred pounds. He did not think it necessary to have new material for work of that kind.

Dr. Pratt simply stated that he had examined the injured man after he had been taken to the Public Hospital, and in his opinion deceased had died from a fracture of the skull, near the base of the brain. When brought to the hospital, Murphy was bleeding freely and unconscious, with a slight mark over the left eye.

All the witnesses examined during the inquest, with the exception of William Connors, admitted freely that they did not consider the rope used fit for the purpose.

The coroner in addressing the jury said that if the enquiry did nothing else, it would be a warning to all contractors in the city to be very careful in selecting material for hoists, etc. After being out about thirty minutes the jury brought in the following verdict: "We, the jury empanelled to enquire into the cause of the death of Jesse Murphy, find that the same Jesse Murphy came to his death on the 17th day of July, A. D. 1903, in the city of St. John, in the breaking of the strap on the lifting block of the hoisting gear on the Cathedral square, and that proper care was not used in selecting the blocks."

OUR GREAT AUGUST FURNITURE SALE.

Our prime object in holding this sale is to make more friends for our already widely known furniture establishment. In addition to the large number of old patrons—who fully appreciate the importance of the occasion—there will be hundreds of new customers in attendance whose trade is worth making efforts to secure, for we realize the value of the adage that "Once a customer, always a customer." Now this store is better known than a year ago, and the values are lower, notwithstanding the recent advances in furniture, owing to the increased cost of raw materials and labor. We are cutting and slashing prices right and left on beautiful Parlor Suites, Sideboards, Bedroom Suites, etc. Nuf ced

COURAGE REWARDED.

J. P. Cale, Was Today Presented With a Medal.

Awarded by the Royal Humane Society, for Saving Archie Frith's Life.

A rather interesting and somewhat unusual ceremony took place in the mayor's office at City Hall this forenoon when J. P. Cale was presented with the Royal Humane Society's medal for bravery. This medal had been granted some time ago, but Mr. Cale has been out of the city, and was confined to his bed through illness so that the presentation was necessarily postponed.

The ceremony took place at eleven o'clock today, in the presence of quite a large number of people, including members of the S. P. C. A., aldermanic board and quite a few ladies. Hon. J. V. Ellis introduced the proceedings, and thanked Mayor White for the use of the room, spoke briefly on the happy nature of the event and introduced Dr. A. A. Stockton, counsel of the S. P. C. A., who was to make the address.

Dr. Stockton told the story of the act for which the medal had been awarded to Mr. Cale. It happened on June 4, 1901, near Flatlands, on the Restigouche. A young man named Archie Frith, who was employed in log driving fell into the water and being unable to swim was in danger of being drowned. Mr. Cale jumped to his assistance and diving down succeeded in catching the boy as he was going under for the third time. Frith caught Mr. Cale by the throat and a struggle ensued, during which Mr. Cale maintained his grasp and succeeded in holding on until help arrived.

Dr. Stockton paid a high tribute to Mr. Cale's courage, stating that he had taken his life in his hand in going to the rescue of Frith.

In the absence of Mrs. W. W. White, Mrs. Dr. Walker, wife of the vice-president of the S. P. C. A., was requested to pin the medal on Mr. Cale's breast. In doing so, Mrs. Walker expressed her pleasure at being able to participate in such a pleasing ceremony. She thought it a matter of congratulation that acts of bravery such as performed by Mr. Cale should be in this way acknowledged. It was good that the boys and girls in Canada should be taught to respect bravery and hearing of such deeds would tend to make both physical and moral courage take deeper root in the minds of all.

Senator Ellis was grateful for the promptness with which the Royal Humane Society had responded to the request for the medal.

Mr. Cale in rising to respond to the presentation was greeted with hearty applause. He expressed himself as being grateful to the society, both for granting the medal and for paying him the compliment of considering that his act was worthy of such recognition. He wished to thank Mr. Barber and Mr. Archibald of Flatlands for assistance at the time of the event, H. R. Murray, who was with him, Geo. Delaney, who brought the matter to the attention of the officials, and all others in any way connected with the affair. Mr. Cale believed that in the rescue of Frith a stronger power than his own had assisted him and that the same power would be at hand if ever a similar occasion should arise. The awarding of this medal would make him feel more than ever like going to the help of fellow men in danger.

Mayor White said he was only too pleased to be able to grant the use of his office for the ceremony. He regretted the absence of Mrs. White, but felt that Mrs. Walker so ably participated that nothing was lost to the ceremony on this account.

The affair concluded with three hearty cheers for Mr. Cale, who later on received congratulations from those present.

