

Spent 43 Years in Teaching Profession

Mr. E. Wight, of Ottawa, one of the prominent educationists of that city, spent the Easter vacation at his old home here. He has been connected with the teaching profession for 43 years—30 years of which was spent in the Capital City. Mr. Wight expects to superannuate in the near future, and should he decide to locate in his old home town, he will receive a most cordial welcome, from his many friends.

MALLORYTOWN YOUNG MEN IN EXODUS TO WORKS IN DETROIT

Seven Have Left Vicinity in Last Few Weeks.

NEWS OF THE DISTRICT

Crossing on Ice to Grenadier Island is Still Reported to be Good.

Mallorytown, April 2.—During the last few weeks no fewer than seven young men from this vicinity have gone to Detroit, Mich., to engage in work.

Charles Mallory, of the British Whig staff, Kingston, spent Easter Sunday in the village.

A. Votter, manager, Seeley's Bay, A. P. Clark, Odessa, and E. H. Willis, Lyndhurst, are the new members of the bank staff at Mallorytown.

Mrs. W. C. Lee has gone to Kingston to spend holidays in the home of Mr. and Mrs. Leman A. Guild.

Mrs. Percy Gardiner, of Ottawa, was the guest of her uncle and aunt, Mr. and Mrs. R. W. Tennant, last week.

William Brown's team executed a lively runaway on Saturday. They upset a load of straw at the Charles Mallory farm and ran to the G. T. R. crossing, where they collided with a telegraph pole. As a freight train was passing at the time, they would have been killed had not they smashed into the pole.

Miss Viva Dixon, Winnipeg, is the guest of her grandparents, Mr. and Mrs. R. W. Tennant.

Orval Buell, son of O. L. Buell, is in the Brockville hospital suffering from blood poisoning in the hand. The crossing to Grenadier Island is reported to be good at the present time.

Douglas Mallory, of Ottawa, spent Easter with his parents, Mr. and Mrs. H. M. Mallory.

Miss Laura Jordan, Ottawa, is home for her holidays.

Elmer Quinsey left last week for Detroit, Mich.

Mrs. Daniel Hollingsworth and her daughter, Allie, are visiting in Iroquois, guests of the former's sisters.

RIVERDALE

Riverdale, April 3.—Mrs. William Dyer was in Prescott on Monday.

Charles Sherwood, Toronto, renewed acquaintances here last week.

Charles E. Millar, Kingston, visited his parents, Mr. and Mrs. Alex Millar, last week.

John Morris, Athens, spent Easter Sunday with W. R. Henderson.

Charles Knill is building a new summer cottage at the river.

Alex Millar made a business trip to Ottawa on Saturday last.

H. Turner, from the second concession, has rented George Dyer's place and is taking up residence there this week.

Mr. and Mrs. F. B. Vandusen and daughter have returned to their beautiful home here on the highway, after having spent the winter in town.

Mrs. Clayton Brown, Boston, and Mr. and Mrs. Bradley and daughter, Ottawa, are spending the Easter holidays at the parental home, Mr. and Mrs. A. Gargerty's.

FOR SALE OR TO RENT

The MOORE WHITE FARM on the eastern side of the village, consisting of 160 acres of land of good quality and well watered. Possession given immediately. Apply to

TALK ON HEALTH WORK IN SCHOOLS AT BISHOP'S MILLS

Dr. Mackenzie Smith and Nurse Campbell Heard.

NEWS NOTES OF DISTRICT

Ayrshire's From Washburn's Corners Herd Are Going to New Ontario.

Bishop's Mills, March 27.—Quite a number attended the meeting in the Temperance Hall on Thursday evening and heard interesting addresses given by Dr. Smith and Nurse Campbell on dental and medical inspection in the schools.

Wilbert Beulah, Miss Rena Beulah and Miss Stella Richardson, of Merrickville, were visitors at E. Hurlbert's this week.

Mrs. T. Greer is visiting at the home of her brother, James Bovard, Oxford Station.

Mrs. R. McCoy is visiting her brother, E. McDonald, of East Oxford.

Mr. and Mrs. A. Wier and Melvin Wier were visiting at O. Bishop's, Oxford Mills, on Sunday last. Dr. Armstrong has purchased a horse from A. McGovern.

FRANKVILLE

Frankville, March 27.—J. I. Smith, proprietor of Farmers' Friend cheese factory, is installing a new boiler and getting ready to open his factory in a few days.

Mr. W. H. Bourns is confined to his room these days, being laid up with his old complaint whereby he has to stay quiet for some time. Nurse Paul is in attendance.

Edward Richards, our oldest citizen, is confined to his room for some days. It is hoped that warmer weather will again see him able to be around.

N. Moore is putting a stock of groceries in the Kilborn block, formerly occupied by the Bank of Montreal and will be open for business in a few days.

Most of the farmers have finished tapping the trees, but so far no syrup has been made that is heard of.

Many old friends of G. M. Dowsley were pained to hear of his death which took place at his home in Brockville on Monday morning. Deceased was born and spent his boyhood days here. Early in life he worked for A. Coad at Toledo and for many years since had been a traveller for many well known firms. He leaves, besides his widow, three L. Livingstone, here; Mrs. D. Dunham, Oledo; Mrs. Bert Barber, Plum Hollow; Ralph Dowsley, Calgary, W. C. Dowsley, Brockville, and Roland, here.

Lansdowne, March 28.—The Lansdowne cheese and butter factory opened for the season on Monday with Walter Campbell as maker.

Mr. and Mrs. John Shields returned on Saturday from Ottawa where they had spent the past three months with their daughter, Mrs. Wier.

Mrs. William Sheppard continues to be very ill.

Hubert McCleary, Earl Webster and Morrison Foley left on Monday night for Detroit, where they expect to get work.

Mrs. Landon and daughter, Miss Lottie, have returned to Fairfax after having spent the past three months in the village.

Some farmers who have sugar bushes have tapped, but report a poor year.

Mrs. Whalen, of Brockville, who was visiting her daughter, Mrs. (DE) Mackie, has returned home.

Robert Shields was taken to the General Hospital, Kingston, last night to undergo an operation for appendicitis.

Washburn's Corners

Washburn's Corners, March 27.—The farmers here have tanned their hides and are waiting results.

J. W. Richards and daughter visited at the Corners last week.

Donald Hamilton went to Gananoque on Monday to open his factory there for this season, after just returning from the Kings or Oley School where he took the long course and completed his exams.

Mr. Phillips, of New Ontario, visited the Ayrshire herd here and bought a number from the Earl Grenadier, John Hamilton.

Easter Services Well Attended

A Brief Synopsis of the Sermons Delivered in the Various Churches on Sunday

CHRIST CHURCH

"If ye then be risen with Christ, seek those things which are above."—Col. 3-1

"The dominant note of Easter is joy" said the Rev. V. O. Boyle, M. A., B.D., Rector of Christ Church, in his Easter morning sermon, when he pleaded with the large congregation present to try to experience in their own hearts the spiritual joys of Easter. The resurrection means that Christ won the victory over sin and Satan, man's greatest enemies. We share that victory and in His strength can conquer all sin. The resurrection also means that Christ conquered death, and thereby opened to mortal man the gates of life everlasting. The resurrection further means that our Saviour is not dead but living. The heathen bow down to wood and stone—dead Gods. We worship the living Christ, who is ever present with us, through the Holy Spirit. The best way to grasp these great resurrection truths and to experience the spiritual joys of Easter, is to rise with Christ and "seek those things which are above, where Christ sitteth on the right hand of God." The choir, under Mrs. V. O. Boyle, leader and organist, rendered a beautiful anthem—the solo parts being sung by Miss Pearl Burnham and the Rev. V. O. Boyle. During the communion, Mrs. Boyle, in her clear, sympathetic soprano, sang the beautiful solo—"He Was Despised." A large number received their Easter communion and a substantial offering was given to missions.

BAPTIST CHURCH

"But now is Christ risen from the dead, and became the first fruits of them that slept"—1 Cor. 15:—20

The Easter service in the Baptist church on Sunday afternoon, was much appreciated by the congregation present. Both the music and sermon were in harmony with the occasion. The pastor, Rev. Mr. Currie, took for his subject—"The Resurrection"—claiming that Christ was the first born—the beginning of the first born from the dead—the Head of the church. In harmony with the scriptures the order of the resurrection was then considered. According to Lev. 23: 10—"A sheaf of first fruits to be waved before the Lord," an assurance of the whole harvest to be gathered, laid broad and deep the foundation of the Christian hope—Jesus, our Lord, the first fruit of the resurrection than they that are His, at His coming. Both the saints and the wicked are to be raised and the question naturally arises—how are the dead raised. Taking the first sheaf as a criterion, involves a resurrection of the body. The same body laid in the tomb arose. The napkin was folded in order and after He arose He said to His disciples—"It is I, handle Me." He also ate and drank in their presence. At His coming, the dead in Christ—their bodies will be raised incorruptible, the living saints changed or mortality swallowed up in life. Two scripture citations should confirm this glorious fact—"Who shall change our vile bodies (body of our humiliation—R. V.) that it may be fashioned unto His glorious body." "It doth not yet appear what we shall be, but we know that when He shall appear, we shall be like Him, for we shall see Him as He is." Praise God for immortality, brought to light in the resurrection of our Lord.

HOLINESS MOVEMENT CHURCH

"I am the Resurrection and the Life" John 1:—25

The Easter service in the Holiness Movement church was held on Sunday afternoon, and Rev. Mr. Burgess of Lyn, occupied the pulpit and preached to a fair sized congregation. The pastor took for his theme—"The Resurrection" and clearly outlined in his discourse what this great event meant to the world at large and the church in particular. The singing and music were much appreciated and the beautiful solo by Mr. and Mrs. John Eaton appealed to all. The service was most edifying and left a deep impression on the minds of all present.

ST. DENNIS' CHURCH

"He is risen, He is not here."—Mark 16:6

The festival of our Lord's resurrection, one of the most joyful events held in the ancient church, was observed in St. Dennis' church, Athens, on Sunday morning at 9 a. m. Notwithstanding the state of the roads and the early hour there was a large congregation present, when solemn mass was celebrated by the Rev. Father Cullinane, followed by a sermon on "The Resurrection" from the gospel specially appointed for the day—Mark 16: 1-7. He spoke from the words—"He is risen, He is not here." Special Easter music, suitable for the occasion was rendered by the choir, under the able leadership of Mrs. Danie Hefferman. The term Easter, is derived from the Saxon word "Ostra" or Eostre, the goddess of spring. Previous to the year 325 A.D., there was no uniformity of observance and at that time the Council of Niceae, fixed the date of Easter. The key to the festival is set forth in the exultant words of St. Paul—"Now is Christ Risen."

METHODIST CHURCH

"Now we see through a glass darkly, but then face to face."—1 Cor. 13:—12

Services in the Methodist church on Easter Sunday were inspiring and helpful. There were very large congregations both morning and evening. Although the weather and roads were not as favorable as might be expected at this season of the year. The floral decorations as usual were very tasteful. The choir under the direction of Miss Carrie Robinson rendered two anthems at each service in a very acceptable manner, the solo parts being well executed by the Misses Vera Topping Francis Wilts, Marion Robinson and S. Hollingsworth, jr. The pastor also sang Leaman's "Christ is Risen" and in the evening "Open the Gates of the Temple." The pastor in his morning sermon spoke of the tendency of the secular world and of the church to make Easter Day, a day of parades, music, fashion exhibitions, etc., instead of calling to mind its real meaning. A world of sinning men and women need a saviour. Easter reminds us of the sacrifice made for sinners. A world of men and women among whom death has made a wide furrow needs consolation. Easter reminds us of Him who said—"Lo, I am with you always" and also reminds us of our immortality. In the evening, instead of having a service wholly choral or even a sermon, the pastor left the beaten track and read excerpts from about twenty of the greatest poets of the last 1600 years from which he showed that these great men and women, who had helped mould the thought of the world and had done much for civilization had all been believers in immortality.

MAITLAND

Maitland, April 2.—Charles James met with a very serious accident on Thursday when he fell from the roof of the cheese factory where he was making some repairs, to the ice of the river, a distance of about 30 feet. The extent of his injuries is not known, but his many friends hope for a speedy recovery.

Mrs. W. Wilson and son of Ottawa, are visitors at the home of Mrs. Ross Thompson.

Mrs. Robert Flannigan is very ill at her home here.

Maitland school is being improved by a new hard wood floor. The work is being done by George Quarters and Hilton Rockey.

Miss Lillian Collier is home from her school near Gananoque for the Easter holidays.

A. McLaugh, a former resident, called on friends in this section recently.

Mr. Cass, of Chesterville is taking Mr. James' place in the factory for the present.

Little Edward Gardner, your best looking of Mr. and Mrs. Millard's children, is ill with pneumonia.

LAING COMPANY IS IMPROVING PLANT AT CROSBY STATION

Mechanics Are Installing Machinery at Receiving Station.

NEWS NOTES OF DISTRICT

Some Farmers Despair of Any Sugar-Making Owing to Lateness of Season.

Crosby, March 27.—A portion of the machinery has arrived at the receiving station of the Laing Produce & Storage Co., Limited, here and mechanics from Brockville are busy installing same. It is intended to skim here this summer and the machinery consists of coolers, separators, pipes, etc.

The weather as yet has not proved favorable for sugar-making. There has been no sap as yet. The farmers are doubtful of any sugar-making this year as it is so late in the season.

Mrs. Ernest Barker and baby returned home from Detroit on Saturday evening. They were accompanied by her mother, Mrs. W. J. Proud (who has been ill for the past two months), and Miss Florence Proud.

James Mulville, Westport, spent Monday at Fred Mustard's.

Harry Barker has had his house wired for electricity.

Miss Nellie Bryden returned to her home in Elgin on Sunday.

ELGIN

Elgin, March 27.—Mrs. T. Wright has returned from spending some time with her daughters in Brockville.

Ormond Coon went to Kingston on Saturday last and accompanied home his sister, Miss Marion, who has been a patient at the General hospital for the past nine weeks.

Mrs. George Patterson returned from Gananoque on Saturday from caring for her daughter, Miss Mae, who is quite ill with typhoid fever. She has since been removed to the Kingston Hotel Dieu hospital.

Master Allan Kelsey, Newboro, was a week-end guest of relatives.

Miss Nell Pinkerton is visiting her friend, Miss Johnston, in Ottawa.

Stanley Whaley and family have moved into J. A. Kenny's tenement house, lately vacated by J. A. Robinson. Mr. Whaley has been appointed manager of this branch of the Bank of Montreal.

Miss Dorothy Perryman gave a party to a number of her little friends on Tuesday last in honor of her seventh birthday. Needless to say, it was much enjoyed by all the young folk.

J. W. Kerr has returned home from spending a few days with friends in Athens.

Mrs. C. E. Johnston and son, Byard, have gone to spend the summer months with the former's sister, Mrs. Brown, near Delta.

Mrs. H. S. Davison is quite ill at her home here.

Frank Halladay returned from spending several days in Toronto in the interests of dairy concerns.

Charles Charland and family, of Philippsville, have moved in with his parents, Mr. and Mrs. William Charland, and propose working the farm this summer.

Thomas Lee and family have moved into Mrs. A. Kerr's tenement house on Main street.

HERRON'S CORNERS

Herron's Corners, March 27.—Mrs. Forrester Vout returned home on Wednesday after having spent a week in Jasper.

Mr. and Mrs. Sam McBratney, of North Augusta, visited at William Falkner's on Thursday.

Miss Myrtle Vout spent last week at her uncle's, James Vout's.

Mr. Lane and Mr. Crowe were around on Saturday canvassing for milk for the Nestle Food Co., Morris-town, N.Y.

Miss Hazel Landon spent Sunday at Herb Landon's, Gosford.

Mr. and Mrs. Manford Sheffield and family, Mrs. A. G. Wright and Lloyd Wright, and Fred Carpenter spent Thursday evening at Dan Landon's.

Rev. Mr. Fairbairn and Mrs. Fairbairn visited at Will Falkner's Thursday evening.

Garfield Dalis is ill with a severe attack of pleurisy.

Reaches Remarkable Age of 111 Years

Mr. Rufus Avery, who has resided at the House of Industry for the past five years, will attain the remarkable age of 111 years on Monday. Up until a few weeks ago, Mr. Avery enjoyed good health and his mind is wonderfully acute. He was born in Augusta Twp., on the 9th day of April, 1812, and has been an eye witness of wonders of the 19th century, the great inventive period of human history.

ANNUAL MEETING OF WOMAN'S AUXILIARY OAK LEAF CHURCH

Mrs. M. J. Johnson Elected to Presidency of Organization.

NEWS NOTES OF DISTRICT

Death of Miss Tina Justus at Greenbush Causes Much Sorrow in Community.

Gosford, March 31.—Mrs. Harry Thompson is spending Easter in Brockville.

Mrs. J. Durham is visiting her son in Montreal.

The Triangle Social Club will hold its monthly meeting at John Durham's, on Thursday, April 5.

Mr. and Mrs. Spicer, Merrickville, have been visiting Mr. and Mrs. Mat-tice.

Mrs. Mary Snowden, Mount Zion, is making her home with her sister, Mrs. James Snowden.

The Easter visitors in our midst are: Harper Perrin, Queen's University, at Robert Perrin's; Wilfred Landon, Queen's, at W. D. Landon's; Herb Throop, of the civil service, Ottawa, at Robert Perrin's.

Mr. and Mrs. Henry Berry, of Jellyby, spent Tuesday at Mr. and Mrs. W. J. Marshall's.

Miss Henrietta Oxy, of Fairfield, is holidaying at Fred Oxy's.

OAK LEAF

Oak Leaf, March 29.—The annual meeting of the Women's Auxiliary of Trinity Church, Oak Leaf, was held on Wednesday afternoon, March 23, at the home of Mrs. Oscar Wills.

The meeting was opened with prayer by the rector, Rev. V. O. Boyle.

The minutes of the last meeting were read and adopted and then the business of the annual meeting taken up.

The various reports showed an increase in the year's work.

The election of officers resulted as follows:

Honorary members, Rev. V. O. Boyle, Mrs. R. Steacy, Miss Mary Johnson; honorary president, Mrs. V. O. Boyle; president, Mrs. M. J. Johnson; 1st vice-president, Mrs. Jesse Webster; 2nd vice-president, Mrs. Oscar Wills; recording secretary, Mrs. Herman Pierce; corresponding secretary, Mrs. Ormand Reid; Dorcas secretary, Mrs. Steven Godkin; treasurer, Mrs. R. J. Green; literature secretary, Mrs. Thomas Jeffrey; leaflet secretary, Mrs. J. A. Flood; superintendent of J.W.A., Mrs. R. J. Green; secretary Little Helpers, Mrs. Lloyd Green; secretary prayer partner, Mrs. W. Johnson; delegate to the annual meeting to be held in Kingston on May 15-18, Mrs. J. A. Flood.

ATHENS, ONT.

ANNUAL REVENUE OF \$4,000,000 FROM SALE OF INTOXICATING LIQUORS

A despatch from Toronto says:—A number of queries of general interest were answered on Friday by the Ministry in the Ontario Legislature. One of them, by revealing that the province in ten months had received \$3,400,000 from the sale of liquor, suggested that Ontario can not with complete consistency point the finger of scorn at Quebec for participating in the liquor traffic. Another, by obtaining the amounts which the Amusement Tax had returned, showed how dearly the public was paying to the Ontario Treasury for its theatrical diversions.

In regard to the liquor traffic, Hon. Mr. Raney volunteered the following statistics: Value of stock on hand in dispensaries on October 31, 1921, \$1,121,259; value of stock on hand in dispensaries on October 31, 1922, \$734,078; receipts from sales during ten months ending October 31, 1922, \$3,400,000.

Hon. Peter Smith detailed as follows the returns which the Amusement Tax had yielded in Toronto, Hamilton, Windsor and Ottawa during the years 1920, 1921 and 1922: Toronto, \$602,749 in 1920; \$630,333 in 1921; \$599,743 in 1922. Ottawa, \$67,245 in 1920; \$70,288 in 1921; \$75,125 in 1922. Hamilton, \$125,919 in 1920; \$127,393 in 1921; \$112,724 in 1922. Windsor, \$22,354 in 1920; \$20,472 in 1921, and \$17,572 in 1922.

The other questions were more briefly answered. R. T. Harding, K.C., was said to have already benefited to the extent of \$22,945 from the public treasury for his labors in the timber probe. He claims, it was added, the further sum of \$3,500. The number of loans made under the Community Halls Act was given as 20 and the amount involved as \$5,700 during 1921 and \$28,503 in 1922. The sum of \$2,000 was said to have been loaned under the Co-operative Marketing Loan Act, only one loan having been made since the legislation's inception in 1920. Hon. Mr. Raney stated that one, Webb, was in temporary employ of the O. T. A. enforcement branch.

IRISH SENATOR RELEASED BY REBELS

Threats of Punitive Measures by Government Proves Effective.

A despatch from Dublin says:—Senator Bagwell, kidnapped Tuesday night, was released on Thursday morning near Dublin. His release is regarded as the direct result of the threats of punitive measures made by the Government if he were not released in 48 hours.

Republican Chief of Staff Liam Lynch has issued a proclamation declaring: "We shall not release our hostages. If the threatened action is taken, every member of the Government, Senate and the Lower House and their executive will be held responsible and we will certainly visit them with the punishment deserved."

Whether this is intended to offset the Bagwell release, or to intimate that Bagwell escaped is not known. Bagwell was picked up by a motorist eight miles from Dublin.

He reached the city early in the morning and is not to be found, so there is no information obtainable from him as to how he came to be free.

Many other hostages are still held by the irregulars. Lynch's proclamation says the Republicans are determined that the execution of Republican prisoners shall not go on, claiming that fifty-three officers and men have already met death.

The militants' incendiary tactics have now been extended to the homes of Nationalist leaders. Reports from Blessington, South Dublin village, say that the homes of three soldiers were fired there. The railway depot at Droim, an important Great Northern junction point, was wrecked by mines on Thursday night.

Building Operations at Toronto University.

Whether this winter be relatively mild or not, it seems at least to be a fairly favorable season for building operations at the University of Toronto.

The War Memorial Tower, which is being built by the graduates and which will be a most imposing structure, is going forward apace and is to be ready for dedication on Armistice Day. At the rear of Convocation Hall a modest building is going up for the housing of the administrative offices of the provincial university so as to relieve the present overcrowded condition of University College. At the corner of Bloor and Huron streets a large addition to the Ontario College of Education is well above ground. North of Hoskin Avenue and just south of the University stadium the excavation for the new Trinity College is progressing daily. The Anatomy building and the Women's building have just recently been completed and are now occupied. All of this means that a good deal of work is being provided for the building trades at a time when employment might otherwise be scarce.

Royal Broadcasting Station at Buckingham Palace

A despatch from London says:—Charmen's protests that wireless concerts in public houses are drawing too many young people to drinking places and the announcement that King George is considering the installation of a loud-speaking set in his apartments in Buckingham Palace illustrate what a wide appeal wireless today is making to Great Britain.

By making Buckingham Palace a broadcasting station King George could address his millions of subjects throughout England, Scotland and Wales without leaving the royal suite. Loud-speaking trumpets on the palace roof would enable the King's voice to be heard at any point in London within a two-mile radius of the palace. Wireless telephones have been used by the Prince of Wales and the Duke of York recently in opening exhibitions and at other functions in various parts of the country, the speakers remaining in London.

No Doubt Remains Who is to Pay for World War

A despatch from London says:—"If there is doubt about who won the war, there now remains no doubt who is to pay for it."

London is chuckling over this bon mot attributed to Sir John Simon, Liberal leader and prominent lawyer, apropos of the American debt settlement.

That the earth is much older than the sun is the opinion of a well-known scientist.

The Week's Markets

Toronto.
Manitoba wheat—No. 1 Northern, \$1.24.

Manitoba oats—Nominal.
Manitoba barley—Nominal.
All the above track, Bay ports.

