Transport Prairie Opened Fire and Mexican Commander Is Driven From Position ---Firing Become General at Half Past Twelve.

MEXICAN CITIZENS AND SOLDIERS SHOOT AT AMERICANS FROM ROOF TOPS

Four Americans Killed and Twenty Wounded in Capture of the City—Mexican Losses Said to Be Very Heavy.

Washington, April 21.—The American flag tonight flies over Vera Cruz. Four Americans were killed and twenty wounded when a detachment of bluejackets and marines from the American fleet seized the customs house, raising the American flag, and skirmished at the Mexican garrison. Desultory firing was in progress late today, according to a despatch from Rear-Admiral Fletcher received at six p. m. At first the garrison had appeared to be withdrawing. American Consul Canada reported this to the state department at five o'clock, but when the American forces reached the customs house the Mexicans opened with rifle and artillery fire. The transport *Prairie* immediately began shelling the Mexican positions, slowly driving them out. The Mexicans fought from the house tops and along the streets.

Vera Cruz, April 21.—Vera Cruz tonight is in the hands of forces from the United States warships, but the occupation of the port was not accomplished without loss of American lives. Four Americans were killed by the fire of the Mexicans and twenty were wounded. The Mexican losses are not known, but it is believed to have been heavy.

MEXICAN COMMANDER FIRES ON AMERICANS

The Mexican commander, General Maas, offered a stubborn resistance to the American advance, and for many hours there was fighting in the streets. Rear-Admiral Fletcher, in command of the United States warships, prefaced his occupation of the port by a demand, through the American Consul W. W. Canada, for its surrender. General Maas promptly declined to accede to the demand and shortly afterward ten whale boats were sent off from the side of the transport *Prairie* loaded with marines. The coming of the United States forces was not heralded by any great excitement, but small crowds gathered to watch the landing. Soon the bluejackets and marines marched through the streets leading from the waterfront and along the railroad yards. Others proceeded to the United States consulate, while still others were scattered along the approaches to Central Plaza, in which General Maas had concentrated his men.

These manoeuvres were effected without opposition, but suddenly General Maas challenged the advance with the first shot—a volley fired from a point three blocks from the marines and two blocks south of the main plaza. The marines replied immediately, but the action ceased in a moment. There was a lull for ten minutes and then another brief exchange from the west end of Montezinos street, where a federal outpost was stationed.

TRANSPORT PRAIRIE IN ACTION.

At 12:30 the fire became general, and at one o'clock the guns of the transport *Prairie* went into action.

Prior to this a detachment of bluejackets from the *Utah*, holding the ground between the consulate and the waterfront, opened with two of their three inch guns. The first shots from these pieces were directed against an ancient tower which once served as a lighthouse. This was occupied by Mexican sharpshooters. Lt. Commander Buchanan of the *Florida*, ordered that it be destroyed.

Five shots brought the old Benito Juarez tower down. The women of the American colony in Vera Cruz had already been placed aboard the chartered steamers *Esperanza* and *Mexico*, but the foreign colony, especially the American section, was greatly augmented this morning when three train loads arrived from the capital. Some of these remained ashore, but many were taken aboard the steamers. So far as can be learned none of the refugees were injured.

The post office, government telegraph office, and the cable office were the first buildings occupied after the customs house. A squad of marines was placed in charge of the cable office. The telegraph wires were found intact and enough Mexican operators were retained to man the lines to Mexico City.

After General Maas had been driven from his position in Central Plaza, the Americans found themselves the object of fusillades from the tops of houses, where small groups of soldiers and citizens had taken up positions. It was learned only tonight that the greater part of those engaged in this resistance were civilians who refused to accept the occupation passively. They obtained guns and stationed themselves at points of vantage and did much to prolong the action.

Towards the middle of the afternoon a large body of Mexicans evacuated their position and are now in thousand hills back in the interior, where it is reported from Mexican sources they are expecting to be joined by reinforcements sent down from the capital.

THEATRICAL WAR MAY BE CALLED OFF SOON

Montreal, April 21.—Negotiations are now in progress whereby the *Klaw* and *Erlanger* and *Shubert* theatrical interests will drop competition in Montreal and Toronto and probably in Detroit, Cleveland and Buffalo, it is understood here. This end will be achieved if the attempts now being made to place the high priced entertainments of these organizations in only one theatre in Montreal and Toronto, instead of two as at present, the shows of *Klaw* and *Erlanger* and *Shubert* being alternated as far as possible. Montreal and Toronto, it is suggested, will be a part of a circuit which comprises the United States cities mentioned.

W. A. Edwards, head of the company controlling His Majesty's Theatre, one of the two big houses here, admits that negotiations are going on, but declines to discuss them.

How the Times Plays the Game

From Evening Times editorials of April 21st.

"Even Conservatives are now beginning to ask what the province has gained by the advent of Hon. J. D. Hazen into public life, and by his subsequent career. He succeeded after many efforts in defeating the former provincial government, and replacing it with one infinitely less worthy of public confidence. In due time he got himself away to Ottawa, and everybody knows how the interests of this province and especially of the city have since been sacrificed."

"There is sometimes a disposition to charge the Board of Trade with failure to do all that it should do, and yet a review of what it has done during the last six months would rather tend to cause surprise that busy men had been able to accomplish so much in promoting matters which are not related directly to their own personal concerns."

"The members of the various committees of the Board having to do with the Marine Department in connection with all the important public works, to which reference has been made, express their appreciation of the prompt attention and effective aid given to them by Hon. Mr. Hazen."

"Which is she more likely to represent the true value of Mr. Hazen's work for St. John, the *safe Times*, or the official publication of the Board of Trade, a body of safe and sane business men whose course the *Times* itself editorially approves?"

From the Board of Trade Official News Letter of April 19th.

"Through the hearty co-operation of Hon. J. D. Hazen, Minister of Marine and Fisheries, the Board has been able to do splendid work in making better provision for the safety of vessels."

"In November last the Board decided to send a letter to the captain of all incoming steamships asking for recommendations regarding safeguards in the Bay and the approach to St. John harbor. Between sixty and seventy such recommendations were received, and in February, through the energetic action of Hon. Mr. Hazen, these were tabulated with the same least, paid tribute to the kindly nature of the Duke of Connaught, which rendered him so popular as Canada's Governor-General. He also showed how British civilization was being carried to the Arctic circle by representatives of the Church and State, dwelling in the latter connection on the heroic exploits of the North West Mounted Police, as exemplified by Fitzgerald and his comrades."

"The president of the club, Mr. E. R. Peacock, in proposing the health of the Dominion and the Governor-General, declared that the Canadians were a race of optimists."

"Brief speeches were also made by Dr. Mackin, director of the Rhodes Scholarship Trust and L. S. Amery, M. P."

Desire to Protect Her Citizens, Justification For States' Attitude.

Senator Root Says Behind Insult to American Flag is Condition of Anarchy Which Makes Protection of Lives and Property in Mexico Impossible by Following Any Other Course.

Washington, April 21.—The Senate took recess at 5:55 p. m. and resumed at 8 o'clock, an air of excitement and grave concern pervaded the chamber when the Senate re-convened.

Senator Root opened the night session with a speech supporting the Lodge substitute.

"I shall not prolong this debate," he said, "for I believe that whatever action we shall take ought to be taken tonight. There should be no further delay."

As Senator Root began the British Ambassador, Sir Cecil Spring-Rice took a place in the diplomatic gallery. Senator Root said that the foreign relations committee regulation, while omitting the name of Huerta, made it called for "forceful armed compulsion of the defacto government of a friendly nation to make amends for an insult to the flag of this country."

"We cannot justify this," he continued, "on our confidence in the President. We must justify ourselves before the confidence of the eyes of our country, and before the eyes of the civilized world. What is that justification? Mark you, I do not say there is no justification, I ask what it is."

Senator Root reviewed the Tampico incident as the avowed justification for the president. He said the incident was an "insult to our flag."

Continued on page two.

MEXICO SCENE OF ACTION

plain that it was directed against him. He expressed the "highest regard for the president, and the highest confidence in his purposes."

"But we are not asked to express our confidence in him," he continued. "We are asked as a part of our duty here to declare a certain course of action in certain conditions to be 'justified.' We are called upon to do our duty to the hundred million people of this country, and our duty to the civilized world."

The resolution, Senator Root said,

HON. A. L. SIFTON SPEAKER AT LONDON DINNER

Says Canadian Spirit Fosters in Alien Immigrants Desire to Become British Subjects.

London, April 21.—Two westerners were the principal speakers at the Canada Club dinner last night when Hon. A. L. Sifton, Premier of Alberta, and Bishop Stringer of the Yukon, represented the political and ecclesiastical spheres of the west respectively.

Premier Sifton in responding to the toast of the Dominion and the Governor General, showed that Canadian alien immigrants did so well in the Canadian West that they naturally soon desired to become British subjects, which desire was fostered by educational opportunities on the basis of British ideals. The result was that the government never had any cause to worry about the loyalty of the newcomers.

Bishop Stringer, who was associated with the same toast, paid warm tribute to the kindly nature of the Duke of Connaught, which rendered him so popular as Canada's Governor-General. He also showed how British civilization was being carried to the Arctic circle by representatives of the Church and State, dwelling in the latter connection on the heroic exploits of the North West Mounted Police, as exemplified by Fitzgerald and his comrades.

The president of the club, Mr. E. R. Peacock, in proposing the health of the Dominion and the Governor-General, declared that the Canadians were a race of optimists.

Brief speeches were also made by Dr. Mackin, director of the Rhodes Scholarship Trust and L. S. Amery, M. P.

LEADERS IN LIVELY TILT OVER ULSTER AFFAIR

JOLLY ALONG, NO POLICY, NO AMENDMENT

Dr. Steele of South Perth, Ral-lies Opposition for Sudden Change of Front on Tariff.

Ottawa, April 21.—The budget debate was resumed today.

J. H. Sinclair of Guysboro said that the Conservative victory of 1911 was one of prejudice over reason and victories of that kind always brought their consequences. The opposition to reciprocity was not bona fide. It was a case of anything to beat Laurier and the cry of "no truck or trade with the Yankees." Yet the volume of trade with the United States had been increased at an enormous rate ever since and today it amounted to \$2,000,000 a day. If the Conservative party were sincere in the protestations they made in 1911 they would take steps to stop this trade but they were not doing so.

Referring to the last election Mr. Sinclair waxed humorous. The great issue with the Conservatives in Ontario, he said, was the No-Tariff decree and "are we married or not." That was the great question with Mr. Burham of West Peterboro. Captain Wallace of Centre York and even with the minister of war. Now that they are in power they do not care two cents whether we are married or not. They are more interested at the present moment in the affairs of Ireland. The member for Centre York, he said, would be better occupied were he to take a fall out of the Postmaster General. "If he could throw him and I believe he could," added Mr. Sinclair. "He would get more credit out of that than by hanging on to the coat tails of Sir Edward Carson."

Continued on page two.

UNION DEPOT FOR C.P.R. AND GRAND TRUNK

Plans for Toronto Station Decided on—To Cost Between Twelve and Fifteen Million Dollars.

Montreal, April 21.—The Grand Trunk and C. P. R. railways have now decided on the plans for the Toronto Union station, which it is estimated will cost between \$12,000,000 and \$15,000,000. They will be submitted to the Railway Board about May 15 and when accepted the work will proceed at once. Information to this effect has been given out by the Grand Trunk Railway officials, who point out that the cost of the viaduct, which is a part of the big terminal scheme for Toronto, is not included in the figures quoted. The viaduct, which will cost \$5,000,000, will be a matter for later consideration.

RIVER CLEAR OF ICE ABOVE FREDERICTON

Ice Moved Out from Grand Falls Down to Bear Island—Still Solid at the Capital.

