# A PLOT TO ASSASSINATE WILSON

## PLOT WAS DISCOVERED AT BOSTON TO KILL WILSON

Four Spaniards Have Been Arrested.

SOME OF THEM PLANNED TO  
USE BOMB.  
NEW YORK, Feb. 24.—In the ar-  
rest of fourteen Spaniards, the police  
today assert they have frustrated a plot  
to assassinate President Wilson at  
Boston. The men were taken in an  
uptown club yesterday.  
The place had been under secret  
surveillance for some time.  
The prisoners were to be arraigned be-  
fore United States Commissioner Hitch-  
cock today charged with publishing  
and distributing seditious literature.  
Secret service operatives today said  
that evidence had been secured which  
will be used to prove some of the  
prisoners had planned to kill the Presi-  
dent by throwing a bomb in Boston.  
Neither bombs or explosives were  
found at the place raided. The prison-  
ers did not carry firearms.

WILSON HAS REACHED BOSTON  
BOSTON, Feb. 24.—The U.S.S.  
George Washington, with President  
Wilson on board, was lying at anchor  
in President Roads, Boston, early  
today.  
TEN MORE ARRESTS MADE  
WASHINGTON, Feb. 24.—Ten more  
arrests have been made in connection  
with reported plot to assassinate  
President Wilson. Nearly twenty-five  
I.W.W. men, mostly foreigners are  
now being held in this case.  
BOSTON.—Extraordinary precau-  
tions were taken to guard Wilson from  
harm. More than nine hundred po-  
lice-men and detectives guarded the line  
of march and armed troops occupied  
the roofs and windows of houses  
along route.

MARGATE, ENGLAND, TO BE ITSELF AGAIN. Everything reminiscent of the war is being removed, and visitors to this popular resort will find it as it used to be. The air forthwith it is famous is still of the same pro-  
war quality. The picture shows soldiers removing the barbed wire from the promenade.

## Civil War May Break in Bavaria Any Day

UNLESS A COMPROMISE IS  
EFFECTED  
WEIMAR, Feb. 24.—(By Frank J.  
Taylor) Civil war is threatened in  
Bavaria unless an immediate compro-  
mise is effected between the rival  
elements which set up separate govern-  
ments following the assassination of  
Premier Eisner, according to official  
advice received by the German cabin-  
et today.  
The combined soldiers, peasants and  
workmen soviet seized the govern-  
ment machinery and proclaimed a  
communist republic. A few hours  
later the Majority and Independent  
Socialists affected an amalgamation,  
organized a central council and claimed  
the right to administer the affairs of  
the whole of Bavaria.  
A great majority of Bavarians were  
reported to resent the assumption of  
authority by the communist elements,  
which are largely non-Bavarian.

## Lloyd George Appeals to House of Commons

TO AVOID CIVIL STRIFE  
LONDON, Feb. 24.—"The United  
Kingdom is faced with prospects of  
civil strife and the house of commons  
should do everything in its power to  
avoid it," Premier Lloyd George

into the conditions prevailing in the  
coal industry.

## WANTS NATIONALIZATION OF MINES

tary of miners federation. He said  
that principle of nationalization must

## Soviet Republics Are Proclaimed in Bavaria

LATEST ONE AT NUREMBERG  
PARIS, Feb. 24.—A Soviet re-  
public has been proclaimed in Nurem-  
burg, a city of Bavaria, according to  
a dispatch received by L'Informa-  
tion to-day. In Augsburg, where a  
Spartan outbreak occurred on Fri-  
day night, mobs were reported to  
have pillaged stores, to have occupied  
the city hall and newspaper offices.  
Twenty-two persons were killed and  
hundreds injured in clashes with  
government cavalry.

## Will Not Recognise Munich Republic

BERLIN, Feb. 24.—(By John Grau-  
dens) The German government today  
announced its determination today to  
refuse recognition to the newly-pro-  
claimed soviet republic in Munich.  
Military action was expected to be  
deferred, however, until the Bavar-  
ians themselves are given an oppor-  
tunity to overthrow the radicals.  
Spartan disorders were continuing  
in the industrial districts of Germany.  
At Mannheim, prisons were opened  
and the city was being patrolled by  
armed cars.  
The Spartans demanded the  
establishment of a soviet government.  
Authorities of Baden immediately  
proclaimed a state of siege. Strikers  
in Dusseldorf, Meibum, and Oden-  
hausen decided not to accept the de-  
cision of the Essen laborers to return  
to work.  
The "Council of Eleven" which  
is administering the affairs of the  
soviet republic in Munich was said  
to have discharged all regular troops  
and replaced them with "Peoples  
Guard".  
Persons suspected of complicity in  
a plot to restore the monarchy have  
been arrested. Among them was a  
brother to Count Lurbe, former Ger-  
man minister to Argentina, and author  
of the famous "Spies Versenki"  
message. Throng of citizens were  
said to have visited the spot where  
Premier Eisner was assassinated,  
standing about with bare heads.

## What Wilson Has Come To His Country To Do

WANTS U. S. Approval of  
League of Nations  
MAY RETURN EARLY IN MARCH  
BOSTON, Mass., Feb. 24. (By Robert  
J. Bender) President Wilson, re-  
turning to American shores today, is  
confident that congress and the people  
will approve of the participation of  
the United States in a league of free  
nations.

The failure of America to sanction  
such a course would, he believes, be a  
great moral blow to the civilized  
nations now exerting their efforts  
toward a just and lasting peace.  
The President's historic journey  
through foreign lands and his work  
at the peace table have more than ever  
convinced him that European nations  
look to the United States as the one  
great power without selfish interests  
participating in the conference. For  
the United States to refuse to join  
in what he and a majority of nations  
regard as the fundamental of a lasting  
peace would, he believed, break the  
heart of the world-movement for a  
new order of things.

Hence the President returns to make  
a strong effort at convincing the coun-  
try and congressional members of the  
vital importance of the league. As  
a covenant is not in its final form and  
is therefore not ready for ratification.  
The President's work is now largely  
informative. His big task, if one  
proves necessary, will come after the  
Paris conference has finally approved  
a league stand and the peace treaty is  
complete, ready for submission to the  
United States senate for ratification.  
Then the President will, if necessary,  
go before the people to ask support,  
but that will probably not be before  
midsummer or fall.

While in Washington, the President  
will confer not only with members of  
the Senate Foreign Affairs Committee  
but many other members, according  
to his present plan. Barring a change  
in program he will leave for France  
again March 5 or 6.

However the situation as regards  
appropriation bills, the possibility of  
calling an extra session and the condi-  
tion of Premier Clemenceau, (whose  
death might result in a change of French  
government and resultant delay in the  
peace negotiations) all enter into the  
inconclusiveness of his plans today.

The President's return finds what he  
regards as the biggest part of his job  
abroad completed, the formulation  
of a league of covenant. Good progress  
has by wireless been reported to  
him, from Paris on all of the confer-  
ence problems being worked out by  
committees in his absence.

The greatest work outside the formu-  
lation of the league is held by the presi-  
dent, which was, according to last  
reports, still much confused.  
En route to the United States on the  
George Washington, Ambassador Fran-  
cis who is returning to Washington  
to confer with the House and Senate  
Foreign Committee, said of the Russian  
situation, with which he has been  
dealing for three years.

