Mrs. W. G. Grant, of Woonsocket, R.I., is suffering from consumption of the Bladder, for which she is under a physician's care. It was while touring through Nova Scotia that she tried Gin Pills, and was so impressed with the relief and comfort afforded, she bought six boxes.

It is interesting to note what Mrs. Grant says, in writing us to mail her more Gin Pills: "I am having good results from them. The doctor says I have consumption of the bladder, and the pills seem to keep me comfortable. Greatly oblige me as soon as possible." In such a case medicine can, at best, only ease the suffering, and sveryone must realize the significance of the physician's attitude. Gin Pills are the recognized medicine in all affections of the bladder and kidneys, such as pain in the back, swollen joints, derangements of the urinary system, and gravel. Take Gin Pills now, before your trouble becomes acute.

### LEARNING GEOGRAPHY.

THE PROGRESS of the war over many countries and many seas has given a boom to maps and made all newspaper readers students of geography. Our knowledge of places, railways and peoples has been vastly advanced. What the great war itself leaves out, the Mexican troubles have helped to fill in. On the four coninents of Europe, Asia, Africa and Australasia, and on the seas among them, the fight has raged to and fro over places we never heard of or had forgotten.

In schooldays the teacher sometimes ran a locating contest. A long pointer was handed to a pupil who stood up in front of a map and was required to point out places named by fellowpupils in turn. As soon as he failed the one who stuck him took his place with the pointer. It was quite exciting and good fun for the proficient or quickeyed. But we should all have gone down flat if we had been asked for the places lately appearing in even the large type headlines.

At first, in the opening weeks of the front of The Advertiser office every ances that put that community evening, we raced through Belgium such ill-favor for a time. with them almost daily.

It appears to the majority of people that when the Teutons find out how they have been deceived, and that they are due to receive a crushing defeat, they will turn on the militarist clique which drove them into war. It is a logical conclusion to reach. But there is no way of determining how long it will be before they realize the truth. They have been blindfolded for many months, and may be kept in the same condition for many months to come. It must also be remembered that the

idea of an uprising against the military caste is so foreign to the Germans that it will only take root in the direct extremity. Even with the desire to rise will come fear of the results. The cople know that no mercy will be shown; that the machine-like soldiery may be expected to shoot them down as methodically and unfeelingly as if hey were Britishers. Probably, however, the revolution will come if the war's end is long enough delayed.

It would have been more interesting o Canadians if Sir Sam had gone into details about the reforms he had brought about in the caring for and training of Canadian soldiers, and the outcome of his consultations with British authorities. The people of the Dominion can do their own guessing about Germany's future actions.

### Liver Troubles, Sick Headache, and Habitual Constipation.

Liver troubles and habitual constipation can be cured-but not by cathartic or purgative medicines. The only possible way is to help your system to cure itself; and that is what Dr. Cassell's Instant Relief so surely does. It is not cathartic, it is not violent, it is quite different to the coarse purgative preparations in common use. These only irritate and weaken; Dr. Cassell's Instant Relief tones and strengthens the liver and bowels, and so restores their power to do nature's work in nature's way.

Every housewife knows the length of time it takes to prepare the most ordinary soup, the cost of fuel, ingredients, etc. But with a few vegetables, one or two Oxo Cubes, a little flour and water, a most excellent soup can be prepared in a few minutes at the cost only of a few cents.

So with entrées, savouries, sauces, invalid dishes, the Oxo Cube way is the quick, convenient, efficient way, and makes for economy every time

Another point of great importance is the peculiar power of Oxo Cubes to increase the nutritive value of other dishes. For instance, Oxo and rice is much more nourishing than rice without Oxo. Hence when Oxo Cubes are used lighter meals can be indulged in

When a young man takes a Life Insurance Policy it is often his first step on the road to a successful career. He is impressed with the fact that he should economize and save part of his earnings to secure his future welfare. These impressions help the young man to mold a better character. He is more attentive and energetic in his work that his earnings may be greater. He discards excessive and expensive habits that he may save.
