Clothing and Tailor, 199 to 207 Union Street

CONVENTION APPROVES PLAN FOR NATIONAL ORGANIZATION

Will Have Jurisdiction Over Many Important Departments Proposal for Union with Christian Church Progressing—The Acadian Forward Movement Completed.

The session of the Maritime Baptist Convention this morning was an important one to the members of the church. At this session the approval of the gathering was given to the scheme of organizing the church throughout the Dominion of Canada into one body for the prosecution of certain branches of the work.

The report of the committee which has been negotiating with the Christian Church for the union of the two bodies was referred back as the members wished the matter of doctrine more fully set forth.

The report showed that considerable progress had been made in the matter. The treasurer of Acadia College submitted his annual report. The most interesting feature of this was the announcement that the second forward movement had been successful.

The session which commenced at 2:30 this afternoon will be taken up with reports. In the evening the subject will be Christian Education and addresses will be given by President W. B. Hutchison, President H. T. DePole and Rev. C. W. Ross.

The Maritime Baptist convention resumed its session at nine o'clock this morning.

ANNUITIES FUND. The committee on amalgamation of annuities reported to the convention.

A consultation was held between representatives of the New Brunswick Association Fund and the Baptist Association in New Brunswick.

It was learned that the funds to be placed on a fair and equitable common basis, care being taken to preserve the interests of those now concerned in the funds.

(4b) That a new constitution and bye laws be adopted for the common annuity fund.

(4c) That the Board of the Common Annuity Fund administer the common relief fund.

(4d) That the rates on annual beneficiary fees be fixed on a graduating scale according to age.

(4e) That the present status of members be preserved with the option of changing to any other arrangement they may desire.

(4f) That the managing board be elected by the Maritime conference.

(4g and 4h) Referred to appointment of a committee to draw up the new constitution and secure the necessary legislation.

The report was adopted and the draft of the proposed constitution as submitted was held over until the next annual session.

UNION WITH DISCIPLES. The report of the committee on union with the Church of the Disciples of Christ was read and its consideration commenced. The committee reported on their consultation with the representatives of the other church and in favor of union, but said they had been unable to find a common name.

When the report was presented for adoption a vigorous discussion arose as to the doctrine of the Christian Church and their admissibility to the Baptist Church. Several members declared that they would oppose the union on these grounds.

HAS SUSPENDED BUSINESS. BUFFALO, N. Y., Aug. 24—A notice is posted at the office of Meadows, Williams & Company in the Fidelity Building to the effect that the company has suspended business. The company has conducted a brokerage business in this city for a number of years.

SQUIRES KNOCKED OUT IN THE 13TH

Again Defeated by Champion Tommy Burns Betting Was Six to One Against the Australian When He Entered the Ring.

SYDNEY, N. S. W., Aug. 24.—Tommy Burns, the champion heavyweight pugilist again defeated "Bill" Squires, the Australian, here today, knocking him out in the thirteenth round of a fast battle which was witnessed by 20,000 persons, among them hundreds of sailors from the American battleships now in the harbor.

The betting was 6 to 1 against Squires when he entered the ring which had been erected at Rushcutters Bay, for the fight, and faced Harry Jones, the referee. He received an ovation from his countrymen on his appearance. Burns followed him into the ring and was received with cheers.

When he removed his outer clothing and appeared in ring costume, he appeared to be heavy and not closely trained. The sun beat down fiercely on the open ring, and Burns winning the toss, chose the northwest corner.

Round 2—Squires rushed the fighting, following a hard left to the body with a right and Burns retorted with two hard blows to Squires' ribs. Squires drew first blood with a hand punch to Burns' nose and had decided by the end of the round.

Round 3—Squires landed on Burns' body frequently and with his right, having the best of the fighting at the call of time, although Squires again drew blood with a hard left to the body.

(Continued on Page Seven.)

CUTTING OF THE GULLINAN DIAMOND

Made into Two Gems to Ornament the Crown and Scepter.

LONDON, Aug. 24.—Sir John de Villiers, the famous Cape Colony Judge, who represented South Africa at the Quebec Tercentenary, was able to give some information as to the cutting of the Gullinan diamond on his arrival at Plymouth on the Oceanic.

This diamond, the largest in the world, is being cut in two by Amsterdam diamond cutters, and the two chief gems will ornament the sceptre and crown of the King. Sir John saw the Gullinan diamond before it was sent to Europe, and it was a moot question what the quality of the huge crystal would be.

Experts can never tell the brilliancy or perfection of a diamond in the rough. He has now heard that the Gullinan diamond is of supreme quality, pure white, and possesses of remarkable brilliancy and lustre.

The cutting will employ three artisans at least nine months. One of the diamonds will weigh 425 carats, and the other will be slightly smaller, but both will be considerably larger than the Koh-i-noor (423 carats).

The cost of cutting will probably be met by the value of the chips which abandoned to the two parent gems.

In conversation, Sir John said that South Africa was suffering severely from the financial disturbances in the United States. The country, as the greatest diamond buyer, has curtailed the demand, and as a result there was a considerable decrease in the working force at Kimberley and the Transvaal mines.

The diamond industry in Capetown averages £2,000,000 a year, and it might be seen how the diamond market affected other industries. The chief revenue of South Africa was sold, but prosperity there depended almost as much on its diamond exports.

NO ACTIVE DEVELOPMENTS. LONDON, Aug. 24.—A despatch to the Times from Tabriz dated August 22, states that there have been no active developments in the situation at that city since the arrival of Ain-Ed-Dowleh, whose original purpose was to attack the revolutionists. He is now encamped three miles outside the town, where his forces show little signs of activity.

HAPPY HALF HOUR. Good music and good pictures are promised patrons of the Happy Half Hour today, Miss Holmes will sing Bohalnik, a very "catching" number of The Storcks, a popular musical comedy. Mr. Buchanan will sing Heilburg, from The Prince of Pilsen, another musical comedy success. Prof. Titus will sing My Dearie, and Harry LaRoy sings We Have No One to Care For Us Now. The pictures which just arrived on the room train, are The Tramp and The Soup comedy, A Fight With Matilda, comedy, The White Man And His Work In South Africa, travel; and A Flower of The Island, dramatic.

SALT LAKE, U. S., Aug. 24.—A. J. Clark rode half mile against the wind last night and finished in 50 2/3 which is a new world record.

STRIKE BREAKER BADLY BEATEN IN WINNIPEG

Had to be Taken to the Hospital—Men Declare There is No Break in Their Ranks—Robbery in Winnipeg—Terrible Death

WINNIPEG, Aug. 24.—The C. P. R. took in to the Angus shops on Saturday about a hundred men and about the same number yesterday. Not all of these are to stay there. Quite a number were sent west this morning, some for the grain country and some to be distributed along the line. A few strikers came in this morning, the company says, but the men say that there is no break in their ranks.

WINNIPEG, Aug. 24.—J. Edwards, a strike breaker, employed in the C. P. R. shops, was attacked and so badly beaten that he had to be taken to the hospital.

WINNIPEG, Aug. 24.—On Saturday evening a man walked into a store of Portage Avenue and held up the lady cashier at the point of a revolver and compelled her to hand over the receipts. He made a clean get away at the store, fully a dozen or more private residences have been entered. In one case the lady of the house was beaten, in another while in the act of telephoning to the police to inform them of the presence of a burglar.

CALGARY, Aug. 24.—So far as can be gathered from reports cattle shipments are quite active, although the season's outlook is not likely to exceed that of last season. Cattle coming off the ranges are in good shape. The season's outlook can be classed as good with fair prices and the stock of the best shape.

MONTREAL, Aug. 24.—The speech of Dr. Peilaider, M. L. A., for Sherbrooke, has aroused the labor men. He urged them to separate from the International Union and to form Canadian Unions. The trades and labor union has appointed a committee to take the matter up.

CHARLOTTETOWN, P. E. I., Aug. 24.—Mrs. Daniel Martin, wife of the postmaster of Monagans, met with a death Saturday. While preparing dinner her clothing caught on fire from the kitchen stove. She was alone in the house at the time, and rushed into the street screaming for help. She was horribly disfigured and died two hours later. She leaves a husband and grown up family.

The Liberals of Summerside completed their ticket for the provincial election by nominating Dr. John Jardine on Saturday as colleague for Hon. J. M. Clark.

The post office at Georgetown had a narrow escape from destruction by fire with applicants. At one office they took on eight between 8 and 9 o'clock and secured 150 before lunch. Many of these men are fresh from the United States apparently and seem to be skilled. The strikers are showing some symptoms of being uneasy. Some of them today were complaining that the committee should do something towards meeting the company. Neither side has as yet made a move and there are some of the men who are getting restless.