"A reign of terror, instituted by the  
Bolsheviks in order to maintain them-  
selves in power, was prevailing in great-  
Russia, or central and northern  
Russia, according to last accounts.  
The outrages committed by the Bolshe-  
viks are incredible.  
"I think it is impossible to restore  
peace in Europe with chaos prevailing  
in Russia. In fact, with Germany  
comparatively uninjured industrially  
I am persuaded that if a peace is negoti-  
ated with disorder or Bolshevik rule  
in Russia, that Germany will be able  
to utilize the immeasurable resources  
of that great country and in twenty

## Peace Work Is Hurried

NEW PLAN DOES AWAY WITH  
MILITARY TREATY.  
PARIS, Feb. 22.—Results of far-  
reaching character were obtained at  
the meeting of the council of the  
great powers today when resolu-  
tions were adopted requiring such  
a speeding up of all important  
branches of the work of the peace  
conference as to permit the formulat-  
ing of a preliminary peace treaty  
by the time President Wilson re-  
turns to Paris in the middle of  
March. To accomplish this all com-  
missions dealing with the big ques-  
tions of separation boundaries and  
economic and financial issues must  
report to the supreme council with-  
in the next two weeks or by March  
7 at the latest. These reports in  
turn will form a basis for the draft-  
ing of the treaty.

An extensive program had been  
carefully matured within the last  
few days and it was brought to a  
culmination this afternoon when A.J.  
Balfour the British foreign minis-  
ter and Col. House of the Ameri-  
can Delegation called on Premier  
Clemenceau in his sick room short-  
ly before the council convened.  
Both Secretary Balfour and Col.  
House found the wounded states-  
man dressed and sitting up, and  
keenly alert concerning the work  
of the conference and fully agreed  
on the plan for rapid acceleration  
of work on all subjects.

This brought together the British,  
American and French viewpoints for  
a rapid course of action, assuring  
the earliest possible peace. Short-  
ly afterward the supreme council met  
and ratified the program.  
The official statement issued after  
the meeting announced:  
"That the meeting decided on  
prop-steps to be taken in order to  
accelerate as much as possible the  
labors of the conference."

## A Small Blaze in a Strange Street House

Little Damage Is Caused  
A small blaze at about 8.20 o'clock  
this morning required the attention  
of the Fire Department. The frame  
residence, 173 Strange Street, had  
caught fire but fortunately the blaze  
did not make much headway. The  
damage was confined principally to  
furnishings which were damaged to  
the extent of about fifty dollars,  
only slight damage also was done to  
the interior of the residence. The  
blaze started in the bed-chamber.  
In the efforts to secure a stream  
of water to quench the flames con-  
siderable difficulty was experienced  
by the members of the brigade. The  
hydrant near Agnes Street for fifteen  
minutes was not in working  
order and no stream could be secured.  
A hydrant to the west of the resi-  
dence had to be used.  
In the fire fighting operations a  
number of the men of the Dominion  
Fire Company assisted. The Com-  
pany, it might be stated, are the  
owner of the residence. It is occu-  
pied by two men employees.

### SPARTAN RIOTS IN NUREM- BURG

opened and street fighting is in  
progress, according to an exchange  
dispatch from Copenhagen to-day.

## German Government to Attack Radicals

MINISTER AUER AND ARCO  
VALLEY STILL ALIVE.  
PARIS, Feb. 24.—War Minister  
Rosenburger is preparing to attack  
the revolutionists in Munich, who are  
being strongly reinforced, according to  
a Berlin dispatch to L'Information  
today, received by way of Zurich.  
The dispatch also said that Interior  
Minister Auer, who was shot on  
Friday and Count Arco Valley, who  
assassinated Premier Eisner, are still  
alive.

That the meeting decided on  
prop-steps to be taken in order to  
accelerate as much as possible the  
labors of the conference."

Back of this formal announce-  
ment is the speeding up of the plan  
which now goes into effect, for an  
early drafting of the peace treaty.  
The main feature of this plan is to  
embody all subjects, non-military,  
and, as well, military in the preli-  
minary peace soon to be framed,  
and to have this broad general  
document take the place of a sepa-  
rate military treaty for disarmament,  
which had been prepared for the  
supreme war council under the  
direction of Marshal Foch, who was  
to present it within the next  
few days.

But instead of this limited action  
on military questions, to-day's de-  
cision broadens the action so as to  
include all important subjects within  
the scope of the preliminary peace  
treaty, thus making it embrace  
economic, financial and all other  
essential subjects, incoherent, and  
in addition to disarmament, and other  
military and naval features.  
This is the broad plan which  
will be drafted by the time the  
president returns, and which will  
soon thereafter go before the peace  
conference.

The foregoing action relates only  
to Germany, as the conclusion of  
this preliminary peace treaty is re-  
garded as of much importance.  
But similar action may proceed at  
the same time concerning Austria,  
Bulgaria and Turkey, although it  
is not sure that action on these  
countries can be effected within  
the same period.

Although the proposed document  
is designated as a preliminary peace  
treaty, it is expected to embody  
virtually all main questions and to  
correspond to the treaty of Ver-  
sailles which closed the Franco-  
Prussian war, though a supplement-  
ary treaty was signed later at  
Frankfort.

MRS. WHEELDON DEAD  
Dorby Eng., Feb. 22.—Mrs. Alice  
Wheelodon who in 1917 was sentenced  
to ten years imprisonment on the  
charge of conspiracy to poison Premier  
Lloyd George but who was released  
after a few months on account of ill  
health, died today of influenza.

## PEACE DELEGATES HAVE DROPPED OVER CAUTION

Realize Peace Must Be Hastened For All.

### NATIONS ANXIOUS TO GET DOWN TO BUSINESS.

PARIS, Feb. 24.—The atmosphere  
around the peace conference has chang-  
ed remarkably in the last few days.  
The deliberation and caution which  
marked the proceedings of important  
committees have given way and even  
the most conservative delegates are  
being carried forward at a great pace.  
Talk of an early peace has become  
general. The actual directing force  
toward that end has been Premier  
Clemenceau, who, even while reclining  
in his easy chair, suffering from the  
wound given him by a would-be assassin,  
has summoned the Premiers of four  
other Great Powers to his side, in order  
to impress upon them the need for hast-  
ening the great work in their hands.

France originally doubted the wis-  
dom of concluding peace before con-  
ditions crystallized in Germany. Now  
France agrees with America and Great  
Britain in demanding a termination  
of the existence of the present technical  
state of war, so that even Germany  
may resume the normal ways of peace.  
This view was reflected today by Steph-  
en Pichon, French Foreign Minister,  
in his regular Sunday talk with for-  
eign newspaper correspondents.

## Comment on Selection of J.A. Robb as Leader

Will it Mean Exclusion  
of Reapproachment.

OF THOSE WHO VOTED FOR  
UNION GOVERNMENT  
OTTAWA, Ont., Feb. 24.—Con-  
flicting interpretations are placed on  
the selection of J. A. Robb, as tem-  
porary leader of the Liberal party.  
Some say it reveals power of the  
French Canadians, who although  
voluntarily giving up the leadership,  
retains it in their own province,  
closely under their eyes.

