The case of the King vs. Byron A. Roney arises out of the auto fatality at Clementsport on the evening of June 1st, 1923, when Mrs. Harry Warren was killed and Mrs. B. A. Roney was seriously injured at Clementsport when the Ford car in which they were travelling to their homes in Digby was struck by a McLaughlin travelling be-

hind them up the hill just west of the Clementsport bridge. In the McLaughlin were W. G. Clark of Bear River, ex-chairman of the Highway Board; Mr. McIntyre, his son-in-law, and two ladies, with Chas. Wilson driving. In passing the McLaughlin struck a wheel of the Ford throwing it over the bank and pinning the six occupants beneath it.

They were son extricated and Mrs. Warren found to be critically injured. Two doctors were summoned and everything possible done but she passed away in a very short time. Mrs. Roney was seriously injured about the face and back, but recovered. In the case against Charles Wilson, driver of the McLaughlin car, tried at Annapolis last October before Chief Justice Harris on charge of manslaughter, a verdict of guilty was rendered but on account of extenuating circumstances the penalty was made nine months imprisonment and \$600 fine or in default of payment six months further imprisonment. Wilson was released before the first period had expired.

DECIDING GAME IN HIGH SCHOOL LEAGUE.—MIDDLETON VS BRIDGETOWN

On Saturday the deciding match in the High School Baseball League takes place on the Bridgetown Athletic grounds when the local boys play Middleton. Each team has lost one game this season. Middleton losing once to Berwick and Bridgetown once to Middleton. The game promises to be fast and exciting. Turn out and give the boys a little of this support you have not given them so far this season.

HEARTY WELCOME TO CONFERENCE

This Distinguished Body Holds Its First Session And First Gathering in Bridgetown—Its Programme One of Great Interest.

The forty-first annual session of the Nova Scotia Conference of the Methodist church is being held this week in Bridgetown and this centre for the first time in its history is enjoying the honor of entertaining in its midst the many distinguished pastors who have labored so untriflingly and successfully in the interests of their churches through in many cases a life time of service.

The choice of Bridgetown this year as the place of deliberations was historically and sentimentally a wise one and a tribute to the humanness and largeness of the organization of the Methodist church in this town. Conference in this vicinity have it might be noted in passing, been like Angels visits, few and far between. This is the first occasion in which the N. S. Conference has met in Bridgetown, though it met in Granville one hundred and twelve years ago. The programme provided has already been published in this paper. It is interesting comprehensive and varied. The Monitor joins in welcoming these clergyman and delegates to our town, and trust that their stay with us may be a most pleasant and enjoyable one in every way.

APPRECIATIVE REFERENCE TO MISS RUGGLES.

Miss Elizabeth Ruggles for some time librarian has completed treatment and returned to her home in Bridgetown. During her stay with us Miss Ruggles took a prominent part in all social activities and in everything pertaining to the sanatorium life. For the past season she was a valued member of the Entertainment Committee, besides being official sign painter and printer for the various activities. That she met with success in her untiring efforts is seen by the splendid results she had accomplished particularly in the excellent condition of the library which is a credit to the institution. A letter received from her recently states that she is doing well and putting on weight. The change is proving beneficial.—The X-Ray, Kentville.

EXTENDING WATER SERVICE

West Lawrence town Benefiting.—Dr. L. R. Morse Arrives Home From England.—Personal And Social Notes.

Lawrence town.—Miss Jessie Taylor is spending her vacation at the home of her parents. Visitors were at the home of Mr. and Mrs. McPherson, on Blossom Sunday.

Mr. Comeau and Mr. Godard are busy in the Public Work Department. Mr. and Mrs. Thomas Bishop are out town for a few days. Mr. and Mrs. C. Whitman have moved into their new residence, purchased from Mr. B. Randolph.

Mr. Owen Rumsey, Science student of Acadia, is home for the holidays. Mr. W. W. Bent has gone to Truro, a delegate to the annual meeting of the Women's Institute.

Rev. H. H. Rackham went to Berwick on Wednesday.

Mr. Amos Rumsey and sons, Owen, James and Barry, returned recently from a two days fishing trip, bringing with them eighty speckled beauties. Mr. Harry Felus has accepted a good position in Berwick and leaves for that town in a few days.

Mrs. Josephine Rumsey having been sick for the past few weeks is slowly recovering.

Mr. Chisholm, in charge of the reconstruction of the Lawrence town and Bridgetown highway has made an excellent showing in the short time he has been at work.

Mr. R. J. Shaffner and party spent a couple of days last week at Albany Cross on a fishing excursion.

Dr. Archibald spent a day in Halifax.

Mrs. L. R. Morse, Lewis, Frank and Mrs. Motored to Halifax to meet Dr. L. R. Morse and party. As the steamer had not arrived, Mrs. Morse and family returned home.

The Methodist Auxiliary met at the beautiful home of Mrs. Kenneth Whitman, South Lawrence town. Mr. Aubrey Whitman and Mr. Ernest Shaffner kindly took a number of the ladies in their autos to the place of meeting.

Reports were given by Miss Blackadder and Mrs. Elvin Shaffner, as these ladies attended the branch meeting of the Methodist H. and F. M. S. held at the pleasant town of Windsor.

There were many visitors to the Elm House last week. Miss H. Griffin, teacher of music, had her young pupils give a recital on Tuesday. The following are the names of the young ladies and gentlemen who took part: Alice Ward, Margaret Hall, Rita Hall, Margaret Leonard, May Wilson, Lilly Shaffner, Marjorie Marshall, Isabel Pearson, Florence Archibald, Lillian Felus, Ruba Elliott, Reginald Stoddard, Gordon Shaffner, Paul Rackham and Lillian Felus were the violinists. Florence Archibald was the accompanist. All present greatly enjoyed the recital. Road work going on well. Many trucks hauling gravel.

A good deal of lumber is also coming into town. A fine warehouse is being built for the Fruit company.

The old railway station is at last to go and a new one will stand in the same place.

The water supply of the town is being extended to Lawrence town West. The General Association of the Baptist church, West, is held at Clarence.

W. C. T. U. HELD MONTHLY MEETING.

Regular monthly meeting of the Women's Christian Temperance Union held Monday afternoon.

Miss Hamilton, Supt. of Flower Mission work reported visits paid to many sick and shut-ins. It was decided that the regular July meeting be devoted to making up bouquets of flowers to be sent to sick and shut-in folks.

The programme for the afternoon being on "Peace and Arbitration" conducted by Mrs. Peters, the girls from the High school grades had been invited to attend.

A very interesting and instructive paper on the work of the League of Nations was read by Mrs. Peters, and enjoyed by all present.

A hearty vote of thanks was given Mrs. Peters and a copy of the paper is to be sent to the "White Ribbon Tidings," the official organ of the W. C. T. U. for publication.

Personal Mention

One of the nicest courtesies you can show your friends is let them learn through this column of your visit whenever you go away. Let us know when you have visitors at your homes. The Monitor will consider it a courtesy whenever you give us an item of this kind. Write or phone No. 12 or 102.

Miss Annie Ricketson returned on Tuesday last from Weymouth, where she has been visiting Mrs. Frank Oullet.

DONALD COOK HONORABLY DISCHARGED

Donald Cook, Acquitted on Charge of Murderous Assault on Mrs. Jane Guest, of Port Lorne.

Lawrence town.—Donald Cook, of Buffalo, N. Y., charged with having murdered Mrs. Jane Guest, of Port Lorne, on the evening of May 20th, was honorably discharged by Magistrate Gesner of Lawrence town, on the grounds of insufficient evidence, here Wednesday evening. Cook's acquittal came after a trial which lasted 12 hours.

W. G. Parsons, of Middleton, appeared as Crown prosecutor and A. L. Davidson, of Middleton, represented the defence. Fourteen witnesses were examined, thirteen for the prosecution and one for the defence. Witnesses for the Crown were: Mrs. Jane Guest, George Corbett, Stephen Neaves, Merrill Brinton, Roy Neaves Lewis, Helen Neaves, Percy Anderson, Dr. Stella Pearson, of Lawrence town, Lillian Sabans, Cyretta Wilkins, George Foster, and W. J. Mosher, Mrs. Templeman, grandmother of the defendant, testified in support of the defence.

