

THE WORLD BY WIRE

London, March 2.—U. S. Secretary of the Treasury Foster, arrived at Southampton, yesterday morning, from New York. He at once took the train for London, where he was met by Minister Lincoln. In an interview he said: "My mission is solely to regain my health. I have no intention of seeing (Goschen or any one else in regard to silver or immigration. I will sail on my return to the United States next Wednesday. I may go to Paris on Friday."

London, March 2.—In the House of Commons, today, Right Hon. W. E. Gladstone spoke on the subject of a proposed subvention from the public treasury of £200,000 towards the expense of surveying the route for a railway from Mozambique to the Victoria Nyamra. Mr. Gladstone stated that, before consenting to such a use of public money, the House was entitled to the fullest information, both as to the solvency of the company whose business it was to build and maintain the railway, and as to the prospects of such a railway, and whether or not it would interfere with the rights of other railways friendly to the British Empire.

Washington, March 2.—The Senate, in executive session, has ratified the treaty making the United States a party to the Berlin International patent convention, and it has also adopted a resolution providing that nothing in the treaty should be construed as an admission of the jurisdiction of the United States concerning patents. There was no opposition to the ratification of the treaty and the adoption of the resolution.

Baltimore, Conn., March 3.—The following notice has been issued from the Chancery office at the Episcopal residence in Hartford: "The Bishop of Hartford has received a writ from the Prothonotary of the same, by virtue of which all persons are forbidden to administer the sacraments of the Catholic church to William Grant, of Bridgeport, until he accepts the decision of the Bishop of Hartford."

Boston, March 3.—The storm which began on Tuesday, continued with violence until this afternoon, when it began to show signs of abating. The great snow fall prevents the street cars from running. In the suburbs it has drifted from five to ten feet. The trains on the steam railroads are running irregularly. Considerable damage has been done to the beach and summer cottages along the coast by the high waves. The storm is regarded as the heaviest known in this section for years.

Buffalo, March 3.—Thomas Simons, alias Harris, the great insurance swindler, who, for the past four years, has under \$250,000, has been sentenced to three years in the Erie county penitentiary. He was sentenced on the charge of embezzling \$200,000 from the Travelers' Company, of Hartford, to-day, pleaded guilty, and was sentenced to three years in the Erie county penitentiary. Burr, March 2.—A cypher cable received here, to-day, from London, by officials of the Blandford Mining company, contained news of the death of its president, Ferdinand Van Zandt. The news came so suddenly after the collapse of the company, which occurred on Monday, gave rise to the thought that he had committed suicide. It is believed by his intimate friends that death was caused by over-excitement about the collapse of his great mining enterprise, in which he took so much pride. He married a daughter of Sir John Lubbock some years ago.

San Francisco, March 3.—A company has recently been formed by local capitalists to work extensive coal fields at Coal Harbor, Unga Island, Alaska. Underlying these coal measures on Unga Island there are also said to be vast deposits of petroleum. John C. Green, manager of the new company, has made a personal examination of these coal fields last summer, and reports that coal deposit on Unga Island to be practically inexhaustible. To use his language: "There is no limit to the coal supply in the United States." Mr. Green has been interested in mining in Alaska for years. He makes yearly trips to his property there, and thinks the territory one of the most promising lands in the United States. He says the company intends to bring the coal to the market as a low figure. A new wharf, 100 feet long, is to be built on the island, and it is claimed coal can be laid down at a cost of \$3.50 per ton.

San Diego, Cal., March 3.—W. J. Collins, president of the California National Bank, committed suicide at 1:40 this afternoon, in his room at the Brewster hotel. Collins has been under arrest for the past ten days on a charge of embezzlement. He was unable to furnish the required bonds, and has been confined to his room in the Brewster hotel, in charge of a deputy sheriff. Collins was taken to the police station, and upon receipt of this news Collins excused himself, and went to the bathroom, where he placed the muzzle of a revolver in his mouth and fired the fatal shot.