Another aspect of the matter is  
that the selection of Mr. Robb in  
place of Mr. Fielding shows, for  
example, the determination of old  
guard of Liberal party not only to  
maintain control but to show that  
high office in the Liberal organiza-  
tion is barred to anyone who left  
Sir Wilfrid, and supported Union  
Government. Their seems to be no  
feeling against the rank and file of  
the party who "seceded" but so  
these observers say a deliberate  
attempt will be made to exclude the  
leaders.

One of difficulties pointed out in  
this line of procedure is that the  
rank and file supporting Union may  
not feel like deserting those leaders  
of the Liberal party who, for con-  
sistent reasons, felt that tempo-  
rarily the two branches of the party  
could not travel together.  
There is another element of opin-  
ion which this morning puts an  
entirely different interpretation on  
the Robb appointment, and perceive in  
it a subtle indication that a com-  
plete reapproachment of the Liberal  
party may nearer than appears on  
the surface. The people say that the  
selection of Mr. Robb is obviously  
only a temporary one; that not only  
is he not a nationally known figure,  
although a deeply reputable one,  
but that he himself has no desire  
for permanent preferment or respon-  
sibility.

His appointment to-day therefore  
leaves the field quite open and in  
the months intervening between now  
and the convention, anything may  
happen. If on the other hand, a  
man more in the national eye had  
been chosen, even temporarily, it  
would have been embarrassing to  
change him in a few months. This  
would have shut out Unionists, who  
although not in alliance with their  
old party leaders to-day, might con-  
ceivably be so in a few months, when  
the whole political line-up, both  
government and opposition, may have  
changed.

Meanwhile, from this point of  
view, the Liberal party has achieved  
a state of suspense, which is con-  
sidered wise by its supporters. Mr.  
Robb himself is a well-known man,  
with a quiet, sincere and pleasing  
personality. He has not taken an  
active part in the debates of the  
house, but he speaks smoothly and  
logically.

He is sixty years old and was born  
in the county of Huntingdon, Quebec,  
where he still lives. He was on the  
farm until he was sixteen and then  
went into the milling business. In  
1906, as he says himself, he was  
"pitchforked" into public life by  
becoming mayor of Valleyfield, in  
his own county. The local franchise  
had not been carefully handled and

It is believed, by some that treaty  
which will be signed first must be  
followed by another final treaty, which  
will exactly prescribe the conditions  
to be met by late enemy powers. Sev-  
eral months may elapse before this  
can be made ready. M. Pichon said  
that Germany would be first dealt  
with, because of greater importance of  
problems presented in her case. He  
added there were important ques-  
tions for settlement in connection  
with Austria, Bulgaria and Turkey.  
Military experts, he said, have been  
instructed to examine them and have  
been in readiness for speedy ad-  
justment.

The commissioners who are con-  
sidering reparations, the minister said  
are nearing an agreement. The first  
question to be determined is what  
Germany owes and what she can  
pay. After this, a plan can be devised  
by the extent for dividing the repara-  
tion obtained among the entente  
powers.

In conclusion, M. Pichon said that  
Premier Clemenceau was about to  
undertake a consideration of the Rus-  
sian question when he was shot. He  
said the subject would, therefore,  
await his return to his official duties.  
he was called upon to come and  
clean things up. He had to go through  
some unpleasant experiences, but he  
acted with courage and did win a  
victory for careful and honest ad-  
ministration. He remained as mayor  
until 1910.

Meanwhile, in 1908, after persistent  
pressure from friends he accepted  
Huntingdon for the Liberal federal  
party and succeeded in regaining the  
seat, last to an independent in 1904.  
In 1911 he was again elected, this  
time for domestic reasons, but it was  
Sir Wilfrid's personally expressed  
desire that he should remain that  
persuaded him to run again. He  
was elected then and also in 1917.  
Mr. Robb has a kindly, pleasant  
face, saddened by grief which, in  
the death of his wife and only  
daughter, has borne heavily upon him.

## Three Big Transports Are Nearing Canada

OTTAWA, Feb. 24.—The Militia  
Department announces the sailing  
from England of three transports:  
the Melita to arrive at St. John  
about March 1st, the Belgian to

There will be about six thousand  
returning soldiers on these boats  
including thirty-one hundred from

## The Prices of Boots and Shoes Still up

IT IS SAID THEY WILL SOAR  
HIGHER.

The Reasons For The Increase.  
There is no expectation that the  
price of boots and shoes will come  
down soon. On the contrary it is  
stated they will go the other way.  
In conversation with Mr. N.B.  
Detweiler today it was ascertained  
that the next price of leather foot-  
wear will be higher. Reasons for  
the increase as given by  
Mr. Detweiler when asked were the  
labor situation, the higher price  
of hides and the world situation in  
general.

Now that the war is over an acute  
demand from the European coun-  
tries for hides as well as boots and  
shoes has arisen. And many of the  
hides today, Mr. Detweiler said  
are not the equal in quality as com-  
pared to a year ago. The supply  
of the best grades therefore has be-  
come scarcer.

The war over, Europe also must  
have heads of cattle, the shortage  
being 100,000,000 over the number  
of the pre-war period. They are  
importing American cattle for breed-  
ing purposes.  
The demand from Europe for boots  
and shoes has increased. Recently  
a British buyer was in the United  
States and placed bigger orders.

## Radicals Threaten To Make Civil War

SAYS SOVIET IN CONTROL.

BERLIN, Feb. 22.—(Saturday)—Chaos is prevailing generally in Munich and transmission of news to Berlin has been interrupted. COPENHAGEN, Feb. 23.—A state of siege has been proclaimed in Munich following the assassinations of Premier Eisner, two other members of his Cabinet and two members of the Landtag, according to a dispatch from Berlin, quoting advice from the Bavarian capital. PEASANTS REPORT MUTINY BY SEVERAL BOLSHEVIST COMMANDS  
Archangel Friday Feb 21—Canadian, Italian, Serbian and Russian Karol troops in an offensive movement southward along the Murmansk Railway on February 19, pushed forward 35 miles capturing considerable railway material and 50 prisoners and inflicting heavy losses on the Bolsheviks.

While other troops moved through the woods on skis outflanking the enemy at a bridge near the Village of Cegishi, the Serbians attacked frontally along the railroad and drove the enemy beyond the bridge after considerable fighting. The allies now occupy the Village of Cegishi, which is approximately 30 miles south of Sorozka.

All sectors on the Archangel front, so far as reports to headquarters indicate are quiet. Not one shot has been fired in the last 10 days. The weather has been intensely hot. Peasants coming into the allied

lines from Bolshevik territory declare that several Bolshevik commanders have mutilated and refuse to stay at the front.

## Was It The Work of The Bolsheviks?

**ATTACK ON CLEMENCEAU TAKES ON SUSPICIOUS LOOK**  
Paris Feb 23—Inquiry into the ramifications of a possible plot against Premier Clemenceau according to dispatches from Geneva to French newspapers, shows that during the month of December 44 persons all anarchists or Bolsheviks arrived in the neighborhood of Vevey. Among them, it is alleged were Rossiere, Zahmid and Bunnell.

At the same time a group of anarchists met in Zurich to organize a plot against the French premier and other allied statesmen in Paris. An official statement, issued to-day says Clemenceau is much improved. He is in no danger.

