### ROYAL BAKING POWDER Absolutely Pure

**ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful, it insures you against alum and all forms of adulteration that go with the low priced brands.**

### THE BROWN TAIL MOTH SITUATION

**Dr. C. Gordon Hewitt, Dominion Entomologist, Considers Conditions in Nova Scotia are such as to Demand a Strict Observance of the Law**

Editor Bridgetown Monitor:

Sir—I should be pleased if you would permit me to call the attention of your readers to the Brown Tail Moth situation in the Province. The serious character of this insect as a pest of fruit and shade trees, and as cause of physical discomfort and possible illness, owing to the poisonous nature of the hairs of the caterpillar, needs no emphasizing, as most of your readers will be acquainted with the experiences of the New England States in regard to this insect and the Gipsy Moth. The Dominion and Provincial Departments of Agriculture are making every possible effort to keep the insect in check by collecting the winter webs or nests on the trees, each of which contains on the average about two hundred and fifty caterpillars. On this work a body of ten inspectors, employed by the Dominion and Provincial Governments, is engaged, and they are covering the whole of the infested territory. Owing to an enormous flight of moths which were blown across the Bay of Fundy from Maine in July, 1913, the infestation has been very greatly increased. With the annual increase of the infestation in Maine we may expect a recurrence of such re-infestation by wind-carried female moths in the future, and it is therefore more than ever necessary to call the attention of the owners of orchards and trees to the requirements of the law in this regard.

Regulation 8 of the Dominion "Destructive Insect and Pest Act" states: "Any inspector entering any lands, nursery or other premises where there is reason to believe that any of the insects, pests or diseases hereinafter specified are or may be present, shall give instructions for the treatment or destruction of any tree, bush, crop or other vegetation or vegetable matter or the containers thereof, which may be found or suspected to be infested with any of the insects, pests or diseases hereinafter specified, and such instructions shall be carried out by the owner or lessee of the infested or suspected vegetation, vegetable matter or containers thereof, and such remedial treatment shall be carried out and continued until the insect, pest or disease shall be deemed by the inspector to have been exterminated."

The penalty for contravention of

the regulations under the Act upon summary conviction is a fine not exceeding one hundred dollars or imprisonment for six months, or both fine and imprisonment.

The conditions in the Province are such as to demand the strict observance of this law. While the respective governments are leaving no stone unturned, the duties of their officers are to inspect, and the fact that they are collecting the webs on infested premises does not relieve the owners of such premises of the necessity of conforming with the aforementioned regulation and taking steps to eradicate the Brown-tail Moth when the same occurs in their premises.

Orders have been issued to the inspectors to instruct the owners of properties on which the Brown-tail Moth has been found in any abundance to spray their trees thoroughly with a spray solution containing not less than two pounds of arsenate of lead (the arsenate of lead is to contain not less than fifteen per cent of arsenic oxide) to every forty gallons of water after the leaves appear and before the blossoming of the trees. This spraying is to be carried out in a satisfactory manner, and all cases in which the instruction have not been carried out will be reported by our officer in charge to the Department.

Those fruit growers who are accustomed to spray thoroughly and at the proper time need fear no defoliation or trouble, but it is to their interests to co-operate with the Dominion and Provincial Departments of Agriculture in seeing that the less progressive persons carry out the necessary requirements.

Yours faithfully,

C. GORDON HEWITT,  
Dominion Entomologist,  
Department of Agriculture,  
Ottawa, February, 1914.

MINARD'S LINIMENT CO., Ltd.

Gentlemen,—My daughter, thirteen years old, was thrown from a sleigh and injured her elbow so badly it remained stiff and very painful for three years. Four bottles of MINARD'S LINIMENT completely cured her and she has not been troubled for two years.

Yours truly,

J. B. LIVESQUE,  
St. Joseph, P. O., 18th Aug. 1900.

### Annual Meeting of the Middleton Wool and Fur Company, Ltd.

The annual meeting of the Middleton Wool & Fur Company, Limited, was held February 17th in the Post Office Building, and was attended by most of the shareholders. After reading of minutes President Miller made report of the progress of the Company during the ten months since organization. His address was in part as follows:—

"This is the first annual meeting of the Middleton Wool & Fur Company, Limited. All joint stock companies are required by statute to hold a meeting of shareholders once a year, and a day is fixed by law if not by the Company. Our last meeting was an extraordinary general meeting. At this meeting we wish to lay before you through our Secretary, Treasurer the financial statement of the Company and the auditors' report, which I will give you.

"We have not been in existence quite a year, and as yet have nothing to sell from the business, and cannot show any cash dividends, which while very pleasing, are not always the best things to happen joint stock companies in the beginning, as often such dividends are taken out of capital account, and the shareholders are being deceived while drawing dividends.

"I think it wise to keep down to facts, hard financial facts in these things, and make no greater show than our circumstances will allow, and we will enjoy prosperity all the more.

"It is not always an easy matter to start a joint stock company, to lay its foundations surely and carefully, avoid mistakes, future failures, and to keep out watered stock, and sell stock without bonuses, as common stock; but in this case I am confident we have done things, to the best financial element of our community, and though this has been a hard financial year, no difficulty has been experienced in selling stock, and the care of the Company in only selling to good business men, who look at the future of the Company as very bright.

"Our Secretary in his report will give you an idea of the lands purchased and moneys paid, amounts due on them. Our Managing Director will show you the position, work done and being done, and our fur manager will give you a report of the fur end; therefore there is little for me to say, except to thank you for your confidence and patience with me as one of your Directors. I felt the responsibility of the position keenly. A man can do as he likes with his own, but where he handles other people's money, he feels bound by all the ties of principle and honor, if he has such things, to do the best possible, so far as within his power lies.

"Gentlemen, I am sure you, our directors have made every honest effort possible and have devoted much time, without a cent's cost to the Company, to do their best for you, and how far they have succeeded, we leave for you to judge. As before stated, we had no things to learn. None of us doubtless know as much now, after upwards of a year's experience of the worst end of it, as we thought we knew before we began, and none of us know as much as the man outside, who has never read nor had experience.

"None can give such good advice about caring for and training the baby as the old maid; but gentlemen, the baby enterprise is born, and though it needs great care, it is a healthy youngster, and I am very hopeful that the youngster, if properly managed and properly fed, will develop into one of the strongest and most healthy enterprises, not only of this Valley, but of Canada.

"We have started in on a commercial basis, and our prosperity does not depend on another's adversity, but on natural growth and development. We are growing the necessities of life, not luxuries, things that the people cannot do without hence always a market, and that market not subject to the whims and fancies of fashionable ladies, but to the hunger and cold of the people.

"As to our holdings, I might say it being mostly real estate and bought at low prices, I consider them perfectly safe, and should we lose all the sheep and skunk, we would still have ready enough to pay for all it has cost. Real estate is advancing all the time in this Valley. I have taken a deep interest in this matter, not only as a worthy enterprise, one that should be a great help to our valley by way of an object lesson, but because I feel sure I can see big profits in the future."

He then read the auditor's report,

which was very satisfactory and paid great compliment to Secretary for correctness and completeness of accounts. The Secretary-Treasurer then gave a financial report, which was well received by the shareholders. While not showing dividends, as the Company has not sold any of its products, it showed very careful management on the part of the directors, and that they had a really property alone worth more than the money invested, besides the stock in sheep and skunk. Their real estate was ideally situated for the business and comprises some of the best land in the Valley, and should they wish to close business, their real estate would bring more than their whole outfit so far, therefore no possible chance of loss to shareholders. The Managing Director and Fur Manager gave reports showing a material progress in work at ranch. The feeling of the meeting was very optimistic for the future of the industry.

### A Tribute to H. Price Webber

(Daily Kennecott Journal)

Augusta, Maine, Feb. 12.—The extraordinary demand for tickets for the Armitage Club entertainment, to be given the evening of Feb. 13, at the Parish House, springs not alone from public interest in the work of that organization, but from the fact, also, that it gives our people an opportunity to see Mr. and Mrs. Webber in their own home city.

Price, as he is known by everybody and called everywhere, is a really unique figure in the theatrical world. He is not only a star comedian but he is the Dean of his profession, having been in active service as manager-actor longer than any man in this country.

Having just closed a very successful season, he has been before the public for thirty-nine consecutive years, staging something like three hundred performances a year and being, himself "on the bill" every day. It is a record without any parallel, we think, in the history of the American stage.

And it is not only a testimonial to his judgment and his skill, but what a story it tells of courage and of health,—of right thinking and of clean living. We take of our hat to Price Webber, he has made life a success.

And whatever tribute may be paid to him applies with equal force to Mrs. Webber. For during their entire married life she has been his lending lady, taking part in every performance, and by her character giving ample evidence that the stage is not devoid of true womanhood.

All hail to them both, and may they long live to enjoy the reward of real merit!

### RHEUMO CURES RHEUMATISM

No matter how long standing your case may be, don't despair, get a bottle of Rheumo today. W. A. Warren sells it with a guarantee to benefit you. Rheumo is wonderful in its quick action, the pain ceases, the muscles and bones are rid of soreness and stiffness, and very soon a Rheumo patient is able to have the same strength and vitality of youth. Rheumo builds blood so rich and thick that uric acid cannot possibly exist. Rheumo costs only \$1.00 for a large bottle from W. A. Warren or direct, all charges prepaid from B. V. Marion Co., Bridgeburg, Ont.

### CLAUDE FOENER PERISHED IN BLIZZARD.

Searching parties out for several days from Brookfield, N. S., for Claude Foener, who went astray early on Thursday, 18th, while hunting, found the body, frozen to death, on Saturday afternoon, Feb. 21st. He had lately come from Colbat to winter with his father-in-law, Howard Martin of Brookfield.

Shortly after he left for the hunt on Thursday one of those terrible blizzards that have swept this district for the past week with temperature below zero came up in which he perished. He belongs to Bridgewater and was a brother of the late Otto Foener, a divinity student at Windsor, who came to his death under sad circumstances there last fall.—Louisburg Exchange.