OLYMPIC SCULLER. Blackstaffe Decides to Retire From Racing After Successful Career.

LONDON, Aug. 24.—H. T. Blackstaffe, the winner of the Olympic Single-Sculling Championship, received a great ovation at Smithfield Market, when he went back at five in the morning to carry on his business as a salesman. The stall where he is quartered—Messrs. Campbell, Key, and Longley—is decorated with Union Jacks and portraits of the famous sculler being pinned to them. When he walked in everyone wanted to shake his hand, and not one of them would go away till they had seen and handled the simple gold medal and the dainty little miniature oar which constitute the reward of the Olympic victor.

Mr. Blackstaffe, Vesta Rowing Club, winner of a hundred events, has rowed his last race. He is forty years old, and satisfied now to look on. He won the Wingfield Sculls in 1897, and he has won them four times since. He has secured the famous London Cup no fewer than nine times, and he has won a few such prizes as the Championship of the Netherlands in the intervals, when most men would have been resting on their oars.

In Henley week this year he was unfortunate in the race for the Diamond Sculls, being disqualified in his race with A. A. Stuart, whom he beat easily a fortnight later. Since January he had been in strict training, and had not touched a potato, butter, nor pastry. In the six months he reduced his weight from 155 lb. to 135 lb.

LATEST WEATHER REPORT Fine and Warm.

BRIDE OF FOUR WEEKS SEES HUSBAND DROWN. Sad Accident at Solivato in Which Former Montreal Man Lost His Life.

SOLIVATE, R. I., Aug. 24.—In sight of his bride of four weeks, who was powerless to aid him, John Colon was drowned in Spencer's mill pond here yesterday. Mrs. Colon was within twenty feet of her husband when he sank and the only boat in the pond was floating bottom up thirty feet off shore. Colon, who was 24 years old, with a companion, named William Read, went fishing in a leaky skiff, which was capsized when Colon moved forward to get the balling dipper. Read was able to swim to shore, but Colon who could not swim, sank. In the meantime Mrs. Colon had waded waist deep in the water, but was powerless to aid her husband. After he sank from sight she fainted.

Colon was superintendent of Irving Spencer's farm, and had lived here about two years. He formerly lived in Montreal.

BARON SPECK VON STEINBERG IS DEAD. German Ambassador to the United States Passes Away in Germany.

HEIDELBERG, Ger., Aug. 24.—Baron Von Sternberg, the German Ambassador to the United States, died quietly in the hotel Victoria in this city, about midnight last night. The baron, who was Miss Lillian May Langham, of Louisville, Ky., was with her husband at the end. The baron and the baroness came here from Eisenberg at the end of last month to consult with Prof. Vincenz Czernek, a skin specialist, on a malady from which the Ambassador has been suffering for some time. After a prolonged examination of a diseased part on the left side of Baron Von Sternberg's head, Professor Czernek affirmed that the trouble was not a cancer but a lupus and that he could cure it. Both the Ambassador and his wife were immensely cheered at this opinion, which was duly communicated to the foreign office at Berlin. A representative of the foreign office came down here to see the baron and upon his return to Berlin, the favorable news, it is said, was transmitted to Emperor William and forwarded to the German Embassy at Washington. Baron Von Sternberg is described as having felt that his long agony was nearly over although he had suffered many disappointments with regard to his illness. His wife also shared the hope that he would soon recover. It had been arranged that they should go to Berlin in September to be received in audience by Emperor William previous to his return to Washington.

FROST DOES MORE DAMAGE IN WEST. It Found Only a Small Portion of the Fields Unrot, However.

WINNIPEG, Aug. 24.—Frost on Saturday morning caused damage to the wheat fields in some portions of the West, and was severe in a few sections along the main line of the Canadian Northern Railway. The frost covered a large area but, fortunately, found only a small portion of the fields unrot.

The territory south of the main line of the Canadian Pacific Railway is regarded as safe. In the rest of Manitoba and Saskatchewan, the greater part of the wheat is in stock and will not be affected. The loss will be total however for many farmers, and for others the grade of grain will be reduced.

FIRE EXTINGUISHED. CONSTANTINOPLE, Aug. 24.—The fire which broke out in the Stamboul quarter of Constantinople yesterday was extinguished at midnight. The houses in the quarter were mostly built of wood and proved an easy prey for the flames carried by the high wind. It is estimated that more than 2,000 buildings were destroyed.

MANY PILGRIMS CELEBRATE. LOURDES, Aug. 24.—Pilgrims to the number of 7,500 yesterday attended the celebrations attending the fiftieth anniversary of the apparition of the Virgin. A magnificent church has been erected on the spot where the Virgin is said to have appeared to a child in 1838. Thirteen bishops of different nationalities presided at the ceremonies.

KINGSTON MAN DEAD. KINGSTON, Ont., Aug. 24.—Captain Thomas Donnelly died this morning at six o'clock at his home on University Avenue after a prolonged illness.

ST. JOHN STAR is published by THE SUN PRINTING COMPANY, Ltd., at St. John, New Brunswick, every afternoon (except Sunday) at 2.00 a year.

ST. JOHN THEATRE-GOERS.

When the orchestra began to play God Save the King at the conclusion of a performance in the Opera House a few days ago, one person only in an audience which filled the house arose to her feet.

Such is the lesson of the interesting figures as to the mortality in certain occupations in 1907-8 given in a statement by Dr. Tatham continued in a supplement, issued in the week to the 6th annual report of the Registrar General.

A continuous decline in phthisis mortality is recorded. "Even clergymen and farmers, who have experienced an extremely low mortality from this disease in 1890-2 experienced," Dr. Tatham says, "a still lower mortality in the recent period."

The exception are messengers, ink keepers, servants, tanners, lace and hosiery workers, lead workers, and costermongers, among whom the mortality from phthisis has been practically stationary and general shopkeepers, cutlers, ironstone, copper, and tin miners, general laborers, inn servants in industrial districts, innkeepers in agricultural districts and unoccupied males among whom it has considerably increased.

In cases where cancer has become less fatal either the decrease is small in amount, or it occurs in an occupation in which the workers are comparatively few.

A decrease of mortality from influenza as well as from diseases of the circulatory and respiratory systems has been observed in most of the occupations.

As compared with lawyers, Dr. Tatham records, medical men die more readily at every stage of life, whilst, as compared with the clergy, their mortality is enormously in excess.

Diseases of the nervous and circulatory systems contribute the largest share to the mortality of medical men, but, no doubt, to their anxious and arduous occupation.

A sign of the times is given in the particulars relating to commercial travellers. They fall victims to alcoholism in greater proportion than do other occupations and retired males by 28 per cent, whilst their mortality from liver diseases is more than double that of unoccupied and retired males by 28 per cent.

For the first time in these returns the question of the mortality among women workers is dealt with exhaustively; though it is a matter full of difficulty. For instance, the case of a domestic servant, the daughter of a bricklayer, who has returned home permanently invalided, is given. She is then forwarded regarded as unoccupied, and in the event of death, will be registered as a bricklayer's daughter, no mention being made of her previous occupation.

In the case of a married woman this cause would appear to operate even more strongly, the deceased woman being described simply as a wife or widow, but without mention of her own.

It is rather curious that actors, authors, and journalists have no place in these tables, even in the index. Even numerically they must be almost as important as, say, costermongers, wig makers, and chimney sweeps, who are all included.

STATEMENT TELLS HOW TO LIVE LONG

Occupations With the Lowest Rate of Mortality.

Doctors Short-Lived — Journalist Not Considered — A Continuous Decline in Phthisis.

LONDON, Aug. 24.—The occupations making for the longest lives are those of ministers of religion, gardeners, gamekeepers, farmers, or railway engine drivers.

Such is the lesson of the interesting figures as to the mortality in certain occupations in 1907-8 given in a statement by Dr. Tatham continued in a supplement, issued in the week to the 6th annual report of the Registrar General.

A continuous decline in phthisis mortality is recorded. "Even clergymen and farmers, who have experienced an extremely low mortality from this disease in 1890-2 experienced," Dr. Tatham says, "a still lower mortality in the recent period."

The exception are messengers, ink keepers, servants, tanners, lace and hosiery workers, lead workers, and costermongers, among whom the mortality from phthisis has been practically stationary and general shopkeepers, cutlers, ironstone, copper, and tin miners, general laborers, inn servants in industrial districts, innkeepers in agricultural districts and unoccupied males among whom it has considerably increased.

In cases where cancer has become less fatal either the decrease is small in amount, or it occurs in an occupation in which the workers are comparatively few.