## LUNenburg's NOTABLES

For some fifty years Lunenburg County, N.S., was seldom without a shipbuilder in public life. Capt. Coffin, of Shelburne, might be mentioned in this connection. He sailed his own ships before he became receiver-general in the Mackenzie ministry. The Killams of two or three generations; the Lovitts and Bakers and J. R. Blaney, of Yarmouth, were among the noted and opulent shipbuilders and owners, and represented the county either in the Legislature, in Parliament or in the Senate. Hon. Colin Campbell, of Digby; Mr. Pickup, of Annapolis; Mr. Jones, of Yarmouth, belong in this class. In Kings County, Nova Scotia, the Woodworths; and in Hants County, J. B. North, Senator Churchill, the Bennett Smith family, the O'Briens, of Noel, and the Putnam and Arthur Cochran, of Maitland, may be counted among the shipmen who were shipbuilders. This partial list might be carried back for two or three generations.

## CONNECT BY RAIL EUROPE AND INDIES

Only 550-Mile Gap Remains to be Bridged for All-Rail Connection

When a gap of only 550 miles is closed, Europe and India will be linked by rail. Already the bridging of 150 miles of that gap is under way, so that it will soon be cut down to a mere 400 miles. When peace once more comes to the world and that 400 miles is finally bridged, you may go from the Hook of Holland to Delhi without once boarding a vessel. The rail line between London and Delhi will be shortened from seventeen to six days, the former being the time now required to make the journey via the Suez Canal. The cost of a passenger's trip to India will probably be cut in half. The 400-mile gap is in the Hindu Kush mountains, between Russian Turkestan and India. With the closing of the gap the distance by rail from the Hook of Holland, the terminus of fast steamships from England, to Delhi would be 5,695 miles. The total distance could be further shortened to about 4,918 miles in the event of the construction of a railway now projected, to run into Russian Turkestan and reach the slopes of the Hindu Kush by way of the famous cities of Khiva and Bokhara. But as the new existing gap will probably be closed before the Khiva-Bokhara route can be built, the first all-rail travelers from Europe to India will probably have to traverse the full 5,695 miles, leaving it to those who follow them in after years to enjoy the shorter route.

## LANGUAGES OF THE WORLD

Over Four Thousand Spoken Throughout the World

How many men, if asked how many languages there were in the world, could give anything like an accurate answer? The average man's knowledge or ability to speak languages rarely exceeds two besides his native tongue. The late Emperor Francis Joseph, when visiting a Red Cross hospital, spoke with the patients in their own languages, which showed the aged Emperor to be master of six. It may appear strange, but it is nevertheless true, that there are over 4,000 languages spoken by mankind, while the number of dialects exceeds this. There are more than sixty vocabularies in Brazil, and in Mexico the Nahuatl is broken up into some 700 dialects. There are hundreds in Borneo, while in Australia there is no classifying the complexities. Let us assume that fifty dialects, on an average, belong to each language, and we have the colossal total of a quarter of a million linguistic abilities. A century hence the probability is that there will be only four languages of importance in the world. Central Europe may produce a never and more straightforward German language, Imperial English may reign alone over the North American Continent, and a more businesslike Spanish will be used in South American States, while Russia may take on some more rich Slavonic dialect, which will blend the races of Eastern Europe and Central Asia into a harmonious federation.

A Mr. Fowler wrote to 295 men who had made a great success in life, to ask this question: "To what one thing, or to what two or three things, do you attribute your success?" And he tabulated the answers he received thus: Persistence, sick-to-stiffness, and constancy, sixty-six; application, fifty-nine; hard work, fifty-four; industry, twenty-eight; faithfulness, twenty-two; concentration, twenty; earnest desire to succeed, nineteen; diligence, fourteen; determination, eight; and energy, eight.

## SHALL CANADA GO AHEAD OR STOP?

Should the people of Canada, through their elected representatives, introduce measures which will prevent unemployment or should they sit down with folded hands, Miesow-like, and wait for something to turn up?

Sensible persons will unite in saying that it would be a serious error to allow stagnation of trade to enter during the adjustment period, when thoughtful effort will keep it out. Only timid people would advise a waiting policy, while its industrial workers roamed the streets in idleness. There is apparently one of these in The Weekly Sun's sanctum. In discussing proposed public expenditures, it says:

There is no reason to doubt that the projected expenditures of governments and municipalities will be during this year, at least, ten per cent. of all the wealth of the country. They will, of course, exceed many times the savings of the people and there can be no doubt that, at the end of the year, the country will be very much poorer than it is now. It is hardly to be doubted that the production of exportable wealth will diminish. With oats now at 50 cents and the wheat of the new crop not above \$1.25, the farmer will not be able to attract labor which is earning high wages in the industries.

The Sun misses the target when it says that governments and municipalities combined purpose expending one-tenth of the country's wealth. The Dominion's total wealth is placed at \$17,000,000,000. One tenth of this sum would be \$1,700,000,000.

As far as the federal government is concerned, the following projects are under consideration:

|                               |              |
|-------------------------------|--------------|
| Shipbuilding program          | \$65,000,000 |
| Public Works                  | 20,000,000   |
| Railway Improvements          | 60,000,000   |
| Grants to Highways            | 25,000,000   |
| Grants to Technical Education | 25,000,000   |
| Grants to Housing             | 25,000,000   |

With respect to the encouragement to Housing, Technical Education and Highways, representing in the table \$75,000,000, the expenditures are likely to be spread over a period of five years. Therefore the total outlays proposed to be made at Ottawa may not exceed \$200,000,000.

Ontario is considering an outlay of \$14,000,000 on new enterprises. Were all of the nine provinces to equal this sum, and the like added thereto the expenditures which the municipalities may expend, the total may not equal the amount earmarked by the federal government. Were as much as \$400,000,000 to be expended by the governments and municipalities combined, it would only be one quarter as much as the sum which represents the country's wealth.

However aggressive these bodies may during 1919 be they will not be able to complete anything like \$400,000,000 worth of public works and improvements.

In considering whether representative bodies should or should not make employment, it will be well to bear in mind that the rural sections cannot absorb the services of more than a small percentage of returning men and of the home population.

In such an event, it would become necessary to provide a non-employment fund, and pay every person, who is unable to secure work, a weekly sum to keep body and soul together. The breadwinners of Canada do not ask nor do they desire to frequent soup kitchens. They do expect that steps be taken to provide employment.

Close consideration of the public works situation will show that owing to the war and the necessity of bending every energy and every dollar to its prosecution, construction work had practically ceased. Whenever it is undertaken, Canada will require to borrow the money for the purpose. Doing it now, will serve the double end of providing necessary improvements and needed employment.

The last sentence of the Weekly Sun's statement is open to the construction that it, at least, would avoid instituting public works in order to influence the labor market and enable its patrons to get cheap help. This would be wholly unfair to labor and strike the country a blow from which it would not recover in ten years.

Canada's duty to its citizens and itself will probably not call for as great efforts and sacrifices as did its war exertions. Were it to call for more, the experience gained in overcoming difficult situations will have been wasted if it does not lead Canadians to face and solve any problems which may hereafter come.

That which is everywhere most needed is confidence in the country and ourselves. Given this, cooperation will follow and from concerted effort, a stronger, happier, and more self-reliant Canada emerge.