### Annapolis County Dairymen Win in Dairy Competition

In the Dairy Competition open to dairymen throughout the Province from May to October, inclusive, we notice with a goodly degree of satisfaction and pleasure that the 1st, 4th and 5th prizes were won by Annapolis County dairymen. We sincerely congratulate Messrs. Frank H. Bath of Bridgetown, B. R. Whitman and S. B. Hall of Lawrencetown.

The prizes were: 1st—\$30 from Agricultural Dept. and gold medal worth \$20 from Messrs. Smith and Proctor, Halifax; 2nd, \$20; 3rd, \$15; 4th, \$10; 5th, \$5, from Agricultural Department.

### DETAILS.

No. 1—Frank H. Bath, Bridgetown, Wolfville Creamery. Seven cows in herd. Total pounds butter fat, 1273.5. Average per cow, 181.1.

No. 2—Murray Crosby, Dayton, Yarmouth Creamery. Ten cows in herd. Total pounds butter fat, 1611.7. Average per cow, 161.1.

No. 3—H. M. Tatterie, River John, Scotsburn Creamery. Seven cows in herd. Total pounds butter fat 843.0. Average per cow, 120.4.

No. 4—B. R. Whitman, Lawrencetown Creamery. Sixteen cows in herd. Total pounds butter fat, 2893.1. Average per cow, 94.

No. 5—Stanley B. Hall, Lawrencetown Creamery. Seven cows in herd. Total pounds butter fat, 641.4. Average per cow, 91.6.

### Hockey Match

A fast and interesting game of hockey was played at the Bridgetown rink on Thursday evening last between Weston and Bridgetown, resulting in a score of 5-2 in favor of Weston. The ice being in an excellent condition, fast playing was in order, and both teams gave a very fine exhibit of hockey. Through some misunderstanding the game got rather broken up at the close of the second period. The first half was well played, there being no penalties, but in the last period both teams getting excited as well as the spectators, penalties could not be avoided. It is a pity that the Bridgetown citizens would not show more interest in these games and patronize them, and help boost the young every-ready sports and sport along.

The line-up was as follows:—

Weston.	Goal	Bridgetown.
F. Flannigan	.....	Crowe
J. Skinner	.....	Point C.
H. Robinson	.....	Salter
H. Bennett	.....	C Point
B. Bennett	.....	H. McKenzie
E. Crocket	.....	Centre
	.....	Y. Florian
	.....	R. Wing
	.....	E. Burns
	.....	L. Wing
	.....	R. Bent.

### Sudden Death of Edgar P. Fellows.

The entire community was deeply impressed by the news on Tuesday morning (3rd inst) of the sudden death of Mr. Edgar P. Fellows. He was in town on Friday of last week attending the meeting of the shareholders of the Monitor Publishing Company, and on Sabbath evening occupied his usual place in the Providence Methodist church. On these occasions he appeared to be enjoying usual health. We learn that Tuesday morning he left home with an assistant to drive some cattle to town. After going a short distance he spoke of feeling unwell and said he would go no further. He turned and entered a neighbor's barn, spoke to some persons there and then immediately dropped to the floor. Death was instantaneous. Mrs. and Miss Fellows at home and his daughter in the West will have the heartfelt sympathy of a very large circle of neighbors and friends.

### MONTHLY MEETING OF TOWN COUNCIL

Assessment Roll for the Current Year Laid Before the Council and the Rate of Taxes for the Various Liabilities of the Town were Fixed

The regular monthly meeting of the Town Council of the Town of Bridgetown was called by His Worship the Mayor and held pursuant to written notice given each Councillor, at least twenty-four hours before said meeting, in the Council Chamber on Monday evening, the 2nd day of March, A. D. 1914, at 7.30 o'clock, with Mayor Freeman in the chair and councillors present, as follows:—Chas. R. Chipman, E. A. Hicks, J. W. Peters, J. Harry Hicks and S. F. Pratt.

Ordered that the following bills be paid: Jos. I. Foster, supplies to W. Phinney on poor account, eight weeks, \$8.00; Emma J. Burns, supplies to Ira Bank, six weeks @ \$2.05, \$12.30; A. E. McKenzie, J. E. Lloyd, and A. Young, town assessors, \$35.00; A. L. Anderson, material for crusher, \$59.83.

Resolved that the account of E. L. Fisher for \$15.00 for renewal of policy on town hall and contents, due March 8th, be referred to the Finance Committee.

The Clerk laid before the Council the estimates for the current year, which were duly considered and discussed.

The Clerk laid before the Council the assessment roll for the current year, as finally passed by the assessment court of appeal and certified to by the Clerk, as required by section 76 of the Assessment Act, whereupon it was resolved that the Town Council of the Town of Bridgetown authorize the levying and collection of a rate of one dollar and thirty-five cents on the one hundred dollars of the assessed value of property and income assessed on such roll to raise the sum required to defray the expenses of the town for the current year, also a rate of sixty-five cents on the one hundred dollars of the assessed value of property and income assessed in the said town of Bridgetown, and in the County of Annapolis, assessment rolls for the school section of the said town of Bridgetown, and all property outside the said school section liable to taxation for the support of the schools of the town of Bridgetown, to defray the expenses of the public schools of the said town of Bridgetown, for the current year.

And also a rate of fifty-eight cents on the one hundred dollars of the assessed value of real estate of the said town of Bridgetown, liable to be taxed for the new sewer, and a rate of thirty cents on the one hundred dollars of the assessed value of real estate in the said town of Bridgetown liable to be taxed for the old sewer system to provide interest and sinking funds for the two loans for sewerage purposes.

Resolved that the Finance Committee be, and they are hereby appointed, a committee to revise and correct the rate book of the town of Bridgetown for the current year, when it is prepared by the Clerk and to report the same as revised and corrected to this Council at its next regular monthly meeting to be held on Monday the 6th day of April next.

Moved by Councillor Pratt and seconded by Councillor E. A. Hicks that pursuant to chapter 84 of the acts of the legislature of Nova Scotia for the year 1913, entitled "An Act to enable the Town of Bridgetown to borrow money for the making of permanent streets in the Town," the town of Bridgetown borrow the sum of three thousand dollars and issue debentures therefor, such debentures to be for the sum of five hundred dollars each, and to be numbered from

one to six inclusive, to be dated the first day of June A. D., 1914, payable in twenty-five years from the date thereof, and to bear interest at the rate of five per cent per annum, payable half yearly upon the first days of December and June in each year, and to contain the other terms and particulars fixed by the said act, and that the Mayor and Town Clerk be, and they are hereby authorized, to sign and execute the debentures in the name of an on behalf of the town and to affix the seal of the town thereto, in accordance with the requirements of the Municipal Debenture Act.

And further resolved that the Clerk prepare the necessary debentures as directed in this resolution and have the same printed, and that he offer the same for sale and sell them upon the most favorable terms offered.

Resolved that the Mayor and Town Clerk be, and they are hereby appointed, representatives from this Council to confer with the other representatives from the Municipalities of Annapolis Royal and Middleton with a view of fixing a basis for establishing a sanitarium and clinic in the western district as provided by Chapter 16 of the local acts of 1912, and as suggested by Dr. Hattie.

F. E. Bath, business manager of Monitor Publishing Company, addressed the Council asking for a reduction in the water rate charged the Company, which is now \$80.00 per year. After some discussion the matter was referred to the water committee to report at the next meeting of the Council.

The year for which Geo. Gill was appointed Inspector under the Canada Temperance Act for the town, having expired on the 21st day of February last, the appointment of Inspector for the ensuing year was brought before the Council by the Clerk. Mr. Gill was present and gave a verbal report.

After some discussion the appointment was referred to the Temperance Committee to report at a special meeting of the Council to be called by the Mayor.

Resolved that Ralph Connell be, and he is hereby appointed, a member of the fire company in place of Luther MacLeod, moved away. Minutes read and approved and Council adjourned.

### C. N. R. NEW STATION AT CALGARY.

On March 23rd the Canadian Northern Railway will operate trains into Calgary. A first-class station has just been completed at Calgary. Although only of temporary construction the interior is very handsomely finished in hardwood and furnished throughout in first class style. An immense freight shed of standard Canadian Northern construction has also been completed. Hot and cold rooms for the storing of perishable freight are features of these sheds.

Moncton had a \$100,000 fire early on Wednesday morning. It originated in the city hall, in the market section, and destroyed that building, Maren & Magee store, First Baptist church, public library, Armstrong & McFarlane building, Roy D. Biggar and others. The Bank of Nova Scotia building saved the town from further loss. The thermometer was twelve below zero and the firemen had some narrow escapes. The city building is insured for \$15,000 and cost \$60,000.

## Middleton

Miss Alice Minard is visiting in Clarence.

Dr. and Mrs. A. C. Fales left last week on a short trip to Malden, Mass. Miss Erica Selfridge and Miss Bertie Andrews spent the week end in Kingston.

Mr. and Mrs. Fred Banks of Clarence, were the guests of Miss Susie Smith last week.

Miss Fiendel of Bridgewater, is visiting in town, the guest of Mr. and Mrs. W. C. Feindel.

Miss Adelaide Baltzer went to Westville on Thursday, for a three weeks' visit with friends there and in New Glasgow.

Mrs. J. A. Spöngle and Miss Margaret Dodge were the guests of Mr. and Mrs. J. Howe Cox, Cambridge, last week.

Mr. and Mrs. Frank Barteaux arrived recently from Boston, so visit Mr. Barteaux's parents, Mr. and Mrs. Fitch Barteaux, Nictaus West.

John Andrews, a former Middletonian, who has been in the Royal Bank of Canada in Montreal, has been transferred to Grand Falls, N.B.

## FALKLAND RIDGE

February 28.

Mr. Young of Crossburn, is visiting Mr. R. L. Weaver.

Many are suffering from severe colds and sore throats. Miss Flossie Chute returned to the school here on Monday.

Karl Marshall spent Sunday here at the home of his parents.

Mr. Wilfrid Carder is visiting his aunt, Mrs. Phinney at Clementsvale. The "Sunbeam Circle" met at the home of Reta Marshall on Monday evening.

Mr. Rupert Weaver and little Norman spent Sunday last at New Germany.