A decrease of mortality from influenza as well as from diseases of the circulatory and respiratory systems has been observed in most of the occupations.

As compared with lawyers, Dr. Tatham records, medical men die more readily at every stage of life, whilst, as compared with the clergy, their mortality is enormously in excess.

Diseases of the nervous and circulatory systems contribute the largest share to the mortality of medical men, but, no doubt, to their anxious and arduous occupation.

A sign of the times is given in the particulars relating to commercial travellers. They fall victims to alcoholism in greater proportion than do other occupations and retired males by 28 per cent, whilst their mortality from liver diseases is more than double that of unoccupied and retired males by 28 per cent.

For the first time in these returns the question of the mortality among women workers is dealt with exhaustively; though it is a matter full of difficulty. For instance, the case of a domestic servant, the daughter of a bricklayer, who has returned home permanently invalided, is given. She is then forwarded regarded as unoccupied, and in the event of death, will be registered as a bricklayer's daughter, no mention being made of her previous occupation.

In the case of a married woman this cause would appear to operate even more strongly, the deceased woman being described simply as a wife or widow, but without mention of her own.

It is rather curious that actors, authors, and journalists have no place in these tables, even in the index. Even numerically they must be almost as important as, say, costermongers, wig makers, and chimney sweeps, who are all included.

MANSION ABLAZE, MUCH DAMAGE DONE; MR. WINSTON CHURCHILL ACTS AS FIRE-MAN; K. G.'s PLIGHT THROUGH LOSS

(Lloyd's Weekly News, London.)

The list included a summons against Burley-in-the-Hill, near Oakham, the historic residence of the late Right Hon. G. H. Finch, M.P., formerly "Father of the House," was completely destroyed by fire in the early hours of Thursday.

The mansion was occupied by Capt. Fred E. Guest, a son of Lord Wimborne, and his cousin Mr. Winston Churchill. He had taken it on a long lease and had spent several thousand pounds in making improvements and bringing the interior up to date.

Mr. Churchill took charge of the operations, which he directed with great skill, while Mr. Smith and Capt. F. Guest assisted. They worked in their shirt sleeves. During the operations the captain had a narrow escape, a hot brick striking him on the forehead, and injuring him just over the eye.

The ladies in night attire covered hands and faces with kerchiefs as they fled from the burning building and the whistles of the fire engines kept up their anxious task for hours.

When the dawn came they were still fighting the flames, and it was not until the afternoon that the fire was finally extinguished. The damage is estimated at £50,000.

Practically two-thirds of the famous building have been destroyed, only the eastern wing having been saved.

Burley-on-the-Hill was the mansion in Rutland, standing in an excellent park two miles northeast of Oakham. It could be seen for miles around.

Why he could not appear. The house passed through a long line of owners, and was once in the possession of the Duke of Buckingham, but was demolished by the Parliamentarian army in the Civil War.

Headache and Nervousness. If you are subject to headache and nervousness good advice should be taken at once.

HEADMASTER. REV. W. R. HIBBARD, M. A., Late Senior Master at Trinity College School, Port Hope.

Well known boarding school for boys. Preparation for the Universities, R. M. C., or for business.

Manual Training. New Gymnasium ready for use in September.

Five retired masters for an average attendance of 75 pupils. Situation unexcelled.

The school is managed on what is known as the Home System, i. e., the boarding houses are quite separate from the main school building, and each is in charge of two masters.

Next term begins September 10th. For illustrated catalogue and other information, apply to the Headmaster.

LOWELL DIVINE IN ST. ANDREW'S PULPIT

Rev. Dr. Wallace Preaches to a Large Congregation Last Evening

Rev. C. S. Wallace, D. D., pastor of the First Baptist church of Lowell, Mass., was the preacher in St. Andrew's church last evening. The reverend doctor took for his text Luke 10: 20: "If by the finger of God cast out demons then is the kingdom of God come upon you."

In opening his sermon the speaker said that the old homely question, "what is it good for?" might properly be asked of the old theology, also of the new theology of the Christian religion as well as of socialism. It has been asserted that Christianity though a good thing for the first century and eastern countries, was not adapted for the twentieth century and this country.

Is this charge true? asked Dr. Wallace. If we can apply to our modern life the methods of our evening text, the adaptability and worth of our Christian faith will be proven. Christ pointed to the casting out of demons as a proof that the kingdom had come. This suggests the work and use of the Christian religion and furnishes a text by which the church might prove themselves. It is a worthy thing, bringing comfort and hope to those who are about to die; to console the mourner and to minister to men in pain; but all these are small compared with the casting out of the evil from the heart of man and from the community of men.

Doctor Wallace stated that there is suggested here the methods and means by which the work is done. It is by the finger of God. The force is external and it is divine. The work is not merely to develop or educate. It is to liberate this method and means is Christ Himself. It is historically true that races Christ alone has adequate power. The great moral revolutions which have appeared in connection with the ministry of a Wesley, a Whitfield or a Paton, have been caused by Christ. No ethical system has power to cast out sin. No ethical religion, whatever the beauty of its philosophy, has shown power to cast out sin. It is still true that Christ alone can say, "I by the finger of God cast out demons."

The application of this message must be to the minister and to the church. Let no minister think that he has released his minister; let no church believe that it has fulfilled its ministry until there has been, in respect to individual lives and communities, the positive, undisputed casting out of that evil which opposes the sovereignty of God.

Doctor Wallace was most eloquent in his discourse and was listened to with profound interest by the congregation.

HE SUCCEEDED MAN WHO DIED, NOW DEAD HIMSELF

The ship was flying at a high altitude on the D. A. R. steamer "Princess Rupert" yesterday out of respect to the death of Second Officer McDonald, who died at the general Public Hospital on Friday night. It is strange to relate that only a couple of weeks ago Lars Cargren took suddenly ill and died. He was second officer on the "Princess Rupert," and on his demise the position was awarded to Mr. McDonald, who has only lived a short time in the position. He underwent an operation in the hospital and death resulted.

NEW YORK, Aug. 22.—According to Mr. Kaasha Shiba, one of the managers of the J. Mitsubishi dock yard at Natasaki, Japan, his government is making strenuous efforts to increase their number of auxiliary cruisers.

THE STAR, ST. JOHN, N. B. MONDAY, AUGUST 24, 1903

MRS. RUBBERINO HAS HER DOUBTS

About All the Fine Things Her Friends Tell Her About Vacation Trips.

(N. Y. Sun.) "Well, of all the wild, improbable, blow-by-gone stories ever heard of, these folk coming back from their vacation now do tell the worst," said Mrs. Rubberino to her caller. "Only day before yesterday that crazy faced little man, Mrs. Shuzan, came panting over to tell me—and as if she really expected me to believe it, too!—that she shook hands with the Prince of Wales at the Quebec celebration. Like, wasn't it? But then I believe I did read that the Prince of Wales did have to shake hands with half the royal and nobility so there.

"And so you're just back from Europe, are you, my dear? You returned by one of the twelve day boats, I presume—from Glasgow or some place like that? No? Oh, you came on the Mauretania. Odd I didn't see your name mentioned among the arrivals on the Mauretania.

"I suppose you had a gorgeous time. How long were you gone? A couple of weeks, I presume. No? Really, have you been away more than two months? How perfectly astonishing! The way time does fly!

"I suppose you were on the go every minute of the time following the Cook's course around—How? Oh, you didn't make one of the Cook's tours then? Just you and your husband, eh?

"I don't know how I came to imagine that of course you went with one of those parties of school teachers—something on a Cook's tour. Perhaps I thought that because it seemed as if you had been away such a short time. You know how those personally conducted parties have to gallop around with a guide book always in front of their noses and see things on the jump, and of course—

"Oh, talking about jumping, that giddy Mrs. Cuttadash was here a couple of days ago, and she told me that she saw some of the Olympic games in London, and the way she did brag about having been for a minute in the same enclosure with Mrs. George Keppel, and she thought I was believing every word she said, like the rest that come running over here to tell me a lot of fairy stories about what they did on their vacations.

"Why, she even had the impudence to tell me right to my face that for a little while she was in the royal enclosure at the races at Epsom Salts—Down Down. Yes, she did, positively! I couldn't help for the life of mingling her in the hobby which she put her out had been very rude, but she pretended to take that as a great joke, which is a way she has for turning matters off when she is stung.

"You know that frumpy, frumpy Mrs. Dressindark, don't you? Well, she was here, too, the other day with a long, long story of how she had been spending several months at the Italian lakes, and she had the latest collection of jinky looking earrings and bracelets and things on her, and what do you suppose she told me about the hideous looking stuff? Why, she said—now don't laugh—that she had bought the stuff from the Queen of Italy!