"Life ain't holdin' good cards;  
It's playin' a poor hand well."

## DOUBLE INCOME TAXES

Under the present income law, Americans living in Canada are obliged to pay a tax on their entire income, whether earned in Canada or derived from property held in the United States. Canadians are also obliged to pay the full tax on their incomes whether derived partly here and partly in the United States.

American citizens living in Canada are also called upon to pay income taxes to the United States government, whether it be earned wholly in Canada or partly in both countries.

Thus the American citizen resident in Canada and the Canadian who derives an income from property or investment in the States, are being called upon to pay a double tax.

It is manifestly unfair to make either class pay a double tax levied by two separate governments upon the same income.

Reason suggests that in dealing with matter the American resident in Canada should pay taxes to Canada only on that part of his income earned or derived in Canada and that he should be exempt from taxation on such income in the States.

With regard to income derived from property or investments in the States, it would be proper for him to pay the income tax to the American government.

Similarly, the Canadian government ought not to

tax income derived by a Canadian in the United States, which is being taxed by the American government.

## BY THE WAY

Customs Collector Schiedel says that imports at these ports are still continuing at a high rate. As imports include raw and partially made articles, the statement goes to show that local industries are trying to keep the bases full.

## WAIT A MINUTE

### "IN THE DAY'S NEWS"

William Hale Thompson, who is seeking renomination as mayor of Chicago in the primaries to be held this week, has been chief executive of the Western metropolis since 1915. Born in Boston, not quite fifty years ago, Mr. Thompson received his education in the Chicago public schools, and while still in his teens became a cattleman in the far West. Before his thirtieth year he had accumulated a moderate fortune as a result of several successful ventures in the cattle industry. Then he was called back to Chicago to assume the active management of a large estate left by his father. In 1900 he first broke into politics as a city alderman. As mayor he has been severely criticized for alleged un-American acts and utterances during the war. In his contest for renomination on the Republican ticket he is opposed by the regular party organization and a large element of independent voters.

## PEACE CONFERENCE TAKES A LONG TIME

The fact that President Wilson is coming home does not signify that the peace conference is near the end of deliberations and conclusions. If the end of the conference now in session in Paris were to be reached within a few weeks it would be contrary to all precedent, for similar conferences in the past, none of which approached the present conference in size or importance almost invariably occupied a longer period than has the present great gathering of the diplomatic representative of nearly all the world.

The great Congress of Vienna, which undertook the task of rearranging the map so as to look as if new kingdoms obliterated boundaries and set up new kingdoms held its first session in September, 1814. Six months later on March 11, 1815 Talleyrand the French representative, announced that the Emperor had escaped from Elba. With one accord the members broke into a roar of laughter—their work of months was rendered useless. Disregarding this interruption which ended at Waterloo, when Napoleon was finally defeated, the total length of the Congress of Vienna was from September, 1814 to June, 1815—about nine months.

The Peace of Utrecht, which brought to a close the long War of the Spanish Succession, was signed after a conference lasting from January 29 1712, to April 11 1713—nearly fifteen months in all. As a result of the long deliberations the belligerents gained nothing more than could have been peaceably ended by a conference in 1702 the year in which the war was started.

Another notable peace conference in which nearly all of the principal European Powers participated was the Congress of Aix-la-Chapelle, which brought to a conclusion the wars of the Austrian Succession. The conference was begun on May 18, 1748, and peace was signed in October, 1749. This conference lasted about seventeen months.

Coming down to a later date, the Peace of Campo Formo between France and Austria was signed in October, 1797 the conference having begun on April 18 1797 thus lasting six months.

History shows that few peace conferences in the past have concluded their work short of six months, while many of them have been strung out over a much longer period. It is gratifying to note however that the peace negotiations of later years, including those ending the Spanish-American war and the war between Russia and Japan, have occupied considerably less time than did the similar conferences held in the eighteenth and earlier part of the nineteenth centuries. This is probably to be accounted for by the fact that travel and communication are much more rapid than in the earlier days, before the fast railways and steamships the telegraph the telephone and the wireless and even the aeroplane have been employed in the diplomatic service.

So there is reason to expect that the present peace conference will be shorter than its many predecessors, to which may be added the hope that it will have more lasting effect.

At an evening party a lady said to her partner: "Can you tell me who that exceedingly plain man is sitting over there?"  
"That is my brother."  
"Oh, I beg your pardon," she replied, "I had not noticed the resemblance."

Wheeler, who is employed at the Pacific Coast Steel Plant, and lives at 4744 Forty-Eight Ave., South Seattle, the other day.

"About a year ago," he continued, "I began to suffer with intestinal indigestion that is spite of all I could do, got worse and worse till I was in a terrible condition. Everything I would eat fermented and I would be in such agony, that it was like a sharp knife cutting across my stomach. I got so weak that I could hardly do a thing, and it was only my will power that kept me going at all. When I would get home at night I would be so weak and in so much pain that my wife was always ready with a hot water bottle to put right on me, and even then I would be in such agony at times I thought it would drive me distracted. My hips ached with rheumatism, and the muscles of my right arm and leg would get all tied into knots, and I found it just keeping me in the hospital. I used to lay awake night after night suffering terribly, not now I go to sleep as soon as my head hits the pillow, and sleep like a log all night. I am picking up in weight every day, and am feeling so fine and well that I am glad to tell everybody how much this wonderful medicine has benefited me."

## THE PIROTT PLAYERS

An entertainment of a "somewhat different" nature is that furnished by the Pirotti Players who are billed to appear at the Roma next Saturday, matinee and evening. The Pirotti's form of entertainment is well known in the old country, but is not common in Canada. The Pirotti's number eleven, eight vocalists and comedians and three instrumentalists, violin, cello and piano, making a clever little party of entertainers. The programme is well diversified and not one number can be called commonplace.

The principal ingredients of the melange are songs, trios, quartettes, dances and ensembles, interspersed with comedy bits and burlesque touches. The chief funster is Eugene Lockhart, who not only acts in the manner of the interloper and announcer of a minstrel show, but all evening keeps up a lively clip as singer and merrymaker. Among the best of his efforts are "The Galloping Major" and his portrayal of the curate delivering a sermonette on "Little Bo-Peep." Ably seconding him are "Sally," "Sudbury," "Little fellow," Christopher Hayes, a capital tenor, and Mr. Forrest (first name unknown), a pleasing bass; the four doing some amusing fooling and dancing.

The four ladies, apart from the "orchestra" show their gifts in varied ways; Miss Grace Lang, as a vocalist, of merit, singing among other numbers "One Fine Day" from "Madame Butterfly"; Miss Frizell in songs and especially recitations that brought down the house, and Miss Castleton and Miss Anglin, in a variety of songs and concerted pieces. The three ladies of the orchestra deserve praise for excellent work, the violinist being especially clever in her support of the company.

Apart from the musical numbers, the Pirotti's made a hit in "A Synopsized Melodrama," which would be labelled a "scream" in a vaudeville bill and "Four Jolly Sail orphans." In all they did it ever so foolish, there was the finish and good taste inseparable from the work of English entertainers, in whatever class. Those who like refinement clean fun and an absence of slapstick methods in their comedy will find it, as well as a thumping big bill of fare, in the Pirotti Players' performance. They are worthy of a capacity audience.