Margarine—20 to 22c.
Eggs—No. 1 candled, 35 to 36c; selects, 38 to 40c; new laid, 45 to 46c; cartons, new laid, 47 to 48c.
Beans—Canadian, hand-picked, lb., 7½c; primes, 7c.
Maple products—Syrup, per imp. gal., \$2.50; per 5-gal. tin, \$2.40 per gal. Maple sugar, lb., 23 to 25c.
Honey—50-lb. tins, 12 to 12½c per lb.; 5-2½-lb. tins, 13½ to 14½c per lb.; Ontario comb honey, per doz., \$3.75 to \$4.50.
Potatoes, Ontarios, No. 1, 90c to \$1; No. 2, 85 to 90c.
Smoked meats—Hams, med., 26 to 28c; cooked ham, 38 to 40c; smoked rolls, 26 to 28c; cottage rolls, 32 to 35c; breakfast bacon, 32 to 35c; special brand breakfast bacon, 38 to 40c; backs, boneless, 36 to 42c.
Cured meats—Long clear bacon, 50 to 70 lbs., \$20.70 to 90 lbs., \$19; 90 lbs. and up, \$18; lightweight rolls, in barrels, \$38; heavyweight rolls, in barrels, \$35.
Lard—Pure tierces, 16½c; tubs, 17c; pails, 17½c; prints, 18½c. Shortening tierces, 14½ to 15c; tubs, 15 to 15½c; pails, 15½ to 16c; prints, 17½ to 18c.
Heavy steers, choice, \$7 to \$7.50; butcher steers, choice, \$6 to \$6.50; do, good, \$5.50 to \$6; do, med., \$5 to \$5.50; do, com., \$4 to \$5; butcher heifers, choice, \$6 to \$6.50; do, med., \$5 to \$5.50; do, com., \$4.25 to \$4.75; butcher cows, choice, \$4.50 to \$5.25; do, med., \$3 to \$4; canners and cutters, \$1.75 to \$2.25; butcher bulls, good, \$4 to \$4.50; do, com., \$2.25 to \$2.50; feeder steers, good, \$5.50 to \$6; do, fair, \$2.50 to \$3.50; calves, choice, \$11 to \$12.50; do, med., \$9 to \$11; do, com., \$5 to \$8; milk cows, choice, \$70 to \$80; springers, choice, \$80 to \$100; lambs, choice, \$11 to \$12; sheep, choice, \$6.50 to \$7; do, culs, \$3 to \$4; hogs, fed and weaned, \$10 to \$10.50; do, f.o.b., \$9.25 to \$9.75; do, country points, \$9 to \$9.50.
Hog quotations are based on the prices of thick, smooth hogs, sold on a graded basis, or selects, sold on a flat rate. Bacon selects, sold on the graded basis, bring a premium of 10 per cent. over the price of thick, smooth hogs.

Standard of Character Counts

By W. M. Morris, Ontario Trustees' and Ratepayers' Association.

I was travelling on the C.P.R. train to Regina last winter and entered into conversation with a business man from Calgary. After discussing general topics for some time, this gentleman informed me that the province of Ontario was losing a magnificent opportunity to trade with the western provinces because of her dishonesty. Having been a resident of Ontario all my life, and my parents before me, I displayed some resentment to the insinuation that the people of Ontario lacked so fundamental a trait of individual and national character. He proceeded, therefore, to prove the statement by telling me the story of his financial venture in the produce market. "I too," he said, "came from Ontario and regret the impression the West has of my native province as much as you do. I carried on a large produce business in a thriving town in Ontario for many years before coming West, and for some years purchased apples and other Ontario fruits for consumption in the province of Alberta. I was compelled to sell out the business a few years ago because of dishonesty on the part of the Ontario shipper.

"For instance," he said, "a friend of mine still carries on a large business in Calgary, buying from Ontario. A car load of apples arrived in Calgary in the fall of 1921 and on the arrival of this shipment my friend called me by telephone and informed me that this car load came from my home town and asked me if I would check over the names of the shippers for him, with recommendation of the apples he should buy. Knowing everyone in the town and for several miles around it, I was able to give him fairly accurate information re the character of the shippers and advised as to whose apples he would be safe in buying. He read the names over and the conversation that took place over the 'phone was something like this. 'Mr. A., I wouldn't buy anything he sells, 'Mr. B., about fifty fifty with him, 'Mr. C., you are safe in buying anything he ships.' He read off all the names of the shippers and I recommended about half of the apples in the car. He informed me later that he bought all the apples that were worth purchasing.

"That is what I mean when I say Ontario is dishonest. The people of the East cannot hope to build up a permanent trade in produce with the West while they practise such deceptive tactics in the packing of fruit. There is a great demand for apples, peaches and plums in the West and the East can grow these in abundance but it is a great loss to both provinces if people have no confidence in one another."

I was travelling on the train through Nova Scotia last June and in conversation with a commercial traveller, related the above story from the West. He immediately assured me that such would not be the case in Nova Scotia. He went on to say that \$8,000,000 worth of apples were shipped from the Annapolis Valley to Great Britain in the fall of 1921 and he would guarantee that every box contained the apples represented. This gave me an opportunity of becoming on good terms with an audience of educationalists in Truro and I congratulated the people of the Maritime Province for their integrity. The story was well received as human nature everywhere appreciates congratulations.

At the close of the meeting, however, a member of Parliament for the Annapolis Valley approached me with the remark, "That was a good story. I replied that I thought so myself. He said, 'Let me tell you another one. I live in the Annapolis Valley and am a member of the local Legislature for one of the constituencies there. I have given a prize at the Fall Fair for some years, for the best packed barrel of apples. Last year the prize barrel was given to me as a present. I opened it in my cellar and was surprised to find

that the apples were as represented for about one foot down and then the quality became worst until, when I reached the bottom of the barrel, the quality was so poor that I considered it hardly worth taking. You see the people of Nova Scotia are no more honest than those of Ontario. The reason the apples that were shipped to Great Britain were as represented, is because they are delivered through a co-operative selling agency and the agent claims the right to inspect any box. The packer of my apples apparently knew the difference between the treatment of a barrel of apples and a barrel of sermons—the latter may be turned up to get a fresh one, consequently he took chances on disposing of a poor class in the bottom of the barrel."

Evidently human nature is much the same all over the world. It does not matter whether the deception is practised in the shipping of apples, in the selling of groceries, in practising a profession or serving in public office. If Ontario has lost the prospect of trade with the West because she is dishonest, the same lack of integrity in all the relationships of life will undermine both individual and national life. People are in the habit of speaking of our vast material resources as if these things held the key to national greatness. A little thought will show that these things are valueless in themselves. As a matter of fact, they have been here for centuries waiting for human intelligence and skill to discover and develop them. Africa possesses untold potential riches and can boast of many centuries of history, but remains the Dark Continent. It is the human factor that counts most. We have infinite possibilities for service available in the talents of our children. What values our children may realize in efficiency and character will, in a great measure, be determined by the educational agencies established for the development of their talents and inspiration for service. The future of our country will be determined by the growth of the youth into men and women of skill, insight and vision, who will not only transmit our natural resources into wealth and prosperity, but will, at the same time, establish the nation in strength, righteousness and honor.

Righteousness exalteth a nation. It is standard of character that counts both in the individual and the nation. The German youth were given a scientific and intellectual training without a sufficient balance of moral character. Lacking this, they came near destroying the civilized world and themselves along with it. Scientific knowledge is a very dangerous weapon of self-destruction in the hands of a person of low moral standards. The first fundamental of national prosperity is individual integrity. These people can have faith in each other.

THE INDUSTRIAL HEART OF GERMANY IN FRENCH HANDS
The Ruhr area is estimated at about 1,234 square miles in extent, but something of its immense mineral wealth can be gathered from the above map. Each of the round black marks represents a mine shaft. The district has a population of four million, of which a half million are coal miners. In pre-war years its coal production was 113,000,000 tons a year. It has a visible reserve of 54 billion tons, and an estimated unmined reserve of 220 billion tons. Steel production in the year the war ended amounted to ten million tons. Over nine hundred million dollars is invested there.

Clinton D. Howe
Dean of the Faculty of Forestry, at the University of Toronto, who was recently elected vice-president of the Canadian Forestry Association. The association last year addressed 684 meetings throughout the Dominion and sent exhibition and tree-planting cars across the country.

Cheese, finest easterns, 25 to 25½c. Butter, choicest creamery, 41 to 41½c. Eggs, fresh, 48 to 50c; selected, 36 to 37c; No. 1 stock, 32 to 33c. Potatoes, per bag, car lots, \$1 to \$1.10.
Young cows, in good flesh, \$4.25; com., \$3.25 to \$4; med. heifers, \$4 to \$4.50; cutter cows, \$2.50 to \$2.75; canners, \$1.75 to \$2; do, thin, \$1.50; dairy type bulls, com., \$3.50; do, good weight and fleshing, \$4; veal calves, \$9 to \$10.50; better ones, \$11 to \$11.25; hogs, selects and good quality butcher, \$11 to \$11.25; thick fat heavy hogs, \$10.25; western hogs of suitable weights, \$10.50 to \$10.75; sows, \$8.50 to \$9.50.

Grafting Operation Fails to Restore Boy's Sight

A despatch from New York says:—Alfred Lemanowicz, 18, who underwent an operation 11 days ago in which part of a pig's eye was grafted to restore his sight, was allowed to open his eye for the first time on Friday and was unable to see anything. Dr. Edward B. Morgan, who performed the operation, refused to admit it was a failure.

Lemanowicz, whose home is in Lyndhurst, N.J., has said several times that he could distinguish between light and dark through the closed eyelid. But when the eye was opened he could not see the rays from an electric flashlight which focused into the eye through a magnifying glass. However, when the eye was closed again, he said he could tell when a hat was placed in front of his face and when it was removed.

Senator C. P. Baubien
Senator Baubien has had in hand the work of planning for a Made-in-Canada train to tour France. He has now completed his report to the Department of Trade and Commerce, and suggests that it take the form of an autobus caravan, so that it will not be restricted to main railway lines. It is proposed to send the train through every important French city and town.

Manitoba wheat—No. 1 Northern, \$1.24.
Manitoba oats—Nominal.
Manitoba barley—Nominal.
All the above track, Bay ports.
American corn—No. 2 yellow, 87½¢; No. 2, 86¢.
Barley—Malt, 60 to 62c, according to freights outside.
Buckwheat—No. 2, 77 to 79c.
Rye—No. 2, 83 to 85c.
Peas—No. 2, \$1.45 to \$1.50.
Millfeed—Del., Montreal freights, bags included: Bran, per ton, \$25; shorts, per ton, \$27; middlings, \$28.50; good feed flour, \$2.
Ontario wheat—No. 1 white, \$1.11 to \$1.13, according to freights outside; No. 2, \$1.03 to \$1.10.
Ontario No. 2 white oats—45 to 47c.
Ontario corn—Nominal.
Ontario flour—Ninety per cent. pat., in jute bags, Montreal, prompt shipment, \$5.10 to \$5.20; Toronto basis, \$5.05 to \$5.15; bulk seaboard, \$4.95 to \$5.00.
Manitoba flour—1st pats., in cotton sacks, \$7.10 per bbl; 2nd pats., \$6.60.
Hay—Extra No. 2, per ton, track, Toronto, \$14 to \$14.50; mixed, \$11 to \$13; clover, \$8 to \$12.
Straw—Car lots, per ton, track, Toronto, \$9.50.
Cheese—New, large, 27c; twins, 27½c; triplets, 28½c; Stiltons, 29c. Old, large, 29c; twins, 30c; Stiltons, 31c.
Cheese—New, large, 27c; twins, 27½c.
Butter—Finest creamery prints, 43 to 45c; ordinary creamery prints, 40 to 41c. Dairy, 80 to 81c. Cooking, 22c.
Dressed poultry—Chickens, milk-fed, over 5 lbs., 34c; do, 4 to 5 lbs., 27c; do, over 5 lbs., 30c; do, 4 to 5 lbs., 26c; do, 2 to 4 lbs., 25c; hens, over 5 lbs., 25c; do, 4 to 5 lbs., 25c; do, 3 to 4 lbs., 25c; roosters, 25c; ducklings, over 5 lbs., 41 to 33c; do, 4 to 5 lbs., 25 to 28c; turkeys, young, 10 lbs. and up, 38c; do, old, 23c; geese, 21c.
Margarine—20 to 22c.
Eggs—No. 1 candled, 35 to 36c; selects, 38 to 40c; new laid, 45 to 46c; cartons, new laid, 47 to 48c.
Beans—Canadian, hand-picked, lb., 7½c; primes, 7c.
Maple products—Syrup, per imp. gal., \$2.50; per 5-gal. tin, \$2.40 per gal. Maple sugar, lb., 23 to 25c.
Honey—50-lb. tins, 12 to 12½c per lb.; 5-2½-lb. tins, 13½ to 14½c per lb.; Ontario comb honey, per doz., \$3.75 to \$4.50.
Potatoes, Ontarios, No. 1, 90c to \$1; No. 2, 85 to 90c.
Smoked meats—Hams, med., 26 to 28c; cooked ham, 38 to 40c; smoked rolls, 26 to 28c; cottage rolls, 32 to 35c; breakfast bacon, 32 to 35c; special brand breakfast bacon, 38 to 40c; backs, boneless, 36 to 42c.
Cured meats—Long clear bacon, 50 to 70 lbs., \$20.70 to 90 lbs., \$19; 90 lbs. and up, \$18; lightweight rolls, in barrels, \$38; heavyweight rolls, in barrels, \$35.
Lard—Pure tierces, 16½c; tubs, 17c; pails, 17½c; prints, 18½c. Shortening tierces, 14½ to 15c; tubs, 15 to 15½c; pails, 15½ to 16c; prints, 17½ to 18c.
Heavy steers, choice, \$7 to \$7.50; butcher steers, choice, \$6 to \$6.50; do, good, \$5.50 to \$6; do, med., \$5 to \$5.50; do, com., \$4 to \$5; butcher heifers, choice, \$6 to \$6.50; do, med., \$5 to \$5.50; do, com., \$4.25 to \$4.75; butcher cows, choice, \$4.50 to \$5.25; do, med., \$3 to \$4; canners and cutters, \$1.75 to \$2.25; butcher bulls, good, \$4 to \$4.50; do, com., \$2.25 to \$2.50; feeder steers, good, \$5.50 to \$6; do, fair, \$2.50 to \$3.50; calves, choice, \$11 to \$12.50; do, med., \$9 to \$11; do, com., \$5 to \$8; milk cows, choice, \$70 to \$80; springers, choice, \$80 to \$100; lambs, choice, \$11 to \$12; sheep, choice, \$6.50 to \$7; do, culs, \$3 to \$4; hogs, fed and weaned, \$10 to \$10.50; do, f.o.b., \$9.25 to \$9.75; do, country points, \$9 to \$9.50.
Hog quotations are based on the prices of thick, smooth hogs, sold on a graded basis, or selects, sold on a flat rate. Bacon selects, sold on the graded basis, bring a premium of 10 per cent. over the price of thick, smooth hogs.

Hog quotations are based on the prices of thick, smooth hogs, sold on a graded basis, or selects, sold on a flat rate. Bacon selects, sold on the graded basis, bring a premium of 10 per cent. over the price of thick, smooth hogs.

Dominion News in Brief

Vancouver, British Columbia—Vancouver now leads all ports in Canada in the matter of tonnage, only beating Montreal by reason of the fact that the Eastern port is open eight months in the year. In the short space of two years the movement of ocean going vessels trading into this port has increased from 326 in 1920 to 466 in 1921 and 702 in 1922, making an increase of 116 per cent. for the two year period. In the same period, the number of shipping lines regularly trading into Vancouver from foreign ports has increased from 23 to 39.

Edmonton, Alberta.—Over 42,500 acres were planted to potatoes in Alberta last year, according to an official estimate, which is about 9,000 acres less than in 1921. Central and Northern Alberta had a total potato acreage of nearly 30,000 acres, and it is estimated that the yield amounted to two and a half tons to the acre.

Saskatoon, Saskatchewan.—It is reported that magnesium metal, valuable in the construction of aeroplanes, may be a Saskatchewan product in the future if the plans of a company located at Dara, 60 miles east of Saskatoon, materialize.

Fort William, Ont.—The issue of the

"Daily Times-Journal" for January sixteenth was printed on the first roll of newsprint manufactured here by the Fort William Paper Company. Construction of the plant only commenced last July, and the first run of newsprint was made on New Year's Day.

Quebec, Quebec.—The number of entries in the great dog sled Derby, to be run here on the 22nd, 23rd and 24th of February, has gone up to eight, with the addition of an entry just received from Holt, Renfrew & Company. There are now six entries from Canada and two from the United States.

Fredericton, New Brunswick.—While the full development of the Grand Falls, near the head waters of the St. John River, will likely involve international considerations, it is possible to develop some 60,000 horse power at an 8 per cent. load factor without having to tap any of the storage area which lies in the State of Maine, according to C. O. Foss, chief engineer and member of the New Brunswick Electric Power Commission.

St. John's, Newfoundland.—Initial preparations are being made for the coming seal fishery. There will be only eight ships engaged this spring, the smallest number for fifty years. There were nine last year.

L. H. Newman, formerly secretary of the Canadian Seed Growers' Association, has been named Dominion cerealist to succeed Dr. Charles E. Sanders, who has resigned. Mr. Sanders was the discoverer of Marquis wheat, which made it possible to grow wheat a hundred miles further north than was possible theretofore. Mr. Newman is the author of important agricultural publications, and has conducted important practical experiments.

that the apples were as represented for about one foot down and then the quality became worst until, when I reached the bottom of the barrel, the quality was so poor that I considered it hardly worth taking. You see the people of Nova Scotia are no more honest than those of Ontario. The reason the apples that were shipped to Great Britain were as represented, is because they are delivered through a co-operative selling agency and the agent claims the right to inspect any box. The packer of my apples apparently knew the difference between the treatment of a barrel of apples and a barrel of sermons—the latter may be turned up to get a fresh one, consequently he took chances on disposing of a poor class in the bottom of the barrel."

Evidently human nature is much the same all over the world. It does not matter whether the deception is practised in the shipping of apples, in the selling of groceries, in practising a profession or serving in public office. CANADIAN MURDERED NEAR LUXOR, EGYPT

Identified as the Nephew of Sir Montague Allan, of Montreal.

A despatch from Cairo, Egypt, says:—The Canadian who was reported missing on Wednesday evening from a private steamer on the Nile River and was found murdered and robbed two miles from Luxor, has been identified as Travers Allan, of Montreal. Mr. Allan was making a trip up the Nile in company with a cousin named James. It has been learned that Allan was last seen at his stopping place at eight o'clock on Tuesday evening and was found dead on Wednesday.

Information received at the Ministry of the Interior points to the theory that the murder was not political, but was probably due to the desire on the part of the murderers to obtain the victim's valuables. The impression is that Allan was en route alone to Karnak to see the famous ruins by moonlight. The body was found on the Karnak road.

Census of 1921 Cost Country \$1,664,088.04

A despatch from Ottawa says:—The decennial census of June, 1921, cost \$1,664,088.04. This is shown by figures in the Auditor-General's report for the fiscal year ending March 31, 1922, tabled in the House on Thursday by the Minister of Finance. The cost by provinces was as follows: Alberta,

CHAPTER XXXVI.

The little red horse's pace was as swift as a swallow's. Sure-footed, she flashed on over the long winding roads, up the steep hillsides and down them, slipping and sliding on the loose shingles, but keeping her knees in the cunning way that only the mountain horses know. Davey heard the beat of her hoofs until the sound became mechanical. Though she was moving, she seemed to get no further—to throw no distance behind her, forging ahead through the darkness.

Fear and a suffocating weakness began to dull his brain. He could not see. The sagging pain in his breast ate up his strength. With a desperate effort he pulled the handkerchief from his throat and thrust it inside his shirt against the wound. He dug his heels into Red's side, urging her on. A diffused glow of lights loomed before him. As if waking from a nightmare in which he had been struggling to get forward and was held back by mysterious, unknown forces, he realized that they were the lights of the shanty.

The mare carried him on into the stable yard. The welcome yelp of dogs greeted his ears. He flung off her, staggered across the yard and burst open the back door. He was conscious of Farrel and Deirdre springing towards him, of Steve behind them. Then surging darkness, the swirling tides of dreamless darkness that had been pressing close to him all the way, closed over him. For a moment he struggled against them, trying to speak. A few muttered, incoherent words were all Deirdre and the Schoolmaster caught.

He pitched forward. Deirdre ran to him. The Schoolmaster helped her to lift Davey over on his back. She moistened his lips with the spirit that Steve brought quickly.

"There's blood on him, father," she cried. There was no tremor in her voice, only a tense anxiety. Farrel told her what to do, to cut away Davey's shirt where the blood oozed on it. Steve went for water and rags as she did so. The flickering light of the candle the Schoolmaster held, showed the broken and blackened flesh.

"He's been shot . . . it's a slug made that mark," Steve gasped when he saw it.

When he had put a basin of cold water beside her, she laid soaked rags on the wound. The shock brought Davey a moment of consciousness. He moaned, stirring with pain. His eyes opened. He saw Deirdre's face above his and the Schoolmaster bending over him.

He stared at them unseeing. Then the mists cleared from his brain. "I'm all right," he muttered, "all right . . ."

He lay quite still. "Have you got the calves out of the paddock?" he asked a moment later, his voice stronger. "M'Laughlin and

MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is Child's Best Laxative

Even if cross, feverish, bilious, constipated or full of cold, children love the "fruity" taste of "California Fig Syrup." A teaspoonful never fails to clean the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the souring food and nasty bile out of the stomach and bowels, and you have a well-playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation.

down. Deirdre drove them through the opening. The black boy was on the road waiting to keep the beasts' noses northwards with an adroit flick of his whip. It was with an occasional lowing and rattling of horns, the brush and rattle of hoofs on the dry timber that they passed out into the shadows of the road.

The Schoolmaster had no fear that Deirdre could not manage this handful of yearlings and old cows. She had chased calves from paddock to paddock when she was big enough to straddle a pot-bellied pony, and had cracked a light whip which Conal had made for her, with a fall a couple of inches shorter than his own, round and round the neck of the horse, and he was driving and she was on the roads with them. It was the bitterness of not being able to drive himself that plagued Farrel; the consciousness of having to stand by and let her do what there was danger in doing, incensed him. Steve watched the road for sound or sign of men and horses from Wirreeford. Then he chased his own two milkers up from the cow paddock and ran them backwards and forwards along the road where the mob had passed, to obliterate its tracks.

A weight was off the Schoolmaster's mind when Steve said that Deirdre and the black were out of sight. He knew that by taking the cattle along the narrow tracks on the ledges of the hills, she would save them. Narrow Valley scrubs would screen them from curious eyes. If M'Laughlin came, the road would tell no tales. Steve's cows had made it look as if a mob had passed in the opposite direction beyond the shanty, and he fit the tracks. They did not think that anybody but themselves knew the way under the trees on the Valley hillsides. Only if M'Laughlin brought a tracker would he be able to follow Deirdre.

Farrel wondered how word had reached McNab, and what foolhardiness had led Conal to bring these branded calves to the paddock below Steve's. For a moment the idea that Conal, baited and maddened with drink, might have given some hint at McNab's of the beasts being in Steve's paddock, occurred to him. And then his mind brooded over what had happened to him.

"It was only mad with drink, Conal could have shot at a man in the dark," he told himself. "The open fight is

NURSES

The Toronto Hospital for Incurables, in affiliation with Bellevue and Allied Hospitals, New York City, offers a three years' Course of Training to young women, having the required education, and desirous of becoming nurses. This Hospital has adopted the eight-hour system. The pupils receive uniforms of the School, a monthly allowance and travelling expenses to and from New York. For further information apply to the Superintendent.

his way." Conal and he had been friends a good many years, and there was something in his estimate of the man which defied the idea that he had shot Davey. And yet it looked as if he had. Why was he not in? He had left Wirreeford an hour before Davey. Conal was on the road before Davey. And he had been drinking at McNab's. He had been taunted with Deirdre's name.

"It was only mad with drink he could have done it," the Schoolmaster told himself again. And even then a fierce contempt and condemnation surged within him. The memory of Deirdre's fired young womanhood, of the look in her face, of the glow in her eyes, told him what this hurt to Davey meant to her.

(To be continued.)

Dye Skirt, Dress or Faded Draperies in Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

Scavengers.

Scavengers were originally officials who collected Scavage, a tax imposed in many English towns upon all goods exposed for sale within their boundaries. The tax was abolished by Henry VII.

Minard's Liniment for Coughs & Colds.

About the House

Try An Onion!

Although apples have their virtues, the saying "An apple a day keeps the doctor away" should be revised to "An onion a day keeps the doctor away." One humble onion is worth fifty apples from the medicinal, disease-preventing point of view.

It almost seems as if the onion was specially created for the definite purpose of keeping men and women healthy, free from disease, and practically immune from infection.

An onion—for preference eaten raw—will, in its passage through the body, destroy every poisonous germ and purify the blood. A sliced onion placed in an open dish in a sick-room will gather to itself the microbes and germs in the air quite as well as an expensive disinfectant will do. But the onion must afterwards be thrown away, never eaten.

Those who include onions in their regular diet never suffer from neuralgia, headache, or kindred troubles. When influenza is about not a doctor in the land could prescribe a better preventive than the humble onion. The juice of an apple is good for the teeth, but the juice of an onion is a hundred times better.

The freedom from disease and longevity of the Breton onion-growers is well-known, and the smooth and silky complexion of the women has been often remarked. For a fact, for a clear skin and beautiful complexion nothing can beat onions.

Yes, they make the breath odorous, but only until your system has become accustomed to them.

An onion poultice on a bruise will quickly take away all discoloration. A painful strain or sprain is also eased by an onion poultice. Finally, onion juice is excellent for a wasp sting, and for raising hair on bald heads!

Making Pin Money at Home.

