Boyce and were rescued by crews of Peo Island, and on the death of Henry was frozen to death while lashed to the rigging in such a manner that he could ward. One other member of the crew was almost frozen to death when rescued, but probably will recover. The rescued crew are now at the Pea Isand life saving station.

Great difficulty was experienced in anding the crew owing to the fact that the vessel had sunk and a heavy sea was running at the time. The freezing weather hampered the work of rescue and the seamen were so overcome by exposure and exhaustion that only two f those in the rigging were able to assist in hauling the whip line aboard the vessel. An attempt will be made ater to bring the body of Henry Edwards, the sailor who was frozen to death in the rigging of the Montana, shore. The vessel will be a total loss. The Montana was a vessel of 332 tons net, was built in Bath, Me., in 1889, and was owned by J. T. Boyce of Somers Point, N. J.

BUFFALO, N. Y., Dec. 12.-Miss Frances Dolen, a pretty and elaborately dressed woman, apparently about 28 years old, was found unconscious in her room at the Moeller house, Main street, this morning. She is now at the Riverside Accident Hospital, and the doctors say her recovery is in doubt. Miss Dolen, the physicians think, is suffering from cocaine poisoning. Accompanied by a baggageman, who was carrying her dress suit case, Miss Dolen arrived at the Moeller house Friday night and applied for a room. She was assigned to one on the second floor. Man Who Found it.

Clever Ruse to Obtain Possession of it-New Boat For Gaspe Route Ready Soon.

CAMPBELLTON, Dec. 8.-What appears to have been a clever ruse to obtain possession of that wad of liberal campaign money has just leaked out. A certain hotel man in town went to the man who found the wad and after an unsuccessful attempt to obtain some particulars about the matter, said that he had information to the effect that the money was lost by a Montreal man. He was told to write the gentleman in question for a description of the money that would prove it to be his. The afterwards the hotel man again accosted the holder of the money and informed him that he had received a letter from the Montreal man. He was asked what amount was stated in the letter as having been lost, but his memory failed him at the critical moment. and the money still remains in the possession of the man who found it. It looks as if the scheme was planned in the hotel, which is frequently visited by some of the chief men of the liberal party. Many stories are current as to the amount involved in the find, and others of an amusing nature are beginning to crop up. One of these latter is to the effect that as the finder of the wad was wending his way homewards a little late in the evening he was met by a solitary pedestrian and the following conversation took place: "Are you the man who found the money?"

"Yes." "That money belongs to me; I lost "Yes. Well, if you own it, I guess

you can have it. How much was it?" "There was \$38." "Wrong. Guess again." "Well, when I come to think of it, the amount was \$42."

"See here, mister, if I were to stand on guessing you'd probably get up to the amount by that time." The pedestrian's vision of a sudden rise to a position of affluence suddenly

TREATMENT FOR PNEUMONIA

Paris Dector Has Discovered That Certain Metals Affect this Disease.

Academie de Medicine on Dec. 6 by Dr. Albert Robin, who reported the discovery of the fact that certain metals such as gold and silver very finely subdivided and employed in infinitesimal doses, exercise a considerable effect on the vital penomena. Reduction of the metals to the desired state is obtained by their electrical dissolution in water. The metal so freated quires the property of developing a force similar to that of a ferment. This uliarity of the phenomenon has led Robin to use the term "metallic ats" in reporting his discovery. metallic ferments when employed eases of pneumonia in hypodermic tions produced a defervescence of the malady in six cases out of ten before the seventh day. Thirteen cures re obtained in fourteen cases thus

The employment of these metallic ferments does not constitute the comtreatment of pneumonia for complications and the predominence of certain symptoms necessitate accessby therapeutics, but great progress would appear to be made by their use in the treatment of this frequent and erious malady.

What lends additional interest to this showing, from the creditors' standpoint, is that one man, Iri Reynolds, will receive the whole of the assets visible at the present time. There may be funds in reserve somewhere, as there may be additional creditors who have not yet announced that Mrs. Chadwick is indebted to them, but it is not expected by bankers and attorneys of this city, who have the greatest knowledge of her affairs, that any more large loans will

> be developed. The extent of her operations is now believed to be approximately as follows: Secured from Citizens' National Bank of Oberlin, Ohio, and various sources in and about Loraine County. Ohio, \$500,000, borrowed from Herbert Life D. Newton, \$190,000; borrowed from business men in Pittsburg, \$500,000. Total, \$1.190.000

Against this stands securities of known value on one note amounting to \$1,800, which is held by Iri Reynolds. The amount of money received by Mrs. Chadwick in Pittsburg may run as high as \$800,000, but it is believed that a portion of this sum is a bonus promised by her for an original loan of at least \$500,000. Her creditor there figures that she is indebted to him fo the larger sum, while she has admitted that she owes him \$500,000. If her debt Young Mr. Stevens had no wealth, but in this direction is \$800,000 the probab ility in sight of the creditors is about one and one-fifth mills on the dollar later years and probably today the now It is not believed by any of the atone of the largest holders, next to Mrs. securities will be of any account whatever. Mr. John Kent, prominent in musical circles in the city of Ottawa, writes writes recently as follows:

"After suffering for weeks with an obstinate cough, I was taken down with la grippe, which turned to pneumonia. My physician brought me round so that I was able to attend work, but I did not seem to grow . strong again. I felt a weakness in my left lung with occasional pains. The doctor said it was indigestion, prescribed for some months for this to no purpose. Then he discovered that my lungs were diseased. Owing to my weak condition he said a cure was impossible. Friends considered me hopeless. I coughed terribly at times, had chills and fever, was losing flesh every day. I had read much about Psychine and began using it. The first bottle gave great relief. Today I am sound and well and I only used Psychine for about a month. For combating disease and rebuilding the body Psychine has no equal. I would not be alive today were it not for Psychine. A SUGAR CASE.