Mr. and Mrs. E. H. Marshall spent Sunday at the "Lakeside House," at Springfield.

Mr. Wm. Whyatt of New Albany, is seriously ill with pneumonia at Crossburn.

Miss Mary Oickle of Cherryfield, is spending a few weeks with Mrs. Harry Whyatt.

We are sorry to report Roland Marshall on the sick list; he is suffering from a sprained back.

M. Willard L. Swallow returned on Monday from a week's visit among friends at Deep Brook, Kingston, Middleton and Torbrook.

## NORTH WILLIAMSTON

February 28.

The sum of \$20 was realized at the bean supper.

Gilbert Beals returned home from Springfield last Thursday.

Mrs. Isaac Hiltz spent several days with friends in Bridgetown quite recently.

Mr. and Mrs. Fletcher Bent of Beausfield, were the guests of Mr. and Mrs. William Bent on the 22nd.

## or New Period of Eruption.

On Friday evening last between twenty and thirty neighbors met at the home of their aged friends, Mr. and Mrs. John Phinney, to witness what might be called a genuine surprise party. Although taken by surprise the host and hostess by their cordial manner made every one feel welcome to their home. The evening was spent in jovial and pleasant conversation. After a dainty luncheon was served by the ladies, W. E. Crawford was called upon to make a few remarks, which he did in a most pleasing manner. In his remarks he referred to the aged couple being joined in the holy bonds of matrimony fifty-nine years ago. At a late hour several joined in singing "God be with you till we meet again." The guests then took their departure, feeling they had spent a pleasant evening long to be remembered. Mr. and Mrs. Pierce were recipients of several useful gifts besides cash.

## OUTRAM

March 2.

Preaching service, Sunday, March 8th, at 7 p.m. Sledding and mat fever seems to be the order of the day.

Mr. Edmund Bent had the misfortune to lose his horse.

Quite a number from here attended the mite party at Mr. J. S. Miller's.

Mr. Edmund Bent has purchased a very fine driving horse from Mr. Allen Smith.

Mrs. Edward Grant has returned home, after spending a few days with her sister, Mrs. Wallace Marshall.

Mr. and Mrs. J. W. Plim have returned to their home in Middleton, after spending the past two weeks with Mrs. Ritson Bent.

## May Raise the Sunken S. S. Titanic.

To raise the Titanic, recover the bodies from its hold and again fit the ship for sea is a scheme which Charles Smith, a Denver architect, hopes to carry out this year.

For several months Smith has been drawing plans of submarine boats, scoops and other apparatus to be used in raising the Titanic.

His scheme is first to locate the ship. He then intends to lower a submarine carrying seven persons by means of a steel cable. The submarine will be attached to a ship on the surface and communication is to be had by means of a telephone and electric signal bells.

The submarine is to be operated by electricity, furnished through cables from the ship above, and is to be especially constructed so as to withstand the terrific pressure, which is estimated to be almost forty tons a square foot.

As the submarine is lowered powerful electric magnets will be attached to its prow. Light steel cables are to be attached to the magnets, the other end of which will be wound around stem winches on scoops on the surface.

When the Titanic is found the submarine will push the magnets against the side of the wrecked ship and signal to the men above to turn on the electric current thus, adhering the magnets to the sunken vessel.

Magnets will be placed all around the ship and when the last one is in place the submarine will be pulled to the surface and the work of raising the vessel begun.

## Shiloh's Cure

THE DEPTH OF VESUVIUS. Men of Science Watching First Steps

## Good Fruit

The most successful fruit growers of the Annapolis Valley have for years followed the practise of applying Muriate of Potash mixed with Basic Slag and Bone Meal, or other Phosphatic fertilizer, to their orchards, depending on a crop of clover to supply the necessary Nitrogen and Humus. There is no doubt that the adoption of this ideal system is directly responsible to the remarkable color and quality of Nova Scotia apples, which features have gained for them so many awards and established their enviable reputation in the markets of Britain. We can supply you with all high grade fertilizer materials, Potash, Nitrate of Soda, Acid Phosphate, Basic Slag, etc. at lowest prices. You can mix these yourself at home and save 25 to 40 per cent in fertilizer cost. Call and see us.

## 5,000 Miles of Track

Canada's Railway Increase Breaks All Records.

It is hardly believable, but the Dominion of Canada last year built as much new railway mileage as the whole of the United States. In fact, the Dominion has the greatest railway mileage, according to population of any country in the world.

It is hard to believe that Canada, whose population of 7,000,000 does not exceed that of the state of New York, has 30,000 miles of railway trackage. That means that the Dominion takes sixth place among the nations of the world with respect to railway mileage.

During the past year nearly 3,000 miles of additional trackage were laid down.

The largest previous addition in 1912 was 1,225. The most of the trackage was laid down west of Ontario; and Quebec, which has never, strangely enough, shown much enthusiasm for railway building, only had, of the total, the negligible amount of one hundred and three miles.

Into the total figures for last year were brought in, of course, the 1,400 miles of the western division of the Transcontinental.

The mileage under construction last year was the largest in the history of railfodding in this country. It represented nearly 19,000 miles. That means that the addition to mileage construction in 1913 was 12,358. Of all this construction eighty-two per cent was in the western provinces, although Ontario had five hundred miles of new trackage laid last year. The older provinces do not show the need to any great extent for increased accommodation.

The supreme effort has been concentrated on the Northwest. In the whole of the Dominion there were not five hundred miles, as many miles of railway construction throughout Canada in 1901 as were under construction in 1913. In another way—there were more miles of railway under construction last year in the Dominion than were in operation in Italy, Sweden, Spain, Australia and New Zealand; or in Sweden, Norway, Denmark, Switzerland and Roumania combined.

The Truro News says that there is a rumor that under the Redistribution Bill, by which Nova Scotia will lose two members, that the Counties of Antigonish and Guysboro will be merged; that Inverness and Richmond will be joined also; and that Cape Breton will be restored to two members, as formerly.

**NA-DRU-CO RUBY ROSE COLD CREAM**  
Imparts a soft and velvety charm to the complexion, and counteracts the effects of raw, cold winds and ever-dry indoor air. Splendid for cracked lips and chapped hands. In 25c opal glass jars, at your Druggist's. 300 NATIONAL DRUG AND ORNAMENTAL CO. OF CANADA, LIMITED, MONTREAL.

## ANNIVERSARY

February the 1st completed our first year with the "Pay Down" System

IN reviewing our year's business, and with many kind words of appreciation from satisfied customers, we are fully convinced we made no mistake in introducing this system.

We are starting our second year with still greater confidence and trust by handling High Grade Goods, Courteous Treatment and Fine Prices to be able to retain the patronage, not only of our old patrons but many new ones. With best wishes,

Yours faithfully

**FEMALE TROUSERS REACH NEW YORK.**

Like the Male Variety, They Rejoice in a Crease, and are Visible.

New York, Feb. 12.—The latest fashionable outfit for women arrived here yesterday from Paris. It is called the "trouser trotter" suit, and consists of skirt slit almost to the knee and a pair of trousers to be worn underneath. The trousers are of serge, and are creased exactly similar to men's.

The only thing deceptive about them is that they are not regular trousers—they go only to the knees, where they are held by elastic bands.

Mme. Bernard, a dressmaker, brought in the first "trouser trotter" yesterday. She said that it would soon be accepted by all fashionable American women, because it is warm as well as discreet.

"Parisian women of the fashionable set are never vulgar," she said. "They do not believe in showing their ankles. Moreover, they are very sensible, as this new idea of fashion shows. The trousers not only serve the purpose of delicacy, but they shield the wearer from the chills that the slit skirt provokes."

**PRINCE OF WALES TO TOUR.**

London, Feb. 12.—Preliminary plans have been drafted for the tour of the British Empire to be made by the Prince of Wales in 1915, and which is to include a visit to the United States on the return journey. It is said in official circles to be possible that Prince Albert, the second son of King George, may accompany the Prince of Wales.

As at present arranged the Prince will go first to Australia and New Zealand, returning to England by way of Canada and the United States.

**GENEROUS GIFT FOR KINGS COLLEGE.**

Sir Henry Pellatt and J. H. Plummer Endow Chairs.

The supporters of King's College, Windsor, are glad to see the many evidences of progress and renewed activity in the venerable institution. The steady growth of the endowment fund, which has now almost reached the sum asked, "is a source of special pleasure."

Sir Henry Mill Pellatt, D. C. L., Toronto, has just endowed a chair in Philosophy, of the value of \$1500 per annum. This chair, which is now held by the President of the College, will be known as the Sir Henry M. Pellatt chair in Philosophy.

King's has also profited by the generosity of another prominent Toronto citizen, J. H. Plummer, D. C. L., President of the Dominion Steel Corporation. Mr. Plummer has consented to endow a fellowship, to be known as the J. H. Plummer fellowship in English. The value of this will be \$500 per annum, this amount being fully guaranteed by Dr. Plummer.

All well-wishers of the College congratulate her upon her increasing prosperity.

**GREAT CONGRESS OF SALVATION ARMY.**

San Francisco, Feb. 18.—More than 100,000 members of the Salvation Army from forty-six countries will assemble here August 15 to 22, 1915, at a convention of the International Salvation Army, it was announced today. It will be personally directed by General Bramwell Booth. Major Fletcher Agnew of Chicago has been appointed Salvation Army secretary to the Exposition.

**WORLD-WIDE WORK OF SALVATION ARMY.**

Over 16,000 Officers in Fifty-eight Countries Kept Busy

While every citizen has a general idea of the work of the Salvation Army and its value to the community there are few who really appreciate the scope and many sides of the operations of this wonderful organization. The Army has shown its ability to adapt itself and its methods to every race, climate and condition of people, from the natives in India, to the people of northern Scandinavia, and these different methods have been alike successful. The Army's first mission seemed to be to preach the gospel by word, but the same spirit which led the heart of the late General Booth out to the godless masses of East London, led him also to see the wretched condition under which they lived and he understood that some scheme must be devised whereby their temporal circumstances must be altered. This led to the beginning of the Army's social operations, and the establishment of its institutions which can now be numbered by the hundred. We are giving below some figures which concern just the spiritual side of the Army's operations, or its "field work," as it is termed. We believe the Army today to be the greatest evangelistic agency at work among the common people in the world.