Many farm women have large, old-fashioned houses with more room than they need. I, for one, am so situated, and last summer turned this extra room into pin money. I rented the rooms for light housekeeping to a mother and her children from the city during the summer. By entering an ad. in a daily paper the last part of June, I received several replies. I rented the two rooms furnished as sleeping room and kitchen. Rent, milk, eggs, broilers and vegetables came to about \$60 after expenses were paid. People coming from the city come more to enjoy the out-of-doors than beautiful rooms. They only ask for rooms to be clean and comfortable and not elaborately furnished.—Mrs. N. D. My pin money comes to me from raising Scotch collie puppies. I have

so much work to do, both in the house and field, that I have very little spare time. There is no work at all in this "side line," as my puppies have the run of the farm and are usually sold before they are three months old. I feed them stale bread, boiled potatoes, skim-milk and all the table scraps. In return they give me a fair profit to help fill the family purse.—R. K.

I believe I have found a very efficient way for making pin money. With the little slip-over sweaters so much in vogue, I bought some yarn and crocheted them. I could buy the yarn for about two dollars and could sell them readily for four dollars. Later I found that people wanted collars and cuffs for them so I made them some pretty ones of linen, organdy and leather and sold them generally with the sweaters. The crocheted sweaters make up very quickly, and thus the more gain for me.—B. T.

I live on a farm and would like to tell others how I make my pin money. During the winter time I make cottage cheese and sell it to our near town grocery and meat market. Besides I have all the customers I can furnish directly from my home. I charge ten cents per pound and make a supply once a week.—H. B. W.

I raise about one-fourth of an acre of flowers and sell the cut flowers. In the spring I raise a good many aster, pansy and salvia plants to sell, and get my seed from a seed company. In the fall I save my own seed and sell some to friends, and thus it is necessary to buy seed only every other year. I sold about forty dollars worth of flowers last summer and had all I could use for myself and friends. I took some flowers to the fair and got a number of premiums on them.—W. P.

Child's Knitted Sweater.

This simple, comfy little garment needs no illustration. It is a snug little sweater for use throughout the winter and until late spring or early summer. It is designed for a tot of from three to five years, but by employing heavier needles, and increasing the length it may be made to fit a child of any size. Use four skeins of zephyr good grade four-fold yarn for a small child. Any color desired may be used. No. 4 amber knitting needles are employed.

To Make: Cast on 72 stitches. (The number of stitches employed must be divisible by four.) Next work one inch of ribbing of knit 1, purl 1 for the border of the garment.

After the first row, always slip the commencing stitch of each row.

Change now to the pattern, made this way: First, Second and Third Rows.—* knit 2, purl 2, repeat from * to the length of the row.

Fourth Row.—Knit plain. Repeat the design one to four until twelve inches of the pattern have been made.

Cast off all the stitches except 14 at the end of row. The casting off should be loosely done that the sweater may slip on easily over the head as this is a "slip on" garment.

Knit four and one-half or five inches plain on the 14 stitches to form the

shoulder for one side of the garment. Cast off.

This completes one-half of the sweater.

Proceed in like manner for the other half.

Now place the halves together with a shoulder piece for each side. With a crochet hook slip-stitch the side seams together, beginning at the bottom to join the seams and leave sufficient room at the top for the armholes. The shoulder pieces are next sewn in position.

Edge.—Around the neck work a row of * chain 2, treble crochet 1 around with angora wool, preferably white. Use bone hook.

Over the row of spaces work open shells, * 5 trebles in hole separated by 1 st. between trebles. Ch 4, single crochet 1 in next hole, ch. Repeat from * around.

Cover the trebles with picot loops. Work this same design around armholes and bottom of sweater.

Crochet 3 chains of sufficient length and run through spaces around neck and armholes.

Finish ends of chains with fluffy angora tassels. This completes the garment.

What Would You Take?

What would you take for that soft little head
Pressed close to your face at time for bed;
For that white, dimpled hand in your own held tight,
And the dear little eyelids kissed down for the night,
What would you take?

What would you take for that smile in the moon,
Those bright, dancing eyes and the face they adorn,
For the sweet little voice that you hear all day
Laughing and cooing—yet nothing to say?
What would you take?

What would you take for those pink little feet,
Those chubby round cheeks, and that mouth so sweet;
For the wee tiny fingers and little soft toes,
The wrinkly little neck and that funny little nose?
Now what would you take?

Sending Her a Line.

An old farmer, visiting the city, handed the clerk a telegram to be sent, consisting of the address and eight vertical strokes.

"But surely you are not going to send this," said the clerk.

"Now, that's all right, miss," said the old fellow. "If them strokes come out the same at t'other end my missus 'll know as I shall be home at 8 o'clock. She can't read or write, but her can count, so just see as you put the proper strokes in."

Why Bake At Home when you can buy bread like it, ready baked?

COUNT the raisins—at least eight big, plump, tender fruit-meats to the slice.

Taste it—see how the raisin flavor permeates the bread.

No need to bake at home when we've arranged with bakers in almost every town and city to bake this full-fruited raisin bread.

Just 'phone and they'll deliver it—all ready to surprise the family tonight.

It comes from master bak-

ers' modern ovens in your city. And it's made with Sun-Maid Raisins.

That's another reason for its superiority. A rare combination of nutritious cereal and fruit—both good and good for you, so you should serve it at least twice a week.

Use Sun-Maid Raisins also in puddings, cakes and cookies. You may be offered other brands that you know less well than Sun-Maid's, but the kind you want is the kind you know is good. Insist, therefore, on Sun-Maid brand. They cost no more than ordinary raisins.

Head Steamships On Atlantic and Pacific Oceans

Walter Maughan Fills New Post Made Necessary by Growth of the Canadian Pacific Steamship Business

Walter Maughan, newly appointed Steamship Passenger Manager of the Canadian Pacific Railway.

The appointment of Mr. Walter Maughan as Steamship Passenger Manager of the Canadian Pacific Railway has been officially announced at the Company's headquarters. The appointment includes the management of the Company's passenger business on both the Atlantic and Pacific Oceans. Mr. Maughan was born in Toronto in 1876, and joined the Canadian Pacific forces in 1902. In 1907 he was made City Passenger Agent at Toronto, and in 1913 District Passenger Agent. In the same year he was moved to Montreal as Assistant General Passenger Agent, and in December, 1922, became Assistant to the General Passenger Traffic Manager. He has risen to his present high position by outstanding ability as much as by long service.

During the war Mr. Maughan did valuable work as Chairman of the Demobilization Committee of the Canadian Railway War Board representing the Minister of Militia, and was made a Lieutenant-Colonel in recognition of his work in transporting troops from Canada and China to France.

Mr. Maughan's appointment results from recent remarkable growth of the Canadian Pacific Steamship fleets on both oceans, and those especially equipped for West Indies, Mediterranean and around the world cruises that are planned.

At present in regular service on the Atlantic Ocean between St. John, N.B. (winter season) and Montreal and Quebec (summer season) and Southampton, Liverpool, Belfast, Glasgow, Cherbourg, Antwerp, and Hamburg the Canadian Pacific have eighteen passenger steamships with an aggregate displacement tonnage of 300,000 tons. During the coming summer season the Company will have 100 passenger steamship sailings from Montreal and Quebec. These exclusive of the fleet of freight steamships.

In the Oriental trade four of the largest and fastest ships on the Pacific Ocean operate between Vancouver and Victoria and Japan and China.

In the year 1924 the Canadian Pacific will operate their own cruises to the West Indies, Mediterranean, Egypt, the Holy Land, and also around the world. Three of their finest oil burning ships have been allotted to these services.

One result of these cruises is that the great Canadian Company not only bridges two oceans and links four continents but actually encircles the globe with its own ships and railways without being dependent on any other transportation agencies.

ROCKPORT

Rockport, March 27.—Mrs. W. E. Edgley has returned from Canton, N. Y., where she has been visiting relatives.
 Mr. and Mrs. Graham, Lansdowne, spent a day with Mrs. R. H. Service last week.
 Mr. and Mrs. Cecil Browne, Malorytown, are visiting Mr. and Mrs. Fred Huck.
 Mrs. Den Reid spent a few days in Kingston last week.
 Mr. and Mrs. Clarence Root motored to Kingston Saturday to attend the funeral of an aunt.
 Miss Mabel Hollingsworth is awaiting a call from Kingston General Hospital where she will enter upon training as a nurse.
 Manville O'Connor is confined to the house with a sprained ankle.

Cedar Grove

Cedar Grove, April 2.—Joe and Miss Nettie McCurdy, of Malakoff, spent a few days here last week as the guests of Mr. and Mrs. Lines.
 A. Ennis returned last week after having spent a couple of months in Michigan, New York, and in Kingston and vicinity.
 The local teacher, Miss Bates, left here on Friday for Mountain to spend her holidays at the home of her parents.
 Ross Forbes spent Wednesday evening last with friends at the Grove.

Maynard

Maynard, April 2.—New cases of la grippe are breaking out.
 Miss Elsie Gaudin spent the Easter holidays with friends in Prescott.
 The Ladies' Aid held a quilting bee last week and were successful in quilting two nice quilts.
 The population of Maynard is still increasing, only a few vacant houses remaining.
 Howard Quartus has installed a telephone in his house.
 Mrs. R. C. McBroom is confined to the house with rheumatism.
 George Pyke will take a course at the Brockville Business College.
 Mrs. Lissert spent the Easter holiday with friends in Montreal.
 F. A. Robinson has been appointed leader of the Methodist choir, Mrs. Percy Fretwell having resigned.
 Easter Sunday was observed here in the Methodist church. The services throughout were in keeping with the day and special music was furnished by the large choir.

Greenbush

Greenbush, March 29.—A sudden gloom was cast over the neighborhood on Tuesday evening, the 27th, when death visited the home of the Justus family and claimed one of our most esteemed ladies in the person of Miss Tina Justus, who had reached the age of 58. Although not in the best of health, she was able to take charge of her work until she was stricken down just a few hours before her death, which took place at half past nine in the evening. She had a genuine Christian spirit with which one always found her in the most cheerful disposition. Her funeral took place on Thursday afternoon at 2:30 o'clock with services in the Methodist church, which she always attended. Her pastor, Rev. D. D. Elliott, took for his text Luke 11:40. She leaves behind her one brother, James, and two nephews, Ivan and Stewart, at home, and one niece, Mrs. McGrath, of Smiths Falls. The pallbearers were William Tackaberry, Henry Davis, Ross Miller, Clifford Hall, Fred Olds and Fred Kerr, and her remains were placed in the Greenbush cemetery.
 There was a meeting held in the school house on Wednesday evening which Dr. Smith and Nurse Campbell attended. Dr. Smith gave a very instructive address on the care of children.

Junetown

Junetown, March 29.—Mrs. W. J. Purvis, Pasadena, Cal., arrived Friday to attend the funeral of her mother-in-law, Mrs. Walter Purvis, and will remain with relatives here for a couple of weeks.
 Mrs. S. D. Ferguson, Brockville, spent the week-end with her parents, Mr. and Mrs. Eli Tennant.
 Mrs. A. N. Earl, Misses Evelyn and Kathleen and Purvis Earl, Warburton, were called here on Thursday at the death of the former's mother and the latter's grandmother, Mrs. Walter Purvis.
 Peter Ferguson and Miss Laura, of Yonge Mills, were recent visitors at J. A. Herbison's.
 Mr. and Mrs. R. K. Ferguson attended the funeral of Albert Earl, at Purvis Street on Wednesday.
 Miss Birdie Copeland and Miss Florence Burtch, Brockville, spent a couple of days last week with Miss Mary Purvis.
 William Halliday, Charleston, was a recent visitor at F. Fortune's.
 Mrs. J. A. Herbison spent Wednesday in Brockville.
 Mr. and Mrs. Norris Ferguson visited Brockville a day last week.
 Mr. and Mrs. J. A. Herbison were visitors at Hilliard Earl's, Rockfield, on Tuesday evening.

Van Allen's Corners

Van Allen's Corners, April 2.—Mr. and Mrs. Dave Wallace and baby, Jessie, of Ventnor, spent Monday with Mr. and Mrs. A. C. MacNillage.
 George Beggs spent several days last week at Reid's Mills with his nephews, Clifford and Allie Beggs.
 Mrs. Joe Porter and baby returned home on Friday after having spent several days at McReynolds' Corners with Mr. and Mrs. R. Porter.
 Miss Ruby Selleck, of Ottawa, spent the week-end holiday with her parents here.
 Miss M. J. Coulthart, who has been ill, is now convalescent.
 Bob Brown, jr., went to Winchester on Monday, where he has secured a position making cheese with L. Ellis for the season.
 Misses Viola Thompson and Edna Blair, of the Kemptville High school, are spending the Easter holidays with their parents.
 Miss Jewell Jennings was a recent guest of her sister, Mrs. Marquette, in Prescott.
 Mr. and Mrs. H. Cook and the Misses Jean and Agnes Millar, of Spencerville, were recent guests of Mr. and Mrs. Alex. Brown.
 D. K. Cook, of Smiths Falls, agent for the Massey-Harris Co., was in this vicinity on Friday.
 Archie McRae was in South Mountain last week.
 Mr. and Mrs. S. Brown spent Thursday at Heckston with Mr. and Mrs. W. Bennett.
 Miss Gladys McCoughey is spending the holiday at her home in Kemptville.
 A. Selleck and Effie spent Friday with friends in Spencerville.
 Helen Tait, of Rebeck, was a recent guest of her parents here.
 Miss Minnie MacNillage spent Sunday with friends at Heckston.
 Kenneth McRae has returned after having spent the winter in a lumber camp in Northern Ontario.

CHINESE JOSS SAFEGUARDS LINER

1. Costumed actors rest from their antics.
 2. The altar and offering.
 3. S.S. "Empress of Asia" aboard which the other pictures were taken.

In a little steel bound compartment for a hundred Canton Coolies stand or squat in the stifling heat, which seems to draw through the walls in sticky beads, moisture from the sea without. The sickening smell of punk and burning sandal wood pervades the heavy atmosphere, and the ear is tortured by the wail of musicless instruments of reed and string, and the monotonous tump, tump, tump of a skinny knuckle on a native drum. The dim light is thrown by two long tallow candles which burn before and cast wavering rays upon, a hideous Joss, the grotesqueness of which is accentuated and exaggerated by the moving shadows on its face. Before this Joss, which the cotton garbed coolies revere in their silence, is a platter of fruit and chicken—their humble offering. But the food offering does not suffice to win the good graces of this terrible and austere god, neither does the so-called music sufficiently influence it on behalf of its subjects, therefore, that their wishes may be gratified and its evil designs be brought to confusion, costumed supplicants for its mercy dance before it, describing with painted paper streamers, long curves, dashes and abrupt swings, indicating that before it can turn loose its wrath upon the ship in which they are about to sail, the god of the seas and winds must flow all the difficult avenues described.

So, according to the belief of the Chinese members of their crews, and the Canadian Pacific "Empresses" accorded safe passage across the Pacific. For forty years the Canadian Pacific Steamships, Ltd., have operated on the Pacific without any serious accident and practically no loss of life, and the Chinese are confident that this record has been achieved only by reason of their evorcism of the evil gods. Respectful of the religious beliefs and fancies of all its passengers, the company allows the Orientals to practise their religious rites with all ceremony and the privileged accident can watch the proceedings with amused and staid but expressed unbelief.

Success Is Guaranteed For Your Baking

QUAKER FLOUR must be not only the best in quality, but it must always be the same. We see to this by hourly tests during the milling process. But laboratory tests are not enough. Each day's milling is put to a practical test by our Master Baker. It must always measure up to the exact Quaker standard before it can go into the sack with the Quaker on it. All "chance" is taken out of your baking when you use Quaker Flour. "The happy baker uses Quaker."

JEFFREY GOODBODY,
The Rectory, Athens.

THE CORRESPONDENCE OF GASOLINE BILL.

He Goes Calling.

(By L. Glenn Earl.)

Dear Ed:—

Last night I called on neighbor Jones To borrow a needful hundred "bones," To tide me along 'till the Chevrolets, The little Fords and the classy Metz Have caught their springtime dose of chills,

And come to me to cure their ills. And as I talked to neighbor Jones, Of rates of interest charged on loans, His only daughter's nifty beau Called 'round to take her to a show.

The young man sat in a high backed chair, And for 'most an hour waited there While in her "boudoir" pretty Kate Fussed away—and let him wait.

From what I'd heard of the thoughtless lass, I knew she was standing before her glass, Arrayed in the latest style of clothes, Tinting her cheeks and powdering her nose,

Twisting around, this way and that, To see how she looks in her newest hat; For half her time is spent with rouge, Fluffy ribbons and dainty shoes, Lip sticks and talc, and vanishing cream,

Cold baths, and warm baths, and baths of steam; And after all her fussing and care, She doesn't appear one half so fair, As the youthful girl of some years ago,

Whose cheeks were flushed with a natural glow; Who spent her hours with a worthwhile book, And helped her mother to bake and cook.

No wonder Jones asks "eight per cent" On all the money he has lent.

As daughter Kate was arranging her hair, Her nifty young beau sat around in despair, And neighbor Jones still argued away On the cost of coal and the price of hay—

But, out in the kitchen, weary and hot, Is the poor Mrs. Jones, and she's quite forgot, As she labors away with a bucket of suds, Rubbing and scrubbing her daughter's duds";

Ironing and pressing so dear little Kate, Can sleep half the morning and linger out late, With the nifty young man whom she "happens" to know,

Has plenty of cash that he's willing to blow, To fill up her evenings with laughter and song, And "run" with the crowd to which they belong.

Friend Jones had argued himself out of breath, And Katie's young man was wearied to death, Before she appeared and called with a smile, "Oh Mother—I'm going out for a while,

I've asked Jack and Mazie, Helen and Joe, To drop in this evening, after the show; Will you please lay the table with places for six,

And I hope you don't mind if I ask you to mix A fresh chocolate cake—I forgot it before— And Dad, I do hope you won't litter the floor

With those horrid old papers and worthless books, You don't understand how untidy it looks." And Jones turned to me with a soulful sigh,

As he nodded the youthful pair, good-bye. But the young man's heart went pitty-pat, As he gazed at the maiden's gorgeous hat;

He approved of her dress, her gloves, and her shoes, The powder and paint and the layers of rouge; The dainty hands so white and fair, And the "permanent wave" in her golden hair;

He approved of them all as he thought with pride, What a radiant girl for a young man's bride.

But poor Mrs. Jones was well aware, How Kate kept her fingers so white and so fair, And she could have told the nifty young beau, A good many things that he didn't know—

For "mother" it was who would wash and sweep While the dainty young miss had her beauty sleep.

'Twas "mother" who mended the organdie dress, And spent half the evening trying to press The laces and frills and intimate stuff, That daughter requires to keep up the bluff.

Of being the classiest girl in her "set" And keeping the nifty young beau in her net.

As for me, I needs must whistle and smile, That I haven't a daughter to dress up in style, For instead of borrowing a hundred "bones"

As I did from a good old neighbor Jones, I'd nightly have to rob a "still," Or learn to operate a "still."

"Save the surface and you save all" - Paint & Varnish

NEU-TONE

The Flat Oil Paint For Interior Decoration

For the walls and ceilings of any room in your house, most delicate and harmonious effects can be secured by the use of NEU-TONE. It is cheaper and more sanitary than wall paper and will last much longer because it can be washed without injury. It positively will not rub off.

NEU-TONE is made in eighteen shades, and by the use of various tints most pleasing combinations may be secured.

MARTIN-SENOUR PAINTS AND VARNISHES

NEU-TONE is easy to apply. It covers well and leaves no brush marks, producing a dull, soft, velvety finish which will lend charm to any room in the house.

Any surface may be successfully treated with NEU-TONE—Plaster, wood, burlap or metal.

Call and let us explain the merits of this and other MARTIN-SENOUR finishes. For every purpose—For every surface. Our stock is complete and we can give you full information.

Farm Crop Queries

CONDUCTED BY PROF. HENRY G. BELL

The object of this department is to place at the service of our farm readers the advice of an acknowledged authority on all subjects pertaining to soils and crops. Address all questions to Professor Henry G. Bell, in care of The Wilson Publishing Company, Limited, Toronto, and answers will appear in this column in the order in which they are received. When writing kindly mention this paper. As space is limited it is advisable where immediate reply is necessary that a stamped and addressed envelope be enclosed with the question, when the answer will be mailed direct.

Copyright by Wilson Publishing Co., Limited.

V. B.—Please give me some suggestion on how to treat celery blight.

Answer:—To treat celery blight prepare a mixture of Bordeaux which is made as follows: Dissolve 4 lbs. quick lime in a wooden container and 4 lbs. copper sulphate in another wooden pail. Empty both of these into 20 gals. of water. Immediately you have made the solution spray it on the celery in a fine spray forcing it down among the leaves as thoroughly as possible. This spraying should begin as soon as the celery is well started after setting in the field and should be kept up at least five to seven times. Do not use the Bordeaux mixture if it has been standing any length of time, but mix up fresh material every time you have to spray.

K. K.—I would like to know whether I shall sow oats with the alfalfa seed this spring or alfalfa alone.

Answer:—Early oats make very good nurse crop to sow with alfalfa, especially if you are careful not to sow too much seed. I would recommend not more than a bushel to an acre if you are seeding alfalfa at the same time. Barley has been used with exceedingly good results since this crop ripens quickly and is out of the way by the time the young alfalfa is well started.

O. L. B.—Next spring I wish to sow alfalfa with winter wheat. Would it be advisable after top-dressing with farmyard manure? Would it be advisable to sow lime on the wheat, and what would be the best time to sow alfalfa?

Answer:—If you have not applied lime to the alfalfa ground I would advise that you scatter a fairly heavy dressing early in the spring before the frost goes out. This will sweeten the ground and should assist the growth of the bacteria that are found on the oats and alfalfa. In preparing your ground for the sowing of alfalfa you

might apply a light dressing of farm manure with good purpose, putting it on after the lime and before the frost has gone out of the ground, or you can get very good results by a top dressing of fertilizer, scattering it at the rate of about 200 to 300 lbs. per acre as soon as the soil is sufficiently dry in spring for a team to work on it, without injuring the growing crop. I would advise your using a mixture analyzing about 2-12-2, that is, 2 per cent. nitrogen, 12 per cent. phosphoric acid and 2 per cent. potash.

M. F.—I stored a quantity of dry black muck last autumn, and as my horse stable is about two feet from the ground I intend to make a box 3' wide by 1' deep, the whole length of the stable and place this directly under the gutter which is made of 2" plank; the bottom being perforated so as to let the horse urine drain through into the box below which is filled with dry muck, and will be emptied and refilled as required. Please let me know what chemical I should use in the muck to make a good fertilizer for potatoes, and other garden vegetables. Would it do to mix the chemical with the muck while it was dry before it got saturated?

Answer: I would advise that you add to the muck soil in question about 5 lbs. of acid phosphate, mixing it with the muck before you put it in the box. This will help catch and hold nitrogen from the manure. When preparing this for application to your potato field, for every ton of the mixture that you have taken out of the box add about 150 lbs. of muriate of potash. This should make a fairly well balanced fertilizer for potatoes. You should make a fairly heavy application of this to the potato soil, putting at least a double handful in each potato hill. However, see that this is mixed well with the soil before dropping the pieces of seed potatoes.

Poultry

To stop rot start immediately to increase the scratch feed. If possible, feed our skim milk, or buttermilk in some form.

Give them a dose of Epsom salts at once, at the rate of about one pound per 100 birds. Feed it mixed in a wet mash about two hours before they go to roost. You may have to keep other feed away for about six hours before feeding the salts, so they will be hungry enough to eat plenty. The next day start feeding ordinary ground sulphur or flowers of sulphur at the rate of one pound per 400 birds, in a wet mash, every day for ten days. Then give another dose of Epsom salts. If the birds are not by this time pretty well over their roop, repeat the treatment at the end of ten days again.

Like sugar, butter, cheese, etc., honey is a highly concentrated food stuff, but unlike the others, it is pre-digested.

Home economists figure that the farm kitchen ought to be at least 175 square feet in area. It should be well lighted, well painted, and have a lot of table space.

Three Posts to an Acre.

When I built my lane fence, which is about the whole length of the farm, I wondered why I couldn't figure out some way to tell where an acre was located by the distance across the end. Figuring the exact amount of land in farming, showed that I could set my posts so that three of them would just make an acre.

This saves me lots of time in estimating acreages. When a field is in corn I can count rows and tell about where I am, but in grain or hay I'm lost. Work this out on your farm.

—E. R.

To reflect back into human lines the last image of their living selves is the work of a master.

Dormant spraying is in order in the orchard, especially if you are troubled with scale insects.

Early—that's the word. Write for seed catalogs early, make your choice early, then order early. Plan for a hotbed and have early vegetables.

Only under urgent conditions should bee colonies be opened during the middle of winter or when it is very cold, since undue disturbance may start brood rearing, which would be very undesirable. Brood rearing should not start until spring nectar is available.

For Home and Country

Their Kindness Meant So Much

The sympathy of the Institutes of old Ontario with the fire sufferers of the North was deep and expressed itself in prompt and practical ways in the supply of food, clothing, materials for building and in money. In the late autumn a number of Branches sent cheques to the Department, sufficient in amount to give a small cash Christmas gift to each member of a Northern Ontario Branch who was spending the winter in the fire-swept region.