"Here I am telling you not to laugh, but positively I myself had to laugh out loud right in the woman's face, and was so perfectly ridiculous. Then she went on to say that the Queen of Italy had charge of a jewelry booth at a charity fair somewhere on Lake Maggiore, is it? That's what I said—on Lake Maggiore and that that was how she came to buy the hideous assortment of trinkets from the Queen. Of course she made that up as she went along when she saw how I wasn't swallowing her yarn, and she was just as peevish when I broke out laughing!

"Did you get that hat in Paris, darling? Not Well, now to tell the truth, dear, I really didn't think it looked like a Paris hat, but I thought it would please you if I asked you that. All of those folks just getting back from Europe—get all awfully and puffy when they were abroad. Of course I know that you're not like that, dear, but—

"By the way, did you see many Spanish gowns while you were abroad, dear? Don't you think they are the vulgarst things? I wouldn't wear one of the things to a dogfight, and if—

eat and eat and eat and gorge yourself while you're taking the treatment. "The Danish woman was, I heard, a perfect pig for weight herself before she discovered this system of her—indeed, I heard that she weighed 178 pounds. Er—you don't weigh much more than 100, do you, darling? A hundred and sixty-nine? My, what a dreadfully poor guesser I am!

But to get back to Spanish gowns, you've met that—er—well, yes, I will say it, for she is doubtful—you've met that doubtful Mrs. Gibby, that lives right above us here? Well, she got hold of a Paris model of a Spanish gown goodness knows where, and she put it on the other evening and came traipsing down here to show me how she looked in it. That is, she pretended that she wanted to show me, but she timed her appearance so that she knew she'd find my husband at home.

"She galled up and down trying to make out as if she was unconscious of her rickety and outrageous gown she looked, and my husband's eyes almost popping out of his head, the silly creature, and I just must exclaim to—well, I didn't send her spinning when I told her that she looked like something I'd seen on an amateur night—a moving picture show, and of course we don't speak as we pass by now, and if she ever dares to show her face in this apartment again I shall certainly—

"By the way, my dear, I quite forgot, didn't I tell you that you are a second cousin of Mrs. Gibby's. Why in the world didn't you remind me of it before? Well, well, of course I should—'t have mentioned this matter to you if I had remembered your relationship.

"Did your husband enjoy the trip? Poor man, I fear he sadly needed it, for the last time I saw him he looked perfectly dreadful. He was walking among as if he didn't have a particle of ambition in life.

"Did you meet anybody you knew while abroad? Not, of course, that that was likely, for you got about so very little here in the York, Ontario, dear? 'Deed one hardly ever meets you anywhere. It's a shame really, that you and your husband should endeavor to—well, I mean to say that you'd have so much better times if you were to seek to establish yourselves here, wouldn't you understand?

"Because life does become dreadfully dull when one strikes around one's own hearth all the time. That, my dear, is what makes you so fat, too. If you make a genuine effort you will surely will not lack for invitations, and you and your poor, dear husband would be so much more better off for mingling more in social affairs, don't you really think?

"Surely you are not going already? Well, really I am perfectly charmed, dear, to think that you thought enough of me to come right over and tell me about your delightful fortnight abroad—

I mean, about the nice time that you had in Europe this summer. "Did you really go to the lake, to the other side? Oh, dear, no, my husband and I have quite got over our former inclination for European travel. We used to go quite often, you know, but now everybody, or nearly everybody, goes to the lake, and one does meet such terrible Americans in Europe, don't you think?

"Now, my darling, you mustn't fall to come and see me often, and—oh, yes, here is the address of that fat reducing Danish woman—and don't forget what I told you about at least making an effort to be asked out of—er, and—Good-by, dearie, Be sure and come again soon!"

"Well, I guess I put the bee on her, as my husband says! Fat old creature, coming waddling over here to gloat over me about her miserable old European trip! Well, she had a fine time trying to show me, yes, indeed, and her face looked as long as a window when she went out, and I'm glad, glad, glad!"

BRYAN BOUND TO PLACE NEW YORK IN DEMOCRATIC LIST

C. P. R. UNMASKS BATTERIES AND HIRES STRIKE-BREAKERS

WINNIPEG, Aug. 23.—The past week has brought little change in the prairie west regarding the C. P. R. strike situation. Claims on behalf of the company state that skilled men are rapidly replacing the strikers at various shops and divisional points. A large number of strike-breakers have certainly been drafted into this city, but in squads of two or three so as not to challenge any of the strikers. The men claim they are holding their own, and that no strikers have come back to work, and say that the effects of the strike are plain in a number of engines out of commission and that the company will be greatly crippled by lack of power so soon as their operating departments feel the strain of moving the crop.

B. FRANK SMITH THE CHOICE IN GARLETON

Nominated Saturday at a Convention of Conservatives at Woodstock LIBERALS PLEASED

WOODSTOCK, Aug. 22.—The Conservative convention this afternoon was attended by about three hundred, and was fairly enthusiastic. Mayor Balmata, president of the county association, was in the chair. B. Frank Smith, M. P., on motion of Dr. W.

M. Rankin and John Mcintosh, was unanimously tendered the nomination and accepted in a brief speech. There were addresses by Hon. A. E. Fleming, Donald Munroe, M. P., J. Chipman Hartley, Fred. Squires, B. A., and others.

The provincial secretary in discussing the road question said that the chief fault with the old government highway act was not in the law itself, but rather the men who enforced it. While under the new act to come into effect next January, the taxation is to be increased, he hinted that it was the hope and intention of the government to reduce the figures before many years.

Mr. Munroe entered into a lengthy criticism of the federal government and the Liberal party, and the taxation is to be increased, he hinted that it was the hope and intention of the government to reduce the figures before many years.

The Liberals are well satisfied with the choice of Mr. Smith, as it gives them the opportunity to contest a seat in the assembly. Either Dr. Rankin or Mr. Hartley would prove an infinitely stronger federal candidate than Smith is the opinion of the local Liberals.

ANTS BUILT SKYScrapERS. The white ants, or termites, are great builders. A naturalist exploring in Somaliland came across a cone shaped mud and clay hill which they had constructed which was eighteen feet in height, while many others were from ten to fifteen feet high. When one compares the size of these ants with that of men it becomes apparent that these hills are not made by the termites from the termite viewpoint, if there is any. While the average man is five and one-half feet high, the ants are only half an inch high. Therefore a ten foot ant hill is 240 times the size of one of its builders, while such a structure as the Eiffel tower, though rising 984 feet, is only about 139 times the height of the average man.

DISCUSSES SITUATION WITH CHAIRMAN MACK

Bryan Will Speak in State

REPORTS HOPEFUL

Outlook for Democratic Ticket Grows Brighter Each Day

CHICAGO, Aug. 22.—Plans for a determined effort to place New York state in the Democratic column were carefully laid today at a three-hour conference of Mr. Bryan, National Chairman Mack, heads of the various bureaus of the national committee and members of the national committee at national headquarters shortly after Mr. Bryan's arrival here from Des Moines. Mr. Bryan will speak in New York city, Syracuse and Rochester between September 16 and 20, and early in October will again speak in New York city and Buffalo. Reports received by Chairman Mack gave strong hope that the Democrats could carry New York if Mr. Bryan would speak in the principal centres of the state. It further developed at the conference that Mr. Bryan would make a sharp fight in the middle West, while John W. Keane, the vice-presidential candidate, would likely be called upon to make an extended tour of the Pacific states.

YOUNG WOMEN

Young women are often great sufferers from want of proper advice at just the right time. Mrs. Pinkham, at Lynn, Mass., has always issued to young girls a special invitation to write to her about their sickness. She is a mother, and fully understands. In nine chances out of ten your case will be just the same as that of the young lady whose letter follows.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND is what you need to restore health. Miss M. R. Morin, 335 Ontario St., Montreal, writes to Mrs. Pinkham. "I was in very poor health and doctored for months, resting very little benefit. I had lost all ambition, was nervous, and subject to dizzy spells and painful periods each month."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, nervous prostration. Why don't you try it?

COULD SHIP 1,000 TONS OF ORE A DAY. Drummond Mines Ltd. Secure Twenty Years' Lease of Gloucester Property. SPLENDID OUTLOOK. FREDERICTON, Aug. 22.—Among the guests at the Queen today are John J. Drummond of Midland, Ont., a director of the Drummond Mines, Limited, and W. F. C. Parsons, the company's expert mining engineer. They are busy closing up the twenty years' mining lease of five square miles in Gloucester county on which their extensive copper mines are situated.

