## SUGGESTION MADE THAT BOARD CLOSE ITSELF UP

Dire Threatenings of Health Officials Gains Them Publicity, But Little Else—Need of Moderate Priced "Homey" House in London Is Emphasized.

Some citizens think that the board of health would do well to emulate its own doctrine once in a while—namely, "to close up." The worthy and active chairman of the board and his equally active and worthy medical officer of health count that day lost beneath whose setting sun finds neither one of them on the front page.

Let's see. They have threatened the butchers about once a month for years. Hog cholera, abattoirs, shop inspection, have been the pegs upon which they have hung their thundering tirades. Then there was Dr. Hill. The board of health no doubt thinks it drove the dear doctor from London—and perhaps it did, though not in the way the board thinks. He possibly couldn't stand it any longer, or he was afraid that if he laughed any longer people would think it unseemly for a professional man.

Last week the board "threatened" to close Teumessah Park, the fair grounds and the police station. Now anyone who "threatens" hard enough is good "copy," and the chairman or M. O. H. is always there with dark foreboding for some poor soul. So no one can blame the city hall reporter. He expects that there will be a denunciation of insanitary peanuts this week, the demand being expected for the wrapping of each peanut in sanitary waxed paper.

Is there something underground about the movement for subways? The city has the opportunity to secure \$5,000 for each of three subways from the railway board, and that opportunity will expire at the end of this year. If the city thinks it advisable to wait for elevated tracks, it will wait many years. In subways there is permanent relief whether tracks are elevated or not for some sections of the city. And \$5,000 is not to be sniffed at. While there is a demand in the city for moderation in spending, the city objects to expenditures for necessities. For instance, the present work on storm sewers is brought about through the votes of the people. It was agitated for many years and is one of the most necessities. Schools must be built, and there will be no justice in carping criticism. The city is faced with many heavy outlays, neither to the credit or the discredit of the present administration. Garbage collection is now regarded as a fixture, although many have never become reconciled to the manner in which the incinerator was installed, as they have never

become reconciled to the lavish expenditures on the courthouse. The only criticism of the Federal Square scheme is that the Government has not kept exact faith with the citizens, and there is still some doubt as to what will be forthcoming in cash from Ottawa. The city has the maintenance of the present city hall, the old McCormick property, and several other properties. Major Coles would do well to get the citizens some action on this question. He was elected as controller because London thought he could make the thing move. The scheme is now on its second year and it is still just about stationary.

If many of these things have been looked upon by citizens as necessities, how much more a necessity is the transportation problem. There should be some team-work for subways, or some active movement toward a solution of the blocked tracks problem and the danger to citizens.

One of these days the city of London will have to seriously consider the problem of the modern businessman's home. If an executive officer, earning from \$1,200 to \$2,000 a year, came to the city at the present time, he would have a difficult time in securing a house under \$35 a month in a desirable locality. And some of the houses that are being offered at that price simply make the thing highway robbery. The writer has in mind several houses of six rooms that were built at a cost of not more than \$2,000 a piece that are being rented for more than \$35 a month. No one will blame the man who built them for getting all he can, but at the same time it does the city no good to have high rents for poor houses. The man who will build modern houses that will rent for \$25 a month—and it can be done—will be hailed as a benefactor. The present type has a living-room, dining-room, kitchen (7x14), two bedrooms and bathroom. They are finished in pine and plastered. The fixtures are cheap, and there is nothing of a homelike atmosphere about them. Better houses rent for less money in larger cities, and it is this that is a new line of building bylaws for the protection of the tenant, and perhaps a graded scale of rents, were put in force. "Put 'em up cheap and rent 'em high," seems to be the motto of the speculators. And the worst of it is that the man from outside has to take this sort of house and keep a step ahead of the butcher and the baker.

## KEEPING UP APPEARANCES

### JAIL GOVERNOR MOURNS INCREASING H. C. OF L.

No Longer Can He Feed His Prisoners for Five Cents Per Day.

### DAILY MENU COSTS 91-2C.

Governor Carter, of the county jail, is beginning to realize what the high cost of living means. He used to be able to feed his guests for seven cents a day and now it costs nine and a quarter cents without delicacies. However, with the luxuries ordered by Jail Physician Dr. McArthur for his patients the cost has been boosted one-quarter of a cent more.

"It's not like it used to be," said Governor Carter. "Why, when Robert Boston was governor of the jail he fed the prisoners for five cents a day. I attribute the high cost to the high price of meat, oatmeal and syrup."

"We don't feed the prisoners blackstrap any more," said the governor with a smile, as he invited the reporter to stay for dinner. He smiled some more when the latter politely declined with thanks.

### Battery Officers Yet Unrelieved

Resignations Have Not Yet Been Accepted by Minister of Militia.

Major Wood Leonard and his brother officers of the Sixth (London) Field Battery are still without word from Col. Hughes, the minister of militia, concerning the acceptance of their resignations. As a result the officers find themselves in an equivocal position. They still are officially responsible for a regiment, which to all intents and purposes has ceased to exist.

### ALMOST LAST WORD IN STRAWBERRIES SAID

Quoted at 15 Cents Wholesale on Market This Morning.

### LOTS OF RASPBERRIES

Almost the last word in strawberries was said today at the market square, when they were quoted by the two or three gardeners who had them, at 14 and 15 cents a box, wholesale.

Strawberries this year are almost a complete failure. Ripened too early by the hot sun and dry weather of the first part of June, they dried up, and thousands of dollars' worth were destroyed.

No time this year has the price of berries been lower than 10 and 12 cents a box, and it has often soared to 16 and 17 cents a box.

Raspberries will be much more plentiful, farmers say. The rains, which came too late to save the strawberries, have done the raspberries much good. None have been on the market yet, but are expected to appear in large quantities in a couple of weeks.

Strawberry season is practically over, and although later pickings will be offered on the markets, the supply will be scarce. The last of the crop will peter out about the end of this week.

### TO PRESENT ESTIMATES OF CIVIC COLLECTION

Mayor Will Show Cost of Municipal Garbage Work in Other Cities.

### HAMILTON DOES OWN WORK

When the board of control meets tomorrow morning it is probable that Mayor Graham will submit several letters he has received pertaining to garbage collection in other cities.

As the council's agitation on the cost of collecting garbage here, it is probable that the city will do all its own work in this connection.

Buffalo Expects Reduction. Letters received by the mayor from Buffalo say that city is doing its own garbage collecting for the first time this year at a cost of \$215,000. This was the price that a contractor had the work for a year ago, and he lost \$65,000 on the contract. Buffalo hopes to keep within this estimate of \$215,000, although the city is compelled to pay 97 cents per ton to destroy garbage. This item alone costs the city \$25,000.

Hamilton Does Its Own Work. The city of Hamilton does its own garbage collecting. It had previously been done by contract, but on account of friction and the necessity of constant supervision over the contractors, it was found more satisfactory to have the city collect its own garbage.

WEST KENT LIKELY TO HAVE A RECOUNT. [Special to The Advertiser.] Chatham, July 2.—Sheriff Gehmelt, returning officer for West Kent, made his official count this morning, declaring George W. Sulman elected over R. L. Brackin in the recent provincial election by a majority of 18 votes.

The Liberal Association has not yet decided whether a recount will be needed or not. It is likely one will be demanded. There were 32 rejected ballots.

## ARRESTS EXPECTED IN SMUGGLING PLOT

Bankrupt Firms Said To Be Connected in Extensive Operations.

## SMUGGLER IS ORIGINAL

Uses Bandages on Leg, Pretending to Have Long-Standing Injury.

[Canadian Press.] New York, July 2.—Arrests are due shortly in a big diamond smuggling plot, involving the bringing into this city of gems worth \$700,000. Assistant U. S. Attorney Roger B. Wood has just returned from Montreal, where he spent several days investigating the plot. Mr. Wood refused to discuss the matter, but it is known that the smuggling operations of the ring were disclosed in the investigation. In a recent bankruptcy case, out that Joseph Samuels & Co., bankrupt braid manufacturers, several members of which are under indictment, had extensive note transactions with Herman J. Diehl, a diamond importer of this city, who is also in bankruptcy. Diehl's dealings with the bankrupt firm of Aaronson & Ruttenberg, diamond dealers of Montreal. Many of the diamonds said to have been smuggled in from Montreal were pawned here.

Two Failures. The firm of Aaronson & Ruttenberg failed several years ago. It is said it got back on a good basis, but the failure of the United States firm dragged it down again. It owed the Montreal house nearly \$200,000.

Original Idea. The man who has done the smuggling employed original methods to conceal the diamonds. It was his custom to travel backward and forward across the border with the diamonds wrapped in a small parcel, which, by means of bandages, he concealed around his legs. He appeared to have met with a long-standing accident, and had his leg bandaged. He limped, and did not excite any suspicion. Beneath the bandages were diamonds to the value of from \$10,000 to \$75,000.

The reason why he came to Montreal was because diamonds can be bought here more cheaply than in the United States. The difference in the duty alone amounts to nearly twenty per cent.

## PIER COLLAPSES; HUNDRED IN RIVER

Accident Reported From Stag Island—No One Drowned, But Women Faint in Terror.

[Special to The Advertiser.] Sarnia, July 2.—It is reported here that a small section of a pier running out into the St. Clair River at Stag Island collapsed last night, while a large number of people were standing on it. About one hundred of the crowd were thrown into the river, but as the water was but a few feet deep, no one was drowned. The falling of several women added to the excitement.

## HOT IN FRANCE

PARIS, July 1.—A heat wave of exceptional intensity is spreading over a large part of France. The highest temperature registered today was 88 degrees Fahrenheit at Rochefort. In Paris the temperature reached 93 degrees.

## PRINCESS AVENUE SCHOOL MAY COST OVER \$100,000

Board of Education Will Not Rush Work Until Money Is Forthcoming.

The Board of Education will hold a regular meeting next Tuesday afternoon to receive the report of No. 2 committee recommending the purchase of the Macbeth property on Princess Avenue for \$30,000. The property is wanted as the site for the new Princess Avenue school.

Whether plans will be prepared immediately for this new school will depend largely upon how the board comes out in the request for money to the Board of Control. An estimate of the cost of the new building has been put down at \$75,000, and with the site it may run to \$115,000.

## LITTLE MONEY FOR FIRE APPARATUS

Lack of Funds Will Prevent Necessary Purchases This Year.

## POLICY OF RETRENCHMENT

Expenses Must Be Sliced to "Get By"—Deficit Inevitable.