Fredericton, April 21.—The water in the river here was rising this evening at the rate of an inch an hour. There is no sign as yet of ice breaking away here although the water is unusually high. The weather tonight feels more like early in March than the latter part of April.

Hon. J. A. Murray, minister of agriculture and acting minister of lands and mines, arrived from Sussex this evening to join Hon. George Clarke, acting premier, who arrived here last evening for the meeting of the provincial government, which opens tomorrow.

FIVE THOUSAND FOR RELATIVES OF SEALERS

St. John's, Nfld., April 21.—The Red Newfoundland Company today contributed five thousand dollars to the relief fund for the sealing disaster, besides giving free the services of their steamer *Kyle* for two weeks searching for the Southern Cross, free special trains for the conveyance of the bodies of the sealers who perished on the ice floes, and various other facilities, also without charge.

The seal hunt ends April 30th. Only three steamers are now out. The probable catch will be about two hundred and forty thousand pelts.

DROPPED DEAD ON STREET IN HAMILTON

Hamilton, April 21.—Mrs. James Klamney, Detroit, who came to Hamilton today to attend the funeral of her nephew, Leon Ward, who was electrocuted near Brantford, dropped dead on King street, near James street this evening.

Those who keep close tabs on the water and ice at this season of the year were surprised this morning when word reached here that the ice had been running throughout the night from Grand Falls down to such a short distance above Fredericton. The St. John River Log Driving Company's officials were taken completely unawares.

JOLLY ALONG, NO POLICY, NO AMENDMENT

Continued from page one.
Touching on free agricultural implements Mr. Sinclair said that the annual saving to the farmer on the cost of a mower, assuming that the machine would last ten years, would be twenty-five cents, or the price of half a pound of tobacco. It was absurd for the Minister of Finance to say that free implements would mean free trade. There are 711 items in the customs tariff of which 208 are free and 503 dutiable. Are we to be told that if half a dozen agricultural implements were added to the free list it would bring about free trade? There would still be over five hundred dutiable items.

More Blue Ruin Talk.

Mr. Sinclair next criticized the expenditure of the present government. He said the people of Canada were not inclined to look at this question from a narrow standpoint but they were becoming alarmed at the rapid growth of expenditure during the last two and a half years. Expenditures had doubled in the last three years. The Minister of Militia was the greatest sinner, but the Minister of Public Works was doing his share. Mr. White he said, like the reckless son of that wealthy father, had proceeded to dash away and spend the money. He would be known as Canada's prodigal son and he had shown no signs of repentance.

Dr. Steele of South Perth rallied the opposition on their failure to produce an amendment. It seemed to be a case with the party, as with the member for North Renfrew (Mr. Graham) to have no amendment, no policy but just to jolly along for a time. As for the budget of Hon. Mr. White, he believed the verdict of the country to be that it was a "wise, sane, and altogether satisfactory budget."

The government, said Dr. Steele, had made a record in many particulars. There had been an increase in trade in two years and a half of \$275,000,000 and an increase in the trade with Great Britain of \$80,000,000. The revenue had increased by \$27,000,000 and the national debt had been decreased.

"What about trade with the United States?" queried Hon. Mr. Lemieux. "I'm such a good Canadian that I like to talk about Canada first," said Dr. Steele. "Let our friends of the opposition get their eyes off the United States for a little while."

Dr. Steele pointed out that while the trade with the United States had increased 11 per cent last year that Canada had been even better and had increased 12 per cent. In the last five years the trade of this country increased 98 per cent.

It was sometimes said that the taxation of this country was very great and Liberals were charging that the militia expenditure was responsible for much of this. But as a matter of fact the Canadian militia expenditure was only nine cents on the dollar of

President Huerta and His Advisors.

W. W. CANADA. GENERAL HUERTA. GOVERNOR DE HESA

In the above photograph General Huerta, the new Provisional President of Mexico, is seen standing between two of his most influential advisors, W. W. Canada (left) and Governor De Hesa, of Vera Cruz (right).

taxes while in the United States it was sixty-five cents, and in France thirty-one cents. Yet the Liberals who charged that this expenditure was too high were the same party which last year were ready to saddle upon this country a naval policy that would have laid a tremendous burden upon the country.

Wheat Not Only Thing in the West.

When in power in 1911 it was the purpose of the Liberal party to go no further than was provided by the reciprocity agreement. But when they were in opposition the party clamored for the removal of the entire duty on agricultural implements. They were quite ready to advocate this policy when they were unable to put it into force.

Dr. Steele pointed out that by no means all the farmers were interested in free wheat. The farmers of Northern Manitoba, of Northern Saskatchewan and of Northern Alberta did not grow wheat but were interested in stock raising and mixed farming. He thought that the wheat farmers who were concerned in stock raising and mixed farming. He remarked further that he had no guarantee that if we accepted the offer of free wheat it would not be withdrawn later by the Americans. We might get our lines of communication all established, and then find we had to go to work to build up all over again the old business connection which free wheat had broken down.

Lower rates would be of great advantage both to the farmer and the miller. The debate was continued during the evening sitting by Messrs. Murphy (Liberal), Lanctot (Liberal), and Garland (Conservative) and was adjourned when the house rose shortly before midnight by Hon. Charles Murphy. The debate will be continued tomorrow and will probably last out the balance of the week.

NO. 1 SALVAGE CORPS

The annual meeting of the No. 1 Salvage Corps and Fire Police was held last night in their rooms, Union street. The following officers were elected: K. J. MacRae, captain; G. Harvey Tapley, lieutenant; E. Percy Howard, secretary; E. A. Ellis, treasurer; W. J. Currie, foreman No. 1; James Sterling, foreman No. 2; G. C. M. Farren, foreman No. 3; James Mills, foreman No. 4; Dr. Langstroth, surgeon.

The secretary reported that during the year the company responded to eighty-four alarms, spread 171 covers and worked sixty hours. After the business of the meeting had been transacted refreshments were served to a large gathering of the friends of the members and excellent selections were rendered by the St. Mary's orchestra.

There were addresses by His Worship Mayor Prink, Judge Ritchie, Commissioner Wigmore, Commissioner Asar, James Russell, C. DeForest, F. L. Potts and G. F. Fisher. Rev. Giles of Montreal was heard in readings from Drummond's works; Andrew Hainlo to a number of stories, and there were solos by D. B. Pidgeon, F. McKean and John Tonge. D. Arnold Fox was accompanied. The evening was greatly enjoyed by all present.

SACKVILLE VOTERS ELECTED PEOPLE'S TICKET YESTERDAY

Sackville, N. B., April 21.—Civic elections were held today and were keenly contested as will be shown by the results.

The weather was very disagreeable but did not hinder the electors from turning out and a large vote was polled.

The people's ticket with A. E. Wry as mayor was elected with the exception of Dixon who was defeated by Palmer in South ward.

- The following is result:
- For Mayor.
- A. E. Wry 193
 - F. A. Fisher 188
- For Aldermen.
- North Ward—
 - Knapp 230
 - Doncaster 181
 - Stultz 165
 - Balsar 163
 - South Ward—
 - W. H. Oulton 297
 - Hanford Palmer 183
 - P. A. Dixon 181
 - S. B. Atkinson 149
 - East Ward—
 - Joseph Blackmore 197
 - William B. Fawcett 192
 - A. H. McCready 188
 - H. H. Woodworth 164
 - West Ward—
 - Harris Miller 195
 - J. W. Wheeler 188
 - C. G. Steadman 176
 - Frank Phinney 180

EMPEROR OF AUSTRIA CONTINUES TO IMPROVE
Vienna, April 21.—The bulletin issued this evening concerning the health of Emperor Francis Joseph said: "There is a general improvement in the emperor's condition. The temperature of His Majesty is almost normal. His pulse is slow but active."

DESIRE TO PROTECT HER CITIZENS, JUSTIFICATION FOR STATES ATTITUDE

Continued from page one.
"But, Sir," he added, "amends were immediately made. The officer who made the arrest was himself arrested. The commandant at Tapico apologized. These amends were not sufficient to the commander of the American vessels and he demanded a salute to the flag."

"We learn tonight that Vera Cruz has fallen; that four American marines lie dead; that twenty lie suffering from wounds. Is there nothing else but this dispute of the number of guns—the form and ceremony of a salute, to justify the sacrifice of American lives?"

"Deeply as the president desires to limit the scope of his action—the maintenance of peace, all history suggests that once lighted the fires of war cannot be quenched at will. It is war in its essence that we are to vote to justify tonight, American homes will be desolate, American children will go through life fatherless, because of the action we will take tonight, and when they turn back the page to find why their fathers died, are they to find that it was about the number of guns or the form of salute?"

Senator Root asked what would have been done if a similar incident had occurred in an English, French, or German port. He said that any such dispute could be settled by peaceful negotiations.

"If this dispute was all," he said, "there should be no difficulty in reaching a peaceful conclusion."

"If this be all, how can we justify,

in our arrogance, our present attitude toward bankruptcy, weak, despairing Mexico, if this be all."
"Lying behind the insult to the American flag are the lives of Americans destroyed, Americans reduced to poverty because of the destruction of their property. Lying behind it is a condition of anarchy in Mexico, a condition which makes it impossible to secure protection for American life and property. Lying back of this incident is a condition of things in Mexico which absolutely prevents the protection of American lives and property, except through respect for the American flag, the American uniform, the American government. It is that which makes necessary the demand that public respect be made for the flag of the United States."

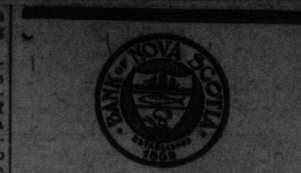

"There is our justification. It is a justification lying not in Victoriano Huerta or in his conduct alone, but in the universal conduct of affairs in Mexico and the real object to be attained by the course which we are asked to approve is not the gratification of personal pride; it is not the satisfaction of a government or an admiral, it is the desire of the United States to protect its citizens under these conditions."

An effort to fix a vote for one o'clock was unsuccessfully made shortly after eleven by Senator Kera.

There were then pending, however, notifications from numerous senators that they wished to speak. "It's anybody's guess what hour," said one senator, "but the vote will be reached during the night, probably by two or three o'clock."

Steamer Montrose.
The steamer Montrose of the C. P. R. line was ahead of Cape Sable at 6 o'clock last evening and is due to arrive in port this morning.

215 Water St.; 100 Union St. West.

TO THE VOTER.

Is not taxation without representation unfair? 700 married women in St. John pay taxes but have no vote. Women have a right to vote for the men who make the laws by which they are governed. New Zealand, where women have been voting for 20 years, has the best laws in the world. Will the St. John voters be behind the times? On the ballot are these two lines:

"For extending the civic franchise to married women" (taxpayers.)
"Against extending the civic franchise to married women" (taxpayers.)
Strike out the last line.

MUCH LIQUOR SOLD IN ILLEGAL MANNER NOW, IS STORY OF WITNESSES

In the police court yesterday afternoon William Morris was charged with selling liquor illegally. The witness for the prosecution was Peter Keenan, who was arrested on Saturday night for drunkenness. He stated that he had purchased the liquor from Morris, Saturday night. He gave evidence that he and two others saw Morris the money on two occasions and each time Morris returned to them with a bottle of gin.

Morris took the stand in his own behalf and said that he took the money and went to the foot bridge near the foot of Dorchester street where he purchased the liquor from a man whom he did not know. He said that he has seen plenty of liquor being sold after hours at this place and the purchasers were of all classes. The evidence went to show that there is a great deal of illegal selling Saturday nights along Pond street, near the bridge and the foot bridge.

GMS. J. MORRIS IS REELECTED MAYOR OF NEWCASTLE

Newcastle, N. B., April 21.—Charles J. Morris was re-elected mayor over Alderman James Falconer by a vote of 216 to 119 in a sharply contested civic election today. Of eight hundred voters on the list only about 440 qualified by having taxes paid up, and of these 347 voted.