ANDOVER AND PERTH TO HAVE ELECTRICITY

Residents Decide by Overwhelming Majority to Install Plant

AVERAGE HAY CROP

ANDOVER, Aug. 22.—At a large and enthusiastic meeting of the members of the electric light district of Andover and Perth, held last night, it was decided by an overwhelming majority to install an electric light plant in this district at once and a contract to be entered into with the N. B. and Main Power Company to supply the power—municipal ownership.

The Maine and New Brunswick Electric Power Company saw years ago obtained a charter and commenced operations to develop the power on the Aroostook river, known as the Aroostook Falls, and have now a plant installed capable of producing 2,500 horse power. With future yet undeveloped already supplies light and power to the villages in the Aroostook county, Me., Houlton, Presque Isle, Carleton, Port Fairfield, Easton, all of which they claim do not use but one-eighth of their power.

Aroostook Falls has always been one of the points of interest to visitors to this section, and of pride to the residents, and, classed among the great water powers of America, the installing of this power at a cost of nearly \$200,000 will give and does give it added interest.

Our hay was exceptionally fine and a great quantity of good hay was stored. Now hay is about over. It is an average crop. The harvest is coming forward rapidly. Many fields are already cut, but the long, dry season made a short crop of straw and grain will not be up to the average.

Wet weather the last two weeks will help the late grain and potatoes, which are now looking fine. The late rains have also raised the river some feet, so that logs are running freely this morning.

mines now," said Mr. Drummond, "we can ship 1,000 tons of ore per day now. To do that we would have to employ about 100 men or more." It is understood that just as soon as the railway is completed the shipments of ore will start briskly although arrangements have not as yet been closed for the water shipment. The vast smelters, which will be necessary, will come, of course, in natural course of events as the development of the mine continues.

The Messrs. Drummond are optimistic over the future of the mining industry and are now assured that it is an even better proposition than they thought for when taking hold. That such energetic mining people have control of the property should be gratifying to the people of the province and the development prospects are very lively boom in Gloucester county especially.

BITS OF WIT AND WISDOM. "Was his auto going very fast?" "Your honor, it was going so fast that the bulldoze on the seat beside him looked like a dachshund."—Houston, Texas, Post.

YOUNG WOMEN. Young women are often great sufferers from want of proper advice at just the right time. Mrs. Pinkham, at Lynn, Mass., has always issued to young girls a special invitation to write to her about their sickness. She is a mother, and fully understands. In nine chances out of ten your case will be just the same as that of the young lady whose letter follows.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND is what you need to restore health. Miss M. R. Morin, 335 Ontario St., Montreal, writes to Mrs. Pinkham. "I was in very poor health and doctored for months, resting very little benefit. I had lost all ambition, was nervous, and subject to dizzy spells and painful periods each month."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, nervous prostration. Why don't you try it?

MANY PRESENT AT THE PRIZE DRAWING

Pleasant Affair in Hampton Agricultural Hall Saturday Evening

J. M. SCOVILL PRESIDES

HAMPTON, N. B., Aug. 22.—The drawing for prizes offered at the Masonic fair was held in Agricultural Hall, Hampton Village, last evening and created great interest, the hall being well filled with people, all hopeful not to say expectant of holding the winning numbers. J. M. Scovill presided and R. G. Flewelling and Pearl Fairweather were appointed to manipulate the wheel of fortune. As the tickets for each prize were deposited a lady from the audience was called to the platform to draw one ticket, the first number drawn being the winner. The names of very few holding successful numbers were ascertained. The prizes and winning number were as follows: Carriage rug, No. 67; loud of coal, No. 92; centrepiece, No. 205; 18 lb Red Rose tea, No. 182; set of cameras, No. 81; barrel flour, No. 150; hand painted sofa pillow, No. 108; leather suit case, No. 207; No. 41 sofa pillow, No. 5; plain vase, No. 11; Thermos bottle, No. 95; patent leather shoes, No. 81; embroidered table cover, No. 46; worked toilet set, No. 1. The bean guessing contest, prize a handsome dressed doll, was won by Miss Helen Scovill with 1763, the exact number. About half a dozen others had guessed just above and below the winner. The beans were counted by two ladies chosen from the audience. Holders of tickets bearing the winning numbers can obtain their prizes on proof from J. M. Scovill, secretary of committee.

WINDROEA There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year. In the world's history no medicine has ever met with greater success. PRICE THIRTY-FIVE CENTS.

LARGELY ATTENDED CONVENTION OF UNITED BAPTISTS HELD OVER

Dr. C. C. Jones, of Fredericton, the New President—Temperance Committee Reports a Growing Desire for Prohibition in N. B. and N. S.—Laymen's Missionary Movement Given Much Attention

(Continued from Page 1)

Many members declared in favor of union although it was admitted that there were some difficulties in the way. As one member expressed it, "The time for union may not have arrived but I think it is time for the church to begin."

The report was finally referred back to the church's committee for fuller report on this matter, to be submitted at this evening's session.

DOMINION UNION APPROVED. The report of the committee on Canadian Baptist Union was received and adopted. The adoption of the report was received with applause and the convention arose and sang "Blest be the tie that binds."

THE COMMITTEE RECOMMENDED. That the objects of the union be the conduct of Foreign Missions, such as Home Missions as require a dominion appeal publication and Sunday school work, Temperance, Moral Reform and Christian Stewardship.

That the working out of the details be left to the delegating of the union, especially for the young.

That the delegates assemble at the first meeting of the union in Ottawa in October as near as possible to the meetings of the Ontario and Quebec conventions.

That the delegates assemble as the first time as indicated in the proposed constitution as stated in last year's report.

The upper Canadian bodies have already declared in advance in favor of union and the assets of the Maritime church will probably mean the final success of the measure which is regarded as the most important before the church this year.

AID TO STUDENTS. The report on aid granted to student preachers was read by H. B. Oakes, and adopted.

LEGISLATION. The report of the committee on legislation dealing with charges required by the union of the two branches of church was read and adopted.

ACADIA ACCOUNTS. The report of the treasurer of the Acadia College and kind institutions was presented by Dr. E. M. Kilbourn.

The trust funds showed an increase of last year's balance of \$27,097, by \$18,555 making a total investment of \$102,586.

The college current account showed expenditures for ordinary expenses \$18,423, professor extra services \$250, expenses, second forward movement, \$2,235 and an income of \$12,000, reducing the debt balance by about \$600.

The college residence showed a deficit of \$497 on an expenditure of \$8,832. The Horton Academy spent \$9,839 which was \$1,823 more than the income. The Seminary's income was \$24,358 showing a credit balance of \$531.

Prof. E. M. Kierstead raised the question of the proportionate assets and income of the boys' academy and the girls' seminary. While approving of the largest aid for the seminary he thought the academy should receive better financial support.

President Hutchison explained that there were 200 students in the academy and only a little over a hundred in the seminary. Further people would pay more for tuition for their daughters than for their sons and in this way the income from fees was larger. The academy was also hampered by the terms of Rockefeller's last gift.

The Poyant Fund received \$1,841 and expended \$4,301. An abstract of the college accounts showed a net deficit of \$161.

FORWARD MOVEMENT SUCCESSFUL. For the forward movement \$31,477 was collected during the past year from the churches and \$27,097 was retained from J. D. Rockefeller. This makes the total amount collected to Aug. 7th, 1908, \$104,713.37 as this covers the requirements of Mr. Rockefeller his contribution of \$100,000 was paid over. This information was greeted by the singing of the Doxology which followed by \$58 was spent for campus improvement.

\$42 has been expended for the new science building, which is being assisted by Andrew Carnegie.

The trust funds of the college amount to \$313,980, not including the J. W. Bates Fund of \$19,500, which is managed in Halifax. The other assets of the college including real estate, stocks, bonds, mortgages, bills due, etc., amount to \$477,492.58.

The report was received and adopted as a whole. On motion it was decided to hand over the resolution on provincial prohibition to the committee on resolutions.

The following are extracts from the report of the committee on Foreign Missions of which Rev. W. Camp, M. A. was president, which was delivered on Sunday morning.

The report is very remarkable. There is a growing conviction that the task, instead of being quicker and easier, is quite within the limits of possibility, if there be a prompt and vigorous development of the great and comprehensive missionary in spirit of the churches.

"The Young People's Forward Movement is at present carrying on a campaign of missionary education among the young. Its arena of operation is the Sunday school and Young People's Society, and the educational institutions."