Because there are no funds available and retrenchment must be practiced to prevent a deficit at the end of the year, the board of control will not purchase a motor tractor to take the place of the three-horse hitch of the hook and ladder truck at the central fire hall. It is even doubtful if the board will recommend the purchase of a motor truck for the central fire station, an apparatus which is a dire necessity.

Controller Rose and Fire Chief Aitken went to Columbus, Ohio, several days ago to inspect motor-driven vehicles, but as yet their report has not been read at the board of control. It is understood that the members of the board who are in touch with the financial condition of the city are against spending any more money out of the general rate. They want to keep the tax rate down for next year. To reduce it from 27 to 25 mills this year it was necessary to appropriate several items passed by bylaw last year, and issue debentures for them.

Deficit Inevitable. That the city will face a large deficit at the end of the year now seems inevitable. Wherever it has been possible, money needed this year has been put into a debenture issue to keep the rate from mounting higher, but there are many items that must be cared for, including a request from the board of education for money to build a new school.

## STEAMER ASHORE IN GEORGIAN BAY

C. P. R. Assiniboia, With 100 Passengers, May Be Able to Back Off—Is In No Danger.

[Canadian Press.] Montreal, July 2.—The C. P. R. steamer Assiniboia went ashore at 2 a.m. today at Bad Neighbor Shoal, Cove Island, Georgian Bay. Her forepeak is leaking a little. News of the grounding of the steamer reached the offices of the Marconi Wireless Telegraph Company here from the radio station at Sault Ste. Marie, Ont.

Communicating the ship's plight, the wireless operator on the boat said it was thought the Assiniboia could back off, as she was swinging, and there were eleven fathoms of water under her stern. The weather this morning was calm and (Continued on Page Eleven.)

Shallow depressions exist over the New England States and in the Western Provinces. Showers have occurred over the greater portion of Ontario and in Western Quebec, but in nearly all instances they have been light. Light showers are also reported from Northern Alberta.

## USED A DICTAPHONE TO HEAR HUSBAND'S TALKS WITH WOMEN

Doctor's Wife, During Investigation of a Murder, Says Its Record Comforted Her.

[Canadian Press.] Freeport, N. Y., July 2.—In searching for a motive for the murder of Mrs. Louise Bailey in the office of Dr. Edwin Carman, the police today are working on two theories. One of them is that a lunatic killed Mrs. Bailey when shooting at Dr. Carman. The other theory is that a woman fired the shot. Dr. Carman has served upon many lunacy commissions in Freeport, and the police believe some person who was committed to an asylum through his instrumentality sought revenge, and missed his aim.

There is a mystery surrounding Mrs. Bailey's reason for calling upon Dr. Carman for medical advice, when she might have sought a physician nearer her home in Hempstead, five miles from Freeport.

The investigation also developed that Dr. Carman's wife had for weeks listened to his conversations with women patients by means of a dictaphone. Mrs. Carman readily admitted having had the instrument installed, because, she said, she felt she had a right to know what her husband was talking about with women visitors.

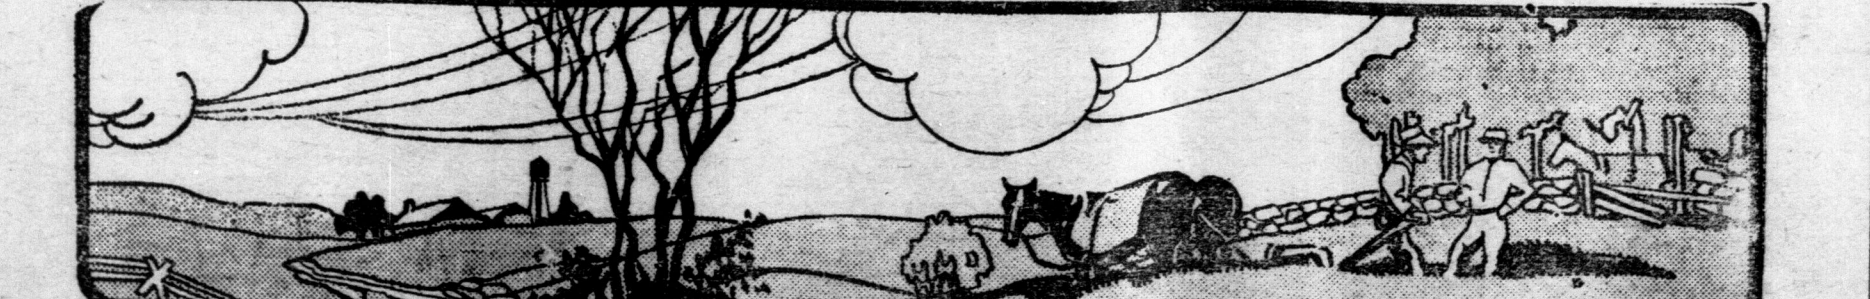

"And everything I heard over the dictaphone comforted me," she said. "I became convinced of the doctor's fidelity to me."

District Attorney Lewis J. Smith stated that he was convinced that the shot had been fired by someone outside the house.

## JULY STARTS IN WITH BRISK BUILDING BOOM

New building activities in London so far this year involve an expenditure of \$1,128,715. The month of July has started in with a record of nine permits amounting to \$79,250. The indications point to a healthy boom for the city in the building trade, as there does not seem to be any let up in new work.

## Fresh Air Fund Is Opened To Give City Kiddies An Opportunity To Enjoy "Fresh Air and Farm Fare" They Would Otherwise Be Denied

The slogan "Fresh air and farm fare for city kiddies" appears to have gone straight to the hearts of the kind-hearted farm readers of The Advertiser. Each mail brings additional offers to Miss Gray's desk, and it is expected that within a very short time a number of London's boys and girls will be trekking for the "real country" buoyant in the anticipation of a fortnight's visit among the cows and the clover. The Advertiser is making a selection with great care, endeavoring to send only those

children who would not otherwise have a summer's outing, or those who have never been in the country for any length of time.

The ready sympathy of The Advertiser farm readers is very evident in some of the communications received. One lady writes: "I want one of those little poor little creatures, my heart goes out to them when I think of the great blessings God has given us to enjoy. I don't care how ragged or homely he may be, if he will only be truthful and honest."

We will do our best to take good care of him."

Another writes: "And so you would like to send little Johnny Street or 'Sairy Mary' to the country for some fresh air. Now we do not live on a farm, but we have quite an 'estate' nevertheless—a barn, an orchard, some chickens and, yet, an unlimited quantity of fresh air. I wonder if 'Sairy Mary' or some other little girls would care to visit with us for a couple of weeks. If so, can you arrange to send her to us, and we will try to make her happy."

In order that travelling expenses of the little folks may be defrayed, The Advertiser has decided to give its city subscribers a chance to assist in the good cause. The Advertiser is pleased to head the list with a donation of \$5.00, and would be very grateful for the gift of any sum, however small, for this purpose. Address any donations to Miss Gray, of the Advertiser "Fresh Air Fund."

If we all get together and give even a dozen little ones a happy fortnight, or perhaps longer, in the country, that is surely something "worth while."

## RAIN MARS HOLIDAY CELEBRATION HERE

Ball Games and Races, However, Draw Large Crowds Despite Weather.

### FEW ATTEND REGATTA

Port Stanley Greatest Sufferer by Inclement Weather—Many Stay Home.

Dominion Day in London was celebrated by thousands of persons, despite the inclemency of the weather. The day opened with rain, which subsided shortly after noon, when hundreds left their homes to take in the ball game, the races at Queen's Park, the boat races on the river at Springbank Park and the attractions at Port Stanley.

A general holiday spirit pervaded the city, and scores of persons came to London to celebrate the day. The hotels gave the best evidence that hundreds of strangers were in the city, while all traffic lines running into the city carried many people bound for London.

**Crowds at Ball Game.** The first ball game at Tecumseh Park in the morning was attended by a crowd which filled the grounds, although the game was played in a drizzling rain. The sun came out to assist London in the second game during the afternoon, and it is estimated that at least 3,000 people took in the contest.

**Few on the River.** The wet weather kept many from attending the regatta on the river at Springbank, although the crowd that did go down was quite enthusiastic over the races. Travel to Springbank was heavy in the afternoon, when the rain stopped, but nothing like what was anticipated had it been a perfect day.

**Travel Out of Town Light.** Travel out of town was light, although many took advantage of the holiday to go to Toronto and points a short distance out of the city on the C.P.R. and G.T.R. roads. The rain was also responsible for thousands giving up a trip to the Pottery, the London and Lake Erie railway carried fair sized crowds both ways, but the owners of concessions at Port Stanley expected the record crowd of the season. Many persons went to the port Tuesday night to be there for the day.

**Night Crowds Out.** The downtown streets were lined with regular Saturday night crowds during the evening, who were heavy patrons of the soda fountains. Scores visited the parks and the river, and inspected construction work going on in various parts of the city.

### TURPENTINE FIRES HOUSE

Explodes Over Gas Jet and Burns Maple Street Residence.

Heating turpentine over a gas jet in the basement of his residence, 131 Maple street, J. E. Powell had his face, hair and beard badly scorched when the liquid caught fire and exploded, the flames also setting fire to the house. Mr. Powell threw the burning liquid into a tub of water, but the turpentine floating on the water, but only spread the more. When the fire department arrived the basement was filled with smoke. The use of extinguishers put out the burning turpentine, and the fire was prevented from spreading to the upper floors of the house. Mr. Powell's burns were not serious.

## RIVER REGATTA PROVES ATTRACTIVE

Despite Weather Plenty of Exciting Events Were Staged.

### JUNIOR FOURS STARS

Doubles, Singles, Tilting, Tub Races and Swimming Make Up Good Program.

Under leaden skies that alternately brightened and poured down upon the river, the London Bogging and Rowing Club's regatta was pulled off above the dam at Springbank yesterday afternoon. The deluge in the morning and the threatening appearance of the sky during the afternoon kept many people from going to the park. In consequence a small crowd stood on the wet "side lines" and watched the events run off.

But the program was not marred to any extent by the unfavorable weather conditions. Every race was keenly contested. The thriller of the list was the senior doubles, in which the shells finished so near that it was almost impossible to pick the winners. They hugged each other through the course.

**Christeson's Crew Won.** Perhaps the best rowing seen during the afternoon was in the junior fours, when Christeson's crew pulled their shell across the finish line only a scant foot to the good. With the crack of the starter's pistol both shells got away to a fine start. Rowing well within their strength with a reserve that was apparent, the two crews pulled for the buoy up river, neither having any appreciable advantage.

