

THE people of any city become what they are and form their standards of right and wrong from the teachings of the Mother, the Teacher, and the Press.

The London Advertiser

THE old newspaper definition of a good journalist was a man with a nose for news, but The London Advertiser's requirement is a man with a passion for the truth.

59TH YEAR. NO. 23331

LONDON, ONTARIO, TUESDAY

MAY 9, 1922.

FOURTEEN PAGES

PRICE, THREE CENTS

DEFY HOMUTH TO STATE CASE TO EXECUTIVE

I. L. P. Believes Member Afraid To Appear in Support of Own Views.

IGNORED INVITATION

City Labor Claims Argument Regarding Street Railway "Impossible."

As answer to his declaration in the Provincial House Monday that "no threat was used to get his vote for the London Street Railway Company's bill for increased fares," London leader of the Independent Labor Party, of which he is a member, state that K. K. Homuth, M. L. A. for Waterloo, is afraid to come before the executive of his own party upon his own argument.

Invited to Convention. Representative local Labor men state that K. K. Homuth, as well as C. F. Swagay, Labor M. L. A. for Niagara Falls, were invited to the recent I. L. P. convention at Hamilton, but ignored the communication and failed to appear. While the members of the Independent Labor Party are ready to condemn both men, it was felt at that time that they should be given a fair opportunity to present their side of the case.

That Mr. Homuth's argument concerning the London Street Railway Company, as delivered in the house Monday, does not "hold water" is the feeling of the local chiefs.

"He maintains that he voted for the bill because he felt that the company was not getting sufficient rates to pay the men a fair wage," explains one of the local chiefs. "But Homuth's position in that respect is this. He is a member of an organization and a government as well that stands for the referendum. He is in the house to support those principles and not to project his personal views upon the members. He should bear in mind that he represents the interest of those people who defeated this proposal in London by a referendum."

Takes Direct Issue. Alderman Henry B. Aspinall is another of the local labor chiefs who takes direct issue with Homuth's position. "He should be absolutely justified," he states, "this is not a political position. I appeared before the private bills committee of the house, and took up this question, having been delegated to do so by the London Labor Party and the president of the street railway union, presided at the meeting at which I was chosen. Homuth was present at the house committee meeting and he knew that I was representing London labor at the time, and he knew the facts of the case before the bill was ever put to a vote."

REDUCE BRITISH MINERS' WAGES

London, England, May 9.—(Canadian Press Cable).—Miners' wages in Lancashire, Cheshire and Staffordshire again have been reduced twelve points, which is the biggest cut since the wages each month vary in accordance with the employers' profits. The men's representatives express concern at the situation. The latest fall in wages means that the pay of the miners is now only ten per cent above the minimum fixed under the act, which was 20 per cent above the 1914 rate.

Miners and employers are now discussing how the poorest-paid workers may be assisted from the Miners' Welfare Fund.

ELECTED BY ACCLAMATION.

London, May 9.—(Canadian Press Cable).—Sir John Leigh, Coalition Unionist, was elected by acclamation yesterday for the Wandsworth division, seat left vacant by the retirement of Sir Arthur Du Cros.

The Weather

FORECASTS.

Today—Moderate to fresh east and south winds; not much change in temperature.

Wednesday—Moderate to fresh east and south winds; a few scattered showers, but mostly fair, with stationary or higher temperature.

Pressure is low from the Western Provinces southward to Texas, also in Eastern Nova Scotia, and highest in Eastern Ontario and in Quebec.

Rain has been general in Saskatchewan and Manitoba, also in the Lake Superior district, and showers have occurred locally in Alberta, Eastern Quebec and the Maritime Provinces.

Temperatures. The highest and lowest temperatures during the 24 hours previous to 8 a.m. today were:

VICTORIA BOYS WIN SHIELD

Simcoe Street School Second For Indoor Meet Points.

Individual Shields Given Winners in Each of Four Events.

Victoria School boys won the shield for the school obtaining the highest aggregate number of points at the indoor athletic meet held in connection with Boys' Week in the armories last Thursday evening. The Victoria athletes won the shield by only four points, obtaining 2,062 points, with Simcoe Street School a close second, with 2,058.

The members of the winning team were Jack Manuel, 358; Howard Pollock, 368; John Haylock, 347; Kenneth Wanless, 323; Robert Roughley, 321; and Jack Pritchett, 313. The standing of the other schools was: Simcoe Street School, 2,058; Wootley Road School, 1,764; Lord Roberts School, 1,741; De La Salle School, 1,654; and Ealing School, 1,636.

Shields were also given to the three boys winning the highest number of points in each of the four events. The individual shield winners were:

Running high jump—Clive Vollick, 107; Wootley Road, Angus Ross, 102; Lorne Avenue, Orville George, 97; Simcoe street.

Standing broad jump—John Haylock, 128; Victoria; Angus Ross, 101; Lorne Avenue; Jack Gunn, 100; Lord Roberts.

Potato race—Fred Taylor, 116; Simcoe street; Frank Griffith, 115; Ealing; Richard Bissel, 109; Simcoe street.

Floor push—Jack Manuel, 124; Victoria; Orville George, 113; Simcoe; G. Dymann, 112; De La Salle.

Ribbons were given as prizes to the boys coming first, second and third in each of the four events in every school. The ribbon winners were:

De La Salle School.

Running high jump—J. W. Mullins, 91 points; J. Ryan, 90; J. S. Foxworth, 89.

Standing broad jump—J. Ryan and W. Mullins, 85 points; J. T. Hillman, 82; J. J. Wilkinson, 79.

Three-potato race—J. Kinsella, 76 points; J. T. Hillman, 75; J. J. Cooke, 70.

Floor push—J. G. Dymann, 112 points; J. J. Donohue, 109; J. J. McGinnis, 94.

Chesley Avenue School.

Running high jump—M. Blake, 88 points; J. A. Buckle, 79; J. G. Purdy, 73.

Standing broad jump—J. A. Buckle, 56 points; J. Arthur Pethwick, 52; J. M. Blake, 49.

Three-potato race—J. A. Pook, 80 points; M. Blake, 65; J. G. McGinnis, 60.

Floor push—J. M. Blake, 100 points; J. A. Buckle, 91; J. G. Dimmick, 85.

Simcoe Street School.

Running high jump—Orville George, 97 points; J. Fred Grayson, 94; J. Fred Taylor, 89.

Standing broad jump—J. James Sanders, 88 points; J. Ken Smith, 85; J. Richard Bissel, 84.

Three-potato race—J. Fred Taylor, 102 points; J. Richard Bissel, 100; J. Fred Grayson, 80.

Floor push—Orville George, 112 points; J. Fred Taylor, 104; J. Fred Grayson, 103.

Lord Roberts.

Running high jump—R. Tack, 97; Jack Gunn, 94; W. Rowed, 88.

Standing broad jump—Jack Gunn, 100; Lorne Morrison, 94; Cliff Vanbuskirk, 88.

Three-potato race—Stanley 90; Henry Overton, 75; Geo. Schussler, 70.

Floor push—W. Rowed, 88; Walter Jenkins, 85; E. McKay, 82.

Tecumseh Avenue.

Running high jump—Fred McWain, 89; Gordon Ford, 76; Charlie Tuttle, 70.

Standing broad jump—Gordon Ford, 83; Fred McWain, 73; Stanley Turner, 70.

Three-potato race—Geo. Baker, 75 points; Ed. Campbell, 70; Clarence Turner, 65.

Floor push—Fred McWain, 64; Stanley Turner, 58; Charlie Tuttle, 50.

Aberdeen.

Running high jump—Teddy White, 92; Willis Oldridge, 91; Bruce Livens, 88.

Standing broad jump—Willis Oldridge, 76; Teddy White, 71; Bruce Livens, 50.

Three-potato race—Willis Oldridge, 76; Teddy White, 71; Bruce Livens, 50.

Floor push—Willis Oldridge, 97; Bruce Livens, 73; Robert Bell, 70.

Wootley Road.

Running high jump—Clive Vollick, 107; E. McCormick, 90; Jack Mowat, 91.

Standing broad jump—Clive Vollick, 97; Gordon Bowley, 96; Fred Milner, 94.

Three-potato race—G. Bowley, 55; J. McCormick, 55; Harold Gray, 50; I. Bamford, 50.

Floor push—E. Bingham, 89; E. McCormick, 82; Clive Vollick, 79.

Ryerson.

Running high jump—Harold Miller, 88; Maurice Grant, 87; Arthur Reed, 82.

Standing broad jump—Maurice

Middlesex Motors, Ltd., To Handle Ford and Lincoln Car Lines In London

Company Organized by J. D. Isaacs, Formerly of Windsor, Will Locate Temporary Showrooms at 781 Dundas Street, Pending Erection of Elaborate Home to Occupy Entire Block.

J. D. Isaacs, who has been 16 years with the Ford Motor Company of Canada, Limited, has left the position of service manager to take up his duties as president and general manager of the Middlesex Motors, Limited, of this city, a company recently organized by him. Mr. Isaacs will be accompanied by his brother, F. B. Isaacs, also of the Ford Motor Company, and by A. C. Mitchell, superintendent of the Universal Car Agency, Windsor, both of whom are associated with the new firm.

Mr. Isaacs has shared in the former growth of the Ford Motor Company since the time when the erstwhile wagon shop turned out one car a month of the 2-cylinder Model C type. He was still in knee pants when the late Gordon McGregor stopped him on the street and offered him \$7 a week as a stockkeeper. The boy of sixteen saw big prospects ahead, seized the opportunity and did yeoman service in helping to place the company where it now stands as the greatest automobile plant in the empire.

Mr. Isaacs joined Ford's on May 1, 1906. In 1912 he went to Hamilton as assistant branch manager to the then existing Ford branch, and later served as coast to coast inspector of service until March, 1916, when he was raised to the position of service manager. He will now better his good fortune as exclusive dealer in Ford products for London and district. This territory absorbs over 600 cars, trucks and tractors annually.

Mr. Isaacs is not only a high class executive, but comes here with the reputation of "a good scout" and a popular man in his community. His big, athletic frame made him an easy first choice as a militia representative for the border cities in the coronation parade in London, England. He is a Mystic Shrine of the Mocha Temple, a 32-degree Scottish Rite Mason, Windsor Lodge of Rose Croix and Lodge of Perfection, Moose Sovereign Country, S. P. R. S. Not many years ago he won the 1,500 yards swimming championship of the Detroit River. He drives a long ball on the links.

His reason for selecting London as

Doan, 90 points; Ken Stanley, 87; Leonard Winslade, 82.

Three-potato race—Harold Powell, 70 points; Harry Prowse, 25.

Floor push—Leonard Winslade, 88 points; Wilbert Doan, 53; Harry Prowse, 52.

Alexandra.

Running high jump—Victor Wong, 90 points; Ken Pierce, 86; Alfred Malone, 85.

Standing broad jump—Jack Martin, 84 points; Ken Pierce, 53; V. Victor Wong, 57.

Three-potato race—Victor Wong, 80 points; Alfred Malone, 61; Lloyd Burton, 60.

Floor push—Victor Wong, 94 points; Ken Pierce, 73; Alfred Malone, 58.

Rectory.

Running high jump—Douglas Coleman, 59; Fred Lee, 73; August Fischer, 52.

Standing broad jump—Douglas Coleman, 76; Fred Lee, 73; August Fischer, 25.

Three-potato race—Douglas Coleman, 59; James Lindsay, 45.

Floor push—August Fischer, 52; James Lindsay, 49.

Pottersburg.

Running high jump—Harry Reynolds, 89; Clarence Bennett, 85; Lorne Durward, 77.

Standing broad jump—Harry Reynolds, 85; Clarence Bennett, 79; Frank Reynolds, 76.

Three-potato race—Harry Reynolds, 89; Clarence Bennett, 80; Lorne Durward, 70.

Floor push—Clarence Bennett, 100; Harry Reynolds, 82; Buren Glass, 70.

Ealing.

Running high jump—Jack Tripp, 86; Albert Jolly, 79; Frank Griffith, 76.

Standing broad jump—Albert Jolly, 91; Winfield Brooks, 90; Jack Tripp, 76.

Three-potato race—Frank Griffith, 115; Jack Tripp, 76; Elmer Joyce, 71.

Floor push—G. Phelan, 82; F. Griffith, 76; Winfield Brooks, 73.

Empress Avenue.

CANADA Y.W.C.A. C.S.E.T. LEAGUE MEETS MAY 16 OPENS MAY 15

Expect Many Delegates Will Attend Tenth Triennial Conference.

Dominion To Have Representation at World's Gathering in Austria.

Toronto, May 9.—By Canadian Press.—Branches of the Young Women's Christian Association and the C. S. E. T. League will be represented at the tenth triennial conference of that organization, to be held in this city from May 16 to May 20 next. Delegates of numerous boards, general membership and secretaries of the thirty-nine associations from Halifax to Vancouver will attend.

Has Been Secured.

