MEN WHO HAD ACHIEVED GREATNESS IN SQUARED CIRCLE, ON BASEBALL DIAMONDS, CINDER TRACKS, HORSE RACING AND WRESTLING, WERE CALLED BY GREEN REAPER DURING 1919
NEW YORK, Dec. 31.—Many prominent figures in the world of sport and athletics have been removed by death during the year now drawing to a close. Included in the list were men whose achievements on the baseball diamond, in the squared circle, on the padded mat, or on the cinder track made their names familiar to all followers of sport. Some were stars of a past generation, while others were still active in their respective fields.
James A. Hart, one of the pioneers of baseball, and former owner of the Chicago National league club, passed away at his home in Chicago, July 18.
Another veteran lost to the game was James N. O'Rourke, a famous player in the early days and later owner and manager of New England minor league clubs.
Others who had been more or less prominently connected with the national game and who died during the year were:
Herman ("Germany") Schaefer, who had played with clubs in both major leagues, and was not only a great pastime, but the wittiest play and coach in the profession.
"Cy" Seymour, who led the National league in batting while with the Cincinnati club in 1905.
Jake Stenzel, a one-time star batsman of the Pittsburgh and Baltimore clubs.
Alexander ("Broadway Alex") Smith, who had been a catcher for the Giants, Brooklyn, and other clubs.
Schlafly Was One.
Steve Toole, who pitched for the Brooklyn team some 30 years ago.
Frederick Demarals, who pitched for the Chicago Cubs in the days of Cap Anson.
Ed. McKeen, famous shortstop of the Cleveland team in the early '90's.
Eugene Curtis, at one time an outfielder with the Chicago Nationals.
James J. Ball, a player with various Eastern and New England league teams.
Grover Gilmore, outfield for the St. Louis Browns, and later in the minors.
Samuel H. ("Dutch") Jones, at one time part owner of the Philadelphia Athletics.
J. B. Nicklin, a former president of the Southern league.
H. L. Schlafly, well known as an umpire in the Western League, and former manager of Buffalo Federal league club.
Those lost to pugilism during the year included "Honey" Melody, once the world's champion welterweight; Eddie Santry, one of the cleverest of all featherweights; "Sandy" Ferguson, a well known heavyweight of Chelsea, Mass.; John Fitzpatrick of New Orleans, a famous referee of a former day; John J. McGuigan, a widely known referee and matchmaker of Philadelphia, and Martin Julian, who managed and scouted his brother in law, the late Bob Fitzsimmons.
Strangler Lewis Went.
Evan Lewis, the former champion heavyweight wrestler, and the original "Strangler," Lewis, died at Dodgeville, Wis., in his 59th year. Another prominent figure of the wrestling game who passed away during the year was Duncan C. Ross, who made his home in Baltimore after his retirement.
Well known to all followers of the turf were Bud Doble, one of the most famous trotting horse breeders in America; Barney Schreiber, whose

face was familiar at every track before the days of anti-betting laws; Garret D. Wilson, widely known as a horse breeder, and for many years secretary of the Kentucky association, and Frankie Robinson, premier jockey, who met death in a race at Bowie last April.
Famous Indian Guns.
Others who had achieved prominence in various lines of sport and who were gathered in by the Grim Reaper during the past year were Joe Hall, one of the most famous of Canadian hockey stars; Andrew Soekalesis, the Maine Indian who won fame as a Marathon runner some years ago; Jack Caffery of Hamilton Ont., also famous as a long distance runner and twice winner of the Boston Marathon, and George Strath, oldest professional golfer in the U. S., and for many years in charge of the Crescent A. C. links in Brooklyn.
PIN THIS UPON WIFE'S DRESSER
Warns Women Against Cutting Corns and Shows They Lift Right out.

Because style accedes that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they get out trim at tuncs partial pests which merely makes the corn grow hard. This suicidal habit may cause lockjaw and women are warned to stop it.
A few drops of a drug called Freez-one applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of freezone, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet.
This drug is gummy but it dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.
Tomorrow evening the annual dinner of the University of Toronto Association of St. Catharines District will be held at the Welland.