## Here Is A Most Excellent Marmalade

**S**LICE two grapefruit and six sweet oranges into small shreds. To each cup of the cut fruit add three cups of cold water. Allow it to stand for 24 hours in a bowl or crock. Turn into a kettle and bring gently to a boil. Set aside for another 24 hours; then measure six cups of pulp into a preserving kettle and simmer gently for an hour. Add six cups of LANTIC "fine" granulated sugar heated in the oven and remove from the fire as soon as the Marmalade jellies. Repeat the cooking till all the pulp has been used.

LANTIC "Fine" granulated is the ideal sugar for Marmalade, as the fine granulation dissolves at once, avoiding long cooking. Too much cooking after the sugar is added, darkens Marmalade and makes it stringy.

Have you a copy of our "Lantic Library" containing three useful booklets on Preserves, Desserts, Cakes and Candies? We will send it to you without charge on receipt of a 2c. stamp to pay postage.

## A Broken Wedding Ring

By Bertha M. Clay

"No—far from it. I think it is the one step in life that makes or mars a man; his happiness or misery most certainly depends upon it; therefore, I hope to look before I leap."

"Quite right," said the general; "you could not do better. Men have such different tastes. Now what is your idea of a wife?"

Sir Basil laughed. "I do not know that I have formed one yet."

The general looked relieved. If his heart was yet untouched, why could he not learn to love Leah? "I should like to know," he said, thoughtfully, "what you would expect in a wife. What are the qualifications you deem necessary in a woman who would aspire to that position?"

"I have never thought about it; I suppose my ideas are not different from other people's," answered Sir Basil, laughing.

"Would you marry for beauty money?" or "power?"

"No; I should marry for love," said Sir Basil. "I should never marry for beauty, though I should like the woman I love to have a fair face of her own. I do not care for money—I have quite enough; but I shall not be ill-pleased if my wife has some fortune."

"His ideas are sensible," thought the general to himself. "I am sure that, if I had thought of marriage at all, it would have been much in the same way. At least he said, 'I should like to ask you one more question, and I beg that you will not think me tedious.'"

"I know your true friendship for me," said Sir Basil, "and I feel that nothing you might ask me would be prompted by idle curiosity."

"I should like to know," pursued the general, "if you have passed through the fever called love?"

"No, I have not," said Sir Basil. "I am heart-whole and fancy-free. I may add that I thank Heaven for it."

"So do I," thought the general. He was silent for some minutes, not quite seeing his way to the next question.

"If the story of the marriages of one generation could be written it would be a wonderful volume," said Sir Arthur, musingly. "Some men are led into marriage. I was and my marriage proved a happy one. I had never given a thought to it until some one told me that a certain lady favored me very much. I found it was true, and we were very happy."

Sir Basil was surprised to see that the general looked flushed and perplexed. He was a little amused, too, at his choice of such a subject for discussion. He wondered if Sir Arthur had any thoughts of marrying again.

"There are some very knotty points about this same love-making," continued the general. "I do not think, taking it as it is conducted now, that the ladies have a fair chance."

"Why not?" asked Sir Basil.

"The advantages are mainly on the side of the man," said the general. "If a man sees a girl and likes her, he has but to tell her so she can say 'Yes,' or 'No.' as she pleases."

"Certainly," chimed in Sir Basil. "Reverse the question. If a young girl sees a man and likes him ever so much, she cannot say so."

### Not Sticky

Ivory Soap rinses easily. The rinsing removes all suggestion of soapy shine because Ivory does not contain unsaponified oil and does not stick to the skin.

The skin dries soft and smooth after being cleaned with Ivory. The pores are freed of soap as well as of dirt. There is no smarting or burning. Your skin will not only feel refreshed but look so after an Ivory Soap bath.

### "Mother and Her Pets"

#### Love Candy Cascarets

Careful mothers know that Cascarets in the home means less sickness, less trouble, less worry, less cost. When one of the kiddies has a white tongue, tainted breath, sour stomach or a cold, a Cascaret quickly and harmlessly works the poisons from the liver and bowels and all is well again.

**TO MOTHERS!** While all children detest castor oil, calomel, pills and laxatives, they really love to take Cascarets because they taste like candy. Cascarets work the nasty bile, sour fermentations and constipation poison from the child's tender stomach, liver and bowels without pain or griping. Cascarets never disappoint the worried mother. Each 10 cent box of Cascarets contains directions for children aged one year old and upwards as well as for adults.

### Death of Former Resident of This City.

Died at Weston, Barney Held, aged  
42 years, 10 months and 11 days.

o'clock from the home of his brother,

### Favors Combined School For Brantford.

Principal A. M. Overholt of the  
Brantford Collegiate Institute, has  
presented an alternative plan for in-  
creased accommodation without the  
necessity of erecting a complete Tech-  
nical School. He is of the belief that a  
combined school is to be preferred to  
two distinct institutions. He would  
add a wing to the present building,  
which would contain machine and  
workshops for the main industries of  
the city, household arts departments, in-  
cluding cooking, dress-making, millinery  
and laundry departments, with cafeteria  
kitchen and dining-room for the public,  
an art room, draughting room and  
class rooms on the top flat to relieve  
certain rooms in the present building  
needed for other classes. Such would  
give the needed technical facilities and  
also relieve the pressure on the present  
building.

The laboratories would be available  
for both.

Mr. Overholt is a strong exponent  
of combined schools, rather than two  
separate ones as at present the other  
party, supporting a purely Technical  
School and the Collegiate separately,  
contending that they will work out  
better, and would be more economical.

### New Sheriff Of Grey.

Jas. Wilson of Hanover has been  
appointed Sheriff for the county of  
Grey to succeed the late Sheriff T. H.  
Thomson of Owen Sound, who died two  
weeks ago. Since the vacancy occurred  
the general understanding has been  
that Mr. Wilson would be the most  
probable of the many candidates for  
the position. There were numerous  
applications, including those of sev-  
eral returned men, but the feeling was  
that a man from the south part of the  
county should be appointed. The new  
Sheriff is a fine type of man and will  
fill the office well. He is a building  
contractor. He lost one son in the  
war, and another son also served  
overseas.

### Influenza Again

Influenza is again showing its pre-  
sence in Oxford County. 3 deaths  
having been reported in Woodstock.  
Enquiries this morning revealed  
the fact that Kitchener and the  
immediate vicinity are without new  
cases up to the present although  
in Woodstock and district the fresh  
outbreak is causing no little concern.

### Science Master At Guelph.

The appointment has been made by  
the Board of Education of W. R. R.  
Green, B.A., as science master of  
Guelph Collegiate Institute. He comes  
from London Technical School, and is  
an honor graduate of Queen's Univer-  
sity.

### Goes To Brantford.

Mr. A. H. Foster, who for several  
years past has been the manager of  
the Guelph Radial Railway, and al-  
so manager of the Guelph Waterworks  
Department, has received the appoint-  
ment as manager of the Brantford  
Municipal Railway, and expects to  
leave to take up the duties of this im-  
portant position in a few weeks' time.

### MOTOR TRUCK INDUSTRY PROSPEROUS

Another indication of the confid-  
ence in Canadian business by U.S.  
Manufacturers is the fact that the  
Republic Motor Truck Co. of Alma,  
Michigan, are establishing a Branch  
Factory in Canada. They are one of  
the largest Truck builders in the  
world, making trucks for all purposes  
with a carrying capacity of 1000 lbs.  
to 5 tons. They are represented  
locally by A. Lockhart & Co., Ltd.