Dr. Richard Roberts, well-known writer, and recently appointed pastor of the American Presbyterian Church, Montreal, has been secured for special addresses on Tuesday and Wednesday evenings, when public meetings are being held. Julia Tolman Lee of the American National Y. W. C. A.; Rev. Trevor Davies and Dr. George Pidgeon of Toronto, are taking part in the general program, as well as Nellie Elliott, one of the best known of the Y. W. C. A. workers from Hong Kong, who is expected in Canada early in May. As this is the first conference since war activities have ceased, the morning and afternoon sessions will be given up almost entirely to round table discussions, when the details of the problems of the association's contribution to the present-day community will be discussed from all angles.

Arrangements have been made for special luncheons and dinners for the delegates, who will be the guests of the local association, and the Dominion council executive, and the Toronto board, while in the city.

Have Delegation.

Canada stands fourth among twenty-six countries doing association work throughout the world, and this year is to have a full delegation at the world's conference in St. Wolfgang, Austria, June 10 to June 22. Mrs. N. W. Rowell, Miss M. E. T. Addison and Miss Rowell, of the executive of the Dominion council, will attend, as well as Miss Greta Finley, until recently president of the Montreal association; Miss E. H. Ballantyne and Miss Mary Rowell of Toronto, Miss Mary Saunders, for many years national general secretary for Canada, will act as assistant chairman at the world's conference.

Branches of the Young Women's Christian Association in Canada are situated at the following places: Prince Edward Island—Charlottetown.

Nova Scotia—Halifax, Yarmouth, New Brunswick—Moncton, St. John.

Quebec—Montreal, Quebec, Sherbrooke.

Ontario—Brampton, Guelph, Hamilton, Kitchener, Kingston, London, Niagara Falls, Ottawa, Owen Sound, Paris, Sarnia, Sault Ste. Marie, Stratford, St. Thomas, Toronto, Windsor, Woodstock.

Manitoba—Brandon, Winnipeg, Saskatchewan—Moose Jaw, Regina, Saskatoon.

Alberta—Calgary, Medicine Hat, Edmonton.

British Columbia—New Westminster, Victoria, Vancouver.

NEW ZEALAND TO CUT WAR BONUS

London, England, May 9.—(Canadian Press cable.)—New Zealand's arbitration court has decided that the war bonus to workers must be reduced by five shillings a week in the case of men, and a half crown for women, says Reuter's Wellington correspondent. The arbitration court says the financial position of the Dominion is now regarded as healthy and the outlook improved.

The employers' representatives on the arbitration court complained that the reductions decided upon were insufficient, but the majority of members of the court, who agreed that any further reduction in the war bonus at present would entrench on a fair standard of living.

STEAMER DALLAS BREAKS RUDDER

Halifax, N. S., May 9.—The steamer Dallas, in latitude 47.40 north, longitude 49.10 west, reports her rudder lost broken and that she is in heavy fog, according to a wireless message to the naval staff here.

ASSERTS CHINA HAS MORE COAL THAN OTHER NATIONS

J. A. Machado Outlines Impressions Received While On Recent Visit To Orient.

Ottawa, May 9.—Rotarians heard with much interest an address on the subject of China by Rotarian J. A. Machado at yesterday's luncheon of the club. Mr. Machado, who recently returned from a long visit to the Orient, gave an interesting insight into conditions in China.

"China is a greater country than we realize," he declared. "There are cities with a million inhabitants, which I confess, I had never heard of until I visited the country. The extent of the natural resources is surprising. There is more coal in China than in Great Britain, the United States and two or three other countries put together. The authorities are well developed, but some phases of industrialism have not yet reached China. The skill of the artisans is very high and they have great patience. If China organizes herself industrially she will put many of the United States out of business. The Chinese are quite capable of adopting modern industrial methods."

Hamilton, May 9.—Three men, each armed with a revolver, stopped the automobile of Philip McInerney on Beach road, shortly before midnight last night and robbed McInerney of \$50 in cash and left him standing while they drove off with his automobile.

HAS NEVER FELT THE RHEUMATISM

Since Taking "Fruit-a-lives" The Famous Fruit Medicine

P. O. Box 123, PARKSBO, N. S.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up."

"I tried medicines I saw advertised, and was treated by doctors, but the Rheumatism always came back."

"In 1916, I saw in an advertisement that 'Fruit-a-lives' could stop Rheumatism and took a box, and got relief; then took 'Fruit-a-lives' right along for about six months, and I have never felt my Rheumatism since."

"JOHN E. GILDERSON."

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives, Limited, Ottawa—Advt.

"HULLO CANADA" IS TRIUMPH AT GRAND

Harry Tate and His Company Enthusiastically Received By Large Audience.

IS GLOOM DISPELLER

Little of Everything That Makes For Laughter Is Keenest of Striking Success.

"Thanks very much."

It was a hearty "Thank you!" that the large audience which witnessed "Hullo, Canada" at the Grand Theatre Monday evening tendered Harry Tate and his splendid company of artists after an evening of the jolliest fun imaginable.

"Hullo, Canada" is a delightful composition of a little of everything that makes for laughter, pleasure, artistic, but outstanding among them, in fact, after seeing "Hullo, Canada," there is left left to be desired in the way of gloom-dispelling, laughter-infectious entertainment.

Outstanding among the cast, of course, is Harry Tate—not only outstanding among the cast of "Hullo, Canada," but outstanding among English comedians as one of the finest and most finished on the music hall stage. His "take-offs" are a work of art, and throughout maintains a splendid characterization of the "humorous edition."

Continuing his recent and speech a continuous source of delight, apart from the genuine humor of his remarks—in his own words, "Spontaneous wit—there's nothing like it!"

His sketches, "Motoring" and "Fishing," stood with the greatest ease the crucial test of being seen for a second time, a test which only the superlative type of comedy can withstand.

Miss Connie Browning, the leading lady, is extremely pretty and graceful, a charming dancer, with a pleasing voice and personality, leaving nothing to be desired as a leader of a company of charming and vivacious girls.

In the closing scene of the first act "Roulette," Miss Dayne presents a statuesque beautiful picture in a setting seldom excelled in London for sumptuous grandeur.

Miss Isobel Dorothy proves herself one of the daintiest bits of femininity in the whole cast. Her dancing is exquisite, and she has a clear, sweet voice, which she uses to much advantage, and for dramatic elevations—go and see her in "There's Another Born Every Minute" and watch her fool the crowd.

Henri Rosen provides one of the finest and most unexpected features of the second act. In a "tramp scene" he completely surprises his audience with violin playing, later showing his extreme versatility by playing a touching solo on a weird-looking instrument which, although it sounded even to the most discerning exactly like a violin, looked as much like anything else.

Go and see "Hullo Canada" Tuesday night, and you will be glad to say "Thank you" for as fine a second edition as has ever been issued.

Day's Legislative Doings at Ottawa

TODAY IN PARLIAMENT.

In the Commons.

Militia, naval and air force estimates will be taken up, and if these are concluded the railway department estimates will be taken up.

In the Senate.

The Senate will meet at 8 o'clock, YESTERDAY IN PARLIAMENT.

In the Commons.

Resolution of W. G. McQuarrie, Minister, B. C., calling for the exclusion of Oriental immigration, was debated all afternoon and evening. The mover stated that the object of the resolution was to prevent increase by direct immigration of an element in the population which was not only undesirable, but dangerous to Canadian interests.

Mr. McQuarrie was followed by other British Columbia members, who were unanimous in their support of the resolution and their demand that some action be taken to exclude the Oriental.

Speaking at a late hour, Premier King announced himself in favor of restricting Oriental immigration, and declared that it was the right of every country to control the composition of its own population.

Hon. Charles Stewart, minister of immigration, moved in amendment that the resolution should provide for the "exclusion" of Oriental immigration.

The house divided on the Stewart amendment, which carried 130 to 36. Alfred Stork (Liberal, Skeena) voted against the amendment, which was supported by the Conservatives with the exception of Messrs. Lucas, Kel-

ner, McBride, Humphrey and Lewis. Mr. Neill (Independent, Comox-Alberni) also opposed the amendment.

The house adjourned at 1:45 a.m. In the Senate.

The Senate did not sit.

ALARMED ABOUT PROPOSED POOL

London, England, May 9.—(Canadian Press Cable.)—Provision importers here are alarmed at the proposed compulsory pool of New Zealand products and at a meeting last night they decided to actively oppose the scheme. It is understood that the New Zealand producers are divided in opinion as to whether there ought to be separate organizations for the north and south islands. Unless unanimity is established among them the Legislature will refuse the legislation they are seeking.

St. Marys Boasts One of the Best Collegiates in Ontario and To Substantiate This Claim Presents Some of the Pupils

ST. MARYS, May 8.—Reports from the officials of the St. Marys Collegiate Institute show that the attendance at this school has increased from month to month. The board of education of the Stone Town has always

demanded the highest grade of instructors and the teaching staff at the institute today is claimed to be one of the best in the province. For the size of the town and district the attendance is above the average.

HOMUTH DENIES THREAT USED TO GET HIS VOTE

Waterloo Member Replies To Report Concerning London Street Railway Bill.

DEBATE MAGISTRATES' ACT

Attorney-General Raney Submits Proposal To Set Salaries.

TORONTO, May 8.—Debate on the power of the attorney-general to make and un-make magistrates, as provided in the magistrates bill, now before the Legislature, the advisability of newspapermen being present at conferences held with the premier by outside deputations, and the third reading of a number of bills, occupied this afternoon's sitting. Second reading was given the Sick Children's Hospital bill and the Sault Ste. Marie

FIFTEEN BOILS ON NECK AT ONE TIME

Anyone who has suffered from boils can sympathize with poor old Job. There was no Burdock Blood Bitters in those days, so Job had to suffer in silence. Now-a-days no one need endure the misery of boils.

Boils are simply evidences of the bad blood within coming to the surface and just when you get rid of one, another seems ready to take its place and prolong your misery.

All the politicking and hancing you may do will not stop more coming. What you have to do is take

BURDOCK BLOOD BITTERS and the blood will be cleansed of all its impurities, and then every boil will disappear.

Mr. Roy McSwain, High Bank, P. E. I., writes: "I was troubled with boils for some time, and had as many as fifteen on my neck at once. After taking one bottle of Burdock Blood Bitters they commenced to get better, and after I had taken two bottles I was relieved of them and felt much better. I think I. B. B. is a grand blood medicine, and can recommend it highly."

For the past 45 years B. B. B. has been manufactured only by The T. M. L. Company, Limited, Toronto, Ont.—Advt.

WOMEN! DYE THINGS NEW IN "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her work, slinky dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—Advt.

Your body is asking payment for the work it does

WINGARNS with its Iron and Manganese and Glycerophosphates of Calcium Sodium Potassium with a specially selected tonic of remarkable properties will restore the shortage of these essential mineral elements to your body. For sale by all Druggists 10c. bottle \$1.50 (6)

Grandmother Was Old But, Alas, She Proved She Had Young Ideas

CHICAGO, May 8.—The "flapperized" grandma flopped onto the stage of modern femininity today.

Mrs. Johanna Pipowski, 74, defended her young ideas. She was arrested and fined \$50 and costs after conviction on charges of "vamping" a fellow youth of 30.

Said Mrs. Pipowski: "Just because I bobbed my hair with Father Time's scythe is no reason why the law should set on me."

"Why penalize me because I outlapped the flapper?"

"I don't get the bright and shining idea of those who believe a person who has reached an 'indefinite' age should play the under-taker."

"I crave action. The spirit of youth is in me. Why should I attempt to stifle the cosmic urge—the quest after the camaraderie of man?"

"Answer me that, young fellow, and I'll tell you my real age!"

"Two hundred and forty," roared the court.

But Mrs. Pipowski must have the last word.

Her advice to all generations:

"Lipstick, rouge and bobbed—you may grow old some day."

City bill. The Fort William City bill was up for third reading, but was held over at the request of citizens of Fort William, who want provision made in it for the right to increase the car fare to an amusement park.

The bill to incorporate the Ontario Threshermen's Mutual Fire Insurance Company was given second reading.

H. H. Dewar sent a dispatch from London, Ontario, intimating that several Labor members of the Legislature had warned officials of the London Street Railway Company, that if the company did not revise the cut it recently made in the wages of its employees these members would withdraw their support from the company's bill now before the Legislature.

The dispatch particularized C. F. Swayze, Niagara Falls, and K. K. Homuth, Waterloo, as the Labor members referred to. Mr. Dewar said he wished after reading the report to give Mr. Homuth an opportunity of replying, because such a threat, if true, was trafficking with the member's position in the house to secure gain for a particular class of people.

"I supported the London Street Railway Company's bill," said Mr. Homuth, "because I thought the company was not getting sufficient favor to carry on and pay their employees a fair wage. My vote, and I believe the vote of the other members, was absolutely independent of any political views. The statement that there was any threat whatever to swing our votes is absolutely false."

Will Deny Admission.

Mr. Swayze was not in the house at the time.

Mr. Dewar also quoted from a Toronto paper, describing a clash between the premier and Sir Adam Beck during a conference which members of the Toronto City Council and the hydro commission had with the premier in reference to the "clean-up" deal.

The report said that this passage had not been published, and the reporter refused to suppress it. The prime minister had pointed out that the newspapermen were let into the conference at his invitation, but they had refused to grant his request. He would see that they were not allowed in next time, Mr. Dewar asked if the report was true, and Mr. Drury replied that the major portion of it was true.