The accompanying letters, only a few of many sent to the Superintendent, indicate something of the appreciation with which this thoughtfulness on the part of their sister Institutes was received:

Charlton Women's Institute: (1) "Please accept my thanks for the very acceptable Christmas gift. Our Institute members in old Ontario have proved to be real helpers in every way and we are indebted to them for many useful things, also clothing, etc., and we fully appreciate their kindness, and I hope if ever it is our turn to help, we shall not be found far behind in doing our share."

Charlton: (2) "I was agreeably surprised to receive the letter enclosing postal note \$2.00 from old Ontario Institutes. I'm sure I am very thankful

to them, as we lost everything in the recent fire. The Institute is doing wonderful work."

Hanbury Women's Institute: "Allow me to acknowledge the receipt of three dollars, which I received last night. It is a welcome gift indeed, as we lost everything in the recent fire."

Whitewood Grove Women's Institute: "I received the letter containing postal note for three dollars (\$3.00) and many thanks for same—which is very acceptable at this time. It is very kind of the different Institutes to think of us in our loss, and we have had help from a number of the Branches, which we appreciated."

Heaslip Women's Institute: "Your letter of the 20th and postal note received. Please accept my thanks and appreciation for your kindness. Wishing you and all members a bright and prosperous New Year."

Thornloe Women's Institute: "I am dropping a few lines to thank you many times for the money order for \$3.00 you sent me. I am sure I appreciate this kindness very much. It means so much to me after losing so much in the great fire. Some of the Institutes certainly have done well to help us out and we all feel very grateful to them, and it makes us feel we want to do more for the Institute."

The Sunday School Lesson

FEBRUARY 11

The Spirit of Prayer, Luke 18. Golden Text—The sacrifices of God are a broken spirit: A broken and a contrite heart, O God, thou wilt not despise.—Ps. 51: 17.

Lesson Setting—The subject of our lesson today is that of prayer. The whole life of Jesus was an exemplification of the place of prayer in life. How often we see Jesus standing on the quietness of the mountain top to refresh himself by communion with God. Prayer was not for him a duty. It was a necessity. It was a real part of his life. Prayer was not for him an effort to bend the will of the Father to his will. It was a bending of his will to God's will. There are two parables on prayer in our lesson today. These parables deal with some aspects of prayer, not with the whole subject. After all a parable is a story meant to tell us a little about a great thing. Jesus does not explain "why" we pray but rather "how" we should pray.

I. Praying With Persistence, 1-8.

Vs. 1, 2. That men ought always to pray, and not to faint. Moffatt translates "about the need of always praying and never losing heart." It is not unending prayer that Jesus urges. A long prayer may be a very faint-hearted prayer. It is a persistent spirit rather than persistent utterance that Jesus commends. The opposition is not between praying always and praying sometimes, but between hopeful praying and hopeless silence. A judge, which feared not God, neither regarded man; a man holding a most responsible position, yet lacking absolutely the qualifications for that position. He repudiates God's moral law and man's claim for justice. His position and power were used wholly in his own interest. A hard man to move.

Vs. 3-5. There was a widow; a poor and friendless woman and therefore one who would have enlisted the sympathy of a just judge. He would not for a while; she could offer no bribe or corresponding gain. But afterward; because she did not desist in her entreaties. The justness of her cause would not let her be discouraged by the unjustness of the judge. I will avenge her. The persistence of the woman made her an annoyance. It is his own comfort he consults. Lest . . . she weary me. Lest she wear me out (cover me with bruises).

Vs. 7, 8. Shall not God avenge his own elect. If persistence wears down the hard heart of the unjust judge, what effect will the persistent cry of God's children have on the loving heart of the Father. If the judge's delay did not discourage the poor woman, why should delay discourage the elect of God. Though he hear long . . . he will avenge them speedily. If justice has its long delays, so has love. God cannot answer immediately always. We must wait long sometimes; but when the proper time arrives the answer will be as speedy (sudden) as the flash of lightning. God's delays are as loving as his answers. Therefore they should not make prayer to be faint. Shall he find faith. When the time is ripe for his coming, will it find God's elect praying in faith or waiting without hope.

II. Praying With Pride, 9-11.

V. 9. Unto certain . . . as trusted in themselves. From the parable of persistent hopefulness in prayer, Jesus passes to speak a parable showing the true humility of prayer. The spiritual condition of those for whom Jesus spoke the parable was that of self-confidence and self-satisfaction. And despised others; an inevitable result of self-admiration and complacency.

Vs. 10-11. Two men . . . a Pharisee . . . a publican; one man the typical religious man of the day. The other belonging to a class noted for their

unscrupulous dealings in raising the taxes. Going to the Temple was a habit with the Pharisee. Some stress of soul had driven the publican, prayed thus with himself. The prayer is a soliloquy of the Pharisee with himself, meant however to be overheard by others. The Temple brings no thought of God, but only a satisfied remembrance of himself. I am not as other men are. The Pharisee measures the difference between himself and others, not between himself and God. True prayer measures the gulf between God and one's own soul. Extortioners, unjust, adulterers. The Pharisee makes a dark background out of the lives of others, against which his own excellencies shine out radiantly. True prayer never makes religious capital and advantage out of the sins of others.

True prayer asks God to forgive and forget our sins rather than to remember our excellencies.

III. Praying With Humility, 12-14.

Vs. 12-14. Publican, standing afar off. The Pharisee stands apart in proud and confident isolation. The publican stands apart in shame and contrition. The Pharisee stands apart to be seen. Both betray their spirit in their attitude and bearing. Would not lift up . . . his eyes; not because he is ashamed in the presence of the Pharisee, but because he realizes that he is in the presence of God. Prayer kept the Pharisee apart from God and man. Prayer brought the publican to the feet of God. God be merciful to me a sinner. The publican has not only the right attitude and the right spirit of prayer, but also the right content of prayer. He confesses his utter sinfulness and unworthiness. He expresses his need of and desire for mercy. He utters no defence or praise of himself, and no condemnation of others. This man went down . . . justified. The Pharisee did not find God because he did not seek him. The publican went to his home with complete pardon and with a sense of that pardon. The Pharisee went to his home the same proud, unsympathetic, unloving soul. The publican went to his home a new man.

Application.

The story of the man borrowing a loaf at midnight (Luke 11: 5-8), and the story in this lesson, of the unjust judge, go together; and taken together they make it very evident that our Lord put great importance on persistent prayer. "Importunity" is the word in Luke 11: 8. Dr. Moffatt translates it, "He will give you whatever you want, because you persist." Again, as illustrating how emphatic is Jesus on this matter, Dr. Adeney, in the Century Bible, says that "ought" in Luke 18: 1 is literally "must"—that is to say, "It is absolutely necessary to pray, and that perseveringly—under all circumstances, never abandoning prayer in despair."

Christ follows the story with the question, "Howbeit when the son of man cometh, shall he find faith on the earth?" Shall he find the faith that is requisite for this persistent prayer? If Christ stressed persistence in prayer, how much oftener he spoke of faith! "According to your faith, be it unto you." Why are ye fearful, O ye of little faith? "If ye have faith as a grain of mustard seed, ye shall say unto this mountain, remove hence to yonder place; and it shall remove; and nothing shall be impossible unto you." The power of faith, why, Jesus declares it equal to anything. It can do the seemingly impossible.

Fundamental Principles of Co-Operative Marketing

By R. D. Colquhoun, B.S.A., Professor of Marketing Economics, Ontario Agricultural College.

ARTICLE V.

A co-operative marketing association must have a contract or marketing agreement with its members by which the members agree to deliver all their product, of the kind handled by the association, to the association for marketing. There is nothing new in this idea. It has been in operation in Denmark for over 40 years. In California the contract idea has been in force for over 20 years. All the great co-operatives of that state and many of the associations that have, within the last few years, sprung up in other states and in Canada, have binding contracts with their members. It is not generally realized how extensively the contract idea has taken hold. Suffice it to say then, that in 1922, according to conservative estimates, at least a billion dollars (\$1,000,000,000) worth of farm products were marketed by the co-operatives of Canada and the United States under definite contracts with their members.

There are two general types of contracts in common use. The first is known as the term contract. It runs for a definite number of years. The length of time covered varies, but five years seems to be the most popular term. Some are for seven years. One, signed by the raisin growers of California, runs for 14 years. The method is to sign up the members for a definite term at the end of which all the contracts expire. A renewal campaign is then put on and the members signed up for another definite period. The other type of contract is called the self-renewing type. It is a contract which continues in force indefinitely but which may be cancelled by

either the association or the member under certain specified conditions. Cancellation can be made only at the end of the crop year after due notice has been given within specified dates. The contract of the Ontario Co-operative Dairy Products Limited, a new organization for the co-operative selling of Ontario cheese, has a contract which is a combination of these two types. It is a term contract to begin with, having no withdrawal privileges during the first three years. After that it becomes a self-renewing contract and may be cancelled at the end of 1925, or of any year thereafter, by giving notice between December 1 and December 15.

There are many good reasons for having a contract. A few will be briefly enumerated.

1. It ensures volume of business. No co-operative marketing association should begin business until it is assured of a sufficient volume of business to ensure economical operation. In the organization period a definite objective should be set and unless the objective is attained the organization should not begin operations. Under the contract system it is possible to definitely ascertain when the minimum volume which has been set as the objective has been signed up. This goes a long way toward assuring the success of the undertaking.

2. The contract holds the organization together. Those who oppose co-operative marketing always try to incite the farmers against signing the contract. They know that it destroys their greatest weapon in fighting co-operative marketing. Their favorite plan is to split the farmers up by going into isolated districts and offer-

SMOKE

in ½ lb tins and 15¢ pkts.

OLD CHUM

The Tobacco of Quality

ing higher prices than the market warrants in order to steal away the members' patronage. This weakens the association and carried far enough breaks it up. Then they have the field to themselves again and can soon make up any losses they have sustained. With the marketing agreement signed by all the members outsiders have no opportunity for breaking up the association in this manner. The members in each district need have no fear in staying by their association for they know that the members in all the other districts having signed the same agreement, are also standing by it. The marketing contract is really an agreement between the members that they will stick together and give their association a chance to show what it can do.

3. A better manager can be secured. With the assurance of a large volume to handle over a period of years more capable men can be interested and their services obtained.

4. With an assured and known volume to handle the management can negotiate sales knowing that the product will come forward to fill the orders. This greatly strengthens the position of the association in the market. If there is danger that the market will not absorb the volume handled at good prices the situation can be foreseen and the market extended by judicious advertising and other means.

5. Great economies can be effected in handling the product. Under competitive methods of marketing a great deal of effort and money is expended in drumming up business. This is one of the greatest sources of expense. With the product contracted by the members the management of a co-operative marketing association is saved all this outlay. The volume comes forward under the terms of the contract and the management can devote all its energy to efficiently marketing the product.

Other advantages of the contract system could be enumerated but these must suffice. It is a common saying that the farmers will not stick together. The co-operatives which have adopted the contract have no trouble on this score. A definite and binding contract is a feature of all the large and permanently successful co-operative marketing associations on this continent and it is recognized by all authorities as a fundamental to the success of a co-operative marketing enterprise.

It pays to protect sheep from winter winds and rains. Any rough, inexpensive shelter will serve.

A Million Backaches.

One of the sad mistakes that this Dominion of ours has made, is in allowing the idea to persist that a kitchen sink should be just so high, regardless of the length of mother's mortal frame.

It may be too much to say that all the ills of our beloved country can be traced to the fact that the wash-tubs are only twenty-seven inches from the floor, whereas they ought to be thirty inches because mother stands five feet four. But we do know that lawyers and politicians are all the time throwing fits over questions that are absolutely trivial and childish compared to this.

If mother is so tall, tubs, sink, table, stove, and ironing-board ought to be so high from the floor. If she is taller, they must be higher. Even if, by some miracle, she were to be four feet ten one day and five feet eight the next, every one of those blessed things ought to be changed every time she did.

That is what we think about the real importance of backaches.

Dehorning Calves.

Many are familiar with the simple process of preventing the growth of horns on calves. Moisten the spot where the horn is to grow, and rub it with a piece of caustic potash till it looks red. That is all. An agricultural paper we read recently says: "Rub till the skin is broken and it begins to bleed." This is not necessary. As soon as the place begins to look even slightly irritated it need be rubbed no longer. It is best to do this before the calf is two weeks old. Only a little moistening with the finger, dipped in water, as all that is required.

What teeth will you wear in 1930—yours or some store's? It pays to care, and to take care.

Irrigated Farms in Southern Alberta

In the Famous Vauxhall District Bow River Irrigation Project An especially good location for mixed farming and dairying. Splendid opportunity for young men now living in districts where good land cannot be bought at reasonable prices. THIS IS NOT PIONEERING, the first 10,000 acres are fully settled and another 10,000 acres now ready for settlement; maximum distance from railroad seven miles. Good roads, telephones and schools. Easy payments, extending over 15 years. This is the Best Land Buy in Alberta Write for further information to: CANADA LAND AND IRRIGATION COMPANY, LIMITED Medicine Hat, Alberta

TIRED-OUT WOMEN

What They Need to Restore Health and Vitality.

The woman who feels tired out, who aches all over when she rises in the morning, who feels depressed most of her time, needs just the help that Dr. Williams' Pink Pills can give her—new rich blood and stronger nerves.

The number of disorders caused by thin blood is amazing, and most women are careless about this condition of their blood. Their nerves are quickly affected, and they become irritable; they worry over trifles, and do not obtain refreshing sleep. There may be stomach troubles and headaches. This is the condition that calls for Dr. Williams' Pink Pills, the blood-making and nerve-restoring tonic. The value of this medicine is proved by the statement of Mrs. John Conroy, Fall River, Ont., who says:—"Two years ago, after the birth of one of my children, I became so run-down that I had to wean the baby and could not do my housework. I lost appetite, took no interest in anything, and was in a pitiable condition. I tried different doctors, but they did not help me very much. I was in this condition all summer until a neighbor advised me to try Dr. Williams' Pink Pills. After taking two boxes I felt somewhat better and got a further supply. I found my appetite improving; I could do my housework, and living again seemed worth while. I continued taking the pills for some months, and was then enjoying the best of health. I cannot too strongly recommend Dr. Williams' Pink Pills to anyone run down and in need of a tonic as they built me up, and there is no sign of anaemia about me today."

You can get Dr. Williams' Pink Pills from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Red lights can be seen at a greater distance than green.

Minard's Liniment for Neuralgia.

HEALTH EDUCATION

BY DR. J. J. MIDDLETON
Provincial Board of Health, Ontario

Dr. Middleton will be glad to answer questions on Public Health matters through this column. Address him at Spadina House, Spadina Crescent, Toronto.

The motion picture has come to stay as an educational factor of great value in health propaganda. Many and varied are the topics that such a film may cover, all of which are able to deliver a forceful message that could not be got across to the public in any other way.

A valuable contribution to the teaching of Child Hygiene is supplied by a new film entitled "Baby's Bath and Toilet" in which the advice offered is shown being put into practice by actual scenes. Plenty of fresh air and lots of sunshine should enter the baby's room. Shield its eyes from direct sun or light rays, and guard against draughts. Warm, stuffy air is demoralizing and increases the danger of catching cold. The baby should sleep alone, not in a cradle. A crib is best. This will eliminate the ever-present danger of smothering, over-nursing, or shutting off fresh air. Strongly protest against the habit of kissing the baby on the mouth, as disease can thus be carried to the baby. Handle the baby as little as possible, and always support its head and back. Keep a careful record of its weight. Weigh it regularly every seven days under identical conditions, after bowel movement and before feeding, etc. The baby should gain 4 ozs to 8 ozs. each week. It must be bathed at least once a day and the temperature of the bath for the first

two weeks should be 100 deg. F. and then 98 deg. F. After six months 97 deg. F. coming down to 90 deg. F. A bath thermometer should always be used. Wash hands scrupulously clean before giving bath. Baby should have its own tub. Many boils seen on the tender skin of an infant are due to the careless use of the family tub.

Old-fashioned white Castile soap is best, with clear soft water. The folds of the skin, creases in the neck, the clenched fists, must all receive particular care. First dry the baby thoroughly and then sprinkle talcum powder. Carefully remove excess to avoid caking on the skin. Oil is carefully put into each nostril with toothpick having cotton wrapped on end. Weak boric acid solution for the ears. Two or three drops of weak boric acid solution for the eyes.

Baby's clothes should be loose and roomy and of loosely woven material, to allow ventilation for the skin. It should be clothed according to the weather to insure uniform body temperature. Feet and hands should be kept warm and the head cool. Too much clothing will cause sweating. Wet clothes should be changed immediately, and the skin carefully dried and talcum powder used.

A film of this kind, showing the actual carrying out of these principles in the care of the infant, cannot fail to be of practical value to mothers and prospective mothers.

The Meaning of a Cough.

A cough is a reflex action; that is, it is a succession of co-ordinated muscular movements intended to force a column of air through the respiratory tube so as to expel some irritant that is lodged there. This irritant causes a disagreeable sensation in the mucous membrane of the tube, and the nerves carry news of it to a centre in the spinal cord, which sends back an order to the muscles to start the mechanism by which the thing can be removed. When the irritant is a drop of mucus or other secretion the cough sends it up to the mouth, but when the trouble is a spot of inflammation without secretion the cough does no good and may do harm by keeping the part inflamed.

Irritation or inflammation in other parts that are served by branches of the same nerve that guards the larynx may also excite a cough. The centre in the spinal cord cannot always tell from what organ it receives the news; becoming confused, as it were, it may interpret it as coming from the air tubes. Thus a cough occurs not infrequently in children who are teething; or a cough may be owing to a reflex excited by a foreign body or by an accumulation of wax in the ear or perhaps by actual inflammation.

A so-called nasal cough is not at all uncommon. It is produced by some irritant of the mucous membrane that covers the posterior part of either of the nasal cavities. The irritant may be a little dust or a foreign body such as a pin; or it may be a tumor. The cough that occurs with a beginning cold in the head is usually owing to nasal inflammation rather than to any trouble in the larynx.

Sometimes a little irregularity in the heartbeat excites a slight cough; and disease of the heart or of the kidneys may cause a little dropsical swelling in the air tubes and thereby may excite a cough that is both ineffectual and troublesome. A gouty condition also may excite a bothersome cough; happily, however, it can be promptly allayed by treating for gout. Finally, inflammation of the pleura—that is, the membrane covering the lungs and lining the chest—almost always causes

a distressing and painful cough. Thus we see that a cough is not a simple matter with a single definite cause; we should realize therefore the necessity of a careful medical examination when a cough persists and the foolishness of swallowing some nauseous and possibly dangerous medicine just because it relieved a friend's cough, which may have been owing to some entirely different cause.

Greenland Moving West 20 Yards a Year.

The earth is wobbling on its axis, according to Col. P. Jensen, the Danish scientist, who returned recently from a degree measuring expedition into Greenland, says a London despatch. He reported that Greenland is moving westward at the rate of twenty yards a year. This seems to confirm the recent reports of surprising climatic changes at the North Pole.

It is now established that there is a periodic shifting of the latitudes of the North Pole. The movement is difficult because of the small area of the Pole—about the size of a tennis court. Some authorities say that the poles are gradually changing their positions, and that this alteration to the world's axis will in time mean that regions which are at present icebound will become warm and habitable countries.

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are so changeable—one bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Lilliputian Flying Machines.

An outstanding feature of the aeronautical world is the influx of the Lilliputian machines. One type is known as the "pocket aeroplane." It is from a design by A. W. Whippet and is so small that it can be dismantled and packed in a fair sized trunk. The designer claims that it can develop a speed of 100 miles an hour. The "British Crow," weighing under 250 pounds, has a span of 15 feet and will develop 75 miles an hour. Lieutenant E. Passepourt, a French designer, claims to have turned out the smallest aeroplane in the world. It has a span of ten feet.

The initial outlay and the cost of the upkeep of these midget aeroplanes have received every consideration. The average purchase price ranges from \$900 to \$1,250, and a fair example of performance is given by the "Avro Baby." It is equipped with a 25 h.p. Green engine, and is capable of a speed of 75 miles an hour and will give 25 miles on a gallon.

M. L. MEHLER

The Ultimatum.
Cook—"I won't stand for that man's temper! You either gets a different husband or a different cook!"

A Costly Comma.

It is said that a comma once cost the Government of the United States \$2,000,000. The tariff bill, in which the mistake occurred, provided that "foreign fruit plants, &c." should be admitted free of duty, the idea being to encourage the culture of high grade varieties of fruit trees and grapevines in that country. When the bill was printed "foreign fruit plants, &c." read foreign fruit, plants, &c., and as a result oranges, grapes, lemons, bananas, &c., came into the United States free of duty for a year. The error cost the government just \$2,000,000 in revenue.

Too Cheap.

Pasted on the window of the book publisher's store was the sign, "Porter wanted," and in the window itself on a pile of books the placard, "Dickens' Works All This Week for \$4." The able-looking Irishman read the sign and then the placard. He blurted out: "Dickens may take the job! Dickens can work all the week for four dollars if he wants to, but I'll not touch it. Ye'd better keep Dickens."

British Houses of Parliament.

The Houses of Parliament cover an area of eight acres, and have a river frontage of 940 ft. They contain more than five hundred rooms, and about eighteen residences, the resident population being about two hundred.

VETERAN TELLS HOW HE ESCAPED

Declares Tanlac Freed Him From Stomach Trouble, Swelling and Weakness Left by Pneumonia.

George L. Lewis, Boullie St., London, Ont., well-known carpenter and veteran of the South African and World wars, has added his name to the long list of Ontario people praising Tanlac for the benefits they have derived from taking the medicine.

"Last winter," said Mr. Lewis, "I was down with pneumonia, and after that I couldn't get my strength back and was unable to work. I had no appetite, and if I did dare to eat it only caused me more suffering with my stomach. I had neuritis in my legs, and my feet would swell up till I thought they would burst. My kidneys were out of order, and it was impossible for me to get a good night's sleep."

"But I have taken on new hope and courage since I started taking Tanlac. I can just feel the medicine building me up. My appetite has come back full strength, I can sleep like a top, and you can bet I'll stick to Tanlac." Tanlac is sold by all good druggists.

Meat Consumption Figures.

The average per head consumption of meat of all kinds, exclusive of poultry and game in Great Britain, was about 120 pounds a year prior to the war. Of this amount three-fifths was home-produced, and two-fifths was imported. Of the over-seas supply 70 per cent. of the mutton, 17 per cent. of the beef, and 9 per cent. of the pork came from within the Empire—Canada, Australia, New Zealand and South Africa.

MONEY ORDERS.

The safe way to send money by mail is by Dominion Express Money Order.

A Bargain Sight.

"You don't mind if I leave my hat on, do you?" asked the sweet young thing of the little man in the seat behind her at the pictures. "Not at all, miss! Not at all!" replied the little man. "I enjoy looking at bargains."

IF STOMACH IS TROUBLING YOU

Instantly! End Indigestion or Stomach Misery with "Pape's Diapepsin"

As soon as you eat a tablet or two of "Pape's Diapepsin" your indigestion is gone! Heavy pain, heartburn, flatulence, gases, palpitation, or any misery from a sour, acid stomach ends. Correct your stomach and digestion for a few cents. Each package guaranteed by druggist.

WOMEN FROM FORTY TO FIFTY

Will Be Interested in Mrs. Thompson's Recovery by Use of Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"Lydia E. Pinkham's Vegetable Compound has done me good in every way. I was very weak and run-down and had certain troubles that women of my age are likely to have. I did not like to go to the doctor so I took the Vegetable Compound and am still taking it right along. I recommend it to my friends and to any one I know who is not feeling well." Mrs. THOMPSON, 308 Lizzie St., Winnipeg, Man.

When women who are between the ages of forty-five and fifty-five are beset with such annoying symptoms as nervousness, irritability, melancholia and heat flashes, which produce headaches, dizziness, or a sense of suffocation, they should take Lydia E. Pinkham's Vegetable Compound. It is especially adapted to help women through this crisis. It is prepared from roots and herbs and contains no harmful drugs or narcotics. This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women." O.

Here and There

Vancouver as a grain port has gone over the top and is assured of achieving the 15,000,000 bushel objective set for the 1922-1923 crop year, according to statistics issued at the Vancouver Merchants Exchange.

A Canadian Pacific Railway train, over half a mile long, left Oshawa for New York recently. The train was composed of 52 flat cars, each carrying from four to six automobiles, and was the first solid train to leave Oshawa for New York.

Making the heaviest loading since the big crop year of 1915, grain loaded on the western lines of the Canadian Pacific Railway from September 1st, 1922, to March 7th, 1923, inclusive, totalled 118,565 cars. This is 16,000 more cars than were loaded during the corresponding season of last year.

While in mid Pacific, the wireless operator of the Canadian Pacific Steamship "Empress of Russia" was in touch with the Leaffield wireless station in England, and received a number of news items. "The ether waves were evidently carried across the North Pole, as we were on the other side of the world," said Captain A. J. Hosken, commander of the liner.