"It aims to assist the various denominational missionary societies in their endeavor to reach and hold those who are to be the men and women of tomorrow, and to produce a generation of devoted people who will be thoroughly missionary in spirit. Inspired by an intelligent loyalty to Jesus in His world-wide plans, this coming generation will carry forward the Master's great enterprise with a zeal and success that their fathers never knew. It is the opinion of your board that too much importance should be attached to the matter of missionary education, especially for the young."

COMMITTEE ON ESTIMATES. Committee on estimates—J. B. Oakes, Wolfville; Rev. J. W. Porter, Wolfville; Rev. E. W. McIntyre, St. John; A. W. Stoenes, St. John; Dr. D. McLeod Vince, Woodstock; Rev. G. W. Lawson, Halifax; Rev. E. J. Grant, Hampton.

Preacher of convention sermon—Rev. J. H. MacDonald, Fredericton; Rev. J. B. Bennett, alternate.

Obituary committee—Rev. R. O. Morse, Westport; Rev. A. W. Currie, Narrows; Rev. Norman McNeil, Sackville; Rev. A. U. Chipman, Sydney; Rev. G. M. Wilson, Argyle, N. S.

Committee on the state of the church—Dr. H. C. Creed, Dr. C. T. Phillips, Rev. A. T. Newcomb, Rev. G. W. Ferguson, Rev. H. G. Colpitts.

Committees on temperance and Moral Reform—Dr. W. C. Kesteven, Rev. H. F. Beale, E. D. King, Rev. G. A. Schurman, C. W. Weyman, Rev. H. G. Kennedy, Rev. Milton Addison, Sundry school committee, Rev. S. W. Cummings, Rev. D. H. Simpson, M. F. Smith, Rev. H. G. Dookerill, W. C. Canaque, Rev. E. Cox, Rev. R. W. Ferguson, A. A. Wilson.

Committee on travelling arrangements—Rev. J. H. MacDonald, Rev. A. A. Rideout, Rev. H. G. Kennedy, Representative of Grand Ligne Mission, Rev. A. B. Cobos.

Representative of Nova Scotia, Rev. J. W. Porter, J. B. Oakes, Finance committee for New Brunswick, the executive of the N. B. association.

Finance committee for Prince Edward Island, A. W. Stoenes, Rev. A. B. Crowell, Rev. A. E. McPhee.

To fill vacancies on the mission board for Nova Scotia and Prince Edward Island—R. K. Ross, Hebron; C. H. Martell, Oble; R. B. Hillon, Yarmouth; E. C. Burton, St. John.

To fill vacancies on the Foreign Mission Board—Rev. D. Hutchison, Rev. W. Camp, Rev. W. E. Goucher, W. C. Canaque, A. A. Wilson.

The retiring president delivered a brief address to the convention, after which the report of the Foreign Mission Board was read.

The report of the committee on temperance, of which Rev. H. C. Newcomb was chairman, was next received. The report is of great interest because it reflects the opinion of a body which is the largest Protestant denomination in New Brunswick on the temperance situation in the Maritime Provinces, but particularly in this province. The members of the committee in the report expressed the belief that the sentiment in favor of prohibition was growing throughout the Maritime Provinces. Concerning the situation the report said: "People kept alive by constant agitation and education have swamped the liquor interests at the polls and thus saved the situation. The Anti-Alcoholic League, promoted by Archbishop Bruchesi, and which has accomplished magnificent results, recently joined forces with the Dominion Temperance Alliance, the Provincial W. C. T. U. and other like organizations, and unitedly they pressed upon the government for an improvement of the license act; a decrease in the number of licenses; and a better enforcement of the law against violations. To emphasize their demands, they presented a petition containing over 100,000 names. In response the government has already brought down a new licensing bill, which in many respects meets with approval, but which has yet to become law."

"At a meeting of the allied liquor interests recently held to these means for turning back the mighty tide of temperance enthusiasm which now threatens to sweep before it, the members of the French papers throughout the province are advocating prohibition. Thank God for the sterling temperance ideals of our French compatriots. More power to their pen."

THE MARITIME PROVINCES. And now we come to our immediate constituency, the Maritime Provinces. In these, during the year a good degree of activity has been manifest, and in such the results on the whole have been encouraging.

In P. E. Island, the pioneer province to apply the axe to the root of the evil, and where today the only provincial

prohibitory law in the Dominion is in force against the liquor traffic, and otherwise, that we would like to have embodied in this report did time permit. We can only do a hasty summary of the following facts: 1. That the C. P. R. for its own protection against the liquor trade has established its bars in its hotels at the stations, thus removing temptation as far as possible from its employees. 2. That as soon as information was laid before the Dominion government regarding the growing opium manufacture and trade in the province of B. C. a bill prohibiting its importation, manufacture and sale, except for medicinal purposes, passed the house of commons without debate; 3. That the consumption of hard liquor in Canada and the revenue resulting from its importation have both appreciably declined during the past year.

ANNUIY BOARD. On Saturday afternoon the convention took the report on ministers' annuity board, with report of committee on amalgamation of boards.

The third session began at 8 p. m. Saturday, Rev. W. V. Higgins, secretary of foreign mission board, presiding. Addressed by Messrs. Beale, Church and Helena Blackadar, Rev. A. K. de Blois, D. D. and Rev. H. P. Lafamme, on the subject of foreign missions were listened to with a great deal of pleasure.

Dr. Austen K. de Blois, pastor of the First Baptist church of Chicago, spoke on "The New Orient." Dr. de Blois spent several months of last year in China, Korea, Japan, Ceylon and India. He was sent out as a special commissioner by a company of Christian business men of Chicago to study modern missionary methods and conditions on mission fields.

In his address he said: "The man who is not deeply interested in the startling changes which are convulsing the Oriental world is inexcusably behind the times. The oldest nations of the world promise to become the great new nations. The next twenty-five years in Oriental nations will be more important in the history of the church than any period since the 'Man of Nazareth' taught on the plains of Galilee. As soldiers, artists, educators, colonizers, merchants, the Japanese are rapidly rising to a place of international leadership. Yet the Japanese, who has a big brain in his small body and who does some independent thinking, is not a Christian American. 'If your gospel is true, as you say it is, and if you believe it is true, as you say you do, and if you want me to believe it is true, as you pretend you do, why do you not lay siege to my soul, as I laid siege to Port Arthur? What is our answer? The whole work of Baptists in the Eastern world is hampered by a crippled and antiquated method because the Baptists of America, the men of wealth, refuse to supply the

China, with her new army, her new navy, her new system of education, her strange new spirit of patriotic fervor, with the millions of riches which shall be brought from the plains and hills of her western provinces, with the lust and passion for war. If the 400,000,000 of new China, awakened and transformed into the spirit of the Christian, will set forth to war, what nation or group of nations could withstand their onslaught? The Chinese are the oldest civilization on the globe, and the oldest and most enduring. At the present rate of progress China will be in half a century one of the greatest of the world's nations."

Dr. de Blois spoke in the highest terms of the modern missionary. "He is not a poor, long-haired, pig-tailed, wild-haired and decrepit. He is alert, virile, a man of affairs, an organizer, a leader. I have known men of keener intellect, men more fully alive to the world issues and world problems than I have known since I met in the Far East. They are superb; and they are doing the biggest work in the world today."

The East is thrilling and thrilling with a new and boundless life. It is now on the march for millions of millions in India, in China. The day and the opportunity are ours. I believe that my whole heart that the Cross of Christ will save the nations!

EDUCATION BOARD. The report of the report of the editor of the Year Book, and the financial statement of the secretary were also heard and adopted.

Sunday's session began with prayer service at 9.30 a. m. At 11 o'clock Rev. J. W. Stoenes, Dr. D. D. Cunningham, delivered the convention sermon to a large congregation. The sermon will be found elsewhere in the paper.

At the Sunday school meeting the annual report of the S. S. Board was presented by Rev. G. A. Lauson, of Halifax. It was followed by addresses on the Educational, Evangelistic and Adult Departments of S. S. work by Messrs. C. D. B. Brudenell, D. H. Simpson, Annapolis, and J. H. MacDonald, Fredericton. This meeting was followed by a meeting for men attended and was one of remarkable enthusiasm and power. N. B. Smith of Halifax occupied the chair. T. S. Simms of St. John was the first speaker who briefly outlined the steps already taken in the movement so far in the province to a high pitch of enthusiasm for the imperial undertaking of evangelizing the world in this generation. Excellent addresses were given by J. W. Spurgeon of Fredericton, H. P. Lafamme of St. John, D. D. Cunningham, delivered the convention sermon to a large congregation. The sermon will be found elsewhere in the paper.