There are over 16,000 officers at work in fifty-eight countries. These, with every Salvation Army soldier, are total abstainers, this being a condition of membership. Every week 7,530 indoor meetings and 33,180 outdoor meetings are held, reaching many thousands of people. The brass bands number 1,674. The members of these bands receive no remuneration for their services and buy their own uniforms. There are, in connection with every Salvation Army corps many earnest workers who give all the time they can spare from their daily employment to furthering this work.

It is said that the Army was never in so flourishing a condition as at the present time, and even greater things in the future will be accomplished by this organization.

Figures compiled in Chicago show that almost a million people attend the moving picture theatres of the city every Sunday.

**THE TELEPHONE PROBLEM.**

In view of the tense feeling of distrust over the rumor that the telephone charges are to be increased the Legislature should deal with the situation. If the rates and charges will be increased the government will assure as fate be blamed therefore at the next general election. What should the government do? In our opinion, take over the main lines and give local lines connection therewith at a fair rate. Someday it will have to come to that, so the sooner it is done the better, for the Company will load the concern down with bonds and water tanks thus making the problem more difficult of solution the longer it is left unsolved. Telephone connection is rapidly becoming of as much importance to the public as is the post office system. It would be intolerable to have the postal system managed by a soulless monopoly, and it is becoming intolerable to have the telephone system managed in a similar manner. Someday the Dominion Government will take over the telephone system all over the Dominion, in the meantime in Nova Scotia the people look to the Legislature.—Eastern Chronicle.

**NOVA SCOTIA HAS SPLENDID EXHIBIT.**

London, Feb. 16.—Canadian exhibits are a prominent feature at the Dominion Exhibition, which opened today in Selfridges Departmental Store on Oxford street. The showing of the Province of Quebec has been arranged by Col. Pelletier, who has managed to put forth an imposing display of the mineral and agricultural products of the province.

Ontario and Nova Scotia also have splendid exhibits, dealing with their natural resources. The Canadian Pacific Railway has a model transcontinental line, which, along with numerous scenic features, has been much admired by the crowds of visitors.

**IMMIGRATION TO CANADA.**

The total immigration to Canada during the first ten months of April to January, of the current fiscal year, was 356,430, made up of 185,179 British, 99,938 American, and 127,313 from all other countries. During the corresponding ten months of last fiscal year, the total number was 344,983, composed of 180,599 British, 118,826 American and 95,644 from all other countries. The increase is three per cent.

Read Our Personal Money-Back Guarantee

You Can Try This Remedy At Our Risk

YOU know what that means—Misery—Worry—Big Bills—Debts! You know you can't afford to get sick. Keeping in good health means food and clothing for you and your family. It's up to you to take care of yourself. It's up to you, whenever you don't feel right, to take something to make you right, to strengthen you, build you up, ward off worse sickness, protect you and your family! That thing we have, and in offering it to you we protect you against money risk, by personally promising you that if it doesn't protect you against sickness, we'll give you back your money without a word or question. It is—

**Rexall Olive Oil Emulsion**

**It is the Best Remedy**

When you are run-down, no matter what the cause. It doesn't merely stimulate you and make you feel good for a few hours, but takes hold of the weakness, and builds you up to a healthy, normal condition.

It is a real nerve-food tonic, a real builder of healthy nerves, rich blood, strong muscles, good digestion.

It contains the Hypophosphites, to tone the nerves and give energy, and pure Olive Oil, to nourish the nerves, the blood, the entire system, and give vitality, strength and health.

It is pleasant to take, the greasy flavor of the Olive Oil having been removed.

For you who are tired out, nervous, run-down, debilitated, weak, emaciated—for convalescents—for old people—for puny children—we recommend Rexall Olive Oil Emulsion as the best medicine we know of to make and keep you well and strong.

Sold only at the 7000 Retail Stores—the World's Greatest Drug Stores—\$1.00 a bottle. Sold in this town only by us

**We Make Our Living**

out of the drug business right here in your town. It is our duty to give you the best remedy we can for whatever ailment you may have, and business sense demands that we recommend nothing unless we know it's good.

We know Rexall Olive Oil Emulsion is good. We believe it is the best builder of health, energy and strength there is made. We know it is greatly helping many of your neighbors. We believe that it will make you well and strong again, and save you money and worry in the end.

We feel it is good business for us to recommend Rexall Olive Oil Emulsion and get you to use it, because we know you'll thank us afterward for making our confidence in it so plain that you didn't hesitate to take us at our word. We also feel sure that once you have used it, you'll be as enthusiastic about it as we are, and will recommend it to your friends. Read our money-back guarantee and get a bottle today.

We Guarantee This Remedy to Relieve and Satisfy You—or Your Money Back. We don't want your money unless Rexall Olive Oil Emulsion really helps and satisfies you. If it doesn't, come back and tell us, and we'll give back your money. We believe it will protect your health—if it doesn't, the money is yours, and we want you to have it.

PROPRIETORS AND PUBLISHERS.

WEDNESDAY, MARCH 4, 1914.

—Montreal has had fifty-six days  
this winter when the thermometer  
was at zero or below. That is prac-  
tically two months of zero weather.  
We Nova Scotians would be apt to  
do a great deal of grumbling if such  
should be our lot.

—In the spring of 1913, a Montreal  
gentleman, a director of the Pure  
Maple Sugar and Syrup Agricultural  
Association, offered prizes amounting  
to \$500.00 for the best specimens from  
the sugar-making counties. The first  
prize for syrup, \$100, was won in  
Quebec, as also the third and the  
fifth. Ontario gained the second and  
fourth prizes. In the sugar section,  
Quebec gained the first and second  
prizes. New Brunswick gained the  
third and fourth.

Nova Scotia was altogether left out  
in the cold, not gaining even a sixth  
prize for either sugar or syrup.  
This business is carried on quite ex-  
tensively in Quebec, one maple or-  
chard containing sixteen hundred  
trees.

—Current cartoons are much occu-  
pied with President Wilson.  
One represents him as untying the  
knot in the British lion's tail, while  
Secretary Bryan is petting the animal  
to appease him. The trouble-  
some knot is, of course, the matter  
of the Panama Canal tolls.

Another cartoon is in four parts.  
The first represents the President as  
having kicked the Republican ele-  
phant and laid him in the dust. In  
the second he has Congress on his  
knees before him, yielding to his  
wishes respecting the Trusts. In the  
third he has the income tax bird by  
the neck and is dragging the cur-  
rency laws where he wills. The  
fourth "Where his nerve failed him,"  
shows him running with all his might  
from the suffragettes who are asking  
him for "Votes for Women."

—The science of aviation has made  
such advances during the last two  
years as almost to stop the mouths  
of those who prophesied final failure  
of the attempt to make any practical  
use of the navigation of the air.

One great improvement is the hy-  
droplane, a combination of boat and  
flying machine. The operator can be-  
gin his cruise on the water, rise into  
the air when he pleases, and descend  
again to the water. This enables him  
to make an easy start and an easy  
finish, as the drop into the water oc-  
casions only a splash, while the land-  
ing on solid ground occasions thumps  
more or less dangerous to the deli-  
cate mechanism of the aeroplane.  
Moreover, in cases of accident, the  
fall into the water is not fatal as a  
fall upon the land. These hydro-  
planes are capable of a speed of fifty  
miles or more upon the water, and  
are sometimes constructed with cab-  
ins, which shelter the occupants from  
the force of the spray or the wind,  
but do not obstruct the view.

One gentleman last summer made  
the regular trip of twenty-eight  
miles in his hydroplane from his sum-  
mer home to his Chicago office, in  
about twenty-one minutes. Another  
spent his vacation in a hydroplane  
cruise, from Chicago to Detroit, by  
the water route, then transferred to  
Albany on the train, then went down  
the Hudson to New York, accom-  
plishing the distance of one thousand  
miles at the rate of about a mile a  
minute.

Another great improvement, the  
invention of the Wright brothers, is  
the automatic stabiliser, the object  
of which is to prevent the aeroplane  
from being overturned by shifting  
currents of air. Mr. Wright contends  
that this device, which he is endeav-  
oring to simplify and perfect will  
make flying as safe as journeying be-  
hind a locomotive.

The speed and continuous distances  
made by aeroplanes during the last  
year are almost inconceivable. Six  
hundred and twenty-seven miles and

three quarters in thirteen hours and  
seventeen minutes, in a seventy horse  
power machine; one thousand miles in  
less than eleven hours; Paris to Mos-  
cow, nine hundred and thirty-three  
miles, in ten hours and twelve min-  
utes, with a speed of ninety and a  
half miles an hour,—these are well-  
attested examples of the ability of  
the aeroplane.

The old balloon constructions have  
been well nigh abandoned for the  
power-driven machines.

Military men in different countries  
are practising with aeroplanes as in-  
struments of war, for purposes of ob-  
servation, for carrying guns and ex-  
plosives. One gunner boasts of mak-  
ing fourteen hits out of eighteen at a  
height of three hundred feet. A  
French major estimates that ninety-  
nine per cent of the output of the  
aeroplane builders this year will be  
used for military purposes. It may  
be that the very perfection of the ma-  
chines for destroying life and prop-  
erty will be one of the means of  
putting an end to war.

It was on the 17th of December,  
1903, only ten years ago, that Wilbur  
Wright attempted flight in a power  
driven machine. Who can foretell  
what advances will be made in ten  
years to come!

A report from New York says that  
a hydroplane is now in course of con-  
struction, with two hundred horse-  
power motives, in which during the  
coming summer, an English army of-  
ficer and a United States army flier  
will attempt a trans-Atlantic flight  
from Newfoundland to the Irish  
Coast.

The London Daily Mail has offered  
a prize of ten thousand pounds to the  
first who succeeds. But the time of  
the passage is limited to twenty  
hours.

## The Bridgetown Baptist Church

The regular prayer meeting meets  
on Wednesday evening at 7.30.