An Owen Sound deputation which recently interviewed Canadian Pacific Railway officials in Toronto, urged the building of a line from Owen Sound, through Meaford and on to Collingwood, and then on to a point on the Sudbury line near Coldwater. The officials are reported to have been interested by the suggestions made by the delegation.

Captain A. J. Hosken, R.N.R., of the Canadian Pacific Steamer "Empress of Russia," has been awarded the Medaille d'Honneur de Sauvelage de premiere classe by the French Government, for the part taken by him as commander of the liner "Monteagle" in saving the crew of the French steamer "Hsin Tien", off the China coast.

There is a gold rush on to Rouyn township, in northern Quebec, to Labrador and now to the Sag district. In fact, the whole northern district has immense areas of rock bearing more or less gold, and the question is whether the quantity is large enough to make a real mine. Gold mining will be one of Canada's greatest industries twenty-five years from now.—"Mail & Empire."

Still another case of children travelling alone. Elmer Lann, five years old, and Roland Callwell, seven years old, both living on St. Denis street, Montreal, were missed by their parents who did not hear of them after their disappearance until notified by Canadian Pacific Railway officials that the children were in Quebec city, to which place they had begged a ride.

The initial shipment of cattle since the Embargo removal was recently inspected by the Hon. W. P. Motherwell, Minister of Agriculture, in the C. P. R. stock yards, Montreal. They were still-fed Ontario cattle from along the Canadian Pacific west of Toronto, with the exception of one car load of Western cattle, the latter being in the best condition despite the fact that they had had a 24 hour run from North Bay. The minister expressed the opinion that the cattle being shipped were of the first quality.

It has remained for the Canadian Pacific experimental farm at Strathmore to demonstrate beyond the possible shadow of doubt that the intensive trench silo system of providing winter fodder for cattle is, under favorable conditions, quite equal to the costly structures which have in the past been utilized and that the silage is in every sense excellent. This was proved to the satisfaction of a large party of agricultural and business men, who recently visited Strathmore as the guests of the Canadian Pacific Department of Natural Resources in

Spent 43 Years in Teaching Profession

Mr. E. Wight, of Ottawa, one of the prominent educationalists of that city, spent the Easter vacation at his old home here. He has been connected with the teaching profession for 43 years—30 years of which was spent in the Capital City. Mr. Wight expects to superannuate in the near future, and should he decide to locate in his old home town, he will receive a most cordial welcome, from his many friends.

MALLORYTOWN YOUNG MEN IN EXODUS TO WORKS IN DETROIT

Seven Have Left Vicinity in Last Few Weeks.

NEWS OF THE DISTRICT

Crossing on Ice to Grenadier Island is Still Reported to be Good.

Mallorytown, April 2.—During the last few weeks no fewer than seven young men from this vicinity have gone to Detroit, Mich., to engage in work.

Charles Mallory, of the British Whig staff, Kingston, spent Easter Sunday in the village.

A. Votier, manager, Seeley's Bay, A. P. Clark, Odessa, and E. H. Willis, Lyndhurst, are the new members of the bank staff at Mallorytown.

Mrs. W. C. Lee has gone to Kingston to spend holidays in the home of Mr. and Mrs. Leman A. Guild.

Mrs. Percy Gardiner, of Ottawa, was the guest of her uncle and aunt, Mr. and Mrs. R. W. Tennant, last week.

William Brown's team executed a lively runaway on Saturday. They upset a load of straw at the Charles Mallory farm and ran to the G. T. R. crossing, where they collided with a telegraph pole. As a freight train was passing at the time, they would have been killed had not they smashed into the pole.

Miss Viva Dixon, Winnipeg, is the guest of her grandparents, Mr. and Mrs. R. W. Tennant.

Orval Buell, son of O. L. Buell, is in the Brockville hospital suffering from blood poisoning in the hand. The crossing to Grenadier Island is reported to be good at the present time.

Douglas Mallory, of Ottawa, spent Easter with his parents, Mr. and Mrs. H. M. Mallory.

Miss Laura Jordan, Ottawa, is home for her holidays.

Elmer Quinsey left last week for Detroit, Mich.

Mrs. Daniel Hollingsworth and her daughter, Allie, are visiting in Iroquois, guests of the former's sisters.

RIVERDALE

Riverdale, April 3.—Mrs. William Dyer was in Prescott on Monday.

Charles Sherwood, Toronto, renewed acquaintances here last week.

Charles E. Miller, Kingston, visited his parents, Mr. and Mrs. Alex Miller, last week.

John Morris, Athens, spent Easter Sunday with W. R. Henderson.

Charles Knill is building a new summer cottage at the river.

Alex Miller made a business trip to Ottawa on Saturday last.

H. Turner, from the second concession, has rented George Dyer's place and is taking up residence there this week.

Mr. and Mrs. F. B. Vandusen and daughter have returned to their beautiful home here on the highway, after having spent the winter in town.

Mrs. Clayton Brown, Boston, and Mr. and Mrs. Bradley and daughter, Ottawa, are spending the Easter holidays at the parental home. Mr. and Mrs. A. Haggerty's.

FOR SALE OR TO RENT

The MORT. WILTSE FARM on the eastern side of the village, consisting of 110 acres of land of good quality and well watered. Possession immediately. Apply to

TALK ON HEALTH WORK IN SCHOOLS AT BISHOP'S MILLS

Dr. Mackenzie Smith and Nurse Campbell Heard.

NEWS NOTES OF DISTRICT

Ayrshire's From Washburn's Corners Herd Are Going to New Ontario.

Bishop's Mills, March 27.—Quite a number attended the meeting in the Temperance Hall on Thursday evening and heard interesting addresses given by Dr. Smith and Nurse Campbell on dental and medical inspection in the schools.

Wilbert Beulah, Miss Rena Beulah and Miss Stella Richardson, of Merrickville, were visitors at E. Hurlbert's this week.

Mrs. T. Greer is visiting at the home of her brother, James Bovard, Oxford Station.

Mrs. R. McCoy is visiting her brother, E. McDonald, of East Oxford.

Mr. and Mrs. A. Wier and Melvin Wier were visiting at O. Bishop's, Oxford Mills, on Sunday last. Dr. Armstrong has purchased a horse from A. McGovern.

FRANKVILLE

Frankville, March 27.—J. I. Smith, proprietor of Farmers' Friend cheese factory, is installing a new boiler and getting ready to open his factory in a few days.

Mr. W. H. Bourns is confined to his room these days, being laid up with his old complaint whereby he has to stay quiet for some time. Nurse Paul is in attendance.

Edward Richards, our oldest citizen, is confined to his room for some days. It is hoped that warmer weather will again see him able to be around.

N. Moore is putting a stock of groceries in the Kibera block, formerly occupied by the Bank of Montreal and will be open for business in a few days.

Most of the farmers have finished taping the trees, but so far no syrup has been made that is heard of.

Many old friends of G. M. Dowsley were pained to hear of his death which took place at his home in Brockville on Monday morning. Deceased was born and spent his boyhood days here. Early in life he worked for A. Coad at Toledo and for many years since had been a traveller for many well known firms. He leaves, besides his widow, three sisters and three brothers: Mrs. M. L. Livingstone, here; Mrs. D. Dunham, Oledo; Mrs. Bert Barber, Plum Hollow; Ralph Dowsley, Calgary, W. C. Dowsley, Brockville, and Roland, here.

Lansdowne, March 28.—The Lansdowne cheese and butter factory opened for the season on Monday with Walter Campbell as maker.

Mr. and Mrs. John Shields returned on Saturday from Ottawa where they had spent the past three months with their daughter, Mrs. Wier.

Mrs. William Sheppard continues to be very ill.

Hubert McCleary, Earl Webster and Morrison Foley left on Monday night for Detroit, where they expect to get work.

Mrs. Landon and daughter, Miss Lettie, have returned to Fairfax after having spent the past three months in the village.

Some farmers who have sugar bushes have tapped, but report a poor year.

Mrs. Whalen, of Brockville, who was visiting her daughter, Mrs. (Dr.) Mackie, has returned home.

Robert Shields was taken to the General Hospital, Kingston, last night to undergo an operation for appendicitis.

Washburn's Corners

Washburn's Corners, March 27.—The farmers here have tapped their bushes and are awaiting results.

Mrs. J. W. Richards and daughter visited at the Corner last week.

Donald Hamblen went to Gananoque on Monday to open his factory there for this season, after just returning from the Kingston Dairy School where he took the long course and completed his exams.

Mr. Collier, of New Ontario, visited the Ayrshire herds here and bought a number from the best breeder, John Hamblen.

Easter Services Well Attended

A Brief Synopsis of the Sermons Delivered in the Various Churches on Sunday

CHRIST CHURCH

"If ye then be risen with Christ, seek those things which are above"—Col. 3-1

"The dominant note of Easter is joy" said the Rev. V. O. Boyle, M. A., B.D., Rector of Christ Church, in his Easter morning sermon, when he pleaded with the large congregation present to try to experience in their own hearts the spiritual joys of Easter. The resurrection means that Christ won the victory over sin and Satan, man's greatest enemies. We share that victory and in His strength can conquer all sin. The resurrection also means that Christ conquered death, and thereby opened to mortal man the gates of life everlasting. The resurrection further means that our Saviour is not dead but living. The heathen bow down to wood and stone—dead Gods. We worship the living Christ, who is ever present with us, through the Holy Spirit. The best way to grasp these great resurrection truths and to experience the spiritual joys of Easter, is to rise with Christ and "seek those things which are above, where Christ sitteth on the right hand of God." The choir, under Mrs. V. O. Boyle, leader and organist, rendered a beautiful anthem—the solo parts being sung by Miss Pearl Burnham and the Rev. V. O. Boyle. During the communion, Mrs. Boyle, in her clear, sympathetic soprano, sang the beautiful solo—"He Was Despised." A large number received their Easter communion and a substantial offering was given to missions.

BAPTIST CHURCH

"But now is Christ risen from the dead, and become the first fruits of them that slept"—1 Cor. 15:—20

The Easter service in the Baptist church on Sunday afternoon, was much appreciated by the congregation present. Both the music and sermon were in harmony with the occasion. The pastor, Rev. Mr. Currie, took for his subject—"The Resurrection"—claiming that Christ was the first fruits—the beginning of the first born from the dead—the Head of the church. In harmony with the scriptures the order of the resurrection was then considered. According to Lev. 23:10—"A sheaf of first fruits to be waved before the Lord," an assurance of the whole harvest to be gathered, laid broad and deep the foundation of the Christian hope—Jesus, our Lord, the first fruit of the resurrection than they that are His, at His coming. Both the saints and the wicked are to be raised and the question naturally arises—how are the dead raised. Taking the first sheaf as a criterion, involves a resurrection of the body. The same body laid in the tomb arose. The napkin was folded in order and after He arose He said to His disciples—"It is I, handle Me." He also ate and drank in their presence. At His coming, the dead in Christ—their bodies will be raised incorruptible, the living saints changed or mortality swallowed up in life. Two scripture citations should confirm this glorious fact—"Who shall change our vile bodies (body of our humiliation—R. V.) that it may be fashioned unto His glorious body." "It doth not yet appear what we shall be, but we know that when He shall appear, we shall be like Him, for we shall see Him as He is." Praise God for immortality, brought to light in the resurrection of our Lord.

HOLINESS MOVEMENT CHURCH

"I am the Resurrection and the Life" John 1:—25

The Easter service in the Holiness Movement church was held on Sunday afternoon, and Rev. Mr. Burgess of Lyn, occupied the pulpit and preached to a fair sized congregation. The pastor took for his theme—"The Resurrection" and clearly outlined in his discourse what this great event meant to the world at large, and the church in particular. The singing and music were much appreciated and the beautiful solo by Mr. and Mrs. John Eaton appealed to all. The service was most edifying and left a deep impression on the minds and hearts of those present.

ST. DENNIS' CHURCH

"He is risen, He is not here."—Mark 16:6

The festival of our Lord's resurrection, one of the most joyful events held in the ancient church, was observed in St. Dennis' church, Athens, on Sunday morning at 9 a. m. Notwithstanding the state of the roads and the early hour there was a large congregation present, when solemn mass was celebrated by the Rev. Father Cullinane, followed by a sermon on "The Resurrection" from the gospel specially appointed for the day—Mark 16: 1-7. He spoke from the words—"He is risen, He is not here." Special Easter music, suitable for the occasion was rendered by the choir, under the able leadership of Mrs. Daniel Heffernan. The term Easter, is derived from the Saxon word "Ostra" or Eostre, the goddess of spring. Previous to the year 325 A.D., there was no uniformity of observance and at that time the Council of Nicee, fixed the date of Easter. The key to the festival is set forth in the exultant words of St. Paul—"Now is Christ Risen."

METHODIST CHURCH

"Now we see through a glass darkly, but then face to face."—1 Cor. 13:—12

Services in the Methodist church on Easter Sunday were inspiring and helpful. There were very large congregations both morning and evening. Although the weather and roads were not as favorable as might be expected at this season of the year. The floral decorations as usual were very tastefully arranged. The choir under the direction of Miss Carrie Robinson rendered two anthems at each service in a very acceptable manner, the solo parts being well executed by the Misses Vera Topping Francis Wiltse, Marion Robinson and S. Hollingsworth, jr. The pastor also sang Leaman's "Christ is Risen" and in the evening "Open the Gates of the Temple." The pastor in his morning sermon spoke of the tendency of the secular world and of the church to make Easter Day, a day of parades, music, fashion exhibitions, etc., instead of calling to mind its real meaning. A world of sinning men and women need a saviour. Easter reminds us of the sacrifice made for sinners. A world of men and women among whom death has made a wide furrow needs consolation. Easter reminds us of Him who said—"Lo, I am with you always" and also reminds us of our immortality. In the evening, instead of having a service wholly choral or even a sermon, the pastor left the beaten track and read excerpts from about twenty of the greatest poets of the last 1600 years from which he showed that these great men and women, who had helped mould the thought of the world and had done much for civilization had all been believers in immortality.

MAITLAND

Maitland, April 2.—Charles James met with a very serious accident on Thursday when he fell from the roof of the cheese factory where he was making some repairs, to the ice of the river, a distance of about 30 feet. The extent of his injuries is not known, but his many friends hope for a speedy recovery.

Mrs. W. Wilson and son, of Ottawa, are visitors at the home of Mrs. Ross Thompson.

Mrs. Robert Flannigan is very ill at her home here.

Maitland school is being improved by a new hard wood floor. The work is being done by George Quarters and Hilton Rockey.

Miss Lillian Collier is home from her school near Gananoque for the Easter holidays.

A. McLaugh, a former resident, called on friends in this section recently.

Mr. Cass, of Chesterville is taking Mr. James' place in the factory for the present.

Little Mildred Gardiner, your best daughter of Mr. and Mrs. Milligan Campbell, is ill with pneumonia.

LAING COMPANY IS IMPROVING PLANT AT CROSBY STATION

Mechanics Are Installing Machinery at Receiving Station.

NEWS NOTES OF DISTRICT

Some Farmers Despair of Any Sugar-Making Owing to Lateness of Season.

Crosby, March 27.—A portion of the machinery has arrived at the receiving station of the Laing Produce & Storage Co., Limited, here and mechanics from Brockville are busy installing same. It is intended to skim here this summer and the machinery consists of coolers, separators, pipes, etc.

The weather as yet has not proved favorable for sugar-making. There has been no sap as yet. The farmers are doubtful of any sugar-making this year as it is so late in the season.

Mrs. Ernest Barker and baby returned home from Detroit on Saturday evening. They were accompanied by her mother, Mrs. W. J. Proud (who has been ill for the past two months), and Miss Florence Proud.

James Mulville, Westport, spent Monday at Fred Mustard's.

Harry Barker has had his house wired for electricity.

Miss Nellie Bryden returned to her home in Elgin on Sunday.

ELGIN

Elgin, March 27.—Mrs. T. Wright has returned from spending some time with her daughters in Brockville.

Ormond Coon went to Kingston on Saturday last and accompanied home his sister, Miss Marion, who has been a patient at the General hospital for the past nine weeks.

Mrs. George Patterson returned from Gananoque on Saturday from caring for her daughter, Miss Mae, who is quite ill with typhoid fever. She has since been removed to the Kingston Hotel Dieu hospital.

Master Allan Kelsey, Newboro, was a week-end guest of relatives.

Miss Nell Pinkerton is visiting her friend, Miss Johnston, in Ottawa.

Stanley Whaley and family have moved into J. A. Kenny's tenement house, lately vacated by J. A. Robinson. Mr. Whaley has been appointed manager of this branch of the Bank of Montreal.

Miss Dorothy Perryman gave a party to a number of her little friends on Tuesday last in honor of her seventh birthday. Needless to say, it was much enjoyed by all the young folk.

J. W. Kerr has returned home from spending a few days with friends in Athens.

Mrs. C. E. Johnston and son, Byard, have gone to spend the summer months with the former's sister, Mrs. Brown, near Delta.

Mrs. H. S. Davison is quite ill at her home here.

Frank Halladay returned from spending several days in Toronto in the interests of dairy concerns.

Charles Charland and family, of Philippsville, have moved in with his parents, Mr. and Mrs. William Charland, and propose working the farm this summer.

Thomas Lee and family have moved into Mrs. A. Kerr's tenement house on Main street.

HERRON'S CORNERS

Herron's Corners, March 27.—Mrs. Forrester Vout returned home on Wednesday after having spent a week in Jasper.

Mr. and Mrs. Sam McBratney, of North Augusta, visited at William Falkner's on Thursday.

Miss Myrtle Vout spent last week at her uncle's, James Vout's.

Mr. Lane and Mr. Crowe were around on Saturday canvassing for milk for the Nestle Food Co., Morris-town, N.Y.

Miss Hazel Landon spent Sunday at Herb Landon's, Gosford.

Mr. and Mrs. Manford Sheffield and family, Mrs. A. G. Wright and Lloyd Wright, and Fred Carpenter spent Thursday evening at Dan Landon's.

Rev. Mr. Fairbairn and Mrs. Fairbairn visited at Will Falkner's Thursday evening.

Garfield Dales is ill with a severe attack of pleurisy.

Reaches Remarkable Age of 111 Years

Mr. Rufus Avery, who has resided at the House of Industry for the past five years, will attain the remarkable age of 111 years on Monday. Up until a few weeks ago, Mr. Avery enjoyed good health and his mind is wonderfully acute. He was born in Augusta Twp., on the 9th day of April, 1812, and has been an eye witness of wonders of the 19th century the great inventive period of human history.

ANNUAL MEETING OF WOMAN'S AUXILIARY OAK LEAF CHURCH

Mrs. M. J. Johnson Elected to Presidency of Organization.

NEWS NOTES OF DISTRICT

Death of Miss Tina Justus at Greenbush Causes Much Sorrow in Community.

Gosford, March 31.—Mrs. Harry Thompson is spending Easter in Brockville.

Mrs. J. Durham is visiting her son in Montreal.

The Triangle Social Club will hold its monthly meeting at John Durham's, on Thursday, April 5.

Mr. and Mrs. Spicer, Merrickville, have been visiting Mr. and Mrs. Matrice.

Mrs. Mary Snowdon, Mount Zion, is making her home with her sister, Mrs. James Snowdon.

The Easter visitors in our midst are: Harper Perrin, Queen's University, at Robert Perrin's; Wilfred Landon, Queen's, at W. D. Landon's; Herb. Throop, of the civil service, Ottawa, at Robert Perrin's.

Mr. and Mrs. Henry Berry, of Jolly, spent Tuesday at Mr. and Mrs. W. J. Marshall's.

Miss Henrietta Oxy, of Fairfield, is holidaying at Fred Oxy's.

OAK LEAF

Oak Leaf, March 29.—The annual meeting of the Women's Auxiliary of Trinity Church, Oak Leaf, was held on Wednesday afternoon, March 29, at the home of Mrs. Oscar Willis.

The meeting was opened with prayer by the rector, Rev. V. O. Boyle.

The minutes of the last meeting were read and adopted and then the business of the annual meeting taken up.

The various reports showed an increase in the year's work.

The election of officers resulted as follows:

- Honorary members, Rev. V. O. Boyle, Mrs. R. Stency, Miss Mary Johnson; honorary president, Mrs. V. O. Boyle; president, Mrs. M. J. Johnson; 1st vice-president, Mrs. Jesse Webster; 2nd vice-president, Mrs. Oscar Willis; recording secretary, Mrs. Herman Pierce; corresponding secretary, Mrs. Ormand Reid; Dorcas secretary, Mrs. Steven Godkin; treasurer, Mrs. R. J. Green; literature secretary, Mrs. Thomas Jeffrey; leaflet secretary, Mrs. J. A. Flood; superintendent of J.W.A., Mrs. R. J. Green; secretary Little Helpers, Mrs. Lloyd Green; secretary prayer partner, Mrs. W. Johnson; delegate to the annual meeting to be held in Kingston on May 15-18, Mrs. J. A. Flood.

ATHENS, ONT.

ANNUAL REVENUE OF \$4,000,000 FROM SALE OF INTOXICATING LIQUORS

A despatch from Toronto says:—A number of queries of general interest were answered on Friday by the Ministry in the Ontario Legislature. One of them, by revealing that the province in ten months had received \$3,400,000 from the sale of liquor, suggested that Ontario can not with complete consistency point the finger of scorn at Quebec for participating in the liquor traffic. Another, by obtaining the amounts which the Amusement Tax had returned, showed how dearly the public was paying to the Ontario Treasury for its theatrical diversions.

In regard to the liquor traffic, Hon. Mr. Raney volunteered the following statistics: Value of stock on hand in dispensaries on October 31, 1921, \$1,121,259; value of stock on hand in dispensaries on October 31, 1922, \$734,078; receipts from sales during ten months ending October 31, 1922, \$3,400,000.

Hon. Peter Smith detailed as follows the returns which the Amusement Tax had yielded in Toronto,

Hamilton, Windsor and Ottawa during the years 1920, 1921 and 1922: Toronto, \$602,749 in 1920; \$630,333 in 1921; \$599,743 in 1922. Ottawa, \$47,245 in 1920; \$70,288 in 1921; \$75,125 in 1922. Hamilton, \$125,919 in 1920; \$127,393 in 1921; \$112,724 in 1922. Windsor, \$22,354 in 1920; \$20,472 in 1921, and \$17,572 in 1922.

The other questions were more briefly answered. R. T. Harding, K.C., was said to have already benefited to the extent of \$22,948 from the public treasury for his labors in the timber probe. He claims, it was added, the further sum of \$3,500. The number of loans made under the Community Halls Act was given as 20 and the amount involved as \$5,700 during 1921 and \$28,503 in 1922. The sum of \$2,000 was said to have been loaned under the Co-operative Marketing Loan Act, only one loan having been made since the legislation's inception in 1920. Hon. Mr. Raney stated that one, Webb was in temporary employ of the O. T. A. enforcement branch.

IRISH SENATOR RELEASED BY REBELS

Threats of Punitive Measures by Government Proves Effective.

A despatch from Dublin says:—Senator Bagwell, kidnapped Tuesday night, was released on Thursday morning near Dublin. His release is regarded as the direct result of the threats of punitive measures made by the Government if he were not released in 48 hours.

Republican Chief of Staff Liam Lynch has issued a proclamation declaring: "We shall not release our hostages. If the threatened action is taken, every member of the Government, Senate and the Lower House and their executive will be held responsible and we will certainly visit them with the punishment deserved."

Whether this is intended to offset the Bagwell release, or to intimate that Bagwell escaped is not known. Bagwell was picked up by a motorist eight miles from Dublin.

He reached the city early in the morning and is not to be found, so there is no information obtainable from him as to how he came to be free.

Many other hostages are still held by the irregulars. Lynch's proclamation says the Republicans are determined that the execution of Republican prisoners shall not go on, claiming that fifty-three officers and men have already met death.

The militants' incendiary tactics have now been extended to the homes of Nationalist leaders. Reports from Blessington, South Dublin village, say that the homes of three soldiers were fired there. The railway depot at Dromin, an important Great Northern junction point, was wrecked by mines on Thursday night.

Veteran V.C. Dies.
Sergt. George Richardson, V.C., who was decorated for conspicuous bravery on the field at Cawnpore, India, in 1859, when he saved his officer's life by engaging six natives, five of whom he killed and the sixth he routed. At the time he had a broken arm and a wounded leg. He died last week at the age of ninety-two years, in a London, Ont., hospital.

Building Operations at Toronto University.

Whether this winter be relatively mild or not, it seems at least to be a fairly favorable season for building operations at the University of Toronto. The War Memorial Tower, which is being built by the graduates and which will be a most imposing structure, is going forward apace and is to be ready for dedication on Armistice Day. At the rear of Convocation Hall a modest building is going up for the housing of the administrative offices of the provincial university so as to relieve the present overcrowded condition of University College. At the corner of Bloor and Huron streets a large addition to the Ontario College of Education is well above ground. North of Hoskin Avenue and just south of the University stadium the excavation for the new Trinity College is progressing daily. The Anatomy building and the Women's building have just recently been completed and are now occupied. All of this means that a good deal of work is being provided for the building trades at a time when employment might otherwise be scarce.