The "sugar case," in which several of Eastport's well known and popular young residents figure prominently, has called for quite an amount of comment, and the coming hearing at Portland will be closely watched by most of the residents who are interested in the matter.

Belgravia for their home consumption, even allowing that this brand of sugar is far inferior to the kind that can be bought on this side of the boundary at just a little advance over our Dominion brothers who deal in provisions. It is, however, liked by many, as it is "English, you know," and some have taken the chances of being caught smuggling by making a night trin over Passama quoddy bay and bringing back a few dollars' worth. It was a similar case in which the Eastporters are now in terested, and while it was generally supposed that they had purchased the cheap and coarse article of sweetening for their private use, and probably intended to pay the duties on 't next curred Sunday morning after a few morning (a matter which will be more ventilated at the hearing) it was seized and Mrs. George Maxwell of Main by one of the local custems efficers and day afteroon, Rev. counts the woman is considered to be out of danger. The incident caused naturally some excitement in the Ackerman house, and suspicions of foul play arose. It seems that a woman had visited the family during the day, and shortly after Mrs. Ackerman's sickness took her departure. This looked very bad in the eyes of some, and the visitor has been suspected. The affair was kept quiet at first to allow Dr. Weaver the chance to make an investigation and satisfy himself as to whether or not there had been any crooked work. The doctor, when excitement calmed

down somewhat, interviewed some other members of the household and learned that they had been eating head cheese for dinner on Wednesday, and while Mrs. Ackerman was the only one seriously affected, the others had not wholly escaped. From this information in his possession the doctor is inclined to think that it is a case of meat poisoning, which is not an unusual occurrence. He thinks that in all probability the family had been eating something which disagreed with them. The death occurred at Victoria Hos-

pital at noon today of Thomas Harrison after a lengthy illness extending over some months. The deceased, who was 48 years of age, was a son of the late Wm. Harrison of Sheffield. He thought it might be made a very useful institution on other than purely party lines. The discussion of the important problems which are confronting the citizens of Canada would be of very great benefit to the members of the club and through them to a wide sphere of influence. The promoters of the weekly meeting idea had his hearty support and he looked forward to hearing some

very interesting discussions. After the meeting the executive comthe executive committee, which by a special resolution, they were given power to do. They will arrange for a programme for the first night of meeting, and the result of their deliberations will be announced later.

Able to Work Till He Used the Great Canadian Kidney Remedy.

CONSECON, Ont., Dec. 9.-(Special)-Mr. David Rowe, a well known and highly respected farmer, living about three miles from here, is telling his friends of his remarkable recovery from long period of suffering by the use of Dodd's Kidney Pills.

"I had very severe pains in my back more or less for upwards of two years," Mr. Rowe says. "These pains seemed to concentrate their full force in the small of my back and the pain was almost unbearable. It made me go bent over and I could not straighten up to save my life. "When I went to urinate it gave me great pain and you may imagine I was not able to do much work. I con-

sulted a doctor but his prescription did me no good. "Then I started to use Dodd's Kidney Pills and I felt better by the time I had used the first box. Ten boxes cured me completely."

How to Prepare Them.

Roast turkey is at the head of the list of Christmas dinner meats; for on this day we must have turkey or it would not seem like Christmas at all. If you buy your own turkey, be sure to to get a young hen, as they are best for roasting. The skin should be white, the breast broad and fat, the neck short and the legs smooth. old turkey has rough, scaly legs. See that the turkey is properly drawn, lungs removed and the oil-sack

For a chestnut dressing boil the chestnuts, peel and mash; allow two-thirds of the quantity of dressing prepared to consist of the chestnuts, the other third of equal parts of minced truffles and breadcrumbs; mix altogether with a beaten egg, a little milk and two tablespoonfuls of melted butter. Use a seasoning of salt, pepper and sage. For a pecan dressing take a coffeecupful each of breadcrumbs, sausage- meat and boiled rice, two stalks of celery, salt, pepper, sage and the kernels of three or four dozen pecans (according to s of making it: For ordinary bread size of nuts). Chop the celery and nuts, mix all together as directed above for chestnut dressian. Read what she says :- "It is now about two years since I was cured of a terrible attack of Erysipelas, with which I had been afflicted for about ten years. I had tried almost everything, including medicine from several doctors, but could get no relief. I had given my case up as hopeless, but I procured five bottles of Burdock Blood Bitters, and it completely cured me. In fact, the cure has been permanent. It is now two years since I took Burdock Blood Bitters, and I have wonderful remedy has taken it so completely out of my system that I shall never be bothered again with it. Four-masted sch Mary L Newhall was launched the other day from the yard of Elmer S Crosby, Bath, Me. The frame of the schooner is one prepared in 1862 by the government for a war vessel, it being the best live oak that could be purchased. It was sunk in Portsmouth harbor, where it lay until it was raised two years ago. The salt water completely preserved it. The schooner is rated A1 for 16 years, owing to her, unusual frame. The dimensions are: Length, 228 feet: breadth, 40.2 feet, and depth, 21.6 feet.