At seven in the evening another large congregation gathered in the auditorium of the German street church of St. John. Rev. W. T. Stackhouse, of Winnipeg, J. N. Sienstone of Toronto, E. M. Sippell and T. S. Simms speak on the Laymen's Missionary Movement. Thos. Truquart, K. C. Mayor of Toronto, had been invited to address this meeting, but was prevented from attending. His attraction is keeping scores of our young men and boys away from the bar-rooms I believe, therefore, that they are doing a great deal of good. This is an aspect that might well be considered before any excessive tax is imposed. R. M. T.

RENO, Nev., Aug. 24.—The railroad town of Hazen, 40 miles east of Reno, was destroyed by fire yesterday. Loss \$225,000. The homeless are taken to Fallon.

we find them in Canada today. There are thousands of people seeking to have that law rendered as effective as possible. The chief difficulties they have to contend with are: 1. That the present officials, and those inimical to the enforcement of the law. Yet notwithstanding these and the being reports of the trade, the success of the measure, our island province wears a diadem whose lustre is undimmed by the baneful shadow of the traffic, and rejoices in a prosperity, beautiful and unshared in by the millions of this notorious evil. In commenting upon the law, the Charlottetown Guardian of June last says: "It stands higher than ever in the estimation of our people. The favorable reports to date have exceeded even the expectation of its promoters in this city, and the hope to have never attained to this high level is today. While in outlying portions of the province the law has not been enforced at its full force, it has done good work and has today at its back the great majority of the people of the province."

In New Brunswick the government has been requested by the N. B. Temperance Federation to pass a prohibitory law similar to that of P. E. Island. This request was submitted to the executive council by the Hon. J. K. Fleming. The report of the executive council had previously determined not to introduce at their first session amendments to the liquor laws, but would carefully consider the representation of the temperance people "when the government are dealing with this question."

non-committal that it would appear that there are strenuous times ahead in temperance reform in B. before a provincial prohibition is secured. At a recent meeting of the Grand Lodge of the I. O. G. T. it was decided to "bring to the attention of the government and to further request the government to submit the question to a plebiscite on the subject of prohibition, and woman suffrage as one of the best means of securing prohibition and otherwise uplifting and purifying the moral tone of the country."

During the year the Scott Act has been more thoroughly enforced, and violations of its provisions have been trenchantly dealt with, than for some time past. In the city of Moncton the Scott Act was enforced so strictly that it is now declared to be practically "dry."

In the city of Fredericton the question of Scott Act enforcement has been the subject of much discussion. The temperance people and the liquor interests to the place where they must again measure strength, with the result that the capital city of the province for 2 years the Scott Act has been in force, it was again sustained by a magnificent inauguration of the Scott Act, a blow which set it down and out, we trust for all time to come.

"I gave up peculiar pleasure to receive from S. S. Simms as one of the first fruits of the Laymen's Movement, and of his visit to India, an offer of \$1,500 for the purchase of a plot of land for a building in the city of Port Charles, Dr. C. G. Wallace of Lowell, Mass. Dr. E. M. Kierstead of Toronto, Dr. C. Goodspeed of Texas and others.

SECOND SESSION BEGAN. At 2.30 in the afternoon the second session began. The receiving of the report of the nominating committee and the election of officers was the first business of the session. The election of officers resulted as follows: President, Dr. C. G. Wallace, Fredericton; Vice-presidents, Rev. H. Saunders, Paradise, N. S.; J. K. Ross, Charlottetown, Secretary, Rev. J. H. MacDonald, Fredericton. Assistant secretaries, Rev. H. G. Kennedy, Sussex; Rev. A. A. Rideout, Fredericton. Treasurer, Donaldson, Hunt, St. John. Editor of Year Book and statistical secretary, H. C. Creed, Littleton, Fredericton. Treasurers of denominational funds, Rev. J. W. Porter, Nova Scotia; Rev. E. W. McIntyre, New Brunswick; Rev. A. W. Stoenes, Prince Edward Island.

At a meeting of the allied liquor interests recently held to these means for turning back the mighty tide of temperance enthusiasm which now threatens to sweep before it, the members of the French papers throughout the province are advocating prohibition. Thank God for the sterling temperance ideals of our French compatriots. More power to their pen."

RUSSIAN FOREIGN MINISTER TALKS WITH KING EDWARD

MARIENBAD, Aug. 24.—M. Iswolsky, the Russian Foreign Minister, came here on Saturday in a motor as the guest of Nelson O'Sullivan, secretary of the United States Embassy at Vienna. He paid his respects to King Edward, with whom he had a short conversation. The King invited M. Iswolsky, it is understood, to make him a more formal visit during his stay at Carlsbad.

A CORRESPONDENT'S VIEW.

To the Editor of the Star: In reference to the proposed tax on pool rooms and moving picture houses, I would suggest that these places, if their attraction is keeping scores of our young men and boys away from the bar-rooms I believe, therefore, that they are doing a great deal of good. This is an aspect that might well be considered before any excessive tax is imposed. R. M. T.

RENO, Nev., Aug. 24.—The railroad town of Hazen, 40 miles east of Reno, was destroyed by fire yesterday. Loss \$225,000. The homeless are taken to Fallon.

SQUIRES KNOCKED OUT IN THE 13TH ROUND

(Continued from page one.)

Round 4—Burns drew blood with terrific swings to the Australian's nose and mouth, and also landed other blows to his head. Squires attacked strongly with swings for Burns' head, both men were now fighting terrifically.

Round 5—Squires got in a terrific left on Burns' jaw and the men clinched. Both men were bleeding when the round ended.

Round 6—Burns got home two heavy blows on Squires' body, the Australian replying with hard swings to the jaw. Both men were bleeding when the round ended.

Round 7—Squires opened the round with a blow to Burns' chin, quickly followed with a second to the same spot. Burns dodged and sidestepped throughout the round, Squires following him up and landing frequently on the champion's face. Burns was distinctly groggy at the going, and the round was strongly in Squires' favor.

Round 8—Squires opened with a terrific straight arm blow from his left, full in Burns' face. Both men were bleeding freely but got in a terrific exchange of blows, Burns landing frequent staggering blows, Burns ending the round with a hard left hook to Squires' jaw.

Round 9—Squires continued on the aggressive, and made the fighting in the early part of the round. Burns, however, landed punishing blows on Squires' chest, followed with left hooks to the jaw and chin.

Round 10—Squires attacked Burns fiercely and punished him severely with two hard blows to the head. Burns was bleeding freely but got in a terrific swing to Squires' head, following it with a vigorous attack on the Australian's body. Both men were mixing it up freely when the going ended the round.

Round 11—The sun had gone under a cloud when the round opened and the men were not only cool but found it no longer necessary to manoeuvre for position where the sun would not bother them. Squires continued his attack and scored effectively with three right uppercuts, following the blow with a staggering left to Burns' nose. Burns was decidedly groggy and staggered in his seat when the going sounded.

Round 12—Squires again determinedly forced the fighting at the beginning of the round, Burns becoming quickly elusive, side stepping and dodging, and as the blow fell harmless, steadied the Australian with two lightning punches. He then attacked vigorously and Squires, his fast work having plainly tired him, was on the defensive during the rest of the round.

Round 13—Burns came up strong and opened the fighting with a terrific right uppercut, following the blow with a chin. The men fell into a clinch, and as they broke Burns planted a half a dozen near freestyle punches on Squires' chin, sending him to the floor. It took the Australian nine seconds to recover and as he rose groggy Burns put him down again with a short uppercut. The referee had counted eight before he was able to rise, and swaying on his feet, he landed a light right on Burns' ribs. The Canadian once again opened and when it came clipped the Australian a right hander on the chin that sent him down and out. The referee counted Squires out and his seconds threw up the sponge.

TERRE HAUTE, Ind., Aug. 23.—With the strike in the bituminous coal field off by the announcement that the Operators' Association had agreed to the demands of the workers of district No. 12, twelve thousand miners were able to return to work today.

WHITE'S COVE, Aug. 21.—At his mother's home, White's Cove, on Aug. 10th, after a short illness, G. Wetmore Gunter, eldest son of the late William Gunter, died of appendicitis. Mr. Gunter, who was a first class school teacher, had followed the profession for over fifteen years. He was a member of the James Baptist Church for many years. He leaves a widowed mother, five sisters and two brothers to mourn their sad loss. Mrs. S. M. Ferris, of North Dakota, is a sister, also Mrs. H. W. Parrie and Miss Annie Gunter, of St. John, Misses Viola and Myrtle at home, C. H. Gunter at home and George M. Gunter, of Minto, are brothers.