Are Your Tires in Good Condition

to stand up against the wet and mud? Insure yourself from being held up at this time of the year. Goodrich Silvertown Cord Tires are the strongest constructed cable cord tires with the toughest black rubber and safety treads on the road today. Ask the man that is using them!

Goodrich Tires in actual use on road and pavement are today unfolding such matchless mileage, regularly in excess of previous adjustment basis, that Goodrich knows it has the strongest, most durable tire the rubber industry has produced.

STATE EXCISE MEN RAID 20 BUFFALO SALOONS

BUFFALO, Jan. 3.—Buffalo saloonkeepers who gave up their state licenses and continued to take a chance by keeping liquor on their premises received a rude shock yesterday when Jay Farrier of Oneida, a deputy excise commissioner, and 35 special agents came to town and paid them a visit.
After completing the round of New York calls the deputies had assembled a considerable quantity of liquor and 20 saloonkeepers faced charges of violating the state excise law, punishable for which a fine of \$200 to \$1200 and imprisonment for 30 days to one year. The courts have held that both fine and imprisonment must be imposed on conviction.
W. A. McKimmon yesterday afternoon addressed the Men's Own class of Knox Sunday School on "Mesopotamia, Past and Present."

Walter Johnson Again Won Pitching Crown in The American League

NEW YORK, Jan. 1.—Walter Johnson, the "old reliable" of the Senators, has won the 1919 pitching crown in the American league.
The speed king, handicapped by backing that was not the best in the league, was the most effective hurler in the younger circuit, according to the averages released by President Ban Johnson.
He pitched 290 innings, allowed 235 hits in 69 games, issued 51 passes, struck out 147, hit seven batters—all for an average of 1.43.
Eddie Cicotte, star iron man of the White Sox, is second with 1.52. Then follow Wellman, St. Louis, 2.07; Maya New York, 2.10; Sothoron, St. Louis, 2.20; Enzman, Cleveland, 2.30; Coveleskie, Cleveland, 2.52.

Washington had a trio of the widest heavers in the league. Shaw had ten wild pitches, Harper had nine, and Erickson had eight.
A trio of hurlers broke into the balk column with a pair of hesitations. They were Kinney of the Athletics; Harper, of Washington, and Sothoron, of St. Louis.
Eddie Cicotte, noted chinlifter of the league champions, did more than any other slaban to earn his money. He pitched 307 innings. Shaw was next with 293, and then Coveleskie with 276.
Among the regular workers, Morton, of the Indians, was the lightest with hits. He allowed 128 in twenty six games; his stable mate, Ute, gave one more in the same number of games. Mays, the noted rebel, gave 131 in 21 games.
Coveleskie allowed the greatest number of hits, 286 in 43 games. Shaw was fourth for 258 in 44 games and Williams for 265 in 41 games.

SIR WILLIAM OSLER
(Buffalo News.)
William Osler, the great physician to refute his dictum, that would be to the general good if at 60 were retired from active work. He lived to round out 70, and was in active practice of profession up to the last; he did not know the limit of his powers. The 70 years of his life were perhaps the most fruitful years. Greater deeds were made on him in the world than ever had been made before, and he proved more than equal to the world of medicine would be greatly the poorer if he had been retired at the time he was the limit of usefulness.
William lived to see men of 60

Improved Conditions— Better Service

TELEPHONE service, like other public services, undoubtedly suffered through the war.

From our staff of skilled telephone workers, 846 went overseas. Many highly efficient operators sought temporary positions in munitions plants. Telephone material became almost unobtainable.

Abnormal conditions are now passing. More than five hundred of our men are back from the front. In most places the supply of competent operators is normal.

There is now the task of restoring the proper margin of reserve plant and of overtaking arrears in repair and maintenance work. The moving season is always difficult. At some exchanges an avalanche of orders for moves comes in—over 13,300 this year at one exchange alone, which meant somewhat of a set-back in getting our plant back to normal.

But the work is progressing. Our plans involve an outlay for the year on extensions and replacements of over \$7,000,000. We are giving intensive training in our operators' schools to scores of young women to prepare them for central office positions.

Skilled workers, adequate equipment, a resolve to do the best work possible while realizing that we are all servants of the public—these are the factors which we hope will result in the maintenance of the pre-war standard of telephone service.

And we ask the co-operation of all telephone users.