The vote for aldermen stands as follows:
G. Gilmour Stothart 278
Charles Sargeant 244
Stanley W. Miller 235
Alex. H. Mackay 230
Dennis P. Doyle 220
Andrew McCabe 208
Dr. F. C. McGrath 204
John G. Kothro 182
John R. Allison 168
H. H. Stuart 160

DEATHS.

WARNING—On the 20th inst., at Killings, Conn., George H. Warren, Sr., aged 85 years.
Notice of funeral hereafter.

Clergyman Endorses Cure Of Nervous Prostration

Four Doctors Had Failed—Hope Given Up

Mrs. E. T. Ford, 55 McGee Street, Toronto, Ont., states:—"Some time ago I was ill from nervous prostration and for many weeks was in a very serious condition. I was treated by four different doctors without receiving any benefit from their treatment. I had quite given up hope when one day my husband saw Dr. Chase's advertisement, and it seemed so to suit my case that I bought a box of Nerve Food. I improved so rapidly that I continued using the Nerve Food, and I am thankful to say, it worked a complete cure. Since that time, we have never been without it in the house, and I gladly recommend it to all my neighbors."

Her Pastor's Endorsement

Rev. G. M. Holmes, Pastor of Eastern Ave. Baptist Church, Toronto, writes:—"I have known Mrs. Ford as a member of my church for over two years, and know that any statement she would make would be correct."

System Run Down—Awfully Nervous

Mrs. John Walfield, La Have Islands, Lunenburg Co., N.S., writes:—"Two years ago my system became greatly run down, and I was awfully nervous. It was very difficult for me to do my household work, and I felt very miserable. I doctored but did not receive any benefit until I began the use of Dr. Chase's Nerve Food. This medicine proved of wonderful benefit to me, building up the system and restoring health and strength. I always feel now that if I do get run down I can depend on Dr. Chase's Nerve Food to make me strong and well."

"My husband was troubled with dizziness and nervous headache, and was cured by the Nerve Food. He would not be without it in the home."

Dr. Chase's Nerve Food, the greatest of Nerve Restoratives, 50 cts. a box, 6 for \$2.50, all dealers or Edmanon, Bates & Co., Limited, Toronto.

SWP

Economy in painting results from, the maximum of good looks, and reliable protection for the longest possible length of time, at a minimum cost per year.

Cheap paint doesn't cover as well or wear as long as SWP—figure this out yourself!

SWP, \$2.50 per gal. covers 425 feet 2 coats—cost per 100 sq. feet, 58¢.
Cheap Paint \$1.75 per gal. covers 280 feet 2 coats—cost per 100 sq. ft., 63 1/2¢.
SWP, \$2.50 per gal. lasts 6 years—cost per gal. per year, 42¢.
Cheap Paint \$1.75 per gal. lasts 3 years—cost per gal. per year, 58¢.
Leaving out the fact that SWP covers more surface, you find that its durability alone makes it the most economical paint.

BRIGHT RESIDENCES

A CHANCE FOR INVENTORS

The high gloss of ordinary varnish has long been objectionable to many people of quiet tastes and many attempts have been made by the varnish manufacturers to produce a varnish, which, without being rubbed, will give the same effect as a rubbed finish.

The gloss of the varnish is due partly to the resin but chiefly to the oil contained. Until about fifteen years ago linseed was the oil universally used in varnishes and linseed oil naturally dries with a gloss. A number of flat or dull finish varnishes were placed on the market about that time and the flatting agents were bees-wax, Japan wax, aluminum palmitate, etc. dissolved in varnish and the latter thinned considerably with turpentine. As all these materials tend to slow the drying and to decrease the hardness and durability of the material, a varnish long in linseed oil could not be successfully flatted for the reason that to overcome the gloss of the oil so much flatting agent was required that the resulting product had practically no hardness or durability, hence short all varnishes were used, of no great durability in themselves and considerably less durability after the incorporation of the flatting agent.

The introduction of China wood oil into the general use in varnish making at about this time, resulted in an improvement in these flat varnishes. China wood oil in itself dries flat. In fact for some time a great variety of flat varnishes appeared on the market, intended by their manufacturers to dry with gloss and which because of insufficient knowledge of the way to treat wood oil were apt, under certain conditions of ventilation, to dry flat. By substituting in the wood oil for linseed in flat varnishes some improvements were made, as more oil and less wax could be used, resulting in more durable surfaces.

Even so, however, these flat varnishes have serious defects. The wax, soap, or similar material used for flatting, not only diminishes the durability of the varnish but also settles out especially in cold weather, the clear varnish drying in a clear, glossy film. These wax flats easy to finish over. Of all the waxes, Carnauba or Brazil wax would be the ideal flatting agent, if it could be held in solution. It is quite hard, tough, and durable, but unfortunately while soluble in hot oil or varnish, it granulates out on cooling.

The next step in the production of flat varnishes, says the Painter and Decorator, was the employment of an active pigment which would act chemically on the acid resin of the varnish, producing false body, requiring extra thinning, and thus flattening the varnish. The oxide and carbonate of magnesium are the pigments employed for this purpose, the varnish being made from a fairly acid resin and china wood oil. When such a varnish is ground with one of these pigments, and the thick paste thus made with turpentine, very handsome flat finishes are produced, probably the smoothest dull finishes made. Apart from the settling of the pigment, a minor fault—these magnesia flats are open to one serious objection which has prevented their general use.

The fact that the employment of an active pigment in the varnish is the chemical action of the pigment cannot be checked permanently at any given stage, but continues indefinitely even after the flat varnish is shipped. The result is that the thickening may continue until the product is livered or sold before it can be used. Then, too, the false bodying and consequent thinning mean that a very thin film of the finish is left on the work, and of course this thin film is not as durable as that given by a varnish of proper body, while the alkaline pigment decreases the water resistance of the film. Other emulsions, such as tungstate of aluminum, hydrate of aluminum, etc., have been used, but without conspicuous success.

For a dead flat finish, nothing can excel in durability a varnish made from a good hard resin, raw china wood oil, and turpentine, the oil and the resin being so manipulated that the oil retains its flat drying property. The writer has some weathered oak furniture, finished ten years ago with such a varnish, and applied by himself, and the finish is still perfect. Such varnishes, however, are not suitable for the general trade, as they require perfect conditions of ventilation to dry flat, and even with the best of care and attention will dry with a high gloss a good part of the time.

High Gloss, quiet, easily produced, but dull finishes obtained only after much labor — Materials used in the manufacture of Flat Varnishes.

FRESH PAINT HELPS VALUES

Citizens Should Attend to the Appearance of their Premises during the present season.

BRIGHT RESIDENCES

Citizens in general should remember that at the time for the renovating of their premises is at hand. Besides the clearing away of the rubbish and materials that have accumulated during the winter months, there is need of new paint on many of the houses in St. John. Visitors to the city have often commented on our beautiful location and natural characteristics, but there has been a general feeling of regret that the appearance of dwellings have not been renewed by the use of paint. In St. John where many of the dwellings are constructed of wood the need of paint is often more apparent than in the cities where the brick and stone constructions are more prominent in the residential sections.

Paint helps to preserve the wood and lessen the need of repairs. Take any of St. John's residential sections and buildings that would be greatly benefited by a coating of paint are quite the rule. The people of St. John are progressive in many lines but the benefits of having their dwellings freshly painted excepting at long intervals has never been generally recognized.

Last season a clean-up day was observed and general good resulted. The idea should be extended to the painting of houses. Besides the brightening up of the exterior, the painting of houses help the general business of the city and when there is need of selling a house the well painted structure is more attractive than one in need of repairs and paint.

Many citizens have taken up the matter and have arranged to have their dwellings painted during the present year, but there is still need for many more such efforts. Progressive citizens are being called into consideration and by their example show the more backward what can be done in the way of brightening up.

PLUMBAGO.

Graphite is an inert substance and a conductor of heat. Hence it is not an ideal material for paintmaking because of its inertness. The vehicle, therefore, must be energetic enough in its drying propensities to enable it to dry in spite of the non-drying tendencies of the pigment with which it is incorporated. The best vehicle for graphite is boiled oil, and we advise grinding graphite in the best boiled oil obtainable. Notwithstanding the heat conductivity of graphite paint, under the action of a blazing sun, nor the electric action of the paint, under normal circumstances, appear to have received the attention which they deserve.

New Salt Deposit in Switzerland. An extensive deposit of salt has been discovered in the Aargau district at a depth of about 1,000 feet, and a thickness of about sixty-five feet. The concession is in the hands of the A. G. der Vereinigten Schweizer Riechsalzwerke, which has undertaken to erect by January 1, 1921, a soda works with a minimum capacity of 20,000 tons per annum. Unless this condition is fulfilled a heavy fine will have to be paid to the cantonal authorities. The concession was originally granted to the Solvay Werke.

a finish as that obtained by hand rubbing a good gloss varnish, it will be a boon to the painters as well as to the manufacturers.

HONEST WORK NOW RECOGNIZED IN PAINTERS' TRADE

Property Owners Should Consider Class of work, rather than the First Cost of Job.

The day of ignorant workman and poor materials in the painting trade has about disappeared and everywhere the cry for better workmanship and paint has found results. The master painters have found that it pays to handle only the best paint materials and to supply only qualified workmen.

Modern science has come to be recognized in the painting trade as well as in other lines of endeavor and at the present time the painters have at their command the best materials that have ever been placed on the markets. The manufacturers of painting materials have about abandoned the idea of selling anything because there is the largest percentage of profit in it but stock that when once used will be sought again and again has come to be recognized as the most profitable in the long run.

The sale of poor paint has been to a great extent the fault of the property owners, who have only looked at the first cost and very seldom took the trouble to find out whether the results would be anything like profitable to them. The painters thought that whatever the property owner would take was the best for them but experience has finally taught them that it pays to use only the best.

Workmanship also received atten-

THE PREVENTION OF LEAD POISONING

Lead poisoning is usually taken into the system through the mouth. Persons working with lead should be careful not to put the fingers in the mouth. Do not take food while at work. Before eating and before leaving work the face should be thoroughly washed. The nose and mouth should also be thoroughly cleaned before eating.

Every precaution should be taken so that the poisonous dust will not enter the breathing organs. Sweet milk should be drunk in large quantities.

The cottonseed oil export of the U. S. A. during the first six months of 1913 amounted to 154,501,000 lbs. valued at \$12,182,000. The figures show a marked falling-off.

THE SUPPLY OF ZINC WILL BE INCREASED

Japan will start in the Refining business on a large scale — Big demand for products.

Zinc mixing in various districts in Japan are worked by the aid of foreign capital and the ore produced is exported, says the British Consul General at Kobe, through the medium of foreign firms loaning the capital, to their respective native countries. While Japan is thus rich in the raw materials, comparatively little actual refining is done in that country, chiefly owing to the insufficient funds and lack of technical skill. About a dozen persons have made an attempt at refining zinc, but although manufacture is undoubtedly not impossible, not one of them has made a complete success of the business. Zinc refining cannot be commenced until after sufficient raw materials have been assured by buying a mine or contracting for the purchase of ore. Consequently before undertaking the business a large amount of capital must be tied up, which is quite impossible for a capitalist of slender means. This is the reason why no great development of the industry is to be seen in Japan.

Two companies for the refining of the zinc have lately been organized in Japan and it is expected that during 1914 a great increase in the production will be noted. It is expected that this will have an influence on the zinc trade of the world and during the next few years there may be some chance of an over supply but this condition will likely only be temporary for the demand for zinc, which is used in many industrial lines as well as in paint manufacture, will naturally increase.

SIGNS OF SPRING

SPRING is Nature's painting time. She tints the trees with soft green leaves. She colors the fields with glowing flowers. And sets us the example of brightness and cheerfulness which we should follow in putting our homes in keeping with Nature's glorious outdoors.