"They took the turn almost together, the stroke it up down to the finish. Eastwood's crew seemed to be pulling a higher stroke. Their adversaries were drawing it out more, and their long strokes were beginning to tell. The four in Christeson's boat put ten long, hard ones into the water. Their shell shot a scant foot ahead, and although the opposing crew put every ounce of muscle into their strokes, making the frail craft fairly lift itself out of the water, they were unable to overcome the advantage. Both crews finished well, with plenty of ginger left for another hundred yards.

The crews: Winners—H. Gray, G. Christeson, A. Alken, D. Christeson, F. Marshall, coxswain.  
Losers—P. Henderson, K. Herald, E. Bleuthner, A. Eastwood, R. Crouch, coxswain.  
**Senior Fours Not Close.** The senior fours were a little off color, from a spectator's standpoint. Every ounce of muscle the crews put into the lead. Duffield's crew hugged the bobbing rudder of their competitors, and for a time they seemed to be overtaking them. They lost badly at the turn. Before their shell had been headed towards the home stretch, Marshall's four had pulled their shell towards victory by almost a hundred feet. From that point to the finish, both crews rowed strongly, but Marshall's aggregation showed a clean pair of heels, and crossed the imaginary line with a big margin.

The crews: Winners—F. Phelps, G. Christeson, R. Croden, F. Marshall, G. Ward, coxswain.  
Losers—R. Coates, J. Ferguson, W. Duffield, C. Duffield, W. Bowler, coxswain.

**Doubles Were Exciting.** The junior doubles proved exciting. There were two entries, Eastwood and Duffield, and G. Christeson and D. Christeson. Neck to neck, when the starter's gun had barked them away from the buoy, the shells sped. With an easy swinging stroke that seemed good for any distance, they moved up the river. At the turning buoy neither had any advantage. It was on the home lap that the weight of Eastwood and Duffield began to tell. Pulling well together and with a higher stroke than that of the other crew, they steadily drew away. They won by a good margin.

The senior doubles, in which Ferguson and Coates opposed Phelps and Duffield, was a hummer. Coates and Ferguson got into difficulties at the outset, getting in too near to the right bank and running foul of some willows. They regained their course almost immediately, but their opponents had made the most of the opportunity.

By some fast work on the part of Coates and Ferguson they were able to overtake the rival shell at the turn. The spurt had been too much for them, and they took a moment too long in rounding the flag. Phelps and Duffield, rowing well within their strength, hit it up down the finish strong. They were plainly putting every ounce into their work.

In spite of that, the other shell crept up on them. As the two neared the finish, the trailing craft seemed to leap out of the water. The last hundred feet were nip and tuck. Duffield's boat slid over the finish a scant foot to the good. Another ten feet to go and there might have been a different ending. Although defeated, Coates and Ferguson rowed a great race.

### Tilting Creates Diversion.

Tilting provided the laughs for the spectators. After considerable maneuvering, Thompson, who was opposing Bleuthner, was able to dump the latter overboard, with one of the nearest of strokes. Croden handled the paddle satisfactorily for Thompson. Alken, doing the navigating for

Bleuthner, seemed unable to keep the canoe head-on.

Coates and Ferguson won from Boyd and Sawle in the double canoe race. Jack Ferguson proved his ability to handle a canoe all by himself, by paddling off with the honors in the single canoe event.  
J. Croden and M. Thompson easily won the double gunwale event, because Bleuthner and Alken lost their balance at the start. The single gunwale was annexed by H. O. Boyd. M. Thompson was the best crab, and took the crab race away from the other would-be crabs.

**Tub Race a Feature.** The more haste the less speed; and if you go fast you tip, were the features of the tub race. E. Bleuthner showed that he could cross the river in anything by winning the contest. M. Thompson, who was a close second, found that his wobbly craft was almost waterlogged when he finally put his foot on mother earth again.

There were only two entries in the swimming race, J. E. Croden, exhibiting a clean racing stroke, was an easy winner. M. Thompson followed him to the dock several yards to the bad.

## THOUSANDS SPEND HOLIDAY AT PORT

Complaints Are Made About Drunken Men on Returning Trains.

### MANY ARRESTS MADE HERE

Alleged Disgraceful Sight on Board of Returning Trains Last Night.

Dark threatening clouds, and misty rain failed yesterday to keep away the crowds of Londoners from Port Stanley. More than 2000 tickets were sold for the 2:30 Pere Marquette train. A special was run in the morning at 9:30, and many extra cars were attached to all other trains. Traction cars, run every hour all day, were crowded to capacity. The casino and the pier at Port were crowded.

**Drunken Men On Trains.** Trains from Port Stanley last night were carrying dozens of drunken men back to the city. Some of the sights on board were disgraceful many passengers declared. Drunks, cursing and boozing, were crowded in the summer cars, next to women and children. More than a dozen of them were arrested soon after the trains arrived in the city.

At least one hundred fishermen sat through the soaking mist and periodical rains, yesterday afternoon, and fished happily from the pier. The catch was a poor one all day.

**Convention Delegates at Port.** Among the crowds who spent the day at Port, were nearly one hundred members of the Ontario Association for the Deaf, who attended the convention here, which closed Tuesday evening.

## TEN THOUSAND SPENT THE HOLIDAY AT PORT

Rainy Weather Did Not Stop Program of Sports Held There.

[Special to The Advertiser.]

PORT STANLEY, July 1.—Despite adverse weather conditions during the greater part of the day, Port Stanley attracted several thousand visitors today.

Notwithstanding that a slight mist was falling in the evening, every one of the Trax's special cars was crowded to capacity until 8 o'clock.

Scores from all over Western Ontario motored down during the day, and in the afternoon a large number of delegates from the deaf and dumb convention came and were delighted with the natural beauty of the resort.

It is estimated that over 10,000 visitors were present during the day.

Fishing was the only sport that suffered to any extent by the inclemency of the weather. Several exceptionally good catches were reported, notwithstanding.

The board walk and its attractions drew the crowd during the greater part of the afternoon, the majority of the visitors bathing, in spite of the roughness of the lake.

Several baseball matches featured the day's festivities. Hundreds took part in the dancing at the Casino during the afternoon and evening.

**With the Tourists.** J. A. Thomas and family, of London, are summering in their cottage, "Columbia," Erie Road.  
Mrs. James Ellison and Miss Ellison, St. Thomas, Misses L. and Frances Tongue, South Hampton, and Mr. G. Feneck, of London, are at Spruce Villa.

### MISS JUNE IS FICKLE, VERY

Steals July's Temperatures and Flirts With Jack Frost.

Remarkable variations in temperature were recorded locally for the month of June. The fickle mercury kept up a quick tango between the "nineties" and the margin of the freezing point.

The maximum local temperature for the month of roses was no less than 94.5 degrees, and this temperature was recorded on two days, June 8 and 9. The lowest temperature was 35 degrees on the twentieth of the month. The amount of rainfall for the month was 2.71 inches.

### DA GAMA PLEASSED WITH THE SUCCESS OF THE MEDIATORS

Says Mexico-U. S. A. Conflict Practically Settled—President Wilson Planned to Get Mexican Parties Together.

[Canadian Press.]

NIAGARA FALLS, July 1.—Ambassador Da Gama, of Brazil, today formally announced the practical settlement of the conflict between the United States and Mexico. He said that while mediation would take an indefinite recess, awaiting the outcome of efforts by the representatives of the two Mexican factions to solve the internal problems of Mexico, the task of mediation was not yet concluded, though an essential part of its work had been accomplished.

The ambassador spoke at a luncheon given by the three mediators to the newspaper correspondents. The entire American and Huerta delegations to the mediation conference were present, and the remarks of Mr. Da Gama, after careful revision, were made public later, constituting a formal statement of the work of mediation thus far.

#### A Home Settlement.

"It is a source of satisfaction for me," said the ambassador, "to be able to say that one of the essential points of our progress, that dealing with the international side of the conflict, is practically settled. This does not imply that we go home with our task concluded, but we feel that so far we have averted war. We have established, also, through agreement with the parties most directly interested and in complete harmony with the sentiments of the Government of the United States, that it is a principle of the American policy, to have our national problems always given a fair examination and settled without foreign interference. We understand that if such a result has been attained we shall have created a more favorable atmosphere in international politics in America."

#### President Wilson's Plan.

Minister Da Gama called attention to the fact that President Wilson had personally informed the mediators before they left Washington, that the only way to solve Mexico's problem was "to aid the contending parties in Mexico to reach an agreement among themselves, thus obtaining a Mexican solution of the Mexican question."

In this manner, the ambassador revealed that the course which mediation now has taken was in President

### LORD LANSDOWNE SAYS IRELAND IS A VAST ARMED CAMP

Announces House of Lords Will Give Home Rule Amending Bill Second Reading, But Will Later Change It.

[Canadian Press.]

LONDON, July 1.—When the bill to amend the Irish Home Rule Bill came up today for second reading in the House of Lords, the Marquis of Lansdowne, the Unionist leader, announced that, as Ireland was one vast armed camp, it was necessary to find a way out of the calamity which was threatening. The Unionist, therefore, he said, would give the amending bill a second reading and introduce amendments during the committee stage in regard to the area to be excluded from the operations of the Home Rule Bill, the duration of the exclusion and the government of the excluded area. The Unionists, he concluded, would not agree to the second reading of the Home Rule Bill itself.

#### To Avert Civil War.

Lord Lansdowne said that their action in passing the second reading of the amending bill would be misunderstood and misrepresented in many quarters, but there was no other way by which breathing space could be obtained, with the prospects of averting the horrors of civil war. The amendments to be introduced in the committee stage would be directed solely to making the bill a really adequate exclusion bill.

With a touch of pathos, he said: "The peers are so fast bound by the meshes of the Parliament Act that there is no other course open to them which would be likely to prove effective."

#### Would Reject Bill.

Most of the other speakers were equally conciliatory in tone. A notable exception was Lord Willoughby de Broke, the leader of the "Die Hards," who moved the rejection of the bill.

The Archbishop of York said that what the country wanted now was not the rejection of the bill, but a settlement in some form. Irish self-government, he declared, was now inevitable.

The Earl of Arran announced that he could not vote for the second reading, because it would be in violation of the oath of the Ulster Covenanters.

### Sacrifice Half of the Mexican People Before He Resigns

Statement Said to Have Been Made by Huerta to Party of Friends.

[Canadian Press.]

VERA CRUZ, July 1.—"Before I resign half the people of Mexico City will die with me," is the remark President Huerta is credited with having made to friends on Monday afternoon, while sitting in a Mexico City cafe at tea.