During the course of proceedings the Crown Prosecutor said that, in all fairness to the boy there was not evidence to show that the prisoner was in any way implicated in the crime, and added that the Attorney General's Department would pursue their investigations further. At the evening session Crown Prosecutor Parsons admitted that the crown did not have a case against the accused.

Miss Laura Lewis, of Port Lorne, star witness for the prosecution, testified to the effect that she had seen Cook in the Neaves store at 9:30 o'clock on the night of the assault upon Mrs. Guest and that on her way home she saw and heard a man tap on one of the windows of Mrs. Guest's home. In build, the man was much bigger than Cook, she said.

In concluding his address, A. L. Davidson, for the defence, advanced a theory of nightmare during which, he said, Mrs. Guest might have inflicted

her own injuries.

Among those attending the trial were Mr. and Mrs. Cook, parents of the defendant, who came here from their home in Buffalo.

REV. W. D. WILSON CHOSEN MODERATOR

Nova Scotia Western Baptist Association Sessions at Clarence.

Clarence.—The Western Association opened Thursday night with an attendance that filled the church. In the absence of the Moderator, Rev. G. W. Brooker, the Vice-Moderator, Rev. W. D. Wilson, filled the chair.

Rev. L. E. Nunn was the preacher of the evening, and addressed the church and the Deacons, Joseph Elliott and Vernon Leonard, of the Paradise and Clarence Baptist churches, who were ordained.

Rev. L. F. Wallace, pastor at large for the Maritime Convention, offered the ordaining prayer; the charge to the candidates was given by Rev. A. A. McLeod, of Kingston, and Rev. A. H. Whitman gave the charge to the church.

During the service the choir and a mixed quartette sang.

The chairman appointed the following committee on arrangements: Rev. W. S. Smith, Rev. A. Gibsons and Rev. A. H. Whitman.

A letter was read from the Moderator expressing regret that he could not be present.

At the session this morning, Rev. J. F. Burgoyne and Rev. Mr. Irvine, of New Canada led the devotional service.

The association proper opened at 10 a.m., with Rev. W. D. Wilson, vice-moderator in the chair.

The address of welcome was given by Rev. W. S. Smith, pastor of the entertaining church, and Rev. Dr. Brown responded.

A digest of church letters was presented by Rev. Frank Eaton, of Bridgewater. The letters showed that, among the important events during the year, the Bear River Baptist church celebrated its 100th anniversary. The collection of that service amounted to \$700. Progress was shown all along the line, he said.

Membership in the church by Baptism had increased during the year by 270 members.

Officers were elected as follows:— Moderator, Rev. W. D. Wilson, of Middleton; Vice Moderator, Rev. A. Gibsons, Annapolis Royal; Clerk, Rev. F. H. Eaton, Assistant Clerk, Licentiate, J. R. MacGorman, of Mahone Bay. Members of Ordination Council, Rev. I. D. Whitman, Rev. H. E. DeWolfe, and Rev. R. S. Gregg.

The new pastors of the association were welcomed by the moderator, they were A. H. McLeod, Pleasantville; Rev. Grant Smith, Deep Brook; Licentiate H. S. Hartman, Hillsborne; Licentiate A. E. Darbey, St. Mary's Bay; Licentiate Heston Flannigan, Gray Wood.

Courtesies of the association were extended to the following visitors:— Rev. W. C. Machum, secretary of Young Peoples Work; Rev. H. R. Rogers, executive secretary of nominational work; Rev. H. F. Mason, superintendent of Home Missions; Rev. W. M. Hutchins, professor of Acadia University; Miss Wilson, returned missionary from Bolivia, and Mrs. McLearn, president of W. M. A. S.

CHILDREN'S AID TAKE STEPS TO ACQUIRE A HOME IN YARMOUTH.

Rev. A. J. Prosser, Agent for the Children's Aid Society of Annapolis and Yarmouth counties leaves for Toronto on Friday to attend the National Conference of Social Work, which meets in that city for the week beginning June 25th. He is going via Boston and will visit some of the Children's Homes in Mass. The Yarmouth Society has taken steps to acquire a home situated in the town of Yarmouth, which will serve several adjacent counties, as a shelter and distributing home for the various Children's Aid Societies in the Western Counties.

Mr. Prosser spends two fifths of his time in Yarmouth County and is giving his time in July to the financing and arranging for the Home when acquired.

He reports success in finding foster homes for the Children in the Societies care, having located five in the last two weeks. He would be glad to correspond with any persons who may be thinking of taking children in their homes.

MARITIME UNION.

"The people down by the sea begin to wonder how best to secure greater influence in the councils of the nations in view of the growing power of the west," says the Toronto Globe. "Hon. Frederick Magee, a Minister without portfolio in the New Brunswick Government, believes that Maritime Union would produce results. Speaking before the Canadian Club of Amherst, N. S., a few days ago, he expressed regret that there was no concerted policy on the part of the three Maritime Provinces in regard to matters of immigration, transportation and the development of markets. They were all trying to work out different policies, at cross-purposes, and without the best results, to any of them."

Dealing with the territorial and industrial growth of other parts of the Dominion, Mr. Magee said that the Maritimes had cheerfully acquiesced in all the expenditures needed for the development of the canal system in Ontario and had also borne their part of the expenditure needed for railway facilities in the West. The Provinces of Quebec and Ontario had also received greatly increased territory as compared with what they had at the time of Confederation, but none of the Maritimes had been able, by reason of their geographical position, to add one inch to their stature. The West also had received greatly increased grants of land, and the prospects were that in a few years time its population would be greater than that of all the rest of Canada. During all this time the Maritimes had received no special consideration, and not only were seeing their representation decreased in the House of Commons, but were finding less attention paid to their claims than before. If present conditions in the Maritimes had been realized by the men who met at the Charlottetown Confederation conference in 1866, he wondered whether the federation pact would have been entered into with so much enthusiasm as seemed evident at that time. He was no secessionist, but it was well to look facts in the face and to understand fully what the present position is.

There is no hostility in this Province to Maritime Union, but rather a feeling that the local self-government of slightly over a million people ought not to require the services of three sets of legislators and civil servants. Tradition and use and wont are the chief obstacles in the way of efficiency, and the economy that would follow upon consolidation. There is no element of distance to prevent a political merger of the Maritime Provinces. From a Capital situated at some point near the junction of New Brunswick and Nova Scotia all points in the Maritime could be reached more speedily than the remotest cities and towns of Old Ontario can be from Toronto, while all of New Ontario is farther away from the Capital than is any part of the three Atlantic Provinces from the head of Chignecto Bay.

Maritime Union would undoubtedly

strengthen the influence of the Atlantic Coast Provinces in Ottawa. At present in matters of transportation, St. John and Halifax—naturally rivals—are given the support of their respective Provinces. The men in power at the Federal Capital have to walk warily, lest they offend the people of one Province or the other in granting or refusing money for port improvements. If a united Maritime public opinion were to ask for such improvements for both ports, greater heed would unquestionably be paid to it. Apart altogether, from the leaves and fishes problem, a Union of the Maritime Provinces would give a larger outlook on National affairs and lessen the sectional and religious jealousies that have done much in the past to retard the growth of the Provinces down by the sea."

It will be remembered that a delegation went to Charlottetown in 1864 to arrange for a union of the Provinces of Nova Scotia, New Brunswick, and P. E. Island. While there Sir John A. Macdonald and Sir Charles Tupper—two prominent Tories—also went to Charlottetown, and side-tracked the question of a Maritime union in favor of the larger union, which was forced on the people of Nova Scotia, and which is largely the cause of present-day conditions.—Recorder.

LIBERALISM AND EMPIRE.

Westminster Gazette: The attempt to represent Conservatism as the special guardian of the welfare of the Colonies is a travesty of the truth. As it was Liberalism that made the free union of the Empire possible, so today it is the conviction that ties based on trade preferences will break rather than bind the Empire that inspires Liberalism in its opposition to such arrangements forces today a Conservatism party. The Liberal party unchanged in the principles which destroyed it at the General Election.

DANGERS OF DEMOCRACY.