Royal Broadcasting Station at Buckingham Palace

A despatch from London says:—Churchmen's protests that wireless concerts in public houses are drawing too many young people to drinking places and the announcement that King George is considering the installation of a loud-speaking set in his apartments in Buckingham Palace illustrate what a wide appeal wireless today is making to Great Britain.

By making Buckingham Palace a broadcasting station King George could address his millions of subjects throughout England, Scotland and Wales without leaving the royal suite. Loud-speaking trumpets on the palace roof would enable the King's voice to be heard at any point in London within a two-mile radius of the palace. Wireless telephones have been used by the Prince of Wales and the Duke of York recently in opening exhibitions and at other functions in various parts of the country, the speakers remaining in London.

No Doubt Remains Who is to Pay for World War

A despatch from London says:—"If there is doubt about who won the war, there now remains no doubt who is to pay for it."

London is chucking over this bon mot attributed to Sir John Simon, Liberal leader and prominent lawyer, apropos of the American debt settlement.

That the earth is much older than the sun is the opinion of a well-known scientist.

The Week's Markets

Toronto.
Manitoba wheat—No. 1 Northern, \$1.24.
Manitoba oats—Nominal.
Manitoba barley—Nominal.
All the above track, Bay ports.
American corn—No. 2 yel., 87½¢; No. 2, 86¢.
Barley—Malt, 60 to 62¢, according to freights outside.
Buckwheat—No. 2, 77 to 79¢.
Rye—No. 2, 83 to 85¢.
Foss—No. 2, \$1.45 to \$1.50.
Milfeed—Del., Montreal freights, bags included: Bran, per ton, \$25; shorts, per ton, \$27; middlings, \$28.50; good feed flour, \$2.
Ontario wheat—No. 1 white, \$1.11 to \$1.13, according to freights outside; No. 2, \$1.08 to \$1.10.
Ontario No. 2 white oats—45 to 47¢.
Ontario corn—Nominal.
Ontario flour—Ninety per cent. pat., in jute bags, Montreal, prompt shipment, \$5.10 to \$5.20; Toronto basis, \$5.05 to \$5.15; bulk seaboard, \$4.95 to \$5.00.
Manitoba flour—1st pats., in cotton sacks, \$7.10 per bbl.; 2nd pats., \$6.60.
Hay—Extra No. 2, per ton, track, Toronto, \$14 to \$14.50; mixed, \$11 to \$13; clover, \$8 to \$12.
Straw—Car lots, per ton, track, Toronto, \$9.50.
Cheese—New, large, 27¢; twins, 27½¢; triplets, 28½¢; Siltons, 29¢. Old, large, 29¢; twins, 30¢; Siltons, 31¢.
Cheese—New, large, 27¢; twins, 27½¢.
Butter—Finest creamery prints, 43 to 45¢; ordinary creamery prints, 40 to 41¢. Dairy, 30 to 31¢. Cooking, 22¢.
Dressed poultry—Chickens, milk-fed, over 5 lbs., 34¢; do, 4 to 5 lbs., 27¢; do, over 5 lbs., 30¢; do, 4 to 5 lbs., 25¢; do, 2 to 4 lbs., 25¢; hens, over 5 lbs., 28¢; do, 4 to 5 lbs., 26¢; do, 3 to 4 lbs., 25¢; roosters, 25¢; ducklings, over 5 lbs., 31 to 33¢; do, 4 to 5 lbs., 25 to 28¢; turkeys, young, 10 lbs. and up, 38¢; do, old, 23¢; geese, 21¢.
Margarine—20 to 22¢.
Eggs—No. 1 candled, 35 to 36¢; selects, 38 to 40¢; new laid, 45 to 46¢; cartons, new laid, 47 to 48¢.
Beans—Canadian, hand-picked, lb., 7½¢; primes, 7¢.
Maple products—Syrup, per imp. gal., \$2.50; per 5-gal. tin, \$2.40 per gal. Maple sugar, lb., 23 to 25¢.
Honey—60-lb. tins, 12 to 12½¢ per lb., 5-2½-lb. tins, 13½ to 14½¢ per lb.; Ontario comb honey, per doz., \$3.75 to \$4.50.
Potatoes, Ontarios, No. 1, 90¢ to \$1; No. 2, 85 to 90¢.
Smoked meats—Hams, med., 26 to 28¢; cooked ham, 38 to 40¢; smoked rolls, 26 to 28¢; cottage rolls, 32 to 34¢; breakfast bacon, 32 to 35¢; special brand breakfast bacon, 38 to 40¢; backs, boneless, 36 to 42¢.
Cured meats—Long clear bacon, 50 to 70 lbs., \$20; 70 to 90 lbs., \$19; 90 lbs. and up, \$18; lightweight rolls, in barrels, \$38; heavyweight rolls, in barrels, \$35.
Lard—Pure tins, 16½¢; tube, 17¢; pails, 17½¢; prints, 18½¢. Shortening tins, 14½ to 16¢; tube, 15 to 15½¢; pails, 15½ to 16¢; prints, 17½ to 18¢.
Heavy steers, choice, \$7 to \$7.50; butcher steers, choice, \$6 to \$6.50; do, good, \$5.50 to \$6; do, med., \$5 to \$5.50; do, com., \$4 to \$5; butcher heifers, choice, \$6 to \$6.50; do, med., \$5 to \$5.50; do, com., \$4.25 to \$4.75; butcher cows, choice, \$4.50 to \$5.25; do, med., \$3 to \$4; canners and cutters, \$1.75 to \$2.25; butcher bulls, good, \$4 to \$4.50; do, com., \$2.25 to \$2.50; feeder steers, good, \$5.50 to \$6; do, fair, \$2.50 to \$3.50; calves, choice, \$11 to \$12.50; do, med., \$9 to \$11; do, com., \$5 to \$8; milk cows, choice, \$70 to \$90; springers, choice, \$80 to \$100; lambs, choice, \$11 to \$12; sheep, choice, \$6.50 to \$7; do, culls, \$3 to \$4; hogs, fed and watered, \$10 to \$10.50; do, f.o.b., \$9.25 to \$9.75; do, country points, \$9 to \$9.50.
Hog quotations are based on the prices of thick, smooth hogs, sold on a graded basis, or selects, sold on a flat rate. Bacon selects, sold on the graded basis, bring a premium of 10 per cent. over the price of thick, smooth hogs.

Montreal.
Corn, American, No. 2 yellow, 91½ to 92¢. Oats, Canadian western, No. 2, 63 to 64¢; do, No. 3, 58 to 59¢; extra No. 1 feed, 55 to 56¢; No. 2 local white 53 to 54¢. Flour, Man. spring wheat pats., firsts, \$7.10; seconds, \$6.60; strong bakers', \$6.40; winter pats., choice, \$6.50. Rolled oats, bag 90 lbs., \$3.15 to \$3.25. Bran, 26¢. Shorts, 22¢. Middlings, 33¢. Hay, No. 2, per ton, car lots, \$14 to \$16.

Clinton D. Howe
Dean of the Faculty of Forestry, at the University of Toronto, who was recently elected vice-president of the Canadian Forestry Association. The association last year addressed 584 meetings throughout the Dominion and sent exhibition and tree-planting cars across the country.

Cheese, finest easterns, 25 to 25½¢. Butter, choicest creamery, 41 to 41½¢. Eggs, fresh, 48 to 50¢; selects, 36 to 37¢; No. 1 stock, 32 to 33¢. Potatoes, per bag, car lots, \$1 to \$1.10.
Young cows, in good flesh, \$4.25; com., \$3.25 to \$4; med. heifers, \$4 to \$4.50; cutter cows, \$2.50 to \$2.75; canners, \$1.75 to \$2; do, thin, \$1.50; dairy type bulls, com., \$3.50; do, good weight and fleshing, \$4; veal calves, \$9 to \$10.50; better ones, \$11 to \$11.25. Hogs, selects and good quality butcher, \$11 to \$11.25; thick fat heavy hogs, \$10.25; western hogs of suitable weights, \$10.50 to \$10.75; sows, \$9.50 to \$9.50.

Grafting Operation Fails to Restore Boy's Sight

A despatch from New York says:—Alfred Lemanowicz, 18, who underwent an operation 11 days ago in which part of a pig's eye was grafted to restore his sight, was allowed to open his eye for the first time on Friday and was unable to see anything. Dr. Edward B. Morgan, who performed the operation, refused to admit it was a failure.

Lemanowicz, whose home is in Lyndhurst, N.J., has said several times that he could distinguish between light and dark through the closed eyelid. But when the eye was opened he could not see the rays from an electric flashlight which focused into the eye through a magnifying glass. However, when the eye was closed again, he said he could tell when a hat was placed in front of his face and when it was removed.

Senator C. P. Beaubien
Senator Beaubien has had in hand the work of planning for a Made-in-Canada train to tour France. He has now completed his report to the Department of Trade and Commerce, and suggests that it take the form of an autobus caravan, so that it will not be restricted to main railway lines. It is proposed to send the train through every important French city and town.

Dominion News in Brief

Vancouver, British Columbia—Vancouver now leads all ports in Canada in the matter of tonnage, only beating Montreal by reason of the fact that the Eastern port is open eight months in the year. In the short space of two years the movement of ocean going vessels trading into this port has increased from 326 in 1920 to 458 in 1921 and 703 in 1922, making an increase of 116 per cent. for the two year period. In the same period, the number of shipping lines regularly trading into Vancouver from foreign ports has increased from 23 to 39.

Edmonton, Alberta.—Over 42,500 acres were planted to potatoes in Alberta last year, according to an official estimate, which is about 9,000 acres less than in 1921. Central and Northern Alberta had a total potato acreage of nearly 30,000 acres, and it is estimated that the yield amounted to two and a half tons to the acre.

Saskatoon, Saskatchewan.—It is reported that magnesium metal, valuable in the construction of aeroplanes, may be a Saskatchewan product in the future if the plans of a company located at Darrs, 60 miles east of Saskatoon, materialize.

Fort William, Ont.—The issue of the

"Daily Times-Journal" for January sixteenth was printed on the first roll of newsprint manufactured here by the Fort William Paper Company. Construction of the plant only commenced last July, and the first run of newsprint was made on New Year's Day.

Quebec, Quebec.—The number of entries in the great dog sled Derby, to be run here on the 22nd, 23rd and 24th of February, has gone up to eight, with the addition of an entry just received from Holt, Renfrew & Company. There are now six entries from Canada and two from the United States.

Fredericton, New Brunswick.—While the full development of the Grand Falls, near the head waters of the St. John River, will likely involve international considerations, it is possible to develop some 60,000 horse power at an 8 per cent. load factor without having to tap any of the storage area which lies in the State of Maine, according to C. O. Foss, chief engineer and member of the New Brunswick Electric Power Commission.

St. John's, Newfoundland.—Initial preparations are being made for the coming seal fishery. There will be only eight ships engaged this spring, the smallest number for fifty years. There were nine last year.

Standard of Character Counts

By W. M. Morris, Ontario Trustees' and Ratepayers' Association.

I was travelling on the C.P.R. train to Regina last winter and entered into conversation with a business man from Calgary. After discussing general topics for some time, this gentleman informed me that the province of Ontario was losing a magnificent opportunity to trade with the western provinces because of her dishonesty. Having been a resident of Ontario all my life, and my parents before me, I displayed some resentment to the insinuation that the people of Ontario lacked so fundamental a trait of individual and national character. He proceeded, therefore, to prove the statement by telling me the story of his financial venture in the produce market. "I too," he said, "come from Ontario and regret the impression the West has of my native province as much as you do. I carried on a large produce business in a thriving town in Ontario for many years before coming West, and for some years purchased apples and other Ontario fruits for consumption in the province of Alberta. I was compelled to sell out the business a few years ago because of dishonesty on the part of the Ontario shipper.

"For instance," he said, "a friend of mine still carries on a large business in Calgary, buying from Ontario. A car load of apples arrived in Calgary in the fall of 1921 and on the arrival of this shipment my friend called me by telephone and informed me that this car load came from my home town and asked me if I would check over the names of the shippers for him, with recommendation of the apples he should buy. Knowing everyone in the town and for several miles around it, I was able to give him fairly accurate information re the character of the shippers and advised as to whose apples he would be safe in buying. He read the names over and the conversation that took place over the 'phone was something like this, 'Mr. A., I wouldn't buy anything he sells, 'Mr. B., about fifty fifty with him, 'Mr. C., you are safe in buying anything he ships.' He read off all the names of the shippers and I recommended about half of the apples in the car. He informed me later that he bought all the apples that were worth purchasing.

"That is what I mean when I say Ontario is dishonest. The people of the East cannot hope to build up a permanent trade in produce with the West while they practise such deceptive tactics in the packing of fruit. There is a great demand for apples, peaches and plums in the West and the East can grow these in abundance but it is a great loss to both provinces if people have no confidence in one another."

I was travelling on the train through Nova Scotia last June and in conversation with a commercial traveller, related the above story from the West. He immediately assured me that such would not be the case in Nova Scotia. He went on to say that \$3,000,000 worth of apples were shipped from the Annapolis Valley to Great Britain in the fall of 1921 and he would guarantee that every box contained the apples represented. This gave me an opportunity of becoming on good terms with an audience of educationists in Truro and I congratulated the people of the Maritime Province for their integrity. The story was well received as human nature everywhere appreciates congratuations.

At the close of the meeting, however, a member of Parliament from the Annapolis Valley approached me with the remark, "That was a good story." I replied that I thought so myself. He said, "Let me tell you another one. I live in the Annapolis Valley and am a member of the local Legislature for one of the constituencies there. I have given a prize at the Fall Fair for some years, for the best packed barrel of apples. Last year the prize barrel was given to me as a present. I opened it in my cellar and was surprised to find

New Dominion Cerealist
L. H. Newman, formerly secretary of the Canadian Seed Growers' Association, has been named Dominion cerealist to succeed Dr. Charles E. Sanders, who has resigned. Mr. Sanders was the discoverer of Marquis wheat, which made it possible to grow wheat a hundred miles further north than was possible theretofore. Mr. Newman is the author of important agricultural publications, and has conducted important practical experiments.

that the apples were as represented for about one foot down and then the quality became worst until, when I reached the bottom of the barrel, the quality was so poor that I considered it hardly worth taking. You see the people of Nova Scotia are no more honest than those of Ontario. The reason the apples that were shipped to Great Britain were as represented, is because they are delivered through a co-operative selling agency and the agent claims the right to inspect any box. The packer of my apples apparently knew the difference between the treatment of a barrel of apples and a barrel of sermons—the latter may be turned up to get a fresh one, consequently he took chances on disposing of a poor class in the bottom of the barrel."

Evidently human nature is much the same all over the world. It does not matter whether the deception is practised in the shipping of apples, in the selling of groceries, in practising a profession or serving in public office. If Ontario has lost the prospect of trade with the West because she is dishonest, the same lack of integrity in all the relationships of life will undermine both individual and national life.

People are in the habit of speaking of our vast material resources as if these things held the key to national greatness. A little thought will show that these things are valueless in themselves. As a matter of fact, they have been here for centuries waiting for human intelligence and skill to discover and develop them. Africa possesses untold potential riches and can boast of many centuries of history, but remains the Dark Continent. It is the human factor that counts most. We have infinite possibilities for service available in the talents of our children. What values our children may realize in efficiency and character will, in a great measure, be determined by the educational agencies established for the development of their talents and inspiration for service. The future of our country will be determined by the growth of the youth into men and women of skill, insight and vision, who will not only transmit our natural resources into wealth and prosperity, but will, at the same time, establish the nation in strength, righteousness and honor.

Righteousness exalted a nation. It is standard of character that counts both in the individual and the nation. The German youth were given a scientific and intellectual training without a sufficient balance of moral character. Lacking this, they came near destroying the civilized world and themselves along with it. Scientific knowledge is a very dangerous weapon of self-destruction in the hands of a person of low moral standards. The first fundamental of national prosperity is individual integrity. The people can have faith in each other

THE INDUSTRIAL HEART OF GERMANY IN FRENCH HANDS
The Ruhr area is estimated at about 1,234 square miles in extent, but something of its immense mineral wealth can be gathered from the above map. Each of the round black marks represents a mine shaft. The district has a population of four million, of which a half million are coal miners. In pre-war years its coal production was 113,000,000 tons a year. It has a viable reserve of 34 billion tons, and an estimated unmined reserve of 220 billion tons. Steel production in the year the war ended amounted to ten million tons. Over nine hundred million dollars is invested there.

Census of 1921 Cost Country \$1,664,088.04

A despatch from Ottawa says:—The decennial census of June, 1921, cost \$1,664,088.04. This is shown by figures in the Auditor-General's report for the fiscal year ending March 31, 1922, tabled in the House on Thursday by the Minister of Finance. The cost by provinces was as follows: Alberta, \$117,073.83; British Columbia, \$146,460.49; New Brunswick, \$57,516.90; Manitoba, \$98,767.34; Nova Scotia, \$76,079.43; Ontario, \$407,921.20; Prince Edward Island, \$16,494.25; Quebec, \$305,298.17; Saskatchewan, \$153,048.64; North-west Territories, \$336.90; Yukon, \$1,100.97. The cost for temporary census clerks and other assistance, printing, express and similar charges at Ottawa was \$215,527.90.

Since the passing of the Highway Improvement Act, and to the end of 1922, the sum of forty-five million dollars, approximately, has been spent on construction and maintenance of county roads, towards which the province of Ontario has contributed about twenty million dollars, according to Robert C. Mather, chief engineer of county roads in the province of Ontario.

CHAPTER XXXVI.

The little red horse's pace was as swift as a swallow's. Sure-footed, she flashed over the long winding roads, up the steep hillsides and down them, slipping and sliding on the loose shingles, but keeping her knees in the cunning way that only the mountain horses know. Davey heard the beat of her hoofs until the sound became mechanical. Though she was moving, she seemed to get no further—to throw no distance behind her, forging ahead through the darkness.

Fear and a suffocating weakness began to dull his brain. He could not see. The searing pain in his breast ate up his strength. With a desperate effort he pulled the handkerchief from his throat and thrust it inside his shirt against the wound. He dug his heels into Red's side, urging her on. A diffused glow of lights loomed before him. As if waking from a nightmare in which he had been struggling to get forward and was held back by mysterious, unknown forces, he realized that they were the lights of the shanty.

The mare carried him on into the stable yard. The welcome yelp of dogs greeted his ears. He flung off her, staggered across the yard and burst open the back door. He was conscious of Farrell and Deirdre springing towards him, of Steve behind them. Then surging darkness, the swirling tides of dreamlike darkness that had been pressing close to him all the way, closed over him. For a moment he struggled against them, trying to speak. A few muttered, incoherent words were all Deirdre and the Schoolmaster caught.

He pitched forward. Deirdre ran to him. The Schoolmaster heaped her to lift Davey over on his back. She moistened his lips with the spirit that Steve brought quickly.

"There's blood on him, father," she cried. There was no tremor in her voice, only a tense anxiety. Farrell told her what to do, to cut away Davey's shirt where the blood oozed on it. Steve went for water and rags as she did so. The flickering light of the candle the Schoolmaster held, showed the broken and blackened flesh.

"He's been shot . . . it's a slug made that mark," Steve gasped when he saw it.

When he had put a basin of cold water beside her, she laid soaked rags on the wound. The shock brought Davey a moment of consciousness. He moaned, stirring with pain. His eyes opened. He saw Deirdre's face above his and the Schoolmaster bending over him.

He stared at them unseeing. Then the mists cleared from his brain. "I'm all right," he muttered, "all right."

He lay quite still. "Have you got the calves out of the paddock?" he asked a moment later, his voice stronger. "M'Laughlin and

MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is Child's Best Laxative

Even if cross, feverish, bilious, constipated or full of cold, children love the "fruity" taste of California Fig Syrup. A teaspoonful never fails to clean the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the souring food and nasty bile out of the stomach and bowels and you have a well, playful child again.

Millions of mothers keep California Fig Syrup handy. They know a teaspoonful to-day saves a sick child to-morrow. Ask your druggist for genuine California Fig Syrup which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation.

down. Deirdre drove them through the opening. The black boy was on the road waiting to keep the beasts noses northwards with an adroit flick of his whip. It was with an occasional lowing and rattling of horns, the brush and rattle of hoofs on the dry timber that they passed out into the shadows of the road.

The Schoolmaster had no fear that Deirdre could not manage this handful of yearlings and old cows. She had chased calves from paddock to paddock when she was big enough to straddle a pot-bellied pony, and had cracked a light whip which Conal had made for her, with a fall a couple of inches shorter than his own, round many a restless herd when Conal and he were driving and she was on the roads with them. It was the bitterness of not being able to drive himself that plagued Farrell; the consciousness of having to stand by and let her do what there was danger in doing, incensed him. Steve watched the road for sound or sign of men and horses from Wirreeford. Then he chased his own two milkers up from the cow paddock and ran them backwards and forwards along the road where the mob had passed, to obliterate its tracks.

A weight was off the Schoolmaster's mind when Steve said that Deirdre and the black were out of sight. He knew that by taking the cattle along the narrow tracks on the ledges of the hills, she would save them. Narrow Valley scrubs would screen them from curious eyes. If M'Laughlin came, the road would tell no tales. Steve's cows had made it look as if a mob had passed in the opposite direction beyond the shanty, and he and the Schoolmaster had a story to fit the tracks. They did not think that anybody but themselves knew the way under the trees on the Valley hillsides. Only if M'Laughlin brought a tracker would he be able to follow Deirdre.

Farrell wondered how word had reached McNab, and what foolhardiness had led Conal to bring these branded calves to the paddock below Steve's. For a moment the idea that Conal baited and maddened with drink, might have given some hint at McNab's of the beasts being in Steve's paddock, occurred to him. And then there was Davey. For a while his mind brooded over what had happened to him.

"It was only mad with drink, Conal could have shot at a man in the dark," he told himself. "The open fight is

NURSES

The Toronto Hospital for Incurables, in affiliation with Bellevue and Allied Hospitals, New York City, offers a three years' Course of Training to young women, having the required education, and desirous of becoming nurses. This Hospital has adopted the eight-hour system. The pupils receive uniforms of the School, a monthly allowance and travelling expenses to and from New York. For further information apply to the Superintendent.

his way." Conal and he had been friends a good many years, and there was something in his estimate of the man which defied the idea that he had shot Davey. And yet it looked as if he had. Why was he not in? He had left Wirreeford an hour before Davey. Conal was on the road before Davey. And he had been drinking at McNab's. He had been taunted with Deirdre's name.

(To be continued.)

Dye Skirt, Dress or Faded Draperies in Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

Scavengers

Scavengers were originally officials who collected Scavage, a tax imposed in many English towns upon all goods exposed for sale within their boundaries. The tax was abolished by Henry VII.

Minard's Liniment for Coughs & Colds.

About the House

Try An Onion!

Although apples have their virtues, the saying "An apple a day keeps the doctor away" should be revised to "An onion a day keeps the doctor away." One humble onion is worth fifty apples from the medicinal, disease-preventing point of view.

It almost seems as if the onion was specially created for the definite purpose of keeping men and women healthy, free from disease, and practically immune from infection.

An onion—for preference eaten raw—will, in its passage through the body, destroy every poisonous germ and purify the blood. A sliced onion placed in an open dish in a sick-room will gather to itself the microbes and germs in the air quite as well as any expensive disinfectant will do. But the onion must afterwards be thrown away, never eaten.

Those who include onions in their regular diet never suffer from neuralgia, headache, or kindred troubles. When influenza is about not a doctor in the land could prescribe a better preventive than the humble onion. The juice of an apple is good for the teeth, but the juice of an onion is a hundred times better.

The freedom from disease and longevity of the Breton onion-growers is well-known, and the smooth and silky complexion of the women has been often remarked. For a fact, for a clear skin and beautiful complexion nothing can beat onions.

Yes, they make the breath odorous, but only until your system has become accustomed to them.

An onion poultice on a bruise will quickly take away all discoloration. A painful strain or sprain is also eased by an onion poultice. Finally, onion juice is excellent for a wasp sting, and for raising hair on bald heads!

Making Pin Money at Home.

Many farm women have large, old-fashioned houses with more room than they need. I, for one, am so situated, and last summer turned this extra room into pin money. I rented the rooms for light housekeeping to a mother and her children from the city during the summer. By entering an ad. in a daily paper the last part of June, I received several replies. I rented the two rooms furnished as sleeping room and kitchen. Rent, milk, eggs, broilers and vegetables came to about \$80 after expenses were paid. People coming from the city come more to enjoy the out-of-doors than beautiful rooms. They only ask for rooms to be clean and comfortable and not elaborately furnished.—Mrs. N. D. My pin money comes to me from raising Scotch collie puppies. I have

RHEUMATISM

Rheumatism Treatment. We treat all kinds of Rheumatism, and if we fail to eliminate the pain it will not cost you anything. Try us and be convinced. No medicines. No electricity. Ladies' Department, 99 King St. West, Phone Adelaide 4043. Offices, Toronto, Winnipeg, Vancouver.

shoulder for one side of the garment. Cast off.