The party was discussing the efforts of the mediators at Niagara Falls to find a solution of the Mexican problem. General Huerta was more grim and taciturn than usual, and in a manner showing little of his accustomed jocularity.

### CHINAMAN SLAYS A WESTERN FARMER

ESTEVAN, Sask., July 1.—George Bidler, farmer, was shot and killed last evening at Bromhead by Lee Han, a Chinese restaurant proprietor. The Chinaman was arrested and appeared before Magistrate Spera, who committed him for trial.

Bidler had been drinking during the day and last in the afternoon proceeded to the Chinaman's, where he threatened to clean out the place. Lee Han told him to stand off, and backed toward the rear door to get out of the way of Bidler, who continued to advance, and as the Chinaman could not get out of his way after warning Bidler he would shoot, he fired the shot. Threats were made to lynch the Chinaman, and the police, to avoid trouble, hurried the other Chinamen out of town to Estevan.

### TILLSONBURG MAN KILLED AT AYLMEY

Body Supposed To Be That of Joseph Palmer Found Beside G. T. R. Tracks—Probably Fell Off Train.

[Special to The Advertiser.]

Aylmer, July 2.—Lying dead beside the Grand Trunk tracks, 1½ miles east of the town, a man was found this morning who is believed to be Joseph Palmer, of Tillsonburg. He had evidently been dead some hours, as the body was quite stiff.

When examined by the coroner, Dr. Sinclair, and Constable Finch, the unfortunate man was found to have his neck broken and several wounds on the head. In his pockets was a letter from the Standard Bank, Tillsonburg, addressed to "Joseph Palmer, Tillsonburg." Palmer's relatives are expected in town today to identify the body.

When the remains had been taken to the freight shed a coroner's jury was empaneled, and, after viewing the corpse, adjourned the inquest until Friday afternoon at 4 o'clock.

It is believed Palmer was not struck, but fell off a train. He was at Aylmer races last week, and in London on Tuesday.

### FOUR THOUSAND ATTEND WINGHAM CELEBRATION

[Special to The Advertiser.]

WINGHAM, July 1.—Four thousand people attended the Dominion Day celebration held here today. It was a great success in every way, although for a time in the morning the weather threatened. It soon cleared up, however, and ideal weather prevailed all afternoon.

The keenest interest centered in the balloon ascension. Dorothy Vonda, of Wisconsin, made two ascents, one in the morning, when she went up 2,500 feet, and another in the afternoon, when a height of 3,500 feet was reached.

Wingham beat Brussels at football and Chesley at lacrosse. In the auto parade there were sixty machines, and the event was one of the features of the fine program.

During the day the Lucknow pipers' band gave a number of selections that were greatly enjoyed.

Tonight there was one of the best displays of fireworks ever given here.

### GRADUATE OF WESTERN IS BURIED AT DRESDEN

[Special to The Advertiser.]

DRESDEN, July 1.—The funeral of Arthur Watson Grover, M.D., aged 30, whose death occurred Sunday, took place here today from the residence of his parents, Mr. and Mrs. A. L. Grover, the service being conducted by Rev. E. S. Walker, of the Baptist Church.

Dr. Grover was a graduate of the Western University, London, and after his graduation was house surgeon at St. Joseph's Hospital, London.

He had been ill for the past seven years.

## Is Standard Drug, Ltd.

OWNED OR CONTROLLED BY A WHOLESALE?

About a year ago members of our Company with years of experience in the most modern drug houses in Canada, conceived the idea that the people of London would appreciate modern drug methods and cut prices, with the result that STANDARD DRUG, LIMITED, opened their store in November last. People know full well the great change we brought about in the drug business, and can realize after seven months' experience how WE HAVE SAVED YOU THOUSANDS OF DOLLARS. Still, members of the high-priced drug combine say: "They do not deserve support, being only an outlet for some wholesale." To this we give an emphatic denial. The officers of this Company own and control it, live in London, and give all their time and experience to SAVE YOU MONEY. If we have brought about a saving to you DO WE DESERVE YOUR SUPPORT? Show us your appreciation by crowding our two stores at our Anti-High Priced Drug Combine Sale this Friday and Saturday.

## RALLY ROUND ROWELL.

DAY had scarcely broken after the 29th, when Conservative papers commenced to move Newton W. Rowell out of the Liberal leadership. Is he still a menace to their continuance in office? Do they so greatly fear his skillful probing for he is still the master legal mind in the Legislature? Or is it sheer cruelty in attempting to throw salt into Liberal wounds?

The Advertiser firmly believes that Liberalism wants Newton W. Rowell as leader, that it will work harder than ever to make him Premier, and that it will counsel him to give no quarter in the policy for which he has stood.

Mr. Rowell may have good reason to give up Liberalism, or its leadership, but Liberalism has no reason, or right, to give up Mr. Rowell. It would be a cowardly thing to demand or to seek his retirement.

## THE MEANNESS OF PELLETIER.

THE postmaster-general has been playing a small trick. He wanted authority to fix postage rates on second-class matter. But postal rates have always been under the control of Parliament, except in certain matters, which were left discretionary with the governor in council. But that did not suit the P. M. G., who wanted more power. So he tacked on his proposition to a bill for increasing the salaries of mail clerks. This increase was approved by all parties. The mail clerks are public officials who have not only a hard, but a dangerous work to do. They ought to be well paid. So Mr. Pelletier thought that the public sympathy for the clerks would carry his other scheme along with it. But it did not. The Senate rejected that part of the bill referring to postal rates, but approved the increase in clerks' salaries. That did not suit the czar of the post-office, so he dropped the whole thing. The clerks will have to wait another year for justice, simply because the P. M. G. could not have his own way about matters that had no connection with salaries.

These two questions had no connection with each other. Except as a matter of clerical convenience, there was no reason why they should both have been incorporated in the same bill. Had they been separate the salaries bill would have carried without opposition. Had the department really wanted to raise the clerks' salaries, it would have been done by a separate bill. Even after the Senate objected to the obnoxious clauses in his bill, the other part could have been allowed to go through. But because he was huffed over the rebuff he received on his scheme for arbitrary control, he threw up the whole thing, and made the clerks suffer.

In regard to postage on newspapers, the postmaster-general has it largely in his own hands, and unless he had some underlying motive, there was no need of asking for more power at the same time that he was proposing a salaries' bill. Under a clause in the Postoffice Act, he has certain powers, within limits, of regulating newspaper postage. And he has now taken advantage of that, showing that there was no need for his bill. He has now placed a special charge of one cent on every copy of a paper sent from the office of publication to be delivered by letter-carrier. In addition the bulk rate of one-quarter of a cent per pound is to be replaced by a rate of a quarter of a cent for each copy sent through the mails, from the office. This hits all classes of papers, and papers of both political parties. But the Conservative press has this advantage that, while the P. M. G. taxes them with one hand, he subsidizes them with thousands of dollars worth of advertising with the other hand. They will all make more from postoffice advertising—to say nothing of advertising from other departments—than the extra postage will amount to.

It is a small business from which ever quarter it is viewed. And it is the work of a small man.

**THE IRISH SITUATION.**  
 AT present it looks as though Sir Edward Carson's game of bluff was going to be stopped rather abruptly in a way that the Ulstermen seem not to have figured on. The rapid advance of the Irish volunteer force, its enthusiasm and growing discipline, the importation of arms, and the prospect of large financial aid from America, make it a serious, and perhaps a preponderant, factor in the near future of the Irish situation. Contempt for Southern Ireland has hitherto been the Belfast attitude. But respect, and even some alarm, are now shown in Unionist and Orange quarters over the swift development of an Irish army, which will defend the act of the British Parliament and Irish national unity.

Mr. Redmond is assuming a supervi-

sion of the Irish volunteers. He has at last given his official indorsement to the movement, and an appeal for funds has gone out to the Irish in the United States. If they will subscribe \$100,000 for the Nationalist party chest, they may be expected to contribute a million to a real fight fund, and perhaps do more than send money. Nationalist members estimate that the volunteer force, now over 100,000, will soon reach 300,000, in the face of which the Orange 100,000 will look small.

As an Irish correspondent of the London Times says, "the whole of Ireland is on a war footing." The volunteers may be regarded as the territorial army of the Irish Government now coming to birth. Mr. Redmond, as premier, has an army ready-made to his hand with which to crush rebellion or riot.

The size and strength of this army will, however, be one guarantee of peace. Those Orangemen who have been bulldozing Protestant Home Rulers in Ulster, and refusing to allow a majority vote to settle the political status of the various Ulster counties, will find that two can play at a game of force, or bluff, and will have to behave themselves in the light of this discovery. The secret ballot has already shown Ulster, as a whole, to be favorable to home rule. Now that it is a fait accompli, Protestant home rule opinion in the north will be no longer terrorized into silence or sympathy with reaction.

That there is plenty of such opinion, latent or open, not only in Ulster but throughout Ireland, is proved by the fact that numbers of the Irish volunteers are Protestants in various quarters. In a letter to the London Daily News and Leader, Sir Roger Casement, writing as a Protestant from Belfast, says that "the first volunteer to enrol, at Limerick, on January 25 last, the day of the inaugural meeting, was a leading Protestant merchant of the city. The regimental colors will be presented to the Limerick volunteers by two Irish-Protestants—one a lady, the daughter of an Irish peer; the other a late member of the British public service. From one of the wildest parts of the West a letter was received last week (second week of June), saying that a leading Protestant in the district, who had signed the Orange covenant, now wished to enrol in the Irish volunteers, as offering him a wholly non-sectarian and national field for displaying his love of Ireland. His offer was, of course, accepted."

If the Irish volunteer win Protestant recruits in Southern and Central Ireland, much more therefore will it win them in Ulster, once the Carson gag is pulled off by the menace of the Irish national force. On the one hand is the rebel and sectarian force of 100,000, pledged to follow Carson in dividing Ireland and threatening a ruinous civil war; on the other stands a larger army, non-sectarian, though organized by Protestants like Sir Roger Casement, pledged to maintain Irish unity and British law. The antagonism is like that between the Southern Secessionists and the North fighting for the Union in the American Civil War. It will not be difficult for sensible Protestants in Ulster to decide where to stand. And their action in the coming ballot to be taken in the Ulster counties will doubtless cement a peace in Ireland.