Sydney (N.S.W.) Bulletin: Britain will probably learn, as Australia is learning, that the electoral constituency may be a great deal too wide.... There is need of much greater limitation of the voting power of criminals, anarchists and would-be destroyers of civilization. There is need that disfranchisement, for a lengthy period or for life, should attach automatically to a long list of offences, so that the worst undesirables may not have a share in the control of the country's affairs, and may not have a chance to capture some party which, without them, might be patriotic and honest.

HUMANITY TRIUMPHANT.

Boston Globe: It is in England that the real victor in the French election resides. His name is Ramsay MacDonald, and he occupies the position of Prime Minister. He has not been exactly fighting with M. Poincare, but has instead been corresponding with him in a series of open letters, most reasonable in tone. Mr. MacDonald's attitude has been that of a Liberal who assumes that the rest of the world is, like himself, seeking the best

way out of a bad business. Every line in the MacDonald letters has made M. Poincare's position more difficult and has been helpful to M. Herriot, who stands out as the exponent of common sense for France and wishes to have the necessary adjustments made without delay.

JAPAN CHARACTERISTICS.

London Times: The European races that come to America, however disparate their origin, become merged, generally speaking, in a more or less common type. Not so the Japanese, who remain distinct and unassimilable. No objection is made to the Japanese as individual citizens. There is no political animosity against them. The Japanese have the civic virtues to an unusual degree. They are notoriously sober, industrious and law-abiding. But to difference of race is added a peculiarly sharp form of economic rivalry. They can live on conditions disagreeable or impossible to men of the Anglo-Saxon race. They need little sustenance, and are satisfied with poor shelter. They work long hours, and work well. They are proverbially efficient. They are in fact too efficient. They outwork their competitors and under-sell them. Wherever a group of Japanese workers settle, the white man is economically driven out of the field.

WHITES IN SOUTH AFRICA.

Natal Advertiser: There are today not enough white jobs to go round among the white men resident in South Africa; and of those there are an increasing number is being filled by men who are not white. These are being employed in preference to Europeans because they are cheaper, and they are cheaper because they do not live according to white standards. Depression may sometimes inflate the numbers of those out of work. Prosperity, on the other hand, may sometimes give a fictitious appearance of progress to the Union. But the main battle goes on year after year without cessation; and in that battle, where white and colored are locked in a grim embrace and contesting the economic mastery of the Union, the white man is losing ground inch by inch.

REACHING FOR THE MOON.

Singapore Free Press: There is this similarity in the case of India and the Philippines in that the ardent whole-hoggers, when they are asked how they propose to protect their independence should they get it, appear to imagine that the former sovereign country—Great Britain in the case of India, the United States in the case of the Philippines—will continue to assume the responsibility for their defence. This attitude alone is a sufficient indication of the fact that in neither case as yet are the people as a whole ready or able successfully to maintain the independence they desire.

FOLLY AT THE WHEEL.

Indianapolis News: There is little that can be done to save a reckless motorist from the consequences of his own carelessness. He will come to grief some time. The question is whether he will hurt merely himself, or where he will hurt, perhaps fatally, others who have no protection.... The only effective way to handle the careless motorist is to eliminate him from the traffic. This should be done first by examining him as to his fitness to operate an automobile. If he is fit, he should be licensed with the provision that if he is to blame for a serious accident or found to be scornful of traffic regulations, his license can be revoked, and he can be eliminated from the small field of incompetents who menace the public safety. Enjoyment of the use of the highways is a grant. It is not an inherent right.

QUIZZING THE POET.

Kansas City Star: Dr. Robert Bridges, English poet laureate, just landed in America, says his opinion of our poets will be "the very last thing I'll talk about." Dr. Bridges piques our curiosity. Tell us why the reluctance, won't you, Dr. Bridges? Do you dislike to repeat what the others have said, that Poe is our best product, but least typical of us? That the real American character and literary genius are in the rough and vigorous lines of Walt Whitman? That our cherished Longfellow is an imitator, superficial and a third-rate poet? Do you hold back from discussion of free verse because of your long enduring love for the classical metres? Do you hesitate to tell us that much of our modern poetry is barren of a message to troubled days because yours, as you are inclined to admit, dear doctor, also has been? Is it because there is no message to be delivered to us?

LOAN FOR DOMINIONS.

Bulawayo Chronicle: A decision of the new British Government authorizes the British Treasury to guarantee for five years three-quarters of the interest on certain Colonial loans, the proceeds of which are to be expended in the United Kingdom.... It will be remembered that when the Labor Government took office at Westminster this scheme of encouraging British trade was indicated by the new Ministers as one means of encourag-

YOU CAN GET RID OF DYSPEPSIA

By Taking the Fruit Treatment In the Form of "Fruit-a-tives"

You can get rid of the pain; the heavy, uncomfortable feeling; the bilious attacks, headaches and constipation that accompany this trouble. The Fruit Treatment—which is the intensified juices of apples, oranges, figs and prunes combined with tonics—will always relieve Dyspepsia. Mrs. Thomas Evans, Everett, Ont., says: "I have been troubled for years with Dyspepsia, Liver and Kidney Disease from which it was impossible to get relief until I took 'Fruit-a-tives'. Thanks to their wonderful results, I am free of these ailments and am in normal health again."

ing Imperial trade, even if the preference resolutions were not adopted. It is an admirable scheme, for it should assure a colony like our own the capacity of raising money for social development purposes, and of doing so on terms that will not be a burden to the Colonists, for with such a guarantee the loan should be available under the most favorable conditions. The consideration for the Mother Country is, of course, the purchase from British manufacturers of the engineering and other material to provide which the loan will have been raised. Obviously, the money thus made available could be used for such things as bridge-building, the erection of new railways, all of which would stimulate local trade and help us in the task of getting our products to market.

PIG CLUB FORMED AT LAWRENCETOWN

Lawrencetown.—Something unique in organizations was the result of a meeting held in the Demonstration building here on Saturday night, June 7th, when a "Pig Club" was formed, the purpose of which is to grow more and better pigs. About 20 boys and girls of Lawrencetown and vicinity enrolled for membership. It is expected that this club will be instrumental in stimulating the interest of the young in pork production in Nova Scotia. Waldo Walsh, of the Live Stock Branch of the Agricultural College, Truro, who is the founder of the club, conducted the meeting.

Nature's rules have no exceptions.

PAIN.

Mind's, the great counter-irritant, penetrates to the root of the pain and gives quick relief.

Here and There

The Canadian Pacific coastwise steamer "Ema" has carried from the seven plants operating on Barclay Sound over 12,000 tons of salt herring since the present season opened in November. This represents almost half the season's output, which will approximate 26,000 tons.

The heaviest immigration to Canada experienced during the last ten years is looked for this year. Already the arrivals are running ahead of those for the same months in 1923, those from European countries being especially large. The enormous prospective settlers in the United States are numerous.

Canada exported 6,532 pairs of leather footwear during January, 1924, according to a report of the Bureau of Statistics. Of these 2,179 went to the United States, 2,038 to New Zealand and 2,081 to China and Japan. Bermuda, the Straits Settlements and Newfoundland took the rest. The value was \$21,301.

Canadians imported 5,326,567 pounds of tea last month, or about three times as much as in the corresponding month of last year. The value of last month's tea imports was \$1,661,176, and for the twelve months ending January 31, the value of the 48,228,119 pounds imported into Canada was \$13,253,642. The bulk of it came from India.

Special trains of immigrants have recently carried lunch counter cars similar to those used on the coastwise trains last summer. It is understood that the Canadian Pacific have inaugurated this as a feature of all long distance immigrant trains, thus doing away with the necessity of the newcomers providing their own food or using station lunch counters en route.

The completion of plans for the development of hydro-electric power under the current year will add 900,000 h.p. to the present total of 3,228,000 h.p., already installed in Canada. This additional power will be used in British Columbia to assist mining and pulp industries in Manitoba to supply rural needs, and in Ontario for gold-mining and other industries. In Quebec the chief developments are in connection with the pulp and paper industries, and farther east, in the Maritime Provinces, for public utility purposes.

There is every indication that the death of the domestic servant in Canada will be greatly relieved in the course of the ensuing few months. Miss Esther Mackie, head of the Woman's branch, Colonization department, Canadian Pacific Railway, London, announces that "Specially conducted parties of domestic servants are being organized under the Empire Settlement Act in conjunction with the Canadian Government for the conveyance to Montreal and to Western Canada."