The premier explained that he did what he thought was best in the interests of the furtherance of the clean-up deal.

He said that it was the other parties to the conference who had suggested it be private. He was of the opinion that all such conferences should be wide open.

The premier said he was still of the opinion that he was justified at the conference in criticizing the hydro commission for committing itself to radical construction work while the government was awaiting an investigation on the advisability of embarking on such expenditure. It was this criticism which Sir Adam had resented. However, Mr. Drury pointed out that the radial bill will be up tomorrow, and he promised to take up the Toronto clean-up deal at that time.

Magistrates' Bill Considered.

The bill respecting magistrates, which is a government measure, was taken up clause by clause and gave a basis for a number of arguments about the administration by the attorney-general's department, particularly as regards appointing magistrates to jurisdictions which superseded other magistrates already there. Hon. Mr. Raney said this was done in the case of Cochrane, but it had not been done in the case of North Bay, except temporarily. It was pointed out that these clauses were not new ones. They both passed.

Mr. Ferguson suggested that the power of magistrates should be extended in regard to civil jurisdiction, for example, that they should have power to decide actions for wages up to \$100 instead of only \$40. The attorney-general did not think the

SENECAS' CHIEF BLAMES SCOTT

Declares Deputy-Superintendent-General of Indian Affairs Much Too Autocratic.

Scores Meagre Educational Facilities As Cause of Six Nations' Troubles.

BY RUSSELL F. BOYD.

CHIEF DESKAKHEH'S HOME-STEAD, Six Nations Reserve, Ont., May 8.—"Indians are only given so much education and no more," declared Chief David Hill, a Seneca, and a member of the Six Nations Council, today.

"Yes, we had one teacher here, a man by the name of Johnson, for 40 years, and during that time not an Indian passed the high school entrance examinations," added Chief Deskaheh, a Cayuga, and chief speaker of the Indian council.

The present teacher, a woman from Chatham, was not as bad as the former one at first, the chiefs declare, but today conditions have become worse, the Indian leaders claim.

Every year, Chief Hill continued, the Indian department distributes eggs to the school children to be taken home to be hatched by hens.

Set London at \$4,000.

Last year, he declares, 127 dozen were purchased at a cost of \$108, the boxes costing \$19.50, although they were returned. Out of two dozen that Chief Hill's children brought home, only two hatched.

Has Few Graduates.

"I defy anyone to present ten graduates of the Mohawk Institute," continued Chief Hill, "who have graduated within the past 50 years."

"The most successful farmers are the ones who do not attend the school."

"When the boys step out of that institute they hate work. The school, as at present constituted, is only a curse to the Indian. It would be far better if they turned the place into a house of refuge."

"I attended the school from 1874 to 1877. The only textbooks I was given were a catechism and a common church Prayer Book. I was 10 years old when I entered the school. I spent learning catechism, because I was a Baptist. I was only inside the school the first year. During the next two years I worked outside and never saw a classroom."

"We tried to get better educational facilities on the reserve, and only got them by sending spokesmen before Baptist conventions, Anglican synods, and Presbyterian conferences. We did get better results, but only for a short time. Things went back to the old state again."

Blames Duncan C. Scott.

"Under the Indian act, my money, my land, almost my life, is in the palm of Scott's hand (Duncan C. Scott is deputy superintendent-general of Indian affairs)."

"During the last few years when-

ever the Indian awakens to his responsibility, Scott tries to put him down."

"For every dollar that the Indian gets out of the fund at Ottawa, the white man gets nine."

"The appropriation seems to be more for political 'healers' than Indians."

"The desires and wishes of the Indian are never consulted."

"We don't want to amend the Indian act. There are certain parts of it that are workable."

"Any investigation will be useless, unless the Indians are represented."

"At present the administration of Scott is all one-sided. We want co-operation."

Read Many Books.

Returning to the subject of education, Chief Hill stated: "When I returned from Mohawk Institute my parents asked me if I wanted more schooling. I expressed a willingness to study further, for I was only young at the time. I went to a school just off the reserve. Levi (Chief Deskaheh) went there, too. The teacher there was pretty good, but I did not pass my entrance."

"My trouble, I think, was that I read too much. I have read Shakespeare and other standard works, when I could get them. It was nothing for me to sit up all night and read."

"And we pay for the schools out of the interest of our trust fund."

"Duncan C. Scott wants to keep the

Indian ignorant and utterly crush the identity of the Six Nations," both Chief Deskaheh and Chief Hill concluded.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Menthosulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Menthosulphur at any drug store.—Advt.

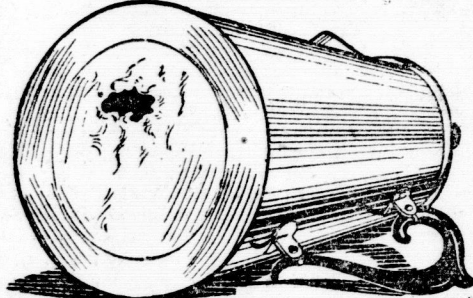

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Frezzone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Frezzone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.—Advt.

Don't Buy Kitchen Ware Simply Because It's Cheap!

HOUSEKEEPERS are sometimes asked to buy cheap cooking utensils just because they are nice to look at when new. But after a short use, where has the bright newness gone?

It is true economy both of money and of time and energy to buy only

SMP Diamond or Pearl WARE

"A Face of Porcelain and a Heart of Steel"

Neither Diamond nor Pearl Ware is expensive. Both are truly economical in that they last for years with ordinary care. Diamond and Pearl Ware utensils do not stain or lose their bright color. Acids of food juices have absolutely no effect. Diamond and Pearl utensils can be cleaned in a jiffy, even after the greasiest frying or boiling. And they do not burn out.

Diamond is blue and white outside, all-white inside, with three coats of enamel.

Pearl is grey and white, with two coats of enamel.

Do you know that a Diamond or Pearl Ware pot that sold for \$1.50 last year, can be bought now for 90 cents?

C.C.M. Bicycle Prices Reduced

"HURRAH, fellows: You don't need to hold off buying your new bicycle another day."

"C.C.M. Bicycle prices have been fixed for this season and they are right down to bed rock."

The 1922 C.C.M. Standard Adult Models are: \$15 Below "Peak" Prices \$10 Less than Last Summer

"This certainly gives us Canadian riders a generous reduction and a square deal. I'm told that bicycles of equal quality cost more in the United States than C.C.M. Bicycles do in Canada."

"Remember, C.C.M. prices didn't advance anywhere nearly so much as most products, so they hadn't as far to come down."

"And C.C.M. Bicycles are even better now than before the war."

"You know, the best steels and materials were reserved for war purposes, and the best mechanics put on war orders. Now, the best steels and materials are again obtainable, including English Seamless Tubing for C.C.M. Frames. The best mechanics are on the job again with their skill improved as a result of the accuracy demanded in their delicate time fuse work."

A Nifty New Pedal

"And, say fellows, you've put a new pedal—called the Gibson Pedal—on the 1922 Men's Models, and it's a bird!"

COUNCIL WILL NOT INCREASE POLICE FORCE

Port Stanley Summer Cottagers Ask For Better Protection in Vain.

ONLY ONE CONSTABLE

Villagers Fear Publicity Will Thwart Work of Provincial Officer.

Because of the publicity that anything was being done here tonight, such as bringing in a provincial officer, would be given it is useless to make any such decision," said Dr. H. G. Jackson, reeve of Port Stanley, by way of final answer to a delegation of some 30 cottagers in Port Stanley, who waited on the village council at its meeting in the Hydro Building, Port Stanley, Monday night, asking that better police protection be given their property in the village.

And the delegation returned home as they had come down, via a special coach on the L. and P. S. seeing not the faintest possibility of increased police protection, an investigation of the robberies that have been, nor yet an iota of result from their effort.

Fred Lawrason was the first speaker for the delegation before the council. He asked the reeve if he were aware of the numerous burglaries that had been going on for some years back, and which had been increasing of late. Dr. Jackson answered that he had heard of these burglaries.

The spokesman of the delegation then said that the situation had become unbearable.

"It is a hardship," he said, "that people come from London to build cottages here, and then not have protection. We think that they should have protection, and we have come down here to discuss a solution. Has anything been done by the council?"

Asks For Suggestions.

"No," said the reeve, "nothing has been done, besides instructing our policeman to look into the matter; and to come down to brass tacks, what would the cottagers suggest be done?"

Mr. Lawrason suggested that the council ask the provincial authorities that something be done, if the government was notified and a good provincial man sent down something might be done to apprehend the guilty parties, since, from his own information and information supplied him, he thought they were here in the village. He went on to tell of his own loss of \$1,500 through burglary, and further said 365 land owners who paid taxes in Port Stanley were Londoners, while there were only 287 land owners besides these in the village itself who paid taxes.

The reeve spoke up at this point, and said that there was far more crime committed, under the noses of the police in London than there was in this village, where there was only one constable.

Urges Reward Offered.

Continuing, Lawrason stated that he thought the council should offer a reward for the culprits and bring on an investigation. The reeve again halted him and said: "Is there an officer here?"

"Yes," answered the provincial officer here.

"Has there been a provincial officer here?" questioned the reeve.

"Yes," once more said the officer.

Then there was a discussion as to who was responsible for bringing the provincial officer to the lake shore.

Turner asked Lawrason if he had not brought him. The answer was that he had not.

The matter died for the moment, and the spokesman, returning to his discourse, said that it would not benefit Port Stanley any for such conditions to prevail in it.

"Now, Mr. Lawrason," said the reeve here, "I know that people have left their cottages and gone away leaving the doors unlocked. On several occasions the policeman has had to notify the owners and have them come back and lock the doors."

The speaker for the delegation said then that if nothing would be done by the council, he himself and several other gentlemen would be willing to bear the expense of a proper investigation.

Wants Someone Arrested.

Fred Wright, a member of the delegation, spoke for a few minutes. He said it was through him partly that the provincial officer had been sent to the village. He believed that the constable of the village was too well known.

"The only way to stop this situation is to apprehend someone and make them an example," he stated. People who were at the resort during the summer paid taxes, and were willing to bear their burden, he declared.

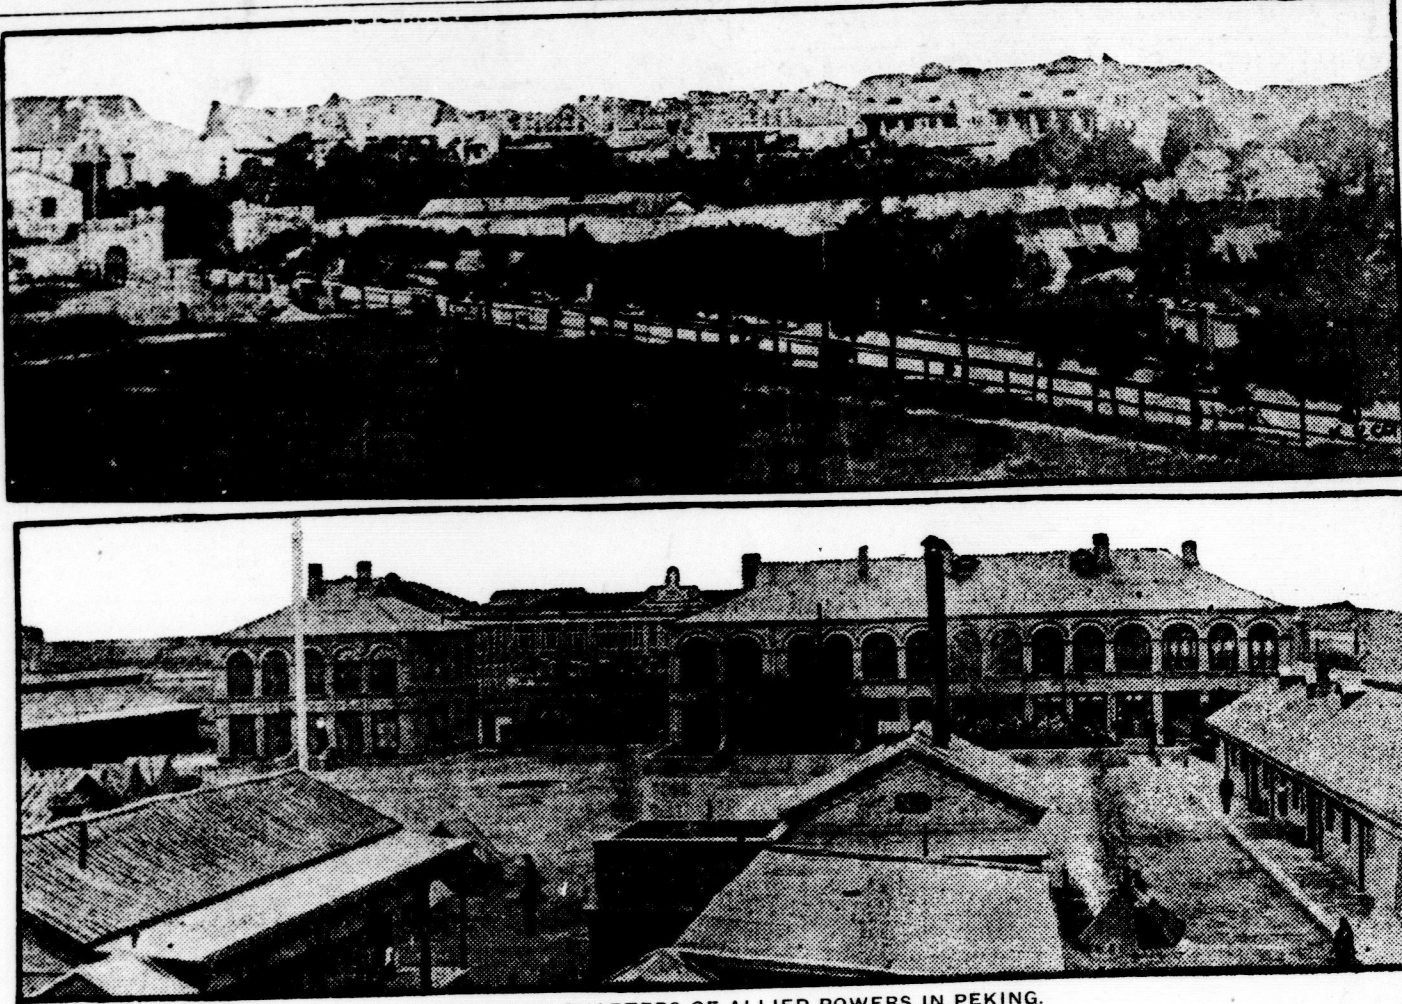

Dr. Jackson was skeptical and said so, of financial agreements. The council had entered into an agreement last year with summer residents and then the latter had not lived up to their agreement.