## SIR JAMES' OMISSION.

WE HAD always given Sir James Whitney credit for a certain rough gratitude to those who aid his government, but he seems to have overlooked the payment of sincere thanks to one section of the electorate. After having bestowed his respects upon the clergyman who did not, do not, and will not be subservient to great Sir James and great Sir Gin, he should have added: "I cannot let the opportunity pass without saying how much my colleagues and myself feel ourselves indebted to that noble band, the hotel-keepers, the distillers, the brewers, and all the same, good people who comprise their following. They contributed very largely to the overthrow of Rowell, and the ministers, not only by means of the votes of themselves and their friends, but by aid in the form of ready cash. We were fighting this election on 'principal' and by the aid of the anti-temperance forces we have won it. What benefits will accrue to the cause of temperance will be seen more closely as time goes on."

## THE JUNE BRIDE.

The June bride was scarcely given a thought during election excitement.

For Sir James the joy of victory was tempered by that slap in the face from the Essexes.

Sir George Paish says that the entire world is on the verge of better times. Let her hum.

The Christian church had a new experience in politics. Four years may work a great change.

The fortunes that befall the Liberal party can be good or ill, in proportion to the courage with which Liberals accept them.

It is just possible that a great many "regular" Liberals sat back and depended too much on the temperance people?

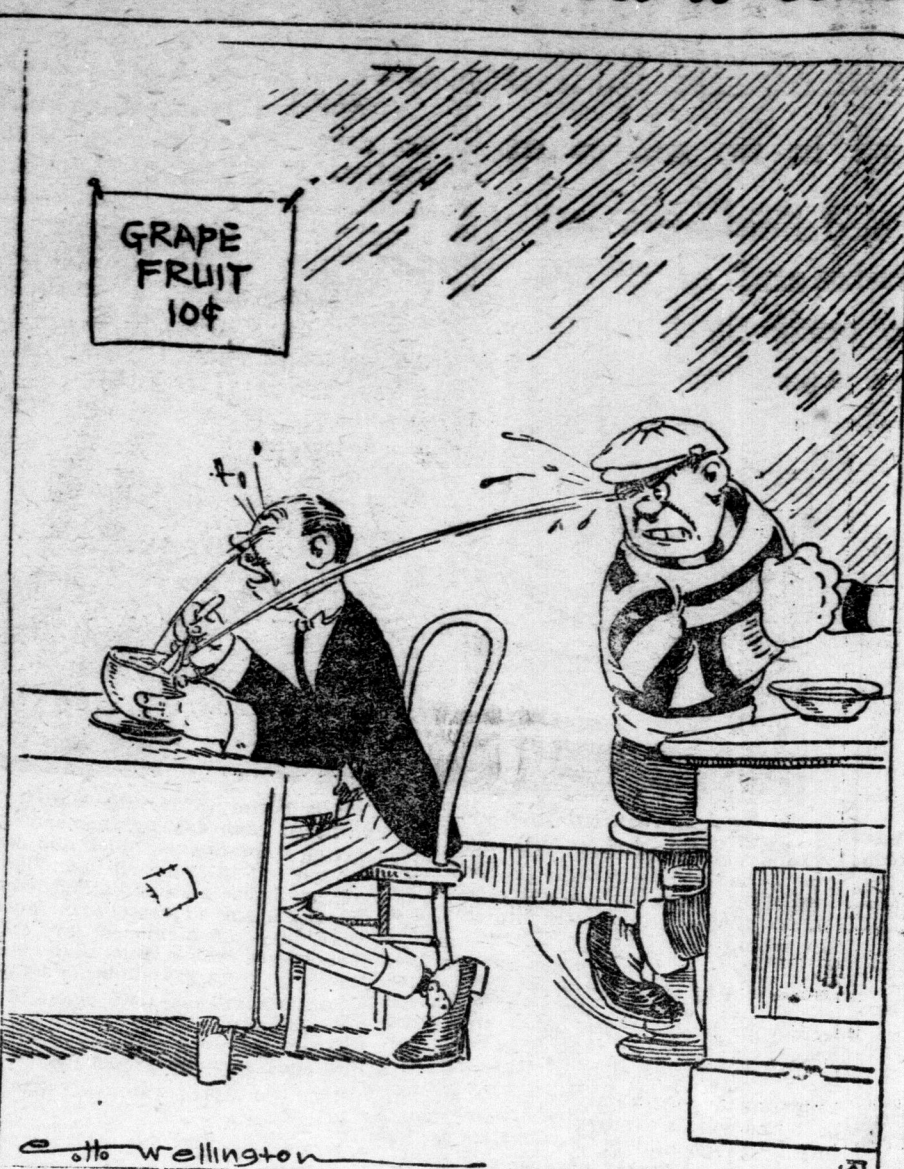

The Prince of Wales, while at a seaside resort, escaped two suffragettes by plunging into the sea. Has he never heard of the mermaids?

Just as soon as that million dollar Government House is finished, Toronto's champagne set will fittingly celebrate the victory of the bar.

One of the tricks of the Conservative canvass was to inform voters that, while the Rowell policy abolished the bars, drinking would still be permitted on hotel premises.

Since the Empress of Ireland went down, five liners have gone aground at various points. Sounds like an epidemic.

## ---and the Worst Is Yet to Come

and it takes radical measures to stop them—these live forever; these are eternal.

There are about 12,500 voters in London. More than 4,800 did not vote, while 2,800 voted for Dr. Stevenson, and 400 for Mr. Jacobs, making at least 8,000 voters out of 12,500 who do not bow the knee or tip the cap to Sir Adam.

**WHEN WILL THIS BE?**  
 [Washington Post.]  
 When the militant wing of the English equal suffrage party regains its reason, discards its violence and vandalism, and resorts to sane argument, the nation may well consider the plea for women's right to vote.

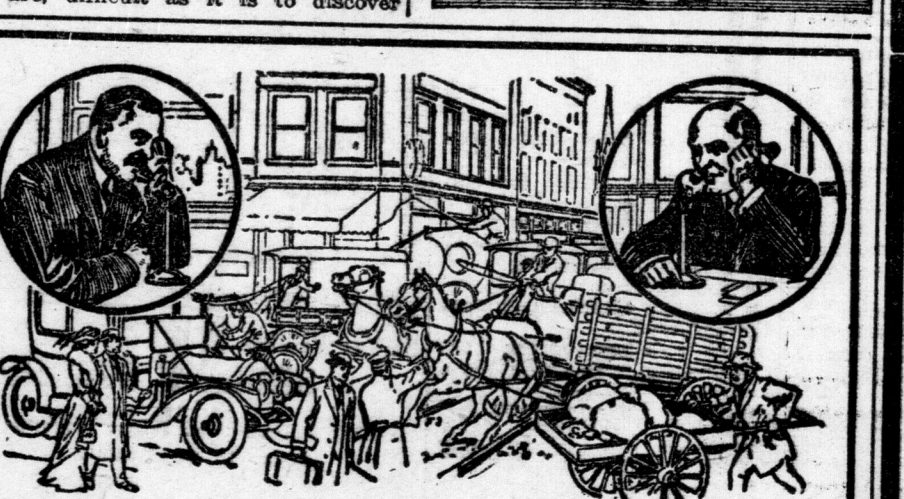

**SEA MOODS.**  
 [National Magazine.]  
 The cliffs are black, and the mists like a wall. Move steady as fate o'er the battling sea. The night flows down like a funeral pall. And blots out the life of the world to me.

The peaks have pierced the pillar of cloud. And the tattered veil in each silver shroud. Hangs like the remnant of memory's shroud. To the wall of the past, when our grief has fled.

All night the surf on the shore. Sobs the passion of life's unrest. All night my lost love knocks at my door. And her spirit sobs on my breast.

The dawn sends a rosy gleam down 'to the waiting sea. And the mists fold up their curtains of gray, with banners that stream afar. A rainbow glow is the foam, which is brushed by the light winds free. And the night and the mists have drifted away after the morning star.

**THESE ARE ETERNAL.**  
 [Frank Norris.]  
 The good never dies. Evil dies. Cruelty, oppression, selfishness, greed—these die; but nobility, love, sacrifice, generosity, truth, thank God for it, small as they are, difficult as it is to discover

## Why Walk? Just Talk!

WE DO things the hardest way sometimes. Those tiresome trips out of town for instance take a lot of time and energy when made in person, and when the destination is reached possibly waits, delays, and disappointments may make the trip seem all the harder.

The telephone saves all the labor of travelling, whether you wish to go a short distance or a long distance. It carries you at once, almost anywhere and back again. It gets you out of the habit of doing things the hard way because telephone travelling is so easy and yet so effective.

Why not TRAVEL BY TELEPHONE and avoid those tiresome trips out of town.

Every Bell Telephone is a Long Distance Station.

## SELLING BIBLES IN MEXICO.

Mrs. F. S. Hamilton is in charge of the American Bible Society agency in Mexico, and she not only remained at her post, but in spite of war, increased Bible sales last year. She stayed in the City of Mexico until American marines landed at Vera Cruz, and with others she was forced to flee. Her correspondents, usually depended on to help sales, were scattered and discouraged, and only about twenty out of thirty faithful collectors were able to keep at work. Railroad transportation was interrupted and books could not be sent into many districts. Houses were stolen by bandits, and so there was little left but travel on foot.

Yet no fewer than 911 towns were visited and 23,369 volumes circulated. For some time Bible work in Northern Mexico has been interrupted altogether. Curiously, when Mexican soldiers buy Bibles at all they invest in largest numbers in the Book of Proverbs. Mrs. Hamilton has one blind collector, a girl named Guadalupe Rosillo, who goes on her sightless journey into stores and streets, sometimes into tenements, selling last year no fewer than 811 Bibles and Testaments.

It is glad news to all the women that there is a washable taffeta on the market which lives up to its name. It will surely be one of the most popular summer fabrics.

## More Scotch Songs.

Dear Miss Grey—I am sending you these two Scotch songs. Would you please give me the words of a song that runs "kind, kind and gentle was she, kind was my Mary?" Exact me for troubling you. Hoping to see these songs in print soon. J. A. G.

## Aids For a Song.

Dear Miss Grey—Here is another person to bother you. I think your column is very interesting, though. Will you please have the song "While the Dance Goes On," printed? Some of the words are "While the music is ringing in the grand ball room, while the hours were fleeting, passing one by one." Hoping to see it in print. Yours sincerely, EUDA.

## A—Referred to our readers.

## A Groomsmen's Duties.

Dear Miss Grey, Will you publish the answer to this as soon as possible? I am a young man of 19 and am to be best man at my brother's wedding this June, and would like to know what I should do at the house and how should I act during the ceremony when the church during the ceremony. On leaving and entering, who should go first? If I have to lead, where should I stop? ADELAIDE ST.