One of the most attractive features of the Canadian Pacific Railway Company's pavilion at the British Empire Exhibition, Wembley, will be the illuminated exterior panels, and the Neon lighting effect, similar to that used at the Coliseum, London, which is wonderfully penetrating and effective under all atmospheric conditions. The interior of the building displays through working models and magnificent oil and water color paintings, the many ramifications of the great transportation system as well as the natural resources of this country.

According to E. N. Todd, freight traffic manager of the Canadian Pacific Railway the year 1924 will be a banner one as regards foreign capital coming into the country. During the year 1923 a number of silk manufacturers from England and the United States decided to locate in Canada, and from present indications this particular movement is only in its infancy. At the present time our industrial department is in correspondence with a very large number of manufacturers who are seriously considering locating in Canada.

BROUGHT LAW AND ORDER WHERE MISTRUST RULED

Canadians, particularly in the East, all too easily forget landmarks in the life of the historic Royal Northwest Mounted Police, now the Royal Canadian Mounted Police. It was in 1874 that the agitation among missionaries and traders in the Great West led to the establishment by the Dominion Government of that force. After the cession of Rupert's Land by the Company of Gentleman Adventurers Trading into Hudson's Bay, the present prairie provinces were for a time the paradise of smugglers and murderers.

Canada east of the Great Lakes was appraised of conditions through letters written by George McDougall, the veteran missionary, endorsed by Hardisty and other public-spirited officers of the Hudson's Bay Company, and in the summer, fifty years ago, occurred the spectacular march of the Mounted from Fort Garry to the Rockies, an event that inaugurated an era in which the Indian could behave and the settler settle without fear of molestation or injustice.

In the celebration of such an event East and West can join with satisfaction. If the missionaries brought religion, the police brought protection, and have earned the undying thanks of their fellow-countrymen of all races and creeds.

Morality, when vigorously alive, sees further than intellect, and provide unconsciously for intellectual difficulties. Pleasure and action make the hours seem short.

THE DESERTED VILLAGE.

(By W. H. Currie.)

In Canadian Forest And Outdoors.

What happened here, old timer?
Where's the folks?
What struck the town—a famine or
the flu—
That everyone should up and hit
the trail
And leave the place to solitude and
you?
“Yes, stranger—’twas a famine clean-
ed us out.
When we located forty years ago
The country round as far as you
could see,
Was timbered jest as thick as trees
could grow.
Yes, Sir, there was a sight o’ folks

here then,
Had we bin wiser they’d a bin here
still,
But all we thought about an’ all we
did
Was cut the timber out to feed the
Mill,
An’ when we’d cut as far as we
could
reach
An’ nothing done to bring the young
growth on,
The Mill shut down an’ folks were
forced to quit.
That’s how it comes that all but me
are gone.
I stick around because I named the
place
That might ha’ thriven had we only
known
What we know now—Jest that you
can’t keep on
For years a-reapin’ where ye have
not sown.”

IN VALLEY LEAGUE**

Bridgetown High School Beaten by 10
to 9 Score in Fast League

Middleton—Middleton defeated
Bridgetown in a fast league
game, by a score of 10 to 9, in a Valley High
School League game, and the teams
are now tied for first place, each hav-
ing won three games and lost one.
Steadier mound work on the part of
Wilson and superior infelding by the
home team brought today’s victory to
the locals.

The visitors excelled in outfield
work. Lockett, the Bridgetown pitcher,
struck out eleven batsmen, but
gave six passes and allowed nine hits
while the home twirler passed but
one batter, struck out nine and was
touched up for nine safeties. Fay, of
Bridgetown, had four hits, his team
mate LeBrun, had three; while Par-
sons, Bentley and Wilson, for Mid-
dleton, lined out two hits each. The
line-up:

Bridgetown—Anderson, c; Lockett,
p; Fay, 1b; Mack, 2b; LeBrun, ss;
Beattie, 3b; Piggott, cf; Henson, rf;
Fowler, lf.

Middleton—Chipman, c; J. Wilson,

**CUTTING INSURANCE
RATES ON WHEAT**

Dominion Government’s Action in
Killing Monopoly Has Brought
About Rate War.

Winnipeg, Man.—A rate-cutting war
among insurance companies who in-
sure policies on grain shipped down
the Great Lakes has begun and
brought about a reduction of the old
rate of 30 cents per \$100 of cargo ca-
me to the low rate of three cents, ac-
cording to a news item in the Winni-
peg Tribune.

It is stated that since the Dominion
Government by Legislation last year
killed the monopoly so long enjoyed
by the vessel agents of writing insur-
ance on grain, a rate war has been
waged between outside companies and
those already in the field.

That an early halt to this condition
will be called is freely predicted in
active circles as it is recognized that
no company can carry on business at
a three cent rate and hope to survive
for any length of time.

PURE FLAKE
LYE**

A DANGER TO AVOID.
Editorial From La Presse, Montreal,
May 30th, 1924.

We have demonstrated we believe,
theoretically, that the embargo on our
pulpwood exports was for the best in-
terests of Canada.
It is an axiom recognized by all
economists, and one that is self evi-
dent, logically and through experience,
that the raw materials which a nation
owns are the necessary and safest
elements for its economical develop-
ment, and that consequently every na-
tion must be careful to retain their
exploitation, to get from them all the
possible profits and finally that the
fact of allowing the export of such
raw materials is equivalent to selling
“wheat in the green.”

There should, therefore, be no hesi-
tation whatever; the principle of the
embargo on our pulpwood is sane and
its application, nationally speaking,
an imperative necessity.

It must be noted that the embargo,
to be applied practically and fairly,
implies some considerations having as
their object the safeguarding, as much
as possible, of the legitimate inter-
ests of the wood merchants.

The matter seems a rather easy one,
because on the one hand the Cana-
dian industries are evidently in a po-
sition to pay the same price for pulp-
wood as their American competitors
who have to bear, in addition, heavy
transportation charges, and who, on
the other hand, are interested in se-
curing this wood from individuals, in
order to preserve their own reserves.
They will thus be able to carry
on a wiser and more methodical ex-
ploitation of these reserves which
constitute the whole future of their
industry.

So from whatever angle the pro-
posed embargo on the exportation of
our pulpwood is considered, it is well
to adopt it courageously.

Recently a Canadian who was pass-
ing through St. Petersburg, Florida,
was astonished to find that one of the
newspapers of this small town of some
25,000 inhabitants, the “Times,” was
getting its newsprint supply from a
paper mill in Abitibi, and that one
single edition contained one hundred
and twenty-four pages. How much
could also be said of the publications
in the large cities of the United States
which get their pulpwood from the
Province of Quebec, and make their
newsprint therefrom. They are get-
ting their share in the systematic de-
vastation of our forests, whilst they
are thus protecting the forest re-
serves of their own country. It is
a known fact that 85 per cent of the
pulp produced in Canada is exported
to our neighbors of the great Repub-
lic.

Is it not time to call a halt to this
dilapidation of our forests? We must
at all cost safeguard our national
heritage.

ference a ready man, and writing an

BORDEN FACTORY—TRURO, N.S.

WHERE PIRACY STILL FLOURISHES.

Piracy today flourishes in only one
place, and that is in the China Seas,
and more particularly the Canton delta,
the hub of the shipping trade of
the Far East.

The protracted civil wars in China
have resulted in the throwing broad-
cast on the country of a horde of dis-
banded or deserting soldiers and mas-
terless men. Accustomed for years to
a life of danger and adventure, reck-
less of human life, whether their own
or another's, they have turned to pi-
racy as an easy and profitable way of
life, and have evolved a new method
that is perfect in its simplicity.

The coastwise steamers of China
carry always, when they can get them,
deck passengers—gangs of coolies on
their way to other ports where work
awaits them. Since the democratic
revolution the dress of all Chinese of
the uneducated class has dropped to
a dead level of uniformity, a blue lun-
garee jacket and trousers. Butcher,
baker, or candlestickmaker, they are
absolutely undistinguishable. How,
then, is the master of a ship to know
that his gang of deck passengers are
no peaceful coolies but dangerous pi-
rates?