Spring time is painting time — and good painting always suggests

RUSSIAN OIL MILLING DEVELOPMENTS.

In respect to changing over from hand labor and primitive methods of soap boiling to machinery, steam boiling and other improvements, the Russian soap industry made great advances last year, when many factories were provided with cutting machines, autospices, steam boilers, etc. Many factory owners decided to adopt fat splitting and new taking the necessary steps thereto, notwithstanding some what unsuccessful experiments already made in that direction. Only old boilers show decided antagonism to the process. The new oil mill "Sirkis" opened in Odessa, will produce between 500 and 600 pounds of coconut oil per day. The total production of coira oil in Odessa last year was estimated at 700,000 pounds (11,600 tons).

ST. JOHN, N. B., WEDNESDAY, APRIL 22, 1914.

MR. HAZEN APPRECIATED.

That the members of the St. John Board of Trade, in common with the business men of the city, appreciate what Hon. J. D. Hazen has done and is doing for St. John, is illustrated by the Board of Trade news letters which are sent from the office of that organization to 140 newspapers in Canada and the United States. In the letter of April 16th, the publicity committee of the Board makes several complimentary references to the work Mr. Hazen has done for this port. The letter is published in full elsewhere in this issue, but a few extracts from it here may be of interest to citizens generally, and serve to illustrate the work which Mr. Hazen has done for this port. The letter is published in full elsewhere in this issue, but a few extracts from it here may be of interest to citizens generally, and serve to illustrate the work which Mr. Hazen has done for this port.

STILL ON THE WRONG SIDE

Says the Times: "When the Laurier government was in power the bill of a contractor on the National Transcontinental was cut down \$883,000. Then the Borden Government came in and instead of withholding \$883,000 the bill was only cut \$150,000." According to the Times the country would have been saved the sum of \$733,000 if the recommendation of the Laurier government had been adopted. This is interesting news, but the Times utterly fails to explain to its readers that the same Laurier government permitted the firm of M. P. and J. T. Davis of Ottawa to rake off \$740,000 on the N. T. R. contract without turning a spade, or that Simon Napoleon Parent, who was chairman of the Liberal commission which built the N. T. R., was also president of the Quebec Bridge company, and in that capacity, induced the Laurier government to guarantee \$400,000 of bonds which the company had given to the same Michael Patrick Davis to pay a bill of \$160,000 thereby handing over to that gentleman a nice little gift of \$240,000. In these two transactions the Laurier administration permitted the people to be deceived of \$883,000, or \$441,500 more than the Times claims the country lost through the failure of the Borden Government to adopt the cut in the contract the Pugsley newspaper holds up as an example of good business. The balance is still on the wrong side of the ledger—even if we take the Times' statement at full value, which is a risky proceeding these days.

THE SITUATION IN MEXICO.

The American flag floats over the city of Vera Cruz and the price in American blood was four killed and twenty wounded. And all because the man who holds the presidential chair in Mexico refused to salute the American flag by way of an apology for the arrest of a party of American marines by one of his officers. While the flag incident probably brought President Wilson to a realization of the necessity of teaching a lesson to the obstinate Huerta, it was but the culmination of a series of events, any one of which would have furnished ample provocation for a less patient man to ask authority for the despatch to Mexico of an armed force of sufficient strength to impress upon the parties in authority there that, no matter what their domestic relations may be, there are, according to the law of civilized nations, certain conventionalities which must be observed. Respect for the lives and property of foreigners is one of these. Respect for a foreign flag is another. In his messages to Congress the President of the United States has laid stress on the contention that the present excursion to Mexico does not mean a state of war between the two countries. Rather he appears to regard it as a sort of punitive expedition to demand satisfaction for an insult and a deeper respect for the rights of American citizens located in the Mexican republic. Whatever may be the intention of the President, there can be no doubt that the developments of yesterday have greatly increased the gravity of the situation, and it is now difficult to see what can be the result other than armed intervention on the part of the United States, and eventual open war. When the expedition started there was but an insult to be wiped out. Today the killing of four, and wounding of a score of American soldiers remains to be avenged, and the course of retributive justice will not be a short one. Intervention, as it will probably turn out, will mean a long and costly conflict. If the United States follows its action of yesterday, as it is now reasonable to believe it must be followed, Huerta must be soundly punished, and it is too much to hope that the punishment will be all on one side. It will probably be some time before we hear the last echo of the guns of yesterday.

THE HUMAN PROCESSION

EARL OF DUNMORE FORTY-THREE TODAY The Earl of Dunmore, who was a recent visitor to Canada and the United States, was born forty-three years ago today. The Earl is descended from one of the oldest and noblest blooded of Scottish noble families, the title dating from 1686, and is the eighth of his line. His name is Alexander Edward Murray, and, besides the earldom, his family holds the titles of Viscount Pinecroft, Lord Murray and Earl of Dunmore, the latter of the United Kingdom. One of the most distinguished of his ancestors was John Murray, fourth Earl of Dunmore, who was governor of New York and the last British governor of Virginia. He arrived in Virginia in 1772 to find the colony in a state of rebellion against the crown, and in 1774 he dissolved the House of Burgesses for setting apart a day of fasting and prayer in sympathy with the rebellious people of Boston. In 1775 he removed the powder from the arsenal at Williamsburg to a safe place. This action provoked the Virginians to open revolt, and the Governor was forced to seek refuge on board the British ship Powhatan, and the warship became his seat of government. In 1776, after burning Norfolk, he returned to England. The present Earl succeeded his father in 1866, and is immensely wealthy, owning about 80,000 acres, and has large interests in Canadian lands and mines. For several years he was aide-de-camp to the Viceroy of India, and saw active service with the Dongola expedition in 1898 and in the Afghan campaign of the following year. His gallantry in the latter conflict won for him the high honor of the Victoria Cross. His experiences on that occasion were set forth in a book, "A Frontier Campaign." During the South African war the Earl again distinguished himself.

ADA REHAN'S BIRTHDAY

Ada Rehan, the gifted actress who was long one of the favorites of the American stage, was born in Limerick, Ireland, fifty-four years ago today. Newark, N. J., witnessed her theatrical premiere in "Across the Continent" having been brought to America by her parents, who settled in Brooklyn, when Ada was aged five. For several years after entering "the profession" Miss Rehan played with stock companies in Philadelphia, Louisville, Albany, New York, and other cities, but in 1875 she began her long association with Augustin Daly as the leading woman of his company, in which she won an international reputation as a Shakespearean actress, both in America and England.

FIRST THINGS

BRAZIL. The first white man to visit Brazil was Pedro Alvarez Cabral, a Portuguese navigator, who landed near the site of the present city of Bahia 414 years ago today, April 22, 1498. Other navigators are alleged to have touched the Brazilian coast prior to that time, but there are no records or other proofs to substantiate such statements. Cabral christened the country Terra da Santa Cruz, or Land of the Holy Cross, and took possession in the name of the Portuguese monarch. No attempt was made to found a permanent settlement until 1549, when Thomas de Souza was dispatched to the country as governor. It was at about this time that the name of the Portuguese South American possession

Little Benny's Note Book

BY LEE PAPE. I was combing my hair for supper yesterday and I combed it with the mild del part just to see what it looked like, which it looked so funny I thawt, G. I imagine anybody going around looking like that, I'll ware it down to supper that way just for fun. Wich I did, and as soon as I got in the dining room ma sed, Well its about time you calm down, well for goodness sakes, slants wene have you bin flogging yure hare in that outlandish fashion. Ha, ho, ha, ha, well if yure not a site sed pop. Go back and flocks it rite, for land sakes, sed my sister Gladdis, merrsey, thats terrible. No, let him see his suppr that way, sed pop, ha, ha, thats the funnest thing I've seen slants yure muthr tried to ride a bystick in 1899. Goodness, Willyum, its a yurefir you woodent dig up sum slantest history wile yure about it, sed ma. And I sat down in my place and Gladdis sed, Wy farthir, yure not reely going to let him sit down that way, are you. Wy not, sed pop, they say a littel laffir at meals is bettir than a holebuckit of terbaok sauce, and we set tery have a comkik specktil in ourmidst, ha, ha, ha, as I think I remark ed, I haven't seen anything so funny as yure muthr tryed her luck awn a bystick in 1899. Yes, and we awhi her remark it, sed ma, I dont see the silltest necessity of respecting it. Farthir, look at him, sed Gladdis, hes jest spolling my appetite, thats what hes doing, I nevir saw sutch a looking thing in my life. Then you nevir saw muth, I gues, I sed. Benny, in the grate cause of yewnersill peece, sed pop, perhaps you bettir inkwire yure way to the bathroom and push your part back to the left side were publik opnyin sedd to think it belangs, ha, ha, ha. Wich I went upstares and id, making anuthr face at Gladdis awn the way out, being the foarest face yet, any she pertended she didnt see me make it.

Diary of Events

HISTORIC DAYS IN CANADA

Among those pioneer educators of Western Canada, including the Rev. John West, Father Tache, the Rev. Dr. John Black and Father Provencher, "who spent their lives in a thin line of labor and self-sacrifice over a vast extent of territory stretching to the Pacific ocean—among the great leaders, clergyman and educators of Canadian Presbyterians, such as Principal George Monro Grant, Dr. James McGregor, Dr. John Cook, Dr. Robert Burns, Dr. William Owen, Dr. Alexander MacKnight, Dr. Alexander Matheson and a host of others—among such illustrious names as these that of Rev. George Bryce is not yet placed. He has been called "the pioneer of education in the Canadian West," and while others must share that glory, it is his name that is most honored. Dr. Bryce's fame. He was born in Mount Pleasant, Ont., seventy years ago today, graduated from the University of Toronto in 1871, and was ordained to the Presbyterian ministry in 1871. After serving as assistant pastor of Chalmers Church in Quebec, he was called to the pastorate of the Presbyterian Church in the important task of laying the foundation for the denomination's religious and educational work in Manitoba. He established Manitoba College in Winnipeg in 1871, and the following year organized Knox Church in that city. In 1877 he became one of the founders of the University of Manitoba, which was a federated institution embracing Manitoba College, St. John's College, and the pioneer Anglican Red River Academy, the Catholic college of St. Boniface and the Methodist Wesley College. For many years Dr. Bryce was professor of English literature and head of the university's faculty of science. His published works include many valuable histories, among them a "History of Manitoba," "Canada and the Northwest," and "A Short History of the Canadian People." In 1902 he was moderator of the Presbyterian General Assembly of Canada, and in 1909 served as president of the Royal Society of Canada. In his variety days in Toronto he was captain of the football club, and later was a famous curler and golfer.

Model Costumes

DO NOT BE LATE OTHERWISE YOU ARE SURE TO BE DISAPPOINTED AS THESE GARMENTS WILL CERTAINLY GO OUT QUICKLY.

We have already this season placed three of the most extraordinary Costume bargains ever offered the ladies of St. John and vicinity, which were certainly appreciated by the rapid transit these suits took, consequently we endeavoured to procure another manufacturer's set of models with which to satisfy those who were unable to participate early enough to get one of these great bargains. We have been again most fortunate and have received 45 beautiful models at about half the cost of production. Every garment is right up-to-the-minute in style and fabric and will be sold to the early buyers at

12.50 a Costume

The materials are Serges, Brocades, Whipcords, Shepherds' Plaids, etc., in Navy, Copenhagen, Black Tan, Brown and Mixed Colorings. These comprise principally sizes up to 38. All silk and satin lined.

ABSOLUTELY NO SALE GARMENTS ON APPROVAL OR RETURNABLE. ALL ALTERATIONS ON SALE GOODS TO BE PAID FOR.

Buy this oven-tested flour

Your oven will certainly produce more bread and better bread as a result of our oven test.