It is the duty of the best man to act for his brother, the bridegroom, in all possible ways. He sees that the clergyman gets his fee just before the ceremony is performed, that the legal requirements are properly made, that the ring is not forgotten, that the flowers for the bride and her maids are delivered on time. He arrives at the church with the bridegroom fifteen minutes before the hour set for the ceremony and enters beside him at the appointed time. His position is at his side until after the benediction, when he walks out with the maid of honor. At the house, if there is a reception, he assists in every possible way.

## THE STAR-BABIES' DANCE

By "OLIVE".

The star babies wailed and blinked impatiently at the moon face of the Moon Mother, as she tucked each in snug under a feather cloud, for it was early evening when the stars are supposed to be sleeping, preparatory to studding the big dome of the heavens.

The twilight shadows fell softly over the big earth. The busy wheels of machinery ceased to whir, and to chatter, the clamor and din of the day's toil had sunk into a quiet murmur, as the evening shadows crept upon the world. Tired toilers rested at their labor. Mothers crooned drowsy lullabies to sleepy little folks, birds settled quietly in nest or branch, and the peaceful calm of coming rest comforted the weary with refreshing promise.

"Let's stay up till Mother comes back," murmured myriads of stars, as the Moon Mother solemnly sailed out on her journey. "Come on, let's have a dance," chimed in some more, and in the twinkling of an eye they had jumped from behind the downy clouds, and were dancing merrily, sparkling and glowing, each trying to outshine the other. Now and then one shot from his position in the sky to that of another; they ran up and down the twinkling way, the twinkling way; they singled out in long strings, like vast ropes of sparkling diamonds, all glittering and sparkling in their mad mirth.

But when the kind old Moon Mother came quietly back to rest from her long watch and saw the baby stars still up, she trembled—far fear the Sun, their father, would catch them, for he was a very hot-tempered fellow, and very cross

when his children were not in bed when he got up to shine. When she saw how frisky they were, as they dashed and danced, her heart failed her, and she paled perceptibly, for it was almost morning.

## The Naughty Stars.

It would be impossible to persuade her babies to go peacefully to bed. They could she do? Hastily she gathered the nearest groups of stars, and fashioned them into a huge dipper, then she flew here and there, gathering them up hither and thither, and emptied them into the nearest cloud. Her labor was just finished, when the rays of the rising sun shimmered in the east. But, lo! one lone star, bigger and brighter than the rest, still danced about! It was no use to warn him. She had to abandon him to the wrath of the Sun.

And that is why the morning star is the last of the constellations to slip into his downy bed. Because for punishment, the Sun has caused him to remain where he can keep an eye on his wayward child.

Poor Mother Moon wept, and very often fades to a mere shadow of her former self—sometimes, if you look at the sky you will see that she is but a quarter of her natural size. In vain she pleaded with the sun to pardon her child; but he remains very obstinate, and the poor morning star still pays the penalty of his disobedience.

As to the other stars, they were so frightened after their misdeed, that they slipped into bed at exactly the right time, and although they are just as bright as ever, they wink knowingly at one another, and just cuddle down.

In life. They may be much inclined to enjoy themselves. As the moon is their principal ruler, they are likely to be moody and changeable in disposition.

## The Engaged Man.

Don't think that your fiancée wants a present every time you go to see her. She does not. And it is quite unnecessary for you to take her flowers and chocolates at each visit. What she wants is you—not your presents.

Chocolates and flowers now and then are essential in a well regulated courtship. But carpet sweepers and chopping bowls are essential to the comforts of a well regulated home, and money must be saved in order to obtain home comforts.

Don't shut your fiancée out from the part of your mind where you keep worries, cares and ambitions. Talk to her about your work and your interests. She wants to know and will be proud of the confidence which you repose in her.

Don't spoil her by extravagance during the engagement, or you will have a difficult time with her during the first year of married life. If you let her think you have a fortune, she won't be at all pleased when the discovery that the fortune dwindles down to a small salary.

Don't think because she is engaged to you that you have complete ownership. Others have a little right to her time, too.

Keep a box on the back porch for rubbish, and the yard will be much cleaner.

## FRAGRANCE MAY BE PRESERVED IN OLD-FASHIONED ROSE JARS

[BY CAROLINE COE.]

"June time is rose time, girl time, love time"—the loveliest time of the year, and every June-loving maiden wants to bring some of this fragrance over into chill, and November.

It's July now, but still you can do this, my dear girl, if you will save the rose leaves that fall from the rose bushes or from your bouquets and make them into keeps of fragrance that will be a joy to yourself and to your friends.

Spread the rose petals on paper, so that each one will be exposed to the air. Then mix a teaspoonful of crushed cloves, a teaspoonful of grated nutmeg and a half teaspoonful of allspice and two teaspoonfuls oforris root.

## Summer Cushions.

Ordinary plaid dish-towelings makes durable and cool-looking covers for piazza pillows. Take, for instance, a fair-sized check in red and white and embroider all the white checks with red lazy-daisies in silk or the red squares with white silk. A ruffle of the towelings bordered with red tape completes a very good-looking cover.

## New Peas on Toast.

New peas served on toast are delicious. Cook the peas until tender. Then stir in a half-cupful of butter rubbed to a cream, with a tablespoonful of flour and a little salt. Add a half-cupful of hot water. Pour the peas and gravy over light brown slices of toast arranged on a platter.

Walking-sticks are much in evidence over here, writes a woman in Paris.

## IN THE EVENING BY THE MOONLIGHT.

In de ebbing by de moonlight, when de darkies' work was over, We would gather 'round de fire 'til de hockake it was done. Den we all would eat our supper, after dat we'd clear de kitchen, Dat's de only time we had to spare to hab a little fun.

## Uncle Gabe would take de fiddle down, dat hung upon de wall, While de silvery moon was shining clear and bright.

How de old folks would enjoy it; they would sit all night and listen, As we sang in de ebbing by de moonlight.

## CHORUS—

In de ebbing by de moonlight, You could hear us darkeys singing, In de ebbing by de moonlight, You could hear de banjo ringing, How de old folks would enjoy it, They would sit all night and listen, As we sang in de ebbing by de moonlight.

**WINDSOR MAN IS  
HURT IN CAR COLLISION**

Edward Brooks Has Both Legs Fractured on Detroit, Jackson and Chicago Line.

[Special to The Advertiser.]  
DETROIT, July 1.—As a result of a head-on collision between two passenger cars on the Detroit, Jackson and Chicago line, about a mile west of Michigan Centre, this forenoon, one man was killed and fifteen were injured. Two of the latter may die.

The dead passenger is C. O. Burnham, of Kalamazoo. Among the injured is Edward Brooks, colored, of Windsor, Ont., who has both legs fractured and is not expected to recover.

**PLATFORM AT WINGHAM  
FALLS UNDER A CROWD**

Two People Hurt and a Score Shaken—Watching Balloon Ascent.

WINGHAM, July 1.—A score of people who were standing on a temporary platform watching the balloon ascension this afternoon were badly shaken up when the structure suddenly collapsed.

The platform went down before anyone had a chance to jump, and those standing on it fell about eight feet. Mrs. Allan Fralick, of Wingham, and Miss Anna Mole, of Auburn, were the most seriously injured, the former being badly shaken up and suffering greatly from shock. Miss Mole had her back hurt.

Many others on the platform were badly bruised.

**WHAT'S INDIGESTION?  
WHO CARES? LISTEN!**

"Pape's Diapiesin" Makes Sour, Gassy Stomachs Feel Fine at Once.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eruptions of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapiesin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapiesin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapiesin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapiesin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.

**EVERYBODY'S LONESOME.**

There's a charming book, a sort of modern fairy tale, of the above title, that contains a very valuable secret formula for happiness and success. Mary Alice, a young small-town girl, has become tired of living almost before she has well started—worn out by the sameness and narrowness of her environments.

Then comes a fairy godmother, in the shape of a real godmother, who invites her to make a visit to New York and (most opportunely) sends a check to pay the railroad fare. This godmother is a wonderful lady, even if she does not have any actual wands or disappear from human sight at will. She has no great wealth of money, but is a veritable multimillionaire as concerns friends and intimates among the best and brainiest. And, best of all, out of her long experience, she has evolved a secret (with a big capital S) which produces all kinds of good things for her. She imparts it to Mary Alice and from then onwards life takes on a new color and each succeeding day is better than its predecessor.

To show how this secret "works" (before actually imparting it to you) just take our Summer Pastime. Get into that in your idle moments and see what you find. One more joy at least, and as you find it, you will find it is the price of brotherly (and sisterly) interest in the same thing. That's the secret! Everybody is lonesome, and the way to win friends and happiness is to make them by sharing your pleasures with them.

**TOLL OF THE MOTOR  
HEAVY IN DETROIT**

[Special to The Advertiser.]

DETROIT, July 1.—In the year ending June 30, automobiles killed or injured a total of 753 people in the city of Detroit. The fatalities numbered 41 and the other accidents 712. Motorcycles killed four and injured 111, making a grand total of casualties from motor vehicles, 863.

Most of the so-called accidents were due to fast or careless driving of motorists. A few were caused by heedlessness of pedestrians and actually were unavoidable.

**AIDS THE NATIONALISTS**

LONDON, July 1.—Rosalind, dowager countess of Carlisle, has sent to John Redmond, leader of the Irish Nationalists, \$1,500 for the nationalist volunteers fund. Accompanying the donation was a letter, in which the countess says:

"Since the Conservative party is trying to overawe the Government by threats of civil war, it is high time that a force should be created to protect, if necessary, the rights secured to Ireland by the home rule bill."

## VETERANS ALL JOIN TO ATTACK CAPITAL

Army and Navy Men to Urge  
Grants for Widows of  
Fenian Victims.

[Canadian Press.]

TORONTO, July 1.—The ninth annual convention of His Majesty's United Army and Navy Veterans of Canada, held here today, was attended by about 200 war-grizzled veterans, wearing medals won in many a hard-fought battle in defense of home and empire. These men represented every branch of the imperial forces and included heroes of the Crimean war of 1854-55, the Fenian raid, Batoche, and the more recent South African conflicts. The object of the gathering was the consolidation of the different veterans' associations into one Dominion body, so that greater pressure might be brought to bear upon the Government to give more generous consideration to the grievances and requisitions of those who have fought and bled for the benefit of the whole empire.

Motions were passed urging the Dominion Government to continue the grants made to the Fenian raid victims, to their widows, and to allow the members of the different societies to hold their different meetings in their respective towns and cities.

## NAVIGATION IN LOWER HURON TIED UP BY FOG

[Special to The Advertiser.]