The medal, which is quite large, is of bronze, with blue ribbon and clasp.

GOOD FOR DUGAN.

The Man Who Assisted the Chain Gang Guards is Set Free.

William Dugan, one of the prisoners laboring in the park, who recently assisted the guards in preventing the escape of some of his fellow prisoners, has been rewarded for his fidelity. The following letter from the acting under-secretary of state, Ottawa, is self-explanatory:

"To His Honor Judge Forbes, St. John: Sir—With reference to your recommendation in behalf of Wm. Dugan, I am commanded to inform you that His Excellency the Governor-General has been pleased to order that this prisoner be forthwith discharged from custody. I have the honor to be, Sir, Your obedient servant, HOLSON, Acting Under-Secretary of State."

ST. CROIX DELAYED.

As the steamer St. Croix was coming out of Portland harbor, her propeller broke and she was, as a result, considerably delayed. She was an hour late leaving her wharf at Boston Wednesday morning, not getting away till ten o'clock. The accident at Portland reduced the boat's speed about six knots an hour, and she did not reach here till seven o'clock this morning. She was due here at five o'clock yesterday. The passengers did not know of the accident till yesterday afternoon.

ARRESTED FOR WANDERING.

A young woman who gave her name as Laura Lolesmith, and her age as 17, was arrested last night for wandering on the streets. It is said that she belongs to Sydney, but she would not remain there. In court this morning she said she was married in Sydney to the negro. She was remanded.

ELSIE A. EARLE.

Elsie A. Earle, the young girl who was charged on the morning of stealing \$35 from one of the hospital staff, was today remanded. She admits taking \$30 and says she spent some of the money for clothing. This girl has not the appearance of a criminal. She is well dressed and most respectable looking in every way. Her case is attracting considerable attention, as this is the second time she has been arrested for stealing in the past few days.

With reference to the arrest of the girl Rev. W. O. Raymond says: "This is a particularly sad case. I have known this girl, or child—for she is still little more than a child—for several years and have tried to help her. She is motherless and was for some time in the Little Girls' Home. She there displayed a lamentable disregard for truthfulness and has apparently little moral conception of what dishonesty means. This is not by any means her first dishonest act. There should certainly be an institution where weak minded, and in a way, irresponsible girls should be protected against temptation, and even against themselves. A girls' industrial school is a crying need in the community."

H. R. EMMERSON IN TOWN.

Hon. H. R. Emmerson came down from Ottawa this morning, on his way to Dorchester. Mr. Emmerson thought that there were no prospects of an early election. Mr. Blair, he said, was better informed than anybody else on the railway commission bill, and therefore had undertaken to coach Mr. Fitzpatrick.

5. Dress drill order: Lieut. Col. Rutherford, A. G. A., will be the inspecting officer.

OLD JED PROUTY.

Charles Cowles' production of that good old play, "Old Jed Prouty," drew a large and appreciative audience last night. Curtain calls were frequent. The staging was splendid, and there was not a weak point in the whole show. Charles Cowles made an inimitable Jed Prouty. He is clearly understood in every part of the house, and puts all the necessary originality into his interpretation of old Jed's lovable ways. All the members of the company acquitted themselves creditably.

THE CHALET NAME.

A meeting of the Chalet residents was held last evening to further consider the question of a new name for the place. It was decided to choose the name by ballot at a meeting to be held in the near future. The choice will be from the following: Renforth, Kennebecasis, Damous, Lucerne, Pulton, Hazen, Lipton, Adanac, Millicette and Arleigh. Adanac is found by spelling Canada backwards.

A PECULIAR HABIT.

Edward Addison appeared in court today to answer the charge made by the board of health for not cleaning his premises. During the hearing Mr. Addison made a break for the door and when stopped by Sergt. Hipwell explained that he was subject to fainting spells. He was liable to drop off at any time and had a habit of doing this. He was let out for fresh air.

WHAT HALIFAX SAYS.

The Halifax Echo republishes the Star's account of the methods said to be used in Halifax to keep tourists from visiting St. John. The Echo says: The Star could easily understand that hotel clerks would be anxious to keep guests as long as possible, but it is not a very reputable way to do so by attempting to belittle "A Sister City," to use the Star's phrase. We do not think that the clerk of any reputable Halifax hotel would do so, and feel sure that the citizens would not. Is the Star sure that those "ladies" did not have wars of some kind they were anxious to get a market for—corsets or dress-charts or something? We do not have to belittle St. John or any other Canadian city to draw and keep tourists here—the city speaks for itself.

Does the Echo insinuate that ladies who sell "corsets or dress-charts or something" are more likely to be de-