From each shipment of wheat delivered at our mills we take a ten-pound sample. It is ground into flour. We bake bread from this flour. If this bread is high in quality and large in quantity we use the shipment of wheat from which it came. Otherwise, we sell it.

The baking quality of flour sold under this name is therefore an exact certainty. Buy and benefit!

REAL PRINCESS TAKES TRIP ON S.S. CHIGNECTO

R.M.S. Packet in port after pleasant voyage - Princess Marie Louise, of Schleswig Holstein.

The R. M. S. P. steamship Chignecto, Captain Owen Lewis, R. N. E. R. D., arrived in port from the West Indies last evening and docked about nine o'clock with a full cargo and 151 passengers and the mail. Her passenger list included 56 first cabin, 12 second and 63 third class. The first cabin passengers were:

From Demerara—E. B. Hewsam, G. L. Forshaw, J. E. Greene, C. F. B. Byr, J. H. Gomez, S. A. Prandisco, Mr. and Mrs. Rodriguez, J. W. Hopkins, C. B. Allan, Colin Fraser, Mr. and Missutherland, A. McKay, Mrs. Ed. Lemons, Mr. and Mrs. E. M. Walker, Miss M. J. Ward, Mrs. M. Drake, W. Kenneth Haley, Mrs. S. A. Howe, Miss L. Brown, Miss E. Johnstone.

From Trinidad—Mr. and Mrs. Young, A. Cann, Mr. and Mrs. J. H. Killam, Miss N. H. Killam, Miss O. C. Woodill, H. A. Rudin.

From Barbados—Mr. and Mrs. H. Hughes and daughter, Mr. and Miss Low, Mr. and Mrs. F. D. Cummins, J. F. Chisholm.

From Dominica—C. M. Rawlinson, A. M. Rawlinson.

From Antigua—Mrs. T. A. V. Best, Miss Fullerton, Mrs. and Miss Skill, Mr. and Mrs. J. Connell, Mrs. E. A. Voessack, Mrs. D. W. Kennedy and son, Miss L. Hewson, Mrs. Hewson, Mrs. Christie, A. W. Brown, Miss F. Pipes.

Captain Lewis states that the voyage up from Bermuda to St. John was an exceptionally good one until entering the Bay of Fundy and then the ship encountered a dense fog, which lifted when the ship reached the Lancher.

WOMEN'S AUXILIARY OF THE CHURCH OF ENGLAND MEETS

Sessions in Stone Church, Yesterday, taken up with Addresses and Reports—Various departments in Flourishing Condition, and progress noted all along the line.

At the afternoon session of the Diocesan branch of the Women's Auxiliary of the Church of England in Canada, the president, Mrs. Thomas Walker, delivered her address which contained an interesting account of the work of the year. In addressing the delegates Mrs. Walker said in part: "Dear Sisters and Fellow Workers: It was with a glad heart that I addressed you on this, the occasion of our eleventh annual meeting. This I will say that I more than ever believe in the power of united hearts and the advancement of a good cause, also that the faithful and loyal effort on behalf of the parochial branches to make the Ladies' Guilds, the work of the year, taken by the Diocesan Branch has given the greatest possible satisfaction to the officers of the executive. When a year ago we were forced to accept the resignation of our valuable and beloved treasurer we were almost despairing so futile were our efforts to procure a successor. Then it was that Mrs. R. A. Armstrong offered her services thus winning our deep gratitude. Pressing claims of home duties and her withdrawal from office but not before she had endeared herself to us all. We have been fortunate in securing for this important office Miss Clara Schofield.

Increased Interest. I would express thankfulness for the continued and I think increased interest in missionary study. The Diocesan work this year has given special satisfaction. The "Babies' Branch" has increased in size and usefulness. In attendance we say, "Be good, be true, let us all renew our faith in the power of prayer. May we all strive in the coming year to be more prayerful and more diligent."

Excellent Address. Owing to the absence of Miss Cartwright, of Toronto, who was to address the delegates, the speaker of the afternoon was Rev. LaTouche Thompson, M. A., Chaplain, who gave an interesting and educational address on the association of women with charitable and moral reform. Previous to his address he was in the position of woman of today with her relative position at the time of Reformation. He said, bodies whose object was to improve and modify conditions meant.

ODDFELLOWS COMMENCE CELEBRATION OF THE FOUNDING OF THE ORDER. Ninety-fifth Anniversary will be marked by Three Days of Rejoicing—Big Concert in York Theatre This Evening.

This evening in the York Theatre the different lodges of Oddfellows in the city will begin a three-day celebration of the ninety-fifth of the founding of the order in America. Tonight a concert will be held for which some of the finest talent in the city has been engaged. This takes place in the main theatre. The musical programme will be followed by supper and a dance in the assembly rooms, music being furnished by Jones' orchestra. It is anticipated that some seven or eight hundred people will be present. This affair is open to Oddfellows, their families and friends. Tomorrow night the programme will be for members of the order only and will consist of the exemplification of the initiatory degree on a class of candidates by a selected team from Golden Rule Lodge of Carleton. This will be followed by a smoker down stairs and an impromptu programme. On Sunday afternoon next, the members of the order will attend service in St. Andrew's Presbyterian church, the speaker being Rev. Gordon Djakie.

EVERY DAY CLUB BOYS ENTERTAINED BY THE LADIES OF THE W.C.T.U.

Pleasant affair in Club Rooms, last evening—Render excellent program—Physical Drill.

The ladies of the W.C.T.U. gave an entertaining to the members of the Every Day Boy's Club last evening in the club rooms. The committee in charge of the entertainment was composed of Mrs. Joseph Seymour, Mrs. R. Morton Smith, Mrs. W. H. Humphrey, and Mrs. C. F. Woodman. Mrs. Seymour delivered an interesting address to the boys, after which an interesting programme was carried out by a number of young ladies. Miss Myrtle Fox contributed a piano solo, Miss May and Ethel Alcorn a vocal duet, while Miss Jean Hoyt, Miss May Sparks and Miss May Alcorn gave readings, and Miss Brown and Miss Earle sang a duet. A group of the boys under the direction of Sgt. James Sullivan gave an exhibition of marching and physical drill. After this the ladies served refreshments to about 60 boys. A feature of the evening was the presentation to the boys' library of a number of books, the gift of Mrs. B. C. McIntyre. When the affair broke up the boys gave three rousing cheers for the ladies of the W.C.T.U.

Had Good Time. The Young Ladies' League of the Y.M.C.A. entertained members of the senior class at Riverdale Camp, Grand Bay, last evening. The party went out on the 6.45 express and returned on the Boston. About forty were present and an enjoyable time was spent. Mrs. C. E. Harding was chairman.

Seek Opening. A man who has been in the plumbing business in Yonkers, N. Y., is thinking about locating in St. John. He has written to the Board of Trade asking for information about the city, its future prospects, and the outlook for a new plumbing business here.

Calvin Austin. The Eastern Line steamer Calvin Austin, from Boston and Maine ports, arrives here yesterday afternoon about three o'clock with a fair freight and passenger list.

From Barbados. The schooner Evelyn with a cargo of molasses arrived in port last evening from Barbados. The cargo is consigned to G. E. Barbour and Co.

BABY ALL COVERED WITH ECZEMA. Could Not Sleep Day or Night. Itched and Burned Terribly. Cuticura Soap and Ointment Cured in a Month. Also Cured Mother of Salt Rheum.

How American Women May Keep Faces Young. "The American smart woman ages early, far earlier than the English woman," says Christian Miller, F. C. I., the famous English skin expert. She adds that our climate "so exhilarates that you over-exert yourselves and grow old before you know it. That same exhilarating air dries the skin and withered looking and soon forms wrinkles."

WHAT TO DO FOR SORE THROAT
SOME GOOD ADVICE BY A SPECIALIST.
As there seems to be a regular epidemic of sore throats this winter, the following valuable recipe will be welcomed by many. A sore throat is as dangerous a complaint to trifle with, as the bronchial tubes lead directly to the lungs and the disease often travels along these tubes into the lungs and there sets up an inflammation that invariably results in a serious lung trouble.
At the first sign of soreness in the throat or around the tonsils you should secure from your chemist 1 oz. of Parmitin (double strength) and take this home and add to it 14 pint of hot water and 4 oz. of moist sugar. Stir until dissolved. Take one tablespoonful four times a day. This will give instant relief and will usually cure the worst throat within 48 hours. The healing and soothing qualities of this formula are unequalled, and every person suffering with a bad throat should give this prescription a trial. There is nothing better.
Important—in ordering Parmitin always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send five to the International Laboratories, 74 St. Antoine St., Montreal, who make a specialty of it.

ROYAL YEAST
Lieut.-Governor Wood is at the Royal.
The many friends of Mr. Louis Coe of the firm of Coe and E. Sheehan, who has been seriously ill with congestion of the lungs, will be pleased to learn that he is recovering.
H. H. Brown, proprietor of the St. Regis Hotel, Amherst, is in the city on a business trip and is meeting many of his old friends.
Case Settled.
Tony Cobell was before the police magistrate yesterday afternoon on the charge of wandering about the I. C. R. yard early yesterday morning and not giving a satisfactory account of himself, also with carrying a loaded revolver in his pocket. He was fined eight dollars, which he paid, and a fine for carrying the revolver was allowed to stand against him.

A. R. GOULD ON STAND IN THE NAGLE SUIT

Interesting Evidence Heard in Circuit Court Yesterday.

PROMISSORY NOTES BASIS OF ACTION

President of St. John and Quebec Railway Company tells of his dealings with James D. Seely.

The case of Thomas Nagle vs. The Quebec and St. John Construction Company, and The St. John and Quebec Railway Company came up for trial in the Circuit Court yesterday morning before Mr. Justice McKewen, and the following jury: John H. Hamilton, Edward P. Watson, William Charlton, Frank R. Coleman, Frederick French, Harold Sully, William A. Stackhouse, William Tait and William H. Pyne were challenged by the defendant's solicitor, Dr. W. B. Wallace, K. C., and H. O. McInerney appeared for the plaintiff, and D. Mullin, K. C., and P. A. Guttridge for the defence.

This suit is brought to recover \$12,000 the amount of a promissory note, dated February 17, 1913, made by the defendants and payable one year after the date thereof to James D. Seely, by whom the note was subsequently assigned to the plaintiff. Mr. McInerney outlined the plaintiff's case, and the following evidence, without first making a lengthy argument between counsel as to whether or not the note should be admitted in evidence, without first being proved in the usual way. Doctor Wallace contended that it should be admitted in as much as it was admitted in the evidence, without first being proved in the usual way. Doctor Wallace contended that it should be admitted in as much as it was admitted in the evidence, without first being proved in the usual way.

THE BRIG ACACIA.

(Yarmouth Telegram).

Dear Sir,—As I see in the Telegram you are asking for any information as to the brigantia Acacia, I will say that she did not load at Lunenburg. She loaded at East Jordan River, Shelburne Co. I was her stevedore. Capt. Munroe and I were friends. He joined her in Halifax one week previous. He told me this was his last trip to sea. The owners of the vessel wanted him to bring her to New York before he went home. I think that the brig was built by Mr. Seely and owned by him, not John Hutt. As I was living at Port Medway at the time she was built, I am not real sure of that, but Seely owned her. I have several presents now that Capt. Munroe gave me when he went away. If there is any more information I can give I will be glad to do so.

W. M. A. MUNROE,
East Jordan, Shelburne Co.
April 12th, 1914.

How You Can Remove Unightly Hair or Fuzz

(Bosford Secrets)

By having a small package of delicate hand, you can quickly banish ugly, unightly hairs wherever they may appear. Just enough paste to cover the hair surface is made with some of the powdered delatone and water. This is applied for about two minutes, then removed and the skin washed. This simple method not only banishes every trace of hair or fuzz, but leaves the skin firm, smooth and free from blemish.

Heart and Nerves Were Bad. Could Not Sleep.