The Bell Telephone Company of Canada

SIR WILLIAM OSLER.
(Buffalo News.)

William Osler, the great physi-
cist, lived to refute his dictum, that
would be to the general good if
at 60 were retired from active
work.

He lived to round out 70
years, and was in active practice of
his profession up to the last; he died
of fullness of his powers. The
10 years of his life were perhaps
the most fruitful years. Greater de-
votion were made on him in the war
than ever had been made be-
fore, and he proved more than equal
to the world of medicine would
have been greatly the poorer if he
had been fit to retire at the time he
was the limit of usefulness.

Hamilton civic authorities are said
to be convinced after six years' trial
that the holding of municipal elec-
tions on New Year's Day is a mis-
take.

years and more jump into harness in
the war emergency and keep the
wheels of industry humming when
youth was called to the colors. They
proved their worth then, the oldsters
beyond question. Without them in
the factories and the fields, the
armies could not have carried on to
victory. If Sir William doubted their
capacity, when as a man of 55 years
he inveighed against them, he had no
doubt when he had passed the time
limit of his ruling and found himself
laboring with them in the most ex-
acting service. Age is a relative
matter; it is of infinite variety and
capacity. No dictum can stand against
it.

POWDER PLANT EXPLOSION.
Five Men Killed and One Injured—
Surrounding Territory Shaken

WILMINGTON, Del., Jan. 3.—One
of the grinding mills of the Hagley
plant of the du Pont Powder com-
pany blew up yesterday morning five
workmen were killed and one was
injured.

The building was of flimsy construc-
tion. The plant is on Brandywine
creek, three miles from here.

Wilmington and the surrounding
country for 30 miles were violently
shaken and some houses in the im-
mediate vicinity of the plant were
badly damaged.

Drinking a Glass of Hot Water is a Splendid Habit

Cleanse and sweeten the system
each morning and wash away
poisonous, stagnant matter.

Those of us who are accustomed to
feel dull and heavy when we arise;
suffering headache, stuffy from a cold,
foul tongue, nasty breath, acid stom-
ach, lame back, can, instead, both look
and feel as fresh as a daisy always
by washing the poisons and toxins
from the body with phosphated hot
water each morning.

We should drink before breakfast,
a glass of hot water with a tea-
spoonful of limestone phosphate in it
to flush from the stomach, liver, kid-
neys and bowels the previous day's
indigestible toxins, thus cleansing,
sweetening and purifying the entire
alimentary tract before eating more
food.

The action of limestone phosphate
and hot water on an empty stomach
is wonderfully invigorating. It cleans
out all the sour fermentations, gases
and acidity and gives one a
fine appetite for breakfast. A quarter
pound of limestone phosphate costs
very little at the drug store, but is
enough to make anyone who is both-
ered with biliousness, constipation,
stomach trouble or rheumatism an
enthusiast on internal sanitation.

**65 MILLION BUSHELS
OF WHEAT ARE SOLD**

Britain, France and Italy Get That
Amount, Says Winnipeg Paper

WINNIPEG, Jan. 3.—The Telegram
publishes last night a set of figures
which, it says, have been obtained
by a correspondent from the British
Wheat Commission, asserting that
the Canadian Wheat Board had dis-
posed of 65,000,000 bushels of 1919
export wheat to Britain, France and
Italy by November 15, 1919, and on
that date was negotiating the sale
of another 10,000,000 bushels to the
British Government.

The correspondent says: "I was
able to get the following information
from the British Wheat Commission
The figures are up to November 15:
"Purchased in Canada: Wheat,
500,000 tons at \$2.44 per bushel; flour
50,000 tons at \$10.05 per barrel.
"France: Wheat, 75,000 tons at
\$2.50 per bushel; flour, 25,000 tons at
\$11.50 per barrel.
"Italy: Wheat, 100,000 tons at \$2-
55 per bushel."

The Globe

Farm and Country Life in Canada

FARMING is a basic industry in Canada. From the first days of its publication, *The Globe* has always strongly advocated the development of scientific agriculture.

When the breeding of pure-bred stock in Canada was first deemed necessary, *The Globe*, by example and precept, showed what could be done.

