Acadia University.

ACADIA COLLEGE was founded by the N. S. Education Society in 1838. In the following year application was made to the N. S. House of Assembly for a Charter of Incorporation with the title: "The Trustees, Governors and Fellows of the Queen's College." An Act creating such a corporation with the powers of a University was passed in 1840. At the next meeting of the Legislature, this Act was amended by changing the name to Acadia College.

In 1851 the power of appointing the Governors of the College was transferred from the N. S. Education Society to the Baptist Convention of the Maritime Provinces. The developments of succeeding years made it necessary that various amendments to the original Charter should be obtained. In order to avoid confusion and bring the Act of Incorporation into more complete harmony with existing conditions, a general revision and consolidation of the different Acts relating to the College was proposed by the Board of Governors. The Report of the Committee of the Board, having been adopted by the Governors, was referred to the Convention. That body at its meeting in Yarmouth, in August, 1891, after suggesting some modifications, approved the Report and instructed the Governors to apply to the Parliament of Nova Scotia for the necessary legislation. Accordingly a bill embodying the proposed alterations was passed by the two houses at the session of 1891, and received the signature of the Lieutenant-Governor on the 19th of May in the same year. A copy of the Revised Charter is appended.

The following Courses are arranged for the advantage of students who may be able to do more than the assignments of their classes, and will be open to the election of any undergraduate, provided he has first-class standing in the studies of the curriculum. The value of the work performed in these studies will be determined by examinations, and Honor Certificates, of the first or second class, will be given according to the results of these examinations. Students will not be allowed to continue Honor studies, unless first-class standing is maintained in the prescribed Course.

Students cannot be admitted to the Honor courses if regular examinations are overdue. Any undergraduate, even though not having first-class standing, may, by vote of the Faculty, be permitted to give special attention to a particular study. General Students.

The studies of the College are arranged with reference to the wants of students who intend to take the full course. Provision is also made to accommodate all who may wish to study for a shorter period in any department, if, after examination, they are found to be prepared to work with the regular classes. General students, on leaving the College, can have certificates of proficiency according to their attainments.

Examinations, and Standing.

At the end of each Session all the Classes will be examined on the studies of the Session. These examinations will be conducted for the most part by written papers; but oral examinations will be introduced at the discretion of the Faculty. The results of these examinations will be combined with the record of the daily exercises to determine the standing of the student. An average of seventy-five per cent. of the maximum must be made to admit a student to first-class standing.

In order to maintain standing, a student must make 45 in each subject taken, both in term work and examinations. Absence from class appointments will affect the student's standing.

At the close of each Session the standing of each student shall be reported to his parent or guardian, if desired.

Degrees and Fees.

The degree of Bachelor of Arts is granted to students who satisfactorily pass the prescribed examinations of the Arts Course.

The degree of Master of Arts will be granted according to the following regulations passed by the Senate at its meeting in June, 1892 :

1. That the M. A. degree be given only after the candidate has passed a satisfactory test in a prescribed course of study.
2. That such course of study be equivalent to a full year's course of advanced study; *i. e.* something more in quantity and higher in quality than the requirements for the Senior year.
3. That the assignments be arranged so as to secure a large acquaintance with some one subject, rather than a slight acquaintance with several.
4. That the manner of testing be, by written examinations, by the presentation of a thesis on some assigned subject, and by the preparation of a critique or review of some author included in the course selected.
5. That the thesis and critique be placed in the hands of the president of the college on or before the first day of April, and the returns from the first examinations be in his hands before the tenth day of May, of the year in which the Degree is to be conferred.

The fee for an Honor Certificate is one dollar; for the Diploma of the Degree of B. A., four dollars; for that of M. A., six dollars.

These fees must be paid before the meeting of the Senate for granting the Honors and Degrees.

If a student is excused from a regular examination, he may have a special examination, for which a fee of two dollars for each subject will be charged.

General Remarks.

The financial year of the University dates from the first of August.

The first session of the Academy and Seminary begins the first Wednesday in September. The first session of the Arts Department of the University opens on the last Wednesday in September.

In April of each year occurs an Elocutionary Recital, in which all the members of the Sophomore Class take part. A record is kept to indicate the excellence of the respective members of the class in this exercise.

The Junior Exhibition is held at the close of the first session, at which time orations prepared by members of the Class are delivered in a public assembly.

On the first Thursday in June the anniversary of the College is commemorated, at which time the ceremonies connected with the graduation of students and the conferring of degrees, are observed by the Authorities of the University.

The College Library contains a valuable collection of books especially selected for the use of students. Books can be taken from the Library-room subject to proper regulations. The Library is also open five afternoons of the week, under the supervision of the

Librarian, for convenience in consulting works of reference. The leading Canadian, American and English periodicals are kept in the Library for the use of students.

The Library receives donations both of money and of books; additions are also made to it by means of the annual income of the DeWolfe Library Fund.

The Scientific Rooms are provided with sufficient apparatus for a wide range of experiments in Chemistry and Physics. Special provision is made for students in Practical Chemistry. Considerable material has also been collected to illustrate studies in the department of Biology. The Museum is well furnished with collections from various parts of the world illustrative of the departments of Geology, Mineralogy and Botany.

In addition to the assignments in Elocution, opportunity will be given for advanced study in this department. A course for four years is marked out, and students who successfully pass the required examinations will receive a diploma for the same.

Though none of the present courses of study includes Vocal Music, yet it is desirable that all students, as far as possible, should give some attention to this subject. Classes under the direction of the teacher of Elocution are formed for practice in singing, at such times as will not interfere with the regular appointments of class work.