To the thousands of people who toss on a sleepless pier night after night, or who pace the bedroom floor with nerves on the jump, the heart action all wrong, and to whose eyes sleep will not come, Milburn's Heart and Nerve Pills offer the blessing of sound refreshing slumber, as they restore the equilibrium of the deranged nerve centres and correct the wrong action of the heart.

Mrs. Charles Teel, Horsecastle, Ont., writes:—"Just a few lines to let you know what Milburn's Heart and Nerve Pills did for me. My heart and nerves were so bad I could not sleep, and the least noise or excitement would make me feel so that I used to think I was going to die, and I would tremble until I could hardly stand. I took doctor's medicine, but it did not do me much good. At last I tried Milburn's Heart and Nerve Pills and can certainly say they did me a great amount of good. I can recommend them to anyone who is suffering as I was."

Milburn's Heart and Nerve Pills have been on the market for the past twenty years, and have done more to steady the shaky nerves and strengthen weak hearts, than any other known preparation.

Price, 50 cents per box, or three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

How You Can Remove Unightly Hair or Fuzz

(Bosford Secrets)

By having a small package of delicate hand, you can quickly banish ugly, unightly hairs wherever they may appear. Just enough paste to cover the hair surface is made with some of the powdered delatone and water. This is applied for about two minutes, then removed and the skin washed. This simple method not only banishes every trace of hair or fuzz, but leaves the skin firm, smooth and free from blemish.

A Better Tone on the Great Stock Exchange Yesterday.

CANADIAN PACIFIC MUCH IMPROVED

News of Exchange and Canada Shares, led to Advance the former.

(F. B. McCURDY & CO.)

Montreal, April 21.—Trade of the tape closely today market was full of interest of Crown Reserve continues price broke to 120 as compared to 114 at the close yesterday. Moved to 122 in the afternoon. P. R. and O. On active buying Crown Reserve Mining Company, has England to watch a case before Privy Council. He made no prior to his departure but the company state that even the mine is in good position, are good and the dividend is usual when no official in it is forthcoming, a multitude spread. There appears to be a ready appreciation that the price of Crown Mine is falling. Quality of its ore. This market controlled by Crown Reserve and at the rate of 8 p. c. Yom. P. R. and O. On active buying it is now thought that a general advance of the market. There was not much Canadian traction but the market was followed by a sharp decline. On active buying market strengthened to 102 1/2, then on an advance of a few points from the morning's closing. The Amos Holden report it is now thought that a general advance of the market. There was not much Canadian traction but the market was followed by a sharp decline. On active buying market strengthened to 102 1/2, then on an advance of a few points from the morning's closing. RESPONSE TO CHANGE ON N. Y. MARKET

A Better Tone on the Montreal Stock Exchange Yesterday.

CANADIAN PACIFIC MUCH IMPROVED

News of Exchange R. & O. and Canada Steamship Shares, led to Advance in the former.

(F. B. McCURDY & CO.)

Montreal, April 21.—Traders watched the tape closely today when the market was full of interest. Selling of Crown Reserve continued and the price broke to 120 as compared with 141 at the close yesterday but recovered to 122 in the afternoon. Colonel Carson, president of the Crown Reserve Mining Company, has left for England to watch a case before the Privy Council. He made no statement prior to his departure but officials of the company state that everything at the mine is in good position, prospects are good and the dividend safe. As is usual when no official information is forthcoming, a multitude of rumors spread. There appears to be considerable apprehension that the Porcupine Crown Mine is falling off in the quality of its ore. This mine is controlled by Crown Reserve and its dividend at the rate of 8 p. c. are equal to about 1 1/2 the dividend disbursements of the Crown Reserve Mining Company.

The official announcement that the shares of R. & O. would be exchanged for shares in the Canada Steamship Lines will be made shortly after June 1st was followed by a sharp advance in R. & O. On active buying the market strengthened to 102 1/2 in the afternoon an advance of about five points from the morning's low. Continued English buying is reported and it is now thought that a good many traders who were disposed to liquidate their holdings will hang on to a definite date when fixed for the exchange of securities.

There was not much change in Brazilian traction but the market was firm at the close. The Rothchilds have been furnished with a statement of the financial position of the Republic of Brazil which indicates that the outlook is gloomy than is generally believed.

The general improvement in Wall Street had a stimulating effect on C. P. R. and on the local exchange, the market advancing to 200 in the afternoon.

Iron was unchanged at 28 1/2 to 28 but closed at 28 1/2. Well informed circles do not think that the reduction in western freight rates will affect the buying of steel rails by the railway companies.

Cement opened steady at 20 but in the afternoon sold off fractionally. The preferred was higher, however, at 92 1/2. The Ames Holden issues continue easy. The preferred sold this morning at 57 1/2 as compared with sales last week at 60. Later it strengthened to 58.

LONDON HAS NO CHANCE TO TALK

Hon. Mr. Griffiths Replies to Head of English Financial House, and Points Out Soundness of Canadian Issues.

London, April 21.—An interesting Anglo-Canadian incident arose at last night's dinner of the Jewish society of Macabees given in honor of the Dominion's representatives. Lord Emmott represented the government, and there were also present Sir Stuart Samuel, M. P., head of the financial house of Montague, Israel Zangwill, Walter Emmanuel, the French humorist, Sir John Anderson, colonial office; Hon. Mr. Myers, minister of defence of New Zealand; Hon. Mr. Macdonald, high commissioner for New Zealand, and Hon. Mr. Griffiths, official secretary of the Canadian government here.

Sir Stuart Samuel, proposing the toast to the Dominions, and speaking with all the weight of a leading British financier, made what was accepted as a reflection upon Canadian financial operations, and said it would be well if the Dominions considered whether it would not be wise to give the British market a breathing spell between the repeated application for money, which, among other results, has raised the rate of interest against them.

Hon. Mr. Griffiths responding respectively admitted that it was unnecessary to refer to the government securities of Canada, which stood upon an impregnable basis, and this also explained the Canadian municipal position. Moreover all Canadian concerns managed with prudence were in a sound condition today. He submitted that Sir Stuart should address his advice to the men of London who he shrewdly suspected were at least as fully involved as any Canadians in the exploitation of unsound positions.

WHERE FARMER CAN INCREASE PROFITS

Montreal, April 21.—When the western farmer learns that he can realize a forty per cent increase in the price of his wheat, or fifty per cent on his oats then there will be more mixed farming in the Canadian Northwest than was ever dreamed of before, said Mr. A. M. Dornin of Edmonton, Alberta, who is in Montreal with five carloads of prime western hops today.

"We have been sending our grain in previous years," he said, "to market and realizing something like 60 cents per bushel for our best wheat after hauling it to the elevators and about 25 cents for our oats. But many of us in the Northwest are awakening now and instead are hauling the grain to our barns and feeding it to pigs. In this way we are turning sixty per cent wheat into dollar wheat, and 25 cent oats in fifty cent oats."

TRANSFERRING THE STOCKS ADVANCE ON WALL STREET

Technical Influences Proved Stronger Factor than Mexican Crisis.

Street absorbed in news concerning Mexico—Definite move at Capital relieved Uncertainty of past few days.

(F. B. McCURDY & CO.)

New York, April 21.—Notwithstanding the depressing influence of the Mexican crisis, the stock market advanced today. Technical conditions proved to be a stronger influence than the Mexican news. It was apparent that the steady selling on the decline of the past week had brought about an oversold condition. It was asserted by some brokers that, in proportion to the amount of business, there was now outstanding a larger short interest than at any other time recently. Whether or not such an unusual condition exists offerings were sufficiently scarce to impel short covering on a rising scale of prices.

IMPROVEMENT IN WHEAT MARKET

Chicago, April 21.—Wheat—Has shown an improving tone. There are a few new features of strength besides the fact that the liquidation in the other grains appears to be over and therefore has not affected wheat adversely. Rapidly decreasing world's reserves and the complaints of dry weather again from the western edge of the winter wheat belt have been the factors. This modest improvement in the world's statistical situation may forebode a more pronounced improvement on the other side to purchase that amount of stock here from some prominent London interests.

This modest improvement in the world's statistical situation may forebode a more pronounced improvement on the other side to purchase that amount of stock here from some prominent London interests.

WHERE FARMER CAN INCREASE PROFITS

Montreal, April 21.—When the western farmer learns that he can realize a forty per cent increase in the price of his wheat, or fifty per cent on his oats then there will be more mixed farming in the Canadian Northwest than was ever dreamed of before, said Mr. A. M. Dornin of Edmonton, Alberta, who is in Montreal with five carloads of prime western hops today.

"We have been sending our grain in previous years," he said, "to market and realizing something like 60 cents per bushel for our best wheat after hauling it to the elevators and about 25 cents for our oats. But many of us in the Northwest are awakening now and instead are hauling the grain to our barns and feeding it to pigs. In this way we are turning sixty per cent wheat into dollar wheat, and 25 cent oats in fifty cent oats."

STOCKS ADVANCE ON WALL STREET

Technical Influences Proved Stronger Factor than Mexican Crisis.

Street absorbed in news concerning Mexico—Definite move at Capital relieved Uncertainty of past few days.

(F. B. McCURDY & CO.)

New York, April 21.—Notwithstanding the depressing influence of the Mexican crisis, the stock market advanced today. Technical conditions proved to be a stronger influence than the Mexican news. It was apparent that the steady selling on the decline of the past week had brought about an oversold condition. It was asserted by some brokers that, in proportion to the amount of business, there was now outstanding a larger short interest than at any other time recently. Whether or not such an unusual condition exists offerings were sufficiently scarce to impel short covering on a rising scale of prices.

IMPROVEMENT IN WHEAT MARKET

Chicago, April 21.—Wheat—Has shown an improving tone. There are a few new features of strength besides the fact that the liquidation in the other grains appears to be over and therefore has not affected wheat adversely. Rapidly decreasing world's reserves and the complaints of dry weather again from the western edge of the winter wheat belt have been the factors. This modest improvement in the world's statistical situation may forebode a more pronounced improvement on the other side to purchase that amount of stock here from some prominent London interests.

WHERE FARMER CAN INCREASE PROFITS

Montreal, April 21.—When the western farmer learns that he can realize a forty per cent increase in the price of his wheat, or fifty per cent on his oats then there will be more mixed farming in the Canadian Northwest than was ever dreamed of before, said Mr. A. OUTSIDERS OFTEN BEAT CHAMPIONS

Dan McKetrick, manager of Frank Moran, who mingles with Lil Artha Johnson in Paris on June 27, snatched across the parchment the other day and slipped a careful of golf.
 Dan says: "Tell me of three champions who lost titles to first class men. You know as well as I do that outsiders have topped more titles than long shots have skinned under the wire ahead of big fields."
 Pretty good stuff, at that, when you come to look up the dope.
 People have an idea that Johnson is so far superior to any man boxing today that betting is almost useless, yet the men who have shocked the boxing world most have been boxers who were considered beaten before the bell rang at all.
 Look at Corbett and Sullivan. The great Sullivan was so confident of winning, and his admirers were so anxious to get the dough that at one time the odds were six to one that Corbett would be knocked out. As it happened, the young Californian jabbed the great John L. into an awful state, finally knocking him out and taking the championship.
 Terry Thought Inevitable
 Another great shock was when Terry McGovern was knocked out by Young Corbett at Hartford. Whoever dreamed that there was a feather-weight alive good enough to beat the great Terry? Odds of four to one were offered that Corbett would be knocked out, yet the wise ones lost.
 There are any number of champions who lost to what the sporting world called suckers.
 Jim Jeerles was pictured as a loser when he failed miserably in his attempt to stop both Bob Armstrong and Steve O'Donnell on the same night, yet he returned later and knocked Bob Fitzsimmons the champion, silly, and took his laurels.
 Stanley Ketchel was an unknown when he went West to battle Joe Thomas, a featherweight champion. They hardly gave him a tumble, but a year later they would have bet the family jewels on him.
 Joe Gans lost his title to Battling Nelson, the man they called a mere slagger. Later on he repeated.
 Attell Another Instance.
 Abe Attell so far outclassed his featherweight rival that he could get few matches and he had to go to Los Angeles one sunny afternoon to pick up a bit of change with a boob named Johnny Kilbane and lost his title. Considerable shock to Abe as well as the rest of us.
 There is in print a few surprises to shake up your memory:
 Al McCoy knocked out George Chip.
 Ad Wolgast stopped Battling Nelson.
 Willie Rickles won from Wolgast as a foul and beat him decisively later on in Milwaukee.
 George La Blane, the marine, knocked out the great Jack Dempsey.
 Kid McCoy knocked out Tommy Ryan.
 Mr. McKetrick doesn't insist that Moran will knock Johnson out when they meet, but he says that he has just as good a chance to cop a title as any man in the world had.