The late George Brown was a leader in experiment. At Bow Park Farm, near Brantford, he bred from imported cattle so as to place pure-bred stock at the disposal of his neighbors.

From those days to the present, the furthering of the interests of the Farm and Country Life of Canada has been an important feature of *The Globe*.

The Weekly Farm Department has always been a source of inspiration to the farmers to improve their knowledge of agriculture.

The Globe believes that one of the best ways of teaching a man is to show him what his neighbor is doing. This is the policy *The Globe* adopts in its Farm Department. Two members of *The Globe* staff devote their whole time to the collection of material for this Department and in so doing spend several days each week in the country. They visit good farms all over Ontario and attend Fairs and Conventions. They report all developments in rural life as reflected in these gatherings as well as in the personal experience of successful farmers. Through its "Farm and Country Life" Section, *The Globe* has identified itself with every movement calculated to improve

the conditions under which farmers and their families do their daily work.

This is the service thousands of Farmers in Ontario and elsewhere receive and appreciate, and one of the reasons why many thousands of them read *The Globe*.

But that is not all. Seen competition, and the continued fluctuation of prices make it necessary for the farmer and his family to keep in touch with current produce and other commodity prices even from day to day.

The Globe has a well-merited reputation for accuracy, because in nothing is it more dependable than in its market reports. All prices quoted in *The Globe* are verified by the highest authorities SIX TIMES EVERY WEEK.

But besides all this, *The Globe* is a Great Family Newspaper. It is as much a necessity and convenience in the Farm Home as anywhere else. The coming of the daily paper to the Farm Home ranks in importance with the rural mail delivery, the telephone, electricity and the good road.

It broadens the outlook of those who live on the farm. It keeps them informed on current events the world over. Not only does *The Globe* do this, but it serves the agriculturists of Canada in a peculiar and appropriate way.

The service *The Globe* has already rendered three generations of Farm Life is a guarantee of what it will do in the days to come.

This is why The Globe should have a place in every Farm Home in Ontario.

FARM LOANS for SOLDIERS

Agricultural Training For Soldier Settlers

A **SOLDIER** is entitled to the benefits of the Soldier Settlement Act if he can satisfy the Agricultural Qualification Committee in his district that—

- He has performed the required military service;
- He is sincere in his intention to make farming his permanent occupation;
- He is physically capable and is fitted in general to make a success of the farming business.

If he is otherwise qualified, but has not had sufficient practical agricultural experience, the Committee may recommend that he be given agricultural training. A generous scale of allowances for soldiers in training has been adopted.

Training Centres For Soldier Settlers

The applicant who is recommended for instruction in agriculture may first be sent to a Training Centre, specially operated for the purpose, where he will learn, by practical experience, how to handle and feed horses and other live stock; milking; the operation of farm machinery, ploughing, etc.; general farm building work; farm blacksmithing; the different kinds of soil and rotation of crops; the selection and judging of live stock and the marketing of farm products. Short lectures on the business management of a farm will be given.

With A Selected Farmer

After the course at the Training Centre, the length of which depends on the progress of the individual but will not exceed three months, the man is placed with a carefully selected farmer in the district in which he intends to settle, to complete his training. During this period (not exceeding one year), the soldier is visited from time to time by representatives of the Soldier Settlement Board, who check his progress and recommend when he is considered qualified to take up a farm of his own.

It will be evident that by this system of preliminary training the soldier settler will gain a thorough practical knowledge of farming without expense; will learn to appreciate the responsibility involved in the venture, and at the same time gain a clear conception of just what farm life means.

On His Own Farm

When a settler is deemed qualified by the Agricultural Qualification Committee, the Board will assist him to become established on a farm of his own, and will, through its Agricultural Advisers, continue to co-operate with him in his work, thereby ensuring his success and consequent ability to discharge his obligations and become permanently established.

Fair To Both

The procedure outlined not only gives the soldier an opportunity of first becoming familiar with his environment and of acquiring the experience requisite to success, but ensures adding to the nation's fundamental industry only competent and satisfied producers.

Detailed information regarding the provisions of the Soldier Settlement Act and further particulars regarding agricultural training may be obtained from the Provincial Superintendent, 32 Adelaide Street East, Toronto, Ont.