A large and convenient campus gives abundant opportunities for Athletic Games in the spring and autumn. There is also on the University grounds a large and well-equipped Gymnasium. From the first of November to the first of April, the students have regular gymnastic drill under the Director of the Gymnasium. Experience has shown that this practice is highly conducive to the health of the student.

Acadia Athenaeum.—The object of this Society is the improvement of the students in debate and public speaking. The laws and regulations of the Society are subject to the approval of the Faculty. Besides its weekly meetings arrangements are made for a course of Public Lectures during each College year. The Society has under its control a Reading Room furnished with a selection of newspapers, provincial and foreign, and other periodicals.

College Young Men's Christian Association.—A branch of this Society has been formed and is in a flourishing condition. At present there are about ninety members. Addresses are delivered monthly before this Society, by clergymen invited for the purpose.

Acadia Missionary Society.—This Society holds public monthly meetings. Its aim is to cultivate interest in Missionary work, and especially to gain information respecting Christian Missions in foreign lands.

The Propylaeum is a Society composed of the young ladies in the Arts course. The meetings are held on Friday afternoon. The exercises consist of studies and discussions on assigned topics. Occasional public entertainments of a social and literary character are given by the Society.

Prayer Meetings, conducted by the students, are regularly held on Lord's Day morning and on Wednesday evening throughout the College year. These religious meetings have been maintained ever since the founding of the College.

Special classes are formed for the study of the Bible on the Sabbath and at other times. All students are required to be present at morning prayers, and also to attend public worship regularly on the Sabbath. Parents and guardians are requested to give instructions as to the place of worship which they wish the students under their care to attend. Religious services are held every Sabbath in the village in connection with the Baptists, Church of England, Methodists, and Presbyterians.

Special rules concerning conduct and good order will be announced from time to time, as circumstances may require. It is assumed that students are in attendance for the purpose of intellectual and moral improvement, and that they will readily comply with all regulations that, in the judgment of the Faculty, are helpful in the accomplishment of this object. Inattention to study, or misbehaviour of any kind, will subject the offender to reproof or suspension, at the discretion of the Faculty.

CURRENT EXPENSES.

Students occupying rooms in Chipman Hall are charged \$2.60 per week for board. If two students occupy a room, the rent will vary from \$6 to \$18 per year, according to the location of the room. Board and lodgings can be obtained in approved places in the village at reasonable rates.

I.—SCHOLARSHIPS IN THE ENDOWMENT FUND.

The Governors hold a few Scholarships, which can be assigned to needy and deserving students subject to the following regulation :

“The Scholarships owned by the University shall not be granted for a longer period than one year, and only on a written application to the Scholarship Committee, through the President, before the 5th of November in each year.”

A certificate from a Scholarship-holder, accompanied by satisfactory evidence that such Scholarship holder is legally qualified to grant the use of the Scholarship, may be presented to the President, to be forwarded to the Committee on Scholarships; and if such certificate is satisfactory, the student presenting the same will be credited with the proper sum on account of the Scholarship. All certificates from Scholarship-holders granting to students the privileges of Scholarships, must be in the hands of the President of the University before the 5th of November of each year.

II.—THE DEWOLFE SCHOLARSHIPS.

There are five of these Scholarships,—one of the value of \$25.00 a year, two of \$30.00, one of \$40.00, and one of \$50.00. The nomination to these Scholarships will be determined by the Senate, according to the class standing, needs and general conduct of applicants.

III.—MINISTERIAL EDUCATION FUND.

Students who have the Christian Ministry in view, and are approved by the churches of which they are members, may, in case assistance is needed, receive an annual appropriation from the Board of Ministerial Education.

The aim of this Association is to bind together in friendship all those who have studied at Acadia, and to insure the life-long devotion of its members to the interests of the College, and, through her, to the cause of Education generally. All Alumni are cordially invited to become members, and to aid in promoting these objects. The membership fee is one dollar per annum. The Funds, which were formerly expended chiefly in the bestowment of Scholarships and other Prizes, have been lately applied towards the support of a Professorship. The Society has now, however, undertaken the support and endowment of a chair in the University to be known as the "Alumni Chair of Physics." Mr. Frank R. Haley, of the class of 1884, has been appointed to this Chair. Mr. Haley has been absent for the last year, pursuing special studies in Scotland and Germany. He will enter on the duties of his professorship at the opening of the next academic year, October, 1892.

This Academy is under the control of the Governors of the University, and its Courses of Study will be determined by the University Senate. A special committee of the Senate is appointed to aid the Teachers in promoting the efficiency of the School. Provision is made for two Courses of Study,—The College Preparatory and the English. The first is designed to give students a thorough preparation for College, the second provides a thorough elementary education for young men intending to enter some department of business. Special attention will be given to students wishing to study for the Grade B. License.

A commodious building has been erected for instruction in Manual Training. This department will be opened in October of the present year.

Inquiries relating to expenses and times of beginning and closing may be addressed to the Principal, Wolfville, N. S.

The Seminary is under the direction of the Governors of the University. In its administration and classes, it is practically distinct from the other departments. A special committee of the Senate will co-operate with the Teachers in arranging the Courses of Study and determining the conditions of graduation.

Provision is made for three courses of study:—The Classical, the Literary and the Musical. A diploma bearing the seal of the University will be awarded to students completing any one of these courses. The Seminary Building is situated on elevated ground and in view of the varied and attractive natural scenery of the valley of Grand Prè.

It is the purpose of the Governors to make the educational advantages of the School equal to the best in the Maritime Provinces.

The expenses are moderate.

For more particular information application may be addressed to the Principal, Wolfville, N. S.