C. Pines and W. T. Bell, two of the councillors, assured, each in turn, the delegation that they would like to cooperate with the cottagers to do whatever they could. The fourth member of the council, William Eastwood, did not have anything to say. One of the councillors, B. Nicholls, was absent.

Last to speak was Charles Brown, who asked the council if they had anything to suggest. This brought the answer that if anything was done, such as bringing a provincial officer in, would account of the publicity it would give, and therefore prove useless, but the council would consider the matter, and so the delegation departed.

Members of the delegation, after seeing the council, stated that something further would be done in all likelihood to bring about better protection of their property, and an investigation, and it is possible that they will go into the legal aspect of the matter to see if something cannot be gained.

British and Foreign Legations Under Guard As Chinese War Wanes

LEGATION QUARTERS OF ALLIED POWERS IN PEKING.

TIENTSIN, May 8.—General Wu Pei-Fu, who came to Tientsin from Peking in pursuit of the Manchurian General Chang Tso-Lin, was today ordered by the allied military commanders here to leave the city, as his presence was held to be in violation of the 1901 protocol.

Wu refused to leave, on the ground that he was the acting governor of Chihli province, and would remain as long as necessary for his purpose.

LONDON AD CLUB TO STAND ALONE

Decides To Leave World Association and Plan Canadian Federation.

Objects To New York Letter Referring To State Senators.

The Advertising and Sales Club of London unanimously decided at the annual meeting held in the C. of C. rooms Monday night to break away from the Associated Advertising Clubs of the World. In future the club will work for the interests of London and Canada as a whole.

The matter was introduced by President George Clark, who stated that he had received a letter from New York last week asking him to write President Harding of the United States requesting that the president attend the annual convention of the Ad Clubs in Milwaukee. Mr. Clark was also asked to use influence with the "senators in his state."

Mr. Clark thought that the New York office might possibly know a little more about the fact that a convention two years ago it was suggested that the territory occupied by Canadian clubs be split up and taken over by the nearest U. S. clubs.

"We should put our efforts toward the affiliation of the Advertising Clubs of Canada," declared Mr. Clark amid applause. "We will have Hamilton, Toronto and London as a nucleus to work upon, and we will get just as much benefit out of the convention as if we were members. If our club had a reserve to work upon it would be all right, but we should not be prodigal in sending our money across the line. Sixty-eight members at \$1.50 a year means something to our finances, and this money is going to the A. A. C. of the World. A Canadian affiliation would be better for all."

A motion moved by H. B. Muir, and seconded by Mrs. E. C. Bowker, "that we disassociate ourselves from the A. A. C. of the World," was carried amid applause.

Keep Money at Home.

"We want to devote ourselves to the London of today and tomorrow," said Mr. Muir. "Let us spend our money in London."

G. R. Taggart, U. S. consul for Western Ontario, a member of the club, stated that some of the best read people of the United States knew little about Canada. They thought this part of the country was advertising it as such was a "damn fool notion." "They think we are out near Winnipeg," said Mr. Taggart.

"If the managers of the club at New York knew you as well as I do, they wouldn't send you form letters such as Mr. Clark received. It is a case of passing the 'back' and these letters are passed right down the line to the stenographer who sends them out. You couldn't expect her to know much about Canada, now could you? If they were here they would say so ahead and pass the motion."

In my reports I tell Washington about this class party of Canada and I'm not saying this to palaver you. You have a great country here in Western Ontario.

Managers Need Jolt.

"If the managers of the Advertising Club in New York are the business men we take them to be, they would know about the far-flung ad clubs," said Mr. Clark. "It has been called to their attention before, but they are not on the job. Give them a jolt and let them know that Canadians are not going to feed out of their hands."

Mr. Clark then referred to a special edition put out by The London Advertiser relative to the work of the London Ad Club, stating that it had been taken up as a model to be used by papers on the other side of the border.

"If it had been done by the States it would have been played up," said Mr. Clark. "We sent a copy of The Advertiser to every club on the list stand taken."

"Weather Too Fine" To Go To Penitentiary.

OTTAWA, May 8.—"The weather is too fine to send a man to the penitentiary, which you deserve, but I will sentence you to six months in jail," stated Magistrate Roland Miller of Hull, in disposing of the charge of obtaining money under false pretences, laid against R. H. Simpson of Ottawa.

Simpson was found guilty of having presented a worthless check for \$150, and having received a loan of \$22 on it.

of the advertising clubs of the world, and we shouted as hard as our national characteristics permitted."

H. B. Muir stated that in his opinion the higher officials of the Advertising Clubs of the World would want to know why London had dropped out and that an investigation that would be extremely helpful would follow.

Active Organization.

President Clark stated that the club was becoming one of the most active organizations in the city. The officers had been called into consultation by the chamber of commerce on a number of occasions and in other ways the club had done much good. He warned the members of having too unwieldy a membership.

A statement of the finances, read by Treasurer Harold Donahue, showed that during the year receipts had totalled \$872.61, while expenses had amounted to \$886.45, leaving a balance of \$63.36.

A grant of \$25 was made by the club to help defray expenses for London's "Boys' Week."

"We went into this with the opposition of the majority of school teachers, and came out of it with their approval," said Mr. Clark. "It was a great success, and is going to be copied in Toronto in June."

George Clark was re-elected president of the club by acclamation.

"I think that the man who has put the Ad Club on its feet in London should be elected for another term," declared J. B. Hay in nominating Mr. Clark.

Mrs. E. C. Bowker was elected first vice-president by acclamation, as were Harry Muir, as second vice-president; S. J. Adams, treasurer, and Allan Gow, secretary.

Directors Chosen.

Directors for the year were elected as follows: T. H. Yull, Peter Glenn, W. R. Jarmain, G. A. Weniger, G. L. Spry, A. M. Smith, G. R. Taggart, Ed. Hayden, F. S. Lawrence and J. B. Hay.

A vote of thanks was passed to the London press for the support given the club.

"They clean up their ad columns better than some of the papers in the larger cities," said Mr. Clark. "There is an honest endeavor to forego financial benefit they would receive by carrying questionable advertising."

Votes of thanks were passed the McClary Manufacturing Company and the chamber of commerce for the uses of their premises for meetings.

The club decided to hold a picnic during July, and it was intimated that it would be a real "Ad" picnic, which few organizations could hope to emulate.

CLERKS WILL DISCUSS CIVIL SERVICE BONUS

London Postal Workers Oppose Strike, It Is Understood.

To discuss the civil service bonus, which was recently cut off, the members of the Postal Clerks' Association will meet Monday night at 8 o'clock in Carling Block.

It is understood that the London postal workers do not favor a strike. Such was advocated by the Toronto association. Their stand against striking has been strengthened by recent reports emanating from the capital, which would indicate that the civil service bonus will be restored, at least partially, before long. The matter will be thoroughly gone into at the projected meeting and an exact stand taken.

WILL NOT TAKE ACTION AGAINST LOUIS STANDER

Brantford City Council Decides Private Individuals Must Prosecute.

Special to London Advertiser.

BRANTFORD, May 8.—No action is to be taken against Louis Stander, who refused to leave, on the ground that he was the acting governor of Chihli province, and would remain as long as necessary for his purpose.

the finance committee, to whom the matter was referred at the last meeting of the council, reported that it was against the civic bylaws to take any action on behalf of the private persons whom it is alleged Stander defrauded while he was acting in his official capacity. The matter was taken up with the city solicitor, who advised that all private parties take civil action themselves, and that the council would be in a position to give them assistance in the event of this happening. Labor recently the Independent Party sent a letter to the council asking that Stander be charged with his offenses. The letter was ordered filed at last night's meeting.

FOUND DROWNED IN RIVER ON FARM

DURHAM, May 8.—A startling death occurred in the locality of Durham Saturday afternoon. Richard Ellis of Egremont Township, about 60 years of age, was found drowned in a small river that runs through his place. He was unmarried, and no cause or reason is known as to why he met death in this manner.

STYLE HEADQUARTERS.

Scores of Men Are Due To Change

Scores of men will change underwear in the next few days. They'll want light-weight, comfortable garments like these the Dowler Stores are showing. Great variety and choice of styles—combinations, shirts and drawers, short or long sleeves, knee or ankle length; long-wearing, double-thread balbriggan, spring-needle combed cotton, mercerized cotton, silk and wool, natural wool; made by Penman's, Zimmerman's, Tru-Knit, etc. Fashioned with utmost skill, in true, proper proportion for real body comfort. Dowler chain store purchasing direct from manufacturers has made prices lower—see these excellent values at

\$1.15 \$1.35 \$1.50 \$2 to \$4

Athletic styles are here in fine quality nainsook, and fancy corded madras cloth. Made by Forsyth, and others. Complete showing at \$1.15 to \$4 prices

Healthy Mother Merry Children Happy Home

TO maintain a happy home the housewife must keep in good health. Her duties are many and various, and it seems as if every other member of the family depended very much on her.

"Where is my hat?" cries the boy.

"What did you do with my coat?" asks the daughter.

"I can't find any handkerchiefs," yells the husband.

The housewife is usually the advisor and general manager of the family.

Lydia E. Pinkham's Vegetable Compound helps women to maintain a happy home by keeping them in good health.

Winnipeg, Manitoba.—"I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said that he could do nothing for me, owing to my condition. My husband's grandmother advised me to take Lydia E. Pinkham's Vegetable Compound. Before the first bottle was taken I could walk alone and as I kept on with it I got stronger, until I was able to do all my work. My baby is a big, fat, healthy fellow."—Mrs. MURRAY J. BARTON, R.R. No. 1, Cumberland Bay, New Brunswick.

Thousands of women owe their health to

THE TWO WORST CASES.

best boys' work man in the business. The suggestion was quickly taken up by the various organizations in the city, and the week divided as follows, with headquarters in the following: Monday, chamber of commerce; Tuesday, boys' parade day (Canadian club, with LEUT.-COL. I. LEONARD as chairman); Wednesday, boys' day at school (Knights of Columbus, HARRY RASNAK, chairman); Thursday, boys' day in industry (Rotary Club, C. B. KING, chairman); Friday, boys' day in athletics (Kiwanis, with E. HAYDEN as chairman); Saturday, boys' day in the home (Mothers' Clubs, with Mrs. JOHN ROSE and Mrs. J. B. LEECH as chairmen); Sunday, boys' day out-of-doors with dad (Lions' Club, with COL. C. M. R. GRAHAM in charge); Sunday, boys' day in church.

The patrons and patronesses were: MAJ.-GEN. H. A. PANET, COL. WM. M. GARTSHORE, MAYOR CAMERON WILSON, V. K. GREER, JAMES GRAY, MRS. E. B. SMITH, MRS. J. H. LEECH, MRS. JOHN ROSE.

Executive: D. GEORGE CLARK, chairman; GEORGE WESLEY, vice-chairman; LLOYD M. HOLDING, secretary; E. J. PENNY, corresponding secretary; W. D. BEAMER, finance secretary.

The general committee had the following members: ED. GRANGE, DR. GEO. FRASER, D. H. McDermid, NEIL STEYER, J. MCCLARY GUNN, CHANCY SMITH, J. F. COY, KEN. CASSELMAN, H. N. KENNEDY, HILL ALDIS, G. R. TAGGART, W. D. DAVIDSON, WM. R. YEN-DAI, GEO. WENIGER, H. J. GARBUTT, WM. JAKIMAIN, H. B. BEAL, ARTHUR KELSEY, C. R. ROWNTREE, WILFRED KELSEY, G. COPELAND, H. E. PARSONS, FRED LAMBSON, GORDON PHILIP, W. H. T. MOONEY, G. A. WHEATLE, B. C. MCCANN, ARTHUR FORD, BROCHER GREGORY, ROBERT M. GALLAGHER, J. COLLIER, REV. G. N. VESSEY, E. C. KILLINGSWORTH, H. B. GALPIN.