This completes one-half of the sweater. Proceed in like manner for the other half.

Now place the halves together with a shoulder piece for each side. With a crochet hook slip-stitch the side seams together, beginning at the bottom to join the seams and leave sufficient room at the top for the armholes. The shoulder pieces are next sewn in position.

Edge.—Around the neck work a row of * chain 2, treble crochet 1 around with angora wool, preferably white. Use bone hook.

Over the row of spaces work open shells, * 5 trebles in hole separated by 1 st. between trebles. Ch 4, single crochet 1 in next hole, ch. Repeat from * around.

Cover the trebles with picot loops. Work this same design around armholes and bottom of sweater.

Crochet 3 chains of sufficient length and run through spaces around neck and armholes.

Finish ends of chains with fluffy angora tassels. This completes the garment.

What Would You Take?

What would you take for that soft little head
Pressed close to your face at time for bed;
For that white, dimpled hand in your own held tight,
And the dear little eyelids kissed down for the night,
What would you take?

What would you take for that smile in the morn,
Those bright, dancing eyes and the face they adorn,
For the sweet little voice that you hear all day
Laughing and cooing—yet nothing to say?
What would you take?

What would you take for those pink little feet,
Those chubby round cheeks, and that mouth so sweet;
For the wee tiny fingers and little soft toes,
The wrinkly little neck and that funny little nose?
Now what would you take?

Sending Her a Line.
An old farmer, visiting the city, handed the clerk a telegram to be sent, consisting of the address and eight vertical strokes.

"But surely you are not going to send this," said the clerk.
"Now, that's all right, miss," said the old fellow. "If them strokes come out the same at t'other end my missus 'll know as I shall be home at 8 o'clock. She can't read or write, but her can count, so just see as you put the proper strokes in."

I believe I have found a very efficient way for making pin money. With the little slip-over sweaters so much in vogue, I bought some yarn and crocheted them. I could buy the yarn for about two dollars and could sell them readily for four dollars. Later I found that people wanted collars and cuffs for them so I made them some pretty ones of linen, organdy and leather and sold them generally with the sweaters. The crocheted sweaters make up very quickly, and thus the more gain for me.—B. T.

I live on a farm and would like to tell others how I make my pin money. During the winter time I make cottage cheese and sell it to our near town grocery and meat market. Besides I have all the customers I can furnish directly from my home. I charge ten cents per pound and make a supply once a week.—H. B. W.

I raise about one-fourth of an acre of flowers and sell the cut flowers. In the spring I raise a good many aster, pansy and salvia plants to sell, and get my seed from a seed company. In the fall I save my own seed and sell some to friends, and thus it is necessary to buy seed only every other year. I sold about forty dollars worth of flowers last summer and had all I could use for myself and friends. I took some flowers to the fair and got a number of premiums on them.—W. P.

Child's Knitted Sweater.
This simple, comfy little garment needs no illustration. It is a snug little sweater for use throughout the winter and until late spring or early summer. It is designed for a lot of from three to five years, but by employing heavier needles and increasing the length it may be made to fit a child of any size. Use four skeins of zephyr good grade four-fold yarn for a small child. Any color desired may be used. No 4 amber knitting needles are employed.

To Make: Cast on 72 stitches. (The number of stitches employed must be divisible by four). Next work one inch of ribbing of knit 1, purl 1 for the border of the garment.
After the first row, always slip the commencing stitch of each row.
Change now to the pattern, made this way: First, Second and Third Rows.—* knit 2, purl 2, repeat from * to the length of the row.
Fourth Row—Knit plain. Repeat the design one to four until twelve inches of the pattern have been made.
Cast off all the stitches except 14 at the end of row. The casting off should be loosely done that the sweater may slip on easily over the head as this is a "slip on" garment.
Knit four and one-half or five inches plain on the 14 stitches to form the

ers' modern ovens in your city. And it's made with Sun-Maid Raisins.
That's another reason for its superiority. A rare combination of nutritious cereal and fruit—both good and good for you, so you should serve it at least twice a week.
Use Sun-Maid Raisins also in puddings, cakes and cookies. You may be offered other brands that you know less well than Sun-Maid's, but the kind you want is the kind you know is good. Insist, therefore, on Sun-Maid brand. They cost no more than ordinary raisins.

Head Steamships On Atlantic and Pacific Oceans

Walter Maughan Fills New Post Made Necessary by Growth of the Canadian Pacific Steamship Business

Walter Maughan, newly appointed Steamship Passenger Manager of the Canadian Pacific Railway.

THE appointment of Mr. Walter Maughan as Steamship Passenger Manager of the Canadian Pacific Railway has been officially announced at the Company's headquarters. The appointment includes the management of the Company's passenger business on both the Atlantic and Pacific Oceans. Mr. Maughan was born in Toronto in 1876, and joined the Canadian Pacific forces in 1892. In 1897 he was made City Passenger Agent at Toronto, and in 1913 District Passenger Agent. In the same year he was moved to Montreal as Assistant General Passenger Agent, and in December, 1922, became Assistant to the General Passenger Traffic Manager. He has risen to his present high position by outstanding ability as much as by long service.

During the war Mr. Maughan did valuable work as Chairman of the Demobilization Committee of the Canadian Railway War Board representing the Minister of Militia, and was made a Lieutenant-Colonel in recognition of his work in transporting troops from Canada and China to France.

Mr. Maughan's appointment results from recent remarkable growth of the Canadian Pacific Steamship fleets on both oceans, and those especially equipped for West Indies, Mediterranean and around the world cruises that are planned.

At present in regular service on the Atlantic Ocean between St. John, N.B. (winter season) and Montreal and Quebec (summer season) and Southampton, Liverpool, Belfast, Glasgow, Cherbourg, Antwerp, and Hamburg the Canadian Pacific have eighteen passenger steamships with an aggregate displacement tonnage of 360,800 tons. During the coming summer season the Company will have 100 passenger steamship sailings from Montreal and Quebec. These exclusive of the fleet of freight steamships.

In the Oriental trade four of the largest and fastest ships on the Pacific Ocean operate between Vancouver and Victoria and Japan and China.

In the year 1924 the Canadian Pacific will operate their own cruises to the West Indies, Mediterranean, Egypt, the Holy Land, and also around the world. Three of their finest oil burning ships have been allotted to these services.

One result of these cruises is that the great Canadian Company not only bridges two oceans and links four continents but actually encircles the globe with its own ships and railways without being dependent on any other transportation agencies.

IMERSON—The Auctioneer

Write or Phone early for dates or call the Reporter and arrange for your Sale.

H. W. IMERSON, Auctioneer

ROCKPORT

Rockport, March 27.—Mrs. W. E. Edgley has returned from Canton, N. Y., where she has been visiting relatives.

Mr. and Mrs. Graham, Lansdowne, spent a day with Mrs. R. H. Service last week.

Mr. and Mrs. Cecil Browne, Malorytown, are visiting Mr. and Mrs. Fred Huck.

Mrs. Den Reid spent a few days in Kingston last week.

Mr. and Mrs. Clarence Root motored to Kingston Saturday to attend the funeral of an aunt.

Miss Mabel Hollingsworth is awaiting a call from Kingston General Hospital where she will enter upon training as a nurse.

Manville O'Connor is confined to the house with a sprained ankle.

Cedar Grove

Cedar Grove, April 2.—Joe and Miss Nettie McCurdy, of Malakoff, spent a few days here last week as the guests of Mr. and Mrs. Lines.

A. Ennis returned last week after having spent a couple of months in Michigan, New York, and in Kingston and vicinity.

The local teacher, Miss Bates, left here on Friday for Mountain to spend her holidays at the home of her parents.

Ross Forbes spent Wednesday evening last with friends at the Grove.

Miss Iva Bolton, of Newmanville, spent the week-end here with her aunt, Mrs. A. Forbes.

Mrs. W. G. Godkin, of Carleton, and Mrs. Fred Sanderson, of Robinson's Corners, were the guests of Mrs. Lines on Monday.

Maynard, April 2.—Mr. and Mrs. Charles Prue, who have been on the sick list, are improving slowly.

A. E. Carson is confined to his bed through illness.

Miss Louise Wilson, who has been ill for the last two months, is improving.

Maynard

Maynard, April 2.—New cases of la grippe are breaking out.

Miss Elsie Gaudin spent the Easter holidays with friends in Prescott.

The Ladies' Aid held a quilting bee last week and were successful in quilting two nice quilts.

The population of Maynard is still increasing, only a few vacant houses remaining.

Howard Quartus has installed a telephone in his house.

Mrs. R. C. McBroom is confined to the house with rheumatism.

George Pyke will take a course at the Brockville Business College.

Mrs. Lissert spent the Easter holiday with friends in Montreal.

F. A. Robinson has been appointed leader of the Methodist choir, Mrs. Percy Protwell having resigned.

Easter Sunday was observed here in the Methodist church. The services throughout were in keeping with the day and special music was furnished by the large choir.

Miss Chapman, of Boston, is the guest of her friend, Mrs. J. Halpenny.

Elmer White's dwelling was discovered on fire at noon on Saturday, the 31st. The alarm was issued over the telephone and men came from the surrounding district and worked hard. With the aid of fire extinguishers, it was got under control. Considerable damage was done to both the house and contents. There is insurance. The origin of the fire is a mystery, as it started in a partition of the stairway where there has been no fire all winter. Possibly nice carried matches caused the fire.

Van Allen's Corners

Van Allen's Corners, April 2.—Mr. and Mrs. Dave Wallace and baby, Jessie, of Ventnor, spent Monday with Mr. and Mrs. A. C. MacNilage.

George Beggs spent several days last week at Reid's Mills with his nephews, Clifford and Allie Beggs.

Mrs. Joe Porter and baby returned home on Friday after having spent several days at McReynolds' Corners with Mr. and Mrs. R. Porter.

Miss Ruby Selleck, of Ottawa, spent the week-end holiday with her parents here.

Miss M. J. Coulthart, who has been ill, is now convalescent.

Bob Brown, jr., went to Winchester on Monday, where he has secured a position making cheese with L. Ellis for the season.

Misses Viola Thompson and Edna Blair, of the Kemptville High school, are spending the Easter holidays with their parents.

Miss Jewell Jennings was a recent guest of her sister, Mrs. Marquette, in Prescott.

Mr. and Mrs. H. Cook and the Misses Jean and Agnes Millar, of Spencer-ville, were recently guests of Mr. and Mrs. Alex. Brown.

D. K. Cook, of Smiths Falls, agent for the Massey-Harris Co., was in this vicinity on Friday.

Archie McRae was in South Mountain last week.

Mr. and Mrs. S. Brown spent Thursday at Heckston with Mr. and Mrs. W. Bennett.

Miss Gladys McCoughey is spending the holiday at her home in Kemptville.

A. Selleck and Effie spent Friday with friends in Spencer-ville.

Helen Tait, of Roebuck, was a recent guest of her parents here.

Miss Minnie MacNilage spent Sunday with friends at Heckston.

Kenneth McRae has returned after having spent the winter in a lumber camp in Northern Ontario.

JUNETOWN

Junetown, March 29.—Mrs. W. J. Purvis, Pasadena, Cal., arrived Friday to attend the funeral of her mother-in-law, Mrs. Walter Purvis, and will remain with relatives here for a couple of weeks.

Mrs. S. D. Ferguson, Brockville, spent the week-end with her parents, Mr. and Mrs. Eli Tennant.

Mrs. A. N. Earl, Misses Evelyn and Kathleen and Purvis Earl, Warburton, were called here on Thursday at the death of the former's mother and the latter's grandmother, Mrs. Walter Purvis.

Peter Ferguson and Miss Laura, of Yonge Mills, were recent visitors at J. A. Herbison's.

Mr. and Mrs. R. K. Ferguson attended the funeral of Albert Earl at Purvis Street on Wednesday.

Miss Birdie Copeland and Miss Florence Burth, Brockville, spent a couple of days last week with Miss Mary Purvis.

William Halliday, Charleston, was a recent visitor at F. Fortune's.

Mrs. J. A. Herbison spent Wednesday in Brockville.

Mr. and Mrs. Norris Ferguson visited Brockville a day last week.

Mr. and Mrs. J. A. Herbison were visitors at Hilliard Earl's, Rockfield, on Tuesday evening.

Greenbush

Greenbush, March 29.—A sudden gloom was cast over the neighborhood on Tuesday evening, the 27th, when death visited the home of the Justus family and claimed one of our most esteemed ladies in the person of Miss Tina Justus, who had reached the age of 58. Although not in the best of health, she was able to take charge of her work until she was stricken down just a few hours before her death, which took place at half past nine in the evening. She had a genuine Christian spirit with which one always found her in the most cheerful disposition. Her funeral took place on Thursday afternoon at 2.30 o'clock with services in the Methodist church, which she always attended. Her pastor, Rev. D. D. Elliott, took for his text Luke 11:40. She leaves behind her one brother, James, and two nephews, Ivan and Stewart, at home, and one niece, Mrs. McGrath, of Smiths Falls. The pallbearers were William Tackaberry, Henry Davis, Ross Miller, Clifford Hall, Fred Olds and Fred Kerr, and her remains were placed in the Greenbush cemetery.

There was a meeting held in the school house on Wednesday evening which Dr. Smith and Nurse Campbell attended. Dr. Smith gave a very instructive address on the care of children.

CHINESE JOSS SAFEGUARDS LINER

of its subjects, therefore, that their wishes may be gratified and its evil designs be brought to confusion, costumed supplicants for its mercy dance before it, describing with painted paper streamers, long curves, dashes and abrupt swings, indicating that before it can turn loose its wrath upon the ship in which they are about to sail, the god of the seas and winds must throw all the platter of fruit and chicken—their humble offering. But the food offering does not suffice to win the good graces of this terrible and austere god, neither does the so-called music sufficiently influence it on behalf Pacific. For forty years the Canadian Pacific Steamships, Ltd., have operated on the Pacific without any serious accident and practically no loss of life, and the Chinese are confident that this record has been achieved only by reason of their aversion of the evil gods. Respectful of the religious beliefs and fancies of all its passengers, the company allows the Orientals to practise their religious rites with all ceremony, and the privileged occidental can watch the proceedings with amused and smiling but expressed unbelief.

Success Is Guaranteed For Your Baking

QUAKER FLOUR must be not only the best in quality, but it must always be the same. We see to this by hourly tests during the milling process. But laboratory tests are not enough. Each day's milling is put to a practical test by our Master Baker. It must always measure up to the exact Quaker standard before it can go into the sack with the Quaker on it. All "chance" is taken out of your baking when you use Quaker Flour. "The happy baker uses Quaker."

ATHENS—JOS. THOMPSON. PORTLAND—EARL BOLTON

THE CORRESPONDENCE OF GASOLINE BILL.

He Goes Calling.
(By L. Glenn Earl.)

Dear Ed:—
Last night I called on neighbor Jones To borrow a needful hundred "bones," To tide me along 'till the Chevrolets, The little Fords and the classy Metz Have caught their springtime dose of chills,
And come to me to cure their ills. And as I talked to neighbor Jones, Of rates of interest charged on loans, His only daughter's nifty beau Called 'round to take her to a show. The young man sat in a high backed chair,
And for 'most an hour waited there While in her "boudoir" pretty Kate Fussed away—and let him wait.

From what I'd heard of the thoughtless lass, I knew she was standing before her glass, Arrayed in the latest style of clothes, Tinting her cheeks and powdering her nose, Twisting around, this way and that, To see how she looks in her newest hat;
For half her time is spent with rouge, Fluffy ribbons and dainty shoes, Lip sticks and talc, and vanishing cream, Cold baths, and warm baths, and baths of steam;
And after all her fussing and care, She doesn't appear one half so fair, As the youthful girl of some years ago, Whose cheeks were flushed with a natural glow;
Who spent her hours with a worthwhile book, And helped her mother to bake and cook.

No wonder Jones asks "eight per cent" On all the money he has lent.

As daughter Kate was arranging her hair, Her nifty young beau sat around in despair, And neighbor Jones still argued away On the cost of coal and the price of hay—
But, out in the kitchen, weary and hot, Is the poor Mrs. Jones, and she's quite forgot, As she labors away with a bucket of suds, Rubbing and scrubbing her daughter's "duds";
Ironing and pressing so dear little Kate, Can sleep half the morning and linger out late. With the nifty young man whom she "happens" to know, Has plenty of cash that he's willing to blow,
To fill up her evenings with laughter and song, And "run" with the crowd to which they belong.

Friend Jones had argued himself out of breath, And Katie's young man was wearied to death, Before she appeared and called with a smile, "Oh Mother—I'm going out for a while, I've asked Jack and Mazie, Helen and Joe,
To drop in this evening, after the show; Will you please lay the table with places for six, And I hope you don't mind if I ask you to mix
A fresh chocolate cake—I forgot it before— And Dad, I do hope you won't litter the floor
With those horrid old papers and worthless books, You don't understand how untidy it "locks."
And Jones turned to me with a soulful sigh, As he nodded the youthful pair, good-bye.

But the young man's heart went pitty-pat, As he gazed at the maiden's gorgeous hat; He approved of her dress, her gloves, and her shoes,
The powder and paint and the layers of rouge; The dainty hands so white and fair, And the "permanent wave" in her golden hair;
He approved of them all as he thought with pride, What a radiant girl for a young man's bride.

But poor Mrs. Jones was well aware, How Kate kept her fingers so white and so fair, And she could have told the nifty young beau, A good many things that he didn't know—
For "mother" it was who would wash and sweep While the dainty young miss had her beauty sleep. 'Twas "mother" who mended the organdie dress, And spent half the evening trying to press
The laces and frills and intimate stuff, That daughter requires to keep up the bluff
Of being the classiest girl in her "set" And keeping the nifty young beau in her net.

As for me, I needs must whistle and smile, That I haven't a daughter to dress up in style, For instead of borrowing a hundred "bones" As I did from good old neighbor Jones, I'd nightly have to rob a "till," Or learn to operate a "still."

NEU-TONE

The Flat Oil Paint For Interior Decoration

For the walls and ceilings of any room in your house, most delicate and harmonious effects can be secured by the use of NEU-TONE. It is cheaper and more sanitary than wall paper and will last much longer because it can be washed without injury. It positively will not rub off.

NEU-TONE is made in eighteen shades, and by the use of various tints most pleasing combinations may be secured.

MARTIN-SENOUR PAINTS AND VARNISHES

NEU-TONE is easy to apply. It covers well and leaves no brush marks, producing a dull, soft, velvety finish which will lend charm to any room in the house.

Any surface may be successfully treated with NEU-TONE—Plaster, wood, burlap or metal.

Call and let us explain the merits of this and other MARTIN-SENOUR finishes. For every purpose—For every surface. Our stock is complete and we can give you full information.

V. B.—Please give me some suggestion on how to treat celery blight.

Answer:—To treat celery blight prepare a mixture of Bordeaux which is made as follows: Dissolve 4 lbs. quick lime in a wooden container and 4 lbs. copper sulphate in another wooden pail. Empty both of these into 20 gals. of water. Immediately you have made the solution spray it on the celery in a fine spray forcing it down among the leaves as thoroughly as possible. This spraying should begin as soon as the celery is well started after setting in the field and should be kept up at least five to seven times. Do not use the Bordeaux mixture if it has been standing any length of time, but mix up fresh material every time you have to spray.

K. K.—I would like to know whether I shall sow oats with the alfalfa seed this spring or alfalfa alone.

Answer:—Early oats make very good nurse crop to sow with alfalfa, especially if you are careful not to sow too much seed. I would recommend not more than a bushel to an acre if you are seeding alfalfa at the same time. Barley has been used with exceeding good results since this crop ripens quickly and is out of the way by the time the young alfalfa is well started.

O. L. B.—Next spring I wish to sow alfalfa with winter wheat. Would it be advisable after top-dressing with farmyard manure? Would it be advisable to sow lime on the wheat, and what would be the best time to sow alfalfa?

Answer:—If you have not applied lime to the alfalfa ground I would advise that you scatter a fairly heavy dressing early in the spring before the frost goes out. This will sweeten the ground and should assist the growth of the bacteria that are found on the oats and alfalfa. In preparing your ground for the sowing of alfalfa you

might apply a light dressing of farm manure with good purpose, putting it on after the lime and before the frost has gone out of the ground, or you can get very good results by a top dressing of fertilizer, scattering it at the rate of about 200 to 300 lbs. per acre as soon as the soil is sufficiently dry in spring for a team to work on it without injuring the growing crop. I would advise your using a mixture analyzing about 2-12-2, that is, 2 per cent. nitrogen, 12 per cent. phosphoric acid and 2 per cent. potash.

M. F.—I stored a quantity of dry black muck last autumn, and as my horse stable is about two feet from the ground I intend to make a box 3' wide by 1' deep, the whole length of the stable and place this directly under the gutter which is made of 2" plank, the bottom being perforated so as to let the horse urine drain through into the box below which is filled with dry muck, and will be emptied and refilled as required. Please let me know what chemical I should use in the muck to make a good fertilizer for potatoes, and other garden vegetables. Would it do to mix the chemical with the muck while it was dry before it got saturated?

Answer: I would advise that you add to the muck soil in question about 5 lbs. of acid phosphate, mixing it with the muck before you put it in the box. This will help catch and hold nitrogen from the manure. When preparing this for application to your potato field, for every ton of the mixture that you have taken out of the box add about 150 lbs. of muriate of potash. This should make a fairly well balanced fertilizer for potatoes. You should make a fairly heavy application of this to the potato soil, putting at least a double handful in each potato hill. However, see that this is mixed well with the soil before dropping the pieces of seed potatoes.

Poultry

To stop roup start immediately to increase the scratch feed. If possible, feed our skim milk, or buttermilk in some form.

Give them a dose of Epsom salts at once, at the rate of about one pound per 100 birds. Feed it mixed in a wet mash about two hours before they go to roost. You may have to keep other feed away for about six hours before feeding the salts, so they will be hungry enough to eat plenty. The next day start feeding ordinary ground sulphur or flowers of sulphur at the rate of one pound per 400 birds, in a wet mash, every day for ten days. Then give another dose of Epsom salts. If the birds are not by this time pretty well over their roup, repeat the treatment at the end of ten days again.

Like sugar, butter, cheese, etc., honey is a highly concentrated food stuff, but unlike the others, it is predigested.

Home economists figure that the farm kitchen ought to be at least 175 square feet in area. It should be well lighted, well painted, and have a lot of table space.

For Home and Country

Their Kindness Meant So Much

The sympathy of the Institutes of old Ontario with the fire sufferers of the North was deep and expressed itself in prompt and practical ways in the supply of food, clothing, materials for building and in money. In the late autumn a number of Branches sent cheques to the Department, sufficient in amount to give a small cash Christmas gift to each member of a Northern Ontario Branch who was spending the winter in the fire-swept region.

The accompanying letters, only a few of many sent to the Superintendent, indicate something of the appreciation with which this thoughtfulness on the part of their Sister Institutes was received:

Charlton Women's Institute: (1) "Please accept my thanks for the very acceptable Christmas gift. Our Institute members in old Ontario have proved to be real helpers in every way and we are indebted to them for many useful things, also clothing, etc., and we fully appreciate their kindness, and I hope if ever it is our turn to help, we shall not be found far behind in doing our share."

Charlton: (2) "I was agreeably surprised to receive the letter enclosing postal note \$20.00 from old Ontario Institute. The same I am very thankful

Three Posts to an Acre.

When I built my lane fence, which is about the whole length of the farm, I wondered why I couldn't figure out some way to tell where an acre was located by the distance across the end. Figuring the exact amount of land in farming, showed that I could set my posts so that three of them would just make an acre.

This saves me lots of time in estimating acreages. When a field is in corn I can count rows and tell about where I am, but in grain or hay I'm lost. Work this out on your farm.

—E. R.

To reflect back into human lines the last image of their living selves is the work of a master.

Dormant spraying is in order in the orchard, especially if you are troubled with scale insects.

Early—that's the word. Write for seed catalogs early, make your choice early, then order early. Plan for a hotbed and have early vegetables.

Only under urgent conditions should bee colonies be opened during the middle of winter or when it is very cold, since undue disturbance may start brood rearing, which would be very undesirable. Brood rearing should not start until spring nectar is available.

to them, as we lost everything in the recent fire. The Institute is doing wonderful work."

Hanbury Women's Institute: "Allow me to acknowledge the receipt of three dollars, which I received last night. It is a welcome gift indeed, as we lost everything in the recent fire."

Whitewood Grove Women's Institute: "I received the letter containing postal note for three dollars (\$3.00) and many thanks for same—which is very acceptable at this time. It is very kind of the different Institutes to think of us in our loss, and we have had help from a number of the Branches, which we appreciated."

Headlip Women's Institute: "Your letter of the 20th and postal note received. Please accept my thanks and appreciation for your kindness. Wishing you and all members a bright and prosperous New Year."

Thornloe Women's Institute: "I am dropping a few lines to thank you many times for the money order for \$3.00 you sent me. I am sure I appreciate this kindness very much. It means so much to me after losing so much in the great fire. Some of the Institutes certainly have done well to help us out and we all feel very grateful to them, and it makes us feel we want to do more for the Institute."