The young people hold their prayer  
service on Friday evening at 7.30.

Sunday Services: Bible School at  
10 a.m. Public worship at 11 a.m.  
and at 7 p.m. At the morning ser-  
vice the fifth sermon in the series on  
the Beatitudes will be given. Subject,  
"The Quality of Mercy."

Next Sunday the Baptists of the  
Maritime Provinces celebrate the Cen-  
tennial of their Home Mission work.  
At an Association that met with the  
church at Chester the duty of giving  
the gospel to those inhabiting for it  
along the eastern shores of Nova Scot-  
ia was brought home to the heart  
and conscience of the Baptists. As a  
result the first organized effort for  
Home Missions was initiated by the  
fathers when "Brethren Joseph Cran-  
dall and Samuel Bancroft were com-  
missioned to preach the gospel to the  
people on the shore to the eastward  
of Chester, each to receive five shil-  
lings per day, during three months,  
and the Association pledged to see it  
paid." Prior to this missionaries  
were laboring in various parts of the  
Provinces but unaided by any organ-  
ization. Dr. E. M. Saunders in his  
History of the Baptists of the Mari-  
time Provinces thus describes the be-  
ginning of Home Missions among the  
Baptists: "The spirit of missions and  
the Spirit of the God of missions  
seemed to rest upon the Association  
at Chester. One brother, D. W. Cran-  
dall, who to the close of his life con-  
tinued a supporter of the cause, after  
hearing of the destitution of the  
word which prevailed along the eastern  
shores of Nova Scotia, with  
streaming eyes besought the Associa-  
tion to send a missionary in that  
direction, and he would pledge him-  
self to see him paid. Another bro-  
ther from the eastward of Halifax,  
the master of a small vessel, en-  
treated with great earnestness that  
he might be permitted to convey a  
missionary back with him; and he  
promised to secure for him every pos-  
sible accommodation. After his  
prayers had been answered, and a  
missionary had arrived at the place,  
it was found that his zeal had not  
abated. His vessel was kept busy  
conveying people attending services  
from one harbor to another. Its deck  
swarmed with men, women and chil-  
dren. The presence of God was felt  
in the assemblies. No house could be  
found sufficiently large to  
accommodate the people. They stood  
under the broad canopy of Heaven,  
on the shore. For a quarter of a cen-  
tury that season was referred to by  
those who were present as one of ex-  
traordinary power. These tokens  
of God's favor followed that memora-  
ble meeting of the Association at Ches-  
ter." And through the years the  
Master's favor has followed the home  
missionary endeavor of the denomina-  
tion. In 1814 the total membership  
was 1494; today there are 61,961 mem-  
bers enrolled in the 583 churches of  
the United Baptist Convention. But  
today there is a deficit of \$5,000 in  
the treasury of Home Missions. This  
is not due to extravagance, but to  
enlargement of the work, the increase  
of the meagre salaries of the mis-  
sionaries and the assuming of responsi-  
bility for the care of the colored  
churches of the province. An effort  
is being made to pay off all indebted-  
ness by a special offering for home  
missions in every Baptist church in  
the Maritime Provinces, next Sunday  
A hundred copies of the new Y. M.  
C. A. hymnal entitled "Fellowship  
Hymns" have been secured for use in  
our services. The collection has been  
most highly commended. Prof. Smith  
of the theological department of Chi-  
cago University says: "You have  
exhibited the rich treasures of perma-  
nent hymnology in such a way that  
the advantages of using such a  
collection ought to be immediately  
evident to any one with a sense for  
actual values in poetry and music."  
Dr. A. S. Vogt, Conductor of the  
Mendelssohn Choir, Toronto, says:  
"The hymns have been most care-  
fully chosen. There is a judicious  
variety of the best classical hymns  
and of the more popular productions.  
The book should prove exceptionally  
useful in the services of the church."

## Methodist Church Circuit Notes

BRIDGETOWN

A large and interested audience  
gathered in the lecture room of the  
church last Friday evening, the occa-  
sion being an address by Dr. J. B.  
Hall, of Lawrencetown, upon the sub-  
ject "A Trip to Rome." The speaker  
very modestly began his discourse by  
stating that he did not intend to de-  
liver a lecture but simply to give in-  
formally some account of a trip to  
Europe, with special reference to  
Rome, which he had the privilege of  
taking some years ago. His audience  
however, regarded the discourse as a  
lecture, an extra good one at that,  
and so voiced their feelings in a  
hearty vote of thanks at the close  
of the meeting. Dr. Hall is preparing  
to give the League another lecture in  
the course of a few weeks, upon the  
subject of "The Common School  
and its relation to Life's Vocation."  
Mr. Justice Irvin has kindly con-  
sented to lecture before the League  
at its literary night in April.  
You are advised to watch the ad-  
vertising columns of the Monitor  
next week for an account of the St.  
Patrick's exercises to be held in the  
church, March 17th.

The church orchestra with others  
were planning to go to Granville  
Centre, Friday evening of this week  
to give a concert in the hall of that  
place, but the entertainment has been  
postponed for the present.

Church services this week as fol-  
lows—Regular prayer and praise ser-  
vice this (Wednesday) evening, and  
Epworth League consecration service  
Friday evening.

BENTVILLE

Week evening service here Thursday  
evening. Annual missionary service  
in this church next Sunday after-  
noon at three o'clock.

GRANVILLE

Regular service in this church next  
Sunday at 11 a.m.

## FIRST OF ALL! WHAT TIME IS IT?

This important question is correctly  
answered by one of our fine line of time  
keepers. After a practical inspection of  
the various watches I have selected the  
Waltham line for my trade. The prices  
of these in various cases range from \$6.00  
to six hundred dollars, and for the capital  
invested are unexcelled. A straight dis-  
count of 10 p. c. from all present prices  
during February. Fine repairing a  
specialty.

B. D. NEILY

Granville St. Bridgetown, N. S.

**LOCAL AND SPECIAL**

The annual meeting of the Nova Scotia Temperance Alliance, will be held at Halifax March 17th. F. S. Spence of Toronto, will be one of the speakers.

The young ladies of the town comprising the basket ball teams, are getting in practise for a game to be played before the public at a very early date.

Digby's summer hotel "The Pines" together with the furnishings and log cabins, was sold last week by the Sheriff to George McNeil for \$15,000. The hotel originally cost about \$35,000.

A number of the young lady snowshoers of the town indulged in a friendly half-mile race last Thursday afternoon. Miss Stella May Gill won first place, and Miss Doris Nelly second place.

Digby Courier:—The three-masted schooner Catherine, Capt. Wilkie, is at the government pier ready to sail for Centuagos with 280,000 feet of lumber, shipped by Clarke Bros., and the Bloomfield Lumber Company.

Dr. Avaril L. Bishop of Williamston, has been promoted to full professorship in geography and commerce at Yale University. His host of friends in this County will be delighted to hear of his promotion.

Perry's Peerless Players will be at the Primrose Theatre tonight and tomorrow evening in the plays "Just Plain Molly" and "A Royal Prisoner" with Dan Malloy and Hazel Corinne playing the leading roles.

The thaw which set in on Sunday night and has continued for the past forty-eight hours, has put the roads in a bad, and in some places, dangerous condition. Several of the rural mail couriers were unable to make their routes to and from the Bridgetown post office on Monday.

On Wednesday, March 11, at 2.30 p.m. in Warren's Hall, a treat is in store for the orchardists of this section of the County, when Prof. Blair of the Kentville Experimental Farm, and Prof. Brittain of Truro, Provincial Entomologist, will speak on the "Control of the Apple Aphid and the Black Spot Fungus."

Yarmouth Herald:—The Consumers' Fish Co. and the Yarmouth Trading Co. are shipping quantities of iced fresh fish to Boston via the Halifax and Southwestern railway and Halifax, thence via the Plant Line of steamers. The interruption of the direct traffic between here and Boston is seriously felt all along the shore.

Mr. Beniah W. Potter of Clements-ville, recently had a tree cut into fire wood that gave him five cords of wood. It was of the black yellow birch variety, was four feet in diameter at stump, thirty-six feet to where crooked, and three feet, ten inches in diameter at crook. The tree grew on land owned by Mr. Robt. Potter at Virginia, this county.

During the excellent sledding of the latter part of last week there was an unusual number of teams coming into the mills in town loaded with logs. During Thursday, Friday and Saturday, over 70,000 feet of timber was received at the factory of J. H. Hicks & Sons. At Beeler & Peters' mill an average of over three hundred logs per day was taken in on Thursday and Friday. Mr. William Howes also received large consignments at his mill.

The 91st birthday of Mrs. Hannah Howe, the oldest resident of Clarence, was celebrated at the home of her brother, Dr. D. O. Saunders, on Wednesday last. Among others who sat at the hospitable board of the genial Doctor and his good wife, were Mr. and Mrs. Wm. Miller and Mrs. Benj. Miller, aged respectively 90, 86 and 84 years, the last two named being sisters of Mrs. Howe. Her youngest brother, Mr. Chas. Saunders also was present. Mrs. Howe, although bowed with the weight of years and feeling keenly the infirmities of age, retains her sight, hearing and memory to a remarkable degree, and it is a pleasure to meet and converse with her.

The first annual meeting of the Monitor Publishing Company, Limited, was held in the Royal Bank Building, Bridgetown, on Friday, Feb. 27th, at 3 p.m. The audited account of the work of the year was submitted by the directors. A dividend of six per cent was granted to the shareholders, leaving a good balance for the further conduct of the business. The directors were reappointed, and the following officers chosen: S. W. W. Pickup, Esq., President; W. C. Clarke, Esq., 1st Vice President; and J. W. Salter, Esq., 2nd Vice President. At a subsequent meeting of the directors, Mr. Fred E. Bath was reappointed manager and also elected Secretary and Treasurer of the Company.