The boys know more of the industries of London than they did before; they are richer by reason of the fact that they possess greater practical knowledge; they have had the advice of businessmen who have pointed to the necessity of boys staying at school and making the most of every opportunity to acquire knowledge; the fathers and mothers have been interested in a new and a big way; the out-door features were new, clean and wholesome.

We have gone into the matter in some detail, because other places are considering the same idea now. London, as far as we know, was the first place in Canada to have a Boys' Week on such a complete scale. It was a big piece of work, accomplished in a big way, and congratulations are due to all who in any way helped to make it such a complete success.

Gratuitous Slander.

TO THE man not closely acquainted with its aims, the *Wall Street Journal* may be considered as a publication for the promotion of "big interests." As a matter of fact the *Journal* is one of the sanest papers published, and as soon as finance ceases to be anything but clean, straight business, the *Journal* can be depended upon to say so.

It is well that a paper with the standing of the *Wall Street Journal* should turn to questions of international finance at times, because it is qualified to speak with the authority possessed by few.

"A Gratuitous Slander" is the title applied by this paper to the Hearst papers for comments they have made regarding the debts incurred in the war, and still owing by Britain and United States. Here is the way in which the *Wall Street Journal* deals with Hearst:

"LADY ASTOR made a good-tempered protest against slurs upon Great Britain and specifically mentioned the HEARST newspapers in this connection. The basis of her criticism was that those who read the charges had no means of testing their truth, or of hearing any reply. Hearst's American considers that a reiteration of the charges is a sufficient justification. Here is one of them: 'England borrowed billions upon billions of dollars from us and she has never paid a cent, not even the interest on a cent.' 'To November 15, 1921, Great Britain paid us a total of \$247,844,855 in interest on the debt she incurred here, so that this charge is a manifest falsehood on the facts of record. It is needless to say that the further payment of interest is provided in the British

25 YEARS AGO TODAY

Here We Have Items of Local and District Interest As Recorded in The Advertiser of 1897.

MAY 9, 1897.

Miss Peters of this city, and Mrs. Boyd of Toronto, are guests at the residence of Mr. William English, Petrolia.

Mrs. Ames, of Toronto, daughter of Senator Cox, who has been under the care of Dr. Eccles for the past six months, left for home yesterday. Miss Lucy Hobbs accompanied her.

At the Melbourne quarterly board meeting, a resolution expressing warm appreciation was passed, inviting the pastor, Rev. D. E. Martin, to continue his work on that circuit for a second year.

Among those who will take the special cavalry course at Wolsely Barracks are Capt. King, Kingsville; Capt. Stewart, Courtwright; Capt. Booker, Lieut. Harry Abbott and John Weld and McComb of this city; Lieut. Gartshore (nephew of Col. Gartshore), Hamilton, and Serjeants Campbell, Duncan, Q. M. S. Widdien, Serjeants Gibbons and Trumppeter Wigg of the Canadian detachment to the queen's jubilee in England. Capt. Stuart and Lieut. Niven of the 26th will also take a voluntary course.

The thirteenth annual banquet of the Baconian Club was held at the Grigg House, as usual, last night, to mark the close of the season, which

has been a very successful one. Mr. O. J. Stevenson, B.A., the president, who removed to St. Thomas before the term of office expired, returned for the evening and graced the head of the table. Mr. D. E. Galbraith, B.A., of St. Thomas, late of the Collegiate Institute, was also welcomed by his colleagues. Mr. J. A. Cottam, secretary, was the vice-chairman. The menu was of the most delicious, comprising every delicacy in season, from frog's legs to ice cream, and the members were incited to its discussion by the words of Macbeth.

There was quite a busy session at the local market today. Receipts of all kinds of provisions were good. Hay deliveries were high and grain deliveries were the same. Receipts of meats were quite large, and those of butter and potatoes good. The prices for all the lines mentioned were about the same. The following shows the usual prices paid today:

Provisions—Honey, 12c; cheese, 10c; eggs, single dozen, 3c to 10c; eggs, fresh, basket, per dozen, 8c to 9c; eggs, fresh, store lots, per dozen, 8c to 9c; butter, single rolls, pound, 15c to 16c; butter, per one-pound rolls, baskets, 14c; butter, large rolls or crocks, per pound, 11c to 14c; butter, pound, tubs, 10c to 13c; lard, per pound, 6c to 7c; chickens, per pair, 50c to 70c; ducks, per pair, 75c; turkeys, pound, 10c to 12c.

DR. BISHOP'S ADVICE.

TRY SLEEPING OUT

BY DR. R. H. BISHOP.

FOSE who have ever slept outdoors any length of time are unanimous in their testimony that even the best ventilated room is far inferior in healthfulness to an outdoor sleeping porch, or an open tent or a window tent.

Time was, not so long ago, when outdoor sleeping was for such diseases as tuberculosis and pneumonia. Of late the value of outdoor sleeping for well persons of all classes and ages has come to be recognized.

Sleeping outdoors increases the power to resist disease and greatly promotes physical vigor, endurance and working power.

points to her widow's weeds. This does not convince the philosopher of the *Vancouver Province*, who states that "in the garden of love widow's weeds are a hardy perennial that are rarely known to bluish unseen."

A Chicago woman is suing a beauty doctor for \$20,000, she having failed to take out wrinkles and restore that "sweet sixteen" complexion. Vain race! Youth and beauty visit most people only once, and then when the time comes for this great combination to move on the beauty specialists are ready to cash in on the struggle to hold up the procession.

The *Tara Leader*, with its issue of May 4, entered upon its 24th year. Founded in 1881, it had, between that year and May, 1899, three different owners and editors. Since the issue on May 4, 1899, the *Leader* has been under the control of its present publishers, and has doubled its circulation. The *Leader* records faithfully and well the doings of its district, and is not afraid to get up on its hind legs at times and kick over the dashboard.

As soon as the *Vancouver Sun* heard that there was a chance of \$1,400,000 being taken off the militia estimates it began to preach that such an amount would build a grain elevator at Vancouver, or erect the first unit in a drydock at the same place. And here we were figuring that it might put up a postoffice in London that would look as good as the rest of the city. No doubt there are lots of folks ready to show where that \$1,400,000 could be spent.

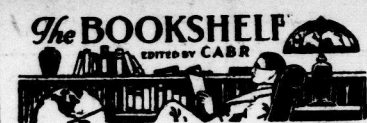

During the discussion of the taking of the census a member of the House at Ottawa remarked that in his constituency all those who had been engaged to do the work had been friends of the last government. This member was telling no family secret, for the same thing could have been stated as being true in almost any constituency in the Dominion. The Conservatives preached the abolition of patronage, and at every turn went ahead and put patronage into force.

"SWEETHEART! If windows must be washed, and dusting done. And woodwork wiped, and cupboards, one by one. Be cleared and cleaned, and carpets beaten be. And boards be scrubbed till there's no dirt to see. Why must these things, Sweetheart, be done in Spring. When crocuses are up and bluebirds sing?"

—Contributed.

EDWARD JOHNSTON of Guelph has been chosen as the successor to CARUSO at the Metropolitan Opera House, New York. In other words, JOHNSTON has been acclaimed the world's greatest tenor. This is a matter of great satisfaction, not only to the people of his own city, but to Canadians in general. The success is a combination of talent, careful training and a determination on the part of the singer himself. THE ADVERTISER joins with others in extending congratulations to this Guelph boy.

In discussing the report that she was to remarry, Caruso's widow

THE PURPLE PEARL. By Anthony Pryde and R. K. Weeks. New York: Dodd, Mead & Co. \$1.90.

IT does not require an extensive acquaintance with the ways of novelists to feel sure, from the title of this novel, that it will be a tale of lost or hidden or buried treasure, with mystery and adventure in the finding of it, and a villain and one or more pretty girls among its characters.

Perusal of its pages reveals that such a forecast would not be much out of the way, but there is also much more than all this and, in addition, some of the time-honored furniture of a buried treasure tale has been furnished up and remodeled until it seems quite fresh and new.

For the World War comes into it, and there are some scenes in a German prison camp and a thrilling attempt at escape by two English officers, and the villain—a very capable, astute, two-fisted, conscienceless villain he is—proves to be a German officer in command of the prison camp.

Altogether, the authors have contrived quite a tangled complication and a great number and variety of thrills.

The basis of the story, as the reader learns early in its development, was laid half a century ago when the feud in the Mereworth (pronounced in three syllables) family was started by the great-grandfather of the several young people who are the chief characters in the story.

He died telling his three sons that he hated them all equally, and had so arranged his possessions that they were likely to fight like cats and dogs over them, and his only regret was that he couldn't live to see the scrap.

The castle and lands were entailed, and so they, with the title, went to his eldest son. All his other wealth he had turned into jewels and hidden somewhere in the castle. To each of the three he gave an envelope containing a clue to the hiding place, but only by pooling their information and working together harmoniously could they find it. As a great ingenuity is shown by the author in laying bare their trials and tribulations before they finally locate the object of their quest.

LEARN A WORD EVERY DAY

TODAY'S word is LEGATION.

It's pronounced—le-ga-shun, with accent on the second syllable.

It means—the place of business or official residence of a diplomatic minister at a foreign court or seat of government; in common parlance used in distinction from "embassy," the official residence of an ambassador, or minister of the highest rank. An ambassador is a minister; since a minister is not necessarily an ambassador, inasmuch as it may not be occupied by a minister of an ambassador's rank.

It comes from "legatus," which in turn is from Latin, "legatus," to deputize or deputize, the minister being deputized to represent his government.

It's used like this—"The foreign powers have sent ministers to Peking to guard their legations against attack."

READ YOUR CHARACTER

(By Digby Phillips.)

NO. 209—SWAYING THE LOGICAL TYPE.

The "logical" type of man or woman is the opposite of the "instinctive" type. Most characterologists speak of it as the "masculine" type.

As has been explained, you know these people by such characteristics as the length of their arms and legs, the squareness or ruggedness of the build, their broad shoulders, their straight backs, their narrow hips and certain indications of their facial and skull formation.

In influencing persons of this sort you will, of course, be guided in large measure by the way in which they fit into the classifications of the mental, motive or vital types; the "pluggers" or quick in thought and action; whether they are patient or impatient, conservative or progressive.

But in a general way you will find it a good rule not to work the personal appeal overtime with them. It is not that they are necessarily unfriendly people, but simply the fact that their natural inclination is to act upon reason and logic rather than instinct. You will persuade them by showing them the thing you wish them to do is the practical thing, or the just thing, or that it fits in with their principles in any way. But they're not likely to follow your lead and want what you want just because you're you and they like you.

Remember too, that they are well pleased with a bit of contest or conflict, especially if you allow them to be the winner.

Tomorrow—Ruling the Wide-Headed. Copyright, 1922, by Public Ledger Company.

Our Own Country.

Question—What Canadian author has written the largest number of novels?

Answer—Ralph Connor (Rev. Charles W. Gordon) has written the largest number of popular novels of any Canadian writer, starting with "Black Rock" and "The Sky Pilot."

Question—What is Canada's chief distributing port on the Pacific coast?

Answer—Vancouver is Canada's chief distributing port on the Pacific coast, especially to the Orient. The customs receipts for 1921 of over \$12,000,000, an increase of \$2,000,000 in a year, indicates the volume of trade.

Real Good Soap

A Big Bar of Good Soap—Bright, solid soap with fine lathering and cleansing qualities for the family wash and household use.

For use in washing machines shave or slice a portion of the "SURPRISE" bar direct to the machine—it will do fine work.

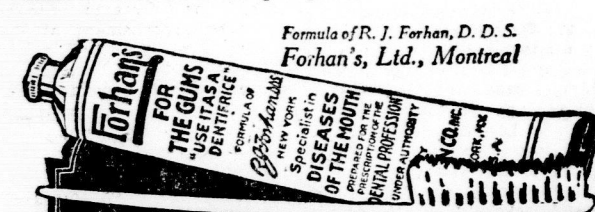

Tender Gums —A Warning

Beware of gum tenderness that warns of Pyorrhea. Four out of five people over forty have Pyorrhea. Many under forty, also. Loosening teeth indicate Pyorrhea. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—inflicting the joints or tonsils—or causing other ailments.

Forhan's positively prevents Pyorrhea, if used in time and used consistently. As it hardens the gums the teeth become firmer.

Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean.

If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

TWO LEAP INTO DETROIT RIVER IN SUICIDE PACT

Pedestrians Crossing Belle Isle Bridge Witness Un-usual Deed.

POLICE DRAG FOR BODIES

Unknown Individuals Leave Note Written in Italian.

Special to London Advertiser.
DETROIT, May 8.—Three men were walking across the Belle Isle bridge from East Jefferson avenue to Belle Isle shortly after 5 o'clock this afternoon. They were chatting idly and glancing now and then at the sluggish river underneath. Suddenly their attention was attracted by the sight of two men clambering over a railing of the bridge some 50 feet distant from them and about 300 feet out from the Belle Isle shore.

A moment later one of the men stretched out his arms and dived into the water. Then the second man hurled himself headlong after the other.