The Sunday School Lesson

FEBRUARY 11

The Spirit of Prayer, Luke 18. Golden Text—The sacrifices of God are a broken spirit: A broken and a contrite heart, O God, thou wilt not despise.—Ps. 51: 17.

Lesson Setting—The subject of our lesson to-day is that of prayer. The whole life of Jesus was an exemplification of the place of prayer in life. How often we see Jesus stealing to the quietness of the mountain top to refresh himself by communion with God. Prayer was not for him a duty. It was a necessity. It was a real part of his life. Prayer was not for him an effort to bend the will of the Father to his will. It was a bending of his will to God's will. There are two parables on prayer in our lesson to-day. These parables deal with some aspects of prayer, not with the whole subject. After all a parable is a story meant to tell us a little about a great thing. Jesus does not explain "why" we pray but rather "how" we should pray.

I. Praying With Persistence, 1-8.

Vs. 1, 2. That men ought always to pray . . . not to faint. Moffatt translates "about the need of always praying and never losing heart." It is not unending prayer that Jesus urges. A long prayer may be a very faint-hearted prayer. It is a persistent spirit rather than persistent utterance that Jesus commends. The opposition is not between praying always and praying sometimes, but between hopeful praying and hopeless silence. A man who feared not God, neither regarded man; a man holding a most responsible position, yet lacking absolutely the qualifications for that position. He repudiates God's moral law and man's claim for justice. His position and power were used wholly in his own interest. A hard man to move.

Vs. 3-5. There was a widow; a poor and friendless woman and therefore one who would have enlisted the sympathy of a just judge. He would not for a while; she could offer no bribe or corresponding gain. But afterward; because she did not desist in her entreaties. The justness of her cause would not let her be discouraged by the unjustness of the judge; she will avenge her. The persistence of the woman made her an annoyance. It is his own comfort he consults. Lest . . . she weary me. Lest she wear me out (cover me with bruises).

Vs. 7, 8. Shall not God avenge his own elect. If persistence wears down the hard heart of the unjust judge, what effect will the persistent cry of God's children have on the loving heart of the Father. If the judge's delay did not discourage the poor woman, why should delay discourage the elect of God. Though he bear long . . . he will avenge them speedily. If justice has its long delays, so has love. God cannot answer immediately always. We must wait long sometimes, but when the proper time arrives the answer will be as speedy (sudden) as the flash of lightning. God's delays are as loving as his answers. Therefore they should not make prayer to be faint. Shall he find faith. When the time is ripe for his coming, will it find God's elect praying in faith or waiting without hope.

II. Praying With Pride, 9-11.

V. 9. Unto certain . . . as trusted in themselves. From the parable of persistent hopefulness in prayer, Jesus passes to speak a parable showing the true humility of prayer. The spiritual condition of those for whom Jesus spoke the parable was that of self-confidence and self-satisfaction. And despised others; an inevitable result of self-admiration and complacency.

Vs. 10, 11. Two men . . . a Pharisee . . . a publican; one man the typical religious man of the day. The other belonging to a class noted for their

unscrupulous dealings in raising the taxes. Going to the Temple was a habit with the Pharisee. Some stress of soul had driven the publican. Prayed thus with himself. The prayer is a soliloquy of the Pharisee with himself, meant however to be overheard by others. The Temple brings no thought of God, but only a satisfied remembrance of himself. I am not as other men are. The Pharisee measures the difference between himself and others, not between himself and God. True prayer measures the gulf between God and one's own soul. Extortioners, unjust, adulterers. The Pharisee makes a dark background out of the lives of others, against which his own excellencies shine out radiantly. True prayer never makes religious capital and advantage out of the sins of others.

True prayer asks God to forgive and forget our sins rather than to remember our excellencies.

III. Praying With Humility, 12-14.

Vs. 12-14. Publican, standing afar off. The Pharisee stands apart in proud and confident isolation. The publican stands apart in shame and contrition. The Pharisee stands apart to be seen. The publican stands apart in their attitude and bearing. Would not lift up . . . his eyes; not because he is ashamed in the presence of the Pharisee, but because he realizes that he is in the presence of God. Prayer kept the Pharisee apart from God and man. Prayer brought the publican to the feet of God. God be merciful to me a sinner. The publican has not only the right attitude and the right spirit of prayer, but also the right content of prayer. He confesses his utter sinfulness and unworthiness. He expresses his need of and desire for mercy. He utters no defence or praise of himself, and no condemnation of others. This man went down . . . justified. The Pharisee did not find God because he did not seek him. The publican went to his home with complete pardon and with a sense of that pardon. The Pharisee went to his home the same proud, unsympathetic, unloving soul. The publican went to his home a new man.

Application.

The story of the man borrowing a loaf at midnight (Luke 11: 5-8), and the story in this lesson, of the unjust judge, go together; and taken together they make it very evident that our Lord put great importance on persistent prayer. "Importunity" is the word in Luke 11: 8. Dr. Moffatt translates it, "He will give you whatever you want, because you persist." Again, as illustrating how emphatic is Jesus on this matter, Dr. Adeney, in the Century Bible, says that "ought" in Luke 18: 1 is literally "must"—that is to say, "It is absolutely necessary to pray, and that perseveringly—under all circumstances, never abandoning prayer in despair."

Christ follows the story with the question, "Howbeit when the son of man cometh, shall he find faith on the earth?" Shall he find the faith that is requisite for this persistent prayer? If Christ stressed persistence in prayer, how much oftener he spoke of faith! "According to your faith, be it unto you." Why are you fearful, O ye of little faith? "If ye have faith as a grain of mustard seed, ye shall say unto this mountain, remove hence to yonder place; and it shall remove; and nothing shall be impossible unto you." "The power of faith."—why, Jesus declares it equal to anything. It can do the seemingly impossible.

Fundamental Principles of Co-Operative Marketing

By R. D. Colquhoun, B.S.A., Professor of Marketing Economics, Ontario Agricultural College.

ARTICLE V.

A co-operative marketing association must have a contract or marketing agreement with its members by which the members agree to deliver all their product, of the kind handled by the association, to the association for marketing. There is nothing new in this idea. It has been in operation in Denmark for over 40 years. In California the contract idea has been in force for over 20 years. All the great co-operatives of that state and many of the associations that have, within the last few years, sprung up in other states and in Canada, have binding contracts with their members.

It is not generally realized how extensively the contract idea has taken hold. Suffice it to say then, that in 1922, according to conservative estimates, at less than a billion dollars (\$1,000,000,000) worth of farm products were marketed by the co-operatives of Canada and the United States under definite contracts with their members.

There are two general types of contracts in common use. The first is known as the term contract. It runs for a definite number of years. The length of time covered varies, but five years seems to be the most popular term. Some are for seven years. One, signed by the raisin growers of California, runs for 14 years. The method is to sign up the members for a definite term at the end of which all the contracts expire. A renewal campaign is then put on and the members signed up for another definite period.

The other type of contract is called the self-renewing type. It is a contract which continues in force indefinitely but which may be cancelled by

either the association or the member under certain specified conditions. Cancellation can be made only at the end of the crop year after due notice has been given within specified dates.

The contract of the Ontario Co-operative Dairy Products Limited, a new organization for the co-operative selling of Ontario cheese, has a contract which is a combination of these two types. It is a term contract to begin with, having no withdrawal privileges during the first three years. After that it becomes a self-renewing contract and may be cancelled at the end of 1925, or of any year thereafter, by giving notice between December 1 and December 15.

There are many good reasons for having a contract. A few will be briefly enumerated.

1. It ensures volume of business. No co-operative marketing association should begin business until it is assured of a sufficient volume of business to ensure economical operation. In the organization period a definite objective should be set and unless the objective is attained the organization should not begin operations. Under the contract system it is possible to definitely ascertain when the minimum volume which has been set as the objective has been signed up. This goes a long way toward assuring the success of the undertaking.

2. The contract binds the organization together. Those who oppose co-operative marketing always try to incite the farmers against signing the contract. They know that it destroys their greatest weapon in fighting co-operative marketing. Their favorite plan is to split the farmers up by going into isolated districts and offer-

SMOKE

OLD CHUM

The Tobacco of Quality

in 1/2 lb tins and 15¢ pkts.

ing higher prices than the market warrants in order to steal away the members' patronage. This weakens the association and carried far enough breaks it up. Then they have the field to themselves again and can soon make up any losses they have sustained. With the marketing agreement signed by all the members outsiders have no opportunity for breaking up the association in this manner. The members in each district need have no fear in staying by their association for they know that the members in all the other districts having signed the same agreement, are also standing by it. The marketing contract is really an agreement between the members that they will stick together and give their association a chance to show what it can do.

3. A better manager can be secured. With the assurance of a large volume to handle over a period of years more capable men can be interested and their services obtained.

4. With an assured and known volume to handle the management can negotiate sales knowing that the product will come forward to fill the orders. This greatly strengthens the position of the association in the market. If there is danger that the market will not absorb the volume handled at good prices the situation can be foreseen and the market extended by judicious advertising and other means.

5. Great economies can be effected in handling the product. Under competitive methods of marketing a great deal of effort and money is expended in drumming up business. This is one of the greatest sources of expense. With the product contracted by the members the management of a co-operative marketing association is saved all this outlay. The volume comes forward under the terms of the contract and the management can devote all its energy to efficiently marketing the product.

Other advantages of the contract system could be enumerated but these must suffice. It is a common saying that the farmers will not stick together. The co-operatives which have adopted the contract have no trouble on this score. A definite and binding contract is a feature of all the large and permanently successful co-operative marketing associations on this continent and it is recognized by all authorities as a fundamental to the success of a co-operative marketing enterprise.

It pays to protect sheep from winter winds and rains. Any rough, inexpensive shelter will serve.

A Million Backaches.

One of the sad mistakes that this Dominion of ours has made, is in allowing the idea to persist that a kitchen sink should be just so high, regardless of the length of mother's mortal frame.

It may be too much to say that all the ills of our beloved country can be traced to the fact that the wash-tubs are only twenty-seven inches from the floor, whereas they ought to be thirty inches because mother stands five feet four. But we do know that lawyers and politicians are all the time throwing fits over questions that are absolutely trivial and childish compared to this.

If mother is so tall, tubs, sink, table, stove, and ironing-board ought to be so high from the floor. If she is taller, they must be higher. Even if, by some miracle, she were to be four feet ten one day and five feet eight the next, every one of those blessed things ought to be changed every time she did.

That is what we think about the real importance of backaches.

Dehorning Calves.

Many are familiar with the simple process of preventing the growth of horns on calves. Moisten the spot where the horn is to grow, and rub it with a piece of caustic potash till it looks red. That is all. An agricultural paper we read recently says: "Rub till the skin is broken and it begins to bleed." This is not necessary. As soon as the place begins to look even slightly irritated it need be rubbed no longer. It is best to do this before the calf is two weeks old. Only a little moistening with the finger, dipped in water, is all that is required.

What teeth will you wear in 1930—yours or some store's? It pays to care, and to take care.

Irrigated Farms in Southern Alberta

In the Famous Vauxhall District Bow River Irrigation Project An especially good location for mixed farming and dairying. Splendid opportunity for young men now living in districts where good land cannot be bought at reasonable prices. This is NOT PIONEERING, the first 10,000 acres are fully settled and another 10,000 acres now ready for settlement; maximum distance from railroad seven miles. Good roads, telephones and schools. Easy payments, extending over 18 years. This is the Best Land Buy in Alberta. Write for further information to: CANADA LAND AND IRRIGATION COMPANY, LIMITED Medicine Hat, Alberta

TIRED-OUT WOMEN

What They Need to Restore Health and Vitality.

The woman who feels tired out, who aches all over when she rises in the morning, who feels depressed most of her time, needs just the help that Dr. Williams' Pink Pills can give her—new rich blood and stronger nerves.

The number of disorders caused by thin blood is amazing, and most women are careless about this condition of their blood. Their nerves are quickly affected, and they become irritable; they worry over trifles, and do not obtain refreshing sleep. There may be stomach troubles and headaches. This is the condition that calls for Dr. Williams' Pink Pills, the blood-making and nerve-restoring tonic. The value of this medicine is proved by the statement of Mrs. John Conroy, Fall River, Ont., who says:—"Two years ago, after the birth of one of my children, I became so run-down that I had to wean the baby and could not do my housework. I lost appetite, took no interest in anything, and was in a pitiable condition. I tried different doctors, but they did not help me very much. I was in this condition all summer until a neighbor advised me to try Dr. Williams' Pink Pills. After taking two boxes I felt somewhat better and got a further supply. I found my appetite improving; I could do my housework, and living again seemed worth while. I continued taking the pills for some months, and was then enjoying the best of health. I cannot too strongly recommend Dr. Williams' Pink Pills to anyone run down and in need of a tonic as they built me up, and there is no sign of anemia about me today."

You can get Dr. Williams' Pink Pills from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Red lights can be seen at a greater distance than green.

Minard's Liniment for Neuralgia.

The Meaning of a Cough.

A cough is a reflex action; that is, it is a succession of co-ordinated muscular movements intended to force a column of air through the respiratory tube so as to expel some irritant that is lodged there. This irritant causes a disagreeable sensation in the mucous membrane of the tube, and the nerves carry news of it to a centre in the spinal cord, which sends back an order to the muscles to start the mechanism by which the thing can be removed. When the irritant is a drop of mucus or other secretion the cough sends it up to the mouth, but when the trouble is a spot of inflammation without secretion the cough does no good and may do harm by keeping the part inflamed.

Irritation or inflammation in other parts that are served by branches of the same nerve that guards the larynx may also excite a cough. The centre in the spinal cord cannot always tell from what organ it receives the news; becoming confused, as it were, it may interpret it as coming from the air tubes. Thus a cough occurs not infrequently in children who are teething; or a cough may be owing to a reflex excited by a foreign body or by an accumulation of wax in the ear or perhaps by actual inflammation.

A so-called nasal cough is not at all uncommon. It is produced by some irritation of the mucous membrane that covers the posterior part of either of the nasal cavities. The irritant may be a little dust or a foreign body such as a pin; or it may be a tumor. The cough that occurs with a beginning cold in the head is usually owing to nasal inflammation rather than to any trouble in the larynx.

Sometimes a little irregularity in the heartbeat excites a slight cough; and disease of the heart or of the kidneys may cause a little dropsical swelling in the air tubes and thereby may excite a cough that is both ineffectual and troublesome. A gouty condition also may excite a bothersome cough; happily, however, it can be promptly allayed by treating for gout. Finally, inflammation of the pleura—that is, the membrane covering the lungs and lining the chest—almost always causes

a distressing and painful cough. Thus we see that a cough is not a simple matter with a single definite cause; we should realize therefore the necessity of a careful medical examination when a cough persists and the foolishness of swallowing some nauseous and possibly dangerous medicine just because it relieved a friend's cough, which may have been owing to some entirely different cause.

Greenland Moving West 20 Yards a Year.

The earth is "wobbling" on its axis, according to Col. P. Jensen, the Danish scientist, who returned recently from a degree measuring expedition into Greenland, says a London despatch. He reports that Greenland is moving westward at the rate of twenty yards a year. This seems to confirm the recent reports of surprising climatic changes at the North Pole.

It is now established that there is a periodic shifting of the latitudes of the North Pole. The movement is difficult because of the small area of the Pole—about the size of a tennis court. Some authorities say that the poles are gradually changing their positions, and that this alteration to the world's axis will in time mean that regions which are at present icebound will become warm and habitable countries.

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are so changeable—one bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Lilliputian Flying Machines.

An outstanding feature of the aeronautical world is the influx of Lilliputian machines. One type is known as the "pocket aeroplane." It is from a design by A. W. Whippet and is so small that it can be dismantled and packed in a fair sized trunk. The designer claims that it can develop a speed of 100 miles an hour. The "British Crow," weighing under 250 pounds, has a span of 15 feet and will develop 75 miles an hour. Lieutenant E. Passepourt, a French designer, claims, to have turned out the smallest aeroplane in the world. It has a span of ten feet.

The initial outlay and the cost of the upkeep of these midge aeroplanes have received every consideration. The average purchase price ranges from \$900 to \$1,250, and a fair example of performance is given by the "Avro Baby." It is equipped with a 25 h.p. Green engine, and is capable of a speed of 75 miles an hour and will give 25 miles on a gallon.

M. L. MEHLBINE

The Ultimatum.
Cook—"I won't stand for that man's temper! You either get a different husband or a different cook!"

A Costly Comma.

It is said that a comma once cost the Government of the United States \$2,000,000. The tariff bill, in which the mistake occurred, provided that "foreign fruit plants, &c." should be admitted free of duty, the idea being to encourage the culture of high grade varieties of fruit trees and grapevines in that country. When the bill was printed "foreign fruit plants, &c." read foreign fruit, plants, &c. and as a result oranges, grapes, lemons, bananas, &c. came into the United States free of duty for a year. The error cost the government just \$2,000,000 in revenue.

Too Cheap.

Pasted on the window of the book publisher's store was the sign, "Porter wanted," and in the window itself on a pile of books the placard, "Dickens' Works All This Week for \$4." The able-looking Irishman read first the sign and then the placard. He blurted out: "Dickens may take the job! Dickens can work all the week for four dollars if he wants to, but I'll not touch it. Ye'd better kape Dick-ens."

British Houses of Parliament.

The Houses of Parliament cover an area of eight acres, and have a river frontage of 940 ft. They contain more than five hundred rooms, and about eighteen residences, the resident population being about two hundred.

VETERAN TELLS HOW HE ESCAPED

Declares Tanlac Freed Him From Stomach Trouble, Swelling and Weakness Left by Pneumonia.

George L. Lewis, Boullie St., London, Ont., well-known carpenter and veteran of the South African and World wars, has added his name to the long list of Ontario people praising Tanlac for the benefits they have derived from taking the medicine.

"Last winter," said Mr. Lewis, "I was down with pneumonia, and after that I couldn't get my strength back and was unable to work. I had no appetite, and if I did dare to eat it only caused me more suffering with my stomach. I had neuritis in my legs, and my feet would swell up till I thought they would burst. My kidneys were out of order, and it was impossible for me to get a good night's sleep."

"But I have taken on new hope and courage since I started taking Tanlac. I can just feel the medicine building me up. My appetite has come back full strength, I can sleep like a top, and you can bet I'll stick to Tanlac." Tanlac is sold by all good druggists.

Meat Consumption Figures.

The average per head consumption of meat of all kinds, exclusive of poultry and game in Great Britain, was about 120 pounds a year prior to the war. Of this amount three-fifths was home-produced, and two-fifths was imported. Of the over-seas supply 70 per cent. of the mutton, 19 per cent. of the beef, and 9 per cent. of the pork came from within the Empire—Canada, Australia, New Zealand and South Africa.

MONEY ORDERS.

The safe way to send money by mail is by Dominion Express Money Order.

A Bargain Sight.

"You don't mind if I leave my hat on, do you?" asked the sweet young thing of the little man in the seat behind her at the pictures.

"Not at all, miss! Not at all!" replied the little man. "I enjoy looking at bargains."

The Family Medicine Chest.

The Cause of Heart Trouble

Faulty digestion causes the generation of gases in the stomach which inflate and press on the heart and interfere with its regular action, causing faintness and pain. 15 to 30 drops of Mother Seigel's Curative Syrup after meals sets digestion right, which allows the heart to beat full and regular. 50c. and \$1.00 bottle at druggists.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

PETRIE'S MACHINERY TORONTO

PIMPLES ON HEAD AND NECK

Small and Formed Sore Eruptions. Skin Sore and Red. Cuticura Heals.

"Pimples broke out on the back of my head and neck. At first the pimples were small and then ran into each other and formed sore eruptions about the size of a ten cent piece. The skin was sore and red and itched a great deal, causing me to scratch."
"I had the trouble about six months before I began using Cuticura Soap and Ointment, and after using three cakes of Soap and three boxes of Ointment I was healed." (Signed) J. A. Macdonald, Giffard, Quebec.
Rely on Cuticura Soap, Ointment and Talcum to care for your skin.
Sample Each Free by Mail. Address: "Cuticura, Limited, 544 St. Paul St., Montreal." Sold every-where. Soap 2c. Ointment 2c. and 5c. Talcum 1c. 25c. Cuticura Soap shaves without soap.

WOMEN FROM FORTY TO FIFTY

Will Be Interested in Mrs. Thompson's Recovery by Use of Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"Lydia E. Pinkham's Vegetable Compound has done me good in every way. I was very weak and run-down and had certain troubles that women of my age are likely to have. I did not like to go to the doctor so I took the Vegetable Compound and am still taking it right along. I recommend it to my friends and to any one I know who is not feeling well."—Mrs. THOMPSON, 308 Lizzie St., Winnipeg, Man.

When women who are between the ages of forty-five and fifty-five are beset with such annoying symptoms as nervousness, irritability, melancholia and heat flashes, which produce headaches, dizziness, or a sense of suffocation, they should take Lydia E. Pinkham's Vegetable Compound. It is especially adapted to help women through this crisis. It is prepared from roots and herbs and contains no harmful drugs or narcotics. This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women." C.

A necessary part of your diet

VARIETY in foods is essential, of course, but in providing variety do not overlook the importance of nourishment. Some foods supply bulk with little nourishment—others provide nourishment with little bulk. Crisp, delicious Grape-Nuts is a highly nourishing cereal food in unusually compact form. It supplies the rich nutrition of wheat and malted barley, including the mineral elements of these splendid grains, without which health and strength cannot be maintained.

Grape-Nuts with good milk is a complete food, combining all the food elements needed for body-building.

Economical, too, because a moderate amount provides unusual nourishment.

Sold by Grocers Everywhere!

Attorney there, is a nephew and namesake of our townsman, John Layng, Main St. East. Mr. and Mrs. Joynt will return to Brockville this month having spent the past five months in the South.

A CORRECTION

Mr. Editor—Will you allow me space in your paper to correct a wrong impression. It is reported that I laid the complaint against my neighbor who was recently fined for fishing in Lake Eloida with a net. I wish to emphatically deny this. I did not make the complaint nor was I in any way responsible for it. Thanking you, Mr. Editor, I remain,
Chas. Foley.

Here and There

Vancouver as a grain port has gone over the top and is assured of achieving the 15,000,000 bushel objective set for the 1922-1923 crop year, according to statistics issued at the Vancouver Merchants Exchange.

A Canadian Pacific Railway train, over half a mile long, left Oshawa for New York recently. The train was composed of 52 flat cars, each carrying from four to six automobiles, and was the first solid train to leave Oshawa for New York.

Making the heaviest loading since the big crop year of 1915, grain loaded on the western lines of the Canadian Pacific Railway from September 1st, 1922, to March 7th, 1923, inclusive, totalled 118,565 cars. This is 16,000 more cars than were loaded during the corresponding season of last year.

While in mid Pacific, the wireless operator of the Canadian Pacific Steamship "Empress of Russia" was in touch with the Loafield wireless station in England, and received a number of news items. "The ether waves were evidently carried across the North Pole, as we were on the other side of the world," said Captain A. J. Hosken, commander of the liner.

An Owen Sound deputation which recently interviewed Canadian Pacific Railway officials in Toronto, urged the building of a line from Owen Sound, through Meaford and on to Collingwood and then on to a point on the Sudbury line near Coldwater. The officials are reported to have been interested by the suggestions made by the delegation.

Captain A. J. Hosken, R.N.R., of the Canadian Pacific Steamer "Empress of Russia," has been awarded the Medaille d'Honneur de Sauvelage de premiere classe by the French Government, for the part taken by him as commander of the liner "Monteagle" in saving the crew of the French steamer "Hain Tien," off the China coast.

There is a gold rush on to Rouyn township, in northern Quebec, to Labrador and now to the Soo district. In fact, the whole northern district has immense areas of rock bearing more or less gold, and the question is whether the quantity is large enough to make a real mine. Gold mining will be one of Canada's greatest industries twenty-five years from now.—"Mail & Empire."

Still another case of children travelling alone. Elmer Lann, five years old, and Roland Callwell, seven years old, both living on St. Denis street, Montreal, were missed by their parents who did not hear of them after their disappearance until notified by Canadian Pacific Railway officials that the children were in Quebec city, to which place they had begged a ride.

The initial shipment of cattle since the Embargo removal was recently inspected by the Hon. W. F. Motherwell, Minister of Agriculture, in the C. P. R. stock yards, Montreal. They were stall-fed Ontario cattle from along the Canadian Pacific west of Toronto, with the exception of one car load of Western cattle, the latter being in the best condition despite the fact that they had had a 28 hours run from North Bay. The minister expressed the opinion that the cattle being shipped were of the first quality.

It has remained for the Canadian Pacific experimental farm at Strathmore to demonstrate beyond the possible shadow of doubt that the inexpensive trench silo system of providing winter fodder for cattle is, under favorable conditions, quite equal to the costly structures which have in the past been utilized and that the silage is in every sense excellent. This was proved to the satisfaction of a large party of agricultural and business men, who recently visited Strathmore as the guests of the Canadian Pacific Department of Natural Resources in