## Guelph Company To Build Addition

### PARTRIDGE RUBBER CO. ADD- ING TO PLANT

Referring to proposed additions to  
one of Guelph's industries, the Guelph  
Herald says:

"Among the manufacturing estab-  
lishments of Guelph which will build  
an extension to their factory during  
the coming year is that of P. E.  
Partridge Rubber Co. This firm has  
only been doing business in Guelph  
for a little more than two years, but  
such rapid strides have been made  
and the business has been increased  
to such an extent that it has been  
found absolutely necessary to pro-  
vide greater accommodation at once.  
Plans have been prepared for the  
erection of a building as an addition  
to the present plant 100 feet long  
and three stories high, to be placed  
at the eastern end of the factory and  
extending almost to Metcalf street.  
It is expected that the work of con-  
struction on the new addition will  
begin as soon as the plans are finally  
approved of and the contract let.  
The new extension will be built  
much along the same lines as the  
present one, with the exception that  
better light may be obtained. It  
will be up to date in every particu-  
lar. When it is completed the Par-  
tridge Rubber Co. will be enabled  
to just about double their present  
capacity, which means that fully  
750 people will be given employ-  
ment, there being almost 400 now  
working at the plant, three shifts  
being used and the plant being op-  
erated 24 hours a day. This has been  
found necessary in order to keep up  
with the rapidly increasing business  
being done by this firm.

Mr. Partridge, the president of  
the company, informed The Herald  
that the business of the Partridge  
Rubber Co. last year totalled \$1-  
125,000, and that over \$300,000  
had been paid out in wages. Every  
month's business shows an increase  
over that of the month previous, and  
he expects that during 1919 the  
company will do a business amount-  
ing to \$2,500,000. In order to do  
this the capacity must be increased  
and more people employed. He also  
stated that whenever possible re-  
turned soldiers who could do the  
work would be given every chance  
to make good and adequate wages  
would be paid to these men. Good  
tire builders earn anywhere from \$6  
to \$12 per day, according to their  
ability. It might be mentioned that  
when the business was taken over  
by the Partridge Rubber Co. there  
were about 20 men employed in the  
whole building, and a visit to the  
factory now shows that it is a busy  
hive of industry, under capable man-  
agement, and the first class  
roads being turned out.

Mr. Partridge is exceedingly opti-  
mistic regarding the future of the  
rubber business in Canada. He says  
it is bound to grow and he firm who  
keeps abreast of the times and man-  
ufactures the kind of goods the pub-  
lic can cannot help but succeed.

In order that there may be no  
misunderstanding in the matter it  
should be pointed out that in erect-  
ing this new extension to the pre-  
sent factory the Partridge Rubber  
Co. is not asking for any conces-  
sions from the city whatever as the  
business is now able to stand on its  
own feet.

The other new building which it  
is proposed to erect and for which  
certain concessions are being asked  
from the city is a rubber footwear  
factory with a capacity of 5000  
pairs a day. It is proposed to erect  
a modern factory on the property  
formerly used as a lime kiln and  
facing Metcalf street. It is to be  
200x300 feet in size four stories in  
height and to be modern in every  
particular. Further particulars of this  
proposition will be given to the  
public later.

Owing to the illness of the pastor,  
Rev. J. Maurer the services of the  
First English Lutheran Church yester-  
day were conducted by the pastor,  
Rev. N. Willison of Waterloo College.  
Rev. Mr. Willison will be the acting  
pastor during Rev. Mr. Maurer's  
illness.

The Evangelistic band of McMaster  
University conducted the services at  
King Street Baptist Church both  
morning and evening. A special  
service for all was conducted by the  
band in the afternoon when the subject  
was "Heart Trouble." The meetings were  
an inspiration to all attendants and a  
success in every way.

Charged with damaging property

One case was on the police court  
docket this morning. It was a charge  
of wilfully damaging property, the  
accused being a sixteen year old youth.

The charge was laid over for a week  
and the defendant remanded to the  
County goal, for that time, Magistrate  
Weir pointed out that the Crown was  
not ready to proceed with the case  
today and that the Crown first wished  
to consider whether any other charges  
should be laid.

It appears that the young man had  
some differences at home and got into  
a violent altercation which was follow-  
ed by damage to property at the home.

The telephone in the home and that in  
a neighbors house, which were to be  
used to call for the assistance of the  
police were put out of business. On  
South Queen street further damage  
resulted while the accused was being  
brought to the police station.

In the tussle between the young  
man and the officer the latter was  
shoved through the plate glass window  
of the Custom's office and the de-  
fendant, however, with the assistance  
of others, was brought to the police  
station where he was kept in custody  
until this morning.

Louisa M. Alcott's Famous Story

## "LITTLE WOMEN"

A Paramount - Artcraft Special

STORY OF GIRLHOOD IS  
"LITTLE WOMEN."

Celebrated Alcott Novel To Be  
Seen In Picture Form.

Louisa M. Alcott's wonderful story of girlhood, "Little Women," recently pictured, will be displayed at the Allen theatre next Wed. Thur. It brings to life the four little women and many of the other characters all of which are well remembered by those who have read this celebrated novel.

The story is acted most sympathetically and wherever shown, the production created an impression that few motion pictures have done in a long time. The adventures of the four little women, Meg, Jo, Beth and Amy are attractively pictured, the result being a play of irresistible charm and beauty. The picture was photographed in the old home of Miss Alcott where the immortal story was written, so that all who have read the story will appreciate the cradle in which their favorite heroines were born and reared to splendid young womanhood.

The various roles of this superb story are portrayed by players of repute. Isabel Lamont is seen as Meg, Dorothy Bernard as Jo, Lilian Hall as Beth and Florence Finn as Amy. Kate Lester is "Marmee," George Kelson, Mr. March, Henry Hull is Brooke and Conrad Nagel plays the role of Laurie.

## Dentals 2, Tigers 1

Crowd of 7,000 See Thrilling Game Toronto—Travelling at a terrific pace from start to finish Dentals 2 to 1 in the first of home-and-home games to decide the championship of Group No. 1. The winners on the play should have gained a more commanding lead. They will meet Tigers in the final on Wednesday night, but will have to be at the top of their form to win on Hamilton ice.

The attendance record was not broken, but despite unfavorable weather conditions a crowd of 7,400 the second largest in local history, saw the game. Dentals suffered a serious loss in the final moments of the contest when "Bill Box" was laid low in a collision with Green. The later carried the puck down the left side of the rink, and when the local defense man attempted to check him he jumped, and while in mid-air, whether by accident or deliberate intent, he struck Box a cruel blow on the upper lip sending him flat on the ice with such force as to render him unconscious. Box was carried from the ice, and it was thirty minutes before he fully regained his senses. Green was given a penalty of three minutes which was entirely inadequate if his attack was intentional, and it was the consensus of opinion that such as the case.

The game owing to the closeness of the score and the speedy skating of the rival teams kept the spectators in a frenzy of suspense during the entire sixty minutes. Tigers despite the addition of Lalonde to their coaching staff did not show any marked improvement over their last appearance here. The defense pair, Reise, and Matte, checked better and afforded Reame more protection but all fell down badly when in the vicinity of the local goal.