The witnesses to the leap leaned over the railing and peered down. The two men were just disappearing below the surface. Neither was making any effort to rescue the other or save himself. They uttered no outcry. In a moment they had gone down.

The police were notified, and Harbor-master Burkheiser at once dispatched a river patrol with grappling hooks to drag for the bodies. Burkheiser said that the river was about 25 feet deep at that point.

On the bridge at the place where the men dived off were found a grey-checked coat and a grey soft hat with mourning band. In the pocket of the coat was a note, written in Italian, which was turned over to a translator.

"Suicide pact," was the verdict of the police after hearing the story of the three witnesses.

The spot where the double suicide occurred is where a Detroit policeman a few months ago hurled his young wife to death. The current is swift in this part of the river, and the bodies of tonight's suicides may be carried some distance down stream before they are found. Dragging ceased when darkness set in, and will be resumed in the morning.

PROTEST COMPETITION.
HAMILTON, May 8.—So greatly have the busses and jitneys cut into the Hamilton Street Railway's business that the company threatens to raise fares again unless given protection from this competition.

Change Color of Stamps Under New Ruling.

OTTAWA, May 8.—A number of changes in the color of Canadian postage stamps are being made, to conform with the new international regulations. A straw-colored one-cent stamp is being issued, to replace the old green cent stamp.

The red two-cent stamp is being replaced with a green stamp, and should a six-cent stamp ever be issued, it will take the red color hitherto distinguishing the two-cent stamp.

DENY RUMORS OF LIQUOR "CONTROL"

Raney and Drury Both Repudiate Truth of Dispatch Received From Quebec.

EXPRESS AMUSEMENT

Attorney-General and Premier Intimate No Change in Vending System Likely.

TORONTO, May 8.—Attorney-General Raney was mildly amused today when his attention was called to a dispatch from Quebec, which stated that it was learned "from an authoritative source" that the government of the province of Quebec has decided to take control of the sale of liquors in that province, with a view to obtaining money to meet its hydro obligations.

"So far as we are concerned," said Mr. Raney, "the report is absolutely unfounded. Possibly they have heard of Mr. Ferguson's recent utterances down there and attributed them to Mr. Drury. Or, perhaps (smiling), they anticipate an early change of government in Ontario."

Premier Drury also gave the most unqualified denial to the report that Ontario was going into the liquor business for revenue purposes. He pointed out that the provincial government already "controlled" the liquor trade and added that the amendments which had been made to the O.T.A. were all in the direction of tightening it up and making the "control" more effective.

But the government did not propose to allow the dispensaries to sell liquor without the authorization of a doctor's prescription nor did it intend to adopt any system of liquor control approximating to that in vogue in the province of Quebec.

WINGHAM GIRL GETS DIPLOMA.
KINGSTON, May 8.—Among the 28 nurses who will receive diplomas on Friday at the Kingston General Hospital graduation exercises is Miss Helen Wilson of Wingham.

WILL PERSONALLY INSPECT RAILWAY

OTTAWA, May 8.—(By Canadian Press).—Definite promise that the Hudson Bay Railway would not be allowed to deteriorate to any further extent was given a delegation of Western members and others who waited on the prime minister and members of his cabinet over the week-end.

Hon. W. C. Kennedy, minister of

railways, further promised that he would personally visit the railway this summer and consider the advisability of immediate additional construction, including spur lines into the mining territory which has recently been developed there.

BELIEVE WHISKEY CAUSE OF DEATH

WINDSOR, May 8.—Circumstances surrounding the death of Charles Sauters, whose body was found by death.

Patrolman Shuttleworth early Sunday morning in an alley between Glengarry and Aymer avenues, will be fully investigated.

Dr. H. Craswell, coroner, opened an inquest at Chapin's morgue this morning. After a jury was impaneled the remains were viewed and the inquest adjourned until May 23 at the police station.

There were no marks of violence on the body. Poisonous whiskey is believed to have been the cause of death.

DEFENDS WORKING OF DRY MEASURE

W. S. Dingman Explains Attacks on Prohibition in United States and Canada.

FEAR DRIVE IN SCOTLAND

Critics of Temperance Administration in America Would Check Spread of Movement.

Special to London Advertiser.

STRATFORD, May 8.—In the view of W. S. Dingman, vice-chairman of the Ontario License Board, who addressed the Men's Brotherhood of Central Methodist Church, attacks upon prohibition in both Canada and the United States are designed more to check the spread of the movement to engage Scotland and other countries than with the hope of defeating the movement at home.

Mr. Dingman spoke interestingly on the Ontario temperance act, and in the course of his remarks appealed for a more generous degree of public support for the measure.

Mr. Dingman, in opening, remarked that Friday last marked the seventh anniversary of the organization of the Ontario License Board.

It was not complete prohibition that Ontario had today, the present act applying only to the sale of liquor as a beverage within the province.

Prescriptions Reduced.
Through pressure by the board liquor prescriptions had been very materially reduced in the province in the past year or more, but the speaker was convinced that a good many prescriptions were still evasive in character. Production of native

Pastor Believes Pulpit, Parliament or Jury-Box No Place For Women

OTTAWA, May 8.—"The pulpit, parliament or the jury box is no place for women," said Rev. S. J. Farmer in his sermon last night at McPhail Baptist Church. "In his letter to Timothy, Paul forbids the position of teacher and leader in public worship to a woman," continued the pastor. "This does not mean that he denies pastoral office to her. But it certainly does mean that the leaders in the church are to be men, and not women."

Mr. Farmer based his arguments on wine in Ontario which was still legal, was referred to, but the view was expressed that the industry was one that was not expanding to any extent.

Referring to the enforcement of the act, and requests to the license board for executive clemency on relation thereto, Mr. Dingman said that sometimes the government considered the board too lenient. The principal trouble, said the speaker, came from people of Jewish race, who had become somewhat of an enigma to him. The speaker declared that the Ontario License Board shared enforcement of the act with the Ontario provincial police, the burden of enforcement still being borne by the board.

Strikes at Exporting.
The speaker outlined the proposed amendments to the Ontario temperance act, now before the Legislature. These were chiefly designed to strike at the liquor export business.

"This business," remarked Mr. Dingman, "is, we believe, large a pretense, and often these shipments never reach the border points, many of them being diverted to points within the province."

"The chief amendment is that prohibiting the transportation of liquor on the highways of the province,

two points in particular: first, the order of creation; man was first created, and then woman. This did not mean slavery in woman. It meant, though, that in some things man excelled."

Secondly, woman was first in transgression. This probably indicated that woman was more prone to take up with new religious ideas than man, and that in the second place she possessed a pliancy of nature which was both her danger and her glory. It was her glory when she moved in a sphere in which God intended her to live.

such as by motor, and making it compulsory for all shipments to be made by common carrier, or in other words the railways. This should do much to insure better enforcement of the act.

"Then there are also amendments forbidding false labels and making illegal the manufacture and sale of illicit liquor and other outrageous concoctions."

CONVICTS SHOT IN QUELLING MUTINY

COLUMBIA, S.C., May 8.—Several convicts in the South Carolina State Penitentiary were shot today by prison guards in putting down a mutiny, according to Chief May of the city fire department, who was called upon to aid the prison authorities.

Chief May said that "between ten and twelve" prisoners were shot. The fire chief said the disorder started when a group of prisoners returning from lunch in the main dining-room attacked the guards who were escorting them.

Popular demand has forced us to reorder. And now, Men, we are ready with a new shipment fresh from the manufacturers, and will continue this

Great Sale of Men's Suits

Linda Lee Inc.

by LOUIS JOSEPH VANCE

"Thought I'd look in on your party. You know, you asked me—"

She could not trust her tongue. If she said more in her anger, she would say too much. She cried all in a breath. "Well, go away then! I don't want you. I won't have you!"—and pushing past her, fled into the cloakroom.

He drew himself up sharply and frowned out all indications of his embarrassment, assuming what he believed to be a look of haughty indifference.

His gaze focused intelligently upon the glass case that displays the wares of the hotel florist. Women like flowers. But there were four in Linda's party, her guests would think if he joined them, bringing flowers for his wife only.

A tough problem. He decided to step round to the club and mull it over.

He had disappeared by the time Lucinda showed herself again. Outwardly mistress of herself, she re-entered her chair as Richard Danbury passed with his luncheon party, and made directly for her corner. Instantaneously Lucinda experienced a slight psychic shock and found herself again the self-conscious, young woman of the whom nothing could dismay.

Dobbin knew everybody except the Lontaines; and when the flutter created by his introduction had subsided, he found a chair by Lucinda's side and when the conversation swung to a pleasant, general subject of the general interest to detach Lucinda's attention.

"I couldn't resist the temptation to butt in, Cinda. Hope you don't mind."

"It's always nice to see you."

"I can see you're troubled about something, because I know she's much better than anybody else. I'll lay long odds no one else has noticed anything, but to my seeing eyes you've been flying signals of distress all during luncheon. That being so, it wouldn't be decent of me not to give you a hand and stand by in case I'm needed—now would it?"

Momentarily Lucinda contented against temptation. Then, "You are a dear, Dobbin," she said almost regrettably. "But it isn't fair of you to see too much. If it's true I have secrets I don't want to share, it would be kinder to let me keep them."

COULDN'T DO HOUSEWORK, HEART WAS SO BAD

Many women get weak and run down and unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung.

Nature intended women to be strong, healthy and happy instead of sick and wretched. But when a woman becomes strong and healthy when day in and day out she has to go through the same routine of work, sweeping, dusting, cooking, washing, etc. Is it any wonder that the heart becomes affected and she gets irritable and nervous, has hot flushes, faint and dizzy spells, smothering and sinking spells and can't sleep at night?

To all women whose heart is weak and whose nerves are unstrung we would recommend

MILBURN'S HEART AND NERVE PILLS as the best remedy to tone up the system and strengthen the weakened organs.

Mrs. Daniel Bezanon, Loganville, N. S., writes: "As I was troubled with a weak heart for nearly two years I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me."

My heart was so weak at night I could not sleep. I would take smothering spells, and was so weak I could not do my housework. I tried two doctors, but got no results. A friend advised me to try your pills. I used six boxes and am completely relieved. I think they are the best remedy for heart trouble there is."

Price, six a box, at all dealers, or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto.—Advt.

VIVAUDOU PARIS NEW YORK

The Great Parisian Compromise

COPYRIGHT BY M. CALLE

IN CASE you are hesitating whether to wear them just as short or to make them a trifle longer you will be glad to know there is a sure way out. Use the new side drapes.

They are the great Parisian compromise.

You may have your skirts short and your drapes long or reverse the order. It doesn't matter.

asserting that no man ought to be asked to stand prying into his affairs. So I leave you to your affairs—and only ask that you leave me to mine."

Neither spoke in that class of wills until Bellamy's weakened, his eyes

REVERENTLY THE BARBARIANS TIP-TOED INTO THE STUDIO.

shifted, and he stepped aside, slightly sobered.

"Please!" he begged in a turn of penitence. "Didn't mean to pull myself together somehow to talk business at luncheon—"

"Oh! it was a business luncheon, then?" asked Lucinda sweetly, pausing.

"Of course."

ADVERTISER PATTERNS

A Splendid Model for a Junior.

3820.—This long-waisted frock is just right for the growing girl. It lends itself well to any of the materials now in vogue, and may be trimmed with braid embroidery, braiding or contrasting material. The sleeve may be finished in wrist or in elbow length. The waist fullness may be held with a belt, sash or string girdle.

The pattern is cut in three sizes, 12, 14 and 16 years. A 14-year size requires 2 1/4 yards of 36-inch material.

A pattern of this illustration mailed to any address on receipt of 15 cents in silver or stamps. Address all pattern orders to Pattern Department.

Name

Town

Province

Age (if child's or misses' pattern).....

Measurement: Bust..... Waist.....

CAUTION: Be careful to inclose the above illustration, and send size of pattern wanted. When the pattern is sent, you need only mark 38, 44, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When misses' or child's pattern, write only the figure representing the age. It is not necessary to write "inches" or "yards." Patterns cannot reach you in less than one week from the date of application.

BREAD CRUMBS

It is a great convenience to have bread crumbs on hand for crumbing croquettes and making scalloped dishes and puddings. The bread must be perfectly dry and crisp. Put through the fine knife of the food chopper and store in glass cans.

Mother's Bread Pudding.

Two, and one-half cups stale coarse bread crumbs, milk, 3/4 cup sugar, 1 teaspoon cinnamon, 1 egg, 1/2 teaspoon salt, 2 tablespoons butter.

SAUCE—One-half cup butter, 1 cup brown sugar, 1 teaspoon vanilla, few gratings nutmeg.

Put at least one cup of milk in a smooth pan and bring to boiling point. Pour over bread and let stand in a warm place until milk is absorbed. Add sugar, butter, cinnamon and egg and beat well. Turn into a buttered baking dish and bake in a moderate oven until firm to the touch. Serve warm with the sauce.

Beat butter to a cream. Slowly beat in sugar and add vanilla and nutmeg. Do not use the crusts of

bread in this pudding.

Company Bread Pudding. Two cups milk, 1 1/2 cups bread crumbs 1 1/2 tablespoons butter, 4 tablespoons sugar, 1 lemon, 2 eggs, raspberry or strawberry jam.