Our esteemed contemporary The Register, of Berwick, has recently become the official organ of the United Fruit Companies of Nova Scotia. The first page of each issue is given up to Co-operative matters, and has been called "The Co-operative News." In the last issue a writer, P. F. Lawson, suggests that the Dominion Government be asked this year to give up the military training at the Aldershot Camp which costs \$180,000 a year, and use the money to assist the farmers of the Valley in fighting a real foe that has become a serious menace to our orchardists, namely, the insect and fungus pests of our orchards. Another demand of this writer is the removal of custom duties on fertilizers. This would save our farmers \$6,000, this season.

**LOCAL AND SPECIAL**

Lord Minto, a former Governor General of Canada, died in London on Sunday morning.

The congregation of St. James church are indebted to Capt. W. E. Gesner for a very neat notice board announcing the hours of regular services. This supplies a long-felt want and is the more acceptable as being the work of the Captain himself in spare hours. The congregation are accordingly grateful.

A report of the annual meeting of the Middleton Wool and Fur Company will be found on page one of this issue. This Company is preparing a prospectus, copy for which is now in the hands of the printer, and will be ready for distribution in a few days. It gives some very interesting information regarding the possibilities of sheep husbandry in this province.

There were large audiences present at both shows in the Primrose Theatre last Wednesday evening, when the scenes in the story of Longfellow's "Evangeline" were shown upon the canvases. Upon the whole we believe the audiences were well pleased with the pictures, although we have heard some unfavorable criticism of a number of the views.

On account of ice in Yarmouth harbor, and some trouble with the steamer Boston, (now in dry dock) the service between Yarmouth and Boston was suspended last week. It is the first time since 1887 that the service has been interrupted. We are informed the service is being resumed this week, the steamer Prince George making the usual two trips per week, leaving Yarmouth for Boston Wednesday and Saturday.

**PERSONAL PARAGRAPHS**

Mr. F. E. Barbour of St. John, was in town last week.

Mr. A. O. Price returned on Monday from a two month visit at the home of his parents in Bristol, Eng.

Mrs. Miles MacMillan of Annapolis Royal, has been the guest of her sister, Mrs. J. W. Beckwith, the past week.

Miss Ella Elliott of Clarence, was the guest of her cousin, Miss Hortense Griffin, for a few days last week.

Mrs. Reginald Miller of Annapolis, and sons, Hugh and "Billie" accompanied by Miss Beveridge, were in town for a few hours last Saturday.

Mrs. C. A. Perkins of the Hillside House, Annapolis Royal, returned home on Tuesday. While here she was the guest of Mr. and Mrs. S. C. Turner.

Mr. T. A. Sanford of Allston, Mass. Mrs. Prior E. Sanford of Somerville, and Mrs. Prudence Chute of Clements-ville, are the guests of Mr. and Mrs. J. Harry Hicks.

Mr. B. I. Raynor, the President of the Raynor, Clarke and Harlow Black Fox Company, who has been sick at his home in Alberton, P.E.I., is somewhat improved and we learn that he is able to be around again.

Mr. W. V. Jones, the efficient and popular station agent at the D.A.R. station, has been confined to his home the past week from illness. We are pleased to report his condition as improving. His position at the station is being filled by Mr. Gabriel of Halifax.

Mr. Paul Durling, who has filled the position of accountant at the branch of the Royal Bank of Canada here for the past year or more, has been transferred to the main office at Halifax. He has been succeeded by Mr. C. Y. Florian, who comes here from the Sydney office.

Yarmouth Light, Feb. 26.—Dr. V. L. Miller left Tuesday via Halifax for London, England, where he intends to take a post graduate course. Dr. Miller's practice at Tusket is being continued by Dr. Bethune, lately of Wedgeport, and Dr. Finlay of Halifax takes Dr. Bethune's practice at Wedgeport. Dr. Miller was accompanied by his wife; also by Mrs. Wills, who is going to England to visit the relatives of her late husband, whose death recently occurred.

**Public Auction**

Public notice is hereby given that I have on behalf of the Mortgagees, taken possession of all those certain piles of lumber, situated at the ship yard, Granville Ferry, in the County of Annapolis, which said piles are each labelled, "Property of Stetson, Outler & Co." and also those certain piles of lumber situated at Ray's Wharf, Belleisle, in the County of Annapolis, which piles are also labelled "Property of Stetson, Outler & Co." and also two certain piles of lumber near the station in Annapolis each labelled, "Property of Stetson, Outler & Co." and that I will on Friday, the 6th day of March, 1914, at the hour of eleven o'clock in the forenoon at the office of Mr. Daniel Owen, in the Town of Annapolis, in the County of Annapolis, sell all said lumber at Public Auction, to the highest bidder therefor. For any further particulars in reference to the said goods hereby advertised to be sold, application may be made at the office of Mr. Daniel Owen, above mentioned. Terms cash. Dated at Annapolis Royal, February 25th, 1914. (Signed) J. H. EDWARDS, of Annapolis, aforesaid Plaintiff for the Mortgagees.

### REDISTRIBUTION.

(From the Hamilton Times)  
As will be seen by the following table the Redistribution Bill will take from Eastern Canada nine seats and give sixteen to Western Canada, and will raise the number of representatives from 221 to 234

Present	Proposed
Quebec	55
Ontario	86
Nova Scotia	18
New Brunswick	13
P. E. Island	4
Manitoba	10
Saskatchewan	10
Alberta	7
British Columbia	7
Yukon	1
	221
	234

As Canada increases in population the number of members of Parliament will increase. The time is not far distant when the unit of the representation, 65 for Quebec, will have to be altered, if the House is not to become too topheavy.

### AN IMPORTANT POWER COMPANY.

Truro May Receive Electric Current Therefrom.

The Canadian Provincial Power Company, for the incorporation of which Mr. MacGregor has introduced a Bill, has the following as incorporators: Herbert G. Grant, John Underwood, Donald C. Sinclair and Kenneth R. Mackinnon, all of New Glasgow; O. P. Fraser of Sheet Harbor, and William C. MacDonald, of Halifax. The object of the company is to generate, manufacture and produce electric power at Sheet Harbor, making use of the opportunities afforded by the East River for hydraulic power, and to erect poles and to convey power through the counties of Pictou, Colchester, Antigonish and Guysboro, and that part of the County of Halifax east of the Musquodoboit River. The capital stock of the company is to be \$1,500,000. The company also plan to run local lines to the various mines in the vicinity furnishing cheap power for their use.

### VALUABLE BOOK FOR THE HOME FREE.

Our druggists are presenting to their customers, free of charge, one of the most useful books that has come to our notice for some time. This is the Na-Dru-Co Almanac for 1914, issued by the National Drug and Chemical Company of Canada, Limited.

In addition to the handy table and other general information, this almanac gives the causes of disease, the symptoms (or signs by which disease is recognized), and the proper treatment to relieve and cure the trouble.

Those living at a distance from a physician, will find this book invaluable in treating the ordinary ailments that come to every family. It will well repay a careful reading and frequent consultation.

### A TREATISE on the Horse—FREE!

We offer you free this book that tells you all about horse diseases and how to cure them. Call for it at your local druggist or write us.

### KENDALL'S SPAVIN CURE

It is available in either bottle, 50¢. Retail druggists or any other licensee, quickly and at a small expense. Send what you desire to: Dr. H. J. Kendall, 1000 St. Louis St., Montreal, Que., or write to a horse dealer in your locality. Send for a free book at your local druggist's, write us.

## Bear River

Judge Owen was in town last week. Mr. Chas. Chute is visiting in Boston for a few weeks.

Miss Annie Wade still continues on the sick list.

Miss Mary Milbury arrived home from Boston on Tuesday.

Mr. and Mrs. Fred Benson returned to Boston on Wednesday last.

We are pleased to report Mrs. Stevens and the twins doing nicely.

Mrs. (Dr.) L. J. Lovitt and daughter Edith spent a few days in Wolfville last week.

Miss H. E. Wade went to St. John today to select her stock of spring millinery and novelties.

Some twenty-five of the Digby folk spent an enjoyable evening at the Bear River Hotel on Monday evening of last week.

W. A. Chute goes to Digby this week to unload an oil tank from the cars and put in place alongside of the one that is now there.

The remains of Mrs. Nickerson (nee Hattie Harris) were brought home from Boston on Wednesday for interment in Mt. Hope cemetery.

Mrs. Samuel Berry, one of the oldest inhabitants of Greenland, who died of pneumonia, was buried at Mount Hope cemetery on Sunday.

Brainard Ritchie had the misfortune to break his leg one day last week while at work at one of the lumber camps.

Steamer Bear River still lays comfortably cuddled in an ice cake in the river. This thaw is likely to loosen the ice around her so that they can get her out.

At the office of Geo. T. Tupper there are a number of receipts for parties taking the Monitor. Will they kindly come forward with their dollar and get their receipts.

There were a couple of runaways in town last week. A pair of colts started on Clarke's wharf and ran up on the back platform of the shop, but when they saw the clerks in the grocery department they concluded it would be useless to go any further.

Another single team started from the same place and after taking a turn around a telegraph pole and leaving the sleds behind, went on up to the livery stable for a feed.

### CLEMENTSVALE

March 2.

Miss Bessie Charlton of Milford, is visiting her many friends here.

Mrs. B. Dukeshire spent Saturday with her sister, Mrs. Curtis of Upper Clements.

Mrs. Eber Potter is spending a few weeks at Bear River with her daughter, Mrs. Harris.

Miss Jackson, of the Bear River teaching staff, spent Sunday with her friend, Miss Eaton.

Mr. Brainard Ritchie had the misfortune last week to fall and break his leg above the knee.

Mrs. P. J. Chute and Mrs. Prior Sanford are visiting their sister, Mrs. J. H. Hicks, Bridgetown.

Mr. and Mrs. George Peck and daughter, of Bear River, spent Sunday with Mr. and Mrs. Geo. E. Beeler.

Mrs. Fred Dukeshire, who has been spending the past month among her relatives here, returned to her home at Kempt, Queens County, on Friday.

### MORGANVILLE

February 28.

Sunshine and shadow are with us, for which we are thankful.

Good sleighing everywhere. The roads are in fine condition.

Miss H. Morgan and friends enjoyed an ice cream supper, Monday evening.

Mr. Edward Balcom has a fine new colt which behaves remarkably well in harness.