SARNIA, July 1.—Owing to the dense fog navigation is completely at a standstill, both in the St. Clair River and the southern part of Lake Huron. The fog settled at about 8 p.m., and at midnight was so thick that no boats could possibly make headway without extreme danger.

## AUTOMOBILE HUNG BY REAR WHEELS OVER DEEP RAVINE

St. Thomas Physician and Two Children Have a Miraculous  
Escape From Plunging to Death From Bridge One  
Hundred Feet High.

[Special to The Advertiser.]

ST. THOMAS, July 1.—A holiday catastrophe was only averted, in St. Thomas today by a miracle. Dr. J. D. Curtis and his two children were crossing the deep ravine in the southern part of the city, at the end of Elgin street, in the doctor's automobile. The driveway on the bridge is cement and the rain had made it slippery. The machine skidded and tore halfway through the iron railing at the side, dangling suspended, being held only by the rear pair of wheels, with a distance of 100 feet beneath them.

Passersby succeeded in extricating them from the car after an extremely nerve-racking experience, as it was feared to press upon the auto. The doctor and children suffered a severe shock.

### CHERRIES PLENTIFUL AND FAIRLY CHEAP

Strawberries Almost Over—  
Raspberries Promise To  
Be Big Crop.

Cherries were on the square on Thursday in good quantities. They sold for from 7c to 8c a box, and at 6c for 8-quart baskets. Strawberries are almost over, and will be no cheaper than they are at present. Berries sold this morning for 13c and the wholesale, and 10c a box retail. The crop has been partly a failure, on account of the dry weather during the first of June. Raspberries, according to farmers, will be more plentiful.

Hay sold at good demand this morning, for from \$12 to \$14 per ton. Oats remain at quoted prices. Wheat is steady at quoted prices.

## DARKENED BUILDING TOO MUCH FOR EDWARD

Wakes Up in Hunt Building  
and "Rattles" With G.  
N. W. Clerks.

After becoming confused, then terrified, when he could not find his way out of the upper floor of the Hunt Building last night, Edward Ross, after a brush with operators of the G. N. W. Telegraph Company, occupying the floor below, awoke in police court this morning to wonder what it was all about. Although he is said to have assaulted the telegraphers there was no charge laid against him and he was allowed to go.

It is supposed that Ross wandered up there in the daylight and fell asleep. There are a number of small rooms interconnecting with one another and the only way of access to the flat is a stairway to which the light reflected from the street at night does not reach. About nine o'clock in the evening, the telegraph clerks heard strange noises from the floor above, noises as if someone was smashing doors, tearing down partitions, stamping holes in the floor and ceiling underneath and breaking windows. Investigation revealed the fact that Ross was wandering about from room to room vainly endeavoring to find his way out. Each time he came back to the room, which was partly lit by the light from the street. The telegraph clerks sought to show him the way, but it appears that terrified by his failure to get out unaided, he feared that they purposed to harm him, he strenuously resisted all attempts to help him out of his predicament. One of the clerks had his hand badly cut from some glass in a door, in struggling with Ross. The frightened man tried to climb a ladder leading to the roof, but several rungs were missing and he fell, after which, it is said, several more tussles followed with the clerks, one of whom was rolled unceremoniously down the stairs.

The police were called, and two constables with considerable difficulty managed to get Ross downstairs and into the patrol wagon. In the meantime a large crowd had gathered and added to his terror. At the Carling street station he was locked up and charged with being drunk.

## IN POLICE COURT.

It's all right to walk into a bar and have a drink. It's all right to walk into a bar and have two drinks. In fact, there is no law against a man having as many drinks as his heart desires, so long as he does not get intoxicated and start to dictate to the owner, the bartender, the police, etc., etc.

W. H. Atkinson went into the City Hotel bar to drink yesterday. He became disorderly and was asked to go outside. He did nothing of the kind. Then an officer was called. He was taken outside. After being out in the fresh air for a while he came back again. It was then that the constable, in the rear of the motor that is kept in the rear of the police station. He was taken up and appeared before Magistrate J. C. Judd today.

Asked to explain, he replied that when a man is very tight he doesn't know what he is doing. He was fined \$3 or ten days.

Joseph Thomas, who was trespassing on the Pere Marquette Railway, was assessed \$5 or ten days in the police court, he was on his way to St. Thomas.

## STEAMER ASHORE

Continued from Page One.

Foggy. The steamer Manitoba was called to the assistance of the stranded vessel, though she is in no danger. The Manitoba will stand by, however.

The steamer has one hundred passengers on board, and was bound for Port Sault Ste. Marie to Port McNicoll. The Assiniboia is a small passenger steamer, and one of the finest on the great lakes. She is of 3,880 tons burden, and was built in England by the Glasgow works at Glasgow, in 1907.

## WILL OIL ROADS

County and Park Commission to Co-operate to Make Springbank Drive Dustless.

Co-operation of the park commission and the county has been expected to make the drive from the city to Springbank a dustless one. Already the commission has made arrangements for oiling the road from Wonderland to the park, and the assistance of the county has been practically assured to secure the oiling of the rest of the drive into the city limits.

Autoists have been complaining of the dust on the Springbank drive since the season opened, while those who drive out by horse and buggy have a still more lamentable plea for better dust prevention.

## METHODIST PICNIC

Largest Attendance in Memorial's History at Outing Yesterday.

Larger attendance than ever marked the annual picnic of the Memorial Methodist Church yesterday at Springbank. The weather, cloudy and wet late in the morning, cleared off at noon, making ideal picnic weather.

Many new and amusing contests and sports were the features of the afternoon. A bit-war between the married and the single men was won by the married men, after much strenuous tugging. A balloon race, in which small colored balloons of the circus variety, were kicked toward a given point, was made difficult and amusing when the breeze mixed up the balloons and carried them off the track.

Mrs. S. Head won the first prize in the ball-driving contest, with Mrs. (Rev.) S. Anderson second.

Putting the stone, in place of the customary "shot," was won by John Petherough, superintendent of the Sunday school. The pastor, Rev. S. Anderson, took second prize.

In the afternoon a dinner was served to the whole church and Sunday school by the women of the congregation. The sports were under the charge of John Petherough, A. Fletcher, John Francis, R. E. Pearce and others.

## HYDRO FLY KILLER IS THE LATEST OUT

London Orders Two Samples  
of a German Electric In-  
sect Exterminator.

## PROVIDES HYGIENIC DEATH

The Fly Flies Against the Annihilator and Is Incinerated.

To swat the fly or not to swat the fly? That is the question, and if success attends a new fly-killer, which is to be imported to London in a few weeks, fly-swatters will go out of business.

The new fly-killer is known as an electric fly-annihilating apparatus, made in Germany, and a couple of samples were ordered today by General Manager Glauz, of the public utilities commission.

Edison overlooked one bet on this invention, and the Germans "beat him to it," so to speak, and the fly-annihilating apparatus is heralded as filling a long-felt need in the city which Mr. Glauz received today states that the annihilator kills the flies "hygienically and aesthetically."

How it Works. This electric fly exterminator is adjusted with the ease of a tungsten light. It comes in different sizes and is shaped like an incandescent light. It is made of a netting trap, consisting of ornamental wiring with a saucer for bait. The saucer may be filled with vinegar or any of the house preparations for luring flies to their death. The fly, attracted by the saucer bait, flies to the netting trap and the minute it comes in contact with it there is a short circuit and "puff," Mr. Glauz says, the fly is dead. It is as simple as the local officials say, it works better with hydro.

## EXAMINATION RESULTS TO COME OUT IN JULY

Pupils Can't Find Out If They Passed Until Toronto Approves Report.

Inspector of schools, C. B. Edwards, announced today that no information of any kind will be given out concerning any of the school examinations until the department in Toronto passes on the report which will be submitted in a few days.

All the collegiate papers go to Toronto where they will be examined. Results of examinations were given out last year about the middle of July, and it is expected that the department at Toronto will make its announcements at the same time this year. Until these announcements are made it will be impossible for any pupil to know how he or she fared in the recent examinations.

## RESULT OF EMPRESS INQUIRY NEXT WEEK

Judge Routhier Thinks This Is Likely—All Hard at Work.

[Canadian Press.] Quebec, July 2.—The members of the royal commission which inquired into the death of the Empress of Ireland are hard at work, studying the testimony received and their work is no small task, as they will have to peruse and study 2,165 folio-sized typewritten pages of notes and statements.

Hon. Judge Routhier stated it was his opinion that the decision as to responsibility for the loss of the liner will be given some time before the end of next week.

## HYATT AVE. CHOIR PICNIC

Musicians Hold Enjoyable Outing At Springbank Park.

The choir of Hyatt Avenue Methodist Church held their annual picnic yesterday at Springbank. Despite the efforts of Jupiter Pluvius to spoil the day, everything was successful. Dinner was served at 12 o'clock, about 150 sitting down.

The races, which were the oldest and funniest ever, provided a barrelful of fun. A baseball game was also played. Mr. Adams captained the "St. Thomas" team, while Mr. Moyer was boss of "Londons." The score at full time was in favor of "St. Thomas," Mr. Adams' team winning by a score of 34 to 25, and an inning to spare.

Supper was then served, after which Mr. Adams (choirmaster) thanked the choir for its loyal support.

## IMPROVING THAMES PARK

Park Commission Building Baseball Diamond There to Provide For Extra Demand.

Bishop last visited London, he made a because of the demand for baseball accommodation, the park commission is building another diamond at Thames Park, Ridout street south. There are 45 teams in the various leagues playing at the park, and only two diamonds to meet the demand. The improvement of the Thames Park has followed as a result. Construction work is now in progress, and it is expected that the new diamond will be in shape within a week.

At the same time, the construction gangs of the park commission are grading the entrance to the park. The excavation from the new London street power station addition was dumped in the entrance, and is now being levelled off. The commission is looking for more "filling" to finish off the park. It is expected that the Thames Park will be provided by the storm sewer excavations.

## PICKPOCKET SUSPECTS HELD FOR INVESTIGATION

Alleged "Dips" Arrested Last Night Remanded Until Tuesday.

Morris Weiner, Joseph Harris and Charles Beliger, three men who were gathered up by Detectives Harry Down and Robert Egleston at the Grand Trunk station last night on the suspicion that they were pickpockets, were remanded in police court this morning. Tuesday, Crown Attorney McKillop will communicate with the immigration authorities. It is likely that the men will be deported.

In the meantime, steps will be taken to find out whether they were playing the "smooth hand" game here. Police were notified last night that a gang of four had robbed a man of \$50 on the Brantford station platform. It was reported that the men had a get-away to London.