Heat milk and pour over bread crumbs. Add sugar, butter and grated rind of lemon. Let cool and add the yolks of the eggs well beaten. Mix thoroughly and pour into a buttered pudding dish. Bake in a moderate oven for 20 minutes or until set. Remove from oven and cover with a thick layer of jam. Beat whites of eggs till stiff and dry with four tablespoons sugar. Spread over jam and return pudding to the oven for eight minutes to color the meringue. Serve warm.

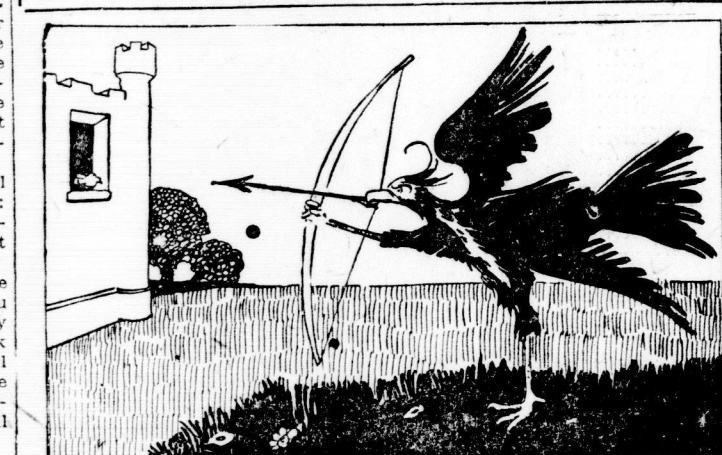

Crisp unbuttered toast may be used for this or let stale slices of bread stand in a moderate oven till browned through. Put through fine knife of food chopper. There should be two cups. Juice from strawberry or cherry preserves, 2 cups milk, 3/4 cup sugar, 3 eggs, 1/4 teaspoon salt, 1/2 cup whipping cream.

Add enough fruit sirup to the bread crumbs to moisten. Heat milk. Beat eggs with sugar and salt and stir in hot milk. Cover over hot water till mixture coats the spoon. Line a mold with bread crumb mixture. Sprinkle with preserved fruit drained from its sirup. Pour in the boiled custard and let stand on ice for three or four hours till thoroughly chilled. Serve with whipped cream.

THE FALCON'S ARROW

[By Olive Roberts Barton.]

He held the bow-string in his beak, and the arrow he guided with one long-taloned claw.

NICK ran to the magic phonograph and turned the record to the other side.

Again everyone held his breath the better to hear the words of Longhead the Wiseman. There was a buzzing sound, then Longhead's voice rang out. These were his words:

"The true king of both the Diddyevers and the Korsknotts is the furious falcon. He is a brave king, bearded by a Sorcerer a thousand years ago, and turned into the form you now see. His son was turned into a dove. The reason for it all was that the young prince was in love with Princess Therna, and the wicked Sorcerer wanted her for himself. The spell can only be broken by a marksman who will shoot the dove in the heart. Then both the falcon and the dove will return to their true forms and all will be well."

"Hear! Hear!" cried everybody in wonder. "The words must be true, for Longhead never lies."

Suddenly the falcon flew down from the top of the tree on which he had been sitting. "Give me your bow," he said boldly to King Indig.

King Indig handed it over without a word.

And for an arrow the falcon plucked out one of his own barbed feathers, the one that had guided Nancy and Nick on their travels. He held the bow-string in his beak, and the arrow he guided with one long-taloned claw.

Whang! Away sped the arrow straight to the dove's heart. Instantly the dove vanished and a fine-looking young man appeared in his place. He waved his hand cheerily and then sprang to Princess Therna's side.

At the same instant the falcon changed into his true form of a warrior king, before whom all the Diddyevers and Korsknotts bowed in awe. Ugly King Indig and awful King Verdo bowed their heads 400.

Radio Radiations

Amateurs are requested to make their queries as brief as possible to facilitate the publication and answering of the questions. Address your communications to the Radio Editor, The London Advertiser.

BY THE RADIO EDITOR.

The storage battery, one of the most important parts of the radio receiving set, is usually the most neglected.

There are a few receiving sets on the market that advertise the use of the common dry cell batteries for lighting the filament of the vacuum tubes. But they cannot last long. A vacuum tube draws approximately one ampere of current an hour. This pull on a dry battery kills it quickly.

The bureau of standards at Washington has announced the development of a radio receiving set that eliminates the storage battery. But until this is popularized on the market, the radio amateur will have to content himself with the storage battery.

Lead Batteries.

There are in general two very good types of storage batteries—the lead plate and the nickel iron-alkali cell.

Lead batteries consist of lead plates immersed in a 20 per cent solution of sulphuric acid. The jar or container for portable batteries used in radio sets is usually of a hard rubber compound.

Operation.

During the discharge the peroxide of lead and the active material of the negative plate are converted into lead sulphate which covers the surface of the plates. When they are well covered, the cell is discharged and has to be taken to a station for recharge.

Since it is impracticable to open up the storage battery and look at the plates, one uses a hydrometer to determine the condition of charge or discharge.

It is nothing more than a long glass tube with a bulb at one end and a small rod inside loaded with mercury or small shot. There is a graduated numerical scale on the rod reading from 1100 to 1300. This is dropped into the fluid of the storage battery and the bulb is pressed. In case of a lead plate battery the reading on the hydrometer should not be less than 1250.

RADIO PRIMER

INDUCTANCE—An electric circuit having the property of inducing a variable electric current in itself or in a neighboring, or secondary, circuit. In radio transmitting, the inductance is in the form of a spiral or helix. In receiving it is in the form of coils.

CONSTRUCTION OF LEAD PLATE BATTERY.

The plates are usually of the "pasted" variety. They consist of a flat frame or grid which is made of an alloy of lead and antimony, into which the active materials in form of a paste made from the chemicals

Tired in the Mornings

"HOW do you sleep?"

"Not very well. Lots of nights I lie awake for hours, restless and fidgety, thinking about everything, but not resting or sleeping."

"Have you consulted a doctor?"

"Yes. The doctor says I am anaemic; the blood is thin and watery, and the nervous system run-down for want of proper nutrition."

"Why don't you try Dr. Chase's Nerve Food?"

"I don't know just why, unless it is because I thought it was only for the nerves, whereas what I need is something to enrich the blood."

"Well, that is exactly what Dr. Chase's Nerve Food does. It is only by enriching the blood that you can restore exhausted nerves."

"Perhaps I should try it."

"I certainly would if I were you, for I know it is wonderful the way it helps some people who are anaemic and generally run down in health."

"I am sure you will not be disappointed, and if I were you I would not lose a day before getting started with this treatment."

Life and Character Reading.

MAY 9

People born on this date should be alone as much as possible, for they are natural psychic collectors of thought, adapted for present material. They also must learn to make all important decisions when they are influenced by those about them. They must be kept free from anger and jealousy.

As a rule most children born under this date are willful and determined to have their own way at all hazards. They have great power of endurance, and are natural conquerors. They are quick to follow the example of their elders, so that the parents must be very cautious in their presence.

The governing planet of this date is Venus, Goddess of Love, whose loving influence helps to offset the more harmful influence of Mars, the governing sign. The birthstone is a moss-agate.

Lost and found articles will be advertised freely in the Want Ads. Watch carefully for them.

MUTT AND JEFF.

JUST MY FOOL LUCK. THERE AIN'T A SHEET OF WRITING PAPER IN THE PLACE.

I GOTTA GET SOME PAPER TODAY, THAT'S ALL THERE IS TO IT!

SURE! GONNA WRITE TO MISS SCHULTZ?

NO! A BIG MAGAZINE HAS ASKED ME TO WRITE AN ARTICLE THAT WILL BE OF INTEREST TO JUVENILE.

FINE! WHAT'S GONNA BE THE TITLE OF IT?

"SUCCESS, AND HOW TO ACHIEVE IT."

WORLD NEWS CUT SHORT

TOKIO, May 8.—The Japanese cabinet crisis, which arose early in the week, when Premier Takahashi was reported to have requested the resignation of his cabinet in order to form a new government in sympathy with his views, has been temporarily averted.

The premier announced at yesterday's meeting of the cabinet that he would not persist in this request, as there was other business requiring the cabinet's immediate attention.

At the head of the procession came the sergeant-major of the Yeomen carrying a gold dish on which were 114 red and white kid purses containing the Maundy money, which consists of small silver coins, once current coin of the realm, but which now are minted specially for the occasion.

The High Almoner and his assistants were dressed in white instead of the usual towels, which their predecessors used in Queen Elizabeth's time, when they washed the feet of a number of old persons on Maundy Thursday.

PARIS, May 8.

The Belgian government, eliminating official red tape, has ordered the laying of the "Loth cable" for guiding airplanes. The first cable, the construction of which already has commenced, will be 10 kilometers in length and extend from the commercial airdrome of Evere to Brussels.

It is being affixed for the present to telegraph poles, but eventually will be placed underground. The line will be completed in ten days, after which it will be officially tested by Jules Patin, dean of Belgian commercial pilots.

MANILA, P. I., May 8.

The Prince of Wales, who will arrive here on May 13, will be accorded highest military honors, including a 21-gun salute and similar ceremonies of welcome usually reserved for a president of the United States, according to the military program made public here.

The only change will be that "God Save the King" will be played by the band instead of "The Star Spangled Banner."

PARIS, May 8.

The seriousness of the housing shortage is indicated by the anonymous letter campaign, which has broken out in St. Etienne. The letters are not inspired by malice or revenge, but by the desire of a group of persons to obtain homes.

The first letter addressed to a householder contains a threat of death if he does not vacate his apartments, and this is followed by threats to ruin his reputation and force him to move if he will not do so voluntarily.

As part of the campaign, notices appear stating that tenants have moved from town, thus causing them no end of annoyance.

LONDON, May 8.

In compliance with the terms of the naval treaty signed at the Washington armament conference, the British dreadnought Erin was put out of commission at Portsmouth today and ordered sold.

The Erin was one of a score or more of battleships added to the British navy during the war. Laid down in 1911, she was launched in 1913, and completed in August, 1914, just after the war broke out. Her normal displacement is 23,000 tons.

For armament, she consists of ten 13.5-inch 45 calibre guns and six 6-inch guns, with anti-aircraft guns and torpedo tubes. She had a designed speed of twenty-one knots. Her complement was 1,130 men.

PARIS, May 8.

The Journal Officiel today publishes a decree reducing the number of functionaries in the service of the French government by 50,000.

Parliament decided in an amendment to the finance law in 1921 to reduce the functionaries to the pre-war number, involving the dismissal of 150,000 men, with the saving in public money of upwards of 1,000,000,000 francs yearly. It is the first third of that program that is now being put into effect.

All functionaries concerned must leave the service before the end of the year, but the heads of the various departments will receive compensation for the loss of their jobs according to their salaries and length of service.

LONDON, May 8.

Westminster Abbey was the scene recently of one of those quaint medieval customs of which many still survive in some form in London. This was the annual distribution of the king's "Maundy money" by the Lord High Almoner.

MAJOR TEAM MAY INVADE JAPAN

NEW YORK, May 8.—If Commissioner K. M. Landis consents, a team of major league baseball players whose identity is withheld, will invade Japan and the Philippines in a series of exhibition games after the season closes this autumn, Canadian Pacific railroad officials who are arranging the itinerary announced.

The party also will tour China, Korea and Manchuria, but games will be played only in Japan and Manila. It is planned to sail from Vancouver October 1 on the new liner Empress of Canada.

HARRY COVELESKIE RETURNS.

SIOUX CITY, Ia., May 8.—Harry Coveleskie, who for a number of years was one of the leading pitchers of the Detroit Americans, and who is returning to the Western League, the former big leaguer has been signed by the Sioux City club, and will join that team in Des Moines this week.

PRODUCE LARGE QUANTITY OF OLEO

OTTAWA, May 8.—(By Canadian Press.)—While the law has permitted the importation and manufacture of oleomargarine in Canada, there has been produced in this country 27,000,000 pounds and imported nearly 19,000,000 pounds, so the minister of agriculture announced in the House of Commons this afternoon. It was also announced that the permission for trade in oleo expired on August 31, next; as to whether or not the government proposed to extend the period it was stated that "the matter is at present before the house in the form of a resolution."

SCHOLARSHIPS ANNOUNCED.

KINGSTON, May 8.—The following scholarships in science were announced at Queen's University today:—J. E. Quance Delphi Ont. (Second year). P. D. Ross, No. 1 (\$1000). L. E. R. Stephens, Minden, Ont. The P. D. Ross, No. 2 (\$500)—G. D. Furse, Thamesford, Ont. The honors graduates in science this year are Messrs J. P. Comer, A. G. Jacques, H. R. Myers, R. J. Clench, J. L. Macewan, C. S. Gibson.

URGES BAN ON IMMIGRATION FROM ORIENT

W. G. McQuarrie Paints Dark Picture of Conditions in West.

KING WOULD RESTRICT

Premier States Negotiations Already Opened With China.