The Mite Society met at Mrs. Geo. D. Morgan's on Tuesday evening. The young people are practicing for an Easter concert.

### GOOD PACKING BUT POOR COLOR

Ottawa, February 15.—Canadian Trade Commissioner W. J. Egan, of Capetown, reports to the Trade and Commerce Department that opinion among the various dealers varies in reference to Canadian apples received in South Africa during the past year. Durban dealers report grading and packing of Nova Scotia fruit to be all right in every particular. They complain, however, that Nova Scotian "Kings and Wagons" on the whole are a great disappointment, as they were poor in color and in keeping qualities. The Ontario fruit left nothing to be desired. Mr. Egan says the South African market during October, November and December is splendid for good Canadian apples and will command high prices.

### DEEP BROOK

March 2.

Mr. C. V. Henshaw is away on a business trip.

February went out an ideal spring day; March came in mild and quiet.

George Spurr spent last week in Bridgewater, returning on Saturday.

Charles Lent left last Friday for Newton, Mass., where he has employment.

E. V. Hutchinson returned on Saturday from a business trip on the South Shore.

Fred Ditmars of Dorchester, Mass., arrived on Saturday for a vacation with friends here.

Mr. and Mrs. Clarence Adams of Bear River, spent Sunday with relatives in Deep Brook.

Mrs. W. W. Payson is spending a few weeks at Weymouth while Mr. Payson is at Halifax.

Miss Josephine Sulis, who is employed in Bear River, is spending a three weeks' vacation at her home here.

Mrs. Howard Snell and children of Bear River, were guests on Saturday of Mrs. Snell's sister, Mrs. L. E. Sherman.

The ordinance of baptism was administered at Victoria Bridge on Sunday, March 1st, by Rev. J. S. McFadden.

We are glad to report Major W. Purdy improving; also H. Sulis and Mrs. Sherman, who have been house-bound by illness, able to be out again.

Mrs. James Ditmars set a hen of eleven eggs and she brought out five fine chickens last week. This makes over thirty chickens she has altogether.

Plans for a supper and entertainment to be held next week by the Dorcas Society, are being made. Good meeting last week at the home of the Vice President, Mrs. Marsters.

On Friday afternoon of last week the teachers and children of our public schools enjoyed their annual sleigh drive. Three teams conveyed them to Clementsport, Clementsvalle and home by way of Bear River. A very happy outing is reported.

This Monday morning a heavy rain is fast doing away with the snow and ice and it is thought that work at the railway bridge will be resumed at once. Those of our people who are employed there, made good use of their enforced vacation in getting out wood and having it cut-up by machine. Some yards now have a year's wood in readiness.

### TWILIGHT SHADOWS.

There's a calm encircling the world;  
There's a pause in the cares of the day,  
When the golden light of sunset  
Softly fades away.

The earth is a mystic dreamland  
At the setting of the sun,  
Then the gloom of twilight deepens,  
And the day is done.

There's a blackness o'er bill and valley;  
The earth is a cave of night  
The cares of the day have settled,  
Gone is the struggle, the fight.

Allot in the shadowy heavens  
Is a trembling ray of light,  
The flickering gleam of the starlight  
Shining through the night.

Though memory brings some sorrow,  
'Twill help when the day is done  
To look for a gleam of starlight  
And the better days to come.

R. H., Deep Brook.

### PORT HOOD WOMAN BLOWN OUT TO SEA.

Halifax, Feb. 17.—One of the heaviest gales felt at Port Hood for years blew on Saturday evening. A woman named Jessie McIsaac, who was going home from a neighbor's house, was blown off the street out to sea, and after a long search her dead body was found on Sunday afternoon out on the ice.

A bite of this and a taste of that, all day long dulls the appetite and weakens the digestion.

Restore your stomach to healthy vigor by taking a Na-Dru-Co Dyspepsia Tablet after each meal—and out on the "picnic".

Na-Dru-Co Dyspepsia Tablets are the best friends for sufferers from indigestion and dyspepsia. 50¢ a Box at your Druggist's. Made by the National Drug and Chemical Co. of Canada, Limited.

# FRUITS

## Grape Fruit, Oranges, Lemons, Grapes and Tamerands

### GRAPE FRUIT

If wanted for breakfast, should be prepared over night in the following manner:—

Cut the fruit in halves, crosswise, and with scissors or sharp knife, snip all around the inner circumference where the pulp joins the skin, this cuts through the membrane that radiates from the centre core, next snip around the core, then holding the core between the scissor blades, twist around smartly and lift out, fill the space thus left with sugar and let set over night. This will be found a very delicious and wholesome breakfast dish.

# LIFE THREATENED BY KIDNEY DISEASE

His Health in a Terrible State Until He Took "Fruit-a-tives"

B. A. KELLY, Esq.

HAGERSVILLE, ONT., Aug. 20th, 1913. "About two years ago, I found my health in a very bad state. My kidneys were not doing their work, and I was all run down in condition. I felt the need of some good remedy, and having seen 'Fruit-a-tives' advertised, I decided to try them. Their effect I found more than satisfactory. Their action was mild and the result all that could be expected. My kidneys resumed their normal action after I had taken upwards of a dozen boxes and I regained my old-time vitality. Today, I am as well as ever, the best health I have ever had."

## THE HIGH COST OF LIVING.

At the present time possibly no other subject is receiving quite as much attention in Canada as this one. It will be a surprise to most readers to know that during the fiscal year which ended March 31st, 1913, Canada paid \$11,500,000 in duty on food, and all of this large sum is virtually a direct tax on the consumer. In glancing over the list it is easy to understand that the buying public are themselves largely to blame in many instances, for there are articles of food produced in Canada that are equal in every respect to those made in any country in the world. In the baking powder line alone there were 667,904 lbs. imported into Canada, and this means the consumer paid in duty the enormous sum of \$67,000. There are no better goods in the world in this line than magic baking powder, and it is made in a model sanitary up-to-date factory, and can be procured in any first-class store at one-half the price the imported article sells for. Such articles as raisins, currants, and many other things, which do not grow in Canada, or are not produced here, have of necessity to be imported, and the duty paid. If the consumer would devote a little thought and attention to this subject a large amount of money could and would be saved.—Canadian Home Journal.

Minard's Liniment Cures Dandruff.

## WHAT AMERICAN ENTERPRISE IS DOING IN ANCIENT SARDIS

The excavations which have been in progress at ancient Sardis during several months of each year for the past four years are the first work of the kind, on so large a scale, that has yet been undertaken by Americans in Greek lands. The place which after the first season, was pronounced by competent scholars on both sides of the Atlantic to be the most important of all the ancient sites in Asia Minor, has already yielded scientific results far beyond the expectations of those who were interested in it. A temple to Artemis, one of the largest erected in Greek antiquity, has been completely unearthed. Hundreds of objects, large and small, objects of beauty as well as of archaeological interest, have been brought to light, and many inscriptions in Greek, one of them of great historical importance, have been discovered. But the discovery which stands out by itself and which would make the whole undertaking worth while if nothing else had been found is that of a large body of inscriptions in Lydian, a new and unknown tongue, together with two keys which promise eventually to open this entirely new store of historical information. Thus, archaeologists and historians, as well as philologists and epigraphists, both at home and abroad, are looking with the keenest interest toward this new field for research. But an article which is to describe, in a popular way, the work being done at a place so little known as Sardis must begin with excursions into geography and history, and some brief descriptions of the country and its present inhabitants may serve to give a fresh and living setting to a theme devoted to the resurrection of a long-dead city.—From "Sardis and the American Excavations," by Howard Crosby Butler, in the March Scribner.

## SHILOH

quicker stops coughs, cures colds, and heals the throat and lungs.

FINE MAPLE SUGAR AND SYRUP.

In the days of crude sugar bush methods there was little opportunity of learning the difference between the inferior dark products and those of fine quality, but now consumers are learning to appreciate the excellence of superior goods and to accept no other so long as these are available. This appreciation is leading to better returns for those who produce the light colour, fine flavoured sugar and syrup. The up-to-date maple sugar maker recognizes that sap, like milk, is a very perishable product, being an excellent medium for the development of fermentative organisms. To make a fine sugar or syrup it is necessary therefore, for the maker to have an equipment which will allow for the product in all stages of manufacture. Not only must thorough cleanliness be observed but transformation of the sap to the finished product must be direct and speedy. Bulletin No. 2B "Maple Sugar" issued a few months ago by the Department of Agriculture at Ottawa deals fully with this subject and is therefore useful to the consumer in making clear what constitutes fine products and to the producer in showing how such goods are made.

## WILL HARNESS THE NILE

Work has been commenced on another great scheme to reclaim by irrigation vast tracts of desert in the Soudan. It is believed it can be made to add enormously to the cotton output of the British Empire. The tract which is to be watered is known as the Giza territory. It lies between the Blue and White Niles, below Khartoum, and consists of 1,500,000 acres. The force and flow of the two rivers are sufficient to water the entire district when properly harnessed. The proposal is to build two dams south of Khartoum, one over each of the rivers. Thus the tract between the streams will be irrigated, while at the same time the force of the water flowing into Egypt will be controlled. At present the Blue Nile comes down in a raging flow, and the white Nile, flowing in steeper fashion, combines with it to make a huge overflow. The building of the two dams will enable the flow to be properly regulated and will practically mean the final harnessing of the Nile.

## QUEENS WHO COULD WORK.

Many of the queens of Europe could earn their own living if the necessity demanded it. Queen Elizabeth of Belgium possesses a doctor's diploma of the University of Leipzig. Besides, she is an excellent musician and plays the piano and violin with great skill. Queen Mary of England paints, sings and is extremely clever with her needle. Queen Victoria Augusta of Germany is a specialist with the camera and produces a special kind of art photo. Queen Wilhelmina of Holland paints miniatures and porcelain, while Queen Maud of Norway, is a distinguished playwright, using the pseudonym of Graham Irving. She is also a competent bookbinder, dressmaker and painter. Carmen Sylvia (Queen Elizabeth of Roumania), is a world famous poetess and novelist. Helena, Queen of Italy, has jokingly remarked that in case of need she could easily earn a high salary in the music halls of London or New York as an expert swimmer and riflewoman.