They fly no Jolly Roger, but settle
down peacefully till the ship is out of
reach of ports or other shipping. The
rest is easy. A swift rush for the
bridge, the engine-room, and the wire-
less-room at a time when their guard
is weakest, a hold-up of sleeping of-
ficers in their cabins, and overawing
of terrified passengers, and the way
to the bullion-room and the cargo
is open. Thereafter they need only
steer the ship to a pre-arranged point
and the loot and the pirates are taken
aboard and ashore.

It is done nearly every day in the
China seas, and the task of detection
is an almost impossible one. A looted
ship, an empty sea, a deserted coast—
where is the evidence?

MARRIED.

Anderson—Beardsley.

A very pretty wedding took place at the home of Mr. and Mrs. Charles Beardsley, Port Lorne, on June 11th at 9.30 a.m. when their only daughter, Jemima Ann, was united in marriage to Harold Bernard Anderson.

The ceremony was performed by Rev. D. W. Dixon, in the presence of about fifty guests, the immediate friends and relatives of the bride and groom. The various rooms were beautifully decorated with apple blossoms and ferns.

The bride wore a gown of white silk canton crepe trimmed with pearls and orange blossoms and carried a bouquet of carnations. Little Vivian Corbitt, cousin of the bride, very prettily performed the services of flower girl. The wedding march was played by Mrs. John Graves.

The bride was the recipient of many beautiful gifts including linen, silver, cut glass, aluminum and several substantial cheques.

Following the ceremony a dainty luncheon was served after which Mr. and Mrs. Anderson left for a trip to New Brunswick. The bride's travelling suit was of navy tricotine with hat to correspond. On their return Mr. and Mrs. Anderson will reside at Port Lorne.

MARRIED.

Hoyt—Golding.

A wedding marked by simplicity was solemnized in Central Baptist church at 8 o'clock a.m. yesterday, when Miss Olive Whelpley Golding, eldest daughter of Mr. and Mrs. Walter H. Golding of this city, became the bride of Gerald Messenger Hoyt, of Bridgetown, N. S., son of Mrs. G. E. Hoyt, of Bridgetown, Rev. James Dunlop, pastor of Central church, performed the ceremony in the presence of immediate family relatives and several hundred friends. The young couple were unattended save for little seven-year-old Martha Golding, sister of the bride, who acted as flower girl. The bride was attired in a travelling suit of fawn with silk and ribbon hat of modish colors, fox fur, and carrying a handsome bouquet, while the little attendant wore pink organdie with apple blossom hat and carried a basket of pink and mauve sweet peas. Miss Beryl Blanch played the wedding march, and Ernest Whelpley and Walter R. Golding, cousin of the bride, acted as ushers.

Miss Margaret Barker and L. Jack Hoyt of the Bank of Nova Scotia staff, Bridgetown, signed the registers. Following the ceremony, Mr. and Mrs. Hoyt motored to the Boston boat, accompanied by friends, in automobiles gaily decorated for the occasion. Mr. and Mrs. Hoyt will spend their honeymoon in Boston, and on their return will reside at Bridgetown, N. S.

Out-of-town guests included Mrs. G. E. Hoyt, mother of the groom, Mr. Jack Hoyt, brother of the groom, and Mr. and Mrs. Elias Messenger, grandparents of the groom. The groom is well known here, although his present business address is Halifax. He was for a time with W. H. Thorne & Co., Ltd., here, and previous to that was connected with the Royal Bank of Canada in branches of that institution in Nova Scotia.

The bride is very popular here, as was attested by the many beautiful gifts she received, including fine china, ceramics, silver, personal handiwork, brass, furniture and many essential articles, as well as a generous amount in money. A happy coincidence in connection with today's ceremony is that it took place on the bride's twenty-first birthday. The gift from the staff of the Imperial Theatre, of which the bride's father is manager, was a handsome mahogany chest of silver complete.—St. John Telegraph-Journal.

The Monitor joins with the many friends in best wishes for the future happiness of bride and groom.—(Ed. Monitor.)

VICTIMS OF ANAEMIA

Need New, Rich Blood to Restore Health and Strength.

It is an unfortunate fact that nine women out of every ten are victims of bloodlessness in one form or another. The girl in her teens, the wife and mother, the matron of middle age—all know its miseries. To be anaemic means that you are breathless after slight exertion. You feel worn out and depressed. You turn against food and often cannot digest what you do eat. Sleep does not refresh you, and when you get up you feel exhausted and unfit for the day's duties. If neglected anaemia may lead to consumption.

You should act promptly. Make good the fault in your blood by taking Dr. Williams' Pink Pills, the most reliable blood enricher ever discovered. These pills purify bad blood, strengthen weak blood, and they make good blood, and as the condition of your blood improves you will regain proper strength, and enjoy life fully as every girl and woman should do. The case of Mrs. Mary Trainor, Perth, Ont., shows the value of Dr. Williams' Pink Pills in cases of this kind. She says:—"I had not been feeling well for some time and had been gradually growing weaker. I found it very hard to do my housework; had severe headaches and was very pale. I took doctor's medicine for some time, but they did me no good. I was growing weaker and used to faint and take dizzy spells. In this condition I began the use of Dr. Williams' Pink Pills, and after a time found they were helping me. I continued their use until I found the troubles that afflicted me had gone and I am once more enjoying good health and strength."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

GRAND OPENING OF THE RENOVATED CHURCH AT GRANVILLE.

In spite of the very heavy rain a fair sized audience gathered to return thanks to God for the success attending the recent efforts. The church inside and out has been painted and repainted. New carpet for the choir besides many other little things have been bought and altogether gave the church a most attractive appearance. The whole community is to be congratulated on the handsome appearance of the building now, and much credit is due the committees who worked so hard at the work. Everybody is delighted with everything. The morning service was conducted by the Pastor who also preached urging his congregation to work now for a mighty spiritual uplift in keeping with the beautiful sanctuary. The weather in the afternoon cleared up somewhat and a large audience gathered well nigh filling the edifice. The Rev. Dr. Borden, late of Mount Allison was the special preacher for the occasion and the deep spiritual note, and breadth of vision which he brought will be remembered for long. The congregation was very happy in being able to secure for this occasion the services of so distinguished a gentleman. The pastor, the Rev. John H. Freestone in introducing Dr. Borden referred to the Ladies College, Sackville, as the standing, living monument to his ability. On the platform besides the Pastor and Dr. Borden, was the Rev. Cranswick Jost, M.A., D.D., a Pastor of many years ago and a co-pastor for many years since. Dr. Jost was present not only on his own wish but by the express invitation of the committee that had things in charge. Dr. Jost led the congregation in prayer. During the afternoon, as also during the morning the united choir of Bridgetown and Granville, rendered some very fine music. Mrs. A. R. Bishop, the organist of the Church in town, presided at the organ with great acceptance. Her accompaniment to the solo rendered by his worship Mayor Hicks was greatly enjoyed as indeed was the solo itself. The special offering that was taken up, we believe will complete the amount of money necessary to pay for all that has been done. On Saturday, June 21st, the Granville congregation is to entertain the Conference to supper at 5.30 p.m.

Four Reasons Why YOU Should Purchase A Farm in the Annapolis Valley.

- 1.—Because the Annapolis Valley is the best and most dependable Country in which to farm.
- 2.—Because the basic source of Man's subsistence is the farm. It is the most honorable business on earth. It means health, wealth, happiness and contentment.
- 3.—Because milk from your cows and eggs from your poultry, will give you a daily cash income the year round. Apples, small fruits, berries, garden truck, grains, hogs and sheep will build you a big bank account.
- 4.—Because Lloyd's Service will find the farm you want, where you want it, at the price you want to pay.

OBITUARY.

Samuel Hall.

Annapolis Royal.—The funeral took place on Saturday afternoon of the late Samuel Hall, who died at Halifax on Thursday. The remains, which were accompanied from the city by his son, Harry, were taken from the railway station to St. Luke's Church, where the service was conducted by Rev. T. C. Mellor. The floral offerings were numerous and especially beautiful. The interment took place at Woodlawn cemetery, the pall bearers being T. M. Buckler, E. McCormick, F. W. Harris and G. Hawkesworth.