The detectives spotted them shortly after they arrived in London. The men were watched carefully. It was noticed that wherever a crowd gathered the four would shoulder their way in.

Before the magistrate, Weiner stated that he was born in Russia, that his home was in Chicago, and that he had come from Detroit. Harris, who said that he lived in the United States, claimed to be a painter. Lack of work had brought him to Canada, he volubly explained.

The men were arrested while the station crowd of comers and goers was at its largest, and the arrest attracted a great deal of attention. One of the men made a great show of indignation, loudly protesting that he had just purchased a ticket out of town. It is alleged that the members of the trio have been hanging around the station for the past two or three days and that one of them was observed keeping a close watch on travellers displaying big rolls of bank notes when purchasing tickets.

There is also a twelve months' maintenance guarantee on the storm sewer contracts which have been let this year. The Adelaide street storm sewer job will be let over again by the board of control tomorrow owing to the death of the former contractor.

## WATFORD MAN HURT AT MOTORCYCLE RACES

John McKercher Injured at Forest—Another Swallowed Gasoline.

[Special to The Advertiser.] Forest, July 2.—In the motorcycle races at the celebration here yesterday, John McKercher, of Watford, was thrown and hurt. He was taken to hospital, his nose broken and his face cut open, requiring fifteen stitches.

James Wilson, in trying to syphon gasoline from a barrel, swallowed a large quantity and choked. Medical aid was summoned as quickly as possible, and he probably will recover. He is now suffering from pneumonia and pleurisy caused by gasoline vapor.

## STRAWBERRY FESTIVAL

A very successful strawberry festival was held on the lawn of the Grove Methodist Church on Tuesday evening, June 30. Supper was served from 6 to 8, the tables being temptingly laid with good things, among which strawberries played an important part.

An enjoyable program was given by some of London's musical artists. Miss Dewy gave several delightful violin solos in her usual finished style. Miss McKennie, as a reader, showed remarkable talent, while Miss Neely was also in good form. Mrs. Hicks, London, gave several delightful solos, encore being repeatedly demanded. Miss Hokes possesses a contralto voice of great purity and sweetness.

The Empress Avenue orchestra played throughout the evening.

## OFFICERS SEARCH SPRINGBANK CLUB

As Result London Bowling and Rowing Members Are Indignant.

County Constable Shaver and P. C. Alex Ewen, of the city police force, on duty at Springbank, crossed the river to the London Bowling and Rowing clubhouse above the dam and demanded that they be allowed to search the premises yesterday morning.

They went through the house from top to bottom and even the barn came in for a survey. The only liquor found on the premises was about three pints, kept by the caretaker for his own use.

Club men are indignant at the action, which they declare to be high-handed and without cause. The union state and there has been no provocation for the raid. The action of the constables will not pass without some action on the part of the club, it is said.

No liquor has ever been sold on the premises, the club men emphatically declared. They are now endeavoring to get the raiders out of the club.

One of the garbage collectors employed by Contractor W. J. Boss, who went to the house at 857 Wellington street to get a can of garbage yesterday, was bitten by a dog. The man fled without taking the garbage and Superintendent Dodd today notified the family that the can would not be removed until the dog was removed first. The collector was not seriously hurt.

Garbage Is Light. The busy collectors find that garbage is light in the warm weather, and Superintendent Dodd sent out notices today informing residents that until further notice lawn rakings and grass would be collected providing they were put in the garbage cans.

Not Confined to Cans. While Mr. Dodd is not making complaints about how garbage is being collected, some residents declare that the garbage man sometimes carries off other things besides the garbage can. Such a complaint was made recently on Horliver street when a new mattress was taken by the garbage man who believed that it had been thrown out.

The order on collection, however, is general and specific, and collectors are not supposed to take anything but the can unless the resident offers him something else which can't go in the can.

Band Concert Tonight.—Arrangements have been made for a band concert at Queen's Park tonight by the Hussars' band.

## CITY IS SECURING BETTER PAVEMENTS

Engineer Declares Higher Cost Is Justifiable in View of Work Done.

The complaint of Arthur Carrothers over the high cost of asphalt pavement on Horton street has brought from City Engineer Ashplant a statement to the effect that a better grade of asphalt is being laid in London and it is of advantage to the ratepayers to pay a trifle more and get a good job.

According to Mr. Ashplant all the asphalt pavements laid in London this year are not only guaranteed for ten years, but six per cent of the contractor's price is retained for that length of time to make the guarantee good.

The pavement on Queen's avenue is pointed to as a model in London, having been put down over ten years ago and still being in good condition. It is said that all pavements laid this year will be of that quality.

There is also a twelve months' maintenance guarantee on the storm sewer contracts which have been let this year. The Adelaide street storm sewer job will be let over again by the board of control tomorrow owing to the death of the former contractor.

## NEWS LOCAL

The postponed concert of the First Hussars will be given tonight in Queen's Park.

Figures Ready Tomorrow.—Returning Officer E. Perri's official figures of the provincial election in London will be given out tomorrow.

Rain Stops Tennis Match.—The London Hunt and Country Club tennis players visited Walkerville yesterday to play the Walkerville Tennis Club. The match had to be called off on account of rain at Walkerville.

Sue for Traction Engine.—George White & Sons have issued a writ against William Dark, township of Morris, County of Huron, for \$275, the price of a traction engine sold to Dark. The writ was issued by Meredith & Fisher.

Bank Clearings.—The bank clearing figures for the fiscal week ending July 2 are \$1,264,209, as compared with \$1,524,034 during the corresponding week of last year, showing a falling off of \$259,825, or 17.05 per cent.

Mayor to Read Paper.—Mayor Graham will read a paper on the city manager plan of government before the Union of Canadian Municipalities, which is to be held in Montreal in August. The subject was assigned to him.

Sentence Suspended.—Hugh McGleach, of London Township, who was brought into the county jail yesterday by County Constable Sadlier for creating a disturbance just outside the city limits in West London, was let go on suspended sentence this morning by Judge Robinson.

Trying to Economize.—The park commission is in an economical mood this year. The big deficit of last year has put a clamp into any extensive plans for park improvement. According to General Manager H. J. Glauz, the commission is endeavoring to make its small appropriation go as far as possible.

Struck By Car.—Oxford car, south-bound, and auto No. 21470, collided at Queen's avenue and Richmond street at noon. The driver apparently thought he could get before the car, reached the intersection. The machine was struck and whirled completely around. No damage was done to the auto.

Mortgages Cause Writs.—John F. Erskine, through his solicitor W. G. R. Bartram, has issued two writs, one against Thomas J. Tanton to have a certain mortgage made between the parties discharged and the other against Mrs. Elizabeth A. Cowley and Mrs. Edith H. Atkins to have a certain mortgage made between the parties filed.

Still Waiting.—Settlement of the wage dispute between the London hydro electric workers and the public utilities commission is still in abeyance. The commissioners are still awaiting the action of Toronto. Whether the arbitration settlement, agreed on there, will be accepted is of course problematical.

At city hall it was said today that the Toronto hydro commission would settle the wage question at its next meeting.

Remember Retiring Pastor.—Prior to the departure of Rev. W. H. Cooper from the Milverton Methodist Church on Tuesday many of his parishioners there presented Mr. and Mrs. Cooper with a number of presents as well as addresses from the congregations of the circuit. Mr. Cooper, who came to London, where he will make his home in future, is regarded as one of the best constitutional lawyers of the Methodist Church, and according to the Milverton Sun of today, was one of the most popular men of the district.

Ready in Six Weeks.—The new addition to the Horton street power station will be ready in six weeks, according to General Manager H. J. Glauz, of the public utilities commission. The addition will be two stories high, but will only have the second floor along the Ridout street side. The floor of the present building will be added to the addition, but the remainder of the new building will have but the ground floor. The necessity of having room for the operation of a crane, for the installation and repair of the converting machinery for the transformation of power, is the reason of the single floor.

London Letter Carriers ATTEND BERLIN FIELD DAY

London was well represented at the postmen's field day held yesterday at Berlin. A picnic, with a big program of events and addresses by prominent speakers, including C. H. Mills, M.L.A., W. C. **BOOSTS CAUSE OF EDUCATION HERE**  
**R. A. Little, Former Vice-Principal of Collegiate, Back on Visit.**

**HEADS COAST HIGH SCHOOL**  
Declares Modern Buildings Are Necessary in March of Educational Ideas.

R. A. Little, former vice-principal of the Collegiate Institute, arrived in London yesterday afternoon as the advance guard of the Vancouver Old Boys. Mr. Little is almost a militant westerner. Although he has only been here two years, he wouldn't live anywhere else. He says the times are quiet just now, and it is a bit dull in Vancouver, but like other westerners, he believes in the old saying that "every cloud has a silver lining."

Is High School Principal.  
Mr. Little is principal of the Duke of Connaught High School, at New Westminster. For a year after leaving London he was principal of the King Edward High School in Vancouver. The Duke of Connaught High School was only recently completed to accommodate 400 pupils. It has sixteen rooms, and has not yet been formally opened.

Building Many Schools.  
"They are building the finest schools in the country out west," declared Mr. Little. "and they regard money spent on education as well spent. The buildings for the most part are new and up-to-date, and the people show a great interest in the work of advancing the cause of education."

Mr. Little's attention was called to the fact that London contemplates the building of one new school, and the improvement of others. He said this was a good sign, and ought not to have much opposition, as modern buildings and appliances were necessary if London was to keep abreast with the march of education.

Many Londoners in West.  
"Vancouver is full of Londoners," said Mr. Little. "and they were making arrangements to send a crowd of old boys to the reunion just as I left. I will be here for two weeks renewing old acquaintances and visiting relatives. I must return to my position by August 1."

New Thing in Schools.  
"The newest thing in school building," he said, "is a long building with wide central hall, and the rooms arranged on either side of it. Our new high school is only two stories high. I haven't seen the one-story building as yet, but I understand there are some being built. There are none in the west that I know of."

**DELEGATES ATTEND E. L. CONVENTION AT BUFFALO**

Local Representation Will Not Be Large on Account of Summer School.

Among the delegates from London district to the ninth annual Epworth League convention which opens tonight at Buffalo, will be Miss Davis, of Byron Epworth League. On account of the summer school which is being held at Alfa College, St. Thomas, the London delegation to the Buffalo convention will not be very large. Ten thousand delegates are expected. Sessions will be held in three halls simultaneously and will continue through Saturday, when a patriotic rally, with former Vice-President Charles W. Fairbanks and N. W. Rowell, of Toronto, as the principal speakers, will be held. Special religious services will be held Sunday.