## PLUM CULTURE IN CANADA.

The subject of plum culture is treated in a bulletin of seventy-two pages issued by the Department of Agriculture at Ottawa. The information presented has been largely derived from the experience gained in connection with plum growing at the Central Experimental Farm during the past twenty-five years. In this bulletin, information is given as to the best methods of preparing the soil for a plum orchard, with particulars also as to the planting and subsequent care of the trees. Instructions are given as to methods of pruning, grafting and on many other topics relating to this branch of fruit industry. Lists of varieties of plums suitable for planting in different parts of Canada are given with descriptions as to the character, quality and time of ripening of each sort. Some of the insects and diseases to which the plum is subject are also referred to and methods of treatment suggested. This bulletin which was prepared by W. T. Macoun, Dominion Horticulturist, is No. 43 of the Experimental Farms and is available to those who write for it to the Publication Branch, Department of Agriculture, Ottawa.

DECLINE SUBSTITUTES

## KING GEORGE AS FARMER.

His Majesty Had Thirty-five Entries In Smithfield Show.

The crowned heads of Britain, for many years, have recognized the fact that agriculture is the basis of a country's prosperity. For several years past many of the big prizes at the Smithfield Show, London, have been awarded to the farmer sovereign, whose exhibits are always a feature of the show. Even as far back as 1800, King George III, was an exhibitor at the great show, but failed to secure a prize. Six years later, the Duke of York was successful. Queen Victoria won many trophies, being awarded the Champion Cup for the best beast in the show in 1883, 1889, 1890, 1895, and 1899, and it may be incidentally mentioned that by her command no exhibit that has not been bred on one of the royal farms has been exhibited by the sovereign, since the year 1890. King Edward won the championship of the cattle section in 1874, and the Cup for the best pen of sheep in 1885; while our present King won the championship for pigs in 1895, and the Prince Consort a gold medal for pigs in 1859.

Nor has the Smithfield Club lacked royal support from other clubs in view, as King Edward was their president in 1875, 1883, and again at the Centenary Show in 1898; while H. R. H. the Duke of Edinburgh occupied the position in 1887, and H. R. H. Prince Christian, who is a constant exhibitor, in 1893. At the recent show, Windsor, Sandringham and Balmoral were all represented, the royal entries totalling thirty-five. King George inspected all his entries, and handled many of them. Perhaps the King chiefly differed from more specialist exhibitors, in the particular interest he took in the men who tended his stock. As he stroked the forehead of his beautiful shorthorn heifer he inquired of the herdsman how many years he had served at Windsor; and if ever a Scotsman rolled his "r's" it was that herdsman when he replied with obvious pride, "Nearly thirty years." But in those thirty years he had never seen Windsor so unrivalled.

Someone propounded the theory that the soil of Windsor, which used to produce the best English oak trees must have similar properties in stock production. Out of twelve entries from Windsor three special-breed sows won in Devons, Herefords and Short-horns—of which the first two are sometimes supposed to need west-country air—and seven first prizes and two seconds. The Sandringham farm won a few firsts; principally in small classes for small cattle, kerries and crossbreds of this breed. The King again and again laughed heartily throughout his extended tour of the show. He merrily urged his shepherds who were holding his pen of Southdowns, to use their best devices when it came to a contest with the pen of Hampshire which were known to be dangerous rivals, as they proved. The immense zeal of the guardians of some of the stocks to show their animals to the best advantage before the King produced an almost embarrassing situation in the Gilbey Hall, which was devoted to machinery and pigs. As soon as the King, accompanied by Sir Bowen Bowen-Jones, this year's president, appeared in the hall almost all the prize pigs were roused from their recumbent ease by vigorous slaps with flat "bats" that are the technical weapon. White pigs and black pigs and red pigs at once started such a chorus of protest, some upsetting their trough and abating the flour from their fleeces, that the spick-and-span Gilbey Hall might have been an Irish fair and so it continued. The unusual sight of coal being delivered on Sunday was witnessed in Toronto on a recent Sunday, when a prominent firm of coal dealers distributed fuel to their customers. A special permit to do so had to be obtained at the city hall, owing to an accumulation of orders as a result of the continued cold weather.

Minard's Liniment Cures Burnt, etc.

## Joker's Corner

"What was that sentence the choir repeated so often in the liturgy?" "As near as I could make out it was, 'We are miserable singers.'"

"I see this medicine is good for man and beast." "Yes," said the druggist, "Gimme a bottle. I believe that's the right combination to help my husband."

Mrs. Watts' "Mary Ann, these balusters seem always dusty. I was at Mrs. Johnson's after church, and her stairrails are clean and as smooth as glass." Mary Ann: "Yes, mum. But she has t'ree small boys."

A teacher told little Johnnie that the word "ferment" means "to work." Later in the day she asked the class to write a sentence containing the word "ferment" correctly used. Johnny wrote, "I would much rather play out of doors all day than ferment in school."

Doctor—"I hope you are following my instructions carefully, Sandy—the pills three times a day, and a drop of whisky at bedtime." Sandy—"Well, sir, I may be a wee bit behind w' the pills, but I'm about six weeks in front w' the whisky."

A friend tells the following story of a prudent Scot, or rather of the prudent Scot's wife. They were at sea together—in the literal sense—and had just left the dinner table. There was sufficient roll to produce internal uneasiness, and the husband was seen to be making progress to the side of the vessel; when his wife intervened. "Remember, John," she said, "you've just had your dinner, and it's paid for." It was hot lost.

There was recently hailed into court a little Irishman to whom the thing was a new experience. He was, however, unabashed, and wore the air of a man determined not to get the worst of it. "Prisoner at the bar," called out the clerk, "do you wish to challenge any of the jury?" Whereupon the Celt looked the men in the box over very carefully, and with a skilled eye. "Well, I tell ye," he finally replied, "O'im not exactly in trainin'; but Oi could pull off a round or two wid that old boy in th' corner."

Gladstone, when a boy, was visiting in the country and the farmer was showing him around. Coming to a field that contained a large black bull, the farmer said: "There's a fine strong bull there, Master William, and it's only two years old." How do you tell its age?" queried the boy. "Why, by its horns," said the farmer. "By its horns?" Young Gladstone looked thoughtful a moment, then his face cleared. "Ah, I see. Two horns—two years."

## ENQUIRY WAS PERTINENT.

Some years ago a certain candidate a relative of one of the present New Brunswick Senators, was running for the House of Assembly for the province. One canvasser against him was that he was an infidel, and in the course of his nomination speech an opponent, who possessed a rather shady business reputation, shouted: "You don't believe there is a God." "Do you, Mr. B?" asked the candidate. "Of course I do." "Then why have you served the devil all your life?"

Sir Robert Ball, late Astronomer Royal of England, seldom failed to brighten his addresses with a joke. When lecturing at Cambridge on Hally's comet, he told his audience that he was once engaged to lecture in a remote part of Ireland. On his arrival at the station he looked in vain for the expected conveyance. Finally, when all other passengers had departed, a typical Irish servant came up to him with, "Maybe you're Sir Robert Ball?" On receiving an affirmative reply, the man broke out apologetically, "Oh, sure, your honour, I am sorry to have kept you waiting, but I was told to look out for an intellectual-looking gentleman!"

## THE WOMAN TAMER.

He said, "She shall be my slave! Lesser in all than I. Feeble of body and brain. She shall carry a golden chain, And dwell until she die In the hidden cage I gave."

And he found a treacherous creature of hate and fear, With teeth and claws that were ready when he came near! He said, "She shall be my star! I will set her high above This dusty world of mine. I will bow me down at her shrine, Pray for the light of her love, And worship her from afar."

But he found that the light of her love had been withdrawn, Leaving only a faint chill pity, a faint chill scorn. He said, "She shall be my friend! Side by side let us stand. For I need your help and you. Comrades true and true, With my hand in your dear hand We will see life out to the end."

And she turned and her eyes met his; And I think she cried (But she laughed through her tears), and she came to her place at his side. Angus McTavish was a Lowlander, rich, and thoroughly Scotch. He had never seen the Highlands or the beautiful lakes of Scotland, except from a long distance. He paid a visit to America, and in New York was shown all the sights. However, he was not impressed, and still thought the Lowlands of Scotland far superior. As a final attempt to show Angus something that would impress him, his friends took him to Niagara Falls. Angus looked at them critically, and when asked if he did not think them the most marvellous thing he had ever seen, he remarked: "Aye, mon, they are grand! But do ye ken the auld peacock in Dumfriesshire that had the wooden legs?"

## PAIN IN MY BACK IS ALL GONE

Since I Got a Box of Gin Pills

CHURCH ST., CORNWALLIS, N.S., January 23rd. "About a year ago, I was suffering so much with a dreadful Lame Back—because I could not stand up straight. I was informed by a friend about GIN PILLS. I got a box. It helped me immediately. I have taken about twelve boxes and the pains in my back and hips are all gone. I cannot speak too highly of the wonderful effects of your GIN PILLS." B. C. DAVID. Liniments and plasters won't cure Lame Back—because they never reach the part that is causing the pain. The whole trouble is with the Kidneys and you must cure the Kidneys in order to stop the pain. GIN PILLS cure weak, sick, strained Kidneys as nothing else will. GIN PILLS drive away the pain every time—or your money promptly refunded. 50c. a box, 6 for \$2.50. Sample free if you write National Drug & Chemical Co. of Canada, Limited, Toronto. Dr. Alma Laphan Williston, formerly of St. John, who some years ago was elected to the office of city physician of Phillipsburg, N. J., has recently been re-appointed by the new Board of Commissioners as physician with the additional honor of health inspector conferred upon her. Doctor Williston is a brilliant woman, and has labored hard in behalf of the poor of Phillipsburg, and this new honor proves that her efforts have been appreciated by the citizens. She is a daughter of the late Bradford F. Laphan, formerly of St. John West, who was well and favorably known. Dr. Williston's many friends here will be pleased to learn of her success. The above Dr. Williston is a sister of Mrs. Wallace Troop of this place.

Port Wade