The deceased was born at Annapolis Royal in 1844, being the youngest son of the late Lawrence and Ann (Eaton) Hall. Fifty years ago he married Miss Alice Wheelock, daughter of the late Tarbell and Mary (Eaton) Wheelock, and with their family lived in town, until twenty-five years ago, when a change in the Railway Mail Service, with which Mr. Hall was employed, made it necessary to move to Halifax. Shortly after their removal there, Mrs. Hall died very suddenly and in Feb. 1914, the oldest son, Frank, who was manager of the railway at Moncton, was killed in a bridge accident.

Mr. Hall is survived by his son Edward, at Winnipeg; the Misses Maud and Havilah, and his son, Harry, all of Halifax; several grandchildren and a sister, Mrs. George Hoyt, of Lequid.

DENOUNCES LENT BUT SETS HIM FREE

Justice Sorry He Could Not Send Him Up.

Lent-Potter Case Collapses—Powers "Not Guilty" on Piracy Charge.

Digby.—A large crowd gathered at the court-house Wednesday afternoon to witness the trial in the case of the King vs. William Lent.

This case arose out of the detention of Bertha Potter by William Lent in his house at Bear River, the story of which is unique in the annals of the province.

After four witnesses had been examined, the case collapsed suddenly, "for want of evidence," and the jury was instructed to bring in a verdict of "not guilty."

Seldom if ever has a prisoner being discharged received such a "scorching" from the trial judge as did William Lent. The judge contended his conduct and expressed regret that he was unable to send him up for a long term of years. He said the prisoner should be ashamed of himself until the last day he lived, and expressed the hope that decent people would ignore him. Then, with evident indignation, he said to the prisoner: "You may now go."

The case of the King vs Powers was ended Wednesday morning. The defence only called one witness, Powers himself, whose evidence was given clearly, without hesitation and in a convincing manner. The judge's charge favored the prisoner, and after deliberating less than half hour, the verdict of "not guilty" was returned by the jury.

Crateful for Health Restored by Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for backache and for weak and dreary feelings caused by my condition. Sometimes I felt so bad that I couldn't do my housework. My neighbor told me of you medicinal I read about it in the 'Toronto Telegram' and thought I would take it. I got very good results. It built me up and I have told several friends what it has done for me. You may use this testimonial as it may be of help to some one who has suffered as I have."—Mrs. J. LEE, 25 Harvie Ave., Toronto, Ont.

Mrs. Lee is willing to write to any girl or woman suffering from such troubles, and answer any questions they may like to ask.

Women suffering from female troubles causing backache, irregularities, pains, bearing-down feelings and weakness should take Lydia E. Pinkham's Vegetable Compound. Not only is the worth of this splendid medicine shown by such cases as this, but for nearly fifty years letters like this have been received from thousands of women.

ATTACKED BY MOOSE.

Windsor.—Edward Armstrong and his family, of this town, met with an unusual and thrilling experience several miles out from Windsor. While driving along the road in their automobile, a big bull moose and its mate stalked from the woods and came to a standstill on the highway some distance ahead of the machine. When the car came within a few feet of the animals, instead of running ahead as Mr. Armstrong anticipated, the bull charged the machine and when it had been knocked off its balance to the side of the road, the cow charged. Only by stepping on the accelerator was Mr. Armstrong successful in evading his four-footed assailants.

THE MERRY HEART.

'Tis well to have a merry heart. However short we stay; There's wisdom in a merry heart. Whatever the world may say. Philosophy may lift its head And find out many a flaw. But give me the philosopher. That's happy with a straw.

If life but brings us happiness, It brings us, we are told, What's hard to buy, though rich ones try.

With all their heaps of gold; Then laugh away, let others say, Whatever they will of mirth. Who laughs the most may truly boast He's got the wealth of earth.

There's beauty in the merry heart— A moral beauty, too; It shows the heart's an honest heart. That's paid each man his due; And lent a share of what's to spare Despite of wisdom's fears. And makes the cheek less sorrow speak The eye weep fewer tears.

The sun may shroud itself in cloud, The tempest wrath begin; It finds a spark to cheer the dark, Its sunlight is within; Then laugh away, let others say Whatever they will of mirth; Who laughs the most may truly boast He's got the wealth of earth.

COKE INDUSTRY VALUABLE ASSET

Much Money Could Be Saved By Use of Coke Says Expert.

(Montreal Star.)

The coke industry is destined to be a valuable asset to the industrial life of the Maritime Provinces, according to the E. G. Mackay of Sydney, N. S., who is staying at the Windsor Hotel. For the past five years experiments have been carried on which have proved to the satisfaction of Mr. Mackay that if the sum of over \$2,500,000, which went out of the Maritime Provinces in 1923 for imported anthracite was spent for coke manufactured at Sydney the consumer would have saved in the neighborhood of \$500,000, and continuous employment would have been given to 600 miners and 300 men at the coke plant. In addition there would have been released for use 3,650,000,000 cubic feet of gas. Other valuable by-products would have been set free including ammonium sulphate, tar and motor fuel.

The manufacture of coke is not new to the Maritime Provinces. Mr. Mackay said.

"In the year 1870 the first coke ovens were built in Nova Scotia to produce coke for metallurgical purposes, and since that time every effort has been made to improve the structure and quality of the coke which is so essential to the successful operation of the iron and steel industry. In 1880 a modern coal-washing plant and 54 Bernard-type coke ovens were erected. This was the first unit of its kind put into operation in Canada and probably the earliest plant at which the complete operation of washing to purify coal and cooking it for metallurgical use was successfully practised in America."

In the manufacturing of metallurgical coke, he said, the coal selected is the best metallurgical coal, crushed fine so that particles of stone and slate may be separated from it by gravity in a washer. After washing the coal is placed in storage towers for drying preparatory to being charged into the ovens for cooking.

The final product is a hard, porous coke, of the concentrated carbon, practically free from impurities. Surplus gas amounts to about sixty per cent, of the total gas expelled from the coal and the balance is used for heating the oven chamber.

Some of the by-products of the coke include ammonium sulphate used in the manufacture of drugs, dyes, explosives, road dressing, etc., and fuel.

Motor fuels are recovered from the light oils which are also the basic for kerosene and kerosene oil. The most important feature of the plant as an asset during the time of war, he declared.

"Most people have the idea that by-products recovered in the coking process are obtained without cost and, therefore, the price of coke should be much lower. But when it is considered that coke ovens with by-product recovering equipment cost \$75,000 to build and each oven produces about seven tons in 24 hours, and that it takes two tons of raw coal to produce one ton of coke, the price, it will be seen, is not exorbitant. The sale of by-products only brings a fair share of profits except where gas can be sold for heating.

"In regard to coke fire it gives a higher percentage of heat with less firing than any other coal fuel. It also requires less shaking of the grate than a coal fire, and in ordinary weather one shaking a day is all that is necessary. The less the fire is disturbed the better the satisfaction obtained with coke, but clinkers and anything impeding the draft should be removed. The ash should not be allowed to accumulate in the grate, for then the grate will be injured.

BIG INCREASE IN CANCER MORTALITY IN PAST TEN YEARS

Annual Number of Deaths in United States Jumps From 75,000 to 110,000.

New York.—Mortality from cancer continued to increase at an alarming rate during 1923 and the number of annual deaths from the disease in the continental United States probably now is about 110,000 as compared with 75,000 ten years ago, according to an article by Frederick L. Hoffman, consulting statistician of the Prudential Insurance Company today in the insurance journal, The Spectator.

The cancer death rate in 23 cities with an aggregate population of 20,837,737 reached the high figure of 108.5 per 100,000 last year, Mr. Hoffman's computation showed.

PYRAMID MARKS FIRST LANDING OF DE MONTS

GRANVILLE FERRY.—A monument commemorating the first landing and fort of De Monts, which was in 1604 on the North Side of the Annapolis River, has been erected at Lower Granville, six miles below this village. The monument is a pyramid in shape and has a concrete base, the upper portion being rocks from the shore embedded in concrete. A bronze tablet bearing an inscription in French and English completes the monument.

SELF POISONING TODAY'S DANGER!

Hurried and improper eating, nervous worry and lack of abdominal exercise clogs up your system and overloads your liver. The result is self poisoning! No longer can your liver do its work properly and the result is you wake up dull and tired, coated tongue, bad taste, and offensive breath. Often you suffer from loss of appetite, bad digestion, gas on a sour, weak stomach, improper movement of the bowels and a run-down condition of your whole system.