OTTAWA, May 8.—(By Canadian Press.)—Afternoon and evening the House of Commons discussed a motion presented by W. G. McQuarrie (Conservative, New Westminster, B.C.), calling for the exclusion of Oriental immigration. For the most part members for British Columbia—where the Oriental question is most pressing—held the floor. They painted a dark picture of the penetration of the Orientals into the West. It was claimed, there was no cross to be borne without a murmur. This was no time for "pussy-footing." A white Canada must be preserved; and there was a danger that the Rockies would soon be the western boundary of the white race. Charges were made that the drug traffic of Chinese and Japanese. A. W. Neill (Independent, Comox-Alberni), spoke of Japan as a "yellow, alien, heathen Germany."

In the latter stages of the debate Hon. W. L. Mackenzie King, premier, expressed his strong belief in the restriction of Oriental immigration and intimated that the Dominion government had already opened negotiations with China with a view to the more effective restriction of Chinese immigration through a system of passports. He suggested that the resolution should call for the "effective restriction instead of exclusion" of Oriental immigration and in that form was ready to accept it. To this Right Hon. Arthur Meighen, leader of the opposition, replied that this would merely mean passing a resolution in favor of a system which already existed.

Object of Resolution.

The object of the resolution was to prevent increase by direct immigration of an element in the population which was not only undesirable but dangerous to Canadian interests in regard to the Chinese, Canada had an open field, because there was no treaty with that country. Canada had consequently adopted a policy of restriction regarding the Chinese, but large numbers succeeded in entering the country as students or merchants. In 1915 which prohibited the entry of skilled and unskilled labor at certain British Columbia ports.

While Orientals were given liberties in Canada, Canadians in Japan were under many restrictions. Canadians could not hold land in Japan as individuals, nor could they own ships under the Japanese flag, nor engage in mining.

They were forbidden to hold shares in certain banks or railways, or to become members of chambers of commerce or financial exchanges. Unskilled Canadian laborers were not permitted to work outside certain restricted areas. Neither could Canadians lease land to engage in agricultural work.

Of the thousands of Japanese in Canada the great majority were in British Columbia. The Japanese birth rate was extremely high.

In 1910 the rate was one birth to every 252 white births, but in 1915 the rate had risen to one Japanese to every 29 white births.

Claims Problem National.

Mr. McQuarrie urged that most of the industries in British Columbia were rapidly being monopolized by Orientals. Ninety per cent of the garden truck grown was raised by them. They monopolized the fishing industry.

The problem had become a national one, having spread across the country as far east as Ontario. Mr. McQuarrie quoted resolutions passed by many organizations and by many public meetings, all strongly urging Oriental exclusion.

Drastic action was necessary. The Japanese treaty should be abrogated so far as Canada was concerned; the gentlemen's agreement should be cancelled; the immigration act should be amended so as to provide for expulsion.

Details would have to be worked out by the government. "It is a great national question, and the future prosperity of Canada is at stake," he concluded.

Alfred Stork (Liberal, Skeena) said the thirteen British Columbia members were unanimous on the resolution. The Oriental had become the very incarnation of commercial aggressiveness, and indifference on the part of Canadians was much to be blamed for the present state of affairs.

The Rocky Mountains would soon become the western boundary for the white population; at present there was no lure on the prairies for the Orientals, because farming on the prairies required brains and hard efforts. Orientals' much preferred the warm sun and the fertile valleys of British Columbia.

Parliament Has Remedy.

George Black (Conservative, Yukon) declared that the problem must be discussed without partisanship. The life blood of certain constituencies was being "sucked out" by Orientals. Countless young white men and women were being physically ruined by contact with Orientals. Under present conditions there was only one thing for white men to do, and that was to back up.

The remedy was in the hands of Parliament. The time had come to stop pussy-footing and to make the position clear before the world. It was said that if Orientals were excluded a trade boycott would ensue. It was better to lose the trade.

In British Columbia a large section of the country was already surrendered to the Orientals. Soon the rest of the east would be battling for their existence. The country must be relieved of such a scourge.

Mr. Black declared that naturalization was a farce to the Oriental. "The naturalized Jap remains a Jap and the Chinaman a Chin," he said. Brigadier-General (Burrows) submitted that the question was not a British Columbia, or even a Canadian question, but one that affected the white world. The white race could not assimilate the yellow races. At present the political control of the world was in the hands of the white races, but the last war was an illustration of how transient this control might be. The white races were faced with a declining birthrate as against an increasing birthrate in Japan. The Russo-Japanese war had taught the yellow races that even in war they were the equal of the whites. Their eyes were naturally directed to the western coasts of the United States, Canada and sections of South America. It was time for Canada to be firm, clear and definite in its declaration against Oriental immigration.

Would Appeal to Japanese.

C. H. Dickie (Conservative, Nanaimo) favored going to the Japanese "with cards face up on the table, telling them that this country could not afford to have any further Japanese immigration and that we could not compete with them industrially or agriculturally in our country."

The Japanese said Mr. Dickie, were an honorable people. He believed that if a big endeavoring man were sent over to meet their government and discuss the matter frankly there would be no difficulty in reaching an agreement which would be observed.

L. W. Humphrey (Progressive, Kootenay West) supported the resolution, and said the danger of Japanese immigration had only been realized in Eastern British Columbia a few years ago. This was a national responsibility and a national problem.

E. J. McMurray (Liberal, Winnipeg North), said he could support the resolution without abusing the Orientals. The Japanese were marked for their patriotism, and the Chinese for their integrity.

Thereupon, Hon. Charles Stewart, minister of immigration, moved that the resolution be amended in accordance with the premier's suggestion to "prohibit" the entry of certain classes, and suggested if there was objection to the term "exclusion," that the resolution might read "prohibit" Oriental immigration "for residential purposes."

Hon. T. A. Cregar, leader of the National Progressives, urged acceptance of the Stewart amendment.

The house at 1:25 a.m. divided on the Stewart amendment, the vote on which resulted as follows: For, 130; against, 26; a majority of 94 for the amendment. One Liberal, Alfred Stork (Skeena) voted against the government amendment, as also did five Progressives, Messrs. Lucas, Kellner, McBride, Humphrey and Lewis, and A. W. Neill (Independent, Comox-Alberni). The balance of the Progressives supported the government.

The house adjourned at 1:45 a.m.

Insist Antigonish Ghost Was Spirits Acting Up.

HALIFAX, May 8.—It was spirits acting up and not Mary Ellen playing ghost, insists Harold B. Whidden in a "statement of fact" just issued concerning his experiences at the haunted Macdonald homestead in Antigonish, Nova Scotia. Whidden is the Halifax Herald writer who discovered the ghost that set all America talking.

His statement, published in pamphlet form, exonerates the Macdonald family, "which means that the unfastening of the crows, the mysterious fires and my own strange experiences were caused by an unseen power—spirits." He thinks if Mary Ellen, the adopted daughter, in an abnormal psychic state was used as an instrument to set the fires she was not responsible for her acts.

Scourge.

Mr. Black declared that naturalization was a farce to the Oriental. "The naturalized Jap remains a Jap and the Chinaman a Chin," he said. Brigadier-General (Burrows) submitted that the question was not a British Columbia, or even a Canadian question, but one that affected the white world. The white race could not assimilate the yellow races. At present the political control of the world was in the hands of the white races, but the last war was an illustration of how transient this control might be. The white races were faced with a declining birthrate as against an increasing birthrate in Japan. The Russo-Japanese war had taught the yellow races that even in war they were the equal of the whites. Their eyes were naturally directed to the western coasts of the United States, Canada and sections of South America. It was time for Canada to be firm, clear and definite in its declaration against Oriental immigration.

Would Appeal to Japanese.

INSTRUCTION CLASSES CONTINUE THIS WEEK.

Many are becoming interested in this fascinating work and joining the instruction class which is held daily from 2:30 to 4:30 on the Fifth Floor.

These instructions are free, and the only cost is the trifling cost of the paper, etc., for making.

Visit the Fifth Floor, west side, any day this week and see the beautiful show of spring flowers in process of making.

THE NEW COMMON PRAYER AND HYMN BOOK

At Stationery Counter Oxford Edition.

Smallman & Ingram Limited

of the winter wheat appears backward and unhealthy, many of the fields are doing exceptionally well considering the lack of warmth, and it is thought that the yield will be a heavy one, according to C. W. Buchanan, provincial government representative. Mr. Buchanan states that a heavy acreage of oats was sown this year and that much of the grain has already sprouted.

Unfortunately the apple crop will not be heavy this year, he says. This applies particularly to Northern Spies. Extensive spraying and pruning is being done in the county and every effort being made to improve the trees.

DISCONTINUE USE OF WORK CARDS

Special to London Advertiser.

BRANTFORD, May 8.—No cards were issued by the city this morning for the unemployed. The city has been taking on from 90 to 150 men every week for work on the sewers. The federal and provincial government grants were finished over two weeks ago, but the city carried on last week. The work is now completed, which means that only odd jobs can be handed out.

CARRIED \$2,000,000 LIFE INSURANCE

NEW YORK, May 8.—It has become known through one of New York's leading insurance brokers, that the late Henry P. Davidson carried \$2,000,000 in life insurance. The policies are spread over some 20 companies, the majority being written in 1917.

The broker estimated that the premiums paid in on the insurance amounted to about \$50,000.

Are You Through With Your Furs?

If your furs were destroyed by moth or fire, could you replace them for 2 per cent of their present value? You can, however, keep them safe through the danger period of hot weather, the open season for moths, for just that trifling sum, in our refrigerator storage vaults.

A MOTH IS SMARTER THAN A PAPER BAG. Even if it doesn't get into the bag it is smart enough to lay its eggs before you hang up your furs for the summer. These eggs incubate and the worms thrive on your furs.

Next winter many women will receive their furs from our vaults. You can be one of them.

For further particulars, inquire in the Fur Section or phone 4100. Storage rapidly filling up. Furs called for and delivered when needed.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and No-body Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy, and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wet's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and continues to grow again, and it becomes beautifully dark and glossy—Advt.

BUNIONS

Instant relief or Money back! Why let an aching, stinging Bunion make your life miserable, when a single application of Gero Wormwood Balm will bring such joyful comfort?

No rags, no plasters, no waiting. Just rub it in—that's all—and your troubles will soon be over. All the stinging, burning soreness just seems to melt away and your feet feel cool and fine. The Gero Wormwood Balm tonight and make your Bunions laugh. All druggists—Advt.

Contented Eyes!

YOUR EYES are either easy, comfortable and at rest—or, irritated and strained, and always on your mind. Let us give you comfort with glasses. We know how.

GEER ORDERED TO LEAVE ST. THOMAS

Returns and Demands an Interview With Crown Attorney Angus McCrimmon.

WANT POLICE PROTECTION

Claims United States Secret Service Men Attempted To Poison Him.

Special to London Advertiser.

ST. THOMAS, May 7.—Harry Geer, who Thursday night appeared at the local police station, asking to be arrested as a vagrant, and who was warned to leave the city Friday morning by Chief William Armstrong, turned up at the county police court Saturday morning and demanded an audience with Crown Attorney Angus McCrimmon.

"What do you want hanging around here?" asked Constable Hopkins.

"I want an interview with the crown attorney," replied Geer very quietly. "I wish to press charges in the open court. I am classed as an undesirable under the welfare act and my life is in danger. I exposed the secret service over in the United States and they are trying to kill me now. They have attempted to poison me and have persecuted me on several occasions. I am entitled to police protection."

Constable Hopkins was unsympathetic.

"If you're not out of sight in fifteen minutes, you'll get police protection. You'll be sent to Burwash, where you will have to work," he told Geer.

"All right, that'll suit me," Geer replied. "but I won't work. They can kill me before I'll work in Burwash."

"Don't worry; if you get sent to Burwash and refuse to work, they'll kill you, all right," said Constable Hopkins, leaving Geer. Five minutes

MONTREAL, May 8.—Results of graduation in the various faculties of McGill University were posted today. Western Ontario names are included as follows:

Honors in faculty of applied science—G. D. McTaggart, Clinton, Ont., British Association medal; honors in civil engineering.

Passed for degree of bachelor of arts—H. B. O'Hair, Hamilton, Ont.; S. L. McDonald, mining, Hamilton.

Passed for degree of bachelor of commerce—E. M. Conkshott, Brantford; D. R. Ladore, Walkerville; H. B. MacMahon, London; C. B. Smith, London, and Clive Snyder, St. Jacobs, Ont.

PREDICTS HEAVY WHEAT YIELD

ST. THOMAS, May 7.—While some

of the winter wheat appears backward and unhealthy, many of the fields are doing exceptionally well considering the lack of warmth, and it is thought that the yield will be a heavy one, according to C. W. Buchanan, provincial government representative. Mr. Buchanan states that a heavy acreage of oats was sown this year and that much of the grain has already sprouted.

Unfortunately the apple crop will not be heavy this year, he says. This applies particularly to Northern Spies. Extensive spraying and pruning is being done in the county and every effort being made to improve the trees.

DISCONTINUE USE OF WORK CARDS

Special to London Advertiser.

BRANTFORD, May 8.—No cards were issued by the city this morning for the unemployed. The city has been taking on from 90 to 150 men every week for work on the sewers. The federal and provincial government grants were finished over two weeks ago, but the city carried on last week. The work is now completed, which means that only odd jobs can be handed out.