A Customer's Reasonable Wish is This Store's Pleasure.

Dykeman's

The New Fall Dress Goods Are All Here.

The last shipment came by S. S. Garthgalian. The first display is made in one of our windows. These goods are more attractive than usual. The new shadow stripes, the wide wales and herring bone stripes are most effective and so low in price that the most exacting person can have the newest style. Of course the plain Venetians and Broadcloths will be as popular as ever, but the above mentioned are novelties for the 1908 fall season.

HERRING BONE STRIPES in self colored, at 55c, 75c and \$1.00.
SHADOW STRIPES in 56 inch goods at 80c, \$1.00, \$1.10 and \$1.25.
WALLS at 55c, 75c and \$1.10.

We are showing the celebrated **ALL WOOL FRENCH VENETIAN**, all colors, at 55c, 75c, 97c, \$1.00, \$1.10 and \$1.25.
ALL WOOL BROADCLOTHS at \$1.00, \$1.10, \$1.20, \$1.45 and \$2.20.

Other materials are being shown at prices ranging from 25 cents up to \$1.75.

This store has gained the reputation for keeping the most stylish of dress materials at most reasonable prices. We import all our dress materials direct and take advantage of all cash discounts even that allowed by the customs in passing entries, consequently we are in a position to sell dress goods better than most of houses.

LOCAL NEWS

St. John Exhibition, September 12th to 19th.

A whip found in Portland street awaits an owner at the central police station.

John Kelly has been reported by the police for furiously driving a team on Adelaide street yesterday.

The most satisfactory work trousers ever made to be retailed at \$1.00 is now on sale at Pidgeon's, corner Main and Bridge streets, for \$1.48.

John Thomas, of Montreal, who has been spending his vacation at the home of Mrs. Geo. McAfee, Red Head, returned home on Saturday.

Mrs. Belford McCormick will receive her friends Wednesday afternoon and evening, August 26th, at her home, 137 Union street.

The ferry committee will meet tonight to open the tenders for the installation of a new heating system and new sanitary arrangements for the east side ferry house.

The garden party to be held on the grounds on Labor Day will be discussed at the Every Day Club hall, Waterloo street, this evening at 8 o'clock. Ladies interested are invited to attend. The life and drum band will also meet to consider holding a picnic at Lorneville on Labor Day.

A sample of an enamelled metal street sign has been sent to the city engineer by the Baltimore representative of an English firm. It is understood that the price is much lower than anything of the kind so far submitted to the city and it is possible that the committee may take it into consideration before awarding the contract.

W. E. Anderson, secretary of the Board of Trade, this morning received a telegram from D. H. Ross, Canadian Trade Commissioner at Melbourne, Australia, stating that that gentleman would be in St. John tomorrow and would be glad to meet interested exporters at the Board of Trade rooms on Wednesday. The telegram was sent from Halifax.

The tennis tournament was resumed this morning at the Rotherway courts. T. Malcolm McAvity defeated Charles Grant of Halifax, the Nova Scotia champion, by the score of 5-6, 3-4, 10-8, 2-2. Mrs. H. R. Babbitt, the New Brunswick champion, from Fredericton, defeated the St. John champion, Mrs. Hope Strachen. The other matches will be resumed this afternoon.

The Cornwall and Yorks secured a firm grip on the league championship on Saturday, defeating the McAvity's by a score of 1-0. Neither side scored in the first half and it was well towards the middle of the 2nd half when Pollard, for the C. & Y.'s succeeded in putting the ball through the McAvity's goal.

The following is the league standing to date:

Club	P	W	L	T	Ag.	P.
C. & Y.	2	3	0	3	-	4
McAvity	1	0	1	1	0	1
Wanderers	1	0	1	0	0	0

Frank Cronin, a boy who lives on King street East, has been reported for breaking the law in the manner which many boys have been previously held accountable for, that of using their new sharp iron knife to carve their initials in a prominent place. It appears that Policeman Lucas has a case against Frank Cronin who, he claims, put the letters "F. C." on the back of a bench in the old burying ground. This offence occurred on Sunday night and the thoughtlessness of young Cronin may be a lesson to other youngsters who think it no harm to use the blade of a knife or a stick of chalk in the defacing of property.

PERSONAL

Mrs. Frank S. Allwood, of Lanher street, and her daughter, Mona, are spending a few days at Gagetown.

Mr. and Mrs. Wm. Toner, of Taunton, Mass., who toured to St. John in an auto and thence to Henry Lake on a fishing trip, returned to Taunton today by boat.

Mrs. John Merick left on the Calvin Anatin Saturday to visit friends in Boston.

Mr. and Mrs. Harry Pike, of Boston, are visiting friends in the North End. Miss Jean Hannah has been spending her vacation in Montreal, returned home last evening.

PROBATE COURT.

Estate of Mary Daryl, widow of Bernard Early. Last will whereby testatrix gives her money to her executor and trustee, herein named to be invested in good securities and to pay the income from the same to her son, James Patrick Early, who, it appears, by the petition, died at Las Animas, Colorado, subsequent to the death of the testatrix, unmarried and without issue, and in that event the executors are directed to pay the estate to her granddaughter, Maud Mary Fleming, of New York, daughter of the late May Agnes (Early) Fleming, the well known authoress. Hugh Doherty, of St. John, grocer, and Margaret Doherty, his sister, sworn in as executors and trustees. No real estate; personal estate \$1,500. R. F. Quigley, K. C., proctor.

DEAF ASSOCIATION MEETING TODAY

The Fourth Annual Maritime Convention

Address of Welcome by Mayor Bullock—President's Address—Further Program—List of Delegates.

The fourth annual gathering of the Maritime Deaf Mute Association is now in full progress in the city.

Yesterday afternoon and evening religious services were held, addressed by Mr. Doel, E. E. Prince, Miss Tufts and President McKenzie.

The first business session was held this morning in the rooms of the local association in the Stockton building. The president of the association made an admirable address in which he referred to the successful work done by the society during the past year. He suggested that the word "mute" be dropped from the name, as it is unnecessary.

He announced that several subscriptions had been made to the fund for the erection of a monument to Wm. Gray, the founder of the Halifax School.

He referred to the fact that there are about five hundred deaf persons in Eastern Canada and spoke of the work being done for them in the institutions at Halifax and St. John, whose methods he warmly commended.

Mayor Bullock was present and gave an address of welcome which was responded to by President McKenzie in the following terms:—
His Worship T. H. Bullock.

On behalf of the Maritime Deaf Mute Association permit me to thank your Worship for your kindly words of welcome to our members, and also to thank the citizens of St. John through you for the many favors shown us during our short visit among you.

We assure you that we will take away with us a pleasant remembrance of our visit to your city and of the courteous treatment accorded us.

(Sgd.) GEO. S. MACKENZIE,
President, M. D. M. A.

The session will continue this afternoon and evening. Tomorrow the convention will go on an excursion to Chester's Plains on the steamer May Queen. The steamer will leave at 8:30 and return at noon.

As the association is under heavy expense in this matter they are looking for a large attendance of other persons on the trip and have placed the price of tickets at 50 cents.

In the afternoon the association will hold their sports on the grounds of the School for the Deaf, at Lancaster.

Delegates in attendance at the 4th annual convention of the Maritime Deaf Mute Association. Pres. G. S. McKenzie, Moncton, N. B.; Vice-Pres., S. A. DeLong, St. John; Secy., L. T. Goucher, Halifax; F. J. T. Boal, Sussex, N. B.; Alex. Ross, St. John; Mr. and Mrs. Hugh Bennett, St. John; Mr. Chester Brown, St. John; W. O. Barnes, St. John; Mr. and Mrs. E. Prince, St. John; W. Ballie, St. John; W. J. Murray, Moncton; Mr. and Mrs. A. Kelly, St. John; Abraham Levine, St. John; Jas. McAulley, Fredericton; Maurice Blake, Hillsboro; Mr. and Mrs. S. Stanton, St. John; Wm. McDonald, St. John; W. W. BREAKS BOTH LEGS IN MILL AT SUSSEX

Branscombe Brought to Hospital Here in Serious Condition

A rather serious accident took place on Friday afternoon at Robertson's Mill, Sussex, whereby a man named Branscombe had both his legs broken, necessitating the amputation of the right one.

Branscombe was working in the mill when he got caught in a belt which carried him down to the saw. Dr. McAllister attended the injured man, who suffered greatly. He was brought to St. John on Saturday and taken immediately to the hospital. The doctors there found that both his legs were broken and decided to perform an operation. The amputation took place yesterday afternoon. Latest reports say the man is resting as comfortably as could be expected.