SPORTOGRAPHY BY "GRAVY"

RUBE MARQUARD

Richard de Marquard is the real name of the eminent Giant pitcher whose name appears in the box score as Marquard, and who is popularly known among the fans as "Rube." The valiant and redoubtable Richard was born in Cleveland just a quarter of a century ago today, April 22, 1889. His change of name is an illustration of the power of the press. When Richard, after a season with Canton, O., in the Central League, was signed by the Indianapolis American Association club, a Hoosier sporting scribe, either by mistake or because he didn't consider De Marquard a proper sort of moniker for a ball player, referred to him as Marquard. In spite of Rube's strenuous denials, the name of Marquard stuck, and he was forced to accept it as his own. At Canton the lengthy twirler won twenty-three out of thirty-nine games, and he annexed twenty-eight of the forty games he pitched for Indianapolis. That performance naturally attracted wide attention, and Marquard became the property of the Giants for a cash consideration of \$11,000. His first year in the big league was a dismal failure, as he

Marquard, 25 Today, Owes his Success to Mugsey and Robby.

received the title of "the \$11,000 lemons." That he stuck it out and eventually became one of the most brilliant stars of the diamond was due in part to the confidence which "Mugsey" McGraw had in his ability to make good, and in part to the careful coaching of Wilbert Robinson. "Robby" now the manager of the Brooklyn Dodgers but then coach of the Giant pitchers, shared McGraw's faith in the "Lemon" and while press and public were panning Marquard and demanding his release, "Robby" was putting the Rube through that course of careful training that made him one of the greatest pitchers of the age. As a matter of fact, it was a case of growing stage fright that stilled Marquard. When he went out to the box on a big league diamond he was so filled with fear that he couldn't get the ball over when runners were on the bases that he didn't put anything on the pill, and as a result the batters fell on his delivery and smote him sore. Robby restored the pitcher's lost confidence and when that was accomplished Marquard demonstrated that New York had got a bargain for its \$11,000.

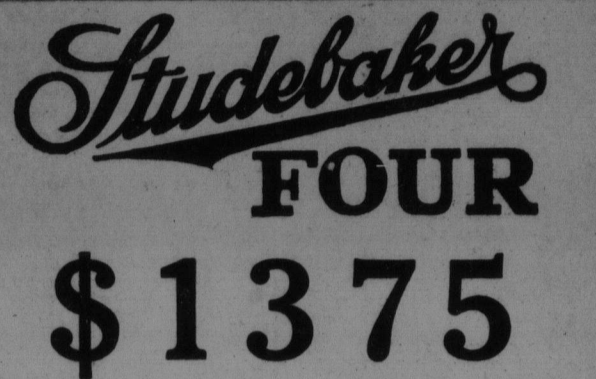

lose or draw—then they don't need to wait; they can call things off on receipt of this letter. I gave that to Burris—win, lose or draw. I won my title on those conditions, and any time that I shall do battle it will be under those conditions and none other. I am a boxing man boy, and I am getting my price, I don't care what the public think; I am the one to be satisfied.
 Yours truly,
 JACK JOHNSON.

ATHLETICS SPECIAL SOUP CHANGE LUCK

The first thing Connie Mack did when he arrived at his hotel in Boston a few days ago was to get in touch with Boniface Whipple.
 "Where's that soup?" he demanded. "Getting it ready now, Mr. Mack. 'All right; don't fail me. We need it badly.'"
 This conversation held in the presence of the writer called for some explanation, so the great baseball general elucidated:
 "Whenever we come to Boston after a losing streak, Mr. Whipple has prepared for us a special kind of soup that is guaranteed to make our team win. It has never been known to fail. As the Athletics haven't won a game this season I thought it about time to call for the soup."
 Mack brought all his world's champions with him for the five-game battle against the Red Sox. Harry Davis, the major domo of the team, Eddie Plank and Chief Bender.
 "I don't expect that either Plank or Bender will pitch for some time," said Mack. "It is possible that Eddie Langford will be pitched for. We have tonight got three innings, but that would be about all. They will be heard from later. Just now I am relying on my pitchers."
 "My pitchers haven't shown anything yet, and as the boys haven't begun to bat we haven't won any games. But that's all right. We will be coming fast before long. Yes, sir, we have good recruits that may develop, but it will take time."
 "We had good weather in New York and speaking of New York I want to tell you they have a different team over there this year. Yes, sir, you can't fool along with Chance's club this season. Looks like a brand new, fast, aggressive team with some fine pitchers on the staff."
 Connie was cheerful. "Just wait until our team gets going," he exclaimed.
 Asked about the Federal League, he said:
 "I think the Feds will hang themselves if organized ball will only give them this rope. I see no chance for them to eventually succeed. Baltimore and one or two other cities seem to be crazy about them, but Baltimore isn't a big league town and will never pay big league prices to see a ball game. There are several ways the Feds could be beaten by organized baseball if they care to put on the pressure, but, as I say, I believe they will hang themselves. They don't know what they are up against."

LANGFORD IN THE FIFTH.
 Memphis, Tenn., April 21.—"Rough house" Wars of New Orleans was saved from a knockout by Sam Langford of Boston last night when Referee Haack stopped an eight-round bout in the fifth round and awarded Langford a victory. Another punch of any kind would have ended Wars.
 Langford knocked Wars down three times in the first round, the bout had hardly begun when Sam floor-

ed him with a left. A moment later he sent him down with a right to the jaw and again with a right to the jaw; but Wars was fighting at the end of the round.
 In the next three rounds Langford beat Wars unmercifully on the kidneys and sent him halfway across the ring several times with rights and lefts. Wars made his best showing in the fourth, when he brought the blood from Langford's mouth with a right.
 Langford apparently went in to finish it in the fifth. He sent Wars against the ropes with a crushing right to the jaw. Wars swayed and fell into a left going to the floor. He came out in the open after getting up, and went down from a left to the jaw. When he got up Langford sent him against the ropes again, and with Wars helpless and Langford about to fire the fatal shot, Haack intervened.
 She—if I'd known before we were married that you swore so, I'd never have accepted you.
 He—Confound it! That's what comes of being a hypocrite.

Studebaker FOUR \$1375

Electrically Lighted Electrically Started Full Floating Rear Axle

THE happy medium between light and heavy—a "Four" that rides as steadily as though it weighed much more.

But a light car, nevertheless; with all the economies that accrue therefrom.

A beautifully balanced, amply powerful, and a perfectly proportioned "Four."

A "Four" with full floating rear axle.

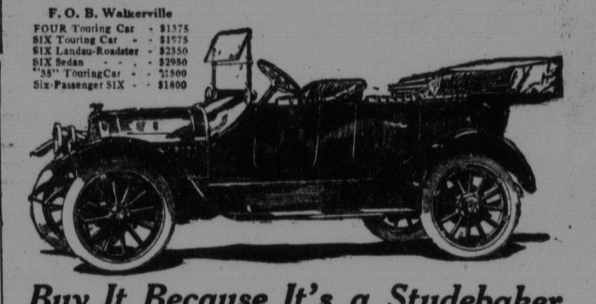

A "Four" with a full equipment of Timken bearings.

A full five-passenger "Four."

A "Four" with a superb Studebaker-Wagner separate-unit system of starting and lighting.

A "Four" so efficient that the last excuse for paying more for any "Four" is finally eliminated.

THIS DATE IN RING ANNALS

1903—Jack Root outpointed Kid McCoy in ten rounds at Detroit. Root and McCoy were originally matched to fight for the light heavyweight championship of the world at Windsor, Ont.; but the Canadian authorities objected, and the bout was made a ten-round affair before the Metropolitan A. C. Detroit. Root was at his best that night, but McCoy was very evidently in poor shape. In the first two or three rounds the clever Hoosier battled in something like his former form, but in subsequent rounds the aggressive Root was the master, and several times landed blows that sent the Kid sprawling. Only his long experience and ring generalship enabled McCoy to go through the full ten rounds. After that McCoy quit the ring, but about a year later he "came back" and knocked out Henri Placke, "the Dutch mountaineer," who had been hailed as a heavy weight wonder, in the second round at Philadelphia.
 1901—Jack Roberts knocked out Billy Smith in eighth round at London.
 1904—Jack Johnson knocked out Sam McVey in twentieth round at San Francisco.

INTERNATIONAL LEAGUE.

LIL ARTHUR WILL NOT BE DICTATED TO

The following is a copy of a letter sent by Champion Jack Johnson from Paris to manager Bettinson, of the National Sporting Club in London, upon whose doormat the Chicago negro seems to have wined his shoes in a decidedly saucy manner.
 However, even the member of the club must have enjoyed some laughter over the impudence of the calling down Little Arthur has given Bettinson. The letter is as follows:
 Dear Sir—I received your letter this morning and I must say that the offer which you have made me is absolutely ridiculous to my thinking. I have defeated Langford in the past, and Langford has been beaten four times in the last two years. He was beaten by Sam McVey in Australia; he was also defeated by Joe Jeannette on two different occasions in New York City, and not so long ago he was defeated by Guadalupe Smith in his own home town, Boston, so the only thing I can get out of the fight is money, because there will be no glory in defeating Langford, as I have already done the trick.
 Makes His Own Matches.
 And furthermore, the club has gone so far as to make a match for me. They have also said there must be a £5000 side bet, and they have dictated to me how much of the picture privilege I shall receive.
 I am very proud that I have made all my matches—I myself—and, being a real champion, I do not see where the National Sporting Club has a right to dictate to me how much I shall receive for my appearance and boxing ability. If they do not want to give my price, which is £5,000—win,

The Master Tire fills the bill by reducing the bill. You see "Tractions" on every style and make of car—on rear wheels, front wheels.

THE WEATHER.
 Maritime—Moderate to fresh westerly winds; fair and mild.

Toronto, April 21.—Pressure is high over Manitoba and the Northwest states, and also on the Atlantic seaboard, while a shallow trough of low extends from the Great Lakes to the Southwest states. Showers occurred today in the Maritime Provinces and local rains are falling tonight in the lake region. It has been cool from Manitoba eastward and comparatively mild farther west.

Minimum and maximum temperatures:

AROUND THE CITY

Labor Congress.
 The committee of the Trades and Labor Council which is arranging for the reception of the various Boards of Canada this summer met last evening to consider arrangements for a fair. The council needs money to entertain the convention. It held an ice carnival last winter, but owing to unseasonable weather expenses were greater than receipts.

Co-Operation.
 R. E. Armstrong, the new secretary of the Board of Trade, sent out letters yesterday to the various Boards of Trade in the province, notifying them that he had assumed his duties here, and suggesting that they cooperate to promote measures for the general advancement of the province. Mr. Armstrong is anxious to establish cordial relations with all the other boards in the province, and hopes a basis of co-operation may be worked out.