Washington, March 2.—The lumbermen's Convention received and had read to-day a number of protests against the passing of the bill recently introduced in the House of Representatives by Bryan, of Nebraska, placing lumber on the free list. The convention asks that \$2 per 1,000 feet be imposed as a duty. The committee on resolutions reported a petition to congress setting forth that the lumber industry of the United States is the largest single manufacturing industry of the country, representing an investment of capital not less than \$750,000,000, and furnishing a livelihood to at least 3,000,000 of people. By the Bryan bill it is proposed to improve the favorable conditions under which the Canadian manufacturer is enabled to compete with Americans in the markets of the world. An earnest protest against the removal of the present duty was made, and the committee on resolutions reported that the bill is opposed.

Paris, March 2.—A large number of unemployed workmen, of Hanover, marched to the municipal works, to-day, and demanded the discharge of Polish laborers. Their demand being refused, they made an attack on the police, and a number were injured. The police arrested the leaders. London, March 2.—The Cologne Gazette is being prosecuted for expressing pain and regret at the Emperor's splendid inheritance is being a way under the caprice of the hour, and declaring that citizens ought to write and drive from off the Emperor's dangerous advisers, and give him a chance to read the mind of the people.

Paris, March 2.—According to a forecast of the declaration of policy of the new cabinet the ministry will appeal to Republicans to refrain from barren and irritating questions, and concentrate their efforts on home reform; will announce the maintenance of the concordat, with the application of organic statutes sufficient to insure the rights of the clergy, and declare an intention to hold existing commercial treaties with foreign nations; and, in conclusion, will declare in favor of the development of the army and the continuance of the diplomacy which gained allies for France, thus insuring peace.

Valparaiso, March 2.—The real cause of a part of the Cabinet resigning was because only a few judges belonging to the Conservative party were appointed. Those who have resigned are: Ministers Pereira and Blanco Viel, and four Council of State members, including Carlos Walker Martinez.

Paris, March 3.—A startling rumor has reached here to the effect that the Canille court, at St. Etienne, has been dissolved, and that 800 persons have been drowned. The rumor has not been confirmed. Later news from St. Etienne is to the effect that the Canille pit is full of water and all the miners received warning in time to escape.

Canada's Atlantic Service. Eager Competition to Become the British Terms. London, March 3.—There is an eager competition among the various ports of the South of England to secure the landing of the Canadian Mail steamers. Nearly all of them have sent deputations to present their claims to Sir Charles Tupper, the Canadian High Commissioner. To-day Veymouth and Portland jointly presented their advantages upon the Commission. Offers are being made to the captain of the Canadian Mail steamers to take the route via Portland. It was also argued that the railroad from Portland was all that could be desired. Sir Charles Tupper responded diplomatically to the enthusiastic delation, and made it clear that the determining consideration with the Canadian Government would be which of the routes would be the most economical and shortest for the time for the delivery of the American mails in London.

Winipeg Warnings. First Colonist Train of the Season—The Herchmer Inquiry—Mileage of Mail Clerks. Winipeg, March 4.—Over 200 Ontario excursionists arrived to-day, being the vanguard of the colonist trains to follow during March and April. Max O'Rell lectured to a large audience, to-night. The presentation in the Herchmer inquiry was finished, this morning at Fort McLeod, and the court adjourned to to-morrow morning, when Col. Herchmer enters on his defence. It is expected that the Commission will sit here, at noon, and leave for Regina. H. W. Hutchinson, of this city, received a letter, this morning, from his wife, who is with her parents, who are visiting friends at Lisrowel, Ont. The railway mail clerks of Manitoba and the Northwest are making a magnificent display in the present session of the Dominion Parliament, to have their mileage restored to the old scale of one cent per mile. Numerous petitions and letters have been forwarded to Ottawa advocating their claims.

REPORTS OF COMMITTEES.

THE WESTMINSTER-VANCOUVER TRAMWAYS.

Hon. Mr. DAVIS took exception to the extraordinary course of procedure that had been taken in this case.

Mr. HORN: Now gentlemen, if you wish to know the whole thing, I may as well say that the figures are the same evidence as I tendered to you, some time ago, which you refused to accept.

Mr. HIGGINS: And I think it is very good and remarkably strong evidence.

Among the items in the list (which totalled \$48,000) were a few for merchandise purchased, consisting of under \$400 worth.

On account of this comparatively insignificant amount the chairman and Commissioner Armstrong refused to listen to the statement, or to consider it correct.

Mr. HIGGINS: I am thoroughly sick and tired of this thing.

As far as I am concerned, I don't care for the decision.