Soldier Settlement Board**

**CHINA REDUCES
BUT STILL HAS
LARGEST ARMY**

HAS MILLION AND QUARTER
SOLDIERS NOW — DECREASE
TO 980,000

WASHINGTON, Jan. 3.—Officials in Washington have been advised that the plans for the demobilization of the Chinese army contemplate reducing the military strength of China to a standing army of 980,000 men. Advice received indicate that China still has approximately 1,250,000 men under arms, which would mean that this is the largest army now maintained by any country. Even after the contemplated reduction of China's army to 980,000 men, consisting of 50 divisions and 120 mixed brigades, it would be numerically greater than the established military forces of any other nation.

Advices from Peking state that the proposed demobilization is supported by the most influential of the northern Manchus, and that the central Government has given formal assurance to the representatives of various foreign powers that the plan will be carried out as soon as the necessary arrangements can be completed.

Military experts in Peking, both Chinese and foreign, declared that even the reduced forces will be necessarily large. They are said that an army of 500,000, of which 200,000 men would be stationed along the borders and 300,000 quartered at various points in the interior, would be ample both to protect Chinese territory from possible invasion and to assure the suppression of bandit activities and the maintenance of order within the country.

FIERCE FIGHTING IN INDIA

Casualties By Both British Forces and Tribesmen Unusually Heavy

MANDANNAKACH, India, Jan. 3.—The fiercest fighting ever experienced on the Indian frontier has been in progress during the last three days in which time the British casualties have been heavier than those in the entire campaign in the Tiersh district in 1897, while the hill tribesmen suffered as never before.

The Mahsuds resisted the advance of the British expeditionary force, in the most stubborn manner. The British column consequently was compelled to remain encamped in the Paozina Plain.

An unnamed bugler boy of the 34th native pioneers showed notable heroism in the hand to hand fighting. Left with only a few comrades, he seized a pickaxe and fought the tribesmen till they retired, when he returned to camp laden with trophies.

HAS NEW EXCUSE
FOR HITTING WIFE

WINNIPEG, Jan. 3.—When Rudolph Botcher was fined in the Police Court yesterday for beating his wife he told Magistrate Macdonald that she made him miss church for the first time in fourteen years on New Year's Day, and then accused him of going around with other women. His wife said that Botcher hit her over the head because she was half an hour late for church. He was bound over to keep the peace hereafter.

THE holidays are ended. The elections are over. Our congratulations to the successful; our sympathy to the defeated. Now, boys, down to business, and may 1920 bring happiness and prosperity to all, is the sincere wish of WALKER'S EAST END DRUGSTORE

ESTABLISHED 1859 THE GHA Alex. T Down An Mrs. Mary Goodall as this morning by Alexander as in love with her and The Goodall family li boarded with them. His en marked, so marked in red o leave the house. T. Goodalls former here he first met Mrs. C This morning after b airs to the bathroom. 2 me downstairs, met her er down putting one bull r head. The members of the f stairs to find the mother a few seconds. Templin had locked ere telephoned for and the police headquarters, constable Bayle. The police made a q house at the corner of C Breaking open the o him lying on the floor. He had one bullet i He was rushed to the ho ing. It is believed th Woman Feared Templin, Thomas Moradin, son-in-law rdered woman, says his wife stated that her mother rraid of the German. The ound a hastily scribbled note rribbling paper, left by Mrs. l, in which she said she felt e explain would kill her some she said she had been a good Goodall. Goodall apparently Templin's attentions to fe. It developed later today explain was ordered to leav Goodall house last Friday, b did not go till Monday. Last e came back to get his clothe did he might as well sta ght. Apparently he wait ght to kill Mrs. Goodall. Mrs. Goodall looks her fifty-two years, and was not one would say as being go ing. The bullet in her heart probably killed her imme rced three ten dollar bill ad pinned to her chemise. The police say they have e explain recently bought the r in Buffalo. It is a new with four empty cartridge hen found. The Goodall family say wi ain boarded with them in went to Buffalo every S some errand, all through e Templin is a fine looking rny he should be enamore man of fifty two is a myst He fully admitted the sho e police. "I did it because I was je t," he said. That a big fine looking m uch as Templin is should e fatuated with a woman of age, is a mystery which