Cod Eating Sardines.
 J. F. Calder, chief fishing inspector for St. John and Charlotte county, was in the city yesterday. Mr. Calder stated that the cod fish being caught down the coast were full of sardines. He was rather afraid the fact that the cod were following up the sardines would influence the movements of the schools of the latter and have a bad effect on the sardine fisheries.

Commend Hon. Mr. Hazen.
 Industrial Canada says: Manufacturers will commend Hon. J. D. Hazen for his bill revising and consolidating the shipping laws of Canada. His bill, which follows the British Shipping Act closely, reorganizes the pilot system, provides for the investigation of wrecks and includes the regulation of small craft, such as motor boats. Canadian shipping is growing rapidly and should be fostered by a modern law which will remove abuses and diminish difficulties.

Closing Social.
 The closing social of St. Stephen's Guild took place last evening in the Sunday school room. There was a large attendance and a very interesting programme was carried out. The school orchestra added to the pleasure of the evening with several selections. The room was nicely decorated and several scenes from Cranford were given by young ladies under the direction of Mrs. A. C. Jardine. The president of the guild, A. C. Jardine, occupied the chair.

Civic Politics.
 The candidates for the offices of mayor and city commissioners are hard at work preparing for the final election. Several public meetings have been scheduled and it is expected that the last few days of the campaign will be rather strenuous for the candidates and their workers. Besides the vote for mayor and alderman the citizens will be called upon to ballot on the question of whether married women, property owners should have the right to vote or not.

R. K. Y. C. Snoon Bridge.
 Last evening at the R. K. Y. C. a function called a spoon bridge, the first affair of its kind, was held. Members to the number of about thirty participated in a tournament for which the prizes were a couple of silver spoons bearing the crest of the club. The winners were Isaac B. Murray and Roy E. Crawford. Supper was served afterwards, this part of the programme being in charge of Frank Klinear. The social season of the club is approaching its close and members are now talking about getting their boats ready for the real thing.

Centenary Brotherhood.
 The reports of the officers of the Centenary Brotherhood were received at the annual meeting of the brotherhood in Centenary school house last evening. The association has been in existence since last October and has done a good work. The reports showed that meetings had been held every Sunday afternoon and the attendance has been very encouraging. The membership is now sixty-five and it is expected soon to have at least one hundred men on the register. Arrangements were completed for the last meeting of the season which will take place on Sunday afternoon. At this meeting the nominating committee will report on the selection of officers for the coming year.

Both the Premier and the Chancellor of the Exchequer of Great Britain have Hemington Typewriters in their offices. A. Milne Fraser, (J. A. Little, Mgr.), 37 Dock street, St. John, N. B.

THE VALLEY RAILWAY CHARGES NOTHING BUT SLANDERS, SAYS GOULD

President of St. John Valley and Quebec Railway Company makes Emphatic Statement—Did not expect Campaign of Lies by Opposition.

"You can say from me, that the charges made in the legislature in regard to the Valley Railway are nothing but slanders."

This statement was made by A. R. Gould, president of the St. John Valley and Quebec Railway Company, yesterday, when asked if he had anything to say regarding the allegations made by Mr. Dugal in the House of Assembly.

"We expected some knocks from the Opposition, but never such a campaign of lies and slanders as has been started against us," added Mr. Gould.

Mr. Gould stated that the contract for the section from Centerville to Grand Falls had been let to his company, and also the contract for the section from Gagetown to St. John.

Mr. Gould declared that his company had nothing to fear from an investigation, and that the railway would be built as provided in the contract.

JAMES LOWELL, EX-M. L. A. NOW SERIOUSLY ILL

James Lowell, ex-M. L. A. for St. John county, is very ill at his home at South Bay. His physicians hold out no hope of his recovery.

Mr. Lowell who has many friends on both sides of politics, has been in poor health for some years.

SLANDERBUND IN ST. JOHN

Carvell, Copp, Hawke, McCready, Carter, in Consultation—s' nough.

F. B. Carvell, M. P. and A. B. Copp, ex-leader of the Liberal party of the province, were at the Royal yesterday. So also was John T. Hawke, editor and publisher of the Moncton Transcript. They had a conference with S. Carter and other shining lights of the Liberal party. Considerable jubilation was caused among the distinguished members of the party by the report that Sackville had elected a Liberal council.

BUILDING AT EAST ST. JOHN

Six Dwelling Houses now under Construction in vicinity of Courtenay Bay—Plan others.

In spite of the alleged financial stringency property holders at East St. John are commencing to erect dwelling houses and already this spring some six buildings are under construction, while plans for others are progressing.

Dr. Karby has let a contract to the Millboro Woodworking Company for the erection of a large eight-room house with concrete cellar on his property in Belgrave street.

On Madras avenue, H. W. Leonard is putting up a two-story modern dwelling house, and at the corner of Regent street and Park avenue the syndicate is erecting another residence. On Beacon street, John Irvine is building a home, and on Belmont street, Captain Ward has his new house almost completed.

A large warehouse with living rooms in the upper story is now in course of construction on Mount Pleasant avenue for H. B. Peck. This building will be finished and ready for use in the near future.

Plans for further building are under way and it is expected that East St. John will come in for considerable of a boom in this line.

PERMIT CLERK AT CITY HALL HAD STRENUOUS TIME DURING WINTER

Citizens Must Secure Permission to Drive Vehicles Over Thirty Feet in Length Through Streets—Many Articles Come Under the Same Ruling.

The clerk in the public works office at City Hall has had a strenuous winter issuing permits to people using the public streets. In accordance with certain by-laws no person is allowed to drive a vehicle longer than thirty feet through the city streets unless by a permit from the public works department. Lumber dealers wishing to convey long pieces of timber from their yards to the station or to buildings must first secure a permit from the city. Telegraph poles and car rails come under the same ruling and many permits have been necessary during the winter just closing.

Persons wishing to convey coal across a sidewalk by means of the iron chutes so common at the present time, must have a special permit. The issuing of these little pieces of authority has been the cause of a great amount of work on the part of the public works department but the by-law says it must be done. Those who violate the rule are liable to be summoned to the police court and fined.

GERMAIN ST. IMPROVEMENT ASSOCIATION

Annual Meeting in Board of Trade Rooms Last Evening—Under Care of Citizens.

A meeting of the Germain Street Improvement Association was held in the Board of Trade rooms last evening, there being a large attendance of residents of the street. By invitation, Com. Agar and H. E. Gould, who is acting as city forester, were present.

A general discussion regarding the improvement of the street took place, and it was suggested to Com. Agar that the city take over the full care of the street. Com. Agar said he could not make any promise within the line of the suggestion, but said the city would double assist in making the street a credit to the community.

It was decided that the association should continue to take care of the grass plots, trees, etc., pending the future action of the city authorities.

Mr. Gould was engaged to superintend the work of looking after the trees and grass plots.

Officers for the year were elected as follows: President, L. G. Crosby; vice-president, E. T. Sturdee; secretary-treasurer, Victor Crosby; managing committee, E. Patarg, Dr. Blin, H. C. Rankine, and Percy W. Thompson.

WORKING ON CAR FERRY TERMINALS

Roger Miller Construction Company to assemble Dredging Plant in Straits of Northumberland.

Captain Stitt of Toronto, who is connected with the Roger Miller Company which has the contract for the construction of the ferry slip at Carleton Point, P. E. I., arrived in the city yesterday on his way to New York.

Captain Stitt is going to New York to make arrangements for towing some scows and other plant to Northumberland Straits to be used in connection with the dredging operations there.

The company intended to send its own tugs to New York to bring back the dredging plant, but owing to the continuance of cold weather there is too much ice in the Straits to allow the tugs to get away.

The company with which Captain Stitt is connected is constructing the P. E. I. terminals of the proposed car ferry across the Straits. It has to build a long breakwater and do a lot of dredging to form a harbor as well as to build a ferry slip. Captain Stitt said it would probably take his company three years to complete its contract.

Rain Goods. You will find just the rain-shedder, your fancy profess in F. A. Dykeman & Co.'s splendid line of umbrellas. They are showing the smartest and the most serviceable umbrellas that they have shown for a long time. Not awkward umbrellas but neat handsome ones, priced at 35 cents, \$1.00, \$1.50, \$1.25, \$1.50 up to \$3.25.

New raincoats for women. New designs, new materials, new styles and new raglan sleeves also with the set in sleeve; some have the belted back, some the plain back. They come in a nice shade of fawn and tweed effect. They fit perfect and are thoroughly well made. Prices run from \$2.75 up to \$11.25.

HON. MR. HAZEN'S EFFECTIVE AND APPRECIATED

St. John Board of Trade Acknowledges his Sterling Service.

IMPROVEMENTS IN FUNDY SAFEGUARDS

Minister's energetic action wins hearty approval of all—Stronger Lights for Bay.

In a news letter issued by the St. John Board of Trade to one hundred and fifty newspapers on April 16 great appreciation is expressed for the excellent and energetic work of Hon. J. D. Hazen, Minister of Marine and Fisheries, in effecting improvements in the way of affording safeguards to ships in the Bay of Fundy and in the St. John harbor. Besides the many improvements, Hon. Mr. Hazen has gathered information that will lead to further improvements along the coast. All the members of the board greatly appreciate the effective aid rendered by the minister.

ST. JOHN BOARD OF TRADE

16th April, 1914. During the past winter the St. John Board of Trade has dealt with many matters which are of importance, not only to the trade of the port, but of the Dominion. In matters relating to the navigation of the Bay of Fundy, and the board sent out a circular to the steamship captains asking for further expressions of opinion. These when received, were sent to Hon. Mr. Hazen, who conveyed them to the Light House Board, and through the action of his department the following very important changes were adopted:

Important Changes

- (1) A new Lightship to cost \$150,000 and ready in 1915 is to be constructed to replace the Lurcher or any other lightship that might require repairs.
- (2) The Musquash light to be changed to a quadruple flashing light with 15,000 candle power.
- (3) Cape Spencer light is changed to a double flashing light of 25,000 candle power and the Musquash, Le Prez and Cape Spencer lights will each be made distinctive.
- (4) Partridge Island light at the mouth of St. John harbor will be changed to a powerful single flashing light of 100,000 candle power.
- (5) Brier Island light is changed to a quadruple flashing light of the third order.
- (6) A submarine bell is installed on Bloude Rock.
- (7) Cape Sable light is to be greatly increased in power.
- (8) Hereafter news of any light changes will be made in all newspapers.
- (9) An investigation will be made and if good holding ground is attainable, the Lurcher light will be moved two miles farther west.

Passenger Berths

A very important matter with which the board has dealt is that of providing a modern passenger steamship berth on the West Side of the harbor. It has been proposed, and the government is now considering the proposal which is called the "Light House berth" from the city and have it equipped with immigration sheds, baggage quarters and every convenience for the prompt and satisfactory handling of passengers. The recommendation of the board that a revetment wall several thousand feet long be constructed to enable the Canadian Pacific Railway to fill in the space behind and greatly extend its terminals has also been promised favorable consideration by the government, which has promised also to extend the breakwater to Partridge Island at a cost of at least \$750,000.

Immigration Policy

Still another matter of importance has been a study by the board of the immigration policies of other provinces, and a recommendation based on this knowledge has been sent out to the provincial government, to bring New Brunswick up to date in its immigration policy. The board has also been instrumental in getting a number of customs house rules amended to facilitate the transaction of business.

At the board's request a progress report was presented every month, in exhibition in the board rooms, showing the progress made from month to month by the Norton Griffiths' Company on the great harbor works at Courtenay Bay.

The members of the various committees of the board having to do with the marine department in connection with all the important public works to which reference has been made, express their appreciation of the prompt attention and effective aid given to them by Hon. Mr. Hazen.

Com. McLellan's Meeting. Commissioner McLellan will hold a public meeting in the Temple Hall, White or phone Immigration Office, 102 Prince William street, St. John.

Wanted at Once. Boy to run electric passenger elevator. Apply Standard Office.