Cleanse and tone your liver! Put your system in condition! Feel your very best again! Try just a spoonful of Dr. Thacher's Liver and Blood Syrup after the next few meals and notice the quick improvement in the way you eat, sleep and feel—the return of strength, vigor and energy. You will be completely satisfied; otherwise there will be no cost. Dr. Thacher's Liver and Blood Syrup is sold and recommended by W. A. Warren, Bridgetown; Watson F. Porter, Pharmacy, Lawrenceston.

5000 FACTS ABOUT CANADA.

The public will welcome the new issue of "5000 Facts About Canada" for 1924—that remarkable cyclopedia of the Dominion compiled by Frank Yeigh, of Toronto, the well-known Canadian writer and lecturer. Over fifty chapters deal tersely with every phase of our national prosperity and progress, and is not only a mine of valuable information, but a stirring story of our development. This issue includes much new matter, and contains many other improvements. We are not surprised that this booklet has a continent, empire and world-wide circulation, or that it is widely used by governments, railways, and financial and industrial houses. Copies may be had at 30 cents each from the Canadian Facts Publishing Co., 588 Huron St., Toronto, or from leading newsdealers.

DEBIT DECREASES

Increased Income Tax More Than Balances Cuts in Other Sources.

Ottawa—Increased income tax collections, which more than balanced reductions in sales tax and customs revenue resulting from the last budget, were a large factor in a \$14,000,000 decrease in Canada's national debt during May. The total net debt of Canada on April 30th last was \$2,399,548,872. On May 31st it had dropped to \$2,385,263,512. Last year there was a decrease in the net debt amounting to \$4,302,700 during the month of May.

HOW U. S. FARMERS FARED.

(Toronto Globe.)

The Canadian Prairie Provinces have been going through an ordeal since 1920, but, trying as the conditions have been and still are in some respects, they do not compare in severity with the disasters that have overtaken the States of the Northwest which specialize in grain growing. A special survey by the United States Department of Agriculture touching 2,289,000 farmers in fifteen wheat and corn growing States showed that in 1921 and 1922 the number that went bankrupt was 600,000, of which 230,000 lost their property, the remaining retaining it through the leniency of creditors. Since then this economic mortality has continued. It is highest in North Dakota, South Dakota and Montana, where if the foreclosure farm by farm, were laid upon a large scale map whole counties would be solid black, with only here and there a little white spot. Nearly all these bankrupt farmers besides having mortgaged their land, borrowed money on their notes at the local bank. As a result 550 banks have failed in North Dakota, South Dakota, Montana and Minnesota. These facts are related by Garet Garrett in an article in The Saturday Evening Post.

The Canadian system of large banks has been contrasted with the United States system of small local banks, sometimes to the disadvantage of the former, but the banking experience of the Northwestern States since 1920 shows that the local bank has its special dangers. In North Dakota there was one bank to every 768 persons—a reckless drain on the community for banking expenses. The fact is that the Northwestern States were overbanked and too much credit provided a disaster instead of a boon. Canadians have had their banking troubles, which have revealed the need of remedies, but there has been no parallel on this side of the line to the degree of banking instability in several of the States.

MARRIED.

Foster—Green.

Rev. G. M. Ambrose officiated last evening at St. Mark's church at the marriage of Miss Doris M. Green, daughter of Mr. Benjamin Green, of 66 Union Street, and Thomas Almsley Foster of New Glasgow. The church was thronged with friends of the happy couple and as they left the building they were showered with rice and confetti.

The church and pulpit had been decorated with wild pear blooms and potted plants by the girl friends of the bride. Miss Green was given in marriage by her father and wore a suit of navy tricotine with grey hat and white ermine neck piece, this being a gift from the groom; her flowers were a bouquet of roses and lilies of valley arranged in flower effect. Miss Gladys Green, sister of the bride was the bridesmaid and wore navy with navy hat and carried pink roses. Mr. M. Strickland, of New Glasgow, was the best man.

Miss McKenzie presided at the organ and the choir were present. As the bride entered the church they sang "The Voice That Breathed O'er Eden," and during the signing of the register, Miss McKenzie sang "O Promise Me." Following the ceremony Mr. and Mrs. Foster and their guests were driven to the residence of the bride's parents where a wedding supper was served and a small reception followed. The flowers used in the house were pink and white roses.

An unusually large number of beautiful wedding gifts marked the popularity of the happy couple and included a French ivory boudoir lamp from the Choir of St. Mark's of which the bride was a member and a casserole from the Sunday School teachers of the same church. The office staff of Robert Simpson Eastern, with whom the bride was employed, presented her on her departure with a Limoges tea set, a toaster and electric iron. Mr. Foster is an accountant with the Eastern Car Company, New Glasgow, and was presented with a silver tea service by the other members of the staff.

After a motor trip through the Province Mr. and Mrs. Foster will make their home in New Glasgow.—Chronicle.

Mr. Foster was in early years a resident of Bridgetown and is a grandson of Mrs. Sarah Foster and a nephew of Miss Jenny Foster of this town.—(Ed. Monitor.)

THE SMALL TOWN

Just because we live in a small town it does not necessarily mean that we all have only small town minds. The trouble is that we spend too much time thinking small town thoughts. If any one in our community shows evidence of unusual ability or appears to be more successful and making more money than the rest of us, we immediately allow some narrow personal prejudice or dislike to influence our reasoned judgment, and we go about knocking or belittling that individual. This doesn't help us, and it hinders the man who is trying to get somewhere.

SCHOOL PRIVILEGES IN HOME FOR GIRLS.

Belated Opportunity is Appreciated by Scores.

Fifty girls are reported on parole from the Maritime Home for Girls, at Truro, N. S. During the past twelve months eighty girls have been cared for in the home. Each attends school three hours daily, many having had very poor educational foundation. Three passed the entrance examination to high school, and one obtained her second-class normal certificate.

The senior girls also studied first aid under the Truro school nurse, and the younger girls were given health talks.

Such girls as proved mentally deficient were removed to special institutions, and the others, according to the report of the principal, Miss J. Strothard, caught the spirit of enthusiasm for study.

The school's domestic science exhibit was pronounced the best in the province, and the farm continued to be one of the principal interests of the girls.

WHAT PULLS POPULATION?

(By Robson Black.)

Manager Canadian Forestry Association.

Brought up as we are on public speeches that identify the getting of population with the opening up of "farms" it sometimes takes us by surprise to learn that the forest is, in large sections of Canada, the best agent of immigration we have and as regards millions of acres is the only member of the family of resources that can provide human sustenance. We have talked of population for so long in terms of prairie acres that we have entirely overlooked the fact that on eighty per cent. of the area of Canada there are no farming possibilities; forest growth, and forest industries alone can attract people. We have equally forgotten that the deforesting of great areas of Ontario, Quebec and New Brunswick has led from those districts and the dotted million large bodies of population. In our hurry to greet new batches of immigrants we have neglected to consider the problem whereby hundreds of once-prosperous, well populated Canadian towns and villages have decreased in population or closed up shop altogether because of the disappearance of the forests, representing their reason for existence.

A vivid and authoritative instance of this depopulating process has come to the notice of the present writer. Here is an Ontario district known as the Madawaska river district. Fifty years ago lumbering on the Madawaska and Bonnechere rivers was at its best. Twelve companies and individuals were then operating. In 1873 and 1875 they took millions of feet of pine and rafts of timber to Quebec. At that time they considered nothing less than fifteen inches and up, and all clear stuff. Later on they took it down as low as eight inches. The square timber was all hewn by hand.

Thriving and populous towns came into existence and rapidly expanded. One of the towns had two hotels, three stores, two blacksmith shops and a population of five hundred. It has now one general store, two hotels, one sawmill and a population of about fifty. Another of the towns had four hotels, eight stores, three sawmills and a population of about eight hundred. It has now two hotels, four stores, a power plant and a population of about three hundred. Another town had in 1903 a population of several hundred the exact number not being known, five stores, three hotels (worth fifteen thousand dollars) and two hundred thousand logs in the annual drive. In 1923 the population had dwindled to sixty, with three stores, two hotels, (worth four thousand dollars) and one-tenth the number of logs in the drive.

In non-agricultural areas, the permanence of population is directly measured by the permanence of "timber crops;" and the outstanding foe of timber crops is the human-set forest fire.