Tigers Bottled Up. Dentals excelled as backcheckers and bottled up the Tiger attackers with ridiculous ease. This style of play really earned them the verdict. Hudson, Smylie and McCaffrey stayed right with their checks, and by their bulldog tenacity broke up all attempts at systematic play made by the visitors. All three are speedy skaters and know when and how to use this asset to advantage. They came back so fast that the Tiger puck carrier generally found himself facing a live-man defense. The visitors, however, were partly responsible for this state of affairs. For some reason or other they failed to break fast and thereby lost many promising opportunities. Dentals—Goal Stewart; defense, Box and Brown; left wing, Smylie; right wing, McCaffrey; centre, Hudson; substitutes, Smith and Rennie. Tigers—Goal Reame; defense, Matte and Reise; left wing, Duncan; right wing, Green; centre, Roach; substitutes, McCarthy and Parker. Referee, L. Whitehead.

are to be selected from six in Michigan, Lansing, the State capital, finds itself without a part, while Battle Creek is 45 miles farther west, is anxious to replace the Capital City, Grand Rapids is also a candidate. Bay City, Flint and Saginaw, have been assured of their places in the league.

The delegates in attendance were as follows:—Brantford, F. Westbrook; Hamilton, T.J. Nelson; London, J.W. Keenan; Kitchener, A.A. Eby; Bay City, L.C. Garrison; T.H. Burton and M. Matteson; Flint, T.J. Halligan and W. Nilliet; Saginaw, B. Mercer and T. Tierney; Lansing, H.W. Warner; Battle Creek, J.Y. Waukeganant.

Eleven Applications.  
T.J. Halligan presided at the meeting, with W.A. Rhodes of London acting Secretary. Mr. Halligan outlined the campaign in an opening address, and stated that it looked as though the meeting would have to decide whether to make it a ten or an eight club league as Battle Creek and Grand Rapids were angling for berths. Guelph, Ont., also demands recognition.

"The eight-hour labor adoption will aid the game in the United States," said Mr. Halligan. "Knotty" Lee the man through whose efforts the baseball enthusiasts of both sides of the border were brought together, stated that he attributed the success of the Toronto International League

club to being able to play on Canadian and American holiday dates in addition to Sunday ball in the States, and it was this that gave him the incentive to create a circuit composed of American and Canadian cities.

Short mileage between jumps daylight-saving and the fact that the sale of ball players will be greater since outlaw baseball and the drafting of players are things of the past, will all help the cause of such a league.

Fred Westbrook of Brantford predicted a wonderful revival of the game, and stated that he would rather not see clubs with a half-hearted spirit get into the league.

Joe S. Jackson the Man.  
Nominations to the Presidency and Secretaryship were made as follows:—Joe S. Jackson of Detroit, former President of the American Baseball Writers' Association, and Frank R. Street of Flint. The election will take place at a general meeting of all the clubs at the Dresden Hotel, Flint, each club to have but one vote. The man elected will hold the dual office of Secretary and President. It was pointed out that the stimulus required to put the game on good footing in Michigan pointed favorably to the election of Mr. Jackson who held a similar office in the days when the South Michigan League was a success.

Every delegate in attendance spoke on their respective city's situation regarding reorganization of a league, and at the conclusion all were united as to the prospects for a successful campaign.

It was moved that Joe S. Jackson and "Knotty" Lee be asked to attend a meeting of the Michigan clubs to be held at the Dresden Hotel Flint on March 2, at 3 p.m. This meeting will determine the composition of the Michigan end of the circuit. The finding of this meeting will be dealt with at the general meeting a week later.

It was moved that "Knotty" Lee be made a member of the league's directorate in an advisory capacity. he made a member of the league's directorate in an advisory capacity. The meeting also moved a vote of thanks to Mr. Lee for his untiring efforts in getting the league under way.

The Pomeranian Club of Canada held a successful evening show, open to all breeds, in the Broadway Hall. The entry was extra large and the attendance of visitors exceeded all expectations. The secretary and officials had everything in order, and the proceedings went off with a swing.

## POLE NATIONS STRIVE FOR WAR AN

NO NON-WARRING NATION MAY GAIN MUNITIONS

PARIS Feb. 23 (By Fred S. Ferguson)—Revolutionary changes in international law which, fitting in with the rules of the league of nations, would make war virtually impossible, are now under discussion. A regulation may be adopted under which munitions are shipped from neutrals to warring countries, would be completely overthrown. Under its operation "freedom of the seas" would not be theoretical but real.

The United Press is able to state today that the principle points advanced by the peace delegates, regarding munitions shipments in the future are:

1.—Each nation shall be held responsible for any unneutral act by its citizens.  
2.—All contraband must be established at the outbreak of a war, an lists cannot be changed during the period of hostilities.  
3.—As carrying contraband is naturally forbidden, the flag of a warring nation, flying over a ship would be a guarantee that she was not carrying munitions or other prohibited materials.  
4.—If a ship arouses suspicion and is stopped within a restricted area, search shall be limited to investigation of her papers to determine her nationality.  
5.—If a ship of a non-warring port is discovered carrying contraband

## Special Construction Committee Had Me

Discussed Crosstown Transportation Matter.

WILL RECOMMEND LIGHT COMMISSION TO USE MOTOR BUSES

Last evening the initial meeting of the Special Construction Committee, appointed by the city council on Feb. 17, was held. There were present Mayor Gross, and Aldermen Amussen, Sayer, Greb, Lippert, Bowman and Uttley. Alderman Amussen was chosen chairman, an Alderman Bowman secretary.

The resolution appointing the committee contained a list of matters relating to construction and employment. The committee after reading their over, decided to hold semi-monthly meetings until their problems have been finally disposed of.

The first question discussed was that of crosstown transportation, by street car or otherwise. The growth in the number and importance of our industries, and the spreading of homes over a larger area, has caused inconvenience to employees, who have long distances to go to reach the work and homes and their families and themselves who require to see downtown. Easy and rapid transportation has thus become necessary.

After a full discussion of the phase of the matter the Committee decided to arrange a conference with the Light Commissioners, who are familiar with the problem and have experience in operating an interurban streetcar line.

The majority of the Committee men are presently in favor of negotiating the purchase of two or more motor buses, to serve respectively the populations north and south King Street; to operate on a tin schedule, at frequent intervals at in conjunction with the streetcar line. This conclusion will be submitted to the Light Commissioners when a joint meeting is arranged.

Increased water supply and water pressure and an Industrial Building or "factory nursery" were discussed but left open for further consideration.

Two hours of frank consideration were given to the duties assigned the Committee.

## Ireland to Benefit

FROM ALL STATE SUBVENTIONS

DUBLIN, Feb. 23.—Ireland was equally benefit with Great Britain in the reconstruction work planned by the government, Sir James MacPherson, chief secretary for Ireland declared in outlining the government's Irish policy before the conference of representatives of Irish municipalities here.

"A grant of 50,000 pounds (\$1,250,000) has already been made to meet the immediate demands of demobilized men and other needy assistance," said MacPherson. "Any other reconstruction advanced in Ireland is applicable to Ireland. The housing situation in Ireland.