Of course, all do not find joy in the home garden. But the man who loves the feel of the soil and finds philosophy in the miracle of life and growth, quickly becomes an addict. He may not talk so much about it as in recent days of enthusiasm, but will hoe his row in contemplative contentment just the same. Not all good citizens are home gardeners, but most home gardeners are good citizens.

Wonderful Tea!

Users of KING COLE Orange Pekoe are frequently heard to remark: "It's really wonderful tea." This is not particularly in reference to its outstanding quality although that is necessarily included, but is due to the wonderful way it "spehds." For KING COLE Orange Pekoe is a rich liquoring tea as well as a deliciously flavorful one. Skilful blending combines these two great tea qualities for your enjoyment.

ADVANCED PRECAUTION.

A good story of "Preparedness" comes from Pictou. The caretaker of one of the larger cemeteries there is giving up the job and the Committee in charge are interviewing possible successors. Among the applicants was one whose physical fitness did not appeal to the Committee as being equal to the calls of the position. "Why, they argued with him, 'You could not go out there when the ground is frozen hard and dig a grave.' 'I know I could not,' replied the resourceful and persistent aspirant, 'but I could dig a lot of them in the summer and have them ready.'—Eastern Chronicle

OLD AGE PENSION SCHEME RECOMMENDATION EXPECTED

Ottawa.—The establishment of an old age pension scheme for Canada is expected to be recommended to the House of Commons by the special committee which has been investigating the subject. The report of the committee is not yet completed, but it is understood that its general outlines have been drawn up.

The annual pension payable according to the plans of the committee so far indicated, is to be \$240, payable in monthly instalments of \$20. The residence, qualification is said to be 20 years of continuous residence. The pension age is not finally settled, but will be either 65 to 70.

It is proposed that the provinces should be invited to provide half the cost.

MRS. S. L. GESNER HAS NARROW ESCAPE FROM DEATH
Lawrencetown.—What might have resulted in a serious accident occurred on Wednesday afternoon when Mrs. S. L. Gesner, Head Milliner of Hardwick's Millinery Store, Kentville, attempting to board the departing Halifax train, lost her grip and fell down on the rails under the moving cars. Mrs. Gesner, who is a middle-aged woman, retained her presence of mind, by quickly rolling from the rails, just in time to escape the revolving wheels of the Parlor Car. Mrs. Gesner was on her way to Kentville from Annapolis Royal, and had alighted at Lawrencetown to talk with some friends.

A few honest men are better than numbers.
Lawrencetown.—Miss Jessie Taylor, of West Somerville, Mass., is the guest of her parents, Mr. and Mrs. Taylor.
An interesting and pleasing musical recital was given in the Demonstration Building on Tuesday afternoon by the pupils of Miss Hortense Griffin, of Bridgetown, and Miss Dorothy Jefferson. The large number present were treated to various violin and piano selections rendered by the young people of Lawrencetown, many of whom, under capable direction, have shown marked musical talent. A delightful feature of the program was a violin rendition by Miss Lillian Felthus and Paul Rackham, accompanied on the piano by Miss Florence Archibald. Another entertainment feature among the twenty numbers presented, was a piano duet by Lillian and Gordon Shattner.

OBITUARY.
Harrington Strong.
The funeral took place here on Friday afternoon of Mr. Harrington Strong, brother of Mr. Charles H. Strong and a former esteemed resident of this town.
Mr. Strong, who was 60 years of age had enjoyed his usual health up to a few weeks ago and for several years back had filled very efficiently the position of Poultry Superintendent at the Experimental Farm at Kentville. Previous to this he travelled in the interests of a number of Provincial firms. A man of more than ordinary mental capacity he brought to the performance of his duties excellent executive ability.
He leaves to mourn their loss two brothers, Charles H., Merchant of this town, Percy Strong of Halifax, and one sister, Miss A. M. Strong, now resident in the United States.
Funeral services were conducted by Rev. Canon Underwood and interment took place in Riverside Cemetery.

BERWICK RESIDENCE GOES UP IN BLAZE.
Berwick.—The fine residence of A. J. Turner, Main Street, was totally destroyed by fire at an early hour Thursday morning. The contents of the house and nearby buildings were saved by the strenuous efforts of the firemen and neighbors. It is supposed that the fire originated in the chimney. The building was partially covered by insurance.
"NO BILL" IN MANSLAUGHTER CASE.
In the case of the King vs. Byron A. Roney for manslaughter the Jury brought in "No Bill."
Every mind was made for growth, for knowledge, and its nature is sinned against when it is doomed to ignorance.

Local Happenings

At the Middleton School Board meeting Ivan H. Crowell, of Truro, was engaged as Mechanic Science teacher. As in previous years half his time will be spent at Annapolis Academy.
Our local enterprising and industrious creamery proprietor, Mr. J. D. McKenzie certainly likes to hear the wheels of industry humming in the town and he has a reputation for covering a lot of ground when he starts things going. Last week his plant turned out 2510 lbs. of butter in one day, (Saturday), that's a record for some of the other creameries in the province to look at—Outlook.
The W. M. Society will observe the annual meeting for the Baby Band and Mothers, with a picnic at the home of Mrs. Clyde Marshall, Clarence, Wednesday, July 2nd at 3 p.m.

MONITOR OFFICE.
Last Sunday collections were taken in all Anglican churches throughout the Diocese of Nova Scotia in order to provide a permanent Church of England Chaplain to minister in the public hospitals in Halifax to the sick and suffering from all parts of the Diocese. Considering the weather the offering in St. James' church was good. Those who were unable to make their contribution on the day appointed are asked to do so next Sunday on else to hand it in to Canon Underwood.
There is no pick-me-up like a good cup of tea. No matter at what hour you may drink it, it is stimulating and it is a healthful stimulant too. Visit any hospital and note the quantity of tea that is served to convalescent patients. The doctors permit these patients to have a cup of tea whenever they feel like it, because they know it will do them good. The best tea of course for both doctor and patients, is MORSE'S Tea, the kind that makes 240 cups of good tea to the pound.
The rain during Sunday night and Monday morning did an incalculable amount of good, saving the situation so far as hay is concerned. Crops of all kinds were suffering and seed germination was kept back by the extremely dry season.
See Douglas Fairbanks in Robin Hood, 12 Reel Special Production at Armada Theatre, Middleton, June 23rd and 24th, Adults 50c, Children 25c.
The service in St. Mary's, Belleisle, next Sunday afternoon will commence at 2 o'clock.
Considerable interest is being centered around the Community Concert which is to be given in the Demonstration Building Lawrencetown, Wednesday evening, June 25th. Already quite a lot of attention has been focused upon the body of artists who are taking part. A new feature of this concert in conjunction with the instrumentalists, vocalists, readers and other up to the minute attractions is a well balanced orchestra. It will be in attendance all evening. In connection with this great music night it is gratifying to know that no effort is being spared in an endeavor to make it the event of the season.
Parties who wish to take summer boarders would do well to get in touch with Mr. W. V. Jones, Station Agent, D. A. R., of this town, giving full particulars.

PRESENTATION TO MR. AND MRS. T. B. CHIPMAN ON THE TWELFTH ANNIVERSARY OF THEIR WEDDING
Mr. and Mrs. T. B. Chipman were given a complete surprise on Friday evening the twelfth anniversary of their wedding day. They had spent the day very pleasantly in motoring and on arriving home at ten o'clock were surprised to find the house full of their friends. A couple of hours were very enjoyably spent in congratulations and social intercourse and at twelve dainty refreshments were served by the guests. After wishing Mr. and Mrs. Chipman many many happy wedding anniversaries they presented them with a handsome card table with never fail to regulate the bowels and stomach, thus driving out constipation and indigestion; colds and simple fevers. Concerning them Mrs. Gaspar, Daigle, Demain, Que., writes: "Baby's Own Tablets have been of great benefit to my little boy, who was suffering from constipation and indigestion. They quickly relieved him and now he is in the best of health." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

CHILDHOOD CONSTIPATION
Constipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which never fail to regulate the bowels and stomach, thus driving out constipation and indigestion; colds and simple fevers. At the Western Baptist Association at Clarence at a round table conference it was considered that in the near future ministers would have to receive \$1500 and parsonage if the churches giving below that sum are to have pastoral care.
